Spanish Minor

Prerequisite Courses: Completion of first and second-year courses in Spanish or equivalent preparation.

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 15 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3030

CIPC: 160905

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (6 credit hours)

- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the Spanish minor program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**FL 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a Spanish minor if course assignments are completed in Spanish. Speak with the instructor before registering for this class.*

Teaching Minor

French Teaching Minor

Program Prerequisite: Completion of first and second-year courses in French or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 20 upper division hours in French. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3027

CIPC: 131325

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (11 credit hours)

- FRCH 3060 - Grammar & Composition **Credits: (3)**

FRCH 3160 - Introduction to Literature **Credits: (3)**
FL 4400 - Methods for Teaching Languages **Credits: (5) ***

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Elective Courses (select a minimum of 6 credit hours)

To complete the required 20 credit hours, minors in the French Teaching minor program may choose as electives any 3000 and 4000 level French courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

German Teaching Minor

Program Prerequisite: Completion of first and second-year courses in German or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 20 upper division hours in German. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3029

CIPC: 131326

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

GRMN 1010 - First Semester German **Credits: (3)**

GRMN 1020 - Second Semester German **Credits: (3)**

GRMN 2010 - Third Semester German **Credits: (3)**

GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Required Courses (11 credit hours)

GRMN 3060 - Grammar & Composition **Credits: (3)**

GRMN 3160 - Introduction to Literature **Credits: (3)**

FL 4400 - Methods for Teaching Languages **Credits: (5) ***

Elective Courses (select a minimum of 6 credit hours)

To complete the required 20 credit hours, minors in the German Teaching minor program may choose as electives any 3000 and 4000 level German courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Spanish Teaching Minor

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 20 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3031

CIPC: 131330

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

SPAN 1010 - First Semester Spanish **Credits: (3)**
SPAN 1020 - Second Semester Spanish **Credits: (3)**
SPAN 2010 - Third Semester Spanish **Credits: (3)**
SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Honors, Departmental

Foreign Language Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Department of Performing Arts

Chair: Dr. Jenny Kokai

Location: BC 331

Telephone Contact: Patty Coan 801-626-6437

Professors: Karen Bruestle, Tracy Callahan, Carey Campbell, David Feller, Mark Henderson, Thomas Priest, Amanda Sowerby, Erik Stern, Viktor Uzur, Shi-Hwa Wang, Yu-Jane Yang, Catherine Zublin; **Associate Professors:** Tamara Goldbogen, Jessica Greenberg, Ralph van der Beek, Francisco de Galvez, Jennifer Kokai; **Assistant Professors:** Joseph Blake, Daniel Jonas, Andrew Lewis, Cully Long, Shijun Wang; **Visiting Assistant Professor:** Kenneth Plain; **Instructor:** Sam Bryson

The Department of Performing Arts at Weber State is based on five primary purposes: 1) to develop aesthetically aware and artistically discriminating citizens; 2) to provide opportunities for all students to participate in creative, artistic experiences and to encourage community members to participate in the performing arts; 3) to develop artistic competence and sensitivity; 4) to provide for career development in the arts through the preparation of teachers, performing artists, scholars, and technical specialists; and 5) to expose students and community to classic and contemporary works in all genres of the performing arts and to continue to provide the finest possible performances in the arts.

The department's degree programs prepare students for professional careers in teaching and performance as well as in technical specialties while providing the liberal arts background necessary for graduate study. In the department's Performing Arts Series, students and faculty participate in professionally produced dance, musical, and theatrical events.

Dance Area

The primary goals of the Dance area of the Department of Performing Arts are: 1) To develop aesthetically aware and artistically discriminating citizens; 2) To promote cultural understanding of ourselves and others through the study of dance; 3) To encourage appreciation of dance through critical thinking; 4) To engage the community in a range of dance experiences; 5) To foster an understanding of and engagement in the creative process through dance performance, improvisation, choreography, pedagogical studies, technology, and collaborative endeavors; 6) To provide the guidance, class work, and experience necessary to prepare teachers, performing artists, and scholars; 7) To prepare students for careers or advanced study that require creativity, collaboration, and an understanding of the human experience as explored in the study of dance; 8) To provide rigorous dance training.

Two majors are offered: 1) a Bachelor of Arts in Dance, with a focus on creativity in performance and choreography; and 2) a Bachelor of Arts or Bachelor of Science in Dance Education, with a focus on education and pedagogy. Dance majors follow a program based on growth beginning with foundational theory courses, technique courses appropriate to each dancer's ability, and a culminating senior project.

Dance Education majors follow a program based in the knowledge and understanding of dance education in relation to secondary education and/or studio teaching, focusing on pedagogy, choreography, history, and performance. The Dance Education major prepares students to be teachers of dance in the public sector, private sector, and non-profit environments. In addition, Education majors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program).

Two minors are offered: 1) Dance, with a focus on performance and choreography; and 2) Dance Teaching. Dance minors follow a program that provides for study in technique, creative and theoretical coursework. A minimum of eighteen (18) credit hours (GPA of 2.25 or better) must be completed in the Dance Area courses.

Dance Teaching minors must complete a minimum of eighteen (17-18) credit hours (GPA of 2.25 or better) from the Dance Area courses. This program is comprised of a dance teaching core (7-8 hours), dance history, technique in ballet and modern dance, additional dance forms and creative work. In addition, teaching minors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program). Dance teaching minors are strongly encouraged to select teaching majors in subject areas that are needed in Utah secondary schools.

Performance Opportunities

Orchestr Dance Theatre provides performance and production opportunities for qualified students who demonstrate technical abilities in dance. The company's activities include on-campus and dance festival concerts. Its repertoire consists of traditional and experimental modern dances, contemporary ballets, and theatrical and performance works choreographed/directed by dance faculty, students, and well-known artists. Auditions are required for performances sponsored by Orchestr. WSU Moving Company is the Dance Area's outreach program, which provides further performance, production and teaching opportunities. Significant dance works and lecture demonstrations are performed; teaching residencies are implemented in the public schools and for campus and community organizations.

School of Music

The School of Music is an accredited member of the National Association of Schools of Music. Programs leading to the Bachelor of Music degree are offered for students seeking emphases in performance, keyboard pedagogy, stringed instrument pedagogy, vocal pedagogy, or music education. Additional programs include the Bachelor of Arts in music, Bachelor of Integrated Studies, Minor in Music Performance, Music Studies Minor, Sound Production/Recording Minor. Certificate of Proficiency in Jazz Studies and Certificate of Proficiency in Music Entrepreneurship.

The primary goals of the School of Music are: 1) To develop individuals who are aware, artistically discriminating, and devoted to a lifelong association with music; 2) To provide opportunities for students and community members to participate in creative musical experiences; 3) To develop musical competence, sensitivity, and purpose; 4) To expose students and community to classic and contemporary musical works, and to provide the finest possible performances; 5) To provide for career development in music through the preparation of teachers, performers, and scholars.

Policies and Procedures

The following policies are subject to change. For current information, see the latest Performing Arts | School of Music student handbook and make an appointment with a music area advisor.

Freshman Registration and the Music Core

All freshman music majors and minors entering WSU as full-time students should register for the following courses: MUSC 1006, MUSC 1110, MUSC 1130, MUSC 1150, MUSC 1901, MUSC 1681 or MUSC 1682, and large ensemble. Piano Pedagogy and Piano Performance majors do not register for MUSC 1150.

General Policies and Performance Requirements

All entering music majors and minors, including transfer students, must audition with the respective program faculty for admittance to that program.

A \$445 Applied Music Fee is charged to music majors and minors for instrumental or vocal lessons. These lessons are 45 minutes in length and require attendance at a weekly master class. These lessons may be taken for one or two credit hours. There is also an option for two 45 minute lessons each week for two credit hours plus master class attendance and a research paper or project. The fee is \$890.

A \$320 Applied Music Fee is charged to students registering as non-music majors or minors. These lessons are 30 minutes in length and may not be used as credit for music majors or minors in their primary performance area. A limited number of slots are available for students registering in this category.

All music education, vocal, keyboard and string pedagogy majors should consult with the latest student handbook, and their major advisor.

Schedule for Performance Evaluations (Juries)

Performance evaluations will be regularly conducted and scheduled:

At the end of Fall and Spring semesters.

By special request for evaluation during the year upon agreement of the student, the teacher and the committee. All special requests must be scheduled through the area head.

All music majors and minors must take performance evaluations each semester. Performance evaluations are required until completion of the student's final recital as stipulated by the degree program.

Students completing a junior or senior recital are excused from that performance area's performance evaluation the semester in which the recital is completed.

Procedures for Performance Evaluation (Juries)

- All incoming music majors and minors and all transfer students and current students who change their major or minor to music subsequent to their initial enrollment at Weber State University will enroll at the 1000 level of private instruction.
- A student may be placed in a higher competency level at the completion of any evaluation. A student will not be permitted to progress to the 3000 level until they have met with their major advisor. The advisor will review the student's graduation progress and determine whether it is in the student's best interest to move to the 3000 level.
- Student admittance to each competency level is granted only by general consent of the area faculty upon satisfactory completion of a performance level evaluation appropriate to that level.
- Refusal by the appropriate area faculty to allow admittance to the next level may be appealed by the student provided there is consent of the private teacher.
 - This appeal should be made directly to the area head, who will in turn consult with the faculty regarding a repeat performance evaluation.
 - Only one appeal will be accepted at each performance evaluation.
- More than three (3) semesters of study at any one competency level due to lack of improvement on the part of the student will be cause for a recommendation from the appropriate faculty that the student not continue as a music major or minor.
- Failure to attend proficiency evaluations will result in a grade of "E" being given for the private lesson during that semester.

Recital Performance

- All Bachelor of Music and Bachelor of Music Education students must participate in at least one general student recital or master class per semester. This should normally be a solo appearance, but this determination is left to the discretion of the applied music teacher.
- All music majors except those in the Bachelor of Arts and pedagogy programs, must present a half-hour formal junior recital upon reaching the 3000 competency level. All music performance minors must present a half-hour formal junior recital upon reaching the 3000 competency level. The student must register for MUSC 3991 during the semester the recital will be presented.
- All Bachelor of Music students must present a one-hour senior recital while at the 4000 competency level. The student must register for MUSC 4991 during the semester the recital will be presented.
- Repertoire for the senior recital must not contain music performed on the junior recital. Completion of a senior recital will exempt a student from further proficiency level evaluations.
- All students presenting a senior recital must perform that recital before a faculty review committee not less than two weeks prior to the recital date. The review committee will consist of the student's applied teacher, the appropriate area head, and one other music faculty member of the student's choice.
- The review committee will be present at the public performance of the senior recital and will recommend pass/fail for the recital.
- All students must complete a recital approval form for junior or senior recitals. The recital form must be completed and signed by the area head and applied teacher prior to scheduling any required faculty preview performance.
- Failure to complete a junior or senior recital in the semester in which the student is registered for the recital will result in a grade of "E" for the recital.

Recital/Concert Attendance

All music majors and minors must attend 24 music area recitals, concerts, and/or community concert events per year while enrolled in applied music at the 1000 and 2000 level. Attendance reports are required for two years and are maintained in the music office. To receive credit for graduation, students enroll in MUSC 1006 for their first two semesters attending 12 recitals or concerts each semester and MUSC 2006 for their third and fourth semesters attending 12 recital or concerts each semester.

Music Major Foreign Language Requirement

The Bachelor of Music and Bachelor of Music Education with a Choral Emphasis degree requirement is for two semesters of foreign language chosen from French, German, Italian, and Spanish. The requirement may be satisfied by taking two semesters of the same language, or one semester each of two different languages.

For the Bachelor of Arts in Music, please see Language Courses Required to fulfill the BA listed under the major requirements.

Bachelor of Integrated Studies

Students declaring an emphasis in music as one of their three BIS concentrations must abide by all guidelines and stipulations detailed in the BIS student handbook.

Courses taken in fulfillment of the music area emphasis must total a minimum of 18 credit hours and will be determined in consultation with the music BIS. These courses should directly and demonstratively contribute to the goals set forth by the student in his/her approved BIS application. The following courses, however, are required for all music BIS students:

- MUSC 1010 CA - Introduction to Music (3) *
- MUSC 1110 - Music Theory I (2)
- MUSC 1130 - Sight-Singing & Aural Skills I (1)
- MUSC 1120 - Music Theory II (2)
- MUSC 1140 - Sight-Singing & Aural Skills II (1)

Additionally, music BIS students must take at least one of the following:

- MUSC 1030 CA - Introduction to Jazz (3) *
- MUSC 1033 CA - Introduction to American Music (3) *

MUSC 1035 CA - History of Rock and Roll (3) *
MUSC 1040 CA/DV - Music of World Cultures (3) *
MUSC 1043 HU - Music, the Arts & Civilizations (3) *
MUSC 1063 CA - Music in Religion (3) *
THEA 1043 CA - Introduction to American Musical Theatre (3) *

** Please note that according to the BIS student handbook, courses taken in completion of the university General Education requirements will not count toward a BIS emphasis. In other words, "double-dipping" is not allowed.*

School of Music Advisors

Bachelor of Music in Performance & Pedagogy Advisors

Keyboard Area:	Dr. Thomas Priest	tpriest@weber.edu

Music Minors Advisor

Dr. Viktor Uzur viktoruzur@weber.edu

Theatre Arts Area

The Theatre Arts area of the Department of Performing Arts provides scholarly, creative, collaborative and practical theatre experience for students. The objectives of the program are to: 1) Encourage participation in and appreciation of theatre and drama; 2) Foster creativity and develop technical skills in acting, directing, costuming, scenic design, script writing and theatre management; 3) Prepare students for careers or professional schooling in those fields that require strong presentational skills, creative problem solving, effective collaboration, and an understanding of human experience. Theatre students must complete a sequence of formal course work that includes University general education, core theatre courses, and focus or specialty courses. Formal course work is complemented by a sequence of experiential learning opportunities in the theatre. Students and faculty develop individualized programs of course work and practical experience, including a junior seminar, annual juries, portfolio preparation, various practica, and opportunities for individual theatre projects.

Study of theatre provides students with useful tools to contribute to and make positive changes in society. Theatre students learn about diverse historical eras, communities and technologies. Theatre challenges students to be creative and to translate that creativity into applied processes - to think precisely, speak confidently in public, work productively with others, visualize abstract concepts and represent those concepts concretely. Theatre skills are useful in a variety of professions including, but not limited to, business, government, law, journalism, and public relations.

Major Requirements

The department offers a Bachelor of Arts (BA) degree in Musical Theatre, Theatre Arts, and Theatre Arts Teaching. A minimum of 62 course units (2.0 or better GPA) or courses in the combined areas of Dance, Music, and Theatre are required to qualify for the Musical Theatre Major. A minimum of 45 course units (2.0 or better) of Theatre Arts courses must be completed to qualify for either the Theatre Arts or Theatre Arts Teaching programs.

Teaching majors must also satisfy all requirements for the Licensure Program as outlined by the Department of Teacher Education.

A \$350 Applied Music Fee is charged to Theatre Arts Area majors and minors enrolled in Individual Training in Stage Voice (THEA 4651). These lessons are 45 minutes in length. A limited number of slots are available for students registering for these lessons.

Performance Opportunities

Involvement in theatre productions is an important part of the Theatre program. The Weber State Theatre produces a full season of plays in the Austad, Allred and Eccles theatres of the state-of-the-art Val A. Browning Center for the Performing Arts. Theatre facilities include a variety of proscenium and flexible staging situations. Students are given first priority in all department productions.

The theatre season is offered by the Department of Performing Arts as part of the Performing Arts Series. Because the season is generously supported by the Associated Students of Weber State through student fees, students receive substantial discounts for performances.

In addition to performance opportunities at Weber State, theatre majors are encouraged to seek summer employment in stock or repertory companies relating to their interests.

Associate of Arts

Dance (AA)

An Associate of Arts with a Dance major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Dance. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

Program Code: 3045AA

CIPC: 500301

Advisement

Dance majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

Degree Requirements

A minimum of 60 credit hours.

A minimum of 25 hours in residency (WSU courses).

At least a 2.0 (C) WSU grade point average (GPA).

Completion of WSU general education requirements.

The Associate of Arts Degree must include a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.

Completion of WSU foreign language course 1020 with a grade of "C" or higher, or comparable transfer credit.

Completion of any WSU foreign language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.

Documentation of three years of the same language completed in high school with a minimum grade of "B".

Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."

Completion of ASL 1020 - Second Semester ASL with a grade of "C" or higher, or comparable transfer credit.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Dance (AA) Major: DANC 1010 CA/DV - Introduction to Dance (3) and NUTR 1020 LS SUS - Science and Application of Human Nutrition (3).

Dance Courses (19 credit hours)

Appropriate level technique courses in ballet and modern dance (initially to be determined by placement class) are required every semester of residence-4 courses in Ballet and 4 courses in Modern Dance (total of 10 credit hours).

DANC 1100 - Ballet I **Credits: (1)** (taken 2 times)

DANC 1200 - Modern I **Credits: (1)** (taken 2 times)

DANC 1310 - Music for Dance **Credits: (2)**

DANC 1500 - Jazz I **Credits: (1)**

DANC 1580 - Rhythm Tap **Credits: (1)**

DANC 2410 - Improvisation **Credits: (2)**

DANC 2470 - Ballet II **Credits: (1.5)** (taken 2 times)

DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**

DANC 2610 - Dance and Digital Technology **Credits: (2)**

DANC 2490 - Modern II **Credits: (1.5)** (taken 2 times)

Technical Theatre (AA)

An Associate of Arts with a Technical Theatre major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Theatre with the Design/Technology/Management track. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

Program Code: 3084AA

Advisement

Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

AA Degree Requirements

A minimum of 60 credit hours.

A minimum of 20 hours in residency (WSU courses).

At least a 2.0 (C) WSU grade point average (GPA).

Completion of WSU general education requirements.

The Associate of Arts Degree must include a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

- a. Documentation of a proficiency level of "Novice High" or better through an examination administered by the [WSU Foreign Language Department](#) or through an examination by a recognized testing agency.
- b. Completion of WSU foreign language course 1020 with a grade of "C" or higher, or comparable transfer credit.
- c. Completion of any WSU foreign language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.
- d. Documentation of three years of the same language completed in high school with a minimum grade of "B".
- e. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."
- f. Completion of WSU American Sign Language course 1020 with a grade of "C" or higher, or comparable transfer credit.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: THEA 1013 CA - Introduction to Theatre (3) and COMM 1020 HU - Principles of Public Speaking (3).

Technical Theatre Courses (21 credit hours)

Theatre Courses Required for an AA in Technical Theatre (15 credit hours)

THEA 1063 - Theatre Foundations **Credits: (3)**

THEA 1713 - Script Analysis **Credits: (3)**

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)

THEA 1223 - Stage Makeup **Credits: (3)**

THEA 2012 - Stagecraft **Credits: (3)**

THEA 2022 - Costume Fundamentals **Credits: (3)**

THEA 2032 - Lighting Fundamentals **Credits: (3)**

THEA 2403 - Production and Stage Management **Credits: (3)**

THEA 2580 - Computer Software for the Theatre **Credits: (3)**

Theatre Practicum (2 credit hours)

Select 2 credit hours from the following options

THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4852 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

Focus Area Electives (6 credit hours)

Select at least 6 credit hours from the following, see individual course descriptions for prerequisites.

THEA 2203 - Costume Technology **Credits: (3)**
THEA 3100 - Projection Design **Credits: (3)**
THEA 3212 - Scenic Design **Credits: (3)**
THEA 3222 - Lighting Design **Credits: (3)**
THEA 3232 - Scenic Art and Painting **Credits: (3)**
THEA 3243 - Costume History **Credits: (3)**
THEA 3340 - Theatre Management **Credits: (3)**
THEA 3500 - Sound Design **Credits: (3)**
THEA 4120 - Collaboration in the Theatre **Credits: (3)**
THEA 4203 - Costume Design **Credits: (3)**
THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
THEA 3233 - Prop Design **Credits: (3)**
THEA 2821 HU - Period Styles in Design **Credits: (3)**
MUSC 1911 - Introduction to Music Technology **Credits: (1)**
MUSC 3820 INT - The Art and Science of Recording I **Credits: (3)**

Associate of Science

Technical Theatre (AS)

An Associate of Science with a Technical Theatre major will indicate that a student has completed all WSU AS degree requirements and the introductory classes required for the Bachelor of Arts in Theatre within the Design/Technology/Management track. Students who have completed the AS degree may continue with intermediate and advanced coursework for the BA.

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

Program Code: 8084AS

CIPC: 500502

Advisement

Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

Degree Requirements

A minimum of 60 credit hours.

A minimum of 20 hours in residency (WSU courses).

At least a 2.0 (C) WSU grade point average (GPA).

Completion of WSU general education requirements.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: COMM 1020 HU - Principles of Public Speaking (3).

Technical Theatre Courses (23 credit hours)

Theatre Courses Required for an AS in Technical Theatre (15 credit hours)

THEA 1063 - Theatre Foundations **Credits: (3)**

THEA 1713 - Script Analysis **Credits: (3)**

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)

THEA 1223 - Stage Makeup **Credits: (3)**

THEA 2012 - Stagecraft **Credits: (3)**

THEA 2022 - Costume Fundamentals **Credits: (3)**

THEA 2032 - Lighting Fundamentals **Credits: (3)**

THEA 2403 - Production and Stage Management **Credits: (3)**
THEA 2580 - Computer Software for the Theatre **Credits: (3)**

Theatre Practicum (2 credit hours)

Select 2 credit hours from the following options

THEA 2851 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2852 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2853 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2854 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2855 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2856 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2857 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2858 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 2859 - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)** may be repeated for credit
THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

Focus Area Electives (6 credit hours)

Select at least 6 credit hours from the following, see individual course descriptions for prerequisites.

THEA 2203 - Costume Technology **Credits: (3)**
THEA 2821 HU - Period Styles in Design **Credits: (3)**
THEA 3100 - Projection Design **Credits: (3)**
THEA 3212 - Scenic Design **Credits: (3)**
THEA 3222 - Lighting Design **Credits: (3)**
THEA 3232 - Scenic Art and Painting **Credits: (3)**
THEA 3243 - Costume History **Credits: (3)**
THEA 3340 - Theatre Management **Credits: (3)**
THEA 3500 - Sound Design **Credits: (3)**
THEA 4120 - Collaboration in the Theatre **Credits: (3)**
THEA 4203 - Costume Design **Credits: (3)**
THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
THEA 3233 - Prop Design **Credits: (3)**
MUSC 1911 - Introduction to Music Technology **Credits: (1)**
MUSC 3820 INT - The Art and Science of Recording I **Credits: (3)**
MUSC 3821 INT - The Art and Science of Recording II **Credits: (3)**
MUSC 4820 - Pro Tools 101 **Credits: (2)**
MUSC 4821 - Pro Tools 110 **Credits: (2)**

Institutional Certificate

Jazz Studies Certificate of Proficiency

The Certificate of Proficiency in Jazz Studies is a course of study for music majors or minors that focuses on all aspects of the performance of jazz music. Students will learn improvisation, arranging, pedagogical practices, and performance practices. For more information on program requirements, please contact the Department of Performing Arts.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.

Credit Hour Requirements: A minimum of 16 credits are required.

Program Code: 3080CP

CIPC: 50.0910

Complete the Following Courses (16 credits)

MUSC 3801 - Jazz Improvisation I **Credits: (2)**
MUSC 3802 - Jazz Improvisation II **Credits: (2)**
MUSC 3803 - Jazz and Commercial Arranging **Credits: (2)**
MUSC 3804 - Jazz Pedagogy **Credits: (1)**
MUSC 3805 - Jazz Keyboard Skills **Credits: (2)**

MUSC 1030 CA - Introduction to Jazz **Credits: (3)**

Minimum 2 semesters required:

MUSC 1753 INT - Jazz Ensemble **Credits: (1)** or

MUSC 3753 INT - Jazz Ensemble **Credits: (1)**

Minimum 2 semesters required:

MUSC 1755 INT - Instrumental Chamber Ensemble **Credits: (1)** or

MUSC 3755 INT - Instrumental Chamber Ensemble **Credits: (1)**

Music Entrepreneurship Certificate of Proficiency

The Certificate of Proficiency in Music Entrepreneurship prepares music students for the complex labor market and economy of the 21st Century. Courses in this program will teach students how to market themselves, manage their finances, start their own businesses (including teaching studios), and seek funding for their projects.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.

Credit Hour Requirements: A minimum of 18 credits are required.

Admission Requirements: Music major or minor.

Program: 3081CP

CIPC: 501003

Required Courses

ACTG 2010 - Survey of Accounting I **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

ENTR 1002 - Introduction to Entrepreneurship **Credits: (3)**

ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model **Credits: (3)**

MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

MUSC 4701 - Grant Writing & Non-Profits **Credits: (3)**

Bachelor of Arts

Dance (BA)

The BA degree in Dance provides an awareness of the possibilities of dance in all of its manifestations; such as performance, choreography, community outreach and involvement, education, creative technology, social and cultural roles, and research/scholarly endeavors. The degree prepares enthusiastic and energetic graduates who will use their passion for the art form to guide their career interests and advanced study choices.

Language Requirement: Option 1 or 2

Minor: Not Required

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of 2.50 or "C+." In addition, a grade of "B" or higher is required in at least one 3000-level major course in both ballet and modern dance.

Credit Hour Requirements: A total of 120 credit hours is required for graduation-a minimum of 60 of these must be Dance classes. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

Program Code: 3045BA

CIPC: 500301

Advisement

Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email asowerby@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. DANC 1010 CA/DV and NUTR 1020 LS SUS are prerequisites for required dance courses.

Course Requirements for BA Degree: 63 Credit Hours

Ballet and Modern Dance (minimum of 18 credit hours)

Note: Majors must complete a minimum of 9 credits hours of Ballet and 9 credits hours of Modern, and receive a C+ or better in Ballet III and Modern III to qualify for graduation. Courses will be repeated to achieve full credit.

- DANC 1100 - Ballet I **Credits: (1)**
- DANC 1200 - Modern I **Credits: (1)**
- DANC 2470 - Ballet II **Credits: (1.5)**
- DANC 2490 - Modern II **Credits: (1.5)**
- DANC 3470 - Ballet III **Credits: (1.5)**
- DANC 3490 - Modern III **Credits: (1.5)**

Other Dance Forms (3 credit hours)

Select three of the following - none of these classes may be repeated for credit towards a Dance Major: (3 credit hours).

- DANC 1450 - Special Topic Dance Form **Credits: (1)** variable topic
- DANC 1500 - Jazz I **Credits: (1)**
- DANC 1520 - Folk & Ethnic Dance **Credits: (1)**
- DANC 1580 - Rhythm Tap **Credits: (1)**
- DANC 2500 - Jazz II **Credits: (1)**
- DANC 3440 - Dance for Musical Theatre **Credits: (1)**
- DANC 3450 - Special Topic Dance Form **Credits: (1)** variable topic
- DANC 3580 - Rhythm Tap **Credits: (1)**

Creative Process and Performance (17 credit hours)

Note: The first four (4) courses must be taken in sequence.

- DANC 2410 - Improvisation **Credits: (2)**
- DANC 3500 - Choreography I: Space & Time/Design in Dance **Credits: (3)**
- DANC 3510 - Choreography II: Process **Credits: (3)**
- DANC 3520 INT - Choreography Practicum **Credits: (2)**

- DANC 3910 INT - Moving Company: Rehearsal & Development **Credits: (2)** CEL
- DANC 3911 INT - Moving Company: Performance **Credits: (2)** CEL
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)** (must take three times = 3)

Theory & Practice (11 credit hours)

- DANC 1010 CA/DV - Introduction to Dance **Credits: (3)**
- DANC 3015 - Dance History **Credits: (3)**
- DANC 4700 INT - Creative Synthesis in Dance **Credits: (2)**

- DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)** or
- DANC 3320 INT - Techniques and Materials for Teaching Modern Dance **Credits: (3)**

Somatics (7 credit hours)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**
- DANC 2300 - Dance Kinesiology **Credits: (3)**

Dance Design, Production, and Technology (7 credit hours)

- DANC 1310 - Music for Dance **Credits: (2)**
- DANC 2610 - Dance and Digital Technology **Credits: (2)**

Choose one of your choice:

- THEA 2022 - Costume Fundamentals **Credits: (3)** or
- THEA 2032 - Lighting Fundamentals **Credits: (3)** or
- THEA 2403 - Production and Stage Management **Credits: (3)**

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Dance Majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) **OR** Option 2 - Foreign Language and Language Arts (**6 credit hours of a foreign language and 6 hours of language arts**)--the required language arts course is: DANC 4800 - Individual Study **Credits: (3)** **taken 2 times for a total of (6) credit hours.**

Dance Education (BA)

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

Program Prerequisites: Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

Program Code: 3058BA or 3058BS

CIPC: 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure. It is comprised of 33 hours of coursework within the Department of Teacher Education.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Amanda Sowerby asowerby@weber.edu for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Course Requirements for BS or BA Degree in Dance Education

Courses Required (57 credit hours)

Ballet and Modern Dance (minimum of 13 credit hours)

Note: majors must complete a minimum of 6.5 credits hours of Ballet and 6.5 credits hours of Modern, and receive a C+ or better in Ballet III and Modern III to qualify for graduation. Courses will be repeated to achieve full credit.

DANC 1100 - Ballet I **Credits: (1)** (1 credit each) 2 times=2

DANC 1200 - Modern I **Credits: (1)** (1 credit each) 2 times=2

DANC 2490 - Modern II **Credits: (1.5)** (1.5 credit each) 2 times=3

DANC 3470 - Ballet III **Credits: (1.5)** (1.5 credit each) 2 times=3

DANC 3490 - Modern III **Credits: (1.5)** (1.5 credit each) 2 times=3

Other Dance Forms (3 credit hours)

DANC 1520 - Folk & Ethnic Dance **Credits: (1)**

DANC 1580 - Rhythm Tap **Credits: (1)**

DANC 2500 - Jazz II **Credits: (1)**

Creative Process and Performance (11 credit hours)

To be taken in order beginning spring of freshman year.

DANC 2410 - Improvisation **Credits: (2)**

DANC 3500 - Choreography I: Space & Time/Design in Dance **Credits: (3)**

DANC 3510 - Choreography II: Process **Credits: (3)**

DANC 3520 INT - Choreography Practicum **Credits: (2)**

MUSC 2130 - Sight Singing & Aural Skills III **Credits: (1)**

MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (1)**
MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
MUSC 3208 - World Music **Credits: (3)**
MUSC 3840 - Form and Analysis **Credits: (2)**

Additional Courses for the BA Music

MUSC 1150 - Class Piano I **Credits: (1)**
MUSC 1160 - Class Piano II **Credits: (1)**

MUSC 1601 - Private Instruction **Credits: (1)** (MUSC 1601 must be taken concurrently with MUSC 4830)
MUSC 4830 - Directed Readings **Credits: (1-3)**

MUSC 4900 INT - Senior Project--BA in Music **Credits: (3)**
MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

A total of four classes in one-credit private instruction in appropriate area, in addition to MUSC 1601:
MUSC 1681 - Private Instruction **Credits: (1)** (To be taken twice for credit)
MUSC 2681 - Private Instruction **Credits: (1)** (To be taken twice for credit)

A total of four classes in one-credit Large Ensemble:
(*courses may be repeated for credit*)

MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 1750 - Symphonic Band **Credits: (1-2)**
MUSC 3750 - Symphonic Band **Credits: (1-2)**
MUSC 1760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
MUSC 1763 INT - Guitar Ensemble **Credits: (1)**
MUSC 3763 INT - Guitar Ensemble **Credits: (1)**

Music Electives (8 credits)

Music electives must have the MUSC designation and are in addition to the courses in the Music Core and Required Courses.

Free Electives (26 credits)

Language Courses Required to fulfill the BA

Six semester-hours of foreign language is required. This requirement may be satisfied by taking two semesters of the same language or one semester each of two different languages.

An additional six semester hours of foreign language or language arts is required.

Musical Theatre (BA)

Program Prerequisite: Completion of the required pre-major core courses listed under the following Course Requirements with a grade of "C" or better and an audition are required for admission to this program.

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or better.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 62-63 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.

Program Code: 3049BA

CIPC: 500509

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment.

Admission Requirements

An audition is required for admission to this program after completing the pre-major core courses. Auditions will be scheduled in spring semester each year.

General Education

Refer to General Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. The following courses required for this major may also be applied to fill general education requirements: DANC 1010 CA/DV - Introduction to Dance (3), THEA 1033 CA - Introduction to Acting (3) and THEA 1043 CA - Introduction to American Musical Theatre (3).

Major Course Requirements for BA Degree

Required Pre-Major Core Courses (15 credit hours)

Admittance to the Musical Theatre Major is contingent upon successful completion of the Pre-Major Core Courses AND by successful audition. The program audition may be attempted concurrently while enrolled in the Pre-Major Core. Transfer students will be evaluated on an individual basis. This Pre-Major Core includes 3 credit hours of Creative Arts Gen Ed, so only 12 credit hours are added to the total required hours for the degree.

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1043 CA - Introduction to American Musical Theatre **Credits: (3)**
- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1075 - Class Voice for Musical Theatre **Credits: (1)** (repeated 2 times)

Select one of the following Dance classes

- DANC 1100 - Ballet I **Credits: (1)**
- DANC 1200 - Modern I **Credits: (1)**
- DANC 1500 - Jazz I **Credits: (1)**

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Musical Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, *refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit*) **OR** Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3343 - History & Literature of Musical Theatre and either THEA 3303 - History and Literature of Theatre I **(3)** or THEA 3313 - History and Literature of Theatre II **(3)**).

Required Courses for Musical Theatre

57 Credit Hours (exclusive of required general education courses)

Dance (7 credit hours)

The following courses may be repeated for credit as approved by an advisor

- DANC 1100 - Ballet I **Credits: (1)**
- DANC 1200 - Modern I **Credits: (1)**
- DANC 1450 - Special Topic Dance Form **Credits: (1)**
- DANC 1500 - Jazz I **Credits: (1)**
- DANC 1520 - Folk & Ethnic Dance **Credits: (1)**
- DANC 1580 - Rhythm Tap **Credits: (1)**
- DANC 2470 - Ballet II **Credits: (1.5)**
- DANC 2500 - Jazz II **Credits: (1)**
- DANC 2490 - Modern II **Credits: (1.5)**
- DANC 3440 - Dance for Musical Theatre **Credits: (1)**
- DANC 3450 - Special Topic Dance Form **Credits: (1)**
- DANC 3470 - Ballet III **Credits: (1.5)**
- DANC 3490 - Modern III **Credits: (1.5)**
- DANC 3580 - Rhythm Tap **Credits: (1)**
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)**

The following courses are also recommended for conditioning and training up to 2 of which may be used to fulfill the Dance requirement:

- PE 1010 - Aerobics, Level I **Credits: (1)**
- PE 1011 - Aerobics, Level II **Credits: (1)**
- PE 1012 - Aerobics, Level III **Credits: (1)**
- PE 1057 - Hatha Yoga, Level I **Credits: (1)**
- PE 1080 - Strength Training, Level I **Credits: (1)**
- PE 1081 - Strength Training, Level II **Credits: (1)**
- PE 1082 - Strength Training, Level III **Credits: (1)**
- PE 1155 - Fencing, Level I **Credits: (1)**
- PE 1410 - TaiChi, Level I **Credits: (1)**

Music (6 credit hours)

MUSC 1100 - Fundamentals of Music **Credits: (2)**

MUSC 1143 - Music Theory and Piano for Musical Theatre **Credits: (4)**

Theatre (41 credit hours)

THEA 1223 - Stage Makeup **Credits: (3)**

THEA 1713 - Script Analysis **Credits: (3)**

THEA 2033 - Acting II **Credits: (3)**

THEA 2443 - Acting for Musical Theatre **Credits: (3)**

THEA 3103 INT - Directing I **Credits: (3)**

THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**

THEA 3443 - Scene Study for Musical Theatre **Credits: (3)**

THEA 3651 - Musical Theatre Repertoire **Credits:**

THEA 3991 - Junior Seminar **Credits: (1)**

THEA 4143 - Directing and Choreographing for Musical Theatre **Credits: (3)**

THEA 4651 - Individual Training in Stage Voice **Credits: (1)** (repeated 6 times)

Select one of the following Theatre History classes

THEA 3303 - History and Literature of Theatre I **Credits: (3)**

THEA 3313 - History and Literature of Theatre II **Credits: (3)**

Select two of the following Technical Theatre classes, these classes frequently serve as prerequisites for the Theatre Design classes so plan accordingly.

THEA 2012 - Stagecraft **Credits: (3)**

THEA 2022 - Costume Fundamentals **Credits: (3)**

THEA 2032 - Lighting Fundamentals **Credits: (3)**

THEA 2580 - Computer Software for the Theatre **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following Theatre Design classes, prerequisites may need to be met first.

THEA 3100 - Projection Design **Credits: (3)**

THEA 3212 - Scenic Design **Credits: (3)**

THEA 3222 - Lighting Design **Credits: (3)**

THEA 3500 - Sound Design **Credits: (3)**

THEA 4203 - Costume Design **Credits: (3)**

Theatre Arts (BA)

Program Prerequisite: Not Required.

Minor: Required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.

Program Code: 3046BA

CIPC: 500501

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Language Courses Required to Fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) **OR** Option 2 -

Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3303 - History and Literature of Theatre I, and THEA 3313 - History and Literature of Theatre II).

Focus Areas and Sample Programs

Theatre Arts Generalist

Theatre Arts Generalist: Required Courses

- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2403 - Production and Stage Management **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**
- THEA 4900 INT - Senior Project **Credits: (1)**

Additionally, select at least 15 credit hours from the following courses:

Pre-requisites may need to be met first.

- THEA 2330 - Dramaturgy and Criticism **Credits: (3)**
- THEA 3323 - History and Literature of Contemporary Theatre **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**
- THEA 3505 - Playwriting **Credits: (3)**
- THEA 4103 INT - Directing II **Credits: (3)**
- THEA 4120 - Collaboration in the Theatre **Credits: (3)**
- THEA 4270 - Dramatic Theory and Analysis **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**
- THEA 4860 - Advanced Playwriting **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses

- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 3100 - Projection Design **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options, may be repeated for credit

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4861 INT - Performance Practicum **Credits: (1)**
- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4863 INT - Performance Practicum **Credits: (1)**
- THEA 4864 INT - Performance Practicum **Credits: (1)**
- THEA 4865 INT - Performance Practicum **Credits: (1)**
- THEA 4866 INT - Performance Practicum **Credits: (1)**
- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

Design/Technical/Management

Design/Technical/Management: Required Courses

THEA 1033 CA - Introduction to Acting **Credits: (3)** or
THEA 1220 - Acting I **Credits: (3)**

THEA 1030 - Voice and Movement for the Actor **Credits: (3)** or
COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

THEA 1063 - Theatre Foundations **Credits: (3)**
THEA 1713 - Script Analysis **Credits: (3)**
THEA 2403 - Production and Stage Management **Credits: (3)**
THEA 3103 INT - Directing I **Credits: (3)**
THEA 3303 - History and Literature of Theatre I **Credits: (3)**
THEA 3313 - History and Literature of Theatre II **Credits: (3)**
THEA 3991 - Junior Seminar **Credits: (1)**

Additionally, select at least 3 of the following technical theatre courses:

(Be advised that some of these classes are prerequisites for UD classes, plan accordingly).

THEA 1223 - Stage Makeup **Credits: (3)**
THEA 2012 - Stagecraft **Credits: (3)**
THEA 2022 - Costume Fundamentals **Credits: (3)**
THEA 2032 - Lighting Fundamentals **Credits: (3)**
THEA 2580 - Computer Software for the Theatre **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses

THEA 3212 - Scenic Design **Credits: (3)**
THEA 3222 - Lighting Design **Credits: (3)**
THEA 4203 - Costume Design **Credits: (3)**
THEA 3500 - Sound Design **Credits: (3)**
THEA 3100 - Projection Design **Credits: (3)**

Theatre Practicum (4 credit hours)

Select 4 credit hours from the following options, may be repeated for credit

THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4852 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4861 INT - Performance Practicum **Credits: (1)**
THEA 4862 INT - Performance Practicum **Credits: (1)**
THEA 4863 INT - Performance Practicum **Credits: (1)**
THEA 4864 INT - Performance Practicum **Credits: (1)**
THEA 4865 INT - Performance Practicum **Credits: (1)**
THEA 4866 INT - Performance Practicum **Credits: (1)**
THEA 4867 INT - Performance Practicum **Credits: (1)**
THEA 4868 INT - Performance Practicum **Credits: (1)**
THEA 4869 INT - Performance Practicum **Credits: (1)**

General Education Courses Required (7 credit hours)

The following general education courses are required for the Theatre Major:

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**

Acting/Directing

Acting/Directing: Required Courses

THEA 1030 - Voice and Movement for the Actor **Credits: (3)**

THEA 1063 - Theatre Foundations **Credits: (3)**
THEA 1713 - Script Analysis **Credits: (3)**
THEA 1220 - Acting I **Credits: (3)**
THEA 1223 - Stage Makeup **Credits: (3)**
THEA 2403 - Production and Stage Management **Credits: (3)**
THEA 3103 INT - Directing I **Credits: (3)**
THEA 3303 - History and Literature of Theatre I **Credits: (3)**
THEA 3313 - History and Literature of Theatre II **Credits: (3)**
THEA 3991 - Junior Seminar **Credits: (1)**
ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Additionally, select at least 6 credit hours from the following, approved by an advisor:

THEA 2033 - Acting II **Credits: (3)**
THEA 3033 - Advanced Acting **Credits: (3)**
THEA 3340 - Theatre Management **Credits: (3)**
THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
THEA 4230 - Performance Seminar **Credits: (1-3)**
THEA 4002D - Special Studies in Theatre: Auditioning **Credits: (2)**
THEA 4103 INT - Directing II **Credits: (3)**
THEA 4143 - Directing and Choreographing for Musical Theatre **Credits: (3)**
COMM 3070 - Performance Studies **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses

THEA 3212 - Scenic Design **Credits: (3)**
THEA 3222 - Lighting Design **Credits: (3)**
THEA 4203 - Costume Design **Credits: (3)**
THEA 3500 - Sound Design **Credits: (3)**
THEA 3100 - Projection Design **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options, may be repeated for credit

THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
THEA 4861 INT - Performance Practicum **Credits: (1)**
THEA 4862 INT - Performance Practicum **Credits: (1)**
THEA 4863 INT - Performance Practicum **Credits: (1)**
THEA 4864 INT - Performance Practicum **Credits: (1)**
THEA 4865 INT - Performance Practicum **Credits: (1)**
THEA 4866 INT - Performance Practicum **Credits: (1)**
THEA 4867 INT - Performance Practicum **Credits: (1)**
THEA 4868 INT - Performance Practicum **Credits: (1)**
THEA 4869 INT - Performance Practicum **Credits: (1)**

Theatre Arts Teaching (BA)

Program Prerequisite: Not Required.

Minor: Suggested

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.75 or higher.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major. 24 Credits of Education Department Classes

Program Code: Theatre Arts Teaching (3047BA)

CIPC: Theatre Arts Teaching (131324)

- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

General Education Courses Required (3 credit hours)

The following general education courses are required for the Theatre Major:

THEA 1043 CA - Introduction to American Musical Theatre **Credits: (3)**

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the *Foreign Language section of this catalog for additional information on obtaining foreign language credit*) **OR** Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3303 - History and Literature of Theatre I, and THEA 3313 - History and Literature of Theatre II).

Note:

Theatre teaching majors must also satisfy the Teacher Education admissions and licensure requirements.

Bachelor of Music

Music Major Performance and Pedagogy (BM)

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.

Minor: Not required.

Grade Requirement: A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

Program Code: Keyboard Performance (3038BM), Vocal Performance(3039BM), Instrumental Performance (3040BM), Keyboard Pedagogy (3041BM), Stringed Instrument Pedagogy (3065BM), Vocal Pedagogy (3042BM)

CIPC: Keyboard Performance (500907), Vocal Performance(500908), Instrumental Performance (500903), Keyboard Pedagogy (500907), Stringed Instrument Pedagogy (500912), Vocal Pedagogy (500908)

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

General Education

Refer to Degree Requirements for Bachelor of Music requirements. LIBS 1704 will fulfill the Computer Literacy general education requirement. PSY 1010 is recommended.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.

School of Music Required Core Courses (25 credit hours)

MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.

MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.

MUSC 1110 - Music Theory I **Credits: (2)**

MUSC 1120 - Music Theory II **Credits: (2)**

MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (1)**

MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (1)**

MUSC 1901 - Music: The First-Year Experience **Credits: (1)**

MUSC 1911 - Introduction to Music Technology **Credits: (1)**

MUSC 2110 - Music Theory III **Credits: (2)**

MUSC 2120 - Music Theory IV **Credits: (2)**
MUSC 2130 - Sight Singing & Aural Skills III **Credits: (1)**
MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (1)**
MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
MUSC 3208 - World Music **Credits: (3)**
MUSC 3840 - Form and Analysis **Credits: (2)**

Areas of Emphasis

Select one of the following areas of emphasis:

Music Major Performance and Pedagogy (BM), Instrumental Performance Emphasis
Music Major Performance and Pedagogy (BM), Keyboard Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Keyboard Performance Emphasis
Music Major Performance and Pedagogy (BM), Stringed Instrument Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Vocal Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Vocal Performance Emphasis

Music Major Performance and Pedagogy (BM), Instrumental Performance Emphasis

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.

MUSC 3208 - World Music **Credits: (3)**
MUSC 3840 - Form and Analysis **Credits: (2)**

Additional Courses Required (42-47 credit hours)

MUSC 1150 - Class Piano I **Credits: (1)**
MUSC 1160 - Class Piano II **Credits: (1)**
MUSC 3822 - Instrumental Conducting I **Credits: (2)**
MUSC 3991 INT - Junior Recital **Credits: (0)**
MUSC 4991 INT - Senior Recital **Credits: (0)**
MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

Choose courses from the following group that are most closely related to the student's major performance area:

MUSC 2821 - Percussion Methods I **Credits: (1)** or
MUSC 2841 - Brass Methods I **Credits: (1)** or
MUSC 2851 - Woodwind Methods I **Credits: (1)** or

MUSC 2871 - String Methods I **Credits: (1)** and
MUSC 2872 - String Methods II **Credits: (1)**

or

MUSC 3851 - Stringed Instrument Pedagogy I **Credits: (2)** and
MUSC 3852 - Stringed Instrument Pedagogy II **Credits: (2)**

MUSC 4771 - Stringed Instrument Literature I **Credits: (2)** and
MUSC 4772 - Stringed Instrument Literature II **Credits: (2)**

or

MUSC 3202 - Winds/Percussion Literature **Credits: (2)**

Applied Lessons (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

MUSC 1682 - Private Instruction **Credits: (2)**
MUSC 2682 - Private Instruction **Credits: (2)**
MUSC 3682 - Private Instruction **Credits: (2)**
MUSC 4682 - Private Instruction **Credits: (2)**

Large Ensemble (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 1750 - Symphonic Band **Credits: (1-2)**
MUSC 3750 - Symphonic Band **Credits: (1-2)**
MUSC 1760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
MUSC 1763 INT - Guitar Ensemble **Credits: (1)**
MUSC 3763 INT - Guitar Ensemble **Credits: (1)**

Music Major Performance and Pedagogy (BM), Keyboard Pedagogy Emphasis

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.

Minor: Not required.

Grade Requirement: A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

- MUSC 3302 - Keyboard Literature I **Credits: (2)**
- MUSC 3312 - Keyboard Literature II **Credits: (2)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

- MUSC 3872 - Choral Conducting I **Credits: (2)** or
- MUSC 3822 - Instrumental Conducting I **Credits: (2)**

- MUSC 4302 - Keyboard Pedagogy I **Credits: (2)**
- MUSC 4312 - Keyboard Pedagogy II **Credits: (2)**
- MUSC 4322 - Keyboard Pedagogy III **Credits: (2)**
- MUSC 4332 - Keyboard Pedagogy IV **Credits: (2)**
- MUSC 4860 INT - Internship in Music **Credits: (1-3)** (to be repeated twice for credit)
- MUSC 4991 INT - Senior Recital **Credits: (0)**

Large Ensemble (2 credit hours)

Choose two courses from the following to be taken over two semesters:

- MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**

Applied Lessons (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1682 - Private Instruction **Credits: (2)**
- MUSC 2682 - Private Instruction **Credits: (2)**
- MUSC 3682 - Private Instruction **Credits: (2)**
- MUSC 4682 - Private Instruction **Credits: (2)**

Other Required Support Courses (10 credit hours)

- THEA 1033 CA - Introduction to Acting **Credits: (3)**
- FIN 1010 - Personal Finance **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**

- DANC 1200 - Modern I **Credits: (1)** or
- DANC 1100 - Ballet I **Credits: (1)**

Elective Courses (6 credit hours)

Choose 6 credits from the following:

- 1 Foreign Language Course
- MUSC 1755 INT - Instrumental Chamber Ensemble **Credits: (1)** or (may be repeated twice for credit) OR
- MUSC 3755 INT - Instrumental Chamber Ensemble **Credits: (1)** (may be repeated twice for credit)

- ENTR 1002 - Introduction to Entrepreneurship **Credits: (3)**
- MUSC 1753 INT - Jazz Ensemble **Credits: (1)** (may be repeated twice for credit)

- MUSC 1601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit) OR
- MUSC 3601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit)

One of the following courses may be used toward the 6 elective credits:

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 3820 INT - The Art and Science of Recording I **Credits: (3)**
- MUSC 3720 - Analog Audio **Credits: (2)**
- MUSC 3721 INT - Live Sound in the 21st Century **Credits: (2)**
- MUSC 3722 - History of Recording **Credits: (2)**

Foreign Language

See Foreign Language Requirements in the Music Area procedures and policies.

Music Major Performance and Pedagogy (BM), Keyboard Performance Emphasis

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.

Minor: Not required.

Grade Requirement: A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

Program Code: Keyboard Performance (3038BM), Vocal Performance(3039BM), Instrumental Performance (3040BM), Keyboard Pedagogy (3041BM), Stringed Instrument Pedagogy (3065BM), Vocal Pedagogy (3042BM)

CIPC: Keyboard Performance (500907), Vocal Performance(500908), Instrumental Performance (500903), Keyboard Pedagogy (500907), Stringed Instrument Pedagogy (500912), Vocal Pedagogy (500908)

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

General Education

Refer to Degree Requirements for Bachelor of Music requirements. LIBS 1704 will fulfill the Computer Literacy general education requirement. PSY 1010 is recommended.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.

School of Music Required Core Courses (25 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.
- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (1)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (1)**
- MUSC 1901 - Music: The First-Year Experience **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (1)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (1)**
- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Form and Analysis **Credits: (2)**

Additional Required Music Courses (52 credit hours)

- MUSC 2160 - Functional Piano Skills for Piano Majors/Minors **Credits: (1)**
- MUSC 2321 - The Principles of Collaborative Piano I **Credits: (1)**
- MUSC 2331 - The Principles of Collaborative Piano II **Credits: (1)**

School of Music Required Core Courses (25 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.
- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (1)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (1)**
- MUSC 1901 - Music: The First-Year Experience **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (1)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (1)**
- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Form and Analysis **Credits: (2)**

Required Courses for BME

- MUSC 1150 - Class Piano I **Credits: (1)**
- MUSC 1160 - Class Piano II **Credits: (1)**
- MUSC 2150 - Class Piano III **Credits: (1)**
- MUSC 2321 - The Principles of Collaborative Piano I **Credits: (1)**
- MUSC 3924 - Music Teaching and Learning in the Elementary School **Credits: (3)**
- MUSC 3991 INT - Junior Recital **Credits: (0)**
- MUSC 4822 - Secondary Music Methods **Credits: (3)**
- MUSC 4860 INT - Internship in Music **Credits: (1-3)** (must be taken twice for credit)

Applied Lessons

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Large Ensemble

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

- MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 INT - Guitar Ensemble **Credits: (1)**

MUSC 3763 INT - Guitar Ensemble **Credits: (1)**

Foreign Language

Six credits of Foreign Language courses. See Foreign Language Requirements in the Music Area procedures and policies.

Course Requirements for Licensure

Minimum of 27 credits required.

COMM 1020, COMM 2110, and CHF 1500 also fulfill University General Education requirements.

EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

CHF 1500 SS/DV - Human Development **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

EDUC 3220 - Foundations of Diversity **Credits: (2)**

EDUC 3265 - The Exceptional Student **Credits: (2)**

EDUC 3315 - Media Integration in the Secondary School Setting **Credits: (2)**

EDUC 3900 - Preparing, Teaching, and Assessing Instruction **Credits: (2)**

EDUC 3910 INT - Secondary Education Practicum **Credits: (2)**

EDUC 3935 - Reading and Writing Across the Secondary Curriculum **Credits: (2)**

EDUC 4940 INT - Student Teaching in Secondary Education **Credits: (8)**

EDUC 4950 - Integrated Secondary Student Teaching Seminar **Credits: (4)**

Choral Emphasis Required Courses

MUSC 2540 - Instrumental Techniques for Choral Majors **Credits: (2)**

MUSC 3122 - Choral Arranging **Credits: (2)**

MUSC 3872 - Choral Conducting I **Credits: (2)**

MUSC 4402 - Vocal Pedagogy I **Credits: (2)**

Music Education Teaching (BME), Instrumental Emphasis

Program Prerequisites: Audition required for admission to program. Must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable).

Credit Hour Requirements: A total of 123 credit hours is required for either the Choral or Instrumental Emphasis; a minimum of 64 credit hours is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 23-28 of these are required within the major.

Program Code:3044BME

CIPC:131312

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for Bachelor of Music requirements. LIBS 1704 will fulfill the Computer Literacy general education requirement. PSY 1010 is recommended.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.

Bachelor of Science

Dance Education (BS)

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

Program Prerequisites: Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

Program Code: 3058BA or 3058BS

CIPC: 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure. It is comprised of 33 hours of coursework within the Department of Teacher Education.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Amanda Sowerby asowerby@weber.edu for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Course Requirements for BS or BA Degree in Dance Education

Courses Required (57 credit hours)

Ballet and Modern Dance (minimum of 13 credit hours)

Note: majors must complete a minimum of 6.5 credits hours of Ballet and 6.5 credits hours of Modern, and receive a C+ or better in Ballet III and Modern III to qualify for graduation. Courses will be repeated to achieve full credit.

DANC 1100 - Ballet I **Credits: (1)** (1 credit each) 2 times=2

DANC 1200 - Modern I **Credits: (1)** (1 credit each) 2 times=2

DANC 2490 - Modern II **Credits: (1.5)** (1.5 credit each) 2 times=3

DANC 3470 - Ballet III **Credits: (1.5)** (1.5 credit each) 2 times=3
DANC 3490 - Modern III **Credits: (1.5)** (1.5 credit each) 2 times=3

Other Dance Forms (3 credit hours)

DANC 1520 - Folk & Ethnic Dance **Credits: (1)**
DANC 1580 - Rhythm Tap **Credits: (1)**
DANC 2500 - Jazz II **Credits: (1)**

Creative Process and Performance (11 credit hours)

To be taken in order beginning spring of freshman year.

DANC 2410 - Improvisation **Credits: (2)**
DANC 3500 - Choreography I: Space & Time/Design in Dance **Credits: (3)**
DANC 3510 - Choreography II: Process **Credits: (3)**
DANC 3520 INT - Choreography Practicum **Credits: (2)**
DANC 4910 INT - Rehearsal and Performance **Credits: (1)**

Corporeal Studies (13 credit hours)

DANC 1010 CA/DV - Introduction to Dance **Credits: (3)**
NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**
DANC 2300 - Dance Kinesiology **Credits: (3)**
DANC 3015 - Dance History **Credits: (3)**

Teaching Methods (10 credit hours)

DANC 3320 INT - Techniques and Materials for Teaching Modern Dance **Credits: (3)**
DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)**
EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
DANC 3860 INT - Field Experience **Credits: (1-3)**

Dance Design, Production, and Technology (7 credit hours)

DANC 1310 - Music for Dance **Credits: (2)**
DANC 2610 - Dance and Digital Technology **Credits: (2)**

THEA 2022 - Costume Fundamentals **Credits: (3)** or
THEA 2032 - Lighting Fundamentals **Credits: (3)** or
THEA 2403 - Production and Stage Management **Credits: (3)**

Health and Science Courses Required to fulfill the BS in Dance Education (12 credit hours)

ZOOL 1020 LS - Human Biology **Credits: (3)**
NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
ESS 3510 - Exercise Physiology **Credits: (3)**
ZOOL 3570 - Foundations of Science Education **Credits: (3)**

Emphasis Only

Music/Fine Arts Concentration for Elementary Education

Program Prerequisite: Fulfill the Elementary Education Major requirements (see Elementary Education in the Department of Teacher Education).

Minor: Required.

Grade Requirements: Refer to the Elementary Education Major in the Department of Teacher Education

Credit Hour Requirements: A total of 9 or 18 credit hours for these concentrations. Also refer to the Elementary Education Major in the Department of Teacher Education.

Courses for 9 or 18 Hour Fine Arts Concentration

Students electing the 9 or 18 hour Fine Arts Concentration may choose from the following music courses as part of this concentration.

MUSC 1010 CA - Introduction to Music **Credits: (3)**
MUSC 1100 - Fundamentals of Music **Credits: (2)**
MUSC 3824 - Music for Elementary Teachers **Credits: (4) ***

Courses for 9 Hour Music Concentration

Students electing the 9 hour Music Concentration may choose from the following music courses to satisfy the concentration requirements.

- MUSC 1010 CA - Introduction to Music **Credits: (3)**
- MUSC 1040 CA/DV - Music of World Cultures **Credits: (3)**
- MUSC 1063 CA - Music in Religion **Credits: (3)**
- MUSC 1100 - Fundamentals of Music **Credits: (2)**
- MUSC 2881 - Vocal Workshop **Credits: (1)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (4) ***

Note:

* Required course

Minor

Dance Minor

A dance minor is available for students not wishing to specialize but who have an interest in dance and want a concentration of study in the area to complement an affiliated program of study. Students wishing the minor program must register with the Dance Program Director. Coursework is individualized, with selections to be made from the following areas.

Grade Requirements: A GPA of 2.25 or better in courses used toward the minor.

Advisement: Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email Erik Stern estern@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).

Credit Hour Requirements: Minimum of 18 credit hours, with no fewer than 3 nor more than 9 in any one of the following three areas listed.

Program Code: 3045

CIPC: 500301

Course Requirements for Minor

Courses Required (18 credit hours)

Select 18 credit hours from the following, with no fewer than 3 nor more than 9 in any one of the three areas listed. Additional coursework to total 18 credit hours may be chosen, with advisor's written approval, from remaining dance electives or in approved related areas.

Area 1, Technique

Select the appropriate level from the following

Any course may be repeated once

- DANC 1100 - Ballet I **Credits: (1)**
- DANC 1200 - Modern I **Credits: (1)**
- DANC 1450 - Special Topic Dance Form **Credits: (1)**
- DANC 1500 - Jazz I **Credits: (1)**
- DANC 1520 - Folk & Ethnic Dance **Credits: (1)**
- DANC 1580 - Rhythm Tap **Credits: (1)**
- DANC 2470 - Ballet II **Credits: (1.5)**
- DANC 2500 - Jazz II **Credits: (1)**
- DANC 2490 - Modern II **Credits: (1.5)**
- DANC 3440 - Dance for Musical Theatre **Credits: (1)**
- DANC 3450 - Special Topic Dance Form **Credits: (1)**
- DANC 3470 - Ballet III **Credits: (1.5)**
- DANC 3490 - Modern III **Credits: (1.5)**

Area 2, Creative Work

- DANC 2410 - Improvisation **Credits: (2)**
- DANC 2610 - Dance and Digital Technology **Credits: (2)**
- DANC 3500 - Choreography I: Space & Time/Design in Dance **Credits: (3)**
- DANC 3510 - Choreography II: Process **Credits: (3)**
- DANC 3520 INT - Choreography Practicum **Credits: (2)**
- DANC 3910 INT - Moving Company: Rehearsal & Development **Credits: (2) CEL**
- DANC 3911 INT - Moving Company: Performance **Credits: (2) CEL**
- DANC 4610 - Dance and Digital Technology **Credits: (2)**
- DANC 4620 - Dance and Digital Technology Seminar **Credits: (1)**

DANC 4890 INT - Cooperative Work Experience **Credits: (1-6)** CEL
DANC 4910 INT - Rehearsal and Performance **Credits: (1)**

Area 3, Theoretical Aspects

DANC 1010 CA/DV - Introduction to Dance **Credits: (3)**
DANC 3015 - Dance History **Credits: (3)**
ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**

Minor in Music Performance

The Minor in Music Performance is a course of study for students who desire more intensive performance opportunities while experiencing music courses related to interpretation.

Program Prerequisite: Audition required for admission to the program.

Grade Requirements: A grade of C (2.00) or better in courses used toward the minor.

Credit Hour Requirements: Minimum of 23 credit hours.

Program Code: 3037

CIPC: 500901

Advisement

Music minors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Course Requirements for Minor in Music Performance

Music Courses Required

MUSC 1006 - Concert Attendance I **Credits: (0)** (must complete two terms)
MUSC 2006 - Concert Attendance II **Credits: (0)** (must complete two terms)
MUSC 1010 CA - Introduction to Music **Credits: (3)**
MUSC 1110 - Music Theory I **Credits: (2)**
MUSC 1120 - Music Theory II **Credits: (2)**
MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (1)**
MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (1)**
MUSC 1150 - Class Piano I **Credits: (1)**
MUSC 1160 - Class Piano II **Credits: (1)**
MUSC 1901 - Music: The First-Year Experience **Credits: (1)**
MUSC 3991 INT - Junior Recital **Credits: (0)**

Applied Music Requirement

4 credit hours minimum or until completion of the Junior Recital

MUSC 1681 - Private Instruction **Credits: (1)**
MUSC 2681 - Private Instruction **Credits: (1)**
MUSC 3681 - Private Instruction **Credits: (1)**
MUSC 4681 - Private Instruction **Credits: (1)**

Major Ensemble Requirement

4 credit hours minimum or until completion of the music minor requirements

MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**
MUSC 1750 - Symphonic Band **Credits: (1-2)**

MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**
MUSC 1763 INT - Guitar Ensemble **Credits: (1)**
MUSC 3763 INT - Guitar Ensemble **Credits: (1)**

One of the following Elective courses:

MUSC 1030 CA - Introduction to Jazz **Credits: (3)**
MUSC 1033 CA - Introduction to American Music **Credits: (3)**
MUSC 1035 CA - History of Rock and Roll **Credits: (3)**
MUSC 1040 CA/DV - Music of World Cultures **Credits: (3)**
MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**

MUSC 1063 CA - Music in Religion **Credits: (3)**

Music Studies Minor

The Minor in Music Studies is a course of study for students who wish to experience a broad survey of music courses while also continuing to be engaged in making music. For more information on program requirement, please contact the Department of Performing Arts.

Program Prerequisite: Audition required for admission to the program.

Grade Requirements: A grade of C (2.00) or better in courses used toward the minor.

Credit Hour Requirements: Minimum of 23 credit hours.

Program Code: 3083

CIPC: 500903

Courses Required (23 credit hours minimum)

Required Core Courses

MUSC 1010 CA - Introduction to Music **Credits: (3)**

MUSC 1100 - Fundamentals of Music **Credits: (2)**

MUSC 1901 - Music: The First-Year Experience **Credits: (1)**

MUSC 1006 - Concert Attendance I **Credits: (0)** (must complete two terms)

MUSC 2006 - Concert Attendance II **Credits: (0)** (must complete two terms)

4 credits of Applied Lessons (*courses may be repeated for credit*)

MUSC 1681 - Private Instruction **Credits: (1)**

MUSC 2681 - Private Instruction **Credits: (1)**

MUSC 3681 - Private Instruction **Credits: (1)**

MUSC 4681 - Private Instruction **Credits: (1)**

4 credits of Large Ensemble (*courses may be repeated for credit*)

MUSC 1740 INT - Weber State Concert Choir **Credits: (1)**

MUSC 3740 INT - Weber State Concert Choir **Credits: (1)**

MUSC 1750 - Symphonic Band **Credits: (1-2)**

MUSC 3750 - Symphonic Band **Credits: (1-2)**

MUSC 1760 INT - Weber State Symphony Orchestra **Credits: (1-2)**

MUSC 3760 INT - Weber State Symphony Orchestra **Credits: (1-2)**

MUSC 1763 INT - Guitar Ensemble **Credits: (1)**

MUSC 3763 INT - Guitar Ensemble **Credits: (1)**

Electives (9 credits)

Choose three courses from the following list:

MUSC 1030 CA - Introduction to Jazz **Credits: (3)**

MUSC 1033 CA - Introduction to American Music **Credits: (3)**

MUSC 1035 CA - History of Rock and Roll **Credits: (3)**

MUSC 1040 CA/DV - Music of World Cultures **Credits: (3)**

MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**

MUSC 1063 CA - Music in Religion **Credits: (3)**

Sound Production/Recording Minor or BIS

Sound Production/Recording is the art and science of capturing and editing music, sound, and dialog. This course of study will prepare the student to succeed as a music producer, recording technician, post-production designer, or other similar fields. The program emphasizes hands-on learning on state-of-the-art equipment.

Program Prerequisite: Successful interview with the program advisor

Grade Requirements: A grade of C (2.00) or better in courses used toward the minor

Credit Hour Requirements: Minimum of 24 credit hours

Program Code: 3076

CIPC: 100203

Advisement

Sound Production/Recording minors should meet with the program advisor at least once an academic year.

Course Requirements for Sound Production/Recording Minor

Required Courses (19 credit hours)

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4821 - Pro Tools 110 **Credits: (2)**
- MUSC 3820 INT - The Art and Science of Recording I **Credits: (3)**
- MUSC 3821 INT - The Art and Science of Recording II **Credits: (3)**
- MUSC 3720 - Analog Audio **Credits: (2)**
- MUSC 3721 INT - Live Sound in the 21st Century **Credits: (2)**
- MUSC 3722 - History of Recording **Credits: (2)**
- MUSC 4995 INT - Capstone Project **Credits: (3)**

Electives (5 credit hours minimum)

Select a minimum of 5 credit hours from the following

- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 3723 - Field Recording/Sound for Picture **Credits: (2)**
- MUSC 3724 - Studio Construction **Credits: (1)**
- MUSC 3725 - Alternative Digital Audio Workstations **Credits: (2)**
- MUSC 3726 - Creative Lab **Credits: (1)**

Creative Lab may be repeated but only counts toward elective fulfillment once

Theatre Arts Minor

- Grade Requirements:** A grade of "C" or better in courses used toward the minor.
- Credit Hour Requirements:** A minimum of 19 credit hours in Theatre Arts classes.
- Program Code:** 3046
- CIPC:** 500501

Course Requirements for Minor

Theatre Courses Required (21 credit hours)

- THEA 1013 CA - Introduction to Theatre **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**

- THEA 1033 CA - Introduction to Acting **Credits: (3)** or
- THEA 1220 - Acting I **Credits: (3)**

Select two of the following technical theatre classes (be advised that some of these classes are pre-requisites for UD classes, plan accordingly)

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 2012 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2032 - Lighting Fundamentals **Credits: (3)**
- THEA 2403 - Production and Stage Management **Credits: (3)**
- THEA 2580 - Computer Software for the Theatre **Credits: (3)**

Select one of the following theatre history classes (3 credit hours)

- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**

Complete 3 credit hours of upper division Theatre Arts course work. (3 credit hours)

Teaching Minor

Dance Teaching Minor

A dance teaching minor is available for students seeking a concentration of study in dance teaching to complement an affiliated program. Students wishing the minor program must register with the Dance Program advisor.

- Grade Requirements:** A GPA of 2.25 or better in courses used toward the minor.
- Credit Hour Requirements:** Minimum of 21-23 credit hours.

Advisement: Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email Erik Stern estern@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).

Program Code: 3048

CIPC: 131324

Students who select the Dance Teaching Minor and are seeking teacher certification for the state of Utah must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Course Requirements for Minor

Specific Dance Teaching Courses Required (16-18 credit hours)

DANC 3320 INT - Techniques and Materials for Teaching Modern Dance **Credits: (3)**

DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)**

DANC 3860 INT - Field Experience **Credits: (1-3)**

DANC 3015 - Dance History **Credits: (3)**

DANC 3470 - Ballet III **Credits: (1.5)**

DANC 3490 - Modern III **Credits: (1.5)**

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**

Additional Dance Forms Required (2 credit hours)

Select two credit hours from the following - none of these classes may be repeated for credit towards a Dance Teaching Minor

DANC 1520 - Folk & Ethnic Dance **Credits: (1)**

DANC 2500 - Jazz II **Credits: (1)**

DANC 3440 - Dance for Musical Theatre **Credits: (1)**

Creative Courses Required (minimum 3 credit hours)

DANC 2410 - Improvisation **Credits: (2)**

DANC 3500 - Choreography I: Space & Time/Design in Dance **Credits: (3)**

DANC 3510 - Choreography II: Process **Credits: (3)**

DANC 3520 INT - Choreography Practicum **Credits: (2)**

DANC 3910 INT - Moving Company: Rehearsal & Development **Credits: (2) CEL**

DANC 3911 INT - Moving Company: Performance **Credits: (2) CEL**

DANC 4910 INT - Rehearsal and Performance **Credits: (1) ***

Note:

**may be repeated once for credit*

Theatre Arts Teaching Minor

Grade Requirements: A grade of "C" or better in courses used toward the minor.

Credit Hour Requirements: A minimum of 24 credit hours in Theatre Arts classes.

Program Code: 3047

CIPC: 131324

Students who select the Theatre Arts Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Course Requirements for Teaching Minor

Required Courses (24 credit hours exclusive of required general education courses)

THEA 1013 CA - Introduction to Theatre **Credits: (3)**

THEA 1030 - Voice and Movement for the Actor **Credits: (3)**

THEA 1220 - Acting I **Credits: (3)**

THEA 1713 - Script Analysis **Credits: (3)**

THEA 3103 INT - Directing I **Credits: (3)**

THEA 4713 INT - Teaching Theatre in the Secondary School **Credits: (3)**

Select two of the following technical theatre classes (6 credit hours)

THEA 1223 - Stage Makeup **Credits: (3)**

THEA 2012 - Stagecraft **Credits: (3)**

THEA 2022 - Costume Fundamentals **Credits: (3)**

THEA 2032 - Lighting Fundamentals **Credits: (3)**

Select one of the following theatre history classes (3 credit hours)

THEA 3303 - History and Literature of Theatre I **Credits: (3)**

THEA 3313 - History and Literature of Theatre II **Credits: (3)**

Honors, Departmental

Dance Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Music Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Theatre Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Department of Visual Art and Design

Department Chair: K Stevenson

Location: Ethel Wattis Kimball Visual Arts Center

Telephone Contact: Cynthia Kurien 801-626-6455

Professors: Matthew Choberka, Angelika Pagel, K Stevenson, Joshua Winegar; **Associate Professors:** Larry Clarkson, Paul Crow, Jason Manley, Molly Morin, Stephen Wolochowicz; **Assistant Professors:** Micah Bauer, Maria del Mar Gonzalez, Dianna Huxhold, Taylor Klover; **Instructors:** Lauren Bennett, Levi Jackson

Our world is partially understood through smell, taste, sound, and touch. But perhaps most of all we make sense of our environment through what we see. The art, architecture, mass media and even the furniture in our spaces bear distinct messages that influence our decisions and enrich life.

Creative processes are exciting. Students of art and design contribute new expression to the vitality of our visual environment and learn to interpret what is seen through trained observation. Innovative thinking is absolutely necessary for success and must be balanced against research and critical judgment. Emphasis is placed on writing and the critical evaluation of artistic products. Students gain experience at preparing exhibits and portfolios for eventual professional activity.

Studies in art and art history offer windows of understanding to other cultures, both past and present. This is one of our primary concerns in preparing citizens for productive relations in an increasingly multicultural society.

Seventy-eight different courses are offered by the Department of Visual Arts. These span traditional areas such as art history, art education, ceramics, drawing, small metals/jewelry, painting, photography, printmaking, sculpture, and visual communication. The department is continually expanding into emerging modes of expression involving digital video, digital photography, animation, interactive design, and sound. Classes are enhanced by public lectures, seminars, workshops and special sessions by critics, historians, and visiting artists.

Weber State University supports three Bachelor's degrees in the visual arts with specializations in most of the areas mentioned above. The Bachelor of Arts and Bachelor of Science degrees provide a broad liberal arts background, a solid base for many careers or further study. The Bachelor of Fine Arts degree is more professionally focused with high concentrations of studio art and art history. The BFA is for students who wish to move directly into professional work in art or design, or those who intend to pursue graduate study in the visual arts. Senior exhibitions are required for most Bachelor of Fine Arts majors.

The Elizabeth Dee Shaw Gallery exhibits art that exemplifies the ideas and values of the curriculum. This serves our students and the public interest as well. Exhibitions involving regional, national, and internationally recognized artists serve a vital role in the cultural life of the community. The Gallery organizes at least six exhibitions each year. All are free and open to the public.

Transfer of Credits

Transfer students must present an official transcript and a portfolio to petition course substitutions for visual arts program requirements. A minimum number of departmental residency hours is required for completion of degree programs: 19 credit hours for the BFA, 12 hours for BS and BA programs, 6 hours for minors.

The University requires students seeking a second baccalaureate degree to complete a full year in residence and a minimum of 30 total credit hours.

Studio Fees

Studio fees are required in most visual arts classes. Check the current course schedule for exact amounts.

Course Requirements

Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of ArtHistory and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)** F, Sp
- ART 1110 CA - Drawing I **Credits: (3)** F, Sp
- ART 1120 - Design Concepts **Credits: (3)** F, Sp
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)** F, Sp
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)** F, Sp

Choose two of the following courses

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)** F
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)** Sp
- ARTH 2040 - Art and Architecture of Asia **Credits: (4)** F, Sp

Choose one of the following courses

- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)** Sp (o)
- * ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)** F
- * ARTH 3050 - Contemporary Art **Credits: (4)** Sp (e)
- ARTH 3060 - The Art and Architecture of India **Credits: (4)** Sp (e)
- ARTH 3070 - The Art and Architecture of China **Credits: (4)** Sp (o)
- ARTH 3080 - The Art and Architecture of Japan **Credits: (4)** F (o)
- ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)** F (e)
- ARTH 3451 - Design History and Theory **Credits: (4)**
- ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)** Sp (e)
- * Art Education majors must select either ARTH 3040 or ARTH 3050

Asian Studies Minor

The Department of Visual Arts participates in the Asian Studies Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Interdisciplinary Programs section of this catalog.)

Associate of Arts

Art (AA)

An Associate of Arts with an Art major will indicate that a student has completed all WSU AA degree requirements and the Studio Foundations curriculum required for the Bachelor of Arts in Art. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA, and are eligible to apply for admission to the Bachelor of Fine Arts degree program (Graphic Design, Photography, Art Education, 2-dimensional Media, or 3-dimensional Media).

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

Program Code: 3075AA

CIPC: 500701

Advisement

Art majors are encouraged to meet with a departmental advisor at least annually for course and program advisement. Call 801-626-6762 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Studio Foundation Courses

All Art pre-majors are required to take the five Studio Foundations courses:

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Studio Electives

In addition, choose two studio elective courses at the 2000-level, for which the Studio Foundations courses serve as prerequisites. Suggested courses include:

- ART 2200 - Introduction to Printmaking **Credits: (3)**
- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)**
- ART 2350 - Small Metals/Jewelry I **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 2600 - Painting I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**

Bachelor of Arts

Art (BA)

Program Prerequisite: Not required.

Minor: Required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours are required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).

Program Code: 3001BA

CIPC: 500701

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the department secretary. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. Either one of the following Foundation courses will also fulfill 3 credit hours of the General Education requirement in the Creative Arts category: ARTH 1090 and ARTH 1100.

Language Courses Required to fulfill the BA

General Art majors must complete *Option 1*: Foreign Language (12 credit hours of a foreign language, refer to the Department of Foreign Languages section of this catalog for additional information on obtaining foreign language credit)

OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students **MUST** take ENGL 3080 Critical Approaches to Literature **AND** one of the following: ART 1040, ARTH 3451, ART 3085, ARTH CA 1090, ARTH CA 1100, ARTH 2040, ARTH 3030, ARTH 3040, ARTH 3045, ARTH 3050, ARTH 3060, ARTH 3070, ARTH 3080, ARTH 3100, ARTH 3451, ARTH 3950. This language arts requirement is in addition to other discipline specific courses required for the BA. No double dipping.

Major Course Requirements for General Art BA Degree

Foundation Courses (27 credit hours)

see *Department of Visual Art and Design*

Required Studio Distribution (9 credit hours)

Select one of the following:

ART 2200 - Introduction to Printmaking **Credits: (3)**

ART 2600 - Painting I **Credits: (3)**

Select one of the following:

ART 2310 - Ceramics I **Credits: (3)**

ART 2700 - Sculpture I **Credits: (3)**

Select one of the following:

ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**

ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**

ART 3430 - Typography and Publication Design **Credits: (3)**

Studio Electives (12 credit hours)

Select 12 credit hours of studio art coursework.

Art Education (BA)

Art Education majors are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269) and in the Visual Arts Department (call 801-626-7273).

Program Prerequisite: Not required.

Minor: Required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable).

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).

Program Code: 3062BA

CIPC: 131302

Students who select the Art Education Major must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Advisement

All Art Education majors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

All Art Education majors must first declare a Major (program of study - see Enrollment Services and Information) with the department secretary and must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements. The following Foundation courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Art Education Major Course Requirements for BA Degree

Foundation Courses (27 credit hours)

see *Department of Visual Art and Design*

Note: For the Art History foundation course, Art Education majors must select ARTH 3040 or ARTH 3045 (prerequisite ARTH 1100).

Studio Distribution (9 credit hours)

Select one of the following

ART 2200 - Introduction to Printmaking **Credits: (3)**

ART 2600 - Painting I **Credits: (3)**

Select one of the following

ART 2310 - Ceramics I **Credits: (3)**

ART 2700 - Sculpture I **Credits: (3)**

Select one of the following

ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**

ART 3430 - Typography and Publication Design **Credits: (3)**

Required Courses (6 credit hours)

ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)**

ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Studio Electives (6 credit hours)

Select six credit hours of studio art coursework.

Language Courses Required to fulfill the BA

Refer to Degree and General Education Requirements in this catalog and complete Option 1 - Foreign Language listed under Requirements for Bachelor's Degrees, or Option 2 - 6 credit hours of Foreign Language, plus ENGL 3080 and ARTH 3050.

Bachelor of Fine Arts

Art (BFA)

The Bachelor of Fine Arts (BFA) degree is the professional studio-focused undergraduate degree in visual art and graphic design. The degree does not require a Minor, instead focusing on additional studio, art history, and capstone course requirements, making the BFA the preferred preparation for graduate study, and for students planning on careers as independent studio artists and designers. Select from the areas of emphasis listed below for detailed information on BFA admissions and additional program requirements.

Areas of Emphasis

Select one of the following areas of emphasis:

Four-year degree:

Art (BFA), 2D Media Emphasis (drawing, painting, printmaking)

Art (BFA), 3D Media Emphasis (ceramics, sculpture)

Art (BFA), Photography Emphasis

Art (BFA), Graphic Design Emphasis (graphic design in print/interactive media)

Five-year degree:

Art (BFA), Art Education Emphasis

Art (BFA), 2D Media Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3005BFA

CIPC: 500706

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Course Requirements for the BFA

Foundation Courses (27 credit hours)

Required Studio Distribution (9 credit hours)

see Department of Visual Art and Design

Note: For the Art History foundation course, Art Education majors must select either ARTH 3040 or ARTH 3050 (prerequisite ARTH 1100 CA).

Note: For the Graphic Design emphasis, ARTH 3451 is required. It may help to satisfy either the Art History Electives category or the Studio Focus category within the emphasis area.

Required Courses

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)** (includes senior exhibit)

Art History Electives (4 credit hours)

Select one of the following

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2040 - Art and Architecture of Asia **Credits: (4)**
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**
- ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)**
- ARTH 3050 - Contemporary Art **Credits: (4)**
- ARTH 3045 - Global Modernisms: Early 20th Century to 1960 **Credits: (4)**
- ARTH 3055 - Special Topics in Art History **Credits: (4)**
- ARTH 3060 - The Art and Architecture of India **Credits: (4)**
- ARTH 3070 - The Art and Architecture of China **Credits: (4)**
- ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**
- ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**
- ARTH 3451 - Design History and Theory **Credits: (4)**
- ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Studio Focus Courses:

Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses (21 credits)

- ART 3120 - Figure Drawing **Credits: (3)**
- ART 3200 - Intermediate Printmaking **Credits: (3)**
- ART 3210 - Relief Printmaking **Credits: (3)**
- ART 3215 - Etching Printmaking **Credits: (3)**
- ART 3600 - Painting II **Credits: (3)**
- * ART 4110 - Advanced Drawing **Credits: (3)**
- * ART 4120 - Advanced Figure Drawing **Credits: (3)**
- * ART 4200 - Advanced Printmaking **Credits: (3)**
- * ART 4600 - Painting III **Credits: (3)**

Notes:

Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.

*May be repeated twice for a total of 9 credit hours.

Art (BFA), 3D Media Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3006BFA

CIPC: 500706

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Course Requirements for the BFA

Foundation Courses (27 credit hours)

Required Studio Distribution (9 credit hours)

see Department of Visual Art and Design

Note: For the Art History foundation course, Art Education majors must select either ARTH 3040 or ARTH 3050 (prerequisite ARTH 1100 CA).

Note: For the Graphic Design emphasis, ARTH 3451 is required. It may help to satisfy either the Art History Electives category or the Studio Focus category within the emphasis area.

Required Courses

ART 3085 - Critical Issues in Art **Credits: (3)**

ART 3995 - BFA Seminar **Credits: (3)**

ART 4990 - BFA Thesis **Credits: (3)** (includes senior exhibit)

Art History Electives (4 credit hours)

Select one of the following

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**

ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**

ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**

ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)**

ARTH 3050 - Contemporary Art **Credits: (4)**

ARTH 3045 - Global Modernisms: Early 20th Century to 1960 **Credits: (4)**

ARTH 3055 - Special Topics in Art History **Credits: (4)**

ARTH 3060 - The Art and Architecture of India **Credits: (4)**

ARTH 3070 - The Art and Architecture of China **Credits: (4)**
ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**
ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**
ARTH 3451 - Design History and Theory **Credits: (4)**
ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Studio Focus Courses:

Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses

ART 2310 - Ceramics I **Credits: (3)**
ART 2700 - Sculpture I **Credits: (3)**
* ART 2850 - Furniture Design **Credits: (3)**
ART 3310 - Ceramics II **Credits: (3)**
ART 3320 - Ceramic Processes **Credits: (3)**
ART 3700 - Sculpture II **Credits: (3)**
* ART 3720 - Public Art **Credits: (3)**
* ART 4310 - Ceramics III: Intermediate **Credits: (3)**
* ART 4320 - Ceramics IV: Advanced **Credits: (3)**
* ART 4700 - Sculpture III **Credits: (3)**

Notes:

Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.

*May be repeated twice for a total of 9 credit hours.

Art (BFA), Art Education Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3062BFA

CIPC: 131302

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Course Requirements for the BFA

Foundation Courses (27 credit hours)

Required Studio Distribution (9 credit hours)

see Department of Visual Art and Design

Note: For the Art History foundation course, Art Education majors must select either ARTH 3040 or ARTH 3050 (prerequisite ARTH 1100 CA).

Note: For the Graphic Design emphasis, ARTH 3451 is required. It may help to satisfy either the Art History Electives category or the Studio Focus category within the emphasis area.

Required Courses

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)** (includes senior exhibit)

Art History Electives (4 credit hours)

Select one of the following

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2040 - Art and Architecture of Asia **Credits: (4)**
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**
- ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)**
- ARTH 3050 - Contemporary Art **Credits: (4)**
- ARTH 3045 - Global Modernisms: Early 20th Century to 1960 **Credits: (4)**
- ARTH 3055 - Special Topics in Art History **Credits: (4)**
- ARTH 3060 - The Art and Architecture of India **Credits: (4)**
- ARTH 3070 - The Art and Architecture of China **Credits: (4)**
- ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**
- ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**
- ARTH 3451 - Design History and Theory **Credits: (4)**
- ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Additional Requirements for Art Education Emphasis

- ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)** (see note under emphasis section)
- ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Studio Focus Courses:

Choose 20 credit hours in consultation with your faculty adviser. Courses will depend on area of emphasis.

Note:

Prerequisites for Art Methods I (ART 3515) include ARTH 1100 CA and *either* ARTH 3040 *or* ARTH 3050.

Art (BFA), Graphic Design Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3071BFA

CIPC: 500409

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Course Requirements for the BFA

Foundation Courses (27 credit hours)

Required Studio Distribution (9 credit hours)

see Department of Visual Art and Design

Note: For the Art History foundation course, Art Education majors must select either ARTH 3040 or ARTH 3050 (prerequisite ARTH 1100 CA).

Note: For the Graphic Design emphasis, ARTH 3451 is required. It may help to satisfy either the Art History Electives category or the Studio Focus category within the emphasis area.

Required for Graphic Design Emphasis

ART 4410 - Design Seminar **Credits: (3)**

Art History Electives (4 credit hours)

Select one of the following

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**

ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**

ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**

ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)**

ARTH 3045 - Global Modernisms: Early 20th Century to 1960 **Credits: (4)**

ARTH 3050 - Contemporary Art **Credits: (4)**

ARTH 3055 - Special Topics in Art History **Credits: (4)**

ARTH 3060 - The Art and Architecture of India **Credits: (4)**

ARTH 3070 - The Art and Architecture of China **Credits: (4)**

ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**

ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**

ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

ARTH 3451 - Design History and Theory **Credits: (4)**

Studio Focus Courses:

Choose 32 credit hours in consultation with your faculty adviser.

Required (28 credit hours)

ART 2430 - Introduction to Graphic Design **Credits: (3)**

ART 2435 - Graphic Design Practice **Credits: (3)**

ART 3410 - Design Seminar for Juniors **Credits: (3)**

ART 3430 - Typography and Publication Design **Credits: (3)**

ART 3435 - Experimental Typography **Credits: (3)**

ART 3445 - Web Design for Visual Arts **Credits: (3)**

ART 4400 - Advanced Graphic Design **Credits: (3)**

ARTH 3451 - Design History and Theory **Credits: (4)**

Electives (Complete the 32-hour requirement by choosing from below)

ART 2200 - Introduction to Printmaking **Credits: (3)**

ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**

ART 3200 - Intermediate Printmaking **Credits: (3)**

ART 3460 - Illustration **Credits: (3)**

ART 3465 - Motion Design **Credits: (3)**

* ART 4200 - Advanced Printmaking **Credits: (3)**

* ART 4400 - Advanced Graphic Design **Credits: (3)**

ART 4415 - Design Production **Credits: (3)**

- * ART 4420 - Advanced Digital Media **Credits: (3)**
- * ART 4440 - Interaction Design **Credits: (3)**
- * ART 4460 - Advanced Illustration **Credits: (3)**
- ART 4890 INT - Cooperative Work Experience **Credits: (1-2)** (by arrangement only for (1) credit)

* May be repeated for a total of 9 credit hours.

Art (BFA), Photography Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advisement (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3002BFA

CIPC: 500605

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Course Requirements for the BFA

Foundation Courses (27 credit hours)

Required Studio Distribution (9 credit hours)

see Department of Visual Art and Design

Note: For the Art History foundation course, Art Education majors must select either ARTH 3040 or ARTH 3050 (prerequisite ARTH 1100 CA).

Note: For the Graphic Design emphasis, ARTH 3451 is required. It may help to satisfy either the Art History Electives category or the Studio Focus category within the emphasis area.

Required Courses

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)** (includes senior exhibit)

Art History Electives (4 credit hours)

Select one of the following

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2040 - Art and Architecture of Asia **Credits: (4)**
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**
- ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century **Credits: (4)**
- ARTH 3050 - Contemporary Art **Credits: (4)**

ARTH 3045 - Global Modernisms: Early 20th Century to 1960 **Credits: (4)**
ARTH 3055 - Special Topics in Art History **Credits: (4)**
ARTH 3060 - The Art and Architecture of India **Credits: (4)**
ARTH 3070 - The Art and Architecture of China **Credits: (4)**
ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**
ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**
ARTH 3451 - Design History and Theory **Credits: (4)**
ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Studio Focus Courses:

Choose 26 credit hours in consultation with your faculty adviser. Other courses may be considered.

Required (12 credit hours)

ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
ART 2750 - Foundations of Video Art **Credits: (3)**
* ART 3150 - Photography Seminar **Credits: (3)**

*May be repeated twice for a total of 9 credit hours

Electives (minimum of 14 credit hours)

* ART 3500 - Advanced Time-Based Media/Video Art **Credits: (3)**
* ART 3550 - Photography: View Camera Techniques **Credits: (3)**
ART 4550 - Photography: Studio Lighting **Credits: (3)**
* ART 4660 - Special Topics in Photography **Credits: (3)**
* ART 4750 - Experimental Photography **Credits: (3)**
* ART 4910 INT - Photography: Internship **Credits: (1-3)**
ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

*May be repeated twice for a total of 9 credit hours

Minor

Art Education Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3062

CIPC: 131302

Students who select the Art Education Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Course Requirements for Minor

Required Courses (18 credit hours)

ART 1010 CA - Introduction to the Visual Arts **Credits: (3)**
ART 1110 CA - Drawing I **Credits: (3)**
ART 1120 - Design Concepts **Credits: (3)**
ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)**
ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Elective Course (6 credit hours)

Select two courses from the following

ART 2200 - Introduction to Printmaking **Credits: (3)**
ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
ART 2310 - Ceramics I **Credits: (3)**
ART 2350 - Small Metals/Jewelry I **Credits: (3)**
ART 2600 - Painting I **Credits: (3)**
ART 2700 - Sculpture I **Credits: (3)**
ART 3430 - Typography and Publication Design **Credits: (3)**

ART 2430 - Introduction to Graphic Design **Credits: (3)**
ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art Education. Consult with the Department of Visual Arts Chair.

Art History Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 23 credit hours.

Program Code: 3011

CIPC: 500703

Course Requirements for Minor

Required Courses (15 credit hours)

ART 1040 - Orientation to Visual Studies **Credits: (3)**
ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

Elective Course (8 credit hours)

Select two upper division art history (ARTH) courses for elective credit.

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art History. Consult with the Department of Visual Arts Chair.

Art Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3003

CIPC: 500701

Course Requirements for Minor

Required Courses (15 credit hours)

ART 1040 - Orientation to Visual Studies **Credits: (3)**
ART 1110 CA - Drawing I **Credits: (3)**
ART 1120 - Design Concepts **Credits: (3)**
ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Electives Courses (9 credit hours)

Choose nine credit hours of art courses in consultation with the Department of Visual Arts Chair.

Note:

General Art, Art Education and BFA majors cannot declare an Art minor. Art History, Art Education, and Photography are the only departmental minor options for the art major. Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made. Consult with the Department of Visual Arts Chair.

Design for Digital Media Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3064
CIPC: 090702

Course Requirements for Minor

Core Courses Required (12 credit hours)

ART 1110 CA - Drawing I **Credits:** (3)
ART 1120 - Design Concepts **Credits:** (3)
ART 1130 - Approaches to Surface, Shape and Form **Credits:** (3)
ART 2430 - Introduction to Graphic Design **Credits:** (3)

Track Courses Required (12 credit hours)

Complete the courses for one of the following tracks

Web Design Track

ART 2435 - Graphic Design Practice **Credits:** (3)
ART 3430 - Typography and Publication Design **Credits:** (3)
ART 3445 - Web Design for Visual Arts **Credits:** (3)
ART 4440 - Interaction Design **Credits:** (3)

Gaming Track

ART 3460 - Illustration **Credits:** (3)
ART 4420 - Advanced Digital Media **Credits:** (3)
ART 4440 - Interaction Design **Credits:** (3)
ART 4460 - Advanced Illustration **Credits:** (3)

Photography Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3007
CIPC: 500605

Course Requirements for Minor

Required Courses (12 credit hours)

ART 1040 - Orientation to Visual Studies **Credits:** (3)
ART 2250 - Foundations of Photography: Black & White/Analog **Credits:** (3)
ART 2450 CA - Foundations of Photography: Color/Digital **Credits:** (3)
ART 3150 - Photography Seminar **Credits:** (3)

Electives (12 credit hours minimum)

Select a minimum of 12 credit hours from the following

ART 3550 - Photography: View Camera Techniques **Credits:** (3)
ART 4150 - Photography: Alternative Processes **Credits:** (3)
ART 4550 - Photography: Studio Lighting **Credits:** (3)
ART 4660 - Special Topics in Photography **Credits:** (3)
ART 4750 - Experimental Photography **Credits:** (3)
ARTH 3950 - Photography: History, Theory and Criticism **Credits:** (4)

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Photography. Consult with the Department of Visual Arts Chair.

Honors, Departmental

BFA Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Interdisciplinary Programs

Associate of Arts

Workplace Communication and Writing (AA)

By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.

Program Prerequisite: Not required.

Grade Requirements: A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.

Credit Hour Requirements: A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the programs detailed below.

Program Code: 3078AA

CIPC: 090101

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements

There are no special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Associate of Arts requirements and for Associate of Science Requirements. See Foreign Language Courses Required below to fulfill the Associate of Arts degree.

Consult with a college advisor for detailed General Education guidelines.

General Studies Requirement

Humanities HU (3 credits): Students must take: COMM 1020 HU - Principles of Public Speaking or COMM 2110 HU CEL - Interpersonal and Small Group Communication

Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list: ENGL 2200 HU/DV - Introduction to Literature, ENGL 2220 HU/DV - Introduction to Fiction, ENGL 2230 HU/DV - Introduction to Drama, ENGL 2240 HU/DV - Introduction to Poetry, ENGL 2250 CA - CW: Introduction to Creative Writing, ENGL 2260 CA - CW: Introduction to Writing Short Fiction, ENGL 2270 CA - CW: Introduction to Writing Poetry, ENGL 2510 HU/DV - Masterpieces of Literature, ENGL 2710 HU/DV - Perspectives on Women's Literature, ENGL 2750 HU - Topics and Ideas in the Humanities

Required Courses: 24 credit hours from the following core areas:

Writing: 2 courses

New Technology & Digital Media: 1 course

Working in Organizations: 1 course

Workplace Skills: 1 course

Professionalizing Experience: 1 course

Foreign Language: 2 courses

Writing (Select TWO / for a total of 6 credits: one from Communication, one from English)

COMM 1130 - Media Writing **Credits: (3) OR**

COMM 1140 - Writing for Workplace Communication **Credits: (3) OR**

WSU 2350 QL/HU - Perspectives in Quantitative Literacy and Humanities **Credits: (3-5)** (Writing with Numbers)

ENGL 2100 - Technical Writing **Credits: (3) OR**

ENGL 2120 - Introduction to Writing and Document Design **Credits: (3)**

New Technology and Digital Media (Select ONE / for a total of 3 credits)

COMM 2010 HU - Mass Media and Society **Credits: (3)**
COMM 2250 - Essentials of Digital Media **Credits: (3)**
ENGL 2130 - Media and Technology in Texts **Credits: (3)**

Working in Organizations (Select ONE / for a total of 3 credits)

COMM 2550 - Communication in Professional Settings **Credits: (3)**
ENGL 2150 - Gender and Culture in Workplace Writing **Credits: (3)**

Workplace Skills (Select ONE / for a total of 3 credits)

COMM 1020 HU - Principles of Public Speaking **Credits: (3)** OR
COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** (whichever not counted toward General Studies requirement)

COMM 1270 - Analysis of Argument **Credits: (3)**

COMM 1500 - Introduction to Mass Communication **Credits: (3)** OR
COMM 2010 HU - Mass Media and Society **Credits: (3)**

COMM 1560 - Audio Production and Performance **Credits: (3)**
ENGL 2140 - Introduction to Professional and Technical Editing **Credits: (3)**
ENGL 2160 - Introduction to Web-Based Technical Writing **Credits: (3)**
COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**

Professionalizing Experience (Select ONE / for a total of 3 credits)

COMM 2890 - Cooperative Work Experience for The Signpost **Credits: (1-3)**
COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)**
ENGL 2890 - Cooperative Work Experience **Credits: (1-6)**
ENGL 2999 INT - Capstone in Workplace Communication and Writing **Credits: (3)**
COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)**

Foreign Language: (TWO courses / total of 6 credits)

Complete two semesters of one of the following languages: French, German, Spanish, American Sign Language, Chinese, or Japanese.

Program Learning Outcomes

Writing: Students will demonstrate writing and editing skills appropriate for the workforce.

New Technologies and Digital Media: Students will demonstrate the principles and practices of new technologies and digital media.

Working in Organizations: Students will demonstrate knowledge of how organizations work.

Workplace Skills: Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

Internships: Students will apply workplace skills in a capstone class.

Associate of Science

Workplace Communication and Writing (AS)

By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.

Program Prerequisite: Not required.

Grade Requirements: A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.

Credit Hour Requirements: A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the program detailed below.

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements of this catalog for Associate of Science and Associate of Arts requirements.

General Studies Requirement

Humanities HU (3 credits): Students must take: COMM 1020 HU - Principles of Public Speaking or COMM 2110 HU CEL - Interpersonal and Small Group Communication

Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list: ENGL 2200 HU/DV - Introduction to Literature , ENGL 2220 HU/DV - Introduction to Fiction , ENGL 2230 HU/DV - Introduction to Drama ENGL 2230 HU/DV - Introduction to Drama , ENGL 2240 HU/DV - Introduction to Poetry , ENGL 2250 CA - CW: Introduction to Creative Writing , ENGL 2260 CA - CW: Introduction to Writing Short Fiction , ENGL 2270 CA - CW: Introduction to Writing Poetry , ENGL 2510 HU/DV - Masterpieces of Literature , ENGL 2710 HU/DV - Perspectives on Women's Literature , ENGL 2750 HU - Topics and Ideas in the Humanities

Required Courses: 24 credit hours from the following core areas:

Writing: 2 courses

New Technology and Digital Media: 1 course

Working in Organizations: 2 courses

Workplace Skills: 2 courses

Professionalizing Experience: 1 course

Writing (Select TWO / for a total of 6 credits: one from Communication, one from English)

COMM 1130 - Media Writing **Credits: (3)**

COMM 1140 - Writing for Workplace Communication **Credits: (3)**

WSU 2350 QL/HU - Perspectives in Quantitative Literacy and Humanities **Credits: (3-5)** (Writing with Numbers)

ENGL 2100 - Technical Writing **Credits: (3)** OR

ENGL 2120 - Introduction to Writing and Document Design **Credits: (3)**

New Technology and Digital Media (Select ONE / for a total of 3 credits)

COMM 2010 HU - Mass Media and Society **Credits: (3)**

COMM 2250 - Essentials of Digital Media **Credits: (3)**

ENGL 2130 - Media and Technology in Texts **Credits: (3)**

ENGL 2890 - Cooperative Work Experience **Credits: (1-6)**
ENGL 2999 INT - Capstone in Workplace Communication and Writing **Credits: (3)**
COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)**

Program Learning Outcomes

Writing: Students will demonstrate writing and editing skills appropriate for the workforce.

New Technologies and Digital Media: Students will demonstrate the principles and practices of new technologies and digital media.

Working in Organizations: Students will demonstrate knowledge of how organizations work.

Workplace Skills: Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

Professionalizing Experience: Students will apply workplace skills in a capstone class.

Bachelor of Arts

Film Studies (BA)

Program Prerequisite: Not required.

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for the major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours are required for graduation. Of this total, 61 credit hours in Film Studies are required.

A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).

Program Code: 3085BA

CIPC: 500602

Advisement

All Film Studies majors should meet with the program's director and an advisor in the College of Arts & Humanities advisors early in their course of study. Ashkan Soltani-Stone can be reached at ashsoltanistone@weber.edu. Call 801-626-6631 or email cahadvisor@weber.edu to reach a college advisor.

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the college advisor. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. The following Film Studies courses will also fulfill 3 credit hours each of the General Education requirement in the Creative Arts (CA) and Humanities (HU) categories: THEA 1023 CA, THEA 1033 CA, COMM 2010 HU, and ENGL 2230 HU/DV.

Language Courses Required to fulfill the BA

Film Studies majors must complete *Option 1*: Foreign Language (12 credit hours of a foreign language, refer to the Department of Foreign Languages section of this catalog for additional information on obtaining foreign language credit)

OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students will fulfill the 6 credits of language arts by taking ENGL 3380 - CW: Screenwriting Form and Craft and COMM 3740 - Writing for Screen and Television. These language arts courses will **also** count toward major requirements (see below).

Major Course Requirements for Film Studies BA Degree

Foundation Courses (15 credit hours total)

THEA 1023 CA - Introduction to Film **Credits: (3)**

ART 2750 - Foundations of Video Art **Credits: (3)**

COMM 2010 HU - Mass Media and Society **Credits: (3)**

ENGL 2230 HU/DV - Introduction to Drama **Credits: (3)**

COMM 2250 - Essentials of Digital Media **Credits: (3)**

Required Film Studies Core Curriculum (46 credit hours total)

Department of Communication (18 credit hours)

- COMM 1130 - Media Writing **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 3740 - Writing for Screen and Television **Credits: (3)**
- COMM 3751 - Narrative Digital Filmmaking **Credits: (3)**
- COMM 4751 - Advanced Narrative Digital Filmmaking **Credits: (3)**
- COMM 4750 - Advanced Cinematography and Editing **Credits: (3)**

Department of Visual Art and Design (6 credit hours)

- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)** or
ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**

- ART 3500 - Advanced Time-Based Media/Video Art **Credits: (3)**

Department of Performing Arts (10 credit hours)

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4821 - Pro Tools 110 **Credits: (2)**
- MUSC 3723 - Field Recording/Sound for Picture **Credits: (2)**
- THEA 1033 CA - Introduction to Acting **Credits: (3)**
- THEA 2032 - Lighting Fundamentals **Credits: (3)**

Department of English (9 credit hours)

- ENGL 2250 CA - CW: Introduction to Creative Writing **Credits: (3)** or
ENGL 2260 CA - CW: Introduction to Writing Short Fiction **Credits: (3)** or
ENGL 2270 CA - CW: Introduction to Writing Poetry **Credits: (3)**

- ENGL 3380 - CW: Screenwriting Form and Craft **Credits: (3)**

Film Studies Internship (3 credit hours)

- ENGL 4900 - Internships in Literary and Textual Studies **Credits: (1-3)** or
COMM 4890 INT - Communication Internship **Credits: (1-3)**

Students must complete an internship, and can register for either of the above departmental internship courses in fulfillment of this requirement.

Film Studies Electives (9 credit hours)

Select 9 additional Film Studies elective credits with your advisor. Choosing courses from different departments is recommended.

Department of Communication

- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4500 - Topics in Communication **Credits: (3)**
- COMM 4740 - Advanced Writing for Screen and Television **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**
- COMM 4770 - Digital Documentary Filmmaking **Credits: (3)**

Department of Visual Art and Design

- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**

Department of Performing Arts

- DANC 2610 - Dance and Digital Technology **Credits: (2)**
- THEA 1223 - Stage Makeup **Credits: (3)**

THEA 2012 - Stagecraft **Credits: (3)**
THEA 2403 - Production and Stage Management **Credits: (3)**
THEA 3350 - Marketing and Communication for the Arts **Credits: (3)**
THEA 3500 - Sound Design **Credits: (3)**

Department of English

ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
ENGL 3750 HU - Topics and Ideas in Literature **Credits: (3)**

Department of Foreign Languages

Select one of the following

CHNS 3680 - Literature: Film **Credits: (3)**
FRCH 3680 - Literature: Film **Credits: (3)**
GRMN 3680 - Literature: Film **Credits: (3)**
JPNS 3680 - Literature: Film **Credits: (3)**
PTGS 3680 - Literature: Film **Credits: (3)**
SPAN 3680 - Literature: Film **Credits: (3)**

Jerry and Vickie Moyes College of Education

Dr. Kristin Hadley, Dean

The College of Education is committed to developing and maintaining healthy and responsible individuals, families, and schools in a global and diverse society through roles related to the preparation and support of practitioners and educators, service to campus and community, and the discovery and advancement of knowledge.

Students completing baccalaureate programs in the College of Education will be granted the Bachelor of Science degree. The College also grants Master of Education degrees in Curriculum and Instruction and Master of Science degrees in Athletic Training.

Dean: Dr. Kristin Hadley

Location: David O. McKay Education Building, Room 228

Telephone Contact: Carol VandenAkker, 801-626-6272

Associate Dean: Dr. Cass Griffith

Location: David O. McKay Education Building, Room 228

Telephone Contact: 801-626-6730

Department Chairs/Directors

Child and Family Studies: Dr. Wei Qiu	801-626-7386
Exercise and Nutrition Sciences: Dr. Jennifer Turley	801-626-6933
Graduate Certificate in Teaching: Dr. Pene'e Stewart	801-626-7402
Health, Physical Education, and Recreation: Dr. Chad Smith	801-626-7084
Master of Education: Dr. Louise Moulding	801-626-6278
Teacher Education: Dr. Clay Rasmussen	801-626-7239

Grade Appeal Procedures

The evaluation of student performance is recorded on the student's University transcript as part of the student's permanent record. The grade is determined by the faculty member responsible for the course and is based upon factors related to achievement of the course objectives. The grade is considered final unless an appropriate appeal is filed by the student. For the student who is dissatisfied with a grade and has reason to believe the grade issued is incorrect, the following appeal procedure is provided by the College and the University. Steps 1 and 2 of the process are considered informal appeals and are designed to provide an avenue for resolution without a formal hearing.

Step 1 Within fourteen (14) days of the beginning of the following term, the student shall confer with the instructor who issued the grade and outline the reason/s why he or she believes the grade to be incorrect. (If the faculty member is unavailable, the student must contact the faculty member's chairperson within this same time period to request an extension of the time allowed for this step. Such permission must be obtained in writing.) Within seven (7) days of the student-faculty conference, the faculty member shall advise the student, in writing, of the outcome of the course grade review.

Step 2 If the student still considers the grade to be incorrect, the student may appeal the grade at the department level. This appeal must be in writing, must follow the procedures outlined in the College's Grade Appeal Process document, and must be filed not later than seven (7) days from the date of the completion of step one. The College Grade Appeal Process document may be picked up from the department office or the office of the dean.

Step 3 If, after completion of step 2, the student is still dissatisfied, the student should consult with the University's due process officer and may request that the case be reviewed by a Weber State University hearing committee.

Departments and Programs

Master of Education (MEd)

Director: Louise Moulding

Location: McKay Education Building, Room 225

Telephone Contact: Melinda Bowers 801-626-6278

Web site: weber.edu/meduc

The Master of Education degree (MEd) at Weber State University is a professional program intended to support educators in schools, business, industry, and higher education through advancing the theoretical and practical applications of teaching and leadership. There are multiple emphases from which candidates choose to best fit their needs: Curriculum and Instruction, Educational Leadership, Higher Education Leadership, and Family Life Education. Courses within the emphases are aligned to state and national professional standards, and may lead to advanced licensure. A Graduate Certificate in Educational Leadership is available for candidates who have a master's degree in education and are seeking the administrative/supervisory license only.

Educational Leadership Graduate Certificate

This program is pending approval by the Northwest Commission on Colleges and Universities, which accredits WSU.

If you are seeking a teaching license, please go to the appropriate Graduate Certificate in Teaching page.

Grade Requirements: Following admission to the MEd program, students must maintain an institutional GPA of 3.0. Students must earn at least a B- in all core classes. Students must earn at least a B- in all courses. If students earn a grade that is below a B-, the course must be retaken. Course grades below a C- are unacceptable and could result in removal from the program if the problem persists.

Credit Hour Requirements: The 26-hour program of study consists of professional core specific to educational leadership, including an intensive internship in the K-12 setting. The graduate certificate is intended for those who already hold a master's degree. Courses listed in the Foundations section or equivalent must be on the transcript of the master's degree. If not, some of these may be required.

Program Code: 5058GC

CIPC: 131202

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines are January 15 for Summer semester and May 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

Admission to Weber State University and application for the MEd Program.

Payment of the MEd program application fee.

Verification of a master's degree from an accredited institution based on official transcripts from all institutions attended. If foundational courses were not completed in the master's degree, additional courses may be required.

Overall GPA of 3.25 or 3.25 on most recent 60 semester hours; *If between 3.0 and 3.25, may take the GRE (152 verbal min and 145 quantitative min) or MAT (400 min)

Writing sample score with a minimum of 4 out of 6;

Clear a USOE fingerprint background check;

Hold a Professional Educator License;

Be deemed effective or higher by:

an evaluation system meeting the standards of R277-531; or

the LEA's equivalent on the applicant's most recent evaluation;

Have a recommendation from:

the individual's immediate administrative supervisor; or

an LEA-level administrator with knowledge regarding the individual's potential as an education leader; and

Pass an interview conducted by the program to measure the potential of the individual as an education leader (with a score of 4 out of 6).

Additional Requirements for International Students

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu

TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.

Oral language proficiency assessment.

Weber State University-accepted bachelor's degree.

Courses evaluated into the equivalent of American credits and letter grades.

Contact WSU International Student Services Office and submission of a WSU International Student Application **and** a Graduate Financial Guarantee form.

If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.

Professional Core (26)

MED 6040 - Politics, Policy, and Practices of Education **Credits: (2)**

MED 6100 - Leadership and Organizational Theory **Credits: (2)**

MED 6101 - Assessment and Program Evaluation **Credits: (3)**

MED 6102 - Public Education Finance **Credits: (3)**

MED 6210 - School Law **Credits: (3)**

MED 6600 - Ethical Leadership **Credits: (2)**

MED 6601 - Community Engagement and Advocacy **Credits: (2)**

MED 6602 - Organizational Change and School Improvement **Credits: (3)**

MED 6603 - Positive Academic and Behavior Supports in Schools **Credits: (2)**

MED 6604 - Educational Leader Internship **Credits: (4)**

Foundations (10)

Only required if not previously completed as part of a master's degree.

MED 6000 - Fundamentals of Graduate Study **Credits: (2)**

MED 6010 - Advanced Historical Foundations **Credits: (2)**

MED 6020 - Diversity in Education **Credits: (2)**

MED 6030 - Advanced Educational Psychology **Credits: (2)**

MED 6082 - Educational Inquiry **Credits: (2)**

Master of Education (MEd)

Areas of Emphasis

Select one of the following areas of emphasis

Master of Education (MEd), Curriculum & Instruction Emphasis

Master of Education (MEd), Educational Leadership Emphasis

Master of Education (MEd), Family Life Education Emphasis

Master of Education (MEd), Higher Education Leadership Emphasis

Curriculum and Instruction: The Master of Education with an emphasis in Curriculum and Instruction is designed for candidates seeking more in-depth knowledge and skill for classroom instruction. In addition to foundation courses, students may select from a variety of electives including courses leading to license endorsements. Candidates will complete a classroom or school-based project as a culminating experience.

Educational Leadership: The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for a School Leadership license.

Family Life Education: This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

Higher Education Leadership: The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines are January 15 for Summer semester and May 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

Admission to Weber State University and application for the MEd Program.

Payment of the MEd program application fee.

Verification of a bachelor's degree from an accredited institution.

Official transcripts from all institutions attended.

Recommendation forms (3).

Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.

or

Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) **or** 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.

Writing proficiency assessment with a minimum score of 4 out of 6.

Interview with Master of Education faculty members with a score of 4 out of 6.

Additional Requirements for Educational Leadership Emphasis

In addition to the above, those seeking admission to the Educational Leadership emphasis must also

Clear a USOE fingerprint background check;

Hold a Professional Educator License;

Be deemed effective or higher by:

an evaluation system meeting the standards of R277-531; or

the LEA's equivalent on the applicant's most recent evaluation;

4. Have a recommendation from:

the individual's immediate administrative supervisor; or

an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

Additional Requirements for International Students

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu

TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.

Oral language proficiency assessment.

Weber State University-accepted bachelor's degree.

MED 6807 - Parenting **Credits: (2)**

Master of Education (MEd), Higher Education Leadership Emphasis

The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

Program Code: 5056MED with Emphasis in 5060 (Higher Education Leadership)

CIPC: 131202

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines are January 15 for Summer semester and May 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

Admission to Weber State University and application for the MEd Program.

Payment of the MEd program application fee.

Verification of a bachelor's degree from an accredited institution.

Official transcripts from all institutions attended.

Recommendation forms (3).

Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.

or

Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) **or** 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.

Writing proficiency assessment with a minimum score of 4 out of 6.

Interview with Master of Education faculty members (with a score of 4 out of 6).

Additional Requirements for International Students

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu

TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.

Oral language proficiency assessment.

Weber State University-accepted bachelor's degree.

Courses evaluated into the equivalent of American credits and letter grades.

Contact WSU International Student Services Office and submission of a WSU International Student Application **and** a Graduate Financial Guarantee form.

If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.

GPA Requirements for all MED Students

Following admission to the MED program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Course Requirements

The 37-hour program of study consists of 12 credit hours of foundation courses, 25 credit hours of professional core specific to higher education leadership, including either an internship in two higher education settings or a project.

Foundations (12)

MED 6000 - Fundamentals of Graduate Study **Credits: (2)**

MED 6010 - Advanced Historical Foundations **Credits: (2)**

MED 6020 - Diversity in Education **Credits: (2)**

MED 6030 - Advanced Educational Psychology **Credits: (2)**

MED 6040 - Politics, Policy, and Practices of Education **Credits: (2)**

MED 6082 - Educational Inquiry **Credits: (2)**

Professional Core (21)

MED 6100 - Leadership and Organizational Theory **Credits: (2)**

MED 6101 - Assessment and Program Evaluation **Credits: (3)**

MED 6102 - Public Education Finance **Credits: (3)**

MED 6210 - School Law **Credits: (3)**

MED 6700 - Higher Education Administration **Credits: (3)**

MED 6701 - Current Issues in Higher Education **Credits: (2)**

MED 6702 - Organizational Change and Human Resource Management **Credits: (3)**

MED 6703 - Group Dynamics **Credits: (2)**

Culminating Experience (4)

MED 6704 - Higher Education Internship **Credits: (2)** Must be taken twice for a total of 4 credits

Or

MED 6085 - Developing a Project Proposal **Credits: (2)** and

MED 6090 - Master's Project **Credits: (2)**

Exercise and Nutrition Sciences Department

Department Chair: Jennifer Turley, PhD

Location: Reed K. Swenson Building, Room 302

Telephone Contact: Jennifer Sumner 801-626-6741

Professors: Rodney Hansen, Jennifer Turley; **Assistant Professors:** David Aguilar-Alvarez, Cory Butts, Saori Hanaki, Damon Joyner, Stacie Wing-Gaia

Exercise and Nutrition Sciences (ENS) in the Jerry & Vickie Moyes College of Education offers programs that teach skills and knowledge needed to maintain and enhance human performance and well-being through exercise, fitness, sport, and optimal nutrition. We offer undergraduate students exceptional educational experiences in a variety of teaching environments supported by faculty with diverse expertise. Our state-of-the-art facilities - including fully equipped laboratories (biomechanics, human performance, nutritional biochemistry, and foods), a networked computer lab, and ample

indoor and outdoor fitness and activity arenas - provide outstanding areas for student instruction and research. With a curriculum designed to develop professional knowledge and skills, our graduates enter the workforce as fitness and nutrition professionals in a variety of educational, health and fitness settings, and are prepared to pursue graduate studies in their respective career fields.

Through instruction, scholarship and service, our department offers Bachelor of Science degrees in Exercise and Sport Science (Fitness Professional and Exercise Science emphases) and Nutrition Education (Integrative Nutrition and Sports Nutrition emphases) and a Nutrition Education minor. We also support the efforts of undergraduates seeking the Bachelor of Integrated Studies degree, offering Exercise Science and Nutrition Education and as emphases for the BIS Program.

Mission Statement

The Department of Exercise and Nutrition Sciences (ENS) supports and enhances the mission of the University through learning, access, and community partnerships in exercise and nutrition sciences. We provide effective instruction, exploratory research, and engaged service to prepare exercise, fitness, and nutrition professionals for the workforce and graduate studies and to promote optimal health, human performance, and overall well-being.

Exercise and Nutrition Science Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Exercise and Sport Science (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Exercise and Sport Science with two emphasis options: Fitness Professional and Exercise Science. Students may declare one or both emphases. The Exercise and Sport Science major program prepares students for a variety of career options, several national certifications, and for entering graduate and professional schools.

Graduates will have demonstrated competence and knowledge in anatomy, physiology, fitness assessment, kinesiology, biomechanics, exercise physiology, exercise programming and implementation, exercise leadership and client education, nutrition, health, strength and conditioning, weight lifting, aerobic activities, and more.

Program Prerequisite: Not required.

Minor: Not required.

Grade Requirements: A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a total of 63 credit hours for this major. Ten to 11 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required for graduation with 36-38 upper division hours possible within the required courses for this major.

Program Code: 5049BS

CIPC: 310505

Advisement

All Exercise and Sport Science students are encouraged to meet with a faculty advisor or the department advisement coordinator each semester for course and program advisement. Call 801-626-6696 or email the ENS Department Advisor matthewsmith20@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Make application with the ENS Department and declare program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Major Course Requirements for BS Degree

Required Core Courses (24 credit hours, 16 UD)

AT 2300 - Emergency Response **Credits: (3)**

ESS 2200 - Exploring Exercise Science Professions **Credits: (2)**

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**

ESS 3450 - Structural Kinesiology **Credits: (3)**

ESS 3500 - Biomechanics **Credits: (3)**

ESS 3510 - Exercise Physiology **Credits: (3)**

ESS 3600 - Measurement and Statistics in Exercise Science **Credits: (3)**

ESS 4370 - Clinical Exercise Physiology **Credits: (3)**
ESS 4990 - Senior Seminar **Credits: (1)**

Professional Areas of Emphasis

A student must complete the required and support courses in either the Fitness Professional or the Exercise Science Emphasis.

Fitness Professional Emphasis (39 credit hours, 20 UD possible)

Required Core (23 credit hours, 20 UD)

HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
HLTH 3200 - Methods in Health Education **Credits: (3)**
NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**

NUTR 3020 - Sports Nutrition **Credits: (3)** or
NUTR 4420 - Nutrition and Fitness **Credits: (3)**

PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**

ESS 2890 INT - Cooperative Work Experience **Credits: (1-6)**
ESS 4890 INT - Cooperative Work Experience **Credits: (1-6)**
(5 credit hours required)

PS 3203 - Customer Service Techniques **Credits: (3)** or
PS 3563 - Principles of Sales Supervision **Credits: (3)**

Skill Development (select 2) (2 credit hours total, 0 UD)

PE 1010 - Aerobics, Level I **Credits: (1)**
PE 1040 - Walking for Fitness, Level I **Credits: (1)**
PE 1043 - Jogging, Level I **Credits: (1)**
PE 1070 - Cross Training For Fitness, Level I **Credits: (1)**
PE 1080 - Strength Training, Level I **Credits: (1)**
PE 1300 - Swimming, Level I **Credits: (1)**

Required Support Courses (14 credit hours, 0 UD)

HTHS 1110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
HTHS 1111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
CHEM 1010 PS - Introductory Chemistry **Credits: (3)**

Exercise Science Emphasis (39 credits, check requirements for UD)

Required Electives (Choose 24 credits from College and Professional Development)

College (ENS & HPER) (At least 12 credits, 6-16 UD possible)

AT 2430 - Prevention and Care of Musculoskeletal Injuries **Credits: (3)**
NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**

NUTR 3020 - Sports Nutrition **Credits: (3)** or
NUTR 4420 - Nutrition and Fitness **Credits: (3)**

NUTR 4320 - Current Issues in Nutrition **Credits: (2)**
PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
PEP 4800 - Individual Projects **Credits: (1-4)**

Professional Development (3-12 credits, 3-12 UD possible)

CHEM 1110 PS - Elementary Chemistry **Credits: (5)**
CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (5)**
CHEM 1210 PS - Principles of Chemistry I **Credits: (5)**
CHEM 1220 - Principles of Chemistry II **Credits: (5)**
CHEM 2310 - Organic Chemistry I **Credits: (4)**

CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
MICR 2054 LS - Principles of Microbiology **Credits: (4)**
MICR 3203 - The Immune System in Health & Disease **Credits: (3)**
PHYS 2010 PS - College Physics I **Credits: (5)**
PHYS 2020 - College Physics II **Credits: (5)**
PSY 3010 - Abnormal Psychology **Credits: (3)**
ZOOL 1110 LS - Principles of Zoology **Credits: (4)**
ZOOL 3200 - Cell Biology **Credits: (4)**
ZOOL 3300 - Genetics **Credits: (4)**

Required Support Courses (15 credit hours, 0 UD)

HTHS 1110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
ZOOL 2100 - Human Anatomy **Credits: (4)**

HTHS 1111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
ZOOL 2200 LS - Human Physiology **Credits: (4)**

MATH 1050 QL - College Algebra **Credits: (4)** or higher level math
NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**

Exercise Science (BIS)

Bachelor of Integrated Studies

Grade Requirements: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

Credit Hour Requirements: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion

Occupational Health Education

Clinical Health Education (*See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)

Family Life Health Promotion

Gerontological Health Promotion

Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis

Dietary Prescription

Nutrition Education

Weight Management

Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport

Corporate Fitness

Community Fitness

Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Exercise Science Emphasis

Upper Division Hours 13, Total Hours Required 18

HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)**
ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
ESS 3450 - Structural Kinesiology **Credits: (3)**
ESS 3500 - Biomechanics **Credits: (3)**
ESS 3510 - Exercise Physiology **Credits: (3)**
ESS 4370 - Clinical Exercise Physiology **Credits: (3)**
ESS 4990 - Senior Seminar **Credits: (1)**

Nutrition Education (BIS)

Program Prerequisite: Prior departmental approval is required.

Grade Requirements: A GPA of 2.5 or better in courses used toward the minor.

Credit Hour Requirements: A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).

Program Code: 5015

CIPC: 190504

Course Requirements for BIS Emphasis

Required Core Courses (7-9 credit hours)

NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
NUTR 4830 - Directed Readings **Credits: (1-3)**

Elective Courses (9-11 credit hours)

NUTR 1120 - Nutrition for the Athlete **Credits: (2)**
NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
NUTR 3020 - Sports Nutrition **Credits: (3)**
NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
NUTR 3420 - Multicultural Health & Nutrition **Credits: (3)**
NUTR 4320 - Current Issues in Nutrition **Credits: (2)**
NUTR 4420 - Nutrition and Fitness **Credits: (3)**
NUTR 4520 - Directed Undergraduate Nutrition Research **Credits: (1-4)**
NUTR 4860 INT - Field Experience **Credits: (1-2)**
NUTR 2020 - Nutrition in the Life Cycle **Credits: (3)**
NUTR 3040 - Nutrition Assessment **Credits: (3)**
NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
NUTR 3070 - Advanced Food Science **Credits: (3)**
NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**

Nutrition Education (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Nutrition Education with two emphasis options: Sports Nutrition; and Integrative Nutrition. Students may declare one or both emphases. The Nutrition Education major program prepares students for a variety of career options and for graduate school to pursue advanced degrees.

The Sport's Nutrition Educator graduate will have demonstrated competence and knowledge in chemistry, anatomy, physiology, diet analysis and design, nutrition assessment, sports and fitness nutrition, diet therapy, lifespan nutrition, research, and related exercise science topics with cultural application and sensitivity for individuals and athletes. Information is provided for typical graduate Registered Dietitian Nutritionist (RDN) program pre-requisites. The prerequisites vary somewhat from one graduate program to another and it is the student's responsibility to ensure that all pre-professional courses fulfill entrance requirements.

Integrative nutrition includes nutrition as it intersects with other related fields to support health and wellbeing of individuals and groups. The Integrative Nutrition Educator graduate will have demonstrated competence and knowledge in diet analysis and design, fitness nutrition, lifespan nutrition, sustainable cooking, and related exercise science, health, child and family studies, botany, microbiology, physical education, recreation, and/or psychology topics with cultural application and sensitivity.

Program Prerequisites: Not required.

Minor: Not required.

Grade Requirements: A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a total of 60 credit hours for this major. This includes 12-17 credit hours of required general education requirements. A total of 40 upper division credit hours are required for graduation with 29-30 upper division hours possible within the required courses for the major track options.

Program Code: 5015BS with Integrative Nutrition Emphasis (5052) or Sports Nutrition Emphasis (5053)

CIPC: 190504

Advisement

All Nutrition Education students are encouraged to meet the ENS department academic advisor at least twice a year. Call 801-626-6696 or send a message to matthewsmith20@weber.edu for more information or to schedule an appointment. Also refer to the Department Advisor Referral List.

Admissions Requirements

Make application with the ENS Department and declare the program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Major Course Requirements for BS Degree (60 credit hours)

Complete the Nutrition Education required core, select the Integrative Nutrition emphasis and/or Sports Nutrition emphasis and complete the required, elective, and general education and support courses in the selected emphasis.

Nutrition Education Required Core Courses (15 credit hours, 9 Upper Division credits)

NUTR 2020 - Nutrition in the Life Cycle **Credits:** (3)

NUTR 2320 - Food Values, Diet Design and Health **Credits:** (3)

NUTR 3020 - Sports Nutrition **Credits:** (3)

NUTR 3420 - Multicultural Health & Nutrition **Credits:** (3)

NUTR 4320 - Current Issues in Nutrition **Credits:** (2)

NUTR 4990 - Senior Seminar **Credits:** (1)

INTEGRATIVE NUTRITION Emphasis

Required General Education Courses (14-17 credit hours, 0 Upper Division, 17 General Education)

CHEM 1210 PS - Principles of Chemistry I **Credits:** (5) or

CHEM 1110 PS - Elementary Chemistry **Credits:** (5)

HLTH 1030 SS - Healthy Lifestyles **Credits:** (3)

NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits:** (3)

PSY 1010 SS - Introductory Psychology **Credits:** (3) or

CHF 1500 SS/DV - Human Development **Credits:** (3)

COMM 1020 HU - Principles of Public Speaking **Credits:** (3) or

COMM 1500 - Introduction to Mass Communication **Credits:** (3) or

COMM 2010 HU - Mass Media and Society **Credits:** (3) or

COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits:** (3)

Required Courses (5 credit hours, 2 Upper Division credits)

NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits:** (3)

NUTR 4860 INT - Field Experience **Credits:** (1-2) (2 credits required)

Electives (23 credit hours required, 23 Upper Division credits possible, check requirements for Upper Division)

AT 3080 - Statistics and Evidence-Based Practice **Credits:** (3)

BTNY 2303 - Ethnobotany **Credits:** (3)

BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**
CHF 3150 - Consumer Rights and Responsibilities **Credits: (3)**
CHF 4400 - The Family in Stress **Credits: (3)**

COMM 3820 - Persuasive Communication **Credits: (3)** or
PS 3250 - Business Communication **Credits: (3)** or

Additional Suggested Courses Needed for many Graduate Registered Dietitian programs (includes General Education)

ECON 1010 SS - Economics as a Social Science **Credits: (3)** or
 ECON 2010 SS - Principles of Microeconomics **Credits: (3)** or
 SOC 1010 SS/DV - Introduction to Sociology **Credits: (3)** or
 PSY 1010 SS - Introductory Psychology **Credits: (3)**

ENGL 2010 EN - Intermediate College Writing **Credits: (3)**
 MATH 1040 QL - Introduction to Statistics **Credits: (3)**
 MATH 1050 QL - College Algebra **Credits: (4)**
 PHYS 1010 PS - Elementary Physics **Credits: (3)**
 ZOOL 1020 LS - Human Biology **Credits: (3)**

Nutrition Education Minor

Program Prerequisite: Prior departmental approval is required.

Grade Requirements: A GPA of 2.5 or better in courses used toward the minor.

Credit Hour Requirements: A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).

Program Code: 5015

CIPC: 190504

Course Requirements for Minor

Required Core Courses (11 credit hours)

NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
 NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
 NUTR 3420 - Multicultural Health & Nutrition **Credits: (3)**
 NUTR 4320 - Current Issues in Nutrition **Credits: (2)**

Elective Courses (7 credit hours)

Select 7 credit hours from the following:

NUTR 1120 - Nutrition for the Athlete **Credits: (2)**
 NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
 NUTR 3020 - Sports Nutrition **Credits: (3)**
 NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**
 NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
 NUTR 4420 - Nutrition and Fitness **Credits: (3)**
 NUTR 4520 - Directed Undergraduate Nutrition Research **Credits: (1-4)**
 NUTR 4860 INT - Field Experience **Credits: (1-2)**
 NUTR 2020 - Nutrition in the Life Cycle **Credits: (3)**
 NUTR 4440 - Advanced Human Nutrition **Credits: (3)**

NUTR 3040 - Nutrition Assessment **Credits: (3)**
NUTR 3070 - Advanced Food Science **Credits: (3)**

Department of Child and Family Studies

Department Chair: Wei Qiu

Location: McKay Education Building, Room 204

Telephone Contact: Danielle Orozco 801-626-7151

Advisor: Darcy Gregg 801-626-6411

Professors: Chloe Merrill, Wei Qiu, Paul Schvaneveldt; **Associate Professors:** Mark Adams, Sheila Anderson, Teri Henke, Carrie Ota; **Assistant Professors:** Alex Collopy, Charles Dunn, Daniel Hubler, Keith Osai

The Department of Child and Family Studies offers a broad personal and professional education by providing majors in the following areas: Early Childhood (Bachelor's and Associate of Applied Science), Early Childhood Education, and Family Studies. Minors in Child Development and Family Studies are also offered. Child and Family Studies is also an area available for a Bachelor of Integrated Studies (BIS).

Learning is enhanced by the Melba S. Lehner Children's School where preschool laboratory experience is provided for practical application. Practical experience is built into all areas of study. Honors credit is available for students who desire greater depth. Preparation for graduate study can be pursued in any area represented in the department.

Child and Family Studies Department Policies

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

The Child and Family Studies Department will only accept two non-articulated transfer courses for the major/minor.

If a grade in a Child and Family Studies major/minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. The Retention & Referral Policy can be found at https://www.weber.edu/wsuiimages/chfam/CHF_Retention18.pdf.

All students with a major/minor in Child & Family Studies are strongly encouraged to contact the department academic advisor in McKay Education Building room 248 (801-626-6411) early in their academic career for advisement and declaration of a major and/or minor.

Students must undergo a background check and be fingerprinted for major and course requirements.

Early Childhood Laboratory

The Melba S. Lehner Children's School serves as an early childhood laboratory to give students practical experience in early childhood environments. Students must complete Child and Family Studies prerequisite major courses at a B- level or better and apply to the Director of the Melba S. Lehner Children's School two semesters prior to student teaching. Other practical experience can be arranged with a faculty advisor.

Double Major

Early Childhood and Elementary Education

Students wanting licensure in both Early Childhood Education and Elementary Education are encouraged to complete a double major. All course requirements must be completed for both majors, which include only one semester of student teaching EDUC 4840A/B INT - Student Teaching in Elementary Education and EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis. Students will complete the Early Childhood Education requirements. Please see the CHF department academic advisor for additional coursework and information.

Child and Family Studies (BIS)

Grade Requirements: An overall GPA of 2.00 or C in courses used toward the emphasis. Students will receive the final grade they have earned in each course. If a grade in a Child & Family Studies major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

Credit Hour Requirements: A minimum of 18 credit hours from Child and Family Studies to include 6 hours of required courses and 12 hours of electives. Two courses (6 credits) must be upper division (3000 level or above).

Program Code: 5054

CIPC: 190704

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

Required Courses (6 credit hours)

CHF 1500 SS/DV - Human Development **Credits: (3) ***

CHF 2400 SS/DV - Family Relations **Credits: (3)**

Note:

** If taken for Social Science general education credit, CHF course (3 credits) must be added.*

Electives (minimum 12 credit hours)

Elective courses to be determined in conference with a department advisor.

At least six credit hours must be upper-division (courses numbered 3000 and higher).

Child and Family Studies Departmental Honors

Please see <https://portalapps.weber.edu/honors/default.aspx> for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Child Development Minor

Grade Requirements: A grade of C or better in courses used toward the minor.

Credit Hour Requirements: A minimum of 18 credit hours, of which at least 6 must be upper division courses (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.

Program Code: 5001

CIPC: 190706

To be allowed to work with children in the Melba S. Lehner Children's School for lab practicum, students must have clearance of criminal background check approved by the Utah Department of Health, Child Care Licensing Program. Look for more information on the Weber State University Fingerprinting Office website (www.weber.edu/fingerprinting).

Course Requirements for Minor

Required Courses (12 credit hours)

CHF 2500 - Development of the Child **Credits: (3)**

CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)** (*lab required*)

CHF 3570 - Infants and Toddlers: Development and Practice **Credits: (3)**

CHF 3500 - Young Children at Risk **Credits: (3)**

Electives (6 credit hours)

Select at least two courses from the following

CHF 2400 SS/DV - Family Relations **Credits: (3)**

CHF 2600 - Introduction to Early Childhood Education **Credits: (3)**

CHF 2620 - Planning Creative Experiences for Young Children **Credits: (3)** (*lab required*)

CHF 3350 - Diverse Families **Credits: (3)**

CHF 3550 - Parenting Education **Credits: (3)**

CHF 3640 - Working with Parents **Credits: (3)**

CHF 4130 - Language Development and Emergent Literacy in Early Childhood **Credits: (3)**

CHF 4300 - Latino Child and Family Development **Credits: (3)**

CHF 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**

CHF 4860 INT - Practicum **Credits: (1-6)** (3 credit hours required)

Note:

For students seeking the Child Development minor with a Family Studies bachelor's degree, the required courses will change. Students must have 18 credits beyond their major for a minor in Child Development. See the department advisor located in the McKay Education Building, Room 248 (801-626-6411).

Early Childhood (AAS)

Program Prerequisite: Before beginning this program, a student must see the department advisor in McKay Education Building Room 248 (801-626-6411).

Grade Requirements: A cumulative GPA of 2.50 and a grade of B- or better in required major courses. Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.

Credit Hour Requirements: A total of 63 credit hours is required for graduation; 28 of these are required within the major.

Program Code: 5000AAS

CIPC: 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. CHF 1500 will fulfill both a major and general education requirement and is prerequisite to most Child and Family Studies Department major courses.

Major Course Requirements for AAS Degree

Child & Family Studies Courses Required (minimum of 28 credit hours)

- CHF 1500 SS/DV - Human Development **Credits: (3)**
- CHF 2400 SS/DV - Family Relations **Credits: (3)**
- CHF 2500 - Development of the Child **Credits: (3)**
- CHF 2600 - Introduction to Early Childhood Education **Credits: (3)**
- CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)**
- CHF 2620 - Planning Creative Experiences for Young Children **Credits: (3)**
- CHF 2670 - STEM and Approaches to Learning in Early Childhood **Credits: (3)**
- CHF 2860 INT - Practicum **Credits: (2-6)** (3 credit hours required)
- CHF 2890 INT - Cooperative Work Experience **Credits: (3)** (3 credit hours required)
- CHF 2990A - Seminar in Child Development **Credits: (1)** *

Note:

* Should be taken in the last semester of the program.

Electives (minimum 18 credit hours)

Select 18 additional credit hours with the approval of an advisor. Seek additional depth in Child and Family Studies and also select courses from across campus to enhance teaching competency in the areas of Art, Science, Literature, Music, Health & First Aid, etc.

Note:

Advisors will suggest specific appropriate courses. Students should work closely with an advisor if they are planning to go on for a future Early Childhood baccalaureate or a teaching certificate.

Early Childhood (BS)

Students preparing to work in childhood programs or agencies serving young children that do not require a teaching certificate graduate with a major in Early Childhood.

Students who wish to obtain certification to teach in kindergarten through 3rd grade graduate with a major in Early Childhood Education. (See Early Childhood Education description.)

Program Prerequisite: Not required.

Minor: Required. In lieu of a minor, a specialization of 15 credit hours may be substituted as approved by the department. Six of these hours must be upper division (courses numbered 3000 or above).

Grade Requirements: Students must have a grade of B- or better in each required major course in addition to a cumulative GPA of 2.50 or higher for all college courses. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 51 of these are required within the major. A minimum of 40 credit hours must be upper division (courses numbered 3000 and above); 30 of these are required within the major.

Program Code: 5000BS

CIPC: 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411).

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411.

To be allowed to work with children in the Melba S. Lehner Children's School for student teaching, students must have clearance of criminal background check approved by the Utah Department of Health, Child Care Licensing Program. Look for more information on the Weber State University Fingerprinting Office website (www.weber.edu/fingerprinting).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. CHF 1500 (3) will satisfy a general education requirement and is prerequisite to most major courses. GEOG 1300 or GEOG 1520 is recommended.

Major Course Requirements for BS Degree

Pre Core Course Required (3 credit hours)

CHF 1500 SS/DV - Human Development Credits: (3)

Note:

(This course will satisfy a general education requirement.)

Core Courses Required (48 credit hours)

CHF 2400 SS/DV - Family Relations Credits: (3)

CHF 2500 - Development of the Child Credits: (3)

CHF 2600 - Introduction to Early Childhood Education Credits: (3)

CHF 2610 - Guidance Based on Developmental Theory Credits: (3)

CHF 2620 - Planning Creative Experiences for Young Children Credits: (3)

CHF 3500 - Young Children at Risk Credits: (3)

CHF 3570 - Infants and Toddlers: Development and Practice Credits: (3)

CHF 3640 - Working with Parents Credits: (3)

CHF 4130 - Language Development and Emergent Literacy in Early Childhood Credits: (3)

CHF 4670 - STEM and Approaches to Learning in Early Childhood Credits: (3)

CHF 4710 - Advanced Guidance and Planning for Early Childhood Education Credits: (3) *

CHF 4720 INT - Student Teaching in the Children's School Credits: (3-6) (6 credit hours required) *

CHF 4730 - Early Childhood/Early Childhood Education Program Development Credits: (3)

CHF 4890 - Cooperative Work Experience Credits: (3) (3 credit hours required)

CHF 4990A - Seminar in Child Development Credits: (3)

Note:

* Taken concurrently. Students are encouraged to apply two semesters prior to student teaching in the Melba S. Lehner Children's School.

In addition

Students must complete an advisor-approved specialization of 15 hours or advisor-approved minor.

Early Childhood Education (BS)

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with certification for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Students preparing to teach a Pre-K early care and education program, Head Start, or a Kindergarten to 3rd grade classroom of a public school graduate with a major in Early Childhood Education. Early Childhood Education students meet the requirements of Elementary Education K-6 License Track with specialization in Early Childhood. They double major in both Early Childhood Education and Elementary Education and are eligible for receiving a second license to teach from kindergarten through 6th grade (K-6).

Program Prerequisite: Students must have completed at least 36-38 credit hours of required prerequisite support courses and meet all other Teacher Education admission requirements. (See Department of Teacher Education in this catalog.)

Minor: Not required. Early Childhood is the specialization.

Grade Requirements: Early Childhood Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 3.00 or higher in all college work. Early Childhood Education students take two groups of required courses: Early Childhood Education courses and Elementary Education Professional Education Courses (Teacher Education Levels). Students must receive a grade

of B- or better in all required Early Childhood Education courses. A grade of "B-" or better is required in all Teacher Education Professional Education courses. If a grade in an Early Childhood Education course does not meet the minimum requirement for graduation, the student may retake the course once. If the student retakes a course, the student will receive the grade earned in the second course attempt. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade. Early Childhood Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015, and MATH 2020.

Credit Hour Requirements: A minimum of 120 credit hours is required for a bachelor's degree; 109-111 of these are required within the major.

Program Code: 5002BS

CIPC: 131210

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Early Childhood Education majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

To be allowed to work with children in the Melba S. Lehner Children's School for student teaching, students must have clearance of criminal background check approved by the Utah Department of Health, Child Care Licensing Program. Look for more information on the Weber State University Fingerprinting Office website (www.weber.edu/fingerprinting).

General Education

See Degree Requirements for Bachelor of Science requirements. The following courses required for the Early Childhood Education major will also satisfy general education requirements: COMM HU 1020 or COMM HU CEL 2110, GEOG SS/DV 1300 OR GEOG SS/DV 1520, MATH QL 2020, and CHF SS/DV 1500.

Students pursuing a BS degree must take 9 credit hours, at least 3 credit hours from Life Sciences and at least 3 credit hours from Physical Sciences. One of the courses must be GEO PS 1350 (Principles of Earth Science), PHYS PS 1360 (Principles of Physical Science), BTNY LS 1370 (Principles of Life Science), or at least one science course with lab.

Major Course Requirements for BS Degree

Pre Core Course Required (3 credit hours)

CHF 1500 SS/DV - Human Development **Credits: (3)**

Note:

(This course will satisfy a general education requirement.)

Core Courses Required (30 credit hours)

CHF 2500 - Development of the Child **Credits: (3)**

CHF 2600 - Introduction to Early Childhood Education **Credits: (3)**

CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)**

CHF 2620 - Planning Creative Experiences for Young Children **Credits: (3)** (Taken with Level 1 courses)

CHF 3500 - Young Children at Risk **Credits: (3)** or

EDUC 2010 CEL - Human Exceptionality **Credits: (3)**

CHF 3640 - Working with Parents **Credits: (3)**

CHF 4710 - Advanced Guidance and Planning for Early Childhood Education **Credits: (3) ***

CHF 4720 INT - Student Teaching in the Children's School **Credits: (3-6)** (6 credit hours required) *

CHF 4990A - Seminar in Child Development **Credits: (3)**

Note:

*CHF 4710 and CHF 4720 are taken concurrently in fall or spring semester, typically between Level 1 and Level 2. Students are encouraged to apply two semesters prior to student teaching in the Melba S. Lehner Children's School.

Support Courses Required (24-25 credit hours)

EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

GEOG 1300 SS/DV - Places and Peoples of the World **Credits: (3)** or
GEOG 1520 SS/DV - Geography of the United States and Canada **Credits: (3)**

MATH 2010 - Arithmetic for Teachers **Credits: (3)**
MATH 2015 - Algebra and Functions for Teachers **Credits: (3)**
MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)**
ENGL 3300 - Children's Literature **Credits: (3)**

At least one course from the following:

ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)**
MUSC 3824 - Music for Elementary Teachers **Credits: (4)**
THEA 4603 - Creative Drama **Credits: (3)**

Professional Education Courses Required (53 credit hours)

Admission to teacher education is required prior to enrollment in Professional Education courses. The Level course changes will begin Fall 2018 and will show up in Cattracks for the 2018-2019 catalog year.

Level 1 (10 credit hours)

EDUC 3116 - Media Integration in Elementary Education Settings 1 **Credits: (1)**
EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching **Credits: (3)**
CHF 2620 - Planning Creative Experiences for Young Children **Credits: (3) ***

Note:

* Credits of CHF 2620 are counted under "Core Courses Required."

A Semester Between Level 1 and Level 2

CHF 4710 - Advanced Guidance and Planning for Early Childhood Education **Credits: (3) ***
CHF 4720 INT - Student Teaching in the Children's School **Credits: (3-6) ***
CHF 4990A - Seminar in Child Development **Credits: (3) ***

Note:

* Credits of CHF 4710, CHF 4720, and CHF 4990A are counted under "Core Courses Required." CHF 4990A may be taken concurrently with CHF 4710 and CHF 4720, or at a later time.

Level 2 (14 credit hours)

EDUC 3100 - Instructional Planning & Assessment **Credits: (3)**
EDUC 3117 - Media Integration in Elementary Education Settings 2 **Credits: (1)**
EDUC 3210 INT - Elementary Level II Practicum **Credits: (2)**
EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy **Credits: (2)**
EDUC 3240 - Reading Instruction in the Intermediate Grades **Credits: (3)**
EDUC 4345 - Elementary Integrated Arts Methods **Credits: (3)**

Level 3 (17 credit hours)

EDUC 3280 - Elementary Social Studies Methods **Credits: (3)**
EDUC 4210 INT - Elementary Level III Practicum **Credits: (3)**
EDUC 4320 - Elementary Language Arts Methods **Credits: (3)**
EDUC 4330 - Elementary Science Methods **Credits: (3)**
EDUC 4350 - Elementary Mathematics Pedagogy **Credits: (2)**
PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers **Credits: (3)**

Level 4 (12 credit hours)

EDUC 4840A/B INT - Student Teaching in Elementary Education **Credits: (8)**
EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis **Credits: (4)**

Note:

The Professional Education component of the Early Childhood Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken most of the required Support courses prior to entering the program. Because of the possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Family Studies (BS)

Program Prerequisite: (1) Complete the Pre-professional Core courses listed in the next column under Major Course Requirements; (2) Declare your Family Studies major with the department academic advisor; (3) Complete a background check and clearance (see Policy Notes).

Minor: A minor is required. * **Optional:** In lieu of a minor, a specialization of 12-18 semester hours may be substituted as approved by the department advisor. Six of these hours must be upper division (courses numbered 3000 and above).

Grade Requirements: A grade of C or better in courses required for this major (a grade of C- is not acceptable). Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. Also refer to the grade requirements for graduation under General Requirements.

Credit Hour Requirements: A total of at least 120 credit hours is required for graduation; a minimum of 48 of these must be within the major. A total of 40 upper division credit hours is required by the University (courses numbered 3000 and above); 33 of these are required within the major.

Program Code: 5003BS

CIPC: 190704

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). To be eligible for acceptance into and graduation from the Family Studies Program a candidate must:

Complete all of the Pre-professional Core courses listed under Course Requirements.

Declare the Family Studies major with the department academic advisor.

Complete a background check and clearance (see Policy Notes).

Policy Notes

Since students majoring in Family Studies will be working with families and children, the State of Utah requires a background check and clearance. Applicants must be fingerprinted and complete a background check before being fully accepted into the program. A handout available from the department secretary explains the procedure and nominal expenses. Background checks require up to eight weeks and should be completed, or in progress, at the time Family Studies Program courses are begun. See the department secretary for further details.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

** Family Studies students may combine their major with either a minor or a dual major. Consult with an advisor when designing a dual major. Minors may be selected from department minor offerings across campus. Typical minors include Psychology, Sociology, Gerontology, Social Work, Communications, and/or Business. A minor should be designed to best support personal goals or career directions. The Family Studies program fulfills the requirements for provisional certification as a Family Life Educator, available by application and paid fee to the National Council on Family Relations. Full certification requires two years of paid professional experience in addition to the Family Studies degree. Provisional certification allows five years to complete the two-year requirement.*

Major Course Requirements for BS Degree

Pre-professional Core Course Requirements (12 credit hours)

CHF 1400 - Marriage and Romantic Relationships **Credits: (3)**

CHF 1500 SS/DV - Human Development **Credits: (3)**

CHF 2100 - Family Resource Management **Credits: (3)**

CHF 2400 SS/DV - Family Relations **Credits: (3)**

Family Studies Professional Core Block Courses Required (36 semester hours)

The course sequence is designed to allow a Family Studies major to meet all program prerequisites and complete the program in three full-time semesters without conflicting class schedules. Taking classes outside of the stated semesters will delay graduation.

Block Courses Semester 1

- CHF 2990B - Seminar in Family Studies **Credits: (3)**
- CHF 3850 - Current Research Methods in Child and Family Studies **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- CHF Elective Course 1--(Choose one of the electives listed below.) **Credits: (3)**

Block Courses Semester 2

- CHF 3350 - Diverse Families **Credits: (3)**
- CHF 3550 - Parenting Education **Credits: (3)**
- CHF Elective Course 2--(Choose one of the electives listed below.) **Credits: (3)**
- CHF Elective Course 3--(Choose one of the electives listed below.) **Credits: (3)**

Block Courses Semester 3

- CHF 4650 - Family Life Education Methods **Credits: (3)**
- CHF 4860 INT - Practicum **Credits: (1-6)** (3 credit hours required)
- CHF 4990B - Senior Seminar in Family Studies **Credits: (3)**
- CHF Elective Course 4--(Choose one of the electives listed below.) **Credits: (3)**

Elective Courses (You may choose four of the following courses for a total of 12 credit hours required for this major degree)

- CHF 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- CHF 3400 - Development in Middle Adulthood **Credits: (3)**
- CHF 3450 - Adult Development **Credits: (3)**
- CHF 3650 - Family Processes **Credits: (3)**
- CHF 4300 - Latino Child and Family Development **Credits: (3)**
- CHF 4310 - Understanding the Modern United States Military Family **Credits: (3)**
- CHF 4400 - The Family in Stress **Credits: (3)**
- CHF 4450 - Children and Families in the Medical Setting **Credits: (3)**
- CHF 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**
- CHF 4660 - Advanced Skills for Family Life Educators **Credits: (3)**

Note:

Students who are planning to apply to a graduate program are strongly encouraged to take a statistics course. See the Department of Child and Family Studies academic advisor for a list of appropriate classes.

Family Studies Minor

Grade Requirements: An overall GPA of 2.00 or C in courses used toward the minor.

Credit Hour Requirements: Minimum of 18 credit hours, of which at least 6 must be upper division (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

Program Code: 5003

CIPC: 190704

Course Requirements for Minor

Required Courses (9 credit hours)

- CHF 1400 - Marriage and Romantic Relationships **Credits: (3)**
- CHF 1500 SS/DV - Human Development **Credits: (3)**
- CHF 2400 SS/DV - Family Relations **Credits: (3)**

Faculty Advisor Approved Elective Courses (9 credit hours)

Select 9 credit hours from the following with at least 6 credit hours of upper-division (courses numbered 3000 and higher)

- CHF 2100 - Family Resource Management **Credits: (3)**
- CHF 2500 - Development of the Child **Credits: (3)**

CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)**
CHF 3150 - Consumer Rights and Responsibilities **Credits: (3)**
CHF 3350 - Diverse Families **Credits: (3)**
CHF 3450 - Adult Development **Credits: (3)**
CHF 3500 - Young Children at Risk **Credits: (3)**
CHF 3550 - Parenting Education **Credits: (3)**
CHF 3640 - Working with Parents **Credits: (3)**
CHF 3650 - Family Processes **Credits: (3)**
CHF 3850 - Current Research Methods in Child and Family Studies **Credits: (3)**
CHF 4300 - Latino Child and Family Development **Credits: (3)**
CHF 4400 - The Family in Stress **Credits: (3)**
CHF 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**
CHF 4650 - Family Life Education Methods **Credits: (3)**

Note:

For students using the Family Studies minor with an Early Childhood degree, the required courses will change. Students must have 18 credits beyond their major for a minor in Family Studies. See the department advisor located in the McKay Education Building, Room 248 (801-626-6411).

Department of Health, Physical Education, and Recreation

Department Chair: Dr. Chad Smith

Location: Reed K. Swenson Building, Room 307B

Telephone Contact: Marcia Kawa 801-626-6691

Professors: Michael Olpin, Chris Eisenbarth; **Associate Professors:** Cass Griffith, Chad Smith, James Zagrodnik; **Assistant Professors:** Mandy King, Lisa Meerts-Brandsma, Linnette Wong, Ryan Zimmerman; **Instructors:** Christina Aguilar, Jonathan Griffith

The Department of Health, Physical Education, and Recreation (HPER) in the Jerry and Vickie Moyes College of Education offers programs that promote lifelong wellness from a variety of disciplines. The teaching environment, supported by faculty with diverse expertise, creates quality learning communities that offer undergraduates exceptional educational experiences. The state-of-the-art facilities - including 6-lane swimming pool, ample indoor and outdoor recreational, fitness, sport and activity areas, and indoor climbing wall - provide an outstanding arena for student instruction. With a curriculum designed to develop professional knowledge and skills, graduates from the department are prepared to work in a variety of educational, health and recreational settings.

Through instruction, scholarship and service, the department of Health, Physical Education, and Recreation offers Bachelor of Science degrees in health promotion, outdoor and community recreation, and physical education. Minors include coaching sport, health promotion and health promotion teaching, physical education/coaching, and recreation. In addition, the department offers undergraduate and graduate programs for the department of teacher education, the master of education program, and supports Weber State University and community wellness related activities.

The department also supports the efforts of under graduates seeking the bachelor of integrated studies degree, offering health promotion, physical education/coaching, and recreation/leisure services as emphases for the BIS Program.

Mission Statement

The Department of Health, Physical Education, and Recreation inspires future professionals by providing high quality education through an innovative, engaged learning experience.

Health Administrative Services Minor, Health Promotion Emphasis

Health Administrative Services Minor

Grade Requirements: A grade of "C" or better in courses used toward the minor.

Credit Hour Requirements: Between 16 and 24 credit hours depending on emphasis.

Program Code: Health Administrative Services (2004), Health Information Management (2006), Long-Term Care (2005)

CIPC: Health Administrative Services (510701), Health Information Management (510706), Long-Term Care (510718)

Course Requirements for Health Promotion Emphasis

Required Courses (16 credit hours)

HAS 3000 - The Healthcare System **Credits: (3)**

HAS 3150 - Introduction to Public Health **Credits: (3)** or

HLTH 3150 - Community Health Agencies and Services **Credits: (3)**

HLTH 3000 - Foundations of Health Promotion **Credits: (3)**

HLTH 3200 - Methods in Health Education **Credits: (3)** *

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)**

Elective Courses (6 credit hours minimum)

HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
HLTH 1110 - Stress Management **Credits: (3)**
HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)**
HLTH 2700 - Consumer Health **Credits: (3)**
HLTH 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
HLTH 3420 - Multicultural Health and Nutrition **Credits: (3)**
HLTH 3500 - Human Sexuality **Credits: (3)**
HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**

Health Promotion (BIS)

Bachelor of Integrated Studies

Grade Requirements: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

Credit Hour Requirements: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion

Occupational Health Education

Clinical Health Education (*See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)

Family Life Health Promotion

Gerontological Health Promotion

Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis

Dietary Prescription

Nutrition Education

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport

Corporate Fitness

Community Fitness

Sports Medicine

Sport Communication

Commercial/Facility Management

Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Health Promotion Emphasis

21 Credit Hours Total Required

Required Courses (13 credits)

HLTH 1030 SS - Healthy Lifestyles **Credits: (3)** * OL

HLTH 3000 - Foundations of Health Promotion **Credits: (3)** ** OL

HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)** *** OL

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)** *** OL

Elective Courses (8-9 credits)

HLTH 1110 - Stress Management **Credits: (3)** OL & IS

HLTH 2400 - Mind/Body Wellness **Credits: (3)**

HLTH 2700 - Consumer Health **Credits: (3)** OL

HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**

HAS 3150 - Introduction to Public Health **Credits: (3)** IS

HLTH 3160 - Principles of Health Behavior **Credits: (3)**

HLTH 3200 - Methods in Health Education **Credits: (3)** ***

HLTH 3400 - Substance Abuse Prevention **Credits: (3)** OL

HLTH 3500 - Human Sexuality **Credits: (3)** OL

HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)** OL

HLTH 4700 - Wellness Coaching **Credits: (3)**

Notes:

OL = Online option available some semesters

IS = Independent Study option available some semesters

**If this pre-requisite course is used to fulfill the Social Science General Education requirement, the three credit hours cannot be counted in the BIS Health Promotion emphasis 21 credit hour requirements.*

***This course can be taken after completing the HLTH 1030 pre-requisite.*

****This course can be taken after completing the HLTH 1030 and HLTH 3000 pre-requisite.*

Health Promotion (BS)

Program Prerequisite: Acceptance into the program (see Admission Requirements below).

Minor: Not Required.

Grade Requirement: A grade of "C" or better in all major coursework, in addition to a minimum cumulative GPA of 2.50.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 53-55 of these are required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above); a minimum of 37 of these is required within the major.

Program Code: 5013BS

CIPC: 512207

Advisement

The Academic Advisor for the Department of Health, Physical Education, and Recreation (HPER), Brittini Strickland, assists HPER students with advisement prior to admission to the Health Promotion program, and through completion of their program of study. Brittini can be contacted by phone (801-626-7425), email (BrittiniStrickland@weber.edu) or online (through the Department Advisor Referral List) for more information or to schedule an appointment. Students also are encouraged to meet with program faculty for additional course and program advisement.

Admission Requirements

Before a student can be considered for the Health Promotion program, the following application requirements must be met:

Admission to Weber State University.

Completion of 25 credit hours with a minimum 2.50 Weber State University GPA. Of these 25 credits, the students must demonstrate completion of: HLTH 1030, and, HTHS 1110 or ZOOL 1020.

Grade "C" or better in all major coursework.

Declare your program of study with the HPER Academic Advisor.

Retention Requirements

After students are selected into the Health Promotion major, retention in the program will be based on the following criteria:

Grade "C" or better in all major coursework.

Students must maintain a GPA of 2.5 or higher in all courses required for this major.

Students who fail to meet the retention criteria will be placed on probation in the Health Promotion major for one semester. If standards are not met by the end of the probationary period, the student may be dismissed from the major at the discretion of the Program Director.

Students who receive any grade below a "C" in a course counting toward the Health Promotion major must repeat that course and receive a grade of "C" or higher to remain in the major.

Failure to repeat the course (when offered) will result in dismissal from the program at the discretion of the Program Director.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Graduates of the program are eligible to sit for the Certified Health Education Specialist (CHES) examination with a minimum of 25 semester hours in health courses.

Major Course Requirements for BS Degree

Prerequisite Courses Required (6-7 credit hours)

HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

HTHS 1110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or

ZOOL 1020 LS - Human Biology **Credits: (3)**

Courses Required (32 credit hours)

HAS courses are described in the Dr. Ezekiel R. Dumke College of Health Professions

HLTH 3000 - Foundations of Health Promotion **Credits: (3)**

HLTH 3200 - Methods in Health Education **Credits: (3)** *

HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)**

HLTH 4860 INT - Field Experience **Credits: (1-6)** (3 credit hours required)

HLTH 4990 - Senior Seminar **Credits: (1)**

HAS 3000 - The Healthcare System **Credits: (3)**

HAS 3150 - Introduction to Public Health **Credits: (3)**

HAS 3190 - Cultural Diversity in Patient Education **Credits: (3)** or

NUTR 3420 - Multicultural Health & Nutrition **Credits: (3)**

HAS 3230 - Health Communication **Credits: (3)**

HIM 3200 - Epidemiology and Biostatistics **Credits: (3)**

Professional Block

Minimum of 9 credit hours, must be approved by advisor. These courses may also be used as electives.

- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 2700 - Consumer Health **Credits: (3)**
- HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HAS 3020 - Healthcare Marketing **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 4320 - Healthcare Economics and Policy **Credits: (3)**

Elective Courses (15 credit hours)

- AT 3600 - Ergonomics for Health and Safety **Credits: (2)**
- HLTH 1110 - Stress Management **Credits: (3)**
- AT 1300 - First Aid: Responding to Emergencies **Credits: (2)**
- AT 2300 - Emergency Response **Credits: (3)**
- HLTH 3050 - School Health Program **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- HLTH 4220 - Women's Health Issues **Credits: (3)**
- HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- HLTH 4700 - Wellness Coaching **Credits: (3)**
- HLTH 4800 - Individual Projects **Credits: (1-3)**
- HLTH 4860 INT - Field Experience **Credits: (1-6)** (3 credit hours required)
- HLTH 4920 - Short Courses, Workshops, Institutes and Special Programs **Credits: (1-4)** (1 credit hour required)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- HAS 4410 - Clinical Instructional Design and Evaluation **Credits: (3)** *
- HAS 4420 - Clinical Instructional Skills **Credits: (3)**
- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- GERT 3000 - Death and Dying **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**

Note:

**HAS 4410 may be substituted for HLTH 3200.*

Health Promotion and Human Performance Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Health Promotion Teaching Minor

Grade Requirements: A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.

Credit Hours Requirements: Minimum of 21 credit hours.

Program Code: 5016

CIPC: 131307

Courses Required for Minors Seeking Teaching Certification

Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

- HLTH 1110 - Stress Management **Credits: (3)** or
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**

- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**

Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking AT 1300 - First Aid: Responding to Emergencies (2) , AT 2175 - Introduction to Sports Medicine (3) (through concurrent enrollment), or AT 2300 - Emergency Response (3).

Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course. A teaching major and the Teaching Education Professional knowledge courses are required for teacher certification. Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. The minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.

Health Promotion: (Community, Worksite, Clinical, School) Minor

Grade Requirements: A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.

Credit Hours Requirements: Minimum of 22 credit hours.

Program Code: 5013

CIPC: 512207

Required Courses (13 credit hours)

HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

HLTH 3000 - Foundations of Health Promotion **Credits: (3)**

HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)**

Electives

Select 9 credit hours from the following

HLTH 1110 - Stress Management **Credits: (3)**

HLTH 2400 - Mind/Body Wellness **Credits: (3)**

HLTH 2700 - Consumer Health **Credits: (3)**

HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**

HLTH 3160 - Principles of Health Behavior **Credits: (3)**

HLTH 3200 - Methods in Health Education **Credits: (3)**

HLTH 3400 - Substance Abuse Prevention **Credits: (3)**

HLTH 3500 - Human Sexuality **Credits: (3)**

HLTH 4220 - Women's Health Issues **Credits: (3)**

HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)**

HLTH 4800 - Individual Projects **Credits: (1-3)**

HLTH 4860 INT - Field Experience **Credits: (1-6)**

HLTH 2890 INT - Cooperative Work Experience **Credits: (1-6)**

HLTH 4890 INT - Cooperative Work Experience **Credits: (1-6)**

HLTH 4920 - Short Courses, Workshops, Institutes and Special Programs **Credits: (1-4)**

Courses Required for Minors Seeking Teaching Certification

Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.

NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**

HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

HLTH 1110 - Stress Management **Credits: (3)**

HLTH 2400 - Mind/Body Wellness **Credits: (3)**

HLTH 3000 - Foundations of Health Promotion **Credits: (3)**

HLTH 3200 - Methods in Health Education **Credits: (3)**

HLTH 3400 - Substance Abuse Prevention **Credits: (3)**

HLTH 3500 - Human Sexuality **Credits: (3)**

Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking AT 1300 - First Aid: Responding to Emergencies (2 credits), AT 2175 - Introduction to Sports Medicine (through concurrent enrollment), or AT 2300 - Emergency Response (3 credits).

Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course.

A teaching major and the Teaching Education Professional Knowledge courses are required for teacher certification.

Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES

examination eligibility requirements. This minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.

Outdoor and Community Recreation Education (BS)

Program Prerequisite: Not required.

Minor: Not required.

Grade Requirements: A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a total of 62 credit hours for this major. Nine to 10 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required with 36-39 upper division hours possible within the required courses for this major.

Program Code: 5046BS with Emphasis 5047 (Outdoor Recreation Administration) or 5048 (Community Recreation Administration) or 5055 (Outdoor Recreation Entrepreneurship)

CIPC: 310601

Advisement

All Outdoor and Community Recreation Education students are encouraged to meet with a faculty advisor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment.

Admission Requirements

Make application with the HPER Department and declare program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Major Requirements for BS Degree

Required Core Courses (42 credit hours)

OCRE 2500 - Introduction to Outdoor Pursuits **Credits: (4)**

OCRE 2890 INT - Cooperative Work Experience **Credits: (1-9)** 2 credits are required

OCRE 3050 - Recreation and Leisure in Society **Credits: (3)**

OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**

OCRE 3300 - Inclusive and Adaptive Recreation **Credits: (3)**

OCRE 3320 - Adventure Programming **Credits: (3)**

OCRE 3520 - Risk Management and Legal Issues in Recreation Services **Credits: (3)**

OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**

ESS 3600 - Measurement and Statistics in Exercise Science **Credits: (3)**

OCRE 4300 - Trends and Ethical Issues in Recreation Services **Credits: (3)**

OCRE 4890 INT - Cooperative Work Experience **Credits: (1-6)** 6 credits are required

WEB 2220 - Digital Publishing **Credits: (3)**

PS 3203 - Customer Service Techniques **Credits: (3)**

Professional Areas of Emphasis

A student must complete the required and support courses in one of the three emphases: Outdoor Recreation Administration, Community Recreation Administration, or Outdoor Recreation Entrepreneurship.

Outdoor Recreation Administration Emphasis

Required Core (18 credit hours)

AT 2300 - Emergency Response **Credits: (3)**

OCRE 3400 - Outdoor Equipment Production and Retailing **Credits: (3)**

OCRE 3450 - Adventure Travel and Sustainable Tourism **Credits: (3)**

OCRE 3900 - Commercial Outdoor Recreation **Credits: (3)**

OCRE 4020 - Nature Interpretation **Credits: (3)**

OCRE 4550 - Outdoor Education Philosophies & Principles **Credits: (3)**

2 Elective credits hours from REC

- REC 1316 - Stand-Up Paddleboard **Credits: (1)**
- REC 1350 - Scuba Diving, Level I **Credits: (1)**
- REC 1351 - Scuba Diving, Level II **Credits: (1)**

Physical Education (BIS)

Bachelor of Integrated Studies

Grade Requirements: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

Credit Hour Requirements: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion

Occupational Health Education

Clinical Health Education (*See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)

Family Life Health Promotion

Gerontological Health Promotion

Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis
Dietary Prescription
Nutrition Education
Weight Management
Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Physical Education Emphasis

24 Credit Hours Total Required

Complete the following Required Courses (16 credit hours)

PEP 2000 - Foundations of Physical Education **Credits: (3)**
PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
PEP 3520 - Curriculum and Assessment **Credits: (2)**
PEP 3520L - Curriculum and Assessment Lab **Credits: (1)**
PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3) ***

Note:

**May not be taken until all other requirements have been met.*

In addition, four of the following courses are required. (9 Credit hours)

PEP 3630 - Methods of Teaching Elementary School Physical Education **Credits: (3)**
PEP 3660 - Adapted Physical Education **Credits: (3)**
PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**
PEP 4710 - Methods of Teaching High School Physical Education **Credits: (3)**
PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**

Admission Requirements

Students must meet with Academic Advisor to review requirements for BIS in PEP. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

Declared major or minor or BIS in a Physical Education or Coaching Education program.

Minimum cumulative GPA of 2.75.

Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.

Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Student must adhere to the Health, Physical Education, and Recreation Department 'Student Conduct Policy' available online at <http://www.weber.edu/wsuiimages/HPER/StudentCode/HPERStudentCode.pdf>

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

- Minimum cumulative GPA of 2.85.
- Earned grade of C- or above for each required course.
- Clear fingerprinting/background check.
- Retention/improvement of sport specific and fitness skills.
- Student Disposition score above 20 in each course.

General Education

Refer to Degree and General Education Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 1110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements.

Physical Education (BS)

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

Physical Education Non-teaching Track students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below.

Program Prerequisite: Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Physical Education Teaching Track requires a teaching minor.

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.

Program Code: Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)

CIPC: Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittiniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

Declared major or minor or BIS in a Physical Education or Coaching Education program.

Minimum cumulative GPA of 2.75.

Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.

Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

Minimum cumulative GPA of 3.0.

Earned grade of "C" or above for each required course.

Clear fingerprinting/background check.
Retention/improvement of sport specific and fitness skills.
Student Disposition score above 20 in each course.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

General Education courses required for the Physical Education major are:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 1110 BioMed Core

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

PEP 2000 - Foundations of Physical Education **Credits: (3)**

PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**

ESS 3450 - Structural Kinesiology **Credits: (3)**

ESS 3510 - Exercise Physiology **Credits: (3)**

PEP 3520 - Curriculum and Assessment **Credits: (2)**

PEP 3520L - Curriculum and Assessment Lab **Credits: (1)**

PEP 3660 - Adapted Physical Education **Credits: (3)**

Field Experience (3 credit hours)

PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Methods of Teaching Courses (15 credit hours)

PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**

PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**

PEP 3630 - Methods of Teaching Elementary School Physical Education **Credits: (3)**

PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**

PEP 4710 - Methods of Teaching High School Physical Education **Credits: (3)**

Students choosing the Non-teaching Physical Education Track are required to take an additional 12 credits of the following courses:

PEP 2100 - Introduction to Coaching Sport **Credits: (3)**

PEP 2500 - Sport Pedagogy **Credits: (3)**

PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**

PEP 3400 - Sport Psychology for Coaches **Credits: (3)**

ESS 4620 - Leadership Concepts for Human Performance Management **Credits: (3)**

PEP 4830 - Directed Readings **Credits: (1-3)**

OCRE 3050 - Recreation and Leisure in Society **Credits: (3)**

OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**

OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**

NUTR 3020 - Sports Nutrition **Credits: (3)**

NUTR 4420 - Nutrition and Fitness **Credits: (3)**

Physical Education Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Physical Education Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 1110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must apply for Physical Education program admittance by November 10 or March 10 of their **first** semester of taking Physical Education Professional [PEP] courses. Applications are available from the Physical Education Program Director. In addition, students applying for the Teaching Track must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). In addition, students applying for the Physical Education Specialization grades 1-8 *must also meet the Teacher Education* admission and licensure requirements. Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4830, PEP 4860C, or PEP 4990 until admission requirements have been met.

Admission requirements include:

Declared major or minor or BIS in a Physical Education or Coaching Education program.

Minimum cumulative GPA of 2.75.

Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.

Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

Minimum cumulative GPA of 3.0.

Earned grade of "C" or above for each required course.

Clear fingerprinting/background check.

Retention/improvement of sport specific and fitness skills.

Student Disposition score above 20 in each course.

Telephone Contact: Lisa Karle 801-626-7171

Advisement Contacts: Kristin Radulovich 801-626-6309; Brogan Stampick 801-626-6636

Professors: Melina Alexander, David Byrd, Michael Cena, Forrest Crawford, Kristin Hadley, Jack Mayhew, Louise Moulding, Peggy Saunders, Pene'e Stewart, Shernavaz Vakil, Natalie Allen Williams; **Associate Professors:** Vincent Bates, Shirley Dawson, DeeDee Mower, Clay Rasmussen, Sheryl Rushton; **Assistant Professors:** Caitlin Byrne, Ryan Cain, Sun Young Lee, Andrea Martinez, Katarina Pantic, Daniel Pyle, Stephanie Speicher, Yimin Wang

The major purpose of the professional education programs in teacher education is to prepare candidates for teaching in elementary and secondary schools. Preparation is also provided for teachers of students with mild to moderate disabilities with the special education mild/moderate license. The department prepares students for endorsements in Mathematics, ESL (English as a Second Language), Dual Language Immersion, Basic Reading (graduate level only), and Education of the Gifted (graduate level only). All programs are accredited through the Teacher Education Accreditation Council (TEAC).

The preparation for teaching falls academically within four major categories: University General Education, support courses, subject specialization, and professional education.

University General Education requirements -- In selecting courses to satisfy the general education requirements, candidates should note the general education courses recommended and/or required in their major and/or professional education requirement sheets available in the Teacher Education Advisement Center (ED 230).

Support courses

Specializations are required of all elementary candidates. Elementary education majors have two track options; K-6 and 1-8. The K-6 track requires one 9 credit specialization and a 9 credit early childhood specialization while the 1-8 track requires a 18 credit specialization or a teaching minor. The professional education program outlines acceptable subject specialization areas and requirements. Special Education majors choose one 9-hour specialization or a teaching minor. Secondary candidates completing a teaching major may be required to complete a teaching minor (refer to the teaching major program requirements). The teaching major and teaching minor must be in subjects taught in Utah public secondary schools.

Professional Education courses help the prospective teacher learn about children, the nature of the learning process, and how to provide desirable learning experiences. To meet licensure requirements, secondary school candidates are required to complete a minimum of 24 semester hours of professional course work; 55 semester hours are required of the prospective elementary school teacher.

Professional course work in the program is organized into sequential levels. As students move through the program, they are required to demonstrate in a variety of ways the knowledge, skills and dispositions that embody the department's organizing theme and program model.

It is important that interested students contact the Teacher Education Advisement Center (ED 230) as quickly as they decide to become a teacher.

Specific program admission requirements, required courses, and recommended general education course work are available.

Admission to Teacher Education

Admission to the Teacher Education Programs is a separate process from general university admission. The Teacher Education programs maintain a competitive admissions process. **Applicants are provisionally admitted each semester after submitting their application materials and meeting the minimum admission criteria listed below.** Students are admitted two times per year: fall semester and spring semester. Applicants are evaluated by cumulative GPA and admission interview score.

Minimum Admission Requirements

Formal Application submitted online by the deadline date.

At least 40 semester hours of general education and relevant prerequisite courses.

Those intending to teach Special Education or teach at the elementary level, please note:

*The Professional Education component of the Special Education major and the Elementary Education major requires **four semesters** to complete. Therefore, it is **very important** that candidates have completed the General Education requirements and have taken most of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.*

Those intending to teach at the secondary level, please note:

*The Professional Education component of the Secondary Education program requires **two semesters** to complete. Therefore, it is **very important** that candidates have completed the General Education requirements and most of the teaching major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.*

Passing the appropriate Praxis II Content test or passing the ACT with the composite score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19 is required for all programs. The Utah State Office of Education specifies the passing score for each test. **Students will not be considered for admission if they do not meet the state specified passing score on the Praxis II or ACT.**

Sign up for an interview in the Advisement Center when you turn in application materials (the schedule will be available approximately one (1) month prior to the interview dates).

Composition general education requirement completed (grade "C" or above in ENGL 2010 EN, or equivalent).

Quantitative Literacy requirement completed (see General Requirements in this catalog).

Note: Elementary, Special Education, and Early Childhood Education majors need MATH 1050 as prerequisite for Mathematics Education support courses.

Communication competency completed (grade "B-" or above in COMM 1020 or COMM 2110 or equivalent).

University Computer and Information Literacy competency completed (see General Requirements in this catalog).

EDUC 1010 Exploring Teaching or approved equivalent course completed.

Teacher Education also recognizes specific program and diversity needs of professional education and reserves the right to consider such factors in the admission of candidates.

For teacher education applicants who are English language learners, an additional requirement of 6.5 on each of the four sections of the International English Language Testing System (IELTS) test is required for admission.

Additional Notes

Fingerprinting/background check must be completed immediately after being admitted. Go to the following link for more information:
<https://weber.edu/fingerprinting>

Students are provisionally admitted to a specific teacher education program: (1) early childhood education; (2) elementary education; (3) special education; (4) secondary education.

Provisional admission to a specific program is valid for a period of five years. If a student has not completed the program within the five-year period or desires to pursue a different program, he/she must seek readmission under the current admission standards and complete current course/program requirements. Changes in state licensure requirements may necessitate more immediate program changes.

Professional education credits older than five years at the time of program admission generally will not be counted. However, students may revalidate outdated course work by following procedures available in the Teacher Education Advisement Center, ED 230.

A Graduate Certificate in Teaching is also available through the Master of Education program.

Applicants who hold Bachelor's degrees older than five years and who have not had more recent relevant course work or work experiences related to their major and minor must take at least two courses in their major and one course in their minor as designated by the academic department.

Applicants with an earned graduate degree seeking initial licensure must satisfactorily complete requirements 1, 2, 4, and 5. They are then placed in the pool with others seeking provisional admission.

Data are collected on students admitted to the Teacher Education program for the purposes of national accreditation and program improvement. No personal information is used in this process.

Early Childhood Education Major

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with licensure for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Requirements are listed under the Department of Child and Family Studies. See Room ED 248 for additional information.

Elementary Education Major

Students preparing to teach in elementary schools graduate with a major in Elementary Education. The elementary education major has a K-6 track and a 1-8 track.

The Teacher Education Advisement Center and faculty advisors from the Department of Teacher Education are available to advise prospective teachers. A program requirement sheet is available from the Teacher Education Advisement Center in Room 230 in the McKay Education Building. It is to the student's advantage to begin program planning early.

Interdisciplinary Minors

The Teacher Education Department participates in the interdisciplinary Linguistics Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Basic Reading Endorsement

Level I—Basic Reading Endorsement

These courses will meet the requirement for a Level I Basic Reading Endorsement to be added to the Elementary or Secondary Education licensure. The Teacher Education Department provides the courses required for these two endorsements but does not give the endorsement. It is the teacher's responsibility to submit application to the USOE (<http://www.usoe.k12.ut.us>) for the reading endorsement. The USOE does the endorsing after reviewing the student's application and coursework.

Course Requirements for Elementary Reading Endorsement

- MED 6360 - Foundations of Literacy **Credits: (3)**
- MED 6320 - Content Area Literacy Instruction **Credits: (3)**
- MED 6330 - Using Children's Literature and Informational Text in the Classroom **Credits: (2)**
- MED 6340 - Reading Assessment and Instructional Interventions **Credits: (3)**
- MED 6350 - Reading Comprehension Instruction **Credits: (3)**
- MED 6352 - Early Literacy Instruction (K-6) **Credits: (2)**
- MENG 6110 - Writing for Teachers **Credits: (3)**

Course Requirements for Secondary Reading Endorsement

- MED 6360 - Foundations of Literacy **Credits: (3)**
- MED 6320 - Content Area Literacy Instruction **Credits: (3)**
- MED 6340 - Reading Assessment and Instructional Interventions **Credits: (3)**
- MED 6350 - Reading Comprehension Instruction **Credits: (3)**
- MED 6353 - Understanding and Supporting Reading Development (grades 6-12) **Credits: (3)**
- MENG 6110 - Writing for Teachers **Credits: (3)**
- MENG 6210 - Teaching Literature in the Secondary Schools **Credits: (3)**

Level II—Advanced Reading Endorsement

- MED 6354 - Literacy Leadership and Professional Development **Credits: (2)**
- MED 6355 - Research in Reading **Credits: (3)**
- MED 6356 INT - Internship in Reading **Credits: (3)**

Dual Language Immersion Endorsement

This program will meet the requirements for the Dual Language Immersion Endorsement to be added to the Elementary or Secondary Education licensure. Students must also demonstrate language proficiency at the Advanced Mid or higher Level, as determined by the Foreign Language Department.

These courses taken at the graduate level may also be used as electives for the MED degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (15 credit hours)

Graduate students should contact the MED director for approved substitutions.

- EDUC 3375 - Foundations of Dual Immersion or Immersion Education **Credits: (3)** (MED 6375)
- EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment **Credits: (3)** (MED 6415)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**
- FL 4400 - Methods for Teaching Languages **Credits: (5)**
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education **Credits: (2)** *

Note:

* EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.

Note:

It is recommended that candidates for the Dual Language Immersion Endorsement also complete the ESL Endorsement with the following courses:

- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

Education (AS)

The Associate of Science degree (AS) in Education is a two-year program designed to prepare students for the elementary or special education bachelors programs. Students completing this program will develop skills and get the hands-on experience necessary to be accepted into the professional courses offered at the university level. Course work will satisfy the General Education requirements for the first two years of a bachelor's degree in elementary or special education. Specific requirements for the bachelor's degrees in elementary education and special education can be found at Department of Teacher Education.

Credit Hour Requirements: A total of 60 credit hours are required for graduation; 24 of these are required Education-related and support courses and 36 are required general education courses.

Program Code: 5025AS

CIPC: 139999

Advisement

All students should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-6309 for more information or to schedule an appointment. See weber.edu/COE/tedadvice.html

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the AS in Education will also fulfill general education requirements: CHF SS/DV 1500, COMM HU 1020 or COMM HU CEL 2110, GEOG SS/DV 1300 or GEOG SS/DV 1520, MATH QL 2020. It is recommended that students fulfill the Computer and Information Literacy Part D requirement with LIBS 2604/EDUC 2604.

Major Course Requirements for AS Degree

Required Education-related Courses (30-31 credit hours)

EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

EDUC 2010 CEL - Human Exceptionality **Credits: (3)**

CHF 1500 SS/DV - Human Development **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3) OR**

COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

ENGL 3300 - Children's Literature **Credits: (3)**

GEOG 1300 SS/DV - Places and Peoples of the World **Credits: (3) OR**

GEOG 1520 SS/DV - Geography of the United States and Canada **Credits: (3)**

MATH 2010 - Arithmetic for Teachers **Credits: (3)** *grade of C or above*

MATH 2015 - Algebra and Functions for Teachers **Credits: (3)** *grade of C or above*

MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *grade of C or above*

AND one of the following:

ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)** Can not double count as Gen Ed

DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)**

EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**

MUSC 3824 - Music for Elementary Teachers **Credits: (4)**

THEA 4603 - Creative Drama **Credits: (3)**

Required Support Courses (15 credit hours)

Select 6 credit hours from the following, with at least 3 from Creative Arts (don't duplicate departments):

Humanities

ENGL 2200 HU/DV - Introduction to Literature **Credits: (3)**

ENGL 2220 HU/DV - Introduction to Fiction **Credits: (3)**

ENGL 3510 HU/DV - World Literature **Credits: (3)**

MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**

Creative Arts

ART 1010 CA - Introduction to the Visual Arts **Credits: (3)**
ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
DANC 1010 CA/DV - Introduction to Dance **Credits: (3)**
MUSC 1040 CA/DV - Music of World Cultures **Credits: (3)**
THEA 1033 CA - Introduction to Acting **Credits: (3)**

Select 3 credit hours from the following to satisfy the science with a lab requirement (may not duplicate departments):

GEO 1350 PS - Principles of Earth Science **Credits: (3)** **OR**
CHEM 1360 PS - Principles of Physical Science **Credits: (3)** or PHYS PS 1360 **OR**
BTNY 1370 LS - Principles of Life Science **Credits: (3)** or MICR LS 1370 or ZOOLOGY LS 1370

Select 6 additional credit hours from the General Education Physical Science and Life Science requirements.

Required Track-Specific Support Courses (6 credit hours)

Grades K-6 Track

CHF 2500 - Development of the Child **Credits: (3)**
CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)**

Grades 1-8 Track

6 Credits in Specialization Area
Mathematics (Elementary Ed endorsement)
English as a Second Language (ESL)

Special Education Track

6 Credits in Specialization Area
Mathematics
Reading/Language Arts
ESL
Early Childhood
Family Studies
English (Secondary Emphasis)

Education of the Gifted Endorsement

These courses may also be used as electives for the MEd Degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (14 credit hours)

MED 6420 - Foundations of Education of the Gifted **Credits: (3)**
MED 6440 - Social and Emotional Needs of the Gifted **Credits: (2)**
MED 6480 - Differentiated Curriculum for the Gifted **Credits: (3)**
MED 6490 - Assessment and Evaluation in Education of the Gifted **Credits: (3)**
MED 6495 - Action Research in Education of the Gifted **Credits: (3)**

Elective (at least 2 credit hours)

Select one of the following options:

MED 6450 - Creativity and Applied Imagination **Credits: (2)**
MED 6470 - Teaching for Thinking **Credits: (2)**
Approved graduate credit through professional development course of conference

Elementary Education (BS)

Program Prerequisite: Provisional admission to a Teacher Education Program (see the admission requirements described under the Department of Teacher Education).

Minor/Specialization: K-6 Early childhood education (9 credit hours) and another area (9 credit hours); **Grades 1-8** One-subject area specialization (18 credit hours) or a teaching minor (16 credit hours minimum) must be selected.

Grade Requirements: Elementary Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each professional education course to continue in the program. Elementary Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015 and MATH 2020.

Credit Hour Requirements: A minimum of 120 credit hours is required for graduation; a minimum of 46 of these is required within the Elementary Education major. A total of 40 upper division credit hours is required (courses number 3000 and above).

Program Code: 5005BS

CIPC: 131202

Admission Requirements

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department.

Advisement

All Elementary Education majors should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-6309 for more information or to schedule an appointment.

For Elementary Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Subject Area Specialization; and IV. Professional Education Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Elementary Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, GEOG SS/DV 1300 OR GEOG SS/DV 1520, MATH QL 2020 and CHF 1500. Meeting the general education science requirements may not meet elementary education science requirements. Following the suggested guidelines below will assure that both University general education and Elementary Education requirements are met.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be PS1350 (Principles of Earth Science), PS1360 (Principles of Physical Science), or LS1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree resulting in a K-6 License

II. Support Courses Required (or equivalent) (27-29 credit hours)

CHF 1500 SS/DV - Human Development **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or

COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

EDUC 2010 CEL - Human Exceptionality **Credits: (3)**

Note: Elementary Education and Early Childhood Education Double Majors may fulfill this requirement with CHF 3500 (3)

ENGL 3300 - Children's Literature **Credits: (3)**

GEOG 1300 SS/DV - Places and Peoples of the World **Credits: (3)** OR

GEOG 1520 SS/DV - Geography of the United States and Canada **Credits: (3)**

MATH 2010 - Arithmetic for Teachers **Credits: (3)** *Grade of C or above required*

MATH 2015 - Algebra and Functions for Teachers **Credits: (3)** *Grade of C or above required*

MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *Grade of C or above required*

At least one course from the following

ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**

MUSC 3824 - Music for Elementary Teachers **Credits: (4)**

EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**

DANC 3640 INT - Teaching Creative Dance in the Elementary School **Credits: (3)**

THEA 4603 - Creative Drama **Credits: (3)**

III. Required Area of Specialization (18 credit hours)

Grades K-6 License Track (18 credit hours)

CHF 2500 - Development of the Child **Credits: (3)** *Must be completed prior to Level 1*

CHF 2610 - Guidance Based on Developmental Theory **Credits: (3)** *Must be completed prior to Level 1*

Note:

In addition, complete a 9-hour specialization in one of the areas listed below. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

- Art
- Early Childhood
- Educational Computing
- English as a Second Language (ESL)
- Fine Arts
- Foreign Language
- General Science
- Mathematics
- Multicultural Education
- Music
- Physical Education
- Reading/Language Arts
- Social Science
- Special Education (Mild/Moderate)
- International Education

Grades 1-8 License Track (18 credit hours or approved teaching minor)

Complete a minimum of an 18-hour area of specialization in one of the areas listed below, or a teaching minor. (See the Secondary Education section for teaching minors.) For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

- English as a Second Language (ESL)
- Mathematics

The Professional Education component of the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken at least some of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

IV. Professional Education Courses Required (56 credit hours)

Admission to teacher education is required prior to enrollment in Professional Education courses. The Level course changes will begin Fall 2018 and will show up in Catracks for the 2018-2019 catalog year.

Level 1 (16 credit hours)

Note: K-6 Track must take CHF 3620 during this level (credit hours shown under Required Area of Specialization, Level 1 for K-6 Track is 15 credit hours). Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5003BS), Elementary Education (5005BS) or both.

- EDUC 3116 - Media Integration in Elementary Education Settings 1 **Credits: (1)**
- EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
- EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management **Credits: (3)**
- EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
- EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching **Credits: (3)**
- CHF 3620 - Curriculum Planning for Kindergarten **Credits: (3)**

Level 2 (14 credit hours)

Note: K-6 majors take an area of specialization course (3) and 1-8 majors take an a minor/endorsement course (3). Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5003BS), Elementary Education (5005BS) or both.

- EDUC 3100 - Instructional Planning & Assessment **Credits: (3)**
- EDUC 3117 - Media Integration in Elementary Education Settings 2 **Credits: (1)**
- EDUC 3210 INT - Elementary Level II Practicum **Credits: (2)**
- EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy **Credits: (2)**
- EDUC 3240 - Reading Instruction in the Intermediate Grades **Credits: (3)**
- EDUC 4345 - Elementary Integrated Arts Methods **Credits: (3)**

Level 3 (17 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5003BS), Elementary Education (5005BS) or both.

- EDUC 3280 - Elementary Social Studies Methods **Credits: (3)**

EDUC 4210 INT - Elementary Level III Practicum **Credits: (3)**
EDUC 4320 - Elementary Language Arts Methods **Credits: (3)**
EDUC 4330 - Elementary Science Methods **Credits: (3)**
EDUC 4350 - Elementary Mathematics Pedagogy **Credits: (2)**
PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers **Credits: (3)**

Level 4 (12 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5003BS), Elementary Education (5005BS) or both.

EDUC 4840A/B INT - Student Teaching in Elementary Education **Credits: (8)** [K-2 and 3-6]
EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis **Credits: (4)**

Elementary Education Mathematics Endorsement

A candidate desiring to receive Elementary Education Mathematics Endorsement must fill the requirements of the Elementary Education major and complete the following courses.

Courses Required for Endorsement

Mathematics Courses Required (19 hours)

MATH 1060 - Trigonometry **Credits: (3)**
MATH 1210 - Calculus I **Credits: (4)**
MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
MTHE 3070 - Geometry for Elementary Teachers **Credits: (3)**
MTHE 3080 - Number Theory for Elementary Teachers **Credits: (3)**
MTHE 4040 - Mathematical Problem Solving for Elementary Teachers **Credits: (3)**

Note:

Elementary education majors desiring an Elementary Mathematics Endorsement should consult with the Mathematics Department Chair early in their program. The student will be assigned an advisor to help design his/her course of study.

ESL (English as a Second Language) Endorsement

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

Grade Requirements: A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.

Credit Hour Requirements: 17 credit hours required.

Program Code: Minor 5009

CIPC: 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)
EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)
EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**
EDUC 5770 INT - Field Experience in ESL/Bilingual Education **Credits: (2)** **
ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual **Credits: (3)** * (MENG 6410)
ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)
ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

Note:

* FL 4400, *Methods of Teaching a Foreign Language*, may be substituted for ENGL 4410.

** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.

ESL (English as a Second Language) Minor

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

Grade Requirements: A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.

Credit Hour Requirements: 17 credit hours required.

Program Code: Minor 5009

CIPC: 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)

EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**

EDUC 5770 INT - Field Experience in ESL/Bilingual Education **Credits: (2)** **

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual **Credits: (3)** * (MENG 6410)

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

Note:

* FL 4400, *Methods of Teaching a Foreign Language*, may be substituted for ENGL 4410.

** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.

Secondary Education Licensure

Program Prerequisite: Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department). Select an academic teaching major and teaching minor or composite teaching major and teaching minor that WSU offers. In many departments the teaching major and minor are different from the departmental major and minor.

Minor: A teaching minor is recommended and may be required with most teaching majors (please consult your content major advisor). A teaching minor is generally not required with a composite teaching major (refer to specific composite major program requirements).

Grade Requirements: Secondary Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 3.00 or higher in all college work and achieve at least a "B-" grade in each professional education course to continue in the program.

Credit Hour Requirements: A total of 120 semester hours is required for graduation; a minimum of 24 of these is required within the Secondary Licensure program. A total of 40 upper division credit hours is required (courses number 3000 and above).

The academic teaching major and teaching minor must consist of not less than 30 and 16 semester hours respectively, or a composite major of a minimum of 46 semester hours. The teaching major and teaching minor must be in subjects taught in Utah public secondary schools. Either the major or minor must be a subject which Utah secondary schools are required to teach (those marked with asterisks do not satisfy this second requirement - see the list of teaching majors and minors below).

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Follow the provisional admission requirements outlined under the Teacher Education Department.

Advisement

All Secondary Education students should meet with an advisor in the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment. In addition, students should seek advisement from both their teaching major and their teaching minor program areas. For Secondary Licensure candidates, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Teaching Major and Teaching Minors (when required) that WSU offers; and IV. Professional Education Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. The following courses required for the Secondary Education Licensure Program will also satisfy general education requirements: COMM 1020 or COMM 2110 and CHF 1500.

Course Requirements for Licensure

II. Support Courses Required (or equivalent)

EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

One course from the following

CHF 1500 SS/DV - Human Development **Credits: (3)** or

PSY 3140 - Adolescent Psychology **Credits: (3)**

One course from the following

COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or

COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

III. Teaching Majors and Minors

Majors and Minors

Chemistry	Communication*
Dance	English
French	Geography
German	History
Mathematics	Physical Education
Physics	Political Science*
Psychology*	Sociology*
Spanish	Theatre Arts

* *Subjects which Utah secondary schools are not required to teach*

Minors Only

Art
Biology
Business Education
Business/Marketing Education
Computer Science
Earth Science
Economics
ESL (English as a Second Language)
Health Promotion
Physical Education/Coaching Education Dual Teaching

Licensure Programs

Special Education (Mild/Moderate)

Composite Majors

In lieu of the major and minor, a candidate may elect a composite teaching major which consists of a minimum of forty-six (46) hours of subjects in closely related fields.

Art (<i>minor required</i>)	Biology
Business Education	Earth Science
Music Education	Physical Science
Social Science	

IV. Professional Education Courses Required (24 hours)

Secondary Teacher Education Core

- EDUC 3220 - Foundations of Diversity **Credits: (2)**
- EDUC 3265 - The Exceptional Student **Credits: (2)**
- EDUC 3315 - Media Integration in the Secondary School Setting **Credits: (2)**
- EDUC 3900 - Preparing, Teaching, and Assessing Instruction **Credits: (2)**
- EDUC 3910 INT - Secondary Education Practicum **Credits: (2)**
- EDUC 3935 - Reading and Writing Across the Secondary Curriculum **Credits: (2)**

Secondary Teacher Education Student Teaching

- EDUC 4940 INT - Student Teaching in Secondary Education **Credits: (8)**
- EDUC 4950 - Integrated Secondary Student Teaching Seminar **Credits: (4)**

Additional Information:

Provisional admission to teacher education is required prior to enrollment in 3000 level and above education classes.

*HIST 4500 is a **required course** for the Social & Behavioral Science Teaching Major/Teaching Minor.*

The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Special Education (BS)

Program Prerequisite: Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department).

Specialization: Required (9 or more credit hours). Students may choose any academic teaching minor (refer to department listings for specific requirements). Or, choose a specialization area (see below).

Grade Requirements: A "B-" or higher is required for any upper division EDUC or MED course, in addition, Special Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work.

Credit Hour Requirements: A minimum of 120 credit hours is required for graduation. The following are required within the program: Support Courses 21; Specialization 9; Professional Education 12; Special Education 44. A total of 40 upper division credit hours is required (courses number 3000 and above).

Program Code: 5007BS

CIPC: 131001

Admission Requirements

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department. Also refer to the Department Advisor Referral List.)

Advisement

All Special Education majors should meet with an advisor in the Teacher Education Advisement Center and with an assigned advisor from the Special Education faculty. Call 801-626-6309 for more information or to schedule an appointment.

For Special Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Area of Specialization; and, IV. Professional Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Special Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, MATH QL 2020, and CHF SS/DV 1500.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be GEO PS 1350 (Principles of Earth Science), CHEM 1360 PS/PHYS PS 1360 (Principles of Physical Science), or BTNY LS 1370 /MICR LS 1370/ZOOL LS 1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree

II. Support Courses Required (or equivalent) (21 credits)

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality **Credits: (3)**
- CHF 1500 SS/DV - Human Development **Credits: (3)**

COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

MATH 2010 - Arithmetic for Teachers **Credits: (3)** *Grade of C or above required*
MATH 2015 - Algebra and Functions for Teachers **Credits: (3)** *Grade of C or above required*
MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *Grade of C or above required*

And at least 6 credit hours from the following

ENGL 3300 - Children's Literature **Credits: (3)**
EDUC 3390 - Literacy in the Primary Grades **Credits: (2)**
EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)**
EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)**
CHF 2400 SS/DV - Family Relations **Credits: (3)**
CHF 2500 - Development of the Child **Credits: (3)**
CHF 3640 - Working with Parents **Credits: (3)**
PSY 3000 - Child Psychology **Credits: (3)**
PSY 3140 - Adolescent Psychology **Credits: (3)**
PEP 3660 - Adapted Physical Education **Credits: (3)**

III. Area of Specialization options (9 credits)

In addition, complete a 9-hour specialization in one of the areas listed below. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

Mathematics
English as a Second Language
Early Childhood
Family Studies
Language Arts (Secondary)
International Education

IV. Courses Required for the Major (55 credits)

Level 1 - Foundation Education Courses (14 credits)

EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management **Credits: (3)**
EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching **Credits: (3)**
EDUC 3116 - Media Integration in Elementary Education Settings 1 **Credits: (1)**
EDUC 3371 - Assistive Technology **Credits: (1)**

Level 2 - Inclusion Methods (16 credits)

EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers **Credits: (2)**
EDUC 4521 - Practicum in Special Education **Credits: (3)**
EDUC 4530 - Principles and Applications of Special Education Assessment **Credits: (3)**
EDUC 4535 - Strategic Plan for Disability **Credits: (2)**
EDUC 4565 - Secondary English Language Arts: Evaluation, Remediation and Supports **Credits: (2)**
EDUC 4575 - Secondary Mathematics: Evaluation, Remediation and Supports **Credits: (2)**
EDUC 4580 - Learning Strategies and Transition for Special Education Students **Credits: (2)**

Level 3 - Special Education Methods (14 credits)

EDUC 3535 - IEP and Instructional Planning **Credits: (2)**
EDUC 3565 - Elementary English Language Arts: Evaluation, Remediation and Supports **Credits: (2)**
EDUC 3575 - Elementary Mathematics: Evaluation, Remediation and Supports **Credits: (2)**
EDUC 4515 - Special Education Law and Practice **Credits: (3)**
EDUC 4545 - Individualized Behavioral Strategies using Applied Behavior Analysis **Credits: (2)**
EDUC 4582 INT - Special Education Level III Practicum **Credits: (3)**

Student Teaching in Special Education (12 credits)

EDUC 4680 INT - Special Education Student Teaching **Credits: (8)**
EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors **Credits: (4)**

Teacher Education Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Graduate Certificate in Teaching

Elementary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

Program Code: 5042GC

CIPC: 131202

GPA Requirements for GCT in Elementary Teaching Students

Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements for GCT in Elementary Teaching

The 32 credit hour program of study consists of:

24 hour credits hours in specific coursework.

Practicum is a 2 credit hour which requires 60 clock hours in an elementary classroom.

Student teaching is a 6 credit hour which requires 60 full teaching days in elementary classrooms.

Required Courses

MED 6020 - Diversity in Education **Credits: (2)**

MED 6050 - Curriculum Design, Evaluation & Assessment **Credits: (3)**

MED 6110 - Introduction to Classroom Management **Credits: (3)** or

MED 6120 - Advanced Classroom Management **Credits: (3)**

MED 6229 - Instructional Technology for Pre-service Teachers **Credits: (2)**

MED 6265 - Foundations of Inclusive Teaching **Credits: (2)**

MED 6311 - Content Instruction in the Elementary School: Science **Credits: (2)**

MED 6312 - Content Instruction in the Elementary School: Mathematics **Credits: (2)**

MED 6313 - Content Instruction in the Elementary School: Social Studies **Credits: (2)**

MED 6314 - Reading Instruction in Elementary Schools **Credits: (2)**

MED 6316 - Language Arts Instruction in Elementary Schools **Credits: (2)**

MED 6317 - Arts Integration for Elementary Teachers **Credits: (2)**

MED 6860 INT - Practicum in Education **Credits: (1-4)**

MED 6870 INT - Student Teaching in Elementary Education for MED Students **Credits: (3-6)**

Secondary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

Program Code: 5043GC

CIPC: 131205

GPA Requirements for GCT in Secondary Teaching Students

Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements for GCT in Secondary Teaching

The program of study consists of:

16 hour credit hours in specific coursework.

Practicum is a 2 credit hour "course" which requires 60 clock hours in a secondary, subject-specific classroom.

Student teaching is a 6 credit hour "course" which requires a minimum of 60 full teaching days in secondary classrooms.

Required Courses

- MED 6020 - Diversity in Education **Credits: (2)**
- MED 6050 - Curriculum Design, Evaluation & Assessment **Credits: (3)**
- MED 6060 - Instructional Strategies **Credits: (2)**

- MED 6110 - Introduction to Classroom Management **Credits: (3)** or
MED 6120 - Advanced Classroom Management **Credits: (3)**

- MED 6229 - Instructional Technology for Pre-service Teachers **Credits: (2)**
- MED 6265 - Foundations of Inclusive Teaching **Credits: (2)**
- MED 6320 - Content Area Literacy Instruction **Credits: (3)**
- MED 6860 INT - Practicum in Education **Credits: (1-4)**
- MED 6880 INT - Student Teaching in Secondary Education for MED Students **Credits: (3-6)**

Some additional courses may be required for endorsement area.

Special Education Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

Program Code: 5045GC

CIPC: 131001

Required Courses

- MED 6050 - Curriculum Design, Evaluation & Assessment **Credits: (3)**
- MED 6515 - Foundations in Special Education: Law and Practice **Credits: (3)**
- MED 6530 - Principles and Applications of Special Education Assessment **Credits: (3)**
- MED 6540 - Advanced Managing Student Behavior **Credits: (3)**
- MED 6580 - Advanced Learning Strategies and Transition for Special Education Students **Credits: (3)**

- MED 6565 - Advanced Instructional Methods and Practices: English Language Arts **Credits: (3)** concurrently with
MED 6860 INT - Practicum in Education **Credits: (1-4) (1) ***

- MED 6575 - Advanced Instructional Methods and Practices: Mathematics **Credits: (3)** concurrently with
MED 6860 **(1) ***

- MED 6890 INT - Student Teaching in Special Education for MED Students **Credits: (4-6) ****

Engaged Learning, Honors, and Interdisciplinary Programs

Weber State University has a long history of engaging students in learning both inside and outside the classroom. Engaged learning fosters intellectual and personal growth, critical thinking, problem solving, civic engagement, and professional and career development opportunities. Students engage with faculty members in small groups or one-on-one, for an intellectually challenging experience that is enhanced by professional and real world application of knowledge.

The Office of Undergraduate Research, the Center for Community Engaged Learning, the Sustainability Practices and Research Center, and Honors Program continue to facilitate the engaged learning of WSU students by collaborating with disciplines across colleges. These programs offer engaged learning opportunities in undergraduate research, community engaged learning, and classes that provide a stimulating, creative and supportive learning environment.

Interdisciplinary programs provide students the opportunity to expand their learning across different subject areas, and contribute to a well-rounded educational experience. Students who want to individualize or create a unique academic program resulting in an interdisciplinary degree can do so through the Bachelor of Integrated Studies program.

Program Chairs/Directors/Coordinators

Office of Undergraduate Research (OUR): Dr. John Cavitt	801-626-8541
Center for Community Engaged Learning (CCEL): Dr. Becky Jo Gesteland	801-626-7737
Honors Program: Dr. Dan Bedford	801-626-7591
Bachelor of Integrated Studies (BIS): Dr. Michael Cena	801-626-7713
Sustainability Practices and Research Center (SPARC): Dr. Alice Mulder	801-626-6326
Library Teaching & Information Services Department: Dr. Shaun Adamson	801-626-6827
Asian Studies: Dr. Greg Lewis	801-626-6781
Environmental Studies: Dr. Mikel Vause	801-626-6659
Ethnic Studies: Dr. Eric Ewert	801-626-6197
European Studies: Dr. Thomas Mathews	801-626-6345
Latin American Studies: Dr. Isabel Asensio	801-626-6777
Learning English for Academic Purposes (LEAP): Debi Sheridan	801-626-6775
Legal Studies: Dr. Richard Price	801-626-6694
Linguistics: Dr. Mark LeTourneau	801-626-6386
Neuroscience: Dr. Todd Hillhouse	801-626-6315
Urban and Regional Planning: Dr. Bryan Dorsey	801-626-6944
Women & Gender Studies: Dr. Melina Alexander	801-626-7632

Office of Undergraduate Research (OUR)

Director: Dr. John Cavitt

Telephone Contact: Erin Kendall (801) 626-8541

Location: Stewart Library, 147

Internet Address: weber.edu/OUR

Weber State University offers undergraduates the opportunity to work directly with faculty on projects that involve research, scholarly and creative activities. These projects are designed and implemented by students with the support and guidance of WSU faculty. Undergraduate research, and scholarly and creative activities must include:

- inquiry, study or investigation of a question or problem;
- methodology, including safety and ethical practices, appropriate to the discipline;
- relevant, meaningful, and engaging intellectual or creative contribution and/or application to the discipline which is of high-quality and which results in a tangible product (abstract, paper, performance, object) which can be shared or disseminated; and
- on-going supervision and mentoring by individuals with appropriate expertise.

Undergraduate research has long been an important part of the college experience at Weber State University. The Office of Undergraduate Research (OUR) supports students by offering grants for research and travel for dissemination of results. In addition, OUR publishes *Ergo*, WSU's undergraduate research journal, and sponsors an undergraduate research symposium each spring semester.

Center for Community Engaged Learning (CCEL)

Executive Director: Dr. Becky Jo Gesteland

Telephone Contact: Ella Mitchell (801) 626-7737

Location: Center for Community Engaged Learning, Shepherd Union, 324

Internet Address: weber.edu/CCEL

The Center for Community Engaged Learning at Weber State University facilitates both curricular and co-curricular community engaged learning experiences. The main mission of the center is to engage students, faculty and staff members in direct service, civic engagement, and community research to promote civic participation, build community capacity, and enhance the educational process. Community engagement describes the collaboration between Weber State University and our larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity (Carnegie Foundation). Courses designated with the Community Engaged Learning (CEL) attribute are designed to provide students with a structured approach to learning and teaching that connects meaningful community experience with intellectual development, personal growth, and active citizenship. CEL enriches coursework by encouraging students to apply the knowledge and analytic tools gained in the classroom to the pressing issues affecting local communities. Therefore CEL is defined as an activity that involves a collaborative, reciprocal relationship with the community that prepares our students, faculty, staff, and alumni to be engaged citizens by strengthening their democratic values and civic responsibility as they address community issues.

Community engaged learning can be facilitated through one of our three pathways: direct service, civic engagement and community research.

Direct Service experiences often involve working directly with community residents to meet an immediate need. Examples of direct service include, but are not limited to: volunteering to serve meals at a homeless shelter, using academic knowledge to develop an electronic food-monitoring database for a food pantry, serving as a mentor or tutor in a local school or youth development program, cleaning up the banks of the Ogden River, or coaching a city youth sport.

Civic engagement experiences often involve raising awareness about issues of public concern and working more systematically through both political and non-political processes to create change. Examples of civic engagement include, but are not limited to: attending organized discussions about pollution; community organizing; writing a letter to an elected official; engaging others in the process of deliberative democracy; or producing information about community issues.

Community research experiences often involve gathering information *with* and *for* community organizations to solve a pressing community problem or create change. Examples of community research include, but are not limited to: community needs assessment survey; water quality or scientific assessment; or program evaluation for non-profit organizations.

Regardless of the type of community engaged learning experience, students are expected to acquire four CEL outcomes through their experiences: civic knowledge, civic skills, civic values, and civic action. Student learning outcomes, definitions, and measurement rubrics can be found at www.weber.edu/CCEL.

Courses

Community engaged learning is not specific to any one discipline; in fact, CEL courses exist in many disciplines across campus. For example, an Athletic Training class incorporates a service component wherein students are utilizing their knowledge and skills gleaned from class to serve patrons at a local free medical clinic.

Community Engaged Learning courses are designated with the CEL attribute and are listed in the course schedule published online each semester.

Honors, University

University Honors Core Requirements

University Honors Core Requirements

Students will complete three of the eight classes listed below:

- HNRS 1110 HU - Introduction to Honors: The Construction of Knowledge **Credits: (3)**
- HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities **Credits: (3)**
- HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts **Credits: (3-6)**
- HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences **Credits: (3)**
- HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences **Credits: (3)**
- HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science **Credits: (3)**
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras **Credits: (3)**
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era **Credits: (3)**
- HNRS 2130 HU/SS/DV - Intellectual Traditions: Great Ideas of the East **Credits: (3)**

In addition, the following courses are required:

- HNRS 3900 - Honors Colloquium **Credits: (3)** – 2 classes are required
- HNRS 4990 - Honors Senior Project **Credits: (3)** - This option may also be completed through the student's major department.

Students will complete the remaining six credits required to earn University Honors with any other Honors courses.

Bachelor of Integrated Studies (BIS) Program

Bachelor of Integrated Studies

Integrated Studies (BIS)

Coordinator: Dr. Michael Cena

Location: Stewart Library, Room 147

Telephone Contact: Beth Thompson 801-626-7713

Website: weber.edu/bis

The Bachelor of Integrated Studies (BIS) Program is an interdisciplinary degree program that serves the needs of students who want to create a specific academic program, obtain a broad liberal education, prepare for particular career goals, or go to graduate school. The program best suits students who have developed a sense of their educational and life goals, and who are looking for ways to express those values through an individualized university program.

To accomplish these general outcomes, BIS students complete course work in three different disciplines. As a culminating experience, students then synthesize the three areas in a capstone project. The BIS degree option is available to students in good standing at Weber State University with a GPA of 2.5 or above. Students must formally apply for admittance into the BIS program, and must take 15 credit hours in the program after they are accepted.

Program Requirements

BIS applicants must earn and maintain a 2.5 GPA to graduate with a Bachelors of Integrated Studies degree.

The institution requires that every bachelor's degree candidate earn a total of 120 credit hours, 40 of which must be upper division hours.

A BIS student can expect to take a minimum of 18 credit hours in each of three areas of emphasis, plus 5 hours for the capstone preparation and project, for a minimum of 59 credits in the BIS program.

All contract and BIS courses must receive a minimum grade of "C" in order to count towards the BIS degree.

Only graded classes can be included in the course contract (special exams, CLEP, or credit/no credit may not be included in the BIS contract).

Courses which are used to satisfy General Education may not be used again in the BIS contract.

Program Code: 1000BIS with three concentration codes

CIPC: 240101

Advisement

All prospective students must meet with the BIS Coordinator to plan a course of study, and be admitted into the program. Call 801-626-7713 to schedule an appointment. For more information, see the BIS Web page (weber.edu/bis).

General Education

Refer to Degree Requirements for bachelor's degree requirements. Honors students may elect to fulfill this requirement through the Honors general education option.

Course Requirements for BIS Degree

Contract of three areas of emphasis: (54 credit hours minimum)

Every BIS student will take a minimum of 18 credit hours in three different academic departments or institutionally recognized disciplines (two of which must offer upper division credit) as approved by the department and the BIS Coordinator. Any change in the course contract must be approved by the chair of the appropriate department and the BIS coordinator.

BIS Capstone and Graduation Preparation Class (3 credit hours)

This class will prepare students to successfully complete the BIS capstone thesis project, and to prepare themselves professionally for careers and graduate school. (Required prerequisite for capstone)

BIS 3800 - BIS Capstone and Graduation Preparation **Credits: (3)**

BIS Capstone Project: (3 credit hours)

The BIS capstone project gives students the opportunity to integrate their three areas of emphasis into a single thesis. (Required for graduation)

BIS 4800 - Bachelor of Integrated Studies Senior Capstone **Credits: (3)**

Internship Option

Elective - BIS Internship (1-3 credit hours)

The opportunity to earn 1 to 3 credits for an internship is available to students in the BIS program. Please contact the BIS coordinator for more information.

BIS 3850 - BIS Internship **Credits: (1-3)**

BIS Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Sustainability Practices for Research Center (SPARC)

Director: Dr. Alice Mulder

Telephone Contact: Bonnie Christiansen(801) 626-6326

Location: Stewart Library 147

Internet Address: <https://weber.edu/sustainability/sustainability-practices-research-center.html>

Mission Statement

The mission of the Weber State University Sustainability Practices and Research Center is to inform and educate WSU students, faculty, staff and the local and statewide community in order to ensure the sustainability of our region and our world for future generations. The Center serves as a hub to connect campus activities, programs, departments and community partners in order to advance a commitment to sustainability on campus and in the region. It facilitates curricular and co-curricular learning experiences related to sustainability toward the goals of both understanding and working to address the sustainability challenges of our time.

Sustainability at WSU

Weber State is committed to sustainability education and to sustainability in its own operations and practices on its campuses. We are all global and local citizens, intricately interconnected to both natural and human systems.

"Sustainability" is considered at Weber State in an inclusive, holistic sense, recognizing that that environmental, social, and economic health are interdependent and interconnected in both simple and complex ways. Below is WSU's general curriculum-focused definition of sustainability (approved by the Environmental Initiatives Committee (EIC) in 2010):

At Weber State University the goal of sustainability education is for students to gain knowledge and understanding of the intricate linkages between human and natural systems. This includes a recognition that healthy human societies (physically, socially, culturally, politically, and economically) are fundamentally dependent on healthy ecosystems and the sustainable use of natural resources, such that they are available indefinitely for future generations to meet their needs. Included in this goal is for students to learn how to achieve sustainability across these areas.

Learning about the concepts, challenges and potential solutions for sustainability can occur in classes and departments across the university. Many disciplines consider and address issues pertinent to sustainability such as anthropology, automotive technology, botany, construction management, earth

science, economics, electrical engineering technology, English, geography, graphic arts, history, interior design, nursing, nutrition, philosophy, political science, physics, sociology, zoology, and many others.

Sustainability Course Designation

The SUS designation on courses stands for "sustainability" and indicates that a course involves some sustainability components, which aim to both further students' understanding of and ability to address real world sustainability challenges. As noted above, sustainability is defined in a pluralistic and inclusive way, encompassing human and ecological health, social justice, secure livelihoods, and a better world for all generations. Learning about sustainability in an array of courses across the curriculum will increase students' awareness and comprehension that healthy human societies are fostered and supported through a complex web of interconnections between their physical, social and economic dimensions.

To see a list of courses that either focus on or include some component related to sustainability (e.g., a case study, module, readings) please visit <https://www.weber.edu/sustainability/courses>.

Learning English for Academic Purposes (LEAP)

Chair: Dr. Debi Sheridan

Location: Elizabeth Hall, Room 207

Telephone Contact: Kaori Gale (801) 626-7457

Instructors: Giana Curtis, Amy Reimann Hudson, Debi Sheridan

The Weber State University LEAP (Learning English for Academic Purposes) Department provides intensive English language courses for students in the process of acquiring English as a second language for academic use. It is the mission of the Department to prepare these students to function effectively in mainstream academic classes where English is the language of instruction. In doing so, we also seek to familiarize students with American culture and the academic atmosphere of studying in an American university.

The program curriculum includes courses that utilize an integrated skills, content-based approach. The goal of the department is to prepare non-native English speaking students to read, write and communicate effectively in academic courses taught in English.

The program consists of six levels of instruction (Novice Low through Advanced according to ACTFL guidelines available at

[https://www.actfl.org/publications/guidelines-and-manuals/actfl-](https://www.actfl.org/publications/guidelines-and-manuals/actfl-performance-descriptors-language-learners)

[performance-descriptors-language-learners](https://www.actfl.org/publications/guidelines-and-manuals/actfl-performance-descriptors-language-learners)), two levels per semester and the LEAP Bridge Classes. Each level (with the exception of LEAP Bridge Classes) is 7 weeks in length. The Bridge LEAP Classes are 15 weeks in length. Courses are competency based. Students must pass a proficiency final exam at the end of the semester and receive a grade of C+ (77%) or better in order to progress to the next level.

Total Credit Hours per Level

Levels	1	2	3	4	5	6	LEAP Bridge Classes
--------	---	---	---	---	---	---	------------------------

Credits	9	9	9	9	9	9	6
---------	---	---	---	---	---	---	---

Levels 1-3 are non-credit and do not count toward graduation. Courses in Levels 4-6 and the LEAP Bridge classes earn academic credit which can be applied to fulfill the foreign language requirement for a Bachelor of Arts degree and Associate of Arts degree or applied as elective credit toward the Bachelor of Science and Associate of Science degrees. This may be done by completing the LEAP Placement Examination and placing into ENGL 1010 or by completing LEAP 2510 and LEAP 2520 with a grade of C+ or better.

Students who pass the LEAP Placement Examination and place in ENGL 1010 or who complete LEAP 2510 and LEAP 2520 with a grade of C+ or better will be able to claim 16 hours of credit for ESL 2310, ESL 2410, ESL 2420, ESL 2430, and ESL 2441 for a nominal fee. (Inquire in the LEAP Office EH 207.)

CR/NC Sections:

CR/NC sections of each course are available. CR/NC sections do not factor into a student's GPA. Students participate in the same classes with the same teachers and are held to the same proficiency standards as graded courses. Contact the LEAP office for more information.

International Students:

International students who meet the University's TOEFL or IELTS minimum requirements for placement in academic courses are cleared to register for ENGL 1010.

International students who **do not** meet the University's TOEFL or IELTS minimum requirements for placement in academic courses must take the LEAP Placement Test. Students are required to complete the appropriate ESL courses according to the test results before being cleared to take academic courses on campus.

Students sponsored by the Saudi Arabian Cultural Mission (SACM) are required by SACM to complete 20 credit hours per semester.

Comments:

The Placement Test should be taken as soon as the students arrive at the university to determine placement level for necessary ESL courses.

All International students are also required to take the Math Accuplacer Test (see the Department of Mathematics section of this catalog).

Students must complete Advanced (Level 6) before they can register for other university classes.

Resident Students:

Resident students for whom English is a second, new or additional language and who have ACT scores of 16 or below or Accuplacer scores of 89 or below are required to take the LEAP Placement Test and complete appropriate ESL courses according to the test results before registering for ENGL 1010.

Learning English for Academic Purposes (LEAP) Course Descriptions

Library Teaching & Information Services Department

Dean of the Library: Wendy Holliday

Location: Stewart Library, Room 108A

Telephone: Cathy Christensen 801-626-6405

Head of Teaching and Information Services: Dr. Shaun Adamson

Telephone: 801-626-6827

Professors: Shaun Adamson, Wade Kotter; **Associate Professors:** Nicole Beatty, G. Arthur Carpenter, Jason Francis, Edward Hahn; **Assistant**

Professors: Ernesto Hernandez, Miranda Kispert, Sarah Langsdon, Diana Meiser, Jamie Weeks

To be successful in a global information society, students must understand how to identify, locate, and critically evaluate information. The Library Teaching & Information Service Department provides instruction and assistance that enable students to effectively access and utilize digital and print information resources to meet their academic, professional and life-long learning needs.

Asian Studies Minor Program

Minor

Asian Studies Minor

Coordinator: Dr. Greg Lewis

Location: Lindquist Hall, Room 252

Telephone: 801-626-6707

Asian Studies at Weber State offers a Minor in Asian Studies, supports the Foreign Language Department's Japanese Minor, oversees courses in the Middle East Track, and cooperates with the BIS Program to offer a Bachelor's degree "BIS Asian Studies Concentration." Asian Studies courses are

offered through a number of cooperating departments including History, Political Science and Philosophy, Geography, Foreign Language, English, Honors, Sociology and Anthropology, Visual Arts, Health and Physical Education, and others.

Grade Requirements: A grade of "C" or above in each course used toward the Asian Studies Minor (a grade of C- is not acceptable).

Credit Hour Requirements: Fifteen credit hours of courses must be taken from at least four of the areas listed under Course Requirements for Minor.

Program Code: 7023

CIPC: 050103

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Course Requirements for Minor

Required Courses (15 credit hours)

Select 15 credit hours from at least four of the following areas

ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

ARTH 3060 - The Art and Architecture of India **Credits: (4)**

ARTH 3070 - The Art and Architecture of China **Credits: (4)**

ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**

ARTH 3100 - The Art and Architecture of the Islamic World **Credits: (4)**

ENGL 3730 - Literatures of Cultures and Places **Credits: (3) ***

ENGL 2710 HU/DV - Perspectives on Women's Literature **Credits: (3) ***

CHNS 3550 - Cultural Heritage I **Credits: (3)** or
JPNS 3550 - Cultural Heritage I **Credits: (3)**

JPNS 3630 - Literature Poetry **Credits: (3)**
JPNS 3650 - Literature Periods **Credits: (3)**
JPNS 3670 - Literature Authors **Credits: (3)**

CHNS 3710 - Business Language I **Credits: (3)** or
JPNS 3710 - Business Language I **Credits: (3)**

JPNS 3715 - Business Language II **Credits: (3)**

CHNS 3850 - Study Abroad **Credits: (1-6)** or
JPNS 3850 - Study Abroad **Credits: (1-6)**

JPNS 4850 - Study Abroad **Credits: (3)**

FL 4400 - Methods for Teaching Languages **Credits: (5)**

Note:

**Acceptable when the emphasis and/or content are basically Asian Studies/Language or Middle East Studies/Language.*

Should other courses relating specifically to Asia or the Middle East, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as part of the Asian Studies Minor. To be a part of the Asian Studies curriculum, a course must have two-thirds Asian content.

Environmental Studies Minor Program (see Geography) Ethnic Studies Program

Emphasis Option for Bachelor of Integrated Studies

Ethnic Studies Emphasis (BIS)

Coordinator: Dr. Eric Ewert

Location: Linquist Hall, Room 316

Telephone: 801-626-6197

The Ethnic Studies Emphasis at WSU examines the construction and context of ethnicity in the United States with a primary focus on Americans of African, Asian, Latino, and Native American descent. Other ethnic foci may be developed by the student to meet his or her particular interests. As an element of American identity that cuts across disciplinary categories, ethnicity requires a mode of study that draws on the humanities, the social sciences, and other related fields. Ethnicity also must be addressed historically and comparatively, paying attention to the five centuries of North American minority experience and the perspectives of other New World societies and cultures. Above all, the program seeks to convey knowledge and understanding of ethnicity in the United States and to help students learn about the opportunities and responsibilities they have as citizens in an increasingly multicultural nation.

Grade Requirements: A grade of "C-" or better is required for all courses in Ethnic Studies.

Credit Hour Requirements: A minimum of 18 credit hours.

Program Code: Composite(7024), Hispanic (7028), Native American (7029), African (7027)

CIPC: Composite(050299), Hispanic (050203), Native American (050202), African (050201)

Ethnic Studies Program

Course Requirements for Emphasis

Basic Core (6 credit hours required of all students)

ANTH 1000 SS/DV - Introduction to Anthropology **Credits: (3)**

SOC 3850 - Race & Ethnicity **Credits: (3)**

Select one of the following options or design a comparable one:

Option I: Hispanic Studies (12 credit hours)

HIST 3050 - History of U.S. Latinos **Credits: (3)**

HIST 4110 - History of the American West to 1900 **Credits: (3)**

HIST 4670 - History of Mexico **Credits: (3)**

HIST 4630 - History of Ancient and Colonial Latin America **Credits: (3)** or

HIST 4650 - Modern Latin America **Credits: (3)**

Option II: Native American Studies (12 credit hours)

ANTH 3600 - Culture Area Studies **Credits: (1-3)** (3 credit hours required)

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)**

HIST 3010 - Native American History: 1300 to Present **Credits: (3)**

HIST 4110 - History of the American West to 1900 **Credits: (3)**

Option III: African-American Studies (12 credit hours)

HIST 3030 - African-American History **Credits: (3)**

HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877 **Credits: (3)**

HIST 4610 - History of Africa **Credits: (3)**

GEOG 3740 - Geography of Africa **Credits: (3)**

Option IV: Composite (12 credit hours)

Select a minimum of 12 credit hours from the following:

HIST 3010 - Native American History: 1300 to Present **Credits: (3)**

HIST 3030 - African-American History **Credits: (3)**

HIST 3050 - History of U.S. Latinos **Credits: (3)**

GEOG 3540 - Geography of Latin America **Credits: (3)**

GEOG 3640 - Geography of Asia **Credits: (3)**

Note:

Should other courses relating specifically to ethnic minorities, either of an experimental or of a permanent nature be added to the curriculum, these courses will be accepted as part of the Ethnic Studies emphasis; should such courses be part of an academic area not listed, the new academic area will be added to those presently constituting the Ethnic Studies emphasis.

Emphasis Only

Ethnic Studies Emphasis

Coordinator: Dr. Eric Ewert

Location: Linquist Hall, Room 361

European Studies Minor Program

Minor

European Studies Minor

Coordinator: Thomas Mathews

Location: Elizabeth Hall, Room 420

Telephone: 801-626-6345

The European Studies Minor is an interdisciplinary program offered through several WSU departments. Students wishing to minor in European Studies must have their course selection approved by the program coordinator.

Grade Requirements: A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 18 credit hours in addition to two years of college study (or the equivalent) of a European language. Courses taken which are part of the student's major will not count as fulfillment of the minor requirement. Of the total 18 credit hours, only six may be taken in the same department.

Program Code: 3036
CIPC: 050106

Advisement

All students electing the minor are required to meet with the coordinator for approval of all courses to be counted toward fulfillment of the requirements. The coordinator will ascertain that the individual courses selected are eligible to be counted, and that together they form a coherent curriculum of sufficient breadth.

Course Requirements for Minor

The following are required in addition to two years of college study in a European language other than the student's native language, or equivalent proficiency to be demonstrated by the student.

Core requirements (6 credit hours)

Two courses (six credit hours) from the following; courses may not be from the same department:

FL 3320 - Applied Language Studies **Credits: (1-3)**

Approved titles offered under FL 3320 are: European Language & Society and European Culture & Community

HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**

HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**

HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**

HIST 4250 - Nineteenth-Century Europe **Credits: (3)**

HIST 4260 - Europe in the Age of Total War **Credits: (3)**

HIST 4280 - History of Christianity in Europe **Credits: (3)**

GEOG 3590 - Geography of Europe **Credits: (3)**

POLS 3210 - Politics in the European Union **Credits: (3)**

Elective requirements (12 credit hours)

Select twelve additional credit hours from the following programs and departments as approved by the program coordinator: Anthropology, Communication, English, Foreign Language, Performing Arts, Business & Economics, Geography, History, Political Science, Philosophy, Sociology, Honors. Courses selected and approved from these departments must have explicit European emphasis and content.

Latin American Studies Minor Program

Minor

Latin American Studies Minor

Coordinator: Dr. Isabel Asensio

Location: Elizabeth Hall, 230

Telephone: 801-626-6777

The Latin American Studies Minor is an interdisciplinary program offered through a number of cooperating departments and programs including Foreign Languages, History, Geography, Political Science and Philosophy, Psychology, Sociology, Anthropology, Child and Family Studies, English, and Women Studies.

Grade Requirements: A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 18 credit hours in addition to two years of college Portuguese or Spanish or their equivalent.

Program Code: 3000

CIPC: 050107

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Course Requirements for Minor in Latin American Studies

The following are required in addition to two years of college study in Portuguese or Spanish or equivalent proficiency to be demonstrated by the student. Select 18 credit hours chosen from at least three of the following departments.

Child & Family Studies

CHF 4300 - Latino Child and Family Development **Credits: (3)**

PSY 3450 - Psychology of Language **Credits: (3)**

LING 4830 - Directed Readings in Linguistics **Credits: (1-3)**

LING 4900 - Variable Topics in Linguistics **Credits: (1-3)**

Note:

* "Applied Language Studies" shall be understood to include any version of FL 3320 whose linguistic content is at least 50%. The coordinator of the minor will make that determination in consultation with the chair of Foreign Languages and the Linguistics Minor Committee.

4. Senior Reflection (.5 credit hours)

LING 4990 - Centering Experience **Credits: (.5)**

Note:

Students may take no more than eight hours with the same prefix (beyond the Foundations course).

Neuroscience Minor Program

Minor

Neuroscience Minor

Coordinator: Dr. Aminda O'Hare, 801-626-6729, amindaohare@weber.edu

Location: Lindquist Hall 391

Telephone Contact: Roe Schoof, 801-626-6293

Neuroscience is the interdisciplinary scientific study of the central and peripheral nervous systems in an effort to understand the biological basis of behavior, thinking, emotion, memory, and perception.

Credit Hour Requirements: A minimum of 18 credit hours as described below. *For advisement contact the Neuroscience Program*

Coordinator who will help you select courses which will compliment your major.

Grade Requirements: A grade of "C" or better in courses used toward the Minor (a grade of "C-" is not acceptable).

Program Code: 7044

CIPC: 261599

Neuroscience Students Sarah Honeycutt and Andrew Maloy study models of human brains in preparation for Brain Awareness Week.

Course Requirements for Minor

For advisement contact the Neuroscience Program Coordinator who will help you select courses which will compliment your major.

To complete the Neuroscience Minor, the student must complete a minimum of 18 credit hours as follows: a) Introduction to Neuroscience (NEUR 2050), b) one course each from the three content areas (Cognitive/Behavioral, Cellular/Molecular, and Clinical/Medical), and c) 6 credits of electives. Students that have not already completed ZOOL 1110 LS - Principles of Zoology as part of their major will also need to complete this course before taking the Cellular and Molecular area requirement. Thus, completion of the Neuroscience Minor may require 23 credit hours for some students. With approval of the Neuroscience Program Director and the applicable Department Chair, students may apply credits from one of the required courses of either Area 3 or Area 5 towards both their minor and major to offset the number of prerequisites necessary for courses in these areas. Only one course total may be applied to the minor and major, and only after the appropriate approvals have been received.

1. Foundation Course

NEUR 2050 - Introduction to Neuroscience **Credits: (3)**

2. Cognitive and Behavioral Area: 1 of the below

NEUR 3750 - Cognitive and Behavioral Neuroscience **Credits: (3)** (Prereq: PSY 2730 or NEUR 2050)

PSY 2730 - Biopsychology **Credits: (3)** (Prereq: PSY 1010 or NEUR 2050)

PSY 3730 - Perception **Credits: (3)** (Prereq: PSY 1010 or NEUR 2050)

3. Cellular and Molecular Area: 1 of the below

NEUR 3950 - Cellular and Molecular Neuroscience **Credits: (3)** (Prereq: NEUR 2050)

ZOOL 3200 - Cell Biology **Credits: (4)** (Prereq: ZOOL 1110 and either CHEM 1110 and 1120 series or CHEM 1210 and 1220 series, or approval of instructor)

ZOOL 3300 - Genetics **Credits: (4)** (Prereq: ZOOL 1110 and MATH 1050 or equivalent, or approval of instructor)

ZOOL 4100 - Vertebrate Embryology **Credits: (4)** (Prereq: ZOOL 1110 and ZOOL 2220, or approval of instructor)

CHEM 3070 - Biochemistry I **Credits: (3)** Prereq: CHEM 2310 and CHEM 2315 . Must be taken with CHEM 3075 , Biochemistry Lab.

CHEM 3075 - Biochemistry I Lab **Credits: (1)** Prereq: CHEM 2310 and CHEM 2315 . Must be taken with CHEM 3070, Biochemistry.

4. Clinical and Medical Area: 1 of the below

HHS 2240 - Introduction to Pharmacology **Credits: (3)** Prerequisite: (Recommended) HHS 1101, HHS 1110 and HHS 1111. Students taking HHS 2240 cannot take HHS 3240 for credit.

or

HHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

Prerequisite: (Recommended) HHS 1101, HHS 1110 and HHS 1111. Students taking HHS 2240 cannot take HHS 3240 for credit.

NEUR 3850 - Clinical Neuroscience **Credits: (3)** *Prerequisite: NEUR 2050 or PSY 2730 or consent of instructor.*
PSY 3740 - Neuropsychopharmacology **Credits: (3)** *Prerequisite: NEUR 2050 or PSY 2730 or instructor approval.*
ZOOL 1020 LS - Human Biology **Credits: (3)**
ZOOL 2200 LS - Human Physiology **Credits: (4)**

5. Electives: 6 credits minimum from the electives listed below

ANTH 1020 LS/DV - Biological Anthropology **Credits: (3)**
ANTH 1040 HU/DV - Language and Culture **Credits: (3)**
BTNY 2303 - Ethnobotany **Credits: (3)**
BTNY 2600 - Laboratory Safety **Credits: (1)**
EET 1110 - Basic Electronics **Credits: (2)**
EET 4040 - Signals and Systems **Credits: (4)**
CHEM 1050 PS - Introduction to General, Organic & Biochemistry **Credits: (5)**
CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (5)**
CHEM 2310 - Organic Chemistry I **Credits: (4)**
CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
CHEM 2320 - Organic Chemistry II **Credits: (4)**
CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
CHEM 2600 - Laboratory Safety **Credits: (1)** *(cross-listed with all science departments)*
CHEM 3070 - Biochemistry I **Credits: (3)**
CHEM 3080 - Biochemistry II **Credits: (3)**
CHEM 3090 - Biochemical Techniques **Credits: (1)**
CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**
HLTH 3160 - Principles of Health Behavior **Credits: (3)**
HTHS 1101 - Medical Terminology **Credits: (2)**

HTHS 1110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
HTHS 1111 - Integrated Human Anatomy and Physiology II **Credits: (4)**

HTHS 2230 - Introductory Pathophysiology **Credits: (3)**

HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

MICR 3254 - Immunology **Credits: (4)**
MICR 3305 - Medical Microbiology **Credits: (5)**
MICR 4154 - Microbial Genetics **Credits: (4)**
MICR 4252 - Cell Culture **Credits: (2)** *(cross-listed with Botany)*
MICR 4554 - Virology **Credits: (4)**
NEUR 4800 - Projects and Research **Credits: (1-3)**
NEUR 4830 - Directed Readings **Credits: (1-3)**
NEUR 4900 - Topics in Neuroscience **Credits: (2-3)**
PHIL 3350 - Medical Ethics **Credits: (3)**
PHYS 3190 - Applied Optics **Credits: (3)**
PHYS 3410 - Electronics for Scientists **Credits: (4)**
PHYS 3420 - Data Analysis, Statistics, and Instrumentation **Credits: (3)**
PSY 2730 - Biopsychology **Credits: (3)**
PSY 2830 - Directed Readings **Credits: (1-3)** (3 credit hours required)
PSY 3730 - Perception **Credits: (3)**
PSY 3740 - Neuropsychopharmacology **Credits: (3)**
PSY 4800 INT - Projects and Research **Credits: (1-3)** * ‡
PSY 4830 INT - Directed Readings **Credits: (1-3)** * ‡
PSY 4900 - Selected Topics in Psychology **Credits: (2-3)** * ‡
PSY 4910 - Senior Thesis **Credits: (3)** * ‡
ZOOL 1020 LS - Human Biology **Credits: (3)**
ZOOL 2100 - Human Anatomy **Credits: (4)**
ZOOL 2200 LS - Human Physiology **Credits: (4)**
ZOOL 3200 - Cell Biology **Credits: (4)**
ZOOL 3300 - Genetics **Credits: (4)**
ZOOL 3600 - Comparative Physiology **Credits: (4)**
ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
ZOOL 4120 - Histology **Credits: (4)**
ZOOL 4220 - Endocrinology **Credits: (4)**

ZOOL 4300 - Molecular Genetics **Credits: (4)**
ZOOL 4350 - Animal Behavior **Credits: (4)**
ZOOL 4800 - Problems in Zoology **Credits: (1-4) ** ‡**
ZOOL 4830 - Readings in Zoology **Credits: (1-4) ** ‡**
ZOOL 4900 - Topics in Zoology **Credits: (1-4) ** ‡**
ZOOL 4920 - Short Courses, Workshops, Institutes and Special Programs **Credits: (1-4) ‡**
CHEM 4250 - Medicinal Chemistry **Credits: (3)**
MLS 1113 - Introduction to Medical Laboratory Practices **Credits: (4)**
MLS 4803 - Research Projects in Medical Laboratory Sciences I **Credits: (2)**
MLS 4804 - Research Projects in Medical Laboratory Sciences II **Credits: (2)**
PSY 3240 - The Psychology of Drug Use and Abuse **Credits: (3)**

*Prerequisites:

SS PSY 1010, PSY 3600 (Statistics), and PSY 3610 (Research Methods) or equivalent, and faculty mentor permission.

**Prerequisites:

LS ZOOL 1110 and ZOOL 2220, and approval of instructor.

‡Note:

‡These courses must have a significant neuroscience focus in order to qualify as an elective towards the neuroscience minor; approval by the Neuroscience Program Direct is required in advance.

Note:

Consult the WSU course catalog for prerequisites to the elective courses listed above.

Area 6: Lab Requirement

Students must complete at least one science lab course (in any subject) to complete the neuroscience minor. This can be included as part of a course (for example, CHEM 2310), or as a separate class (for example, CHEM 3075 or NEURO Lab).

Area 7: Graduation Sign Off

Students must meet with the program director.

Urban and Regional Planning Emphasis

Emphasis Option for Bachelor of Integrated Studies

Urban and Regional Planning Emphasis (BIS)

Coordinator: Dr. Bryan Dorsey

Location: Lindquist Hall 363

Telephone: 801-626-6944

This program provides a special emphasis in Urban and Regional Planning for majors in Botany, Sociology, Geography, Geosciences, Microbiology, Politics, Economics, Zoology, and related fields. The planning emphasis offers students a background in planning by adding a set of core courses to the major of their choice. This allows each student to pursue his discipline and still gain a general understanding of the field of planning.

Grade Requirements: A grade of "C" or better is required for all courses in Urban and Regional Planning (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 18 credit hours.

Program Code: 7037

CIPC: 451201

Urban and Regional Planning Emphasis

Courses Required (6 credit hours)

GEOG 4410 - Sustainable Land Use Planning **Credits: (3)**

GEOG 4420 - Advanced Urban and Regional Planning **Credits: (3)**

Electives (12 credit hours)

For students completing both a major and a minor, the requirements of the major field will be reduced by fifteen hours. They will be replaced by 12 hours of interdisciplinary courses selected outside the major field from the following.

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (3-4)** (3 credit hours required)
- GEOG 4400 - Cartography and Map Design **Credits: (3)**
- GEOG 3210 - Urban Geography **Credits: (3)**
- GEOG 3360 - Economic Geography **Credits: (3)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- SOC 3840 - Cities and Urban Life **Credits: (3)**
- SOC 3850 - Race & Ethnicity **Credits: (3)**
- SOC 3300 - Environment and Society **Credits: (3)**

Note:

And a basic statistics course taken in a department of the student's choice.

For students who wish to complete the Planning Emphasis Program in lieu of a minor, GEOG 4410 and GEOG 4420 will be required as well as 12 hours of interdisciplinary courses from the above list outside the major field.

Other courses related to land use planning not listed here are acceptable with approval of advisor. This includes courses transferred in from other colleges or universities and any directed reading or individual research courses in any department where the topic deals primarily with land use planning.

Emphasis Only

Urban and Regional Planning

Coordinator: Dr. Bryan Dorsey

Location: Social Science Building, Room 314

Telephone: 801-626-6944

This program provides a special emphasis in Urban and Regional Planning for majors in Botany, Sociology, Geography, Geosciences, Microbiology, Politics, Economics, Zoology, and related fields. The planning emphasis offers students a background in planning by adding a set of core courses to the major of their choice. This allows each student to pursue his discipline and still gain a general understanding of the field of planning.

Women & Gender Studies Minor Program

Minor

Women & Gender Studies Minor

Coordinator: Dr. Melina Alexander

Location: Lindquist Hall Room 336

Telephone Contact: Roe Schoof 801-626-7627

Women & Gender Studies is a minor program, and Bachelor of Integrated Studies area of emphasis, which offers interdisciplinary, scholarly perspectives on the formation of gender and its critical intersections with other relations of power such as sexuality, race, ethnicity, class, nationality, religion, and age.

Faculty and students address questions within the context of a transnational world and from different disciplines, such as, but not limited to, history, literature, sociology, communication, psychology, criminal justice, social work, political sciences, and cultural studies.

Program Prerequisite: A student's program of study for the Women & Gender Studies Minor must be approved by the Women & Gender Studies Coordinator.

Grade Requirements: A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)

Credit Hour Requirements: A total of 21 credit hours is required for this minor, 15 credits from core courses and 6 from electives.

Program Code: 7048

CIPC: 050207

Course Requirements for Minor

Women and Gender Studies Courses Required (15 credit hours)

WGS 1500 SS/DV - Introduction to Women and Gender Studies **Credits: (3)**

WGS 2500 SS/DV - Human Rights in the World **Credits: (3)**

WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**

WGS 4150 - Research Methodologies **Credits: (3)**

WGS 4250 INT - Community-Based Research/Internship **Credits: (3)**

Electives (6 credit hours)

A total of 6 credit hours of electives chosen in consultation with the Women and Gender Studies Coordinator. Electives may include up to 3 credit hours of Directed Readings.

COMM 3090 - Gender and Communication **Credits: (3)**

ENGL 2710 HU/DV - Perspectives on Women's Literature **Credits: (3)**

SPAN 3670 - Literature Authors **Credits: (3)**

GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**

HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**

PSY 2370 - Psychology of Women and Gender **Credits: (3)**

PSY 3100 - Psychology of Diversity **Credits: (3)**

SOC 2370 - Sociology of Gender **Credits: (3)**

WGS 2900 - Topics in Women's Studies **Credits: (1-3)** or

WGS 4900 - Topics in Women's Studies **Credits: (1-3)**

WGS 4830 - Directed Readings **Credits: (1-3)**

Note:

Should other courses relating specifically to Women or Gender Studies, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as electives for the Women and Gender Studies Minor Program.

Career and Technical Education Programs

Director: Julie Snowball 801-395-3473

Career and technical education includes programs that focus on job preparation. These programs, listed below, prepare students with a technical skill, license, certificate, or associate's degree upon completion of the program. The type of degree and the specific requirements for each program are outlined in departmental listings. Visit weber.edu/cte for full program listing.

Applied Science & Technology

- Apprenticeship (AAS)
- Automotive Service Technology (AAS)
- Web and User Experience (AAS)
- Computer Science (AAS)
- Construction Management (AAS)
- Product Design and Development (formerly DET): An Engineering Technology (AAS)
- Electronics Engineering Technology (AAS)
- General Technology (AAS)
- Interior Design (AAS)
- Manufacturing Engineering Technology (AAS)
- Mechanical Engineering Technology (AAS)
- Network Management Technology (AAS)
- Pre-Engineering (APE)
- Sales and Merchandising (AAS)

Business & Economics

- Management Information Systems (AS)

Education

- Early Childhood (AAS)

Health Professions

- Dental Hygiene (AS)
- Paramedic Studies (AAS)
- Emergency Medical Technician EMT and Advanced Certification
- Healthcare Coding & Classification Certificate of Proficiency
- Health Information Technology (AAS)
- Health Sciences (AS)
- Medical Laboratory Sciences (AAS)
- Nursing (AS)
- Diagnostic Medical Sonography (BS)
- Nuclear Medicine (BS)
- Radiation Therapy (BS)
- Radiography (AAS)
- Respiratory Therapy, Pre-Professional (AAS)

Science

- Biology (AS)
- Chemical Technician (AAS)
- Geospatial Analysis Certificate of Proficiency

Social & Behavioral Sciences

- Archaeological Technician (AAS)
- Criminal Justice (AS)

Course Attributes

Attributes are short acronyms embedded into course titles that identify specific elements of content and/or pedagogy within a course. Content refers to a focus on agreed-upon outcomes. Pedagogy refers to a focus on use of specific types of instructional approaches or strategies.

The purpose of the attributes is to support the organizational mission by increasing:

- Advising transparency for students

- Identify required course work such as General Education or Diversity courses.

- Identify specific content and pedagogy that may inform appropriate course selection.

- Institutional identification by making visible engagement in specific learning outcomes and high impact practices, particularly for underrepresented students.

- Facilitation of interdisciplinary study and University curriculum initiatives.

- Third-party recognition of University accomplishments, such as Carnegie Foundation recognition of the Center for Community Engaged Learning (CEL) attribute.

- Leverage for graduates in applying to graduate school or for employment, by defining attributes on the back of transcripts and/or offering certificates or recognitions for completing a given number of courses. The scope of an attribute may be limited to courses within a specific department or college, or inclusive of courses across the University. A single course may not hold more than three attributes.

High Impact Educational Experiences

High Impact Educational Experiences promote student learning through curricular and co-curricular activities that are intentionally designed to foster active and integrative student engagement by utilizing multiple impact strategies.

Attribute	Abbreviation	Description
Community Engaged Learning	CEL	Students will engage in meaningful community engagement that is connected to their specific course's academic objectives. CEL Website
Course Based Research	CRE	Students will engage in a significant research, scholarly, or creative works experience as a major component of this course. CRE Website
Internship	INT	Students will spend the bulk of their time engaging with industry professionals in experiential learning. INT Website
Sustainability	SUS	Students will concentrate on sustainability, including its social, economic, and environmental dimensions, or examine an issue or topic using sustainability as a lens. SUS Website

General Education

The purpose of the Weber State University General Education program is to provide students with foundational knowledge and intellectual tools that enhance and transcend their academic program of study. The big questions posed by General Education courses address significant issues about the world. General Education courses help students apply their learning and develop personal and social responsibility, which is demonstrated through signature assignments. More information is available in the Catalog's General Education Requirements and the General Education website.

Attribute	Abbreviation	Description
Composition	EN	Students will focus on the development of academic composition skills to serve as a foundation for continued writing experiences across the curriculum.
American Institutions	AI	Students will demonstrate reasonable understanding of the history, principles, form of government, and economic system of the United States. Students will use primary documents, engage in a diversity of viewpoints, as well as interpret, communicate and integrate information about historical, political, and economic systems.
Quantitative Literacy	QL	Students will demonstrate quantitative reasoning skills beyond those found within required high school Mathematics courses and at an appropriate introductory university level. Students will focus on interpretation, representation, calculation, application/analysis, assumption, communication, and creation of quantitative evidence.
Information Literacy	IL	Students will learn the Library and Web research skills needed for success in college and for lifelong learning.
Diversity	DV	Students will engage with human diversity/multiculturalism that is directly relevant to present-day society in a course that is comparative in nature (multi-cultural or cross-population), treats multiple aspects of diversity and/or culture (such as race, gender, age, class, etc.) in a single area of study, or is specific to a particular group of people or culture that is not present or is under-represented in the general social-economic-political framework of the United States.
Humanities	HU	Students will derive evidence from primary sources regarding the complexities and changes in human experience through analytical reading and critical thought; describe how human experience is shaped by social, cultural, linguistic, and/or historical circumstances; demonstrate attentiveness to linguistic, visual, and/or audio texts when communicating meaning/ or use appropriate verbal, perceptual, or imaginative skills when organizing meanings, developing a sense of self, and balancing potentially disparate values.
Creative Arts	CA	Students will discuss the scope and variety of the fine arts; recognize the aesthetic standards used in making critical judgments in various artistic fields; analyze and articulate understanding of a range of artistic processes; participate in

		an introductory performance, production or design experience in the arts; or demonstrate how the creative process is informed and limited by social and historical contexts.
Social Sciences	SS	Students will demonstrate understanding of social and behavioral science methods, concepts, and theories; formulate basic questions about social behavior and phenomena through interpretive and systematic analyses; develop empirically-derived and theoretically-informed explanations of human behavior in both its individual and collective dimensions; or demonstrate a critically-reasoned understanding of social patterns and individual variation congruent with and divergent from those patterns.
Physical Sciences	PS	Students will demonstrate understanding of science as a way of knowing about the physical world, demonstrate understanding of forces in the physical world, discuss the flow of matter and energy through systems; develop evidence-based arguments regarding the effect of human activity on the Earth; or describe how the Physical Sciences have shaped and been shaped by historical, ethical, and social contexts.
Life Sciences	LS	Students will demonstrate understanding of science as a way of knowing about the natural world; demonstrate basic understanding of how organisms live, grow, respond to their environment, and reproduce; discuss the organization and flow of matter and energy through biological systems; explain from evidence patterns of inheritance, structural unity, adaptation, and diversity of life on Earth; or describe how the Life Sciences have shaped and been shaped by historical, ethical, and social contexts.

Courses

Aerospace Studies

AERO 1010 - Foundations of USAF I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Development, organization, and doctrine of the United States Air Force, emphasizing Strategic Force Requirements.

AERO 1010L - General Military Leadership Lab I

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1011 - Foundations of USAF II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Development and organization of United States Air Force Defensive Forces, General Purpose Forces and Tactical Air Forces.

AERO 1011L - General Military Leadership Lab II

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1110 - General Military Leadership Lab I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1111 - General Military Leadership Lab II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 2010 - Airpower History I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Development of various concepts of air power employment, emphasizing factors that have prompted research and technological change.

AERO 2010L - General Military Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2011 - Airpower History II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Development of various concepts of air power employment, emphasizing factors that have prompted research and technological change.

AERO 2011L - General Military Leadership Lab IV

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base. Professional Officer Courses

AERO 2110 - General Military Leadership Lab III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2111 - General Military Leadership Lab IV

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2830 - Directed Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individual study with a professor from Aerospace Studies (Air Force ROTC). Allows increased responsibility for GMC in an academic setting providing leadership/management skill development opportunities.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

AERO 3000 - Field Training

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Four to five weeks of field training conducted at United States Air Force bases as arranged by the Professor of Aerospace Studies. Course prepares AFROTC students for entry into upper division AFROTC classes, the Professional Officer Corps, and for later commissioning into the US Air Force. The course offers a minimum of 269 hours of education and training in the areas of Officership, Air Force Orientation, Leadership, and Physical/Survival Training.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

AERO 3010 - Leadership Studies I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Writing, speaking, and listening as communication skills;

management concepts; responsibilities and ethics for an Air Force junior officer.

AERO 3010L - POC Leadership Lab I

Credits: (0)

Typically Taught Fall Semester: Full Sem

Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3011 - Leadership Studies II

Credits: (3)

Typically Taught Spring Semester: Full Sem

Principles of leadership, problem solving, decision, discipline, and human relations. Emphasis on career planning as an Air Force junior officer.

AERO 3011L - POC Leadership Lab II

Credits: (0)

Typically Taught Spring Semester: Full Sem

Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3110 - POC Leadership Lab I

Credits: (1)

Typically Taught Spring Semester: Full Sem

Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3111 - POC Leadership Lab II

Credits: (1)

Typically Taught Spring Semester: Full Sem

Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 4010 - National Security Affairs I

Credits: (3)

Typically Taught Fall Semester: Full Sem

Examines the need for national security, analyzes the evolution and formulation of American defensive policy, strategy and joint doctrine. Investigates methods of managing conflict and touches on arms control and terrorism.

AERO 4010L - POC Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: Full Sem

Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4011 - National Security Affairs II

Credits: (3)

Typically Taught Spring Semester: Full Sem

Examines conflict management, arms control, military law and Air Force issues and policies.

AERO 4011L - POC Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: Full Sem

Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4110 - POC Leadership Lab III

Credits: (1)

Typically Taught Spring Semester: Full Sem

Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4111 - POC Leadership Lab III

Credits: (1)

Typically Taught Spring Semester: Full Sem

Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4830 - Directed Studies

Credits: (1-5)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Individual study with a professor from Aerospace Studies. Provides added leadership/management skill development opportunities to develop more competitive officer candidates.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 5 credit hours.

Anthropology

ANTH 1000 SS/DV - Introduction to Anthropology

Credits: (3)

Typically Taught Fall Semester: Full Sem, Full Sem Online

Typically Taught Spring Semester: Full Sem, Full Sem Online

Typically Taught Summer Semester: 1st Blk, 2nd Blk, Full Sem Online

Anthropology is the study of humankind, past and present: our origins and the development of cultural behavior and biological attributes. This course examines what it means to be human, describing and explaining human differences and similarities throughout time and across the world.

ANTH 1020 LS/DV - Biological Anthropology

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Explores human origins, evolution, and contemporary biological diversity by examining genetics, the human fossil record, primatology, and human ecology from a biocultural perspective.

ANTH 1040 HU/DV - Language and Culture

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Explores the nature of human language and its role in sociocultural settings. Surveys a world sample of languages from the perspective of anthropological linguistics including language structure, social functions, geographical and historical variation, and cultural values.

ANTH 2010 SS/DV - Peoples and Cultures of the World**Credits: (3)****Typically Taught Fall Semester: Full Sem, Full Sem Online****Typically Taught Spring Semester: Full Sem, Full Sem Online****Typically Taught Summer Semester: 1st Blk, 2nd Blk**

A survey of cultures around the world, exploring their similarities and differences as observed by anthropologists.

ANTH 2030 SS - Principles of Archaeology**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem**

Archaeology attempts to reconstruct prehistoric and early historic human life ways as well as long term cultural and biological evolutionary processes through the scientific study of material remains. This course focuses upon the history of archaeology, the ways in which archaeologists recover and analyze data, and the major theoretical perspectives used to interpret the past.

ANTH 2810 - Experimental Courses**Credits: (1-6)**

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Variable Title**

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

ANTH 2950 - Elementary Anthropological Field Trip**Credits: (1-3)****Typically Taught Summer Semester: 1st Blk**

Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.

Pre-requisite(s): Consent of instructor. A maximum of three credit hours of Anthropology 2950 can be applied toward graduation.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

ANTH 2990 - Special Topics in Anthropology**Credits: (1-3)****Variable Title****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem**

A course allowing examination of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

Number of Times this Course May Be Repeated: May be repeated 6 times with a maximum of 18 credit hours.

ANTH 3100 - Prehistory of North America**Credits: (3)****Typically Taught Spring Semester: Full Sem**

A general survey course concerning the archaeology of North America and an interpretation of its prehistory. The course material spans the time of initial human occupation of the continent through the early historic period, and emphasizes the three major cultural stages (Paleo Indian, Archaic, and Formative) which characterize the archaeological record of North America.

ANTH 3200 - Archaeology of Early Civilizations**Credits: (3)****Typically Taught Fall Semester: Full Sem**

This course is designed to survey the broad range of early civilizations worldwide as they are known archaeologically, including the variety of ways and places in which they have arisen and the great diversity of peoples who created them. It examines highly complex societies in sub-Saharan and North Africa, native North and South America, East and South Asia, the Middle East, the Aegean and Celtic Europe, discussing in detail the diverse ways of life in these civilizations and how they shaped cultural forms, practices and ideas in the modern life of these regions today.

ANTH 3300 - Archaeological Field Techniques**Credits: (3-6)****Typically Taught Summer Semester: 2nd Blk**

Intensive field school involving archaeological excavation and/or survey, emphasizing modern field techniques, data recordation and recovery, map interpretation and production, and the proper conduct of problem-oriented archaeology.

Pre-requisite(s): ANTH 2030, one upper division archaeology course such as ANTH 3100, 3200, or 3400, and consent of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 12 credit hours.

Note: Archaeology Track, Archaeological Technician Associate's Degree, and Archaeological Technician Certificate students must complete 6 credit hours.

ANTH 3400 - Archaeological Laboratory Techniques**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Emphasizes student analysis and write-up of an artifact assemblage from an archaeological site. Weekly lectures familiarize students with analyses of prehistoric and historic archaeological materials, as well as the production of text, figures, tables, maps, and bibliographies for technical reports.

Pre-requisite(s): ANTH 2030, or consent of instructor.

ANTH 3500 - Advanced Cultural Anthropology

Credits: (3)

The nature of culture, its structure and function in the variety of human activities.

Pre-requisite(s): ANTH 1000 or ANTH 2010, or consent of instructor.

ANTH 3600 - Culture Area Studies**Credits: (1-3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Surveys selected societies in ethnographically different cultural areas of the world, such as Africa, Asia, North American Indians, Latin America, the Middle East, the Pacific, or the modern United States. When the number is used, it will be accompanied by a descriptive title and the credit authorized, which will appear on the student transcript. Offerings of same title may not be repeated for credit toward graduation.

Pre-requisite(s): ANTH 1000 or ANTH 2010, or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 6 times with a maximum of 18 credit hours.

ANTH 3700 - Sex Roles: Past, Present and Future**Credits: (3)**

An overview of the differences and similarities in human sex roles, cross-culturally and over time, with special emphasis on the influences of biology, socialization, and ecology in their origin, perpetuation, and change.

ANTH 3900 - Magic, Shamanism and Religion**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

A comparative study of the origins, development, and social functions of magic, shamanism, and religion within cultural systems around the world.

ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Explores means by which archaeological inferences are made to decipher the material record of past human behavior. Includes the history of recent archaeological thought from the beginnings of scientific archaeology (ca. 1960's) through the profession of cultural resource management.

Pre-requisite(s): ANTH 2030.

ANTH 4200 - Anthropological Theory**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Historical and theoretical development of the major anthropological schools of thought including 19th century evolutionism, historical particularism, social anthropology, symbolic analysis, neoevolutionism, and cultural ecology.

Pre-requisite(s): ANTH 1000 or consent of instructor.

ANTH 4300 - Anthropological Research Methods**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Students will learn and apply the scientific methods of inquiry used in anthropological research. Required for majors and recommended

for minors.

Pre-requisite(s): ANTH 1000 or a 2000-level course; and SOC 3600, or consent of instructor.

ANTH 4810 - Experimental Courses**Credits: (1-3)**

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

ANTH 4830 INT - Readings and/or Projects**Credits: (1-3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual readings and/or projects for anthropology students.

Pre-requisite(s): ANTH 1000, permission of instructor and approval of program coordinator.

Number of Times this Course May Be Repeated: Maximum of 6 hours may be applied toward graduation.

ANTH 4890 INT - Internship in Anthropology**Credits: (1-3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Anthropology majors may apply for internship opportunities that provide the student with both practical and research experiences.

Pre-requisite(s): 6 hours of upper-division anthropology courses, Anthropology major status, approval of Program Coordinator.

Number of Times this Course May Be Repeated: A student may complete a total up to 6 hours of internships for credit, with a maximum of 3 hours to be applied towards the Anthropology major.

ANTH 4900 - Senior Capstone Seminar**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

This class is a one-semester three credit hour seminar whose main goal is integration of materials within the major (especially what you have learned in Methods and Theory). The Senior Thesis is a culminating experience focused on a theoretical issue, practical research or applied work, a historical period or theme within anthropology. Students will write an academic thesis paper which centers on a topic chosen by the student in consultation with the course instructor and, depending on the anthropological subfield, another faculty member in this department. The project requires approval of the course instructor and may include an applied or fieldwork component. Students will develop a research question, prepare a literature review, collect and analyze data, complete and present a substantial research writing project (the senior thesis) using the skills they have acquired throughout their academic career, drawing particularly upon the required theory and methods classes in crafting their research proposals. Students will be encouraged to engage deeply with a topic they care about as they produce a Senior Thesis based on original scholarship that displays a refined understanding of current literature and enduring analytical perspectives in Anthropology. In addition to the research project, this course also examines anthropology as a career through presentations, readings, and discussions that help students prepare for the process of applying to graduate programs and/or explore career opportunities in which an anthropology degree can be applied.

Pre-requisite(s): ANTH 4300.

ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 time with a maximum of 6 credit hours.

ANTH 4950 - Advanced Anthropological Field Trip

Credits: (1-3)

Typically Taught Summer Semester: *1st Blk*

Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.

Pre-requisite(s): ANTH 1000 or ANTH 2030 and consent of instructor.

Number of Times this Course May Be Repeated: A maximum of three credit hours of Anthropology 4950 can be applied toward graduation.

ANTH 4990 - Seminar in Anthropology

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An advanced course allowing in-depth study of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

Pre-requisite(s): ANTH 1000 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 6 times with a maximum of 18 credit hours.

Art

ART 1010 CA - Introduction to the Visual Arts

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Summer Semester: *Online*

Introduction to all forms of visual art covering processes (such as demonstration of the lost-wax process of metal casting), language, responses (oral and written assignments that utilize art-related terminology), issues (such as patronage, feminism or orientalism), and ways of seeing and understanding works of art. A general education course for the non-art major.

ART 1030 CA - Studio Art for the Non-Art Major

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

A general education course for non-art majors that primarily includes

a series of hands-on art experiences (such as drawing and sculpture). Class discussion draws from the disciplines of art history, art criticism, and aesthetics as guides through visual presentations. For students desiring to broaden their academic background in the area of visual literacy and problem solving.

ART 1040 - Orientation to Visual Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *1st Blk*

Orientation to the visual world including how we perceive and interpret visual messages, the impact of the visual on human relations, political exploitation of the visual and aesthetic issues in the visual arts. Topics are explored through written and creative projects designed to establish a context for expanded study in the visual arts. Includes curriculum planning for art and design majors, introduction to programs and faculty, and professional opportunities.

ART 1110 CA - Drawing I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This is the foundation drawing class for art majors and minors (not a general education class). Perceptual and conceptual development stressed. Variety of materials and procedures investigated.

ART 1120 - Design Concepts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to visual language, design principles, and compositional approaches in two and three dimensions. Basic approaches to sketching and modeling, improving compositional structures, and using form and color to communicate will be addressed.

ART 1130 - Approaches to Surface, Shape and Form

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An in-depth exploration of diverse approaches to communicating through form and color in two and three dimensions. In the course of the semester, students will complete three workshop-style segments across a range of media to include 3D fabrication, analog 2D composition, and digital color & composition.

ART 1135 - Approaches to Materials, Space and Time

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth exploration of a range of approaches to communicating through material, spatial and time-based methods. In the course of the semester, students will complete three workshop-style segments across a range of media to include analog experimental media, art & design in space and time & interaction.

ART 2015 - Drawing on the Land

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Introduction to visual arts media as a productive way to investigate and interpret the natural environment. Appropriate for the art major as well as the non-art major. Participants will build a practice of observation, inquiry, and discovery via drawing and/or other media as designated by faculty. A significant portion of each course will be conducted in the field. Media focus and field location will be announced in advance.

Some travel is required. Camping may be required.

Number of Times this Course May Be Repeated: This course may be repeated twice with a maximum of 9 credit hours with different titles.

ART 2050 - Photographing Artwork

Credits: (1)

Photographing artwork for portfolios: photographing of two- and three-dimensional artwork. Emphasis on reproduction of quality slides, including masking and labeling of slides for juried activities, career and graduate school application. Credit/No Credit.

Pre-requisite(s): ART 2250 or consent of instructor.

Note: Check with Department for course availability.

ART 2200 - Introduction to Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to all printmaking classes covering the processes of intaglio, screenprinting, relief, lithography, and monotype. Students are provided with the fundamentals of each process and experience with each one.

Note: This class is a prerequisite for all printmaking classes.

ART 2250 - Foundations of Photography: Black & White/Analog

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

A highly disciplined craft and concept course to help develop technical and aesthetic skills in black and white photography.

Students learn the use of the camera, zone system of exposure, film, and print processing, and gain an aesthetic sense of the medium.

ART 2310 - Ceramics I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The first course of a two-part introduction to ceramic art. Projects in hand-building and wheel-thrown objects are emphasized. Multiple surfacing and firing techniques will be explored.

ART 2350 - Small Metals/Jewelry I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to tools, materials, and basic techniques of fabrication and casting, with an emphasis on design.

ART 2420A - Bitmap Imaging

Credits: (1)

Emphasis on the principle of bitmap imaging using industry-standard software. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in color photography, graphic design, illustration, web-based and other digital media. Primary software: Adobe Photoshop.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420B - Vector Drawing

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Emphasis on vector drawing as applied to problems in art and design. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in graphic design, animation, 3D modeling, and web design.

Primary software: Adobe Illustrator.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420C - Digital Page Composition

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Emphasis on the principles of layout using industry-standard software tools. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in typography and graphic design. Primary software: Quark Express.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420D - Design for the Internet

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Emphasis on the principles of web design using industry-standard software. This course builds in studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in digital media and web design. Primary software: Macromedia Dreamweaver.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2430 - Introduction to Graphic Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the technical foundations of graphic design along with the elements and principles of visual language. Emphasis on the development of software skills, image and symbol development, graphic systems and design process.

Co-Requisite(s): ART 1120.

ART 2435 - Graphic Design Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Exploration of core elements and processes in the practice of graphic design. Includes project work in basic typography, image generation, visual metaphor, word/picture communication, and information design. Prerequisite: ART 2430.

ART 2450 CA - Foundations of Photography: Color/Digital

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

A highly disciplined craft and concept course to help develop technical and aesthetic skills in color photography. Students will learn and explore the theory, practice, and aesthetics of shooting and printing color photographic materials. Using digital media and new technology as a means for creative expression and investigation in color photography will also be a main concern in this course.

ART 2600 - Painting I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to painting including the construction and design of paintings, investigations into the character and actions of various paints and techniques (traditional and contemporary) on a variety of surfaces.

ART 2700 - Sculpture I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to the essential methods and materials of sculpture including modeling, carving, casting, and construction with emphasis on contemporary activity in sculpture and with projects designed to practice concept development.

ART 2750 - Foundations of Video Art

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will provide students with an introductory-level investigation of the skills and concepts used in experimental digital video making. Students will learn video recording and editing in an art context and to incorporate video into their own creative practice. Students will also be introduced to historical and contemporary aesthetic and conceptual issues surrounding video as a form of creative expression.

Pre-requisite(s): Either ART 2250 or ART 2450 or consent of instructor.

ART 2810 - Book Binding and Box Structures

Credits: (3)

Experimental Course, Contact Department for More Information

This Class involves investigation of material and techniques for constructing traditional and non-traditional book structures. Class covers both adhesive and non-adhesive bindings, box making and basic paper decoration. Students take away multiple models of book structures.

ART 2810 - Drawing and Painting to Print

Credits: (3)

Experimental Course, Contact Department for More Information

The language of print and its articulation has been ever changing since the earliest cave drawings to the digital revolution in the creation of images.

ART 2810 - Furniture Design

Credits: (3)

Experimental Course, Contact Department for More Information

This course will explore the intersection of Sculpture and Design through furniture and object making. With a focus on developing craftsmanship skills will explore current and emerging practices in furniture design including issues of form versus function. Students will develop intermediate to advanced skills in woodworking and metalworking while studying design and sculpture concepts and material exploration. Preliminary design work will be explored with drawing and digital 3D modeling. Students will be introduced to CNC fabrication technology and CAD software for designing and creating functional furniture and/or furniture as sculpture.

ART 2830 - Directed Readings

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Individually chosen readings on specialized topics supervised by a faculty member.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

ART 2850 - Furniture Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Furniture Design explores the intersection of Sculpture and Design through furniture and object making. The course addresses emerging and historic approaches to furniture including both functional and sculptural approaches by contemporary artists and designers. Students will develop intermediate to advanced skills in woodworking and metalworking while studying design and sculpture concepts and gaining a broad understanding of materials. Students will be introduced to CNC fabrication technology and CAD software for designing and creating functional furniture and furniture as sculpture.

Number of Times this Course May Be Repeated: May be repeated three times with a maximum of nine credit hours.

ART 2890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.

Pre-requisite(s): Instructor approval (before enrollment) and previous or concurrent enrollment in art classes as specified by each area of emphasis.

Number of Times this Course May Be Repeated: May be repeated with a maximum of 6 credit hours.

ART 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

ART 3085 - Critical Issues in Art

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course introduces students to the history of ideas in art from the ancient Greeks to the most contemporary currents, with a focus on Modernism and Post-Modernism up to the present. The goal of this course is the creation of a critical and theoretical foundation that will allow student to locate themselves and their work within the context of critical dialogues in the contemporary art world. Class time will involve discussions of assigned readings, with images presented to supplement and inform the ideas under consideration.

Pre-requisite(s): ART 1040 or consent of instructor.

ART 3120 - Figure Drawing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of the anatomical structure of the human body. The student, by means of drawing from the model, explores literal and experimental interpretation of form.

Pre-requisite(s): ART 1110 and ART 1120; or consent of instructor.

ART 3150 - Photography Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce students early to the type of intense investigation and experimentation necessary to define and execute a semester long project in photography. Emphasis will be on development of ideas, fine-tuning technique, and improving ability in critical evaluation and writing. Other topics covered will be an introduction to professional medium-format cameras, and portfolio preparation.

Pre-requisite(s): ART 2250 and ART 2450.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

ART 3200 - Intermediate Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An intermediate level class with emphasis on screenprinting, relief, and intaglio with further exploration into print processes that include photographic stencils and multicolor printing.

Pre-requisite(s): ART 1120 and ART 2200; or consent of instructor.

ART 3210 - Relief Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Students will learn the basic printmaking processes and traditional techniques of carving and printing both wood and linoleum relief blocks. Contemporary approaches to relief processes through digital media experimentation will be introduced. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. Safety issues will be addressed. Students will work from an introductory through an intermediate level, with a variety of progressive projects, each resulting in a small edition. The course will be administered through lecture, process demos, in class work time, and peer/individual critiques. Materials fee will cover most studio costs, excluding plates and paper.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

ART 3215 - Etching Printmaking

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students learn basic platemaking and printing techniques used in etching while learning to incorporate their own drawing skills and points of view. Line work, aquatint, and ancillary techniques will be explored. Safety issues will be addressed. Historical and contemporary prints and printmakers are reviewed. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. The course will be administered through lecture, demos, in class work time, and formal and informal peer critiques. Materials fee to cover most supplies except for printing plates and paper.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

ART 3310 - Ceramics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The second class in a two-part introductory ceramics series. This course expands upon hand-building and covers wheel-thrown techniques in greater depth. Additional approaches to clay surfacing are explored. Students learn clay mixing, glaze testing and principles of kiln firing.

Pre-requisite(s): ART 2310.

ART 3320 - Ceramic Processes

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on specific ceramic processes, trends or concepts that are not normally taught in the regular ceramics classes. Consult department or instructor for course topic prior to enrollment.

Pre-requisite(s): ART 2310 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

ART 3350 - Small Metals/Jewelry II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Development of design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, surface enrichment.

Pre-requisite(s): ART 2350 or consent of instructor.

ART 3410 - Design Seminar for Juniors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Orientation to professional Graphic Design practice for the Junior Graphic Design student. Includes art direction and work situations, client relations, portfolio and resume preparation, self promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.

Pre-requisite(s): ART 2430 and ART 3430 or consent of instructor.

ART 3430 - Typography and Publication Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Orientation to typographic communications including methods and processes, aesthetics, readability, typographic systems, grids, layout, and digital page composition. Class meets 2 times/week for 3-hour sessions.

Pre-requisite(s): ART 2430 or consent of instructor.

ART 3435 - Experimental Typography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Investigation into experimental and expressive aspects of typographic communication. Emphasis is placed upon the historical development of letter design, letter and text as visual form, and typographical illustration.

Pre-requisite(s): ART 2430 or consent of instructor.

ART 3445 - Web Design for Visual Arts

Credits: (3)

Introduction to designing for the Internet. Emphasis on the application of visual communication principles to the creation of functioning, well designed websites. Course will include basic HTML and CSS programming, methods for organizing and understanding website content, ways and processes for working with clients and/or creating content, and ways to translate design and typographic fundamentals to the landscape of the Internet.

Pre-requisite(s): ART 2420A (Bitmap Imaging), ART 2420B (Vector Drawing), and ART 2420C (Digital Page Composition), or ART 2430 (Introduction to Graphic Design), or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated once for credit.

ART 3460 - Illustration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to theory, methods, tools and materials, and the professional practice of illustration. Emphasis is placed on concept development, media exploration and technique as applied to a variety of problems in pictorial communication.

Pre-requisite(s): ART 1110 and ART 1120 or consent of instructor.

ART 3465 - Motion Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is an introduction to Motion Design (in relation to Graphic Design) and will cover the history and aesthetics of motion design, ways to think in time and space, techniques and methods for planning motion sequences, ways to think about and design with typography in motion, and the use of motion-specific industry-standard software and tools (Apple Motion, Adobe Flash, Adobe After Effects). This course aims to: provide historic and current perspectives regarding motion graphics and design; introduce students to categories, styles, terminology and vocabulary used in motion graphics and design; introduce students to basic techniques, methods and concepts used in motion design; work with typography and image in terms of motion; reinforce graphic design tenets and practices, and show how they extend to motion design.

Pre-requisite(s): ART 3430, ART 3435, and ART 2430 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of nine credit hours.

ART 3500 - Advanced Time-Based Media/Video Art

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A project-oriented studio course providing a more in-depth exploration of time-based media as used by contemporary artists with an emphasis on video. We will explore installation, projection and the web as environments for video art, as well as other media which allows the employment of time as a central element.

Pre-requisite(s): ART 2750.

ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I]

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This class prepares the art education candidate for teaching in the classroom, grades 7-12 and adaptable to K- 6. Experiences will include art activities, processes, materials, tools and resources, with the development and preparation of the accompanying curricula materials, lesson plans and assessments by the candidate. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Content will focus on the foundations of art education programming, including the art elements and design principles. In addition, this class will examine classroom management strategies and practices for the beginning teacher in the contemporary classroom. Art Education majors should have completed 40 credit hours; minors must have completed 12 credit hours.

Pre-requisite(s): (Recommended) Professional Core Level, College of Education, or permission of instructor. This course is required for secondary certification and is designed be taken prior to student teaching.

ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II]

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades 7-12, and adaptable to K-6. Candidate will develop and prepare materials for advanced visual arts programming. Further investigation of classroom management practices appropriate to adolescents and young adults. Collaboration, mentorship and leadership will be emphasized. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Art education Majors should have completed 40 credit hours; minors must have completed 12 credit hours.

Pre-requisite(s): ART 3515, or by consent of instructor.

Note: This course is required for secondary certification and is designed to be taken prior to student teaching.

ART 3525 - Practicum: WSU ArtsBridge Service-Learning

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This service-learning course provides the fine arts teacher candidate with academic credit for designing and teaching an integrated arts course in a grade K-12 classroom or equivalent community education program. The candidate will work closely with a University faculty mentor, host school teacher and ArtsBridge director in implementing and assessing integrated arts curricula and producing a final project by K-12 classroom students. Course components include: curricula pre-planning and implementation, in-class teaching, student assessment, candidate self-assessment and ArtsBridge seminar components. By permission only. Fine arts education content area

supervisor and successful interview with faculty mentor and/or ArtsBridge director. Content methodology course(s) complete or in progress.

Number of Times this Course May Be Repeated: May be repeated once with a maximum of 12 credit hours.

ART 3530 - Art Methods and Resources for Elementary Art Teachers K-6

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades K-6. Candidate will develop and prepare materials for elementary visual arts programming, in alignment with state and national standards.

Pre-requisite(s): ART 3515.

ART 3550 - Photography: View Camera Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The theory, aesthetics, and techniques of photographic image making with the view camera. Students will learn the operation of large format cameras, the Zone System method of negative exposure and development and methods for fine-tuning black and white photographic printing. The history of and contemporary trends in working with large format negatives will also be explored.

Pre-requisite(s): ART 3150 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated once with a maximum of 6 credit hours.

ART 3600 - Painting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Consolidates and further develops material covered in Painting I. Investigations include the figure, mixed media, and abstraction. Historical precedents are discussed through slide lecture as an aid to development.

Pre-requisite(s): ART 1120 and ART 2600; or consent of instructor.

ART 3700 - Sculpture II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to the form language of sculpture with projects designed to develop conceptual thinking skills, to learn technical skills, and to explore new areas of interest in the three-dimensional visual arts.

Pre-requisite(s): ART 1130 and ART 2700; or consent of instructor.

ART 3720 - Public Art

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Public Art focuses on practices in contemporary art within the public realm and includes study of both current and historic public artworks of all mediums. Students will explore theory and practice in relation to how site impacts the context and reception of art. The course will address a broad range of approaches to working in the public realm, such as site-specificity, temporary installations, murals, environmental art, community-based projects, and interactive art. Students will learn how to develop models and proposals and gain an understanding of the steps necessary to research, develop and implement a public art commission. A culminating semester-long

project may include developing a public art project, or a public art proposal tailored for an existing public art opportunity. Students will receive a letter grade.

Pre-requisite(s): ART 1130 (or consent of the instructor).

Number of Times this Course May Be Repeated: Students can repeat the course for additional credit a maximum for 2 times (6 credit hours total).

ART 3800 - Travel-Study Studio

Credits: (1-3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Studio projects will be based in response to the opportunities afforded by travel-study. These works may be a direct response to the country or region and its culture or they may be related to an event that takes place in that area while students are visiting. Instruction will be given in English.

Pre-requisite(s): ART 1040 or Instructor's Approval.

Number of Times this Course May Be Repeated: May be repeated up to 4 times and up to 12 credit hours.

ART 3810 - Professional Practices

Credits: (3)

Experimental Course, Contact Department for More Information

This course provides students with a wide variety of information and hands-activities to prepare emerging artists for professional pursuits after completion of their undergraduate degree. Emphasis is placed on the following: writing artist statements, exhibition/project proposals, residency applications, cover letters, and curriculum vitae; oral and visual presentation skills; professional portfolio creation for use in an online/digital context; promotion and marketing; networking with alumni and other key figures in their fields of interest; relevant career paths; practical skills related to packing, shipping, framing, displaying, and pricing artwork; traditional and alternative exhibition spaces including galleries, art-fairs, e-commerce, co-ops, etc.; articulating an understanding of how skills developed during their undergraduate program transfer to a variety obvious and unexpected career paths.

ART 3995 - BFA Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is a seminar/discussion and studio course that guides BFA students in the research, development, and articulation of a thematic body of work, within the context of contemporary art. Studio projects will be directed toward bringing individual vision toward full expression.

Pre-requisite(s): BFA students who have completed second-level course in their studio area only.

ART 4010 - Museum Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course explains and demonstrates the three main areas of emphasis within the museum studies field: collections management, curation and interpretation, and arts administration. The course meets two time a week for a three hour session.

Pre-requisite(s): Consent of instructor.

ART 4110 - Advanced Drawing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continued drawing exploration in various media with emphasis on focused personal direction, independent serial work, presentation of assigned research into related contemporary work, active participation in the critique process.

Pre-requisite(s): ART 3120 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4120 - Advanced Figure Drawing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Advanced study of the structure of the human body with a greater stress on draftsmanship, historical uses of the figure in art, and individual explorations.

Pre-requisite(s): ART 3120 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4150 - Photography: Alternative Processes

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Studio assignments are based on photographic alternatives to the silverprint. Historical references and perspectives provide the context for supervised studio/computer/assignments.

Pre-requisite(s): ART 3150 and ART 1140 [Inactive] or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4200 - Advanced Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An advanced level class in printmaking with emphasis on screenprinting, relief, intaglio, and/or lithography. Emphasis on individual portfolio production.

Pre-requisite(s): ART 3200 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4310 - Ceramics III: Intermediate

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course addresses intermediate issues in craftsmanship, form and content through assignments and projects. Students will conduct directed research, draft proposals, fire kilns, make clay and mix glazes.

Pre-requisite(s): ART 3310 or consent of instructor.

ART 4320 - Ceramics IV: Advanced

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course addresses advanced issues in craftsmanship and concepts through lecture and proposal based projects. Research assignments that explore ceramic processes and current trends in ceramic art are emphasized.

Pre-requisite(s): ART 4310 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 12 credit hours.

ART 4350 - Small Metals/Jewelry III

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Development of advanced design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, and surface enrichment.

Pre-requisite(s): ART 3350 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4400 - Advanced Graphic Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of design theory and process to complex problems in visual communication. Emphasis is placed on research, analysis, problem definition, and the development of individual design solutions. Studio projects vary each term and will generally involve visual identity, information design, environmental graphics, publication design, and design for interactive media.

Pre-requisite(s): ART 2430, ART 3430, ART 3435, ARTH 3451 and BFA program admission or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4410 - Design Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Orientation to professional practice in visual communication including art direction and work situations, client relations, portfolio and resume preparation, self promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.

Pre-requisite(s): ART 3410, ART 3445, ART 4400, and BFA program admission or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4415 - Design Production

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Technical processes and procedures for Art Major, Visual Communication emphasis. Emphasis is placed on file preparation and technical procedures for electronic media and for offset printing including proofing methods, paper, binding and other finishing processes.

Pre-requisite(s): ART 3430 and ART 3435 or consent of instructor.

ART 4420 - Advanced Digital Media

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will further develop personal expression in the visual arts using computer media through aesthetic problem solving and further development of digital media skills. There will be an emphasis on strengthening the students' ability to work independently while

supplying the necessary feedback from the interaction of a class.

Pre-requisite(s): ART 2420A, ART 2420B, ART 2420C, ART 2420D, or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4440 - Interaction Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is an introduction to the principles of interaction design as it relates to physical and digital space, with a focus on designing user-centered artifacts like interactive publications and apps for hand-held devices. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also explore the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.

Pre-requisite(s): ART 1120 (2-D Design) or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated once for credit.

ART 4460 - Advanced Illustration

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Development of individual approaches to advanced problems in illustration. Emphasis is placed on the formulation of visual metaphor, articulation of form, and on professional practices. Studio projects vary each term and will generally involve editorial, reportorial, scientific, advertising, and instructional problems in pictorial communication.

Pre-requisite(s): ART 3460 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4550 - Photography: Studio Lighting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This is a practical course that enables students to better control and use light and lighting in their work. Students will be introduced to a range of artificial light sources and lighting techniques to be used as a means of creative control. Work will center in the studio where controlled conditions and a directorial approach can yield the artist's intent.

Pre-requisite(s): ART 2450.

Number of Times this Course May Be Repeated: May be repeated once with a maximum of 6 credit hours.

ART 4600 - Painting III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Emphasis on developing independence in the painting student and to provide an opportunity for them to pursue their own area of interest in painting while providing the necessary feedback from the interaction of a class.

Pre-requisite(s): ART 3600 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4660 - Special Topics in Photography

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of specific topics in photography, the subject and faculty change each time this course is offered. Example topics include "Documentary Photography," "Visual Books," "Video Art," and "Directed Visions."

Pre-requisite(s): ART 3150 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 2 times for credit - consult with faculty advisor.

ART 4700 - Sculpture III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Advanced individual problems in selected areas of concentration; research and development of conceptual, technical, and methodological concerns.

Pre-requisite(s): ART 3700 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4750 - Experimental Photography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Experimental photographic alternatives to the traditional methods of photographic image making. Emphasis will be placed on using the camera, darkroom techniques and digital and emerging technology in ways that will give the students the mind-set and ability to push the limits of the medium.

Pre-requisite(s): ART 3150.

Co-Requisite(s): ART 2450.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ART 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individually chosen readings on specialized topic supervised by a faculty member.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours-please consult a faculty advisor.

ART 4890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.

Pre-requisite(s): By instructor approval only and previous or concurrent enrollment in art classes as specified by each area of emphasis.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours-please consult a faculty advisor.

ART 4900 - Individual Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individual studies in selected areas of emphasis. Open to juniors and seniors by instructor approval only.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours-please consult a faculty advisor.

ART 4910 INT - Photography: Internship

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Students have the opportunity to engage in a close learning relationship with professional photographers. These opportunities include workshops, seminars, professional assistantships, and residencies. Students will be responsible for researching and proposing mentorships. Area faculty will approve proposals, help place students with mentors and review the progress of mentorships.

Pre-requisite(s): ART 3150 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated for credit - consult with faculty advisor.

ART 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

ART 4930 INT - Teaching Assistantship Experience

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Designed for students who wish to gain teaching experience for graduate school. By observation and participation with the instructor, students will learn how a basic art course is designed and taught.

Pre-requisite(s): Student must be in the BFA program and have instructor consent.

ART 4990 - BFA Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Emphasis on portfolio preparation and professional writing skills pertinent to the completion of the BFA Thesis Exhibit and future career applications. Students work on the development and synthesis

of ideas, and fine-tune relevant artistic and critical evaluation skills. During this course students will be required to produce new work for the BFA Thesis Exhibit.

Pre-requisite(s): Senior level BFA student. Completion of ART 3995 BFA Seminar. Registration by departmental approval only. Course cannot be taken during the semester immediately following BFA Seminar.

Number of Times this Course May Be Repeated: May be repeated for credit - consult with faculty advisor.

Art History

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

A global survey of the history of art and architecture from BC 15,000 to AD 1000. Visual art from the first artistic expressions on rocks to the art of emerging civilizations (such as Mesopotamia, Egypt, China, India, and Africa), and the monuments and small-scale artifacts of the Medieval Ages will be analyzed in its historical, social, political, and broader cultural contexts.

ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

A global survey of the history of art and architecture from AD 1000 to the present. Visual art from Gothic cathedrals and Islamic book art to Renaissance Europe and the Chinese Empire, from the Age of Enlightenment to contemporary art will be analyzed in its historical, social, political, and broader cultural contexts.

ARTH 2040 - Art and Architecture of Asia

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A historical account of the architecture, sculpture, and painting of Asia (India, Nepal, Tibet, Myanmar, Sri Lanka, Thailand, Cambodia, Indonesia, China, Korea, and Japan), including the political, religious, and intellectual history informing the arts of each country.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present

Credits: (4)

Typically Taught Fall Semester: *Full Sem odd years*

Focuses on the arts of the Native Americans in the Southwest from their archaeological past to the present with occasional relevant explorations of Native American art in general. Study of traditional and contemporary modes of artistic expressions.

ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

The history of visual art and culture from circa 1850 into the early 20th century. This course explores the European roots of Modernism, its dissemination to North America and its global manifestations. Areas of study will include Impressionism to Art Nouveau, Women

Artists of the Fin-de-Siècle, Modernism in Canada and Latin America as well as Native American and Asian Modernisms. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3045 - Global Modernisms: Early 20th Century to 1960

Credits: (4)

Typically Taught Spring Semester: Full Sem

The history of visual art and culture from circa 1900 to the 1960s. This course explores the continuous evolution of Modernism. Areas of study will include Cubism to Vorticism, Colonialism and Modernism in Africa, Central European Avant-Gardes, International Dada and Surrealism, African-American Modernism and the crisis of Modernism in the post-colonial, post-war global community. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3050 - Contemporary Art

Credits: (4)

Typically Taught Spring Semester: Full Sem

Critical analysis of developments in the arts (including multimedia art, photography, performance art, installations, and feminist art) from 1960s to the present. Emphasis on post modern currents and issues and their study in the context of broader cultural contexts.

Pre-requisite(s): ARTH 1100 or consent of instructor.

ARTH 3055 - Special Topics in Art History

Credits: (4)

Variable Title

Typically Taught Spring Semester: Full Sem odd years

This course will explore different topics and content related to art history and the contemporary practice of art; the content of the course will change as the main topic changes. Students will gain the benefit of a deep dive into a specific time period, discourse, or exploration of media.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of 12 credit hours.

ARTH 3060 - The Art and Architecture of India

Credits: (4)

Typically Taught Fall Semester: Full Sem

An historical account of the architecture, sculpture, and painting of India, including the political, religious, and intellectual history informing the arts of various regions.

ARTH 3070 - The Art and Architecture of China

Credits: (4)

Typically Taught Spring Semester: Full Sem

An historical account of the architecture, sculpture and painting of China including the political, religious, and intellectual history informing the arts of different regions.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 4 credit hours-please consult a faculty advisor.

ARTH 3080 - The Art and Architecture of Japan

Credits: (4)

Typically Taught Fall Semester: Full Sem

An historical account of the architecture, sculpture and painting of Japan, including the political, religious, and intellectual history

informing the arts of different regions.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 4 credit hours-please consult a faculty advisor.

ARTH 3100 - The Art and Architecture of the Islamic World

Credits: (4)

Typically Taught Spring Semester: Full Sem

An historical survey of the architecture, sculpture, and painting of the Islamic world, including the political, religious, and intellectual history informing the arts of different countries: Iran, Iraq, Egypt, Turkey, North Africa, India, Spain, and Indonesia.

ARTH 3451 - Design History and Theory

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

An investigation of selected movements, figures and theories from the history of graphic design. Contents include intersections with art and related disciplines along with the social, political, and technical forces that have influenced visual culture over time. Topics are selected thematically according to their significance to the design profession in our current day and include the role of design research in contemporary practice.

Pre-requisite(s): ART 3430 or consent of instructor.

ARTH 3850 - Travel-Study Art History

Credits: (1-4)

Variable Title

Typically Taught Summer Semester: Full Sem

The study of the history of art and architecture will be in direct response to a country or region and its culture or it may be related to an event that takes place in that area while students are there. Instruction will be given in English.

Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2040.

ARTH 3950 - Photography: History, Theory and Criticism

Credits: (4)

Typically Taught Spring Semester: Full Sem

This is a reading, writing and discussion course, which addresses historical and contemporary issues of photographic art practices. Written projects and class discussions will focus on developing a critical understanding of the readings as they relate to the historical development and contemporary practice of photography as a fine art, to the influence photography has had on the history of art and to the broader cultural impact of photography and digital media.

Pre-requisite(s): ARTH 1100 or consent of instructor.

Astronomy

ASTR 1040 PS - Elementary Astronomy

Credits: (3)

Typically Taught Fall Semester: Full Sem, Full Sem Online

Typically Taught Spring Semester: Full Sem, Full Sem Online

A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang.

Three hours of lecture per week.

Cross-listed with PHYS 1040.

ASTR 2040 PS - Principles of Observational Astronomy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. *Cross-listed with PHYS 2040.*

Pre-requisite(s): MATH 1060 (minimum grade of C).

ASTR 2800 - Introductory Individual Research Problems

Credits: (1-3)

Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 2800.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

ASTR 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)

Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 2830.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

ASTR 3040 - Principles of Observational Astronomy, Advanced

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An advanced course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. *Cross-listed with PHYS 3040.*

Pre-requisite(s): PHYS 2710 and PHYS 3180.

ASTR 3160 - Stellar and Planetary Astrophysics

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Selected topics in astrophysics with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.

Pre-requisite(s): PHYS 2220.

Cross-listed with PHYS 3160.

ASTR 3170 - Galaxies and Cosmology

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.

Pre-requisite(s): PHYS 2220.

Cross-listed with PHYS 3170.

ASTR 4800 - Individual Research Problems

Credits: (1-3)

Time and credit to be arranged. Open to qualified students for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 4800.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

ASTR 4830 - Readings in Physics/Astronomy

Credits: (1-3)

Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis.

Time and credit to be arranged.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 4830.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Athletics

ATHL 1080 - Strength Training Level I

Credits: (1)

-For Club Hockey Players Only

Number of Times this Course May Be Repeated: May be repeated five times for credit.ATHL 1081 - Strength Training Level II

Credits: (1)

-For Club Hockey Players Only

Number of Times this Course May Be Repeated: May be repeated five times for credit.

ATHL 1180 - Varsity Softball

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of softball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1510 - Varsity Volleyball

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of volleyball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1520 - Varsity Soccer

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of soccer at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1570 - Varsity Basketball

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of basketball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1580 - Varsity Cross Country

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of cross country at the collegiate level. Students will learn techniques and participate in drills to assist with the development of competitive skills and prepare for varsity cross country meets.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1590 - Varsity Football

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of football at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1600 - Varsity Golf

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of golf at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1630 - Varsity Tennis

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of tennis at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1640 - Varsity Track and Field

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of track and field at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1680 - Varsity Indoor Track

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This athletic activity course is intended to engage students in the sport of indoor track at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

ATHL 1760 - Spirit Squad

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This athletic activity course is intended to engage students in dance/cheer for the spirit squad at the collegiate level. Students will learn techniques to assist with the development of skills and performance.

Number of Times this Course May Be Repeated: May be repeated 7 times with up to 8 credit hours.

Athletic Training

AT 1300 - First Aid: Responding to Emergencies

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *3rd Blk*

Training the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Red Cross certification in Adult, Infant and Child CPR and First Aid: Responding to Emergencies. Cross-listed with HLTH 1300.

AT 1500 - Introduction to Athletic Training (First Semester)

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for students to observe the function of an athletic training facility and become aware of the various duties performed by a Certified Athletic Trainer. Students who wish to apply for admission to the Athletic Training major must take this course. Five (5) clinical hours outside of class at an on-campus athletic training setting are required as assigned.

AT 1501 - Clinical Application of Athletic Training I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in the areas of acute care of injury and illnesses.

Two lab hours per week.

Pre-requisite(s): AT 1500, AT 2300, and formal admission to the AT education program.

AT 1550 - Introduction to Athletic Therapy

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce students to health care professions that the majority of athletic therapy majors pursue. These health care professions include: athletic training (AT), physical therapy (PT), occupational therapy (OT), physician assistant (PA), and medicine (MD or DO). Through lecture and assignments, students will learn the process to apply for the graduate school of their choice and learn skills and perform activities to get them ready for graduate school.

AT 2175 - Introduction to Sports Medicine

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Presents the duties, functions, and collaboration of sports medicine professionals in the care and supervision of athletes. The course will focus on the prevention, diagnosis, and treatment of common musculoskeletal injuries/illnesses, strength and conditioning of athletes, environmental factors and guidelines, and management and administration of the sports medicine team.

AT 2300 - Emergency Response

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer. Cross-listed with HLTH 2300.

AT 2430 - Prevention and Care of Musculoskeletal Injuries

Credits: (3)

This course is designed to give a basic understanding of athletic training principles. Recognition, cause, prevention, and treatment of musculoskeletal injuries.

Note: This course is not currently offered.

AT 2431 - Taping, Wrapping, Bracing, Padding, and Splinting

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course is designed to give a basic understanding of athletic training taping, wrapping, bracing, padding, and splinting techniques. Students will apply a variety of techniques to support all areas of the body.

Pre-requisite(s): AT 1500, formal admission to the AT education program.

AT 2500 - Clinical Application of Athletic Training II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency

testing in the areas of risk management and injury prevention, taping, wrapping, bracing and padding, and musculoskeletal injury assessment (lower extremity).

Pre-requisite(s): AT 1501, AT 2431 and AT 3300.

AT 2501 - Clinical Application of Athletic Training III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in the areas of musculoskeletal injury assessment (upper extremity).

Pre-requisite(s): AT 2500 and AT 3301.

AT 3080 - Statistics and Evidence-Based Practice

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course explores the concepts necessary to ensure future allied-health professionals are well prepared to utilize an evidence-based practice approach to treatment. Students will gain familiarity with the major elements of evidenced based practice, such as developing a clinically-relevant research question, completing a literature review, as well as becoming familiar with research methodology such as research design, evaluation, statistical analysis, presentation of data, and ethical considerations. This course provides an overview of descriptive and inferential statistics. Students should have a basic understanding of conducting library and Internet information searches prior to taking this course.

Pre-requisite(s): MATH 1010 or higher; or Math ACT score of 23 or higher.

AT 3200 - Psychology of Sport, Injury & Rehabilitation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered include: emotion, motivation, mental skills training and use, psychological antecedents of injury, psychology of injury and rehabilitation, career transition and termination, disabilities, rehabilitation/exercise adherence, eating disorders, alcohol and drug/substance abuse, gender and cultural diversity, and research methods related to psychology of sport, injury and rehabilitation.

Pre-requisite(s): PSY 1010 and AT 3500 (BSAT majors only), and Admission to the BSAT or Athletic Therapy programs.

AT 3300 - Evaluation and Care of Musculoskeletal Injuries: Lower Extremities

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Content of this course addresses evaluation techniques and care for musculoskeletal injuries to the trunk and lower extremities. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

Pre-requisite(s): ZOOL 2100 or HTHS 1110.

AT 3301 - Evaluation and Care of Musculoskeletal Injuries: Upper Extremities

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Content of this course addresses evaluation techniques and care for musculoskeletal injuries to the head, face and upper extremities. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

Pre-requisite(s): ZOOL 2100 or HTHS 1110; AND AT 3300.

AT 3500 - Clinical Application of Athletic Training 1

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in the areas of acute care of injury and illness, risk management, and upper/lower extremity injury evaluation.

Pre-requisite(s): AT 1500 and AT 2300 and AT 3300 and AT 3301.

AT 3501 - Clinical Application of Athletic Training 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in the areas of taping/wrapping/bracing/padding, neuromuscular conditioning, and upper/lower extremity injury evaluation.

Pre-requisite(s): AT 2431 and AT 3300 and AT 3301 and PEP 3280.

AT 3550 - Clinical Application of Athletic Training-Supplement

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Provides an opportunity for students to gain clinical experience with varied patient populations in the areas of assessment, evaluation, modalities and rehabilitation.

Pre-requisite(s): AT 3500.

AT 3600 - Ergonomics for Health and Safety

Credits: (2)

Examines and analyzes the effects of the workplace on employees and adaptations of the work environment to suit the individual. The focus is on the interaction of work and people, i.e., physiological and environmental stresses with the primary intent to establish ways to reduce injuries, accidents, and fatigue and to improve human performance at work.

Pre-requisite(s): ESS 3500 or consent of instructor.

Note: This course is not currently offered.

AT 4100 - Basic Therapeutic Modalities for Musculoskeletal Injuries

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. This course is designed to introduce students to the contemporary usage and basic foundation of therapeutic modalities, transmission of energy, infrared, and mechanical therapy.

Pre-requisite(s): AT 3300 and AT 3301; and PHYS 1010; AND

(HTHS 1110 OR ZOOL 2100) and Formal Admission into the Athletic Training Program.

AT 4101 - Advanced Therapeutic Modalities for Musculoskeletal Injuries

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. This course is designed to build upon the basic foundations of therapeutic modalities established in AT 4100. Topics for discussion include the application of electrotherapy devices, ultrasound, light therapy, and short-wave diathermy.

Pre-requisite(s): AT 4100.

AT 4150 - Therapeutic Modalities for Athletic Therapy majors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Specifically designed for the pre-professional student, the course will introduce the student to contemporary usage and basic foundation of therapeutic modalities. Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. Emphasis will be placed on fundamental concepts of tissue healing and pain control techniques, as well as an introduction to cryo/thermotherapy, massage, traction, ultrasound and electrical stimulation.

Pre-requisite(s): AT 3300, AT 3301, Admission to the Athletic Therapy major.

AT 4200 - Basic Rehabilitation of Musculoskeletal Injuries

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Content of this course provides basic understanding of therapeutic exercise as it relates to the rehabilitation process of musculoskeletal injuries. Course provides basic concepts and hands on techniques used in the rehabilitation of the athlete/patient from an injury state to a highly competitive state.

Pre-requisite(s): AT 3300, AT 3301, and ESS 3450 and Formal Admission into the Athletic Training Program.

AT 4201 - Advanced Rehabilitation of Musculoskeletal Injuries

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content of this course provides advanced understanding of therapeutic exercise as it relates to the rehabilitation process of musculoskeletal injuries. This course provides advanced instruction and hands on techniques in the rehabilitation of an athlete/patient from an injury state to a highly competitive state.

Pre-requisite(s): AT 4200 and ESS 3500 and PHYS 1010.

AT 4250 - Rehabilitation for Athletic Therapy majors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an overview of therapeutic exercise as it relates

to the rehabilitation process of musculoskeletal injuries for Athletic Therapy majors. This course provides instruction and hands-on techniques in basic therapeutic rehabilitation techniques.

Pre-requisite(s): AT 3300, AT 3301, ESS 3450, Admission to Athletic Therapy major.

AT 4500 - Clinical Application of Athletic Training 3

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in areas of basic therapeutic exercise, basic therapeutic modalities, general medical conditions, and pharmacology.

Pre-requisite(s): AT 3501 and AT 4100 and AT 4200 and AT 4550.

AT 4501 - Clinical Application of Athletic Training 4

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Provides an opportunity for students to receive skill proficiency testing in areas of advanced therapeutic exercise, advanced therapeutic modalities, and musculoskeletal injury assessment (upper and lower extremity).

Pre-requisite(s): AT 3200 and AT 4101 and AT 4201 and AT 4500.

AT 4550 - General Medical Conditions and Advances in Athletic Training

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Discuss general medical disorders and conditions pertaining to sports medicine and inquire into newest research of related issues.

Pre-requisite(s): AT 3300 and AT 3301 and Formal Admission into the Athletic Training Program.

AT 4600 - Administration & Management in Athletic Training

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides an overview of the necessary policies, procedures, maintenance, and daily operation of athletic training facilities. Applies principles of facility design and planning, information management, legal and ethical considerations in health care, and professional development as it relates to athletic training.

Pre-requisite/Co-requisite: Student must have completed or be concurrently registered for AT 3500 OR ESS 4890.

AT 4650 - Management for Athletic Therapy majors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides an overview of the necessary policies, procedures, maintenance, and daily operation of healthcare facilities. Applies principles of facility design and planning, information management, legal and ethical considerations in healthcare, and professional development as it relates to future healthcare professionals.

Pre-requisite(s): AT 3300, AT 3301, AT 4890 (may be taken concurrently), and Admission to the Athletic Therapy program.

AT 4700 - Introduction to Radiology for the Athletic Training Profession

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course provides an opportunity for students to gain exposure to the diagnostic imaging techniques commonly used by the medical community in diagnosis of injury in the athlete. Upon completion of the course, students will be able to identify anatomy and understand terminology used by health professionals when discussing diagnostic images.

Pre-requisite(s): AT 4200 and Formal Admission into the Athletic Training Program.

Number of Times this Course May Be Repeated: May be repeated two times for a maximum of one credit hour.

AT 4750 - Evidence-Based Evaluation & Treatment of the Sacroiliac Joint and Spine

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course will focus on evidence-based evaluation and management of the spine and pelvis, including the cervical spine, thoracic spine, lumbar spine and the sacroiliac joints. The students must integrate anatomical structures, physiology principles, and evaluative techniques to provide a basis for critical decision-making and management for these pathologies.

Pre-requisite(s): AT 3300 and AT 3301 and AT 3501.

AT 4800 - Individual Projects

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A comprehensive study or project in the field of Athletic Training. Hours to be arranged for seniors only.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 16 credit hours.

AT 4810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated up to 9 credit hours. Refer to Experimental Courses.

AT 4810 - Wound Closure & Dislocations

Credits: (1)

Experimental Course, Contact Department for More Information

Students in this course will learn wound closure techniques such as skin adhesives and an introduction to suturing. This course will also discuss managing dislocations.

AT 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Provides academic credit for on-the-job experience.

Number of Times this Course May Be Repeated: May be repeated 5 times and up to 6 credit hours.

AT 4998 - Preparation for the Board of Certification (BOC) Exam

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is an optional course for Athletic Training Majors in the Clinical Track who are preparing for the Board of Certification (BOC) Exam.

Pre-requisite/Co-requisite: AT 3501.

Number of Times this Course May Be Repeated: May be repeated once up to 2 credit hours.

AT 4999 - Critical Thinking for Musculoskeletal Injury Management

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Content of this course addresses evaluation techniques, rehabilitation processes and return to play guidelines for specific injuries to the upper and lower extremities. The student must integrate anatomical structures, physiology principles, rehabilitation principles, and evaluative techniques to provide a basis for critical decision-making and care in an athletic injury management environment.

Pre-requisite(s): AT 4101 and AT 4201.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

MSAT 6100 - Advanced Emergency Care in AT

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

To prepare graduate athletic training students to respond to life and limb-threatening emergencies. This course also includes advanced wound care, equipment removal, and emergency drug administration. When successfully completed, this course leads to a two-year American Red Cross certification in Emergency Medical Response, CPR/AED for Professional Rescuers, Emergency Oxygen administration, and one-year certification in Bloodborne Pathogens Training.

Automotive Service Tech

AUSV 1000 - Introduction to Automotive Service

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to automotive shop safety, pollution prevention, hazardous waste handling, Internet-based electronic service information, diagnostic scan tools, ASE certifications, safety inspection certifications, emissions inspection certifications, developing job interview skills, and resume writing.

Note: (This course is a prerequisite for all automotive service courses.)

AUSV 1001 - Collision Repair Fundamentals and Estimating

Credits: (2)

This course is an introduction to the collision repair industry and the construction of the modern automobile as it applies to the collision repair industry. Emphasis will be placed on locating vehicle information, basic construction of vehicles, environmental concerns and issues, and writing collision repair estimates on damaged vehicles.

Note: Course not currently being offered.

AUSV 1010 - Automotive Technology Orientation

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

An introduction to maintenance and light repair tasks including: lube

oil and filter change, basic under vehicle inspection and maintenance, basic under hood inspection and maintenance, wheel and tire service, Internet-based electronic service information, and diagnostic scan tools. (This course is a prerequisite for all automotive service courses.)

AUSV 1020 - Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Theory, operation, diagnosis and repair of braking, steering, and suspension systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000, AUSV 1325.

Note: (AUSV 1020 is equivalent to AUSV 1021, AUSV 1022, and AUSV 2320.)

AUSV 1021 - Automotive Braking Systems 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of braking systems. This is the first part of a two-part class.

Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1022 - Steering and Suspension Systems 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.

Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1023 - Automotive Braking Systems 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Theory, operation, diagnosis, and repair of automotive braking systems. This is the second part of a two-part class.

AUSV 1025 - Steering and Suspension Systems 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.

AUSV 1030 - Honda Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Theory, operation, diagnosis, and repair of Honda braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: (AUSV 1030 is comprised of AUSV 1031, AUSV 1032 and AUSV 2330.) Course not currently being offered.

AUSV 1031 - Honda Braking Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Honda braking systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032, and AUSV 2330). Course not currently being offered.

AUSV 1032 - Honda Steering and Suspension Systems

Credits: (2)

Theory, operation, diagnosis, and repair of Honda steering and suspension systems.

Note: (AUSV 1031, AUSV 1032, and AUSV 2330 are equivalent to AUSV 1000, AUSV 1030.) Course not currently being offered.

AUSV 1040 - General Motors Braking, Steering, Suspension and Climate Control Systems

Credits: (8)

Theory, operation, diagnosis, and repair of General Motors braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000, AUSV 1345.

Note: (AUSV 1040 is comprised of AUSV 1041, AUSV 1042 and AUSV 2340.)

AUSV 1041 - General Motors Braking Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of General Motors braking systems. (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042, and AUSV 2340).

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 1042 - General Motors Steering and Suspension Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of General Motors steering and suspension systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1041, AUSV 1042, and AUSV 2340 are equivalent to AUSV 1000, AUSV 1040.)

AUSV 1050 - Chrysler Braking, Steering, Suspension and Climate Control Systems

Credits: (8)

Theory, operation, diagnosis, and repair of Chrysler braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: (AUSV 1050 is comprised of AUSV 1051, AUSV 1052 and AUSV 2350.) Course not currently being offered.

AUSV 1051 - Chrysler Braking Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Chrysler braking systems.

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052, and AUSV 2350). Course not currently being offered.

AUSV 1052 - Chrysler Steering and Suspension Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Chrysler steering and suspension systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1051, AUSV 1052, and AUSV 2350 are equivalent to AUSV 1000, AUSV 1050.) Course not currently being offered.

AUSV 1060 - Toyota Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Theory, operation, diagnosis, and repair of Toyota braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: (AUSV 1060 is comprised of AUSV 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1061 - Toyota Braking Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Toyota braking systems.

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: (AUSV 1060 is equivalent to 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1062 - Toyota Steering and Suspension Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Toyota steering and suspension systems.

Pre-requisite/Co-requisite: AUSV 1000.

Note: (AUSV 1061, AUSV 1062, and AUSV 2360 are equivalent to AUSV 1000, AUSV 1060.) Course not currently being offered.

AUSV 1071 - H D Truck Brakes

Credits: (2)

Operation, diagnosis, inspection, and repair of air brake systems.

Equivalent to DATC proficiency #48530, 48601.

AUSV 1072 - H D Truck Steering & Suspension

Credits: (3)

Operation, diagnosis, and repair of heavy duty steering and suspension systems. Equivalent to DATC proficiency #48540, 48550.

AUSV 1080 - Non-Structural Analysis and Damage Repair 1

Credits: (4)

Safety, welding processes, panel repair and replacement, trim application, water leak and wind noise issues . Proper use of modern body fillers and repair techniques. I-CAR training modules are included.

Pre-requisite(s): AUSV 1001 or instructor approval.

Note: Course not currently being offered.

AUSV 1085 - Painting and Refinishing 1

Credits: (4)

Introductory course on modern automotive paint application processes. Emphasis will be placed on Panel and part preparation as well as spray and application techniques.

Pre-requisite(s): AUSV 1001 or instructor approval.
Note: Course not currently being offered.

AUSV 1100 - Principles of Technology I

Credits: (2)

Scientific concepts of force, work, rate, resistance and energy are applied to mechanical and fluid systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.

Note: Course not currently being offered.

AUSV 1120 - Automotive Engines 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, repair, and overhaul of automotive engines.

AUSV 1124 - Automotive Engines 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Theory, operation, diagnosis, repair, and overhaul of automotive engines. This is the second part of a two-part class.

AUSV 1130 - Honda Engines

Credits: (3)

Theory, operation, diagnosis, repair, and overhaul of Honda engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1140 - General Motors Engines

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, repair, and overhaul of General Motors engines.

Pre-requisite(s): AUSV 1000.

AUSV 1150 - Chrysler Engines

Credits: (3)

Theory, operation, diagnosis, repair, and overhaul of Chrysler engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1160 - Toyota Engines

Credits: (4)

Theory, operation, diagnosis, repair, and overhaul of Toyota engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1170 - H D Truck Engines

Credits: (5)

Operational principles, diagnosis and complete overhaul of diesel engines. Equivalent to DATC proficiency #48140, 48141, 48142, 48143, 48160, 48162, 48163.

AUSV 1180 - Structural Analysis and Damage Repair 1

Credits: (4)

Frame and unbody repair will be explored. Replacement of major structural panels and introduction to measuring and corrective pulling will be covered. Occupant safety and restraint systems will be examined. I-Car training modules are included.

Pre-requisite(s): AUSV 1001 or instructor approval.

Note: Course not currently being offered.

AUSV 1200 - Principles of Technology II

Credits: (2)

Scientific concepts pertaining to electricity, heat, sound and light are applied to systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1220 - Automotive Manual Drivetrain Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, maintenance, and overhaul of manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

AUSV 1230 - Honda Manual Drivetrain Systems

Credits: (3)

Theory, operation, diagnosis, maintenance, and overhaul of Honda manual transmissions and transaxles, drive axles and differentials, drivelines, and transfer units.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1240 - General Motors Manual Drivetrain Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Theory, operation, diagnosis, maintenance, and overhaul of General Motors manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

AUSV 1250 - Chrysler Manual Drivetrain Systems

Credits: (3)

Theory, operation, diagnosis, maintenance, and overhaul of Chrysler manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1260 - Toyota Manual Drivetrain Systems

Credits: (3)

Theory, operation, diagnosis, maintenance, and overhaul of Toyota manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1270 - H D Truck Drive Mechanisms

Credits: (8)

Theory, operation, diagnosis, and overhaul of the clutch,

transmission, drive lines, differentials, and wheel bearings.
Equivalent to DATC proficiency #48401, 48403, 48603.

AUSV 1300 - Technical Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Measurements, common and decimal fractions, square roots, surfaces, columns, capacities. Principles of algebra and geometry.

AUSV 1320 - Automotive Electronics 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1323 - Automotive Electronics 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1325 - Electrical Fundamentals 3

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of lighting, infotainment, electronic control modules. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is the third part of a three-part class.

AUSV 1330 - Honda Automotive Electronics

Credits: (4)

Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1335 - Honda Electronics, Electrical and Body Control Systems

Credits: (7)

Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

Note: Course not currently being offered.

AUSV 1340 - General Motors Automotive Electronics

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1345 - General Motors Electronics, Electrical and Body Control Systems

Credits: (7)

Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

AUSV 1350 - Chrysler Automotive Electronics

Credits: (4)

Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

Note: Course not currently being offered.

AUSV 1355 - Chrysler Electronics, Electrical and Body Control Systems

Credits: (7)

Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Note: Course not currently being offered.

AUSV 1360 - Toyota Automotive Electronics

Credits: (4)

Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

Note: Course not currently being offered.

AUSV 1365 - Toyota Electronics, Electrical and Body Control Systems

Credits: (7)

Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools is

emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

Note: Course not currently being offered.

AUSV 1400 - Automotive Fundamentals

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Operation, diagnosis and repair of selected automotive systems, as well as general auto shop orientation for beginners and non-automotive majors.

AUSV 1890 - Cooperative Work Experience

Credits: (1-6)

Open to all first year students in Automotive Service. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

AUSV 2020 - Engine Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems.

AUSV 2030 - Honda Engine Control Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Honda automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2040 - General Motors Engine Control Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis, and repair of General Motors automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2050 - Chrysler Engine Control Systems

Credits: (3)

Theory, operation, diagnosis, and repair of Chrysler automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2060 - Toyota Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of Toyota automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: Course not currently being offered.

AUSV 2080 - Painting and Refinishing 2

Credits: (4)

Advanced surface preparation and application of modern paint

system. Color matching, blending and complete vehicle refinishing. I-CAR training modules are included.

Pre-requisite(s): AUSV 1085 or instructor approval.

Note: Course not currently being offered.

AUSV 2085 - Non-Structural Analysis and Damage Repair 2

Credits: (4)

This is an advanced non-structural and welding course that expands on what has previously been learned. A great deal of time will be spent working on advanced non-structural techniques and processes. Full frame, unibody, space frames and other modern frame designs will be examined along with proper repair and replacement techniques.

Pre-requisite(s): AUSV 1080 or instructor approval.

Note: Course not currently being offered.

AUSV 2120 - Automotive Electrical and Body Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, diagnosis, and repair of starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2130 - Honda Electrical and Body Control Systems

Credits: (3)

Theory, diagnosis, and repair of Honda starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1330.

Note: Course not currently being offered.

AUSV 2140 - General Motors Electrical and Body Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Theory, diagnosis, and repair of General Motors starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1340.

AUSV 2150 - Chrysler Electrical and Body Control Systems

Credits: (3)

Theory, diagnosis, and repair of Chrysler starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV

1350.

Note: Course not currently being offered.

AUSV 2160 - Toyota Electrical and Body Control Systems

Credits: (3)

Theory, diagnosis, and repair of Toyota starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1360.

Note: Course not currently being offered.

AUSV 2170 - H D Truck Electrical Systems

Credits: (3)

Theory, operation, diagnosis and repair of batteries, starting, charging and electrical accessories. Equivalent to DATC proficiency #48304, 48305.

AUSV 2180 - Structural Analysis and Damage Repair 2

Credits: (3)

Expands on techniques and skills learned in AUSV 1180. Emphasis will be placed on advanced frame and unibody repair techniques and methods.

Pre-requisite(s): AUSV 1180 or instructor approval.

Note: Course not currently being offered.

AUSV 2270 - H D Truck Engine Diagnosis

Credits: (3)

Engine starting, diagnosis, fuel pump timing, compression and cylinder leakage testing, and tune-up. Equivalent to DATC proficiency #48144, 48164, 48302.

AUSV 2320 - Automotive Climate Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis and repair of vehicle climate control systems.

AUSV 2330 - Honda Climate Control Systems

Credits: (3)

Theory, operation, diagnosis and repair of Honda climate control systems. (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032 and AUSV 2330.)

Pre-requisite(s): AUSV 1000, AUSV 1330.

Note: Course not currently being offered.

AUSV 2340 - General Motors Climate Control Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis and repair of General Motors climate control systems. (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042 and AUSV 2340.)

Pre-requisite(s): AUSV 1000, AUSV 1340.

AUSV 2350 - Chrysler Climate Control Systems

Credits: (3)

Theory, operation, diagnosis and repair of Chrysler climate control systems. (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052 and AUSV 2350.)

Pre-requisite(s): AUSV 1000, AUSV 1350.

Note: Course not currently being offered.

AUSV 2360 - Toyota Climate Control Systems

Credits: (3)

Theory, operation, diagnosis and repair of Toyota climate control systems. (AUSV 1060 is equivalent to AUSV 1061, AUSV 1062 and AUSV 2360.)

Pre-requisite(s): AUSV 1000, AUSV 1360.

Note: Course not currently being offered.

AUSV 2370 - H D Truck Air Conditioning

Credits: (2)

Operation, environmental concerns, diagnosis and repair of air conditioning and heating systems and components. Equivalent to DATC proficiency #48800, 48801.

AUSV 2480 - Auto Body Business Practices

Credits: (2)

Estimating, scheduling work, purchasing, inventory, insurance practices and applied customer relations.

Note: Course not currently being offered.

AUSV 2520 - Automatic Transmissions

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, operation, diagnosis and overhaul procedures of automatic transmissions.

AUSV 2530 - Honda Automatic Transmissions

Credits: (4)

Theory, operation, diagnosis and overhaul procedures of Honda automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2540 - General Motors Automatic Transmissions

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Theory, operation, diagnosis and overhaul procedures of General Motors automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2550 - Chrysler Automatic Transmissions

Credits: (4)

Theory, operation, diagnosis and overhaul procedures of Chrysler automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2560 - Toyota Automatic Transmissions

Credits: (4)

Theory, operation, diagnosis and overhaul procedures of Toyota automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2625 - Engine Mechanical and Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1120, AUSV 2020 are equivalent to AUSV 2625.)

Pre-requisite(s): AUSV 1000, AUSV 1325.

AUSV 2635 - Honda Engine Mechanical and Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of Honda automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2645 - General Motors Engine Mechanical and Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of General Motors automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2655 - Chrysler Engine Mechanical and Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of Chrysler automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2665 - Toyota Engine Mechanical and Engine Control Systems

Credits: (6)

Theory, operation, diagnosis, and repair of Toyota automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: Course not currently being offered.

AUSV 2860 INT - Automotive Shop Practice

Credits: (3-8)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Provides an opportunity to practice skills needed by Automotive Service technicians derived from classroom and shop experience. Simulates line mechanic work.

Pre-requisite(s): Instructor approval required.

Number of Times this Course May Be Repeated: May be taken 10 times up to 30 credit hours.

AUSV 2880 - Cooperative Practicum

Credits: (3-8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised work experience, at the sponsoring dealership, which applies directly to previous academic courses. Full-time employment and approval of faculty supervisor required.

Number of Times this Course May Be Repeated: May be taken 10 times up to 30 credit hours.

AUSV 2890 - Cooperative Work Experience

Credits: (1-6)

Open to second year Automotive Service students. A continuation of AUSV 1890.

Note: NOTE: AUSV 2890 may be taken in lieu of AUSV 2860, when appropriate work experience is available and the student obtains departmental approval.

AUSV 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Automotive Technology

ATTC 3000 - Introduction to Automotive Technology

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

An introduction to the Automotive Technology program. Degree requirements and options, internship preparation, employment opportunities, required professional publications, communication, and other topics. (This course is a prerequisite for most automotive technology courses.)

Pre-requisite(s): Proof of completion of an Associate of Applied Science AAS or Associate of Science AS degree in automotive service technology or a related degree.

ATTC 3020 - Introduction to Safety Management and Hazardous Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

An overview of the environmental issues related to the use and service of vehicles, with emphasis on air quality topics. Environmental regulations, safe practices, disposal of hazardous substances, such as paints and solvents.

ATTC 3260 - Advanced Electrical Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of the advanced electrical systems in today's vehicles. Vehicle communication networks, body control systems, chassis control systems, powertrain control, hybrid control, and battery control systems.

ATTC 3280 - Advanced Painting and Refinishing

Credits: (3)

Preparation for insurance industry employment. Includes advanced topics in surface preparation and application of contemporary and specialty paints. Matching, blending and complete vehicle refinishing. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite/Co-requisite: ATTC 3000.

Note: Course not currently being offered.

ATTC 3480 - Advanced Structural Analysis and Damage Repair

Credits: (3)

Preparation for insurance industry employment. Includes advanced topics in frame and unibody repair. Replacement of major panels, measuring and corrective pulling, and occupant safety systems. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite(s): ATTC 3280.

Note: Course not currently being offered.

ATTC 3520 - Fleet Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Study of fleet standards, fixed operations, inventory and personnel management, financial policies and procedures. Includes financial statement analysis.

ATTC 3620 - Automotive Business Practices

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

Study of independent shop and corporate dealership standards, fixed operations, inventory and personnel management, and industry report systems, financial policies and procedures. Includes financial statement analysis.

ATTC 3680 - Automotive Damage Analysis and Estimating

Credits: (3)

Preparation for insurance industry employment. Includes an overview of vehicle damage analysis, restraint systems, mechanical and electrical systems. Topics also include industry standard terminology, procedures, and estimation software usage.

Lab included.

Pre-requisite(s): ATTC 3480.

Note: Course not currently being offered.

ATTC 3760 - Advanced Automotive Technologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

A study of current events/trends in the automotive industry, industry standard professional publications, and the latest technologies used

by the automotive industry to meet current emissions, fuel economy, and safety regulations.

ATTC 3880 INT - Cooperative Practicum

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Supervised work experience with a sponsoring employer, designed to synthesize theory and practice. Full-time, upper division related employment and approval of faculty supervisor required.

ATTC 4380 - Advanced Non-Structural Analysis and Damage Repair

Credits: (3)

Preparation for insurance industry employment. Includes advanced topics in safety, welding processes, panel repair and replacement, trim application, water and wind leakage. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite(s): ATTC 3480.

Note: Course not currently being offered.

ATTC 4530 - Hybrid and Electric Vehicle Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

An in-depth look at the operation, diagnosis, and service of hybrid (HEV), plug-in hybrid (PHEV), and electric vehicles (EV). Topics include: Safety and personal protective equipment (PPE), low voltage systems, high voltage systems, high voltage batteries, inverter/converters, transaxles, electric motors, Atkinson Cycle internal combustion engines (ICE), heating, ventilation, and air-conditioning (HVAC) systems, braking/regenerative braking, and steering systems. Preparation for the ASE L3 Light duty hybrid/electric vehicles exam is included.

ATTC 4540 - Automated Safety and Convenience Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

An in-depth look at the operation, diagnosis and service of the automated safety and convenience systems found on modern vehicles. Topics will include: AUTOMATED: vehicle system classifications (driver assisted, partial automated, conditional automated, high automated, and fully automated). SAFETY: advanced cruise systems, advanced steering systems, advanced suspension systems, advances parking systems. CONVENIENCE: In car WiFi, vehicle to vehicle communication, biometrics, active health monitoring, comprehensive vehicle tracking, advanced heads up displays.

ATTC 4550 - Advanced Automotive Emissions

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

The study and evaluation of vehicle and fuel technologies to meet current and future emissions standards. We will explore what automotive emissions are currently regulated, purpose and procedures associated with emissions testing, current and future emissions reduction technologies, and how sustainable manufacturing is being implemented in industry. The topics in this class will help you to prepare for the L1 Advanced Engine Performance test.

ATTC 4560 - Advanced Propulsion Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of advanced propulsion systems including those used on hybrid-electric vehicles, plug-in hybrids, electric vehicles, and other propulsion technologies. Advanced transmissions/transaxles, wheel motors, drive motors, etc. are included.

ATTC 4710 - Capstone Research Methods

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

This is the first course in the Capstone Project for seniors. This course will prepare students to complete the capstone project. Students will create the initial proposal and receive approval for the project. Students will start the research for the project using the standards established by the Society of Automotive Engineers (SAE).

ATTC 4720 - Capstone Research and Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

The use of sophisticated diagnostic tools and equipment. Emphasis is on diagnosis and the development of analytical thinking as it applies to technical problems.

Includes lab.

Pre-requisite(s): ATTC 4710.

ATTC 4760 - Alternate Fuel Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of alternate fuel systems including bio fuels (ethanol and bio-diesel systems), advanced diesel systems, hybrid-electric vehicles, Compressed Natural Gas (CNG) systems, hydrogen fuel cell, and other existing or emerging technologies.

Pre-requisite(s): ATTC 3760.

ATTC 4780 - Insurance Industry Business Practices

Credits: (3)

An overview of the business practices used by the automotive insurance industry. Included is the use of industry standard software to determine insurance policy coverage, vehicle reparability (current value versus repair costs) and parts availability.

Pre-requisite/Co-requisite: ATTC 3680 and PS 3203.

Note: Course not currently being offered.

ATTC 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Individual readings supervised by a faculty member.

Pre-requisite(s): Approval of instructor.

Number of Times this Course May Be Repeated: May be repeated twice up to 3 credit hours.

ATTC 4860 - Automotive Standards, Laws, and Regulations

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of automotive industry related Society of Automotive Engineers (SAE) standards, State Regulations, U.S. Environmental Protection Agency (EPA) emissions regulations, National Highway

Traffic Safety Administration (NHTSA), Federal Motor Vehicle Safety Standards (FMVSS), Corporate Average Fuel Economy (CAFE) regulations, and others.

Pre-requisite(s): ATTC 3000.

ATTC 5920 - Short Courses and Workshops

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offerings under this number.

Bachelor of Integrated Studies Courses

BIS 2800 - Foundations of Integrated Studies

Credits: (3)

Foundations of Interdisciplinary Studies provide students with theories and methods used in cross-disciplinary inquiry. Course components include: connections between academic studies and student interests, methods associated with integrated studies, and planning future employment and life-long learning goals.

Note: This course is not currently offered.

BIS 3800 - BIS Capstone and Graduation Preparation

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

This course provides BIS students with a foundation for the capstone project, as well as helping them to professionalize themselves in preparation for life after graduation. BIS 3800 is a required prerequisite for BIS 4800.

Pre-requisite(s): *BIS 2800.*

BIS 3850 - BIS Internship

Credits: (1-3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

The Bachelor of Integrated Studies Program (BIS) offers BIS students the opportunity to earn 1 to 3 elective credits for a work internship.

Pre-requisite(s): For requirements and guidelines, contact the BIS office.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of three credit hours.

BIS 4800 - Bachelor of Integrated Studies Senior Capstone

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

The Senior Capstone serves as the culmination of the Bachelor of Integrated Studies (BIS) interdisciplinary degree. After completing course work in three different areas of emphasis, BIS student synthesize their three disciplines in this capstone project.

Pre-requisite(s): BIS 3800.

Botany

BTNY 1203 LS - Plant Biology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk Online*

An introductory course for non-majors that emphasizes unique features of plant biology. Included are discussions on: the origins of life; important plants of the world and their habitats; plant diversity, structure, function, and reproduction; plants and environmental science; plants that changed history; practical botany; and botany as a science.

Three lecture/demonstration hours per week.

BTNY 1303 LS - Plants in Human Affairs

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *2nd Blk Online*

This class provides a general introduction to the importance and function of plants in human affairs. It includes an overview of science as a way of knowing, plant forms and functions, plant reproduction, and use of economically and sociologically important plants.

Flowering and non-flowering plants and products such as fruits, forages, grains, medicines, herbs and spices, textile fibers, lumber, algae, and foliage plants are studied. Ecological concepts as they relate to the growth and production of world food crops will also be included. The course has a strong emphasis on the historical development of exploitation of certain plants and the role plants played in exploration and international development. This class cannot be used to fulfill requirements for a Botany major or minor.

Three hours of lecture per week.

BTNY 1370 LS - Principles of Life Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized. Recommended for students intending to major in elementary education. This class cannot be used to fulfill requirements for a Botany major or minor.

Two hours of lecture and one 3-hour laboratory per week.

BTNY 1403 LS SUS - Principles of Environmental Science

Credits: (3-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Development of awareness of the consequences of the impact of modern science through technology upon our environments and how we respond to issues related to threats to our biological life-support system. A definition of a quality environment is developed, with student input, and an analysis of the existing quality of our environment is made in light of this definition which challenges our collective wisdom to identify those things which we do well and to prescribe remedies for shortcomings. This course can be taken for 3 or 4 credits with the fourth credit based on completion of the laboratory course.

Three hours of lecture per week (3 credits) or three hours of lecture and one two-hour lab per week (4 credits).

BTNY 2104 - Plant Form and Function

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to the anatomy, cell biology, physiology, and genetics of the seed plants. This course is designed for science majors and is a prerequisite for upper division Botany courses. Two hours of lecture and two 2-hour labs per week. Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

Suggested Requirement(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2114 - Evolutionary Survey of Plants

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of the diversity, ecology, and reproduction of plants in the context of the evolution of life on earth. The role of plants in making life on earth possible is an important theme. This course is designed for science majors and is a prerequisite for selected upper division Botany courses.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104.

Suggested Requirement(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2121 - Career Planning for Botanists

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed for majors to introduce them to expected student learning outcomes, assessment of these expected outcomes, advisement and/or mentoring, keys to success in getting a job or into graduate school, career resources available, and how to start and develop the Botany Student Portfolio.

One lecture per week.

Pre-requisite/Co-requisite: BTNY 2104 or BTNY 2114.

BTNY 2203 - Home and Garden Plants

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Basic principles of plant science with special reference to care of home and garden plants. Includes a general study of lighting, watering, soils, fertilizer, pruning and shaping, propagation, controlling pests, and planting designs.

Two hours of lecture and one 3-hour laboratory per week.

BTNY 2303 - Ethnobotany

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough study of the scientific methodology in ethnobotanical research with opportunities for practical applications. This class includes an introduction to how plants are used by people for food, fiber, shelter, and medicine. Students will learn fundamental botanical principles, how to conduct field work and how to collect plants and prepare them for use. Ethical questions concerning conservation, biodiversity and the continued loss of indigenous plants and cultures will also be discussed.

Three lecture/demonstrations per week.

BTNY 2413 - Introduction to Natural Resource Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Introduces students, especially those interested in forestry and range management, to concepts and ideologies in the utilization and preservation of forests, range, soils, wildlife, water and fisheries, and the human impact on these resources.

Three hours of lecture per week.

BTNY 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format.

BTNY 2750 - Topics in Science and Society

Credits: (3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

An exploration of selected topics related to science and society. The specific title will appear on the student transcript.

BTNY 2810 - Experimental Course

Credits: (1-6)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: 5 for a total of 6 hours.

BTNY 2810 - Molecular Toolbox for Plant Scientists

Credits: (4)

Experimental Course, Contact Department for More Information

This course is a hands-on introduction to molecular tools relevant in plant science. You will work independently on an overarching semester-long project (The Mystery Gene Project). Throughout the semester you will be given the skills to build the mystery gene construct through guided mini-projects. These will introduce you to basic laboratory protocols, equipment use, DNA isolation, PCR, proof-reading PCR, agarose gel electrophoresis, restriction enzymes, ligation, and subcloning. In the last section of the course, you will 'put it all together' and take what you have learned in the mini-projects to transform your own gene construct into the bacterium *E. coli*.

BTNY 2830 - Readings in Botany

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Number of Times this Course May Be Repeated: Cannot be repeated.

BTNY 2890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in Botany programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): BTNY 2104 and BTNY 2121, and instructor's permission.

Number of Times this Course May Be Repeated: Course may be repeated for a maximum of 3 credit hours.

BTNY 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times for a maximum of 6 credit hours with different content.

Note: This course is offered as needed.

BTNY 2950 - Elementary Field Botany

Credits: (1-2)

Fundamentals of Botany as observed during field trips. Trips will be preceded by lectures and exercises designed to prepare the student for maximizing the learning experience in the field. The course involves extensive pre- and post-trip exercises and evaluation.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 2 credit hours.

Note: This course is not currently offered.

BTNY 3105 - Anatomy of Vascular Plants

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Anatomy of Vascular Plants explores the internal structures of higher plants. This course examines the structural organization of higher plants at all levels of organization -- from the subcellular, to cellular, to tissue, to organism level---and pays close attention to how structure begets function from the subcellular to the ecological level. Additionally, students will learn different technical methods and equipment used to study plants' internal structures.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, & (BTNY 2600 OR GEO 2600 OR MICR 2600, OR PHYS 2600, OR CHEM 2600.)

BTNY 3153 - Biology of the Plant Cell

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of plant cell structure and function, including biogenesis and activities of organelles, signal transduction, cell-cell interactions, and the molecular processes involved in cellular development and specialization as well as cellular responses. Three hours of lecture per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114, CHEM 1120 or CHEM 2310.

BTNY 3204 - Plant Physiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

A study of the physiological processes of plants, including carbon metabolism, mineral assimilation, water relations, and stress responses. Two hours of lecture and two 3-hour labs per week.

Pre-requisite(s): BTNY 2600 and BTNY 2104, CHEM 1120 or CHEM 2310, and MATH 1040 or MATH 1050 or MATH 1080.

BTNY 3214 - Soils

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week. Course is cross listed with GEO GEO 3214.

Pre-requisite(s): (BTNY 2104 and BTNY 2114 and BTNY 2121) or (GEO 1110 or CHEM 1110 or CHEM 1210) and (BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600).

BTNY 3303 - Plant Genetics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

The principles of heredity, population genetics, and molecular genetics as applied to plants. Three lecture hours and one 3-hour lab per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114) or MICR 2054; CHEM 1120 or (CHEM 2310 and CHEM 2315); MATH 1040 or MATH 1050 or MATH 1080; BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600.

BTNY 3403 - Environment Appreciation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Development of awareness of the consequences of the impact of modern science through technology upon our environments and how we respond to issues related to threats of our biological life-support system. A definition of a quality environment is developed, with student input, and an analysis of the existing quality of our environment is made in light of this definition which challenges our collective wisdom to identify those things which we do well and to prescribe remedies for shortcomings.

Three hours of lecture per week. An in-depth research paper on an environmental issue and an in-class lecture are required.

Pre-requisite(s): BTNY 2104 and BTNY 2114. Cannot be repeated for lower division credit (BTNY 1403).

BTNY 3454 - Plant Ecology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Nature and development of plant communities and their relations to the environmental factors controlling them.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104 and (MATH 1040 or MATH 1050 or MATH 1080).

BTNY 3473 - Plant Geography

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of global and regional distributions of major plant groups and communities as affected by past and present climates, biological, ecological and geomorphic factors.

Three lectures per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114.

BTNY 3504 - Mycology

Credits: (4)

Typically Taught Fall Semester: *Full Sem odd years*

Structure, taxonomy, biology, and physiology of the fungi.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114 and BTNY 2121) or MICR 2054, and BTNY/CHEM/GEO/MICR/PHYS 2600.

BTNY 3514 - Algology

Credits: (4)

A study of the biology of algae, their morphology, cytology, development, taxonomy, ecology, economic and experimental uses.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114, or MICR 2054, or ZOO 4480.

Note: This course is not currently offered.

BTNY 3523 - Marine Biology

Credits: (3)

A study of marine biology and ecology, relating to the plant and animal populations of the sea to their various habitats, including the pelagic environment, the sea bottom, sea shores, and estuaries.

Two hours of lecture and one 2-hour lab per week.

Pre-requisite(s): BTNY 2114, or ZOO 1110, or MICR 2054, or GEO 3010.

Note: This course is not currently offered.

BTNY 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

BTNY 3583 - Medicinal Plants-Chemistry and Use

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

A study of plants and herbal preparations idely used in maintaining health and treating disease in traditional and modern societies. Active ingredients, modern use and side effects will be studied. In lab, students will learn to analyze plants, over-the-counter-drugs and herbal supplements for active ingredients. Students will also learn how to make extractions and preparations from plant materials. This course is especially useful for students interested in careers in Pharmacy, Ethnobotany, Natural Medicine, Nursing and Medicine. Two hours of lecture and two 3 hour labs per week.

Pre-requisite(s): CHEM 1120 or (CHEM 2310 and CHEM 2315), and MATH 1040 or MATH 1050 or MATH 1080.

BTNY 3624 - Taxonomy of Vascular Plants

Credits: (4)

Typically Taught Summer Semester: *1st Blk*

A study of the basic principles and concepts of vascular plant systematics with emphasis on the identification and classification of flowering plants.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104, BTNY 2114, and BTNY/CHEM/GEO/MICR/PHYS 2600.

BTNY 3643 - Intermountain Flora

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A taxonomic study of plants that are of major importance to the management of wildland resources. Students will learn to identify 300 of the most important grasses, woody plants, and marsh-aquatic plants. Considers federal laws for the regulation of rare and endangered species and habitat designation.

One hour of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 3624.

BTNY 4113 - Plant Evolution

Credits: (3)

An exploration of fundamentals and issues of evolution through natural selection as it relates to plants including reproduction strategies, co-evolution, evolution of ecosystems, biochemical evolution and genomic evolution.

Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 3105, and BTNY 3303 or ZOOL 3300.

Note: This course is not currently offered.

BTNY 4252 - Cell Culture

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Basic methods and applications for culturing plant and animal cells in vitro.

Two 2-hour combined lecture and laboratory sessions per week.

Pre-requisite(s): BTNY 2104, or MICR 2054.

cross-listed with Microbiology

BTNY 4570 - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

BTNY 4750 - Topics in Botany

Credits: (1-5)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An exploration of selected topics in the discipline. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): BTNY 2104 and BTNY 2114, and any specified courses selected by the instructor.

Number of Times this Course May Be Repeated: Course may be repeated up to 10 times for credit.

BTNY 4800 - Individual Research

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.

Number of Times this Course May Be Repeated: Course may be repeated up to 10 times for credit.

BTNY 4830 - Readings in Botany

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent readings in botany under the direction of a faculty member.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated up to four times for a maximum of 6 credit hours.

BTNY 4840 - Thesis Readings

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Literature search and evaluation, culminating in the writing of a thesis proposal.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of thesis advisor.

Number of Times this Course May Be Repeated: Course may be repeated once for a maximum of 4 credit hours.

BTNY 4850 - Thesis Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent research related to a student's approved thesis proposal. May be repeated for a maximum of 8 credit hours.

Pre-requisite(s): BTNY 2600, BTNY 4840, (MATH 1040 or MATH 1050 or MATH 1080), and approval of thesis advisor.

BTNY 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in Botany Department programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, two upper-division Botany courses, and instructor approval.

Number of Times this Course May Be Repeated: Course may be repeated 5 times for a maximum of 6 credit hours.

BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, and any specified courses selected by the instructor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of six credit hours.

Note: This course is offered as needed.

Construction Professionals using emerging software to visualize and analyze the structural behavior of buildings and structures. A study of common construction material properties and their connections under varying load conditions including: wood, steel, and concrete. Both 2D and 3D CAD are used to create residential and commercial engineered construction documents.

Pre-requisite(s): Math QL.

BDC 4350 - BIM Management & Coordination

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

An advanced BIM course dealing with BIM project management, MEP modeling, clash detection, 4D scheduling, as well as emerging technology in the Building Design & Construction industry.

Pre-requisite(s): BDC 2000 or CMT 2360.

BDC 4600 - Senior Project

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a building design & construction problem. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.

Number of Times this Course May Be Repeated: This course may be taken twice for credit.

BDC 4830 - Directed Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed readings in Building Design and Construction. Must have department approval. Can be taken for 3 credit hours three times for a maximum of 9 credits

BDC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript. May be repeated three times for up to 9 credit hours.

Pre-requisite(s): Consent of instructor.

Business Administration

BSAD 1010 - Introduction to Business

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Relation of business managers and firms to contemporary society and the global economy. Topics include human values and ethics in the workplace, multiculturalism, social responsibilities of business, business functions, and general principles of effective business operation.

BSAD 2704 - Information Resources in the Business Disciplines

Credits: (1)

Typically Taught Fall Semester: *1st Blk, Full Sem Online*

Typically Taught Spring Semester: *1st Blk, Full Sem Online*

Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.

Cross listed with LIBS 2704.

BSAD 2899 - Business Foundations and Admission Assessment

Credits: (0)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Completion of BSAD 2899 is required of all students pursuing any major, minor, emphasis or certificate awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Business Foundation knowledge, and 2) admittance to the Goddard School. Students must have an overall GPA of 2.5 or higher and a Business Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the six Business Foundation courses. *Credit/No credit.*

Pre-requisite/Co-requisite: ACTG 2010, ACTG 2020, ECON 2010, ECON 2020, MIS 2010, QUAN 2600. Department registration approval is required.

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Business Foundation course (ACTG 2010, ACTG 2020, ECON 2010, ECON 2020, MIS 2010 and QUAN 2600) or after the required Business Foundation courses have been completed.

BSAD 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

BSAD 3000 - Small Business Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

This course is designed for students majoring outside the John B. Goddard School of Business & Economics. It will not be counted for credit toward graduation for students majoring in the John B. Goddard School of Business & Economics. It covers the business management concepts involved in starting and/or managing a small business.

BSAD 3200 - Legal Environment of Business

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Introduction to the legal and judicial system, emphasizing the

application of regulatory law (e.g., antitrust, employment discrimination, etc.) and selected common law topics (e.g., contracts, agency, etc.).

BSAD 3330 - Business Ethics & Environmental Responsibility

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk*

An introduction to the rudiments of moral reasoning, concepts and principles, and their application to common ethical issues faced in business. Special attention will be given to moral issues associated with the use of the natural environment by businesses.

Pre-requisite(s): BSAD 2899.

BSAD 3500 - Introduction to Business Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduces students to gathering and analyzing primary and secondary data for a wide range of business applications, such as assessing customer or employee satisfaction. Students are introduced to CD ROM databases, other library resources, questionnaire development and administration, basic data analysis, and research report writing.

Pre-requisite(s): BSAD 2899, QUAN 3610.

BSAD 3600 - [World Region] Business and Society

Credits: (3)

The world region or country covered in this course varies and will be indicated in the specific course title and on the student's transcript (e.g., European Business and Society, Japanese Business and Society, etc.). For a specified world region or country, this course considers its historical and cultural roots, together with modern societal issues, as they relate to business; the role of business in society; economic development, industrial policy, and trade relations; and management and business practices, including sociocultural considerations, in the specified world region or country.

Pre-requisite(s): BSAD 2899.

Suggested Requisite(s): Prior course work in business or economics or the appropriate foreign language(s) or culture, or in-country experience.

BSAD 4210 - Survey of Business Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

An overview of sales, negotiable instruments, property, and debtor/creditor relations and other selected legal topics.

Pre-requisite(s): BSAD 2899, BSAD 3200.

BSAD 4401 - E-Commerce

Credits: (3)

Technologies, strategies, and methods for an electronic approach to financial, purchasing, marketing, and order fulfillment processes. Emphasis is on creating successful business strategies to exploit Internet and Electronic Data Interchange (EDI) capabilities.

Pre-requisite(s): MKTG 3010 or concurrent enrollment in MKTG 3010.

Note: Course not currently being offered.

BSAD 4500 - Entrepreneurship

Credits: (3)

Integration of various functional areas of business as they relate to evaluating, creating, planning, and managing new business ventures.

Pre-requisite(s): Business Foundations; BSAD 2899; MKTG 3010; MGMT 3010, MGMT 3200.

Note: Course not currently being offered.

BSAD 4620 - Executive Lectures

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

This course is designed to acquaint the students with successful executives, their personal styles and philosophies as leaders, and the keys to their effectiveness. *Credit/No credit.*

The format is a series of weekly one-hour lectures delivered by guest executives.

Number of Times this Course May Be Repeated: The course may be repeated for credit to a maximum of two credit hours.

BSAD 4680 - Small Business Diagnostics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations.

Research, written reports and presentations are required. Cross-listed with ENTR 4680.

Pre-requisite(s): ENTR 2001 OR BSAD 2899 and Instructor approval.

BSAD 4780 - Strategic Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A capstone course for seniors designed to facilitate integration of the knowledge gained in earlier courses. Focus of the course is on the total enterprise. Emphasis is on crafting well-conceived strategies and on successful strategy implementation.

Pre-requisite(s): BSAD 2899, BSAD 3200, SCM 3050, FIN 3200, MGMT 3010, MGMT 3200 or PS 3250, MKTG 3010, Senior standing.

BSAD 4800 - Independent Research

Credits: (1-3)

Directed research and study on an individual basis.

Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated until a total of 4 hours credit is accumulated.

BSAD 4850 - Business Administration Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore business administration theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair

approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

BSAD 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

Chemistry

CHEM 1010 PS - Introductory Chemistry

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This is a lecture-demonstration class designed to introduce the subject of chemistry and requires no prior chemistry experience. This class is designed for students who will not be majoring in a discipline that requires any further chemistry coursework. This course is not intended to prepare students for any future chemistry coursework.

CHEM 1050 PS - Introduction to General, Organic & Biochemistry

Credits: (5)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

An introduction to general, organic and biochemistry designed primarily for students of nursing and other majors that require no more than one semester of chemistry.

Four hours of lecture and one 3-hour lab a week.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of five credit hours.

CHEM 1055 - Introduction to General, Organic & Biochemistry Lab

Credits: (1)

CHEM 1055 is a stand-alone lab course designed to accommodate transfer students from other universities. CHEM 1055 registration will be allowed only by special permission from the Chemistry Department Chair. Transfer students who have taken the CHEM 1050 lecture or equivalent without the lab should petition the Chemistry Department Chair for permission to take this course.

Pre-requisite(s): Must have completed or be currently enrolled in CHEM 1050 lecture or equivalent.

Note: This course is offered as needed.

CHEM 1110 PS - Elementary Chemistry

Credits: (5)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Fundamentals of inorganic chemistry and introduction to organic chemistry. The first course in a two-semester sequence designed

primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

Four hours of lecture and one 3-hour lab a week.

CHEM 1115 - Elementary Chemistry Lab

Credits: (1)

CHEM 1115 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 1115 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 1110 lecture.

Note: This course is offered as needed.

CHEM 1120 - Elementary Organic Bio-Chemistry

Credits: (5)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Elementary study of the compounds of carbon and chemical compounds and reactions of biological systems.

Four hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 1110 or equivalent.

CHEM 1125 - Elementary Organic Bio-Chemistry Lab

Credits: (1)

CHEM 1125 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 1125 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 1120 lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 1120 lecture.

Note: This course is offered as needed.

CHEM 1200 - Preparation for College Chemistry

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

CHEM 1200 prepares students to take the CHEM 1210 - 1220 chemistry series. No prior chemistry experience is necessary, however, mathematical and problem-solving competency at the level of intermediate algebra (MATH 1010) or above is expected. *Students who do not plan to take Chemistry 1210-1220 series should not take this class.* This course does not fulfill any general education requirements and does not apply towards hours in any major. Three hours of lecture per week.

Pre-requisite/Co-requisite: MATH 1010, MATH 1050, MATH 1080, MATH 1210, MATH 1220, or MATH 2210.

CHEM 1210 PS - Principles of Chemistry I

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This is the first course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists,

and some engineering students. Course topics include components of matter, stoichiometry, major classes of reactions, gases and kinetic molecular theory, thermochemistry, quantum theory and atomic structure, models of chemical bonding, shapes of molecules, intermolecular forces, and properties of mixtures. The laboratory emphasizes qualitative and quantitative methods of analysis. Four hours of lecture and one 3-hour lab a week.

Pre-requisite(s): MATH 1010 or equivalent and CHEM 1200 or departmental approval.

Pre-requisite/Co-requisite: MATH 1050, MATH 1080, MATH 1210, MATH 1220, MATH 2210, or equivalent.

CHEM 1215 - Principles of Chemistry I Lab

Credits: (1)

CHEM 1215 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 1215 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 1210 lecture without the lab or High School AP students should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 1210.

Note: This course is offered as needed.

CHEM 1220 - Principles of Chemistry II

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This is the second course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include kinetics, equilibrium including aqueous solution equilibrium, thermodynamics, electrochemistry, and an introduction to inorganic, nuclear, and organic chemistry. The laboratory emphasizes qualitative and quantitative methods of analysis.

Four hours of lecture and one 3-hour lab a week.

Pre-requisite(s): MATH 1050 or MATH 1080 or MATH 1210 or MATH 1220 or MATH 2210 or equivalent and CHEM 1210.

CHEM 1225 - Principles of Chemistry II Lab

Credits: (1)

CHEM 1225 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 1225 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 1220 lecture without the lab, or High School AP students should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 1220 lecture.

Note: This course is offered as needed.

CHEM 1360 PS - Principles of Physical Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.

Two hours of lecture and one 3-hour lab per week. Recommended for Elementary Education majors.

CHEM 2310 - Organic Chemistry I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Principles of organic chemistry, including structure and reactivity of carbon based molecules. Detailed study of mechanisms, synthesis, and reactions. Alkane, alkyl halide, alkyne, alcohol, and ether families are covered.

Four hours of lecture a week.

Pre-requisite(s): CHEM 1220.

Co-Requisite(s): CHEM 2315 lab.

CHEM 2315 - Organic Chemistry I Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Lab course designed to be taken with CHEM 2310. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.

Pre-requisite(s): CHEM 1220.

Co-Requisite(s): CHEM 2310 lecture.

CHEM 2320 - Organic Chemistry II

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Principles of organic chemistry, second semester. A continuation of structure and reactivity analysis, along with structure elucidation techniques, spectroscopy and synthetic reactions. Coverage includes aromatics, carbonyls, carboxylic acid derivatives, and sugars.

Four hours of lecture a week.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

Co-Requisite(s): CHEM 2325 lab.

CHEM 2325 - Organic Chemistry II Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Lab course designed to be taken with CHEM 2320. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

Co-Requisite(s): CHEM 2320 lecture.

CHEM 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

CHEM 2890 INT - Cooperative Work Experience

Credits: (1-6)

Open to all students in the Chemistry Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

CHEM 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title with the credit authorized will appear on the student transcript.

Note: This course is offered as needed.

CHEM 2990 - Chemical Technician Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to provide the skills necessary to enter the job market as a Chemical Technician.

One hour of lecture/discussion a week.

Pre-requisite(s): CHEM 1220.

CHEM 3000 - Quantitative Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory and methods of gravimetric and volumetric analysis and simple instrumentation. Includes statistical evaluation of results.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): CHEM 1220.

Pre-requisite/Co-requisite: CHEM 3020.

CHEM 3005 - Quantitative Analysis Lab

Credits: (1)

CHEM 3005 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 3005 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 3000 lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 3000 lecture.

Note: This course is offered as needed.

CHEM 3020 - Computer Applications in Chemistry

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to provide students computer skills for applications including computation and electronic data bases searches. It is required that this course be taken before or with CHEM 3000.

One hour of lecture/discussion a week.

Pre-requisite(s): CHEM 1210.

CHEM 3050 - Instrumental Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory and methods of modern instrumental analysis. Includes practical applications in electrochemical, spectrometric, and chromatographic techniques.

Three hours of lecture and one three hour laboratory per week.

Pre-requisite(s): CHEM 3000.

Note: This course is offered as needed.

CHEM 3060 - Applied Analysis

Credits: (1)

Applied Analysis using modern methods of analysis with an emphasis on speed and accuracy.

One 3-hour lab per week.

Pre-requisite(s): CHEM 3000.

Pre-requisite/Co-requisite: CHEM 3050.

Note: This course is offered as needed.

CHEM 3070 - Biochemistry I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Structure and function of biomolecules including proteins, nucleic acids, fats and carbohydrates. A focus on proteins as energy transforming and catalytic devices; their role in metabolism, defense and other biochemical processes. Three lectures a week.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

CHEM 3075 - Biochemistry I Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Biochemistry lab course designed to accompany Biochemistry I Lecture, CHEM 3070. Includes biochemical concept illustration using chemical and biological techniques and experimentation.

Pre-requisite/Co-requisite: CHEM 3070.

CHEM 3080 - Biochemistry II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A detailed study of the molecular basis of life: nucleic acids, biosynthetic pathways, molecular aspects of disease and pharmacology.

Three lectures a week.

Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.

CHEM 3090 - Biochemical Techniques

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Advanced techniques including instrumentation for biochemistry. One 3-hour lab per week.

Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.

Pre-requisite/Co-requisite: CHEM 3080.

CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introduction to molecular symmetry, experimental error analysis, and physical chemistry applications of algebra, linear algebra, and differential equations.

Pre-requisite(s): MATH 1220.

Co-Requisite(s): CHEM 3410.

CHEM 3410 - Foundations in Physical Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: Full Sem

The one-semester foundation course in Physical Chemistry covering chemical thermodynamics and kinetics with an introduction to quantum mechanics through application to spectroscopy. Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 1220,

Pre-requisite/Co-requisite: PHYS 2220.

CHEM 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: Full Sem

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

CHEM 3610 - Foundations in Inorganic Chemistry

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

A foundation course for chemistry majors and minors. Topics include atomic properties, bonding, molecular symmetry, solid state structures, and transition metal complexes. This class will meet for 3 hours each week with one 3 hour laboratory per week.

Pre-requisite(s): CHEM 1220, and MATH 1060 or MATH 1080.

CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy

Credits: (2)

Typically Taught Fall Semester: Full Sem

NMR theory is investigated from a semi-classical standpoint and practiced on an NMR spectrometer. Pulse and Fourier transform NMR basics are developed and common one- and two-dimensional NMR experiments are described.

Pre-requisite(s): CHEM 2320, CHEM 2325, MATH 1220, and PHYS 2220 with lab.

CHEM 4250 - Medicinal Chemistry

Credits: (3)

Typically Taught Fall Semester: Full Sem

Medicinal chemistry is a fast-paced and important field that has direct impacts on overall world health and quality of life. This 3-credit-hour course is designed for students with an interest in chemistry, biochemistry, pharmacology, and medicine. It will provide an in-depth look at how pharmacologically active molecules are designed, how they chemically interact with their targets, and how they work molecularly to treat human diseases. Selected case studies will be used to illustrate the concepts being covered. In line with our university mission, an over-arching theme will be looking at how medicinal chemistry affects our worldwide community with emphasis on patents, drug development costs, risks, and ethics.

Pre-requisite(s): CHEM 3070.

CHEM 4420 - Quantum Chemistry

Credits: (4)

Typically Taught Spring Semester: Full Sem

The second semester course of Physical Chemistry covering quantum mechanics, statistical mechanics, and chemical reaction dynamics. Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3000 and CHEM 3410 and CHEM 3610.

CHEM 4540 - Spectrometric and Separation Methods

Credits: (4)

Typically Taught Fall Semester: Full Sem

Theory and practice of spectrometric and separation methods in the study of chemical systems.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): CHEM 3050.

CHEM 4550 - Geochemistry

Credits: (3)

The chemistry of the earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere with a synthesis of these ideas to account for the chemical evolution of the earth. Applications to mineral stability and chemical reactions, geochemical cycles, and isotope geochemistry.

Three hours of lecture a week.

Pre-requisite(s): CHEM 1220 and GEO 2050 or consent of instructor.

Note: This course is offered during even years.

CHEM 4560 - Environmental Geochemistry

Credits: (4)

Typically Taught Spring Semester: Full Sem

Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): CHEM 1220 and GEO 3000; or consent of instructor.

CHEM 4570 - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: Full Sem

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

CHEM 4620 - Advanced Inorganic Chemistry

Credits: (4)

Typically Taught Spring Semester: Full Sem

Students will learn how to use symmetry and current bonding theories to explain and predict the structure, properties and reactivity of inorganic molecules. They will explore the breadth of inorganic chemistry including organometallic chemistry, bioinorganic chemistry, and catalysis. The research based laboratory experience focuses on the synthesis, characterization, and testing of inorganic compounds using state of the art techniques and instrumentation. Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3610 or permission of instructor.

CHEM 4630 - Materials Chemistry

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Materials chemistry is the study of the synthesis, structure, properties, and applications of solid materials. Our technology-driven world is fueled by advances in materials chemistry with examples of

application in areas such as nanomaterials, polymers, and energy technology. This survey course will focus on the synthesis of materials through gas, liquid, and solid phase reactions. Crystalline and molecular structure of materials will be related to electronic, optical, thermal, and mechanical properties. Some material characterization techniques including x-ray diffraction and microscopy will be covered. The accompanying lab focuses on synthesis of advanced crystalline and amorphous materials through traditional and new techniques. Analysis with scanning electron microscopy, x-ray diffraction, uv/vis spectroscopy, and IR spectroscopy is included.

Pre-requisite(s): CHEM 3610.

CHEM 4700 - Special Topics in Chemistry

Credits: (1-3)

variable title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Pre-requisite(s): CHEM 4420 or permission of instructor.

Number of Times this Course May Be Repeated: This course may be repeated twice for a maximum of 3 credit hours.

CHEM 4710 - Chemical Preparations

Credits: (1-3)

Synthesis and determination of the properties of selected chemical compounds.

Three to nine hours of lab a week.

Pre-requisite(s): Permission of the instructor.

Note: This course is not currently being offered.

CHEM 4800 - Research and Independent Study in Chemistry

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to qualified students for one or more semesters.

Number of Times this Course May Be Repeated: May be repeated for credit up to 12 times with instructor approval.

CHEM 4810 - Materials Chemistry

Credits: (3)

Experimental Course, Contact Department for More Information

Materials chemistry is the study of the synthesis, structure, properties, and applications of solid materials. Our technology-driven world is fueled by advances in materials chemistry with examples of application in areas such as nanomaterials, polymers, and energy technology. This survey course will focus on the synthesis of materials through gas, liquid, and solid phase reactions. Additional focus will be brought to how the crystalline and molecular structure of materials can be related to electronic, optical, thermal, and mechanical properties. Some material characterization techniques including powder X-ray diffraction and microscopy will be covered. This course is designed to complement PHYS 4200 - The Physics of Materials.

Pre-requisite(s): CHEM 3410 - Foundations in Physical Chemistry and CHEM 3610 - Foundations in Inorganic Chemistry.

CHEM 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A continuation of CHEM 2890. Open to all students.

Number of Times this Course May Be Repeated: May be repeated for credit up to 12 times with instructor approval.

CHEM 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

Note: This course is offered as needed.

CHEM 4990 - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A seminar course where students will share their research results with fellow students and faculty in written and oral formats.

Pre-requisite(s): CHEM 4800 or permission of instructor.

CHEM 5030G - Chemistry for Teachers

Credits: (3-5)

Science content course for teachers in the M. Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 5 credit hours.

Child and Family Studies

CHF 1400 - Marriage and Romantic Relationships

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk Online*

An introductory survey course which addresses individual, interpersonal, and developmental dynamics essential for sustaining interpersonal and marital relationships.

CHF 1500 SS/DV - Human Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

A survey course which addresses the developmental aspects of individuals across the lifespan. Course content encompasses the study of biological, cognitive, social, and emotional developmental changes of the healthy individual in the context of the family and society. It emphasizes and demonstrates the vital connections between theory, research, and application.

CHF 2100 - Family Resource Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Understanding the significance of values, goals, attitudes and planning strategies in the management of human, economic and environmental resources as they relate to increasing satisfaction and the enhancement of family relationships.

CHF 2400 SS/DV - Family Relations

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk, 1st Blk Online*

Examines dynamics of the healthy family using family theory, individual life span development, research, and active learning experiences.

CHF 2500 - Development of the Child

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk Online*

Examines the major physical, socioemotional, and cognitive/language developmental milestones for children, both typical and atypical, through middle childhood. There is an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students observe children, evaluate individual differences and analyze characteristics of development at various stages.

Pre-requisite/Co-requisite: CHF 1500.

CHF 2600 - Introduction to Early Childhood Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An overview of the historical roots of early childhood education; theoretical approaches, developmentally appropriate practice, types and efficacy of early childhood programs; and political issues and ethical conduct within the early childhood profession.

3 hours lecture per week and 12 hours field observation.

Pre-requisite(s): CHF 1500, concurrent or prior enrollment in CHF 2500, or instructor consent.

CHF 2610 - Guidance Based on Developmental Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The development of a philosophy and a plan of action for guiding the child based on theories of development. Lectures combine with laboratory experiences to provide opportunity for building relationships with young children. Students complete a minimum of 24 hours practicum arranged by the instructor.

Pre-requisite(s): CHF 1500.

CHF 2620 - Planning Creative Experiences for Young Children

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Development of attitudes, materials, and skills needed to plan and teach age, individually, and culturally appropriate curriculum for young children. Students complete a minimum of 24 hours practicum

arranged by the instructor.

Pre-requisite(s): CHF 1500, CHF 2500, CHF 2600, and CHF 2610.

CHF 2670 - STEM and Approaches to Learning in Early Childhood

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.

Pre-requisite(s): CHF 2600, CHF 2610, CHF 2620.

CHF 2810 - Educator Resilience

Credits: (3)

Experimental Course, Contact Department for More Information

This online course develops educator well-being and resilience through life design, identifying and addressing cognitive distortions, fostering optimistic thinking, relaxation strategies, choosing one's attention, practicing mindfulness and gratitude. Use of a variety of positive strategies and routines such as value oriented goals and behaviors, prioritizing, time and organization skills, good sleep and nutrition, scheduling in fun, and doing what matters most are also explored.

CHF 2810 - Experimental Courses

Credits: (1-5)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

CHF 2830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individually chosen readings on specialized topics supervised by a faculty member.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

CHF 2850 - Child Development Associate Training

Credits: (2)

Understanding child development concepts and applying them to teaching situations with young children. The Professional Resource File in preparation for National Child Development Associate Credential (CDA) is compiled during the course.

Note: This course is not currently offered.

CHF 2860 INT - Practicum

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Work experience which applies prior academic learning in a supervised setting.

Pre-requisite(s): For Early Childhood majors: CHF 1500, CHF 2500, CHF 2600, CHF 2610, CHF 2620, or consent of faculty advisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

CHF 2890 INT - Cooperative Work Experience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in the Child and Family Studies Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job learning experience with coordination of faculty instructor and professional mentor. Ethical conduct related to working with children and families will be discussed. Professional activities will include goal setting, strategies, and documentation for progress evaluation meetings culminating in a student-created professional development portfolio. Students will arrange their own opportunities in a professional setting. Prior consent of the faculty instructor and the professional mentor are required. Fingerprinting/background check may be needed to work in certain settings.

Pre-requisite(s): For Early Childhood AAS majors: CHF 2860, or consent of faculty advisor.

CHF 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

Note: This course is taught as needed.

CHF 2990A - Seminar in Child Development

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Discussion and analysis of readings and selected topics in growth, development, and education of the young child.

Pre-requisite(s): CHF 1500, CHF 2500, CHF 2600, CHF 2610, CHF 2620, and concurrent or prior enrollment in CHF 2860, or instructor's consent.

CHF 2990B - Seminar in Family Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Discussion and analysis of special topics for Family Studies majors including professional skills, professional credentials, and the development of professional ethics.

CHF 3150 - Consumer Rights and Responsibilities

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

The role and responsibilities of the family and its members as

consumers. An exploration of marketplace fact and fraud and identification of consumer resources.

CHF 3350 - Diverse Families

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A comparative analysis of various types of ethnic families in the United States reflecting their social and political dynamics with extensive coverage of the family lifestyles, traditions and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional and current ethnic family characteristics, and changes and adaptations to the ethnic family and culture.

CHF 3400 - Development in Middle Adulthood

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

The content of this course is designed to create a foundation of knowledge and understanding for the required core competency of the nationally recognized Family Life Education Content areas. Specifically addressing competency area number 3, Human Growth and Development across the Lifespan. The course will focus on normative and non-normative individual developmental processes, as well as systemic dynamics of social context surrounding and impacting middle-aged development.

CHF 3450 - Adult Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Growth and development through young, middle, and late adulthood within a developmental and family system context.

CHF 3500 - Young Children at Risk

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Focuses on the elements of the child's history, status, biological traits, and social circumstances that have the potential of placing the child in a position of risk in early childhood settings during the early childhood period.

CHF 3550 - Parenting Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

A course designed to assist in the acquisition of skills and knowledge regarding the understanding and facilitation of contemporary parents in their parenting role. Course content will include conceptualizations and strategies from both contemporary theoretical and applied perspectives.

CHF 3570 - Infants and Toddlers: Development and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: Full Sem

This course provides an in-depth study of physical, cognitive, language, social, and emotional development from prenatal period through toddlerhood. Practical application and assessment play an integral part of the course. Students will be introduced to observation, early intervention, and relationship-based care in diverse settings. Students complete a minimum of 24 hours practicum arranged by the instructor.

Pre-requisite(s): CHF 1500

CHF 3620 - Curriculum Planning for Kindergarten

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

An introduction to planning curriculum in kindergarten with an emphasis on design of learning environments and curriculum that are developmentally appropriate and evidence based. Students complete a minimum of 24 hours practicum. Student are required to complete a background check by the beginning of the semester.

Pre-requisite(s): CHF 1500; CHF 2500; CHF 2610.

CHF 3640 - Working with Parents

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Prepares students to be advocates and practitioners of parent involvement by exploring philosophies, processes, and methods for working with parents and involving them in their child's learning process. Components of family structure, economics, cultural diversity, second-language learners, communication skills, community resources, and a model for parent involvement are integrated into the student experience.

Pre-requisite(s): CHF 1500.

CHF 3650 - Family Processes

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

An examination of family internal dynamics and family systems for the purpose of enrichment, problem prevention and education.

Pre-requisite(s): CHF 2400.

CHF 3680 - Teaching Experience in the Preschool

Credits: (3)

Provides students an opportunity to be an assistant teacher, to observe and interact with children on an individual and group basis; plan, develop, and implement activities for children.

Pre-requisite(s): CHF 1500, CHF 2610 and CHF 2620, or consent of instructor.

Note: This course is not currently offered.

CHF 3850 - Current Research Methods in Child and Family Studies

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

An introduction to the methods and types of research used in the study of family issues and processes. Focus of the course includes the development of student knowledge and skills used in applying the scientific method in family studies contexts. Understanding, reviewing, evaluating, and interpreting the methods and conclusions reported in the professional empirically based journals will also be

emphasized.

Pre-requisite(s): CHF 1500, CHF 2400.

CHF 4130 - Language Development and Emergent Literacy in Early Childhood

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course explores current theory, research, and evidence based practices for promoting early language and emergent literacy development (birth 8 years) in home, child care, prekindergarten, and primary education environments through collaborative practices between early childhood professionals and parents.

Pre-requisite(s): CHF 1500.

CHF 4201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection

Credits: (3)

Typically Taught Spring Semester: Full Sem odd years

Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential.

CHF 4202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice

Credits: (3)

Typically Taught Summer Semester: Full Sem

Becoming an effective coach is a result of introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self-directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.

Pre-requisite(s): CHF 4201/MED 6201 or instructor permission.

CHF 4203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change

Credits: (3)

Typically Taught Fall Semester: Full Sem

The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential.

Pre-requisite(s): CHF 4201/MED 6201 and CHF 4202/MED 6202 or instructor permission.

CHF 4300 - Latino Child and Family Development

Credits: (3)

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *1st Blk*

The Latino Child and Family Development course is designed as an upper division course for those who will work with, advocate for, or interact with children and families from a Latino background. The course uses a cultural constructivist approach to understand Latino children and their families. The central focus includes the study of Latino culture, parenting practices, couple and marital practices, and other family dynamics. Additionally, a major goal is to understand and deconstruct stereotypes associated with individuals within the Latino culture. The course will simultaneously focus on Latinos living within the United States as well as cultural groups throughout North America, South America, and the Caribbean.

CHF 4310 - Understanding the Modern United States Military Family

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to assist you in understanding the structure and formation of each service branch as well as the experiences of families serving in the U.S. Military focusing on both Active duty and Reserve components using Family Systems Theory, Risk and Resiliency Theory and Ambiguous Loss Theory. In recent years, many changes have taken place in the military family landscape. The knowledge gained in this course should provide you with insight into the complex experiences of today's U.S. Military Families. The information provided in this course is designed to assist students to be effective in professional settings working with military personnel and their families, and is a starting foundation for those interested in pursuing professional civilian careers working with military families in a variety of settings (e.g., nonprofit organizations, the U.S. Military, and others). This course will focus on different components of family life that specifically impact military families. The course format will include (1) readings, (2) online lectures, (3) quizzes, (4) exams, and (5) online and in class discussion.

Pre-requisite(s): CHF 1400, CHF 1500, CHF 2400.

CHF 4400 - The Family in Stress

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Examining causes of stress in the family and developing strategies for coping with stress.

CHF 4450 - Children and Families in the Medical Setting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to understand and serve children and families in the medical setting and to provide basic background and knowledge of Child Life practices. This course prepares individuals who plan to complete a 480 hour cooperative work experience in the field of Child Life, and is required prior entering into an internship and taking the National Child Life Certification Examination.

The content of this course is designed to create a foundation of knowledge, both academically and practically, in the required core competencies of the nationally recognized Child Life Certification. The core competencies include the ability to assess and provide services to infants, children, youth, and families in a medical setting including stress management, supportive environments, team skills, professional development, and evaluation skills.

CHF 4500 - Comparative Study of Childhood and Adolescent Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

An advanced level course that addresses the understanding of the principles and theories of growth and development within and between the stages of children in childhood and adolescence. Covers the physiological, intellectual, social, emotional domains of development.

CHF 4510 - Contemporary Issues in Planning for Children

Credits: (1-3)

Variable Title

An in-depth study of a contemporary issue in childhood. In some cases, this course may substitute for one of the minor requirements when it has received prior approval from a department advisor.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

Note: This course is not currently offered.

CHF 4520 - Basic Mediation Training

Credits: (3)

A basic mediation training course addressing the theory and skills to effectively deal with conflict situations. The course leads to certification in basic theory and skills of mediation. (Supervised mediation practice is required to complete certification.)

Note: This course is taught as needed.

CHF 4600 INT - Family Studies Field Experiences

Credits: (1-8)

Six to eight weeks internship, which may require off-campus residence. Credit and hours as arranged with instructor.

Pre-requisite(s): consent of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 8 credit hours.

Note: This course is taught as needed.

CHF 4650 - Family Life Education Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparing students to be Family Life Educators by exploring philosophies, methods, and skills for teaching and working with parents and family members.

Pre-requisite(s): CHF 3350, CHF 3550, and CHF 3850, or consent of instructor.

CHF 4660 - Advanced Skills for Family Life Educators

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This upper division course is centered on students' development of interpersonal and pedagogical skills as Family Life Educators under the direct supervision of course instructors. This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators. This includes building audience engagement and trust through the use of observational feedback, responding to nonverbal cues, and addressing common teaching challenges. This course will teach students to present specific family life education program curricula. The course training will include students reviewing and presenting the family life education materials in two contexts: 1-within the classroom among peers and faculty and 2-within the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education, and it also provides students with the experience of having presented a community education program in multiple contexts.

CHF 4670 - STEM and Approaches to Learning in Early Childhood

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.

Pre-requisite(s): CHF 2600, CHF 2610, CHF 2620.

CHF 4710 - Advanced Guidance and Planning for Early Childhood Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A synthesis of guidance and planning with an emphasis on assessment, appropriate objectives and strategies for individual and specific groups of children. Requires both lecture and lab time. Students majoring in EC, ECE, or taking an early childhood specialization with their K-6 license will register for the section that is offered the first 5 weeks of the semester, and take it concurrently with CHF 4720.

Pre-requisite(s): CHF 1500, CHF 2500, CHF 2600, CHF 2610, CHF 2620, and CHF 3640.

CHF 4720 INT - Student Teaching in the Children's School

Credits: (3-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Experience in application of generalizations regarding growth, guidance, and development of children in the Melba S. Lehner Children's School. For juniors and seniors.

Pre-requisite(s): CHF 1500, CHF 2500, CHF 2600, CHF 2610, CHF 2620 and CHF 3640.

Co-Requisite(s): To be taken concurrently with CHF 4710. (Will be taken the last 10 weeks of the semester.)

Number of Times this Course May Be Repeated: May be repeated 2 times up to 9 credit hours.

CHF 4730 - Early Childhood/Early Childhood Education Program Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course prepares students with skills specific to leadership roles in early childhood education programs including: professional ethics, ensuring the health and safety of children, ongoing quality improvement, program leadership, planning, and management. Content and skills focus on practices endorsed by the National Association for the Education of Young Children (NAEYC) and are aligned with the NAEYC Standards for Early Childhood Professional Preparation Programs.

Pre-requisite(s): CHF 2600, CHF 2610, CHF 2620, or consent of the instructor, and concurrent or prior enrollment in CHF 4710 and CHF 4720.

CHF 4800 - Individual Research

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

CHF 4810 - Educator Resilience

Credits: (3)

Experimental Course, Contact Department for More Information

This online course develops educator well-being and resilience through life design, identifying and addressing cognitive distortions, fostering optimistic thinking, relaxation strategies, choosing one's attention, practicing mindfulness and gratitude. Use of a variety of positive strategies and routines such as value oriented goals and behaviors, prioritizing, time and organization skills, good sleep and nutrition, scheduling in fun, and doing what matters most are also explored.

CHF 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individually chosen readings on specialized topics supervised by a

faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

CHF 4860 INT - Practicum

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Work or volunteer experience which applies prior academic learning in a supervised setting. Consent of faculty supervisor is required prior to registration.

Pre-requisite(s): for Family Studies Majors include CHF 2990B, CHF 3350, CHF 3550, CHF 3850, and completed background clearance.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

CHF 4890 - Cooperative Work Experience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in the Child and Family Studies Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job learning experience with coordination of faculty instructor and professional mentor. Ethical conduct related to working with children and families will be discussed. Professional activities will include goal setting, strategies, and documentation for progress evaluation meetings culminating in a student-created professional development portfolio. Students will arrange their own opportunities in a professional setting. Prior consent of the faculty instructor and the professional mentor are required. Fingerprinting/background check may be needed to work in certain settings.

Pre-requisite(s): for Early Childhood BS majors: CHF 4710 and CHF 4720, or consent of faculty supervisor.

CHF 4900 - Career Strategy Seminar

Credits: (1)

Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.

Note: This course is not currently offered.

CHF 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

Note: This course is taught as needed.

CHF 4980 - Early Childhood Senior Synthesis Seminar

Credits: (1)

Synthesis of Early Childhood/Elementary Education program of

study with specific emphasis on beginning a professional career in teaching. Senior project not required.

Suggested Requisite(s): To be taken concurrently with student teaching.

Note: This course is not currently offered.

CHF 4990A - Seminar in Child Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Discussion and analysis of special topics for advanced Early Childhood and Early Childhood Education majors.

Pre-requisite(s): CHF 2500, CHF 2600, CHF 3640, and CHF 3500 (or EDUC 2010) or instructor's consent, and concurrent or prior enrollment in CHF 4710 and CHF 4720.

CHF 4990B - Senior Seminar in Family Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Discussion and analysis of special topics for seniors in Family Studies major.

Pre-requisite(s): CHF 2990B, CHF 3350, CHF 3550, CHF 3850, or consent of instructor.

Communication

COMM 1020 HU - Principles of Public Speaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Introduces theories and principles of effective speaking with emphasis on: audience analysis and adaptation, listening, organization, content development, use of language, and extemporaneous delivery. Designed to improve the student's ability to research, organize, develop and make presentations.

COMM 1040 - Convocations

Credits: (1)

Features distinguished speakers and artists in broad fields of humanities, sciences, technology, education, national and world affairs, and specialized artists in the fine arts from specialties such as music, theatre, interpretation, ballet and art.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credits.

Note: Course not currently being offered.

COMM 1130 - Media Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Beginning instruction in information-gathering techniques and media writing styles that inform, entertain and/or persuade. Approach recognizes that new technology is blurring the distinctions among various media and that writers must have a broad base of knowledge and skills.

Pre-requisite(s): Proficiency in word processing.

COMM 1140 - Writing for Workplace Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

This course is designed to teach communication appropriate to the workplace with an emphasis on written forms. It covers content, organization, tone, grammar and formatting across multiple contexts: presentations, professional biographies, email, executive summary, letters of commendation and complaint, press releases and business and training proposals. It uses verbal communication such as interviewing in addition to primary and secondary research to provide substance in professional communication.

COMM 1270 - Analysis of Argument

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will learn to analyze, evaluate, develop and refute arguments using formal argumentation methods and research based evidence. The course is designed to increase student competence and confidence in constructing, defending and critiquing a broad range of arguments found in public discourse.

COMM 1500 - Introduction to Mass Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Examines mass media development and impact upon society. Considers newspapers, magazines, film, radio, TV and multimedia. The role of media in providing information, opinion, entertainment and advertising support are considered along with the social political-economic controls which affect the media.

COMM 1560 - Audio Production and Performance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introductory course in audio production and performance. Training in audio console operation, use of recorders and microphones, and audio editing. Class includes basic announcing and formatting for radio stations. Course emphasizes hands-on projects.

COMM 2010 HU - Mass Media and Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Media literacy course which examines the non-legal, but ethical and social problems of mass media. Discusses current media issues and explores constructive steps to improve media relationships.

COMM 2110 HU CEL - Interpersonal and Small Group Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Explores the dynamics of verbal and nonverbal communication in

personal relationships and small groups. The emphasis is on practical application of course content to enhance interpersonal relationships and to achieve competence as group members.

COMM 2200 - Multi-Camera Production and Performance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introductory course in all aspects of in-studio video production. Skills include performing for video as well as the use of cameras, switching, lighting, electronic graphics and audio equipment. In-class projects emphasize directing, writing and performing for video.

COMM 2210 INT - Intercollegiate Debate

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation and competition on the national debate resolutions and participation in individual events.

Pre-requisite(s): Permission of instructor.

Number of Times this Course May Be Repeated: May be repeated 7 times up to 8 credits. However, only 6 credits may be used toward the Communication major.

COMM 2220 INT - Intercollegiate Speech

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking.

Number of Times this Course May Be Repeated: Up to 10 times for credit.

COMM 2250 - Essentials of Digital Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course introduces the basic digital communication skills necessary to be successful in today's multimedia environment. Students will learn how to produce and edit audio, stills, and video. Students will also learn to upload content for presentation on the Web and will learn to use social media to disseminate information relative to your content. Concepts will first be discussed in two lecture periods, and then put into practice in a lab.

COMM 2270 - Argumentation and Debate

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An examination of the theory and practice of argumentation with emphasis on parliamentary and policy debate formats. Emphasis also placed on making claims and inferences, research and the use of evidence, cross-examination, case construction, rebuttals and style of presentation.

COMM 2550 - Communication in Professional Settings

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

This class is designed to acquaint students with many of the major theories, concepts, and research findings related to the study of organizational communication and public relations. While this class will include a theoretical component, it is designed to be a more "hands on" or "practical skills" course. The information should be of practical value since individuals spend much of their lives in organizations and other professional settings.

COMM 2730 - Digital Radio Production and Broadcast

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students meet once a week for one and two-credit options, or twice a week for the three-credit option. Students work as contributors to the Weber State student streaming radio station, KWCR. Work includes detailing the tasks of station management, announcing, content generation, production, news, sales or engineering. Two hours in the studio a week are required for single-credit registrants, Four hours for two-credit registrants, and four hours in-studio work as well as a final portfolio of work for three-credit registrants.

Number of Times this Course May Be Repeated: May be taken up to four times for a total of four credits.

COMM 2890 - Cooperative Work Experience for The Signpost

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Newspaper lab experience at The Signpost for those who want the experience of gathering and producing news. Students will learn facets of producing a print and/or on-line publication and promoting the content on social media. Skills include news reporting and writing, advertising, design and photography. 3 credits requires instructor approval. The 3-credit option will be used for those seeking an Associate in Workplace Communication.

Number of Times this Course May Be Repeated: May be taken 3 times and up to 6 credits total.

COMM 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: Course is offered as needed.

COMM 2999 - Capstone in Workplace Communication and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes,

and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with ENGL 2999.

Pre-requisite(s): Permission of Instructor.

COMM 3000 - Communication Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

This course is intended to provide students with an overview of communication theory. It will give students a working knowledge of theories used to explain a wide range of communication phenomena, enabling them to build upon selected theories in other upper-division courses in their chosen communication major concentration.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3050 - Conflict Management and Negotiation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to provide students an opportunity to explore conflict management concepts in depth. Upon successful completion of this course, students will have a greater understanding of conflict across a variety of contexts, including interpersonal, organizational, group, and cultural. Students will be provided the analytical and communication tools to understand, evaluate, and respond effectively to conflicts.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3060 - Listening and Interviewing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers the purpose, structure, focus, and techniques employed in effective listening and interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing in a variety of interviewing settings. This course is designed to offer students insight into improved listening and interviewing practices. The theory and research concerning the process of listening and the practice of interviewing will form the basis for students' understanding about listening and interviewing behavior. This course then applies that knowledge to the development of listening and interviewing skills.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3070 - Performance Studies

Credits: (3)

Study of aesthetic texts through performance featuring the view of text or literature as communicative event and textual meaning as response in readers and audience. A primary emphasis will be placed on the relationship between performative choices and textual understanding.

Pre-requisite(s): COMM 1020 or permission of instructor.

Note: Check with Department for course availability.

COMM 3080 - Intercultural Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3085 - Family Communication

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

No activity is more fundamental to emotional need fulfillment, overall personal satisfaction, and the maintenance of community-social systems than family communication. It is in the recursive cycle of family communication that we learn how to relate to others. This course examines current studies in family communication research and its implications. Students will add to the scholarship of family communication by completing a research project in conjunction with this course.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3090 - Gender and Communication

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Online*

This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.

Pre-requisite(s): COMM 2110 or permission of instructor.
Cross listed in WGS 3090.

COMM 3100 - Small Group Facilitation and Leadership

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3120 - Advanced Public Speaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Enhanced speaking skills across a range of situations such as the professional workplace and via social media. Increase understanding of audience, publics, and the overall definition of "speaking" as a result of our ever-changing society.

Pre-requisite(s): COMM 1020 or permission of instructor.

COMM 3130 - News Reporting and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Develops journalism skills relevant to newspapers and online news services. Emphasizes news gathering, interviewing and news writing.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3150 - Communication Research Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly

journal articles.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3200 - Live Event Production

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will learn to operate field video cameras, switchers, instant-replay and other equipment while experiencing the pressures of live-sports production. Students will be part of a crew supplying the visuals for Weber State's football and basketball scoreboards. The crew will also provide visuals necessary to fulfill production commitments.

Number of Times this Course May Be Repeated: May be repeated up to 12 times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3220 - Editing

Credits: (3)

Typically Taught Fall Semester: *Online*

Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3230 - Health Communication

Credits: (3)

A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.

Cross-listed with HAS 3230.

Note: Check with Department for course availability.

COMM 3350 - Visual Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Visual messages have great power to inform, educate and persuade. In all fields of communication, visual presentation of the message helps determine the success of the message. This course is designed to help students become effective and ethical visual communicators on the page or the screen. In addition to creating design projects, students will learn how to critically analyze visual designs and to understand major visual communication theories.

Pre-requisite(s): COMM 1130.

COMM 3400 - Introduction to Public Relations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Philosophy and practice of public relations in business, government, education and non profit organizations. Case studies will be selected from a wide range of actual public relations concerns to foster decision-making skills and a mature understanding of public relations management.

Pre-requisite(s): COMM 1130 or COMM 1140.

COMM 3440 - Public Relations Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Explores principles and practices of a variety of public relations writing formats ranging from news releases to websites.

Pre-requisite(s): COMM 3400 or permission of instructor.

COMM 3460 - Public Relations and Social Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

This course will combine theory and practice in teaching the principles of the new "Social Media" or "PR 2.0." Students will learn how new web technologies have expanded the practice of Public Relations beyond the traditional arena and into the fast-moving and dynamic world of public communication on the web. They will learn how to communicate with the news media and directly with the public. The course will prepare them to use the newest technology and practices effectively as they represent their companies and their clients.

COMM 3550 - Organizational Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Study of communication in organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3650 - Communication Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

First Amendment origins, interpretations and philosophy underlying regulation of the mass media.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3730 - Media Programming and Audiences

Credits: (3)

This course focuses on principles, strategies and approaches for creating and scheduling content for radio, television and the World Wide Web. The course also provides an analytical framework for understanding industry trends in media programming, and how those trends are influenced by audience research. Students create and schedule programs, apply programming strategies and philosophies, and learn relevant terminology and audience measurement techniques.

Pre-requisite(s): Permission of instructor.

Note: Check with Department for course availability.

COMM 3740 - Writing for Screen and Television

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Specialized concepts and techniques required to write effectively for film, television, and other new media technologies.

Pre-requisite(s): COMM 1130.

COMM 3751 - Narrative Digital Filmmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

On-location video production and performance. Skills include screenwriting, directing, producing, use of field cameras and post-production.

Pre-requisite(s): COMM 2250.

COMM 3780 - Broadcast News Writing and Production

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Classroom instruction and practical experience in writing, reporting, performing, producing, and editing for television news. Students will produce newscasts for a local cable channel.

Pre-requisite(s): COMM 1130 and COMM 2250, or permission of instructor.

COMM 3820 - Persuasive Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, public relations, advertising, politics, and other contexts.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3850 - Advertising

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3890 INT - Advanced Cooperative Work Experience with Signpost

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students who are Signpost editors and managers.

Pre-requisite(s): COMM 1130 or permission of instructor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3891 INT - Advanced Cooperative Work Experience with KWCR

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students who are KWCR senior staff.

Pre-requisite(s): COMM 2730 or permission of instructor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890,

COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

COMM3892 Advanced Cooperative Work Experience with Public Relations is a nontraditional, CEL-designated course that functions as Ogden Peak Communications, Weber State's student-run public relations firm. Modeling the leadership and management roles of a real-world firm, students provide public relations services to community and campus partners.

Pre-requisite(s): COMM 3400 and permission of instructor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students who are members of Weber State News' crew or staff and/or crew members of other student produced television programs.

Pre-requisite(s): COMM 2250 or permission of instructor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 4130 - In-depth and Investigative Journalism

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Emphasizes finding and writing news stories that move from explanations of what happened to how and why something happened. Examines research techniques and discusses ways to use the law to access information.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 4150 - Rhetorical Theory and Criticism

Credits: (3)

Studies the origins of rhetorical theory in Greece and Rome in the works of Corax, Isocrates, Plato, Protagoras, Aristotle, Cicero and Quintilian. Tensions between rhetoric and philosophy. Study and application of neo-classical standards of rhetorical criticism.

Pre-requisite(s): COMM 3820.

Note: Check with Department for course availability.

COMM 4160 - Contemporary Rhetorical and Communication Theories

Credits: (3)

Study of contemporary rhetorical and communication theories.

Pre-requisite(s): COMM 3000 and COMM 4150 or permission of instructor.

Note: Check with Department for course availability.

COMM 4210 INT - Intercollegiate Debate

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation and competition on the national debate resolutions and participation in individual events.

Pre-requisite(s): COMM 2270 or permission of instructor.

Number of Times this Course May Be Repeated: May be repeated 7 times up to 8 credit hours. However, only 6 credits may be used toward the Communication major.

COMM 4220 INT - Advanced Intercollegiate Speech

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking. This is designed as an advanced course for students in their third or fourth years participating in intercollegiate speech.

Number of Times this Course May Be Repeated: Up to 10 times for credit.

COMM 4400 INT - Public Relations Media and Campaigns

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Apply communication principles to internal and external publics; research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public relations campaign for a selected client.

Pre-requisite(s): COMM 3150 and COMM 3440, or permission of instructor.

COMM 4440 - Developing and Evaluating Health Communication Campaigns

Credits: (3)

This course prepares students to understand the planning, implementation, and refinement of communication campaigns that affect individual and group level behavior changes in relation to health care issues. It will thus address public health problems. Throughout the semester, students study, practice, and apply the various stages of a health communication campaign based on real world conditions. The course content will draw from health behavior theory; formative (including pretesting), process, impact, and outcome research; and expert opinion.

Pre-requisite(s): COMM 3400 or permission of instructor.

Note: Check with Department for course availability.

COMM 4500 - Topics in Communication

Credits: (3)

Variable Title

The study and application of Communication in contemporary society is dynamic and ever changing. This course will provide

students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format.

Pre-requisite(s): COMM 3000 or permission of instructor.

Number of Times this Course May Be Repeated: May be taken 2 times up to 6 credit hours with different designations.

Note: Course is offered as needed.

COMM 4740 - Advanced Writing for Screen and Television

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This class is a workshop for students who have a screenplay in progress (Act 1 Complete) and ready to workshop pages and complete Act 2 and Act 3 (90 to 110 pages). Students will develop the ability to analyze the various elements of a feature film, including concept, character arc, dialogue, and plot devices such as suspense, surprise, dramatic irony, planting and payoff.

Pre-requisite(s): COMM 3740.

COMM 4750 - Advanced Cinematography and Editing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Capstone course for audio and video production. Emphasis is placed on combining production types to produce longer and more complex programs.

Pre-requisite(s): COMM 2250.

COMM 4751 - Advanced Narrative Digital Filmmaking

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This class is designed to teach advanced concepts, theories and skills in digital narrative film production. Students develop these skills through group production, individual performance, and repetition of production tasks and procedures from pre-production, production, to post-production.

Pre-requisite(s): COMM 3751.

COMM 4760 - Media Management and Distribution

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Analysis of complex systems necessary to manage media companies. Students will develop a website and a distribution plan for a new media company.

Pre-requisite(s): COMM 1500 or permission of instructor.

COMM 4770 - Digital Documentary Filmmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will provide an introduction to the fundamental theory and craft of non-fictional visual storytelling and familiarize students with concepts such as drama, structure, story development and visual style. Throughout the semester, students will screen and analyze various filmmaking techniques used by documentary filmmakers. Students will develop and create a short documentary from conceptualization through post production.

Pre-requisite(s): COMM 2250.

COMM 4800 - Special Study and Individual Projects

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Work with an assigned faculty member on a project of special interest.

Pre-requisite(s): COMM 3000 and permission of instructor.

Number of Times this Course May Be Repeated: May be taken 3 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

COMM 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School

Credits: (3)

Prepares students to be teachers of journalism and advisors of student media in secondary schools. Designed to confront problems involved in organizing a staff, gathering material and publishing a newspaper, yearbook and literary magazine.

Pre-requisite(s): COMM 3000 or permission of instructor.

Note: This course is offered through Independent Study only.

COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Methods and techniques for teaching speech communication in secondary schools. Techniques and practices for coaching and supervising high school speech activities such as individual events, legislative forum, and debate.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 4860 - Communication Co-curricular Leadership

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to teach leadership and management skills to students who have taken on leadership roles within the Communication Department co-curriculars: WSU Debate, The Signpost, KWCR, Studio 76 and Ogden Peak Communications. With instructor permission, student leaders take this class in lieu of the co-curricular course during the semester of enrollment and are expected to fulfill their co-curricular responsibilities as well as participate in monthly leadership seminars and one-on-one mentoring sessions with their advisers.

Pre-requisite(s): Permission of instructor AND COMM 3890, COMM 3891, COMM 3892, COMM 3893 OR COMM 2210.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

COMM 4890 INT - Communication Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain communication areas of emphasis.

Pre-requisite(s): COMM 1130 or COMM 1140 and COMM 3000.

Number of Times this Course May Be Repeated: May be repeated for 5 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

Note: *Credit/No credit only.*

COMM 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: Course is offered as needed.

COMM 4990 - Senior Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

A capstone course that prepares students to do a senior project and a portfolio to be used in job interviews or application to graduate school.

Pre-requisite(s): Communication major, COMM 3000 and COMM 3150.

Computer Science

CS 1010 CA - Introduction to Interactive Entertainment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

This course examines and analyzes the history, philosophy, and impact of digital entertainment (video and computer games along with simulations) on an individual and society. Students take a critical look at the artistic, but also the cultural, economic and social aspects of this expressive medium. Students imagine and articulate their own ideas and work through a series of projects helping them understand the creative challenges behind interactive entertainment design. Implications of certain values embedded in games will be discussed. Elements of the ethical code of conduct for a game creator will be formulated. The issue of balancing individual creativity vs. socio-cultural impact will also be discussed. Students will be required to play video games outside of the regularly scheduled class times. A lab fee is required for this class.

CS 1022 - Software Development

Credits: (4)

Application of the most recent implementation of a selected programming language to the solution of technical and scientific problems.

Pre-requisite(s): CS 1030 and basic skills in Algebra.

CS 1023 - Selected Programming Language

Credits: (4)

Introduction and application of the most recent implementation of a selected programming language to the solution of technical and scientific problems. The language for a particular instance of this course will be based upon demand.

Pre-requisite(s): CS 1030 and basic skills in Algebra.

CS 1030 - Foundations of Computing

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Computers are an essential part of every occupation. Having a basic understanding of computers will help students become more confident users. This course is taught at an introductory level and presents a broad overview of topics in computing such as personal digital security, ethical behaviors in education and business, how computers work and communicate with one another, how data is stored and used in a computer, and how to create a website and write a computer program.

CS 1400 - Programming I

Credits: (4)

Variable Title

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Most technology, such as airplanes, laptops, smartphones, and appliances, depends on computer programming to function. This course introduces students to computer programming using a modern programming language. Designed for students with little or no programming experience, it covers topics including logical problem solving, basic input/output, conditionals, loops, functions, arrays, classes, utilizing language libraries, development environments, and program debugging. Students will gain a basic understanding of how to create software for all computing environments.

Pre-requisite/Co-requisite: CS 1030 or NET 1300.

CS 1410 - Object-Oriented Programming

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

An introduction to the C++ language. Topics will include data types, control structures, functions, pointers, arrays, I/O streams, classes, objects, encapsulation, overloading, inheritance and use of these concepts in problem solving.

Pre-requisite(s): CS 1400 or CS 2250 and ENGL 1010 or ENGL 2010.

CS 2130 - Computational Structures

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, Online*

An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include sets, functions, logic, matrices, relations, graphs, trees, regular expressions, grammars, finite state machines, and data encoding.

Pre-requisite(s): CS 1400.

CS 2140 - Computer Systems Administration

Credits: (4)

An introduction to managing computer operating systems. Covers installation of the operating system, network, and application software. The course will cover the UNIX operating system. Topics include working with disk drives, allocation of resources, security, administering user accounts, monitoring system performance, tuning concepts, remote mounting of file systems, and setting up systems on networks.

Pre-requisite(s): CS 1400.

Note: Course not currently being offered.

CS 2250 - Structured Computing in a Selected Language

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Introduction to structured problem solving using objects, data enumeration and encapsulation in a selected language. The language for a particular instance of this course will be based upon demand.

Pre-requisite(s): Basic skills in fundamental Algebra.

CS 2335 - Introduction to User Experience Design for Web & Mobile

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is designed to introduce students to the elements of user experience design for the web and mobile. The following topics will be covered: history of user experience, user centric design, agile development, user interface best practices for web and mobile applications, and analytics. Using current technologies and tools, students will create a basic web or mobile application.

CS 2350 - Client Side Web Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, JavaScript client-side programming, and an introduction to a JavaScript framework.

Pre-requisite(s): CS 1400.

CS 2400 - Project Management

Credits: (3)

Strategies and techniques for managing a project from inception to completion to meet all schedule, cost, and technical objectives. Knowledge and skills learned in this course prepare students to perform successfully the role of a project manager in any construction, engineering, health, information technology, business, or research and development project, although emphasis will be on project management applied to Software Engineering. Topics include organizational structures, project planning and evaluation, cost estimating, quantitative methods in schedule and cost

management, project information systems, communication skills, and conflict resolution.

CS 2420 - Introduction to Data Structures and Algorithms

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Typically Taught Summer Semester: *Full Sem, Full Sem-Online*

General principles of common data structures and design of efficient algorithms. Topics include: arrays, linked-lists, stacks, queues, trees, graphs, tables, storage and retrieval structures, searching, sorting, hashing, and algorithmic analysis. Emphasis will be on abstraction, efficiency, re-usable code, and object-oriented implementation.

Pre-requisite(s): CS 1410.

Pre-requisite/Co-requisite: MATH 1080 or MATH 1050 and MATH 1060.

CS 2450 - Software Engineering I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

An Object Oriented Analysis and Design course which provides practical guidance on the construction of object-oriented systems. Its specific goals are to provide a sound understanding of the fundamental concepts of the Software Development Life-Cycle, to teach quality design and development style through applications of object-oriented project development within a variety of problem domains, and provide coverage of current Software Engineering models and diagramming techniques.

Pre-requisite(s): CS 1410.

CS 2550 - Introduction to Database Design and SQL

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

This course is an introduction to databases, specifically focusing on the relational database model, database design and modeling and the structured query language (SQL). Students will become proficient at formulating data query requests using SQL and will also gain experience in database normalization and entity-relationship modeling.

Pre-requisite(s): CS 1030 or NET 1300.

CS 2630 - Client Side Frameworks

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

An introduction to current technologies of modern responsive web design techniques, combining CSS3 and Bootstrap with the popular Angular.js, jQuery and jQuery Mobile utility frameworks, to create rich web sites that adapt to a wide range of client devices. Cross listed with WEB 2630.

Pre-requisite(s): CS 2350.

CS 2705 - Network Fundamentals and Design

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Provide an understanding of the basic networking terminology. This will cover the theory of networking, types of network protocols, and

wide and local area networks. The student should have a good understanding of network terminology at the completion of the course.

Pre-requisite(s): CS 1030 and CS 1400.

CS 2780 - Windows Application Programming

Credits: (4)

This course provides participants with a working knowledge of the Windows Operating System. The students will develop applications to run under Windows, using the C/C++ languages. Concepts of Memory Management, DLLs, Resources, and Child Window development will be emphasized. The course also introduces the student to the use of OLE controls and MFC architecture.

Pre-requisite(s): CS 1410 and basic algebra skills.

Note: Course not currently being offered.

CS 2800 - Individual Projects & Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

Pre-requisite(s): CS 1410.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 6 credits.

Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 2810 - Computer Architecture/Organization

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Typically Taught Summer Semester: *Full Sem-Online*

Computers are essential to modern life, yet most people use them with no understanding of how they accomplish everything they do. This course will explore how computers function from a technical perspective, allowing students to see why they work and are designed the way they are. The course will focus on Von Neumann computers, covering a variety of topics including logic gates, basic digital circuit concepts, number and data representation, the processor implementation, BIOS, buses, interrupts, addressing, memory management, and storage. The practical implementation of this knowledge will be examined by introducing assembly language code.

Pre-requisite(s): CS 1410 or (CS 1400 and NET 2210).

CS 2890 INT - Cooperative Work Experience

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

Pre-requisite(s): CS 1410.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 6 credits.

Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 2899 - Associate Degree Assessment

Credits: (0)

This course is to serve as an assessment tool whereby all AAS degree seeking students in the Department of Computer Science demonstrate core knowledge acquired from course studies in the discipline as specified in the AAS degree program.

Number of Times this Course May Be Repeated: May be repeated 11 times.

CS 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credits.

CS 3030 - Scripting Languages

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course addresses the design of scripting languages and their applications. Scripting languages can be used to manipulate text and data using subtle and complex coding to automate many tasks. Students will learn to write simple scripts to automate system administration tasks using appropriate languages. This course explores the nature of scripting, the role of scripting languages, introduces some of the popular scripting languages and their applications, and provides skills in scripting language design.

Pre-requisite(s): CS 1400 and CS 2705 or CS 1400 and NET 2210.

CS 3040 - Windows/Unix/Linux Infrastructure and Administration

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is the second course for understanding Windows operating systems and the first in the Unix/Linux operating system. It includes administration in a client/server directory services environment. Taught in a networking setting, it builds upon complex issues learned in previous courses. Provides the knowledge and skills necessary to install, configure, network and administer both operating systems.

Pre-requisite(s): CS 2705.

CS 3050 - Enterprise Computing

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course provides an integrated view of using enterprise computing systems. An overview on enterprise hardware concepts, enterprise operating systems concepts, and interactive facilities is covered. Batch applications will be developed, edited, compiled, linked, executed and debugged in enterprise operating systems environments. An introduction to emerging technologies in enterprise computing will be presented. Access to the latest enterprise systems, hands-on exercises, and online support materials are important components of this course.

Pre-requisite(s): CS 2420 and CS 2810.

CS 3100 - Operating Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An overview of computer operating system from the programmer's point of view. Input-output hardware, interrupt handling, properties of external storage devices, associative memories and virtual address translation techniques, optimizing programs for performance, concurrent programming with threads, and network programming.

Pre-requisite(s): CS 2420 and CS 2810.

CS 3210 - UNIX System Programming and Internals

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course provides hands-on experience with writing programs using UNIX system calls and inter-process Communication mechanisms, from simple file I/O and I/O management subsystems to network client and server programs. The internal design and operation of the UNIX operating systems are studied. A detailed examination of the UNIX SVR4 source code will be included in the course.

Pre-requisite(s): CS 2420.

CS 3230 - Object Oriented User Interface Development with Java

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An intermediate programming course that covers the "core" features of the Java programming language with the goal of preparing students to focus on specialized uses of Java. Topics include object-oriented programming and polymorphism, graphics, event handling, building graphical user interfaces with Swing, multithreading and synchronization, and error handling.

Pre-requisite(s): CS 2420.

CS 3250 - Advanced Object Oriented Programming

Credits: (4)

Develop and expand abilities in solving lengthy, advanced problems, multiple parallel tasks, generic packages, and other object-oriented techniques using selected languages.

Pre-requisite(s): CS 2420.

CS 3260 - Mobile Development for the iPhone

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introduction to developing applications for mobile iOS devices (iPhone, iPod Touch and iPad) using the iPhone SDK, in conjunction with the Xcode/Cocoa development environment. Students will learn the basics of the Objective-C programming language and use it to develop applications for the iPhone family of devices. Students will also gain experience in working in a team environment.

Pre-requisite(s): CS 1410, CS 2350 and CS 2550.

CS 3270 - Mobile Development for Android

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

Introduction to developing applications for Android mobile devices. Students will use the Eclipse IDE in conjunction with the Android SDK. Students will gain advanced experience in Java and XML as they develop mobile applications both individually and as members of a development team.

Pre-requisite(s): CS 2350, CS 2550 and CS 3230.

CS 3280 - Object Oriented Windows Application Development

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to teach students how to write Windows programs in C# using the .NET environment. The student will learn how to develop programs based on Windows Applications and the .NET Framework. They will also be introduced to APIs and MFC/AFX styles of Windows programming and to become familiar with various data sharing methods and .NET services.

Pre-requisite(s): CS 2420.

CS 3540 - Database Administration

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course describes the role of the Database Administrator in managing an organization's most valuable asset - its data. Topics covered include DBMS architecture, database layout, database development, data fragmentation, rollback segments, database tuning, database security, backup and recovery, database networking, and distributed databases. Special emphasis is given to working with current database management systems such as Oracle, SQL Server and DB2.

Pre-requisite(s): CS 2550.

CS 3550 - Advanced Database Programming

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students will build upon the basic database knowledge and skills gained in the introductory database course. Advanced database knowledge will be gained through the design and implementation of an enterprise-level database. Students will perform database programming techniques such as stored procedures, user-defined functions, cursors, triggers, and distributed queries. Various database paradigms will be used in the course including RDBMS and NoSQL.

Pre-requisite(s): CS 2550 and CS 1410.

CS 3580 - Data Science Algorithms

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

Pre-requisite(s): ((CS 1400 and CS 2550) or CS 2420) and (MATH 1040 or MATH 3410 or QUAN 2600) and (at least 60 hours of completed credits).

CS 3610 - Introduction to Game Industry

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

This is course is an introduction to the game industry and the skills

and best practices needed in order to become a game developer. The course will evaluate different gaming hardware, genre, skills, tools, and roles. Students will also understand the elements in creating a game including the game design document, story line, vision, virtual worlds, playfields, and the mathematics and physics that are involved with game development.

Pre-requisite(s): CS 1400.

CS 3620 - Server-Side Web Architecture

Credits: (4)

An introduction to server-side Web development using the most current Web server technologies. General Web development principles such as usability, reliability, maintainability and scalability will be applied to current Web development environments such as ASP.NET, PHP, Python, Ruby and Java. Students will gain real-world experience in creating Websites for multiple Web platforms.

Pre-requisite(s): CS 2350 and CS 2550.

CS 3630 - Rich Internet Application Development

Credits: (4)

An introduction to developing and deploying rich Internet applications (RIAs) using current technologies. Students will develop engaging websites by incorporating RIAs in the web application development process.

Pre-requisite(s): CS 2350 and CS 2550.

CS 3645 - Advanced User Interface Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will learn the elements of user interface design as it applies to front-end web development and software engineering. Students will identify best practices in user interface design. The following topics will be covered: wire-framing, color palettes, typography, information architecture, contrast, uniformity, and responsive design techniques. Using current technologies and tools, students will wireframe, design, and program effective interfaces.

Pre-requisite(s): WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission of instructor.

CS 3650 - Human-Computer Interaction

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices. Cross-listed with WEB 3650.

Pre-requisite(s): CS 2420, CS 2450 or WEB 3500.

CS 3705 - Protocol Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course provides an in depth look at the fundamentals of what protocols do and how they work, how addresses and routing are used to move data through the network, and how information is exchanged over the Internet. In depth analysis of network traffic packets will include normal traffic as well as protocol attack patterns. Topics include: DNS, Apache, email, Samba, PPP, DHCP, TCP, IP, and UDP troubleshooting, and security.

Pre-requisite(s): CS 2705 or NET 2435.

CS 3720 - Network Architectures and Protocols

Credits: (4)

A practical applications course designed to teach the basic concepts associated with local and wide area networks and protocols. The course will concentrate on the TCP/IP and other protocols in the UNIX and Windows NT environments. Covers TCP/IP extensively, NFS, Sockets, RPC and TLI interfaces. The course also covers the use of Domain Name Servers, remote system calls, ports, services, configuration, IP addressing, and UNIX and Windows NT monitoring commands.

Pre-requisite(s): CS 3705.

Note: Course not currently being offered.

CS 3730 - Client/Server Network Programming

Credits: (4)

Covers client/server architecture and application development using TCP/IP and other protocols. The course covers client/server operations on a single machine and across an Ethernet network to multiple machines. The course will also cover distributed processing concepts and applications. Applications include the use of STREAMS, Sockets, TLI, network listener facility, drivers, RPC, and ONC. The course will concentrate mainly on UNIX but will cover some concepts and applications using Windows NT.

Pre-requisite(s): CS 2705 and CS 3210.

Note: Course not currently being offered.

CS 3750 - Software Engineering II

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(Community Engaged Learning Designation) This course emphasizes teamwork in small groups on a substantial software engineering project that will be performed for a real customer in the community. It is the intent of the course to provide a capstone experience that integrates the material contained in the CS curriculum through work on a software project that applies this material. Projects are chosen so as to provide an interdisciplinary service learning component with project proposals being solicited from the community at large. Projects that integrate students and faculty from other disciplines are also encouraged. Lectures will be directed towards the software development lifecycle, requirements gathering and design documentation, as well as software project management. Each team member will contribute to all phases of the project as well as the development of a project prototype.

Pre-requisite(s): CS 2350, CS 2450, CS 2899, CS 3550, CS 3230 or CS 3280, and ENGL 3100 or ENGL 2250 or PHIL 1250 or PS 3250.

CS 3805 - Computer and Network Security

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide students with a solid foundation in network security including a treatment of security issues related to computers and computer networking. The primary emphasis is on developing security policies, security auditing, security models and laws related to security.

Pre-requisite(s): CS 2705 and CS 2420.

CS 3810 - Digital Design Theatre

Credits: (3)

Experimental Course, Contact Department for More Information

This course emphasizes close collaboration among students in Theatre Arts and students in the School of Computing. Software and hardware commonly used in current digital theatre design will be explored. Students will be given an introduction to the "tools" of the trade in a studio setting as they advance through a series of exercises, as well as independent and team projects focusing on both artistic design and software engineering. The course will culminate in a selection of short realized multimedia performance projects with guest student actors. Members of each discipline will be immersed in the problem solving approaches and thinking patterns of peers from a different field, which more accurately represents the experiences of working individuals within their chosen careers. Prerequisite: Instructor Permission

CS 3810 - Experimental Courses

Credits: (1-6)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated 5 times with a maximum of 6 credit hours. Refer to Experimental Courses.

CS 3810 - Programming Voice Activated Devices

Credits: (4)

Experimental Course, Contact Department for More Information

Introduction to developing applications for voice-activated devices. Students will learn how to program a voice-activated device such as the Amazon Alexa or Amazon Dot. Students will use the Amazon Alexa Skills Kit which is a collection of Application Programming Interface (API), tools to develop Alexa Skills to perform functions. Students will gain experience learning how to program voice activated applications.

CS 3830 - Writing Secure Code

Credits: (4)

This course focuses on how to develop software systems that are robust and can withstand repeated attacks from malicious intruders. The course coverage includes the need for secure systems, basic security principles and strategies, designing secure applications, secure coding techniques, dangerous APIs, data input issues, network security problems, testing secure applications, security code reviews, secure software installation, and writing security documentation.

Pre-requisite(s): CS 2420.

CS 3840 - Computer Forensics for Security Assurance

Credits: (4)

Typically Taught Fall Semester: Full Sem

This course is a foundational course in file system analysis, digital forensics and computer media analysis. A combination of lectures and labs will give students a strong understanding of low-level file system knowledge to prepare them for involvement in digital forensic analysis, data recovery and other related tasks. Students will examine widely used file systems such as Windows NTFS and FAT32, UFS, EXT2 and UFS2. Students will also become familiar with software tools used in computer forensic work.

Pre-requisite(s): CS 2420.

CS 4110 - Concepts of Formal Languages and Algorithms for Computing

Credits: (4)

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Concepts of formal language definition, automata theory, Turing theory, and solvability, with an introduction of algorithms and computational methods used in advanced computer science courses.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4230 - Java Application Development

Credits: (4)

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

This course is a continuation of CS 3230 and examines the development of Java applications intended for an enterprise environment. The course is programming intensive and concentrates on designing and implementing multi-tier and Web applications based on the Java Enterprise Edition (Java EE) specification. Topics include JavaBeans, Java Database Connectivity, client/server interactions, servlets, session tracking, JavaServer Pages, JavaServer Faces, Struts, the Model-View-Controller approach, remote method invocation, Enterprise JavaBeans, and application servers. Lab exercises will emphasize how Java Enterprise programming supports the operation of robust, distributed object architectures.

Pre-requisite(s): CS 3230, CS 3750.

CS 4250 - Design Patterns

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Introduction to fundamental principles of software development using design patterns, including structural design patterns, behavioral design patterns, SOLID principles, and agile approach; Understand and program the basic concepts and techniques for building software in an adaptive way, including dependencies and layering, interfaces, unit testing, and refactoring.

Pre-requisite(s): CS 3230 or CS 3280.

CS 4280 - Computer Graphics

Credits: (4)

This course introduces and investigates the mathematical and programming basis for generating pictures and images using a computer. Fields impacted by visual rendering technologies include filmmaking, publishing, banking, engineering, and education. Students are introduced to the theory and practice of computer graphics, with an emphasis on designing and developing working applications using currently available graphics libraries. The course focuses on strategies for rendering geometric data (points, lines, and polygons), and the analysis of the processing stages and components of the graphics pipeline, including transformations, viewing volumes, and projections. Programming and mathematical techniques related to modeling, viewing, coordinate frames, and perspective will be primary topics for discussion and code development. The course covers the key processing steps and structures needed to appropriately map 3D geometric primitives to 2D screen positions while maintaining a realistic look, which involves hidden surface removal, proper lighting, and simulated material properties.

Pre-requisite(s): CS 2420.

CS 4350 - Advanced Internet Programming

Credits: (4)

Typically Taught Spring Semester: Full Sem

Capstone client/server web programming group project implemented using an advanced web framework (such as PHP (Laravel, Zend,

Cake PHP) or Django, or Ruby on Rails). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing.

Pre-requisite(s): WEB 3620 or CS 3620.

CS 4450 - Advanced Software Engineering Methods

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course provides a capstone project experience for students interested in software engineering. While previous courses in the Computer Science curriculum provide students with the knowledge and skills necessary to begin a career as a software engineer, the end-to-end design and implementation experience offered in this course, done as part of a team, and addressing an open ended problem (as well as an open ended solution), comes much closer to the experience that software engineering professionals encounter in the workplace. The emphasis on documentation and presentation of designs and results is also valuable career preparation, and forces students to take ownership of their designs and systems as they present them to others.

Pre-requisite(s): CS 3750.

CS 4500 - Introduction to Artificial Intelligence

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course covers basic artificial intelligence principles from the perspective of implementing intelligent agents through software. Students will write intelligent software agents to solve a variety of problems from different application domains. Topics include search, search heuristics, adversarial search, constraint satisfaction problems, knowledge and reasoning, planning, and knowledge representation.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4640 - Foundations of Game Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course introduces students to 2D game development using a programming language, scripting, and a gaming engine. The work includes team work project, graphical programming, GUI, and all other aspects of creating a game program associated with a game design document.

Pre-requisite(s): CS 1010 and CS 3280.

CS 4650 - Advanced Game Development

Credits: (4)

Senior project Game Development II course focuses on 3D game programming in a team work project environment using a game engine. At conclusion student should be able to add the resulting program into their game portfolio.

Pre-requisite(s): CS 4640, CS 3750.

CS 4730 - Applied Cryptography

Credits: (4)

This course provides an introduction to the principles of number theory and how they are applied to cryptographic algorithms. Different topics that will be examined are: several classic ciphers, modern cryptographic methods, symmetric encryption, public key cryptography, hash functions, key management, digital signatures,

certificates, electronic mail security, steganography, and recent developments affecting security and privacy on the Internet. The focus will be on how cryptography and their application can maintain privacy and security in computer networks.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4790 - .NET Web Application Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In this course, students will work together as a team to develop advanced ASP.NET MVC applications using the latest .NET CORE Framework tools and technologies. The focus will be on coding activities that enhance the performance and scalability of a web application in a small to medium-sized development environment. Students will create websites that separate the user interface, data access, and application logic.

Pre-requisite(s): CS 3750.

CS 4800 - Individual Projects and Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

Pre-requisite(s): CS 2420.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4820 - Compiler Design

Credits: (4)

A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420, CS 4110.

CS 4830 - Advanced Topics in Computer Science

Credits: (1-4)

Variable Title

Typically Taught Spring Semester: *Full Sem*

Advanced topics which are demanded by industry, are currently popular in this rapidly changing field, or which meet special needs of students in Computer Science will be offered. Individualized material will be taught on a one time basis as needed. Time and credit to be arranged.

Pre-requisite(s): Consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 8 credit hours.

CS 4850 - Faculty Directed Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: Full Sem

The purpose of this course is to permit Computer Science majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Computer Science. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed.

Pre-requisite(s): CS 2420.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850 and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4890 INT - Cooperative Work Experience

Credits: (1-4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

Pre-requisite(s): CS 2420.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status

CS 4899 - Bachelor's Degree Assessment

Credits: (0)

This course is to serve as an assessment tool whereby all BS/BA degree seeking students in the Computer Science Department demonstrate their learned knowledge in at least three areas of computer science. At present, this knowledge will be demonstrated through the use of Chi Tester exams administered through the Campus Testing Center. The course is taken during the last term prior to receiving the BS/BA degree.

Pre-requisite/Co-requisite: Prereq/Coreq: Successful completion of requirements for the Bachelor's Degree.

CS 4920 - Short Courses, Workshops, Institutes and Special Projects

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

CS 5100 - Distributed Operating Systems

Credits: (3)

Typically Taught Fall Semester: Full Sem

Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and

middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.

Pre-requisite(s): CS 3100.

CS 5420 - Advanced Algorithms

Credits: (3)

Typically Taught Spring Semester: Full Sem

Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.

Pre-requisite(s): CS 2420.

CS 5450 - Software Evolution and Maintenance

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

Pre-requisite(s): CS 3100.

CS 5500 - Advanced Artificial Intelligence

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 5580 - Advanced Data Science Algorithms and Visualization

Credits: (3)

Typically Taught Fall Semester: Full Sem

Data Science affects modern life in many ways from search engines and recommendation engines to e-commerce and the stock exchange. This course builds on the undergraduate Data Science Algorithms course concepts and introduces the student to advanced methodologies in applied machine learning, data mining, visualization concepts, feature engineering, and modern topics, such as Big Data. The goal of this course is to prepare professionals for practical hands-on experiences for the modern Data Science workplace with visualization as a significant part of the course.

Pre-requisite(s): CS 3580.

CS 5600 - Machine Learning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

Pre-requisite(s): CS 2420.

CS 5610 - Computer Architecture

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

Pre-requisite(s): CS 2810.

CS 5740 - Computer Systems Security

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

Pre-requisite(s): CS 2420 and CS 3100.

CS 5820 - Compiler Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420 and CS 2130.

CS 5840 - Formal System Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 5850 - Parallel Programming and Architecture

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on

hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

Pre-requisite(s): CS 3100.

CS 6010 - Design Project

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students are required to complete a substantial computer science project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6010 at the time of their final design review.

Number of Times this Course May Be Repeated: May be taken up to 10 times for credit.

CS 6011 - Thesis Research

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students are required to complete original computer science research resulting in a thesis. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6011 at the time of their final thesis defense.

Number of Times this Course May Be Repeated: May be taken up to 10 times for credit.

CS 6100 - Distributed Operating Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications. Prerequisite: CS 3100.

CS 6420 - Advanced Algorithms

Credits: (3)

Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.

Pre-requisite(s): CS 2420.

CS 6450 - Software Evolution and Maintenance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing

undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

Pre-requisite(s): CS 3100.

CS 6500 - Advanced Artificial Intelligence

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.

Pre-requisite(s): CS 3100.

CS 6580 - Advanced Data Science Algorithms and Visualization

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Data Science affects modern life in many ways from search engines and recommendation engines to e-commerce and the stock exchange. This course builds on the undergraduate Data Science Algorithms course concepts and introduces the student to advanced methodologies in applied machine learning, data mining, visualization concepts, feature engineering, and modern topics, such as Big Data. The goal of this course is to prepare professionals for practical hands-on experiences for the modern Data Science workplace with visualization as a significant part of the course. CS 3580 (Data Science Algorithms) or a similar course is not required but will be immensely helpful prior to taking this course.

Pre-requisite(s): CS 3100 or CS 3580.

CS 6600 - Machine Learning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

Pre-requisite(s): CS 3100.

CS 6610 - Computer Architecture

Credits: (3)

Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

Pre-requisite(s): CS 2810.

CS 6740 - Computer Systems Security

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

Pre-requisite(s): CS 2420 and CS 3100.

CS 6820 - Compiler Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420. Recommended Prerequisite: CS 4110.

CS 6830 - Special Topics in Computer Science

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

Pre-requisite(s): Instructor permission.

Number of Times this Course May Be Repeated: May be taken twice up to 6 credits.

CS 6840 - Formal System Design

Credits: (3)

Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 6850 - Parallel Programming and Architecture

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python). Prerequisite: CS 3100.

Construction Management Technology

CMT 1100 - Construction Management Orientation

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course introduces students to careers in the construction industry and is designed to help students develop a clear focus on their educational and occupational goals.

CMT 1150 - Construction Graphics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers graphical communications as they relate to the architectural, engineering, and construction industry. Includes print reading, interpretation of graphical symbols and line types, and understanding of construction terminology.

CMT 1210 - Residential Construction Materials and Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides students with knowledge of residential building techniques and materials. The course will examine common construction materials, components, and systems as related to wood frame structures, including sustainable materials. The residential construction process will be analyzed from site planning to finish construction.

CMT 1220 - Construction Contracts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers the interpretation of contract documents used in the various construction delivery methods. Includes contracts, bidding documents, bonding and insurance, conditions of the contract, general requirements, and technical specifications.

CMT 1310 - Materials & Methods

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course covers the materials and construction methods used in buildings. Emphasis is placed on sustainable construction practices.

CMT 1330 - Civil Materials

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

CMT 1500 - Computer Applications in Construction

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Computer applications used in the construction field will be examined. Various software packages will be introduced and studied specifically to their application in the construction industry.

Pre-requisite(s): WEB 1700.

CMT 1550 - Construction Safety

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers the Occupational Safety and Health Act (OSHA)

and jobsite safety procedures and practices. Emphasis will be placed on ethics as it relates to safety.

CMT 2210 - Construction Jobsite Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers the skills necessary to manage construction projects successfully. Emphasis is placed on construction communications and documentation.

Pre-requisite(s): CMT 1100 and CMT 1220.

CMT 2260 - MEP

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course is designed to provide a basic knowledge of mechanical, electrical, and plumbing (MEP) systems used in commercial buildings. Emphasis is placed on sustainable MEP systems and analyzing life-cycle costs.

Pre-requisite(s): MATH 1010 or QL.

CMT 2340 - Civil Design and Layout

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide a basic knowledge of road, utility, and site design. Emphasis is placed on determining grades and surveying operations necessary for layout of civil designs, including establishing locations and elevations.

Pre-requisite(s): MATH 1010 or QL.

CMT 2360 - Commercial Design and Codes

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course is designed to provide a basic knowledge of processes used to design commercial buildings. Includes the use of building information modeling (BIM) in the design process for preparing drawings and coordinating the design of the different building trades. Emphasis is placed on how zoning regulation, building codes, and sustainability are integrated into the design.

Pre-requisite(s): MATH 1010 or QL, CMT 1150, and CMT 1310.

CMT 2410 - LEED-GA Preparation

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This course will help prepare students to take the LEED-GA exam.

CMT 2640 - Quantity Survey

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers the processes and methods used to develop a quantity takeoff (list of required materials) for commercial construction projects. Emphasis is placed on using spreadsheets to prepare the quantity takeoff.

Pre-requisite(s): MATH 1010 or QL, CMT 1150, and CMT 1310.

CMT 2880 - Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. Ethics as it relates to construction management will be discussed.

CMT 2899 - AAS Graduation Assessment and Signoff

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with an AAS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

CMT 2990 - Construction Management Seminar

Credits: (0.5)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

This course is designed to give students the opportunity to interact with professionals from the architecture, engineering, and construction industries and to learn of emerging trends within these industries.

Number of Times this Course May Be Repeated: Students may repeat this course three times and up to 2 credits.

CMT 3115 - Construction Cost Estimating

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers the processes and methods for preparing estimates and bids for construction projects. Emphasis is placed on the use of computers in preparing estimates. Ethics as it relates to bidding will be discussed.

Pre-requisite(s): CMT 2640.

CMT 3130 - Construction Planning & Scheduling

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers the processes and methods of planning and scheduling of construction projects. Emphasis is placed on the use of computers in the planning and scheduling process.

Pre-requisite(s): CMT 2640.

CMT 3310 - Leadership in the Construction Industry

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course explores leadership as applied to the construction industry. Emphasis is placed on the importance of professional relationships.

Pre-requisite(s): CMT 2210.

CMT 3370 - Preconstruction Services

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers services provided by contractors during the design of projects constructed using alternative delivery methods (e.g., design-build, CM/CG). Emphasis is placed on reducing construction risks during the design process.

Pre-requisite(s): CMT 2260, CMT 2340, CMT 2360, and CMT 3115.

CMT 3510 - Energy Management in Bldg. M&E Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course covers mechanical and electrical system design, operation and maintenance principles. Includes review of types of systems and equipment, and applications for each. Covers estimating, monitoring and managing the use of energy.

CMT 3540 - Facilities Management Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Practical applications of the administrative principles and skills required of a successful facility manager focusing on administration, management, and leadership of the facility function, finance and accounting, repair, alterations and maintenance, planning, programming, budgeting and execution.

CMT 3630 - Environmental Issues in FM

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Practical application of environmental practices and procedures pertinent to preservation, protection, compliance and conservation issues related to facilities management with emphasis on the regulatory and permitting process, environmental planning, auditing and assessment, recycling, indoor air quality (IAQ) and ozone level depleting substances (OLDS), Environmental Protection Agency (EPA) programs and permitting procedures, Occupational Health and Safety Act (OSHA) programs, and sustainable practices.

CMT 3660 - Energy Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

The course addresses the methodologies of estimating annual energy consumption, undertaking energy audits, and monitoring and targeting energy consumption of fossil fuels. The material covered is for building services engineering, building engineering, and environmental engineering in facilities management.

Pre-requisite(s): CMT 3510.

CMT 3680 - Facility Management Administration and Operations

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course covers operational principles and leadership skills required of a successful senior-level facility management professional.

CMT 4120 - Construction Accounting and Finance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers the fundamental principles of construction finance, accounting, and cost control.

Pre-requisite(s): ACTG 2010.

CMT 4150 - Construction Equipment and Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers the use of equipment used on heavy/civil construction projects. Emphasis is placed on equipment selection, production rates, and unit cost.

Pre-requisite(s): CMT 3115.

CMT 4210 - Facility Planning and Layout

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Practical aspects of facilities planning as a function of location and design with specific application to the following facilities: manufacturing and production, warehousing, and other commercial uses.

CMT 4270 - Computer Aided FM

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course covers current computer-based technologies available to the facility manager.

CMT 4310 - Long-term Planning in Facility Management

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course covers financial and physical planning activities required to meet future needs of the successful Facility Management Organization.

CMT 4330 - Applied Structures

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course covers the processes and methods used to analyze the behavior of engineered structures. Includes the application of the properties of materials and mechanics as they relate to the structural behavior of load resisting components.

Pre-requisite(s): PHYS 2010.

CMT 4350 - Temporary Structures

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course covers basic design of temporary structures. Emphasis is placed on formwork, scaffolding, dewatering, and excavation shoring.

Pre-requisite(s): CMT 1330 and CMT 4330.

CMT 4510 - Design Charrette

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Students will work in multi-disciplinary teams to solve real-world construction problems.

Pre-requisite(s): CMT 3115 and CMT 3130.

CMT 4520 - ASC Student Competition

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

Students will work in multi-disciplinary teams to solve real-world construction problems. This course requires students to participate in the ASC Region 6 Student competition.

Pre-requisite(s): CMT 3115 and CMT 3130.

CMT 4570 - Approaches to Construction Contracting

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course covers the development of a business plan for a small construction company.

Pre-requisite(s): PS 3250, CMT 2210, and CMT 4120.

CMT 4620 - Senior Project

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a construction problem.

Pre-requisite(s): PS 3250, CMT 2210, CMT 3115, CMT 3130, CMT 3370, CMT 4120, and CMT 4330.

CMT 4650 - FM Senior Project

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The application of skills, knowledge, techniques and concepts to an actual facility's management project. Emphasis on integrating the concepts taught in the facilities management classes. Students must apply for Senior Project the semester before they plan to take CMT 4650.

Pre-requisite(s): CMT 3510, CMT 3630, CMT 3680. Senior class standing required.

Pre-requisite/Co-requisite: CMT 4270, CMT 4310.

CMT 4800 - Individual Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual research or projects in Construction Management Technology. Credit and time determined by the student and faculty advisor.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 9 credit hours.

CMT 4830 - Directed Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The student will receive credit for approved studies in an area not covered in the CMT program. Credit and time determined by the student and faculty advisor.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 9 credit hours.

CMT 4890 - Practicum

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. This course can be used to help the student satisfy the CMT program requirement of 800 hours of approved supervised work experience. Ethics as it related to construction management will be discussed.

Pre-requisite(s): CMT 2880.

Number of Times this Course May Be Repeated: May be repeated up to 9 credit hours.

CMT 4899 - BS Graduation Assessment and Signoff

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

CMT 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (.5-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 4 credit hours.

Criminal Justice

CJ 1010 SS - Introduction to Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

An introduction to the history, processes and functions of the American criminal justice system and its primary components, law enforcement, courts, and corrections.

CJ 1070 - Law Enforcement/Corrections Academy, Part I

Credits: (9)

Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1080. Register through the Department of Criminal Justice. *Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.*

CJ 1080 - Law Enforcement/Corrections Academy, Part II

Credits: (9)

Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1070. Register through the Department of Criminal Justice. *Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.*

CJ 1300 - Corrections: History, Theory and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

An introductory overview of the correctional system including: the historical development and societal context of corrections, contemporary correctional theory and law, jails and prisons, community corrections, treatment, juvenile corrections, and contemporary correctional issues.

CJ 1330 - Criminal Law and Courts

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

Surveys American criminal law and the criminal court system. Elements of crime, defenses, historical foundation, limits, purposes and functions of criminal law. History, theory and practice of criminal courts.

CJ 1340 - Criminal Investigation

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

This is an introduction to Criminal Investigation including the necessary functions of interviewing witnesses and suspects, techniques in the collection and preservation of evidence, crime scene processing including some post-crime scene processing of evidence, follow-up investigation and recent techniques of enhancing the criminal investigation function.

CJ 1350 - Introduction to Forensic Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

An introduction to the various types of physical evidence commonly encountered at crime scenes (e.g., fingerprints, hairs, fibers, drugs, glass, etc.), including discussion of comparison and identification techniques (i.e., optical examination/comparison, instrumental analysis, and many chemical processes) used in the analysis of such physical evidence.

CJ 2300 - Policing: History, Theory and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

This course will provide an overview of the history of policing and the role of police in modern society. Particular emphasis will be placed on problems and issues confronting police and solutions within an organizational framework.

CJ 2330 - Juvenile Justice

Credits: (3)

Typically Taught Summer Semester: *Online*

Origin, philosophy, and development of the juvenile justice system, particularly the juvenile court. Emphasis placed upon laws, detention, adjudication, probation, after-care, foster homes, and other alternative correctional practices.

CJ 2340 - Crime Scene Investigation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to give students an understanding of the integration of the criminal investigative process with complex scientific application of modern technology in searching for and processing physical evidence in crime scenes. It will provide background into the theory behind Crime Scene Science and the ethical and legal challenges faced by Forensic Scientists and Crime Scene Investigators. Using modern instructional materials, students will learn of the complexity of processing and documentation of

Crime Scenes with the ultimate goal of having a successful outcome in the court system.

Pre-requisite(s): CJ 1350.

CJ 2350 - Laws of Evidence

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Deals with the principles and rules of law emphasizing evidentiary problems related to criminal cases.

CJ 2360 - Juvenile Law and Procedure

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

An investigation of the juvenile justice system emphasizing Utah law and procedure. Studies differences between juvenile and adult systems, delinquent acts, juvenile treatment as adults and role and function of probation, youth corrections, family services and the community.

CJ 2400 - Criminal Court Process

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Introduction to American criminal case processing including instruction on how a case is processed, step-by-step, from beginning to end. The motivations, cultural norms and behaviors of attorneys, judges and jurors will also be studied.

CJ 2810 - Experimental Course

Credits: (1-3)

This number is used for newly developed experimental courses. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated up to two additional times if new topic(s), for a combined total not exceeding 9 credit hours.

CJ 2860 INT - Criminal Justice Field Experience

Credits: (3)

Field experience in an internship with city, county, and state criminal justice agencies.

Number of Times this Course May Be Repeated: May be repeated once for 6 credit hours.

Note: This course is not currently offered (see CJ 4860).

CJ 2861 INT - Victim Advocacy Capstone

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Capstone experience for students in the Victim Advocacy Certificate of Proficiency comprised of a volunteer experience with a victim advocacy agency/department; or victim advocacy training experience. Must be enrolled in the VA Certificate to register.

Variable credit course (1-3 credit hours). Credit hours determined by type and length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.

Pre-requisite(s): Completion of certificate required and elective courses; and instructor permission.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

CJ 2862 INT - Juvenile Justice Capstone

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Capstone experience for students in the Juvenile Justice Certificate of Proficiency comprised of a volunteer experience with a city, county or state juvenile justice agency/department. Must be enrolled in the JJ Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.

Pre-requisite(s): Completion of certificate required and elective courses.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

CJ 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to one additional time for a combined total not exceeding 4 credit hours.

CJ 3020 - Criminal Justice Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Current command level problems and trends in criminal justice organizations and management including work environment, motivation, leadership, morale, discipline, evaluation, planning, and functioning of line and staff.

CJ 3040 - Community Policing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Problem solving and the development of community trust are integral to community policing. The philosophy, concepts and methods in support of identifying the issues in a community that relate to crime are outlined and studied. The goal of creating healthy neighborhoods and sustaining the quality of neighborhood life are explained in detail. Crime is pervasive in American society, but victims and criminals have identified characteristics. These characteristics impact certain neighborhoods more than others. These characteristics and issues surrounding them are explored and researched.

CJ 3060 - Corrections in the Community

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An overview of community based correctional programs focusing upon the historical origin, development, and current practices in probation, parole, the halfway house, work and educational release, as well as furlough programs.

CJ 3120 - Professional Practice for the Forensic Expert

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth analysis of critical issues for forensic experts in all fields. Topics such as evidence preservation, report writing, expert testimony and ethics are investigated. The course will focus on theory and practice through lecture, writing and practical exercises. 2 hour lecture, 3 hour lab.

Pre-requisite(s): CJ 1350; or instructor approval.

CJ 3130 - Investigation of Computer Crime

Credits: (3)

Deals with the threats, vulnerabilities, and risks of unauthorized system access. Understanding the modus operandi of criminal acts associated with computer crime and how to investigate them.

Cryptography and network security will be closely examined.

Note: This course is not currently offered.

CJ 3270 - Theories of Crime and Delinquency

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Study of the nature, extent, causes, and treatment of crime.

Pre-requisite(s): CJ 1010.

CJ 3300 - Victimology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

This course is designed to review key research areas in the field of victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

Pre-requisite(s): CJ 1010.

CJ 3340 - Crime Scene Photography

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

Theory and practice behind photographic documentation of crime scenes. Practice of proper documentation methodology, injury photography, evidence photography, special lighting considerations, etc. This hybrid course is a combination of lecture, laboratory, community workshops, and individual exercises.

Pre-requisite(s): CJ 2340 and ART 2450 and instructor approval.

CJ 3344 - Advanced Forensic Photography

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

This course addresses photography and imaging issues relevant to the forensic science laboratory including examination quality physical evidence imaging, alternative lighting and exposure techniques, digital camera calibration and maintenance, and courtroom presentation of image evidence.

Pre-requisite(s): CJ 3340.

CJ 3350 - The American Jail

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

Course critically examines the American jail with particular emphasis on history, management, operations and contemporary issues.

CJ 3360 - Prisons - Contemporary Issues and Dilemmas

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A course which focuses upon the contemporary adult prison with a particular emphasis upon current problems, issues and dilemmas. Diversity issues such as integration of the prison work force by women and minorities as well as the problems of elderly, women, and minority inmates will be examined.

CJ 3400 - Drugs and Crime

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The historic, economic, social and political roles of legal and illegal drugs; their contribution to crime of many kinds, accidents, and impacts on the criminal justice system; production and distribution systems; efforts to combat; decriminalization, prevention and treatment.

CJ 3600 - Criminal Justice Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

An introduction to descriptive and inferential statistics and data analysis for use in criminal justice and the social sciences.

Pre-requisite(s): CJ 1010 and (MATH 1030 or MATH 1040 or MATH 1050 or MATH 1080 or QL completion)

CJ 3610 - Research Methods in Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, Online*

Addresses the social scientific methodology utilized in criminal justice and criminological research. The essentials of the scientific method will be studied such as research design, probability sampling, qualitative methods and the classic experimental design. The course will familiarize the student with the methods and problems of social science research as applied to the information needs of criminologists, criminal justice agencies, and criminal justice policy-makers. Students will acquire a better sense of criminology or criminal justice research and of exactly what it is that academic researchers do.

Pre-requisite(s): CJ 1010, or instructor approval.

CJ 3700 - Women & Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course explores women within the American criminal justice system, focusing on females as the victim and perpetrator of crime as well as the various positions that they hold within the criminal justice profession (i.e. law enforcement, courts, corrections). Additional attention will be paid to the social construction of gender and how it

can shape the creation and application of social control within society.

CJ 3800 - White Collar Crime

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is an advanced undergraduate course designed to provide an overview of white collar crime. The course emphasizes defining white collar crime, describing the nature of white collar crime, and applying criminological theories to explaining the perpetration of white collar crime.

CJ 3900 - Intelligence and National Security

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Exploration of the role and structure of intelligence collection and analysis in criminal justice and national security. Course focuses on skill building in the areas of critical thinking, organization and presentation of data, and problem analysis in the scope of intelligence and security driven problems.

CJ 4000 - Critical Legal Studies

Credits: (3)

Critical Legal Studies comprehends the development and application of the criminal law and criminal justice institutions in the United States from a critical perspective. The course begins with a short review of slavery and race, civil rights and civil liberties, and the transformation of legal thought in America. Readings provide a perspective for how the criminal law and justice system are used to bolster the lives of the affluent classes while remaining oblivious or acting as a detriment to the lives of disadvantaged, under-represented and marginalized members of society. The course concludes with readings that provide an understanding for the meaning of justice, the role of the law in fostering a more just society, and the legal tools available to the advocate of social change to propose changes through legal reform.

Note: This course is not currently offered.

CJ 4065 - Law and Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession. Students may take either POLS 4065 or CJ 4065, but may not take both courses.

CJ 4110 - Physical Methods in Forensic Science

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Physical methods for evidence analysis including microscopy, pattern based physical evidence (firearms, footwear, etc.) pattern recovery and analysis and statistical foundations for pattern comparison.

Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4115 - Friction Ridge Analysis

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Legal and scientific methodology behind identification, analysis and

comparison of finger and palm prints including computer database methodology. 3 hours lecture, 1 hour lab.

Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4116 - Friction Ridge Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Basic and applied scientific theory and practice behind the detection, development, recovery and preservation of latent finger and palm prints. 3 hours lecture, 3 hour lab.

Pre-requisite(s): CJ 4115.

CJ 4125 - Research Methods in Forensic Science

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Selected topics in forensic instrumentation, trace evidence, pattern evidence, biological and chemical analysis, research methods and data analysis. 3 hours lecture, 3 hour lab.

Pre-requisite(s): CJ 4110, or instructor approval.

CJ 4165 - Constitutional Rights

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course critically examines Amendments to the United States Constitution related to criminal justice issues including the 4th, 5th, 6th, 8th, and 14th amendments. It examines citizen's rights and criminal justice agent's responsibility and liability in connection with those rights.

Pre-requisite(s): CJ 1010 and CJ 1330.

CJ 4167 - State Criminal Justice Rights

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course examines state supreme court decisions interpreting state constitutional provisions similar to the provisions in the U.S. Bill of Rights protecting criminal defendants. Emphasis is placed on discussing state constitutional decisions with broader constitutional interpretations than recognized by the U.S. Supreme Court. This course will focus upon state constitutional provisions analogous to the rights in the Fourth, Fifth, Sixth and Eighth Amendments, and the state supreme court decisions interpreting those state constitutional provisions.

Pre-requisite/Co-requisite: CJ 4165.

CJ 4200 - Ethical Issues in Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Critically examines selected criminal justice ethical issues such as capital punishment, official corruption, use of deadly force, discretion and deception by the police.

Pre-requisite(s): CJ 1010.

CJ 4300 - History of Law Enforcement

Credits: (3)

An introduction to the history of America's law enforcement organizations, stressing the development, community issues, and organizational designs. The early leaders in policing and the early

crime problems in America will be discussed and studied. From slave patrols prior to the Civil War to the U.S. Marshals of the old west, police development issues will be presented.

Note: This course is not currently offered.

CJ 4700 - International Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Compares United States criminal justice system with other international systems from throughout the world, and reviews the nature and extent of international crime.

Pre-requisite(s): CJ 1010.

CJ 4810 - CJ Policy Assessment

Credits: (3)

Experimental Course, Contact Department for More Information

Criminal justice policies are created and implemented at local, state, and federal levels. This course will introduce students to policy creation and its implementation process as well as to the five prongs of policy assessment: needs, theory, implementation, outcome and impact, and cost-efficiency evaluations.

CJ 4810 - Experimental Course

Credits: (1-3)

This number is used for newly developed experimental courses. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated up to two additional times if new topic(s), for a combined total not exceeding 9 credit hours.

CJ 4830 - Directed Readings and Special Projects

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Assigned reading or project with evaluation by faculty member. Requires approval of the Department Chair.

Number of Times this Course May Be Repeated: May be repeated for up to 6 credit hours cumulative course work.

Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4860 INT - Criminal Justice Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Volunteer experience with city, county, and state criminal justice agencies.

Pre-requisite(s): CJ 1010 and two of CJ 1300, CJ 1330, or CJ 2300; or instructor approval.

Number of Times this Course May Be Repeated: Students may take this course for a combined total of six (6) credit hours

CJ 4861 INT - CSI Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Volunteer experience with city, county, or state crime scene investigation units or related forensic science organizations. Students must complete a minimum level of course work, be selected by an agency, pass a background check, and have permission from the department to register for this course.

Pre-requisite(s): CJ 4110 or CJ 4115; and permission from the instructor.

CJ 4900 - Current Issues in Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In-depth study of current theoretical issues in criminal justice. Specific offering will be identified by name and will be listed on student's transcript with authorized credit.

Number of Times this Course May Be Repeated: May be repeated two additional times, for a total of three such classes with different titles.

CJ 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to one additional time for a combined total not exceeding 4 credit hours.

CJ 4950 - Field Trips/Travel Study

Credits: (1-6)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Designed to provide students with access to both national and international law enforcement agencies, prisons, detention centers, courts and institutions dealing with criminals and delinquents - male and female. Field trips include 2-3 weeks of intense instruction and then 3-5 days of on-site visits, interviews, and lectures by practitioners in the field.

Number of Times this Course May Be Repeated: Course may be repeated for a total of six (6) hours of criminal justice credit. Additional hours will be counted toward 120 elective hours of study. Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4995 - Criminal Justice Senior Assessment

Credits: (1)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Program assessment for graduating seniors combined with an exploration of selected issues and dilemmas surrounding the criminal justice field. Credit/No credit.

Pre-requisite(s): Criminal Justice major core course requirements completed (CJ 1010, 1300, 1330, 2300, 3270, 3300, 3600, 3610, 4165, and 4200) and senior standing; or department chair approval.

Dance

DANC 1010 CA/DV - Introduction to Dance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An introduction to dance providing a knowledge base from which to experience dance from a variety of viewpoints: historically, culturally, aesthetically, critically, and creatively. This course takes a close-up look at the rules, messages, and meanings embodied in dance around the world. This is a writing intensive course. Students are expected to attend dance concerts and cultural dance experiences outside regularly scheduled class time. Open to all students.

DANC 1100 - Ballet I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the techniques of the classical ballet including alignment, positions, port de bras, and allegro combinations. Open to all students.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1200 - Modern I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the movement techniques of modern dance. Open to all students.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1310 - Music for Dance

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

Study of the relationship between sound and movement, accompaniment and dance. Focus extends to creative and working relationship(s) between accompaniment/composer and teacher/choreographer with emphasis on practical applications of methods and understandings.

DANC 1450 - Special Topic Dance Form

Credits: (1)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as recreational activity. It allows for the study of changing series of dance forms, including, but not limited to African, Flamenco, Middle Eastern, Clogging, Ballroom, Renaissance, etc.

Number of Times this Course May Be Repeated: May be repeated for 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1500 - Jazz I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Introduction to the style, technique, and rhythmic structures of jazz dance with emphasis on increasing movement capabilities and personal expression. Open to all students.

Number of Times this Course May Be Repeated: May be repeated

for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1520 - Folk & Ethnic Dance

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Folk and ethnic dances of Europe, Near and Far East, Africa, and the Americas as they relate to concert dance. Open to all students.

Number of Times this Course May Be Repeated: May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1580 - Rhythm Tap

Credits: (1)

Typically Taught Fall Semester: *Full Sem even years*

Special training in tap dance skills and techniques.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2250 - Alignment and Conditioning for Dance/Pilates

Credits: (1)

Typically Taught Spring Semester: *Full Sem even years*

Strength and alignment for dancers, using Pilates mat exercises. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitates more ease and efficiency in movement. To repeat the class a student must have the permission of the instructor.

Number of Times this Course May Be Repeated: May be repeated twice for up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2300 - Dance Kinesiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

This course provides a study of anatomy and dance kinesiology with a specific focus on anatomical analysis, conditioning principles and injury prevention, with special attention given to application of information to technique class, rehearsal, choreography and individual anomalies. The course prepares the student to understand basic kinesiological analysis and fundamental concepts of somatic inquiry.

Pre-requisite/Co-requisite: Pre/Co-requisite: NUTR 1020.

DANC 2410 - Improvisation

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Guided exploration in the elements of dance for the creative development of personal movement repertoire, spontaneous group interaction, and choreographic skills.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2470 - Ballet II

Credits: (1.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Technique course designed to increase skill in classical ballet.

Pre-requisite(s): DANC 1100 (2 credit hours minimum), or DANC

2470 (1 credit hour minimum), or by audition.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated 4 times for a maximum of 6 credit hours.

DANC 2490 - Modern II

Credits: (1.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1200 (2 credit hours minimum), or DANC 2490 (1.5 credit hour minimum), or by audition.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

DANC 2500 - Jazz II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1500 (2 credit hours minimum), or DANC 2480 (1 credit hour minimum), or by audition.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 2610 - Dance and Digital Technology

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 2610 will introduce students to dance-videography, video editing, dissemination of work through media such as the DVD format, YouTube, Vimeo and the creation/maintenance of on-line portfolios.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2810 - Dance Form Investigations: Brazilian Samba

Credits: (2)

Experimental Course, Contact Department for More Information

Students learn the technique of Brazilian Samba and study the dance form's rich cultural and historical background. Includes student research and writing.

DANC 2920 INT - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. In individual cases, this course might be considered as an elective in the Dance Major.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of four credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2950 INT - Dance Festival Participation

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.

Pre-requisite(s): Audition and permission.

Number of Times this Course May Be Repeated: May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3015 - Dance History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of the history and philosophy of dance from lineage-based societies through the early decades of modern dance, ballet, vernacular forms and dance as public art. Areas covered will include pre-Christian civilizations, the Middle Ages, the Renaissance and the Golden Age of Ballet, the Age of Innovation in Ballet through the Contemporary Period of history.

Pre-requisite(s): DANC 1010.

DANC 3320 INT - Techniques and Materials for Teaching Modern Dance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Methods, teaching techniques, accompaniment, and practical experience in teaching modern dance. This is the secondary teaching methods class.

Pre-requisite(s): DANC 2490.

DANC 3440 - Dance for Musical Theatre

Credits: (1)

Typically Taught Spring Semester: *Full Sem even years*

Dance skills and techniques taken from the repertoire of the modern musical theatre. Special emphasis on characterization and style as demonstrated by the works of the leading choreographers of this genre.

Pre-requisite(s): DANC 1200 and DANC 1500.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of four credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3450 - Special Topic Dance Form

Credits: (1)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as recreational activity. It allows for the study of changing series of dance forms, including, but not limited to African, Flamenco, Middle Eastern, Clogging, Ballroom, Renaissance, etc.

Number of Times this Course May Be Repeated: May be repeated up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3470 - Ballet III

Credits: (1.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Coordinating course designed to increase skill in classical ballet technique.

Pre-requisite(s): DANC 2470 (3 credit hours minimum), or DANC 3470 (1.5 credit hour minimum), or by audition.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

DANC 3490 - Modern III

Credits: (1.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Exercises and activities to develop strength, flexibility, endurance, and technical dance skill.

Pre-requisite(s): DANC 2490 (3 credit hours minimum), or DANC 3490 (1.5 credit hour minimum), or by audition.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

DANC 3500 - Choreography I: Space & Time/Design in Dance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of the elements of time and space as they are artistically significant in themselves and in organized forms of meaning in dance. Considering time and space design in related fields of music and art included as relevant to choreographic design and communication in dance.

Pre-requisite(s): DANC 2410.

Number of Times this Course May Be Repeated: May be repeated twice for up to six credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3510 - Choreography II: Process

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of and experience in various approaches to the choreographic process as related to artistic concepts and to the philosophy of art as espoused by various traditional and contemporary dance artists and as developed by the individual student.

Pre-requisite(s): DANC 3500.

Number of Times this Course May Be Repeated: May be repeated twice for up to 6 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3520 INT - Choreography Practicum

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Supervised experience choreographing a dance for public performance. Arranged through cooperative effort of student and supervisor.

Pre-requisite(s): DANC 3510 and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of six credit hours.

DANC 3525 - ArtsBridge

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a

comprehensive, needs-based, integrated arts project with community organizations or area schools. The course will offer students a clear structure and process for navigating the complexities of community engagement. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of a arts integrated project.

Pre-requisite(s): Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.

Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

DANC 3580 - Rhythm Tap

Credits: (1)

Typically Taught Fall Semester: *Full Sem even years*

Intermediate/Advanced training in tap dance skills and techniques.

Pre-requisite(s): Lower Division Tap Dance (DANC 1580) and/or instructor approval.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3640 INT - Teaching Creative Dance in the Elementary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Techniques for teaching creative dance and basic dance forms. Suggested for Elementary Education majors.

DANC 3860 INT - Field Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to provide opportunities for students to gain practical experience in the field by assisting in the activities of community agencies, schools, and Weber State.

Pre-requisite(s): DANC 3320 for those who plan to teach in a middle or secondary school or DANC 3640 for those who plan to teach in an elementary school.

Number of Times this Course May Be Repeated: May be repeated twice, up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3910 INT - Moving Company: Rehearsal & Development

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - 3910) and spring (performance - DANC 3911) semesters. This segment deals with preparation and rehearsal.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3911 INT - Moving Company: Performance

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and

implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - DANC 3910) and spring (performance - 3911) semesters. This segment deals with implementation and performance.

Pre-requisite(s): DANC 3910.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4250 - Alignment and Conditioning for Dance/Pilates

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Strength and alignment for dancers, using Pilates mat exercises and Reformer. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitate ease and efficiency of movement.

Co-Requisite(s): DANC 2250.

Number of Times this Course May Be Repeated: May be repeated once up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4610 - Dance and Digital Technology

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 4610 will introduce students to dance-videography, video editing, and dissemination of work through media such as the DVD format, You Tube, Vimeo and the creation/maintenance of on-line portfolios.

Number of Times this Course May Be Repeated: May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4620 - Dance and Digital Technology Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This seminar will provide students with individual and collaborative study and research in the field of dance and the digital video medium. The course will cover artistic and technical forms, including, but not limited to capturing dance on the digital/video medium, choreographic processes through non-linear digital editing, audio/visual editing for dance, lighting, dance theory and criticism in the context of dance in the digital age.

Pre-requisite(s): DANC 2610.

Number of Times this Course May Be Repeated: May be repeated once up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4700 INT - Creative Synthesis in Dance

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Project oriented experience intended to coordinate student work. It will serve as guide in the synthesis of philosophy, experience, and understanding of dance as an art form and/or dance as education. This capstone course will include a portfolio and have an artistic or scholarly outcome.

Pre-requisite(s): for BA in Dance: DANC 2610, DANC 3520 and senior dance major standing. Prerequisite: for BA/BS in Dance

Education: DANC 2610, DANC 3860 and senior dance major standing.

DANC 4800 - Individual Study

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individual work or work in small groups by arrangements in special topics not included in the announced course offerings.

Pre-requisite(s): Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4801 - A&H Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

DANC 4890 INT - Cooperative Work Experience

Credits: (1-6)

Individual work or work in small groups by arrangement; in special topics not included in the announced course offerings.

Pre-requisite(s): Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 18 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4910 INT - Rehearsal and Performance

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation and rehearsal of dance composition to be presented in concert.

Pre-requisite(s): consent of instructor. May be repeated for an unlimited number of credit hours.

Number of Times this Course May Be Repeated: May be repeated 11 times for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4920 INT - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. In individual cases, this course might be considered as an elective in the Dance Major. May be repeated 3 times up to 16 credit hours, but use toward Major/Minor must be approved by program advisor.

Note: This course is offered as needed.

DANC 4950 INT - Dance Festival Participation

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with

professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.

Pre-requisite(s): Audition and permission.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

Dental Science

DENT 2201 - Concepts of Community Dental Health

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course will present the basic concepts of planning and implementing community dental health programs. These principles include epidemiology, sociological concepts of health and illness, health behavior, public attitudes and principles of dental health education.

DENT 2205 - Head/Neck and Dental Anatomy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Identification of major anatomical landmarks of the head and neck, their innervation, blood supply and function. Also includes instruction in the histology and embryology of head and neck development and tooth morphology.

DENT 2206 - Clinical Dental Hygiene/Radiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Clinical application of principles of DENT 2207 and DENT 2208. Must accompany DENT 2207 and DENT 2208. Students participate in three four-hour labs each week.

DENT 2207 - Dental Hygiene I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Theory essential to performing clinical treatment, including, but not limited to armamentarium, client-operator positioning, aseptic technique, soft tissue exam, health history, principles of instrumentation and disease control therapies. Must accompany DENT 2206.

DENT 2208 - Radiology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparatory skills for clinical dental radiology, including information on radiation safety and exposure techniques. Must accompany DENT 2206.

DENT 2211 - Oral Pathology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The study of manifestations and identification of disease processes in the oral cavity.

DENT 2215 - Periodontology

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The study of basic periodontal structures and disease processes.

DENT 2216 INT - Clinical Dental Hygiene II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Clinical application of DENT 2217. Must accompany DENT 2217. Two four-hour clinic lab sessions each week.

Pre-requisite(s): DENT 2206 and DENT 2207.

DENT 2217 - Dental Hygiene II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continuation of DENT 2206. Didactic instruction for intermediate skills in dental hygiene treatment. Must accompany DENT 2216.

Pre-requisite(s): DENT 2207.

DENT 2219 - Dental Materials

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Identification of and laboratory experiences with materials used in dentistry and dental hygiene.

DENT 2230 - Oral Health Research & Statistics

Credits: (2)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

This course is designed to provide the student with research design and statistics principles as they apply to oral health settings and issues.

Pre-requisite(s): WSU Quantitative Literacy requirement.

DENT 2235 - Dental Medicine I

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The study of common medical conditions and their treatment. Emphasis is placed on oral manifestations of systemic disease and related pharmacology.

DENT 2250 - Professional Ethics

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Professional Ethics is designed to provide dental hygiene students with a foundation in the professional standards governing the dental hygiene profession and the development of ethical decision-making skills, in the context of diversity and respect for others. Throughout the course the student will be guided to explore issues of diversity, prejudices, and their responsibility to provide culturally sensitive care.

DENT 2800 - Individual Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Special project in a student's area of interest.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 4 credit hours.

DENT 2830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Limited to dental hygiene majors.

Number of Times this Course May Be Repeated: A maximum of nine hours may be accumulated with this course.

DENT 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times for a maximum of 6 credit hours.

DENT 3130 - Independent Study

Credits: (1-3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Independent project in an area of interest; second year dental hygiene students only. Project approval by dental hygiene faculty.

Number of Times this Course May Be Repeated: A maximum of nine hours may be accumulated with this course.

DENT 3301 INT - Community Dental Health Service Learning Lab

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This course leads the student through on-campus and off-campus field projects with selected community agencies.

DENT 3305 - Pain Control

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The study of local anesthesia with regard to pharmacology, administration techniques, methods of pain and apprehension control and nitrous oxide sedation. Includes laboratory experiences in the administration of local anesthesia and nitrous oxide sedation.

Pre-requisite(s): DENT 2235.

DENT 3336 INT - Clinical Dental Hygiene III

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Clinical application of DENT 3337. This course must accompany DENT 3337.

Three four hour clinics each week.

Pre-requisite(s): DENT 2206 and DENT 2216.

DENT 3337 - Dental Hygiene III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Continuation of DENT 2207, DENT 2217. Emphasis on advanced instrumentation in the care of patients with periodontal disease. Must accompany DENT 3336.

Pre-requisite(s): DENT 2207 and DENT 2217.

DENT 3346 INT - Clinical Dental Hygiene IV

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Clinical lab which must accompany DENT 3347.

Twelve hours of clinic each week.

Pre-requisite(s): DENT 2206, DENT 2216, DENT 3336.

DENT 3347 - Dental Hygiene IV

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of DENT 2207, DENT 2217, DENT 3337. Emphasis on expanded client care services and with client populations with special treatment needs. Must accompany DENT 3346.

Pre-requisite(s): DENT 2207, DENT 2217, DENT 3337.

DENT 4010 - Interdisciplinary Health Care Teams

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.

Cross-listed with HTHS 4010 and NRSO 4010.

DENT 4405 INT - Dental Hygiene Clinical Teaching Practice

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Supervised teaching in the Weber State Dental Hygiene program as an assistant to the supervising faculty.

Pre-requisite(s): Consent of the faculty member and acceptance into the BS/DH major program.

DENT 4410 - Dental Hygiene Needs of the Geriatric Client

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An overview of dental health needs of elderly clients.

Pre-requisite(s): Consent of instructor and acceptance into the BS/DH major program.

DENT 4530 INT - Principles and Application of Evidence - based Dental Hygiene Practice

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Emphasis is on the critical appraisal of scientific literature, the development of clinical problem statements and hypotheses and the formulation of a research proposal. Ethical issues inherent in the research process and the identification of appropriate hypothesis testing procedures will also be discussed.

Pre-requisite(s): Acceptance into the BS/DH program and completion of WSU Quantitative Literacy requirement.

DENT 4780 - Baccalaureate Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to give dental hygiene students an opportunity to complete a thesis project in partial fulfillment of the requirements for the BS/DH major.

Pre-requisite(s): Acceptance into the BS/DH program, completion of the WSU Quantitative Literacy requirement.

DENT 4800 - Individual Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Special project in a student's area of interest.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

DENT 4810 - Summer Elective Clinic

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Summer intensive clinical course which allows the student to set personal achievement goals for clinical techniques and assists them through the process of skill development.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of six credit hours.

DENT 4830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Limited to dental hygiene majors.

Number of Times this Course May Be Repeated: A maximum of nine hours may be accumulated with this course.

DENT 4850 - Study Abroad

Credits: (1-6)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

DENT 4890 INT - Advanced Community or Clinical Work Experience

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

This course is designed to specifically meet the interests and career goals of the Dental Hygiene Degree-completion student or the student completing the Baccalaureate degree, Dental Hygiene major prior to initial licensure as a dental hygienist. The student who is completing this course as part of their BS degree, initial entry into the profession, will participate in an advanced community or clinical work experiences under the direct supervision of program

faculty. The baccalaureate degree completion student must be licensed to practice dental hygiene at the site in which the work experience will take place, have successfully completed an accredited dental hygiene program, or have a work experience site that does not have direct patient care as its community role.

Pre-requisite(s): Acceptance into the BS/DH Program and consent of the instructor.

DENT 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

DENT 4990 - Seminar

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Current concepts in dental hygiene for baccalaureate level dental hygiene students.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 2 credit hours.

Developmental Mathematics

MATH 0950 ND - Pre-algebra

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

An introduction to mathematical literacy including number sense, algebraic thinking, proportional reasoning, and math learning strategies. Topics include properties of and operations with whole numbers, integers, decimals, fractions and percent; introductory operations and applications with exponents, algebraic expressions, linear equations, and basic geometry. Course fees include math assistance from tutoring services. Does not count toward graduation. Prerequisite: none.

MATH 0970 ND - Pathway to Contemporary Mathematics

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course integrates geometry, numeracy, proportional reasoning, algebraic reasoning, and topics in statistics and functions (linear, quadratic, rational, radical, exponential and logarithmic) using modeling, problem solving, and critical thinking. The course fee for this course includes homework software and math assistance from tutoring services. This course may not be transferred to other USHE schools.

Pre-requisite(s): MATH 0950 or Level 2 placement.

MATH 0990 ND - Beginning Algebra

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

An introduction to algebraic literacy using properties of real numbers, solving linear equations and inequalities, geometry, ratio and proportion, applications, graphing, solving linear systems, exponents, scientific notation, polynomials, factoring, and solving quadratic equations. Learning strategies for mathematics success, including development of a mathematical growth mindset are integrated into the course.

The course fee includes math assistance from tutoring services. Does not count toward graduation. Prerequisite: MATH 0950 or equivalent placement.

MATH 1010 - Intermediate Algebra

Credits: (4-5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Inequalities (including absolute value and systems), systems of equations, applications, functions (inverse, exponential, and logarithmic), variation, factoring, rational expressions, radicals, complex numbers, quadratic equations, parabolas, circles, quadratic formula, formulas, properties and applications of logarithms. The course fee for this course includes homework software and math assistance from tutoring services.

Pre-requisite(s): MATH 0990 or Level 3 placement.

Diagnostic Medical Sonography

DMS 4110 - Sonography Principles & Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Elementary principles, propagation through tissues, transducers, pulse echo principles and instruments, images, storage and display, Doppler, image features and artifacts, bioeffects, and safety.

DMS 4120 - Quality Assurance

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Developing, analyzing and evaluating a quality assurance program.

DMS 4210 - Cardiac Sonography I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Concepts in cardiac sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4220 - Cardiac Sonography II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continuation of 4203.

DMS 4230 - Cardiac Sonography III

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of DMS 4220.

DMS 4310 - Abdominal Sonography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Concepts in abdominal intraperitoneal and retroperitoneal sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4320 - Superficial Structure Sonography

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Concepts in superficial structure sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4330 - Gynecologic Sonography

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Concepts in gynecologic sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4340 - Obstetric Sonography

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Concepts in obstetric sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4410 - Vascular Sonography I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Concepts in vascular sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4420 - Vascular Sonography II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of DMS 4410.

DMS 4510 - Breast Sonography

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Concepts in breast sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4610 - Cardiac Sonography - Clinical Simulation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Cardiac Sonography Labs.

DMS 4611 - Cardiac Sonography - Clinical Simulation II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Cardiac Sonography Labs.

DMS 4612 - Cardiac Sonography - Clinical Simulation III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Cardiac Sonography Labs.

DMS 4620 - Medical Sonography - Clinical Simulation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Medical Sonography Labs.

DMS 4621 - Medical Sonography - Clinical Simulation II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Medical Sonography Labs.

DMS 4622 - Medical Sonography - Clinical Simulation III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Medical Sonography Labs.

DMS 4630 - Vascular Sonography - Clinical Simulation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Vascular Sonography Labs.

DMS 4631 - Vascular Sonography - Clinical Simulation II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Vascular Sonography Labs.

DMS 4632 - Vascular Sonography - Clinical Simulation III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in Vascular Sonography Labs.

DMS 4801 - Individualized Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Contract with faculty advisor required.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

DMS 4811 INT - Cardiac Clinical I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A minimum of 24 hours per week in an active diagnostic cardiac sonography department.

DMS 4812 INT - Cardiac Clinical II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of DMS 4811.

DMS 4813 INT - Cardiac Clinical III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Continuation of DMS 4812.

DMS 4821 INT - Medical Clinical I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A minimum of 24 hours per week in an active diagnostic medical sonography department.

DMS 4822 INT - Medical Clinical II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of DMS 4821.

DMS 4823 INT - Medical Clinical III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Continuation of DMS 4822.

DMS 4831 INT - Vascular Clinical I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A minimum of 24 hours per week in an active diagnostic vascular sonography department.

DMS 4832 INT - Vascular Clinical II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continuation of DMS 4831.

DMS 4833 INT - Vascular Clinical III

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of DMS 4832.

DMS 4841 INT - Breast Clinical

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A minimum of 24 hours per week performing breast sonography examinations.

Pre-requisite(s): DMS 4510 Breast Sonography.

DMS 4911 - Cardiac Comprehensive Review

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Review and requirements for advanced responsibilities of the cardiac sonographer.

DMS 4912 - Medical Comprehensive Review

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Review and requirements for advanced responsibilities of the medical sonographer.

DMS 4913 - Vascular Comprehensive Review

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Review and requirements for advanced responsibilities of the vascular sonographer.

DMS 4921 - Workshops, Conferences and Telecourses

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Economics

ECON 1010 SS - Economics as a Social Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An introduction to basic economic institutions and principles of economics for non-business and non-economics majors. The primary objective of the course is to provide a framework of economic approaches useful in the analysis of social problems. Topics include poverty, economic systems, crime, pollution, health, discrimination, unemployment, inflation, and the role of government in the economy.

ECON 1100 SS - Environmental Issues and Economic Policy

Credits: (3)

An analysis of policies which affect environmental resources. Emphasis on economic analysis of renewable and nonrenewable resources, pollution, and public policy. This course demonstrates economic solutions to environmental problems, and the role economics plays in designing environmental policy.
Note: Check with department for course availability.

ECON 1740 AI - Economic History of the United States

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A critical study of the history of the American Economy, significant events, fundamental principles of a market economy, interactions between government and the market economy, and the evolution of fundamental economic institutions.

ECON 2010 SS - Principles of Microeconomics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The application of economic concepts to the analysis of scarcity of individual, firm, and organizational behavior. Topic coverage includes the theories of how consumers and firms make choices, and how various rules guide their respective decisions. The course also explores the theory of market structures, such as perfect and imperfect competition, as well as monopoly.

Pre-requisite(s): MATH 1010, MATH 1050 or 1080 or 1210 with a "C" or higher grade.

ECON 2020 SS - Principles of Macroeconomics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Analyzes human behavior and choices as they relate to the entire economy, with specific focus on national income measurement, unemployment, inflation, business cycles, global trade, and economic growth. Implications of different government policies, e.g., changes in taxation, government spending, money supply or interest rates for a stable economy and steady growth are explored.

Pre-requisite(s): (MATH 1010 or MATH 1050 or 1080 or 1210 with a "C" or higher grade).

ECON 2899 - Economics Foundations and Admission Assessment

Credits: (0)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Completion of ECON 2899 is required of all non-business Economics students pursuing any major, minor, emphasis or certificate awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Foundation knowledge, and 2) admittance to the Goddard School. Students should register for this course concurrent with (same semester as) their last required Foundation course (ECON 2010, ECON 2020 and QUAN 2600) or after the required Foundation courses have been completed. Students must have an overall GPA of 2.5 or higher and a Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the three Foundation courses. *Credit/No credit.*

Pre-requisite/Co-requisite: Pre/ Co-requisite: ECON 2010, ECON 2020, QUAN 2600.

ECON 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

Note: This course is offered as needed.

ECON 3030 - Managerial Economics

Credits: (3)

This course uses the tools of differential calculus and regression theory to analyze the managerial decisions of individual firms.

Pre-requisite(s): MATH 1050, QUAN 2600, QUAN 3610.
Note: Course not currently being offered.

ECON 3090 - History of Economic Thought

Credits: (3)

This course covers the major concepts and contributions of the scholars of the past in economic doctrine and interpretations.

Pre-requisite(s): ECON 2010, ECON 2020, and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 3110 - International Trade

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to the pure theory of trade, international trade agreements and negotiations (e.g., GATT, EU and NAFTA) and the institutions designed to encourage trade. Emphasis on the benefits of free trade as well as the reasons for the existence of trade barriers such as tariffs and quotas. Special topics include trade in agricultural products and international labor migration.

Pre-requisite(s): ECON 2010 and ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 3120 - International Finance and Monetary Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Applications of the principle of economics to the international monetary system. Special emphasis on the way in which international monetary institutions can facilitate trade. Macroeconomic models of an open economy are used to examine the effect that international trade and financial ties have on the domestic economy. Special topics include institutions such as the World Bank and the IMF, along with regional monetary unification in Europe.

Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 3150 - Business Studies Abroad- International Finance

Credits: (3)

This course studies the globalization of financial markets and the environment in which international finance takes place, e.g., the international monetary system. With this background, a global financial strategy design for corporations will be discussed. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).

Note: Check with department for course availability.

ECON 3200 - Money and Banking

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course presents a detailed description and economic analysis of the U.S. financial system which includes the banking industry, bond and stock markets, and the Federal Reserve system. This course serves as an extension to the material covered in an introductory macroeconomics course. The enhanced understanding of the workings of the financial system, including the determination of interest rates, will be used to trace out the channels of monetary policy as conducted by the Federal Reserve and the effect of monetary policy on financial markets, such as the stock market.

Pre-requisite(s): ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 3300 - Environmental Economics

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Every other Spring*

Environmental Economics applies economic concepts to environmental and resource topics. We will use both standard economic and ecological analyses. Specific topics include externalities, public goods, environmental accounting, nonrenewable and renewable resource use, pollution, and climate change.

Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210 or equivalent.

ECON 3400 - Labor Economics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The study of labor economics explores choices made by the two sides of the labor market, employers and workers and how these choices interact in determining wage and employment levels. Hence, an important part of the course consists of a detailed analysis of labor demand and supply. This analysis is followed by a discussion of why the labor market often does not clear, i.e., why we observe unemployment. The analysis focuses on special features of the labor market such as minimum wage, labor unions and efficiency wages. Other topics include the effect of education and training on earnings, the optimal incentive structure of an employment contract and determinants of income inequality.

Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 3410 - Women in the World Economy

Credits: (3)

Applications of the principles of economics to the analysis of the economic status of women in the U.S. and elsewhere. The focus is on labor markets, income differentials, the tax system and household work. Special consideration is given to women in developing economies.

Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 4010 - Intermediate Microeconomic Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The application of economic concepts to individual and firm behavior, consumer behavior, demand analysis, economics of the firm, and price theory.

Pre-requisite(s): ECON 2010, ECON 2020 and BSAD 2899 or ECON 2899 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 4020 - Intermediate Macroeconomic Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The building of standard models to test theories of long-run economic performance and short-term fluctuations in closed and open economies. Emphasis is placed on how fiscal and monetary policies encourage long-run growth while mitigating the negative effects of short-term fluctuations.

Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and BSAD 2899 or ECON 2899.

ECON 4170 - Economic Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The application of economic principles to the challenging problems of third world and developing nations including Africa, Asia, Latin America and the newly independent states of the Former Soviet Union and Eastern Europe.

Pre-requisite(s): ECON 2010 and ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

ECON 4320 - Industrial Organization

Credits: (3)

The theory and performance of firms and industries in the context of substantial market power and market regulation. Emphasis on oligopoly, game theory, and theory of markets within the context of global market competition.

Pre-requisite(s): QUAN 2400 or ECON 3030, ECON 2010.

Note: Course not currently being offered.

ECON 4330 - Game Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Every Other Fall*

This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit.

Pre-requisite(s): ECON 2010 and MATH 1050, MATH 1080, MATH 1210, or equivalent.

ECON 4520 - Public Finance

Credits: (3)

This course covers the aspects of economic policy that arise in the operations of a public budget. Topics addressed include economic theories of bureaucracy, public expenditures, and taxation.

Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 4550 - Introduction to Econometrics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Advanced Regression Analysis. Topics include ordinary least squares, generalized least squares, nonlinear regression, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively.

Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and QUAN 3610.

ECON 4560 - Mathematical Economics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Advanced application of mathematical modeling techniques to selected economic issues.

Pre-requisite(s): ECON 4010, ECON 4020, QUAN 2400 or MATH 1210, and QUAN 3610.

ECON 4800 - Independent Research

Credits: (1-3)

Individual work or work in small groups, by arrangement, in special topics not included in the announced course offerings.

Pre-requisite(s): QUAN 3610 and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

ECON 4810 - Experimental Courses

Credits: (1-3)

Experimental or one-time courses designed to fill a need in the community or investigate interesting and unusual topics. Refer to Experimental Courses.

Pre-requisite(s): ECON 2010, ECON 2020.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

Note: This course is offered as needed.

ECON 4850 - Economics Study Abroad

Credits: (1-3)

This course is designed for students who will study economics at one of the international partner universities of the Goddard School of Business and Economics as part of an extended study abroad visit. Students will explore the international economic institutions, business culture, and applications of economic theory to countries outside of the US. Students will study international economics as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): ECON 2899 and BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

Note: This course is offered as needed.

ECON 4860 INT - Economics Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Business Economics or International Business Economics program courses.

Pre-requisite(s): BSAD 2899; Instructor approval.

ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

Note: This course is offered as needed.

ECON 4970 - Introduction to Research Methods

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course prepares students for ECON 4980 Research Methods. Students will study the research process and the scientific method as it applies to economics. Students will have an opportunity to explore various fields and literature in order to design a thesis project for

ECON 4980.

Pre-requisite(s): ECON 2899 or BSAD 2899.

ECON 4980 - Research Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed for senior economics majors which requires the completion of an extensive thesis project. This course will focus on the formulation of hypotheses, review of relevant literature, and either theoretical or empirical analysis.

Pre-requisite(s): ECON 4970, BSAD 2899 or ECON 2899, QUAN 3610, ECON 4010 or ECON 4020.

ECON/Quantitative

QUAN 2400 - Business Calculus

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Emphasis on applications of quantitative tools to problems in business. Topics include profit maximization, cost functions, demand analysis, and output maximization with budget constraints and resource allocation.

Pre-requisite(s): MATH 1050 or 1080 or 1210 with a "C" or higher grade or equivalent as determined by the Math Department.

QUAN 2600 - Business Statistics I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introduction to concepts and applications of statistics in business and economics. Topics include summary statistics, probability distributions of random variables, sampling, and estimation. Class will include use of computers.

Pre-requisite(s): MATH 1050 or 1080 or 1210 with a "C" or higher grade or equivalent as determined by the Math Department.

QUAN 3610 - Business Statistics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Continuation of QUAN 2600. Topics include test of hypotheses, correlation, time series, and multiple regression analysis with specific application to problems in business and economics. Computers will be used extensively in regression analysis.

Pre-requisite(s): QUAN 2600.

Education

EDUC 1010 CEL - Exploring Teaching

Credits: (3)

Students will explore the exciting world of teaching, examine what it means to be a teacher, and participate in field observations. This course is designed to introduce students to personal and professional experiences within the educational community.

Pre-requisite(s): This course or an equivalent approved course is a prerequisite to all licensure programs in the Department of Teacher Education.

EDUC 2000 - Social Studies Concepts for Elementary Teachers

Credits: (3)

Fundamental concepts from the social sciences commonly found in elementary social studies curriculum.

Note: This course is not currently offered.

EDUC 2010 CEL - Human Exceptionality

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This course will introduce students to the characteristics of exceptional children with emphasis on the educational and psychological implications of disabilities to the development of the child. A minimum grade of C is required in this course.

EDUC 2300 - Global Perspectives on Education and Learning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course begins by introducing perspectives on globalization and how the globalization process impacts educational policies and practices. We will then discuss three major topics from an international and comparative perspective. These three topics are: 1) educational policies and practices; 2) pedagogies and classroom practices; 3) individual experiences of learning. Case studies will be used to demonstrate different ways to examine how schools teach, as well as how students learn, in various social contexts. Towards the end of the course, students will learn to develop age appropriate pedagogical tools by incorporating global learning perspectives that can be used in K-12 classrooms.

EDUC 2604 - Information Resources in Education

Credits: (1)

Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.

Cross-Listed with LIBS 2604.

EDUC 2890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

For students not yet accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience.

Amount of credit will be determined by the department.

Fingerprinting/ background check must be completed prior to working in the schools.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

EDUC 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The specific title and credit authorized will appear on the student transcript. May be taken on a Credit/No Credit basis.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

EDUC 3100 - Instructional Planning & Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course introduces the basic concepts of lesson and unit design, planning and assessment based on student needs.

Pre-requisite(s): Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3210, EDUC 3240, EDUC 4345, PEP 3620.

EDUC 3110 - Instructional Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course allows students to apply existing technology literacy into educational environments to promote enhanced learning. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-8 settings. The course focuses on providing teacher licensure candidates with basic technology proficiencies for teaching with technology.

Pre-requisite(s): Completion of the computer and information literacy requirements.

EDUC 3115 - Media Integration in Elementary Education Settings

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on how to create media to support and apply research-based principles for learning into educational environments. The course content is based on Utah core curriculum skills for students in the K-8 setting. The course provides students with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements and completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This is part of Elementary Education Level 3 and should be taken with EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, and EDUC 4330.

EDUC 3116 - Media Integration in Elementary Education Settings 1

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is an orientation to using media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online

instruction. Students will be taught to integrate technology into the curriculum to support meaningful instruction for both teaching and learning. Students will be introduced to cloud computing and taught how to design, administer, and assess digital curriculum. The course content is based on Utah core curriculum skills for students in the K-8 setting. Students will develop an e-portfolio.

Pre-requisite(s): Admission to Teacher Education. This is part of Elementary/Early Childhood/Special Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, and EDUC 3270.

EDUC 3117 - Media Integration in Elementary Education Settings 2

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on integrating media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online instruction. Students will continue to develop their skills and knowledge about how to incorporate technology into the curriculum to support meaningful instruction. A variety of technologies will be utilized for designing digital curriculum and developing 21st century standards. The course content is based on Utah core curriculum skills for students in the K-8 setting. Students continue to create an e-portfolio.

Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1. This is part of Elementary/Early Childhood Education Level 2 and should be taken with EDUC 3100, EDUC 3210, EDUC 3230, EDUC 3240 and EDUC 4345.

EDUC 3120 - Reading Instruction in the Primary Grades

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to familiarize the teacher candidate with current knowledge and practices as they relate to teaching literacy (reading, writing, listening, and speaking) in the primary grades (K-2).

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3140, EDUC 3205, EDUC 3270, EDUC 4550.

EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The focus of this course is the fundamental theories and philosophies, concepts, processes, and applications related to human behavior, teaching and learning, interpersonal relationships, and classroom management.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3205, EDUC 3270, EDUC 4550.

EDUC 3205 - Culturally and Linguistically Responsive Teaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Rationales, concepts, practices provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values are also explored. Experiences are provided intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3270, EDUC 4550.

EDUC 3210 INT - Elementary Level II Practicum

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on integrating the arts, healthy lifestyles, and literacy. Students are required to spend at least 40 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3240, EDUC 4345, PEP 3620.

EDUC 3220 - Foundations of Diversity

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Rationales, concepts, practice provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values. Experiences intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, and EDUC 3935.

EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on the study of statistics and probability in the Utah mathematics core (K-8) and appropriate mathematics teaching methods. Emphasis will also be on the developing an understanding of the Standards of Mathematical Practice. Teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations will be addressed. This course builds upon and will use content learned in MATH 2010, 2015, and 2020.

Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1. Should be taken with Elementary/Early Childhood Level 2 courses.

EDUC 3240 - Reading Instruction in the Intermediate Grades

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will provide methods, foundations, and assessments for developmental reading in the elementary school, Grades 3-6.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken concurrently with EDUC 3100, EDUC 3210, EDUC 4345, PEP 3620.

EDUC 3265 - The Exceptional Student

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will learn about the learning and social characteristics of young people with exceptionalities-that is, disabilities (physical, mental, learning) or giftedness-and about public policy and services available to them. As future teachers, they will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3900, EDUC 3315, EDUC 3935, EDUC 3910.

EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The Individuals with Disabilities Education Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.

Pre-requisite(s): Admission to Teacher Education and EDUC 2010.
Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken concurrently with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 4550.

EDUC 3280 - Elementary Social Studies Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on the place of social studies in the elementary school curriculum, the scope and rationale of the social studies curriculum, connections with other subject areas, teaching and assessment strategies, and building classroom community.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 3300 - Introduction to International Education: Case Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *Full Sem*

This course uses case studies of education systems and practices from Japan, China, South Korea, Finland, Cuba, Germany, Poland, and the U.S. to demonstrate the interactions of social-cultural contexts, school policies and practices, as well as the individuals' learning processes. Theories of and perspectives on examining educational policies and practices will be introduced throughout the class along with case studies covering a diverse range of contexts. The class will be a mix of lectures, discussions, and in-class demonstrations, so students will have many opportunities to actively engage with the material in multiple ways. Students will also have opportunities to discuss educational issues with college students from China, Japan, India and Singapore via a virtual platform.

EDUC 3315 - Media Integration in the Secondary School Setting

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on how to create media to support and apply research-based principles for learning into the educational environments. The curriculum is based on Core Curriculum skills for students in grades 9-12. The course content provides teacher licensure candidates with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

EDUC 3370 - Advanced Instructional Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course allows students to apply existing technology literacy into educational environments to promote advanced use of educational technology in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-6 settings. The course focuses on providing teacher licensure candidates with advanced technology proficiencies for teaching with technology.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

EDUC 3371 - Assistive Technology

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides students with an understanding of the use of assistive technology for students with disabilities. Students will learn to assess student assistive technology needs, identify assistive technology used to provide students access to educational opportunities, and application of assistive technology in instructional programs, career tasks, and life skills for individuals with disabilities.

EDUC 3375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)

The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

EDUC 3390 - Literacy in the Primary Grades

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Analysis of developmental reading skills with emphasis on readiness for reading, phonic and structural analysis, word recognition, use of the basal reader, and reading for various purposes.

EDUC 3430 - Creative Processes in the Elementary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories that support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

EDUC 3535 - IEP and Instructional Planning

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides prospective special education teachers with a curriculum analysis process for determining appropriate educational opportunities for students with IEPs. In addition, prospective teachers will examine strategies for content area instruction and consider a wide range of accommodations and adaptations used to support students with disabilities in the general education classroom.

EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is designed to teach teacher candidates validated classroom management strategies and level one behavioral intervention strategies. This course focuses on techniques and methods for preventative classroom student management. The course will assist candidates in writing effective classroom management plans. Candidates will be introduced to the process of Functional Behavior Assessments and Behavior Intervention Plans.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

Co-Requisite(s): EDUC 3565, EDUC 3575, EDUC 4515, EDUC 4521, EDUC 4530.

EDUC 3565 - Elementary English Language Arts: Evaluation, Remediation and Supports

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is designed to teach teacher candidates validated evaluation and remediation strategies for K-5 students struggling in

English Language Arts, focusing on techniques in elementary reading, writing, speaking, listening, and language. Candidates will be introduced to the process of identifying reading and writing difficulties, selecting evidence-based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' ELA progress and intervention effectiveness.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 3575, EDUC 4515, EDUC 4521, EDUC 4530.

EDUC 3575 - Elementary Mathematics: Evaluation, Remediation and Supports

Credits: (2)

Typically Taught Spring Semester: Full Sem

This course is designed to teach teacher candidates validated evaluation and remediation strategies for K-5 students struggling in mathematics. This course focuses on techniques in elementary mathematics. Candidates will be introduced to the process of identifying math difficulties, selecting evidence based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' math progress and intervention effectiveness.

Pre-requisite(s): MATH 2010. Completion of Education Level 1 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 3565, EDUC 4515, EDUC 4521, EDUC 4530.

EDUC 3900 - Preparing, Teaching, and Assessing Instruction

Credits: (2)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This integrated course will focus on lesson planning, teaching, and assessment through the application of the Teacher Work Sample (TWS) using lesson plan formats taught in the content areas. A variety of instructional strategies effective for use at the secondary level will be taught and modeled.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3315, EDUC 3265, EDUC 3910, and EDUC 3935.

EDUC 3910 INT - Secondary Education Practicum

Credits: (2)

The purpose of this practicum is to provide students with opportunities to design and implement content-specific instruction at the secondary level. Students are required to spend at least 40 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3935.

EDUC 3935 - Reading and Writing Across the Secondary Curriculum

Credits: (2)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course will focus on assessment of reading comprehension of students, and decisions teachers make concerning methods, materials

and procedures based on those assessments. Teacher candidates will integrate literacy skills (vocabulary, study skills, comprehension development and writing) within their respective content areas and teach sample lessons to secondary students.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910.

EDUC 4210 INT - Elementary Level III Practicum

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on instruction of core subjects including language arts, mathematics, science, and social studies. Students are required to spend at least 60 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 4250 - Second Language Acquisition: Theories and Implementation

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 4270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 4300 - Elementary Mathematics Methods

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course includes the study of mathematics methods appropriate for elementary school curriculum with specific emphasis on developmental strategies including the concrete-representational-abstract instructional model. Connections to other subject areas, problem solving, critical thinking skills and real-life situations are stressed.

Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4320, EDUC 4330.

EDUC 4310 - Foundations of Cooperative Learning

Credits: (2)

This course examines the rational, principles, skills and interaction strategies necessary before implementing Cooperative Learning in

the classroom. Emphasis will be upon the basic components of Cooperative Learning, team building, and simple teamwork. Methods and strategies will be demonstrated and will involve active student group participation.

EDUC 4320 - Elementary Language Arts

Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on methods for language arts instruction in the elementary setting with specific emphasis on writing strategies. Particular emphasis is given to models of research-based instruction of core curriculum in language art.

Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4330.

EDUC 4330 - Elementary Science Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course focuses on methods and materials for teaching hands-on guided discovery science with an emphasis on concepts included in the Utah core curriculum.

Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320.

EDUC 4345 - Elementary Integrated Arts

Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to prepare students to successfully teach art and music in the elementary classroom. Students are expected to design, prepare and teach lessons to engage elementary students in art and music activities.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3210, EDUC 3240, PEP 3620.

EDUC 4350 - Elementary Mathematics

Pedagogy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on the study of appropriate mathematics teaching methods for the Utah core curriculum. Emphasis will be on teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations. Students will practice teaching mathematics using content from the K-8 Utah Mathematics Core.

Pre-requisite(s): EDUC 3230.

EDUC 4380 - Student Teaching in Elementary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.

Pre-requisite(s): EDUC Level 3 (EDUC 3116, EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4400 - International Education

Experiences: Study Abroad

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is a study abroad course led by two faculty members from Moyes College of Education. The class will visit various kinds of schools, interview teachers, students and parents, as well as study the socio-cultural contexts of a certain country or region. We expect the learning to occur during the lectures conducted by WSU faculty, the observations of the classes in the schools, visits to the schools and other educational/cultural sites, communications between students and school teachers and administrators in a certain country, as well as reflection sessions led by WSU faculty. The country covered by this course may change from year to year. Examples of countries include Nordic countries (Finland, Sweden, and Estonia) or selected South Asian countries (Singapore and Vietnam).

EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment

Credits: (3)

Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

EDUC 4420 - Foundations of Education of the Gifted

Credits: (2)

An overview of education for the gifted and talented; historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum, and educational program options; special populations of gifted students.

Note: This course is not currently offered.

EDUC 4450 - Creativity and Applied Imagination in the K-12 Classroom

Credits: (2)

Exploration and development of readily available personal and community resources to encourage creative thinking, classroom involvement, and transfer of learning.

Note: This course is not currently offered.

EDUC 4470 - Teaching for Thinking

Credits: (2)

Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

Pre-requisite(s): Admission to Teacher Education and EDUC 3140

or equivalent.

Note: This course is not currently offered.

EDUC 4480 - Differentiated Curriculum for the Gifted and Talented

Credits: (3)

Curriculum theories and educational strategies for educating gifted and talented students. A practical course, with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

Note: This course is not currently offered.

EDUC 4490 - Assessment and Evaluation in Education of the Gifted

Credits: (3)

Principles of assessment applied to: identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

Note: This course is not currently offered.

EDUC 4510 - Foundations in Special Education Practice and Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will introduce students to the philosophical, historical, legal and ethical foundations of special education. Students will examine in depth the characteristics of exceptional learners.

Pre-requisite(s): Admission to Teacher Education, EDUC 2010.

EDUC 4515 - Special Education Law and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides students with a broad knowledge and understanding of a wide range of legal issues concerning the provision of special education services to students with disabilities. A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities will be addressed. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs.

Pre-requisite(s): Admission to Teacher Education.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 3565, EDUC 3575, EDUC 4521, EDUC 4530.

EDUC 4520 - Collaboration, Consultation, and IEP Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities and techniques of collaboration and consultation.

Pre-requisite(s): Admission to Teacher Education.

EDUC 4521 - Practicum in Special Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and

demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 60 hours in an assigned classroom.

Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 4565, EDUC 4575, EDUC 4535, EDUC 4530, EDUC 4580.

EDUC 4530 - Principles and Applications of Special Education Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Administer, score, and interpret norm-referenced assessments instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs. Requires passing Block 1 with a B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 courses and should be taken with EDUC 4545, EDUC 4565, EDUC 4575, EDUC 4580.

EDUC 4535 - Strategic Plan for Disability

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to instruct students in methods to successfully facilitate the inclusion of students with disabilities in the general education classroom. Strategies will be given for how to initiate, grow, and sustain, effective collaborative educational environments, utilize specifically designed instruction, and develop targeted accommodations and modifications that can be efficiently delivered in general education environments to create meaningful access for students with disabilities.

EDUC 4540 - Managing Student Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Current issues, practices, and application of a variety of approaches for behavior change, discipline and management of the classroom environment, and the teaching of appropriate social skills.

Suggested Requisite(s): This course is part of Special Education Block 1 courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4550, EDUC 4560.

EDUC 4545 - Individualized Behavioral Strategies using Applied Behavior Analysis

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course is designed to teach teacher candidates validated individual behavioral intervention strategies, particularly those designed to meet the needs of students with severe behavioral and social skill deficits. This course will address the needs of those candidates using Applied Behavior Analysis. Candidates will conduct functional assessments and write and implement a function-based behavior intervention plan.

Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 3 Advanced Methods and should be taken with EDUC 4565, EDUC 4575, EDUC 4580, EDUC 4582.

EDUC 4550 - Instructional Planning and Learning Environments for Special Education Students

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 3270.

EDUC 4555 - Validated Instructional Methods: Reading

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4570, EDUC 4580, EDUC 4581.

EDUC 4560 - Validated Instructional Methods: Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 2 Integrated Methods courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4540, EDUC 4550.

EDUC 4565 - Secondary English Language Arts: Evaluation, Remediation and Supports

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course is designed to teach teacher candidates validated evaluation and remediation strategies for 6-12 students struggling in English Language Arts, focusing on techniques in secondary reading, writing, speaking, listening, and language. Candidates will be introduced to the process of identifying reading and writing difficulties, selecting evidence-based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' ELA progress and intervention effectiveness.

Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 3 Advanced Methods and should be taken with EDUC 4545, EDUC 4575, EDUC 4580, EDUC 4582.

EDUC 4570 - Validated Instructional Methods: Written Expression

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

Pre-requisite(s): EDUC 4530.

Co-Requisite(s): EDUC 4581.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4580, EDUC 4581.

EDUC 4575 - Secondary Mathematics: Evaluation, Remediation and Supports

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course is designed to teach teacher candidates validated evaluation and remediation strategies for students in grades 6-12 struggling in mathematics. This course focuses on techniques in secondary mathematics. Candidates will be introduced to the process of identifying math difficulties, selecting evidence based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' math progress and intervention effectiveness.

Pre-requisite(s): MATH 2020. Completion of Education Level 2 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 3 Advanced Methods and should be taken with EDUC 4545, EDUC 4565, EDUC 4580, EDUC 4582.

EDUC 4580 - Learning Strategies and Transition for Special Education Students

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.

Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods and should be taken with EDUC 4545, EDUC 4565, EDUC 4575, EDUC 4582.

EDUC 4581 - Pre-Student Teaching in Special Education: Assessment, Behavior Management, Instruction

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of Pre-Student Teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the Cooperating Teacher and the Course Instructor. This course is designed to provide students with practical experiences in the areas of: a) literacy curriculum and instruction for students K-12, and (b) planning and developing post secondary transition plans. Practical experience in assessment and

behavior management are continued.

Pre-requisite(s): Completion of Special Education Block 2

Integrated Methods courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4582 INT - Special Education Level III Practicum

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality instruction while working in special education and/or general education classrooms.

Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 3 Advanced Methods and should be taken with EDUC 4545, EDUC 4515, EDUC 3565, EDUC 3575, EDUC 3535.

EDUC 4640 - Validated Instructional Methods: Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

EDUC 4650 - Validated Instructional Methods: Reading

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

EDUC 4660 - Validated Instructional Methods: Written Expression

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

EDUC 4670 - Special Education Student Teaching

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.

Pre-requisite(s): successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time. Should be taken concurrently with EDUC 4686 the first time.

Number of Times this Course May Be Repeated: May be repeated 99 times.

EDUC 4680 INT - Special Education Student Teaching

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.

Pre-requisite(s): Successful completion of Special Education major requirements, EDUC 4581, EDUC 4570 with B- or above.

Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4685 - Special Education Student Teaching Seminar and Synthesis

Credits: (1)

The Seminar and Synthesis will support student teaching through regular meetings.

Pre-requisite(s): Successful completion of Special Education Licensure requirements.

Co-Requisite(s): Must be taken concurrently with EDUC 4670.

Note: This course is available to non-majors.

EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The Seminar and Synthesis will support student teaching through regular meetings on campus.

Co-Requisite(s): EDUC 4680.

EDUC 4700 - Learning in the Schools

Credits: (2)

Principles of learning and management and their application to the school situation.

Pre-requisite(s): Student teaching.

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course prepares students to be advocates and practitioners of family involvement in education. Goals and benefits of family involvement will be explored along with specific strategies for developing a partnership within the education system. Components of family structure, economics, cultural diversity, second-language learners, communication skills and resources are integrated into the student experience.

EDUC 4820E - Managing Diverse Classrooms

Credits: (3)

Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.

Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC

4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).

Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4840A/B, EDUC 4860).

Note: This course is not currently offered.

EDUC 4820S - Managing Diverse Classrooms

Credits: (3)

Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3900, and EDUC 3935).

Note: This course is not currently offered.

EDUC 4830 - Individually Prescribed Program

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Designed primarily for individual needs.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

EDUC 4840A/B INT - Student Teaching in Elementary Education

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.

Pre-requisite(s): EDUC Level 3 (EDUC 3116, EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of the Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4850.

Number of Times this Course May Be Repeated: May be repeated 99 times.

EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will help prepare teacher candidates for student teaching and ultimately licensure with two different types of activities. First, are weekly, 3-hour collaboration and topical seminars emphasizing on-going discussions and support on classroom management, preparing the TWS and INTASC portfolio, creating your career file, and other education issues. Second, is a two-day workshop to synthesize the semester and have your INTASC portfolio assessed.

Pre-requisite(s): EDUC 4300, EDUC 4320, EDUC 4330, and EDUC 4345.

Suggested Requisite(s): (Should be taken concurrently with EDUC 4840A/B.)

EDUC 4860 - Elementary Senior Synthesis Seminar

Credits: (1)

Synthesis of the TREC model for elementary programs with specific emphasis on beginning a professional career in teaching. Senior

project is required. To be taken for CR/NC only.

Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).

Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4820E, EDUC 4840A/B).

Note: This course is not currently offered.

EDUC 4870 - Directed Experiences with Students

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Directed experiences with elementary and secondary school students in cooperating schools.

Number of Times this Course May Be Repeated: Students may register for one unit of credit per semester for a maximum of three semester hours.

EDUC 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

For students accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department.

Fingerprinting/background check must be completed prior to working in the schools.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

EDUC 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

The specific title and credit authorized will appear on the student transcript. Available on CR/NC basis.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

Note: Consult the semester class schedule for the current offering under this number.

EDUC 4930 - Student Teaching in Secondary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4940 INT - Student Teaching in Secondary Education

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 Integrated Secondary Student Teaching Seminar.

EDUC 4950 - Integrated Secondary Student Teaching Seminar

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation and support for secondary clinical practice. Collaborative and topical seminars will emphasize on-going discussions and support on classroom management, ethics, preparing the TWS and INTASC portfolio, creating a career file, and secondary school issues.

Pre-requisite(s): Completion of Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with Student Teaching in Secondary Education (EDUC 4930 or EDUC 4940).

EDUC 4960 - Secondary Senior Synthesis Seminar

Credits: (1)

Synthesis of the TREC Model for elementary and secondary programs with specific emphasis on beginning a professional career in teaching. Senior Project is required.

Suggested Requisite(s): Should be taken concurrently with EDUC 4820S and EDUC 4840A/B.

Note: This course is not currently offered.

EDUC 5050 - Action Research in the Classroom

Credits: (2)

Students will explore effective classroom-based research techniques, complete a classroom-based case study, and promote the ongoing application of research to the improvement of teaching practice. This course is designed for cooperating teachers in the site-based teacher education program, and is graded CR/NC.

Note: This course is offered as needed.

EDUC 5060 - Effective Mentoring in the Classroom

Credits: (2)

Course covers strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.

Note: This course is offered as needed.

EDUC 5110 - Advanced Multicultural/Bilingual Education

Credits: (3)

Provides a knowledge base concerning the curricular issues and need for multicultural education, and explores various curriculum models and approaches for successful implementation of multicultural education across the curriculum.

EDUC 5120 - Culture and Language

Credits: (3)

Examines the effects and impact of historical, political, social, and economic issues which affect teaching and learning for students from diverse cultural and ethnic groups.

EDUC 5320 - Reading in the Content Areas

Credits: (3)

Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.

EDUC 5330 - Using Children's Literature in the Classroom

Credits: (2)

This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

EDUC 5340 - Assessment and Corrective Procedures in Reading

Credits: (3)

Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

EDUC 5360 - Literacy in the Elementary School

Credits: (3)

An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

EDUC 5770 INT - Field Experience in ESL/Bilingual Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will gain experience in teaching and working with ESL/bilingual students and apply what they have learned from relevant courses.

EDUC 5920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

The specific title and credit authorized will appear on the student transcript. Available on CR/NC basis.

Number of Times this Course May Be Repeated: May be repeated up to 18 credit hours.

Note: Consult the semester class schedule for the current offering under this number.

EDUC 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

The specific title and credit authorized will appear on the student transcript. Available on CR/NC basis. For graduate students.

Number of Times this Course May Be Repeated: May be repeated up to 18 credit hours.

Note: Consult the semester class schedule for the current offering under this number.

MED 6510D - Advanced Foundations in Special Education Practice & Law (Special Education License)

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course focuses on the learning and social characteristics of young people with exceptionalities - that is, disabilities (physical, mental, learning) or giftedness - and about public policy and services available to them. As future teachers, students will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

Pre-requisite(s): Admission to Masters of Education.

Electrical & Computer Engineering

ECE 1000 - Introduction to Electrical Engineering

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introductory course to Electrical & Computer Engineering topics including electronic terms, numbering systems, software tools, and documentation practices. College algebra and trigonometry are strongly recommended.

Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

ECE 1270 - Introduction to Electrical Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

The basics of analog circuits as an introduction to Electrical Engineering. Concepts of voltage, current, power, resistance capacitance and inductance. Circuit analysis techniques such as Kirchhoff's Laws, node voltages, and mesh currents. Thevenin's and Norton's equivalent circuits, sinusoidal steady state and phasors. Lecture and lab combination.

Pre-requisite(s): MATH 1210 and MATH 1220 (1220 may be taken concurrently).

ECE 1400 - Fundamentals of Engineering Computing

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Computer programming and computational tools applied to electrical and computer engineering problems. Topics include coding fundamentals, numeric libraries and debugging techniques. Lecture and lab combination.

Pre-requisite(s): MATH 1210.

ECE 2260 - Fundamentals of Electrical Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Fundamental electric-circuit techniques including: time domain transient responses for 1st and 2nd order circuits, Laplace transforms, Fourier series, and filters.

Lecture and lab combination.

Pre-requisite(s): ECE 1270 and MATH 1220.

Pre-requisite/Co-requisite: ECE 1400 and either MATH 2250 or MATH 2280.

ECE 2700 - Digital Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, and computer architecture.

Introduction to hardware description language and programmable logic devices. Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.

Pre-requisite(s): ECE 1000 or ENGR 1000. May be taken concurrently.

ECE 3000 - Engineering Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

An engineering seminar course designed to prepare the student for professional engineering employment. Topics to include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness, and continuous improvement. The students will research related topics and write a paper. Prerequisite: ECE 1270.

ECE 3090 - Project Management

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.

Pre-requisite(s): Permission from the department.

ECE 3110 - Microelectronics I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Fundamental semiconductor device characteristics including diodes, MOSFETs and bipolar transistors; small and large signal characteristics and design of linear circuits.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.

Pre-requisite(s): ECE 1270 and MATH 1220.

ECE 3120 - Microelectronics II

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Intermediate topics related to microelectronics including differential and multistage amplifiers, frequency response, feedback systems, power amplifiers, filters, and signal generation.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of filters and advanced circuits.

Pre-requisite(s): ECE 2260 and ECE 3110.

ECE 3210 - Signals and Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Topics related to the analysis of linear time invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms.

Lecture and lab combination. Laboratory activities to include the computer simulation, analysis, and numerical modeling of signals and systems.

Pre-requisite(s): ECE 2260 and MATH 2250 or MATH 2270 and MATH 2280.

ECE 3310 - Electromagnetics I

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

An introduction to electrostatics, magnetostatics and Maxwell's equations with specific applications to wave propagation and transmission line theory.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of RF radar subsystems.

Pre-requisite(s): MATH 2210, PHYS 2220, and ECE 2260.

ECE 3510 - Power Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

A study of AC and DC power systems and machines, including single and 3-phase power, power factor and correction, transformers, synchronous and induction machines, DC motors, power transmission lines, and analysis of power flow and faults. Lecture and Lab combination.

Pre-requisite(s): ECE 2260.

ECE 3610 - Digital Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to microprocessor architecture, arithmetic logic units, memory systems, input/output interfaces, peripheral devices, and communication.

Lecture and lab combination. Laboratory activities to include the programming and operation of microprocessor circuits.

Pre-requisite(s): ECE 2700 and CS 2250 or CS 1410.

ECE 3710 - Embedded Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Design and implementation of a microcontroller or microprocessor embedded system including assembly language programming, interfacing to peripherals, interrupt handling and debugging techniques.

Lecture and Lab. Laboratory exercises build toward a final embedded systems project.

Pre-requisite(s): (ECE 2700 or CS 2810) and (ECE 1400 or CS 2250 or CS 1410).

Pre-requisite/Co-requisite: ENGL 3100 or PS 3250.

ECE 3890 INT - Internship

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is a core course that is required for the BS Engineering degree. The student will need department approval before being allowed to register.

Pre-requisite(s): Permission from the department.

Number of Times this Course May Be Repeated: ECE 3890 can be

taken a maximum of three times for a total of three credits, but only one credit counts toward the major.

ECE 4010 CEL - Senior Project I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations. Before seeking departmental approval, students should have taken at least four 3000-level core ECE courses, MATH 3410, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's graduation would otherwise be delayed.

Pre-requisite(s): Permission from the department.

ECE 4020 CEL - Senior Project II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

Pre-requisite(s): ECE 4010.

ECE 4100 - Control Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Topics related to control theory, analysis, and testing of systems in the time domain, frequency domain and state space. Lecture and lab combination.

Pre-requisite(s): ECE 3110 and ECE 3210

ECE 5110 - Digital VLSI Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

Pre-requisite(s): ECE 3110 and ECE 3610.

ECE 5120 - Analog VLSI Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

Pre-requisite(s): ECE 3120.

ECE 5130 - Advanced Semiconductor Devices

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

Pre-requisite(s): PHYS 2220 and ECE 3110.

ECE 5140 - Fundamentals of Sensor Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustic, and/or bio-medical. Various sensor processing algorithms will also be studied.

Pre-requisite(s): ECE 3110 and PHYS 2220.

ECE 5210 - Digital Signal Processing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

Pre-requisite(s): ECE 3210.

ECE 5220 - Image Processing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

Pre-requisite(s): ECE 3210.

ECE 5310 - Electromagnetics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

Pre-requisite(s): ECE 3310.

ECE 5320 - Antennas and Wave Propagation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

Pre-requisite(s): ECE 3310.

ECE 5410 - Communication Circuits and Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

Pre-requisite(s): ECE 3210 and MATH 3410.

ECE 5420 - Digital Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides an in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired, wireless data communication and the physical networking layer. Topics include QPSK, QAM, PAM, CSMA/CD, SONET, ADSL, and/or MACAW. Spread spectrum concepts such as FHSS, DSSS, OFDM, MIMO and/or cooperative communication techniques may be included. Students will develop Matlab based models to emulate the concepts. The course will include group projects as well as individual assignments. The course would be beneficial particularly to students who are interested in doing work/research in fields related to communications, networks, and signal processing.

Pre-requisite(s): ECE 3210 and MATH 3410.

ECE 5510 - Advanced Power Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will explore advanced power systems concepts.

Pre-requisite(s): ECE 3510.

ECE 5620 - Digital System Testing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.

Pre-requisite(s): ECE 3610 - Digital Systems (4)

ECE 5710 - Real-Time Embedded Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An advanced course on real-time embedded system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

Pre-requisite(s): ECE 3710.

ECE 5800 - Individual Studies

Credits: (1-4)

The students will receive credit for approved studies in the Electrical & Computer Engineering programs. A maximum of four credits can count as an elective course in the Electrical & Computer Engineering programs.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of four credit hours.

ECE 5900 - Special Topics

Credits: (1-4)

Variable Title

A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs.

Lecture and lab combination. Laboratory activities support the selected course topic.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of four credit hours.

Note: A maximum of four credits can be counted for the Electrical & Computer Engineering programs.

ECE 6010 - Design Project

Credits: (2-6)

Students are required to complete a substantial engineering design project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in ECE 6010 at the time of their final design review. This course may be repeated.

Pre-requisite(s): Permission from the department.

Number of Times this Course May Be Repeated: May be repeated 11 times for a maximum of 20 credit hours.

ECE 6020 - Thesis

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students are required to perform original research that results in a thesis under the direction of a faculty advisor. Students receive T (temporary) grades until their thesis defense, after which these grades are changed retroactively. Students must be enrolled in ECE 6020 at the time of their thesis defense.

Pre-requisite(s): Permission from the department.

Number of Times this Course May Be Repeated: This course may be taken 3 times and up to 9 credits.

ECE 6110 - Digital VLSI Design

Credits: (3)

Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

Pre-requisite(s): ECE 3110 and ECE 3610.

ECE 6120 - Analog VLSI Design

Credits: (3)

Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

Pre-requisite(s): ECE 3120.

ECE 6130 - Advanced Semiconductor Devices

Credits: (3)

Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

Pre-requisite(s): PHYS 2220 and ECE 3110.

ECE 6140 - Fundamentals of Sensor Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustic, and/or bio-medical. Various sensor processing algorithms will also be studied.

Pre-requisite(s): ECE 3110.

ECE 6210 - Digital Signal Processing

Credits: (3)

Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

Pre-requisite(s): ECE 3210.

ECE 6220 - Image Processing

Credits: (3)

Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

Pre-requisite(s): ECE 3210.

ECE 6310 - Electromagnetics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

Pre-requisite(s): ECE 3310.

ECE 6320 - Antennas and Wave Propagation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

Pre-requisite(s): ECE 3310.

ECE 6410 - Communication Circuits and Systems

Credits: (3)

A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

Pre-requisite(s): ECE 3210 and MATH 3410.

ECE 6420 - Digital Communication

Credits: (3)

This course provides an in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired, wireless data communication and the physical networking layer. Topics include QPSK, QAM, PAM, CSMA/CD, SONET, ADSL, and/or MACAW. Spread spectrum concepts such as FHSS, DSSS, OFDM, MIMO and/or cooperative communication techniques may be included. Students will develop Matlab based models to emulate the concepts. The course will include group projects as well as individual assignments. The course would be beneficial particularly to students who are interested in doing work/research in fields related to communications, networks, and signal processing.

Pre-requisite(s): ECE 3210 and MATH 3410.

ECE 6510 - Advanced Power Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will explore advanced power systems concepts.

Pre-requisite(s): ECE 3510.

ECE 6620 - Digital System Testing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.

Pre-requisite(s): ECE 3610.

ECE 6710 - Real-Time Embedded Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An advanced course on real-time embedded system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

Pre-requisite(s): ECE 3710 or CS 3100.

ECE 6900 - Special Topics

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic.

Number of Times this Course May Be Repeated: May be repeated 10 times and up to 12 credit hours.

Electronics Engineering Technology

EET 1110 - Basic Electronics

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the concepts and fundamentals of electronic devices, circuits and systems. An electronics overview course for technology majors. Topics include direct current electricity, alternating current electricity, transistors and integrated circuits, amplifiers and oscillators, transmitters and receivers, digital logic circuits, electronic memory, and computers.

Pre-requisite(s): Credit for or concurrent enrollment in MATH 1010 or higher.

EET 1130 - Digital Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, programmable logic devices, and computer architecture.

Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.

Pre-requisite/Co-requisite: Prerequisite: Credit for or concurrent enrollment in MATH 1010 or equivalent or any higher math.

EET 1140 - DC Circuits

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Introduction to DC circuit fundamentals, analysis, theorems, laws, components, measuring devices, and equipment. The introduction

and use of measuring instruments and power supplies. Lecture and lab combination. Laboratory activities to include circuit design, construction, and analysis of DC circuits.

Pre-requisite/Co-requisite: Prerequisite: EET 1110 and credit for or concurrent enrollment in MATH 1060 or MATH 1080 or any higher math.

EET 1850 - Industrial Electronics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Industrial electronics course for Mechanical and Manufacturing Engineering Technology majors. Introduction to DC and AC circuits, machines, and power systems.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of DC/AC circuits and machinery.

Pre-requisite(s): MATH 1010 or equivalent or any higher math.

EET 2010 - AC Circuits

Credits: (3)

The course serves as an extension of circuit analysis methods taught in EET 1140 to AC networks. The introduction of complex numbers and phasor notation at the beginning of the course is followed by AC circuit analysis techniques and the determination of the frequency response for passive AC networks. The course is a combination of lecture and laboratory formats. Laboratory activities will include the design, computer simulation, validation and analysis of passive AC networks.

Pre-requisite(s): EET 1140 and credit for MATH 1060 or MATH 1080.

EET 2110 - Semiconductor Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to the design and analysis of semiconductor circuits using diodes, transistors, op-amps, field effect devices, thyristors, and regulators.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.

Pre-requisite(s): EET 1130 , EET 1140, MATH 1060 or higher.

EET 2120 - Power and Motors

Credits: (4)

Typically Taught Fall Semester: *Ful Sem*

Introduction to AC and DC motors, relays, transformers, power measurements, National Electrical Code, ladder logic, wiring, and programmable logic controllers (PLCs).

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of basic power circuits and machinery configurations.

Pre-requisite(s): EET 1140, MATH 1060 or higher.

EET 2130 - PC Board Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to the design of printed circuit boards and packaging with emphasis on the design, simulation, analysis and packaging of circuits.

Lecture and lab combination. Laboratory activities include the design, construction, and testing of prototype circuit boards. CAD programs will be used for the design and layout of circuit boards.

Pre-requisite(s): EET 2110.

EET 2140 - Communications Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Introduction to digital and wireless communication circuits. Topics to include radio frequency circuits, modulation, detection, transmitters, receivers, transmission lines, antennas, and measurement instruments. Digital communications topics to include parallel and serial data transmission.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of communication circuits.

Pre-requisite(s): EET 2110.

EET 2150 - Embedded Controllers

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

A study of microprocessors, embedded controllers, operational characteristics, computer architecture, machine code programming, memory devices, and interfacing.

Lecture and lab combination. Laboratory activities include the design, construction, and analysis of microprocessor based systems. Analysis techniques include the use of assemblers, cross-assemblers, and emulators.

Pre-requisite(s): Credit for or Current Enrollment in EET 2110.

EET 2160 - Troubleshooting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to troubleshooting techniques and skills. Topics include the use of diagnostic electronic test equipment such as multi-meters, power supplies, signal generators, digital storage oscilloscopes, and spectrum analyzers. Students will diagnose and repair electronic circuits and systems.

Lecture and laboratory combination.

Pre-requisite(s): EET 2110, EET 2120, EET 2170.

EET 2170 - Industrial Controls

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to industrial control systems for manufacturing and automated test applications. The course will focus on LabVIEW control systems and Programmable Logic Controllers (PLCs).

Students will configure, program, and troubleshoot industrial control systems.

Lecture and lab combination.

Pre-requisite(s): EET 1130, EET 1140.

EET 2180 - Solar PV Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is for each student to learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. This course discusses the limitation and the impacts of using fossil fuel energy and its possible impact on global climate change. Solar energy can provide a long term solution and minimize climate change. This course will enable students to build an essential foundation towards how to design the solar PV systems for various applications. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting. Incentives, rebates and

policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 2190 - Solar PV Technical Assessments

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to educate each student how to be a solar electric professional with demonstrated expertise in the siting, design, analysis and performance of PV systems from site specific information, analyzes customer needs and energy usage for the purpose of advising and providing customers with the most appropriate solution for their situation. Each student will also learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components and configurations, grid-tied and battery-based systems, load analysis, qualifying the customer, site analysis, conceptual PV system design, financial costs, incentives and savings, financial benefit analysis and financing, non-financial benefit analysis, performance analysis, prepare proposals, and professional sales skills. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 3010 - Circuit Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Advanced calculus-based topics related to electronic circuit analysis, Laplace transforms, differential equations, Fourier series, Fourier transforms, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): EET 2110, EET 2140, Credit for or Current Enrollment in in MATH 1210.

EET 3020 - Active Filters

Credits: (4)

Continuation of Circuit Analysis, EET 3010. Topics include active and passive filters, Pole-zero analysis, stability, Bode diagrams, frequency response, and applications.

Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): EET 3010.

EET 3030 - FPGA and ASIC Design

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to field programmable gate arrays (FPGA) and application specific integrated circuit (ASIC) design. Lecture and lab combination. Laboratory activities to include the use of computer design tools to design, model, simulate, and program gate arrays and application specific integrated circuits.

Pre-requisite(s): EET 2150.

EET 3040 - Instrumentation and Measurements

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to electronic data acquisition, data analysis, error analysis, signal measurement, and automatic testing techniques.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of measurement circuits, data acquisition circuits, instrumentation devices, and automatic testing.

Pre-requisite(s): EET 2110, EET 2170.

EET 3050 - Microprocessor Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Microprocessor system development using modern software design principles and high level programming languages. Topics include peripheral interfacing, real-time operating systems and debugging techniques.

Lecture and lab combination. Laboratory activities to include design, simulation, computer programming, analysis, and troubleshooting.

Pre-requisite(s): EET 2150 and either CS 1410 or CS 2250.

EET 3060 - Real-Time Embedded Controllers

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An introduction to real-time kernels and operating systems. Priority-based pre-emptive scheduling, intertask communication, and intertask synchronization will be studied. Other topics include priority inversions, semaphores, mutexes, context switches, rate monotonic analysis (RMA), various kernel services, finite state machines, and nested state machines.

Pre-requisite(s): EET 2150.

EET 3070 - Engineering Technology Research

Credits: (3)

Engineering problem solving using the Internet, professional journals, and human networking. Three styles of writing emphasized; technical descriptions, historical perspectives of technology, and technical defensible arguments.

Pre-requisite(s): AAS degree in CET or EET.

EET 3080 - Embedded Networks

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course provides an in-depth study of several serial communication standards and how to implement them in embedded systems. The standards addressed in this class include RS232, RS485, Controller Area Network (CAN), and Ethernet. Emphasis will be placed on utilizing the stacks and protocols for each standard. The channel bandwidth, noise, and data error rate will be addressed. Wireless methods of serial communication will be surveyed.

Pre-requisite(s): EET 2150.

EET 3090 - Project Management

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

EET 3090 Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.

Pre-requisite(s): EET 1110, and EET 1140, and EET 2010.

EET 3100 - Renewable Energy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of the EET 3100 Renewable Energy course is for each student to learn the fundamental knowledge and technology of various types of renewable energy including solar energy, wind power, hydroelectric, geothermal energy, biomass and ocean energy. This course discusses the limitations and the impacts of using fossil fuel energy and its possible impact on global climate change. This course will enable students to build an essential foundation towards the specific applications of renewable energy such as solar PV (Photovoltaic) systems, wind turbine systems and micro-hydro systems. Incentives, rebates and policies from federal, state and local power companies will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in the area of renewable energy.

Pre-requisite(s): EET 1110 or EET 1850.

EET 3180 - Advanced Solar PV Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is for each student to learn the advanced knowledge and technology of solar PV (Photovoltaic) systems. This course will enable students to verify system design, manage project, install electrical and mechanical components, complete system installation, and conduct maintenance and troubleshooting. The topics in this course includes PV markets and applications, safety requirements, the advanced technology of solar PV systems, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting, and CAD software for PV system design. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 2180.

EET 3810 - Advanced Industrial Controls

Credits: (3)

Experimental Course, Contact Department for More Information

The focus of this course is on Advanced Industrial Control Systems hardware and associated software. Students will combine individual hardware control system components and develop programming skills to combine platforms into integrated automated systems. They will gain knowledge of advanced robotics, servo systems, PLCs, National Instruments cRIO, and HMI hardware. Students will learn the techniques behind laying out a control system backplane through the development of a simulated automation system.

EET 4010 - Senior Project I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.

Pre-requisite(s): EET 3090.

EET 4020 - Senior Project II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

A continuation of EET 4010 Senior Project I. Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.

Pre-requisite(s): EET 4010.

EET 4030 - Controls & Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Introduction to automatic control theory, analysis, and testing, pole, zero, Bode plots, and frequency response. The design and application of programmable controllers using ladder logic, sequential functions charts, PID, and data highway.

Lecture and lab combination. Laboratory activities to include computer simulation, servo-system construction, and analysis.

Pre-requisite(s): EET 3010, MATH 1210, PHYS 2210.

EET 4040 - Signals and Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

An introduction to digital signal processing, digital filters, discrete and fast Fourier transforms, quantization, introduction to adaptive filters, industrial applications, and DSP hardware.

Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of digital signal processing circuits.

Pre-requisite(s): EET 3010, MATH 1210.

EET 4060 - Advanced Communications

Credits: (4)

Introduction to satellite communications, spread spectrum techniques, digital satellite communications, antennas, small signal amplifiers, Smith charts, and "S" parameter analysis.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation and analysis of wireless communications circuits and systems.

Pre-requisite(s): EET 3010.

EET 4090 - Systems Design and Integration

Credits: (3)

An introduction to the fundamentals of large-scale systems. The first part deals with systems analysis, design and integration with emphasis on input/output models, transfer functions, and interface issues. The second part discusses a variety of systems design and management approaches, particularly those concerned with system requirements, interface control, evaluation, quality assurance through configuration management, audits and reviews, and the human role in systems.

Pre-requisite(s): EET 3090.

EET 4800 - Individual Studies

Credits: (1-4)

Typically Taught Spring Semester: *Full Sem*

The student will receive credit for approved studies in an area not covered in the EET program. A maximum of four credits can be counted as electives for EET majors.

EET 4890 INT - Cooperative Work Experience

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The student will receive credit for approved electronics industrial experience. Professional development activities will include resume writing, goal setting, progress reports, and a supervisor's evaluation.

Pre-requisite(s): Permission from the department.

Number of Times this Course May Be Repeated: The course can be taken a maximum of three times for a total of 6 credits.

EET 4900 - Special Topics

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

A one-time special study course designed to introduce a new relevant topic that is not covered in the EET program.

Lecture and lab combination. Laboratory activities to support the selected course topic.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of seven credit hours.

Note: A maximum of four credits can be counted for EET majors.

Emergency Care (Paramedic)

PAR 1000 INT - Emergency Medical Technician

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course teaches the student to recognize and instruct the response to emergency calls to provide efficient and immediate care to the critically ill and injured, and deliver transport needs for the patient to the appropriate medical facility. The student will be able to determine the nature and extent of illness or injury and establish priority for required emergency care. Theory will include the emergency medical care to the adult, infant and child, medical, and trauma patients. This course meets all of the requirements of the National EMS Education Standards. Successful evaluation of professionalism, interpersonal relationships, skills, and knowledge must be completed for recommendation of certification. (Must be taken with PAR 1001.)

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

PAR 1001 - Emergency Medical Technician Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Typically Taught Summer Semester: *1st Blk*

At the completion of this course the student will be able to demonstrate competency managing emergencies, utilizing all Basic Support equipment and skills in accordance with all behavioral objectives in the current National EMS Education Standards. In addition to the lab, this course requires that the student have patient interactions in a clinical setting. Based on assessment finding, renders emergency medical care to the adult, infant and child, medical, and trauma patients. Successful evaluation of professionalism, interpersonal relationships, skills, and knowledge must be completed for recommendation of certification. (Must be taken with PAR 1000.)

PAR 1005 INT - EMT-Basic Field Experience - I

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Minimum of 120 hours of supervised EMT-Basic patient care experience provided through assigned day shifts on the ambulance and/or pre-hospital setting. A preceptor evaluates basic life support knowledge, skills and affective abilities.

Pre-requisite(s): PAR 1000/PAR 1001 and HTHS 1101, HTHS 1110/HTHS 1111 and 70% minimum on EMT-B assessment exam. Department permission required.

PAR 1006 INT - EMT-Basic Field Experience - II

Credits: (3)

Minimum of 120 additional hours of continued supervised EMT-Basic patient care experience provided through assigned shifts on the ambulance and/or pre-hospital setting. A preceptor evaluates basic life support knowledge, skills and affective abilities.

Pre-requisite(s): PAR 1005, ENGL 1010, and MATH 0990 or MATH 1010.

Note: This course is not currently being offered.

PAR 1010 - Emergency Medical Technician - Intermediate Introduction

Credits: (2)

Introduction of Intermediate EMT concepts of basic and advanced life support utilizing cognitive knowledge objects using the State Department of Health and current National Standard EMT-I Curriculum. Application of pre-hospital care will be demonstrated through written assignments and exams. Course may be challenged for credit. Course is required, or equivalent work experience, before admission into the paramedic program.

Pre-requisite(s): Must have Basic EMT certification.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

Note: PAR 1010 combined with PAR 1011 will provide a certificate of 60 hours of continuing medical education hours toward recertification requirements for the Utah State Department of Health. This course is not currently being offered.

PAR 1011 - Emergency Medical Technician - Intermediate Introduction Lab

Credits: (2)

This course requires clinical hours with an emergency facility and ambulance as scheduled. Application of basic EMT skills involving pre-hospital care with staged and real emergencies and demonstration of psychomotor skills through laboratory, ambulance riding time, and clinical assignments. Clinical activities are adapted to previous documented work experiences. This course may be challenged for credit. This course is required, or equivalent work experience, before admission into the paramedic program.

Pre-requisite(s): Must have Basic EMT certification.

Note: PAR 1010 combined with PAR 1011 will provide a certificate of 60 hours of continuing medical education hours toward recertification requirements for the Utah State Department of Health. This course is not currently being offered.

PAR 1020 - Emergency Medical Technician - Intermediate

Credits: (2)

Curriculum includes but is not limited to the US Department of Transportation National Standard Curriculum for the EMT-Intermediate. This course consists of the cognitive knowledge and theory components of the USDOT Curriculum and builds upon the EMT Basic knowledge. State certification eligibility of EMT

Intermediate upon successful completion of both PAR 1020 and PAR 1021. Students will demonstrate mastery of cognitive knowledge skills through written assignments and examinations. Course format consists of didactic lecture. Paramedic Program application, faculty review, and committee selection are required to be admitted to this course.

Pre-requisite(s): PAR 1011 or equivalent.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 1021 - Emergency Medical Technician - Intermediate Lab

Credits: (2)

Curriculum includes but is not limited to the U.S. Department of Transportation National Standard Curriculum for the EMT-Intermediate. Builds upon the EMT Basic psychomotor skills. State certification eligibility of EMT I upon successful completion of both PAR 1020 and PAR 1021. This course consists of clinical instruction and supervised field experiences in an advanced life support rescue unit which functions under a medical command authority. Students will demonstrate their mastery of the educational psychomotor skills through practical exams and staged and real emergencies. Must have department approval by application process involving an admissions committee final selection.

Pre-requisite(s): PAR 1020 or equivalent.

Note: This course is not currently being offered.

PAR 1030 - Pediatric Advanced Life Support (PALS)

Credits: (1)

Subject and case based approach to American Heart Association protocols and skills required for successful resuscitation of child and infant. The cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock, or cardiopulmonary arrest.

Pre-requisite(s): Basic Life Support course completion card.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 1031 - Advanced Cardiac Life Support (ACLS)

Credits: (1)

Subject and case based approach to American Heart Association protocols and skills required for successful resuscitation of the adult. This course is designed to help all participants succeed in acquiring the cognitive knowledge psychomotor skills needed by medical professionals in adult resuscitation attempts.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 2000 - Introduction to Paramedic Practice

Credits: (4)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Introduces the paramedic student to basic pathophysiology, pharmacology, research methods, airway management, plus patient interaction and assessment skills. Includes professional and wellness considerations for the individual practitioner and patient. Basic knowledge of medical incident command, rescue awareness, hazardous materials incidents, and crime scene awareness is included.

Meets all national EMS Education Standards. Prospective students must be EMT certified, accomplish Dumke College of Health Professions advising, complete the department application process, and then be accepted to the program prior to registration.

PAR 2020 - Traumatic Emergencies

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Prepares the student to recognize, assess and provide paramedic interventions related to bodily traumatic injuries. Current PHTLS/BTLS/ABLS principles are utilized.

Pre-requisite(s): PAR 2000 and PAR 3010.

PAR 2030 - Special Populations in Paramedic Practice

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Prepares the student to recognize, assess and provide paramedic interventions related to the special challenges posed by neonate, pediatric, obstetric, geriatrics, and psychiatric patients. Acute interventions for the chronically ill and home care patient are discussed. Current AHA, PEPP, and national EMS Education Standards are utilized.

Pre-requisite(s): PAR 2000 and PAR 3010.

PAR 2040 - Paramedic Skills and Simulation Lab

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Skills application using the theory of paramedic practice. This course will complete the National Registry Paramedic Psychomotor Competency Portfolio. Students must pass all skills before advancing into clinical and field internship rotations.

Pre-requisite(s): PAR 2000.

Number of Times this Course May Be Repeated: (\$225 lab fee)

PAR 2100 - Capstone Course in Paramedic Practice

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pathophysiology and advanced concepts applied to recognition of Advanced Life Support patient problems and treatment modalities. Student research and presentation projects are designed to meet professional goals and experiences. All paramedic terminal competencies will be re-verified prior to a recommendation to certify. Student must pass the physician oral examination to be recommended for certification testing.

Pre-requisite(s): PAR 2000, PAR 3010, PAR 2020, PAR 2030, PAR 2040.

PAR 2110 INT - Paramedic Clinical Experience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical rotations in various medical settings provide the student with the opportunity to perform skills and apply knowledge of paramedic practice. Includes, but is not limited to, areas in the operating room, emergency department, labor/delivery, psychiatric, pediatric, burn and cardiac cath units.

Pre-requisite(s): PAR 2000, PAR 3010, PAR 2020, PAR 2030, PAR 2040.

PAR 2120 INT - Paramedic Field Internship

Credits: (9)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

Rotations with various paramedic Fire/EMS agencies providing rescue vehicle response to advance the skills and performance of paramedic practice. Successful evaluation of professionalism, interpersonal relationships and problem solving under stress, must be completed for recommendation to test for certification/licensure. Student will nominally complete 480 hours of ride time and successfully complete 50 ALS Team Leads.

Pre-requisite(s): PAR 2000, PAR 2020, PAR 2030, PAR 2040, PAR 2110, PAR 3010.

PAR 3010 - Cardiac and Medical Emergencies

Credits: (6)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

Integrates assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment and/or disposition plan for a patient with a cardiac or medical complaint. This course prepares the paramedic student to recognize, assess, develop and implement paramedic interventions related to cardiac and other medical emergencies. Topical areas include the cardiac, circulatory, digestive, endocrine, HEENT, hematologic, respiratory, and urinary systems. Concepts of infectious diseases, toxicology, anaphylaxis, environmental exposure, and shock will also be presented. Current AHA Guidelines and the 2010 National EMS Standards will be fully utilized.

Pre-requisite(s): PAR 2000.

Number of Times this Course May Be Repeated: May be repeated once for credit.

PAR 3110 - Critical Care Transport Course

Credits: (6)

Typically Taught Summer Semester: *1st Blk*

This course will prepare experienced paramedics and registered nurses to become part of a highly functioning critical care transport team, often transporting high risk patients. Topics covered include; 1) History and role of critical care transport; 2) General principles of critical care transport, 3) Patient care principles 4) Trauma emergencies; 5) Medical emergencies; 6) Environmental emergencies 7) Special populations, and 8) Medical, legal and patient care issues in critical care transport. While the course is primarily oriented to ground transportation, the content presented will allow a student take the National Flight Nurse/Paramedic exam.

Pre-requisite(s): Paramedic or registered nurse (2-3 years experience nominal) or department approval.

Number of Times this Course May Be Repeated: May be repeated up to two times.

PAR 3120 - Tactical Emergency Medicine

Credits: (3)

This rigorous course provides the principles of tactical medicine. Topics include instruction in the tenets of tactical emergency medicine, particularly in providing acute care in tactical combat situations and the medical operations support of tactical teams. This course is designed to provide the EMS provider with a variety of skills necessary to support a tactical law enforcement team.

Pre-requisite(s): EMT-Basic certification

Number of Times this Course May Be Repeated: May be repeated up to two times.

Note: This course is not currently being offered.

PAR 3130 - Mobile Integrated Healthcare

Credits: (2)

Typically Taught Spring Semester: *1st Blk, Online*

Mobile Integrated Healthcare (MIH) is the provision of healthcare using patient-centered, mobile resources in the out-of-hospital environment. This course is intended to provide the Emergency Healthcare Services student the tools needed to perform an organizational readiness assessment leading to the development of a community MIH program. The history of MIH, potential stakeholders, types of MIH programs along with data collection, QA/QI, and reimbursement will be explored. As the course capstone, each student will submit a MIH implementation plan that could be utilized in their current EMS response area. (This course does not have a clinical component nor leads to any potential state licensure.)

Pre-requisite(s): Allied Health or Nursing background suggested or departmental approval.

PAR 4110 - Emergency Medical Services Management Topics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The principles of management and process that contribute to the effectiveness of day-to-day operations within an EMS organization. Topics include human resource management, communications systems, deployment strategies, and risk management. Additional topics include an emphasis on demand analysis, staffing, medical direction, reimbursement, capital investment, and cost control.

Number of Times this Course May Be Repeated: May be repeated up to two times.

PAR 4120 - Emergency Medical Service Teaching Topics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Using the USDOT/NHTSA National Guidelines for Educating EMS Instructors, this course will prepare emergency medical service instructors for classroom and skill lab teaching. Topics discussed include; 1) instructor roles and responsibilities; 2) the student; 3) foundations of education; 4) delivering the message; 5) evaluation and 6) course administration. Students will demonstrate EMS teaching in both a class room and skill lab environment.

Pre-requisite(s): EMT-Basic certification.

Number of Times this Course May Be Repeated: May be repeated up to two times.

PAR 4130 - Capstone Seminar in Emergency Medicine Research

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Online*

This course is designed to offer students the basic principles and methods of empirical inquiry in emergency healthcare. The course will provide an understanding of emergency medicine research through serious exploration of its language, ethics, and methods. The course examines the processes of quantitative, qualitative, and mixed methods approaches to experimental and observed analysis. Students will develop the skills to begin to critically review literature relevant to emergency medicine research and determine why evidence-based practices are important for the development and progression of the emergency healthcare discipline.

Pre-requisite(s): Must be enrolled in Bachelor of Science in Emergency Healthcare Services or by departmental approval.

PAR 4850 - Study Abroad

Credits: (1-6)

Variable Title

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of six credit hours.

Note: This course is not currently being offered.

Engineering Tech Culture

ETC 2001 SS/DV - Engineering Culture

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Engineering Culture describes the culture of engineering and the social and scientific practices as well as beliefs that engineers ascribe to in pursuing their profession. It also describes how culture is shaped by engineering and by the technologies that engineers make and maintain. This course examines the professional cultures that engineers inhabit as well as the way that a wider culture is shaped by engineering.

English

ENGL 0900 ND - Fundamentals of College Reading and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to help students develop fundamental reading, writing, and thinking skills. Students in this course work closely with Skills Enhancement Center tutors in both group and one-to-one settings. Students with ACT scores in either English or Reading of 12 and below are required to take ENGL ND0900. Students without ACT scores are also placed in this course unless they are otherwise

placed by Accuplacer. Students must complete this course with a grade of C or better before enrolling in ENGL 0955.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 0955 ND - Developmental College Reading and Writing

Credits: (6)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

A course to help students develop reading, writing, and critical thinking skills prerequisite for entry-level college courses. Students in this course are supported by the Skills Enhancement Center. Students who pass ENGL 0900 with a grade of C or better, whose ACT scores in English or Reading run from 13 to 16, or who are placed by Accuplacer are placed in ENGL ND0955. Students must complete ENGL ND0955 with a grade of C or better before enrolling in ENGL 1010.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 1000 - College Reading

Credits: (1-3)

The English department recommends this course as an excellent entry-level college course. Students in this course can expect to improve their reading comprehension, their critical thinking skills, their breadth and depth of knowledge, and their aptitude for learning. **Number of Times this Course May Be Repeated:** May be repeated 4 times up to 6 credit hours.

Note: Check with Department for course availability.

ENGL 1010 EN - Introductory College Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*

Students will learn practices of successful academic writing. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.

Pre-requisite(s): To enter 1010 the student must have 17 or higher on both ACT English and Reading, or equivalent. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010.

ENGL 2010 EN - Intermediate College Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Online*

This course will focus on writing arguments, conducting research, and documenting sources. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers.

Pre-requisite(s): ENGL 1010 with "C" grade or better, AP Language and Composition or Literature and Composition examination with a score of 3 or better, ACT English and Reading score of 29 or better, CLEP with essay test with a score of 50 or better, or articulated transfer credit from another regionally accredited college or university.

ENGL 2100 - Technical Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Check with department for course availability.*

This course prepares students for on-the-job writing and emphasizes the importance of audience analysis, graphics, and document design. Students study and practice writing and designing a variety of technical documents as they learn to write clearly, concisely, and persuasively to a specific audience for a specific purpose.

Pre-requisite(s): ENGL 1010 or 2010.

ENGL 2120 - Introduction to Writing and Document Design

Credits: (3)

Typically Taught Fall Semester: *Check with department*

Typically Taught Spring Semester: *Full Sem*

Through literary texts, including fiction, non-fiction and poetry as well as film and other digital mediums, this course will introduce students to the ways writing fits into various types of organizations, which are increasingly focused around knowledge work, or work that analyzes and communicates rather than manufactures products. Within the framework of writing, students will learn how organizations are networked and situated, and how collaboration, systems of power, organizational structures, and various audiences and stakeholders function.

ENGL 2130 - Media and Technology in Texts

Credits: (3)

Typically Taught Fall Semester: *Check with department*

Typically Taught Spring Semester: *Full Sem*

Through the study of literary texts such as fiction, poetry, nonfiction, and film, students will gain an understanding of key concepts in the study of media and technology, including historical and forward-looking perspectives. These might include such topics as the impact of technology on society and culture, how new technologies shape information and how new media forms affect reading, writing and analysis.

ENGL 2140 - Introduction to Professional and Technical Editing

Credits: (3)

Typically Taught Fall Semester: *Check with department*

Typically Taught Spring Semester: *Full Sem*

This course focuses on basic editing in the workplace. We examine genres, electronic editing, version control, collaboration, synchronous and asynchronous writing/editing, and literature related to editing.

ENGL 2150 - Gender and Culture in Workplace Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Gender and culture affect professional and technical writing and an understanding of the many roles we encounter and play through gender and culture is essential for writers. This course will overview for students the many ways gender and culture can be applied to and explored in professional and technical writing and provide practice identifying and analyzing such issues through literature.

ENGL 2160 - Introduction to Web-Based Technical Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

This course will first cover how organizations create and share information on the web and social media, and how the differences in reader expectation and reading behavior between printed and online texts help shape the information. The course will then focus on characteristics of good online content, analysis of audience and purpose, and strategies for writing and designing content to meet the needs and expectations of the readers. Throughout the semester, students will practice, individually and collaboratively, good writing and designing skills in learning to become effective writers of a workplace.

ENGL 2200 HU/DV - Introduction to Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

An introduction to three major literary genres, fiction, poetry, and drama, drawn from a diverse range of authors from various cultures and historical periods. Students will learn how to read literary texts closely and critically, and how literature--reading more generally--can have a meaningful part of their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2220 HU/DV - Introduction to Fiction

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to short stories, novellas, and novels, selected from a diverse range of authors from various cultures and historical periods. Students will learn how to read fiction carefully and critically, and how fiction can have a meaningful part in their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2230 HU/DV - Introduction to Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

An introduction to drama from around the globe, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze and appreciate plays and to recognize their contemporary relevance. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2240 HU/DV - Introduction to Poetry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to poetry written in English, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to appreciate the craft of poetry as a valid and important way of talking about human experiences. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2250 CA - CW: Introduction to Creative Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

In this Gen Ed course students will learn in a workshop setting to write original pieces in three genres that may include the following: short stories, poetry, creative non-fiction, and plays. As models for their own writing, students will read exemplary pieces from each genre taught from different eras and cultures, in order to build a vocabulary base. Thus, students will become familiar with aspects of storytelling such as story arc, characterization, and dialogue; and aspects of poetry such as rhyme, rhythm, and figurative language, for use in their own writing. Through regular exercises, students will generate ideas for creating original writing such as stories, poems, plays, and creative essays, and will refine oral and communicative skills. Students will critique and be critiqued by the entire class in order to revise early drafts, will analyze selected texts, and will evaluate their own and others' work.

Pre-requisite(s): ENGL 1010 or 2010 with a "C" grade or better or equivalent.

ENGL 2260 CA - CW: Introduction to Writing Short Fiction

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course introduces students to writing original short fiction in a workshop setting. Students will read as models a judicious sampling of stories by authors such as Edgar Allen Poe, William Faulkner, Toni Morrison, Truman Capote, and others as selected by the professor in order to build a vocabulary for analyzing aspects of storytelling such as plot, story arc, characterization, dialogue, meaningful detail, and story pacing. Using guided writing exercises and journaling, students will develop ideas from these sources to create original fiction for a series of in-class workshops. Students will critique, and be critiqued by, the entire class, in order to revise their stories.

Pre-requisite(s): ENGL 1010 or 2010 with a "C" grade or better or equivalent.

ENGL 2270 CA - CW: Introduction to Writing Poetry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course introduces students to writing original poetry. Students will read as models a judicious sampling of poems by contemporary poets as selected by the professor in order to build a vocabulary for analyzing aspects of poetic craft, such as form, line, prosody, image, sound, narrative, and lyric. Using guided writing exercises and journaling, students will develop their ideas into original poems for a series of in-class writing workshops. Students will critique and be critiqued by their peers in order to revise their poems.

Pre-requisite(s): ENGL 1010 or 2010 with a "C" or better or equivalent.

ENGL 2420 - Young Adult Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Young Adult Literature will introduce students to a variety of literary works within this popular and compelling genre. Through close reading, we will examine various features, themes, and representations of adolescence and adulthood. We will also consider different pedagogical approaches to these texts to uncover broader literary and sociocultural dimensions.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 2510 HU/DV - Masterpieces of Literature

Credits: (3)

An introduction to select masterworks, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze various genres (fiction, drama, and poetry) and to reflect on the nature of literary excellence. Course includes relevant practice in the principles of successful writing, including, drafting, revising, and editing.

Pre-requisite(s): ENGL 1010 or 2010 with a "C" grade or better or equivalent.

Note: Check with Department for course availability.

ENGL 2710 HU/DV - Perspectives on Women's Literature

Credits: (3)

Typically Taught Fall Semester: *Online*

The purpose of this class is to introduce students to the rich contributions of women to the field of literature. The course will cover a variety of women writers that may range from the medieval period to the present and will feature literary genres such as fiction, poetry, drama, non-fiction, and journals/diaries. In discussing and writing about these works, students will consider why women were excluded or marginalized in the canon for such a large part of literary history and how society, family, and politics impacted the way these women wrote.

Pre-requisite(s): ENGL 1010 or 2010 with a "C" grade or better or equivalent.

ENGL 2750 HU - Topics and Ideas in the Humanities

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This variable topics course focuses on topics and ideas in the humanities. The course may consider social, political, artistic, environmental, or philosophical themes across disciplines. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion and to probe the various intentions of any act of writing.

Number of Times this Course May Be Repeated: May be taken twice for a total of 6 credits.

ENGL 2810 - Writing Song Lyrics

Credits: (2)

Experimental Course, Contact Department for More Information

For musicians and non-musicians alike, this course teaches the form and craft of writing song lyrics in a variety of genres, including ballads, folk, blues, country, rock, etc. Students will study an array of songs to build key vocabulary, practice prosody, and explore major themes in songs to produce their own original songs, and to arrange for one set of lyrics to be accompanied by musical performance.

ENGL 2830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual readings supervised by a faculty member.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated twice up to 6 credit hours.

ENGL 2890 - Cooperative Work Experience

Credits: (1-6)

Open to all students in the English Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: Check with department for current course offerings.

ENGL 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours with different topics.

Note: Check with department for current course offerings.

ENGL 2920S INT - Community Service

Credits: (3)

Students will receive an overview of community service and explore opportunities for service learning in the community. A weekly seminar with required readings and writings as necessary and 50 hours of community service.

Pre-requisite(s): ENGL 2010 or equivalent.

Note: Check with department for current course offerings.

ENGL 2999 INT - Capstone in Workplace Communication and Writing

Credits: (3)

This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with COMM 2999.

Pre-requisite(s): Permission of Instructor Required.

Note: Check with Department for course availability.

ENGL 3010 - Introduction to Linguistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course introduces students to the scientific study of language. It looks across languages to explore what they have in common, as well as what distinguishes them from one another. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be applied to other areas, such as language acquisition, language history, language and culture, language and society, language and thought, or language and literary expression.

Pre-requisite(s): ENGL 2010 or equivalent.

Note: Students in English, foreign languages, anthropology, philosophy, psychology, and history are encouraged to take this course.

ENGL 3020 - Teaching English/Language Arts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is designed for English teaching majors and minors. It introduces students to the nature of language and linguistics. It also reviews the elements of traditional grammar. This course surveys prescribed application for prospective secondary school English teachers, including language variation, contemporary alternatives to traditional grammar, and linguistics and composition. Students are required to complete a grades 7-12 school field experience.

Pre-requisite(s): ENGL 2010 or equivalent, ENGL 2420, and admitted to Secondary Education program.

ENGL 3030 - Structure of English

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3040 - History of the English Language

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing, as well as students in communication, pre-law, and criminal justice.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3080 - Critical Approaches to Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective. Primarily for English majors and minors. Recommended to take early in major.

Pre-requisite(s): ENGL 2010 or equivalent.

Note: Recommended prerequisites: ENGL 2200, ENGL 2220, ENGL 2230, or ENGL 2240.

ENGL 3100 - Professional and Technical Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online, Check with department for course availability.*

This course introduces students to the basic theories and practices of technical communication. Using audience, purpose, and context as their guides, students create various professional and technical documents, such as formal and informal reports, instructions, proposals, job application materials, brochures, web media, and presentations. Working both individually, and in collaboration, students analyze their rhetorical situation as they create usable and appropriate professional documents. This course provides the practical and theoretical basis for the minor and emphasis in Professional and Technical Writing.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3140 - Professional and Technical Editing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Building on the knowledge of technical writing genres and the writing strengths developed in ENGL 3100, this course introduces students to copyediting, comprehensive editing, and the basics of collaborative editing and document management. Technical editing is designed to strengthen students' writing, editing, and visual design skills through attention to detail and application of style, grammar, and usage principles. Additionally, this course focuses on hard copy

and soft copy editing principles.
Co-Requisite(s): ENGL 3100.

ENGL 3190 CEL - Document Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course teaches a rhetorical approach to document design. Using the rhetorical principles of audience, purpose, and context, students will discuss sample documents, analyze the layout of documents (both professional documents and ones students create in class), and articulate what makes an effective layout and design (regarding arrangement, emphasis, clarity, conciseness, tone, and ethos). Throughout the course, students will create (both individually and collaboratively) documents that meet client specifications thereby providing practical experience and generating material for their professional portfolios.

Pre-requisite(s): ENGL 3100.

ENGL 3210 - Advanced College Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Basic expository techniques combined with other forms of discourse. Emphasis on originality, clarity and practical application for other courses as well as vocation.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3240 - CW: Writing Creative Nonfiction

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will introduce students to the craft of writing creative nonfiction, including forms such as personal essay, lyric essay, and memoir.

Pre-requisite(s): Any of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3250 - CW: Advanced Fiction Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will learn advanced fiction writing skills and strategies. Whether they plan to write novels or short fiction, this class will help them develop their use of plot, character, point of view, narrative structure, setting, image, wordplay and syntax.

Pre-requisite(s): Any of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3260 - CW: Advanced Poetry Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course will write and revise their own original poetry. Using their drafts and/or published poems, they will improve their use of line and stanza breaks, imagery, sound and rhythm, poetic structure, and other techniques.

Pre-requisite(s): Any of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3280 - Biographical Writing

Credits: (3)

Typically Taught Fall Semester: *Check with department for course*

availability.

Typically Taught Spring Semester: *Full Sem*

Includes autobiographical writing and is oriented strongly toward personal and familial interests. Written assignments include the personal narrative, character sketch, as told to, and conclude with a chapter or two on a projected book-length project. Extensive written and oral input on each assignment from professor and class. Strong emphasis is placed on techniques of research including interviewing, effective characterization, narration and description. Prior experience in imaginative writing and other areas of literature is recommended.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3300 - Children's Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

Students will study the principles of literature for children with special emphasis on evaluation and selection, classroom and library use, ethnic and cultural diversity, and the development of literacy. Designed to meet the needs of teachers, those preparing to teach and those who work with children in various settings.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3350 - Studies in Literary Genres

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course introduces students to the historical and cultural origins of literary genres, their distinguishing features, and the dynamics of literary development. Genres may include the novel, drama, poetry, creative non-fiction, bildungsroman, the diary, biography, autobiography, satire, and others. It may be taken more than once with different designations.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated 11 times.

ENGL 3352 - Studies in World Literary Genres

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course introduces students to familiar and unfamiliar genres around the world, exploring their distinctive features and their interactions with the cultures and histories they represent. Genres might include poetry and prose, fiction and non-fiction, satire and fable, tragedy and ballad, biography and autobiography, and many others. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3353 - Genres in Cultural and Media Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course introduces students to genres in cultural and media studies, their distinguishing features, and the dynamics of their development. Genres may include the novel, digital novel, film, television, social media, advertising, music, and the internet.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3354 - Genres in Writing and Interdisciplinary Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course introduces students to interdisciplinary genres, new directions in transcending disciplinary boundaries, or issues in writing and rhetoric. Genres may include various forms of narrative as they intersect with the sciences, social sciences, arts and humanities, health professions, business and economics, applied science and technology, and others.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3355 - CW: Creative Nonfiction Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

This class asks students to write a number of forms within the genre of creative nonfiction writing, experimenting with narrative shape and the effects of structural choices.

Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3360 - CW: Short Story Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk, 2nd Blk*

This class asks students to experiment with form and story structure within the genre of fiction writing, to understand how narrative shape affects the reader's experience.

Pre-requisite(s): And one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3365 - CW: Novel Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *3rd Blk, 2nd Blk*

This class asks students to experiment with form and structure within the genre of novel writing to understand how narrative shape affects the reader's experience.

Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3370 - CW: Poetic Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This class asks students to experiment with form and structure within the genre of poetry writing to understand how line, repetition, rhyme patterns, and shape affect the reader's experience.

Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3375 - CW: Forms and Craft of Notebooks and Journals

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This class examines the writer's notebook, reading examples and studying possibilities. Students will keep a writer's notebook inspired by those examples.

ENGL 3380 - CW: Screenwriting Form and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This class examines screenwriting form. Students will write their own original screenplay(s) in this form.

Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3410 INT - The Teaching of Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Students will develop their own philosophies for teaching writing to middle, junior high, and high school students by exploring current research findings, theoretical approaches and practical strategies.

This class is required of English teaching majors and minors. Students are required to complete a grades 7-12 school field experience.

Pre-requisite(s): ENGL 2010 or equivalent and admitted to Secondary Education program.

Co-Requisite(s): ENGL 3020 and ENGL 2420.

ENGL 3500 HU - Introduction to Shakespeare

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This class is an introduction designed to foster a critical appreciation of the plays of Shakespeare. The class is intended for students who are fulfilling General Education credit, studying theater, or planning to teach. Students can expect to study at least one comedy, one tragedy, and one history play in this course.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3510 HU/DV - World Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This is a selection of masterworks from a variety of authors, regions, and eras - expressly to introduce diverse literatures other than British and American. The required readings may vary considerably from

semester to semester, according to the instructors' expertise.
Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3520 HU - Literature of the Natural World

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

This course engages literary texts that focus on humans in relation to their natural environment. Conceived as a survey course, it attempts to delineate the various traditions of environmental concern, from the ancient past to the present, and to draw attention to the ongoing relevance of such texts. Students will learn how to read closely and carefully, and how to make such literature meaningful for their own daily lives.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3530 - The Literature of Business and Economics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course examines historical and contemporary issues in the world of business and economics through literature, film, and essays. The course will explore concepts such as private property, commodities and natural resources, wage labor, capital, public lands, and globalization. Students will investigate pertinent moral and ethical questions connected with these concepts from both historical and contemporary perspectives, such as the distribution of wealth and poverty, consumption and resource management, competition and conflict, and social (in)stability. The course is designed to improve writing skills, specifically the ability to express complex ideas from a variety of perspectives and to improve critical and creative thinking skills while stressing the importance of learning through writing.

ENGL 3540 - Adaptation Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course focuses on the process by which literary works and other texts are adapted into other forms and media, and on the product of that adaptive process. Works may include traditional text-to-film adaptations, as well as more non-traditional forms such as graphic novels, music, television, the Internet, and more.

Pre-requisite(s): ENGL 2010.

ENGL 3610 - American Literature I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010.

ENGL 3620 - American Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course will introduce students to the study of American

Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010.

ENGL 3650 - British Literature I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010.

ENGL 3660 - British Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010.

ENGL 3730 - Literatures of Cultures and Places

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

This variable topics course examines literature, cultures, and nations beyond England and America. Students will be introduced to the ways in which texts are closely tied to the geographical and cultural space as well as the historical movement from which they emerge. The course may focus on a single national culture or, alternately, offer representative works from various cultures.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be repeated 3 times with different designations.

ENGL 3750 HU - Topics and Ideas in Literature

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be repeated 3 times with different designations.

ENGL 3752 - Topics and Ideas in World Literature and Language

Credits: (3)

Variable Title

This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts from

around the world excluding British and American texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Note: Check with Department for course availability.

ENGL 3753 - Topics and Ideas in Cultural and Media Studies

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course focuses on various themes in cultural and media studies. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course focuses on themes manifest in the field of writing and in interdisciplinary studies. This course may focus on issues in writing, rhetoric, and other disciplines as they intersect with English. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3755 - Topics in English Teaching

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

This variable topics course focuses on critical ideas in the teaching of English. The course may consider social, political, artistic, environmental, or philosophical themes. Students in the class will learn to translate intellectual movements to pedagogical practices and approaches. May be taken twice for a total of 6 credits.

Pre-requisite(s): ENGL 2010 or equivalent and admitted to Secondary Education program.

ENGL 3810 - Experimental Courses

Credits: (3)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

ENGL 3840 - Methods and Practice in Tutoring Writers

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Controlled experience in tutoring student writers in all disciplines.

This course is only for people who are actually employed as a tutor.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 3850 INT - Methods and Practice in Tutoring and Mentoring ESL Students

Credits: (1-3)

This course trains students who are native speakers of English or who are second language learners of English at native or near native levels of proficiency to work or volunteer in the ESL Program as tutors, classroom aides, mentors, and as language informants leading conversation groups.

Pre-requisite(s): ENGL 2010 or equivalent.

Note: Check with Department for course availability.

ENGL 3880 - Philosophy and Literature

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of the interrelationships between ideas that shape the course of history and the poetry, prose, and/or drama of the periods that produce these ideas.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 4010 - Topics in Language Study

Credits: (3)

Variable Title

This variable topics course explores areas of study such as advanced grammar, sociolinguistics, language and the law, linguistics and composition, linguistics and language acquisition, or linguistics and literature, among others, as determined by the instructor. A previous language course or consultation with the instructor is recommended before enrolling.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: It may be taken more than once with different designations.

Note: Check with Department for course availability.

ENGL 4100 - Issues in Professional and Technical Writing

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This variable topics course focuses on specific issues in the ever-evolving field of professional and technical writing. Recent issues include indexing, professionalization, theoretical approaches, and discipline-specific emphases such as writing in the sciences and writing for the Web.

Pre-requisite(s): ENGL 3100.

Number of Times this Course May Be Repeated: It may be taken up to four times (for a total of 12 credit hours) with different designations to fulfill electives and must be pre-approved by an advisor.

ENGL 4110 - Content Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This class teaches the theory and application of content management. Students will learn how to evaluate content, divide content into

reusable elements, label these elements, and then re-configure them into usable structures. Using the principles of single sourcing, modular writing, and structured authoring, students will map content for reuse, evaluate available authoring tools, implement state-of-the-art technologies, and develop project strategies.

Pre-requisite(s): ENGL 3100.

ENGL 4120 - Seminar and Practicum in Professional and Technical Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

This course serves as a capstone for the minor and emphasis, preparing students for immediate job placement. In the seminar, students review issues and strategies of professional and technical writing and prepare portfolios for job interviews. The practicum is based on an internship or cooperative work experience in the community, with industry, or with an on-campus organization. The internship is the most time-intensive aspect of the course.

Pre-requisite(s): ENGL 3100.

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

This course emphasizes practical strategies and methods of teaching ESL/Bilingual in the public school systems of this country.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Typically Taught Summer Semester: *Check with department for course availability.*

This course provides the essential foundation for ESL/Bilingual teachers in the workings of the English language: pronunciation and spelling systems, word-forming strategies and sentence structure patterns.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability-even years.*

This course explores how to effectively evaluate and implement assessment processes for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized tests and authentic assessment.

Pre-requisite(s): ENGL 2010 or equivalent.

ENGL 4520 - American Literature: Early and Romantic

Credits: (3)

This historical survey follows waves of European immigration and chronicles the effects of those on the American natives. The class then moves through the Revolutionary War and finishes with the relatively short but intense age of American Romanticism, which occurred in the decades just before the Civil War. The diverse writers in this period include such figures as Columbus, William Bradford, Anne Bradstreet, Benjamin Franklin, Washington Irving, Nathaniel

Hawthorne, Edgar Allan Poe, Harriet Beecher Stowe, Henry David Thoreau, Frederick Douglass, Herman Melville, and Walt Whitman.

Pre-requisite(s): ENGL 3080.

Note: Check with Department for course availability.

ENGL 4530 - American Literature: Realism and Naturalism

Credits: (3)

This historical survey typically runs from the Civil War to WWI - emphasizing reconstruction, laissez-faire economics, growing imperialism, and universal suffrage. The diverse writers in this survey include such figures as Mark Twain, W. D. Howells, Sarah Orne Jewett, Henry James, Kate Chopin, Booker T. Washington, W. E. B. Du Bois, Stephen Crane, Jack London, Frank Norris, Theodore Dreiser, Mary Austin, and Henry Adams.

Pre-requisite(s): ENGL 3080.

Note: Check with Department for course availability.

ENGL 4540 - American Literature: Modern

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This historical survey focuses on the first half of the 20th century, when the United States went through a series of profound political and social changes, such as its entry into World War I and II, Prohibition, The Red Scare, Suffrage, the advent of the mass media, and Progressivism. Drawing on a variety of genres and media (including painting and film), the course will study developments in the New Negro Renaissance, Greenwich Village bohemianism, the Provincetown Players, "high" modernism, and the Lost Generation. Representative writers of the period include: Langston Hughes, Zora Neale Hurston, Nella Larsen, Edna St. Vincent Millay, Mina Loy, Eugene O'Neill, Susan Glaspell, Ezra Pound, John Dos Passos, Amy Lowell, William Carlos Williams, Gertrude Stein, Ernest Hemingway, and e.e. cummings.

Pre-requisite(s): ENGL 3080.

Note: Check with Department for course availability.

ENGL 4550 - American Literature: Contemporary

Credits: (3)

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

This course focuses on American literature from the 1950s to the present within the context of the dramatic political and cultural changes that have shaped contemporary American culture, such as the Cold War, Vietnam, the Civil Rights movement, feminism and multiculturalism. Like its modernist predecessor, it ranges across genres and media to survey various emergent traditions and tendencies in contemporary and postmodern US letters. Representative writers of this period include: Arthur Miller, Flannery O'Connor, Elizabeth Bishop, Tillie Lerner Olsen, Ralph Ellison, James Baldwin, Allen Ginsberg, Cynthia Ozick, Amiri Baraka, Maxine Hong Kingston, Rita Dove, Toni Morrison, Thomas Pynchon, E. L. Doctorow.

Pre-requisite(s): ENGL 3080.

ENGL 4560 - Contemporary Literature for Creative Writers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course introduces students to the work of contemporary writers. Looking at variety of projects, including collections and individual

pieces, we will examine their stylistic choices and the effects of those choices.

Pre-requisite(s): ENGL 3080.

ENGL 4610 - British Literature: Medieval

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This historical survey runs from the eighth century to the end of the fifteenth century - roughly from the reign of Alfred the Great to Henry VII. Some of the more recognizable works include Beowulf, The Wanderer, Geoffrey Chaucer's Canterbury Tales, early histories of King Arthur, Thomas Malory's Le Morte D'Arthur, Julian of Norwich's Showings, Everyman, and Gawain and the Green Knight. Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations.

Pre-requisite(s): ENGL 3080.

ENGL 4620 - British Literature: Renaissance

Credits: (3)

This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth - roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick.

Pre-requisite(s): ENGL 3080.

Note: (Note: this survey does not typically try to do justice to its largest figure, Shakespeare - for whom the department has established ENGL 4730: Studies in Shakespeare.) Check with department for course availability.

ENGL 4630 - British Literature: Neoclassical and Romantic

Credits: (3)

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

This historical survey links two periods: the first has frequently been referred to as the Enlightenment of the Eighteenth Century and includes such figures as Alexander Pope, Anne Finch, Mary Montagu, Jonathan Swift, and Samuel Johnson. The second period covers the relatively short but intense age of English Romanticism - popular because of such writers as William Blake, William Wordsworth, Samuel Coleridge, Lord Byron, Mary Shelley, Percy Bysshe Shelley, Mary Wollstonecraft, Sir Walter Scott, Thomas De Quincey, and John Keats.

Pre-requisite(s): ENGL 3080.

ENGL 4640 - British Literature: Victorian

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's Origin of Species. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Bronte, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels);

Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.

Pre-requisite(s): ENGL 3080.

ENGL 4650 - British Literature: Modern

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Typically Taught Summer Semester: *1st Blk*

This historical survey focuses on the first half of the twentieth century, a time of great social change for Great Britain and Ireland that led to a rich outpouring of traditional and experimental writing. A variety of writers will be studied in this course in connection with such key developments as the critique of Empire (Joseph Conrad, E.M. Forster); the Abbey Theatre and the Irish Literary Renaissance (Lady Gregory, W.B. Yeats); World War I (Siegfried Sassoon, Vera Brittain); High Modernism (T.S. Eliot, James Joyce, D.H. Lawrence, Virginia Woolf, Katherine Mansfield); divergent poetic world-views (W.H. Auden, Dylan Thomas); and World War II, the collapse of Empire, and dystopian visions (Evelyn Waugh and George Orwell).

Pre-requisite(s): ENGL 3080.

ENGL 4660 - British Literature: Contemporary

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This historical survey examines British and Anglo-Irish literature since 1950 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in the second half of a century increasingly multicultural in outlook. Possible focuses include post-war disillusion (William Golding); Absurdism and Postmodernism (Samuel Beckett, Tom Stoppard); neo-Romanticism (Ted Hughes, Seamus Heaney, Nuala Ni Dhomhnaill); experimentalism and magic realism (Doris Lessing, Salman Rushdie, Angela Carter); innovative historical fiction (John Fowles, A.S. Byatt); and legacies of Empire in a postcolonial world (Jean Rhys, V.S. Naipaul, Kazuo Ishiguro, Anita Desai).

Pre-requisite(s): ENGL 3080.

Note: Check with Department for course availability.

ENGL 4710 - Eminent Authors

Credits: (3)

Variable Title

This variable topics course features a single author or several authors. Students may study authors such as Sir Arthur Conan Doyle, Ralph Waldo Emerson, Emily Dickinson, Walt Whitman, Virginia Woolf, or Toni Morrison, in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite(s): ENGL 3080.

Number of Times this Course May Be Repeated: May be taken up to 3 times with different designations.

Note: Check with Department for course availability.

ENGL 4712 - Eminent World Authors

Credits: (3)

Variable Title

This variable topics course features a single author or several authors. Students may study global anglophone writers and/or in translation authors such as Derek Walcott, Arundhati Roy, Chinua Achebe, Gabriel García Márquez, Nadine Gordimer, Margaret Atwood, Mo Yan, Fyodor Dostoevsky, Naguib Mahfouz, and Umberto Eco in order to gain a greater understanding of the social, cultural, and

aesthetic significance of their work.

Pre-requisite(s): ENGL 3080.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Note: Check with Department for course availability.

ENGL 4713 - Eminent Authors in Cultural and Media Studies

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Check with department for course availability.*

This variable topics course features a single author or several authors. Students may study foundational and emerging authors in this dynamic and influential field in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite(s): ENGL 3080.

Number of Times this Course May Be Repeated: It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 4730 - Studies in Shakespeare

Credits: (3)

This class is intended for English majors and minors seeking a deeper understanding of Shakespeare's work. Students can expect to do close readings of at least five plays and to study such secondary materials as literary criticism and historical background.

Pre-requisite(s): ENGL 3080.

Note: Check with Department for course availability.

ENGL 4760 - Irish Literature

Credits: (3)

This course examines the distinctive temperament and outlook of both the Gaelic and Anglo-Irish traditions in such writers as Aogán Ó Rathaille, Eibhlín Dubh Ní Chonaill, Jonathan Swift, Lady Gregory, Oscar Wilde, John Millington Synge, William Butler Yeats, James Joyce, George Bernard Shaw, Samuel Beckett, Seamus Heaney, Eavan Boland, and Nuala Ni Dhomhnaill. The first portion of the course studies the body of literature from the sixth century through 1900; the remainder of the course focuses on modern and contemporary texts. Key themes to be examined, always in the larger context of Irish history as a whole, include the Irish use of words as weapons, the place of gender in Irish writing, and the intriguing nature of Irish - particularly as opposed to English - identity.

Pre-requisite(s): ENGL 3080.

ENGL 4801 - A&H Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ENGL 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual readings supervised by a faculty member.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

Note: Check with Department for course availability.

ENGL 4890 - Cooperative Work Experience

Credits: (1-6)

A continuation of ENGL 2890 Cooperative Work Experience. Open to all students.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: Check with department for current course offerings.

ENGL 4900 - Internships in Literary and Textual Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course allows students to receive academic credit for on-the-job learning in approved work environments and for approved projects. A maximum of 3 credit hours may be counted toward the major.

Credit/No-Credit only.

Pre-requisite(s): English major with a Junior or Senior standing; ENGL 2010, ENGL 3080.

Number of Times this Course May Be Repeated: May be repeated for up to 6 credit hours.

ENGL 4910 - Capstone in English Teaching

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This course is designed to synthesize a student's knowledge and training. The course will assist students in applying their content knowledge during the required teaching field experience. The course will also serve as a bridge to future employment by instructing students in portfolios, resumes, and recommendations. The class will underscore the acquisition of dispositional traits that produce responsible and effective teaching practices.

Pre-requisite(s): ENGL 2010 or equivalent and admitted to Secondary Education program, ENGL 2420, ENGL 3410, ENGL 3020, and ENGL 3755.

ENGL 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

Note: Check with Department for course availability.

ENGL 4930 - Visiting Writing Master Class

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

In this class, students will study the art and craft of creative writing, studying under the guidance of a nationally recognized visiting writer who will instruct them on writing theory and/or provide a short writing workshop of work from each student. Credit/No Credit grading.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

ENGL 4940 - CW: Senior Project

Credits: (3)

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

This course offers an opportunity for students to choose a writing project and workshop it with their peers under the direction of the instructor. Writing skills will be developed and honed through intensive writing projects which could include a variety of genres: nonfiction, creative nonfiction, fiction, (short story collection, novel), biography, autobiography, poetry, etc. The course is designed for students with a strong writing background.

Pre-requisite(s): ENGL 3250 or ENGL 3260 or ENGL 3280 or ENGL 3350.

ENGL 4960 INT - Metaphor: Editing the Student Literary Journal

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Designed for students selected as staff for Weber State's Literary Journal, Metaphor. Therefore, it is a hands-on workshop centering on all aspects of journal production: creating an editorial policy, advertisement, selection, layout, copy editing, preparing for print, marketing, distribution, etc. The journal itself is the final product. The staff supports writing and visual arts across campus through participation in several ancillary projects.

Pre-requisite(s): ENGL 2010 or equivalent.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

English as a Second Language (ESL) Courses

ESL 0010 - Writing Level I

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

The focus of this novice-low course for English language learners is on writing words and sentences. Suggested co-requisites: ESL 0020, ESL 0030, ESL 0040, ESL 0050.

Pre-requisite(s): LEAP placement test.

ESL 0015 - Writing Level II

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

In this course, novice-mid English language learners practice writing sentences on familiar topics.

Pre-requisite(s):

ESL 0010 or LEAP placement test.

Co-Requisite(s): ESL 0025 , ESL 0035 , ESL 0045, ESL 0055.

ESL 0020 - Reading Level I

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

In this course for English language learners, the focus is on reading

and understanding simple stories at a novice-low level.

Pre-requisite(s): LEAP Placement Test.

Co-Requisite(s): ESL 0010 , ESL 0030 , ESL 0040 ,ESL 0050

ESL 0025 - Reading Level II

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

The focus of this course for English language learners is on reading and understanding short stories at a novice-mid level. Suggested co-requisites: ESL 0015 , ESL 0035 , ESL 0045 , ESL 0055.

Pre-requisite(s): ESL 0020 or LEAP Placement Test.

ESL 0030 - Speaking and Listening Level I

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This course focuses on helping novice-low English language learners to communicate using basic words and phrases. Suggested co-requisites: ESL 0010 , ESL 0020 , ESL 0040 , ESL 0050.

Pre-requisite(s): LEAP Placement Test.

ESL 0035 - Speaking and Listening Level II

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This course focuses on helping novice-mid English language learners to communicate using basic words and phrases. Suggested co-requisites: ESL 0015 , ESL 0025 , ESL 0045 ,ESL 0055.

Pre-requisite(s): ESL 0030, or LEAP Placement Test.

ESL 0040 - Grammar Level I

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

In this course, novice-low English language learners focus on the forms and meaning of the simple present tense and other basic grammar concepts. Suggested co-requisites: ESL 0010 , ESL 0020 , ESL 0030 , ESL 0050.

Pre-requisite(s): LEAP Placement Test.

ESL 0045 - Grammar Level II

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

The focus of this course for novice-mid English language learners is on forms and meaning of the present progressive tense and other basic grammar concepts. Suggested co-requisites: ESL 0015 , ESL 0025 , ESL 0035, ESL 0055.

Pre-requisite(s): ESL 0040 or LEAP Placement Test.

ESL 0050 - Pronunciation Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This pronunciation course for novice-low English language learners focuses on the basic components of the English sound system.

Suggested co-requisites: ESL 0010, ESL 0020 , ESL 0030 , ESL

0040.

Pre-requisite(s): LEAP Placement Test.

ESL 0055 - Pronunciation Level II

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This pronunciation course for novice-mid English language learners focuses on the basic components of the English sound system.

Suggested co-requisites: ESL 0015, ESL 0025, ESL 0035, ESL 0045.

Pre-requisite(s): ESL 0050 or LEAP Placement Test.

ESL 0060 - Reading Enrichment

Credits: (1)

This reading course offers additional reading practice for Novice-low English language learners. The course focuses on enlarging vocabulary and reinforcing basic sentence structures in English. Credit/no credit.

ESL 0065 - Reading Enrichment

Credits: (1)

This course offers additional reading practice for Novice-mid English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 0110 - Writing Level III

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This writing course for intermediate-low English language learners focuses on writing short paragraphs. Suggested co-requisites: ESL 0120, ESL 0130, ESL 0141, ESL 0150.

Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better, or LEAP Placement Test.

ESL 0120 - Reading Level III

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This reading course focuses on developing reading skills and building vocabulary through reading and understanding non-academic fiction books that have been adapted for mid-intermediate English language learners. Suggested co-requisites: ESL 0110, ESL 0130, ESL 0141, ESL 0150.

Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0130 - Speaking and Listening Level III

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

The focus of this course is for intermediate-low English language learners to communicate in simple social situations. Suggested co-requisites: ESL 0110, ESL 0120, ESL 0141, ESL 0150.

Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0141 - Grammar Level III

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This grammar course for intermediate-low English language learners focuses on forms and meaning of the future and past tenses, as well as basic noun and article usage. Suggested co-requisites: ESL 0110, ESL 0120, ESL 0130, ESL 0150.

Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0150 - Pronunciation Level III

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

In this course, intermediate-mid English language learners focus on pronunciation features at the word and sentence level. Suggested co-requisites: ESL 0110, ESL 0120, ESL 0130, ESL 0141.

Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0160 - Reading Enrichment

Credits: (1)

This course offers additional reading practice for Novice-high/Intermediate-low English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 1210 - Writing Level IV

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

The focus of this intermediate-mid course for English language learners is longer paragraph development. Suggested co-requisites: ESL 1220, ESL 1230, ESL 1241, ESL 1250.

Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1220 - Reading Level IV

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This reading course focuses on developing academic reading skills and building academic vocabulary through reading simplified academic text adapted for intermediate-mid English language learners. Suggested co-requisites: ESL 1210, ESL 1230, ESL 1241, ESL 1250.

Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1230 - Speaking and Listening Level IV

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

The focus of this course is for intermediate-mid English language learners to communicate in simple social situations. Suggested co-requisites: ESL 1210, ESL 1220, ESL 1241, ESL 1250.

Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1241 - Grammar Level IV

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

In this course, intermediate-mid English language learners focus on modal verbs, the present perfect tense, and adjective clauses.

Suggested co-requisites: ESL 1210, ESL 1220, ESL 1230, ESL 1250.

Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Testlevel 1 - 3 or LEAP Placment Test.

ESL 1250 - Pronunciation Level IV

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This course familiarizes students with rhythm, intonation, emphasis, and phrasing in spoken English. Suggested co-requisites: ESL 1210, ESL 1220, ESL 1230, ESL 1241.

Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1260 - Reading Enrichment

Credits: (1)

This course offers additional reading practice for Intermediate-mid English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 2310 - Writing Level V

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

In this course, intermediate-high level English language learners are introduced to essay writing. Suggested co-requisites: ESL 2320, ESL 2330, ESL 2351.

Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

ESL 2320 - Reading Level V

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

The focus of this course for English language learners is on reading and understanding academic texts modified to an intermediate-high level. Suggested co-requisites: ESL 2310, ESL 2330, ESL 2341, ESL 2351.

Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

ESL 2330 - Speaking and Listening Level V

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This intermediate-high speaking and listening class for English language learners focuses on building students' skills of listening, note-taking, vocabulary building, and speaking. Suggested co-requisites: ESL 2310, ESL 2320, ESL 2341, ESL 2351.

Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

ESL 2341 - Grammar Level V

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

The focus of this grammar course for high-intermediate English language learners is the meaning and usage of the past and future perfect verb tenses, the passive voice, and noun clauses. Suggested co-requisites: ESL 2310, ESL 2320, ESL 2330, ESL 2351.

Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

ESL 2351 CEL - Community Level V

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This is a community-based, project-driven course that is designed to give students the opportunity to develop English language skills with emphasis on written and oral communication, small group discussion, interaction with community members, as well as developing academic speaking and listening skills.

Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

Suggested Requisite(s): Suggested co-requisites: ESL 2310, ESL 2320, ESL 2330, ESL 2341.

ESL 2360 - Reading Enrichment

Credits: (1)

This course offers additional reading practice for Intermediate-high English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 2410 - Writing Level VI

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

In this course, advanced-low English language learners focus on writing essays on academic topics. Suggested co-requisites: ESL 2420, ESL 2430, ESL 2441, ESL 2451.

Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

ESL 2420 - Reading Level VI

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This low-advanced level reading course focuses on developing academic reading skills and building academic vocabulary through reading slightly modified academic texts. Suggested co-requisites: ESL 2410, ESL 2430, ESL 2441, ESL 2451.

Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

ESL 2430 - Speaking and Listening Level VI

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This speaking and listening course focuses on helping low-advanced English language learners express, defend, and support opinions.

Suggested co-requisites: ESL 2410, ESL 2420, ESL 2441, ESL 2451.
Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

ESL 2441 - Grammar Level VI

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

The focus of this grammar course for mid-advanced English language learners is understanding the meaning and usage of gerunds and infinitives, participles, conditionals, and modal verbs, and a review of past and future perfect verbs, passive voice, and noun clauses.

Suggested co-requisites: ESL 2410, ESL 2430, ESL 2451.

Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

ESL 2451 CEL - Community Level VI

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

This is a community-based, project-driven course that is designed to give students the opportunity to develop English language skills with emphasis on written and oral communication, small group discussion, interaction with community members, as well as developing academic speaking and listening skills.

Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

Suggested Requisite(s): Suggested co-requisites: ESL 2410, ESL 2420, ESL 2430, ESL 2441.

ESL 2460 - Reading Enrichment

Credits: (1)

This course offers additional reading practice for Advanced English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

Entrepreneurship

ENTR 1001 - Principles of Entrepreneurship

Credits: (1)

This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.

Note: This course is not currently offered.

ENTR 1002 - Introduction to Entrepreneurship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneurial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven instead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manual textbooks. This class

will also have students spending time 'out of the classroom' - learning about what customers want and will pay for through in-person prototype testing, iteration and feedback.

Pre-requisite/Co-requisite: BSAD 1010 or ACTG 2010 or ENTR 1001.

ENTR 1003 - Ideation and Customer Development: Testing Ideas with Customers

Credits: (1.5)

This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.

Pre-requisite(s): ENTR 1001, BSAD 2899 or ECON 2899.

Note: This course is not currently offered.

ENTR 1004 - Entrepreneurial Finance: Bootstrapping, Accounting & Survival Tactics

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start-up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start-up purposes.

Pre-requisite(s): ENTR 1002.

ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

This course takes students who have successfully identified a start-up and teaches them the process of customer development, product development, business models and selling ideas to investors and customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability.

Pre-requisite(s): ENTR 1004.

ENTR 3002 - Starting the Business

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business using actual dollars. Student teams will present their company at the beginning of the course as teams and will then use student start-up funds to launch their business. By the end of the course students will have launched a real start up business.

Pre-requisite(s): ENTR 2001.

ENTR 3003 - Growing the Business

Credits: (3)

This course helps students take their start-ups business to the next level and accelerate the pace of customer validation and acquisition. This course will focus on launching the business from a student run start-up in a university setting, to a standalone company that can operate outside the confines of a college campus.

Pre-requisite(s): ENTR 3002.

Note: This course is not currently offered.

ENTR 4680 - Small Business Diagnostics**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required. Cross-listed with BSAD 4680.

Pre-requisite(s): ENTR 2001 or BSAD 2899 and instructor approval.

Exercise and Sport Science**ESS 2200 - Exploring Exercise Science Professions****Credits: (2)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Designed to orient and acquaint students with the goals, objectives, scope, professional preparation, career opportunities, and trends in human performance management professions.

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Skills and competencies for prospective health fitness instructors, personal fitness trainers, and nutrition educators to deliver preventive exercise programs.

Pre-requisite(s): HLTH 1030 and NUTR 1020.

ESS 2890 INT - Cooperative Work Experience**Credits: (1-6)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Typically Taught Summer Semester:** *Full Sem*

Open to all students in Human Performance Management and Physical Education who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

ESS 3450 - Structural Kinesiology**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Typically Taught Summer Semester:** *1st Blk*

This course is a detailed study of muscles, nerves, bones, and joints as they are involved in the science of movement. It is designed for students to experience theoretical concepts and apply functional anatomy knowledge to the execution and improvement of human performance.

Pre-requisite(s): HTHS 1110 and Co-requisite: HTHS 1111, or Prerequisite: ZOOL 2100.

ESS 3500 - Biomechanics**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

A study of the musculomechanical bases of human movement and experience in applying that knowledge to the execution and evaluation of human performance.

Pre-requisite(s): ESS 3450 and MATH 1050 QL or higher.

ESS 3510 - Exercise Physiology**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

A study of various physiological and environmental factors which affect performance of exercise and sport during acute exercise and physiological adaptations to chronic exercise.

Pre-requisite(s): HTHS 1110 or ZOOL 1020 or ZOOL 2200.

ESS 3540 - Physiological Aspects of Human Performance**Credits: (2)**

Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.

Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

ESS 3600 - Measurement and Statistics in Exercise Science**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement.

ESS 4370 - Clinical Exercise Physiology**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

This course provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease. It provides students with fundamental knowledge of disease-specific pathology and treatment guidelines. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.

Pre-requisite(s): ESS 2300 and ESS 3510.

ESS 4620 - Leadership Concepts for Human Performance Management**Credits: (3)****Typically Taught Fall Semester:** *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will study the current philosophical leadership concepts and the principles, practices, and issues of administration.

Pre-requisite(s): ESS 2200.

ESS 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A continuation of ESS 2890.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

ESS 4990 - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

For Seniors only. Structured seminar focuses on synthesis of ideas and portfolio preparation.

ESS 6300 - Advanced Biomechanics

Credits: (3)

Designed to expose the graduate student to appropriate research in sports biomechanics and to be involved in the analysis of movement based on selected mechanical principles such as balance, buoyancy, leverage, force, angles of rebound, projection and motion.

Note: Check with Department for course availability.

ESS 6400 - Advanced Exercise Physiology

Credits: (3)

Understanding the physiological changes associated with exercise and training and the reasons for change are the paramount directives of this course.

Suggested Requisite(s): Concurrent with the lecture component is the practicum laboratory experience of equipment operation and individual assessment of physiological parameters.

Note: Check with Department for course availability.

ESS 6540 - Physiological Aspects of Human Performance

Credits: (2)

Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.

Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

Note: Check with Department for course availability.

Finance**FIN 1010 - Personal Finance**

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Personal and family budgeting, installment buying, borrowing money, buying a home, life and property insurance, personal investment, and retirement and estate planning.

FIN 2300 - Introduction to Investments

Credits: (3)

A study of investment opportunities, mechanics, analysis, risk, and

risk management at the introductory level. This course is designed for non-finance majors and will not be accepted as a substitute for FIN 3300.

Note: Course not currently being offered.

FIN 3200 - Financial Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Financial analysis, planning and control, working capital management, capital budgeting, and short-term and long-term financing. Student use of computers is required for the preparation of case study material used to enhance the presentation of selected topics presented in the course.

Pre-requisite(s): ACTG 2010, ECON 2010, MIS 2010, and QUAN 2600.

FIN 3300 - Investments

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth study of principles, concepts, and tools used in the investment field as they relate to investment opportunities, mechanics, financial statement analysis, risk, and portfolio management. Computer use is required to access the Dow-Jones market analyzer investment software and in the preparation and analysis of investment portfolios.

Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 3350 - Financial Institutions

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

A study of the functions and significance of the major financial institutions, such as commercial savings institutions, with an emphasis on management problems, regulations, credit appraisal, and loan types.

Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 3400 - Real Estate Principles and Practices

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Fundamental economic aspects of real estate with emphasis on realty as a commodity of trade. The subject matter in this course is of general interest to both those desiring to enter the real estate profession and those who only intend to own real estate.

Pre-requisite(s): FIN 3200.

FIN 3500 - Capital Budgeting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Capital investment decision-making procedures relative to make/buy, lease/buy, working capital, replacements, and new investment decisions. Involves use of the computer in the analysis of cash flows and capital acquisition alternatives.

Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 4400 - Financial Problems - Corporate Finance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Problems in financial management with an emphasis on corporate finance. Use of financial software and computers is an integral part of problem solutions.

Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 4410 - Financial Problems - Investments

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Problems in financial management with an emphasis on investments. Use of financial software and computers is an integral part of problem solutions.

Pre-requisite(s): BSAD 2899, FIN 3300.

FIN 4800 - Independent Research

Credits: (1-3)

Directed research and study on an individual basis.

Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated until a total of 4 hours credit is accumulated.

FIN 4850 - Finance Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore financial theory and practice in countries other than the U.S. Students will study international finance as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

FIN 4860 INT - Finance Internship

Credits: (3)

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through finance courses.

Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

FIN 4900 - Special Topics in Finance

Credits: (4)

Variable Title

Special treatment of current topics in Finance. This course will involve primary and/or secondary research by class participants.

Pre-requisite(s): BSAD 2899, FIN 3200; Instructor approval.

Foreign Language

ASL 1010 - First Semester ASL

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than

two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

ASL 1020 - Second Semester ASL

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(N=Novice) Continuation of ASL 1010. Basic language skills including listening, speaking, reading, writing and culture.

ASL 2010 - Third Semester ASL

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(NH=Novice High) Continuation of ASL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

ASL 2020 HU - Fourth Semester ASL

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(NH=Novice High) Continuation of ASL 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

ASL 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of ASL 2010 without General Education Humanities credit. Offered through examination only.

Note: Only available through testing.

ASL 2030 - Second Year Language Review

Credits: (3)

(NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

ASL 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ASL 3000 - Proficiency Development

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible

to take this class.

Note: Check with department for course availability.

ASL 3116 - DLI Bridge Course I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better

ASL 3117 - DLI Bridge Course II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): FL 2020 or AP exam with a score of 4 or better

ASL 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better

ASL 3270 - Special Topics in Linguistics

Credits: (3)

Variable Title

(IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

ASL 3550 - Cultural Heritage I

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

ASL 4830 - Directed Readings

Credits: (1-3)

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

ASL 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

(minimal proficiency level varies with content) Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated

5 times with a maximum of 6 credit hours.

Note: Course not currently being offered.

CHNS 1000 - Proficiency Development

Credits: (1-2)

(N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

Number of Times this Course May Be Repeated: May be repeated for credit under different titles.

Note: Course not currently being offered.

CHNS 1010 - First Semester Chinese

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class.

Emphasis on everyday conversation and exposure to cultural perspectives.

CHNS 1020 - Second Semester Chinese

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(N=Novice) Continuation of CHNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

CHNS 1852 - Study Abroad

Credits: (1-3)

(N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

CHNS 2000 - Proficiency Development

Credits: (1-2)

(NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students.

May be repeated under different titles. Note: Course not currently being offered.

CHNS 2010 - Third Semester Chinese

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(NH=Novice High) Continuation of CHNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

CHNS 2020 HU - Fourth Semester Chinese

Credits: (3)

(NH=Novice High) Continuation of CHNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's

attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

CHNS 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of CHNS 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

CHNS 2030 - Second Year Language Review

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

CHNS 2851 - Study Abroad

Credits: (3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Note: Check with Department for course availability.

CHNS 2852 - Study Abroad

Credits: (1-3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

CHNS 3000 - Proficiency Development

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

CHNS 3060 - Grammar & Composition

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class. Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better

CHNS 3117 - DLI Bridge Course II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better

CHNS 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better

CHNS 3320 - Applied Language Studies

Credits: (1-3)

Variable Title

(Minimal proficiency level varies with content).

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

CHNS 3550 - Cultural Heritage I

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

CHNS 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

CHNS 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

CHNS 3680 - Literature: Film

Credits: (3)

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

Number of Times this Course May Be Repeated: May be taken 3

times up to 9 credits under different titles.
Note: Check with department for course availability.

CHNS 3710 - Business Language I

Credits: (3)

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

Note: Check with department for course availability.

CHNS 3850 - Study Abroad

Credits: (1-6)

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

CHNS 4830 - Directed Readings

Credits: (1-3)

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

CHNS 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

(minimal proficiency level varies with content) Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: Course not currently being offered.

FL 2410 - Introduction to Localization

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the field of localization. Includes the globalization of digital applications such as software, websites, videos, and video games. Addresses how to overcome both technical and cultural issues in localization and internationalization.

FL 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)

Variable Title

May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit under different titles.

Note: Check with Department for course availability.

FL 2810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated up to 10 times. Refer to Experimental Courses.

FL 3270 - Special Topics in Linguistics

Credits: (3)

Variable Title

(IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with Department for course availability.

FL 3320 - Applied Language Studies

Credits: (1-3)

Variable Title

(Minimal proficiency level varies with content).

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

FL 3420 - Introduction to Translation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to the theory and practice of translation, with emphasis on the techniques and skills needed to translate commercial texts. Students will learn the concepts and conceptual framework for the analysis and understanding of translation as a process and a product.

Pre-requisite(s):

Intermediate Low proficiency in a second language (2020 or the equivalent).

FL 3430 - Translation Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course introduces students to the theory and practical use of translation technologies important to management, engineering and linguistic roles in translation and localization, with a primary focus on tools for linguistic roles including translation and editing.

FL 3570 - Special Topics in Culture

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.

Number of Times this Course May Be Repeated: May be repeated up to 7 times for credit and for other non-English speaking cultures.

Note: Check with Department for course availability.

FL 3750 - Introduction to Interpreting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

FL 4400 - Methods for Teaching Languages

Credits: (5)

Typically Taught Spring Semester: *Full Sem*

(AL=Advanced Low) Practical Methods, techniques and strategies for teaching foreign languages. This course will also review second language acquisition research, various assessment techniques, the ACTFL Proficiency Guidelines and the National Standards for Foreign Language Learning. Emphasis is on planning, teaching and assessment. Offered spring semester only.

FL 4500 - Methods for Teaching Languages

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

FL 4801 - A&H Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

FL 4810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated up to 5 times. Refer to Experimental Courses.

FL 4860 INT - Foreign Language Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(IL=Intermediate Low) An opportunity for students to receive academic credit for faculty-approved, on-the-job learning experiences that involve foreign languages and/or cultures. Credit/No Credit grading only.

Pre-requisite(s): Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated up to 6 credits.

FL 4990 - Senior Assessment

Credits: (.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Required of all majors during their senior year. Students will assemble a portfolio with a representation of their work in the foreign language. Speaking skills will also be evaluated. Must be completed before graduation clearance.

FL 6500 - Methods for Teaching Languages

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

FRCH 1000 - Proficiency Development

Credits: (1-2)

(N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

Number of Times this Course May Be Repeated: May be repeated for credit under different titles.

Note: Course not currently being offered.

FRCH 1010 - First Semester French

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

FRCH 1020 - Second Semester French

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Se*

(N=Novice) Continuation of FRCH 1010. Basic language skills including listening, speaking, reading, writing and culture.

FRCH 1700 - Conversational Skills

Credits: (1-3)

(N=Novice) Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

Note: Course not currently being offered.

FRCH 1852 - Study Abroad

Credits: (1-3)

(N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

FRCH 2000 - Proficiency Development

Credits: (1-2)

(NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free

activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

FRCH 2010 - Third Semester French

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(NH=Novice High) Continuation of FRCH 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

FRCH 2020 HU - Fourth Semester French

Credits: (3)

(NH=Novice High) Continuation of FRCH 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

FRCH 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of FRCH 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

FRCH 2030 - Second Year Language Review

Credits: (3)

(NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

FRCH 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)

Variable Title

May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit under different titles.

Note: Check with Department for course availability.

FRCH 2851 - Study Abroad

Credits: (3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Note: Check with Department for course availability.

FRCH 2852 - Study Abroad

Credits: (1-3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the

Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

FRCH 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Consult the class schedule for the current offering under this number.

The specific title and credit authorized will appear on the student transcript.

FRCH 3000 - Proficiency Development

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division.

The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

Credits: (3)

Variable Title

(IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3680 - Literature: Film

Credits: (3)

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

Number of Times this Course May Be Repeated: May be taken 3 times up to 9 credits under different titles.

Note: Check with department for course availability.

FRCH 3690 - Literature Special Topics in Literature

Credits: (3)

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3710 - Business Language I

Credits: (3)

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

FRCH 3715 - Business Language II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

FRCH 3715 - Business Language II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

FRCH 3720 - Language for Specific Purposes I

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

FRCH 3730 - Language for Specific Purposes II

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

FRCH 3740 - Translation I

Credits: (3)

(IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

FRCH 3810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated up to 6 times. Refer to Experimental Courses.

FRCH 3850 - Study Abroad

Credits: (1-6)

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the

target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

FRCH 4190 - Foreign Language Journal

Credits: (3)

(IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

FRCH 4620 - Survey of Literature I

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FRCH 3160

FRCH 4630 - Survey of Literature II

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

FRCH 4740 - Translation II

Credits: (3)

(IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FRCH 3740 is strongly advised, but not required.

FRCH 4830 - Directed Readings

Credits: (1-3)

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

FRCH 4850 - Study Abroad

Credits: (3)

(A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

FRCH 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

(minimal proficiency level varies with content) Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: Course not currently being offered.

FRCH 4960 - Senior Project

Credits: (3)

(IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students

must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

GRMN 1000 - Proficiency Development

Credits: (1-2)

(N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

Number of Times this Course May Be Repeated: May be repeated for credit under different titles.

Note: Course not currently being offered.

GRMN 1010 - First Semester German

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

GRMN 1020 - Second Semester German

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(N=Novice) Continuation of GRMN 1010. Basic language skills including listening, speaking, reading, writing and culture.

GRMN 1852 - Study Abroad

Credits: (1-3)

(N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

GRMN 2000 - Proficiency Development

Credits: (1-2)

(NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

GRMN 2010 - Third Semester German

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(NH=Novice High) Continuation of GRMN 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

GRMN 2020 HU - Fourth Semester German

Credits: (3)

(NH=Novice High) Continuation of GRMN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language

acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

GRMN 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of GRMN 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

GRMN 2030 - Second Year Language Review

Credits: (3)

(NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

GRMN 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)

Variable Title

May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit under different titles.

Note: Check with Department for course availability.

GRMN 2851 - Study Abroad

Credits: (3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Note: Check with Department for course availability.

GRMN 2852 - Study Abroad

Credits: (1-3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

GRMN 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

GRMN 3000 - Proficiency Development

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

GRMN 3060 - Grammar & Composition**Credits: (3)**

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

GRMN 3116 - DLI Bridge Course I**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3117 - DLI Bridge Course II**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3118 - DLI Bridge Course III**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3160 - Introduction to Literature**Credits: (3)**

(IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Note: Check with department for course availability.

GRMN 3220 - Phonetics and Phonology**Credits: (3)**

(IL=Intermediate Low) Analysis of the sounds of language and word

formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

GRMN 3270 - Special Topics in Linguistics**Credits: (3)****Variable Title**

(IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

GRMN 3320 - Applied Language Studies**Credits: (1-3)****Variable Title**

(Minimal proficiency level varies with content).

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

GRMN 3360 - Advanced Grammar**Credits: (3)**

(IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.

Note: Check with department for course availability.

GRMN 3550 - Cultural Heritage I**Credits: (3)****Variable Title**

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

GRMN 3560 - Cultural Heritage II**Credits: (3)****Variable Title**

(IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

GRMN 3570 - Special Topics in Culture**Credits: (3)****Variable Title**

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.

Number of Times this Course May Be Repeated: May be repeated up to 7 times for credit and for other non-English speaking cultures.

Note: Check with Department for course availability.

GRMN 3610 - Literature Survey I**Credits: (3)****Variable Title**

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

GRMN 3620 - Literature Survey II**Credits: (3)****Variable Title**

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

GRMN 3630 - Literature Poetry

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160. May be repeated under different titles.

GRMN 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3650 - Literature Periods

Credits: (3)

Variable Title

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3670 - Literature Authors

Credits: (3)

Variable Title

(IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3680 - Literature: Film

Credits: (3)

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

Number of Times this Course May Be Repeated: May be taken 3 times up to 9 credits under different titles.

GRMN 3690 - Literature Special Topics in Literature

Credits: (1-3)

Variable Title

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

Suggested Requirement(s): May be taken concurrently with GRMN 3160.

Note: Check with department for course availability.

GRMN 3710 - Business Language I

Credits: (3)

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

GRMN 3715 - Business Language II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

GRMN 3720 - Language for Specific Purposes I

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

GRMN 3730 - Language for Specific Purposes II

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

GRMN 3740 - Translation I

Credits: (3)

(IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

GRMN 3850 - Study Abroad

Credits: (1-6)

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

GRMN 4190 - Foreign Language Journal

Credits: (3)

(IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

GRMN 4620 - Survey of Literature I

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4630 - Survey of Literature II

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4690 - Special Topics in Literature

Credits: (3)

Variable Title

(IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.

Pre-requisite(s): GRMN 3160.

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

GRMN 4740 - Translation II

Credits: (3)

(IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion.

Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

GRMN 4830 - Directed Readings

Credits: (1-3)

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

JPNS 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3650 - Literature Periods

Credits: (3)

Variable Title

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3670 - Literature Authors

Credits: (3)

Variable Title

(IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3680 - Literature: Film

Credits: (3)

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

Number of Times this Course May Be Repeated: May be taken 3 times up to 9 credits under different titles.

JPNS 3710 - Business Language I

Credits: (3)

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

JPNS 3715 - Business Language II

Credits: (3)

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

JPNS 3720 - Language for Specific Purposes I**Credits: (3)**

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

JPNS 3730 - Language for Specific Purposes II**Credits: (3)**

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

JPNS 3740 - Translation I**Credits: (3)**

(IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

JPNS 3850 - Study Abroad**Credits: (1-6)**

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

JPNS 4740 - Translation II**Credits: (3)**

(IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

JPNS 4830 - Directed Readings**Credits: (1-3)**

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

JPNS 4850 - Study Abroad**Credits: (3)**

(A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are

performed in the target language. Prior travel experience does not apply.

JPNS 4920 - Short Courses, Workshops, Institutes and Special Programs**Credits: (1-4)**

(minimal proficiency level varies with content) Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: Course not currently being offered.

KOR 1810 - First Semester Korean**Credits: (3)****Experimental Course, Contact Department for More Information**

First Semester Korean is the first part of First Year Korean. This course is designed for beginning-level undergraduate and graduate students who have no or very little knowledge in Korean. This course will start from the Korean alphabet, basic greetings and basic conversational and grammatical patterns. The objective of this course is for the students to acquire a basic level of communication skills and to be able to communicate with Koreans. At the end of the semester, students will be able to listen, read, write and speak Korean at the elementary level. Students should be able to introduce themselves, describe their family, express simple ideas, and narrate their daily life, school activities and weekend activities in the present, past and future tenses. In addition, students will learn useful facts about Korean culture and daily life.

PTGS 1010 - First Semester Portuguese**Credits: (3)****Typically Taught Fall Semester: Full Sem**

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

PTGS 1020 - Second Semester Portuguese**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

(N=Novice) Continuation of PTGS 1010. Basic language skills including listening, speaking, reading, writing and culture.

PTGS 2010 - Third Semester Portuguese**Credits: (3)****Typically Taught Fall Semester: Full Sem**

(NH=Novice High) Continuation of PTGS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

PTGS 2020 HU - Fourth Semester Portuguese**Credits: (3)**

(NH=Novice High) Continuation of PTGS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language

acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

PTGS 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of PTGS 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

PTGS 2030 - Second Year Language Review

Credits: (3)

(NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

PTGS 3060 - Grammar & Composition

Credits: (3)

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

PTGS 3116 - DLI Bridge Course I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better

PTGS 3117 - DLI Bridge Course II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better

PTGS 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better

PTGS 3160 - Introduction to Literature

Credits: (3)

(IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Note: Check with department for course availability.

PTGS 3175 - Business Language II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

PTGS 3220 - Phonetics and Phonology

Credits: (3)

(IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

PTGS 3270 - Special Topics in Linguistics

Credits: (3)

Variable Title

(IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

PTGS 3320 - Applied Language Studies

Credits: (1-3)

Variable Title

(Minimal proficiency level varies with content).

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

PTGS 3360 - Advanced Grammar

Credits: (3)

(IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.

Note: Check with department for course availability.

PTGS 3540 - Latin American Environment and Cultures

Credits: (3)

(IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts and civilization. May be repeated for other non-English-speaking cultures.

PTGS 3550 - Cultural Heritage I

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

PTGS 3560 - Cultural Heritage II

Credits: (3)

Variable Title

(IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

PTGS 3570 - Special Topics in Culture

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography,

social customs, fine arts and civilization.

Number of Times this Course May Be Repeated: May be repeated up to 7 times for credit and for other non-English speaking cultures. Note: Check with Department for course availability.

PTGS 3610 - Literature Survey I

Credits: (3)

Variable Title

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

PTGS 3620 - Literature Survey II

Credits: (3)

Variable Title

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

PTGS 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

PTGS 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

PTGS 3680 - Literature: Film

Credits: (3)

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

Number of Times this Course May Be Repeated: May be taken 3 times up to 9 credits under different titles.

Note: Check with department for course availability.

PTGS 3710 - Business Language I

Credits: (3)

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

PTGS 3715 - Business Language II

Credits: (3)

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

PTGS 3720 - Language for Specific Purposes I

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

PTGS 3730 - Language for Specific Purposes II

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

PTGS 3740 - Translation I

Credits: (3)

(IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

PTGS 3850 - Study Abroad

Credits: (1-6)

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

PTGS 4740 - Translation II

Credits: (3)

(IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: PTGS 3740 is strongly advised, but not required.

PTGS 4850 - Study Abroad

Credits: (3)

(A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

SPAN 1000 - Proficiency Development

Credits: (1-2)

(N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

Suggested Requisite(s): May be repeated for credit under different titles.

Number of Times this Course May Be Repeated: Course not currently being offered.

SPAN 1010 - First Semester Spanish

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class.

Emphasis on everyday conversation and exposure to cultural perspectives.

SPAN 1020 - Second Semester Spanish

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(N=Novice) Continuation of SPAN 1010. Basic language skills including listening, speaking, reading, writing and culture.

SPAN 1852 - Study Abroad

Credits: (1-3)

(N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

SPAN 2000 - Proficiency Development

Credits: (1-2)

(NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

SPAN 2010 - Third Semester Spanish

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(NH=Novice High) Continuation of FL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

SPAN 2020 HU - Fourth Semester Spanish

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(NH=Novice High) Continuation of SPAN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

SPAN 2021 - Second Year II

Credits: (3)

(NH=Novice High) Continuation of FL 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

SPAN 2030 - Second Year Language Review

Credits: (3)

(NH=Novice High) This course will prepare students who wish to

continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

SPAN 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)

Variable Title

May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit under different titles.

Note: Check with Department for course availability.

SPAN 2851 - Study Abroad

Credits: (3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Note: Check with Department for course availability.

SPAN 2852 - Study Abroad

Credits: (1-3)

(NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Number of Times this Course May Be Repeated: Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

SPAN 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

SPAN 3000 - Proficiency Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

SPAN 3060 - Grammar & Composition

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral

proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

SPAN 3116 - DLI Bridge Course I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3117 - DLI Bridge Course II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3160 - Introduction to Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Note: Check with department for course availability.

SPAN 3220 - Phonetics and Phonology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

SPAN 3270 - Special Topics in Linguistics

Credits: (3)

Variable Title

(IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in SPAN 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

SPAN 3320 - Applied Language Studies

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

(Minimal proficiency level varies with content).

Number of Times this Course May Be Repeated: May be repeated up to 10 times under different titles.

SPAN 3360 - Advanced Grammar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.

SPAN 3540 - Latin American Environment and Cultures

Credits: (3)

In order to provide an interdisciplinary introduction to Latin America, this course presents the region's history, its peoples, their culture and their political and natural environments. Other content to be discussed includes issues of migration, US Latinos and the region's relationship with the US.

SPAN 3550 - Cultural Heritage I

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

SPAN 3560 - Cultural Heritage II

Credits: (3)

Variable Title

(IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

SPAN 3570 - Special Topics in Culture

Credits: (3)

Variable Title

(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.

Number of Times this Course May Be Repeated: May be repeated up to 7 times for credit and for other non-English speaking cultures.

Note: Check with Department for course availability.

SPAN 3610 - Literature Survey I

Credits: (3)

Variable Title

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

SPAN 3620 - Literature Survey II

Credits: (3)

Variable Title

(IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

SPAN 3630 - Literature Poetry

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with FL 3160. May be repeated under different titles.

SPAN 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

SPAN 3650 - Literature Periods

Credits: (3)

Variable Title

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with SPAN 3160.

SPAN 3670 - Literature Authors

Credits: (3)

Variable Title

(IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

Suggested Requisite(s): May be taken concurrently with SPAN 3160.

Note: Check with Department for course availability.

SPAN 3680 - Literature: Film

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

SPAN 3690 - Literature Special Topics in Literature

Credits: (1-3)

Variable Title

(IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

Suggested Requisite(s): May be taken concurrently with SPAN 3160.

Note: Check with Department for course availability.

SPAN 3710 - Business Language I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

SPAN 3715 - Business Language II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

SPAN 3720 - Language for Specific Purposes I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

SPAN 3730 - Language for Specific Purposes II

Credits: (3)

(IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

SPAN 3740 - Translation I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

(IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

SPAN 3750 - Introduction to Interpreting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

SPAN 3850 - Study Abroad

Credits: (1-6)

(IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

SPAN 4190 - Foreign Language Journal

Credits: (3)

(IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

SPAN 4620 - Survey of Literature I

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

SPAN 4630 - Survey of Literature II

Credits: (3)

(IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

SPAN 4690 - Special Topics in Literature

Credits: (3)

Variable Title

(IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High. Prerequisite: SPAN 3160 May be repeated up to 10 times under different titles.

SPAN 4740 - Translation II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

(IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion.

Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

SPAN 4830 - Directed Readings

Credits: (1-3)

(IH=Intermediate High) Independent readings under the direction of a faculty member.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

Note: Check with Department for course availability.

SPAN 4850 - Study Abroad

Credits: (3)

(A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

SPAN 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

(minimal proficiency level varies with content) Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: Course not currently being offered.

SPAN 4960 - Senior Project

Credits: (3)

(IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

Geosciences

GEO 1030 PS - Earthquakes and Volcanoes

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *2nd Blk, Full Sem Online*

The causes, distribution, and effects of earthquakes and volcanoes within the framework of global plate tectonics. Development of problem solving and analytical thinking skills are emphasized through homework assignments related to geologic processes. Three lectures per week.

GEO 1060 PS - Environmental Geosciences

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The scientific study of the interaction of humans and earth systems including topics of natural hazards; soil, water, energy and mineral resources; and issues of global change.

Three lectures per week.

GEO 1065 - Environmental Geosciences Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Laboratory and field exercises involving analysis of geologic data related to environmental issues or problems. Application of the scientific method and development of basic computational and map interpretation skills will be stressed.

One three-hour lab per week.

Pre-requisite(s): GEO 1060, or concurrent enrollment.

GEO 1110 PS - Dynamic Earth: Physical Geology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Fundamental principles of geology emphasizing physical aspects of the Earth including earth materials, plate tectonics, and the effects of water, wind and ice on the Earth's surface. Useful for all students, and recommended as the first geology course for students with majors/minors in geosciences, science teaching, archaeology, and pre-engineering.

Three lectures per week. Optional field trip to observe local geologic features.

GEO 1115 - Physical Geology Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The study of minerals and rocks in hand specimens, as well as surficial processes of the Earth revealed by topographic maps and air photos.

One three-hour lab per week.

Pre-requisite(s): GEO 1110 or GEOG 1000, or concurrent enrollment in either class.

GEO 1130 PS - Introduction to Meteorology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Survey of atmospheric processes that create weather. Topics include solar radiation, temperature, moisture, pressure, wind, storm systems, weather forecasting, and air pollution. Problem solving skills and use

of satellite imagery included.
Three lectures per week.

GEO 1220 - Historical Geology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The history of the Earth and the methods used to interpret this history. Short field trips required.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1110 and GEO 1115.

GEO 1350 PS - Principles of Earth Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Overview of Earth's systems, including weather, climate, seasons, rocks and minerals, processes that change Earth's surface, earthquakes, volcanoes, and plate tectonics. Data collection and analysis are included.

Two lectures and one three-hour lab per week. Designed for Elementary Education majors.

GEO 1710 - Introduction to Geographic Information Systems (GIS)

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

Pre-requisite/Co-requisite: GEOG 1790.

GEO 1720 - Geospatial Analysis

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become an advanced GIS user with marketable skills transforming data into information needed to address today's geospatial problems.

Pre-requisite(s): GEO 1710.

GEO 2050 - Earth Materials

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An introduction to the origin, classification, and identification of minerals and rocks including topics related to crystallography, mineral chemistry, petrology, and the importance of mineral and rock resources to our society.

Three lectures and one three-hour laboratory per week.

Pre-requisite(s): GEO 1115 and CHEM 1200.

Co-Requisite(s): CHEM 1210.

GEO 2200 - Geospatial Data Acquisition

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.

Pre-requisite(s): GEO 1710.

GEO 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

GEO 2840 INT - Geospatial Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation. This is a dual-listed course with GEO 4840. Prerequisite or Corequisite: GEO 1720, GEOG 2400, and consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for a maximum of three credit hours.

GEO 2850 - Geospatial Capstone

Credits: (3)

Typically Taught Spring Semester: *Even Years*

This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish. This is a dual-listed course with GEO 4850. Prerequisite or Corequisite: GEO 1720, GEO 2200, GEOG 2400.

GEO 2890 INT - Cooperative Work Experience

Credits: (1-6)

Open to all students in Geosciences who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated

5 times with a maximum of 6 credit hours.
Note: This course is offered as needed.

GEO 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Note: This course is offered as needed.

GEO 2950 - Geoscience Fieldtrips

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of basic Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations may be required.

Pre-requisite(s): consent of instructor.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

GEO 3000 - Geoscience Methods and Careers

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to a variety of methods and skills used by geoscientists, including geoinformation literacy, written-oral-visual communication, and basic statistical/data analysis skills, that will be used and further developed in upper-division courses. Basic field and laboratory methods used in geoscience research/investigations will be demonstrated and practiced. Geoscience career paths will be explored and students will begin planning for professional licensure. Two hours of lecture and three hours of field/laboratory per week.
Prerequisites: GEO 1220 and MATH 1010.

GEO 3010 - Oceanography and Earth Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Study of the world's oceans as a framework for examining the major issues in Earth system science. Topics include plate tectonics and the origin of ocean basins, atmosphere-ocean linkages and feedbacks, El Niño events, the ocean's role in biogeochemical cycles, structure and organization of marine ecosystems, and the scientific basis for understanding human impacts on marine systems.
Three lectures per week.

Pre-requisite(s): GEO 1110 or GEO 1130 or GEOG 1000.

GEO 3060 - Structural Geology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Origin and characteristics of structural features in deformed rock. Topics include basic principles of stress, strain, and rock deformation; analysis of faults and folds; and relations to major tectonic features of Earth. Field trips required.
Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 2050 and either MATH 1050 or MATH 1080; or consent of instructor.

GEO 3080 - Applied Hydrology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A detailed examination of Earth's water cycle,

including precipitation, surface water, groundwater, water management, and water conservation. Three hours of lecture and three hours of laboratory per week.

Pre-requisite(s): GEO 1115 and GEO 3000.

GEO 3150 - Geomorphology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

A study of landforms, surficial deposits, and geomorphic processes operating in fluvial, coastal, eolian, and glacial environments. Laboratory exercises employ maps, aerial photographs, and field analysis to understand the interactive nature of geomorphic processes and landform development.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1220 and MATH 1050 or MATH 1080.

GEO 3180 - Paleontology

Credits: (4)

Characteristics of important fossil groups and their geologic distribution and paleoecology. Emphasis on the invertebrate record with some treatment of vertebrates and plants.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1220 or ZOOL 1110 or consent of instructor.

Note: This course is not currently offered.

GEO 3210 - Quaternary Environmental Change

Credits: (3)

Overview of the geologic and paleoclimatic history of the Earth during the last 2 million years (the "Ice Age"), focusing on the interactions between geological, climatological, and biological processes and systems. Topics include the methods used to date Quaternary deposits, nature of Quaternary glaciations, use of proxy data to model past climates, causes of Quaternary climatic oscillations, history of Pleistocene Lake Bonneville, and the increasing role of humans as agents of environmental change.
Three lectures per week.

Pre-requisite(s): GEO 1220 or GEOG 1000 or ANTH 2030.

Note: This course is not currently offered.

GEO 3214 - Soils

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week. Course is cross listed with BTNY 3214.

Pre-requisite(s): BTNY 2104 or GEO 1110 or GEO 1060 and CHEM 1050 or CHEM 1110 or CHEM 1210.

GEO 3250 - Geology of Utah

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

The study of Utah's geologic history, rocks, minerals, fossils, and landforms and their relationship to regional and global events. Field trips required.

Three lectures per week.

Pre-requisite(s): GEO 1220.

GEO 3550 - Sedimentology and Stratigraphy

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

The processes, origin, classification, identification, and basic petrology of sedimentary rocks and the principles, concepts, and applications of stratigraphy. Field trips required.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1220 and GEO 2050; or consent of instructor.

GEO 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

GEO 3710 - Introduction to Geographic Information Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

GEO 3720 - Geospatial Analysis

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become a Geospatial/GIS analyst or advanced GIS user with marketable skills required in the geospatial workforce today.

Pre-requisite(s): GEO 3710.

GEO 3753 - Geomicrobiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore 1. geological change mediated by microorganisms, 2. microbial evolution driven by geologically diverse habitats, and 3. applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial applications of geomicrobiology. This team-taught course includes classroom discussion, laboratories, and field trips.

Pre-requisite(s): CHEM 1210 or approval of the instructor.

Cross-listed with MICR 3753.

GEO 3810 - Oil, Gas, and the Environment

Credits: (2)

Experimental Course, Contact Department for More Information

An introduction to petroleum geology and the environmental impacts of oil and gas production, including groundwater

contamination, induced earthquakes, and climate change. The issue of hydraulic fracturing (aka "fracking") will be examined in detail. Two hours of lecture per week.

GEO 3840 - Remote Sensing: Principles and Methods

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This is an advanced geospatial course that introduces and analyzes important concepts, issues, and methods related to a variety of multispectral and other types of remotely sensed imagery (e.g., satellite and airborne platforms). The major objectives are to provide students with both a foundation in understanding different types of imagery and how to process imagery used to address geospatial problems and issues. After successful completion of this course, you will have the knowledge needed to understand different types / applications of imagery and the skills needed to process the image data and assess the accuracy of the results. Students are required to take GEO 3710 - Introduction to Geographic Information Systems as either a prerequisite or a corequisite. Prerequisite or Corequisite: GEO 3710.

GEO 3880 - Groundwater

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Origin, occurrence, behavior, and use of groundwater, with special emphasis on practical applications in Utah.

Three lectures and one three hour lab per week.

Pre-requisite(s): GEO 1115 and either MATH 1050 or MATH 1080; or consent of instructor.

GEO 4060 - Geoscience Field Methods

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

A capstone course in the collection and analysis of field data for various Geoscience applications. Topics include introductory surveying, geologic mapping of bedrock and surficial deposits, measuring stratigraphic sections, GPS surveying, groundwater monitoring, and analysis of geologic hazards. Results are presented in maps, computer graphics, written reports, and oral presentations. Two hours of lecture and six hours of lab/field work per week.

Pre-requisite(s): GEO 2050, GEO 3000, and GEO 3550.

GEO 4080 - Groundwater and Environmental Assessment

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

A survey of groundwater hydrology, including the origin, occurrence, behavior, and use of groundwater and the transport of groundwater and soil contaminants. Environmental site assessment and groundwater remediation are also examined. Three hours of lecture and three hours of laboratory per week.

Pre-requisite(s): GEO 3080.

GEO 4100 - Engineering Geology

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Introduction to basic concepts in engineering geology and geotechnical engineering; emphasizes problem solving as the primary method.

Three lectures per week.

Pre-requisite(s): GEO 1060 and GEO 1065, or GEO 2050, or consent of instructor.

GEO 4200 - Geospatial Data Acquisition

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data. This is a dual-listed course with GEO 2200.

Pre-requisite(s): GEO 3710.

GEO 4300 - Igneous and Metamorphic Petrology

Credits: (4)

Typically Taught Spring Semester: *Full Sem even years*

The origin, classification, and identification of igneous and metamorphic rocks, and understanding of igneous and metamorphic processes. Laboratory includes analysis of rocks in thin section and an introduction to optical mineralogy.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 2050 and CHEM 1220; or consent of instructor.

GEO 4510 - Geology Field Camp

Credits: (4)

Typically Taught Summer Semester: *1st Blk even years*

Integrated approach to collecting field data and interpreting geologic processes and history. Includes geologic mapping and analysis of bedrock, surficial deposits, and geologic structures using aerial photographs, topographic maps, and surveying techniques. Results presented in written reports, maps, and graphical formats. About forty hours of lab per week for about 4 weeks.

Pre-requisite(s): GEO 3060, GEO 3550, and GEO 4060; or consent of instructor.

GEO 4550 - Geochemistry

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

The chemical evolution of the Earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere. Applications to chemical reactions, mineral stability, aqueous solutions, geochemical cycles, and isotope geochemistry. Three lectures per week.

Pre-requisite(s): CHEM 1220 and GEO 2050; or consent of instructor.

GEO 4560 - Environmental Geochemistry

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): CHEM 1200 and GEO 3000; or consent of instructor.

GEO 4570 - Secondary School Science Teaching Methods

Credits: (3)

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.
Note: This course is offered as needed.

GEO 4600 - Geophysics

Credits: (3)

Principles and techniques of geophysical exploration, including gravity, magnetic, electric, and seismic methods. Course includes field collection and computer modeling of geophysical data. Three lectures per week. Field trips required.

Pre-requisite(s): GEO 3060 and MATH 1220; or consent of instructor.

Note: This course is not currently offered.

GEO 4630 - Global Tectonics

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Large-scale structure and dynamics of the Earth. Framework of plate tectonics including plate motion, processes at plate boundaries, and driving mechanisms. Processes of crustal deformation and evolution of orogenic belts over time, with examples from North America. Three lectures per week. Field trips required.

Pre-requisite(s): GEO 2050 and GEO 3060; or consent of instructor.

GEO 4750 - Special Topics in Geosciences

Credits: (1-4)

Variable Title

Typically Taught Spring Semester: *Full Sem*

An opportunity to examine in depth topics in the Geosciences not regularly offered as part of the standard course offerings. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): GEO 1110, GEO 1115, and any specific courses selected by the instructor.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 8 credit hours.

GEO 4800 - Independent Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Offered as needed.*

Independent research under the advisement of a faculty member.

Pre-requisite(s): Consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for a maximum of five credit hours.

GEO 4810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

GEO 4830 - Directed Readings

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed individual readings in the general areas of geoscience and/or environmental science. Specific topics and readings selected in consultation with faculty member. Students will complete a scientific literature review and/or annotated bibliography.

Pre-requisite(s): GEO 3000 and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated twice for a total of 2 credits.

GEO 4840 INT - Geospatial Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation. This is a dual-listed course with GEO 2840.

Prerequisite or Corequisite: GEO 3720, GEOG 4400, and consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for a maximum of three credit hours.

GEO 4850 - Geospatial Capstone

Credits: (3)

Typically Taught Spring Semester: *Even Years*

This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish. This is a dual-listed course with GEO 2850.

Pre-requisite/Co-requisite: GEO 3720, GEO 4200, GEOG 4400.

GEO 4890 INT - Cooperative Work Experience

Credits: (1-6)

A continuation of GEO 2890. Open to all students.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 4920 - Short courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 4950 - Advanced Geoscience Fieldtrips

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations required.

Pre-requisite(s): consent of instructor.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

GEO 4970 - Senior Thesis

Credits: (2)

A thesis to be written by a student at the culmination of a period of individual field/laboratory and library research, under the direction of a specific faculty person.

Pre-requisite(s): Senior standing and departmental approval of the thesis topic.

Note: This course is offered as needed.

GEO 4990 - Geoscience and Society Seminar

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Case studies, readings, presentations, and/or seminar-style discussions related to geologic hazards/disasters, natural resources, climate change, and applied geoscience careers.

Two hours of lecture and/or seminar discussion per week.

Pre-requisite(s): GEO 3000 and GEO 3150.

GEO 5030G - Geology for Teachers

Credits: (2-4)

Science content course for teachers in the M.Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit.

Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Number of Times this Course May Be Repeated: May be repeated once with a maximum of 4 credit hours.

Note: This course is offered as needed.

GEO 5920G - Short courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Note: This course is offered as needed.

Geography

GEOG 1000 PS - Natural Environments of the Earth

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

A study of the interrelated systems that constitute the earth's surface environment, e.g., landforms, weather, climate, natural vegetation, hydrology, and soils, and their integrated patterns of world distribution.

GEOG 1002 - Map Reading and Land Navigation

Credits: (2)

Typically Taught Summer Semester: *1st Blk*

Orienteering and the use of maps, compasses, global positioning systems (GPS), and other navigational aids. Lecture and field work prepares course participants to apply navigational knowledge and skills in a professional setting.

Weekly two-hour lab sessions for ten weeks.

GEOG 1005 - Natural Environments Field Studies

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This introductory level field studies course investigates natural environmental phenomena including weather, climate, natural vegetation, landforms, hydrology, soils and human impacts on the environment. While exploring local natural environments from a geographic perspective, understanding of principles of physical geography is enhanced through direct observation in the field and through the measurement of phenomena noted above.

Pre-requisite/Co-requisite: Prerequisite or current enrollment in: GEOG 1000 Natural Environments of the Earth.

GEOG 1300 SS/DV - Places and Peoples of the World

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

The study of different places, countries, and regions of the world. Addresses topics relating to natural environment, ethnic diversity, and regional differences in subjects related to culture, gender, age, class, social structure, spatial organization, and economic activities. Current social conditions within the world's major culture realms are analyzed and compared.

GEOG 1500 PS - The Science of Global Warming: Myths, Realities and Solutions

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course examines the science behind global warming, providing an understanding of the basic physical, chemical, biological and geographical principles that explain the workings of Earth's climate system and the human influence upon it. The course also considers the feasibility and societal impacts of possible solutions to human-induced global warming. Finally, examination of the scientific process is a central part of the course, as students learn to separate truth from fiction in the arguments about whether or not global warming is a real problem, and if so, what should be done about it.

GEOG 1520 SS/DV - Geography of the United States and Canada

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Addresses topics relating to the area's natural environment, ethnic diversity, and regional differences in such subjects as culture, gender, age, class, social structure, spatial organization, and economic activities. Present social and cultural conditions within the United States and Canada are analyzed and compared.

GEOG 1790 - Exploring Our World Through Geospatial Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

This exploratory course introduces students to the fundamental concepts of Geospatial Science and how Geospatial Technology (GST) is used to measure, imagine, study, and discover our complex and ever-changing human and natural world. You will learn the basic techniques of cartography (mapping), GPS (global positioning systems), GIS (Geographic Information Systems), spatial analysis, and remote sensing (drones and satellites).

GEOG 2400 - Cartography and Map Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course introduces the foundations of Cartography and Map Design including topics and techniques important to the creation of cartographic visualizations using Geographic Information Systems (GIS) for digital and hardcopy maps. Students will explore and practice the guiding principles and cutting edge techniques that make modern cartographic products in such high demand across our multimedia social spaces and marketplaces as well as research and data environments.

GEOG 2790 - Exploring Geography, Environment & Sustainability

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

This course introduces new and prospective Geography, Environment & Sustainability majors and minors to the fundamental perspectives that prepare them for success in their university career and beyond. Through engaging discussions, guest lectures, and activities, this course introduces the career opportunities, major tracks, and real-world applications of geographic perspectives and techniques that help students identify a pathway through the major and into their careers.

GEOG 2840 INT - Geospatial Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation. Prerequisite or Corequisite: GEO 1720 and GEOG 2400, and consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for a maximum of three credit hours.

GEOG 2850 - Geospatial Capstone

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the

instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish. Prerequisite or Corequisite: GEO 1720, GEO 2200, GEOG 2400.

GEOG 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: This course can be repeated up to 5 times, for a total of 6 credit hours.

Note: This course is offered as needed.

GEOG 2950 - Elementary Regional Field Studies

Credits: (1-3)

The study of specific geographic regions, utilizing field observations, lectures, and individual student research.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

GEOG 3050 - Weather and Climate

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The advanced study of the processes that produce global climate patterns; analysis of the prospects and possible repercussions of global climate change; and an examination of climatic anomalies such as El Niño, hurricanes, tornadoes and other unusual phenomena.

Pre-requisite(s): GEOG 1000, or GEO 1130, or the equivalent.

GEOG 3060 - World Environmental Issues

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of global and local environmental issues such as changing air and water quality, food production, waste management, and other topics. The course identifies strategies for creating healthier and more sustainable ways of living within our natural and built environments.

Pre-requisite(s): GEOG 1000, or BTNY 1403, or the equivalent, or consent of the instructor.

GEOG 3070 - Wetland Environments

Credits: (3)

Analysis of physical properties, values, economic, and legal issues associated with wetland environments. Since wetlands in different places have many different attributes, a detailed examination is made of wetland environments in different parts of the United States.

Note: Course not currently being offered.

GEOG 3080 - Arid Lands

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Presents a general overview of the characteristics and variant topography, geography, and climatic conditions of the Earth's arid lands. Examines the spatial location of arid regions and their climatic controlling factors. Weather patterns, hydrology, and eolian processes

will be discussed along with sediment transportation and deposition of arid environments. The course will also review dune types and formation along with soils of arid zones. The course concludes with a discussion on the desertification and the impact of human intervention in the misuse of arid lands, while discussing preservation versus reclamation of these regions.

Pre-requisite(s): GEOG 1000, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3090 - Arctic and Alpine Environments

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An examination of the physical environments of high altitude and high latitude places, the ways in which humans interact with these environments, and their broader roles within the large Earth systems. Topics will include causes and consequences of avalanches, climatic characteristics of the Arctic, glacier behavior, sea ice, and the responses of human physiology to high altitudes.

Pre-requisite(s): GEOG 1000, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3210 - Urban Geography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The study of cities as elements of the landscape, their distribution, location, and structure, as related to their physical setting, economic function, and cultural inheritance.

GEOG 3300 - Historical Geography of the United States

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A geographic analysis of America's past featuring an examination of cultural development in different parts of the United States and how this has produced many distinct regional landscapes throughout the country.

GEOG 3360 - Economic Geography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The spatial structure of the world's resources, production, commerce, and economic problems.

GEOG 3500 - Geography of Utah

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of the physical environment and activities of man in Utah.

GEOG 3540 - Geography of Latin America

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Addresses topics relating to Latin America's natural environment, ethnic diversity, and regional differences in culture, gender, age, class, social structure, spatial organization, and economic activities. Current issues relating to culture and society in Latin America are analyzed within the context of its colonial inheritance and its future prospects.

GEOG 3590 - Geography of Europe

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Addresses topics relating to Europe's natural environment, ethnic diversity, and regional differences in culture, gender, age, class, social structure, wealth, spatial organization, and economic activities. Current issues and social conditions within Europe and its major subdivisions are discussed and analyzed.

GEOG 3640 - Geography of Asia

Credits: (3)

Typically Taught Spring Semester: Full Sem

Addresses topics relating to Asia's natural environment, ethnic diversity, and regional differences in culture, gender, age, class, social structure, spatial organization, and economic activities. Current societies in Asia are analyzed with special attention given to their colonial inheritance and future prospects.

GEOG 3740 - Geography of Africa

Credits: (3)

Typically Taught Fall Semester: Full Sem

The study of Africa's natural environment, ethnic diversity, and regional differences in culture, gender, age, class, societal structure, wealth, spatial organization, and economic activities. Current socio-economic conditions in Africa are analyzed within the context of its colonial inheritance and its future outlook.

GEOG 3780 - Geographic Area Studies

Credits: (1-3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Surveys different geographic areas and regions of the world. When this number is used it will be accompanied by a descriptive title and the credit authorized, which will appear on the student's transcript. May be repeated for credit up to nine hours when a different title is used.

GEOG 3790 - Research Methods in Geography

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course introduces the methods used in geographic research, beginning with hypothesis formulation, review of literature, research design, gathering and analysis of data from a spatial perspective, and the analysis, interpretation and presentation of research results. Students are exposed to both quantitative and qualitative methods commonly used in geographic research, and are expected to have basic proficiency in spreadsheets, word processing and presentation software. IRBs and Grant Writing are also covered. The course is an essential prerequisite for GEOG 4990 - Senior Seminar in Geography, which should be taken in the following semester.

Pre-requisite(s): One statistics class taken from any of the following: CJ 3600, SW 3600, GERT 3600, PSY 3600, SOC 3600, or MATH 1040.

Pre-requisite/Co-requisite: GEOG 2790 with a grade of C or higher.

GEOG 4400 - Cartography and Map Design

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course introduces the foundations of Cartography and Map Design including topics and techniques important to the creation of cartographic visualizations using Geographic Information Systems (GIS) for digital and hardcopy maps. Students will explore and practice the guiding principles and cutting edge techniques that make modern cartographic products in such high demand across our multimedia social spaces and marketplaces as well as research and data environments.

GEOG 4410 - Sustainable Land Use Planning

Credits: (3)

Typically Taught Fall Semester: Full Sem

A study of the status and tools of planning, planning office organization, the federal and state role in planning, and problems in planning. The course emphasizes concepts of sustainable land use planning such as resource conservation, air and water quality improvement, agricultural land preservation, transit oriented development, and alternatives to suburban sprawl.

GEOG 4420 - Advanced Urban and Regional Planning

Credits: (3)

Typically Taught Spring Semester: Full Sem

A study of the enabling legislation for planning, zoning laws and ordinances, rezoning and review processes, zoning problems, and the ramifications of urban growth. The preparation, financing, citizen participation and evaluation of land use pertaining to general plans. Class groups will prepare, critique, and present a draft urban general plan.

Pre-requisite(s): GEOG 4410.

GEOG 4600 - Geospatial Programming/Online Methods

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course focuses on two essential components of the geographic online experience: geospatial programming and online methods. Half of the course is devoted to customizing GIS software applications by way of modified service interface elements. Topics include the theory and implementation of the various scripting languages (Python for example) currently in use. With these skillsets, students will be able to solve geospatial problems, extend functionality, and streamline/automate GIS workflows through the creation and modification of scripts. The other half of the course is aimed at the design, publishing, and optimization of geospatial servers, and to the maintenance of basic geospatial web services and applications. This will include an introduction to browser and mobile-enabled interactive applications such as those found on cellular phones. Mapping applications using geospatial APIs and Javascript will be covered as well.

Pre-requisite/Co-requisite: GEO 4200.

GEOG 4800 - Individual Research

Credits: (1-3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

A personalized course designed to foster individual research and scientific writing.

Number of Times this Course May Be Repeated: May be repeated up to a maximum of 12 credit hours. **Instructor approval required before registering for this course.**

GEOG 4840 INT - Geospatial Internship

Credits: (1-3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce.

Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite/Co-requisite: GEO 3720 , GEOG 4400, and consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for a maximum of three credit hours.

GEOG 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in Geography who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: A maximum of six credit hours will be accepted toward a major in geography. **Instructor approval required before registering for this course.**

GEOG 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student's transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed.

GEOG 4950 - Advanced Regional Field Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A directed study of specific geographic regions utilizing field observations, lectures, and individual student research.

Pre-requisite(s): A general course in Geography or consent of the instructor. May be repeated up to a maximum of 12 credit hours.

Number of Times this Course May Be Repeated: May be repeated 11 times up to 12 credit hours.

GEOG 4990 - Senior Seminar in Geography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This capstone course builds on GEOG 3790 - Research Methods in Geography. Students engage in a primary research experience that draws on the full range of skills and abilities acquired in prior semesters and classes, culminating in an original, professional-quality research report, thesis, or applied project. Students present their work in an end-of-semester forum, and will have the opportunity to present in other professional settings and/or submit their work for publication.

Pre-requisite(s): Senior standing.

Pre-requisite/Co-requisite: GEOG 3790.

GEOG 5030G - Geography for Teachers

Credits: (3)

Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop

a contract detailing additional work required for graduate credit. Course may be repeated. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. Graduate.

Note: This course is offered as needed.

Gerontology

GERT 1010 SS - Introduction to Gerontology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of physical, psychological, social-psychological, and social dimensions of aging and the application of principles and strategies to facilitate adaptation to aging. Emphasis is placed on methods of gathering knowledge, the current knowledge base, and strategies for adaptation in the later stages of life cycle.

GERT 2220 - Introduction to Social Gerontology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A scientific study of social and psychological aging and the application of principles and strategies to facilitate adaptation to aging. The focus is on methods and systems for gathering data, demography of aging, social theoretical perspectives, psychological effects of aging, aging and the economy, and government and the politics of aging.

GERT 2900 - Current Topics on Aging

Credits: (2-4)

Variable Title

A study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

GERT 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

GERT 3000 - Death and Dying

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth study of death, death-related issues and social institutions and practices dealing with death in American society, with special emphasis on the social processes surrounding death and constructive responses to death and dying.

Cross-listed with SW 3000.

GERT 3120 - Aging: Adaptation and Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes.

Cross-listed with SW 3120.

GERT 3320 - Ethnicity and Older Women in the American Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The importance of special populations (ethnic, racial and women) as they relate to the aging process.

Cross-listed with SW 3320.

GERT 3400 - Methods of Research: Social and Behavioral Research

Credits: (4)

Focus on acquiring knowledge, developing skills, and conducting social and behavioral scientific research, utilizing single system design that includes visual and statistical assessment. The course will include both qualitative methodologies (evaluative research, historical methods, case studies, field research, ethnography studies, and grounded theory) and quantitative methodologies (experimental and survey with a special emphasis on survey).

Pre-requisite(s): It is recommended to take a Statistics course before Research.

Note: Course not currently being offered.

GERT 3500 - Social Welfare & Gerontological Policy Development and Service

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The history, mission, philosophy and human service aspects used in the development of social work/gerontology as a profession will be covered. Examples of social, public and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobby, funding and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of processes and policy will be covered.

Pre-requisite(s): SW 1010 or GERT 1010. (SW 3500/GERT 3500 must be completed before entering Field Practice).

GERT 3600 - Social Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*

Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*

Typically Taught Summer Semester: *Online*

Introduction to analysis and presentation of data.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement. Cross-listed with SW 3600.

GERT 4220 - Societal Responses to Aging

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with SW 4220.

GERT 4650 - Retirement: Adjustment/Planning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with SW 4650.

GERT 4830 - Readings and/or Projects

Credits: (2-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual readings and/or projects for the senior Gerontology major (with the approval of the instructor).

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credits.

Note: Check with department for course availability.

GERT 4860 - Introductory Field Practicum

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introductory experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).

Pre-requisite(s): GERT 1010, GERT 3320 and GERT 3500; must be a declared minor. Offered on demand.

GERT 4861 - Advanced Field Practicum

Credits: (2)

Advanced experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).

Pre-requisite(s): GERT 3400, GERT 3500, GERT 4860, and must be a declared major or minor.

Note: Course not currently being offered.

GERT 4862 - Specialized Field Practicum

Credits: (2)

Specialized experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).

Pre-requisite(s): GERT 3600, GERT 4861, and must be a declared major or minor.

Note: Course not currently being offered.

GERT 4900 - Current Topics on Aging

Credits: (2-4)

Variable Title

An in-depth study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

GERT 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

GERT 4990 - Senior Seminar

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Preparation and discussion of gerontology concepts and topics. Information and techniques for obtaining a job and selecting a graduate school.

Pre-requisite(s): GERT 1010, GERT 3320, GERT 3400, GERT 3500 and GERT 3600. Offered on demand.

Honors Courses

HNRS 1110 HU - Introduction to Honors: The Construction of Knowledge

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An interdisciplinary class introducing students to the different ways university disciplines see the world and construct meaning.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1500 PS - Perspectives in the Physical Sciences

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary approach to the physical sciences. This introductory class deals with basic concepts, problems and issues of the physical sciences.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1510 LS - Perspectives in the Life Sciences

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary approach to the life sciences. This introductory class deals with basic concepts, problems and issues of the life sciences.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1520 SS - Perspectives in the Social Sciences

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary introduction to the social sciences. This introductory course deals with the basic concepts, methods, models and issues of the social sciences.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1530 CA - Perspectives in the Creative Arts

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary introduction to the creative arts. This introductory class deals with basic concepts, problems and issues of the creative arts.

Number of Times this Course May Be Repeated: A student may repeat a course number twice for a maximum of 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1540 HU - Perspectives in the Humanities

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary approach to the arts and humanities. This introductory class deals with basic concepts, problems and issues of the arts and humanities.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on the history and development of a central concept in the Humanities, using original sources as the primary class texts.

Pre-requisite(s): Prior to taking this course students are strongly advised to take HNRS 1110 HU and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts

Credits: (3-6)

Variable Title

This course will focus on a central concept in the Creative Arts, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences

Credits: (3)

Variable Title

This course will focus on a central concept in the Physical Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on a central concept in the Life Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science

Credits: (3)

Variable Title

This course will focus on the history and development of a central concept in the Social Sciences, using original sources as the primary class texts.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A survey of influential ideas, literature and events that characterize antiquity and the middle ages in the Western world. This course is offered either for HU credit (2110A) or for SS credit (2110B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A survey of the great ideas, literature and events that characterize Western civilization from the Renaissance to relativity. This course is offered either for HU credit (2120A) or for SS credit (2120B). Prior

to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2130 HU/SS/DV - Intellectual Traditions: Great Ideas of the East

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A survey of the great ideas, literature, religions and philosophical foundations of Asia. This course is offered either for HU credit (2130A) or for SS credit (2130B). This course also fills the Diversity requirement. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2830 - Directed Readings, Projects, and Research

Credits: (1-3)

Individualized tutorial with a professor who may be selected from many possible disciplines.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2900 - Honors Colloquium

Credits: (1-3)

Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus; may be taken twice up to 3 credits with different course content: restricted to lower division credit.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a specific and descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 3110 - Great Books

Credits: (3)

A selection of books that embody some of the great ideas, literature, and events influential in history.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 3900 - Honors Colloquium

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4830 - Directed Readings: Senior Project Research

Credits: (1-3)

This class is taken in preparation for the HNRS 4990 Honors Senior Project. Class time is TBA, but students working towards their Honors Senior Project usually meet about seven times during the semester.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4900 - Honors Colloquium

Credits: (2-4)

Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4990 - Honors Senior Project

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Must be taken by students whose major department offers no Senior Project course; or may be taken in conjunction with a departmental Senior Project course when the project merits additional credit. For the University Honors designation, a Senior Project/Thesis must be completed.

Number of Times this Course May Be Repeated: A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

Health Administrative Services

HAS 3000 - The Healthcare System

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

A study of the U.S. healthcare system to help students understand the critical issues facing healthcare in its ever-changing environment and

to gain a sense of the complex multidimensional nature of healthcare delivery in the United States.

HAS 3010 - Professionalism in Healthcare

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

This course explores a variety of topics to develop a stronger sense of professionalism for healthcare managers. Topics include business and social etiquette, self-assessment, professional deportment, networking, effective communication skills, and dressing professionally.

HAS 3020 - Healthcare Marketing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Typically Taught Summer Semester: *Full Sem - Online*

This course outlines the application of marketing principles to healthcare organizations and the public health arena. Students will apply those principles in the development of a marketing plan.

HAS 3150 - Introduction to Public Health

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

An overview of public and community health including history, management, prevention and epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.

HAS 3190 - Cultural Diversity in Patient Education

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

This course is an introduction to patient or client education skills and theory. It also focuses on health traditions of culturally diverse clients and how those traditions must be considered during effective patient education. In particular, the course will move from the general health traditions of world populations and religions, to the more specific behaviors and expectations of U.S. populations. Gender, age, and class will all be considered in the studies.

HAS 3230 - Health Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.

Cross-listed with COMM 3230.

HAS 3240 - Human Resource Development in Healthcare

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem*

Study of human resource principles and practices in healthcare facilities. The general topics include: job analysis and work flows, compensation, recruitment and selection, performance appraisals, discipline, legal environment, unions, safety and health.

Pre-requisite(s): HAS 3000.

HAS 3260 - Healthcare Leadership and Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem - Online*

Basic theories and concepts of management. Emphasis is on individual and group behavior, interpersonal skills, decision making, leadership theory, planned change, motivation, teamwork, organizational design and culture within the context of the health care organization.

Pre-requisite(s): HAS 3000.

HAS 3700 - Public Health Finance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Finance in the public sector is fundamentally different from business or corporate finance. This course will provide an overview of finance as directly related to public health. Basic concepts of government accounting and budgeting will be presented. The financial aspects of Medicare and Medicaid along with grant funding and funding agencies will be discussed. Students will leave the course with the ability to formulate a public health program budget as well as the background knowledge necessary to understand the financial operations of local and state departments of health.

HAS 3750 - Healthcare Financial Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem - Online*

This course is designed to build upon the concepts introduced in basic accounting courses and develop proficiency in applying administrative financial techniques in healthcare decision making.

Pre-requisite(s): HAS 3000, ACTG 2010, Quantitative Literacy.

HAS 3810 - Healthcare Leadership Seminar

Credits: (3)

Experimental Course, Contact Department for More Information

This course will explore healthcare topics and issues of the day with clinical leaders and healthcare executives. Students will explore and analyze the implementation and application of management and leadership theory in various practices, healthcare settings and facilities.

HAS 3980 - Interprofessional Education

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Variable titled course to discuss topics related to interprofessional education.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

HAS 4160 - Medical Practice Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

Covers the fundamentals of group practice and ambulatory care management. Includes leadership, planning, marketing, IT, business operations, physician/hospital relationships, and basic principles of management applied to the out-patient setting. This is an elective course for HAS students.

Pre-requisite(s): HAS 3000.

HAS 4320 - Healthcare Economics and Policy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

Discussion and analysis of the economic models controlling healthcare markets with subsequent investigation of the complex federal, state, and local policies and policymaking processes which result from those models in U.S. healthcare systems.

Pre-requisite(s): HAS 3000 and ECON 1010 or ECON 2010.

HAS 4400 - Legal and Ethical Aspects of Health Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Review of legal responsibilities of physicians, other healthcare workers, and healthcare institutions and means by which health-related laws and regulations are developed and implemented. Issues involved in healthcare professional ethics are discussed and evaluated.

Pre-requisite(s): HAS 3000.

HAS 4410 - Clinical Instructional Design and Evaluation

Credits: (3)

Typically Taught Fall Semester: *Online*

Designed to provide individuals with the skills necessary for the preparation, planning and evaluation of instruction. The Philosophy, theory, and effective methods and techniques of teaching the adult learner.

HAS 4420 - Clinical Instructional Skills

Credits: (3)

Typically Taught Spring Semester: *Online*

Designed to provide individuals with skills necessary for the implementation of instruction. Presentation practice is provided with peer evaluation and feedback.

HAS 4500 - Grant Writing

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

This course is an introduction to the art of grant writing. The general elements of a grant will be outlined and explored. Students will learn about what makes a grant proposal successful. Grant writing and evaluation skills will be developed, demonstrated, and exercised.

HAS 4520 - Long-Term Care Administration

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Application of health administration core curriculum to specific practice issues in the long-term care setting. Setting-specific organization structures, relationships with healthcare providers, services offered, financial management issues, and regulatory issues are investigated.

Pre-requisite(s): HAS 3000 and HAS 4400.

HAS 4525 - Health Facility Operations

Credits: (1)

Typically Taught Spring Semester: *2nd Blk*

A review of long-term care facility operations utilizing computer-based simulations. Teams of students make operational decisions utilizing financial statements, census reports, staffing schedules and other relevant factors. Prepares students for specific types of situations and questions encountered on the long-term care administrator licensing examination.

Pre-requisite(s): HAS 3000 and HAS 4520.

HAS 4620 - International Health and Healthcare

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem - Online*

This course is designed to explore health and health care systems in countries other than the United States. Emphasis will be directed toward illnesses and treatments, health promotion, environmental and economic issues, governmental infrastructures that support health, and cultural considerations. The course will be targeted to the professional interested in international health information and experiences.

HAS 4700 - Public Health Capstone

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The Public Health Capstone will provide students in the Public Health program a comprehensive review culminating in an applied project. Public Health concepts including epidemiology, population health, finance, behavior change, communications and marketing among others will be brought together demonstrating their application in real world public health situations. A final project will be used to demonstrate the students understanding of general public health concepts and their applications.

HAS 4740 - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis. Departmental approval required.

Pre-requisite(s): HAS 3000.

HAS 4741 - Senior Seminar Capstone

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis, competency assessment, interaction with current practitioners,

individual and team projects. Students will be provided with resources to assess and enhance their competencies in the various functional areas of health administration. Departmental approval required.

Pre-requisite(s): HAS 3000.

HAS 4800 - Individual Study

Credits: (1-3)

Topics in allied health education studies tailored to the particular needs and interests of the student.

Number of Times this Course May Be Repeated: Class may be repeated once up to six credits with program approval.

Note: This course is offered as needed.

HAS 4850 - Study Abroad

Credits: (1-6)

Variable Title

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated five times up to six credit hours.

Note: This course is offered as needed.

HAS 4860 INT - Practicum/Internship

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Provides opportunities for observation, participation and practical application of administrative and management skills in the institutional setting. Departmental approval required.

Pre-requisite(s): HAS 3000 and HAS 3750.

HAS 4990 - Seminar

Credits: (1)

Topics, issues, and trends in Health Care.

Number of Times this Course May Be Repeated: May be repeated twice up to 3 credit hours with program approval.

Note: This course is offered as needed.

HIM 3610 - Advanced Principles of Revenue Cycle Management

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Elements of the revenue cycle are reviewed. Principles of revenue cycle management are examined including: scope and management of clinical coded data, process improvement and data quality, compliance, internal and external auditing, reporting, case-mix management, and changes in revenue cycle management.

Pre-requisite(s): HIM 2330 or instructor approval.

Health Education

HLTH 1020 LS - Science and Application of Human Nutrition

Credits: (3)

(available online) Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

HLTH 1030 SS - Healthy Lifestyles**Credits: (3)**

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

A systematic approach to promote health enhancing behaviors related to the prevention of disease and achievement of optimal health.

Focuses on the total person with a consideration of the mental, emotional, intellectual, social, physical, and environmental dimensions which impact human health.

HLTH 1110 - Stress Management**Credits: (3)**

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

An introductory course focusing on the causes of stress, recognizing personal stressors and life change management for stress control.

HLTH 1300 - First Aid: Responding to Emergencies**Credits: (2)**

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Training the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Red Cross certification in Adult, Infant and Child CPR and First Aid: Responding to Emergencies.

Cross listed with Athletic Training.

HLTH 2220 - Prenatal and Infant Nutrition**Credits: (2)**

This course focuses on nutrition and diet as they apply to birth outcome, the maintenance of maternal health, and the growth of the infant. Breastfeeding and community programs will be discussed in support of maternal and infant health.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2300 - Emergency Response**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer.

Cross listed with AT 2300.

HLTH 2400 - Mind/Body Wellness**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Promotion of emotional wellness and understanding the body, mind, spirit connection. Required by the Utah State Board of Education for endorsement in health education.

HLTH 2420 - Childhood and Adolescent Nutrition**Credits: (2)**

The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2700 - Consumer Health**Credits: (3)**

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, Online*

Knowledge and skills relating to consumption of health products and services, including advertising and health, quackery, alternative health care, economics of health care, etc.

HLTH 2800 - Individual Projects**Credits: (1-3)**

A comprehensive study or project in the field of Health Education. Hours to be arranged.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

Note: This course is offered as needed.

HLTH 2890 INT - Cooperative Work Experience**Credits: (1-6)**

Open to all students in Health who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed.

HLTH 2920 - Short Courses, Workshops, Institutes and Special Programs**Credits: (1-4)****Variable Title**

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is taught as needed.

HLTH 3000 - Foundations of Health Promotion**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

Emerging trends and roles of health education within occupational, medical, community, and school settings including history,

philosophy, current practices.
Pre-requisite(s): HLTH 1030.

HLTH 3050 - School Health Program

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Designed to prepare the prospective teacher for their responsibilities in administering the functions of the School Health Program, including: health services, healthful school environment, and health education.

HLTH 3100 - Applications of Technology in Health Promotion

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is an exploration of current and future uses of technology in the health promotion fields.

Pre-requisite(s): Completion of Computer & Information Literacy requirement or permission of instructor.

HLTH 3150 - Community Health Agencies and Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

An overview of public and community health including history, management, prevention and epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.

Pre-requisite(s): HLTH 3000 or HLTH 3050.

HLTH 3160 - Principles of Health Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The course provides a comprehensive overview of theories and models that explain and modify health behaviors. The models and theories are viewed from a multidisciplinary perspective and are applied to health behaviors among both normal and special populations.

Pre-requisite(s): HLTH 3000.

HLTH 3200 - Methods in Health Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Designed to appraise and utilize the different methods and aids used in teaching health and lifestyle management in the schools, community, worksite, and health care settings. Students develop skills in organizing, presenting, and evaluating learning experiences presented to target populations in the various settings.

Pre-requisite(s): HLTH 3000 or HLTH 3050 or ESS 2200.

HLTH 3320 - Health and Nutrition in the Older Adult

Credits: (3)

The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental, and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are

explored in the context of promoting healthy aging.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 3400 - Substance Abuse Prevention

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Study of legal and illegal drugs from a pharmacological, historical, psychosocial, and behavioral perspective. Emphasis on primary prevention concepts and responsible consumerism. Education students can receive "Substance Abuse Certification" from the Utah State Office of Education.

HLTH 3420 - Multicultural Health and Nutrition

Credits: (3)

The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding of world food problems as they pertain to the health will also be discussed.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

HLTH 3500 - Human Sexuality

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A survey course of the biomedical and psychosocial forces which shape our sexuality. The focus will be upon the scholarly study of the biological, social, psychological, and spiritual dimensions of human sexuality.

HLTH 4013 - Health Promotion Research and Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

Application of research methods used both in assessing individual and community needs for health education, and in assessing the effectiveness of health education programs.

Pre-requisite(s): HLTH 3000 and HIM 3200.

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Conducting needs assessment and planning health promotion programs in a community, occupational, school or clinical setting.

Pre-requisite(s): HLTH 3000.

HLTH 4220 - Women's Health Issues

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A feminist perspective and analysis of the psychological, cultural and political health related issues that impact women throughout the life span.

Pre-requisite(s): Upper division standing or consent of instructor.
(Cross listed with Women's Studies)

5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 4250 - Contemporary Health Issues of Adolescents

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 4300 - Health Education in the Elementary School

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

HLTH 4700 - Wellness Coaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Wellness coaching provides a highly effective and focused approach towards improving people's individual health habits and involves coaching people towards achieving their personal, health, and wellness goals. Students with an interest in wellness coaching will gain a broad overview of the field including an introduction to the application of wellness coaching tools, theory, concepts and techniques.

Pre-requisite(s): HLTH 2400, HLTH 3200.

HLTH 4800 - Individual Projects

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A comprehensive study or project in the field of Health Education. Hours to be arranged for seniors only.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

HLTH 4860 INT - Field Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Work experience which applies prior academic learning in a supervised setting.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

HLTH 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A continuation of HLTH 2890.

Number of Times this Course May Be Repeated: May be repeated

HLTH 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is taught as needed.

HLTH 4990 - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is a capstone course of Health Promotion seniors only. Summarizes the experiences of the Health Promotion Major, addresses future alternatives and prepares students for employment now and/or graduate study.

Health Information Management

HIM 2000 - Introduction to Health Information Systems and Settings

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Online*

Introduction to the health information profession. Job duties, functions, and the professional organization are discussed. Health care settings, master patient indexes, health information documentation requirements, analysis, and deficiency management are presented.

Pre-requisite(s): HTHS 1101 and HTHS 1110 or ZOOL 2100.

HIM 2250 - Health Care Privacy and Security

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem*

The HIPAA privacy and security law, institutional review boards and human subjects research, development of policies and procedures for privacy and security, and release of information are discussed.

HIM 2300 - Diagnosis Coding

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Coding conventions and procedure using the ICD-10-CM coding system are introduced and practiced.

Pre-requisite(s): HTHS 1110 and HTHS 1111 or ZOOL 2100 and ZOOL 2200 or equivalent.

HIM 2320 - Ambulatory and Physician Office Coding

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

CPT classification, conventions and coding procedures are introduced and practiced. Abstracting medical information from health documentation for coding facility outpatients, physician and professional billing is presented, discussed and practiced.
Pre-requisite(s): HIM 2300.

HIM 2330 - Healthcare Reimbursement

Credits: (2)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Discussion of issues parallel to or founded in the use of classification systems: Federal reimbursement systems, coding compliance, auditing, chargemaster maintenance, and revenue cycle management.

HIM 2410 - ICD-10-PCS Coding

Credits: (2)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem, Online*

ICD-10-PCS coding, conventions and guidelines are introduced and practiced. Students will gain exposure to procedure coding using the ICD-10-PCS system for hospital inpatient claims.

Pre-requisite(s): HIM 2300.

HIM 2500 - Healthcare Data Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Online*

An introduction to database monitoring, maintenance and use. Data definition, vocabularies, terminologies and dictionaries are discussed. Clinical abstracting and report writing are practiced. A working knowledge of data management is developed.

HIM 2861 INT - (2nd Year) Professional Practice Experiences

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. The student observes in other health care settings. Projects assigned give the student expertise in technical functions, e.g., diagnostic and procedure coding systems.

Pre-requisite(s): HIM 2000.

HIM 2862 - Professional Practice Management

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions.

Pre-requisite(s): HIM 2000.

HIM 2863 - Professional Practice Experience in Coding

Credits: (1)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Student's final experience in the coding setting. Skills and learning from the classroom and laboratory are reinforced and practiced in a

simulated setting.

Pre-requisite(s): HIM 2300.

HIM 3000 - Health Informatics

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

A survey of the clinical, research, and administrative applications of computers in the health care industry from which health care information is currently derived. The role of this technology and of the data collected in accomplishing the objectives and procedures of the principle functional areas in health care organizations is emphasized as are the interrelationships of the organizational units with respect to data acquisition, storage, analysis, retrieval, and use.

HIM 3200 - Epidemiology and Biostatistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

The goals and objectives of epidemiology, its policy and procedure, and its foundation and support in health care information are the focus of this course. Investigation of an epidemic, measures of mortality, incidence and prevalence, measures of risk, biological variability, probability, screening, sampling, statistical significance, correlation, multiple regression, retrospective and prospective studies, and survival analysis are discussed. Advanced techniques for the statistical analysis of institutional case-mix and quality improvement data are presented.

Pre-requisite(s): Must meet WSU Quantitative Literacy requirement.

HIM 3210 - Advanced Epidemiology & Population Health

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an advanced, in-depth, exploration of epidemiology, public health, and global population health. The history, philosophy, core values, concepts, and functions of public health will be discussed at the local, national, and international levels. The concepts and methods needed to track and analyze disease trends will be applied. Students will be able to identify and describe upstream determinants of health including the socioeconomic, behavioral, biological, environmental, and other factors that affect human health and contribute to health disparities. At the conclusion of the course, students will be able to identify public health issues, design a basic intervention, and formulate appropriate internal and external public health communications.

Pre-requisite(s): HIM 3200 - Epidemiology and Biostatistics.

HIM 3300 - Introduction to Quality Improvement in Healthcare

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

Typically Taught Summer Semester: *Full Sem - Online*

Quality assessment, disease processes, risk management, and utilization review systems are presented to the student with an emphasis upon integration. TQM/CQI processes are examined and practiced.

HIM 3400 - Health Care Networks and Databases

Credits: (3)

Typically Taught Fall Semester: *Online*

A comprehensive introduction to health care application development, including local and wide area networks, the internet and intranets, database structure, database tools, data management, and information management.

HIM 3450 - Healthcare Systems Analysis and Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem - Online*

A comprehensive introduction to the planning, design, and construction of healthcare information systems, using the systems development life cycle and other appropriate design tools.

HIM 3500 - Biomedical Research Support

Credits: (2)

Typically Taught Fall Semester: *Online*

Design concepts and information systems used in biomedical research and investigation by drug companies, genetic engineering firms, academic institutions, and individual researchers and the support of same by health information professionals are discussed. The major national research policy-making bodies (NIH, NCHS, CDC) and their research protocols are reviewed. The student also learns what techniques and resources facilitate biomedical literature searches and how to assist a researcher in the pursuit of published information. An overview of the development, structure, and management of a health care institutional medical library is presented.

HIM 3550 - Healthcare Data Analytics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

An in depth exploration of healthcare data analytics. Application of data analytic methodologies to improve decision making, performance, healthcare quality and strategic planning will be presented and practiced. Students will become familiar with internal and external data sources in healthcare and will be able: extract data from the data source; evaluate the quality of the data; perform basic data analytics; interpret analysis; present information in a final report.

Pre-requisite(s): HIM 3200.

Pre-requisite/Co-requisite: HIM 3200 - Epidemiology and Biostatistics.

HIM 3600 - Advanced Diagnosis and Procedure Coding

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

This is an advanced coding course designed for students with previous medical coding experience or previous medical coding courses. This course explores the more complex areas of ICD-10-CM, ICD-10-PCS, and CPT coding in hospital, outpatient, and physician based settings. Students will apply coding principles and guidelines related to complex diagnoses and procedures. Coding from actual patient records is emphasized. The use of coding references and coding software is integrated into the course.

Pre-requisite(s): HIM 2300, HIM 2320, HIM 2410 or instructor approval.

HIM 3620 - Principles of Clinical Documentation Improvement

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Clinical documentation is the foundation of every patient health record. This course addresses the fundamentals of clinical documentation-assessing the current quality of health record documentation, development of a CDI program and process. How clinical documentation improvement impacts the revenue cycle of a healthcare organization will be reviewed.

Pre-requisite/Co-requisite: Prerequisites/Corequisites: HIM 2300, HIM 2320, and HIM 2410 or instructor approval.

HIM 4100 - Health Information Services Management

Credits: (3)

Typically Taught Spring Semester: *Online*

Management issues of health information services departments are discussed and worked through with reference to planning information services, organizing work force, procedures, and resources, staffing work units with qualified personnel, influencing information services teams performance, controlling/evaluating health information services performance and products, and resolving organizational conflict involving information issues. Background is developed to facilitate evaluation of a vended system's ability to meet health care information applications, objectives and procedural requirements. "Entrepreneurial" skill is developed to lead organizations in finding solutions to their information management problems.

HIM 4990 - Baccalaureate Thesis and Presentation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Senior health information management students complete a research project and thesis in partial fulfillment of program requirements. By the completion of the course, the senior student will be able to specify a thesis topic, specify individual thesis learning objectives, specify individual thesis learning activities, develop a thesis project time-line, implement the thesis project, write the thesis, and present it to the Health Information Management faculty and students. Topics are chosen by the student but require approval by the Program Coordinator.

Pre-requisite(s): HIM 3500.

HIM 5000 - Clinical Foundations in HIM

Credits: (3)

A foundation in the language of medicine, pathophysiology and pharmacology will be discussed and developed.

Note: This course is offered as needed.

HIM 5010 - Health Data Management

Credits: (3)

This course prepares students to manage and create health data elements and data sets; and to develop and maintain organizational policies, procedures and guidelines for management of health information. Compliance with health care information laws, regulations, standards, and preparation for accreditation and licensing processes is discussed and practiced.

Note: This course is offered as needed.

HIM 5020 - Diagnosis and Procedure Coding

Credits: (3)

Coding and classification conventions and procedures are developed and practiced. The course will also include auditing of coded data for accuracy.

Note: This course is offered as needed.

HIM 5030 - Clinical Data Management for Quality Care & Revenue Cycle Integrity

Credits: (3)

This course prepares the student to collect, analyze, present and organize data to improve quality of patient care and revenue cycle management. The management of clinical data required in reimbursement systems and prospective payment systems in health care delivery are discussed.

Note: This course is offered as needed.

HIM 5040 - Privacy, Security and Confidentiality in Health Care

Credits: (3)

This course prepares students to design and implement security measures to safeguard protected health information. The management, access, disclosure and use of PHI to ensure confidentiality is discussed. How to investigate and resolve health care privacy and security issues and problems are introduced.

Note: This course is offered as needed.

HIM 5050 - Health Information Systems & Technology

Credits: (3)

A foundation of electronic health record terminology and the information systems life cycle is explored. The important basis upon which successful EHR implementation must rely - project management, strategic planning, and migrations from the current state are discussed. Skills in selecting, negotiating for, implementing and operating the electronic health record and its corresponding databases are developed. The use of data dictionary, data models, database management and design for electronic health records are introduced.

HIM 5080 - Health Information Management Issues

Credits: (3)

Managing the HIM function including the monitoring of industry trends and organizational needs for change, strategic and operational planning, training or educational activity development, and preparation for accreditation and licensing processes are discussed.

Note: This course is offered as needed.

HIM 5090 INT - HIM Internship

Credits: (3)

Provides opportunities for observation, participation and practical application of health information management skills in the institutional setting.

Note: This course is offered as needed.

Health Education - Master Level

HLTH 6250 - Contemporary Health Issues of Adolescents

Credits: (2)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 6300 - Health Education in the Elementary School

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

Health Sciences

HTHS 1101 - Medical Terminology

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

A comprehensive overview of medical language. This course takes a body-systems approach to presenting the medical terminology associated with anatomy, physiology, diseases and treatments.

Designed for all students interested in health sciences or a career in medicine.

HTHS 1103 - Introduction to Health Careers and Care in a Diverse Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will compare and contrast diverse health careers.

Students will discuss the history, providers, and delivery models involved in Health Care. The course will explore how such factors as economic class and status in groups such as gender, age, and physical ability affect health care professionals. Students will also explore numerous fields and opportunities in the Health Care Industry.

HTHS 1108 - Biocalculations for Health Professions

Credits: (5)

Fundamental mathematical concepts using health professions applications. Topics include: basic arithmetic, pre-algebra, beginning algebra, geometry, and statistics applied to solutions, dosage calculations, electrolytes, acid base balance, circulatory and urinary function, pulmonary function testing and energy and metabolism.

This course does not meet the University's quantitative literacy requirement.

Note: This course is offered as needed.

HTHS 1110 LS - Integrated Human Anatomy and Physiology I

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Integrated Human Anatomy and Physiology I is the first semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics

include: the atomic and molecular levels of organization, cell biology and metabolism, microbiology, and the integumentary, skeletal and muscular body systems. Weekly integrated laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology. This course meets the life science (LS) general education learning outcomes for the university. Completion of HTHS 1101 is strongly recommended before taking HTHS 1110.

HTHS 1111 - Integrated Human Anatomy and Physiology II

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Integrated Human Anatomy and Physiology II is the second semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the nervous, endocrine, cardiovascular (blood), cardiovascular (heart and blood vessels), respiratory, digestive, urinary, and reproductive body systems. Laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology.

Pre-requisite(s): HTHS 1110 with a grade of C or better.

HTHS 1120 - Case Studies in Health Sciences

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of a variety of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care.

Pre-requisite(s): HTHS 1110 and HTHS 1111 or an equivalent course in anatomy and physiology. Recommended prerequisite: HTHS 1101.

HTHS 1130 - Common Medicines

Credits: (3)

This is an introductory course that will provide information regarding proper drug usage for those without significant backgrounds in the Biological Sciences. The course primarily discusses over-the-counter medicines as well as prescription drug groups that are commonly used by the public. The overall objective of this course will be to provide information in such a way that individuals are able to make wise and appropriate choices, are more aware of possible drug-related problems, and will become well-informed consumers.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

Note: This course is offered as needed.

HTHS 2230 - Introductory Pathophysiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

An introduction to the pathophysiologic disruptions of normal human

body function, this course will emphasize disease mechanisms and the body's response to restore homeostasis. Units of study include foundational concepts of cellular injury, genetics, acid-base, electrolyte, fluid balance and functional alterations of the immune, hematologic, nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems.

Pre-requisite(s): Completion of HTHS 1110 and HTHS 1111, or ZOOL 2200, or an equivalent human physiology course with a grade of C or better. Concurrent enrollment in HTHS 2231 is recommended.

HTHS 2231 - Introductory Pathophysiology Laboratory

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Laboratory and computer exercises involving analysis of both clinical and laboratory data. Students evaluate signs, symptoms, diagnosis, and treatment of various pathological conditions and diseases.

One two-hour laboratory session per week.

Co-Requisite(s): HTHS 2230.

HTHS 2240 - Introduction to Pharmacology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Introductory pharmacology course which covers pharmacological principles including modes of action, uses, modes of excretion, and patient side effects of various drug classes. The drugs are presented in a "system approach" with emphasis on medications utilized in diagnosing and treating diseases associated with the various body systems. Class format includes a 3 hour lecture class with students participating in oral presentations and case studies. Recommended prerequisite: HTHS 1101, HTHS 1110 and HTHS 1111.

HTHS 2830 - Health Sciences Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Directed Readings in Health Sciences areas. Must have departmental approval.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

HTHS 2904 - Information Resources in the Health Professions

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences.

Cross-listed as LIBS 2904.

HTHS 2990 - Health Sciences Seminar

Credits: (1)

Presentations, group discussions and analysis of selected topics, designed to prepare the Health Science major for career opportunities in the job market and applying for Health Professions professional programs.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

HTHS 3240 - Pharmacology Principles and Clinical Applications**Credits: (3)**

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Pharmacology Principles and Clinical Applications is an upper division course designed for students who are pursuing a career in health, health education, or the health professions. This course will focus on pharmacokinetics, pharmacodynamics, mechanisms of drug action, evidenced-based medicine, organ-systems approach to differential therapeutics, and topics of current relevancy. In addition, students will present on a pharmacology case or topic of their choice.

Pre-requisite(s): HTHS 1111 or ZOOL 2200, or an equivalent human physiology course. HTHS 2230 - Introductory Pathophysiology is also recommended.

HTHS 3328 - Pathophysiology of Cells and Tissues**Credits: (2)**

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Pathophysiology of Cells and Tissues is a course that will emphasize disease mechanisms and the body's response to restore homeostasis by presenting an orientation to disease as disordered physiology. This course describes the etiology, developmental considerations, pathogenesis and clinical manifestations of disease processes. Units of study focus on the interactions of cellular injury mechanisms, genetic disorders, neoplasia, and inflammatory and immune disorders. WSU Online class only.

Pre-requisite(s): HTHS 1111, ZOOL 2200, or equivalent human physiology course.

Number of Times this Course May Be Repeated: May be repeated once for credit.

HTHS 3329 - Pathophysiology of Organs and Systems**Credits: (2)**

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Pathophysiology of Organs and Systems is a course that will emphasize the mechanisms of disordered physiology that underlie disease conditions by analyzing the mechanism(s) of different disease states. Particular attention will be given to etiology, pathogenesis, developmental and environmental influences, and clinical manifestations. Units of study focus on the nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems. WSU Online class only.

Pre-requisite(s): HTHS 1111 or ZOOL 2200, or equivalent human physiology course.

Number of Times this Course May Be Repeated: May be repeated once for credit.

HTHS 3410 - Foundations of Health Science Technology**Credits: (3)**

The purpose of this course is to teach the student fundamental technological and pharmacological principles used in dental and medical equipment. It will be focused on criteria used by dental and medical personnel to make technology and pharmacology decisions. Note: This course is offered as needed.

HTHS 3412 - Health Science Technology Applications**Credits: (3)**

The purpose of this course is to teach students fundamental technological and pharmacological principles used in specific medical devices. The students will develop an understanding of different health science manufactured products and services and will receive exposure to industry representatives.

Pre-requisite(s): HTHS 3410.

Note: This course is offered as needed.

HTHS 3997 - Digital EEG Concepts**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the fall semester will be required and there is a required research paper.

HTHS 3998 - Normal Adult EEG**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

HTHS 3999 - Artifacts in EEG**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

HTHS 4010 - Interdisciplinary Health Care Teams**Credits: (3)**

This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.

Cross-listed with DENT 4010 and NRSNG 4010.

Number of Times this Course May Be Repeated: May be repeated twice for credit.

Note: This course is offered as needed.

HTHS 4850 - Study Abroad

Credits: (1-6)

Variable Title

This course provides opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times for 6 credit hours.

History

HIST 1500 SS - World History to 1500 C.E.

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

Examines the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of world civilizations to 1500 C.E. Emphasis is global, comparative, and multi-cultural.

Note: Multiple Sections are offered each semester.

HIST 1510 SS/DV - World History from 1500 C.E. to the Present

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

A survey of the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of Asia, Africa, the Americas, and Europe from 1500 to the present.

Note: Multiple Sections are offered each semester.

HIST 1700 AI - American Civilization

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

An analysis of American civilization that traces social, cultural, economic, and political developments in the United States. May be taken to complete the American Institutions requirement (grade of C or better required).

Note: Multiple Sections are offered each semester.

HIST 2000 - Introduction to the Craft of History

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

History 2000 is a one-credit course for newly declared history majors. It is designed to introduce students to different subfields within history; to familiarize them with the standard modes of researching, interpreting, analyzing, and citing historical sources; and to teach them how to build an historical argument. It is a team taught course, calling upon all of the faculty from the History Dept.

Should be taken upon registration as a history major or history teaching major.

HIST 2700 - History of the United States to 1877

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A chronological survey of American history from Native American and European contacts through Reconstruction, 1877. Directed toward History majors, minors, and those planning to teach U.S. history. Students may fulfill the American Institutions requirement by completing this course and HIST 2710 with a grade of C or better. Note: Students may fulfill the American Institutions requirement by completing this course and HIST 2710 with a grade of C or better.

HIST 2710 - History of the United States since 1877

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

A chronological survey of American history from the Gilded Age, 1877, to the present. Directed toward History majors, minors, and those planning to teach U.S. history.

Note: Students may fulfill the American Institutions requirement by completing this course and HIST 2700 with a grade of C or better.

HIST 2920 - Short Courses, Workshops, and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: No more than 6 hours will count towards a major or minor.

Note: This course is offered as needed.

HIST 3010 - Native American History: 1300 to Present

Credits: (3)

Typically Taught Fall Semester: *Full Sem, even years*

An introduction to Native American history, stressing the integrity and viability of American Indian societies, dynamic, self-directed cultural changes, and the clashes that occurred with Native American and European contacts.

HIST 3030 - African-American History

Credits: (3)

Typically Taught Fall Semester: *Full Sem, even years*

African-American history from African origins to the late twentieth century. This course examines the historical experiences and enduring influence of African-Americans on U.S. history.

HIST 3050 - History of U.S. Latinos

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

Traces the historical development of the Latin Americans in the U.S. from their Indian, Spanish and African heritage to the present with special emphasis on the Mexican-American, Chicano contributions to American life.

HIST 3070 - Women in American History: 1600 to Present

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

Examines gender as an organizing principle in United States history from the beginnings of European settlement to the present. Also explores the ways in which race, ethnicity, class, and region have shaped different female experiences.

HIST 3090 - American Social History

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online every other year*

Explores American society through analyses of the public and private lives of ordinary individuals from colonial times to the present.

HIST 3110 - American Ideas and Culture

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

This course will look at key transformations in American cultural and intellectual history. Subjects will include the history of religion, the changing nature of political ideology, and transformations in who creates and controls entertainment, leisure and literature in American society. The course will use novels, sermons, essays, movies, museums, paintings, and music as tools for understanding American cultural life.

HIST 3130 - U.S. Urban History

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Examines themes in social, economic and cultural development of American cities from the colonial era to the present. Key topics will include the process of urbanization and the ways in which various social groups and classes adapt to urban life and society. The course will also examine the transformation of urban neighborhoods and ghettos, social reform movements in the city, and the history of urban planning.

HIST 3210 - U.S. Constitutional History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The ideas and issues which resulted in the 1787 Constitution. It considers two centuries of American Constitutionalism, focusing on powers and rights, and the role of the Constitution in American culture.

HIST 3220 - History of the Bill of Rights

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will explore the historical origins of the first Ten Amendments to the Constitution, also known as the Bill of Rights. We will explore the original intent of the Framers of the Constitution and the Bill of Rights, as well as the context in which they were drafted and ratified. The historical significance of the Bill of Rights will be compared with their current understanding by Americans in the present.

HIST 3230 - American Foreign Relations

Credits: (3)

Typically Taught Spring Semester: *Full Sem, odd years*

Diplomatic relations and foreign policy of the United States, with

particular emphasis in the "American Century" beginning with the imperialist thrust of 1898.

HIST 3250 - Religion in American History

Credits: (3)

Typically Taught Spring Semester: *Full Sem, odd years*

A history of religion in America from the colonial period (including Native American spirituality) through the early twentieth century. This course will examine religious figures, events, and movements in U.S. history. Particular emphasis will be placed upon the influence of religion in the United States on culture, politics, education, and reform.

HIST 3270 - American Environmental History

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Explores the new scholarship in American environmental history, considering the intellectual and material interaction people have had with the environment of North America, from pre-contact to the present.

HIST 3280 - American Military History from 1500 to 1890

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Significance of military affairs in the context of American political, economic, and social history from the formation of the earliest colonial militias to the pre-World War I preparedness movement. Discusses major wars of this period but also emphasizes such themes as the professionalization of the officer corps, the relationship between war and technology, and civil-military relations.

HIST 3290 - American Military History from 1890 to the Present

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Significance of military affairs in the context of American political, economic, and social history from America's entry into World War I to the present. Discusses major wars of this period but also emphasizes such themes as the professionalization to the officer corps, the relationship between war and technology, and civil-military relations.

HIST 3350 - History and Philosophy of Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The evolution and practice of Western science from origins to contemporary ideas.

HIST 3400 - Principles of Public History

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will consider the theoretical background of public history and its disciplines: historic preservation, museum studies, archives and records administration, and documentary editing. Students will survey, research, and analyze the ways in which history is conveyed to a broad public through museums, monuments, sites, films, and other media outside the classroom or scholarly writings. Note: (Replaces HIST 2500.)

HIST 3500 - Historic Preservation

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

A study of the historic preservation movement in the United States including the history and evolution of the movement, theoretical origins, current conditions and laws, organizational framework and design philosophies.

HIST 3530 INT - History Editing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Advanced principles in copyediting, scholarly publication, and preparation of material for multiple publishing venues, including journals and monographs, public displays, and online collections.

Suggested Requisite(s): HIST 2000 or HIST 3400.

HIST 3550 - Archives: Principles, Practices & Preservation

Credits: (3)

Typically Taught Fall Semester: *Full Sem, even years*

This course provides an introduction to archival management, in which the students learn how archival institutions obtain, process and manage a variety of archival formats, and how this information is made available to the public generally and to historians in particular.

HIST 4010 - Colonial America

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

The colonial origins of the United States to 1763.

HIST 4015 - History of the Atlantic World, 1400-1815

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

Atlantic World history refers to relationships and interactions between the peoples of the Americas, Africa and Europe, from the fifteenth through the nineteenth century. Its study focuses on themes such as migration and colonialism; the African slave trade, New World slavery and its abolition; trans-oceanic commerce and the development of history's first worldwide cash economy; violence, mixing and transculturation among Europeans, Africans and indigenous Americans; negotiation of knowledge about medicine, geography and the natural world; and the evolution of imperial systems and the wars of Independence.

HIST 4020 - Era of the American Revolution: 1763-1800

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Causes of American Revolution, including the military, diplomatic and social aspects; the formation of the Union under the Articles of Confederation; the Constitution; and the Federalist era.

HIST 4030 - New Nation: 1800-1840

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk odd years*

Emphasizes Jefferson's Administration, War of 1812, the Era of Good Feelings, and the Age of Jackson, including the growth of political parties, territorial expansion, sectionalism, and social reform.

HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Slavery and the causes of the Civil War with attention to the political, economic, social, and military aspects of the conflict, including the period of Reconstruction to 1877.

HIST 4050 - U.S. in the Gilded Age and Progressive Era: 1877-1919

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

The transformation of the United States following the Civil War and Reconstruction into a modern urban-industrial superpower by the end of the First World War.

HIST 4060 - Twentieth-Century United States: 1919-1945

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Developments, historical patterns and conflicts which shaped the modern United States in the Twenties, the Great Depression and the Second World War.

HIST 4070 - Twentieth-Century United States since 1945

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The United States from 1945 to the present, including investigations of the Cold War, the Civil Rights Movement, the affluent society, modern politics, the Vietnam and Watergate crises and contemporary issues.

HIST 4110 - History of the American West to 1900

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Explores the history of the Trans-Mississippi West region of the United States from 1500 to the 1890s. The course considers the varied experiences of its peoples and the myth of the West in American culture.

HIST 4120 - The American West since 1900

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Explores the history of the Trans-Mississippi West Region since 1900, to include analysis of such issues as water use and allocation, population growth, land use, exploitation of resources, conservation, the federal presence, tourism, and threats to the environment.

HIST 4130 - History of Utah

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A study of Utah history from its Native American beginnings to the present, emphasizing political, economic, and social developments. Note: This course is taught online when not offered face-to-face.

HIST 4210 - Ancient History

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

The ancient Near East and Mediterranean world, including the civilizations of Greece and Rome, from approximately 3500 B.C.E. to 475 C.E. This course examines the origins of civilization and traces the development of culture, emphasizing the religious, political, and intellectual legacy of the ancient world.

HIST 4220 - History of the Middle Ages 300-1300

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

A survey of Europe during the Middle Ages emphasizing the religious, political, and cultural institutions shaping this period.

HIST 4230 - Renaissance and Reformation - Europe: 1300-1660

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Examines the cultural, religious, political and economic factors that affected Europe from the end of the Middle Ages to the mid-1600s. Special emphasis is given to the Renaissance and Reformation as vital forces at work during the period.

HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Examines the political, economic, social, and cultural factors that affected Europe during the period. Special consideration is given to the Enlightenment as a cultural phenomenon and to European-wide revolution and counter-revolution in the late eighteenth century.

HIST 4250 - Nineteenth-Century Europe

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

A survey of European history from the fall of Napoleon to the beginning of the First World War. The course will focus on the lingering impact of the political and economic revolutions of the late eighteenth century on the politics, culture, and social development of the nineteenth. Major consideration will be given to liberalism, romanticism, socialism, nationalism, imperialism, industrialization, science, and the rise of mass society.

HIST 4260 - Europe in the Age of Total War

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

This course on European history begins with a consideration of the causes of the First World War and concludes with an assessment of the impact of the Second World War on European politics, culture, and society. The course will examine the ways in which Europe was shaped in this period by warfare, revolution, the collapse of dynastic states, international agreements, colonial interests, labor movements, economic crises, economic modernization, the rise of totalitarian movements, genocide, and foreign occupation.

HIST 4280 - History of Christianity in Europe

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A history of the development and impact of Christianity within Europe through the twentieth century. This course will examine how Christianity affected European society, culture, politics, and science; and how these affected the institutions within Christianity. Particular

emphasis will be placed on the early growth of Christianity, medieval changes, the Reformation, and spirituality in the industrial age.

HIST 4310 - Tsarist Russia

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

Russia's political, economic, social and cultural institutions from pre-history to 1917, emphasizing dynastic leaders, expansion, religion and other significant forces of change. Includes an analysis of both foreign and domestic policies that led to world war and revolution.

HIST 4320 - Stalin and the Soviet Experiment

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

Analyzes the political, economic, military, diplomatic, social, and ideological problems, crises, and programs from the Russian Revolutions of 1917 to the present.

HIST 4330 - History of England to 1485

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

A survey of English history to 1485 with special consideration given to England's cultural, political, economic and social development during the Middle Ages.

HIST 4335 - Tudor and Stuart England

Credits: (3)

Typically Taught Spring Semester: *Full Sem, odd years*

A survey of English history during the Tudor and Stuart periods (1485-1714). Emphasis will be placed on the social, cultural, political, religious and economic development of England during this period.

HIST 4340 - History of England since 1714

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

A survey of English history from 1714 to the present. Special emphasis will be given to England's cultural, political, economic, and social development during the Industrial Revolution, the Victorian era, and the twentieth century.

HIST 4350 - Germany and the Third Reich

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

German social-political, economic and cultural developments from the eighteenth century to the present. Topics include the Prussians, Classicism, Revolution, the Age of Bismarck, industrialism and warfare, and the 20th Century.

HIST 4370 - History of Modern France 1789-present

Credits: (3)

Typically Taught Fall Semester: *Full Sem, even years*

Examines the political, social, and cultural history of France from the outbreak of the French Revolution to the present. Attention will focus on political ideologies, religious and philosophical movements, artistic and literary expression, and changes in the social environment. The course will also attend to the impact of France and French culture on the world and to recent challenges presented to French national identity by globalization.

HIST 4410 - History of Spain and Portugal

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

A survey of the political, economic, social and cultural development of Spain and Portugal from the beginning to the present.

HIST 4440 - History of Eastern Europe to 1815

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Examines the political, economic, and social factors that have shaped the history of this region from medieval era until 1815.

HIST 4450 - History of Modern Eastern Europe since 1815

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

Examines the political, economic, and social factors that have shaped the history of this region from 1815 to the present.

HIST 4500 - Teaching Social Studies in Grades 5-12

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Materials and methods of teaching for skill, concept and value development in middle, junior high and senior high school social studies.

Note: (Required of all majors in Social Science area).

HIST 4510 - Twentieth Century World

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The political, economic, and social forces of the twentieth century since World War I. Emphasis is placed on global relationships, the rise of mass society, and conflict among cultures in an era of accelerating change.

HIST 4520 - History of Medicine

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will examine the history of medicine from antiquity to the present in a comparative framework. It will discuss changing ideas about the body, the nature of disease, the role of physicians, and the practice of medicine in relationship to larger cultural transformations.

HIST 4530 - Far Eastern History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of the political, economic, social and cultural development of China, Japan, and Korea from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4550 - Southeast Asian History

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey of the political, economic, social and cultural development

of Southeast Asia from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4570 - Islamic Civilization

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will examine the history of Islam from the 7th century to the present. It will discuss key theological developments, the spread of the religion and its diverse forms, and its effects on culture, art, and science.

HIST 4590 - Middle Eastern History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of the political, economic, social and cultural development of the Middle East from the rise of Islam to the present with particular emphasis on the 19th and 20th centuries.

HIST 4610 - History of Africa

Credits: (3)

Typically Taught Spring Semester: *Full Sem, odd years*

Africa from earliest times to the twentieth century, with emphasis on the Sub-Sahara from its ancient kingdoms through the travails of the slave trade, European colonialism, and the independence movement.

HIST 4630 - History of Ancient and Colonial Latin America

Credits: (3)

Typically Taught Fall Semester: *Full Sem, even years*

History of ancient Native Latin America through the Spanish and Portuguese takeover and colonization.

HIST 4650 - Modern Latin America

Credits: (3)

Typically Taught Spring Semester: *Full Sem, even years*

A survey of the political, economic, social and cultural developments of the Latin American nations to the present.

HIST 4670 - History of Mexico

Credits: (3)

Typically Taught Fall Semester: *Full Sem, odd years*

A survey from ancient Native American times, the colonial experience, and the nation including the U.S. Southwest until 1848.

HIST 4710 - Special Issues and Topics in American History

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

When offered will focus on a specific and detailed subject in American History. Students may repeat this course for credit when the topic offered is substantially different than the previous class.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

HIST 4720 - Special Issues and Topics in European History

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

When offered will focus on a specific and detailed subject in European History. Students may repeat this course for credit when the topic offered is substantially different than the previous class.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

HIST 4730 - Special Issues and Topics in Global and Comparative History

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem odd years*

When offered will focus on a specific and detailed subject in global or comparative history. Students may repeat this course for credit when the topic offered is substantially different than the previous class.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

HIST 4810 - Experimental Courses

Credits: (3)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated four times for a maximum of nine credit hours.

Note: This course is offered as needed.

HIST 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent reading under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed. No more than three hours will count towards a major or minor.

Pre-requisite(s): Instructor approval.

HIST 4860 INT - Internships in Historical Studies

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students. Faculty supervised off-campus internships in public history institutions. Each internship is individually established and provides students with practical experience and the opportunity to apply and learn new professional skills. Six hours of internship are required for the Public History Emphasis. No more than six hours will count towards a major or minor.

Pre-requisite(s): Junior-class standing and permission of instructor and field supervisor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

HIST 4920 - Short Courses, Workshops, and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. No more than six hours will count towards a major or minor.

Number of Times this Course May Be Repeated: May be repeated six times for a maximum of six credit hours.

Note: This course is offered as needed.

HIST 4985 - Historical Research and Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course teaches research and writing skills and is designed to prepare History students for History 4990. Students will learn how to find a research topic, develop a thesis, identify primary sources, cite those sources, and prepare a research proposal. The course will expose students to models of good historical writing and argumentation which will serve as models for their own writing.

HIST 4990 - Senior Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A seminar for History majors requiring the completion of an extensive thesis project.

Pre-requisite(s): HIST 4985.

History - Master Level

HIST 6010 - Colonial America

Credits: (3)

The colonial origins of the United States to 1763.

Note: This course is offered as needed.

HIST 6020 - The Era of the American Revolution 1763-1800

Credits: (3)

Causes of American Revolution, including the military, diplomatic and social aspects; the formation of the Union under the Articles of Confederation; the Constitution; and the Federalist era.

Note: This course is offered as needed.

HIST 6040 - The Era of the Civil War and Reconstruction 1840-1877

Credits: (3)

Slavery and the causes of the Civil War with attention to the political, economic, social, and military aspects of the conflict, including the period of Reconstruction to 1877.

Note: This course is offered as needed.

HIST 6130 - History of Utah

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A study of Utah history from its Native American beginnings to the present, emphasizing political, economic and social developments.

HIST 6590 - Middle Eastern History

Credits: (3)

The Middle East from the rise of Islam to the present with emphasis on the 19th and 20th centuries.

Note: This course is offered as needed.

HIST 6610 - History of Africa

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Africa from earliest times to the twentieth century, with emphasis on the Sub-Sahara from its ancient kingdoms through the travails of the slave trade, European colonialism, and the independence movement.

HIST 6710 - Reading Seminar in American History

Credits: (3)

When offered will focus on a specific subject in American History. It is assumed that these topics would generally be non-repetitive or repeated only infrequently based on the demand for the course and the instructor assigned to it. Students would be assigned readings on various aspects of the topic and respond through discussion in a seminar setting and written work.

Note: This course is offered as needed.

HIST 6720 - Reading Seminar in European History

Credits: (3)

When offered will focus on a specific subject in European History. It is assumed that these topics would generally be non-repetitive or repeated only infrequently based on the demand for the course and the instructor assigned to it. Students would be assigned readings on various aspects of the topic and respond through discussion in a seminar setting and written work.

Note: This course is offered as needed.

HIST 6760 - Reading Seminar in World History

Credits: (3)

When offered will focus on a specific subject in World History. It is assumed that these topics would generally be non-repetitive or repeated only infrequently based on the demand for the course and the instructor assigned to it. Students would be assigned readings on various aspects of the topic and respond through discussion in a seminar setting and written work.

Note: This course is offered as needed.

HIST 6830 - Directed Readings

Credits: (1-3)

Independent readings under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed.

Pre-requisite(s): Instructor approval.

Number of Times this Course May Be Repeated: No more than three hours will count towards a major or minor.

Note: This course is offered as needed.

Interior Design

IDT 1010 CA - Introduction to Interior Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

Explores the interior design profession, professional certification and licensure. Students learn the various phases of the design process and develop spaces that relate to sustainability, accessibility and human factors. Study of architectural and furniture styles are explored.

Students develop aesthetic judgment as they create spaces that utilize the elements and principles of design and color theory.

IDT 1020 - Presentation Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Exploration of materials and application of methods required for visual communications with interior design presentation. Emphasis in conceptualizing and quick-sketching techniques. Introduction to oral and technical visual presentation methods such as Adobe Illustrator, InDesign and Google SketchUp are incorporated into curriculum.

IDT 1050 - Architectural Drafting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to the fundamentals of drafting of architectural working drawings using hand and basic technical skills. Graphic symbols, lettering and procedures used in developing a set of residential plans, including architectural standards and building requirements are studied.

IDT 1860 - Practicum

Credits: (1-2)

A course of occupational experiences in the interior design industry. A plan is created by the instructor and student to provide meaningful training in the student's career field.

Pre-requisite(s): IDT 2020, IDT 2035.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 2 credit hours.

Note: This course is offered as needed.

IDT 2010 - Sustainability I: Textiles and Soft Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of fibers, yarns, fabric structure, codes, finishes, and sustainable manufacturing practices and products-as they relate to residential and commercial interiors. Three-dimensional projects may be required as part of this course.

IDT 2020 - Computer-aided Design and Drafting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Application of basic computer-aided drafting and design as it relates to technology in interior design. Layout, modeling, rendering, and 3-D projects are featured as part of this course.

IDT 2035 - Design Process/Space Planning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Experiences in programming, research development, and schematic design development. Emphasis on problem solving and space planning for residential and non-residential spaces. Design charrettes may be included as part of the course curriculum.

Pre-requisite(s): IDT 1050 or BDC 1350.

IDT 2040 - Architectural Detailing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course develops interior detailing technical skills, emphasizing stairways, fireplaces, ceilings, floor systems, and millwork (built-in furniture) details for residential and commercial spaces. Accessibility standards are discussed and incorporated into construction drawings and custom millwork designs. Life safety issues in regards to door, frame and hardware specification. Preparation of construction drawings, specifications, door, window and finish schedules for use by the trade. Three-dimensional projects may be required as part of this course.

Pre-requisite(s): IDT 2020.

IDT 2050 - Codes

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The study and application of interior building codes that insures the health, safety, and welfare of individuals who occupy the structure.

IDT 2060 - Sustainability II: Materials, Hard Surfaces, and Specifications

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Exploration and research of interior finishes, materials, and sustainable practices. Practical application for specifying and installation of materials will be emphasized. Three-dimensional projects may be required as part of this course. An interdisciplinary design charrette is featured as part of this course.

IDT 2080 - Advanced Interior Architectural Drafting and Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course continues the study of technical digital interior architectural drafting and design using the latest technologies for interior construction documents and interior architectural renderings.

IDT 2820 - Historical Interiors

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Historical research of interior furnishing and architecture from Egyptian through English Victorian. Oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

IDT 2830 - Directed Readings

Credits: (1-3)

Individually chosen readings or specialized topics supervised by a faculty member. Instructor's approval required.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

Note: This course is offered as needed.

IDT 2860 - Practicum

Credits: (1-2)

Typically Taught Spring Semester: *Full Sem*

A course of occupational experiences in the interior design industry. Students are given opportunity to apply the design process to a real-life project, often with a service-learning emphasis. Instructor's approval required. This course may be listed among credits for the IDT Study Abroad program.

Pre-requisite(s): IDT 2020 and IDT 2035.

Number of Times this Course May Be Repeated: May be repeated up to 2 credit hours.

IDT 2990 - Interior Design Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Professional issues presented by guest lecturers, tours, and current discussions in interior design. Due to the nature of the curriculum, not all lectures, tours and experiences may be held in a traditional setting or time. This course may be listed among credits for the IDT Study Abroad program. It is encouraged that design majors enroll in this course each semester. May be taken for credit/no credit.

Number of Times this Course May Be Repeated: May be repeated for credit up to 8 times for a maximum of 9 credit hours.

IDT 3000 - Lighting Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of lighting principles, lighting systems, light sources, layered lighting concepts, calculation of lighting levels. Voice and data telecommunications systems, communication of lighting design and specifications including budgetary limitations are covered. Lighting plans, switching plans and electrical plans are explored. Focus is given to life safety concerns, codes, and accessibility. Also, exploration of daylighting principles and energy efficiency is incorporated. Emphasis is placed on communicating a design solution by practical application of learned principles in project format. An interdisciplinary design charrette is featured as part of this course.

Pre-requisite(s): (IDT 1050 OR BDC 1350) and IDT 2035.

IDT 3020 - American and Modern Interiors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Historical survey and research of interiors, furnishings, and architecture from the 1880's to the present. Application of modern design in today's interior including oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

IDT 3025 - Professional Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of the business aspect of Interior Design. Information will be presented regarding forms and professional practices for the Interior Designer, i.e., ethics, contracts, fees, purchase orders, letters of agreement, business formations and terminology of business practice. Job seeking skills will also be covered, along with professional licensing and certification. An interdisciplinary design charrette is featured as part of this course.

IDT 3040 - Perspective/Rendering

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Perspective drawing, sketching, and manual and computer-generated rendering techniques are explored and utilized. It is required that IDT 4830 for one credit hour be taken in conjunction with this course. An interdisciplinary design charrette is featured as part of this course.

IDT 3045 - Residential Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course focuses on projects that apply the design process to residential interiors. Kitchen and Bath curriculum and NKBA standards are introduced. 20/20 Technologies software is introduced. Design charettes, local or national competition participation, and/or three-dimensional projects may be featured as part of this course.

Pre-requisite(s): IDT 3000 and IDT 3040.

IDT 3060 - Kitchen & Bath

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A continuation of residential design is explored in which NKBA guidelines for kitchens and baths is applied to projects. In-depth study of the design of kitchens and baths is the focus. Kitchen and bath-specific 20/20 Software is utilized. Design charettes and national competition participation are featured as part of this course. Prepares the student for NKBA (National Kitchen and Bath Association) certification exams.

Pre-requisite(s): IDT 3045.

IDT 4010 - Commercial Studio

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Application of codes as they pertain to egress, accessibility, and fire in commercial interiors. Emphasis on NCIDQ-based commercial projects are featured in this studio course.

Pre-requisite/Co-requisite: IDT 4020.

IDT 4020 - Commercial Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Applying the design process to commercial design projects is the focus of this course. Contract, hospitality, healthcare, and global projects are emphasized in which students apply codes knowledge and commercial design strategies and specification of commercial-grade finishes and furnishings. Design charettes and national competition participation are featured as part of this course.

Pre-requisite(s): IDT 2035, IDT 2050, IDT 3000, IDT 3040.

IDT 4025 - Senior Program Development

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The first of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The first four phases of the design process are embarked upon in this semester. The senior student must take IDT 4030 in the same academic year following completion of IDT 4025. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.

Pre-requisite(s): IDT 4020.

IDT 4030 - Senior Project

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The second of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality

and healthcare design emphasis along with a research component. The design process continues in this semester including presentation of the capstone project. The senior student must take IDT 4025 in the same academic year preceding IDT 4030. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.

Pre-requisite(s): IDT 4025.

Number of Times this Course May Be Repeated: May be taken twice.

IDT 4040 - Portfolio Design

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Developing and presenting both a hard-copy and digital portfolio for job searching in the field of interior design. In addition to the portfolio, student will create a customized resume, business card, and letter of introduction to accompany both the hard-copy and digital portfolio for presentation to prospective employers and clients. Adobe Creative Suite software is used extensively in this course. Local and national competitions are featured as part of this course.

Pre-requisite(s): IDT 4025 or BDC 4350.

IDT 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Individual readings supervised by a faculty member. Junior/Senior level course. Must be taken with the approval of the instructor and in conjunction with IDT 3040. This course may be listed among credits for the IDT Study Abroad program.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

IDT 4860 INT - Internship for Interior Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A structured professional-level field experience where the interior design major applies skills through work experience with a qualified interior designer, architect, or design firm. The curriculum also involves research into the field of interior design, professional practice and professional certification. Tours, activities, and field trips may be featured as part of the course curriculum in addition to the on-site experience in the design field. Internship must be approved by the instructor within the first two weeks of the semester.

LEAP

LEAP 2510 - Writing Level VII

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This advanced-mid writing course for English language learners focuses on writing academic essays that incorporate outside sources. This course should be taken concurrently with LEAP 2520.

Pre-requisite(s): Complete ESL Levels 1 - 6 at C+ or better or LEAP Placement Test level 1 - 6 or LEAP Placement Test.

LEAP 2520 - Reading Level VII

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

In this course, advanced-mid English language learners practice reading and comprehending authentic academic texts. This course should be taken concurrently with LEAP 2510.

Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Testlevel 1 - 6 or LEAP Placement Test.

LEAP 2750 - Special Projects and Activities for Language Learning American Culture I & II

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *1st Blk; 2nd Blk*

Typically Taught Spring Semester: *1st Blk; 2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

Students will become more familiar with aspects of American culture.

Pre-requisite(s):

Must have LEAP approval and LEAP Placement test.

Number of Times this Course May Be Repeated: May be repeated 3 times for up to six hours of credit.

Note: Contact the LEAP Department for programs offered.

LEAP 2751 - Special Projects and Activities for Language Learning: Campus Activities and Events I and II

Credits: (1-3)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Typically Taught Summer Semester: *2nd Blk*

Students will become more familiar with American university culture and activities and with the student support services offered at Weber State University.

Pre-requisite(s): Must have LEAP Department approval and LEAP placement test.

Number of Times this Course May Be Repeated: May be repeated 3 times for up to 6 credit hours.

LEAP 2752 - Special projects and Activities for Language Learning: Reading I and II

Credits: (1-3)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

The goal of this course is to develop ESL students' English language learning through extensive reading. The reading books for this class are modern fiction, developed for adult learners of English as a second language. Themes include thrillers, science fiction, murder mystery, and ghost stories as well as romance, comedy, adventure and human interest.

Pre-requisite(s): Must have LEAP Department approval and LEAP placement test.

Number of Times this Course May Be Repeated: May be repeated 3 times, for up to 6 credit hours.

Library Science

LIBS 1504 - Information Literacy Competency Exam

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem Online, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem Online, 1st Blk, 2nd Blk*

This exam verifies a student's information literacy competency.

Review materials are available for students to study for this exam at libguides.weber.edu/LIBS1504. The exam must be completed during the block/semester registered, and may be retaken one time within the same block/semester. The grade for this course is credit/no credit. For more information, call (801) 626-7068 or email infolit@weber.edu.

LIBS 1704 - Information Navigator

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning.

LIBS 2504 - Information Resources in History

Credits: (1)

Typically Taught Spring Semester: *Full Sem, Online*

Intended for students interested in history, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in history.

LIBS 2604 - Information Resources in Education

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk, Online*

Typically Taught Spring Semester: *1st Blk, 2nd Blk, Online*

Typically Taught Summer Semester: *1st Blk, Online*

Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.

Cross-Listed with EDUC 2604.

LIBS 2704 - Information Resources in the Business Disciplines

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk, Online*

Typically Taught Spring Semester: *1st Blk, 2nd Blk, Online*

Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.

Cross listed with BSAD 2704.

LIBS 2804 - Information Resources in the Social Sciences

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: Full Sem

Intended for students interested in the social sciences, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in the social sciences.

LIBS 2904 - Information Resources in the Health Professions**Credits: (1)****Typically Taught Fall Semester: Full Sem, Online****Typically Taught Spring Semester: Full Sem, Online****Typically Taught Summer Semester: Full Sem, Online**

Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences.

Cross-listed as HTHS 2904.

Linguistics**LING 4830 - Directed Readings in Linguistics****Credits: (1-3)**

Directed readings may be undertaken in the general area of linguistics, whether theoretical or applied. Specific topics are to be selected in consultation with the instructor and the linguistics minor program coordinator. The amount of material to be read, and any written assignments based on the reading, will be at the discretion of the instructor; it will be based on the level of the topic and the degree of difficulty of the reading, consistent with existing departmental or university guidelines.

Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

LING 4900 - Variable Topics in Linguistics**Credits: (1-3)****Variable Title****Typically Taught Spring Semester: Full Sem**

This course will offer opportunities for classroom study beyond those available in the regular course offerings for the linguistics minor.

Topics will vary according to the interests of students and the expertise of the instructor; for example, advanced syntax, sociolinguistics, language typology, language and the law, artificial intelligence, neurolinguistics, and language death. The course may be taken more than once with different content.

Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

LING 4990 - Centering Experience**Credits: (.5)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

The Centering Experience is the final requirement for the minor in linguistics at Weber State. Students will assemble a portfolio of their work in linguistics and write a reflection paper.

Note: This course is credit/no credit.

Management**MGMT 3010 - Organizational Behavior and Management****Credits: (3)****Typically Taught Fall Semester: Full Sem, Full Sem Online****Typically Taught Spring Semester: Full Sem, Full Sem Online****Typically Taught Summer Semester: Full Sem, Full Sem Online**

Focus of the course is on individual and group behavior in an organizational setting and on decision processes. Examples of topics included are motivation, group behavior, organizational design and development, organizational culture, and decision making theory.

MGMT 3200 - Managerial Communications**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem**

Study of corporate communication methods to improve communication in organizations. Written and oral reports tailored to achieve strategic goals contingent upon business situations.

Pre-requisite(s): ENGL 1010, ENGL 2010.

MGMT 3300 - Human Resource Management**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

Study of principles and methods in managing specific aspects of human resources, either as an operating manager or as a human resource specialist. Topics include: legal constraints in managing human resources, strategic planning of human resources, recruitment, selection, orientation, performance evaluation, employee/ labor relations and communication programs, safety and health, and work scheduling. The computer will be used for analysis in certain areas studied.

Pre-requisite(s): BSAD 2899; MGMT 3010.

MGMT 3350 - Employment and Labor Law**Credits: (3)****Typically Taught Fall Semester: Full Sem**

This course will focus on legal and ethical issues most closely associated with Human Resource Management. Title VII of the Civil Rights Act of 1964, ADEA, and ADA form the heart of this course. Other topics include FLSA, OSHA, ERISA, sexual harassment, drug testing and privacy. Labor law issues include preventing unionization, and dealing effectively with a union.

Pre-requisite(s): BSAD 2899; MGMT 3300.

MGMT 3400 - International Business**Credits: (3)****Typically Taught Fall Semester: Full Sem**

An exploration of the role of multi-national corporations in

worldwide economic development and an analysis of the management processes of such corporations.

Pre-requisite(s): BSAD 2899.

MGMT 3450 - Business Studies Abroad- International Management

Credits: (3)

An exploration of the internationalization of economies and the analysis of international decision-making. Focus is internationalization as the central challenge for management. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).

Pre-requisite(s): BSAD 2899, MGMT 3010.

Number of Times this Course May Be Repeated: May be repeated 3 times for credit.

MGMT 3550 - The Cultural Environment of International Business

Credits: (3)

This course considers issues in communication, negotiation and culture in international business relations. Topics include the role of language and nonverbal communication, contrasting cultural values and using sources of information on the culture of international business.

Pre-requisite(s): BSAD 2899.

MGMT 4300 - Leadership and Group Effectiveness

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This course is about getting things done through the use of influence. The course emphasizes influencing others and influencing a situation. Power and other forms of influence are studied in-depth. Topics also include an examination of group behavior in work setting and the management of work groups. All stages of group development are studied from the forming stage of a group to its development as a high performance, self managed team.

Pre-requisite(s): MGMT 3010 or COMM 3550 or HAS 3260.

MGMT 4310 - Compensation and Benefits

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is intended to provide the student with a basic working knowledge of compensation and benefits as an important part of the broader Human Resources field. The topics to be covered include: benefits management, job analysis, job evaluation, performance appraisal and recognition, and different approaches to employee compensation. The course is also designed to assist the student in their preparation for professional certification examinations in related areas.

Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4320 - Staffing Organizations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Designed to provide students with the knowledge and skills necessary to effectively analyze and project organizational staffing requirements, recruit and select candidates, and effectively place employees in today's complex organizations. Includes treatment of

legal aspects of staffing process.

Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4350 - Training

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide prospective human resource managers with an understanding of the applicable theory and with the "tools" required to effectively manage the training function within an organization.

Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4400 - Advanced Organizational Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An in-depth study of leadership and organizational behavior. Focus is on the structural and behavioral variables that are most significant for organizational effectiveness. Both theory and application are emphasized.

Pre-requisite(s): MGMT 3010 or COMM 3550 or HAS 3260.

MGMT 4410 - Leadership Through Character

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will provide students access to the concepts and skills to possess the competencies, commitment, emotional intelligence and character to be effective leaders. While competencies and commitment are important, character plays a critical role in leadership behavior and will be the focus of this course. By character it is meant the combination of traits, values and virtues that are recognized as admired and appreciated in leaders, providing them with the expertise to exercise quality of judgment and decision-making. For example, in the financial crisis of 2008 - 2009 some corporate leaders' needs for instant gratification triumphed over temperance; and others who knew ethical risks were taken remained silent because they did not have the skills or courage to speak up. A component of this course is to explore the fundamentals of corporate governance, emphasizing the leader's responsibility to make ethical, socially responsible, legal, and wise financial decisions on behalf of the organization. We will explore a number of corporate examples that demonstrate positive and negative character development. Effective corporate governance requires leaders know the purpose or values of the organization, design the space of the organization to achieve its purpose, organize the flow of power within the organization, and manage the relationships of the key stakeholders in the organization: owners, directors, managers, employees, customers, suppliers, regulators, and the wider community of which the organization is a member. The skills and knowledge acquired in this course are transferable to other areas of life including one's community service and interaction with family and friends.

Pre-requisite(s): MGMT 3010, or HAS 3260, or COMM 3550.

MGMT 4420 - Critical Thinking for Leaders

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to apply a well-rounded and experiential learning process to developing critical thinking skills for

leaders. Course topics are broad and include the major branches of philosophy, the nature of thinking and knowledge, the formation of beliefs, perceptual biases, cognitive biases, the nature of memory, the structure and purpose of argument, logic and logical fallacies, the practice of street epistemology, probabilities and statistics, culture and mass delusions, the philosophy of science, the scientific method, skepticism, and pseudoscience. Application of critical thinking skills will target the human side of business in areas most relevant to leaders - leading, decision making, influence, conflict management and the development of conceptual skills and human capital.

Pre-requisite(s): MGMT 3010, or HAS 3260, or COMM 3550.

MGMT 4650 - Negotiations

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course provides an opportunity for management students to obtain an understanding of negotiation concepts and to develop management negotiation skills. Because the objective is skill building, the course emphasizes hands-on experience through negotiation simulations. These role playing exercises are designed to simulate the situations and issues commonly faced in management/organizational settings (e.g., labor negotiations, contract provisions, vendor arrangements).

Pre-requisite(s): BSAD 2899.

MGMT 4800 - Independent Research

Credits: (1-3)

Directed research and study on an individual basis.

Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated until a total of 4 hours credit is accumulated.

MGMT 4810 - Experimental Courses

Credits: (1-3)

Experimental or one-time courses designed to fill a need in the community or investigate interesting and unusual topics. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

MGMT 4810 - HRM Consulting

Credits: (3)

Experimental Course, Contact Department for More Information

This course provides learners with a high impact educational experience through a "real life" Human Resource Management (HRM) Consulting Project with an actual client, which will be a local Utah company. This course offers both theoretical and practical experiences. Participants will be instructed in the consultancy lifecycle and project management principles. Students will be placed in "consulting groups" and will compete to deliver an HRM solution (end to end) for the client. The first 3 weeks will be dedicated to principle instruction and client meetings. The remaining weeks will be utilized to work on the client project, culminating in a presentation of the solution to the client Senior Management team.

MGMT 4850 - Management Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore management theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

MGMT 4860 - Management Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Management program courses. Students receiving credit in this course cannot also receive credit in MGMT 4865.

Pre-requisite(s): BSAD 2899; Instructor approval.

MGMT 4865 INT - Human Resource Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Human Resource or Management program. Students receiving credit in this course cannot receive credit for MGMT 4860.

Pre-requisite(s): BSAD 2899; Instructor approval.

Management Information Systems

MIS 1100 SS - The Digital Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The explosive growth of information technologies in general, and the Internet in particular, has irreversibly changed the way we work and play. This course prepares students to be knowledgeable citizens of cyberspace. It reviews our social institutions and how they are being impacted by information technology as well as the ways in which technology has been shaped by our social institutions. The course also provides hands-on experience with a variety of Internet tools.

MIS 2010 - Business Computer Skills

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course prepares all students in business and economics to demonstrate current competence in desktop software commonly used in the business environment. The course covers computer competencies students will use in their business functional and cross-functional core courses, using more complex features of desktop software. It is followed by a hands-on exam that tests these competencies. *Credit/No credit.*

MIS 2015 - Introduction to Information Systems & Technologies

Credits: (1)

This course introduces the student to the role played by computer technology in business strategy and problem resolution. It also introduces information technologies used in information systems, including: software development, hardware, operating systems,

network management, project planning, and career paths. Students will develop their academic MIS program plan. Lecture series by MIS Faculty.

Note: Course not currently being offered.

MIS 2020 - Introduction to Information Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Overview of the role and use of information systems to support individual, group, and business decision-making. Includes coverage of technology's role in supporting the business decision-making process. It will prepare students to use information technologies effectively to improve productivity and promote competitive position in the marketplace.

Pre-requisite(s): MIS 2010.

MIS 2030 - Introduction to Business Analytics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Business analytics refer to the ways in which organizations use data to gain insights and make better decisions, and has become a critical capability for organizations of all types and sizes. It is applied in various business functions including marketing, finance, human resources, operation and strategic planning. This course covers basic analytic methods used by organizations. Students will learn how to explore, manipulate and present data. They will also learn how to use data to develop insights and predictive capabilities by using predictive analytics techniques.

Pre-requisite(s): MATH 1040 or QUAN 2600.

MIS 2110 - Software Development I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course introduces the student to the fundamentals of software construction using a contemporary programming language. This includes the IDE (Integrated Development Environment), syntaxes of the language, basic programming constructs, data representation, object concepts, programming flow control and problem solving logic. Students will design, program and debug several business application projects.

Pre-requisite(s): MATH 1050.

MIS 2410 - Information Systems Architecture

Credits: (3)

This course provides students with a thorough grounding in computer hardware and operating system software, peripheral devices and contemporary information system architecture, including its structure, theory, and applications.

Note: Course not currently being offered.

MIS 2720 - Data Structures and Algorithms

Credits: (3)

This course introduces the basics of specifying abstract data types, control structures and modularization, and using them to design programs. Commonly used data structures and algorithms are studied. Emphasis is made on choosing data structures and algorithms appropriate for solving given business problems.

Pre-requisite(s): MATH 1050 and MIS 2110.

Note: Course not currently being offered.

MIS 2891 - Cooperative Work Experience

Credits: (1)

Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.

Pre-requisite(s): Department Approval.

MIS 2892 - Cooperative Work Experience

Credits: (2)

Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.

Pre-requisite(s): Department Approval.

MIS 2893 - Cooperative Work Experience

Credits: (3)

Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.

Pre-requisite(s): Department Approval.

MIS 2894 - Cooperative Work Experience

Credits: (4)

Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.

Pre-requisite(s): Department Approval.

MIS 3210 - Database Design and Implementation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides a comprehensive coverage of business database systems. Students will learn how to design, implement and manage databases. They will learn both GUI interface and how to use the Structured Query Language (SQL). They will also gain experience in using an enterprise level, multi-user database.

Pre-requisite(s): MATH 1050 and MIS 2110, or MIS 2020.

MIS 3220 - Business Intelligence

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an understanding of the concepts of Business Intelligence (BI) as an information technology approach of data collection and data analysis to help enterprise users make better managerial decisions. The course explores the detailed discussion of the analysis, design, and implementation of systems for BI including enterprise data-warehousing, knowledge management systems, big data, and text mining. The course will help students learn analytical components and technologies to integrate, analyze and report data. The course will utilize Microsoft BI tools including Microsoft Power BI desktop, SQL Server Integration Services (SSIS), SQL Server Analysis Services (SSAS) and SQL Server Reporting Services

(SSRS).

Pre-requisite(s): MIS 2030.

MIS 3230 - Data Mining for Business

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will examine how data mining technologies can be used to improve decision-making. Students will study the principles and techniques of data mining, including gaining knowledge of the algorithms and computational paradigms that allow computers to find patterns in large datasets. Students will examine real-world examples and cases to place data-mining techniques in context, to develop data-analytic thinking, and to illustrate that proper application is as much an art as it is a science.

Pre-requisite(s): MIS 2030.

MIS 3610 - Networks & Data Communications I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an introduction to the design, operation, and management of telecommunication systems. It covers computer network definitions, concepts and principles, including (but not limited to): server management; topologies; protocols; standards; and fundamental concepts related to data communication networks.

Pre-requisite(s): MIS 2020 or MIS 2410.

MIS 3620 - Networks and Data Communications II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

In this intensive hands-on course, the student will acquire the skills and techniques needed to configure, troubleshoot and support reliable TCP/IP internetworks. The student will learn the essentials of building an internetwork, including routing, configuring the Domain Name Server (DNS), setting up and managing a web server, configuring a firewall and IDS, and standards-based email. Students will also participate in configuring clients, redesigning networks and troubleshooting routing.

Pre-requisite(s): BSAD 2899 and MIS 3610.

MIS 3700 - E-business Technologies & Web Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course provides students with knowledge of technologies needed in planning, implementing and supporting web-hosted applications and on-line commerce. Topics include web and commerce server design and deployment, search engines n-tier web architecture and supporting software, client-side/server-side programming with data-bound controls and session management, e-business application languages, markup languages, on-line payment mechanisms, systems reliability and security, scalability analysis, and solutions sourcing.

Pre-requisite(s): BSAD 2899 and MIS 2110, or MIS 2020.

MIS 3710 - Global Issues in Information Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course shows how information technology is used as a key competitive advantage by multinational and transnational businesses. Topics include global perspectives on coordination and control,

cultural dimensions, and geo-political considerations of global information technology applications.

Pre-requisite(s): BSAD 2899.

MIS 3720 - Software Development II

Credits: (3)

This course builds on the software development skills learned in Software Development I. Topics include class hierarchies, inheritance and interfaces, object aggregation, data structure and collections, file management, threading, network programming, and the design of multi-tiered, distributed computing applications involving relational databases.

Pre-requisite(s): BSAD 2899 and MIS 2720.

Note: Course not currently being offered.

MIS 3730 - Systems Analysis and Design

Credits: (3)

This course provides the knowledge and skills to design and implement computer-based systems to solve business problems. Topics include feasibility studies, requirement analysis, system design and development, implementation and testing. Students will learn the use of appropriate methodologies and tools, including object-oriented modeling and the use of computer-aided software engineering (CASE).

Pre-requisite(s): BSAD 2899 and MIS 3210.

Note: Course not currently being offered.

MIS 3740 - Business Machine Learning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to teach and give students hands-on experience with cutting-edge machine learning methods used frequently in business contexts. Many companies have made significant contributions to the field of data analytics with products and services they've launched. This class is designed to prepare students to participate in such analysis to make significant business impact. We examine Netflix- and Amazon-style recommender systems and market basket analyses, customer segmentation and classification, Zillow-style prediction of home sale prices, and other business-relevant examples.

Pre-requisite(s): MIS 2030.

MIS 3750 - Electronic Business Communications

Credits: (3)

This course gives students knowledge regarding the best practices in designing or developing electronic presentations, meetings, and collaborations. This course also familiarizes students with technologies fostering effective communication in virtual situations.

Pre-requisite(s): BSAD 2899, MGMT 3200 or PS 3250.

Note: Course not currently being offered.

MIS 4600 - Information Security I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course looks at management issues and practical implications related to securing information systems. This course focuses on the threat environment, security policy and planning, cryptography, secure networks, access control, firewalls, host hardening, application security, data protection, incident response, and networking and a review of TCP/IP.

Pre-requisite(s): Business Foundations; BSAD 2899 and MIS 2020, or MIS 3610.

MIS 4620 - Information Security Basics

Credits: (3)

In a computer-literate age, sophisticated criminals use computers in their illegal and destructive activities. This course discusses cybercrime and teaches students to understand networks; the phases of computer hacking; and setting up a secure environment.

Pre-requisite(s): BSAD 2899 and MIS 2410 or MIS 3610.

Note: Course not currently being offered.

MIS 4700 - Information Security II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers the basic principles and concepts in information security and information assurance. It examines the technical, operational, and organizational issues of securing information systems. Topics include operating system issues, viruses, security awareness at the executive, technical and user levels, physical security, personnel security issues, policies, procedures, and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.

Pre-requisite(s): BSAD 2899 and MIS 4600.

MIS 4710 - Enterprise Software Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course introduces students to the concept of a business as an integrated set of business processes and associated systems designed to deliver value to customers. It focuses on enterprise systems, product lifecycle management, and supply chain management. This course also focuses on how to effectively manage enterprise projects with respect to organizational constraints. Students will learn how to manage project initiation, planning, execution, monitoring and closing.

Pre-requisite(s): BSAD 2899 and MIS 2020.

MIS 4720 - Emerging Information Technologies

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

New information technologies can give early adopters significant competitive advantage when used with careful planning, or they can mean disaster if hastily implemented. This course covers how to conduct an environmental scan toward evaluating and implementing new information technologies.

Pre-requisite(s): BSAD 2899, and MIS 2410, or MIS 2020.

MIS 4730 - IT Project Management and Systems Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers project management principles, methodology, and tools. It also provides the knowledge and skills to design and implement computer-based systems to solve business problems. Topics include the planning and management of IT and software development projects, requirement analysis, system design and development, implementation and testing.

Pre-requisite(s): Business Foundations; BSAD 2899 and MIS 3210 and MIS 3610 and MIS 2110.

MIS 4801 - Individual Projects

Credits: (1)

This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4802 - Individual Projects

Credits: (2)

This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4803 - Individual Projects

Credits: (3)

This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4810 - Experimental Courses

Credits: (1-3)

Experimental or one-time courses designed to fill a need in the community or investigate interesting and unusual topics. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different topics.

MIS 4850 - Information Systems & Technology Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore information systems and technology theory and practice in countries other than the U.S. Students will study global information systems as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

MIS 4891 - Cooperative Work Experience

Credits: (1)

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.

Prerequisite: BSAD 2899 ; Instructor approval.

Pre-requisite(s): Management Information Systems Department Approval.

MIS 4892 - Cooperative Work Experience

Credits: (2)

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.

Prerequisite: BSAD 2899 ; Instructor approval.

Pre-requisite(s): Management Information Systems Department Approval.

MIS 4893 INT - Cooperative Work Experience

Credits: (3)

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Prerequisite: BSAD 2899 ; Instructor approval.

Pre-requisite(s): Management Information Systems Department Approval.

MIS 4894 - Cooperative Work Experience**Credits: (4)**

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Prerequisite: BSAD 2899 ; Instructor approval.

Pre-requisite(s): Management Information Systems Department Approval.

MIS 5930G - Professional Development Workshop in Information Technology**Credits: (1-4)**

Information technology professionals must remain current with new technologies to remain competitive in their careers. This course offers professional development in new systems and software as they enter the mainstream of information technology practice.

Pre-requisite(s): Permission of instructor.

MIS 6610 - Information and Communications Technologies for e-Business**Credits: (3)**

Covers the information and communications technology infrastructure required to support a robust e-business activity. Issues such as reliability, scalability, security, and responsiveness as well as n-tier architectures are reviewed.

Pre-requisite(s): MACC, MBA, or MIS Certificate program standing.

MIS 6620 - Databases & Information Systems**Credits: (3)**

This course covers the role of database technology in information systems. Through hands-on and conceptual knowledge, students will learn how databases are used to construct and operate information systems designed to support decision making. Various aspects of database systems including both correct methods and problems encountered during the design, implementation and operation of database systems will be covered. Students will gain hands-on familiarity with a relational database system.

Pre-requisite(s): Admittance to MACC or MBA program and MIS 2020 or equivalent.

MIS 6800 - Directed Studies**Credits: (1)**

Directed individual study and research on special topics related to information assurance.

Pre-requisite(s): Approval of Management Information Systems Department Chair and course instructor.

Number of Times this Course May Be Repeated: May be repeated for a cumulative total of three credit hours.

Manufacturing Engineering Technology**MFET 1000 - Manufacturing Engineering Technology Fundamentals****Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is an introductory course for students interested in majoring in Manufacturing Engineering Technology. Students will be exposed to Manufacturing Engineering Technology through several hands-on laboratory experiences that introduce them to concepts needed for future classes. Students will gain a clear understanding of degree requirements and possible career paths.

MFET 1150 - Pre-Professional Seminar in Manufacturing**Credits: (1)**

Typically Taught Fall Semester: *Full Sem*

An introductory course for students planning to major in Manufacturing Engineering Technology. An explanation of the Manufacturing Engineering Technology curriculum and its place in the occupational spectrum. Current job functions of manufacturing engineering technologists will be discussed by manufacturing engineers and technologists from industry.

MFET 1210 - Machining Principles Lecture/Lab I**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to machining processes through theory and practice including: setup and operation of the engine lathe & milling machine, machine and tool performance, inspection techniques, basic blueprint reading, and process planning. Students will utilize lab time to complete assignments as required.

One lecture per week and two 3-hour labs per week are required.

MFET 1810 - Experimental Courses**Credits: (1-4)**

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

MFET 1810 - Manufacturing Electronics**Credits: (4)**

Experimental Course, Contact Department for More Information

Introduction to basic electricity, electrical and electronics principles and the applications of these principles to AC and DC circuitry and motor controls. The course will give students the foundation for required courses in welding power supplies and automation. An integrated hands-on lab will reinforce concepts taught in the classroom.

MFET 1890 INT - Cooperative Work Experience**Credits: (1-3)**

Typically Taught Fall Semester: *Full Sem*

Open to all first year students in Manufacturing Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

MFET 2150 - Metal Forming, Casting and Welding

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Introduction to industrial metal forming, casting and welding processes, equipment selection, design criteria, shop procedures and terminology.

Two one-hour lectures per week and one two-hour lab

Co-Requisite(s): MFET 2150L. (MFET 2150L) is required.

MFET 2150L - Metal Forming, Casting & Welding Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Lab application of theories taught in MFET 2150 by use of student projects.

Co-Requisite(s): MFET 2150.

MFET 2151 - Metal Forming Lecture/Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Introduction to industrial metal forming processes, equipment selection, design criteria, shop procedures and terminology.

Pre-requisite(s): Instructor Approval.

MFET 2152 - Metal Casting Lecture/Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Introduction to industrial metal casting processes, equipment selection, design criteria, shop procedures and terminology.

Pre-requisite(s): Instructor Approval.

MFET 2153 - Metal Welding Lecture/Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Introduction to industrial metal welding processes, equipment selection, design criteria, shop procedures and terminology.

Pre-requisite(s): Instructor Approval.

MFET 2300 - Statics and Strength of Materials

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis.

Also concept of stress and strain, shear, bending moments, torsion, bending stresses in beams and stress resolution and shear.

Five lectures per week.

Pre-requisite(s): PHYS 2010/L or PHYS 2210/L; MATH 1060 or MATH 1080 or MATH 1210.

MFET 2310 - Statics for Engineering Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Topics include: Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis.

Pre-requisite(s): PS PHYS 2010/L or PS PHYS 2210/L and MATH 1210 or MATH 1110.

MFET 2320 - Mechanics of Materials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Topics include: Principles of stress and strain, shear, bending moments, torsion, and bending stresses in beams.

Pre-requisite(s): MFET 2310.

MFET 2360 - Manufacturing Processes and Materials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Survey of industrially important processes used to change material shape and condition for industrial use. Survey of industrially important materials and the principles of material behavior.

MFET 2410 - Quality Concepts and Statistical Applications

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is the first course in a series of three designed to impart the Six Sigma body of knowledge. It integrates managerial, technological and statistical concepts across all functions of an organization to ensure that a product is fit for use. Provides a foundation in current quality paradigms and introduces students to software tools (MS Excel and Minitab) used to statistically analyze problems encountered in manufacturing firms.

Three lectures per week.

Pre-requisite(s): MATH 1010 or Aleks (score: 30 or above).

MFET 2440 - Computer Numeric Control (CNC) in Manufacturing

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is designed for those who have little or no experience with CNC programming, setup or operations. Manual programming, APT programming, and Mazatrol (a conversational programming language) will be taught. In addition, an introduction to CAD/CAM will also be discussed.

A three-hour lab, once a week is required.

Pre-requisite(s): MATH 1080 or MATH 1050 and MATH 1060; MFET 1210.

Co-Requisite(s): MFET 2440L.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 6 credit hours.

MFET 2440L - CNC in Manufacturing Lab

Credits: (1)

Applications of the theory taught in MFET 2440. Introduction to the setup & operation of the CNC lathe and mill.

One 3-hour lab per week.

Co-Requisite(s): MFET 2440.

MFET 2500 - Process Automation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of the elements used in manufacturing automation and control technologies including: basic elements of an automated system, cost benefit analysis, programmable logic controllers, robotics (servo and non-servo), material handling devices and

automated inspection technologies. One 50 minute lecture per week.

Pre-requisite(s): EET 1850.

Co-Requisite(s): MFET 2510.

MFET 2510 - Process Automation I Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students duplicate demonstration sequences of automation equipment and develop new routines in: Controlling servo and non-servo robots, computer-aided manufacturing systems, programmable logic controllers, and other devices used in process automation. Labs will include additional lectures.

Pre-requisite(s): EET 1850.

Co-Requisite(s): MFET 2500.

MFET 2550 - Basics of Quality Engineering

Credits: (2)

Approaches quality from the perspective of the production technician using applied statistics, total quality concepts, inspection techniques and methods and nonconforming material control. Addresses sampling principles used in production management as well as a review of industry accepted standards. (ASQC Series)

Note: This course is offered in the evenings only.

MFET 2610 - Quality Improvement Principles and Techniques

Credits: (2)

This course assesses vital knowledge of quality tools and their uses by individuals, from non-traditional quality areas, who are involved in quality improvement projects. The course examines the rapid spread of quality principles and practices throughout organizations, and covers the essentials of quality management for individuals who manage quality programs, but who are not necessarily specialized in traditional quality areas. The course prepares students for the Certified Quality Improvement Associate examination administered by the American Society for Quality.

MFET 2670 - GMA, FCA and GTA Welding

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Theory and skills course covering Gas Metal Arc Welding, Flux Core Arc Welding, and Gas Tungsten Arc Welding.

Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153.

Co-Requisite(s): MFET 2670L.

MFET 2670L - GMA, FCA and GTA Welding Lab

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

A "hands on" lab that reinforces the theory and skills course (MFET 2670) covering Gas Metal Arc Welding, Flux Core Arc Welding, and Gas Tungsten Arc Welding.

Pre-requisite(s): MFET 2150/MFET 2150L.

Co-Requisite(s): MFET 2670.

MFET 2830 - Directed Readings in Manufacturing Engineering Technology

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Individual research on topics requested by industry or which meet special needs of Manufacturing Engineering Technology students.

Pre-requisite(s): Departmental approval.

MFET 2850 - CNC/CAM for Plastics and Composites Lecture/Lab

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Traditional and nontraditional methods for machining organic-matrix and metal-matrix composites are reviewed. Traditional machining procedures are discussed together with the damage introduced into composites by these manipulations. Computer Numerical Control (CNC) codes and Computer Aided Manufacturing are covered, focusing on the production of plastic products and tooling. Machining concepts also including laser, water-jet, electrodischarge, electrochemical spark, and ultrasonic machining.

Pre-requisite(s): MFET 1210/L.

MFET 2860 - Plastics/Composites Materials & Properties

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Coverage of the most common commercial plastics including their additives, fillers, and fibers; includes common physical tests used to determine material characteristics; writing intensive.

Pre-requisite(s): CHEM 1110.

MFET 2870 - Design of Plastics/Composites Products

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Designing plastic parts utilizing CAD and CAE technologies for the design and for structural, dimensional, and process evaluation and optimization. A strong emphasis in design principles related to design of plastics products. Also analysis of functional requirements, structural properties, aesthetic qualities and cost relationships. The student will gain experience in product design and material evaluation.

Pre-requisite(s): PDD 1160 and MFET 2860.

MFET 2890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Open to all second year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): Departmental approval.

MFET 3010 - Tool Design

Credits: (3)

Principles of workpiece control including: Geometric, dimensional, and mechanical control. Other topics include: process tolerance stacks, design of special tools and gauges, applications in the production of manufactured parts, tool drawings, specifications, and modular tooling.

Three lectures per week.

Pre-requisite(s): MFET 1210; PDD 1160.

MFET 3060 - Codes, Weld Inspection, and Quality Assurance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of ASME and AWS codes as relating to procedure qualification and welder qualification for fabrication of pressure vessels and structures, and how codes relate to quality assurance and ISO 9000.

Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153.

MFET 3310 - Material Selection and Heat Treat

Credits: (2)

Terminology, concepts and principles involved in the selection, specification and processing of engineering materials so they meet design criteria including load, life, and appearance. Testing methods to determine those properties and characteristics. Manual and computer assessing of material data.

Two lectures per week.

Pre-requisite(s): MFET 1210/L, MFET 2300, CHEM 1110.

Co-Requisite(s): MFET 3310L.

MFET 3310L - Material Selection and Heat treat Lab

Credits: (1)

Application of theory taught in MFET 3310.

One 2-hour lab per week.

Co-Requisite(s): MFET 3310.

MFET 3320 - Machine Design

Credits: (2)

Application of engineering fundamentals to the design of individual machine components such as shafts, couplings, springs, bearings, gears, fasteners, clutches, and breaks. Students will be required to complete a design project emphasizing manufacturing equipment.

Two lectures per week.

Pre-requisite(s): MFET 2300.

MFET 3340 - Applied Fluid Power

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Principles of fluid mechanics and component operation as they apply to the design of hydraulic and pneumatic systems. Computer programs may be used to analyze and design systems. Two lectures per week.

Pre-requisite(s): MFET 2300 or MFET 2320 or ENGR 2010 and ENGR 2140; PHYS 2010/L or PHYS 2210/L.

Co-Requisite(s): MFET 3340L.

MFET 3340L - Applied Fluid Power Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of the theory taught in MFET 3340.

One 2-hr lab per week.

Co-Requisite(s): MFET 3340.

MFET 3350 - Plastic and Composite Manufacturing

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Design and processing of plastic and composite materials for industrial applications.

Two lectures per week.

Pre-requisite(s): CHEM 1110 or CHEM 1210.

Co-Requisite(s): MFET 3350L.

MFET 3350L - Plastic and Composite Manufacturing Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Application of the theory taught in MFET 3350.

Two 2-hr labs per week.

Pre-requisite/Co-requisite: MFET 3350.

MFET 3460 - Engineering Design using Solid Modeling

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

An advanced computer-aided design course using state-of-the-art solid modeling CAD/CAM software. Topics include: 3D parametric solid modeling, applications associativity, design-by-feature, assembly modeling, injection mold design, flat pattern development, design analysis using FEA, realistic rendering, and detailing.

Pre-requisite(s): PDD 1010.

Co-Requisite(s): MFET 3460L.

MFET 3460L - Engineering Design using Solid Modeling Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Lab assignments will include: Fundamentals of 3D parametric solid modeling, Extrude & Revolve Features, Sweep & Loft Features, Assembly Modeling, Injection Mold Design, Flat Pattern Development, Design Analysis using FEA, and others.

Pre-requisite(s): PDD 1010 and WEB 1700.

Co-Requisite(s): MFET 3460.

MFET 3510 - Basics of Supply Chain Management

Credits: (2)

Introductory course for production and inventory management personnel which provides basic definitions and concepts for planning and controlling flow of materials into, through, and out of an organization. Explains fundamental relationships of supply chain from suppliers to customers. Addresses manufacturing systems, forecasting, master planning, material requirements planning, capacity management, production activity control, purchasing, inventory management, distribution, quality management, and Just-in-Time manufacturing. (APICS Series).

Note: This course is offered in the evenings only.

MFET 3550 - Manufacturing Supervision

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem*

The application of supervision skills. Students will gain an understanding of; motivation of subordinates, personal leadership theories, problem-solving and decision-making techniques, organizational communication, employee selection, evaluation and training process, and organizational structures. Topics will include; the American Disabilities Act, OSHA and environmental issues, Equal opportunity Employment, and Affirmative Action

issues. Three lectures per week.

Pre-requisite(s): MFET 2410 (or MATH 1040).

MFET 3560 - Advanced Quality Engineering

Credits: (2)

Addresses the application of advanced quality techniques by personnel in positions of responsibility such as manufacturing leads and supervisors. Uses statistics, metrology, inspection methods, quality management concepts, and sampling principles to address process decisions involving both overall quality and costs. (ASQC Series).

Pre-requisite(s): MFET 2550.

Note: This course is offered in the evenings only.

MFET 3570 - Manufacturing Quality Auditing

Credits: (2)

Utilizes auditing principles and quality management tools and techniques to prepare an individual to plan and conduct, or prepare an organization, for a quality audit. Links directly to process associated with implementation of ISO 9000 standards.

Two one-hour lectures per week. (ASQC Series).

Pre-requisite(s): MFET 2410 or equivalent.

Note: This course is offered in the evenings only.

MFET 3580 - Certified Mechanical Inspector

Credits: (2)

Provides the student with terminology, concepts and tools needed to be professionally competent in advanced quality management. The course will also be helpful to those preparing to take the ASQC CMI Certification Exam. (ASQC Series).

Note: This course is offered in the evenings only.

MFET 3610 - Machining Processes Lecture/Lab II

Credits: (3)

The manufacture and assembly of precision and interchangeable parts using conventional lathes, mills, drills, and grinders. Introduction to geometric dimensioning & tolerancing (GD&T), and advanced inspection techniques. Students will utilize lab time to complete assignments as required.

One lecture per week and two 3-hour labs per week are required.

Pre-requisite(s): MFET 1210.

MFET 3620 - Senior Capstone Project Planning

Credits: (.5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course must be taken the semester prior to beginning the MFET senior project sequence of classes (MFET 4610, MFET4610L and MFET 4620L). Capstone requirements will be discussed. Capstone projects will be selected and teams formed with faculty input.

Pre-requisite(s): Department Approval.

MFET 3630 - Fusion Joining and Brazing Processes

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Study of SAW, ESW, GMAW, EG, RW, PAW, PAC, Electron Beam, Laser, Friction, Brazing, and other welding processes.

Pre-requisite(s): MFET 2670/MFET 2670L.

Co-Requisite(s): MFET 3630L.

MFET 3630L - Fusion Joining and Brazing Processes

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

A "hands-on" lab that reinforces the concepts taught in MFET 3630 of SAW, ESW, GMAW, EG, RW, PAW, PAC, Electron Beam, Laser, Friction, Brazing, and other welding processes.

Pre-requisite(s): MFET 2670/MFET 2670L.

Co-Requisite(s): MFET 3630.

MFET 3650 - Quality Management Institute

Credits: (3)

This course consists of application process control and problem solving techniques including statistical process control (SPC), measurement systems analysis, and process capability analysis. Students will apply cause-and-effect diagrams, check sheets, sampling, line and bar charts, Pareto charts, scatter diagrams, variation, probability plots, x-R charts, gate repeatability and reproducibility (gage R & R) on course projects. Curriculum will include practical application exercises.

Pre-requisite(s): MFET 2410, MATH 1010 Intermediate Algebra or equivalent, and Basic Statistics course (MATH 1040) or equivalent.

MFET 3710 - Computer Aided Manufacturing and Rapid Prototyping

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course will introduce and explain concepts behind Computer-Automated Manufacturing (CAM). It will define elements, terms, and concepts involved with CAM. Elements of rapid prototyping will also be covered from conceptual design in solids to production of tooling and parts. This course is designed for those who have the basic understanding of the setup and operation of CNC machine tools and programming. Software will be used to perform the CAM operations, such as part generation and post processing.

Pre-requisite(s): MFET 2440/MFET 2440L, PDD 1010, PDD 1160 or MFET 3460.

Co-Requisite(s): MFET 3710L.

MFET 3710L - Computer Aided Manufacturing and Rapid Prototyping Lab

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

A "hands-on" lab that reinforces the concepts taught in MFET 3710. Students will learn how to transfer CNC part programs from a PC to the CNC machine controller. Testing, editing and running their part programs on the CNC machines will also be covered.

Number of Times this Course May Be Repeated: May be repeated twice up to 3 credit hours.

MFET 3750 - Welding Metallurgy I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Metallurgical principles applied to welding and weldability of ferrous metals.

Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153, CHEM 1110 or CHEM 1210.

Co-Requisite(s): MFET 3750L.

MFET 3750L - Welding Metallurgy I Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

A "hands-on" lab that reinforces the concepts taught in MFET

3750 of metallurgical principles applied to welding and weldability of ferrous metals.

Pre-requisite(s): MFET 2150/MFET 2150L, CHEM 1110.

Co-Requisite(s): MFET 3750.

MFET 3760 - Welding Metallurgy II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Metallurgical principles applied to welding and weldability of nonferrous metals.

Pre-requisite(s): MFET 3750/MFET 3750L.

Co-Requisite(s): MFET 3760L.

MFET 3760L - Welding Metallurgy II Lab

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

A "hands-on" lab that reinforces the concepts taught in MFET 3760 of metallurgical principles applied to welding and weldability of nonferrous metals.

Pre-requisite(s): MFET 3750/MFET 3750L.

Co-Requisite(s): MFET 3760.

MFET 3810 - Manufacturing Process Planning and Introduction to Systems Design

Credits: (3)

Experimental Course, Contact Department for More Information

Fundamentals of process planning. Analyzing product specifications and production requirements for manufacturing. Equipment selection and its relationship to basic facility layout, production management systems and material-handling system design for mpr based systems and lean flow systems.

MFET 3820 - Nondestructive Testing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamental concepts relating to liquid penetrant, magnetic particle, ultrasonics, and radiography and other NDT processes.

Pre-requisite(s): MATH 1210 or MATH 1110 and PHYS 2010 or PHYS 2210.

MFET 3830 - Reinforced Plastics/Advanced Composite Lecture/Lab

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Polymer and reinforcement systems; material testing; mold design and development; laboratory involvement in reinforced plastics production processes.

Pre-requisite(s): MFET 3350/MFET 3350L and MFET 2860.

MFET 3870 - Mold Design and Process Strategies Lecture/Lab

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Overview of mold design and the development of strategies and techniques integrating CAD and CAE technologies for optimizing part quality, moldability, and productivity. Additional study on design and construction of various types of production molds that are used for processing plastics in final shape. Product design in relationship to molding techniques and various techniques and materials used to construct the molds are the major units of study.

Pre-requisite(s): MFET 2850 and MFET 2870.

MFET 3890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all third year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 4050 - Detailed Scheduling and Planning I

Credits: (2)

Techniques and practices of detailed scheduling and planning of inventory management including order review methodologies, policies and functions of inventory. Covers lot sizing, safety stock techniques, demand, and Just-in-Time as they relate to detailed scheduling and planning.

Pre-requisite(s): MFET 3510 or equivalent. (APICS series).

Note: This course is offered in the evenings only.

MFET 4090 - Welding Power Sources

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Study of power sources used to generate and control voltage and amperage for welding.

Two lectures per week.

Pre-requisite(s): EET 1850.

MFET 4150 - Execution and Control of Operations

Credits: (2)

Focuses on prioritizing and sequencing work, executing work plans, implementing controls, reporting activity results, and evaluating and providing feedback on performance. Eval.

Pre-requisite(s): MFET 3510 or equivalent. (APICS Series).

Note: This course is offered in the evenings only.

MFET 4200 - Manufacturing Processes

Credits: (2)

Manufacturing processes define the methods that companies use in designing, producing, and delivering goods and services required by customers. The manufacturing processes provide the execution component to the other activities of the integrated manufacturing system. Beginning with customer requirements and needs, they design, build, operate, upgrade, and maintain a manufacturing process which is most supportive of and consistent with those needs and requirements. To achieve these objectives, manufacturing processes draw on three different but very interrelated subsystems: industrial facilities management, process design and development, and manufacturing. (APICS Series)

Note: This course is offered in the evenings only.

MFET 4210 - Cost Estimating and Engineering Economics

Credits: (2)

Production cost structure, operation costing, break-even analysis, make buy decision, and capital equipment justification. Computer aids are used to analyze cost data.

Three lectures per week.

Pre-requisite(s): MATH 1080; WEB 1700.

Co-Requisite(s): MFET 4610.

MFET 4250 - Detailed Scheduling and Planning

Credits: (2)

Detailed explanation of inventory management including order review methodologies, policies and functions of inventory. Covers

material requirements planning (MRP) and other material planning and capacity requirements planning techniques. Includes concepts, principles, interfaces, desired characteristics, applications, and supplier relations.

Pre-requisite(s): MFET 3510 or equivalent. (APICS Series)

Note: This course is offered in the evenings only.

MFET 4300 - Design of Experiments

Credits: (2)

A step-by-step description of procedures used to organize, conduct and evaluate industrial experiments. Emphasizes the usefulness of results and the decision criteria for choosing the proper design.

Pre-requisite(s): MFET 2410

MFET 4310 - Corrosion and Corrosion Control

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Analysis of corrosion mechanisms for ferrous metals, nonferrous metals, and nonmetallic materials, as well as the control of corrosion.

Pre-requisite(s): CHEM 1110 and MATH 1080.

MFET 4315 - Welding Robotics

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce students to welding robot programming and applications. Students will demonstrate skills learned in welding robot programming in applied labs. They will learn parameters, terms and nomenclature and obtain knowledge of applications and configurations in industry settings.

Pre-requisite(s): MFET 2670, MFET 2670L.

MFET 4350 - Principles of Lean Manufacturing

Credits: (2)

Typically Taught Spring Semester: *Online*

This course introduces students to lean manufacturing and waste reduction concepts such as work standardization, visual manufacturing & workplace organization, value stream mapping, setup reduction & batch size reduction, quality at the source, point of use storage, total productive maintenance, pull systems/kanbans, takt time calculation and cellular/synchronous manufacturing design concepts.

A combination of lectures, videos and hands on exercise will be used.

MFET 4550 - Advanced Quality Principles

Credits: (2)

Provides advanced study in all aspects of the application of quality principles to a production environment. The course will involve case study and application of quality theory. Students should have a broad knowledge of organizational structure and planning, quality techniques, customer satisfaction and focus, project management, and human resource management. Cooperative experience in a business/industry is recommended. (ASQC Series)

Pre-requisite(s): MFET 2410 or equivalent.

Note: This course is offered in the evenings only.

MFET 4580 - Process Automation II & Robotics

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An advanced study of the elements used in manufacturing automation and control technologies including: the use of basic elements of an automated system, cost benefit analysis, programmable logic controllers, robotics (servo and non-servo), material handling devices and automated inspection technologies. One 1-hour lecture per week.

Pre-requisite(s): MFET 2500 and MFET 2510.

Co-Requisite(s): MFET 4585.

MFET 4585 - Process Automation II Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students work in teams to demonstrate proficiency programming individual automated manufacturing stations using Allen Bradley PLCs (Cognex Vision Systems, RF Systems, bar coding, pick and place feeding station, gauging station, part orientation processing station, sorting-buffering station, servo robotic assembly station-Fanuc, torque assembly station, inventory storage station, electro-hydraulic station). Students then work as a class to integrate an entire manufacturing process using all of the stations for a small part. Labs will include additional lectures.

Pre-requisite(s): MFET 2500 and MFET 2510.

Co-Requisite(s): MFET 4580.

MFET 4610 - Senior Project Planning & Estimating

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is designed as a capstone course for students and is to be taken in the senior year of their program. The course will teach students fundamental principles in Project Management, Cost Estimating, and Engineering Economics that will be necessary to successfully complete their Senior Project experience. Students must apply and gain departmental approval before entering Senior Project. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. All students approved for Senior project will register for this course regardless of individual project group assignments.

Pre-requisite(s): AAS or AS Degree.

Co-Requisite(s): MFET 4610L for manufacturing students or PDD 4600 for design graphics students.

MFET 4610L - Senior Project Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Must apply for senior project before March 1 of the previous year. Must have department approval. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. Time: as required to complete the project. Two consecutive semesters.

Co-Requisite(s): MFET 4610 (with MFET 4610L only).

MFET 4620L - Senior Project Lab

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Must apply for senior project before March 1 of the previous year. Must have department approval. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. Time: as required to complete the project. Two consecutive semesters.

MFET 4650 - Software Quality Engineering Principles

Credits: (2)

This course prepares the student to incorporate quality development and implementation as a software design team member. The course provides instruction on concepts, principles and techniques to develop a comprehensive understanding of software inspection, testing, verification, and validation. Participants will learn to implement software development and maintenance processes and methods. This course also prepares the student for the Certified Systems Quality Engineer examination administered through American Society for Quality.

MFET 4670 - Reliability Engineering Principles

Credits: (2)

This course prepares the student to work as a design team member to incorporate reliability considerations into a basic design. Course provides information on application of proven techniques to achieve quality product results. This course also prepares the student for the Certified Reliability Engineer examination administered through American Society for Quality.

MFET 4750 - Master Planning of Resources

Credits: (2)

Explore processes used to develop sales and operations plans, forecast internal and external demand, create the master schedule consistent with business policies, objectives and resource constraints. (APICS series).

Pre-requisite(s): MFET 3510.

Note: This course is offered in the evenings only.

MFET 4770 - Strategic Management of Resources

Credits: (2)

The relationship of existing and emerging processes and technologies to manufacturing strategy and supply chain related functions. Addressing aligning resources with strategic plan, integrating operating processes to support the strategic plan, and implementing change.

Pre-requisite(s): MFET 3510 and be familiar with concepts addressed in all other APICS courses. (APICS series).

Note: This course is offered in the evenings only.

MFET 4800 - Individual Research in Manufacturing Technology

Credits: (1-3)

Special individual research and development projects in Manufacturing and Engineering Technology. Credit and time determined by the student and the faculty project supervisor.

Pre-requisite(s): Permission of instructor.

MFET 4830 - Directed Readings in Manufacturing Engineering Technology

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Must have department approval.

MFET 4850 - Integration of Automated Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An Advanced Automation course designed to give the student both theory and practical application in control and integration issues dealing with automated equipment. Selected topics include motor controllers, PID's, data collection and transfer devices, vision systems, and systems integration issues.

Pre-requisite(s): MFET 4580/MFET 4585.

MFET 4890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all fourth year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Juniors and Seniors only. Faculty approval required.

MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide a structured review for the student to take the Certified Manufacturing Technologist (CMfgT) Exam.

Pre-requisite(s): MSE 3910 or MFET 3910.

MFET 5100G - Introduction to Engineering Design (IED)

Credits: (5)

IED provides students with opportunities to be creative and to apply their decision-making and problem-solving skills to design problems. Students use powerful computer hardware and software (Inventor) to develop 3-D models or solid renderings of objects. Using a Computer Aided Design System, students learn the product design process through creating, analyzing, rendering and producing a model. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 5300G - Principles of Engineering (POE)

Credits: (5)

POE is designed to help students understand the field and the career possibilities of engineering and engineering technology. Students work on the problem-solving skills that are used at the college level and in the workplace, and they explore engineering systems and manufacturing processes. Students learn how engineers address concerns about the social and political consequences of technological change. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those

teachers who would use them as part of a master's degree program or for recertification.

MFET 5400G - Computer Integrated Manufacturing (CIM)

Credits: (5)

CIM is a course that applies principles of prototyping, robotics, and automation. It builds on the solid modeling skills developed in Introduction to Engineering Design. Students use computer-controlled equipment to solve problems by constructing models of their three-dimensional designs. Students are also introduced to the fundamentals of robotics and to how this equipment is used in an automated environment. Students evaluate their design solutions using various techniques and modifications before they produce the prototype. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 5500G - Engineering Design and Development (EDD)

Credits: (5)

In this course, students work on a team with one or two others to design and construct the solution to an engineering problem. The problems involve a wide range of engineering applications (e.g., a school robo-mascot, automated solar water heater, remote control hover craft). The course serves as a capstone course where students apply the principles they developed in previous courses. A journal is part of each student's portfolio. Each team is responsible for delivering progress reports and making final presentations to an outside review panel. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 6050 - Gateway to Technology

Credits: (1-4)

Typically Taught Summer Semester: 2nd Blk

Gateway to Technology is a course designed specifically and only for current high school teachers who have been assigned by districts to teach the related Project Lead the Way course in their respective schools. Gateway to Technology introduces the Project Lead the Way series of courses covering the principles of engineering and technology. The course promotes an understanding of the field of technology and covers the continuous evolution of technology, the positive and negative impact of technology on our society, and career opportunities in technology. The various modules in this course will utilize a train the trainer approach. Teachers will learn technical content, teaching methodologies used to present the course, and the Project Lead the Way learning management system (Canvas). Credit hours will be based on the number of modules taken (two credits for each one-week module).

Number of Times this Course May Be Repeated: May be repeated 4 times and up to 8 credit hours.

Manufacturing Systems Engineering

MSE 1210 - Metal Processing and Joining for Engineers

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Manufacturing processes for cost-effective, high-quality production. Consideration of technical capabilities and limitations of alternative methods. Includes Metal Removal, forming, welding concepts and non-tradition manufacturing processes. Course project required. Laboratory experiments include mill and lathe work, welding techniques, friction coefficients analysis and milled surface evaluation.

MSE 3040 - Cost Estimating and Engineering Economic Analysis

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course focuses on effective design and implementation of reliable, economically competitive, and environmentally benign manufacturing processes and systems. Topics will include an overview of the manufacturing systems approach in production, control, quality, automation, an introduction to facilities planning and design, an introduction to operations research and simulation in manufacturing, and engineering economics. An introduction to government manufacturing systems engineering will also be presented.

Pre-requisite(s): MATH 1210, MSE 3700.

MSE 3360 - Manufacturing Process and Materials Lab

Credits: (3)

Typically Taught Fall Semester: Full Sem

Manufacturing processes for cost-effective, high-quality production. Consideration of technical capabilities and limitations of alternative methods. Includes forming, removal, casting, joining, heat treating, molding, finishing and coating. Course project required. Laboratory experiments include heat treating, deep drawing, powder metallurgy, casting, injection molding, fabricating composites, friction coefficients analysis and milled surface evaluation.

Pre-requisite(s): ENGR 2010, ENGR 2160.

MSE 3460 - Product Design and Development

Credits: (3)

Typically Taught Fall Semester: Full Sem

An advanced computer-aided design course using state-of-the-art solid modeling CAD/CAM software. Topics include: 3D parametric solid modeling, applications associativity, design-by-feature, assembly modeling, injection mold design, flat pattern development, design analysis using FEA, realistic rendering, and detailing.

Pre-requisite(s): ENGR 1000, PDD 1160.

MSE 3700 - Manufacturing Systems I

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course focuses on effective design and implementation of reliable, economically competitive, and environmentally benign manufacturing processes and systems. Topics will include an overview of the manufacturing systems approach in production, control, quality, automation, an introduction to facilities planning and design, an introduction to operations research and simulation in manufacturing, and engineering economics. Students will also be

introduced to DoD systems engineering terminology.
Pre-requisite(s): MFET 2320.

MSE 3710 - Computer Aided Manufacturing and Additive Manufacturing/Lab

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will introduce and explain concepts behind Computer-Automated Manufacturing (CAM). It will define elements, terms, and concepts involved with CAM. Elements of rapid prototyping will also be covered from conceptual design in solids to production of tooling and parts. This course is designed for those who have the basic understanding of the setup and operation of CNC machine tools and programming. Software will be used to perform the CAM operations, such as part generation and post processing.

Pre-requisite(s): MSE 1210, PDD 1010, PDD 1160 or MSE 3460.

MSE 3850 - Statistical Process Control and Reliability

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Control of quality with statistical analysis; typical control techniques and underlying theory. Development of reliability models and procedures for product assurance. Course will utilize Minitab and Microsoft Excel Spreadsheet software.

Pre-requisite(s): MFET 2410 or MATH 1040 or MATH 3410.

MSE 3910 - Six Sigma Methods and Tools in Manufacturing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Six Sigma methods use statistical tools to bring about continual improvement of quality in manufactured goods and services and to document that positive change has occurred. These tools include Failure Mode and Effects Analysis (FMEA), Measurement Systems Analysis (gage R&R), Control Charts, Process Capability Analysis, and Design of Experiments. Students will learn and apply these methods and tools through class participation and completion of required projects. Course will utilize Minitab and Microsoft Excel spreadsheet software.

Pre-requisite(s): MSE 3850 or MFET 3810.

MSE 4010 - Facility Design and Material Handling

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

In-depth concepts in the planning and design of manufacturing facilities, product analysis, manufacturing processes and equipment selection, and schedule design; flow, space, activity relationships and space planning; location and layout; material handling systems; and facilities planning models.

Pre-requisite(s): MSE 3360, MSE 3460.

MSE 4590 - Lean Manufacturing Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course addresses the organization, design, and management of production systems using lean manufacturing techniques. Topics include work standardization, visual manufacturing, workplace organization, poke-yoke methodology, value stream mapping, setup reduction, batch size reduction, kaizen, total productive maintenance, pull systems/kanbans, cellular manufacturing design concepts, &

cellular plant layout concepts.

Pre-requisite(s): MFET 2300 or MFET 2320.

MSE 4600 - Production Systems Modeling and Analysis/Lab

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Design and analysis of production systems. Fixed, flexible, and programmable automation. Modeling and simulation of alternative production systems in conjunction with the systems-design process.

Pre-requisite(s): MSE 3460, MSE 3700.

MSE 4610 - Project Management for Engineers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is focused on teaching methods and tools for planning and managing complex product and system development projects. The class will focus on the preparation, planning, monitoring and adaptation of projects. The class is organized into five loosely interwoven modules; project planning and simulation techniques, case studies, project tracking, international projects, and project management resources.

Pre-requisite(s): MSE 3040, MSE 3460.

Co-Requisite(s): MSE 4615.

MSE 4615 - Lab: Senior Project Design I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is an engineering laboratory subject for manufacturing systems engineering seniors. Major emphasis is on interplay between analytical and experimental methods in solution of research and development problems. Communication (written and oral) of results is also a strong component of the course. Groups of three or more students work together for two terms on an assigned engineering and design project. Must be taken concurrent with MSE 4610 Project Management for Engineers.

Co-Requisite(s): MSE 4610.

MSE 4620 - Lab: Senior Project Design II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Continuation of MSE 4615. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.

Pre-requisite(s): MSE 4610, MSE 4615.

MSE 4700 - Manufacturing Systems Engineering II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers the following topics: models of manufacturing systems, including transfer lines and flexible manufacturing systems; calculation of performance measures, including throughput, in-process inventory, and meeting production commitments; real-time control of scheduling; effects of machine failure, set-ups, and other disruptions on system performance. Also A study of the elements used in the automation of manufacturing processes including:

programmable logic controllers, robotics (servo and non-servo), vision systems, and material handling devices.

Pre-requisite(s): MSE 3040, MSE 3700.

MSE 4800 - Individual Research Problems

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

With permission and under the direction of faculty, the student researches a specific problem in the manufacturing systems engineering field.

Pre-requisite(s): Permission of department.

Number of Times this Course May Be Repeated: May be taken 3 times and up to 3 credits.

MSE 4830 - Directed Readings for Manufacturing Systems Engineering

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.

Pre-requisite(s): Permission of department.

Number of Times this Course May Be Repeated: May be taken 3 times and up to 3 credits.

MSE 4890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for engineering work experience.

Permission of department required.

Pre-requisite(s): Permission of department.

Number of Times this Course May Be Repeated: May be taken 3 times and up to 3 credits.

MSE 4900 - Special Topics

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A special topic in manufacturing systems engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.

Pre-requisite(s): Permission of department.

Number of Times this Course May Be Repeated: May be repeated three times with a maximum of three credit hours.

MSE 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A special topic in manufacturing systems engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.

Pre-requisite(s): Permission of department.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of three credit hours.

Marketing

MKTG 3010 - Marketing Concepts and Practices

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk, Full Sem Online*

This course includes planning, implementation, and control of the marketing process; consumer behavior; marketing research; segmentation and target marketing; and consideration of price, place, and promotion.

MKTG 3100 - Consumer Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The application of psychological, sociological, and anthropological findings to the purchase and consumption of goods and services by ultimate and industrial consumers.

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment: MKTG 3010.

MKTG 3200 - Selling and Sales Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory, methods, and techniques of personal selling in professional settings including analysis of buyer behavior, the delivery of customer satisfaction, and integration of personal selling with other marketing communication tools. Sales management includes managing the sales force, salesperson selection, deployment, compensation, training, field supervision and industrial marketing management.

Pre-requisite(s): MKTG 3010.

MKTG 3450 - Promotion Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Strategic development of advertising, sales, sales management, public relations, and sales promotion programs.

Pre-requisite(s): BSAD 2899, MKTG 3010. Prerequisite or concurrent enrollment: MKTG 3100.

MKTG 3500 - Services and Sports Marketing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Marketing education has traditionally focused on the marketing of goods. However, services account for the majority of the economic activity in the United States and much of the developed world. In order to successfully develop and manage service products, marketers must understand the characteristics that differentiate them from conventionally manufactured goods. This course aims to systematically study these characteristics and the challenges they present to marketers in service organizations. The latter half of the course will focus on sports marketing as a special form of services marketing.

Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 3600 - International Marketing

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

In this course students will learn the problems and procedures of marketing in foreign countries, including effects of foreign cultures and marketing systems on the design of marketing programs.

Pre-requisite(s): BSAD 2899; MKTG 3010.

MKTG 3700 - Business Studies Abroad - International Marketing

Credits: (3)

Basic principles of international marketing. Fundamentals of international market research including macro and micro-level analysis. Discusses international marketing as part of a global strategy. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).

Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 4200 - Internet Marketing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is an elective course for Management Information Systems and Marketing majors. The course deals with the steps used in developing a marketing plan, orienting the plan to developing an Internet presence, and developing a World-Wide Web site to implement the on-line components of the plan.

Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 4400 - Marketing Strategy

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

This course centers on gaining and sustaining competitive advantages. It entails analyzing customers, competitors, and internal capabilities; then making appropriate product, pricing, promotion, and distribution decisions.

Pre-requisite(s): BSAD 2899; ACTG 2020; MGMT 3200 or PS 3250; MKTG 3010.

MKTG 4800 - Independent Research

Credits: (1-3)

Directed research and study on an individual basis.

Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated until a total of 4 hours credit is accumulated.

MKTG 4850 - Marketing Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore marketing theory and practice in countries other than the U.S. Students will study international marketing as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credits.

MKTG 4860 INT - Marketing Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Marketing courses.

Pre-requisite(s): BSAD 2899; Instructor approval.

Master of Professional Communication

MPC 5080G - Intercultural Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

MPC 5090G - Gender and Communication

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females in a wide range of communication contexts. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5100G - Small Group Facilitation and Leadership

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5220G - Editing

Credits: (3)

Typically Taught Fall Semester: *Online*

Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5400G - Public Relations Media and Campaigns

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Apply communication principles to internal and external publics;

research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public relations campaign for a selected client. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

MPC 5500G - Topics in Communication

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The study and application of communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

Number of Times this Course May Be Repeated: This course may be taken twice with different designations (topics).

MPC 5550G - Organizational Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of communication organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5650G - Communication Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

First Amendment origins, interpretations and philosophy underlying regulation of the mass media. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5820G - Persuasive Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, advertising, politics, and other contexts. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 5850G - Advertising

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

Pre-requisite(s): Permission of MPC program director.

MPC 6010 - Introduction to Graduate Study and Communication Theory

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

This course provides a survey of major theoretical perspectives in the field of communication with an emphasis on how theory can be applied in interpersonal, group, organizational and mass communication contexts. Students also learn about the logic of communication inquiry, the nature and expectations of graduate study, and techniques for conducting literature searches and writing literature reviews.

MPC 6100 - Team Building and Facilitation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Creating, facilitating and coaching effective work groups and teams is one of the hardest soft skills for organizational professionals to master. This course examines the impact that different structures and communication processes have on group and team collaboration effectiveness, as well as the central role competent communication plays in effective group and team facilitation. It investigates structural and process issues of team building, interpersonal and group communication, and effective problem solving and decision-making skills in collaborative environments. Students should have a greater understanding of their own collaborative teaming abilities upon completion. The purpose of this course is to teach-and have students experience-strategies and tactics for building, working effectively within, and facilitating collaborative teams in the work place.

MPC 6150 - Writing for Professional Communicators

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Good writing skills are critical to achieving a professional image. Individuals and organizations are judged by the quality of written documents they produce. In this course, students learn to plan and organize, to write clearly, concisely and correctly, and to develop polished final projects. Students undergo an intensive review of basic writing and editing principles and then apply them to specific writing projects. Genres of writing may include funding proposals, yearly reports, executive plans, organizational descriptions, Web sites, social networking messages, and marketing materials.

MPC 6210 - Presentational Speaking in the Workplace

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

The professional work environment benefits from the communication competency of its members. This course is designed to enhance the communication skills required by the professional communicator across a broad set of communication media: oral presentations, written texts, and digital interactions. Primary emphasis will be

placed on combining strategic thinking with powerful writing to produce a variety of effective messages aimed at different audiences. In addition, students will develop a broad-based understanding of how each of these modes of communications function both separately and interdependently to produce a coherent organizational message.

MPC 6250 - Interviewing

Credits: (3)

This course will explore various types of interviews conducted in work and personal situations: Recruiting, Performance Appraisals, Informational, Survey, Persuasion, Counseling, and Health Care. While core communication skills are important across types of interviews, interviewing strategies can differ greatly based on different contexts, specific situations, and personalities of interviewers and interviewees.

Note: This course is offered as needed.

MPC 6300 - New Media in Professional Communication

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

New media allow all individuals and organizations to effectively interact with their audiences on an ongoing basis. This course addresses how new and emerging media technologies such as social networks, social media, blogs, podcasts, video sites, search engine management tools, and even virtual worlds can be leveraged by communication professionals in order to further meaningful relationships with their internal and external audiences. This course will give students greater understanding of new media required to allow a rethinking of the overall communication process. As a result students will develop effective communication strategies specifically geared toward the needs of their organization or field of interest.

MPC 6350 - Visual Communication in the Workplace

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

Visual messages are a powerful way to inform, persuade and educate. Within the workplace, the ability to effectively communicate goals, ideas and client information through combinations of visual and textual elements is an invaluable skill. This course introduces students to philosophical and theoretical perspectives that enable effective visual presentation in the organization. It also exposes them to practical design principles, skills and tactics that generally guide effective screen and print design. Additionally, students will learn how to critically analyze visual communication materials and aids according to standards that reflect sensitivity to fairness, diversity, good ethics and effectiveness.

MPC 6400 - Leadership Communication

Credits: (3)

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Communication is the core of organizational leadership. This course is designed to explore both the theoretical and practical aspects of leader- and followership embedded in complex environments with an emphasis on recognizing and managing change. Leadership in organizations will be examined from a variety of perspectives including historical, ethical and critical. Key topics include leadership traits and skills, leadership roles and behaviors, power and influence, theories of leadership, leading change, ethical leadership, and developing leadership skills. The course includes experiential activities using cases, role plays, and action learning projects to develop relevant skills.

MPC 6450 - Advanced Organizational Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides a graduate-level overview and introduction to the discipline of organizational communication in a global world. Class readings and discussions will include topics such as organizational structure/process, rationality and decision-making, (sub)cultures and socialization, individual and collective identities, networks, leadership, teams, power/control, conflict, change, technologies, and ethics. Case studies from current events and guest speakers will be used to apply theoretical concepts to actual organizational life.

MPC 6500 - Topics in Professional Communication

Credits: (3)

Variable Title

The study and application of professional communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in a seminar format.

Pre-requisite(s): MPC 6010 or permission of MPC program director.

Number of Times this Course May Be Repeated: This course may be taken twice as elective credit with different titles and topics.

Note: This course is offered as needed.

MPC 6600 - Strategic Communication

Credits: (3)

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Effective strategic communication and planning is essential to any organization. This course helps students to understand and develop skills to create and manage internal and external messages for different situations, industries, and locations. Students prepare for effective strategic communication by asking and answering the right questions about the goals of the organization, its members, stakeholders and others who impact its operation, such as regulatory bodies. Effective strategic communication and its planning consist of the optimal use of people, budgets, tactical elements, and media in a chaotic, changing world.

MPC 6620 - Conflict Resolution and Mediation

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Communication is at the center of any negotiation or mediation process. It is in and through communication that resolution becomes possible. This class will explore the key interpersonal skills that are central to managing the processes of conflict resolution and mediation competently.

MPC 6700 - Research Methods for Professional Communication

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Communication must be measured in order to evaluate its effectiveness, to refine and improve results, and to demonstrate value to an organization. This course reviews methods available to professional communicators to measure and evaluate research regarding the performance of a particular communication medium or an integrated communication campaign. Students receive instruction on commonly used professional research methodologies such as focus groups, surveys, usability studies and test-and-control methods to learn how to run studies on a "shoestring budget." For projects

with research budgets, students learn what to look for when hiring a research firm and how to evaluate and implement the research findings.

Pre-requisite(s): MPC 6010 or permission of MPC program director.

MPC 6900 - Thesis/Project I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In this course students will begin their theses or projects under the direction and with the support of their faculty committees. They will write, present and have their thesis or project proposal approved.

Pre-requisite(s): MPC 6010 or permission of MPC program director.

Note: **Please note that students who, for any reason, do not finish their thesis or project or program of courses within the two-year framework suggested in this program, must pay continuing enrollment and tuition the semester they defend their thesis or project.*

MPC 6950 - Thesis/Project II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will allow students to complete their workplace project or traditional academic thesis. Students will prepare, present and defend their projects or theses during this semester for review and approval.

Pre-requisite(s): MPC 6010 or permission of MPC program director.

Number of Times this Course May Be Repeated: This course is repeatable for a total of two times for a total of nine credit hours of which only three will apply to degree completion.

Note: **Please note that students who, for any reason, do not finish their thesis or project within the two-year framework suggested in this program, must pay continuing enrollment and tuition the semester they defend their thesis or project.*

Master of Accounting

MACC 6120 - Financial Accounting & Reporting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, First or Second Block*

In-depth coverage of financial accounting and reporting topics from a theoretical and practical standpoint through a combination of reading assignments, classroom lecture/discussion sessions, assignments, cases, and student presentations. Topics include the FASB and the standard-setting process; SEC policy and practice; accounting for leases, post-employment benefits, deferred income taxes, and stock compensation plans.

MACC 6130 - Governmental and Nonprofit Accounting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of governmental and nonprofit accounting concepts including revenue and expense recognition; asset and liability valuation; and reporting, disclosure, and financial analysis. Includes in-depth discussion of the new GASB reporting model for governments and analysis of actual government financial statements produced using the new model.

MACC 6160 - Financial Statement Analysis

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Comprehensive study of the analysis and interpretation of financial statements by external decision makers and the impact of accounting conventions and alternative standards on analytical measures.

MACC 6210 - Business Law and Legal Liability

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MACC 6310 - Advanced Cost Accounting

Credits: (3)

Advanced cost accounting topics including cost accounting for non-manufacturing organizations, human information processing, activity resource usage, pricing, performance measurement, and non-routine decisions.

Note: This course is not currently offered.

MACC 6330 - Strategic Management Accounting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study and analysis of advanced managerial accounting subjects. Examines the impact of accounting information on managerial processes including planning, organizing, and controlling.

MACC 6560 - Advanced Auditing & Assurance Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Advanced topics of auditing and assurance services including professional and technical aspects of auditing practice, introduction to SEC, ethics and legal responsibilities, fraud, recent auditing developments, sampling techniques for decision making, internal control, and risk assessment.

MACC 6570 - Information Systems Auditing

Credits: (3)

Methods, techniques, controls, and procedures used in the audit of computerized accounting systems.

Note: This course is not currently offered.

MACC 6580 - Internal Auditing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Internal audit profession, internal control, risk assessment, evidence gathering, audit management, internal/external auditor relations, environmental auditing and federal sentencing guidelines, and audit reporting.

MACC 6610 - Advanced Accounting Information Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An advanced study of accounting information systems including general ledger, principles, tools, and techniques for controls, database

systems, management query, and data analysis tools and systems.
Course integrates projects and case studies where applicable.

MACC 6695 INT - Graduate Accounting Internship

Credits: (1-3)

Typically Taught: Various

A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses.

Pre-requisite(s): Admission to the MAcc or MTax program; approval by department chair and program director.

Number of Times this Course May Be Repeated: Can be repeated once up to 6 credit hours.

MACC 6700 - CPA Examination Review: FAR

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

This is a directed self-study course designed to help students prepare for the Financial Accounting and Reporting (FAR) section of the CPA examination. This is a review course and assumes that the student has already taken a number of financial accounting courses. A faculty member will monitor the student's progress and a grade will be determined by the student's performance on weekly quizzes and a final examination.

Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MACC 6750 - Study Abroad

Credits: (3)

Variable Title

This course integrates international travel and site visits with the study of accounting and international business practices. Through readings, assignments, discussions, and visits to important business and cultural sites, the course builds understanding and competence as it relates to the history of accounting, the global accounting profession, and the business and cultural environment in the host countries.

Pre-requisite(s): The student must be admitted to the MAcc or MTax program.

MACC 6801 - Individual Study

Credits: (1-3)

Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6802 - Individual Study

Credits: (1-3)

Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6803 - Individual Study

Credits: (1-3)

Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6991 - Lecture Seminar

Credits: (1-3)

Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6992 - Lecture Seminar

Credits: (1-3)

Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6993 - Lecture Seminar

Credits: (1-3)

Lecture and discussion of current accounting topics by individuals from business and industry.

MTAX 6700 - CPA Examination Review: FAR

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

This is a directed self-study course designed to help students prepare for the Financial Accounting and Reporting (FAR) section of the CPA examination. This is a review course and assumes that the student has already taken a number of financial accounting courses. A faculty member will monitor the student's progress and a grade will be determined by the student's performance on weekly quizzes and a final examination.

Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

Master of Arts in English

MENG 5010G - Introduction to Linguistics

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course introduces students to the scientific study of language. It explores what languages have in common, as well as what distinguishes them. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be expanded and applied to other areas, such as language acquisition, language history, language and culture, language and thought, and language and literary expression. This course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5020G - Introduction to the Study of Language for Teachers

Credits: (3)

This course is designed for English teaching majors and minors. It introduces students to the nature of language and linguistics and reviews the elements of traditional grammar. This course surveys prescribed applications for prospective secondary school English teachers, including language variation, contemporary alternatives to traditional grammar, the history of English, and linguistics and composition. This course is designed for students who have no upper-division undergraduate coursework in linguistics.

MENG 5050G - Grammar, Style, and Usage for Advanced Writing

Credits: (3)

This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage to become more proficient writers. Its offers practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5080G - Critical Approaches to Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

MENG 5510G - World Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from a variety of eras and of authors and regions outside the United States and Great Britain. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same period was applied toward an undergraduate degree.

MENG 5520G - American Literature: Early and Romantic

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the late eighteenth century to the decades just before the Civil War. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same period was applied toward an undergraduate degree.

MENG 5530G - American Literature: Realism and Naturalism

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the Civil War through World War I. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5540G - American Literature: Modern

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the first half of the twentieth century. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards an undergraduate degree.

MENG 5550G - American Literature: Contemporary

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the 1950s to the present. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5570G - American Literature I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

MENG 5580G - American Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5610G - British Literature: Medieval

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the eighth century to the end of the fifteenth century. Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5620G - British Literature: Renaissance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the beginning of the sixteenth century to the middle of the seventeenth. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5630G - British Literature: Neoclassical and Romantic

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the late seventeenth century to the early nineteenth century. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5640G - British Literature: Victorian

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from 1830 until roughly World War I. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5650G - British Literature: Modern

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the first half of the twentieth century. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5660G - British Literature: Contemporary

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read British and Anglo-Irish literature since 1950. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5670G - British Literature I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

MENG 5680G - British Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5730G - Literature of Cultures and Places

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts focusing on a single national culture or works from various cultures. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5750G - Classical Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students in this course read texts from the Golden Age of Greece to

the fall of the Roman Empire. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5840G - Methods and Practice in Tutoring Writers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Faculty supervised experience in tutoring student writers in all disciplines. This course is limited to teaching assistants in the MENG program.

MENG 5850G - Principles & Practicum in Tutoring Writing

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides writing center tutors with the theoretical knowledge of the writing process critical to effective tutoring. In addition, the course provides students with an understanding of various approaches to and methods of tutoring. The course is effectively divided into three parts: tutoring and writing theory, College Reading and Learning Association certification, and practicum.

MENG 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript. **Number of Times this Course May Be Repeated:** May be repeated 5 times with a maximum of 6 credit hours.

MENG 6005 - Intercultural Classroom Discourse

Credits: (3)

Students will read, discuss and experience interactive learning tools from the fields of sociolinguistics, intercultural communication, and TESOL pedagogy. Students will analyze dialects and personal/social conversational styles. Examples from literature and film will help provide a contextualized means of observing and understanding cultural identities.

MENG 6010 - Introduction to Graduate Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students will learn research methods and methodologies that will allow them to produce publishable, sophisticated pieces of academic prose of the kind expected of professional academics. Students will compose abstracts, conference paper proposals, annotated bibliographies, and surveys of scholarship. Students will explore academic databases extensively and learn to evaluate rigorously other scholars' work. Students will be encouraged to submit their work in the class to journals, conferences, or collections of essays. Students should take this course within their first year of study and focus their research on topics that may support future work on a thesis or project. Required in first or second semester.

MENG 6030 - Studies in Literary Theory and Criticism

Credits: (3)

Variable Title

Students will study influential works in literary theory--potentially ranging from Plato's REPUBLIC to Gayatri Spivak's groundbreaking feminist studies to Stephen Greenblatt's New Historicist studies to Homi Bhabha's postcolonial analyses--paying specific attention to the influence of these theories on English studies.

Number of Times this Course May Be Repeated: May be repeated 10 times for credit hours with different content.

MENG 6110 - Writing for Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of writing and applies it to issues in the secondary classroom. Permission of instructor required to register.

MENG 6120 - Teaching Traditional and Contemporary Young Adult Literature

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course provides a broad, practical background in young adult literature, both traditional and contemporary, with emphasis on current theories and methods in literature pedagogy. Selection and evaluation of texts that appeal to young adults, reading strategies, censorship, themes and genres will be given special attention.

Pre-requisite(s): MED 6050 Curriculum Design, Evaluation, Assessment (3) must be taken prior to MENG 5210G/6120. We strongly recommend that MENG 6110 Writing for Teachers (3) or MENG 6230 Wasatch Range Writing Project Summer Institutes (3) be taken prior to MENG 5210G/6120.

Co-Requirement(s): MENG 5210G [Inactive] and MENG 6120 must be taken concurrently.

Note: Permission of instructor required to register.

MENG 6130 - Theories of Rhetoric and Writing Studies

Credits: (3)

This course is an intensive study of rhetoric and writing theory. Selected works of major composition and rhetorical theorists will be examined and historicized within a survey of the teaching of academic writing from antiquity to the present.

MENG 6140 - Foundations of Professional and Technical Writing

Credits: (3)

This course will study the theoretical foundations and scholarly practices of professional and technical writing and communication. The course will examine the major ideas of those who practice professional and technical writing and the main values and practices of the field.

MENG 6210 - Teaching Literature in the Secondary Schools

Credits: (3)

Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of literature and applies it to issues in the secondary classroom.

MENG 6230 - Wasatch Range Writing Project Summer Institute

Credits: (1-6)

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

This course is designed to follow the National Writing Project model. The four-week Invitational Institute is for inservice teachers nominated by their school district or their peers. It is designed to develop leadership skills in those teachers to enable them to impact the quality of writing instruction in their individual schools and district. It is also designed to develop teacher leadership for the Wasatch Range Writing Project. The One Week Open Institute is open to any inservice teacher wishing to improve writing instruction in his/her classroom.

Number of Times this Course May Be Repeated: Can be repeated once up to eight (8) credit hours total.

Note: Permission of instructor required to register.

MENG 6231 - Wasatch Range Writing Project Advanced Institute

Credits: (1-6)

Variable Title

This is a variable topics variable title course designed for Wasatch Range Writing Project Teacher Consultants, teachers who have taken the WRWP Summer Institute and work with WRWP providing professional development to local school districts. It allows those teachers to increase their effectiveness as teachers, add to their expertise for work with inservice teachers and research possible solutions to literacy issues facing elementary and secondary education in our region. Course titles may include: Developing Utah State Core Standards Workshops, Digital Writing, Developing Argument Writing Across the disciplines. Only six hours can be used for meeting elective requirements in the MENG program.

Pre-requisite(s): Six hours credit in MENG 6230.

Number of Times this Course May Be Repeated: May be repeated 6 times and up to 18 credit hours.

MENG 6240 - Seminar in American Literature

Credits: (3)

Variable Title

This seminar explores major texts of one particular American era. The course focuses on literature which articulates the selected period.

Number of Times this Course May Be Repeated: This variable emphasis course may be repeated 10 times for credit with different content.

MENG 6250 - Seminar in British Literature

Credits: (3)

Variable Title

This seminar explores major texts of one particular British era. This course focuses on the literature which articulates the selected period. This variable emphasis course may be repeated 3 times up to 6 credit hours with different subject matter.

Number of Times this Course May Be Repeated: This course may be repeated four times for a maximum of 12 credit hours.

MENG 6260 - Seminar in World Literature

Credits: (3)

Variable Title

This seminar explores literature other than American or British. The course focuses on the literature which articulates the selected time and place.

Number of Times this Course May Be Repeated: This variable

emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6280 - TESOL Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Bl*

TESOL practicum provides guided and supported experience in one or more of the following: tutorial, small group teaching, whole class lesson planning. Candidates will practice a variety of instructional modes for speaking, reading and writing.

Note: Instructor permission is required for registration.

MENG 6310 - Language and Linguistics for Teachers

Credits: (3)

Designed primarily for in-service teachers, this course explores recent research in linguistics and applies it to issues in the secondary classroom.

MENG 6320 - World Languages

Credits: (3)

This course broadens students' awareness of diversity among the world's languages, thereby fostering understanding and appreciation of the nature of human language in general. Issues may include language obsolescence and maintenance, writing systems of the world, prosody and poetic forms in other languages, language history, and language families. Some prior experience in linguistics or language structures will be helpful as students study profiles of selected languages representing major language families of the world and various geographical areas.

MENG 6330 - Literary and Rhetorical Stylistics

Credits: (3)

This course surveys the literature on style in linguistics, literature, and rhetoric. Some prior background in grammar will be useful as students engage in quantitative and qualitative stylistic analysis of texts from a literary period, genre, or particular author and learn how diction, syntax, and figurative language can be deployed to communicative and artistic ends.

MENG 6400 - Multicultural Perspectives on Literature for Young People

Credits: (3)

This course examines the theories of literature and multicultural education for young people K-12, as well as the use of multicultural literature in and out of the classroom. Students will apply the latest critical and pedagogical theories to extensive readings in Young Adult literature. This course is especially suited to in-service teachers, librarians and others who work with young people.

MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

This course emphasizes practical strategies and methods of teaching English as a Second Language in elementary and secondary schools.

MENG 6420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides the foundation for ESL/Bilingual teachers in the workings of the English language: its pronunciation and spelling systems, its word-forming strategies, and its sentence structure patterns.

MENG 6450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)

This course explores how to evaluate and implement assessment processes effectively for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized test and authentic assessment.

MENG 6510 - Seminar in Eminent Writers:

Credits: (2-3)

Variable Title

This seminar examines significant works of and relevant criticism on an influential writer or a small group of writers.

Number of Times this Course May Be Repeated: This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6520 - Seminar in Shakespeare

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

This seminar examines a range of Shakespeare's major works as well as relevant criticism.

MENG 6610 - Advanced Studies in Genre

Credits: (2-3)

Variable Title

Students will analyze primary and secondary texts about one genre or sub-genre to develop a definition and understanding of the form.

Number of Times this Course May Be Repeated: This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6710 - Variable Topics

Credits: (2-3)

Variable Title

Topics will vary based on student interest and instructor expertise.

Number of Times this Course May Be Repeated: This course may be repeated 10 times for credit with different subject matter.

MENG 6730 - Creative Writing Forms and Crafts

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

This course will investigate the relationship of form and function in creative work and explore how the underlying structure affects the impact of the work. This course will examine a variety of work to examine the effect of formal choices on readers' response. The course will then put these strategies and insights to work by drafting, workshopping, and revising students' own original writing.

Number of Times this Course May Be Repeated: May be repeated 2 times and up to 9 credit hours.

MENG 6740 - Creative Nonfiction Writing

Credits: (3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

In this course, students will study the art and craft of writing creative nonfiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

Number of Times this Course May Be Repeated: May be repeated 2 times and up to 9 credit hours.

MENG 6750 - Fiction Writing

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

In this course, students will study the art and craft of writing fiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

Number of Times this Course May Be Repeated: May be repeated 2 times and up to 9 credit hours.

MENG 6760 - Poetry Writing

Credits: (3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

In this course, students will study the art and craft of writing poetry. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

Number of Times this Course May Be Repeated: May be repeated 2 times and up to 9 credit hours.

MENG 6821 - Teaching Developmental Reading and Writing

Credits: (2)

This course introduces first-time teachers to the theory and practice of teaching developmental reading and writing.

Note: Permission of instructor required to register.

MENG 6822 - Teaching College Writing

Credits: (2)

This course introduces first-time teachers to the theory and practice of teaching college writing.

Note: Permission of instructor required to register.

MENG 6823 - Teaching Practicum

Credits: (1)

This course supports teachers in their second semester of teaching college writing. Students will meet regularly to develop teaching strategies, enhance grading skills, resolve problems that have arisen in their classes, and plan strategies and procedures for classes they are teaching.

Note: Permission of instructor required to register.

MENG 6830 - Directed Readings

Credits: (1-3)

This course allows students credit for individual study with a professor, usually for further study that grows out of course work. The student and professor agree to a written contract for study which must be approved by the program director. No more than 3 credit hours of directed readings may apply toward the MA degree unless approved by the program director. This course is designed to allow students to explore in depth and/or breadth, subject matter which goes beyond the established courses in the Master's Degree Program.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

MENG 6861 - Practicum in Secondary English Education

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course provides a broad, practical background in teaching young adult (YA) literature for MENG students seeking secondary school licensure. Selection, evaluation, curriculum planning, and assessment in teaching literature will receive primary emphasis. Issues concerning community values and censorship will also receive our attention.

Pre-requisite(s): MED 6050 Curriculum Design, Evaluation, Assessment (3) must be taken prior to MED 6120/6861. We strongly recommend that MENG 6110 Writing for Teachers (3) or MENG 6230 Wasatch Range Writing Project Summer Institutes (3) be taken prior to MENG 6120/6861. MENG 6120 and MENG 6861 must be taken concurrently.

MENG 6920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

MENG 6940 - Masters Project

Credits: (2-6)

This course provides for the creation and execution of a project growing out of graduate study particularly as it applies to the workplace. Project credit may be taken in increments of 1-3 hours in any term.

Number of Times this Course May Be Repeated: May be repeated twice up to 6 credits.

MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The course is designed as a rigorous academic and professional mentorship for students who intend to produce a MA thesis in creative writing. The thesis will include a manuscript of original writing with a critical foreword, both of which require extensive research and substantial writing on the thesis topic. The manuscript can be a creative response to literary works or original creative poetry, fiction, and/or nonfiction. The critical introduction will situate the creative component within the literary, historical, and/or theoretical context(s) of the creative component. Minimum of 3 hours required, with a possible maximum of 6 hours with approval. Credit/No Credit grading.

Pre-requisite(s): MENG 6730 - Creative Writing Forms and Crafts (3), must complete at least two workshops (6 Credits), MENG 6740 - Creative Nonfiction Writing (3)*, MENG 6750 - Fiction Writing (3)*, MENG 6760 - Poetry Writing (3)*. *Repeated with different titles.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of six credit hours.

MENG 6960 - Thesis

Credits: (1-6)

Thesis credit may be taken in increments of 1-3 hours in any term.

The thesis is a capstone writing course for the Master's Degree Program.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

MENG 6990 - Extension of Thesis/Project

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course allows students to continue to work on their thesis/project. The course is graded credit/no credit.

Number of Times this Course May Be Repeated: May be repeated up to two times for a maximum of two credit hours.

Master of Business Administration

MBA 6010 - Legal and Regulatory Environment of Business

Credits: (3)

Typically Taught Spring Semester: *2nd Blk*

This course is an introduction to business law, emphasizing basic legal principles and the broad application of domestic and international public and private law. Its overriding objective is to provide a working understanding of the legal environment of business for MBA students. Its focus is on regulatory law, business organizations, and other legal topics of special importance to managers of businesses.

Note: Course offerings are subject to change.

MBA 6020 - Financial and Managerial Accounting

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

A general study of the use of accounting information by internal and external decision makers with emphasis on the use of accounting information by managers of an entity. Topics covered include the accounting cycle, the basic financial statements, inventories, long-term liabilities, cost concepts and behaviors, cost-volume-profit analysis, and financial statement analysis.

Note: Course offerings are subject to change.

MBA 6040 - Managerial Economics

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

This course develops the basic concepts and analytical tools of economics which include opportunity cost, marginal analysis, constraints, and optimizing behavior. Applications include theories of the firm, its organizational architecture, transactions costs, markets, pricing, and other managerial issues.

Note: Course offerings are subject to change.

MBA 6050 - Quantitative Methods I

Credits: (3)

Typically Taught Fall Semester: *1st Blk-Online*

This class will give students the opportunity to learn how to write, read, and analyze statistical data as it pertains to business and society. The basic premise of this course is to provide the student with an understanding of statistics as it is used in business and economics. This course will give special emphasis to understanding, interpreting

and communicating statistics. Topics covered include descriptive statistics, probability, probability distributions, sampling distributions and hypothesis testing.

Pre-requisite(s): Additional course work in College Algebra may be required prior to course registration as per department advisement and student's program of study requirements.

Note: Course offerings subject to change.

MBA 6051 - Quantitative Methods II

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

This course will build on the first foundation course on descriptive statistics by emphasizing inferential statistics. This course will be application oriented and will focus on hypothesis testing and regression analysis. Students will learn how to design a survey and evaluate the data in order to test theories learned in other MBA classes. Students will also learn basic concepts and methods of optimization using elementary concepts in differential calculus. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6050, or equivalent course in statistics.

Note: Course offerings are subject to change.

MBA 6110 - Tools for the Ethical Manager

Credits: (3)

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *2nd Blk*

This course is designed to be taken at the beginning of formal course work in the MBA program. Students will explore various aspects of moral reasoning and apply these concepts to common ethical issues faced in business. Students will work individually and in groups to explore issues of personal values, self-awareness, teamwork, communication, managing differences, and career management. Students in this course will be introduced to analytical, communication, and technological tools used throughout the program.

Note: Course offerings are subject to change.

MBA 6120 - Organizational Behavior

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

This is a course for graduate students who have already been exposed to the principles of management and organizational behavior and who are now seeking a more advanced preparation for the behavioral role of the manager. It offers a critical review of the factors that influence behavior within the organizational setting. Behavioral concepts are emphasized which particularly relate to group dynamics, interpersonal relations, and ultimately, organizational effectiveness. In short, this course deals with the human aspects of management--the kinds of problems most frequently experienced in day-to-day interaction with others. The format will include discussions, group and individual exercises, case studies, and student reports.

Note: Course offerings are subject to change.

MBA 6130 - Financial Management

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Financial Management is a detailed presentation of the practices, techniques, and applications of theory in corporate finance. The focus is an understanding of how companies operate and acquire the tools necessary to analyze and evaluate corporate financial policies. Cases and applied research in the form of outside readings will assist

students to focus on key issues. The purpose of the course is to assist current and prospective managers in making better investment and financing decisions. The course addresses (1) the investment decision (capital budgeting) as well as (2) the financing decision. Class discussion and cases will focus on capital budgeting and specifically on the establishment of goals, development of strategy, identification of investment opportunities, evaluation of projects, implementation of projects, and the monitoring processes. Shareholder wealth maximization is the standard for determining why one decision is "better" than another. The ethical considerations of wealth maximization will also be addressed. Additional foundation course work in accounting and statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6020, MBA 6050 & MBA 6051, or equivalent courses in accounting and statistics.

Note: Course offerings are subject to change.

MBA 6140 - Marketing Management

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

This course centers on creating customer value profitability in competitive markets. In an integrative fashion, it covers analyzing customer needs and preferences; estimating market potential; assessing market opportunities and threats in view of the focal company's and its competitors' resources and capabilities; developing market and marketing strategies; making astute product, pricing, distribution, and promotion decisions; and measuring marketing performance.

Pedagogical vehicles include lectures, reading assignments, and case-based discussions and reports.

Note: Course offerings are subject to change.

MBA 6150 - Operations/Supply Chain Management

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

"Manufacturing of the future will be required to meet customer-driven demand instantaneously." The future is now! The requirements for faster response, more customer input, and greater product variety have not diminished, but instead have escalated. This course builds upon basic production and operations management knowledge to meet the needs of customers generated in today's global market. It is designed to enhance the student's understanding of how to analyze problems related to design, planning, control, and improvement of manufacturing and service operations. Topics include, but are not limited to, supply chain management, materials management, production planning and control, scheduling, capacity and facilities planning, manufacturing strategy, and global operations. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6050 & MBA 6051, or equivalent courses in statistics.

Note: Course offerings are subject to change.

MBA 6160 - Applications of Decision Models

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

This course presents a rigorous treatment of quantitative decision-making with emphasis on data collection, analysis, and model building. This course emphasizes experience in structuring realistic business problems, collecting data, developing an appropriate model

for analysis, and interpreting and defending results. A number of cases are employed. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6050 & MBA 6051, or equivalent courses in statistics.

Note: Course offerings are subject to change.

MBA 6170 - Corporate Communications

Credits: (3)

The focus of this course is to develop an integrated corporate communications program in organizations which will provide effective communication both to internal and external stakeholders. Among the topics to be discussed are corporate image and identity, corporate advertising and advocacy, media relations, marketing, communication, financial communication, community relations, corporate philanthropy, government affairs and crisis communication. Attention will also be given to effective communication internally through various methods, such as meetings, programs and publications.

Note: This course is not currently offered.

MBA 6180 - Strategic Management

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk*

This course takes a broad view of the entire organization. In some instances, the organization will have one line of business. In other cases, the organization may be a large diversified corporation with many lines of business. We will examine the strategic issues facing diversified corporations including: vertical integration, diversification into related and unrelated businesses, and operating synergies.

Pre-requisite(s): MBA 6130, MBA 6140, MBA 6150.

Note: Course offerings are subject to change.

MBA 6210 - Management Accounting and Control

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*

This course is designed to introduce the student to the concepts and procedures of managerial accounting through readings and case studies. The course emphasizes the use of accounting data in the decision-making process by internal decision-makers (e.g., management), rather than external decision-makers (e.g., stockholders, investors, creditors, and regulatory bodies). The course topics include cost terms and concepts, job-order costing, activity-based costing, quality management, cost behavior, cost-volume-profit analysis, profit planning, relevant costs, capital budgeting, cost allocation, and pricing. Additional foundation course work in accounting may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6020, or equivalent courses in accounting.

Note: Course offerings are subject to change.

MBA 6310 - Information Technology in the Enterprise

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk*

Information technology from an enterprise perspective with an orientation toward the management of technology for competitive/strategic advantage. Managers will be increasingly responsible for

making decisions with respect to implementing new technology. This course will provide the background knowledge to enable managers in traditional business units to function as full participants in decisions involving the purchase and application of technology to create a business advantage.

Note: Course offerings are subject to change.

MBA 6360 - Aerospace Program Management

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Within the context of the aerospace industry, students will be taught how to manage change across multiple projects using program management techniques. In organizations in which multiple strategic initiatives as well as continuous improvement projects are ongoing, understanding how to successfully plan and execute is vital.

Note: Course offerings are subject to change.

MBA 6370 - CPI & Strategy in Aerospace Management

Credits: (3)

Typically Taught Spring Semester: *2nd Blk*

This management course is designed to teach aerospace business managers how to use the tools in Continuous Process Improvement (CPI) to attain and maintain operational excellence. The course includes relevant CPI tools such as Lean, Six Sigma, Theory of Constraints and Benchmarking. The course will also show managers how to conduct a strategic planning session with senior leadership and strategically align their organizations to maximize the use of CPI tools.

Pre-requisite(s): Admission to the MBA Program or approval to seek the stand-alone Graduate Certificate in Aerospace Management. This course is an elective for all MBA students, but is a required course for students seeking the Graduate Certificate in Aerospace Management. Students must complete prerequisites of MBA 6050, 6051 and MBA 6150 prior to registering for this course.
Note: Course offerings are subject to change.

MBA 6410 - Global Macroeconomic Conditions

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

This course will focus on the impact of global macroeconomic conditions on firm decision-making. To review and analyze current macroeconomic topics, a theoretical framework is developed, from the start showing the linkages among national economies. This framework is used to analyze and forecast business cycles, interest rates, exchange rates, causes of trade deficits, short- and long-term consequences of fiscal and monetary policy decisions, and the globalization of financial markets. Examples from different countries are used to enhance knowledge of the world economy. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6040, or equivalent course in economics.
Note: Course offerings are subject to change.

MBA 6420 - The Economics of Industry

Credits: (3)

This course will focus on the behavior of the individual firm in different market settings, competitive and imperfectly competitive. We are concerned with the strategic behavior of firms under different industry structures as they struggle with the pressures of competition. Students will study how differing levels of the firm's market power impacts pricing and output policies, product differentiation, and barriers to entry. In addition, the student will learn the basics of game

theory and use it to analyze the strategic behavior of firms. Topics will include different types of pricing strategies including price discrimination, pricing of product lines, predatory pricing, peak load pricing, and entry deterrence. Issues of non-price competition such as research and development, information, externalities, moral hazard, and firm structure will also be discussed. The course includes both supplemental readings designed to illustrate real-world applications of the theoretical principles developed as well as in-class experiments in strategic behavior designed to illustrate certain theoretical conclusions. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6040, or equivalent course in economics.

Note: This course is not currently offered.

MBA 6430 - International Marketing

Credits: (3)

Typically Taught Spring Semester: *1st Blk*

The course provides foundational knowledge and practical application of international marketing principles and practices so as to prepare participants for entry-level marketing positions in the global context.

Note: Course offerings are subject to change.

MBA 6440 - Strategic Leadership

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

This course will expose students to the strategic nature of leadership. Students will evaluate and discuss key principles and frameworks of leadership through the case method. Students will study leadership styles, situational leadership, personal leadership, and power & influence, as they relate to strategy.

Note: Course offerings are subject to change.

MBA 6450 - Leadership Through People Skills

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

This course will provide a highly applied introduction to the interpersonal dynamics of leading and motivating others. Emphasis will be placed on the development and acquisition of key behaviors, skills, techniques and mental models for influencing others through sound people skills. By means of hands-on application, role-playing and "learning-by-doing" activities, students will learn to listen for understanding and insight; gain commitment rather than compliance; manage conflict; adapt their style to different people; apply influence skills in all directions; and develop insights into their impact on others.

Note: Course offerings are subject to change.

MBA 6510 - Investment Analysis and Portfolio Management

Credits: (3)

This course engages class participants in a detailed study of the practices, techniques, policies and applications of theory in investments. Emphasis will be on an understanding of security markets, analysis, asset allocation, portfolio management and evaluation. Students will examine and apply investment tools and evaluate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues and current topics. Course work in finance may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6130.

Note: This course is not currently offered.

MBA 6520 - International Business Field Studies

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

This course integrates international travel and site visits with the study of international business topics. Through readings, assignments, discussions, and visits to important business and cultural sites in the destination countries, the course builds understanding and competence in international business practices and managing across cultures. This course entails travel expenses beyond regular tuition and may be repeated when offered to a different world region.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 9 credit hours.

Note: Course offerings are subject to change.

MBA 6530 - E-Business

Credits: (3)

Typically Taught Spring Semester: *2nd Blk*

The Internet has become an important influence in the world. Business on the internet, in terms of operations, marketing, security, etc., has increased concomitantly in influence. This course will provide a foundation for understanding the possibilities and potential pitfalls for doing e-business.

Note: Course offerings are subject to change.

MBA 6540 - Negotiations

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

The purpose of this course is to provide opportunities for class participants to develop their negotiating abilities for use in organizational and other settings. The course is premised on the assumption that negotiating concepts are best learned through practice which is grounded in rigorous analysis and reflection. While theoretical principles and concepts from various reference disciplines (such as social psychology, sociology, and economics) will be presented through lectures and readings, this course will focus primarily on improving practical skills. Class participants will not only learn to enhance their individual abilities in dyadic and group situations, but also to analyze contexts for the most effective application of these skills.

Note: Course offerings are subject to change.

MBA 6550 - Managing and Improving Quality

Credits: (3)

This course examines how organizations can gain competitive advantage by improving the quality and productivity of their business processes, manufactured goods and service outputs. Customer-focused approaches for designing, controlling and improving processes are emphasized, together with other concepts and approaches of quality management. Specific topics include process analysis, problem-solving methods, variability and statistical process control, performance measurement, and quality management systems. Guest lectures from industry professionals, experiential learning exercises and cases from manufacturing and service industries will assist students in understanding key issues and current topics.

Pre-requisite(s): MBA 6050 & MBA 6051, or equivalent courses in statistics.

Note: Courses offered as needed.

MBA 6560 - Business/Market Planning Using Online Resources

Credits: (3)

In this hands-on project-oriented course, students learn to (1) develop and write effective business/marketing plans and (2) use online

resources to gather pertinent market, competitor, and environmental information. Students may develop a business/marketing plan for an existing business or for a potential start-up of interest to them. Alternatively, they may write a business/marketing plan and conduct requisite research and data analyses for a business suggested by the course instructor. Learning is facilitated primarily via practical discovery exercises, an extensive term project, and coaching. Although lectures and reading assignments serve to convey essential background knowledge, especially during the first half of the course, much class time is devoted to working on plans in teams under the instructor's guidance.

Note: This course is not currently offered.

MBA 6580 - Project Management

Credits: (3)

Typically Taught Spring Semester: *1st Blk*

This course is a study of topics involved with managing projects. It examines the roles and skills of the project manager and the project office. Students will study the phases of the project life cycle, specifically the activities, requirements, methodologies, and tools common in project management.

Note: Course offerings are subject to change.

MBA 6590 - Strategic Business Tax Planning

Credits: (3)

This course examines tax strategy and planning topics related to making important business decisions. The course addresses business formations, operations, terminations, reorganizations, acquisitions, and divisions. The course also covers tax issues related to multi-state and multi-national business transactions. Unique issues related to executive compensation, partnerships, limited liability companies, S corporations and C corporations are also addressed.

Pre-requisite(s): MBA 6010 or equivalent course in business law; MBA 6020 or equivalent courses in accounting.

Note: This course is not currently offered.

MBA 6630 - Networking & Information Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers the role of networking technology in information systems. Through hands-on and conceptual knowledge, students will learn how data communications and networks are used to facilitate decentralized and distributed systems in support of decision making. Various aspects of networking including standards, media, network design and applications will be covered. Students will gain hands-on familiarity with a local area network and the Internet.

Pre-requisite(s): Admittance to MACC, MBA or MHA program.

Note: Course offerings are subject to change.

MBA 6640 - Information Assurance in the Enterprise

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers the basic principles and concepts in information assurance. It examines the managerial, operational, and organizational issues of securing information systems. Topics include legal and ethical issues in computer security; privacy concerns; malware; security awareness at the executive, technical and user levels; physical security, personnel security issues; policies and procedures; the need for enterprise security awareness; and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.

Pre-requisite(s): Admittance to MACC, MBA or MHA program.
Note: Course offerings are subject to change.

MBA 6680 - Graduate Consulting Project

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Graduate students are given the opportunity to consult with an existing organization, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.

Pre-requisite(s): Instructor approval.

Note: Course offerings are subject to change.

MBA 6700 - Managing for Sustainability

Credits: (3)

This course explores how business organizations can address environmental issues to meet societal needs and create competitive advantages. Emphasis is placed on understanding the impacts of businesses on the natural environment; identifying the opportunities for businesses to align their strategies and practices toward more sustainable business models; and using various methods and tools for measuring and improving the environmental performance of individual business organizations and the business system as a whole. Major topics include frameworks for understanding business and environmental sustainability; innovation, design and assessment of green products/services; green marketing issues; green purchasing; environmental management systems; operations and supply chain management issues for environmental sustainability.

Pre-requisite(s): Admission to MBA program; or graduate standing with permission of the MBA program.

Note: This course is not currently offered.

MBA 6710 - Accounting and Finance for Environmental Sustainability

Credits: (3)

This course will expose MBA students to contemporary accounting and finance thought on environmental sustainability. The course will be divided into accounting and finance modules. The focus of the accounting module will include measurement and reporting of the environmental sustainability of business practices. The focus of the finance module will include capital budgeting for sustainability, financial assessment of sustainable business practices, and investing in environmental sustainability.

Note: This course is not currently offered.

MBA 6715 - Sustainability Tools and Methods

Credits: (3)

This hybrid 8-week course consists of weekly modules, each of which addresses key aspects of sustainability-related business practices. Weekly topics are designed to explore in more depth specific sustainability-related tools and methods as they relate and add value to various aspects of business operations, including finance, accounting, supply chain management, information technology, stakeholder relations, and strategic planning. Secondly, students will gain an overview of the tools, techniques and bodies of knowledge through which they may pursue sustainability-related projects or entrepreneurship within their organizations. The course will utilize sustainability practitioners and subject-matter experts from a variety of organizational backgrounds.

Pre-requisite(s): MBA 6700; Admission to the MBA Program or Graduate Certificate in Sustainability in Business.

Note: This course is not currently offered.

MBA 6720 - Business, Economics, and the Environment

Credits: (3)

Environmental economics considers the efficient and equitable use of society's scarce environmental resources. Environmental resources include air, water, land, wildlife, biodiversity, and ecological systems. The allocation of environmental resources will be considered from different perspectives: (1) market allocations; (2) efficient allocations; (3) equitable allocations; and (4) government attempts to allocate these resources efficiently. Topics of the course include property rights, market failures, benefit-cost analysis, welfare economics, non-market valuation, environmental regulation, and sustainable development and business practices. Emphasis will be placed on the impacts on the firm resulting from environmental problems and regulations; and on sustainable business practices.

Pre-requisite(s): MBA 6040, MBA 6051 or equivalent.

Note: This course is not currently offered.

MBA 6730 - Consulting Project in Sustainability

Credits: (3)

Graduate students are given the opportunity to consult with an existing organization, evaluate sustainable business practices, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.

Pre-requisite(s): Instructor approval and MBA 6700, MBA 6710, and MBA 6720.

Note: This course is not currently offered.

MBA 6740 - Principles of Contract Management

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Students will gain an overview of the fundamentals of contract management from the development of acquisition requirements, solicitation/proposal, negotiation, contract formation, contract performance, and contract closeout. Learn the basics of what it takes to solicit, procure, negotiate and administer contracts and subcontracts while gaining a broad understanding of business principles to establish long-term relationships with customers, suppliers and other stakeholders. Explore an insider's view of the roles and responsibilities of contract administrators and the various interfaces with program management and other internal disciplines. Learn how to identify the basic differences between contract types and how they are selected to mitigate risk in a contractual environment, as well as exploring the key distinctions between commercial, government and international contracting processes.

Note: Course offerings are subject to change.

MBA 6750 - Financial Aspects of Contract Management

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Within the context of contract management, students will learn how to structure cash flow through financial methods that include invoice timing, pricing, overhead considerations, advance payments, letters of credit and other financial sources. Gain a comprehensive knowledge of accounting systems, budgeting, reporting, auditing and settlements. Enhance the profitability of your business through prudent contracting financial practices.

Note: Course offerings are subject to change.

MBA 6760 - Legal Aspects of Contract Management

Credits: (3)

Typically Taught Fall Semester: *2nd Blk*

Within the context of contract management, students will gain a working knowledge of stakeholder requirements, applicable common law, Federal Acquisition Regulations (FAR), Uniform Commercial Code (UCC) and other local, state and federal regulations and law that must be adhered to throughout the contract management process. Students will learn the legal aspects of contract management with an emphasis on real world, day-to-day application. Students will explore all phases of managing an approved contract successfully through completion of performance including change management, communications, negotiations, contract types, terms and conditions, risks, defaults, terminations, claims and much more. Students will participate in projects and discussions to rapidly enhance knowledge and proficiency in contract management in order to apply classroom concepts in the workplace.

Note: Course offerings are subject to change.

MBA 6800 - Directed Study

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed individual study and research on special topics related to business.

Pre-requisite(s): Written approval of MBA program and instructor.

Number of Times this Course May Be Repeated: May be repeated for a cumulative total of three credits.

Note: Course offerings are subject to change.

MBA 6810 - Data Analytics for Managers

Credits: (3)

Experimental Course, Contact Department for More Information

This course will provide students with a solid foundation for understanding several data analysis tools through learning experiences in real business situations. This course will help students develop skills with several of the market leading data analytic tools.

MBA 6810 - Highly Successful Business Executives Understand How to Sell

Credits: (3)

Experimental Course, Contact Department for More Information

Within the context of business, MBA students will be taught selling principles and practices that are relevant for executives to achieve success. Topics include world-class selling fundamentals and practices; sales strategy; marketing strategy; routes to markets and channels; building a sales organization and managing performance of the sales team.

MBA 6850 - Entrepreneurship

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Students will learn how to effectively come up with an idea, iterate around that idea, and validate customers around their final direction so that they can learn how to successfully launch an idea into a business with low risk, low capital, and higher degrees for success. In addition, if a student is interested in learning how to be a better "intrapreneur" this course will help them use some of these same skills in a corporate or employee environment. Being innovative and

creative is always valuable.

Note: Course offerings are subject to change.

MBA 6920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Master of Education

MED 6000 - Fundamentals of Graduate Study

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course serves as an introduction to the MED program and to scholarship in education. Students will draw from diverse fields of educational inquiry (e.g. psychology, sociology, philosophy, history) to develop and present critically informed perspectives on current topics in P16 education. Multiple approaches to scholarly writing will be addressed.

MED 6010 - Advanced Historical Foundations

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Study of the relationship of contemporary schooling issues to historical practices and philosophies.

MED 6020 - Diversity in Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This course is designed to integrate classical and contemporary education theory and practice as a way to understand the nature and scope of how equity manifests itself in an ever-changing society. Students will apply their understanding of equity in education as they critically reflect, empirically investigate, and apply their knowledge as skillful transformative educational leaders.

MED 6030 - Advanced Educational Psychology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *3rd Blk*

This course is designed to provide an in-depth understanding of behavioral, cognitive and brain based psychological theories. The focus will be how this knowledge can impact and inform educational decisions and practices.

MED 6040 - Politics, Policy, and Practices of Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course explores interactions among the relationship of political actions, policies, and practices in education, with particular attention

to sociological concepts such as institutions, civil society, structure and agency, shared governance, neoliberal capitalism, and equal access. that develop from those actions, and the educational practices implemented in response to policy.

MED 6050 - Curriculum Design, Evaluation & Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *4th Blk*

An overview of the theories of curriculum development as well as a practical appraisal of curriculum design, implementation, evaluation and assessment.

Pre-requisite(s): (Recommended) MED 6080.

MED 6055 - Curriculum Theory

Credits: (2)

Typically Taught Fall Semester: *Full sem*

This course will focus on advancing students' understanding of the historical and contemporary theoretical underpinnings of curriculum development in the United States. In exploring these issues, students will gain a broad perspective of curriculum, recognize historical orientations of curricular theories, and investigate the societal consequences of the implementation of individual curricular frameworks.

MED 6060 - Instructional Strategies

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This methods course will include organizing and universal teaching strategies that can accommodate the variety of learning contexts and content that is taught to a diverse audience of learners.

Pre-requisite(s): (Recommended) MED 6080.

MED 6065 - Assessment and Informed Decisions in the Classroom

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course explores making ethical and practical decisions in the classroom informed by a variety quantitative and qualitative data as well as formal and informal assessments relative to students' safety, academic achievement, and overall well-being.

MED 6080 - Conducting Educational Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Students learn to locate and interpret educational research, and to apply research methods to their own education issues.

Pre-requisite(s): MED 6000.

Note: (Only taught fall and spring)

MED 6082 - Educational Inquiry

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is a comprehensive exploration of the ways that researchers answer questions and solve problems in education based on historical, philosophical, sociological, and psychological foundations. Additionally, this course examines the epistemic limits

of any method of research representation, and the political and ethical implications of those limits for researchers. (Students will conduct a literature review to advance their research project).

MED 6085 - Developing a Project Proposal

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to help students develop a Master's project proposal that is carefully researched and professionally written.

Pre-requisite(s): Graduate Committee approved and MED 6030, MED 6050, MED 6060, and MED 6080 successfully completed.

MED 6090 - Master's Project

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The student independently works with the project chair and committee to complete the masters project. Students must have a signed proposal and department permission to register.

Pre-requisite(s): MED 6085.

MED 6091 - Graduate Synthesis

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

A review and synthesis of the program and its course work. The course includes opportunity to work with the development of personal portfolios.

Pre-requisite(s): All core requirements completed; Master's Project Proposal committee-approved, and Master's Project Report completed or in progress. Student must have a signed proposal and program approval to register. Prerequisite: MED 6085.

MED 6100 - Leadership and Organizational Theory

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course focuses on the multiple facets of organizational cultures, leadership styles, and organizational change for educational leaders. Students will examine how organizational theory is applied in the educational setting.

MED 6101 - Assessment and Program Evaluation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will provide an overview of planning and decision making including assessment, strategic planning, and program evaluation and review processes. Concepts will include the gathering and use of data as well as the utilization of that data in the decision making process.

MED 6102 - Public Education Finance

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will examine the economics and financing of public and higher education. Course topics will include an exploration of the different funding pools and regulations for both public and higher

education as well as the economic and political forces driving these concepts and processes.

MED 6110 - Introduction to Classroom Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This course serves as an introduction to classroom management for those who have not had classroom experience or have been hired by a school district on a "letter of authorization," (hired without a license). The focus will be on current issues, methodology, and application of a variety of approaches for behavior change, discipline, and management of diverse learners in the context of classroom environments. Classroom management as a function of good teaching will be examined.

Note: This course or MED 6120 is required for licensure.

MED 6120 - Advanced Classroom Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Eclectic review of the popular teacher-pupil interaction models as they are classified into ideological camps and effect, and management and strategies for the classroom.

Number of Times this Course May Be Repeated: May be repeated up to four times.

Note: This course or MED 6110 is required for licensure.

MED 6130 - Topic in Education: (i.e., School Finance, Cooperative Learning, TRIBES, Teaching for Inquiry, etc.)

Credits: (1-3)

Typically Taught Summer Semester: *1st Blk*

This course explores a topic receiving current attention by educators and the public and deemed worthy of in-depth study. Credit will be determined by the nature of the topic.

Number of Times this Course May Be Repeated: May be repeated up to four times.

MED 6140 - Adolescent Development

Credits: (2)

Study of physical, mental, social, and psychological characteristics of adolescents, their needs and problems, and methods of working with those who have behavior problems.

MED 6150 - Classroom- and School-Based Research

Credits: (2)

Students will explore effective classroom-based research techniques, complete classroom-based research projects, and engage in ongoing application of action research for the improvement of teaching practice.

Number of Times this Course May Be Repeated: May be repeated up to three times.

MED 6160 - Effective Mentoring in the Classroom

Credits: (2)

Course will cover strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.

MED 6180 - Teaching Interpersonal Skills

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Study and application of interpersonal skills leading to the application and teaching of selected techniques and systems in the classroom.

MED 6200 - Current Trends in Early Childhood Education

Credits: (3)

variable title

A variable title advanced course in Early Childhood Education (birth through age eight) based upon examination of the current trends in curriculum and instruction for young children. When this number is used it will be accompanied by a brief and specific descriptive title, i.e. literacy, math, science.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 9 credit hours.

MED 6201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources, program experiences, and related theory. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include theory, research, interpersonal communication skills, and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Educator coaching skills will apply to any early childhood/early childhood education curriculum or model. This is course 1 of a three course series for the Utah Coaching Credential.

MED 6202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Becoming an effective educator coach is a result of theoretical understanding, introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing educator coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self-directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.

Pre-requisite(s): CHF 4201/MED 6201 or instructor permission.

MED 6203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential.

Pre-requisite(s): CHF 4201/MED 6201 and CHF 4202/MED 6202 or instructor approval.

MED 6210 - School Law

Credits: (3)

This course considers the rights and responsibilities of students, teachers, and other educational practitioners. Relates these to school programs and operations as determined by state and federal constitutions, laws, and court decisions; specifically content from ESEA, IDEA, Section 504, and ADA.

MED 6220 - Current Problems in Education

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

A survey course which identifies and gives opportunity to research current problems in education at national, state, and local levels. Solutions and responses are developed from the research to address problems.

MED 6229 - Instructional Technology for Pre-service Teachers

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course allows students to apply existing technology literacy into educational environments to promote use of technology for teaching and instructional support in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

MED 6230 - Instructional Technology for Teachers

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Designed for students who have had a prior introduction to

technology. Topics could include classroom applications of technology, software evaluations, and technology integration.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

MED 6240 - Foundations of Teaching for Cultural and Language Differences

Credits: (2)

This course will address the nature of pluralism in American Society, including but not limited to exploration of multiculturalism, bilingualism, first and second language acquisition and instructional strategies. Establishes the core foundations for valuing diversity.

MED 6250 - Second Language Acquisition: Theories and Implementation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

MED 6265 - Foundations of Inclusive Teaching

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This course, designed for non-special education teacher candidates, will introduce candidates to the legal, philosophical, historical, and ethical foundations of special education. An emphasis is placed on strategies and methods for instructing students with exceptionalities in the general education setting and the expanded roles and responsibilities of school personnel for providing appropriate educational experiences for all students.

Pre-requisite(s): Admission to the masters of education program.

MED 6270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

MED 6280 - Family and Community Involvement in Education

Credits: (2)

Examination of methods which would facilitate the interaction between the parent/community and the teacher/school through reciprocal communication, home-based involvement, school-based involvement and decision making. Special emphasis will be given to the importance of parental involvement in the education of second language learners.

MED 6300 - Conducting Qualitative Research

Credits: (3)

Designed as an introduction to the philosophy, theory, and methodology of qualitative research. This course is a companion course to MED 6080, Conducting Educational Research. Special emphasis is placed on designing qualitative research proposals for master's degree projects.

MED 6311 - Content Instruction in the Elementary School: Science

Credits: (2)

Typically Taught Summer Semester: *1st Blk*

Explores new concepts in curriculum and methods of science instruction in the elementary schools.

Note: This course is required for elementary licensure.

MED 6312 - Content Instruction in the Elementary School: Mathematics

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Explores new concepts in curriculum and methods of mathematics instruction in the elementary schools.

Note: This course is required for elementary licensure.

MED 6313 - Content Instruction in the Elementary School: Social Studies

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Explores new concepts in curriculum and methods of social studies instruction in the elementary schools.

Note: This course is required for elementary licensure.

MED 6314 - Reading Instruction in Elementary Schools

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, fluency, phonics, and phonemic awareness in elementary school classrooms.

Note: This course is required for elementary licensure.

MED 6316 - Language Arts Instruction in Elementary Schools

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Students will explore theory, instructional methodology, and activities for supporting students in developing expertise in the essential skills of communication: listening, speaking, reading, writing, viewing, and visually representing.

Note: This course is required for elementary licensure.

MED 6317 - Arts Integration for Elementary Teachers

Credits: (2)

Typically Taught Summer Semester: *1st Blk*

This course is designed to prepare students to successfully teach the arts in the elementary classroom. Students are expected to design, prepare, and teach lessons to engage elementary students in arts and music activities. State curriculum guidelines will be reviewed and discussed.

MED 6320 - Content Area Literacy Instruction

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online odd years*

Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into

the curriculum of the content areas.

Note: This course is required for secondary licensure.

MED 6324 - Advanced Dance Integration

Credits: (2)

Typically Taught Summer Semester: *2nd Blk*

This course emphasizes credible connections between dance and core subjects and how arts integration fosters problem solving and creative agency. In addition to readings and discussions from arts integration literature, much of the course will involve students participating in existing lesson plans that connect the arts with other curricula, and analyzing their value and role in education.

Pre-requisite(s): MED 6317 and MED 6340.

MED 6325 - Advanced Visual Arts Integration

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course explores the history, theory, and practice of what it means to be a visual pedagogue or a teacher who incorporates the visual arts within day-to-day classroom instruction. It provides an orientation to arts integration in Utah schools with and through a visual arts lens. The curriculum aligns with State of Utah's core curriculum and national standards in the visual arts.

Pre-requisite(s): MED 6317 and MED 6340.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of two credit hours.

MED 6330 - Using Children's Literature and Informational Text in the Classroom

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

MED 6340 - Reading Assessment and Instructional Interventions

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

MED 6350 - Reading Comprehension Instruction

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, and metacognition.

Note: This course is required for the Level 1 Reading Endorsement.

MED 6352 - Early Literacy Instruction (K-6)

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to focus on the research on emergent and early literacy development so that teachers may construct well-designed, appropriate literacy learning environments, and experiences for young language learners. Because this is an advanced course, students will be expected to have a reading background in early literacy.

Note: This course is required for the Level 1 Reading Endorsement.

MED 6353 - Understanding and Supporting Reading Development (grades 6-12)

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

This course is to help practicing secondary teachers acquire skills and strategies to support struggling readers. Specifically, this course will provide teachers with a systematic and ongoing approach to classroom intervention to prevent continued failure in reading.

Note: Required for the Level 1 Basic Secondary Reading Endorsement.

MED 6354 - Literacy Leadership and Professional Development

Credits: (2)

This course is designed to increase understanding of the administration and supervision of school literacy programs. Major topics will include: professional development, school/community relations, mentoring partnerships, student diversity, curriculum evaluation and development, and assessment. This course is required for the Reading Specialist Endorsement.

Pre-requisite(s): Basic Reading Endorsement.

MED 6355 - Research in Reading

Credits: (3)

This course will engage students in studying and understanding primary research documents in reading. Students will be guided to explore both classical and contemporary reading research studies. Students will also be instructed in basic research techniques in reading. This course is required for the Reading Specialist Endorsement.

Pre-requisite(s): Level 1 Basic Reading Endorsement.

MED 6356 INT - Internship in Reading

Credits: (3)

This course is a field-based experience designed to give students an opportunity to work with curriculum and school leaders for improving reading instruction on a district or school level.

Pre-requisite(s): Level I Basic Reading Endorsement, MED 6354, MED 6355. The course is graded Credit/No Credit.

MED 6360 - Foundations of Literacy

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

MED 6375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)

The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

MED 6380 - Values Education

Credits: (3)

Typically Taught Summer Semester: *Hybrid*

Designed for teachers, administrators, parents and community leaders. Examines the developmental processes of socialization and

moral development. Four separate approaches of values education are evaluated.

MED 6415 - Content-Based Second Language Curriculum, Instruction and Assessment

Credits: (3)

Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

MED 6420 - Foundations of Education of the Gifted

Credits: (3)

An overview of education for the gifted and talented: historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum and educational program options; special populations of gifted students.

MED 6430 - Creative Processes in the Elementary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories which support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

MED 6440 - Social and Emotional Needs of the Gifted

Credits: (2)

This course examines social and emotional developmental needs of gifted and talented children and proposes strategies for recognizing and meeting those needs in classrooms and with families.

MED 6450 - Creativity and Applied Imagination

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Exploration and development of readily available personal and community resources to encourage creative thinking/reasoning, classroom involvement, and transfer of learning.

MED 6470 - Teaching for Thinking

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

MED 6480 - Differentiated Curriculum for the Gifted

Credits: (3)

Curriculum theories and educational strategies for educating gifted and talented students. A practical course with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

MED 6490 - Assessment and Evaluation in Education of the Gifted

Credits: (3)

Principles of assessment applied to identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

MED 6495 - Action Research in Education of the Gifted

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This is a capstone course in the program leading to a Utah teaching endorsement in education of the gifted and talented and meets the USOE endorsement requirement for a field experience or practicum in education of the gifted by requiring a community-based project in which learning from previous endorsement courses is synthesized in a practical way. Students are expected to take initiative in planning, implementing, documenting, and evaluating meaningful action research projects relevant to education of the gifted and talented.

Pre-requisite(s): Bachelor's degree, teaching license, and MED 6420, MED 6480, MED 6490.

MED 6515 - Foundations in Special Education: Law and Practice

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

This course will introduce students to the philosophical, historical, legal, and ethical foundations of special education. Students will examine in depth the laws and practices related to special education and how those laws are influencing children with special needs today. Students will also learn about individuals with special needs as they are identified and served in our school system.

MED 6520 - Collaboration, Consultation, and IEP Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities, and techniques of collaboration and consultation.

MED 6521 - Practicum in Special Education

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This Practicum experience will focus on examining in depth the lives of students with mild to moderate disabilities in school, home, and community settings. Students will be introduced to the IEP process and will practice developing collaborative relationships within school settings.

Pre-requisite/Co-requisite: This Practicum must be taken either concurrently with, or after completion of MED 6520.

MED 6530 - Principles and Applications of Special Education Assessment

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Administer, score, and interpret norm-referenced assessment instruments, analyze in combination with data from other assessment

processes, and use to determine eligibility and develop educational programs.

MED 6540 - Advanced Managing Student Behavior

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will address current issues, practices, and application of a variety of approaches for behavior change. It is designed to teach students validated classroom management strategies, behavioral intervention strategies and techniques for use with students who have behavioral and social skill deficits. The primary goal of this course is for each student to conduct a functional assessment and implement and evaluate a behavior intervention plan.

MED 6550 - Advanced Instructional Planning and Learning Environments for Special Education Students

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Effective teaching methods, instructional programming and modification of curriculum for students with disabilities. A direct instruction model is emphasized.

Pre-requisite(s): Admission to Masters of Education.

MED 6555 - Advanced Instructional Methods and Practicum: Reading

Credits: (4)

This course is designed to introduce principles and techniques for diagnosis and remediation of reading problems. The course will cover student characteristics and school setting demands which contribute to lack of success in reading classrooms. Field experience required.

MED 6560 - Advanced Instructional Methods and Practicum: Mathematics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Assessment and diagnosis of mathematics problems and corrective procedures for remediation. This course focuses on the needs of students with learning problems or who are at-risk for school failure. Students will apply the concepts learned in an action research project in a K-12 classroom.

MED 6565 - Advanced Instructional Methods and Practices: English Language Arts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to prepare teacher candidates to teach English Language Arts to elementary and secondary students. Teacher candidates learn to identify reading and writing difficulties, using evidence-based interventions. They will also learn how to implement effective instruction, using data-based instructional decision model to monitor students' ELA progress. This course is to be taken concurrently with MED 6860 Practicum in Education.

Co-Requisite(s): MED 6860.

MED 6570 - Advanced Instructional Methods and Practicum: Written Expression

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course is designed to introduce principles and validated strategies for teaching written expression to students with

mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression. Field experience required.

MED 6575 - Advanced Instructional Methods and Practices: Mathematics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to prepare teacher candidates to teach mathematics to Tier 2 and 3 students in elementary and secondary classrooms. Teacher candidates will acquire a set of skills that will enable them to determine what math concepts to teach to pupils and effective instructional methods to aid in the teaching of these concepts. This course is to be taken concurrently with MED 6860 Practicum in Education.

Co-Requisite(s): MED 6860.

MED 6580 - Advanced Learning Strategies and Transition for Special Education Students

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Effective teaching methods, strategies, and practices for secondary age level students with disabilities. A cognitive learning strategies approach is emphasized.

Pre-requisite(s): Admission to Masters of Education.

MED 6581 - Pre-Student Teaching in Special Education

Credits: (4)

The purpose of pre-student teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the cooperating teacher and the course instructor. This course is designed to provide students with practical experiences in the areas of: (a) assessment, (b) behavior management, (c) curriculum and instruction for students K-12, and (d) planning and developing post secondary transition plans.

Pre-requisite(s): EDUC 4521/MED 6521 Practicum in Special Education, with a grade of B or better.

Suggested Requisite(s): Must be taken either concurrently with, or after completion of, EDUC 4530/MED 6530, EDUC 4540/MED 6540, EDUC 4550/MED 6550, and EDUC 4580/MED 6580.

Note: Course not currently being offered.

MED 6600 - Ethical Leadership

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course will explore issues of ethical and professional conduct as a steward of school resources, student academic success and well being, and faculty and staff professional development. This course will be based on the Utah Educator Professional Standards as described in Utah State School Board rule.

MED 6601 - Community Engagement and Advocacy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course will explore strategies effective educational leaders engage families and the community in order to create an inclusive, caring, safe, and supportive school environment to advocate for each student's academic success and well-being.

MED 6602 - Organizational Change and School Improvement

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

MED 6603 - Positive Academic and Behavior Supports in Schools

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

MED 6604 - Educational Leader Internship

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course will provide directed and supervised leadership experiences in public education settings. Students will complete the hours required by Utah State Board Rule.

MED 6700 - Higher Education Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides an overview of the various types of institutions of higher education including a brief history, typical institutional organizational structures, principal administrative functions, and the philosophy of administration overall. Strategic decision making within organizations will also be discussed.

MED 6701 - Current Issues in Higher Education

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course provides an overview of current issues and trends, challenges, research, and policies impacting higher education at the institutional, state, national, and international level.

MED 6702 - Organizational Change and Human Resource Management

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

This course will focus on financial and personnel management strategies, techniques for developing a projected budget and strategic plan, strategies for managing personnel and addressing the evaluation protocols.

MED 6703 - Group Dynamics

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

This course will provide an examination of advising other practices on campus designed to enhance and support today's college student. Concepts that will be discussed include student demographics, individualized advising approaches, emotional intelligence, and student retention theories.

MED 6704 - Higher Education Internship

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will provide directed and supervised experiences in higher education administrative settings. Students will spend the required hours per semester in a structured, supervised setting.

Number of Times this Course May Be Repeated: This course can be taken 2 times for credit for a maximum of 4 credit hours.

MED 6730 - Mathematics for Teaching K-8: Assessment and Intervention

Credits: (3)

Practicing teachers will gain a deeper understanding of the various types of assessment and their appropriate use for guiding instruction, intervention, and evaluation of student learning of mathematics content. This course is part of the Elementary Mathematics Endorsement.

MED 6800 - Advanced Web-based Methods for Evaluation, Research, and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to introduce students to the latest techniques of web-based research and experience management that can be used within the field of Family Science and Education (and other related fields of social inquiry). Students taking the course will learn and demonstrate the best practices for conducting online surveys that can be used to gather cross-sectional, longitudinal, experimental data.

MED 6801 - Specialized Family and School Programs

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The Specialized Family and School Programs class is an advanced review of the theoretical foundations for established and emerging family life education programs. Furthermore, a review of best practices in disseminating and evaluating family life education programs in diverse settings and with diverse populations. Implications for policy are reviewed.

MED 6802 - Family Theories

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course provides students with the ability to critically review and assess theories in family science. Additionally, they will learn and practice the construction and application of family theory vital for conducting research and practicing family life education.

MED 6803 - Diverse Family Contexts

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This class will proceed via comparative analysis of culture, ethnicity, and family life in the United States reflecting social and political dynamics with extensive coverage of the family lifestyles, traditions, and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components,

traditional, and current ethnic family characteristics, and changes and adaptations to families and individuals. Emphasis will be made on how to address ethnocentrism, and serve families due to their various strengths and challenges.

MED 6805 - Family Life Education Coaching

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is to prepare students to become family life coaches. The course covers topics from the foundational theories/models of coaching (positive psychology, cognitive behavioral coaching, and others), how to conduct coaching sessions, the delineation between counseling and coaching, and how to run a coaching business. Students will practice coaching with other students as well as with actual practice clients.

MED 6806 - Advanced Skills for Family Life Educators

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators by reviewing and presenting family life education materials in both the classroom and among the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education.

MED 6807 - Parenting

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will provide students with the latest research and theory on developmentally appropriate practices for parents. Also, students will learn the theory- and research-based methods for educating parents.

MED 6810 - Organization and Leadership

Credits: (3)

Experimental Course, Contact Department for More Information

MED 6810 will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

MED 6860 INT - Practicum in Education

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Practical synthesis and application of knowledge and skills gained in previous education courses. Students must have approval from the program director, and should follow specific graduate certificate in teaching program guidelines for prerequisites and other requirements. This course does not grant credit towards the MED degree, but is required for a teaching license in the state of Utah.

Number of Times this Course May Be Repeated: This course may be repeated three (3) times for credit.

MED 6870 INT - Student Teaching in Elementary Education for MED Students

Credits: (3-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Limited opportunities*

The student teaching experience is the culminating learning experience for the elementary licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): MED 6860, MED 6110 or MED 6120, MED 6050, MED 6265, MED 6020, MED 6311, MED 6312, MED 6313, MED 6314, MED 6316.

MED 6880 INT - Student Teaching in Secondary Education for MED Students

Credits: (3-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Student teaching experience, with supervision, in a public school to synthesize theory and practice from previous education courses. Offered CR/NC only; this course does not grant credit toward the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): MED 6860, MED 6020, MED 6060, MED 6120 or MED 6110, MED 6050, MED 6320, and MED 6265.

MED 6890 INT - Student Teaching in Special Education for MED Students

Credits: (4-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The student teaching experience is the culminating learning experience for the special education licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): MED 6050, MED 6565, MED 6575, and MED 6860.

MED 6900 - Individual Study

Credits: (1-3)

Intended for the candidate who has special needs and who would benefit from an individual study program. Forms are available from Room ED 234 MEd program office and must be approved by the instructor and the director at time of registration.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

MED 6920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized

for the particular offering will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

MED 6990 - Continuing Graduate Advisement

Credits: (1)

This course is used to fill the continuous enrollment requirement while completing the Master's project. The course is graded Credit/No Credit.

Master of Health Administration

MHA 6000 - Health Systems & the Healthcare Economy

Credits: (3)

Typically Taught Fall Semester: *1st Blk, 1st Blk Online*

In-depth analysis and synthesis of all aspects of the health care delivery system emphasizing improvement of health care delivery and access. Examines the complex organizational dynamics and structures that predicate the interaction among major components of the U. S. health care system, including service provider settings in which care is provided. The course surveys the funding systems and regulatory structures for financing healthcare delivery and resource management in health services organizations. Current reform debates will be challenged.

MHA 6100 - Leading & Managing People in Healthcare

Credits: (3)

Typically Taught Fall Semester: *1st Blk, 1st Blk Online*

The course content emphasizes visionary leadership and management of diverse healthcare professionals in complex organizational structures. Individual leadership talents in handling various organizational challenges, such as leading organization change, building strong culture, developing effective teams, resolving conflicts, implementing effective motivational systems, and nurturing a learning organization are investigated.

MHA 6140 - Long-term Care Administration

Credits: (3)

Seminar analysis of effect of chronic conditions and aging on delivery of health services, nursing homes and alternatives, mental health facilities and agencies, and rehabilitation facilities and services. Field trips and individual research projects.

Note: Check with department for course availability.

MHA 6160 - Medical Group Management

Credits: (3)

Theory and principles of practice management. Emphasis on the fundamentals of organizing, staffing, and controlling a physician practice. Financial applications and resource consumption.

Note: Check with department for course availability.

MHA 6180 - Healthcare Entrepreneurship

Credits: (3)

Develops an understanding of entrepreneurship, its importance for a healthcare organization and the health economy, and the challenges associated with promoting entrepreneurship within healthcare organizations.

Note: Check with department for course availability.

MHA 6200 - Population Health and Data Analytics

Credits: (3)

Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*

The course addresses the integration of population health into strategic planning and managerial decision-making in health services organizations. Epidemiological principles, social determinates of health, and the improvement of health of the entire population from clinical and managerial perspectives are addressed. This course teaches the necessary fundamentals of data analytics and engages students in the process of analyzing data related to population health topics. Course work includes environmental analysis of community health, and health behaviors and lifestyle that impact demand on health care delivery systems. The student will evaluate models for integration of health services, preventive programs, demand management, and policy issues affecting continuity of care.

Pre-requisite(s): MHA 6000 (may be taken concurrently) or Instructor Approval.

MHA 6240 - Human Resources Management in Healthcare

Credits: (3)

Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*

Human resources management in healthcare organizations including recruitment and selection of employees, benefits and compensation management, privileging and credentialing of health professionals, performance evaluation, staffing plans, labor relations and labor law relevant to health care organizations.

MHA 6249 - Accounting and Finance Principles for Healthcare Managers

Credits: (3)

Typically Taught Spring Semester: *1st Blk, 1st Blk Online*

The first course in a two-course sequence addressing the accounting and finance knowledge and skills required of successful healthcare managers. It emphasizes the understanding of accounting and finance functions, use and interpretation of documents, reports, and statements, and the ability to work with the accounting and finance professionals in one's organization.

Pre-requisite/Co-requisite: MHA 6000.

MHA 6250 - Healthcare Finance

Credits: (3)

Typically Taught Spring Semester: *2nd Blk, 2nd Blk Online*

Application of financial management techniques to decision making for healthcare providers. Financial management functions and organizations, financial statement analysis, working capital management, present value analysis, capital budgeting, cost of capital, variance analysis, financing techniques, and financial analysis case studies.

Pre-requisite(s): MHA 6000 and MHA 6249 (6249 may be taken concurrently).

MHA 6300 - Quality Improvement and Risk Management in Health Services Organizations

Credits: (3)

Typically Taught Spring Semester: *1st Blk, 1st Blk Online*

A study of the effects of sophisticated quality and health outcome measures as used by individuals, employers and insurers to compare the results of various providers. The course will cover the forces of external customers and in addition to internal pressures to justify costs, provide continuous quality improvement, risk management, and changes within a complex health care system. Course content will include systems behavior and relationships, creating a culture of

safety, using measurement to improve quality, fostering teamwork, and understanding the role of risk management in quality improvement.

Pre-requisite(s): MHA 6000 or Instructor Approval.

MHA 6320 - Health Policy and Economics

Credits: (3)

Typically Taught Spring Semester: *1st Blk, 1st Blk Online*

Economic analysis applied to health services sector; concept of efficiency applied to production and distribution of health services, health insurance, government programs, health care personnel, and health services organizations; current public policy issues; emphasis on student application of economic principles to health care issues.

MHA 6350 - Decision Making for Healthcare Leaders

Credits: (3)

Typically Taught Fall Semester: *1st Blk, 1st Blk Online*

The exploration and application of both quantitative and qualitative data analysis in healthcare organizations. How top level healthcare leaders use the myriad data that comes across their desks to work toward, and to achieve, their organization's mission.

MHA 6360 - Comparative International Health Systems

Credits: (3)

Analysis of key attributes of health care policy in selected countries and comparisons with the US health care system. This course includes an international field trip and appropriate travel expenses will be required of the students. Please check with the course instructor for more details.

Note: Check with department for course availability.

MHA 6370 - Executive Leadership Seminars in Healthcare

Credits: (3)

Via a series of in-depth seminars, dialogues, interactions, and/or lectures with top level clinical leaders and healthcare executives, this course will explore complex and timely healthcare topics and issues of the day from the perspective of successful leaders in the healthcare industry, exploring and analyzing their implementation and application of management and leadership theory and practice as put into effect in a variety of healthcare settings and facilities.

Note: This course is offered as needed.

MHA 6400 - Strategic Health Planning and Marketing

Credits: (3)

Typically Taught Spring Semester: *2nd Blk, 2nd Blk Online*

Various planning approaches, styles and theories are considered from a corporate decision-making perspective within the unique governance structures of health service organizations. Issues covered include strategic planning and resource allocation within integrated health systems. Environmental analysis explores national health care delivery policy, unique financing structures such as third party payment systems, and open vs. regulated markets and development of comprehensive marketing plans.

Pre-requisite(s): MHA 6100 and MHA 6200.

MHA 6440 - Health Ethics and Law

Credits: (3)

Typically Taught Fall Semester: *1st Blk, 1st Blk Online*

Selected legal principles and their application to health field. Legal

aspects of corporate liability, medical malpractice, admission and discharge processes, medical staff bylaws, informed consent, nursing, patients' rights, medical records, and governmental regulation of personnel and health facilities.

MHA 6450 - Health Informatics

Credits: (3)

Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*

This course addresses the concepts and application of health informatics. Topics addressed in the course include: interoperability, IT standards, privacy and security of health information, cybersecurity, strategic planning for IT, and emerging trends in health informatics. Emphasis is placed on the use of data analytics to support management decision making.

MHA 6500 INT - Field Work

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem*

This course provides a capstone experience where the student synthesizes theory learned the classroom and applies it real world problem solving in health care organizations. Designed to integrate the knowledge gained in other graduate courses into an applied management project. The project will have enterprisewide applicability to a health services organization. The Student will develop and present a deliverable product that could be implemented by management to improve their organizational performance, specifically with analysis and recommendations for policy and strategic improvements.

Pre-requisite(s): MHA 6000, MHA 6200, MHA 6300, MHA 6400.

MHA 6810 - Case Study Analysis

Credits: (3)

Experimental Course, Contact Department for More Information

Analysis, Preparation, and Presentation at a national Case Study Competition. Students synthesize theory and apply it to the explicit healthcare circumstance outlined in a case study. Case studies require the demonstration and integration of knowledge, skills, and competencies from prior graduate courses and the application of them to a specific case situation. Students will travel and present their case analysis at a national case competition.

Pre-requisite(s): MHA 6000, and permission of instructor.

MHA 6830 - Directed Study

Credits: (1-3)

Directed individual study and research on special topics related to health care.

Pre-requisite(s): Approval of MHA program and instructor.

Number of Times this Course May Be Repeated: May be repeated for a cumulative total of three credits.

Note: This course is offered as needed.

MHA 6840 - Case Study Analysis

Credits: (3)

Analysis, Preparation, and Presentation at a national Case Study Competition. Students synthesize theory and apply it to the explicit healthcare circumstance outlined in the case. Case studies require the demonstration and integration of knowledge, skills, and competencies from prior graduate courses and the application of them to a specific case situation. Students will travel and present their case analysis at a national case competition.

Pre-requisite(s): MHA 6000, and permission of instructor.

Note: Check with department for course availability.

MHA 6850 - MHA Study Abroad

Credits: (3)

Healthcare has become a global phenomenon. Travel to other countries to see firsthand how their health industries are planned and organized, how care is delivered, and to interact with health leaders, providers, and patients from other countries provides an inarguably rich experience for healthcare leaders. In addition, the study abroad experience requires both sound knowledge of the health industry being observed and scholarly reflection on its effectiveness, efficiency, and success in addressing and meeting that country's healthcare needs.

Pre-requisite(s): MHA 6000 and permission of instructor.

Note: Check with department for course availability.

Master of Nursing

NRSG 6110 - Translating Research and Evidence into Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course prepares the student to critically appraise, compare, and evaluate published Quantitative and Qualitative research reports to develop and implement and maintain an evidence-based innovation and/or practice within the professional settings of the nurse administrator and the nurse educator. In order to register for this course, the student must be officially accepted into Weber State University's MSN program.

Number of Times this Course May Be Repeated: May be repeated up to three times.

NRSG 6120 - Research and Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course focuses on the development of the knowledge and skill required to evaluate numerical data in support of an evidence-based environment for nursing administration and nursing education. Skills related to utilization of parametric and non-parametric methods of statistical analysis of quantitative data will be emphasized.

Pre-requisite(s):

The student must be officially accepted into Weber State University's MSN program to register for this class.

NRSG 6141 - Advanced Nursing Theory

Credits: (3)

This course is intended to introduce the student to the multiple patterns of knowing within nursing and the processes associated with the development of nursing knowledge and theory. These processes include the varied yet interdependent activities of critical reflection, validation, confirmation, and utilization of nursing knowledge. In addition, the student will explore the utilization of nursing theory and knowledge to his or her own experiences and everyday nursing practice.

Co-Requisite(s): NRSG 6110, NRSG 6180.

NRSG 6160 - Evidence-Based Practice

Credits: (3)

This course provides students the knowledge and skill required to

develop and implement evidence-based processes within the professional settings of the nurse administrator and the nurse educator.

Pre-requisite(s): NRSRG 6110, NRSRG 6141, NRSRG 6180.

Co-Requisite(s): NRSRG 6120.

NRSRG 6170 - Teaching Strategies

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course prepares the student to apply teaching and learning theories within both the traditional and non-traditional classroom setting and clinical practice settings. Teaching strategies designed to support student learning across varied settings and modalities will be emphasized.

Pre-requisite(s): The student must be officially accepted into the MSN program and have completed the first semester of the program prior to registering for MSN 6170.

NRSRG 6180 - Improving Patient Care and Nursing Practice through Information Systems

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course provides students the knowledge and skill required to effectively apply the principles of information technology within the healthcare setting. Course content includes the utilization of information technology to analyze healthcare data for the improvement of nursing decision-making and to support quality in nursing administration and nursing education settings.

Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSRG 6200 - Theoretical Foundations of Nursing Administration

Credits: (3)

This course focuses upon the knowledge and skills required to utilize established theoretical and concepts frameworks to critically analyze clinical and non-clinical leadership issues and apply theory-based principles within the nursing administration setting.

Pre-requisite(s): NRSRG 6110, NRSRG 6141, NRSRG 6180.

NRSRG 6255 - Leadership and Accountability in Advanced Nursing

Credits: (2)

Typically Taught Summer Semester: *1st Blk Online*

The purpose of this course is to provide graduate nursing students with an overview of personal, organizational and systems leadership. At the conclusion of this course, students will be able to apply leadership skills and ethical decision making as it relates to healthcare policy, legal regulation, quality improvement and patient safety.

Pre-requisite(s): Must be officially accepted into the MSN program to register for this class.

NRSRG 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course focuses upon the nurse administrator's responsibility to develop and maintain a culture of safety, reduce and prevent harm to patients, and reduce institutional risk and liability issues through the utilization of healthcare outcomes measurement and application of sound principles and practices associated with quality improvement.

Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program and have completed the first semester of study to register for this course.

NRSRG 6324 - Financial Issues in Nursing Administration

Credits: (2)

Typically Taught Fall Semester: *1st Blk Online*

This course provides a conceptual foundation for the nurse administrator's accountability to provide fiscal resource planning, forecasting and resource allocation, strategic planning that addresses future trends, oversight of all nursing related operating aspects, and the achievement of the financial goals of the healthcare organization.

Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSRG 6340 - Compliance with Legal and Regulatory Systems in Patient Care Delivery

Credits: (3)

This course focuses upon the nurse administrator's responsibility to develop and maintain a healthcare environment that fulfills the compliance standards and criteria established by both state and national legal and regulatory systems.

Pre-requisite(s): NRSRG 6110, NRSRG 6120, NRSRG 6141, NRSRG 6160, NRSRG 6180, NRSRG 6200.

Co-Requisite(s): NRSRG 6324, NRSRG 6360.

NRSRG 6360 - Scope and Practice of Nursing Administration

Credits: (1)

Typically Taught Spring Semester: *1st Blk Online*

This course addresses the nurse administrator's responsibility for the overall administration of patient care delivery services and representation of nursing services at the highest level of the organization and across a wide variety of settings.

Pre-requisite(s): Must be officially accepted into Weber State University's MSN program.

NRSRG 6380 - Retaining and Developing a Competent Workforce in Nursing

Credits: (2)

Typically Taught Spring Semester: *1st Blk Online*

This course addresses the overall operational management and administration functions related to staffing, staff development, and managerial issues including coaching, discipline and employee support. Processes related to labor relations within healthcare is addressed.

Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSRG 6400 INT - Nurse Executive Residency

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This 85 hour on-site practicum is designed to prepare the student for a career in nursing administration and leadership. The student will

participate in focused participative learning activities with nurse leaders at either the executive, director or manager level. A variety of focused nursing administrator residency areas will be available. The student, faculty, and assigned nurse administrator residency preceptor will collaboratively design the residency experience.

Pre-requisite(s): The student must be officially accepted into the MSN program and have completed required core courses prior to registering for MSN 6400.

NRSG 6500 - Theoretical Foundations in Nursing Education

Credits: (3)

This course focuses upon the knowledge and skills required to utilize established teaching and learning theories developed to enhance the nursing educational process. The practical utility of these teaching and learning theories in diverse nursing education learning environments will be emphasized.

Pre-requisite(s): NRSG 6110, NRSG 6141, NRSG 6180.

NRSG 6520 - Curriculum Development for Nursing Educators

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course focuses on the concepts and organizing frameworks for curriculum design, course development and desired outcomes, standards of nursing education and practice, continuing education, and health care educational programs. Issues related to program accreditation and related social and legal issues will be examined.

Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6540 - Measurement of Competence and Outcomes in Nursing Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course focuses upon established theories of measurement and evaluation coupled with strategies for implementing evaluation of student learning, program outcomes, and faculty performance targets. Accurate interpretation of evaluation data to support an evidence-based response to student and program evaluation results will be emphasized.

Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6560 - Socialization in the Role of Nursing Educator

Credits: (2)

Typically Taught Spring Semester: *1st Blk Online*

This course prepares the student to function proficiently in the nurse educator role within a variety of learning environments and social settings. The development of professional and personal adaptive strategies will be emphasized.

Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6580 - Clinical Nursing Instruction in Higher Education and Community Settings

Credits: (3)

This course prepares the student to apply teaching and learning

theories within the practice laboratory and clinical settings. The clinical application component of this course will provide the student the opportunity to participate, with supervision, in a practice laboratory and/or clinical instruction environment.

Pre-requisite(s): NRSG 6110, NRSG 6120, NRSG 6141, NRSG 6160, NRSG 6180, NRSG 6520, NRSG 6540, NRSG 6560.

Co-Requisite(s): NRSG 6600, NRSG 6700.

NRSG 6600 - Nursing Instruction in Higher Education and Community Settings

Credits: (3)

This course prepares the student to apply teaching and learning theories within both the traditional and non-traditional classroom setting. Teaching strategies designed to support student learning across varied settings and modalities will be emphasized.

Pre-requisite(s): NRSG 6110, NRSG 6120, NRSG 6141, NRSG 6160, NRSG 6180, NRSG 6500, NRSG 6520, NRSG 6540, NRSG 6560.

Co-Requisite(s): NRSG 6580, NRSG 6700.

NRSG 6700 INT - Nurse Educator Residency

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This on-site 85 hour practicum is designed to prepare the student for a career in nursing education and leadership. During the MSN Educator Residency, students will participate in focused participative learning activities with advanced prepared nurse educators at an academic and/or healthcare service educational setting. A variety of nurse educator residency areas will be available. The student, faculty, and assigned nurse educator residency preceptor will collaboratively design the residency experience.

Pre-requisite(s):

The student must be officially accepted into the MSN program and have completed required core courses prior to registering for MSN 6700.

NRSG 6710 - Advanced Health Assessment for the Nurse Educator

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course lays the groundwork for students to perform comprehensive and holistic health histories, review of systems, and physical examinations for patients. The overall purpose will be focused upon developing strategies and skills to assess the health care needs of people across the life span. Students are challenged to identify normal assessment findings and critically analyze variations from normal and apply that knowledge for health education. The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for MSN 6710.

NRSG 6720 - Advanced Pharmacology for the Nurse Educator

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course overviews pharmacokinetics and pharmacodynamics for optimum individual client management. Advanced practice nursing

students are prepared to safely monitor medication regimens for patients across the lifespan based on clinically relevant ethical and legal parameters and consideration of evidenced based practice guidelines and protocols for effective pharmacology management and education. The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for MSN 6720.

NRSG 6730 - Advanced Pathophysiology for the Nurse Educator

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course is a core graduate level course. This course is designed to teach the master level nursing student frequently seen alterations in physiology. The course will focus on modifiable risk factors, exposures, physiological mutations, and presenting signs and symptoms. Students will utilize evidence-based practice and research to identify, analyze and evaluate disease pathology across the lifespan. The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for MSN 6730.

NRSG 6801 - Integrating Scholarship into Practice

Credits: (2)

The MSN 6801 course is designed as a foundational course to prepare graduates to be information literate and to practice from an evidence-based approach in their direct and indirect advanced nursing roles. In addition, students will begin the compilation of a scholarly paper through identification of a problem in practice and that reflects reflect educational theory, interprofessional collaboration, research, and current standards of practice. In this course students will be asked to critically appraise research and evidence summaries related to area of practice and apply it to their practice problem. Completion of 6801 and the MSN Scholarly Project is a graduation requirement for the Master of Science in nursing degree.

Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6802 - Integrating Scholarship into Practice

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online, 1st Blk Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The MSN6802 course is designed as a continuation of MSN 6801. In this course, students will design scholarly activities in an established area of expertise. Students will be asked to develop a project deliverable which demonstrates skill in proposal writing for initiatives that include, but are not limited to evidence-based practice, clinical guidelines, resource acquisition, course development, and policy development. Completion of 6802 and the MSN Scholarly Project is a graduation requirement for the Master of Science in nursing degree.

Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6803 - Integrating Scholarship into Practice

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The MSN 6803 course is designed as a continuation of MSN 6802. In this course, students will integrated all components of their scholarly project and develop strategies for dissemination of nursing knowledge to a variety of audiences through various means. Completion of 6803 and the MSN Scholarly Project is a graduation requirement for the Master of Science in nursing degree.

Pre-requisite(s): Completion of NRSG 6801 & NRSG 6802. The student must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6850 - MSN Project Development and Implementation Extension Course

Credits: (1)

For students who have completed all course requirements for MSN, but have not completed the MSN project requirement. Students must register for a minimum of 1 credit of MSN 6850 to remain enrolled in the MSN program.

Pre-requisite(s): Faculty approval.

Number of Times this Course May Be Repeated: May be repeated two (2) times with a maximum of 2 credit hours.

NRSG 6900 - Social Epidemiology, Global Health Issues and Cultural Competency

Credits: (3)

Note: This course is not currently offered.

NRSG 6920 - Evidence Based Practice II

Credits: (3)

Note: This course is not currently offered.

Master of Nursing Practitioner

NRSG 6205 - Transitions to Advanced Practice

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course is designed to present a foundation for understanding nursing theory and the relationship of theory and research to evidence based practice and conceptual models of advanced practice nursing.

Pre-requisite(s): Admission to a MSN Family Nurse Practitioner Program.

NRSG 6210 - Advanced Pathophysiology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This is the first foundational pathophysiology course for nurse practitioners (NP's). Students are taught pathophysiology associated with disease and non-disease processes such as pain. Alterations in physiology result in clinical problems and diseases managed by NP's. Cell dysfunction or deregulation manifests as systemic symptoms and associated disease. Content includes etiology, modifiable risk factors, exposures, physiological mutations, and specific/nonspecific mechanisms to optimize cell-tissue-organ-system function. Students identify, analyze, and evaluate evidence related to disease pathology of specified body systems across the lifespan for future patient management.

NRSG 6215 - APRN Pharmacology I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This foundational core course overviews pharmacokinetics and pharmacodynamics for nurse practitioners and provides the

foundation for safe efficacious patient-centered medication management in a clinical setting. Course content includes information on pharmacology principles, terminology, drugs that affect the autonomic nervous system (ANS), special populations, clinical guidelines, and evidenced-based pharmaceutical interventions for infectious disease, endocrine function, and pain or comfort. Ethical and legal parameters for prescriptive practice are reviewed related to specific medication choice, dosing, drug interactions and side effects, and patient monitoring, education, and evaluation for effectiveness across the lifespan. Advanced Pharmacology I adheres to accreditation criteria for graduate nursing prescriptive principles and nurse practitioner practice.

NRSRG 6220 - NP Assessment/DX Reasoning

Credits: (3)

Typically Taught Summer Semester: Full Sem

This course allows students to transition into the role of the nurse practitioner through practice of clinically relevant activities such as a comprehensive holistic health history, use of motivational interviewing, a systematic physical assessment, and critical reasoning to determine appropriate differential diagnoses. Classroom student learning activities, nursing practice lab, and select standardized patient encounters are used to present and practice physical assessment and diagnostic reasoning for nurse practitioner (NP) patient-centered care. Students focus weekly on a body system and incorporate assessment and diagnostic reasoning skills for patients across the lifespan. NP students use a systematic critical thinking approach to diagnostic reasoning and assessment competency.

Pre-requisite(s): Faculty permission.

NRSRG 6225 - NP Care Clinical Skills

Credits: (1)

Typically Taught Summer Semester: Full Sem

This clinical skill course provides opportunities for the nurse practitioner (NP) students to learn and practice a variety of essential clinical care skills. Students attend clinical skill lab weekly for instruction from interprofessional peers and nurse practitioner faculty. NP students acquire clinical skill performance, gather diagnostic and objective data for conditions requiring procedures, management strategies, patient education, and ICD-10 & CPT billing and coding instruction for common clinical issues.

NRSRG 6230 - NP Patient Care Lab

Credits: (1)

Typically Taught Spring Semester: Full Sem

This laboratory skill course provides opportunities for the nurse practitioner (NP) students to learn and practice a variety of essential ambulatory care skills for patients across the lifespan. There is a focus on women's health and pediatric health care conditions. Students attend skill lab weekly for instruction from interprofessional peers and nurse practitioner faculty. NP students acquire knowledge of skill performance, diagnostic and objective information for conditions requiring procedures, management strategies, patient education, and ICD-10 & CPT billing and coding instruction for common health care issues.

Pre-requisite(s): NRSRG 6220 - NP Assessment/DX Reasoning and NRSRG 6225 - NP Care Clinical Skills.

Co-Requisite(s): NRSRG 6245 - NP Patient Care III, NRSRG 6246 - Advanced Practice Primary Care Clinical III.

NRSRG 6235 - NP Patient Care I

Credits: (3)

Typically Taught Fall Semester: Full Sem

This is one of the theory companion courses to NRSRG 6236 Nurse Practitioner Clinical I. The course is designed to provide advanced

theoretical knowledge and emphasis on adult healthcare for the nurse practitioner student. The course prepares students to manage prevalent healthcare concerns encountered across the lifespan of male and female adults. Nurse practitioner students include significant others, family, and available community resources for patient health promotion and illness management, assessment, diagnosis, intervention, healthcare plans, follow-up, and evaluation of adults in a variety of settings.

Co-Requisite(s): NRSRG 6236 - Advanced Practice Primary Care Clinical I.

NRSRG 6236 - Advanced Practice Primary Care Clinical I

Credits: (3)

Typically Taught Fall Semester: Full Sem

This is the clinical companion course to MSNP 6236 Advanced Practice Nursing: Adult. This course is designed for the nurse practitioner student to deliver high quality healthcare to adults. The course prepares students to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course also requires students to diagnose and determine best practice to treat illness and prevent disease.

Co-Requisite(s): NRSRG 6235 - NP Patient Care I.

NRSRG 6240 - NP Patient Care II

Credits: (2)

Typically Taught Fall Semester: Full Sem

This is one of the theory companion courses to NRSRG 6236 - Advanced Practice Primary Care Clinical I. The course provides advanced theoretical knowledge and emphasis on nurse practitioner primary care of older adults. Students learn management of common older adult healthcare problems in the community and a variety of health care settings. The course focuses on the various health issues for older adults, including health promotion, functional ability, chronic disease management, polypharmacy, palliative intervention, and end-of-life care.

Co-Requisite(s): NRSRG 6236.

NRSRG 6241 - Advanced Practice Primary Care Clinical II

Credits: (1)

Typically Taught Summer Semester: Full Sem

This is the clinical companion course to MSN 6240 Advanced Practice Nursing: Older Adult Health. This clinical course is designed for the nurse practitioner student to deliver high quality healthcare with a focus on adults or older adults. The course prepares students to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course requires students to diagnose and determine best practice to treat illness and prevent disease as a primary care FNP provider.

Co-Requisite(s): NRSRG 6240 - NP Patient Care II.

NRSRG 6245 - NP Patient Care III

Credits: (3)

Typically Taught Spring Semester: Full Sem

This is one of the theory companion courses to NRSRG 6246 - Advanced Practice Primary Care Clinical III. The course is designed to provide advanced theoretical knowledge and emphasis on pediatric (newborn to adolescent) healthcare for the nurse practitioner student. The course prepares students to manage prevalent healthcare concerns encountered across the pediatric lifespan. Nurse practitioner students include significant others, family, and available community resources for patient health promotion and illness management, assessment, diagnosis, intervention, healthcare plans, follow-up, and

evaluation of adults in a variety of settings.

Co-Requisite(s): NRS 6246 - Advanced Practice Primary Care Clinical III.

NRS 6246 - Advanced Practice Primary Care Clinical III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This is the clinical companion course to NRS 6245 Nurse Practitioner Care II and NRS 6250 Nurse Practitioner Care IV. The course is designed for the nurse practitioner student to deliver high quality healthcare to patients of all ages with a focus on primary care. Students apply evidenced-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of health conditions. Students practice history taking, perform physical examination, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles to prevent disease and manage individualized healthcare outcomes through psychomotor, affective and cognitive domains. Associated theory courses focus on pediatric and female health conditions.

Co-Requisite(s): NRS 6245 - NP Patient Care III.

NRS 6250 - NP Patient Care IV

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This is one of the theory companion courses to NRS 6246 - Advanced Practice Primary Care Clinical III. The course is designed to provide advanced theoretical knowledge and emphasis on unique health care needs of women. The course prepares students to manage prevalent health care concerns of women, including; maturation, sexuality, family planning, contraception, perinatal care (preconception through pregnancy), and menopause. Concepts will focus on strategies for health promotion and disease prevention through the lifespan of a woman, as well as management of selected issues related to fertility, pregnancy, and aging.

Co-Requisite(s): NRS 6246.

NRS 6251 - Advanced Practice Primary Care Clinical IV

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This is the clinical companion course to MSNP 6250 Advanced Practice Nursing: Women's Health. This clinical course is designed for the nurse practitioner student to deliver high quality healthcare with a focus on women's health. The course prepares students to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course requires students to diagnose and determine best practice to treat illness and prevent disease as a primary care FNP provider.

Co-Requisite(s): NRS 6250 - NP Patient Care IV.

NRS 6256 - Transition to Advanced Practice II

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course is designed to complement NRS 6260 Advanced Practice Nursing Clinical Practicum in preparing the family practice nursing student for the certification examination and the advanced practice role. The course allow students to investigate a variety of topics that impact advanced practice nursing, issues for special populations, leadership competencies, impact of policies on healthcare, and principles of independent or NP managed practices.

Pre-requisite(s): NRS 6205 - Transitions to Advanced Practice.

Co-Requisite(s): NRS 6260 - Nurse Practitioner Immersion.

Master of Science in Athletic Training

MAST 6480 - Advanced Principles of Evidence-Based Practice

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This course will expand students' understanding and application of Evidence-Based Practice (EBP) skills introduced in MAST 6080. Students will be expected to read, critically analyze, and participate in the discussion of peer-reviewed research articles.

MAST 6080 - Research Methods I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course explores the process and methods of scientific inquiry and interpretation of research findings in athletic training. Students will gain familiarity with the major elements of research including literature review, quantitative and qualitative methodology, design, evaluation of research, statistical analysis, presentation of data, and ethical considerations. This course also provides an overview of statistics including descriptive and inferential statistics and one-way ANOVA. Students should have a basic understanding of conducting library and Internet information searches prior to taking this course.

MAST 6085 - Research Methods II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to help students develop a master's thesis research project proposal that is carefully researched and professionally written. Students will prepare an introduction, literature review, detailed methodology, and IRB proposal.

Pre-requisite(s): MAST 6080.

MAST 6090 - Research Methods III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is designed to help students complete a master's thesis research project. Basic statistical analysis will be reviewed and advanced statistics will be introduced. Students will collect and analyze data and synthesize results. At the completion of the course, students will submit a full manuscript, suitable for publication, along with an abstract and a professional poster.

Pre-requisite(s): MAST 6085.

MAST 6095 - Research Methods IV

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course allows students to choose one of the following options:

1) complete their masters thesis requirements from MAST 6090; 2) prepare a manuscript for publication or formal oral presentation for a professional conference, or 3) participate in additional research above and beyond the masters thesis.

Number of Times this Course May Be Repeated: May be taken twice up to 9 credit hours.

MAST 6200 - Mental and Behavioral Health in Injury and Rehabilitation

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This course is designed to provide a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered

include emotional and cognitive response to injury and rehabilitation, motivation, mental skills training and use, psychological antecedents of injury, psychology of injury and rehabilitation, using mental skills with injured athletes, career transition and termination, disabilities, rehabilitation/exercise adherence, eating disorders, alcohol and drug/substance abuse, gender and cultural diversity, and research methods related to psychology of sport, injury and rehabilitation. The graduate student will get an advanced approach, including in-depth application of psychological interventions with injured athletes and a more comprehensive investigation of psychosocial aspects.

Pre-requisite(s): PSY 1010.

MSAT 6300 - Orthopedic Assessment and Diagnosis I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content of this course addresses the principles of orthopedic evaluation techniques and the diagnosis and care for most common musculoskeletal injuries for master's of athletic training students. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

MSAT 6301 - Orthopedic Assessment and Diagnosis II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is a continuation of MSAT 6300 - Orthopedic Assessment and Diagnosis I. Content from this course will further develop students' current knowledge and skills to evaluate musculoskeletal injuries while furthering their understanding of less commonly reported injuries. The students will integrate knowledge of anatomical structures and principles of physiology to appropriately select, perform, and correctly interpret results from an orthopedic evaluation technique, and to make critical decisions regarding treatment, injury management, and return to play.

Pre-requisite(s): MSAT 6300.

MSAT 6350 - Assessment and Care of General Medical Conditions

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content of this course addresses evaluation and care for general medical conditions of athletes and active individuals. The student must integrate knowledge of anatomy, physiology, pharmacology and injury related to athletics and sport in order to provide a basis for clinical decision making as athletic trainers.

MSAT 6390 - Foundations of Therapeutic Interventions

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course is designed to introduce students to the contemporary usage and foundation of common therapeutic interventions in musculoskeletal rehabilitation (i.e., cryotherapy, thermotherapy, proprioceptive neuromuscular facilitation, etc.). Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving these therapeutic interventions will be examined. Students will learn about the body's response to musculoskeletal injury and the subsequent healing process. Emphasis will be placed on theoretical and physiological effects of therapeutic interventions, their indications and contraindications, and application based on the goals in each phase of rehabilitation.

MSAT 6400 - Therapeutic Modalities for Musculoskeletal Injuries

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. This course is designed to build upon the introductory foundations of therapeutic modalities established in MSAT 6390. Topics for discussion include the application of electrotherapy devices, therapeutic ultrasound, and other therapeutic modalities.

Two lecture and 2 lab hours per week.

Pre-requisite(s): MSAT 6300 and MSAT 6390

MSAT 6401 - Innovations in Therapeutic Modalities

Credits: (2)

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

This course is designed to introduce students to novel therapeutic modalities that are being integrated in modern musculoskeletal rehabilitation. Through lecture, discussion, and laboratory experience, both the theoretical and scientific basis of new therapeutic modalities will be examined. Students will learn the foundational concepts and techniques of these modalities, and review the literature to determine their effectiveness from an evidence-based perspective.

Pre-requisite(s): MSAT 6400.

MSAT 6430 - Principles of Athletic Training

Credits: (3)

This course is designed to give graduate-level athletic training students an overview of athletic training principles. Students will gain knowledge in the areas of musculoskeletal injuries, environmental risk factors, mechanisms and characteristics of sports trauma, and the cooperative sports medicine team.

Pre-requisite(s): HLTH 2300 or AT 2300.

Note: This course is not currently offered.

MSAT 6431 - Orthopedic Taping and Durable Medical Equipment

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Graduate students in this course will be instructed in evidence-based applications and use of orthopedic and kinesiology taping, padding, and wrapping techniques as well as durable medical equipment including sport performance or stability braces, manufactured splints, and crutches/canes. Students will also learn how to properly fit protective sports equipment. Students will learn to apply a variety of techniques to support the trunk and extremities.

MSAT 6432 - Casting and Orthotic Fabrication

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Graduate students in this course will be exposed to evidence-based applications including orthopedic casting custom splints, and orthotics. Students will learn to apply a variety of techniques to support orthopedic injuries of the trunk and extremities.

Pre-requisite(s): MSAT 6431.

MSAT 6450 - Therapeutic Rehabilitation I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Content of this course provides a foundational understanding and

concepts of therapeutic exercise as it relates to the rehabilitation process of musculoskeletal injuries. Course provides understanding and skills associated with hands-on techniques used in the rehabilitation of athlete/patient from an injury state to a high level of function for return to sport, occupational activities, and/or general activities of daily living.

Pre-requisite(s): MSAT 6300

MSAT 6451 - Therapeutic Rehabilitation II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content of this course provides advanced understanding of therapeutic rehabilitation as it relates to designing, implementing, and instructing patients through a therapeutic rehabilitation program. This course provides advanced instruction and hands-on techniques in the rehabilitation of a patient from an injury state to a high performance level in sport, occupation, or other activities reflective of the patient's environment and movement goals.

Pre-requisite(s): MSAT 6450.

MSAT 6452 - Advanced Manual Therapy Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content of this course provides a specialized understanding of therapeutic rehabilitation as it pertains to manual therapy techniques. This course provides advanced instruction and hands-on techniques such as massage, soft-tissue mobilization, joint mobilizations, myofascial release, traction, and muscle energy techniques. This course will also introduce and discuss emerging rehabilitation techniques.

Pre-requisite(s): MSAT 6390.

MSAT 6480 - Advanced Principles of Evidence-Based Practice

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This course will expand students' understanding and application of Evidence-Based Practice (EBP) skills introduced in MSAT 6080. Students will be expected to read, critically analyze, and participate in the discussion of peer-reviewed research articles.

MSAT 6500 INT - Foundations of Athletic Training

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Through lecture, discussion, and laboratory experiences, the recognition and management of environmental illnesses will be examined. Explores the history and governance of the AT profession. Orients students to the graduate athletic training program including professional writing and clinical experiences.

MSAT 6501 INT - Graduate Practicum I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from prior coursework and demonstrate proficiency in orthopedic assessment and treatment. Students will participate in clinical rotations and other clinical experiences.

Pre-requisite(s): MSAT 6500.

MSAT 6502 INT - Graduate Practicum II

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from prior coursework and demonstrate proficiency in orthopedic assessment and treatment. Students will participate in clinical rotations and other clinical experiences.

Pre-requisite(s): MSAT 6501.

MSAT 6503 INT - Graduate Practicum III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from previous coursework and demonstrate proficiency in orthopedic assessment, therapeutic rehabilitation, and treatment. Students will participate in clinical rotations and other clinical experiences.

Pre-requisite(s): MSAT 6502

MSAT 6504 INT - Graduate Practicum IV

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from previous coursework and demonstrate proficiency in orthopedic assessment, therapeutic rehabilitation, manual therapy, and treatment. Students will participate in clinical rotations and other clinical experiences.

Pre-requisite(s): MSAT 6503

MSAT 6600 - Administration and Management in Athletic Training

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Provides an overview of the necessary policies, procedures, maintenance, and daily operation of athletic training facilities. Applies principles of facility design and planning, information management, legal and ethical considerations in health care, and professional development as it relates to athletic training.

Pre-requisite(s): MSAT 6502.

MSAT 6700 - Advanced Diagnostic Imaging for the Athletic Training Profession

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This course provides an opportunity for students to gain exposure to the diagnostic imaging techniques commonly used by the medical community in diagnosis of injury in the athlete. Upon completion of the course, students will be able to identify anatomy and understand terminology used by health professionals when discussing diagnostic images and have an advanced understanding of indications, contraindications, and clinical implications.

Pre-requisite(s): MSAT 6350.

MSAT 6750 - Evidence-Based Evaluation and Treatment of the SI Joint and Spine

Credits: (2)

Typically Taught Spring Semester: *1st Blk*

This course will focus on evidence-based evaluation and management of the spine and pelvis, including the cervical spine, thoracic spine, lumbar spine and the sacroiliac joints. The student must integrate anatomical structures, physiology principles, and evaluative

techniques to provide a basis for critical decision-making and management for these pathologies.

Pre-requisite(s): MSAT 6300, MSAT 6301.

MSAT 6810 - Adv. Wound Closure and Skill

Credits: (1)

Experimental Course, Contact Department for More Information

Graduate students in this course will learn advanced wound closure techniques such as skin adhesives and basic suturing. This course will also include advanced clinical skills related to reducing dislocations.

MSAT 6810 - Experimental Courses

Credits: (1-6)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated up to 3 credit hours. Refer to Experimental Courses.

MSAT 6998 - Master's Board of Certification (BOC) Exam Preparation

Credits: (1)

Typically Taught Fall Semester: Full Sem

This course prepares Graduate Athletic Training students to take the Athletic Trainer Board of Certification (BOC) Exam. This course will review content from all courses in the Master of Science in Athletic Training program as well as content from the program's prerequisite courses.

Pre-requisite(s): MSAT 6450.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

MSAT 6999 - Special Topics in Athletic Training

Credits: (1-3)

Typically Taught Spring Semester: Full Sem

The profession of Athletic Training evolves quickly and frequently new skills and techniques are required. This course will present cutting edge athletic training skills and concepts.

Master of Science in Criminal Justice

MCJ 6000 - Criminal Justice Statistics

Credits: (3)

Typically Taught Fall Semester: Full Sem-Online

Typically Taught Spring Semester: Full Sem-Online

Criminal Justice Statistics is a focus on the role of data collection and analysis in formal, empirical research projects. The course begins with a review of statistical applications including measures of central tendency, dispersion, and hypothesis testing. The course concludes with an examination of more complex analytical tools such as MANOVA, Factor Analysis, Path Analysis, and Logistical Regression. Students will review various styles of multivariate analysis in peer-reviewed scholarly literature as well as use computing resources to conduct their own multivariate analysis of a criminal justice dataset.

MCJ 6100 - Contemporary Criminal Justice

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course provides an analysis of the policies and practices of agencies of the criminal justice system including the police, prosecution,

courts and corrections. Additionally, the latest technology and developments in the field of criminal justice will be addressed.

MCJ 6110 - Research Methods in Criminal Justice

Credits: (3)

Typically Taught Summer Semester: Full Sem

Course teaches quantitative and qualitative research design, data collection and analysis techniques, and research presentation and dissemination methods. Descriptive and inferential statistics will be covered as well as basic computer applications in criminal justice.

MCJ 6120 - Theories of Crime and Delinquency

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course focuses on a review of classical and current theories of criminology and delinquency and the underlying assumptions of each. Advancements in profiling and classification as well as other applications of theoretical models will be studied.

MCJ 6130 - Law and Social Control

Credits: (3)

Typically Taught Spring Semester: Full Sem-Online

Course focuses on the nature of law and legal institutions and the relationships between law and social control. Concepts of law and justice from the perspectives of its effects on the American criminal justice system will be investigated as well as the public policy concerns of laws and their relationship to our society.

MCJ 6140 - Technology and Innovation in Criminal Justice

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course explores the latest developments in technology and innovations in criminal justice. Included will be current developments in forensic science, i.e. DNA and the use of computer applications in criminal justice. Specific topics will be adjusted as new technologies arrive. Emphasis will be on impact and management rather than the strict science of the protocols.

MCJ 6150 - Diversity Issues in Criminal Justice

Credits: (3)

Typically Taught Spring Semester: Full Sem

Course will sensitize and educate criminal justice professionals to issues of diversity. It explores the cross-cultural contact that criminal justice professionals have with citizens, victims, suspects, and co-workers, and the influence of culture, race and gender in the criminal justice field.

MCJ 6160 - Criminal Justice Policy Analysis

Credits: (3)

Typically Taught Fall Semester: Full Sem Online

Typically Taught Spring Semester: Full Sem Online

Typically Taught Summer Semester: Full Sem Online

Course focuses on crime as a political issue and examines how conflicting political philosophies influence criminal justice policy. Emphasis will be placed on how decisions in politics affect criminal justice organizations and how these decisions can be influenced by executive managers.

MCJ 6170 - Juvenile Justice & Delinquency

Credits: (3)

Typically Taught Fall Semester: Full Sem Online

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Course examines the origins and development of the juvenile justice system with particular emphasis on the current policies and practices of the agencies which process young offenders through the juvenile system. Course examines a variety of political initiatives designed to reduce the jurisdiction of the juvenile court, enhance the due process rights of juveniles, and create a more punitive approach in the juvenile justice system.

MCJ 6180 - Contemporary Legal Issues

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course exposes students to current law impacting criminal justice professionals. Topics will change depending upon current legal developments, but will include the general areas of corrections, law enforcement, employment, civil liability and criminal procedure.

MCJ 6190 - Legal Foundations of Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Broad survey of foundational legal topics relevant to criminal justice, including: criminal law, search and seizure, bail, right to counsel, self-incrimination, lineups, responsibilities of courtroom legal actors, speedy trial, impartial jury, plea bargaining, double jeopardy, sentencing law, inmate rights, juvenile law, death penalty law, and basic rules of evidence.

MCJ 6200 - Advanced Victimology

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This is a graduate-level seminar designed to provide an overview of key research areas in victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

MCJ 6210 - Judicial Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Course exposes students to the dynamics of the American criminal courthouse. Students will examine how defense attorneys, defendants, prosecutors, judges, juries and others interact and contribute to America's version of criminal case disposition. Course also examines the mechanics of criminal case processing, as well as how the court system is supposed to work, how it really does work, and the implications for American democracy.

MCJ 6220 - Contemporary Law Enforcement

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

From the response and investigation of crimes committed, to the theory and practice involved in crime prevention, this course studies the development, theory, history and contemporary organizational structure of America's law enforcement organizations.

MCJ 6230 - Contemporary Corrections

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Course provides an analysis of critical problems confronting contemporary adult corrections agencies. Course examines the problems of institutions, the affect of judicial intervention in corrections, alternatives to incarceration, and the political milieu in which this occurs.

MCJ 6250 - Topics in Criminal Justice

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

Course focuses on a special issue or topic in criminal justice. A new topic/issue will be selected each time the course is offered.

Number of Times this Course May Be Repeated: May be repeated with a maximum of 10 credit hours.

MCJ 6255 - Great Thoughts in Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

This course explores the broader context of criminal justice studies and concepts through the writings of significant authors and thinkers. Readings will focus on subjects such as justice, punishment, law and social control. Students will be expected to read extensively and participate in analysis and discussion.

MCJ 6260 - Graduate Readings

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Course allows the student to examine the scholarly literature on a subject of special interest under the supervision of faculty. Reading list and accompanying assignments must be approved by the supervising faculty member. Periodic progress meetings will be scheduled throughout the semester.

Number of Times this Course May Be Repeated: May be repeated once with a maximum of 6 credit hours.

MCJ 6810 - Ethics in Criminal Justice

Credits: (3)

Experimental Course, Contact Department for More

Information

Course provides an overview of the ethical issues and dilemmas affecting the modern American Criminal Justice System. In addition, the processes used to investigate and punish ethical violations among criminal justice professionals will be addressed.

MCJ 6810 - Experimental Course

Credits: (1-3)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

MCJ 6920 - Workshops and Conference

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Master of Science in Radiologic Sciences

MSRS 6100 - Research Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course assists students to critique, evaluate, and use research within their health science education careers. The research process including the theoretical/conceptual basis of health sciences research, methods, and critique strategies are examined in detail. There is a focus on evaluation of published research reports to evaluate the appropriateness of application of findings to clinical practice.

This course is cross-listed with NRSRG 6110.

MSRS 6120 - Research and Statistics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course focuses on the development of research skills used to evaluate data in support of the utilization of findings in clinical practice. Skills related to statistical analysis of quantitative data will be emphasized. Parametric and non-parametric methods of statistical analysis will be discussed.

This course is cross-listed with NRSRG 6120.

MSRS 6130 - Functional Hemodynamics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course offers the fundamental principles and indications for invasive hemodynamic monitoring. The indications, possible contraindications and possible complications involved with the insertion of central Venous lines, arterial lines, Pulmonary artery catheters and ICP monitoring with the expected CVP, RV, PAP, PCWP, CO and CI reading, waveforms and troubleshooting.

MSRS 6140 - Clinical Laboratory Correlation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course covers the concepts, analytical methods and clinical correlation of laboratory values as they relate to radiographic imaging, pathology and patient history.

MSRS 6200 - Population Health in Radiologic Sciences

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The course addresses the integration of population health concepts into strategic planning and managerial decision-making in health services organizations. Course work includes environmental analysis of health behaviors and lifestyle that impact demand on health care delivery systems. The student will evaluate models for integration of health services, preventive programs, demand

management, and policy issues affecting continuity of care. This course is cross-listed with MHA 6000.

MSRS 6263 - Advanced Diagnostic Services Pharmacology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to enhance student knowledge of pharmaceuticals and their impact on patients undergoing advanced imaging procedures. The content addresses the intent of pharmaceuticals and their effect on patient diseases, conditions, and physiology. After acquiring this content and the appropriate clinical skills, students will review the patients' past and current clinical condition and history to gain an understanding of medication significance relevant to the imaging procedure.

MSRS 6310 - Evaluation of the Cardiac System

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The content of this course is designed to enhance student knowledge of the diagnostic procedures performed in the cardiac catheterization laboratory to identify atherosclerotic coronary or peripheral artery disease, abnormalities of the heart muscle, and valvular or congenital heart abnormalities.

MSRS 6311 - Interventional Cardiac Procedures I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address coronary artery disease & myocardial infarction; The foundations of percutaneous coronary intervention techniques will be presented including indications, contraindications, and complications.

MSRS 6312 - Interventional Cardiac Procedures II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address pericardial and myocardial disease, heart failure and cardiogenic shock. The principles of hemodynamic data collection techniques will be presented including pressure pathology, waveform interpretation and cardiac output. Course content will also include mechanical circulatory support technologies such as the left ventricular assist devices (LVAD) and the intra-aortic balloon pump (IABP).

MSRS 6313 - Interventional Cardiac Procedures III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: Full Sem

This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address valvular disease, septal defects, and vascular disease. Transcatheter structural heart repair devices deployed in the cath lab have largely replaced open-heart surgery as the therapy of choice and many labs are incorporating vascular procedures into cardiac cath. Patient preparation, medical instrumentation, and performance of these procedures will be presented.

MSRS 6403 - Evaluation of the Osseous System**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Imaging evaluation of pathological conditions, abnormalities and anomalies of the osseous system.

MSRS 6413 - Evaluation of the Chest**Credits: (3)****Typically Taught Spring Semester: Full Sem**

Imaging evaluation of pathological conditions, abnormalities and anomalies of the chest.

MSRS 6423 - Evaluation of the Abdomen and GI System**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Imaging evaluation of pathological conditions, abnormalities and anomalies of the abdomen and gastrointestinal system.

MSRS 6433 - Evaluation of the Genitourinary System**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Imaging evaluation of pathological conditions, abnormalities and anomalies of the genitourinary system.

MSRS 6443 - Clinical Pathways**Credits: (3)****Typically Taught Spring Semester: Full Sem**

Studying clinical pathways for patients based on disease processes and trauma.

MSRS 6450 - Managing Health Information**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Introductory course that provides basic vocabulary and principles of modern information architectures. Computer networking and communication technologies needed to support modern information infrastructures. Differences between integrated and quilted systems are examined. Emphasis on management and use of information to support management decision making.
This course is cross-listed with MHA 6450.

MSRS 6453 - Evaluation/CNS and Facial Structures**Credits: (3)****Typically Taught Spring Semester: Full Sem**

Imaging evaluation of pathological conditions, abnormalities and anomalies of the central nervous system and facial structures.

MSRS 6463 - Problem Patient Management**Credits: (3)****Typically Taught Fall Semester: Full Sem**

Determination of pathological conditions utilizing problem-solving case studies.

MSRS 6473 - Non-vascular Invasive Imaging**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

Patient preparation and student performance of medical imaging non-vascular invasive procedures.

MSRS 6483 - Musculoskeletal Sonography**Credits: (3)****Typically Taught Fall Semester: Full Sem**

The (MSK) Sonography course will provide concepts in musculoskeletal anatomy and sonographic scanning technique and protocols necessary to produce and evaluate diagnostic images in the clinical setting for diagnosis of musculoskeletal pathology.

MSRS 6493 - Advanced 3D Medical Imaging**Credits: (3)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem**

The Advanced 3D Medical Imaging course will provide instruction on the creation, manipulation, and printing of three-dimensional data-sets of different anatomical parts of the body. The data-sets will originate from diagnostic images (provided by the department or the student), particularly Magnetic Resonance Imaging (MRI) and Computer Tomography (CT) images. The course will include a hands-on learning lab where the student will use software to create a three-dimensional digital image and a three-dimensional print of an anatomical body part.

MSRS 6501 - Advanced Practice Simulation I**Credits: (1)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

Advanced imaging simulation courses are designed to help students develop the knowledge and cognitive skills required for the performance of advanced imaging clinical assignments.

MSRS 6502 - Advanced Practice Simulation II**Credits: (1)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

Advanced imaging simulation courses help students develop the knowledge and cognitive skills required for the performance of advanced medical imaging clinical assignments.

MSRS 6503 - Advanced Practice Simulation III**Credits: (1)****Typically Taught Fall Semester: Full Sem****Typically Taught Spring Semester: Full Sem****Typically Taught Summer Semester: Full Sem**

Advanced imaging simulation courses help students develop the knowledge and cognitive skills required for the performance of advanced medical imaging clinical assignments.

MSRS 6850 - Study Abroad

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students will gain knowledge and cultural experiences developed to address historical, community, political, economic, educational, geographical, and literary/artistic variables.

MSRS 6860 INT - Clinical Preceptorship I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Experience in a radiology department. Consent of instructor needed.

MSRS 6861 INT - Clinical Preceptorship II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Continuation of MSRS 6860.

MSRS 6862 INT - Clinical Preceptorship III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Continuation of MSRS 6861.

MSRS 6863 - Vascular Invasive Imaging

Procedures

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Patient preparation and performance of medical imaging vascular invasive procedures are presented.

MSRS 6900 INT - Capstone: Clinical Fellowship & Portfolio

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Experience in a radiology department and interventional Radiology coordinated by Weber State University under the supervision of a radiologist or other Medical Practitioner. Review and evaluation of student competencies, clinical performance and professional development as required by certification.

MSRS 6910 - Transition to Practice

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Transition to practice provides students with a pertinent review of the content, skills, and processes necessary to gain and maintain imaging credentials and elevate professional practice. The course explores the fundamental aspects of professionalism, interprofessional communication, quality in practice, and professional resilience.

MSRS 6992 - Advanced Practice Seminar

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to enhance students' knowledge of current research and advances in the Radiologic Sciences.

MSRS 6999 - Master's Thesis in Radiologic Sciences

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will enroll for this course as they complete their Masters thesis under the direction of a departmental graduate advisor.

Departmental seminars and readings may also be assigned as part of this course. Students will finish their Master of Science in Radiologic Sciences degree by first completing a course of classroom or didactic study, then writing an original research monograph for their thesis.

This course is to be used during the time the student is writing the thesis and getting approval for the thesis.

Master of Science in Respiratory Therapy

MSRT 6010 - Medical Writing, Research Methods & Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will assist students in developing writing skills that meet professional journal requirements. Students will learn how to write research reports, abstracts, clinical case reports and scientific posters. Students will develop skills in effective editing, reviewing and proofreading. They will also develop skills that allow them to critically read published research articles in order to understand the validity and implications of the study results.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6020 - Medical Pathophysiology/Cardiopulmonary Case Reviews

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Advanced-practice pathology of the heart and lungs presented in case study format for articulating a working diagnosis, treatment, and follow-up care based on an abundance of patient assessment techniques including patient history/physical, signs, symptoms, and ancillary radiographic evidence. Medical information gathered from research database articles are presented to enhance a decision-making rationale for the treatment of cardiopulmonary diseases.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6030 - Adult Learning Theory & Simulation Strategies

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An application of teaching and learning theories for adult learners across variable clinical, laboratory, simulation lab, and in face-to-face interactions are explored within both traditional and non-traditional classroom settings. Teaching strategies and simulation designs are designed to support student learning for future respiratory therapy educators and clinical instructors.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6130 - Evidence-based Practice

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course explores research-based evidence of best practices for advanced respiratory care practitioners (RCP's) by identifying important questions, i.e., medication, ventilation strategies, protocols, etc. in the evaluation, diagnosis, or treatment of patients suffering abnormalities of the cardiopulmonary system. A methodological approach to evaluate practice is explored through a systematic literature search whereby the evidence manifest through particular treatments of a population can be expected.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6140 - Applied Research in Respiratory Care

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Research is a fundamental part of healthcare. This course will explore research opportunities specifically in the field of respiratory care. Basic statistical concepts will be reviewed. Nominal, ordinal, and continuous methods will also be studied. Publishing the findings through an original research paper, an abstract, case report, and poster presentation will be a main focus for this course.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6410 - Certified Pulmonary Function Technologist (CPFT)

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Evaluation and assessment of pulmonary disease is an important skill for the advanced-practice respiratory care practitioner (RCP). Requisite to making an accurate diagnosis, practitioners must understand diagnostic measurements and recommend treatment of patients with specific pulmonary diseases. This course is essential to gain knowledge to pass the CPFT (NBRC) exam for Certified Pulmonary Function Technologists.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6420 - Sleep Disorders Specialty (SDS)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is essential to gain knowledge in the evaluation and treatment of sleep disorders in the context of a polysomnography lab and to pass the SDS (NBRC) credential for sleep disorder specialists.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6460 - Neonatal Pediatric Specialty (NPS)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course prepares the advanced-practice respiratory care practitioner (RCP) to optimally participate in the assessment, management, and care of newborn and pediatric populations. The course includes development, common disease pathology, pharmacology, and management of neonatal patients, emergency treatment, and evaluation of conditions and abnormalities of the cardiopulmonary systems. This course will prepare the practitioner for a national neonatal and pediatric specialty examination (NPS).

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6470 - Adult Critical Care Specialty (ACCS)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course prepares the advanced-practice respiratory care practitioner (RCP) to effectively evaluate, assess, manage and

provide appropriate care to critically ill adult patients. This course extensively covers advanced airway and cardiovascular management, mechanisms of respiratory failure, analysis of laboratory and imaging results, specialty medical gasses and pharmacological agents, management of patients with infectious disease and sepsis, assisting and performing advanced procedures, and end-of-life care in the adult population. This course will prepare the practitioner for an advanced critical care specialty credentialing examination (ACCS).

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6480 - Asthma Educator Specialty Credential (AE-C)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course prepares the advanced-practice respiratory care practitioner (RCP) to optimally educate patients and family members of patients suffering with asthma. The course includes disease pathophysiology, assessment, pharmacology, classification, and management of asthma based on severity, emergency treatment and evaluation of treatment programs. This course will prepare the practitioner for a national asthma education certification examination (AE-C).

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6700 - Capstone Project

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to be self-directed, faculty supervised culminating project specific to the educational track that the student has chosen within the MSRT program (Education, Research or Health Administration). The student will demonstrate their firm grasp of their educational track and their mastery of professional/scientific writing through the development of a research paper. This course requires that the student develop a research question, prepare a learning contract that outlines their approach to the research question, and complete 40 hours of documented time with a mentor(s) who have a minimum of a Master's degree in a related area or in performing original research. The student will also assemble a formative committee to act as a resource as the student develops the research project and summative committee to evaluate and validate the student's research. The formative and summative committees each consist of three professionals with a minimum of a Master's degree. The student will complete a Masters level research paper that is a minimum of 40-50 pages in APA format.

Pre-requisite(s): Acceptance into MSRT program.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

Master of Taxation

MTAX 6210 - Business Law and Legal Liability

Credits: (3)

A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MTAX 6400 - Tax Research & Procedure

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Techniques in effective tax research, planning and communication.
Also includes a discussion of tax policy.

MTAX 6405 - Accounting for Income Taxes

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Cash and accrual methods of accounting, inventories, accounting for book/tax disparities, income statement tax provision, original issue discount, depreciation methods, amortization, long-term contracts, changes in methods of accounting, accounting periods, capitalization vs. expense, and other topics critical to bridging financial accounting and tax accounting.

MTAX 6410 - International Taxation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Principles of U.S. taxation applicable to inbound and outbound international transactions. Also covers issues related to international tax treaties.

MTAX 6430 - Advanced Individual Taxation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk or 2nd Blk*

In-depth coverage of advanced individual tax issues such as alternative minimum tax, loss limitations, real estate transactions, stock options, employment taxes, tax credits, charitable contributions, interest classification, related-party transactions, and timing of income/loss recognition.

MTAX 6435 - State & Local Taxation/Federal Tax Practice

Credits: (3)

State income taxation, nexus, multijurisdictional operations, constitutional limitations, sales tax, excise tax, property tax; federal tax procedure, handling IRS audits, appeals, petitions to U.S. Tax Court, and other issues related to tax practice.

Note: This course is not currently offered.

MTAX 6437 - State & Local Tax/Exempt Orgs

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

State income taxation, nexus multijurisdictional operations, constitutional limitations, sales tax, excise tax, property tax; types of exempt organizations, application for exempt status, public charities, private foundations, unrelated business income tax, and compliance issues.

MTAX 6445 - Gifts, Estates, Trusts and Exempt Organizations

Credits: (3)

Principles of estate & gift taxation, exclusions, deductions, valuation issues, the unified credit, wills and intestate succession, income in respect of a decedent, income taxation of estates and trusts, income and estate/gift issues affecting donations to charity, nonprofit corporations, public charities, private foundations, excise taxes, unrelated business income, and compliance issues for tax-exempt entities.

Note: This course is not currently being offered.

MTAX 6450 - Real Estate Taxation

Credits: (3)

In-depth study and analysis of the taxation of real estate transactions. Covers topics such as like-kind exchanges, personal residences, real estate development, passive loss rules, involuntary conversions, casualty losses, and real estate investment trusts.

Note: Course not currently being offered.

MTAX 6455 - Gifts, Estates, Trusts & Real Estate Taxation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Principles of gift and estate taxation. Includes a discussion of wills and the income taxation of estates and trusts. Also covers taxation of real estate transactions including like-kind exchanges, involuntary conversions, leases, personal residences, real estate development, and cost segregation.

MTAX 6460 - Advanced Corporate Taxation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk or 2nd Blk*

Income taxation of corporations and shareholders. Includes in-depth analysis of tax issues related to corporate formations, operations, distributions and liquidations. Also covers the taxation of S corporations.

MTAX 6470 - Advanced Partnership Taxation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk or 2nd Blk*

Income taxation of partnerships and partners. Includes in-depth analysis of tax issues related to partnership formations, operations, distributions and liquidations. Also covers issues related to limited liability companies.

MTAX 6480 - Retirement Planning & Employee Benefits

Credits: (3)

Consideration of tax, insurance, investment and estate planning principles from a retirement perspective. Includes discussion of sources of retirement income and anticipated retirement expenses.

Note: Course not currently being offered.

MTAX 6485 - Retirement Plans & Exempt Organizations

Credits: (3)

Discussion of IRAs, Roth IRAs, defined contribution plans such as 401(k)s. Qualification of retirement plans as tax-favored under the Internal Revenue Code. Discussion of retirement plans available to small business. In-depth discussion of nonprofit organizations, charities, qualifying for tax-exempt status, private foundations, unrelated business income, and tax compliance for exempt entities.

Note: This course is not currently offered.

MTAX 6487 - Retirement Plans

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Discussion of qualified retirement plans including defined contribution and defined benefit plans. Also includes discussion of IRA's, Roth IRA's, and other retirement-related, tax favored investments provided for in the Internal Revenue Code.

MTAX 6490 - Mergers, Acquisitions and Consolidations

Credits: (3)

Typically Taught Summer Semester: *1st Blk or 2nd Blk*

In-depth coverage of advanced corporate tax topics such as tax-free corporate reorganizations, taxable stock acquisitions, taxable asset acquisitions, affiliated groups, consolidated returns, and corporate tax shelters.

Pre-requisite(s): (Recommended) MTAX 6460.

MTAX 6495 - Graduate Tax Internship

Credits: (1-3)

Typically Taught: Various

A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses. Credit/No Credit.

Pre-requisite(s): Admission to the MAcc or MTax program; approval by department chair and program director.

Number of Times this Course May Be Repeated: Can be repeated once up to three credit hours.

MTAX 6750 - Study Abroad

Credits: (3)

Variable Title

This course integrates international travel and site visits with the study of accounting and international business practices. Through readings, assignments, discussions, and visits to important business and cultural sites, the course builds understanding and competence as it relates to the history of accounting, the global accounting profession, and the business and cultural environment in the host countries.

Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

Mathematics

MATH 1020 - Fundamentals of Geometry

Credits: (3)

An introduction to the definitions, methods, and logic of geometry.

Pre-requisite(s): MATH 0990 or placement test.

Note: This course is offered as needed.

MATH 1030 QL - Contemporary Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Topics include geometry, statistics, probability, and growth and form.

Pre-requisite(s): MATH 0970 or MATH 1010 or ACT Math score 21 or higher or placement test.

MATH 1040 QL - Introduction to Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Basic concepts of probability and statistics including data collection and analysis, correlation and regression, probability, discrete and continuous distributions (binomial, normal and t distributions),

estimation and hypothesis testing, with an emphasis on applications and understanding of the main ideas.

Pre-requisite(s): MATH 1010, Math ACT score 23 or higher, Placement Test, MATH 1050, MATH 1080, or MATH 1210 and above.

MATH 1050 QL - College Algebra

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

This course covers a survey of college mathematics and is also a preparatory course for calculus. Topics from continuous mathematics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems. Topics from discrete mathematics include matrices, matrix algebra and inverses, and determinants.

Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1060 - Trigonometry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is true to its Greek title root "triangle-measure" and is a preparatory course for calculus. Topics include trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. Complex numbers, polar coordinates and vectors are also introduced.

Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1080 QL - Pre-calculus

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is an accelerated course that covers the main topics of College Algebra and Trigonometry. It is a single course prerequisite to calculus and is primarily for those students that need a review. Topics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems; matrices, matrix algebra and inverses, determinants, sequences and series; trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. In addition, conics and polar coordinates are also covered.

Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1110 QL - Calculus Concepts and Applications

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A conceptual understanding of the fundamental notions of calculus (limits, continuity, differentiation and integration). Application of these ideas to economics, the social and life sciences, and natural resource modeling is central to the course.

Pre-requisite(s): MATH 1050 QL or MATH 1080 QL or placement test.

MATH 1200 - Mathematics Computer Laboratory

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Solving mathematics problems at the appropriate level for students' backgrounds using a computer algebra system.

Pre-requisite(s): MATH 1050 and MATH 1060, or MATH 1080, or

Pre-requisite/Co-requisite: MATH 1210.

MATH 1210 - Calculus I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Limits, continuity, differentiation, integration.

Pre-requisite(s): MATH 1050 and MATH 1060 or MATH 1080 or placement test.

Co-Requisite(s): The ability to use a computer algebra system.

MATH 1220 - Calculus II

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Transcendental functions, techniques of integration, analytic geometry, infinite series.

Pre-requisite(s): MATH 1210.

Co-Requisite(s): The ability to use a computer algebra system.

MATH 1630 - Discrete Mathematics Applied to Computing

Credits: (4)

An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include logic, proofs, sets, functions, counting, relations, graphs, trees, Boolean algebra, and models of computation. This course includes programming.

Pre-requisite(s): MATH 1050 or MATH 1080, and CS 1400 or ability to program in a contemporary computer language and the consent of the instructor.

Note: This course is offered as needed.

MATH 1810 - Co-requisite Contemporary Math

Credits: (6)

Experimental Course, Contact Department for More Information

Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Mathematical material in this course will center on topics including: proportional reasoning, linear and exponential modeling, geometry, scaling factors, probability and expectations, statistical inference, and financial mathematics. Material will be introduced to students in the form of a real life problem and the mathematics necessary to solve that problem will be developed. QL math course.

MATH 1810 - Experimental Courses

Credits: (1-6)

Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Mathematical material in this course will center on topics including: proportional reasoning, linear and exponential modeling, geometry, scaling factors, probability and expectations, statistical

inference, and financial mathematics. Material will be introduced to students in the form of a real life problem and the mathematics necessary to solve that problem will be developed. Refer to Experimental Courses.

Note: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

MATH 2010 - Arithmetic for Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including arithmetic, number theory, and problem solving.

Pre-requisite(s): ACT score of 23 or better, Accuplacer CLM of 50 or better, MATH 1010 with a C or better, MATH 0970 with a C or better or completion of any math course MATH 1030 or above with a C or better.

MATH 2015 - Algebra and Functions for Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including variables, expressions, equations and inequalities, and functions. This course includes recitation and hands on activities. The goal is to present mathematical concepts and effective teaching strategies in an integrated manner. Underlying goals are to stimulate variety in solution processes, provide concrete, pictorial and abstract models, develop communication, collaboration and math reading skills in an environment rich with manipulatives and technology.

Pre-requisite(s): MATH 2010.

MATH 2020 QL - Geometry for Elementary Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Prospective elementary school teachers revisit mathematics topics from the elementary school curriculum and examine them from an advanced perspective including probability, statistics, geometry and measurement.

Pre-requisite(s): MATH 2015

MATH 2120 - Euclidean Geometry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Exploration of Euclidean geometry, from basic concepts to advanced theorems.

Pre-requisite(s): MATH 1210 or consent of instructor.

MATH 2210 - Calculus III

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Vector algebra, vector valued functions, multivariable functions, partial derivatives, multiple integrals, line integrals, integration in

vector fields.

Pre-requisite(s): MATH 1220.

MATH 2250 - Linear Algebra and Differential Equations

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.

Pre-requisite(s): MATH 1220.

MATH 2270 - Elementary Linear Algebra

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Systems of linear equations, matrices, vector spaces, eigenvalues linear transformations, orthogonality.

Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 2280 - Ordinary Differential Equations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Methods of solution for ordinary differential equations. Exact equations, linear equations Laplace Transforms, series solutions.

Pre-requisite(s): MATH 1220.

MATH 2410 - Foundations of Probability and Statistics

Credits: (3)

An introduction to probability and statistics with special emphasis on concepts in the K-12 school curriculum.

Pre-requisite(s): MATH 1210 or MATH 1050 and consent of instructor.

Note: This course is offered as needed.

MATH 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times for a maximum of 4 credit hours.

Note: This course is offered as needed.

MATH 2990 - Seminar in Mathematics

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Joint sessions of students and faculty dedicated to the discussion of topics in mathematics and mathematics education. Students will attend seminars, participate in discussions, and write reviews of the presentations.

Pre-requisite(s): MATH 1210 and ENGL 2010, or consent of instructor.

Number of Times this Course May Be Repeated: The course may be taken 5 times and up to 6 credits.

MATH 3050 - History of Mathematics

Credits: (3)

A survey of the history of mathematics and its impact on world culture with emphasis on mathematical motivations, original methods and applications.

Pre-requisite(s): MATH 1220.

Note: Check with Department for course availability.

MATH 3110 - Foundations of Algebra

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to Abstract Algebra, Number Theory and Logic with an emphasis on problem solving and proof writing.

Pre-requisite(s): MATH 1210.

MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Axiomatic development of geometry; Euclidean and non-Euclidean.

Pre-requisite(s): MTHE 2120 or instructor consent.

MATH 3160 - Number Theory

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.

Pre-requisite(s): MATH 1210.

MATH 3270 - Linear Algebra

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Theory and applications of linear algebra including abstract vector spaces and canonical forms of matrices.

Pre-requisite(s): MATH 2270.

MATH 3280 - Dynamical Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Linear and nonlinear systems of differential equations, qualitative behavior and stability of solutions, applications.

Pre-requisite(s): MATH 2270 and MATH 2280.

MATH 3410 - Probability and Statistics I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introductory probability theory and mathematical statistics, including applications.

Pre-requisite(s): MATH 1220.

MATH 3420 - Probability and Statistics II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A continuation of MATH 3410-Introductory probability theory and mathematical statistics, including applications.

Pre-requisite(s): MATH 2210 and MATH 3410.

MATH 3450 - Advanced Statistical Methods

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This applied statistics course discusses study design, data exploration and visualization, choosing among statistical techniques, and the interpretation of statistical results. Analyses, including T-tests, ANOVA, regression and their non-parametric versions, will be performed on real-world data sets using statistical software.

Pre-requisite(s): MATH 3410 or MATH 1040 and a three credit 3000 or 4000 level course with one of the following designations: MATH, BTNY, CHEM, PHYS, GEO, MICR, ZOOL, CS, ECE, ME, FIN, ECON. Students may also enroll with permission of instructor.

MATH 3550 - Introduction to Mathematical Modeling

Credits: (3)

Typically Taught Fall Semester: Full Sem

Formulation, solution and interpretation of mathematical models for problems occurring in areas of physical, biological and social science.

Pre-requisite(s): MATH 1200, MATH 1220, and Co-requisite MATH 2270 or MATH 2280.

MATH 3610 - Graph Theory

Credits: (3)

Typically Taught Fall Semester: Full Sem

Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.

Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3620 - Enumeration

Credits: (3)

Typically Taught Spring Semester: Full Sem

Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.

Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3710 - Boundary Value Problems

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Fourier series and the method of separation of variables. Heat, wave, and potential equations, Sturm-Liouville problems, orthogonal functions, special functions.

Pre-requisite(s): MATH 2210 and [MATH 2250 or MATH 2280].

MATH 3810 - Complex Variables

Credits: (3)

Analysis and applications of a function of a single complex variable. Analytic function theory, path integration, Taylor and Laurent series and elementary conformal mapping are studied.

Pre-requisite(s): MATH 2210.

Note: This course is offered in Fall or Spring on alternating years.

MATH 4010 - Capstone Mathematics for High School Teachers

Credits: (3)

Typically Taught Fall Semester: Full Sem

Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from algebra and geometry.

Pre-requisite(s): MATH 3110 and MATH 3120.

MATH 4110 - Modern Algebra I

Credits: (3)

Typically Taught Fall Semester: Full Sem

Logic, sets, and the study of algebraic systems including groups, rings, and fields.

Pre-requisite(s): MATH 2270 and MATH 3110.

MATH 4120 - Modern Algebra II

Credits: (3)

Typically Taught Spring Semester: Full Sem

A continuation of MATH 4110: advanced topics from groups, rings, and fields including the Sylow theorems and Galois theory.

Pre-requisite(s): MATH 4110.

MATH 4160 - Introduction to Mathematical Cryptography

Credits: (3)

An introduction to the mathematical concepts on which cryptography is based and an introduction to basic cryptographic systems. The course will typically be offered every other year.

Pre-requisite(s): (MATH 3110 or 3160 or 4110 or 3410) and CS 1400.

Note: This course is offered as needed.

MATH 4210 - Introductory Real Analysis I

Credits: (3)

Typically Taught Fall Semester: Full Sem

Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.

Pre-requisite(s): MATH 2210, MATH 2270, and MATH 3110.

MATH 4220 - Introductory Real Analysis II

Credits: (3)

Typically Taught Spring Semester: Full Sem

A continuation of MATH 4210-Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.

Pre-requisite(s): MATH 4210

MATH 4320 - Topology

Credits: (3)

Typically Taught Spring Semester: Full Sem

Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.

Pre-requisite(s): MATH 2210, MATH 2270 and MATH 3110.

MATH 4400 - Statistical Analysis of Big and Small Data

Credits: (3)

This course combines and develops the knowledge and skills used in big and small data using both theory and application. The course deals with methods to analyze data with varying volume, velocity, and variety and their associated challenges. Topics such as data mining, predictive analytics, heteroskedasticity of data, and data visualization will be explored.

Pre-requisite(s): MATH 3410 or (MATH 1220 and MATH 1040).

Pre-requisite/Co-requisite: CS 1400 or CS 2550.

Note: This course is offered as needed.

MATH 4610 - Numerical Analysis I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.

Pre-requisite(s): MATH 2270 and an ability to use a programming language

MATH 4620 - Numerical Analysis II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A continuation of MATH 4610-Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.

Pre-requisite(s): MATH 4610

MATH 4710 - Partial Differential Equations

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Partial differential equations. First and second order equations, characteristics and classifications, methods of solution, applications.

Pre-requisite(s): MATH 3710.

MATH 4750 - Topics in Mathematics

Credits: (2-4)

Variable Title

This course will vary with the demand.

Pre-requisite(s): Consent of the instructor.

Number of Times this Course May Be Repeated: May be taken more than once for a maximum of 8 credit hours.

Note: This course is offered as needed.

MATH 4910 - Senior Research Project

Credits: (3)

Mathematical research project for seniors. Students may not register for this course the last semester before they intend to graduate.

Pre-requisite(s): Instructor approval.

Note: This course is offered as needed.

MATH 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Note: This course is offered as needed.

Mathematics Education

MTHE 2120 - Geometry from a Teaching Perspective

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Students will explore topics in Euclidean geometry, beginning with concepts in secondary geometry standards and extending beyond these topics. These ideas will be interwoven with strategies for teaching geometry at the secondary level.

Pre-requisite(s): MATH 1210.

MTHE 3010 - Methods and Technology for Teaching Secondary Mathematics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Basic topics in secondary mathematics are taught to prospective teachers using a variety of methods of presentation and up-to-date technology, including the use of graphing calculators and computers.

Pre-requisite(s): MATH 1220 and at least 6 credit hours of MATH courses numbered 3000 or above.

MTHE 3020 - Methods and Technology for Teaching Advanced Secondary Mathematics

Credits: (3)

Aspects of teaching advanced mathematics in a high school setting, including methods of presentation, exploration, assessment and classroom management. An emphasis is placed on the use of computers, graphing calculators, and other technology.

Pre-requisite(s): MTHE 3010.

Note: This course is offered as needed.

MTHE 3060 - Probability and Statistics from a Teaching Perspective

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will explore topics in probability and statistics, beginning with concepts in middle and high school standards and extending to the college level. These ideas will be interwoven with strategies for teaching probability and statistics at the appropriate levels.

Pre-requisite(s): MATH 1210 or instructor consent.

MTHE 3070 - Geometry for Elementary Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Basic Geometry with an emphasis on the topics and methods pertinent to prospective elementary school teachers.

Pre-requisite(s): MATH 2020.

MTHE 3080 - Number Theory for Elementary Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Survey of elementary number theory concepts with applications to topics of interest plus teaching suggestions.

Co-Requisite(s): MATH 2020

MTHE 4010 - Capstone Mathematics for High School Teachers II

Credits: (3)

Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from geometry.

Pre-requisite(s): MTHE 4110.

Note: This course is offered as needed.

MTHE 4040 - Mathematical Problem Solving for Elementary Teachers

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Mathematical problem solving, discussion of process, writing solutions, and writing extensions.

Co-Requisite(s): MATH 2020

MTHE 4100 - Intuitive Calculus for Elementary Teachers

Credits: (3)

An active, hands-on, discovery approach to understanding the three main components of calculus (limits, integration, differentiation), and how they relate to the improved teaching of elementary school mathematics. This course is no longer offered.

Pre-requisite(s): MATH 2010 and MATH 2020.

MTHE 4110 - Algebra from a Teaching Perspective

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Students will explore topics in algebra, beginning with concepts in middle and high school standards and extending to college level algebra. These ideas will be interwoven with strategies for teaching algebraic ideas at the middle and high school level.

Pre-requisite(s): MATH 3110.

MTHE 4700 - Senior Project in Elementary Mathematics Teaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Projects in preparing, teaching and revising sequential mathematics lessons for elementary students.

Pre-requisite(s): MATH 2010 and MATH 2020.

MTHE 5010G - Methods and Technology for Teaching Secondary Mathematics

Credits: (3)

Topics in secondary mathematics are taught to in-service teachers using a variety of methods and technology to make them better prepared for teaching secondary mathematics. Expository presentations about a current mathematics education research area are expected.

Note: This course is offered as needed.

MTHE 5210G - Calculus with Analytic Geometry

Credits: (4)

Analytic geometry, differentiation, integration, and applications.

Pre-requisite(s): MATH 1050 and MATH 1060 or MATH 1080 or placement test.

Note: This course is offered as needed.

MTHE 5220G - Calculus with Analytic Geometry

Credits: (4)

Transcendental functions, techniques of integration, conic sections, polar coordinates, infinite series, introduction to partial derivatives.

Pre-requisite(s): MTHE 5210G.

Note: This course is offered as needed.

MTHE 5230G - Mathematics Computer Laboratory

Credits: (1)

Computer solution of mathematics problems.

Pre-requisite(s): Approval of instructor.

Suggested Requisite(s): May be taken concurrently with any lower division mathematics course.

MTHE 5310G - Multivariable and Vector Calculus

Credits: (4)

Vectors, vector valued functions, motion in space, multivariable functions, partial derivatives, multiple integrals, integration in vector fields.

Pre-requisite(s): MTHE 5220G.

Note: This course is offered as needed.

MTHE 5350G - Linear Algebra and Differential Equations

Credits: (4)

Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.

Pre-requisite(s): MTHE 5220G.

Note: This course is offered as needed.

MTHE 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

This course provides professional development workshops for inservice K-12 teachers around the teaching and learning of mathematics. This is a flexible credit hour course ranging from 1-6 credit hours.

Number of Times this Course May Be Repeated: May be repeated up to 24 credit hours.

Note: This course is offered as needed.

MTHE 6120 - Euclidean and Non-Euclidean Geometry

Credits: (3)

Axiomatic development of geometry; Euclidean and non-Euclidean.

Pre-requisite(s): MTHE 5220G.

Note: This course is offered as needed.

MTHE 6160 - Number Theory

Credits: (3)

An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.

Pre-requisite(s): MTHE 5210G.

Note: This course is offered as needed.

MTHE 6350 - Linear Algebra

Credits: (3)

Theory and applications of linear algebra including abstract vector spaces and canonical forms of matrices.

Pre-requisite(s): MTHE 5350G.

Note: This course is offered as needed.

MTHE 6410 - Probability and Statistics

Credits: (3)

The mathematical content of probability and statistics at the undergraduate post calculus level. An understanding of the application of probability and statistics is also stressed.

Co-Requisite(s): MTHE 5310G or prerequisite of MTHE 5220G and consent of instructor.

Note: This course is offered as needed.

MTHE 6420 - Probability and Statistics

Credits: (3)

The mathematical content of probability and statistics at the undergraduate post calculus level. An understanding of the application of probability and statistics is also stressed.

Pre-requisite(s): MTHE 6410

Note: This course is offered as needed.

MTHE 6550 - Introduction to Mathematical Modeling

Credits: (3)

Formulation, solution and interpretation of mathematical models for problems occurring in areas of physical, biological and social science.

Pre-requisite(s): MTHE 5310 and 5350.

Note: This course is offered as needed.

MTHE 6610 - Graph Theory

Credits: (3)

Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.

Pre-requisite(s): MTHE 5210.

Note: This course is offered as needed.

MTHE 6620 - Enumeration

Credits: (3)

Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.

Pre-requisite(s): MTHE 5210.

Note: This course is offered as needed.

MTHE 6630 - Boundary Value Problems

Credits: (3)

Series solutions, Fourier series, separation of variables, orthogonal functions.

Pre-requisite(s): MTHE 5350.

Note: This course is offered as needed.

MTHE 6640 - Differential Equations II

Credits: (3)

Matrix approach to linear systems, nonlinear systems, Laplace transforms.

Pre-requisite(s): MTHE 5350.

Note: This course is offered as needed.

MTHE 6650 - Complex Variables

Credits: (3)

Analysis and applications of a function of a single complex variable. Analytic function theory, path integration, Taylor and Laurent series and elementary conformal mapping are studied.

Pre-requisite(s): MTHE 5310G and MTHE 5350G.

Note: This course is offered as needed.

MTHE 6660 - Modern Algebra I

Credits: (3)

Logic, sets, and the study of algebraic systems including groups, rings, and fields.

Pre-requisite(s): MTHE 5350G.

Note: This course is offered as needed.

MTHE 6670 - Modern Algebra II

Credits: (3)

Continuation of MATH 4110: advanced topics from groups, rings, and fields including the Sylow theorems and Galois theory.

Pre-requisite(s): MTHE 6660.

Note: This course is offered as needed.

MTHE 6680 - Introductory Real Analysis

Credits: (3)

Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.

Pre-requisite(s): MTHE 5310G and MTHE 5350G

Note: This course is offered as needed.

MTHE 6690 - Introductory Real Analysis

Credits: (3)

Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.

Pre-requisite(s): MTHE 6680

Note: This course is offered as needed.

MTHE 6700 - Topology

Credits: (3)

Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.

Pre-requisite(s): MTHE 5310G and MTHE 5350G.

Note: This course is offered as needed.

MTHE 6710 - Numerical Analysis

Credits: (3)

Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.

Pre-requisite(s): MTHE 5350G and CS 1410 or other approved programming language

Note: This course is offered as needed.

MTHE 6720 - Numerical Analysis

Credits: (3)

Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.

Pre-requisite(s): MTHE 6710

Note: This course is offered as needed.

MTHE 6730 - Partial Differential Equations

Credits: (3)

First order equations, characteristics and classifications, Green's identities, models, transforms.

Pre-requisite(s): MTHE 6630.

Note: This course is offered as needed.

MTHE 6740 - Mathematics for Teaching - Numbers and Operations

Credits: (3)

Provides teachers a deeper understanding of our number system and relate its structure to computation, arithmetic, algebra and problem solving. Course topics will include number, number sense, computation, and estimation and instructional strategies to facilitate

the instruction of this content for elementary teachers.

Pre-requisite(s): A Bachelor's degree and at least one year of experience teaching elementary or junior high school mathematics.

Note: This course is offered as needed.

MTHE 6750 - Mathematics for Teaching - Rational Numbers and Proportional Reasoning

Credits: (3)

Provides practicing teachers a deeper understanding of rational numbers, operations with rational numbers, and proportionality, and instructional strategies to facilitate the instruction of this content for elementary students.

Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

MTHE 6760 - Mathematics for Teaching - Algebraic Reasoning

Credits: (3)

Provides practicing teachers a deeper understanding of algebraic expressions, equations, functions, real numbers, and instructional strategies to facilitate the instruction of this content for elementary students.

Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

MTHE 6770 - Mathematics for Teaching - Geometry and Measurement

Credits: (3)

Provides practicing teachers a deeper understanding of the geometry and measurement content that exists in the state core and instructional strategies to facilitate the instruction of this content.

Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

MTHE 6780 - Mathematics for Teaching - Problem Solving and Data Analysis

Credits: (3)

This course will develop a firm problem-solving foundation. Using skills and strategies applied in mathematical contexts practicing teachers will learn to think, work with others, present solutions, and facilitate problem solving instruction in the classroom. This course will also provide practicing teachers a deeper understanding of probability and statistics content in the state core and instructional strategies to facilitate the instruction of this content.

Pre-requisite(s): A Bachelor's degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

Mechanical Engineering

ME 3040 - Dynamic System Modeling

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Fundamentals of analysis, design and control of physical engineering systems. Analytical and numerical modeling of mechanical, electrical, fluid and thermal systems with applications.

Pre-requisite(s): MATH 2250 and ENGR 2080.

ME 3050 - Machine Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Design and analysis of machine elements and machines. Material selection, connections and joints, shafts and bearings, fits and tolerances, fasteners, material failure and reliability.

Pre-requisite(s): ENGR 2080 and ENGR 2140.

ME 3060 - Sensors, Instrumentation and Control Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamental principles of sensors for the measurement of physical quantities. Instrumentation for processing the inputs and outputs of sensor signals. Control of mechanical, electrical and thermal systems. Lecture plus laboratory.

Pre-requisite(s): ME 3040 and ME 3050.

ME 3300 - Fluid Mechanics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Fundamental principles of fluid statics and dynamics. Fluid properties, flow regimes, pressure, velocity, flow rate, internal and external flow, and dimensional analysis. Applications of fluid mechanics. Lecture plus laboratory.

Pre-requisite(s): MATH 1220, ENGR 2080 and ENGR 2300.

ME 3350 - Engineering Computing

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Introduction to engineering computing with applications to the analysis and design of engineering systems using an industry-standard software platform.

Pre-requisite(s): MATH 2250.

ME 3500 - Numerical Methods for Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamental methods for the numerical solution of engineering problems. Topics include root finding, interpolation, curve fitting, differentiation, integration, differential equations and curve fitting.

Pre-requisite(s): MATH 3710, ME 3040 and ME 3350.

ME 4000 - Heat Transfer

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamental principles of conduction, convection and radiation. Heat transfer with phase change, heat exchangers, and applications of heat transfer. Lecture plus laboratory.

Pre-requisite(s): MATH 2250 or MATH 2280 and ME 3300.

ME 4100 - Senior Project I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A mechanical engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.

Pre-requisite(s): Departmental permission.

ME 4150 - Vibrations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Fundamental principles of free and forced vibrations of discrete linear systems with and without damping. Multiple-degree-of-freedom systems, continuous systems, shock isolation and vibration control.

Pre-requisite(s): MATH 2250 and ENGR 2080.

ME 4200 - Senior Project II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continuation of ME 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.

Pre-requisite(s): ME 4100.

ME 4250 - Finite Element Analysis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to the finite element method. Survey of FEA theory, including element formulation, stiffness matrix operations, shape functions, etc. Application and use of commercial FEA software for engineering design and analysis.

Pre-requisite(s): MATH 2250 and ME 3050.

ME 4300 - Material Failure Analysis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of material failure modes, including fatigue, fracture, wear and corrosion. Introduction to damage tolerant design methodologies. Case studies in material failure.

Pre-requisite(s): ENGR 2160 and ME 3050.

ME 4350 - Advanced Mechanics of Materials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Advanced topics in mechanics of materials such as three-dimensional combined stress fields, stress concentrations, dynamic loads, torsion of non-circular members, plates and shells, stability and buckling of columns, and energy methods.

Pre-requisite(s): ENGR 2140.

ME 4400 - Aerodynamics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Airfoil theory, lifting bodies, boundary layers, lift and drag, compressible aerodynamics.

Pre-requisite(s): ME 3300.

ME 4450 - Aerospace Propulsion

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Design and analysis of gas turbine engines and rocket motors. Liquid and solid fuel propulsion systems. Thermodynamics of flow associated with aerospace propulsion systems. Introduction to fuel combustion processes.

Pre-requisite(s): ME 4000.

ME 4500 - Heating, Ventilating and Air-Conditioning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Principles of heating, ventilating and air-conditioning (HVAC) of buildings. Refrigeration systems and indoor thermal environmental control system analysis and design.

Pre-requisite(s): ME 4000.

ME 4550 - Robotics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The mechanics and dynamics of robots. Kinematics, kinetics and trajectories of motion. Instrumentation, sensors and control system theory of robotic systems. Programming of robotic systems. Human/robot interfaces and safety.

Pre-requisite(s): ME 3040.

ME 4800 - Individual Research Problems

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

With permission and under the direction of faculty, the student researches a specific problem in the mechanical engineering field.

Pre-requisite(s): Permission of department.

ME 4830 - Readings in Mechanical Engineering

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.

Pre-requisite(s): Permission of department.

ME 4890 - Cooperative Work Experience

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for engineering work experience. Permission of department required.

Pre-requisite(s): Permission of department.

ME 4900 - Special Topics

Credits: (1-3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

A special topic in mechanical engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.

Pre-requisite(s): Permission of department.

ME 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Academic credit for attendance at short courses, workshops, seminars, special training, etc.

Pre-requisite(s): Permission of department.

ME 4990 - Seminar in Mechanical Engineering

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Seminar is designed to prepare the student for professional engineering employment. Topics include resumes, interviewing techniques, engineering ethics, professionalism, patent law, social issues, lifelong learning, diversity, communication, timeliness, and continuous improvement. Lectures and presentations by faculty, staff, and guests from local engineering industry.
Pre-requisite(s): ME 4100.

Mechanical Engineering Technology

MET 1000 - Introduction to Mechanical Engineering Technology and Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introductory course for students majoring in mechanical engineering technology. The role of mechanical engineering technology and its place in the occupational spectrum. The experimental and analytical tools used in mechanical engineering technology and fundamentals of mechanical design and problem solving. College algebra and trigonometry strongly recommended.

MET 1500 - Mechanical Design Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course will focus on understanding the engineering design process within the MET discipline. Students will develop problem statements and use brainstorming techniques to generate design concepts. These design concepts are evaluated and implemented for possible solutions to bring a factious engineered product to market.

Pre-requisite(s): MET 1000, Math ACT score of 23 or above or MATH 1010 or MATH 1030 or MATH 1040 or MATH 1050 or MATH 1060 or MATH 1080.

MET 1890 INT - Cooperative Work Experience

Credits: (1-3)

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.

Pre-requisite(s): PDD 1010, MATH 1080 and Permission of Instructor.

MET 2500 - Modern Engineering Technologies

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey of modern engineering technologies including, but not necessarily limited to, energy generation, nano systems, smart materials, robotics, lasers, transportation systems, and bioengineering.

Pre-requisite(s): MET 1500.

MET 2890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.

Pre-requisite(s): Credit or concurrent enrollment in MFET 2300.

MET 3050 - Dynamics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Fundamentals of force, mass and acceleration, work and energy, and impulse and momentum applied to particles and rigid bodies.

Pre-requisite(s): MATH 1210, PHYS 2210 and MFET 2300.

MET 3150 - Engineering Technology Materials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Material properties, processing and selection of materials for technological applications. Design parameters for material selection of metals and nonmetals. Mechanical behavior and service failures of metallic alloys and other engineering materials at high and low temperatures. Lecture plus laboratory work in materials testing.

Pre-requisite(s): CHEM 1110 and MFET 2300 or MFET 2320.

MET 3300 - Computer Programming Applications of Mechanical Engineering Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Applications of computer programming and computer software to problems in mechanical engineering technology.

Lecture plus computer-based laboratory work.

Pre-requisite(s): MFET 2300.

MET 3400 - Machine Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of engineering technology fundamentals to machine design. Techniques involved in designing and selecting individual machine parts.

Pre-requisite(s): MFET 2300.

MET 3500 - Mechanical Measurements and Instrumentation

Credits: (3)

Principles of temperature, pressure, strain, flow, force, and vibration measurements. Techniques of computerized data acquisition and reduction. Students will learn how to specify instrumentation systems, take data and interpret the results.

Lecture plus laboratory work in selected topics.

Pre-requisite(s): EET 1850 and MFET 2300.

MET 3700 - Testing and Failure Analysis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Mechanical testing of materials, fatigue, fracture, wear, corrosion, embrittlement, failure mechanisms and analysis, case studies of failures.

Lecture plus laboratory work.

Pre-requisite(s): MET 3150 and MFET 2300.

MET 3890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.

Pre-requisite(s): Credit or concurrent enrollment in MET 3400.

MET 4200 - Mechanical Design with FEA

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Application of engineering technology fundamentals in mechanical design using Finite Element Analysis.

Lecture plus computer-based laboratory work.

Pre-requisite(s): MET 3400 and MFET 2300.

MET 4300 - Heating, Ventilating & Air Conditioning

Credits: (3)

Principles of heating, ventilating and air conditioning of buildings.

Refrigeration systems, air and water distribution and solar energy.

Indoor thermal environmental control.

Pre-requisite(s): Permission of instructor.

MET 4500 - Senior Project

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing and documentation.

Pre-requisite(s): MET 4200; AAS or AS Degree.

MET 4510 - Senior Project

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing and documentation.

Pre-requisite(s): MET 4500.

MET 4650 - Thermal Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamental principles of thermal science for mechanical engineering technology. Basic thermal science theory with an emphasis on technological applications and systems.

Lecture plus laboratory work in selected thermal science topics.

Pre-requisite(s): MATH 1210, PHYS 2210 and CHEM 1110 or CHEM 1210.

MET 4800 - Individual Research in Mechanical Engineering Technology

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Special individual research and development projects in mechanical engineering technology. Credit and time determined by the student and the faculty project supervisor.

Pre-requisite(s): Permission of instructor.

MET 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Directed individual readings in mechanical engineering technology.

Topic selected in consultation with instructor.

Pre-requisite(s): Permission of instructor.

MET 4890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.

Pre-requisite(s): MET 3400 and Permission of instructor.

MET 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript.

MET 4990 - Seminar in Mechanical Engineering Technology

Credits: (1)

Guest lectures from local industry, professionalism and engineering ethics, technology and society, and employment preparation.

Pre-requisite(s): MET 4500.

Medical Laboratory Sciences

MED 6322 - Advanced Music Integration

Credits: (2)

Typically Taught Summer Semester: *2nd Blk*

This course is designed to prepare students to fully integrate the Utah State Music Core within the elementary classroom. Participants will gain an understanding of key processes for helping students develop musical skills and understanding. We will also design and participate in lessons to actively engage elementary students in experiences that integrate music with other subjects.

Pre-requisite(s): MED 6317 and MED 6340.

MED 6323 - Advanced Drama Integration

Credits: (2)

Typically Taught Summer Semester: *2nd Blk*

This course emphasizes credible connections between drama and core subjects and how arts integration fosters problem solving and creative agency. In addition to readings and discussions from arts integration literature, much of the course will involve students participating in existing lesson plans that connect the arts with other curricula, and analyzing their value and role in education.

Pre-requisite(s): MED 6317 and MED 6340.

MLS 1001 - Online Orientation for AAS Degree

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course is designed to prepare the student for the online environment and specifics of the MLS program. Course components include: study and computer skills, learning styles, MLS student handbook, library tutorial, faculty introductions, contact and troubleshooting information, and academic advisement tailor-made specifically for AAS degree MLS students online.

MLS 1010 INT - Core Clinical Laboratory Skills

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The MLS 1010 course is designed to teach core clinical laboratory skills to individuals from various health care professions. The curriculum will focus on basic laboratory methods in quality control, quality assurance, information recording and transfer, normal and abnormal laboratory values, and problem recognition. Students will receive basic technical instruction in laboratory safety, microscopy, phlebotomy, specimen collection and processing, and laboratory instrumentation in the areas of hematology, serology, urinalysis, and clinical chemistry and microbiology. Students must have the support of a clinical laboratory to fulfill the laboratory requirement. The laboratory component will address applications with a focus on Point of Care testing (POCT). Students will be required to spend a minimum of 4 unpaid hours per week working on laboratory competency. Upon successful completion of the course students will receive a Certificate of Completion from the Dr. Ezekiel R. Dumke College of Health Profession's Clinical Laboratory Assistant (CLA) program.

Pre-requisite(s): Departmental Approval.

MLS 1113 - Introduction to Medical Laboratory Practices

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Principles and applications to laboratory testing including safe practices for the laboratory practitioner, specimen quality assurance, phlebotomy, urinalysis, basic concepts in clinical immunology, clinical chemistry, and clinical microbiology. Laboratory session addresses the principles and applications involved in medical laboratory assisting to include safety, microscopy, specimen processing, quality assurance, phlebotomy, and urinalysis; with a focus on Point of Care testing (POCT) in clinical immunology, clinical chemistry, and clinical microbiology. *Acceptance into the Online MLS AAS Program required to take this course Online.

Note: *Acceptance into the MLS AAS Program required

MLS 1114 - Principles of Hematology and Hemostasis

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Fundamental theories of hematopoiesis, routine laboratory evaluation of blood components using standard instrumentation and microscopic methods, including safety and quality control. Fundamental theories of hemostasis and introduction to abnormal hematology. Introduction to routine laboratory methods in hemostasis. At least one semester of chemistry and one semester of anatomy/physiology is recommended prior to taking this course. *Acceptance into the Online MLS AAS Program required to take this course Online.

Pre-requisite(s): MLS 1113. *Acceptance into the MLS AAS Program required.

MLS 2003 - Applied Laboratory Mathematics and Laboratory Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A discipline-specific course which tailors applied laboratory mathematics and clinical statistics to all areas of the medical laboratory with emphasis in clinical chemistry. Topics to include reagent preparation, specimen dilution protocols, quality assurance

and quality control, practical applications of common statistical tests, and statistical analysis using Microsoft Excel. The course is designed to complement the mathematics component of Clinical Chemistry MLS 2211 and MLS 2213.

MLS 2210 - Principles of Immunohematology

Credits: (5)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Lecture and laboratory covering the theory and principles of Immunohematology relevant to blood group serology, antibody detection and identification, compatibility testing, component preparation and therapy in blood transfusion service, quality controls, donor screening and phlebotomy, transfusion reactions and hemolytic disease of the newborn.

Pre-requisite(s): MLS 1113. *Acceptance into the MLS AAS Program required.

MLS 2211 - Principles of Clinical Chemistry I

Credits: (5)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Basic concepts and techniques in clinical chemistry and quality control utilizing manual and automated laboratory procedures. Emphasis on blood and body fluid assessments of carbohydrates, bilirubin, non-protein nitrogen testing and electrolyte acid/base balance.

Pre-requisite(s): CHEM 1110 and CHEM 1120 or CHEM 1210 and CHEM 1220.

Number of Times this Course May Be Repeated: *Acceptance into the MLS AAS Program required

MLS 2212 - Principles of Clinical Microbiology I

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course provides an in-depth coverage of clinically significant pathogenic cocci and Gram negative rods, including epidemiology, pathogenicity, and procedures for traditional laboratory identification.

Pre-requisite/Co-requisite: Pre/Co-requisite: MICR 1113 or MICR 2054. *Acceptance into the MLS AAS Program required.

MLS 2213 - Principles of Clinical Chemistry II

Credits: (5)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Continuation of MLS 2211 with the introduction to methods for the assessment of proteins, lipids, enzymology, therapeutic drug monitoring, toxicology and basic endocrinology.

Pre-requisite(s): MLS 2211.

Number of Times this Course May Be Repeated: *Acceptance into the MLS AAS Program required

MLS 2214 - Principles of Clinical Microbiology II

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course is a continuation of MLS 2212 including, antimicrobial testing, clinical mycology, virology, parasitology and miscellaneous

clinical bacteria including Gram positive bacteria, mycobacteria, and anaerobes.

Pre-requisite(s): MLS 2212. *Acceptance into the MLS AAS Program required.

MLS 2256 INT - Supervised Clinical Experience I

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Offered CR/NC only.

Co-Requisite(s): MLS 2257.

Number of Times this Course May Be Repeated: Online students receive credit for clinical experience. *Acceptance into the MLS AAS Program required

MLS 2257 INT - Supervised Clinical Experience II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Offered CR/NC only.

Co-Requisite(s): MLS 2256.

Number of Times this Course May Be Repeated: Online students receive credit for clinical experience. *Acceptance into the MLS AAS Program required

MLS 2830 - Directed Reading

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Topics in Laboratory Medicine under the direction of departmental faculty advisor.

Number of Times this Course May Be Repeated: *Acceptance into the MLS AAS Program required May be repeated for a maximum of 6 hours.

MLS 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum 3 credit hours.

Note: *Acceptance into the MLS AAS Program required

MLS 3301 - Online Orientation for BS Degree

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course is designed to prepare the student for the online environment and specifics of the MLS program. Course components include: study and computer skills, learning styles, MLS student handbook, library tutorial, faculty introductions, contact and troubleshooting information, academic advisement, Power Point

Presentations, an abbreviated overview of the core MLS disciplines such as hematology, clinical chemistry, clinical microbiology, clinical immunohematology, and a short referenced paper writing and using library resources tailor-made specifically for BS degree MLS students online.

MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Advanced theory to include laboratory instrument systems comparison, evaluation, and CLIA 88 validation procedures with emphasis on scientific research design and statistical analysis. Interrelated topics in the medical laboratory sciences to include educational strategies for laboratory personnel, approaches to workload management, budgeting and marketing strategies for laboratory services. Students also learn about and evaluate the new diagnostic technology available to medical laboratories, as well as learning how to select, evaluate, design, perform, and document CLIA-88 acceptable validations studies on new chemistry instrumentation or analytical methods. Interrelated topics in the medical laboratory to include workload management, designing and implementing standards for quality assurance, budgeting laboratory operations, and investigative concepts related to new method and instrument evaluation, selection, and validation.

Number of Times this Course May Be Repeated: **Acceptance into the MLS BS Program required

MLS 3310 - Advanced Immunohematology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Advanced blood banking theory and specialized procedures as they pertain to transfusion, quality assurance and regulatory issues pertaining to Transfusion Medicine. **Acceptance into the MLS BS Program required.

MLS 3312 - Clinical Laboratory Immunology and Virology

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course provides MLS students with clinical immunology theory and simulated laboratory experience necessary to prepare students for a career in a clinical laboratory setting. The course will be divided into four sections: basic concepts in immunology, clinical immunology techniques, immune related disease states, and diagnostic virology and will focus heavily on clinical immunology laboratory methods as well as in-depth clinical immunology techniques applicable for the clinical laboratory sciences student.

**Acceptance into the MLS BS Program required

MLS 3313 - Advanced Hematology and Hemostasis

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Correlation of medical laboratory hematology and hemostasis with emphasis on hematopathology specialized procedures and

hematological abnormalities in human cellular components. Routine and specialized coagulation procedures will also be used to detect hemorrhagic and thrombotic problems.

Number of Times this Course May Be Repeated: **Acceptance into the MLS BS Program required

MLS 3314 - Advanced Clinical Chemistry

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This problem-solving oriented course presents the correlation of clinical chemistry test results to organ-related diseases, such as renal, hepatic, and endocrine diseases. The students will learn how to use clinical correlation as a quality assurance tool to detect patient testing errors. Students also learn about and evaluate the new diagnostic technology available to medical laboratories, as well as learning how to select, evaluate, design, perform, and document CLIA-88 acceptable validation studies on new chemistry instrumentation or analytical methods. Interrelated topics in the medical laboratory to include workload management, designing and implementing standards for quality assurance, budgeting laboratory operations, and investigative concepts related to new method and instrument evaluation, selection, and validation. Additionally, Therapeutic Drug Monitoring and Toxicology studies are presented.

Pre-requisite(s): MLS 3302.

Number of Times this Course May Be Repeated: **Acceptance into the MLS BS Program required

MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course begins with a comprehensive review of introductory clinical bacteriology and mycology, along with a culture site approach to clinical bacteriology for the laboratory identification of pathogens by traditional manual methods. Diagnostic molecular biology of infectious microorganisms will also be covered and will include background of nucleic acid chemistry along with current molecular methodologies of detection. Pre/Co-requisite: MICR 3305 or MICR 3603.

Note: **Acceptance into the MLS BS Program required

MLS 4409 - Clinical Correlation

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course will enable students to better integrate material from all the major medical laboratory science disciplines including Blood Bank, Chemistry, Hematology, Immunology, Microbiology, and Urinalysis. The case studies presented will also include information about the pathophysiology, etiology and epidemiology. Students will correlate results with disease states, and develop problem solving and critical thinking skills based on real scenarios. Students will also develop skills on how to write and present a case study of their own based on an assigned disease, which will include data gathered from all disciplines and will be presented to the class. **Acceptance into the MLS BS Program required

MLS 4410 - Interdisciplinary Health Care Teams

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem online*

This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact, and learn in the interdisciplinary environment of a health care setting. **Acceptance into the MLS BS Program required.

MLS 4411 - MLS Simulated Laboratory I

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Foundational principles for establishing a simulated working laboratory in which students refine technical skills, problem identification and solving, refine work-load management and decision-making skills, development of strategies for managing and implementing the rules and regulations that govern medical laboratory testing.

Pre-requisite/Co-requisite: MLS 3302.

Number of Times this Course May Be Repeated: **Acceptance into the MLS BS Program required

MLS 4412 - MLS Simulated Laboratory II

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A continuation of project-based applications set forth in MLS 4411. Students staff a simulated medical laboratory and assume responsibilities associated with all facets of laboratory operations. Clinical and academic faculty serve as advisors/managers to each team of students. The process develops team building skills critical to the modern health care setting. MLS 4411 expands to examine issues that cross all health care disciplines.

Pre-requisite(s): MLS 4411.

Number of Times this Course May Be Repeated: **Acceptance into the MLS BS Program required

MLS 4415 - Laboratory Teaching and Supervision

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem online*

On Campus: Students will learn basic instructional and pedagogical theory as it applies to the field of medical laboratory science. Theory will be applied through collaborative learning and short presentations, as well as laboratory employee in-service training projects. Basic principles and applications of running a medical laboratory to include system approaches to management, leadership of groups, human resource management, and technical supervision will also be covered. Concepts will be reinforced through case study analysis and online discussions. Campus students will also participate as laboratory assistants in at least two lower division MLS courses, assisting the faculty in the administration of laboratory instruction, and applying instructional skills one-on-one with students entering the MLS program.

Online: Students fulfill the laboratory requirement by completing a series of management projects specifically designed for the laboratory provided in their clinical rotation.

Pre-requisite(s): **Acceptance into the MLS BS Program required.

MLS 4453 INT - Supervised Clinical Experience I

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Emphasis on experiences associated with laboratory administrative functions. Offered CR/NC only.

Co-Requisite(s): MLS 4454.

Number of Times this Course May Be Repeated: Online students receive credit for clinical experience. **Acceptance into the MLS BS Program required

MLS 4454 INT - Supervised Clinical Experience II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Emphasis on experiences associated with laboratory administrative functions. Offered CR/NC only.

Co-Requisite(s): MLS 4453.

Number of Times this Course May Be Repeated: Online students receive credit for clinical experience. **Acceptance into the MLS BS Program required

MLS 4800 - Special Problems

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pre-requisite(s): Consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum 3 credit hours.

Note: **Acceptance into the MLS BS Program required

MLS 4803 - Research Projects in Medical Laboratory Sciences I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

In this first of two courses, students will identify a significant laboratory related research question and develop an original research design to address that question. Students will work closely with faculty mentors and will prepare a grant application for funding of supplies and reagents, and write an IRB (Institutional Review Board) application. Actual research will be conducted spring semester in the course MLS 4804.

Pre-requisite/Co-requisite: Pre/Co-requisite: MLS 3302. **Acceptance into the MLS BS Program required.

MLS 4804 - Research Projects in Medical Laboratory Sciences II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course is a continuation of MLS 4803, Research Projects in MLS I. Students will continue working on their original research project that was initiated fall semester. After completing the project, students will present their research findings in poster and oral formats, along with preparing a formal manuscript for publication in

the university undergraduate research journal ERGO and possibly in other appropriate scientific journals.

Pre-requisite(s): MLS 4803. **Acceptance into the MLS BS Program required.

MLS 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Advance topics related to the correlation of medical laboratory data to disease processes. Students may work as a group or independently with academic or clinical faculty. Consent of instructor prior to registration.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum 3 credit hours.

Note: **Acceptance into the MLS BS Program required.

MLS 4850 - Study Abroad

Credits: (1-6)

Variable Title

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum 6 credit hours.

Note: Check with Department for course availability.

MLS 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum 3 credit hours.

Note: **Acceptance into the MLS BS Program required.

MLS 5101 - Applications in Clinical Chemistry in Medical Laboratory Sciences

Credits: (4)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Concepts, methods and clinical correlation of clinical chemistry tests are presented. Emphasis is on testing methods and quality control practices covering carbohydrates, bilirubin, non-protein nitrogen, electrolytes, proteins, lipids, enzymes, therapeutic drug monitoring, toxicology, and endocrinology. These topics will include clinical correlation with diseases, allowing students to understand conditions in which abnormal results and or data might be obtained.

MLS 5102 - Clinical Applications in Hematology and Hemostasis

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course covers the concepts, analytical methods, and clinical correlation of hematology and hemostasis as it applies to the medical laboratory. In addition to normal functions, the topics will include

clinical correlation with various hematological and hemostatic disease processes. Current testing and instrumentation will be included as well as regulatory and competency information.

Pre-requisite(s): For medical laboratory personnel.

MLS 5103 - Clinical Laboratory Microbiology I

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

This course provides an in-depth coverage of clinically significant pathogenic cocci and Gram negative rods, including epidemiology, pathogenicity, procedures for traditional laboratory identification.

Pre-requisite(s): For medical laboratory personnel.

MLS 5104 - Clinical Laboratory Microbiology II

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

This course is a continuation of MLS 5103, including antimicrobial testing clinical mycology, virology, parasitology and miscellaneous clinical bacteria including Gram positive bacteria, mycobacteria, and anaerobes.

Pre-requisite(s): MLS 5103; for medical laboratory personnel.

Note: This course is not offered on campus.

MLS 5105 - Clinical Immunohematology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course covers the theory and principles of immunohematology relevant to blood group serology, antibody detection and identification, compatibility testing, component preparation and therapy in blood transfusion service, quality control parameters, donor screening and phlebotomy, transfusion reactions and hemolytic disease of the newborn. This non-laboratory course is for MLS or MLT professionals who would like to update their didactic skills and knowledge in immunohematology as it is practiced in today's hospitals and clinics. Additionally, the course may also be of interest to individuals with a BS/BA degrees in non-medical laboratory science who wish to obtain current education in clinical immunohematology.

Pre-requisite(s): For medical laboratory personnel.

MLS 5112 - Clinical Laboratory Immunology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course provides MLS students with clinical immunology theory and virtual laboratory simulations necessary to prepare for a career in a clinical laboratory setting. The course will be divided into four sections: basic concepts in immunology, clinical immunology techniques, immune related disease states, and diagnostic virology and will focus heavily on clinical immunology laboratory methods as well as in-depth clinical immunology techniques applicable for the clinical laboratory sciences student.

Microbiology

MICR 1113 LS - Introductory Microbiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online, 1st Blk Online, 2nd Blk Online*

An overview of how microorganisms are used as model systems to study biology, genetics, metabolism, and ecology; how microorganisms play an integral role in disease and how microbial and immunological methods are used to treat and prevent disease; why microorganisms are found inhabiting a wide range of ecological habitats; how microorganisms play a vital role in biotechnology, fermentation, medicine, and other industries important to human well-being; and how microorganisms play an indispensable role in element cycles, biodegradation, and other aspects of the environment. This course is intended for all students who are not Microbiology majors. This course consists of 3 one-hour lectures/demonstrations per week.

MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Blk Online, 2nd Blk Online*

We live in a microbial world. In this course, we will explore our complicated relationships with microbes, from those used to make bread, beer, and yogurt, to those that cause disease and death. To understand how microbes spread, cause illness, and evolve, we will use current important public health examples and case studies, such as sexually transmitted diseases, antibiotic resistance, measles outbreaks, food-borne illnesses, and drug use and abuse. Students will also learn about current efforts to understand and control our microscopic neighbors, such as vaccines, hand sanitizer, and antibiotics. We will discuss how public health issues are studied, how they influence society, and how we make policy decisions to prevent disease.

MICR 1370 LS - Principles of Life Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized.

This course consists of 2 hours of lecture and 1 three-hour laboratory per week.

Cross-listed with BTNY 1370 and ZOOL 1370.

MICR 2054 LS - Principles of Microbiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Comprehensive introduction to the microbial world, including cell structure and function, metabolism, genetics, ecology, and interactions with humans and other organisms. Discussions include current research topics and applications of microbiology. Laboratory experience focuses on the microscopy, cultivation, control, and identification of microorganisms. This course is designed for science majors, pre-professional students, and Biology Composite Teaching majors. However, anyone meeting the pre- or co-requisites may take this course. This course consists of 3 one-hour lectures and 1 two-hour laboratory per week.

Pre-requisite(s): CHEM 1110 or CHEM 1200 or CHEM 1210. CHEM 1210 may be taken concurrently.

MICR 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

Cross-listed with BTNY, CHEM, GEO, and PHYS.

MICR 2890 INT - Cooperative Work Experience

Credits: (1-5)

Open to all students in the Microbiology Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Co-Requisite(s): MICR 2054.

Note: This course is offered as needed.

MICR 2920 - Short Courses, Workshop, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

Note: This course is offered as needed.

MICR 3012 - Microbiology and Global Public Health

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course focuses on microbial diseases that are major causes of morbidity and mortality worldwide (e.g. HIV, tuberculosis, malaria, influenza, etc.), diseases that are classified as emerging diseases (e.g. Ebola) and diseases that are being eliminated or eradicated, including certain Neglected Tropical Diseases. This course will analyze the pathogenesis, life cycles, epidemiology and societal impacts of these diseases, while emphasizing preventative interventions such as vaccinations, water and sewage treatment, and elimination and eradication strategies. The role of various agencies (e.g. WHO and CDC) in improving global health will also be discussed.

This course consists of 1 two-hour lecture per week.

Pre-requisite(s): MICR 1113 or MICR 1153 or MICR 2054 or ZOOL 1110 or permission of the instructor.

MICR 3053 - Microbiological Procedures

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to increase proficiency with basic laboratory skills in microscopy, staining methods, preparation of media, aseptic technique, preservation and maintenance of cultures, culture identification, and enumeration methods while developing practical and professional skills in data analysis, presentation, and instrumentation.

This course consists of 2 one-hour lectures and 1 two-hour laboratory per week.

Pre-requisite(s): MICR 2054, CHEM 1210, and MATH 1050 or MATH 1080 or MATH 1210.

MICR 3154 - Microbial Ecology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Microbial Ecology is the study of microorganisms in their natural habitats and their interactions with other living organisms. Topics explored in this course include the evolution of life on Earth, the diversity of microorganisms, microbial biogeography, symbiotic microbial interactions, and biogeochemical cycles. Current and historical research in microbial ecology is emphasized throughout the course. The laboratory experiments may involve isolating, identifying, and studying novel microorganisms from unique environments, studying environmental microbiomes, finding novel antibiotic producing organisms, and modeling biogeochemical cycles. Experimental techniques used in the laboratory involve advanced methods of cultivation, molecular identification techniques, and chemical assays.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1210.

MICR 3203 - The Immune System in Health & Disease

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course will focus on the study of the human immune system and its role in health and disease. The course topics include the innate and adaptive immune responses and their role in host defense as well as immunodeficiency and hypersensitivity responses. Manipulation of the immune system through pharmacological means, vaccination or transplantation will also be studied. This course is intended for the student studying Medical Lab Sciences or someone who wants to know more about the human immune system and who has already taken a course in Microbiology. The course is not intended as a first course in biology and it cannot be used as a Microbiology elective course for Microbiology majors. This course is only offered online with the exception of Fall Semester which also offers a face-to-face option consisting of 3 one-hour lectures per week.

MICR 3254 - Immunology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course will focus on the study of the human immune system and its role in health and disease. The course topics include the innate and adaptive immune responses and their role in host defense as well as immunodeficiency and hypersensitivity responses. Manipulation of the immune system through pharmacological means, vaccination or transplantation will also be studied.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 or consent of instructor.

MICR 3305 - Medical Microbiology

Credits: (5)

Typically Taught Spring Semester: *Full Sem*

Characteristics of clinically relevant pathogenic bacteria, fungi, and other microbes. From the point of view of the microbe, topics will include pathogenesis, virulence factors and toxins, mechanisms of immune evasion, and unique biological features. From the point of view of the human host, we will discuss epidemiology, disease symptoms, diagnosis, treatment, prevention, and control. This course consists of 3 one-hour lectures and 2 two-hour laboratory per week.

Pre-requisite(s): MICR 2054.

Suggested Requisite(s): Pre-requisite of MICR 3254 or MICR 3203 is strongly recommended.

MICR 3340 - Information Resources in the Life Sciences

Credits: (2)

A practical introduction to the literature and information resources of the life sciences. Students will expand their research skills and be able to develop effective research strategies to find and synthesize information available in academic libraries.

Two lecture hours per week.

Pre-requisite(s): ENGL 2010.

Cross listed in Botany, Library Sciences and Zoology.

Note: This course is offered as needed.

MICR 3403 - Tropical Diseases

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of tropical diseases caused by viral, bacterial, protozoan, fungal, and helminthic agents, including their transmission, disease course, pathogenesis, treatment, prevention, and control using a multi-disciplinary approach integrating case studies, labs, epidemiology, immunopathology as well as microbiology.

This course consists of 2 hours of lecture and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054.

MICR 3484 - Environmental Microbiology

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Applied environmental microbiology and biotechnology including transport of microorganisms through environment, microbial pathogens, and toxins in the environment. Biodeterioration, contamination control, and biosafety. Pollution microbiology, environmental management, bioremediation, waste treatment, biological insecticides. Microbiology of man-made environments. This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1210.

MICR 3502 - Environmental Health

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Air and water quality, solid and hazardous waste management, food protection, environmental inspection, and testing.

This course consists of 1 two-hour lecture per week.

Pre-requisite(s): MICR 1113 or MICR 2054 or consent of instructor.

MICR 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a pre-service science teacher's education coursework. Cross-listed with BTNY, CHEM, GEO, PHYS, and ZOOL.

MICR 3603 - Advanced Microbiology for the Health Professions

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Characteristics of microorganisms and parasites - emphasizing mechanisms by which they cause disease in humans. Intended for students in the Clinical Laboratory Sciences program and those working in that field. The course is not intended as a first course in biology and it cannot be used as a Microbiology elective course for Microbiology majors. This course is only offered online.

MICR 3753 - Geomicrobiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore the geological change mediated by microorganisms, microbial evolution driven by geologically diverse habitats, and applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial application of geomicrobiology. The course includes classroom discussion, laboratories, and field trips.

This course consists of 2 hours of lecture and 1 two-hour laboratory.

Pre-requisite(s): CHEM 1210 or approval of the instructor.

Cross-listed with GEO 3753.

MICR 3810 - Bioinformatics

Credits: (3)

Experimental Course, Contact Department for More Information

This bioinformatics course explores solutions to biological questions that can only be provided by information technologies. Students will learn the basic concepts, methods, and tools used in bioinformatics. Course activities will include DNA alignment and assembly, gene prediction, functional genomics, phylogenetics, protein structure prediction, protein folding, protein-protein interaction, metagenomics, and next-generation sequencing analysis. Students will also experience simple programming language approaches such as Python or R to automate the use of bioinformatics tools and interpret their output. Our objective is to provide basic competency in bioinformatics so that in their own research students can solve problems using these advanced tools. Students should have prior knowledge of college algebra (logarithms, exponents, factorials, sets) and the basic molecular biology of genes (DNA, RNA, proteins).

MICR 3853 - Food Microbiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Role of microorganisms in food production, preservation, spoilage, and food borne disease.

This course consists of 2 one-hour lectures and 1 two-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1210.

MICR 4054 - Microbial Physiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Structure, function, and physiology of microorganisms, with emphasis upon the bacteria. The course highlights the amazing diversity in metabolism found among bacteria.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054, CHEM 1220 and CHEM 2310/CHEM 2315 series (lecture & lab).

Suggested Requisite(s): Completion of or concurrent registration in CHEM 3070/ CHEM 3075 (lecture & lab) is recommended.

MICR 4154 - Microbial Genetics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

The genetics of microorganisms and its applications, including isolation and characterization of mutants, the biology and uses of plasmids, conjugation, transformation, the biology and uses of bacteriophages, transposition, recombinant DNA technology, gene regulation, and bioinformatics.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 2310/CHEM 2315 (lecture & lab).

Suggested Requisite(s): Completion or concurrent of CHEM 3070/CHEM 3075 (lecture & lab) is recommended.

MICR 4252 - Cell Culture

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Introduction to core skills used in the biotechnology industry for culturing animal, insect, and plant cells in vitro. Skills include sterile technique, cell counts, and the culture, maintenance, and preservation of cell lines. Specialized experiences include transfections with foreign DNA, confocal microscopy, real-time PCR and viral infections.

This course consists of 2 two-hour combined lecture and laboratory sessions per week.

Pre-requisite(s): MICR 2054 or BTNY 2104 and BTNY 2121 and CHEM 1220.

(cross-listed with Botany)

MICR 4354 - Industrial Microbiology and Biotechnology

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Experimental design for application of microbial physiology and biochemical ecology as potential solutions to current world problems, as well as exposure to traditional topics in product development.

This course consists of 3 one-hour lectures (presented in a laboratory) and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1220.

Suggested Requisite(s): Pre-requisite of MICR 3053 is recommended.

MICR 4554 - Virology

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

The study of viruses and virus-like agent structure, classification, genetics, replication, and other interaction with the host, with emphasis on bacteriophage and animal viruses.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1220.

MICR 4570 - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program. Cross-listed with BTNY, CHEM, GEO, PHYS, and ZOOL.

MICR 4800 - Directed Research

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent research under the advisement of a faculty member. No more than 3 credit hours may count toward the major.

Pre-requisite(s): Consent of instructor and a minimum of 6 credits of upper division microbiology course work.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

MICR 4830 - Directed Readings

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent readings on advanced special topics under the direction of a faculty member. No more than 2 credit hours may count toward the major.

Pre-requisite(s): Consent of instructor and a minimum of 6 credits of upper division microbiology course work.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

MICR 4890 INT - Cooperative Work Experience

Credits: (1-5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students in the Microbiology Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Co-Requisite(s): MICR 2054.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

MICR 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

Note: This course is offered as needed.

MICR 4991 - Microbiology Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Current topics in Microbiology.

This course consists of 1 one-hour lecture per week.

Pre-requisite(s): MICR 2054 and MICR 3053 or MICR 3154 or MICR 4054 or MICR 4154.

MICR 5034G - Microbiology for Teachers

Credits: (1-4)

Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit.

Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 4 credit hours.

Note: This course is offered as needed.

Military Science

MILS 1010 - Introduction to the Army and Critical Thinking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduces cadets to the personal challenges and competencies critical for effective leadership. Cadets learn how the personal development of life skills such as critical thinking, time management, goal setting, stress management and comprehensive fitness relate to leadership and the Army profession. A three hour weekly leadership lab is included, as well as one weekend field training exercise during the semester.

Number of Times this Course May Be Repeated: Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 1020 - Introduction to Profession of Arms

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Introduces cadets to the personal challenges and competencies that are critical for adaptive leadership. Cadets learn the basics of the communications process and the importance for leaders to develop the essential skills to effectively communicate in the Army. Students will examine the Army profession and what it means to be a professional in the U.S. Army. A three-hour weekly leadership lab is included as well as one weekend field training exercise during the semester.

Number of Times this Course May Be Repeated: Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 1110 - Basic Rifle Marksmanship

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Open to all Weber State University students. Introduction to safe use of a rifle and practical application of rifle marksmanship. Course includes weapons safety, mechanics, capabilities, and fundamentals of marksmanship. Includes visit to fire at indoor air rifle range. Materials and equipment furnished by Department of Military Science and Leadership (Army ROTC).

Number of Times this Course May Be Repeated: May be repeated twice for up to two hours of credit.

MILS 1220 - Wilderness Survival Skills

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Open to all WSU students. This class will teach you how to build makeshift shelters, procure food and water, cook a meal, identify edible and poisonous plants, avoid dangerous animals, treat wounds and illness, navigate with the sun and stars, make equipment, and much more. The class covers wilderness survival and an urban survival situation. Materials and equipment furnished by Department of Military Science.

Number of Times this Course May Be Repeated: This course may be repeated once for a total of two credit hours.

MILS 2010 - Innovative Team Leadership

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Builds on previous leadership instruction enhancing student skills in land navigation, small unit tactics, written and oral communication, event planning, group coordination and effectiveness and first aid. During this course, students develop basic skills for leading others in a tactical environment.

A three-hour weekly leadership lab is included as well as one weekend field training exercise during the semester.

Number of Times this Course May Be Repeated: Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 2020 - Foundations of Tactical Leadership

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course focuses on leader effectiveness. Course content includes analysis of selected historical leaders and battles using the principles of war and other tenets. Student led discussions highlight lessons learned relative to leadership and organizational success. Oral communications skills are central to this course.

A three-hour weekly leadership lab is included as well as one weekend field training exercise during the semester.

Number of Times this Course May Be Repeated: Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 2220 - Advanced Rifle Marksmanship

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Open to all Weber State University students. Course provides instruction on the fundamentals of Advanced Rifle Marksmanship. Class is conducted once a week with topics including: Air Rifle, Small Bore firing, and advanced practical exercises of different shooting positions. Prerequisite: MILS 1110 or permission of Instructor.

Number of Times this Course May Be Repeated: May be repeated two times for credit for a total of two credit hours.

MILS 2400 - Physical Readiness

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical conditioning course that employs U.S. Army principles of fitness. Subjects include: body composition, nutrition, cardiorespiratory fitness, muscle endurance and strength, circuit training and drills. Students registered for MILS 1010, MILS 1020, MILS 2010, or MILS 2020 are encouraged to enroll in this course to gain the full perspective of the physical demands required to be an Army officer.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MILS 2600 - Leadership Under Fire

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will explore both functional and dysfunctional behavior in leadership roles. Using examples from military and civilian leadership, this course will teach leadership techniques essential for future managers and leaders that will be of great value to both civilian and military leaders. It will focus on ethical/moral, historical, and social influences and examine outlook, styles, skills, and behavior essential for providing successful leadership. This will

culminate in a hands-on team-building exercise. No prerequisites. Students are NOT required to be enrolled in a ROTC course, nor to do so in the future.

MILS 2830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent reading/research on topic(s) of military interest under the supervision of a Military Science faculty member.

Pre-requisite(s): Requires instructor permission.

Number of Times this Course May Be Repeated: May be repeated 2 times with a maximum of 3 credit hours.

MILS 2921 - Cadet Initial Entry Training

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

A four-week leadership camp conducted at Fort Knox, Kentucky. Designed to introduce students to basic military skills and leadership requirements. Training includes rappelling, marksmanship, small unit tactics, physical fitness, leadership, and adventure training. Credit/no credit grade only.

Pre-requisite(s): Requires instructor permission.

MILS 2922 - Northern Warfare

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

A two week course conducted in Alaska. Provides training in cold weather survival and small unit tactics. Credit/no credit grade only.

Pre-requisite(s): include the completion of the basic course and instructor permission.

MILS 2923 - Air Assault

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

A two week course conducted at an Army installation in the continental U.S. Provides students training in helicopter operations to include sling loading and rappelling. Credit/ no credit grade only.

Pre-requisite(s): include successful completion of the basic course and instructor approval.

MILS 3010 - Adaptive Team Leadership

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Develops leadership skills within the framework of the U.S. Army. This course focuses on theory and application of decision making, planning, organizing, management control and communications.

The course also emphasizes small unit tactics and advanced land navigation skills; it includes a three-hour weekly leadership lab.

Students must participate in up to three, one-hour physical fitness sessions per week, which may be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 3020 - Leadership in Changing Environments

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Focuses on theory and application of small unit tactics, leadership and land warfare. Subjects include preparing and issuing combat orders, organizing for combat, unit and individual movement

techniques, communications and security.

A three-hour weekly leadership lab is included. Students must participate in up to three, one-hour physical fitness sessions per week, which may be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 4010 - Mission Command and the Army Profession, Part 1

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This course focuses on the functions and roles of the commander/ leader and the staff. Subject matter includes problem solving, planning techniques and procedures, written and oral communications, training management and evaluation systems. A three-hour weekly leadership lab to enhance leadership skills and apply classroom instruction to hands on training and execution is included. Students must participate in up to three, one-hour physical fitness sessions per week, which should be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 4020 - Mission Command and the Army Profession, Part 2

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

A conference course addressing future roles and responsibilities of junior Army officers. Subject matter includes the world environment and future threats to U.S. security, the spectrum of Army requirements, Army modernization initiatives, the laws of war, joint operations and other issues designed to complete the cadet-to-lieutenant process.

A three-hour weekly leadership lab to enhance leadership skills and apply classroom instruction to hands-on training and execution is included. Students must participate in up to three, one-hour physical fitness sessions per week, which should be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 4400 - Advanced Physical Readiness

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides advanced instruction in physical fitness employing Army techniques and procedures. Students assist Military Science faculty in the planning/conduct of physical fitness training activities performed by lower division students.

Pre-requisite(s): Requires instructor permission.

Suggested Requisite(s): (Students must be enrolled in one of the following courses: MILS 3010, MILS 3020, MILS 4010, or MILS 4020.)

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 8 credit hours.

MILS 4830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent reading/research on topics of military interest under the supervision of a Military Science faculty member. For each credit awarded the student will read approximately 1000 pages and prepare a written review or summary.

Pre-requisite(s): Requires instructor permission.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

MILS 4921 - Cadet Leadership Course (CLC)

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

A five week leadership camp conducted at Fort Lewis, Washington. The Advanced Camp environment stresses small unit leadership under varying and challenging conditions. Credit/no credit grade only.

Pre-requisite(s): Requires instructor approval. Open only to students who have successfully completed basic course requirements, MILS 3010 and MILS 3020.

MILS 4922 - Airborne Operations

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

A three week course conducted at Fort Benning, Georgia. Provides students training in military sky diving techniques with practical applications. Credit/no credit grade only.

Pre-requisite(s): Requires instructor approval. Prerequisite includes completion of the basic course.

MILS 4923 - Cadet Troop Leader Training

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

A two week course conducted at an Army installation in the continental U.S. or overseas. Provides first hand experience in an Army unit. Students learn about military life and the duties of a lieutenant. Credit/no credit grade only.

Pre-requisite(s): include completion of MILS 3010, MILS 3020 and Advanced Camp. Requires instructor approval.

Music

MUSC 1006 - Concert Attendance I

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

To be a successful musician, it is essential to develop excellent listening skills. Professional musicians are familiar with a wide variety of genres and styles. This course provides music students with opportunities to become familiar with the diversity of music that exists in our world. With this in mind, music majors and minors are expected to attend concerts and recitals on a regular basis. During the first two years of study, concert attendance is required and tracked by the department office staff. Students must concurrently enroll in applied music lessons. Credit/No Credit grading.

Number of Times this Course May Be Repeated: May be repeated once.

MUSC 1010 CA - Introduction to Music

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

An introduction to music, its elements, language, and historical development. The course focuses on European and American music with components of jazz, world, and popular genres. Concert attendance outside of regularly scheduled class time is required. Not available to music majors.

MUSC 1020 - What Makes Us Human?: Creativity and the Humanities

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will provide a broad Introduction to the Arts and Humanities as seen through the lenses of Plato's "Big Three": The Good, The True and The Beautiful. The perspective of the Good will be taken to look at the Arts and Humanities in society (their Role), that of the True to explore their scientific side (their Nature), and that of the Beautiful to investigate our interior, personal experience (their Meaning).

MUSC 1030 CA - Introduction to Jazz

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A survey of jazz in America, including blues, ragtime, traditional jazz, swing, bebop, cool, and fusion. Concert attendance outside of regularly scheduled class time is required.

MUSC 1033 CA - Introduction to American Music

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem*

Survey of music in America, including classical, jazz, rock, folk, and ethnic, within the context of American history.

MUSC 1035 CA - History of Rock and Roll

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

This course is a survey of Rock Music styles from ca. 1950 to the present. We also discuss pre- and proto- rock styles such as Jazz, Blues, and popular song, reaching back into the late nineteenth century. In the course we will not only study the changing history of rock music (which requires discussion of non-rock music as well), but also the cultural forces that gave rise to those changes. Because of this historical perspective, our approach will be largely chronological, with an eye toward how various styles influenced one another.

MUSC 1040 CA/DV - Music of World Cultures

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

An introduction to the music of cultures around the world, including India, Middle East, China, Japan, Indonesia, Sub-Saharan Africa, Europe, Latin America, Caribbean, Native American music, and Ethnic North America. The course discusses the influence of music on, and its relationship to, the various cultures and populations.

MUSC 1043 HU - Music, the Arts & Civilizations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is a chronological introduction to mostly western music that also explores its relationship to the other arts.

MUSC 1063 CA - Music in Religion

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An introduction to music in world religions such as Judaism, Christianity, Islam, Hinduism, Sikhism, and Buddhism.

MUSC 1100 - Fundamentals of Music

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Melody, harmony, rhythm, notation, ear training, and sight-singing skills needed to meet entrance requirements for MUSC 1110 & MUSC 1130. Exempt if passing score achieved on theory placement exam or a score of 3 or 4 on AP Music Theory exam.

MUSC 1110 - Music Theory I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Elementary harmony, primary and secondary triads with inversions, non harmonic tones, and modulation.

Pre-requisite(s): Complete Theory Placement exam with a score of 70% or higher or MUSC 1100 with a grade of "C" or higher or AP Music Theory exam score of 3 or higher. Students with an AP Music Theory score of 5 are exempt from MUSC 1110 and may enroll in MUSC 1120. In either case, AP scores are only recognized for one year after taking the exam.

Co-Requisite(s): Must be taken concurrently with MUSC 1130.

Note: Music Majors and Minors only.

MUSC 1120 - Music Theory II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuing study of elementary harmony, primary and secondary triads with inversions, non harmonic tones, and modulation.

Pre-requisite(s): Completion of both MUSC 1110 and MUSC 1130 with a grade of C or better. Students with an AP Music Theory score of 5 may enroll directly in MUSC 1120.

Co-Requisite(s): Must be taken concurrently with MUSC 1140.

Note: Music Majors and Minors only.

MUSC 1130 - Sight-Singing & Aural Skills I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Development of aural skills needed to function as a musician and teacher. Emphasis on progressively advancing aural perception.

Pre-requisite(s): Complete Theory Placement exam with a score of 70% or higher or MUSC 1100 with a grade of "C" or higher. A student scoring a 3 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills without taking the placement exam. A student scoring a 4 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills II (MUSC 1140) without taking the placement exam. A student scoring a 5 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills III (MUSC 2130). The student, however, must enroll in these courses within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.

Co-Requisite(s): Must be taken concurrently with MUSC 1110.

Note: Music Majors and Minors only.

MUSC 1140 - Sight-Singing & Aural Skills II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Development of aural skills needed to function as a musician and teacher. Emphasis on progressively advancing aural perception. Continuation of MUSC 1130.

Pre-requisite(s): MUSC 1130 and MUSC 1110. A student scoring a 4 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills II (MUSC 1140) without taking the placement exam. A student scoring a 5 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills III (MUSC 2130). The student, however, must enroll in these courses within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.

Co-Requisite(s): Must be taken concurrently with MUSC 1120.

Note: Music Majors and Minors only.

MUSC 1143 - Music Theory and Piano for Musical Theatre

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Development of aural, piano and sight-singing skills as they pertain to the Musical Theatre performer and practitioner. Emphasis on harmony, melody, rhythm, notation and applicable keyboard skills.

MUSC 1150 - Class Piano I

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Beginning piano instruction with emphasis on reading, technical facility and sound musicianship.

Pre-requisite(s): Complete Theory Placement exam with a score of 70% or higher or MUSC 1100 with a grade of "C" or higher. A student scoring a 4 or 5 on the AP Music Theory Exam may enroll in MUSC 1150 (Class Piano I) without taking the placement exam. The student, however, must enroll in this course within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.

Pre-requisite/Co-requisite: MUSC 1110.

Note: Music Majors and Minors only

MUSC 1160 - Class Piano II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Continuation of MUSC 1150 with emphasis on further development of music reading, technical facility, and expanded concepts of musicianship in the students' piano skills.

Pre-requisite(s): MUSC 1150

Pre-requisite/Co-requisite: MUSC 1120

Note: Music Majors and Minors only

MUSC 1321 - Basic Piano for Adults

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Beginning instruction in keyboard for non-music majors and minors. Students must have access to a piano for practice.

MUSC 1500 - Beginning & Intermediate Classical Guitar

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Beginner and intermediate class instruction in classical guitar, including technique, repertoire, and history of the instrument.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit.

MUSC 1501 - Modern Guitar Styles

Credits: (1)

This entry-level course offers instruction in pick-style guitar. Styles covered include folk, rock, jazz, and popular. Special emphasis on note reading and basic musicianship.

MUSC 1502 - Violin Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1503 - Viola Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1504 - Cello Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1505 - String Bass Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1506 - Guitar Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1507 - Harp Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1510 - Trumpet Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1511 - French Horn Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz

Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.
Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1512 - Trombone Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. MUSC 1601 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual lessons, vocal or instrumental. For those students not pursuing a major or minor in music. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 19 times with a maximum of 20 credit hours.

MUSC 1610 - Applied Keyboard: Piano

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1611 - Applied Keyboard: Organ

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1620 - Applied Voice

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1630 - Applied Woodwinds: Flute

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1631 - Applied Woodwinds: Oboe

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1632 - Applied Woodwinds: Clarinet

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1633 - Applied Woodwinds: Saxophone

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1634 - Applied Woodwinds: Bassoon

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1640 - Applied Brass: Trumpet

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1641 - Applied Brass: French Horn

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1642 - Applied Brass: Trombone

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors. May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1643 - Applied Brass: Euphonium/Tuba

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1650 - Applied Strings: Violin

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1651 - Applied Strings: Viola

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1652 - Applied Strings: Violoncello

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1653 - Applied Strings: String Bass

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1654 - Applied Strings: Guitar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1655 - Applied Strings: Harp

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1660 - Applied Percussion

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 1673 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to

schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be taken for credit up to three times in any area of specialization.

MUSC 1681 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 4 credit hours.

MUSC 1682 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 8 credit hours.

MUSC 1730 - Keyboard Ensemble

Credits: (1)

Training in piano ensemble situations to develop fluency in reading. Keyboard majors and minors only. Fulfills the major ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1740 INT - Weber State Concert Choir

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Fulfills the major ensemble requirement for music majors and minors. No audition required.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1741 INT - Chamber Choir

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A highly select group of approximately 24 singers performing the entire range of small choir literature. Fulfills the chamber ensemble requirement for music majors. By audition only.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1743 INT - Vocal Chamber Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Training in small vocal groups such as trios, quartets, and sextets. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1744 INT - Musical Theatre

Credits: (1-2)

Rehearsal and performance of musical theatre productions. By audition only.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1745 INT - Weber State Community Choir

Credits: (1)

Membership by audition or consent of instructor. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

Note: Note: This course is not currently active. It is typically taught in the evenings when offered.

MUSC 1750 - Symphonic Band

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Emphasis is on the study and preparation of modern symphonic band literature. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 14 credit hours.

MUSC 1751 - Wind Ensemble

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Emphasis is on study and performance of literature for selected wind and percussion ensembles of varying size. Participants may be required to participate in symphonic band. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1752 - Marching Band

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

By audition and/or consent of the director to students on flags, rifles, and band instruments. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1753 INT - Jazz Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1754 - Percussion Ensemble

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1755 INT - Instrumental Chamber Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Training in instrumental chamber ensembles such as trios, quartets, quintets, and sextets. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1756 INT - Pep Band

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Plays at athletic functions using contemporary jazz, rock, and popular music. By audition. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1760 INT - Weber State Symphony Orchestra

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Full symphony orchestra instrumentation. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 14 credit hours.

MUSC 1761 INT - Chamber Orchestra

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1762 INT - Theatre Orchestra

Credits: (1-2)

Membership by audition or consent of instructor. Instrumentation determined by the music production being presented. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1763 INT - Guitar Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1810 - Weber State Vocal Jazz

Credits: (3)

Experimental Course, Contact Department for More Information

Vocal ensemble that performs music from various jazz and pop music traditions, often with rhythm section.

MUSC 1901 - Music: The First-Year Experience

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Introduction to the music area and its programs, including email usage, department policies and procedures, career options, and curriculum.

Note: Music Majors and Minors only

MUSC 1911 - Introduction to Music Technology

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Introduction to uses of technology in music teaching and performance, including use of music composition and multimedia software.

Note: Music Majors and Minors only

MUSC 2006 - Concert Attendance II

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

To be a successful musician, it is essential to develop excellent listening skills. Professional musicians are familiar with a wide variety of genres and styles. This course provides music students with opportunities to become familiar with the diversity of music that exists in our world. With this in mind, music majors and minors are expected to attend concerts and recitals on a regular basis. During the first two years of study, concert attendance is required and tracked by the department office staff. Students must concurrently enroll in applied music lessons. Credit/No Credit grading.

Number of Times this Course May Be Repeated: May be repeated once.

MUSC 2110 - Music Theory III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Continuation of Theory II. Includes altered, borrowed, and other unique chord sonorities; advanced modulation; 20th century compositional techniques; analysis; and projects that will explore application of theoretical concepts.

Pre-requisite(s): MUSC 1120 and MUSC 1140 or equivalents. A student scoring a 5 on the AP Music Theory Exam may enroll in Music Theory III for up to one year after completing the AP Music Theory Exam. After one year, their former AP score is no longer recognized.

Co-Requisite(s): Must be taken concurrently with MUSC 2130.

Note: Music Majors and Minors only.

MUSC 2120 - Music Theory IV

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of Theory III. Includes altered, borrowed, and other unique chord sonorities; advanced modulation; 20th century compositional techniques; analysis; and projects that will explore application of theoretical concepts. Prerequisite: MUSC 2110. Must be taken concurrently with MUSC 2140. Music Majors and Minors only.

Pre-requisite(s): MUSC 2110 with a grade of "C" or better.

Co-Requisite(s): Must be taken concurrently with MUSC 2140.

Note: Music Majors and Minors only.

MUSC 2130 - Sight Singing & Aural Skills III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Continuation of Sight-Singing & Aural Skills II. Development of more advanced listening skills and of ability to recognize and correct performance errors.

Pre-requisite(s): MUSC 1120 and MUSC 1140. A student scoring a 5 on the AP Music Theory Exam may enroll in MUSC 2130 (Sight-singing & Aural Skills III) for up to one year after completing the AP Music Theory Exam. After one year, their former AP score is no longer recognized.

Co-Requisite(s): Must be taken concurrently with MUSC 2110.
Note: Music Majors and Minors only.

MUSC 2140 - Sight Singing & Aural Skills IV

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Continuation of Sight Singing & Aural Skills III. Development of more advanced listening skills and of ability to recognize and correct performance errors. Prerequisite: MUSC 2110 and MUSC 2130 or equivalents. Must be taken concurrently with MUSC 2120 Music Majors and Minors only

Pre-requisite(s): MUSC 2110 and MUSC 2130 or equivalents.

Co-Requisite(s): Must be taken concurrently with MUSC 2120.
Note: Music Majors and Minors only

MUSC 2150 - Class Piano III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Continuation of MUSC 1160 with emphasis on advanced reading, further development of music reading, technical facility, and expanded concepts of musicianship in the students' piano skills.

Pre-requisite(s): MUSC 1160 or placement by audition

Pre-requisite/Co-requisite: MUSC 2110

Note: Music Majors and Minors only

MUSC 2160 - Functional Piano Skills for Piano Majors/Minors

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Continuation of MUSC 1160 with emphasis on advanced reading, further development of technical facility and expanded concepts of musicianship.

Pre-requisite(s): MUSC 1160 or placement by audition, and MUSC 1120 and MUSC 1140.

Note: Music Majors and Minors only

MUSC 2202 - Survey of Music History & Literature I

Credits: (2)

A survey of the development of the historical and stylistic periods of European art music from ca 400-1750. Required for Music History credit for all Music Minors.

Pre-requisite(s): MUSC 1110 and MUSC 1130. Open to all university students who have completed MUSC 1010. Does not fulfill Creative Arts or Humanities credit.

Note: Music Majors and Minors only

MUSC 2212 - Survey of Music History & Literature II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

A survey of the development of the historical and stylistic periods of

European art music from ca 1750-20th century. Required for Music History credit for all Music Minors.

Pre-requisite(s): MUSC 1110 and MUSC 1130. Open to all university students who have completed MUSC 1010. Does not fulfill Creative Arts or Humanities credit.

Note: Music Majors and Minors only

MUSC 2321 - The Principles of Collaborative Piano I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

To learn the art of accompaniment, to become knowledgeable about repertoire and style, and to improve sight reading.

Pre-requisite(s): Piano, Music Education, Vocal majors only.

Note: Music Majors and Minors only

MUSC 2331 - The Principles of Collaborative Piano II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

To learn the art of accompaniment, to become knowledgeable about repertoire and style, and to improve sight reading.

Pre-requisite(s): Piano majors only.

Note: Music Majors and Minors only

MUSC 2401 - Musical Improvisation

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Students will be presented with basic improvisation concepts in the course, including improvising rhythmically, diatonically, over functional harmony, using extra-musical inspiration, and creating free and collaborative improvisations. Through demonstration and practice, students will learn how all of these methods in totality or combination can work to create successful improvisations. Students will be judged based on their ability to demonstrate mastery over a particular concept through their own performance. Possible assignments include in-class performances and a final concert featuring student improvisations.

Pre-requisite(s): MUSC 1120.

MUSC 2540 - Instrumental Techniques for Choral Majors

Credits: (2)

Typically Taught Fall Semester: *Full Sem even years*

A course for Music Education majors with a Choral emphasis that encompasses a practical and analytical approach to the understanding of basic playing and teaching techniques of the band and orchestral instruments.

Note: Music Majors and Minors only

MUSC 2610 - Applied Keyboard: Piano

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2651 - Applied Strings: Viola

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2652 - Applied Strings: Violoncello

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2653 - Applied Strings: String Bass

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2654 - Applied Strings: Guitar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2655 - Applied Strings: Harp

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2660 - Applied Percussion

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2673 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be taken for credit up to three times in any area of specialization.

MUSC 2681 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 1681 or MUSC 1682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 4 credit hours.

MUSC 2682 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 1681 or MUSC 1682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 8 credit hours.

MUSC 2810 - Musical Improvisation

Credits: (2)

Experimental Course, Contact Department for More Information

Students will be presented with basic improvisation concepts in the course, including improvising rhythmically, diatonically, over functional harmony, using extra-musical inspiration, and creating free and collaborative improvisations. Through demonstration and practice, students will learn how all of these methods in totality or combination can work to create successful improvisations. Students will be judged based on their ability to demonstrate mastery over a particular concept through their own performance.

MUSC 2821 - Percussion Methods I

Credits: (1)

Typically Taught Fall Semester: *Full Sem even years*

A practical and analytical approach to teaching and playing percussion instruments, including selection of appropriate repertoire and minor repair.

Note: Music Majors and Minors only

MUSC 2822 - Percussion Methods II

Credits: (1)

Typically Taught Spring Semester: *Full Sem odd years*

A continuation of MUSC 2821.

Pre-requisite(s): MUSC 2821.

Note: Music Majors and Minors only

MUSC 2841 - Brass Methods I

Credits: (1)

Typically Taught Fall Semester: *Full Sem even years*

A practical and analytical approach to teaching and playing brass instruments, including selection of appropriate repertoire and minor repair.

Note: Music Majors and Minors only

MUSC 2842 - Brass Methods II

Credits: (1)

Typically Taught Spring Semester: *Full Sem odd years*

A continuation of MUSC 2841.

Pre-requisite(s): MUSC 2841.

Note: Music Majors and Minors only

MUSC 2851 - Woodwind Methods I

Credits: (1)

Typically Taught Fall Semester: *Full Sem odd years*

A practical and analytical approach to teaching and playing woodwind instruments, including selection of appropriate repertoire and minor repair.

Note: Music Majors and Minors only

MUSC 2852 - Woodwind Methods II

Credits: (1)

Typically Taught Spring Semester: *Full Sem even years*

A continuation of MUSC 2851.

Pre-requisite(s): MUSC 2851

Note: Music Majors and Minors only

MUSC 2871 - String Methods I

Credits: (1)

Typically Taught Fall Semester: *Full Sem odd years*

A practical and analytical approach to teaching and playing string instruments, including selection of appropriate repertoire and minor repair.

Note: Music Majors and Minors only

MUSC 2872 - String Methods II

Credits: (1)

Typically Taught Spring Semester: *Full Sem even years*

A continuation of MUSC 2871.

Pre-requisite(s): MUSC 2871

Note: Music Majors and Minors only

MUSC 2881 - Vocal Workshop

Credits: (1)

Development of the singing voice with special attention to freedom of tones, purity of vowels, interpretation, diction, and flexibility.

Note: Music Majors and Minors only

MUSC 2890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all students in the music area who meet the minimum cooperative work experience requirements of the department.

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: May be repeated to a maximum of 6 credits.

Note: Music Majors and Minors only

MUSC 2910 INT - Opera Production

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

By audition only. Preparation of operatic scenes and music. Music and staging rehearsal venue for the preparation of fully staged opera productions.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

MUSC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 6 credit hours.

Note: Music Majors and Minors only

MUSC 3102 - Counterpoint

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

Eighteenth century polyphonic techniques including the five contrapuntal species, formal processes, analysis, and compositional application of concepts studied.

Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalents.

Note: Music Majors and Minors only

MUSC 3112 - Orchestration

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

An exploration of principles of arranging music for instrumental sections and instrumental combinations.

Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalents.

Note: Music Majors and Minors only

MUSC 3122 - Choral Arranging

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

An exploration of principles of arranging music for various voice groups.

Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalent.

Note: Music Majors and Minors only

MUSC 3202 - Winds/Percussion Literature

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

A study of a cross-section of music leading to knowledge of styles, composers, and performance practice related to the student's instrument and family of instruments.

MUSC 3205 - Music History I: Music before 1800

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of the developments in European art music, ca. 400-1800. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.

Pre-requisite(s): MUSC 1120 and MUSC 1140.

MUSC 3206 - Music History II: Music after 1800

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey of the developments in European art music, ca. 1800 to the present. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.

Pre-requisite(s): MUSC 3205.

MUSC 3207 - Music History III: Music of the 20th century to the present

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of the developments in European art music from ca. 1890 to the present. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.

Pre-requisite(s): MUSC 3206.

MUSC 3208 - World Music

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An in-depth exploration of selected music outside the European/American art and popular traditions. Attention will be given to musical elements and systems, as well as to the participation of music within culture and society. Open to both music and non-music majors.

Pre-requisite(s): MUSC 3207 for music majors; MUSC 1010 or MUSC 1040 for non-music majors

MUSC 3302 - Keyboard Literature I

Credits: (2)

Typically Taught Fall Semester: *Full Sem even years*

This course is designed to acquaint pianists with the principal keyboard composers of the Baroque and Classical periods. Piano majors and minors only.

MUSC 3312 - Keyboard Literature II

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

This course is designed to acquaint pianists with the principal keyboard composers of the Romantic and 20th century periods. Piano majors and minors only.

MUSC 3402 - Vocal Literature I

Credits: (2)

Typically Taught Fall Semester: *Full Sem odd years*

A study of a cross-section of vocal literature leading to knowledge of styles, composers, performance practice, and basic phonetics in commonly-used languages.

Pre-requisite(s): At least two semesters of piano and a minimum of two years of private voice instruction.

Note: Music Majors and Minors only

MUSC 3412 - Vocal Literature II

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

A continuation of MUSC 3402.

Pre-requisite(s): MUSC 3402.

Note: Music Majors and Minors only

MUSC 3502 - Violin Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3503 - Viola Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). MUSC 3525 - ArtsBridge

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a

comprehensive, needs-based, integrated arts project with community organizations or area schools. The course will offer students a clear structure and process for navigating the complexities of community engagement. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.

Pre-requisite(s): Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.

Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

MUSC 3530 - Voice Master Class

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). MUSC 3601 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual lessons, vocal or instrumental. For those students not pursuing a major or minor in music. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 19 times with a maximum of 20 credit hours.

MUSC 3610 - Applied Keyboard: Piano

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3651 - Applied Strings: Viola

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3652 - Applied Strings: Violoncello

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3653 - Applied Strings: String Bass

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3654 - Applied Strings: Guitar

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3655 - Applied Strings: Harp

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3660 - Applied Percussion

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3673 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Music majors and minors only. For vocal or instrumental students.

Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be taken for credit up to three times in any area of specialization.

MUSC 3681 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 2681 or MUSC 2682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 4 credit hours.

MUSC 3682 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 2681 or MUSC 2682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 8 credit hours.

MUSC 3701 - Music Entrepreneurship and You

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course will provide an introduction and overview of topics relevant to creating and managing a career as a professional musician in the 21st Century. Specific topics covered include marketing, networking, finances, and other topics as they relate to music and musicians.

MUSC 3720 - Analog Audio

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Emphasis on the electrical (non-digital) transmission of sound. Covers cable types, uses, and construction as well as microphones, speakers, and signal processors. Students will achieve familiarity with the fundamentals and best practices regarding audio components, studio communication, and studio infrastructure. Critical listening skills will be developed throughout the course.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3721 INT - Live Sound in the 21st Century

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Focusing on advances in live sound technologies students will learn to assemble and optimize modern sound systems using DANTE and AVB network protocols and digital consoles. Best practices and common system setup will also be covered.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3722 - History of Recording

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Multimedia based course examining the complete history of recorded sound. Covering everything from Edison's cylinder to the advent of the MP3 and modern digital recording. Focusing on the inventors and milestones of the last 150 years.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3723 - Field Recording/Sound for Picture

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course will combine the art of capturing live sound in the field, Foley, and ADR in a post-production workflow combining dialog and music to video.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3724 - Studio Construction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

During construction of the recording spaces students will observe and understand the recording studio construction process. This experience may be repeated until studio completion. Credit/No Credit grading.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

Number of Times this Course May Be Repeated: May be taken 3 times up to 3 credits.

MUSC 3725 - Alternative Digital Audio Workstations

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

An introduction to non-Pro Tools recording and music production applications. Covering setup, optimization, and basic operation. This may include but is not limited to Reason, Ableton LIVE, Digital Performer, Logic, and Garageband.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3726 - Creative Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A live performance / recording project ensemble. Turntables, folk instruments, world instruments, electronic musicians, rock / pop musicians etc. Audition not required.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

Number of Times this Course May Be Repeated: May be taken 3 times up to 3 credits.

MUSC 3730 - Keyboard Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Training in piano ensemble situations to develop fluency in reading. Keyboard majors and minors only. Fulfills the major ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

Note: Music Majors and Minors only.

MUSC 3740 INT - Weber State Concert Choir

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Fulfills the major ensemble requirement for music majors and minors. No audition required.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3741 INT - Chamber Choir

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A highly select group of approximately 24 singers performing the entire range of small choir literature. Fulfills the chamber ensemble requirement for music majors. By audition only.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3743 INT - Vocal Chamber Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Training in small vocal groups such as trios, quartets, and sextets. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3744 INT - Musical Theatre

Credits: (1-2)

Rehearsal and performance of musical theatre productions. By audition only.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3745 INT - Weber State Community Choir

Credits: (1)

Membership by audition or consent of instructor. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated

7 times with a maximum of 8 credit hours.

Note: Note: This course is not currently active. It is only available in the evenings when offered.

MUSC 3750 - Symphonic Band

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Emphasis is on the study and preparation of modern symphonic band literature. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated up to 7 times.

MUSC 3751 - Wind Ensemble

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Emphasis is on study and performance of literature for selected wind and percussion ensembles of varying size. Participants may be required to participate in symphonic band. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3752 - Marching Band

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

By audition and/or consent of the director to students on flags, rifles, and band instruments. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3753 INT - Jazz Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

MUSC 3754 - Percussion Ensemble

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3755 INT - Instrumental Chamber Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Training in instrumental chamber ensembles such as trios, quartets, quintets, and sextets. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3756 INT - Pep Band

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Plays at athletic functions using contemporary jazz, rock, and popular music. By audition. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3760 INT - Weber State Symphony Orchestra

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Full symphony orchestra instrumentation. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated up to 7 times.

MUSC 3761 INT - Chamber Orchestra

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3762 - Theatre Orchestra

Credits: (1-2)

Membership by audition or consent of instructor. Instrumentation determined by the music production being presented. Does not fulfill any ensemble requirement for music majors or minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3763 INT - Guitar Ensemble

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Membership by audition or consent of instructor. Fulfills the major ensemble requirement for music majors and minors.

Number of Times this Course May Be Repeated: May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3801 - Jazz Improvisation I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Beginning study of jazz improvisation. Topics covered include basic jazz harmony, chord/scale relationships, and basic jazz repertoire.

MUSC 3802 - Jazz Improvisation II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuing study of jazz improvisation. Topics covering include common jazz patterns, complex harmony and harmonic resolution, transcription, and analysis.

MUSC 3803 - Jazz and Commercial Arranging

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Introduction to arranging jazz and commercial music. Topics include elements of arranging, instrumental considerations, voicing techniques, and compositional techniques.

Pre-requisite(s): Completion of MUSC 1110 - Music Theory I with a grade of "C" or better.

MUSC 3804 - Jazz Pedagogy

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This class will prepare students for teaching jazz to students in secondary education. Topics include specific instrumental considerations, improvisation, and jazz ensemble rehearsal technique.

MUSC 3805 - Jazz Keyboard Skills

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Basic jazz keyboard and jazz theory. Topics include beginning to intermediate jazz harmony, tertiary and quartal voicings, harmonic substitutions and reharmonization, and well as jazz piano performance practice.

Pre-requisite(s):

Completion of MUSC 1160 - Class Piano II with a grade of "C" or better.

MUSC 3806 - Jazz History

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

In depth study of the history of jazz for music majors. Students will learn about important individuals, historical events, and stylistic trends that have shaped jazz from its inception to the modern day and relate those topics to their instrument of study.

MUSC 3810 - The Business of the Touring Artist

Credits: (1)

Experimental Course, Contact Department for More Information

This course is designed to offer students methods of doing work in the field of the arts. Areas of discussion will include information for Artists, for Presenters and an in-depth look at contracting. Areas to be covered will include readiness to participate in the professional field, representation, working with both artists and presenters, budgeting, timelines, development of residency options, professional behavior and associated areas of attention.

MUSC 3820 INT - The Art and Science of Recording I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Utilizing the "flipped classroom" model, students will learn the fundamentals and best practices of capturing live audio in a multimedia-rich environment that is self-paced. In the classroom, students will receive face-to face instruction from experienced producers, engineers, and visionaries delivering real world experience and valuable career guidance.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 3821 INT - The Art and Science of Recording II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Utilizing the "flipped classroom" model, students will learn the fundamentals and best practices of capturing live audio in a

multimedia-rich environment that is self-paced. In the classroom, students will receive face-to face instruction from experienced producers, engineers, and visionaries delivering real world experience and valuable career guidance.

Pre-requisite(s): 80% or better completion of The Art and Science of Recording I. Acceptance in the Sound Production/Recording program.

MUSC 3822 - Instrumental Conducting I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Basic conducting technique and advanced techniques for conducting instrumental ensembles.

Pre-requisite(s): MUSC 1120/MUSC 1140.

Note: Music Majors and Minors only

MUSC 3823 - Instrumental Conducting I-II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Basic conducting technique and advanced techniques for conducting instrumental ensembles.

Pre-requisite(s): MUSC 1120 and MUSC 1140.

Note: Music Majors and Minors only

MUSC 3824 - Music for Elementary Teachers

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Methods and materials for teaching elementary school music (grades K-6) including skill development on selected elementary classroom instruments.

MUSC 3840 - Form and Analysis

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

A study of basic musical form with particular emphasis on the most important contrapuntal and homophonic styles from the Baroque Period forward. The course coordinates the study of the forms of individual genres with their history and role in the continuous development of music.

Pre-requisite(s): MUSC 2120 and 2140.

Note: Music Majors and Minors only

MUSC 3842 - Producing the School Musical

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

A detailed study of musical theatre and the practical application of skills, techniques, and materials necessary for production in secondary schools.

Note: Music Majors and Minors only

MUSC 3851 - Stringed Instrument Pedagogy I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

An in-depth study of pedagogical methods employed in teaching the four orchestral stringed instruments to beginning and intermediate level students.

Pre-requisite(s): MUSC 2871/MUSC 2872.

Number of Times this Course May Be Repeated: May be repeated up to 9 credit hours.

Note: Music Majors and Minors only

MUSC 3852 - Stringed Instrument Pedagogy II

Credits: (2)

Continued in-depth study of pedagogical methods employed in teaching the four orchestral stringed instruments with a focus on upper intermediate and advanced level students.

Pre-requisite(s): MUSC 3851.

Note: Music Majors and Minors only

MUSC 3872 - Choral Conducting I

Credits: (2)

Typically Taught Fall Semester: *Full Sem even years*

Basic conducting technique and advanced techniques for techniques for conducting choral ensembles.

Pre-requisite(s): MUSC 1120 and MUSC 1140.

Note: Music Majors and Minors only

MUSC 3882 - Choral Conducting II

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Basic conducting technique and advanced techniques for techniques for conducting choral ensembles.

Pre-requisite(s): MUSC 1120 and MUSC 1140.

Note: Music Majors and Minors only

MUSC 3924 - Music Teaching and Learning in the Elementary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

As an introduction to the role of music in the lives of children, this course provides opportunities for music majors to develop their rapport with elementary students. The course will include selecting literature and designing effective instructional strategies aligned with the Utah K-6 music core curriculum as well as the national music standards. Students will be introduced to different philosophical and pedagogical approaches as well as develop and implement age-appropriate assessment strategies. Students will develop their understanding of music's role in an interdisciplinary curriculum. A field experience with elementary-age students is required.

Pre-requisite(s): Completion of MUSC 2150 - Class Piano III with a grade of "C" or passing the piano proficiency exam.

Note: Music Majors and Minors only

MUSC 3991 INT - Junior Recital

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Applied instruction in preparation for and public performance of a 30 minute recital.

Pre-requisite(s): Piano proficiency.

Note: Music Majors and Minors only.

MUSC 4302 - Keyboard Pedagogy I

Credits: (2)

Typically Taught Fall Semester: *Full Sem odd years*

Comprehensive study of keyboard pedagogy. Piano Majors and Minors only.

MUSC 4312 - Keyboard Pedagogy II

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Continuation of MUSC 4302. Comprehensive study of keyboard pedagogy. Piano Majors and Minors only.

MUSC 4322 - Keyboard Pedagogy III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Continuation of MUSC 4312.

Pre-requisite(s): MUSC 4312.

MUSC 4332 - Keyboard Pedagogy IV

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of MUSC 4322.

Pre-requisite(s): MUSC 4322.

MUSC 4402 - Vocal Pedagogy I

Credits: (2)

Typically Taught Fall Semester: *Full Sem even years*

Comprehensive study of the principles, rules and procedures pertaining to the development, exercise, and practice of the art of singing and the science of teaching singing.

Pre-requisite(s): Two semesters of piano required.

Note: Music Majors and Minors only

MUSC 4412 - Vocal Pedagogy II

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

Comprehensive study of the principles, rules and procedures pertaining to the development, exercise, and practice of the art of singing and the science of teaching singing.

Note: Music Majors and Minors only

MUSC 4610 - Applied Keyboard: Piano

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4611 - Applied Keyboard: Organ

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4620 - Applied Voice

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4653 - Applied Strings: String Bass

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4654 - Applied Strings: Guitar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4655 - Applied Strings: Harp

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4660 - Applied Percussion

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4673 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Number of Times this Course May Be Repeated: May be taken for credit up to three times in any area of specialization.

MUSC 4681 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 3681 or MUSC 3682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 4 credit hours.

MUSC 4682 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 3681 or MUSC 3682 with a grade of "C" or better.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 8 credit hours.

MUSC 4701 - Grant Writing & Non-Profits

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will become familiar with the process of grant research, writing, and compliance. Theory will be applied into practice as students identify real-world organizations in need of funding, locate potential funding sources (including government, corporate, and foundation grants), write grant proposals, and submit those proposals to the funding organization.

Pre-requisite(s): Completion of MUSC 3701 with a grade of "C" or better.

MUSC 4771 - Stringed Instrument Literature I

Credits: (2)

A study of music for technical development, plus solo, and chamber music literature of the stringed instruments of the orchestra. This class will focus on music for beginning and intermediate students.

Pre-requisite(s): MUSC 2871/MUSC 2872.

Note: Music Majors and Minors only

MUSC 4772 - Stringed Instrument Literature II

Credits: (2)

Advanced study of music for technical development, plus solo, and chamber music literature of the stringed instruments of the orchestra. This class will focus on music for upper intermediate and advanced students.

Pre-requisite(s): MUSC 4771.

MUSC 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers

will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

MUSC 4820 - Pro Tools 101

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers basic Pro Tools principles. It provides everything you need to complete a Pro Tools project from initial set up to final mix-down. The course focuses on Pro Tools software and covers a multitude of new functions and feature enhancements. Whether your project involves recording live instruments, MIDI sequencing of software synthesizers, or audio editing or region looping, this course will give you the basic skills to succeed.

Number of Times this Course May Be Repeated: May be taken twice for 4 credits.

MUSC 4821 - Pro Tools 110

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides a more detailed look at the Pro Tools system above and beyond the knowledge you gained in the Pro Tools 101 course. It covers all the key concepts and skills needed to operate a Pro Tools system at the User level. The course along with Pro Tools 101: An Introduction to Pro Tools, provides the foundation to Pro Tools Certification and for the later 200-series of courses on Pro Tools music and post-production.

Pre-requisite(s): MUSC 4820 (Pro Tools 101).

Number of Times this Course May Be Repeated: May be taken twice for 4 credits.

MUSC 4822 - Secondary Music Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Provides music teachers with an introduction into methods of instruction, organization and presentation of appropriate content and musical literature in secondary school music classes

Pre-requisite(s): Completion of MUSC 3924 and MUSC 2150 with a grade of "C" or better.

Note: Music Majors and Minors only.

MUSC 4830 - Directed Readings

Credits: (1-3)

To be arranged.

Number of Times this Course May Be Repeated: May be taken for a maximum of 7 hours of credit.

Note: Music Majors and Minors only

MUSC 4842 - High School Music Methods

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Methods of instruction, organization and presentation of appropriate content and musical literature in high school music classes. Emphasis is placed on the administration of the school music program.

Pre-requisite(s): Piano proficiency and MUSC 4822.

Note: Music Majors and Minors only

MUSC 4860 INT - Internship in Music

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Practical synthesis and application of knowledge and skills gained in pedagogy and methods courses. Students plan and implement lessons,

document progress, and evaluate their teaching assignments in group or private settings.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 12 credits.

Note: Music Majors and Minors only

MUSC 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A continuation of MUSC 2890. Open to all students.

Number of Times this Course May Be Repeated: May be repeated to a maximum of 6 credits.

Note: Music Majors and Minors only

MUSC 4900 INT - Senior Project--BA in Music

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will serve as a capstone project for the BA in Music. It will be taken during a student's final semester, and shall demonstrate the student's ability to synthesize the various components of her musical education. In conjunction with the general syllabus (attached), this individualized course will be governed by a contract (also attached). Depending upon the student's chosen track within the BA, examples of projects might include a major composition, a research paper, an analysis paper, a lecture-recital, etc.

Pre-requisite(s): Instructor approval.

MUSC 4910 INT - Opera Production

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Preparation of operatic scenes and music. Music and staging rehearsal venue for the preparation of fully staged opera productions. By audition only.

Number of Times this Course May Be Repeated: May be repeated up to 10 times for credit hours.

MUSC 4920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

Note: Music Majors and Minors only

MUSC 4991 INT - Senior Recital

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Private instruction in preparation for and public performance of a one hour recital.

Note: Music Majors and Minors only.

MUSC 4992 INT - Senior Project

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Music education majors have the option of completing a senior project in lieu of the senior recital and should register for MUSC 4992 during the semester in which they plan to complete the project. Requires submission of a project proposal and approval by a faculty committee.

Pre-requisite(s): MUSC 4830.

Note: Music Majors and Minors only

MUSC 4995 INT - Capstone Project

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Under instructor guidance and mentorship, the student will submit a Capstone proposal based on the culmination of coursework and garnered experience. This may include, but is not limited to, producing and/or engineering a multitrack recording session with live musicians, creating the soundtrack for a video, or a scholarly presentation based on any relevant topic from the sound and recording BOK. Capstone completion required for minor.

Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 6681 - Private Instruction

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Bachelor's degree in Music.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 4 credit hours.

MUSC 6682 - Private Instruction

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Bachelor's Degree in Music.

Number of Times this Course May Be Repeated: May be repeated 4 times with a maximum of 8 credit hours.

THEA 4862 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

Number of Times this Course May Be Repeated: May be repeated up to 12 times for a maximum of 12 credit hours.

THEA 4862 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production.

Pre-requisite(s): Prerequisite: Audition and permission of the instructor/director. The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

Number of Times this Course May Be Repeated: May be repeated up to 12 times with a maximum of 12 credit hours.

Network Management Technology

NET 1030 - Foundations of Computing

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

This course follows the core body of knowledge specified by the ACM which provides students with a broad overview of topics they might encounter within the major areas of computing. The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, web design and development, programming, database, software engineering, networking, and more. Cross-listed with CS 1030 and WEB 1030.

NET 1300 - Networks and Emerging Technologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce the fundamentals of voice and data networking technologies. The course includes topics such as history of telecommunications, history of data networking, study of industry, transport media, common networking protocols, and emerging technologies.

NET 2010 - Business English Applications

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Includes Business English essentials: grammar, punctuation, and proofreading. Keyboarding 40 wpm recommended.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501.

NET 2200 - Microcomputer Operating Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Study of hardware and software components through managing programs, directories, files, and disks. Includes integrating applications, customizing windows, and managing printing.

NET 2210 - Linux Systems Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course gives students a solid foundation in the fundamentals of the Linux operating system. Students gain system-level experience

through problem-solving exercises at the command line and in the graphical user interface (GUI). By the end of the course, students will have learned the major, essential, command-line commands necessary to be accomplished users of Linux.

Pre-requisite/Co-requisite: CS 1030 and NET 2200 or instructor approval.

NET 2300 - Introduction to LAN Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Local area networking concepts including needs analysis, applications, topologies and configurations, and troubleshooting using hands-on labs.

Pre-requisite/Co-requisite: NET 2200 or instructor approval.

NET 2415 - Cisco TCP/IP Routing Protocols and Router Configuration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is the first in a two-course series designed to prepare students to pass the examinations for Cisco Certified Network Associate (CCNA). This course covers the OSI model, network components and topologies, IP addressing, beginning router configuration and routing protocols.

Pre-requisite(s): NET 2300 or CS 2705.

NET 2435 - Cisco Advanced LAN and WAN Switching and Routing Theory and Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is the second in a two-course series designed to prepare students to pass the examinations for Cisco Certified Network Associate (CCNA). This course covers advanced router configurations, LAN switching theory and VLANs, advanced LAN and LAN switched design, Novell IPX, WAN theory design and technology, PPP, frame relay, ISDN, network troubleshooting, national SCANs skills, and threaded case studies.

Pre-requisite(s): NET 2415.

NET 2610 - NetWare Administration

Credits: (3)

This is the introductory course to Novell Administration involving setting up, managing, and using basic network services, including file systems, network printing, security, and Z.E.N. Works. After completing this course and successfully passing the Novell test, the candidate becomes a Certified Novell Administrator (CNA).

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

Note: This course is not currently offered.

NET 3210 - Advanced Linux Systems Administration

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course presents advanced administrative skills common to mid-to senior-level administrators in an enterprise environment. Students learn how to apply security to network users and resources, manage and compile the Linux kernel, and troubleshoot network processes and services.

Pre-requisite(s): NET 2210.

NET 3300 - Advanced LAN Security Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course provides an in-depth look into the field of network security. Specific topics to be examined include networking protocols and threats, authentication models, cryptography, layer 2 security, application security, social engineering, access control lists, firewalls, risk management, and OS hardening.

Pre-requisite(s): NET 2300 or instructor permission.

NET 3310 - Network Server Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Students will learn how to install, configure, manage, and troubleshoot hardware and applications in a Server environment. With a specific focus on Server fundamentals, this course will teach students how to install servers, configure active directories, create and manage users, install server roles and features, perform diagnostics, and troubleshoot malfunctioning servers.

Pre-requisite(s): NET 2300.

NET 3415 - Cisco CCNPB-Advanced Router Configuration

Credits: (3)

Building Scalable Cisco Networks (BSCN). Addresses tasks network managers and administrators need to perform when managing access and controlling overhead traffic in growing routed networks once basic connectivity has been established. Discusses router capabilities used to control traffic over LANs and WANs, as well as connecting corporate networks to an Internet Service Provider (ISP).

Pre-requisite(s): NET 2435 or CCNA Certification or CS 3705.

Note: This course is not currently offered.

NET 3425 - Cisco CCNP-Building Cisco Switched Networks

Credits: (3)

Building Cisco Multilayer Switched Networks (BCMSN). Teaches network administrators how to build campus networks using multilayer switching technologies over high speed Ethernet. Teaches how routing and switching concepts and implementations technologies work together.

Pre-requisite(s): NET 2435 or CCNA Certification.

Note: This course is not currently offered.

NET 3435 - Cisco CCNP--Remote Access Networks

Credits: (3)

Teaches how to build a remote access network to interconnect central sites to branch offices and home office/telecommuters. Further teaches students how to control access to the central site as well as maximizes bandwidth utilization over remote links.

Pre-requisite(s): NET 2435 or CCNA Certification.

Note: This course is not currently offered.

NET 3445 - Cisco CCNP--Internetwork Troubleshooting

Credits: (3)

Hands-on lab exercises. Covers developments in Cisco IOS and Catalyst software. Teaches how to baseline and troubleshoot an environment using Cisco routers and switches for multiprotocol client hosts and servers connected with: Ethernet, Fast Ethernet, and Token Ring LANS; and Serial, Frame Relay and ISDN BRI WANs.

Pre-requisite(s): NET 2435 or CCNA Certification.
Note: This course is not currently offered.

NET 3550 - Supervising Information Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Application of supervisory functions in network management and multimedia settings including planning, structure, design, implementation, evaluation, problem-solving, and human resources.

Pre-requisite(s): NET 2300 or WEB 2300.

NET 3600 - Principles of Business/Marketing Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

NET 3610 - Methods of Teaching Marketing Education Subjects

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Analysis and research into methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

NET 3710 - Switching and Transmission Network Systems Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course covers management of switching and transport systems and their technologies from industry carrier systems to private business networks. Also included are cellular/mobile/fixed wireless technologies including network elements, routing, packet delivery, handoff technology, and the evolution of generations of wireless technologies and systems.

Pre-requisite(s): NET 2300.

Co-Requisite(s): NET 3715.

NET 3715 - Transmission Network Applications

Credits: (2)

Typically Taught Fall Semester: *Fall [Full Sem]*

Hands-on labs working with TDM lines and trunks, transport, IP routing, and SIP. Applications will be run on live LAN/WAN networks. Also, the course includes discussion of new technologies.

Pre-requisite(s): NET 2300.

Co-Requisite(s): NET 3710.

NET 3720 - Advanced Transport Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An examination of the growing wireless technologies, fiber optics, their roles within the telecommunications data and media industries and to introduce associated fiber optic technical skills.

Pre-requisite(s): NET 2300

NET 3730 - Cyber Policy and Ethics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Explores how the structural, competitive, economic, environmental, and ethical forces affect the continuing transformation of the networking industry both domestically and internationally. Discussion of the impact of contemporary issues on the provider and the consumer of telecommunication services including the legal and ethical requirements and ramifications of electronic privacy are included.

Pre-requisite(s): NET 3710 and NET 1300 or CS 1030.

NET 4700 - Data and Voice Network Design

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

As a capstone course, students will design data and voice networks using industry metrics and rationale. Architecture, technologies, and standards associated with the design and management of modern data and voice networks will be covered.

Pre-requisite(s): CS 3720 and CS 2130.

NET 4740 - Security Vulnerabilities and Intrusion Mitigation

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

A treatment of security issues related to computers and computer networking. This course is designed for advanced users, system administrators and network administrators. The course covers TCP/IP security issues, security policies, packet filtering, Internet firewall architecture and theory, detecting and monitoring unauthorized activity, password authentication, intrusion detection and prevention and other security issues involving Linux, UNIX and Microsoft Windows operating systems. A team project is included.

Pre-requisite(s): MATH 1040, CS 2130, PS 3250, and CS 3705.

NET 4760 INT - Network/Telecommunications Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Must be completed senior year in a network/telecommunications environment with company placement and outcomes approved by the department.

Pre-requisite(s): NET 4700 (may be taken concurrently).

Co-Requisite(s): Simultaneous enrollment in NET 4790 is required.

NET 4790 INT - Network/Telecommunications Senior Project

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Capstone project applying the principles of network/telecommunications to the development of a network/telecommunications system within a company.

Pre-requisite(s): NET 4700 (may be taken concurrently).

Co-Requisite(s): Simultaneous enrollment in NET 4760 is required.

NET 4850 - Faculty Directed Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to permit Network Management Technology majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Network Management Technology. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET 4800, NET 4850 and NET 4890 may be taken to satisfy missing credits or to achieve full time academic status.

Pre-requisite(s): NET 2300.

NET 4890 - Cooperative Work Experience

Credits: (1-4)

The purpose of this course is to permit Network Management Technology majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET 4800, NET 4850, and NET 4890 may be taken to satisfy missing credits or to achieve full time academic status

Pre-requisite(s): NET 2300.

NET 4990 - Senior Project

Credits: (3)

Research, analysis, presentation, and discussion of topics relative to graduating majors and minors.

Pre-requisite(s): WEB 2860 or equivalent.

Note: This course is offered as needed.

Network Management Technology - Master Level

NET 6600 - Principles of Business/Marketing Education

Credits: (3)

Typically Taught Spring Semester: Full Sem

This graduate-level course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching. NET 6600 may be substituted for NET 3600 in the undergraduate Business Education Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503 and a bachelor's degree.

NET 6610 - Methods of Teaching Business Education

Credits: (3)

Typically Taught Fall Semester: Full Sem

This graduate-level course includes an evaluation and application of the methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading. The students will write a unit-long Learning Activity Package (LAP) and will demonstrate teaching in a business/marketing course. NET 6610 may be substituted for NET 3610 in the undergraduate Business Education

Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503; and a bachelor's degree.

Network Technology and Business Multimedia

WEB 1010 - Exploring Web and User Experience

Credits: (3)

Typically Taught Fall Semester: Full Sem

Capabilities and limitations of multimedia technology, evaluation of multimedia products, and creation of a multimedia portfolio.

WEB 1030 - Foundations of Computing

Credits: (4)

Typically Taught Fall Semester: Full Sem, Full Sem Online

Typically Taught Spring Semester: Full Sem, Full Sem Online

Typically Taught Summer Semester: Full Sem, Full Sem Online

This course follows the core body of knowledge specified by the ACM which provides students with a broad overview of topics they might encounter within the major areas of computing. The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, web design and development, programming, database, software engineering, networking, and more. Cross-listed with CS 1030 and NET 1030.

WEB 1040 - Speedbuilding Keyboarding

Credits: (1)

Intensive computerized approach for improving speed and accuracy. Keyboarding 25 wpm recommended. The grade for this course is credit/no credit.

Note: This course is not currently offered.

WEB 1400 - Web Design and Usability

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Understand the technicalities of the World Wide Web and the Internet. Plan, design, and implement a successful web site using current web technologies. Topics covered include audience analysis, information architecture, wireframing, prototyping, responsive design, usability and accessibility, testing, and analytics.

WEB 1430 - Client Side Programming

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This class introduces the JavaScript language, with a focus on advanced language features and client-side web programming. Topics covered include basic syntax, object-oriented programming, higher-order functions, the DOM, and AJAX. The class will also introduce jQuery.

Pre-requisite(s): WEB 1400 and CS 1400.

WEB 1501 - Document Creation Competency Exam

Credits: (.5)

Typically Taught Fall Semester: Full Sem, Online

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

The computer competency exam for this course is a hands-on examination verifying a student's skills at document creation. Practice materials are available on the web for studying the competencies covered on the test. The one-hour exam must be completed during the semester registered. Two repeats of the exam may be taken during the semester with an additional fee charged. The grade for the course is credit/no credit.

Note: Call (801-626-7384) or email CIL@weber.edu for more information.

WEB 1502 - Content, Internet Identity, and Device Management Competency Exam

Credits: (.5)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

The computer competency exam for this course is a hands-on examination verifying a student's skills in content, internet identity, and device management. Practice materials are available on the web for studying the competencies covered on the test. The one-hour exam must be completed during the semester registered. Two repeats of the exam may be taken during the semester with an additional fee charged. The grade for this course is credit/no credit.

Note: Call (801-626-7384) or email CIL@weber.edu for more information.

WEB 1503 - Data Manipulation, Visualization, and Presentation Competency Exam

Credits: (.5)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

The computer competency exam for this course is a hands-on examination verifying a student's skills at data manipulation, visualization, and presentation. Practice materials are available on the web for studying the competencies covered on the test. The one-hour exam must be completed during the semester registered. Two repeats of the exam may be taken during the semester with an additional fee charged. The grade for the course is credit/no credit.

Note: Call (801-626-7384) or email CIL@weber.edu for more information.

WEB 1700 - Introduction to Computer Applications

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Students will use current software to produce correctly formatted research papers with an accepted academic reference format, to produce effective employment documents such as a resume and a cover letter, and to use multiple collaboration mediums to effectively share, communicate, and collaborate with their peers. Students will use current software/technology to manage content on local devices and in the cloud, to manage their web identity and presence according to e-safety, security, and privacy best practices and standards, and to manipulate multiple computing platforms to troubleshoot problems. Students will protect local devices from security threats including viruses, malware, and adware using current best practices and technologies. Students will also manipulate and analyze data using various software applications and basic programming, organize data using graphical methods such as charts and infographics, and

create an effective, well-designed presentation. Keyboarding 25 wpm recommended.

WEB 1701 - Document Creation

Credits: (1)

Typically Taught Fall Semester: *1st Blk, Online*

Typically Taught Spring Semester: *1st Blk, Online*

Typically Taught Summer Semester: *1st Blk, Online*

Students will use current software to produce correctly formatted research papers with an accepted academic reference format such as MLA or APA. Students will use current software/technology to produce effective employment documents such as a resume and a cover letter. Students will also be able to use multiple collaboration mediums to effectively share, communicate, and collaborate with their peers. Keyboarding 25 wpm recommended.

WEB 1702 - Content, Internet Identity, and Device Management

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Students will use current software/technology to manage content on local devices and in the cloud. Students will manage their web identity and presence according to e-safety, security, and privacy best practices and standards. Students will manipulate multiple computing platforms and troubleshoot problems when they arise. Students will protect local devices from security threats including viruses, malware, and adware using current best practices and technologies. Keyboarding 25 wpm recommended.

WEB 1703 - Data Manipulation, Visualization, and Presentation

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Students will manipulate and analyze data using various software applications and basic programming. Students will organize data using various graphical methods such as charts and infographics to appropriately convey information. Students will create an effective, well-designed presentation using current technologies. Keyboarding 25 wpm recommended.

WEB 2080 - Database Applications

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Use of database software to design and create a database, including objects such as tables, queries, reports, and forms. Use of advanced management features such as macros, switchboards, referential integrity, and compound criteria.

Pre-requisite(s): WEB 1700 or WEB 1702/WEB 1502.

WEB 2200 - Image Editing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to an image creation and editing program such as Adobe Photoshop. Students learn the basics of the program (workspace, selections, and layers). The steps in editing images are completed (cropping, color and tonal adjustments, retouch, noise reduction, sharpening, and exporting). Students also work creatively with layer styles, filters, layer masks, blend modes, and paint brushes. Several of the assignments will involve editing images and creating

composites for the web (i.e hero image, web banner ad, Facebook cover).

WEB 2210 - Computer Illustrations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

In this course you will learn the fundamentals of a vector drawing program such as Adobe Illustrator. Students become skilled using the Pen Tool and other drawing tools to create vector illustrations.

Various techniques are learned for applying color, attributes, styles, and effects to illustrations. Students also create, edit, and format type to add to their illustrations. Projects will focus on web illustrations for banners, landing pages, user interface elements, social media, infographics, and other web content.

WEB 2220 - Digital Publishing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Use of professional page design and layout software such as Adobe InDesign to design, create, and edit a variety of publications for print and web. Students create publications for print such as a marketing card and business flyer/brochure, as well as interactive online web documents that contain audio, video, slideshows, and HTML content.

Pre-requisite(s): WEB 1400 and WEB 2200 or permission of instructor.

WEB 2300 - Video Editing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Using video editing software such as Adobe Premiere, students will combine many separate video recordings to create short digital movies. The following steps of the video production process will be completed: creating storyboards; shooting the video and recording the audio; capturing resources to the computer; importing resources into a video project; adding titles, graphics, transitions, and effects; and exporting the video to formats for the computer, television, DVDs, and the Web.

WEB 2350 - Client Side Web Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk Online*

This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, and Javascript with an introduction to JQuery and JQuery Mobile. Cross-listed with CS 2350.

Pre-requisite(s): CS 1400 and WEB 1400.

WEB 2410 - Web Animation I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course introduces various web technologies that aid the creation of web animations for distribution on many platforms. Students discuss technical issues affecting animation such as speed and compression. Students will explore several current tools to create animations for the web.

WEB 2500 - User Experience Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

In this course students will be introduced to the four-step user

experience design process which includes user research, design, testing, and implementation. The following topics will be covered: history of user experience, user behavior, cognitive processing, personas, web analytics, content strategy, information architecture, writing for the web, user-centered design, usability testing, and accessibility. Using current technologies and tools, students will create a basic web or mobile application.

Pre-requisite(s): WEB 1400.

WEB 2620 - Advanced CSS

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A deep knowledge of CSS properties and specifications is essential in client-side web development and design. This course will expand students knowledge of CSS by covering the following CSS properties: media queries, animation & transitions, transforms, grid layouts, flexbox, web fonts, shapes, variables, exclusions, and regions. Browser support, preprocessors, frameworks, and minification will also be discussed. Using these advanced CSS techniques student will design and implement a consistent user experience and the page layout of a web application.

Pre-requisite(s): WEB 1400 or CS 2350.

WEB 2630 - Client Side Frameworks

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course covers client-side JavaScript Frameworks and building Single Page Applications (SPA). It starts with a review of the JavaScript programming language (with emphasis on the Document Object Model (DOM) and covers various debugging techniques using the browser developer tools. An overview of Asynchronous JavaScript and XML (AJAX) is introduced before diving deeper into a popular client-side JavaScript framework - like Angular, React or VueJS. Regardless of the primary framework chosen, we will explore and compare the other frameworks as time permits. Cross-listed with CS 2630.

Pre-requisite(s): WEB 1430 or CS 2350.

WEB 2800 - Independent Projects and Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent project, student assistant, or research on an individual basis. Prerequisite: Permission of instructor.

Number of Times this Course May Be Repeated: May be taken twice up to 6 credit hours.

WEB 2860 - Work Study

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students can earn variable credit (depending on the number of hours performed) by working in the web and user experience career field or by serving as a teaching assistant for a WEB/UX faculty member. Either way, the student will fulfill objectives that have been pre-approved by a business/organization supervisor or faculty advisor. This lower division elective is primarily intended for WEB/UX majors currently working in entry-level (client side) positions within the career field. Junior and Senior level students, performing more complex server-side web development, should consider taking the Upper Division WEB 4860 course as an

alternative.

Pre-requisite(s): Permission of instructor and WEB/UX program coordinator.

Number of Times this Course May Be Repeated: May be repeated up to four times with a maximum of four credit hours.

WEB 2890 - Client-Side Portfolio

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

In this project-based course students will design a web portfolio that features the work they have completed during the Web and User Experience AAS degree. Students will also create several portfolio pieces related to client-side web development.

Pre-requisite(s): WEB 2620

WEB 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to four times with a maximum of four credit hours.

Note: This course is not currently offered.

WEB 3000 - Advanced Word Processing

Credits: (1)

Typically Taught Spring Semester: *Full Sem Online*

Use of word processing software including sorts, tables, columns, reports, merges, graphics, and macros.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501.

WEB 3070 - Advanced Spreadsheet Applications

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Use of spreadsheet software including macros, sorts, advanced formulas, graphs, and creative presentations.

Pre-requisite(s): WEB 1700 or WEB 1703/WEB 1503.

WEB 3090 - Digital Presentations

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

Use of electronic slide presentation software to create slides consisting of short paragraphs, bulleted lists, graphic images, movie clips, audio clips, data charts, diagrams, and imported data from other software. Emphasis will also be placed on professional quality presentation design and animation of slide elements.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

WEB 3110 - Training the Trainer

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Real-world strategies and techniques to provide better employee training, including development of materials and methods to enhance

the learning process.

Pre-requisite(s): ENGL 2010 and WEB 1700 or WEB 1701, WEB 1702, and WEB 1703, or WEB 1501, WEB 1502, and WEB 1503.

WEB 3200 - Dynamic Languages for Web Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

General purpose dynamic languages like Python and Ruby have become increasingly popular and well suited for the creation of full stack web applications. This course will introduce students to the syntax and programmatic idioms of both Ruby and Python. The following topics will be covered in both languages: complex data types, loops, conditionals, command line applications, and the object-oriented programming paradigm. The commonly used web frameworks of each language will be explored and used to create and deploy a full stack web application to a cloud provider.

Pre-requisite(s): CS 1400, WEB 2630, and WEB 2890.

WEB 3300 - Motion Graphics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

In this course you will use Adobe After Effects to create motion graphics and visual effects for film and video. You will learn how to create sophisticated motion graphics using animated text and objects, compositing videos and images, and adding visual effects to video. You will learn how to set keyframes on a timeline and work with transform properties, motion paths, rotoscoping masks and effects, developing a solid foundation in this increasingly popular and versatile software.

Pre-requisite(s): WEB 2200 and WEB 2300 or approval of instructor.

WEB 3400 - LAMP Stack Web Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course explores the Linux-Apache-MySQL-PHP, or LAMP Web development framework to build applications that solve common business problems. The course begins with an exploration of the LAMP architecture, then covers fundamentals of the PHP programming language before introducing a PHP framework like Laravel. Additional coverage focuses on database concepts and how to interact with a MySQL database.

Pre-requisite(s): WEB 3200 or NET 2210.

WEB 3410 - Web Animation II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will explore native web technologies that are useful for animation including JavaScript, SVG, the HTML canvas element and CSS. Using these native web technologies, students will design and produce advanced multimedia projects applicable for business and industry. These projects will be produced by combining web animation, graphics, video, and text into interactive web and mobile multimedia presentations.

Pre-requisite(s): WEB 2410.

WEB 3430 - Full Stack JavaScript Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Modern web development increasingly involves using end-to-end JavaScript-based technologies such as MongoDB, Express.js, Angular, React, Vue.js, Node.js, etc. This course introduces development techniques that capitalize on the strengths of every layer in this JavaScript-based full-stack.

Pre-requisite(s): WEB 3200.

WEB 3500 - User Interface Prototyping & Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will learn the elements of user interface design as it applies to front-end web and mobile app development. Students will identify best practices in user interface design. Using those best practices they will rapidly prototype an effective user interface.

Pre-requisite(s): WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission from instructor.

WEB 3620 - Server-Side Web Architecture

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An introduction to server-side Web development using the most current Web server technologies. General Web development principles such as usability, reliability, maintainability and scalability will be applied to current Web development environments such as PHP, Python, Ruby and Java. Students will gain real-world experience in creating Websites for multiple Web platforms. Cross listed with CS 3620.

Pre-requisite(s): WEB 2350 and CS 2550.

WEB 3650 - Human-Computer Interaction

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices. Cross-listed with CS 3650.

Pre-requisite(s): CS 2420 and CS 2450, or WEB 3500.

WEB 3700 - Web Development with .NET

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Microsoft's ASP.NET Core is a cross-platform, high-performance web framework for building full stack web applications. This course will introduce students to the syntax and programmatic idioms of ASP.NET/C#. The following topics will be covered: REST, Razor, Model Binding and Validation, Entity Framework and the MVC design pattern. Client-side development libraries will also be discussed and integrated, so that student can build and deploy a full stack application.

Pre-requisite(s): WEB 3200.

WEB 4350 - Web Development Capstone

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Senior level group project capstone course covering full stack client/server web development. The project will be implemented using an advanced web framework (such as Laravel, NPM, Django, Ruby on Rails, or others). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing. Cross-listed with CS 4350.

Pre-requisite(s): CS 3620, WEB 3400 and WEB 3430.

WEB 4800 - Independent Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed research and study on an individual basis.

Pre-requisite(s): Permission of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 6 credit hours.

WEB 4860 INT - Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students work in the web and user experience field. The student fulfills objectives that have been approved by a business/organization supervisor and a faculty advisor. Must have Senior standing or approval of instructor.

Pre-requisite(s): Permission of instructor.

WEB 4890 - Server-Side Portfolio

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In this project-based course students will revise and update the web portfolio that was created in the WEB 2890 course. They will add to the portfolio work that they have completed during the Web and User Experience BS degree. Students will also create several portfolio pieces related to server-side web development.

Pre-requisite(s): WEB 3500 and WEB 3620/CS 3620.

WEB 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated for a maximum of six credit hours.

Note: This course is not currently offered.

Neuroscience

NEUR 2050 - Introduction to Neuroscience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introduction to the interdisciplinary field of neuroscience, which examines the function and dysfunction of the human and animal nervous system. The course spans the major areas of neuroscience including cellular/molecular factors, neuron physiology, brain structure and function, and medical/clinical applications. The topics addressed are critical to multiple fields of study (e.g. health sciences, psychology, and zoology) and provides the skills necessary for students to succeed in upper-division courses related to the brain and behavior.

Pre-requisite(s): none; recommend some background in basic biology, chemistry, or psychology.

NEUR 3750 - Cognitive and Behavioral Neuroscience

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

This course challenges students to apply knowledge of nervous system structure and function to higher order cognitive functions and motor abilities including attention, memory, emotions, language and symbolic functions, reasoning, decision making, problem solving, voluntary movement, and consciousness.

Pre-requisite(s): NEUR 2050 or PSY 2730 or instructor approval.

NEUR 3850 - Clinical Neuroscience

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

This is an advanced undergraduate course primarily for Neuroscience minors, but open to all students. Students will apply a knowledge of neuroanatomy, neurophysiology, cognition, and behavior to discuss and solve in-depth clinical case studies in the classroom setting. The course will consist of instructor-led and student-led activities to explore a range of nervous system disorders.

Pre-requisite(s): NEUR 2050 or PSY 2730 or consent of instructor.

NEUR 3950 - Cellular and Molecular Neuroscience

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Students will explore the cellular and molecular basis for nerve cell function.

Pre-requisite(s): NEUR 2050.

NEUR 3998 - EEG in Epilepsy

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester, probably at the University of Utah, will be required and there is a required research paper.

NEUR 3999 - EEG in Ped Patients & Neonates

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester, probably at the University of Utah, will be required and there is a required research paper.

NEUR 4800 - Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised participation in projects and/or primary research with a faculty mentor in various areas of neuroscience. Limited to advanced students upon consent of neuroscience faculty mentor and the Neuroscience Program director. A paper written in APA style and an oral report are required at the end of the semester.

Pre-requisite(s): NEUR 2050 (Introduction to Neuroscience), PSY 3600 (Statistics) or equivalent, and faculty mentor permission.

Number of Times this Course May Be Repeated: Students may enroll in this course twice for a maximum of 6 credit hours.

NEUR 4810 - Experimental

Credits: (1-6)

Typically Taught Spring Semester: *Full Sem odd years*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times for a maximum of 6 credit hours.

NEUR 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent readings or secondary research on advanced neuroscience special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.

Pre-requisite(s): NEUR 2050 (Introduction to Neuroscience), PSY 3600 (Statistics) or equivalent, and faculty mentor permission.

Number of Times this Course May Be Repeated: Students may enroll in this course twice for a maximum of 6 credit hours.

NEUR 4900 - Topics in Neuroscience

Credits: (2-3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

This course offers an in-depth exploration of selected topics and issues in the discipline. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the Neuroscience Program Director.

Pre-requisite(s): NEUR 2050 or PSY 2730 or consent of instructor.

Number of Times this Course May Be Repeated: The course may be taken up to three times for a maximum of six credit hours.

Note: This course is taught as needed.

Nuclear Medicine

NUCM 4103 - Radiopharmaceuticals and Dosages

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Radiopharmacology, characterization of radiopharmaceuticals used in performing examinations and calculation of dosages.

NUCM 4203 - Scanning and Imaging Procedures I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Organ concentration, excretion and absorption, measurements and imaging.

NUCM 4213 - Scanning and Imaging Procedures II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Organ concentration, excretion and absorption, measurements and imaging.

NUCM 4223 - Nuclear Cardiology

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Pathology, indications for examination and procedures in nuclear cardiology.

NUCM 4303 - Radionuclide Physics & Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Production and properties of radionuclides, decay schemes, radiation measurements and special characteristics of radiopharmaceuticals.

NUCM 4333 SI - Quality Assurance

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Nuclear Medicine departmental policies and procedures.

NUCM 4861 INT - Clinical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4862 INT - Clinical Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4863 INT - Clinical Education

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4912 - Comprehensive Review

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Review of learned material.

NUCM 4991 - Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

New technology, procedures and equipment.

Nursing

NRSRG 2100 - Pharmacology for Nurses 1

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Basic pharmacological treatments used by the nurse to promote health across the lifespan. Included in the course will be

administering medications safely through various routes and specific agents that affect health and wellbeing. 3 lecture hours per week.

Pre-requisite(s): Admission to the Nursing Program.

Co-Requisite(s): NRSRG 2200.

NRSRG 2200 - Nursing Foundations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students are socialized into the profession of nursing, taught scope of practice, rules and ethics. Building nursing care on a health/wellness continuum is introduced. Students begin the nursing process through assessment of health and wellness in individuals, families and populations throughout the lifespan, and in diverse cultures and environments. 3 lecture hours per week.

Pre-requisite(s): Admission to the Nursing Program.

Co-Requisite(s): NRSRG 2100.

NRSRG 2251 INT - Foundations of Nursing Laboratory and Clinical

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will include a combination of lab, simulation, and clinical experiences. Students will focus on identifying and implementing foundational nursing skills. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings. Admission to the ADN Nursing Program is a pre-requisite, and registration in NRSRG 2100 and NRSRG 2200 are co-requisites.

NRSRG 2283 - Directed Readings and Projects

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Pre-requisite(s): Instructor approval.

Number of Times this Course May Be Repeated: (Maximum of 3 semester hours per year).

NRSRG 2300 - Patient Centered Nursing Care 1

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Focused theory with emphasis on nursing care across the lifespan for patients experiencing changes in health status. Focus will be on identifying chronic diseases and developing a nursing strategy to promote wellness and quality of life for the patient. Clinical will focus on application of theory related to nursing care of patients in multiple environments and across the life-span. 3 lecture hours per week.

Pre-requisite(s): NRSRG 2100, NRSRG 2200.

NRSRG 2351 INT - Patient Centered Nursing Care Experience I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will include a combination of clinical, simulation, and laboratory experiences. Students will build on previous skills and knowledge and focus on demonstrating and examining safe and efficient patient care. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings.

Pre-requisite(s): Admission to Nursing Program, NRS 2100, NRS 2200, and NRS 2251.

Co-Requisite(s): NRS 2300.

NRS 2500 - Patient Centered Nursing Care 3

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Focused theory with emphasis on nursing care across the lifespan for patients experiencing changes in health care status. Focus will be on caring for patients in the acute care setting with a goal of restoring optimal health and wellness.

Pre-requisite(s): NRS 2300, or Admission to the PN to RN nursing program.

Co-Requisite(s): NRS 3100.

NRS 2551 INT - Patient Centered Nursing Care Experience II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will include a combination of clinical, simulation, and laboratory experiences. Students will build on previous skills and knowledge and focus on developing and critiquing safe and efficient patient care. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings.

Pre-requisite(s): NRS 2100, NRS 2200, NRS 2251, NRS 2300, and NRS 2351.

Co-Requisite(s): NRS 2500 and NRS 3100.

NRS 3100 - Pharmacology for Nurses 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Advanced pharmacological treatments used by the nurse to promote health across the lifespan. Included in the course will be administering medications safely through intravenous and other routes along with specific agents that affect health and well-being. Credit hours (3): 3 lecture hours per week.

Pre-requisite(s): NRS 2300, or admission to the PN to RN

Program.

Co-Requisite(s): NRS 2500.

NRS 3200 - Complex Patient Centered Nursing Care 1

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Theory focuses on nursing care of patients with complex changes in health status requiring extensive multifaceted resources. Credit hours (3): 3 lecture hours per week.

Pre-requisite(s): NRS 2500 and NRS 3100.

Co-Requisite(s): NRS 3300 and NRS 3350.

NRS 3300 - Entry Into Nursing Professional Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Theory focuses on synthesis of nursing knowledge and skills necessary for entrance into registered nursing practice and includes preparation for licensing exams and synthesis of previous concepts. Credit hours (3): 3 lecture hours per week.

Pre-requisite(s): NRS 2500, and NRS 3100.

Co-Requisite(s): NRS 3200 and NRS 3350.

NRS 3350 INT - Entry Into Nursing Professional Practice Capstone

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Clinical preceptorship focuses on synthesis of nursing knowledge, skills, and conduct necessary for entrance into registered nursing practice. Credit hours (3): 9 clinical hours per week.

Pre-requisite(s): NRS 2500 and NRS 3100.

Co-Requisite(s): NRS 3200 and NRS 3300.

NRS 3400 - Mental Health: The Complex Role

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem*

Advanced theories and concepts of nursing practice are explored across the lifespan for those experiencing alterations in mental health.

NRS 3440 - Coping in Your Profession

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The healthcare profession can be a highly rewarding career, but it can also be riddled with stress. This course will explore contributing factors that may cause stress among healthcare professionals. Burnout can be a direct result of stress in the workplace. The student will examine the causes of burnout, and more importantly, explore tools to prevent and treat burnout.

NRS 3810 - Experimental Courses

Credits: (1-6)

Consult the semester class schedule for the current offering under this

number. The specific title and credit authorized will appear on the student transcript. May be repeated 5 times with a maximum of 6 credit hours. Refer to Experimental Courses.

NRSG 4000 - Culture and Health Care

Credits: (2)

This course is an exploration of culture, health care issues and experiences at the local, regional, national, or international levels. The learner will study and compare the health care of a selected country/community from the cultural, political and educational perspective.

Credit hours (2), 2 lecture hours per week.

Pre-requisite(s): Admission to Weber State University; recommended for nursing students, Licensed Nurses, and other healthcare providers.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

NRSG 4001 - Clinical Experience Related to Culture and Health Care of Nurses

Credits: (1-3)

This course is a Study Abroad Experience for Health Care Workers to explore the relationship between culture, health care and nursing issues at local, regional, national, and/or international levels.

Information gained during NRSG 4000 will assist the student to put into practice the concepts learned.

Credit hours (1-3). Lab hours depend on the country visited.

Pre-requisite/Co-requisite: Co-requisite or prerequisite: NRSG 4000 related to area being visited.

Number of Times this Course May Be Repeated: May be repeated up to 99 times.

NRSG 4010 - Interdisciplinary Health Care Teams

Credits: (3)

This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.

Cross-listed with DENT 4010 & HTHS 4010.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

NRSG 4045 - ELNEC: End-of-Life Nursing Education Consortium

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed from the nationally recognized guidelines of the End-of-Life Nursing Education Consortium (ELNEC) project.

These guidelines are revised regularly to reflect current advances in the field. The purpose of the ELNEC project is to support the knowledge and skills of nurses in providing palliative care to patients who are experiencing serious illness or end of life. ELNEC content focuses on nursing care at the end of life; pain management; symptom management; ethical/legal issues; cultural considerations in end-of-life care; communication; loss, grief, bereavement; and preparation for and care at time of death.

Pre-requisite(s): Admission to a nursing program or current registered nurse.

NRSG 4050 - Nursing Assessment Across the Life Span

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course provides the theory requisite for the systematic examination and analysis of subjective and objective health assessment data obtained during the health assessment process. The health status of a client will be determined through the process of differential analysis of both the anecdotal evidence provided by the client and empirical evidence gathered during the physical examination. With this evidence, students will learn to apply the scientific process of formulating and testing hypothetical diagnoses. The overall purpose will be focused upon developing strategies and skills to assess the health care needs of people across the life span. Students are challenged to identify normal assessment findings and critically analyze variations from normal.

NRSG 4060 - Oncology Nursing

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course provides learning opportunities for nurses who work in various areas of health care with minimal opportunities to care for patients with cancer. The learning activities are based on current evidence, clinical experts, and patient values-evidenced-based practice. Throughout the course, an emphasis is placed on the collaborative interprofessional team tasked with managing the care of the patients regarding cancer diagnosis, cancer treatments, unintentional consequences stemming from treatment, and emotional aspects involved in caring for patients with cancer.

NRSG 4070 - Disaster Nursing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Terrorism, war and natural disasters present new challenges to nurses and requires they be trained to care for resultant victims. Learning emphasizes crisis management, specific patient/health issues and unique nursing interventions. (Hybrid)

NRSG 4080 - Adult Critical Care

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Advanced theories and concepts of nursing practice are explored in relation to adults experiencing life threatening alterations in health. (Hybrid)

NRSG 4090 - Nursing: High Risk OB/Pediatric Patient

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

At risk pediatric and obstetric populations require multiple interventions from knowledgeable caregivers. In this course, students will learn theory and concepts associated with caring for these high-risk populations. By the end of this course students will have an

increased understanding of nursing care and application of evidence-based care for improved outcomes. (Hybrid).

NRSB 4100 - Complex Patient Centered Nursing Care 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4100 is designed to assist students in learning theory and concepts related to nursing care of patients with chronic conditions, including illness implications and education for patients and families. Topics will include areas such as genetic conditions, caregiver stress and grieving, as well as advocacy for vulnerable populations. The course will incorporate application of advanced skills and knowledge to address coordination of complex care issues and healthcare resources inherent in caring for patients and families experiencing chronic conditions.

NRSB 4200 SUS - Scholarship for Evidence-Based Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4200 focuses on a basic understanding of how multiple sources of evidence are developed and integrated into an evidence-based nursing environment. These sources include the formal research process, quality improvement data, clinical judgment, inter-professional perspectives, and patient preference. This course will include the application of advanced knowledge and skills required for translating reliable evidence into evidence-based practice and clinical judgments. The course will also support the establishment of a research-base for the student's personal nursing practice, as well as influence the continual improvement of healthcare quality and safety.

NRSB 4300 - Healthcare Policy and Decision Making

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4300 will explore healthcare policies, including financial and regulatory policies, which directly and indirectly influence nursing practice. These policies shape responses to organizational, local, national, and global issues of equity, access, affordability, and social justice. Students will apply advanced skills and knowledge to identify, analyze and problem-solve variables affecting nursing decisions and healthcare policy encountered in nursing practice. Topics will be presented that provide an overview of legal and ethical principles and theories, emphasizing the role of ethics and healthcare policy in nursing.

NRSB 4392 - Care Management: Implications for Nursing Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem*

The Principles of Care Management course presents students with the opportunity to gain insight and understanding into the various roles that nurses play in patient care management. Learners will have the opportunity to examine the major characteristics of care management including the forces that influence patient care planning. During the

course the student will learn the necessary skills to create and apply a care management plan to a specific patient population. The course is appropriate for individuals who have an interest in the care management field and who are focusing their careers working with populations and individuals over their life-time of care within illness and wellness issues.

NRSB 4400 SUS - Population Health in Nursing

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4400 explores nursing in diverse populations in a local and global context emphasizing disease prevention, health promotion and cultural competency for the improvement of health status throughout the lifespan. Focus will include disparities in health and health care services, and the impact of behavior and lifestyle choices. Course projects will incorporate application of advanced skills and knowledge related to health needs and health promotion at the individual and community level. Students will examine frameworks of community and public health, assess and analyze prevalent population-based health issues, and explore population-based interventions.

NRSB 4500 - Nursing Management and Leadership

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4500 is designed to facilitate student learning and application of advanced skills and knowledge related to nursing leadership and nursing management. In accordance with this, students will explore and examine personal and professional characteristics of nurse leaders and nurse managers which will prepare them to lead through evidence-based principles. Students will also gain experience in communication and collaboration with community partners and interdisciplinary teams, which will prepare them to assist in the advancement of the profession of nursing through empowerment, change, and anticipation of nursing's future.

NRSB 4600 - Communication, Collaboration, and Information Management in Healthcare

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem*

Nursing 4600 will incorporate application of advanced skills and knowledge related to information management, patient care technology, and effective interpersonal communication modalities. These skills are critical in preparing nurses to deliver quality patient care in a variety of healthcare settings. Students will examine information management tools used to monitor: outcomes of care processes, patient care technologies essential to ensuring high quality, safe patient care, and communication and collaboration skills necessary to providing optimal patient-centered care.

NRSB 4700 - Forensic Nursing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course explores nursing in the field of forensics in both criminal and civil contexts. The different roles and responsibilities of forensic

nurses will be explored and best-practices for evidence collection and preservation will be reviewed. Holistic care of victims and families will be emphasized. Students will review victimology, evaluate prevalent population-based health issues, and explore forensic nursing interventions.

NRSRG 4830 - Directed Theoretical Readings

Credits: (1-3)

Involves a contract with faculty to include reading and writing of materials relevant to baccalaureate level nursing. Subject emphasis arranged with faculty.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

NRSRG 4840 - Departmental Honors in Nursing Seminar

Credits: (3)

Completion of this course is required for students participating in the honors program in nursing. Students explore scholarly activity in nursing through the guided completion of one of three different learning options: creating a research proposal, writing a scholarly paper, or performing a service project. Learning through active and individualized scholarly inquiry is the focus of this class.

NRSRG 4850 - Study Abroad

Credits: (1-6)

Variable Title

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

NRSRG 6130 - Theoretical Foundations of Nursing Practice

Credits: (3)

Typically Taught Fall Semester: Full Sem Online

Typically Taught Spring Semester: Full Sem Online

Typically Taught Summer Semester: Full Sem Online

This course introduces the student to processes associated with the development and application of both nursing and non-nursing theory. These processes include the varied yet interdependent activities of theory analysis, description, critical reflection, and utilization of theory. In addition, the student will explore the utilization of both nursing and non-nursing theory in his or her practice of nursing.

Pre-requisite(s):

The student must be officially accepted into the MSN program to register for this class.

NRSRG 6140 SUS - Collaborative Approaches in Population Health

Credits: (3)

Typically Taught Summer Semester: 2nd Blk, Online

This course examines the principles of ecological, global, and social determinants of health to design, deliver, and evaluate culturally relevant clinical prevention and health promotion interventions and strategies for individuals, families, communities, and aggregate populations. Ethical approaches to equitable, efficient, effective, and sustainable population-based health policies are also examined.

NRSRG 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator

Credits: (3)

Typically Taught Spring Semester: 1st Blk, Online

This course prepares the graduate with advanced knowledge and skills in the three areas of pathophysiology, pharmacology, and health assessment. Students will build upon previous knowledge in these three areas by participating in case-based learning and integrating advanced principles with educational practices.

NRSRG 6211 - APRN Path II and Genetics

Credits: (2)

Typically Taught Spring Semester: Full Sem

This is the second foundational pathophysiology course for nurse practitioners (NP's). Students are taught pathophysiology associated with disease and non-disease processes and clinical genetics principles as applied to nurse practitioner patient care. Alterations in physiology result in clinical problems and diseases managed by NP's. Cell dysfunction or deregulation manifests as systemic symptoms and associated disease. Content includes etiology, modifiable risk factors, exposures, physiological mutations, and specific/nonspecific mechanisms to optimize cell-tissue-organ-system function. Students identify, analyze, and evaluate evidence related to disease pathology of specified body systems across the lifespan for future patient management.

NRSRG 6216 - APRN Pharmacology II

Credits: (2)

Typically Taught Spring Semester: Full Sem

This foundational core course is a continuation of NRSRG 6215 Advanced Pharmacology I. It continues to overview efficacious patient-centered medication management in a clinical setting. Course content includes information on evidenced-based pharmaceutical interventions for central nervous system pathology, mental and behavioral disorders, cardiovascular and renal system disease, gastrointestinal illness, and respiratory, ENT, dermatology, and immunity syndromes. Prescriptive practice principles medication choice, dosing, drug interactions and side effects, and patient monitoring, education, and evaluation for effectiveness across the lifespan are considered and analyzed. Advanced Pharmacology II adheres to accreditation criteria for graduate nursing prescriptive principles and nurse practitioner practice.

NRSRG 6256 - Transition to Advanced Practice II

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

This course is designed to complement NRSRG 6260 Advanced Practice Nursing Clinical Practicum in preparing the family practice nursing student for the certification examination and the advanced practice role. The course allow students to investigate a variety of topics that impact advanced practice nursing, issues for special populations, leadership competencies, impact of policies on healthcare, and principles of independent or NP managed practices.

Pre-requisite(s): NRSRG 6205.

Co-Requisite(s): NRSRG 6260.

NRSRG 6260 - Nurse Practitioner Immersion

Credits: (4)

Typically Taught Spring Semester: Full Sem

This is the final clinical course of the FNP Program. This course is designed for the nurse practitioner student to evaluate individual and

system effectiveness in delivery of quality healthcare to patients across the lifespan. The course evaluates the student's ability to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course also evaluates the student's ability to diagnose and determine best practice to treat illness and prevent disease.

Pre-requisite(s): NRS 6236, NRS 6241, NRS 6246, NRS 6251.

NRS 6860 INT - Fieldwork Practicum

Credits: (1-9)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This practicum provides students with graduate level health-related fieldwork experience in a self-selected setting, under the direction of a faculty member. Instructor consent required. This is a pass/fail course.

Number of Times this Course May Be Repeated: May be repeated for a maximum of nine credit hours.

NRS 7000 - Introduction to DNP Degree

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course allows students to explore how the DNP prepared nurse leader participates in evolving healthcare environments through translation of knowledge for advocacy, quality improvement, systems change, and policy revision. Role transition and professionalism are explored through the foundational DNP practice essentials, identification of healthcare challenges, and the educational and practice requirements for a Post-Masters DNP prepared advance practice nurse.

Pre-requisite(s): Student must be accepted to the DNP program.

NRS 7001 - Transitions to Practice I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course allows students to explore how the DNP prepared FNP participates in evolving healthcare environments through translation of knowledge for leadership, advocacy, quality improvement, and policy revision. Role transition and professionalism are explored through the foundational DNP practice essentials and FNP clinical competencies, identification of practice challenges, and the educational, clinical, and practice requirements for a BSN to DNP-FNP degreed advance practice nurse.

Pre-requisite(s): Student must be accepted to the DNP program.

NRS 7002 - Transitions to Practice II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

The course provides students with a foundation for understanding the process and phases of transition to the role of a nurse practitioner, the requirements for credentialing as a Family Nurse Practitioner (FNP), participation in professional organizations, and regulatory compliance. An understanding of issues related to health policy, healthcare delivery, access and quality of care, ethical and legal role expansion implications, negotiating contracts, billing and reimbursement, and general leadership competencies are presented. Students explore and articulate a variety of nurse practitioner roles including direct and indirect healthcare possibility.

NRS 7010 - Scholarly/Ethical Foundations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course examines scientific, philosophical, and ethical underpinnings of advanced nursing practice including the relationships among theory, research, and practice. Students critically appraise types of evidence in nursing and/or other health care disciplines to begin the initial literature review for the DNP Project.

Pre-requisite(s): Student must be accepted to the DNP program.

NRS 7020 - Biostatistics/Epidemiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course focuses on the basic tools needed for the collection, analysis, and interpretation of research, in particular findings and recommendations for individuals and population health and health policy. Epidemiological principles, models, and approaches/strategies related to health and illness in at-risk populations are examined. General principle of research design and hypothesis testing are reviewed and research and non-research studies examined for human health and disease treatment.

Pre-requisite(s): Student must be admitted to the DNP program.

NRS 7030 - Information Technology & EBP

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course examines principles of nursing informatics and how they are integrated in health care systems. Advanced informatics skills of database design, knowledge management, clinical decision support, and project management to guide the DNP student in recommending, evaluating, and implementing patient care technologies.

Pre-requisite(s): Student must be admitted to the Post Master's DNP or BSN to DNP-FNP program.

NRS 7040 - Systems Approach and QI

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course focuses on the DNP student critically appraising the evidence of quality improvement (QI) measures, strategies, and outcomes in health care systems. The DNP student designs and evaluates care delivery approaches within the current organizational, political, cultural, and economic context to ensure accountability for quality of health care and patient safety in diverse organizations.

Pre-requisite(s): Student must be admitted to the DNP program.

NRS 7050 - Advanced Population Health

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

This course synthesizes concepts related to clinical prevention and at-risk populations. Using epidemiological and informatics principles, the DNP student assesses select population needs, with consideration of psychosocial, cultural, and ecological factors and their impact on health disparities across healthcare systems. Students evaluate care delivery models for population health services addressing health promotion/disease prevention that are responsive to diverse cultural needs. Upon completion of this course, the student completes 30 DNP practice hours.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7060 - DNP Leadership

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course examines theories and strategies to enhance the DNP student's leadership skills. Students are prepared to effectively lead change, facilitate interdisciplinary collaboration, and transform practice to impact quality of health care and outcomes within complex health care systems.

Pre-requisite(s): Student must be admitted to the Post Master's DNP or BSN to DNP-FNP program.

NRSG 7070 - Healthcare Policy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course prepares the DNP student to critically analyze healthcare policy interventions and evaluate health care policy and regulation.

This course examines safe, effective, ethical, equitable, patient-centered care within healthcare systems. Upon completion of this course, the student completes 30 DNP practice hours.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7080 - Healthcare Finance/Economics

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

This course focuses on principles of healthcare economics and finance to develop and implement effective planning, decision-making, and evaluation for healthcare delivery within healthcare organizations and systems. It provides a financial management perspective to advanced nursing practice and general health care issues.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7801 - DNP Project I

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This course synthesizes evidence, theories, and scientific principles for the DNP student to create a DNP project plan.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7802 - DNP Project II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

This course facilitates the DNP student's development and presentation of the DNP project proposal.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7803 - DNP Project III

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This culminating course includes the DNP student's evaluation and dissemination of the impact of the DNP project.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7900 INT - DNP Practicum

Credits: (1-8)

This practicum is for DNP nursing students to build on concepts and skills derived from DNP courses and focuses on developing advanced skills in integration and synthesis of practice and knowledge. This is a pass/fail course.

Pre-requisite(s): Student must be admitted to the DNP program.

Number of Times this Course May Be Repeated: May be repeated up for a maximum of 8 credit hours.

NRSG 7902 - NP Clinical I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

This is the clinical companion course to NRSG 6235 Nurse Practitioner Care I and NRSG 6240 Nurse Practitioner Care II. The course is designed for the nurse practitioner student to deliver high quality healthcare to patients of all ages with a focus on primary care. Students apply evidenced-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of health conditions. Students practice history taking, perform physical examination, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles to prevent disease and manage individualized healthcare outcomes through psychomotor, affective and cognitive domains. Associated theory courses focus on adult and older adult health conditions.

NRSG 7903 - NP Clinical II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This is the clinical companion course to NRSG 6245 Nurse Practitioner Care II and NRSG 6250 Nurse Practitioner Care IV. The course is designed for the nurse practitioner student to deliver high quality healthcare to patients of all ages with a focus on primary care. Students apply evidenced-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of health conditions. Students practice history taking, perform physical examination, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles to prevent disease and manage individualized healthcare outcomes through psychomotor, affective and cognitive domains. Associated theory courses focus on pediatric and female health conditions.

NRSG 7904 INT - Nurse Practitioner Immersion

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

This is the final clinical immersion for nurse practitioner students. The NP student's ability to apply evidenced-based practice principles, perform acquired skills, and magnify diagnostic reasoning through psychomotor, affective and cognitive domains reevaluated. Clinical competency for a pertinent history, physical assessment, diagnostic test decisions with analysis, differential diagnoses determination, optimal plan interventions, patient management of acute and chronic illness, and health promotion are appraised. The clinical immersion may be an audition rotation for future employment.

Nutrition Education

NUTR 1020 LS SUS - Science and Application of Human Nutrition

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*

Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are

explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions.

Note: *This course is taught Web enhanced.*

NUTR 1120 - Nutrition for the Athlete

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The course will address nutrition, eating behavior, and lifestyle issues of the athlete in the typical collegiate athletic environment. Topics in nutrition for the performance athlete, meal planning for the collegiate athlete, menu evaluation, personal diet analysis, and common fad diets aimed at the performance athlete are included.

NUTR 1240 SUS - Nutrition and Sustainable Cooking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk Online*

Sustainable ways to acquire, prepare and consume food to support a healthier individual, population, and environment are explored. Food science principles will be emphasized in the laboratory experience.

NUTR 2020 - Nutrition in the Life Cycle

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

This course examines the nutritional needs of humans along with food and nutrition education and programs through the life cycle stages from pre-conception through older adulthood. Students assess normal nutrition and various conditions and interventions across the lifespan through applied case studies.

Pre-requisite(s): NUTR 1020.

NUTR 2220 - Prenatal and Infant Nutrition

Credits: (2)

Typically Taught Fall Semester: *1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Spring Semester: *1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Summer Semester: *1st Blk or 2nd Blk Online*

This course focuses on nutrition and diet as they apply to birth outcome, the maintenance of maternal health, and the growth of the infant. Breastfeeding and community programs will be discussed in support of maternal and infant health.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

NUTR 2320 - Food Values, Diet Design and Health

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Spring Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Summer Semester: *1st Blk or 2nd Blk Online*

The relationships between dietary components and the development of chronic diseases provides the foundation for designing diets that support life-long "good health". Topics in nutrigenomics, food allergy and food technology are introduced.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

NUTR 2420 - Childhood and Adolescent Nutrition

Credits: (2)

Typically Taught Fall Semester: *1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Spring Semester: *1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Summer Semester: *1st Blk or 2nd Blk Online*

The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

NUTR 3020 - Sports Nutrition

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Hybrid, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Hybrid, Online*

The nutritional support necessary to achieve optimum athletic performance will be discussed in the context of diet and metabolism. In addition, the use of ergogenic aids will be addressed with reference to athletic performance.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

Number of Times this Course May Be Repeated: May be repeated up to two times.

NUTR 3040 - Nutrition Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

This course covers foundational assessment methods used to determine population and individual nutritional status. Students will learn the scientific foundation on nutrition assessment and how to apply this knowledge in medical, community and research settings.

Pre-requisite(s): NUTR 1020 and NUTR 2320.

NUTR 3070 - Advanced Food Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

The advanced study of the physical, biological, and chemical make-up of food. Effects of food preparation, storage and processing on nutrient content, taste and shelf-life.

Pre-requisite(s): (CHEM 1110 or CHEM 1210) and NUTR 1020.

NUTR 3220 - Foundations in Diet Therapy

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk Online, 2nd Blk Online*

The nutrition care process, practice and methods of nutrition support are studied for the management of nutritionally-related medical conditions by body system in which diet is crucial for control of the disease or condition.

Pre-requisite(s): (NUTR 1020 or HLTH 1020) and NUTR 2320.

Suggested Requisite(s): ZOO 2200 or HTHS 1110/HTHS 1111 are recommended.

NUTR 3320 - Health and Nutrition in the Older Adult

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *2nd Blk or 2nd Blk Online*

The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental, and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are explored in the context of promoting healthy aging.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

NUTR 3420 - Multicultural Health & Nutrition

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *3rd Blk or 2nd Blk Online*

The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding of world food problems as they pertain to the health will also be discussed.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

NUTR 4320 - Current Issues in Nutrition

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*

Typically Taught Spring Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*

Technology-aided literature review of the nutritional and medical sciences provides the information for presentation to peers in both written and oral forms.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320 or consent of instructor.

NUTR 4420 - Nutrition and Fitness

Credits: (3)

Typically Taught Fall Semester: *1st Blk or 2nd Blk Hybrid*

Typically Taught Spring Semester: *1st Blk or 2nd Blk Online*

Principles of sports nutrition and fitness are applied to achieve a healthy body weight. Consideration of exercise and dietary practices along with fitness evaluation, dietary analysis and body composition testing are utilized to create a plan to improve physiological health.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

NUTR 4440 - Advanced Human Nutrition

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

The advanced study of human nutrition with focus on the metabolism of vitamins, minerals, and energy-producing nutrients. The structure, properties, and functions of the nutrients and their regulatory roles in metabolism, body composition and weight, fluid balance, health, and disease states are covered with clinical examples and across the lifespan.

Pre-requisite(s): NUTR 1020 and NUTR 2320.

Co-Requisite(s): CHEM 3070.

NUTR 4520 - Directed Undergraduate Nutrition Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

This course will provide undergraduate students an opportunity to engage in research processes and participate in ongoing nutrition research projects.

Pre-requisite(s): NUTR 4320 or NUTR 1020 or HLTH 1020 and Permission of Instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 6 credit hours.

NUTR 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*

Typically Taught Spring Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*

Typically Taught Summer Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*

Independent and directed readings or secondary research on advanced special topics under the direction of a faculty mentor.

Pre-requisite(s): NUTR 2320 and consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated for up to 3 credit hours.

NUTR 4860 INT - Field Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

Work experience, which applies prior academic learning in a supervised setting.

Pre-requisite(s): NUTR 1240 and consent of faculty supervisor prior to registration.

Number of Times this Course May Be Repeated: May be repeated up to 2 credit hours.

NUTR 4990 - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem Online*

This is a capstone course for Nutrition seniors only. The experiences in the Nutrition major will be summarized and students will be prepared for graduate study or future employment.

Pre-requisite(s): NUTR 3420.

Nutrition Education - Master Level

NUTR 6320 - Current Issues in Nutrition

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Technology-aided literature review of the nutritional and medical sciences provides the information for presentation to peers in both written and oral forms.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320 or consent of instructor.

NUTR 6420 - Nutrition and Fitness

Credits: (3)

Typically Taught Fall Semester: *1st Blk or 2nd Blk Hybrid*

Typically Taught Spring Semester: *1st Blk or 2nd Blk Online*

Principles of sports nutrition and fitness are applied to achieve a healthy body weight. Consideration of exercise and dietary practices along with fitness evaluation, dietary analysis and body composition testing are utilized to create a plan to improve physiological health.

Pre-requisite(s): Consent of instructor.

Number of Times this Course May Be Repeated: This course is taught Web enhanced.

NUTR 6520 - Directed Graduate Nutrition Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will provide graduate students an opportunity to engage in research processes and participate in ongoing nutrition research projects.

Pre-requisite(s): NUTR 4320 or NUTR 1020 or HLTH 1020 and Permission of Instructor. Graduate students taking this class as 6520 must have completed a statistical methods course.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

Outdoor and Community Recreation Education

OCRE 2300 - Wilderness First Responder (WFR)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Wilderness First Responder (WFR) is an industry-standard, internationally recognized 72-80 hour (per provider) certification course focused on emergency response for remote settings in the backcountry. The course is designed for professionals who intend to work in a position of leadership in an outdoor setting, or for individuals who want a high level of wilderness medical training for extended personal backcountry trips or expeditions. Participants will learn systems for patient assessment, extended care (including CPR), and rescue/evacuation in remote settings. Emphasis will be placed on the acquisition and application of knowledge and skills necessary for responsible practice in the field of outdoor recreation. Upon successful completion of the course (including a written and practical exam), students will earn an internationally recognized professional certification.

OCRE 2500 - Introduction to Outdoor Pursuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introduction to Outdoor Pursuits is focused on engaging and introducing students to discover, explore, and practice a variety of outdoor adventure and recreation activities. This includes, but is not limited to, group development, outdoor living, backpacking, flat- and whitewater paddling, mountain biking, rock climbing, caving, and winter-based pursuits. Emphasis is placed on activity-specific technical skill development, equipment management, risk management, environmental ethics, and basic instructional and facilitation strategies. Field Sessions are required.

OCRE 2610 - Introduction to Outdoor Living Skills I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

This course will provide students with an overview of backcountry skills. Students will learn about backcountry travel and camping skills, equipment use, and hazard identification. One lecture and 3 hour field trip are required each week.

OCRE 2890 INT - Cooperative Work Experience

Credits: (1-9)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Open to all students in Recreation who meet the minimum Cooperative Work Experience requirements of the department.

Number of Times this Course May Be Repeated: May be repeated 8 times up to 9 credit hours.

OCRE 3050 - Recreation and Leisure in Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Content, nature, extent and significance of recreation and leisure; their role in our lives, relevant service delivery agencies/organizations/businesses, leadership functions and styles, and a introduction to team-building/adventure programming activities.

OCRE 3100 - Recreation Leadership and Group Facilitation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Customer/client-based leisure services, role delineation, settings, theories of leadership and group dynamics. Skills: apply various experiential techniques for different populations that recreational professionals may encounter.

OCRE 3230 - Wilderness Nutrition & Backcountry Cooking

Credits: (4)

Typically Taught Spring Semester: *1st Blk*

For outdoor professionals and those who spend extensive time in the outdoors, wilderness nutrition and backcountry cooking are critical components to providing safe, healthy, and enjoyable outdoor recreation experiences. Concepts of nutritional balance, energy needs, menu planning, and cooking are explored and applied within the context of a backcountry setting. Multiple field experiences are required.

Pre-requisite(s): HLTH 1030 or NUTR 1020.

OCRE 3300 - Inclusive and Adaptive Recreation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Students will explore and apply concepts of leisure and recreation experiences and the related social impacts across a wide variety of populations including: ethnicity, race, ability, gender, age, religion and nationality.

OCRE 3320 - Adventure Programming

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

In this course, students will gain a theoretical and applied understanding of adventure programming within the field of Community and Outdoor Recreation. Students will have the opportunity to explore program planning and preparation, and activity implementation through individual and collaborative learning experiences. Upon completion of this course, students will have a Program Plan that reflects the theoretical and logistical elements that comprise programs in Community and Outdoor Recreation. This course also requires an adventure program implementation field experience.

Pre-requisite(s): OCRE 3100 (formerly REC 3810).

OCRE 3400 - Outdoor Equipment Production and Retailing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Students will learn about key outdoor gear manufacturers, materials used in equipment, and practices retail operation use in the sales of outdoor apparel and equipment. Students will apply course information to analyze, critique, and create an outdoor gear concept. In class exercises, site visits, field trips, and assignments will challenge students to engage in critical thinking and complex quantitative and communication skills.

Pre-requisite(s): OCRE 2500 or permission from the instructor.

OCRE 3450 - Adventure Travel and Sustainable Tourism

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This course will provide an overview of history, development, organization, impacts and trends within adventure travel and tourism industries. Students will learn about development and evolution of adventure travel and sustainable tourism; socio-cultural, economic, and environmental dimensions within adventure travel and sustainable tourism; positive and negative impacts of tourism; and principles and practices conducive to sustainable tourism. Students will gain experience in critically analyzing and evaluating adventure travel and sustainable tourism industries.

OCRE 3500 - Community Recreation and Park Planning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on principles and methods of recreation and park design and planning. The student should expect to learn how to: assess community recreation facilities, parks, open spaces, recreation trends, industry standards, create planning goals and objectives, and make planning recommendations. Classification of recreation areas according to primary function, location and clientele will also be explored.

Pre-requisite(s): OCRE 3320.

OCRE 3520 - Risk Management and Legal Issues in Recreation Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Risk Management and Legal Issues is focused on the examination of

general legal concepts, federal and state legislation, and legal liabilities as these relate to and impact programming with the fields of community and outdoor recreation. Emphasis is placed on the process of identifying and managing potential risks in recreation, education, developmental, and social service settings, as well as organizational structures. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education.

Pre-requisite(s): OCRE 3320 or permission from the instructor.

OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides an examination of administration and management skills tied to outdoor recreation agencies/businesses/organizations. Emphasis will be placed on site visits, services delivery, environmental impacts, legal issues, human resources and administration and management skills. Outdoor activities (backpacking/hiking/camping/ropes course leadership, and use of technology in leisure research and programming) will be explored in the context of program management and administration. Field trips are required.

Pre-requisite/Co-requisite: OCRE 3320.

OCRE 3700 - Recreation and Sports Facilities and Events Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Studies the principles, guidelines, and fundamental practices involved in indoor and outdoor facilities planning, construction, use and management, as well as publicity and management of events for recreation and sports. Integrates tenets of the law and risk management as they relate to recreational and athletic facilities and events.

Pre-requisite(s): ESS 2200 or OCRE 3050.

OCRE 3900 - Commercial Outdoor Recreation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will cover outdoor and adventure recreation business development. Particular emphasis will be on analyzing the types of commercial and private recreation enterprises, trends and directions, regulations, financial requirements and procedures for planning and organizing commercial recreation services.

Pre-requisite(s): OCRE 3320.

OCRE 4000 - Recreation Programming for Youth Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will review and apply theories of youth development to recreation-based settings. Topics addressed include: youth development theories, political, social, and cultural issues relevant to youth development, types of youth serving organizations, youth professional roles and responsibilities; quality youth programming, logic modeling, program evaluation, and theory-driven program design.

Pre-requisite(s): OCRE 3100 or permission from the instructor.

OCRE 4020 - Nature Interpretation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Nature Interpretation is focused on providing the student with an in-depth investigation of the fundamental principles and concepts of nature interpretation. This includes, but is not limited to historical development of the field, principles of exhibit design, interpretative program designs and techniques, common field techniques, and current trends used by outdoor leaders. In addition, an overview of employment opportunities in the field will be explored. This course emphasizes experimental learning theories and their application to natural history interpretation and environmental education program design. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education and learning (per the work of John Dewey).

Pre-requisite(s): OCRE 3050 and OCRE 3100 (formerly 3810).

OCRE 4300 - Trends and Ethical Issues in Recreation Services

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Current Trends and Ethical Issues in Recreation examines major ethical theories and their relation to the development of personal and professional ethics in practitioners working in the field of community and outdoor recreation. The differences between ethics and morality will be analyzed, and selected codes of ethics will be presented for review and discussion. The application of ethical decision making and problem solving in recreation settings will be explored.

Pre-requisite(s): OCRE 3600.

OCRE 4500 - Grant and Proposal Writing for Recreation Professionals

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

Grant and Proposal Writing for Recreation Professionals is focused on providing the student with an in-depth investigation of grant writing and management. The course will provide students with an opportunity for primary and authentic experience in researching and writing grants. Students will explore the process of identifying prospective funders, developing relationships with funders, comprehending the basics of writing grants, submitting proposals, working in collaborative partnerships, and preparing for follow up and evaluation. Students will apply course learning to write and prepare actual grant proposals. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education and learning.

Pre-requisite(s): OCRE 3050 or permission from the instructor.

OCRE 4550 - Outdoor Education Philosophies & Principles

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Provides basic concepts of outdoor education, and direct, firsthand experience with learning resources beyond the classroom.

Pre-requisite(s): OCRE 2500.

OCRE 4800 - Individual Projects

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A comprehensive study of a significant problem in the field of recreation. Hours to be arranged. For seniors only.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

OCRE 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

A continuation of OCRE 2890.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

OCRE 4930 - Outdoor Education Workshop

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

A broad inter-disciplinary approach to the methodology of outdoor education teaching techniques; experiential learning-course taught almost totally outdoors.

REC 1241 - Mountain Biking, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This physical activity course introduces students to mountain biking and trail riding. Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1242 - Mountain Biking, Level II

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This physical activity course introduces students to mountain biking and trail riding. Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1243 - Mountain Biking, Level III

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This physical activity course introduces students to mountain biking and trail riding. Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1304 - Backcountry Touring, Level I

Credits: (1)

Typically Taught Spring Semester: *1st Blk*

This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course

covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.
Number of Times this Course May Be Repeated: May be repeated three times for a maximum of three credit hours.

REC 1305 - Backcountry Touring, Level II

Credits: (1)

Typically Taught Spring Semester: *1st Blk*

This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of three credit hours.

REC 1306 - Backcountry Touring, Level III

Credits: (1)

Typically Taught Spring Semester: *1st Blk*

This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of three credit hours.

REC 1310 - Whitewater Paddling, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This physical activity course introduces students to the basic skills required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills taught include boat maneuvering, reading rapids, and basic rescue skills.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1311 - Whitewater Paddling, Level II

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This physical activity course introduces students to the basic skills required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills taught include boat maneuvering, reading rapids, and basic rescue skills.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1312 - Whitewater Paddling, Level III

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This physical activity course introduces students to the basic skills

required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills taught include boat maneuvering, reading rapids, and basic rescue skills.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1316 - Stand-Up Paddleboard

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

This physical activity course is intended to introduce students to the fundamental skills and knowledge necessary to enjoy Stand Up Paddleboarding (SUP). The course will cover: 1) technical knowledge (i.e., history, terminology, equipment, regulations, safety); 2) technical skills (i.e., carrying, launching, landing, balance, stances, strokes, maneuvers, equipment maintenance); and 3) rescue/safety (i.e. self-rescues).

REC 1350 - Scuba Diving, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A beginner level physical activity course that allows students to learn and develop the skills and knowledge needed to safely engage in the underwater activity of scuba diving.

Note: This course is offered through Continuing Education only.

REC 1351 - Scuba Diving, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity that engages students in the underwater activity of scuba diving. This Level II course allows students to build on skills developed in Level I.

Pre-requisite(s): REC 1350.

REC 1404 - Mountaineering, Level I

Credits: (1)

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Typically Taught Summer Semester: *1st Blk*

This physical activity course introduces students to the basic skills required for mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1405 - Mountaineering, Level II

Credits: (1)

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Typically Taught Summer Semester: *1st Blk*

This physical activity course introduces students to the basic skills required for mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1406 - Mountaineering, Level III

Credits: (1)

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Typically Taught Summer Semester: *1st Blk*

This physical activity course introduces students to the basic skills required for mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.

Number of Times this Course May Be Repeated: May be repeated twice and up to 3 credits.

REC 1505 - Kayaking, Level I

Credits: (1)

Typically Taught Spring Semester: *2nd Blk*

A physical activity course that introduces students to the outdoor activity of kayaking. The fundamental skills of kayaking will be addressed for both beginning and recreational paddlers.

REC 1510 - Fishing, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1511 - Fishing, Level II

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1512 - Fishing, Level III

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1520 - Hiking, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk*

A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1521 - Hiking, Level II

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1522 - Hiking, Level III

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1527 - Rock Climbing, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk*

A beginner level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1528 - Rock Climbing, Level II

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *2nd Blk*

Typically Taught Summer Semester: *1st Blk*

An intermediate level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1529 - Rock Climbing, Level III

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

An advanced level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1530 - Rock Climbing for Instructors, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

This course is intended for individuals pursuing work as climbing instructors or guides and covers the curriculum of the American Mountain Guides Association (AMGA) Single Pitch Instructor Course. Instruction will take place predominantly at local outdoor climbing areas through practical skills sessions. The course also includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for rock climbing instructors.

REC 1531 - Rock Climbing for Instructors, Level II

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

This course is intended for individuals pursuing work as climbing instructors or guides and covers the curriculum of the American Mountain Guides Association (AMGA) Single Pitch Instructor Course. Instruction will take place predominantly at local outdoor climbing areas through practical skills sessions. The course also includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for rock climbing instructors.

REC 1610 - Skiing, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy skiing and advance through specified skill levels.(CR/NC).

REC 1611 - Skiing, Level II

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

A physical activity course that allows students to learn and develop

the skills and technique needed to safely enjoy skiing and advance through specified skill levels. (CR/NC).

REC 1612 - Skiing, Level III

Credits: (1)

Typically Taught Fall Semester: 3rd Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy skiing and advance through specified skill levels. (CR/NC).

REC 1620 - Snowboarding, Level I

Credits: (1)

Typically Taught Fall Semester: 4th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1621 - Snowboarding, Level II

Credits: (1)

Typically Taught Fall Semester: 5th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1622 - Snowboarding, Level III

Credits: (1)

Typically Taught Fall Semester: 6th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1630 - Cross-Country Skiing, Level I

Credits: (1)

Typically Taught Fall Semester: 7th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1631 - Cross-Country Skiing, Level II

Credits: (1)

Typically Taught Fall Semester: 8th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1632 - Cross-Country Skiing, Level III

Credits: (1)

Typically Taught Fall Semester: 9th Blk

A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1640 - Skiing for Instructors

Credits: (1)

Typically Taught Fall Semester: 2nd Blk

This course is intended for individuals pursuing work as skiing instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for skiing instructors through practical demonstrations and exercise on the snow.

REC 1650 - Snowboarding for Instructors, Level I

Credits: (1)

Typically Taught Fall Semester: 2nd Blk

This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

REC 1651 - Snowboarding for Instructors, Level II

Credits: (1)

Typically Taught Fall Semester: 2nd Blk

This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

REC 1652 - Snowboarding for Instructors, Level III

Credits: (1)

Typically Taught Fall Semester: 2nd Blk

This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

Philosophy

PHIL 1000 HU - Introduction to Philosophy

Credits: (3)

Typically Taught Fall Semester: Full Sem, Online

Typically Taught Spring Semester: Full Sem, Online

Typically Taught Summer Semester: Online

An introduction to the methods and problems of philosophy, with special emphasis on topics pertaining to the nature of reality, the theory of knowledge, and value theory.

PHIL 1120 HU - Contemporary Moral Problems

Credits: (3)

Typically Taught Fall Semester: Full Sem, Online

Typically Taught Spring Semester: Full Sem, Online

Typically Taught Summer Semester: Full Sem

An introduction to ethical theories and their application to contemporary moral issues, such as human cloning, abortion, and physician-assisted suicide.

PHIL 1250 HU - Critical Thinking

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Online

An introduction to informal logic, focusing on issues of logical form, standards of good and bad reasoning, and argumentative writing.

PHIL 2200 - Deductive Logic

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introduction to the concepts and methods of modern symbolic logic. Emphasis is placed on problems of translating English expressions into logical symbols, on the development of skills in using the formal proof procedures of sentential and predicate logic, and development of the predicate calculus.

PHIL 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and number of credits authorized will appear on the student's transcript.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of 6 credits.

Note: This course is offered as needed.

PHIL 3010 - History of Philosophy: Classical & Medieval

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

A survey of the major philosophers and issues from the Presocratics to the beginning of the early modern period, covering such major figures as Plato, Aristotle, Plotinus, Augustine, and Aquinas.

PHIL 3020 - History of Philosophy: Modern

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A topical survey of the major philosophers and issues from the seventeenth century to the beginning of the nineteenth century (Descartes to Kant).

PHIL 3150 - Existentialism

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An examination of central themes in Existentialism, including anxiety, dread, freedom, awareness of death, and the consciousness and meaning of existence. These themes will be traced through the writings of such writers as Kierkegaard, Nietzsche, Heidegger, Camus, Sartre, and Simone de Beauvoir.

PHIL 3200 - Philosophy of Democracy

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

An examination of the ideals of and justifications for democratic institutions.

PHIL 3250 - Philosophy of Law

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An examination of central topics in the philosophy of law, including the relationship between law and morality, the justification of punishment, and legal reasoning.

PHIL 3350 - Medical Ethics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A survey of fundamental moral issues arising from the practice of medicine and from advances in medical science.

PHIL 3500 - Philosophy of Western Religion

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

A survey of topics in the philosophy of religion, especially as they pertain to Judaism, Christianity, and Islam.

PHIL 3550 - Philosophy of Eastern Religion

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An examination of classic philosophical issues in Eastern religious thought, with a special emphasis on Hinduism, Buddhism, Taoism, and Confucianism.

PHIL 3650 - Aesthetics

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

An examination of philosophical issues concerning the nature and importance of aesthetic experience and appreciation in the arts and the environment, including questions about the definition of art, artistic representation and expression, and aesthetic value.

PHIL 4400 - Great Issues in Philosophy

Credits: (3)

A selected study of one of the traditional questions of philosophy, such as the nature of knowledge and truth, the mind/body problem, free will/determinism, and the nature of moral/aesthetic value.

Number of Times this Course May Be Repeated: May be repeated once up to six credits covering a different topic.

Note: This course is offered as needed.

PHIL 4450 - Great Thinkers of Philosophy

Credits: (3)

Selected study of the major works of a single central figure in philosophy. Philosophers whose works may be taught include, but are not limited to: Plato, Aristotle, Augustine, Aquinas, Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, Kant, Nietzsche, Mill, and Wittgenstein.

Number of Times this Course May Be Repeated: May be repeated once up to six credits covering a different philosopher.

Note: This course is offered as needed.

PHIL 4510 - Metaphysics

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

A study of enduring topics concerning the nature of reality, such as the mind/body problem, free will/determinism, the problem of universals, and the existence of God. Historical and contemporary philosophers are discussed.

PHIL 4520 - Epistemology

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

A study of enduring topics in the theory of knowledge, such as the nature of justification; the relationship between knowledge, justification, and belief; the nature of truth; and sources of knowledge. Historical and contemporary philosophers are discussed.

PHIL 4530 - Philosophy of Mind

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A study of enduring topics in the philosophy of mind, such as the nature of mind; the mind-body problem; consciousness; the

individuation of mental content; artificial intelligence. Historical and contemporary philosophers are discussed.

PHIL 4540 - Philosophy of Language

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

A survey of central topics in the philosophy of language, including semantic content, speech acts, and the connection between meaning and truth. Historical and contemporary philosophers are discussed.

PHIL 4600 - Ethical Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

An in-depth study of western ethical theories, including utilitarianism, Kantian ethics, virtue ethics, and social contract theory.

PHIL 4810 - Experimental

Credits: (1-6)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed.

PHIL 4810 - Phil of Gender and Sexuality

Credits: (3)

Experimental Course, Contact Department for More Information

This course explores philosophical and political questions that arise about gender and sexuality. What have figures in the history of philosophy said about women, sex, and the family? Do we still hold some of their views, and are those views plausible? How should we understand contemporary notions of sexism and oppression? How many sexes are there? How many genders? What is sexual orientation? What is sexual perversion? What are sexual ethics? What are the moral status of practices such as prostitution and pornography? What are trans rights? To what do they extend? We will explore these questions by looking at the work of a variety of theorists, both historical and contemporary.

PHIL 4830 - Directed Readings

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individually designed tutorial for philosophy minors and majors, intended to satisfy program requirements not available through scheduled class offerings.

Number of Times this Course May Be Repeated: May be repeated 8 times for a maximum of 9 credits.

PHIL 4900 - Senior Capstone Seminar

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A comprehensive review of the various areas of philosophy and an in-depth study of a single philosopher with the goal of producing a substantial thesis paper.

PHIL 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and number of credits authorized will appear on the student's transcript.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of 6 credit hours.

Note: This course is offered as needed.

Physics

PHYS 1010 PS - Elementary Physics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A brief survey of physics at the introductory level. Topics covered include laws of motion, gravity, energy, light, heat, sound, electricity, magnetism, atomic and nuclear physics, radioactivity, and relativity. Three hours of lecture per week.

PHYS 1040 PS - Elementary Astronomy

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang.

Three hours of lecture per week.

Cross-listed with ASTR 1040.

PHYS 1360 PS - Principles of Physical Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.

Two hours of lecture and one 3-hour lab per week.

Number of Times this Course May Be Repeated: Recommended for Elementary Education majors.

PHYS 2010 PS - College Physics I

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

First semester of a two-semester sequence in general physics, primarily for students in pre-medicine, pre-dentistry, technology and other disciplines requiring physics without calculus. This semester covers topics in mechanics, including kinematics, Newton's laws, and the conservation laws of energy, linear momentum, and angular momentum. Also covered are topics in gravity, fluid mechanics, waves, and thermodynamics.

Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2019).

Pre-requisite(s): MATH 1060 OR MATH 1080 OR MATH 1210.

Co-Requisite(s): PHYS 2019.

PHYS 2015 - College Physics I Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Enrollment limited to transfer students.

One 3-hour lab per week.

Co-Requisite(s): PHYS 2010.

Number of Times this Course May Be Repeated: Enrollment limited to transfer students.

PHYS 2019 - College Physics I Lab

Credits: (0)

3-hour lab to be taken concurrently with PHYS 2010.

Co-Requisite(s): PHYS 2010.

PHYS 2020 - College Physics II

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Second semester of a two-semester sequence in general physics. This semester covers topics in electricity and magnetism, electromagnetic waves, light and optics, relativity, atomic, and nuclear physics.

Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2029).

Pre-requisite(s): PHYS 2010.

PHYS 2025 - College Physics II Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Enrollment limited to transfer students.

One 3-hour lab per week.

Co-Requisite(s): PHYS 2020.

Number of Times this Course May Be Repeated: Enrollment limited to transfer students.

PHYS 2040 PS - Principles of Observational Astronomy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. *Cross-listed with ASTR 2040.*

Pre-requisite(s): MATH 1060 (minimum grade of C).

PHYS 2090 PS SUS - Energy and the Environment

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This interdisciplinary course explores how energy moves through our modern technological society. We will study the many forms of energy, traditional, and emerging sources of energy, and how energy use affects our environment. Much of the course will focus on identifying energy-related problems and their potential solutions.

PHYS 2210 PS - Physics for Scientists and Engineers I

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

First semester of a two-semester sequence in calculus-based physics, primarily for students in science, math, computer science, and pre engineering. This semester covers topics in mechanics, including kinematics, Newton's laws, and the conservation laws of energy, linear momentum, and angular momentum. Also covered are topics in gravity, fluid mechanics, waves, and thermodynamics.

Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2219).

Co-Requisite(s): MATH 1210.

PHYS 2215 - Physics for Scientists and Engineers I Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Enrollment limited to transfer students.

One 3-hour lab per week.

Co-Requisite(s): PHYS 2210.

Number of Times this Course May Be Repeated: Enrollment limited to transfer students.

PHYS 2220 - Physics for Scientists and Engineers II

Credits: (5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Second semester of a two semester sequence in calculus-based physics. This semester covers topics in electricity and magnetism, electromagnetic waves, light and optics, relativity, and quantum, atomic, and nuclear physics.

Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2229).

Pre-requisite(s): PHYS 2210.

Co-Requisite(s): MATH 1220.

PHYS 2225 - Physics for Scientists and Engineers II Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Enrollment limited to transfer students.

One 3-hour lab per week.

Co-Requisite(s): PHYS 2220.

Number of Times this Course May Be Repeated: Enrollment limited to transfer students.

PHYS 2229 - Physics for Scientists and Engineers II Lab

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

One 3-hour lab per week.

Co-Requisite(s): PHYS 2220.

PHYS 2300 - Scientific Computing for Physical Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introduction to computer programming and fundamental numerical algorithms as used for problem solving and visualization in the natural sciences. Applications may include nonlinear dynamics, chaos, many-particle systems, and Monte Carlo techniques.

Pre-requisite(s): PHYS 2210, MATH 1210, and either MATH 1200 or CS 1030 or permission of the instructor.

PHYS 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

PHYS 2710 - Introductory Modern Physics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Relativity, quantum effects, the hydrogen atom, many-electron atoms, molecular and solid-state bonding, quantum effect devices, nuclear structure, nuclear reactions and devices, elementary particles.

Pre-requisite(s): PHYS 2220, MATH 1200 (may be taken concurrently), and MATH 1220.

PHYS 2800 - Introductory Individual Research Problems

Credits: (1-3)

Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with ASTR 2800.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

PHYS 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)

Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with ASTR 2830.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

PHYS 2890 INT - Cooperative Work Experience

Credits: (1-6)

Open to all students in the Physics Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

PHYS 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

PHYS 3160 - Stellar and Planetary Astrophysics

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Selected topics in astrophysics, with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.

Pre-requisite(s): PHYS 2220.

Cross-listed with ASTR 3160.

PHYS 3170 - Galaxies and Cosmology

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.

Pre-requisite(s): PHYS 2220.

Cross-listed with ASTR 3170.

PHYS 3180 - Thermal Physics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to thermodynamics and statistical mechanics. Topics include heat and work; ideal gases; equipartition of energy; entropy; the Boltzmann, Fermi-Dirac, and Bose-Einstein distributions; applications to heat engines, refrigeration, chemical equilibrium, phase transitions, blackbody radiation, and properties of solids.

Pre-requisite(s): PHYS 2220, MATH 1200 and MATH 1220.

PHYS 3190 - Applied Optics

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Geometrical and physical optics, lasers, lenses, optical instruments, interference, thin films, interferometry, holography, diffraction, gratings, crystal diffraction, polarization.

Two lectures and one 3-hour lab a week.

Pre-requisite(s): PHYS 2220 and MATH 1220.

PHYS 3300 - Advanced Computational Physics

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

This course extends the computational skills developed in PHYS 2300 to address a wider range of problems in modern physics.

Students will explore the limits of computational methods and develop techniques suited to high-performance computing.

Applications may be chosen from nonlinear dynamics, astrophysics, condensed matter physics, and quantum mechanics.

Pre-requisite(s): PHYS 2220 and PHYS 2300.

PHYS 3410 - Electronics for Scientists

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

An introductory course in electronics for students in physics and other sciences. The course includes D.C. and a.c. circuit analysis using complex impedances and covers basic principles of semiconductor operation, transistors, analog and digital integrated circuits, analog-to-digital conversion techniques used in computer interfacing, and noise.

Three lectures and one 3-hour lab a week.

Pre-requisite(s): PHYS 2220.

PHYS 3420 - Data Analysis, Statistics, and Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Intermediate-level course in computer interfacing (data acquisition and analysis) for students in physics and all other sciences. Topics may include: data acquisition with industry-standard software packages, computerized test and measurement, analog-to-digital and digital-to-analog conversion, data acquisition electronics, electronic sensors (thermal sensors, light sensors, etc.), least squares curve fitting, fast Fourier transforms (FFT), Nyquist's theorem, noisy and weak signals.

Two lectures and one 3-hour lab a week.

Pre-requisite(s): PHYS 2020 or PHYS 2220.

PHYS 3500 - Analytical Mechanics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Particle motion, oscillating systems; planetary motion, stability of orbits; collisions; Euler's equations, gyroscopic motion; Lagrange's equations, Hamilton's equations, theory of vibrations.

Pre-requisite(s): PHYS 2220, MATH 1200 and MATH 2280.

PHYS 3510 - Electromagnetic Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Vector analysis; electrostatics; calculating electric potentials; solving Laplace's equation; multipole expansions; electrostatic fields in matter; magnetostatics; charges in motion; electrodynamics; Faraday's law; Maxwell's equations.

Pre-requisite(s): PHYS 2220, MATH 1200, MATH 2210 and MATH 2280.

PHYS 3540 - Mechanical and Electromagnetic Waves

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Periodic motions, free and forced vibrations; resonance; normal modes; dispersion; boundary conditions; electromagnetic waves and light; the Fresnel equations; electromagnetic radiation from accelerating charges.

Pre-requisite(s): PHYS 3500, PHYS 3510.

PHYS 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

PHYS 3710 - Nuclear and Particle Physics

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Nuclear structure and nuclear reactions including radioactive decay, fission, and fusion, with selected applications. The standard model of elementary particles and interactions. Collider experiments and their interpretation in terms of Feynman diagrams. Topics of current research at the high-energy frontier.

Pre-requisite(s): PHYS 2710.

PHYS 4200 - The Physics of Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An introduction to the modern theory of condensed matter. Emphasis is placed on the structural, electrical, and thermal properties of solids, with particular attention to materials of current research interest.

Pre-requisite(s): (May also be taken concurrently): PHYS 2710, PHYS 3180, CHEM 1220.

PHYS 4400 - Advanced Physics Laboratory

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Advanced experiments in mechanics, electromagnetism, modern physics, and nuclear physics. This course also covers general laboratory practice, data analysis, and error propagation. Four hours of lab per week.

Four hours of lab per week.

Pre-requisite(s): PHYS 2220; either PHYS 3190 or PHYS 3410.

PHYS 4410 - Materials Characterization Laboratory

Credits: (2)

Typically Taught Fall Semester: *Full Sem even years*

A series of experiments for advanced students employing modern methods of measurement of properties of materials. The course will teach microscopic and spectroscopic techniques and general laboratory practice, data analysis, and error propagation.

Four hours of lab per week.

Pre-requisite(s): PHYS 2220 and PHYS 3410.

PHYS 4570 - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

PHYS 4610 - Quantum Mechanics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Wave-particle duality, Schrodinger equation, wave function, quantization rules, one-dimensional motion, one-electron atoms, spin and orbital angular momentum.

Pre-requisite(s): PHYS 2710, MATH 2270.

Co-Requisite(s): PHYS 3500; MATH 3710.

PHYS 4620 - Advanced Quantum Mechanics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Approximation methods and other selected topics in pure and applied quantum mechanics.

Pre-requisite(s): PHYS 4610.

PHYS 4800 - Individual Research Problems

Credits: (1-3)

Time and credit to be arranged. Open to qualified students for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with ASTR 4800.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

PHYS 4830 - Readings in Physics/Astronomy

Credits: (1-3)

Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis.

Time and credit to be arranged.

Pre-requisite(s): Consent of instructor.

Cross-listed with ASTR 4830.

Number of Times this Course May Be Repeated: May be repeated up to 10 times.

PHYS 4890 INT - Cooperative Work Experience

Credits: (1-6)

A continuation of PHYS 2890. Open to all students.

PHYS 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

PHYS 4970 - Senior Thesis

Credits: (2)

An individual research program pursued under faculty supervision. It is expected that one or more semesters of research (PHYS 4800) will precede registration for this course. Course evaluation will include an oral and a written report.

Pre-requisite(s): senior class standing and consent of departmental committee.

PHYS 4990 - Seminar in Physics

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Joint sessions of faculty and students devoted to current topics in physics. Students taking this course for credit will make a presentation based on individual library research of a topic agreed on with the faculty advisor. One credit required for physics majors.

Pre-requisite(s): previous upper division physics course.

Number of Times this Course May Be Repeated: May be taken twice for credit.

PHYS 5030G - Physics for Teachers

Credits: (2-3)

Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours.

Physical Education Activity

PE 1010 - Aerobics, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1011 - Aerobics, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1012 - Aerobics, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1035 - Zumba, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1036 - Zumba, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1037 - Zumba, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1040 - Walking for Fitness, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in walking to improve physical fitness.

PE 1041 - Walking for Fitness, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in walking to improve physical fitness.

PE 1042 - Walking for Fitness, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in walking to improve physical fitness.

PE 1043 - Jogging, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that engages students in jogging to improve physical fitness and health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1044 - Jogging, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that engages students in jogging to improve physical fitness and health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1045 - Jogging, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that engages students in jogging to improve physical fitness and health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1055 - Pilates

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that introduces students to Pilates training; a mind-body exercise program designed to tone the body, stabilize the core, improve balance, and increase flexibility.

PE 1057 - Hatha Yoga, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A beginner physical activity course that allows students to learn and experience the physical benefits and body awareness associated with practicing yoga.

PE 1058 - Hatha Yoga, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and experience the physical benefits and body awareness associated with practicing yoga. This Level II course allows students to build on skills developed in Level I.

PE 1068 - Kettlebell Conditioning

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A vigorous introductory physical conditioning course primarily utilizing kettlebells. Exercises designed to enhance strength, power, endurance, and agility will be emphasized.

PE 1070 - Cross Training For Fitness, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that engages students in cross training activities to improve overall levels of physical fitness.

PE 1071 - Cross Training For Fitness, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A physical activity course that engages students in cross training activities to improve overall levels of physical fitness.

PE 1072 - Cross Training For Fitness, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A physical activity course that engages students in cross training activities to improve overall levels of physical fitness.

PE 1077 - Weightlifting, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A vigorous physical conditioning course intended to assist students in skill development specific to Olympic weightlifting. The snatch and clean-and-jerk, will be emphasized as will assistance exercises to increase strength.

PE 1078 - Weightlifting, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A vigorous physical conditioning course intended to assist students in skill development specific to Olympic weightlifting. The snatch and clean-and-jerk, will be emphasized as will assistance exercises to increase strength.

PE 1079 - Weightlifting, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A vigorous physical conditioning course intended to assist students in

skill development specific to Olympic weightlifting. The snatch and clean-and-jerk, will be emphasized as will assistance exercises to increase strength.

PE 1080 - Strength Training, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A physical activity course that engages students in neuromuscular conditioning. Course subject matter will include neuromuscular conditioning, developing strength training programs, and learning and practicing proper lifting techniques.

PE 1081 - Strength Training, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A physical activity course that engages students in neuromuscular conditioning. Course subject matter will include neuromuscular conditioning, developing strength training programs, and learning and practicing proper lifting techniques.

PE 1082 - Strength Training, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

A physical activity course that engages students in neuromuscular conditioning. Course subject matter will include neuromuscular conditioning, developing strength training programs, and learning and practicing proper lifting techniques.

PE 1098 - Fitness for Life

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that teaches students the importance of engaging in lifetime fitness. Strategies for maintaining and enhancing cardiovascular fitness, muscular strength, flexibility, and body composition will be taught.

PE 1100 - Tennis, Level I

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

A physical activity course that allows students to learn and develop the skills needed to play tennis.

PE 1101 - Tennis, Level II

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

A physical activity course that allows students to learn and develop the skills needed to play tennis.

PE 1102 - Tennis, Level III

Credits: (1)

A physical activity course that allows students to learn and develop the skills needed to play tennis.

PE 1105 - Badminton, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play badminton.

PE 1106 - Badminton, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play badminton.

PE 1110 - Racquetball, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play racquetball.

PE 1111 - Racquetball, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play racquetball.

PE 1112 - Racquetball, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play racquetball.

PE 1115 - Pickleball, Level 1

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to study, practice, and develop skill and competency at a proficient level, and to be able to successfully participate and play a game of pickleball.

Number of Times this Course May Be Repeated: May be repeated twice.

PE 1116 - Pickleball, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to study, practice, and develop skill and competency at a proficient level, and to be able to successfully participate and play a game of pickleball.

Number of Times this Course May Be Repeated: May be repeated twice.

PE 1117 - Pickleball, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
A physical activity course that allows students to study, practice, and develop skill and competency at a proficient level, and to be able to successfully participate and play a game of pickleball.
Number of Times this Course May Be Repeated: May be repeated twice.

PE 1130 - Golf, Level I

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Summer Semester: *Full Sem, 1st Blk*
A beginning level physical activity course that allows students to learn and develop the skills needed to play golf.

PE 1131 - Golf, Level II

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Summer Semester: *Full Sem, 1st Blk*
An intermediate level physical activity course that allows students to learn and develop the skills needed to play golf.

PE 1132 - Golf, Level III

Credits: (1)
Typically Taught Fall Semester: *3rd Blk*
Typically Taught Summer Semester: *Full Sem, 1st Blk*
An advanced level physical activity course that allows students to learn and develop the skills needed to play golf.

PE 1135 - Archery, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1136 - Archery, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1137 - Archery, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1140 - Marksmanship

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice shooting and other skills related to marksmanship.

PE 1145 - Bowling, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *2nd Blk*
A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1146 - Bowling, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *3rd Blk*
A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1147 - Bowling, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1150 - Billiards, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice billiards.

PE 1151 - Billiards, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice billiards.

PE 1152 - Billiards, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice billiards.

PE 1155 - Fencing, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice fencing.

PE 1156 - Fencing, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice fencing.

PE 1157 - Fencing, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Typically Taught Summer Semester: *Full Sem*
A physical activity course that allows students to learn and develop the skills needed to practice fencing.

PE 1200 - Basketball, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play basketball.

PE 1201 - Basketball, Level II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play basketball.

PE 1202 - Basketball, Level III

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play basketball.

PE 1210 - Volleyball, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play volleyball.

PE 1211 - Volleyball, Level II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play volleyball.

PE 1212 - Volleyball, Level III

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play volleyball.

PE 1225 - Softball

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play softball.

PE 1230 - Soccer, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play soccer.

PE 1231 - Soccer, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play soccer.

PE 1232 - Soccer, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to play soccer.

PE 1235 - Flag Football

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This physical activity course is intended to engage students in the sport of flag football. Students will learn techniques, drills, and games to assist with development of skills and competitive game play.

PE 1245 - Ultimate Frisbee, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk; 2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

This physical activity course is intended to engage students in the sport of Ultimate Frisbee. Students will learn techniques, drills, and games to assist with development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1246 - Ultimate Frisbee, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

This physical activity course is intended to engage students in the sport of Ultimate Frisbee. Students will learn techniques, drills, and games to assist with development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1247 - Ultimate Frisbee, Level III

Credits: (1)

Typically Taught Fall Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Fall Sem, 1st Blk, 2nd Blk*

This physical activity course is intended to engage students in the sport of Ultimate Frisbee. Students will learn techniques, drills, and games to assist with development of skills and competitive game play.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1265 - Water Sports

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop skills needed to play water sports. Water sports include, but are not limited to: swimming, water aerobics, water polo, and snorkeling.

PE 1300 - Swimming, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to engage in the sport of swimming.

PE 1301 - Swimming, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to engage in the sport of swimming.

PE 1302 - Swimming, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to engage in the sport of swimming.

PE 1310 - Water Aerobics, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This physical activity course will introduce students to water conditioning. Through aerobic conditioning, abdominal toning, and stretching, students will learn how to maintain a high level of fitness through application of aerobic training principles in an aquatic environment.

PE 1311 - Water Aerobics, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This physical activity course will introduce students to water conditioning. Through aerobic conditioning, abdominal toning, and stretching, students will learn how to maintain a high level of fitness through application of aerobic training principles in an aquatic environment.

PE 1312 - Water Aerobics, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This physical activity course will introduce students to water conditioning. Through aerobic conditioning, abdominal toning, and stretching, students will learn how to maintain a high level of fitness through application of aerobic training principles in an aquatic environment.

PE 1340 - Lifeguarding

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Skills and knowledge needed by lifeguards to prevent and respond to aquatic emergencies. The course content and activities prepare lifeguard candidates to recognize emergencies, respond quickly and effectively to emergencies, and prevent drownings and other

incidents. The course also teaches other skills and individual needs to become a professional lifeguard. Upon successful completion of this course participants will be certified in American Red Cross CPR for Professional Rescuer and Lifeguard Training.

Pre-requisite(s): Skills screening will be required.

Number of Times this Course May Be Repeated: Please note: The Lifeguard Training certificate includes certification in first aid.

PE 1400 - Self Defense, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the art of self-defense, in a safe and controlled environment.

PE 1401 - Self Defense, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the art of self-defense, in a safe and controlled environment.

PE 1402 - Self Defense, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the art of self-defense, in a safe and controlled environment.

PE 1410 - TaiChi, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform TaiChi, which engages the body and mind and to reduce stress.

PE 1411 - TaiChi, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform TaiChi, which engages the body and mind and to reduce stress.

PE 1412 - TaiChi, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform TaiChi, which engages the body and mind and to reduce stress.

PE 1425 - Jiu Jitsu, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to learn and develop skills needed to perform the various styles of Jiu Jits.

Number of Times this Course May Be Repeated: May be repeated twice.

PE 1426 - Jiu Jitsu, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to learn and develop skills needed to perform the various styles of Jiu Jits.

Number of Times this Course May Be Repeated: May be repeated twice.

PE 1427 - Jiu Jitsu, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *1st Blk; 2nd Blk*

A physical activity course that allows students to learn and develop skills needed to perform the various styles of Jiu Jits.

Number of Times this Course May Be Repeated: May be repeated twice.

PE 1435 - Kempo, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the various fighting styles of Kempo Karate.

PE 1436 - Kempo, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the various fighting styles of Kempo Karate.

PE 1437 - Kempo, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the various fighting styles of Kempo Karate.

PE 1440 - Mixed Martial Arts, Level I

Credits: (1)

Typically Taught Fall Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Fall Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to learn how to

improve physical fitness and become mentally strong while mastering self-discipline and self-control to master the various techniques and forms of martial arts as they pertain to the sport of Mixed Martial Arts.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1441 - Mixed Martial Arts, Level II

Credits: (1)

Typically Taught Fall Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Fall Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to learn how to improve physical fitness and become mentally strong while mastering self-discipline and self-control to master the various techniques and forms of martial arts as they pertain to the sport of Mixed Martial Arts.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1442 - Mixed Martial Arts, Level III

Credits: (1)

Typically Taught Fall Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Fall Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Fall Sem, 1st Blk, 2nd Blk*

A physical activity course that allows students to learn how to improve physical fitness and become mentally strong while mastering self-discipline and self-control to master the various techniques and forms of martial arts as they pertain to the sport of Mixed Martial Arts.

Number of Times this Course May Be Repeated: May be repeated up to 20 times.

PE 1445 - Tae Kwon-do, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the martial art of Tae Kwon-do through combat and self-defense while incorporating sport and exercise.

PE 1446 - Tae Kwon-do, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the martial art of Tae Kwon-do through combat and self-defense while incorporating sport and exercise.

PE 1447 - Tae Kwon-do, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills needed to perform the martial art of Tae Kwon-do through combat and self-defense while incorporating sport and exercise.

PE 1515 - Sailboating

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that introduces students to the outdoor

activity of sailboating. The fundamental skills of sailboating will be addressed for both beginning and recreational sailors.

PE 1557 - Bicycling, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1558 - Bicycling, Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1559 - Bicycling, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1575 - Rodeo I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that engages students to learn how to participate in rodeo events. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in rodeo.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

PE 1670 - Ice Skating, Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A physical activity course that introduces students to ice skating. The fundamental skills of ice skating will be addressed for both beginning and recreational skaters.

PE 1710 - Country Swing Dance Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing. **Number of Times this Course May Be Repeated:** May be repeated 12 times with a maximum of 12 credit hours.

PE 1711 - Country Swing Dance Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing. **Number of Times this Course May Be Repeated:** May be repeated 12 times with a maximum of 12 credit hours.

PE 1712 - Country Swing Dance Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing. **Number of Times this Course May Be Repeated:** May be repeated 12 times with a maximum of 12 credit hours.

PE 1765 - Hip Hop for Fitness Level I

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Hip-Hop. **Number of Times this Course May Be Repeated:** May be repeated 12 times with a maximum of 12 credit hours.

PE 1766 - Hip Hop for Fitness Level II

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Hip-Hop. **Number of Times this Course May Be Repeated:** May be repeated 12 times for a maximum of 12 credit hours.

PE 1767 - Hip Hop for Fitness Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Hip-Hop. **Number of Times this Course May Be Repeated:** May be repeated 12 times for a maximum of 12 credit hours.

PEP 1079 - Weightlifting, Level III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A vigorous physical conditioning course intended to assist students in skill development specific to Olympic weightlifting. The clean-and-jerk, and snatch, lifts will be emphasized exclusively.

Pre-requisite(s): PE 1080, or instructor approval.

Physical Education Major/Minor

PEP 2000 - Foundations of Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Examination of history, philosophy, career opportunities, issues, and trends in physical education. Emphasis on professional preparation requirements and competencies.

PEP 2100 - Introduction to Coaching Sport

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Examines various coaching philosophies and styles along with the duties and responsibilities of the coach, with an emphasis on leadership skills, organizational and administrative duties, the legal responsibilities that affects sport and the evaluation of the athletic program.

PEP 2480 - Fitness for Life Concepts

Credits: (1)

Prescribe individualized programs for weight control, cardiovascular endurance, strength and flexibility.

Note: This course is not currently offered.

PEP 2500 - Sport Pedagogy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide information on skill development, practice and game planning, season schedules, creating drills and practice sessions, motivating players and coaching tips.

PEP 2600 - Growth and Motor Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description of the structural and functional principles of human growth and development. Introduction of motor learning principles with emphasis on their application to pedagogy.

Pre-requisite(s): PEP 2000 or concurrent enrollment in PEP 2000.

PEP 2700 SS - Sociohistorical Aspects of Sport

Credits: (3)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Typically Taught Summer Semester: *Online*

This course examines the sociological and historical aspects of sport in American society with the purpose of gaining an understanding of how race, class, gender, ethnicity, politics, and religion can bind Americans in a community of shared values and aspirations. Students will explore the unifying power of sport, as well as how sport serves to reproduce many inequalities present in the larger society. Gaining an understanding of how these issues, and others, interplay with sport is critical for those aspiring to become successful sport coaches, as well as for those who simply wish to gain an understanding of the complex relationship between sport and society (e.g., parents, fans, and sport participants).

PEP 2800 - Individual Projects

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A comprehensive study of a significant problem in the field of physical education. Hours to be arranged.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

PEP 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 4 credit hours.

Note: This course is taught as needed.

PEP 3100 - Principles of Motor Learning and Motor Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to introduce and explore motor learning and motor development principles. Particular focus will be on how the application of motor learning and motor development impact the physical education and coaching learning environments.

Pre-requisite(s): PEP 2000.

PEP 3240 - Skill Development and Methods of Field Sports

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of field sports (e.g., flag football, soccer, and softball).

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3242 - Skill Development and Methods of Court Sports

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of court sports (e.g., basketball and volleyball).

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3260 - Methods of Teaching Lifelong Activities

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Designed to give students a broad variety of noncompetitive/nonconventional activities and sports that are

beneficial as lifetime sports.

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3262 - Methods of Teaching Individual Sports

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of individual sports (e.g., golf, swimming, and track and field).

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3264 - Skill Development and Methods of Teaching Racket Sports

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of racket sports (e.g., badminton, racketball, and tennis/pickleball).

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3270 - Methods of Teaching Aerobic Conditioning

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Examine, evaluate and practice aerobic conditioning theories and current practices for the purpose of preparing entry level professionals to select, incorporate, and facilitate appropriate aerobic activities, as well as, design and evaluate the effectiveness of aerobic conditioning programs.

Two lecture/labs per week.

Pre-requisite(s): PEP 2000, PEP 2600 or concurrent enrollment in PEP 2000 or PEP 2600.

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3280 - Methods of Teaching Strength and Conditioning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Examine, evaluate and practice strength and conditioning theories and current practices for the purpose of preparing entry level professionals to select, incorporate, and facilitate appropriate conditioning activities, as well as, design and evaluate the effectiveness of strength and conditioning programs.

Two lecture/labs per week.

Pre-requisite(s): PE 1080.

PEP 3290 - Methods of Teaching Fitness for Life

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce the fundamental principles of

cardiovascular fitness, flexibility, and strength development, as well as to assist each individual to design and implement their own personal fitness program based on individual needs, assessments, and personal preferences. Students will explore resources for and methods of teaching the principles of fitness in the secondary school setting. This is a required course for the physical education major and the physical education/coaching minor.

Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3310 - Techniques for Teaching Aquatics

Credits: (2)

Practice of swimming and related aquatic skills, teaching techniques for all levels of swimming, and the acquisition of materials to use for teaching swimming. Course leads to American Red Cross certification as a Water Safety Instructor.

Pre-requisite(s): Skills screening will be required.

Note: This course is not currently offered.

PEP 3320 - Techniques for Teaching Lifeguarding

Credits: (2)

Professional techniques and methods in teaching water safety, educational programs, lifeguard training and reviews, and lifeguard progressions are taught. This course leads to Red Cross certification as a lifeguard instructor.

Note: This course is taught as needed.

PEP 3400 - Sport Psychology for Coaches

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course involves understanding the study and analysis of human behavior patterns as they relate to sport performance. Students (coaches) are provided with necessary information regarding mental processes, and applicable uses for this information. Recommended Prerequisite: PSY 1010.

PEP 3520 - Curriculum and Assessment

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course emphasis is on developing curriculum necessary to meet the needs of diverse learners. Emphasis is also on development of assessment strategies that correctly match objectives and instruction. The students are given a basic understanding of the statistical use of data for grade determination. Students will have hands on experience in designing and implementing various assessments and grading methods relating to physical education objectives. Students will also be provided the opportunity to learn how to design and implement lessons using up-to-date forms of technology that are currently being used in public schools.

Pre-requisite(s): PEP 2000.

Co-Requisite(s): PEP 3520L.

PEP 3520L - Curriculum and Assessment Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will avail students a practicum opportunity to apply in an area K-12 school the theory learned and the curriculum prepared in the Curriculum and Assessment PEP 3520 course. Students will develop lessons and assessments to determine students learning and

implement them in a teaching experience in the school setting.
Co-Requisite(s): PEP 3520.

PEP 3600 - Measurement and Statistics in Exercise Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement and complete WEB 1700.

PEP 3610 - Assessment/Technology in Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to help students develop assessment strategies that correctly match objectives and instruction. The students are given a basic understanding of the statistical use of data for grade determination. Students will have hands on experience in designing and implementing various assessment (affective, cognitive, and psychomotor) and grading methods relating to physical education objectives. Students will also be provided the opportunity to learn how to design and implement lessons using up-to-date forms of technology that are currently being used in public schools.

Pre-requisite(s): A minimum of 3 Skill Development and Methods of Teaching Courses.

PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The course is designed to provide students with instructional methods, activities and skills for teaching Physical Education K-6 and Health Education. The course will include a 15-hour hands-on-practicum teaching experience in an area public school. The content of this course will be presented through various instructional strategies and teaching models.

Pre-requisite/Co-requisite: Prerequisite/Co-requisite: EDUC 3100.

PEP 3630 - Methods of Teaching Elementary School Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides prospective elementary physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for elementary school-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be explored.

Pre-requisite(s): PEP 2000 or PEP 3100.

PEP 3660 - Adapted Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of this course is to introduce and explore various congenital and acquired disabilities as well as gain an understanding

of the legal mandates for individuals with disabilities and their educational rights. Particular emphasis and focus of this course will be on the application of various teaching methodologies to ensure inclusion for all in the physical education learning environment. In addition to meeting in the classroom, students will be required to participate in practicums both in the local school systems and at Weber State University.

Pre-requisite(s): PEP 3100; 3 classes of PEP 3240 - 3290.

PEP 4700 - Methods of Teaching Junior High School Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides prospective Junior High School physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for Junior High School-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be explored.

Pre-requisite(s): PEP 2000, PEP 3100.

PEP 4710 - Methods of Teaching High School Physical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides prospective high school physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for high school-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be explored.

Pre-requisite(s): PEP 2000, PEP 3100.

PEP 4800 - Individual Projects

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A comprehensive study of a significant problem in the field of physical education. Hours to be arranged. For seniors only.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

PEP 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individualized readings and investigation of professional literature and its application to current and future specialized topics supervised by a faculty member. Extensive reading and formal writing required. Hours to be arranged. For seniors only.

Number of Times this Course May Be Repeated: May be repeated 2 times up to 3 credit hours.

PEP 4860C INT - Field Experience Coaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Work experience which applies prior academic learning in a supervised setting.

Pre-requisite(s): PEP 2600, Junior/Senior status and department approval.

PEP 4920 - Short Courses, Workshops, Institutes and Special Events

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 4 credit hours.

Note: This course is taught as needed.

PEP 4990 INT - Field Experience/Senior Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to provide students with the opportunity to gain practical experiences in the field of physical education by teaching a class or classes in local public school grades 6-12. The course is also designed for students to meet and discuss a variety of issues relevant to preparing students to be physical educators.

Pre-requisite(s): PEP 3520, 12 credits of PEP 3240 - 3290. No substitutions can be made for this course.

Physical Education - Master Level

PEP 6010 - Leadership in Physical Education

Credits: (3)

Designed to provide graduate students with an understanding of both theoretical and practical aspects of leadership in their respective fields of study. The ultimate goal of the course is to encourage daily application of leadership concepts in the personal and professional lives of the students.

Note: This course is taught as needed.

PEP 6100 - Current Trends in Health and Physical Education

Credits: (3)

A study of health and physical education perspectives with an emphasis on the changes, trends, and future prospects that will affect the profession and the needs of those they serve.

Note: This course is taught as needed.

PEP 6370 - Exercise Management for Special Populations

Credits: (2)

Exercise management for populations with special conditions. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.

Pre-requisite(s): ESS 2300 and ESS 3510.

Note: This course is taught as needed.

PEP 6420 - Curriculum in Physical Education

Credits: (3)

Designed to provide an understanding of the role and importance of physical education in today's society, steps involved in curriculum planning, trends and issues in curriculum and to orient the student to various ideas in curriculum design.

Note: This course is taught as needed.

PEP 6520 - Improving Physical Education

Credits: (3)

Designed for elementary classroom teachers to provide an opportunity for the teacher to further develop teaching skills, personal performance skills, knowledge and competencies. A major goal of this course will be to help the classroom teacher gain additional confidence in teaching physical education activities.

Note: This course is taught as needed.

PEP 6830 - Motor Learning

Credits: (3)

An in-depth study of the psychomotor domain of development. Special emphasis is given to skilled performance, learning theory, motor abilities, individual differences, developmental considerations, instructional and training procedures. Secondary school and athletic populations are considered regarding these topics.

Note: This course is taught as needed.

Political Science

POLS 1010 - Introduction to Political Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Online*

The purpose of this course is to define the discipline of political science. By discipline we mean the way in which political science has developed over the past 150 years. We will assess the basic sub-disciplines of political science: American, Comparative, International Relations, Political Theory, Public Administration and Public Law.

POLS 1100 AI - American National Government

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, Online*

A study of American constitutional democracy at the national level, including political institutions, interests, ideals, and the processes through which policies are formulated and implemented.

POLS 1520 SS - Leadership and Political Life

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The purpose of the Leadership and Political Life class is to introduce students to the theory and practice of leadership in the public realm, which is applicable to the private sector.

POLS 2100 SS - Introduction to International Politics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Examines international political theories and concepts such as traditional Realism (power, state, and nationalism) with contrasting theories of Liberalism (globalization, organizations, and law). Application of these theories will be examined through case studies of powerful countries and regions in addition to problems such as the refugee crises, environmental concerns, and threats of global terrorism.

POLS 2200 SS - Introduction to Comparative Politics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introductory survey, comparing and contrasting political ideas, institutions and processes in the political systems of the world to gain a deeper knowledge of, and a broader perspective on, political phenomena.

POLS 2300 SS - Introduction to Political Theory

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An examination of the arguments behind and the implications of the dominant theories of politics. Theories that are studied include liberalism, conservatism, socialism, and republicanism, among others. In studying these theories, the works of such theorists as Plato, Aristotle, Locke, Rousseau, Marx, and Mill will be examined.

POLS 2400 SS - Introduction to Law and Courts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introductory survey of law and courts emphasizing the structure of courts, different forms of law, and the various actors involved in legal conflicts.

POLS 2500 SS/DV - Human Rights in the World

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Human rights (HR) are a powerful idea in the modern world, but also the focus of controversy. This course will provide students with a broad foundation in human rights including the ability to analyze HR in domestic and int'l law, examine prevention and prosecution techniques, and debate current issues at home and abroad. Emphasis will be placed on women and gender studies (including LGBT issues), vulnerable populations such as refugees, and atrocity crimes.

POLS 2700 - Introduction to Public Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

To understand the role of public administration in the United States, this course examines the administrators who manage and implement policy, the tools they use, and the environments in which they work. We will cover the economic, political, and social dynamics within public administration as well as management challenges related to human resources, finance, program development, evaluation, and strategic planning. Introduction to public administration would not be complete without discussions about the values and ethics unique to the public sector. We will be using textbooks, other assigned readings, case studies, simulations of ethical quandaries, and whenever possible hands-on learning experiences. The first half of the course will include historical milestones in the history of the administrative state, the logic of public service and the constitutional context of executive power, and management challenges for the public sector in the 21st century. The second half of the course will focus on the policy cycle, program implementation and evaluation, budgeting, leadership and ethics, and the future of public administration.

POLS 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours with a different title.

Note: Course not currently being offered.

POLS 2930 - Peacebuilding in Rwanda

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

In this course, students will travel to Rwanda (Africa) to participate in a Peacebuilding Institute (PBI) with Weber State University and Never Again Rwanda. Weber State students and Rwandan University students will work together for an unforgettable academic experience. Through readings, site visits, lectures from specialists, and group discussions, students will explore themes of genocide, human rights, transitional justice, and good governance. In addition they will develop skills in cross-cultural dialogue exchange.

POLS 3140 - Foreign Policy of the United States

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An analysis of the making of American foreign policy with reference to the role and influences of beliefs, interests, public opinion, media and especially the institutional struggle between President & Congress. The challenges facing contemporary U.S. foreign policy will also be examined.

POLS 3150 - Model United Nations

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of the current events before the United Nations General Assembly as well as in-depth research on selected countries; includes preparation for the Model United Nations of the Far West and the Northern Utah Model UN.

Number of Times this Course May Be Repeated: May be repeated once for 6 credit hours.

POLS 3151 - Model United Nations Team

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course prepares students on the Model UN team for the upcoming Fall/Spring conference.

Pre-requisite(s): POLS 3150 with a minimum grade of B. Permission of the instructor.

Number of Times this Course May Be Repeated: May be repeated up to 12 credit hours.

POLS 3200 - Middle East and North Africa

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey of the political dynamics of selected states and societies in the Middle East and North Africa (MENA). Issues to be covered: the impact of early Middle Eastern/North African history upon today's politics; class structures in the MENA countries and their impact on politics; the rise of Arab nationalism; Zionism; the politics of oil; the status of women; the political impact of economic restructuring; Islamic movements; state-building; and political liberalization and democratization in the Middle East and North Africa.

POLS 3210 - Politics in the European Union

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course examines the origins and development of the European community/EU and its institutions, theories of integration, and challenges in the creation of a supranational authority. It also compares the impact of EU policies on domestic politics in the individual European states with emphasis on relevant issues of the day, such as EU enlargement, immigration, and the political economy.

POLS 3290 - Democratization and Political Transitions

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A survey of the democratic transitions literature with focus on political transitions in comparative perspective. This course will compare a variety of different kinds of political transitions in different regions of the world, including cases in which countries have transitioned back to authoritarianism.

POLS 3330 - American Political Thought

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Historical examination of American thought with stress on its influences on the development of the American Government.

POLS 3340 - Environmental Political Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

This is an upper division course in political theory, with the specific focus being environmental political theory. The course examines a range of theoretical perspectives on a range of issues including how we conceptualize humans, nature, and politics.

POLS 3400 - LGBTQ Politics

Credits: (3)

Social movements employ a variety of methods to achieve the protection of their members' rights and interests. This course focuses on these issues through the study of gender and sexual minorities in the United States from the mid-Twentieth Century to the present. It examines the strategies, both formal and informal, adopted to achieve social change.

Note: This course is taught during odd years.

POLS 3600 - Political Parties

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

A study of the organization and function of the American political parties, political organizations that play a role alongside political parties in the American political system, such as interest groups, and a comparative study of political parties in other countries.

POLS 3610 - Campaigns and Elections

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

A study of the electoral process in the United States with an examination of national institutional elections, state and local elections, as well as election rules. Also a study of campaigning techniques in elections at all levels.

POLS 3620 - Political Behavior

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

This course is designed to introduce students to the nature of mass political behavior and its role in the political process. Further, it examines the interaction between and among diverse social groups, the media, and policy makers. The course will also emphasize the political psychology of public opinion formation and political decision of those outside the mainstream political institutions.

POLS 3640 - Media and Politics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

In terms of influencing American politics, media perform three functions: supplying information about issues and candidates; setting the agenda for public debate; conveying messages between elected officials and the public. In this course we will focus on the effect media has on political discourse in the United States.

POLS 3700 - Bureaucratic Politics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Presents basic theories, concepts, and analysis of current practices and problems in governmental administration.

POLS 3750 - Urban Government and Politics

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

A study of local government organization and policy problems, with an emphasis on problems of the metropolitan areas.

POLS 3760 - State Government and Politics

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An examination of governmental organization, operation, policy making, and electoral politics of state governments and the dynamics of relationships with other levels of government.

POLS 3780 - Lobbying: Theory and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course looks at both the theory and practice of lobbying, primarily at the state and local governmental levels; and it examines the business of lobbying, how the profession of lobbying has developed, what lobbyists do, the ethical constraints of lobbying, and from where the right to petition the government is derived.

POLS 3990 - Political Analysis

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to the scope and methods of political science. This course focuses on the formulation of hypotheses, the collection of data, appropriate study design, and study analysis through statistical testing and interpretation.

Pre-requisite(s): POLS 1010.

POLS 4020 - Constitutional Law: Powers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introduction to many of the doctrines of American Constitutional Law around the structure of the U.S. Constitution, governmental powers, and federalism. Topics include constitutional theory;

congressional, executive, and judicial power; and the relationship between federal and state governments.

POLS 4030 - Constitutional Law: Rights

Credits: (3)

Typically Taught Spring Semester: Full Sem

An introduction to many of the doctrines of American Constitutional Law. Topics include the study of various fundamental rights including free speech, religious freedom, equal protection, and privacy rights.

POLS 4060 - Law and Society

Credits: (3)

This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession.

Note: Course not currently being offered.

POLS 4100 - Free Speech

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course explores the historical meaning of free speech in the United States, the modern development of free speech principles in constitutional law, and the application of those principles to modern controversies.

POLS 4160 - Topics in Global Politics

Credits: (3)

Variable Title

Typically Taught Fall Semester: Full Sem

The study of selected contemporary problem areas in world politics to assess their impact within the international arena.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 hours toward the hours required for Political Science majors and only 3 hours will be counted toward the political science minor requirement.

POLS 4180 - International Law and Organization

Credits: (3)

Typically Taught Fall Semester: Full Sem

In-depth exploration of international society through the basis principles of international law and the organizations that comprise our world. Emphasis is given to international criminal law, international humanitarian law, human rights law and the prominence of the United Nations.

POLS 4190 - Theories of International Politics

Credits: (3)

Typically Taught Fall Semester: Full Sem even years

An analysis of traditional and contemporary theories offered to explain politics in the international arena.

POLS 4200 - Dictatorships

Credits: (3)

Typically Taught Fall Semester: Full Sem

Political science has long had a bias towards democracies. Authoritarian governments, however, are far more common both over history and today. This course will thus expand the coverage of governmental types and instruct students in the varieties of authoritarian governments and their methods of governance.

POLS 4210 - Violence and Contestation

Credits: (3)

Typically Taught Spring Semester: Full Sem

This course examines theories and case studies on the processes shaping collective challenges to authority in different countries around the world. Topics include causes and mechanics of mobilization, the contexts in which protest movements emerge, repression and violence, strategies, and determinants of political outcomes.

POLS 4360 - Classical Political Thought

Credits: (3)

Typically Taught Spring Semester: Full Sem even years

An examination of ideas of God, human nature, society, the state, the problem of evil, etc., from Ancient Greece to the middle ages.

POLS 4380 - Modern Political Thought

Credits: (3)

Typically Taught Fall Semester: Full Sem even years

A survey of political theory from the 17th century to the present, with a focus on theoretical formulations and critiques of democratic government and the political subject.

POLS 4600 - American Congress

Credits: (3)

Typically Taught Fall Semester: Full Sem odd years

A study of the United States Congress and its members. This course examines the legislative decision making process as well as an emphasis on the history of the institution.

POLS 4620 - The U.S. Supreme Court

Credits: (3)

Typically Taught Fall Semester: Full Sem even years

A study of the U.S. Supreme Court as a legal and political institution. This course examines the historical development of the Supreme Court, its relationship to other institutions, and judicial decision-making.

POLS 4640 - American Presidency

Credits: (3)

Typically Taught Spring Semester: Full Sem even years

A study of the United States presidency and the people who have held the office. This course examines individual presidential character and personality as well as providing a survey of the history of the institution.

POLS 4750 - Public Policy Analysis

Credits: (3)

Typically Taught Fall Semester: Full Sem odd years

A study of the American policy process, with an emphasis on the dynamics involved in the creation, adoption and implementation of selected domestic policies.

POLS 4760 - Rwanda: Genocide and Aftermath

Credits: (3)

Typically Taught Summer Semester: Online

This course will examine the 1994 Rwandan genocide and its aftermath. The class will discuss the historical legacy of colonialism and the impact that post-colonial policies had in pre-genocide Rwanda. Next, the events surrounding the genocide within Rwanda will be discussed in addition to its immediate impact on the surrounding Great Lakes countries of Africa. Finally, the legacy of the Rwandan genocide will be examined, especially in regards to

politics and international law. Specific issues to be addressed include the complex relationship between political and legislated memories, ethnic identities before and after the genocide, the creation and implementation of transitional justice measures including the national courts, gacaca courts, and the International Criminal Tribunal for Rwanda.

POLS 4800 - Individual Projects and Research

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pre-requisite(s): Department approval required.

Number of Times this Course May Be Repeated: A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4830 - Directed Readings

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pre-requisite(s): Department approval required.

Number of Times this Course May Be Repeated: A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4860 INT - Washington D.C. Internships

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pre-requisite(s): Department approval required.

Number of Times this Course May Be Repeated: A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4861 INT - International Internships

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Internships located outside of the United States. Department approval required.

Number of Times this Course May Be Repeated: A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4865 INT - State and Local Internship

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

State or Local internship credits. Professor approval required.

Number of Times this Course May Be Repeated: May be repeated up to 5 times and up to 6 credit hours.

POLS 4870 INT - Internship in Perspective

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to put the internship experience in broader context. Students will read books and articles on current issues and then focus on the way that government and non-governmental institutions combine to make policy. In this students will take their

political science knowledge and apply it to practical politics.
Co-Requisite(s): POLS 4860.

POLS 4880 INT - Internship Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course is designed to complement the student intern's experience while in the placement. This course is designed to give the student a chance to do a research project based on his or her experience in the internship. The research evolves out of assignments given at the internship.

Pre-requisite(s): POLS 4860.

POLS 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated once up to 6 credit hours with a different title.

Note: Course not currently being offered.

POLS 4940 - Topics in American Politics & Thought

Credits: (3)

Variable Title

The study of selected contemporary problem areas in American politics and thought to assess the impact and implication within the U.S. domestic arena. This course may count once to satisfy a subfield requirement at the discretion of the department chair.

Number of Times this Course May Be Repeated: This course may be repeated once up to 6 credit hours (in different topics).

Note: Course not currently being offered.

POLS 4990 - Senior Seminar/Senior Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A seminar in the field of political science. Students will be required to produce a major paper out of this seminar. Required for Political Science majors.

Pre-requisite(s): POLS 1010. Department approval required.

Note: Note: Political Science BS students must take POLS 3990 before POLS 4990.

Pre-Engineering

ENGR 1000 - Introduction to Engineering

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to engineering for students in the pre-engineering program. Engineering as a profession and career opportunities.

Fundamentals of engineering design and analysis using the computer. Prerequisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

ENGR 2010 - Statics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Vector mechanics, force and moment systems, equilibrium of particles and rigid bodies, friction and moments of inertia.

Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2080 - Dynamics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Fundamentals of position, velocity and acceleration. Kinematics and kinetics of particles. Newton's laws, conservation of momentum and energy. Dynamics of rigid bodies.

Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2140 - Mechanics of Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Fundamentals of stress and strain, Hooke's law, torsion, bending of beams, combined stresses and design of members.

Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2160 - Materials Science and Engineering

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Combined lecture/laboratory course that introduces the fundamentals of atomic and microscopic structure of metals, polymers, ceramics and composite materials, and how these structures affect mechanical, thermal, electrical and optical properties.

Pre-requisite(s): CHEM 1210.

Co-Requisite(s): ENGR 2140.

ENGR 2210 - Electrical Engineering for Non-majors

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Combined lecture/laboratory course as an introduction to electrical engineering for non-electrical engineers. Fundamentals of DC and AC circuits, digital circuits, and power circuits.

Pre-requisite(s): MATH 1210.

ENGR 2300 - Thermodynamics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Thermodynamic properties, equations of state, first and second laws of thermodynamics. Analysis of open and closed systems, availability and irreversibility, power and refrigeration cycles.

Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Professional Sales

PS 1143 - Principles of Selling and Persuasion

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A retail, wholesale, and direct selling and persuasion course.

Emphasis upon mastering and applying the fundamentals of selling and persuasion. Preparation for and execution of sales demonstrations required.

PS 1303 - Sales Channels

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Examination of the distribution process of goods and services, the interrelationships of customer demands, production, pricing, promotion, and the movement of goods from producer to consumer.

PS 1401 - Introduction to Sales and Service Technology

Credits: (1)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course is designed to help those new PS majors or those exploring the PS major field learn more about the career/employment options available. This course is also designed to review the various academic emphases, major requirements, and decision making process.

PS 1403 - Introduction to Customer Care

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of the basic techniques for providing quality service to clients.

PS 1503 - Introduction to Fashion Merchandising

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

A study of the Fashion Merchandising industry, including careers in design, manufacturing, wholesaling, promotion, and retailing, including well-known designers, manufacturers, promotion media and apparel and accessory retail institutions.

PS 1890 INT - Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Ful Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all first year declared majors in Professional Sales. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by department.

Number of Times this Course May Be Repeated: May be repeated a maximum of 3 times or until a maximum of 6 credit hours is reached.

PS 2182 - Credit and Collection Methods

Credits: (2)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

The study of specific credit and collection methods for retail, wholesale, and service industries; including cost of retail credit, credit investigation, methods of collecting bad accounts, securing new business through credit applications, and credit control.

PS 2383 - Retail Merchandising and Buying Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The study of the retail buyer's duties, different buying organizations, and techniques, procedures of purchasing merchandise for resale and retail merchandising strategies.

PS 2443 - Advertising Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A study of advertising methods as they relate to local retail, wholesale, and service industries, including newspaper, magazine, radio, TV, mail, outdoor and special promotion events.

PS 2603 - Advanced Selling Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Study of advanced techniques including, opening, investigating, demonstrating capability and obtaining commitment of the consultative and strategic seller.

PS 2703 - Internet Sales and Service

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

The study of Internet sales, service and technology. Understanding the process of establishing an online business, setting up online shopping capabilities and database integration. Online customer service and retention, buyer behavior and current Internet sales issues are presented.

PS 2890 INT - Work Experience II

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to second year declared majors in Professional Sales. A continuation of PS 1890.

Number of Times this Course May Be Repeated: May be repeated a maximum of 3 times or until a maximum of 6 credit hours is reached.

PS 2903 - Professional Selling Methodologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The study of selling and customer service techniques as they apply to virtual, inside and field sales.

PS 2991 - Sales/Service Technology Seminar

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Directed studies, group discussions, and analysis of selected topics pertinent to sales and service technology. Also designed to prepare sales and service majors for the job market and career opportunities.

Number of Times this Course May Be Repeated: May be repeated until a maximum of 3 credit hours is reached.

PS 3001 - Sales Career Strategies

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The study of developing a sales career including finding sales opportunities and how to market yourself into landing those opportunities.

PS 3003 - Relational Selling

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The study of relational selling techniques as they apply to virtual, inside and field sales in all industries and sales situations.

PS 3103 - Sales Personalities and Profiles

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Discovering and understanding your own personality style and how to adapt to your client for selling success is the focus of this course. We will utilize the Everything DISC Sales assessment to distinguish the 4 behavior styles and the Strengths Finder assessment to utilize our talents throughout the selling process.

Pre-requisite(s): PS 1143.

PS 3203 - Customer Service Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A study of customer service techniques required in order to sell and service products, systems, or services needed by industrial manufacturing, processing, mining, construction firms, or other related technical areas.

PS 3250 - Business Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Application of oral and written communication, including diversity and international aspects of communication.

Pre-requisite(s): ENGL 2010.

PS 3303 - Technology in Sales

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem online*

This course will teach professional sales people to use sales technologies to (1) attract new clientele (2) strengthen customer relationships (3) expand existing accounts and (4) establish a position as an authority in the field.

Pre-requisite(s): PS 1143.

PS 3363 - Contract and Sales Negotiation Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Principles, techniques and analysis of strategies involved in contract and sales negotiations. Development of integrated strategies through group and individual interaction.

Pre-requisite(s): PS 1143.

PS 3403 - Pharmaceutical and Medical Device Sales

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of the opportunities that exist in the medical field as it pertains to selling. The course examines the integral relationship that pharmaceutical and medical device representatives have within the medical community.

Pre-requisite(s): PS 1143 and PS 2603.

PS 3503 - Sales Planning and Forecasting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem Online*

A study of sales planning and forecasting. Special emphasis will be given to goal setting, prioritizing, sales forecasting and establishing and managing a sales territory. The student will also learn techniques for individual goal setting and time management.

Pre-requisite(s): MATH 1030 or higher.

PS 3563 - Principles of Sales Supervision

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Practical application of first-line supervisory skills including choosing, organizing, training, and evaluating entry-level employees; making supervisory decisions; and solving first-line supervisory problems. Understanding the basic responsibilities of a supervisor in production organizations and service organizations.

PS 3702 - Developing Team Leadership Skills

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem; Full Sem Online*

A skills based course designed to develop the interpersonal and leadership skills necessary to work effectively in teams and guide teams through the group stages of development. This course will be facilitated in such a way the participants will learn how to diagnose team developmental level and develop a high performing team by applying the principles of situational leadership and the DISC personality profiles system.

Pre-requisite(s): PS 3563.

PS 3703 - Professional Sales Simulations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Application of advanced persuasion skills to use in professionally organized competitions. This course will use simulations and role-playing to develop persuasive techniques and theoretical applications.

Pre-requisite(s): PS 1143.

Number of Times this Course May Be Repeated: May be repeated three times for a maximum of six credit hours.

PS 3803 - Sales Proposals

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A study of selling techniques required in order to sell products, systems, or services needed by industrial manufacturing, processing, mining, construction firms, or other related technical areas.

Pre-requisite(s): PS 3563.

PS 3903 - Sales Presentation Strategies and Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem; 1st Blk Online*

Principles and practices for the five major categories of professional sales consultants.

Pre-requisite(s): PS 1143 and PS 3803.

PS 4203 - Ethical Sales and Service

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Principles, techniques and analysis of ethics in the sales and service professions. Utilizes group interaction, individualized hands-on experiences and a field based experience.

Pre-requisite(s): PS 3563.

PS 4610 INT - Senior Project I

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A capstone project for students in their final year of the professional sales degree. Provides hands-on experiences in the areas of sales and service including sales, customer service techniques, presentation strategies, and team leadership development. This course focuses on working with sales and service problems in a departmentally approved work environment.

Co-Requisite(s): PS 4620.

Pre-requisite/Co-requisite: PS 3103, PS 3363, PS 3903.

PS 4620 INT - Senior Project II

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A continuation of PS 4610.

Co-Requisite(s): PS 4610.

Pre-requisite/Co-requisite: PS 3103, PS 3363, PS 3903.

PS 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Individual readings supervised by a faculty member.

Pre-requisite(s): Approval of instructor.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

PS 4920 - Workshop Lecture

Credits: (1-2)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Upper division workshop class based on honing the skills of identifying a specific target market, investigating the value proposition of a degree and career in Professional Sales and applying sales strategies and packaging a presentation for area high school students.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for a maximum of 4 credit hours with different content.

PS 4993 - Sales Career Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Research and discussion of sales and service related problems. Also designed to prepare sales and service majors for the job market and career opportunities.

Psychology

PSY 1010 SS - Introductory Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*

Introduction to the scientific study of human behavior.

PSY 1540 - Designing Your Life

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

The course is designed to help students understand and overcome the challenges many college students face in the transition to adulthood, a period known as emerging adulthood. Because the course examines issues relevant to self and identity development, students will learn the psychological principles and developmental processes associated with becoming functional college students and young adults.

PSY 2000 SS - The Psychology of Human Relationships

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

A systematic review of the research on interpersonal relationships, including the study of multiple factors that contribute to relationship development and functioning and the diverse socio-cultural contexts in which relationships occur.

PSY 2010 - Science and Profession of Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

The purpose of this course is to build upon Introductory Psychology so that students may better understand the discipline as both a science and a profession. The course covers a range of topics, including research, statistics, ethics, career options, graduate school options and preparation, critical to all fields of psychology and provides the skills necessary for students to succeed in upper-division courses and career preparation. This course is designed for students who are interested in or beginning to pursue psychology as an academic major or minor.

Pre-requisite(s): PSY 1010.

PSY 2020 - Mental Health Awareness

Credits: (3)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Students in this course will learn how to recognize when someone is in crisis, how to listen to a peer in distress, and how to refer them to appropriate services. Students will gain a basic understanding of common types of disorders and distress seen on campus (e.g., depression, anxiety). Students will also gain an understanding of adaptive coping skills and how to implement them in their own lives.

PSY 2250 - Learning and Memory

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

This course will involve a survey and analysis of the basic processes involved in acquisition, retention, and expression of new behaviors and alterations of existing behaviors in animals and humans. The course will examine the central theoretical concepts and issues in the fields of learning and memory.

Pre-requisite(s): PSY 1010.

PSY 2370 - Psychology of Women and Gender

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

The philosophical, theoretical, and empirical issues of psychology of gender. Issues include gender differences, stereotypes, androgyny, sexuality, health issues, achievement motivation, gender stereotypes, global women's issues, sexual orientation, issues for women with disabilities, and violence.

Pre-requisite(s): PSY 1010.

PSY 2400 - Positive Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course surveys the scientific study of how and why people flourish, achieve lasting happiness, and are able to live "The Good Life." The course includes classic and contemporary psychological theory and psychological research dedicated to understanding how people achieve optimal functioning.

Pre-requisite(s): PSY 1010.

PSY 2730 - Biopsychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Biological basis of human & animal behavior, with emphasis upon sensory and nervous system processes underlying motivation, learning, perception, emotion, & abnormal behavior.

PSY 2800 INT - Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised participation in faculty research projects in various areas of psychology. Written report required at end of semester; oral report assigned at discretion of faculty supervisor.

Pre-requisite(s): PSY 1010 and permission of the instructor.

Number of Times this Course May Be Repeated: May be repeated 4 times for a maximum of 4 credit hours.

PSY 2830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent readings or secondary research on advanced special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.

Pre-requisite(s): PSY 1010 and faculty mentor permission.

Number of Times this Course May Be Repeated: May be repeated 4 times for a maximum of 4 credit hours.

PSY 2860 - Practicum

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Lower division practicum course that involves placement of students in state and community agencies for the purpose of providing supervised practice in application of psychological skills and knowledge.

Pre-requisite(s): PSY 1010.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

PSY 2890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students who meet the following requirements. Provides academic credit for on-the-job learning experience. Learning experiences will be specified in a learning contract. Grade and amount of credit will be determined by the department. Limited to two credit hours per semester and four credit hours counted toward the psychology major and minor from the following courses: PSY 2890, PSY 4890, PSY 4860 and PSY 4390. Federal regulations restrict all Cooperative Work Experience to no more than six semester hours. Must be employed in a position that uses psychological training. By prior permission of instructor only.

Pre-requisite(s): PSY 1010.

Number of Times this Course May Be Repeated: May be repeated 4 times for a maximum of 4 credit hours.

PSY 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): PSY 1010.

PSY 3000 - Child Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

Principles and theories of physiological, psychological, emotional, cognitive, personality and social child development and parent-child relations and developmental problems.

Pre-requisite(s): PSY 1010.

PSY 3010 - Abnormal Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, Full Sem Online*

An overview of abnormal human behavior, its etiology, symptoms and treatment as seen by current psychological paradigms.

Pre-requisite(s): PSY 1010.

PSY 3020 - Child and Adolescent Psychopathology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An overview of the etiology, diagnosis, developmental course, treatment, and prevention of disorders first evident in childhood and adolescence.

Pre-requisite(s): PSY 1010.

PSY 3030 - Health Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course examines how psychological states (e.g. anxiety, stress) influence physical health, and how physical states (e.g. illness, pain) and the environment influence psychological health. Topics will include stress, coping, adherence to treatment, pain, chronic disease, psychoneuroimmunology and health behavior change. The course will emphasize the biopsychosocial model in understanding health and disease.

Pre-requisite(s): PSY 1010.

PSY 3100 - Psychology of Diversity

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This course examines the psychological issues associated with human diversity including culture, disabling conditions, gender, class, ethnicity, and others. It addresses the psychological principles underlying these issues and offers effective ways of dealing with these issues.

Pre-requisite(s): PSY 1010.

PSY 3140 - Adolescent Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*

Principles and theories of physiological, psychological, emotional, cognitive, personality and social adolescent development and parent-adolescent relations and developmental problems.

Pre-requisite(s): PSY 1010.

PSY 3200 - Psychology of Sport, Injury & Rehabilitation

Credits: (3)

This course is designed to provide a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered include: emotion, motivation, mental skills training and use, psychological antecedents of injury, psychology of injury and rehabilitation, career transition and termination, disabilities, rehabilitation/exercise adherence, eating disorders, alcohol and drug/substance abuse, gender and cultural diversity, and research methods related to psychology of sport, injury and rehabilitation.

Pre-requisite(s): PSY 1010 or HLTH 1110.

Cross-listed with AT 3200.

Note: Course not currently being offered.

PSY 3240 - The Psychology of Drug Use and Abuse

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

The course addresses the biopsychology factors influencing the use and abuse of drugs and the behavioral and social consequences of such use and abuse.

Pre-requisite(s): PSY 1010.

Note: This course is offered on the SLCC Miller campus

PSY 3255 - Conditioning, Learning, & Behavior Modification

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will involve an analysis of the complex processes involved in the acquisition, retention, and expression of new behaviors and the mechanisms related to altering existing behaviors in all types of animals (human and nonhuman). The course will examine the historical and current central theoretical concepts and issues in the fields of conditioning and learning. Additionally, the course will provide you with an understanding of the principles of applied behavioral analysis and modification.

Pre-requisite(s): PSY 1010.

PSY 3270 - Motivation and Emotion

Credits: (3)

Typically Taught Fall Semester: *Full Sem-SLCC Miller Campus*

Theories, content areas, research methods, measurement and practical applications in the psychology of motivation and emotion.

Pre-requisite(s): PSY 1010.

PSY 3430 - Theories of Personality

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk*

A survey of the major theories of personality.

Pre-requisite(s): PSY 1010.

PSY 3450 - Psychology of Language

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

This course will provide a comprehensive overview of psycholinguistics. It will focus on the cognitive and social aspects of language production and comprehension in both spoken and written language.

Pre-requisite(s): PSY 1010 or ENGL 3010.

PSY 3460 - Social Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

An empirically based survey of the effects of social influence on the basic psychological processes of individuals. Included are the individual in culture and society, the development of attitudes, and the impact of the group.

Pre-requisite(s): PSY 1010.

PSY 3500 - Cognition

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Principles of cognition and thinking including attention, memory, concept learning, decision making, and problem solving.

Pre-requisite(s): PSY 1010.

PSY 3550 - Psychology of Consciousness

Credits: (3)

The study of the nature, origins, evolution, and functions of brain, mind and consciousness as these pertain to sensation, perception, learning, memory, cognition, motivation, emotion, behavior, and social relationships from a contemporary neuro-cognitive science perspective.

Pre-requisite(s): Introductory Psychology (PSY 1010), Biopsychology (PSY 2730) and instructor consent required; recommend some background in Introductory Philosophy, Perception, and/or Cognition.

Note: Course not currently being offered.

PSY 3560 - Group Dynamics and Counseling

Credits: (3)

Principles of effective small group behavior. Awareness of group forces and pressures and development of insights into personal relationships in groups. Theoretical and experiential approaches to Group Counseling.

Pre-requisite(s): PSY 1010.

Note: Course not currently being offered.

PSY 3600 - Statistics in Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Techniques of data collection and analysis for application to experimental research in Psychology.

Pre-requisite(s): MATH 1010 or QL with passing grade of C or better.

PSY 3605 - Psychology Statistics Lab

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course covers the application of statistical, database, and graphical software for psychological research analysis and presentation.

Pre-requisite/Co-requisite: Pre-requisite or co-requisite: PSY 3600 or equivalent.

PSY 3610 - Research Methods in Psychology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Scientific methods of behavioral research. Emphasis upon design, conducting, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature.

Pre-requisite(s): PSY 1010 and PSY 3600 or equivalent with prior approval from the Department Chair.

Pre-requisite/Co-requisite: PSY 3605 or equivalent with prior approval from the Department Chair.

PSY 3615 - Psychological Statistics and Methods I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will focus on the scientific methods of behavioral and psychological research. Specific emphasis will be placed upon research design, study preparation, data collection, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature.

Pre-requisite(s): MATH 1010 or QL and PSY 1010.

PSY 3616 - Psychological Statistics and Methods II

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course will focus on the scientific methods of behavioral and psychological research. Specific emphasis will be placed upon research design, study preparation, data collection, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature. The course will cover experimental and quasi-experimental approaches and the statistical tools associated with these approaches (e.g., ANOVAs).

Pre-requisite(s): MATH 1010 or equivalent, PSY 1010 and PSY 3615.

PSY 3730 - Perception

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Sensory and perceptual processes whereby living organisms acquire information about the world through the sensory structures, and then select, organize and interpret that information.

Pre-requisite(s): PSY 1010.

PSY 3740 - Neuropsychopharmacology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides an in depth analysis of drugs on behavior.

Topics include how drugs affect the brain, and consequently behavior, the underlying brain and environmental factors thought to be responsible for drug addiction, tolerance, and sensitivity, pharmacological treatment of major psychological disorders, the classification of common psychoactive drugs, and mechanisms of action of commonly abused drugs.

Pre-requisite(s): NEUR 2050 or PSY 2730 or instructor approval.

PSY 3850 - Forensic Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

A survey course examining the application of fundamental issues in psychology to the criminal justice system.

Pre-requisite(s): PSY 1010.

PSY 4000 - Advanced General

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A senior level review of modern concepts in all the major areas of psychology. Designed to help a student prepare for the advanced part of the GRE in psychology. Strongly recommended for those who plan to teach psychology. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): PSY 1010.

PSY 4050 - Evolutionary Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Examines origins and evolutionary development of early hominid and contemporary human behavior, e.g., competition and cooperation, mating, reproductive and care-giving strategies, and kinship behaviors. Includes ethological, sociobiological, and social psychological perspectives.

Pre-requisite(s): 24 credit hours of psychology courses and instructor approval and PSY 1010.

PSY 4090 - History and Systems of Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Early philosophical origins and contributions to psychology; critical contrasts of systems and schools on major issues. 24 credit hours of psychology courses and instructor approval.

Pre-requisite(s): PSY 1010.

PSY 4100 - Psychology in the Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This capstone course will highlight how psychological concepts, principles, and theories are depicted in the popular media (e.g., film, documentary). Students will watch psychologically-relevant media, read classic and contemporary research connected to the concepts depicted in the media, and synthesize what they have learned from these sources in oral and written formats. Students will understand how the discipline of psychology provides a framework for understanding the world as depicted in media. 24 credits of Psychology coursework and instructor approval required.

Pre-requisite(s): 24 credits of Psychology coursework and instructor approval.

PSY 4140 - Theories of Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This capstone course examines current research and theoretical models that focus on human development. Students will read various theories of development to explore 1) the main issues of developmental psychology that theories address, 2) the mechanisms of development, 3) applications, 4) strengths and weaknesses, and 5) contemporary research to highlight how the theory is alive today. Finally, students will synthesize their learning in oral and written formats to address the question, "What is my theory of development?". Students will understand how developmental theory provides a "big picture" framework for understanding the significance of research findings in developmental psychology. **Pre-requisite:** 24 credits of Psychology coursework and instructor approval.

PSY 4310 - Introduction to Counseling Theories

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A didactic introduction to the major theories of counseling and therapy plus an introduction to the research findings associated with effectiveness of therapy and principles of behavioral change. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): (Required) PSY 1010 and PSY 3010.

PSY 4340 - Skills and Techniques of Counseling

Credits: (3)

Provides skills and techniques for counselors, ministers, social workers, and other professionals who serve a helping function. Three hours of lecture and two hours of lab/week.

Pre-requisite(s): (Recommended) PSY 4310 or equivalent and permission of the instructor.

Note: Course not currently being offered.

PSY 4390 - Capstone Practicum

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Capstone version of PSY 4860 in which students are placed in state or community agencies for the purpose of providing supervised experiences in applying psychological skills and knowledge. The capstone practicum additionally provides students with an extensive reading list to review with the instructor to better apply their skills and knowledge and understand their experiences on site. 24 credit hours of psychology courses and instructor approval.

Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent) and other specific courses at the discretion of the supervising instructor. Also, permission of the instructor is required.

PSY 4510 - Industrial and Organizational Behavior

Credits: (3)

The psychological aspects of the work setting including selection, training, motivation, attitudes, and the effects of the organization.

Pre-requisite(s): (Recommended) PSY 1010.

Note: Course not currently being offered.

PSY 4575 - Psychology of Criminal Behavior

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A comprehensive account of the biological, psychological, and social

factors underlying criminal behavior.

Pre-requisite(s): PSY 3850.

PSY 4760 - Tests and Measurements

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Survey of methods, techniques, and instruments for measuring individual differences in behavior, a critical analysis of representative tests, values and limitations of test, methods of test selection, lab experience with tests. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): PSY 1010, PSY 3600 and PSY 3010.

PSY 4800 INT - Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Supervised participation in projects and/or primary research with a faculty mentor in various areas of psychology. Limited to advanced students upon consent of psychology mentor and department chair. A paper written in APA style and an oral report are required at the end of the semester.

Pre-requisite(s): PSY 1010, PSY 3600 (Statistics), and PSY 3610 (Research Methods) or equivalent, and faculty mentor permission.

Number of Times this Course May Be Repeated: May be repeated 3 times for a maximum of 6 credit hours.

PSY 4805 - Capstone Projects and Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Capstone version of PSY 4800, supervised participation in projects and/or primary research with a faculty supervisor in various areas of psychology. Limited to advanced students upon consent of psychology supervisor and department chair. A paper written APA style and an oral report are required at the end of the semester. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): PSY 3610 or PSY 3616 or equivalent, and permission of a faculty supervisor and the chair.

PSY 4830 INT - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Independent readings or secondary research on advanced special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.

Pre-requisite(s): PSY 1010, PSY 3600 (Statistics), PSY 3610 (Research Methods) or equivalent, and faculty mentor permission.

Suggested Requisite(s): PSY 3610 may be taken concurrently with PSY 4830.

Number of Times this Course May Be Repeated: May be repeated 3 times for a maximum of 6 credit hours.

PSY 4835 - Capstone Directed Readings

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Capstone version of PSY 4830 which involves independent readings or secondary research on advanced special topics under the direction of a faculty supervisor. Limited to advanced students upon consent of psychology supervisor and department chair. A paper written in APA style and an oral report are required at the end of the semester. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent) and permission of a faculty supervisor and the chair.

PSY 4860 CEL - Practicum

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Placement of students in state and community agencies for the purpose of providing supervised practice in application of psychological skills and knowledge. A maximum of four credit hours counted toward the psychology major and minor from the following courses: PSY 2890, PSY 4890, PSY 4860, and PSY 4390.

Pre-requisite(s): 18 credit hours of psychology courses, one of which must be PSY 1010. Other courses will be at the discretion of the supervising instructor. Also, permission of the instructor is required.

Number of Times this Course May Be Repeated: May be repeated one time for a maximum of six credit hours.

PSY 4890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to all students. Provides academic credit for on-the-job learning experience. Learning experiences will be specified in a learning contract. Grade and amount of credit will be determined by the department. Limited to two credit hours per semester and four credit hours counted toward the psychology major and minor from the following courses: PSY 2890, 4890, PSY 4860 and PSY 4390.

Federal regulations restrict all Cooperative Work Experience to no more than six semester hours. Must be employed in a position that uses psychological training. By prior permission of instructor only.

Pre-requisite(s): PSY 1010.

Number of Times this Course May Be Repeated: May be repeated 4 times for a maximum of 4 credit hours.

PSY 4900 - Selected Topics in Psychology

Credits: (2-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth exploration of selected topics and issues in the discipline, designed as an upper division course.

Number of Times this Course May Be Repeated: May be repeated 3 times for a maximum of 9 credit hours.

PSY 4905 - Capstone Selected Topics in Psychology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth exploration of selected topics and issues in the discipline, which fulfills the goals of a capstone class in the discipline. Students will be expected to read, analyze, and integrate research in a seminar style setting.

Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent), 24 credit hours of psychology courses, and instructor approval.

PSY 4910 - Senior Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A research project to be written by a senior student under the supervision of a faculty member. Successful completion of the research project will fulfill the capstone requirement of the major (as an alternative to PSY 4000 or PSY 4090) and the senior project requirement for honors. The student must apply for acceptance into the course (applications available from the chair), and the research proposal and the final project must be approved by a faculty committee. It is expected that the course will be taken once for the writing and defense of a proposal and repeated for the writing and defense of the final project. 24 credit hours of psychology courses and instructor approval required.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 6 credit hours.

PSY 4920 INT - Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 2 times for a maximum of 3 credit hours.

Note: Course not currently being offered.

PSY 4950 - Capstone Experience: Promoting Psychological Literacy

Credits: (1)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

This course is designed for graduating seniors to reflect on and integrate the knowledge and skills acquired during their training in psychology. 24 credit hours of psychology courses and instructor approval required.

Pre-requisite(s): PSY 1010.

PSY 4990 - Seminar

Credits: (1)

Variable Title

Readings and active discussions of selected psychological topics.

Number of Times this Course May Be Repeated: Repeatable for up to a total of 2 hours.

Note: Course is not currently offered.

Quality and Lean Manufacturing

ETM 5913G - Six Sigma Tools I

Credits: (3)

This distance learning course provides an introduction to the six sigma body of knowledge as defined by the American Society of Quality (ASQ). The course will examine the foundations of six sigma and the statistical tools used in the initial stages of the DMAIC problem solving methodology.

Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as MATH 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm.

ETM 5923G - Six Sigma Tools II

Credits: (3)

This distance learning course is a follow-on to the initial six sigma course and provides additional detail on the analyze, improve and control portions of the DMAIC problem solving methodology. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

Pre-requisite(s): ETM 5913G, Six Sigma Tools I.

ETM 5933G - Lean Tools

Credits: (3)

This course teaches students lean manufacturing tools for continuous improvement in a manufacturing environment.

Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as Math 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm. This distance learning course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

ETM 5943G - Lean-Sigma Implementation

Credits: (3)

This course introduces students to the implementation skills necessary to successfully combine and apply lean manufacturing and six sigma concepts in small to mid-sized manufacturing facilities.

This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

Pre-requisite(s): ETM 5923G, ETM 5933G.

Radiation Therapy

RATH 4330 - Radiation Therapy Physics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An overview of the profession of radiation therapy. Radiation therapy physics, dosimetry, isodose distribution for isotopes and electrically-produced beams. Mechanics of Linear accelerators and Cobalt.

RATH 4342 - Introduction to Treatment Planning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Basic quantities and concepts in radiotherapeutic dosimetry. Current aspects of the anatomical and physical consideration involved in planning and delivery of the therapy prescription.

RATH 4410 - Radiation Oncology I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4412 - Radiation Oncology II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4414 - Radiation Oncology III

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4444 - Advanced Treatment Planning/Brachytherapy

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Prescription interpretation, nuclide implants, brachytherapy and treatment techniques involving hyperthermia. Beam modification devices and theory of beam placement will be discussed.

RATH 4446 - Quality Assurance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Establishment of a quality assurance program for linear accelerators, simulators and therapeutic isotopes.

RATH 4448 - New Technology in Radiation Therapy

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Exploration of the emerging technology and new equipment used in radiation therapy.

Pre-requisite(s): Graduate of an approved Radiography Program or equivalent.

RATH 4861 INT - Clinical Education I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4862 INT - Clinical Education II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4863 INT - Clinical Education III

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4913 - Comprehensive Review

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Review of all didactic and clinical courses and competencies. Guest lecturer and multiple mock registry examinations will be presented.

Radiography

RADT 1021 - Limited Clinical Simulation

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Limited clinical simulation for the limited radiographer to gain skills in radiographic imaging processes.

Co-Requisite(s): RADT 1023, RADT 1024, RADT 1025.

RADT 1022 - Introduction to Radiologic Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Program orientation, elementary radiation protection and basic darkroom procedures.

RADT 1023 - Limited Radiographic Anatomy & Positioning

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Limited Radiographic Anatomy & Positioning will cover procedures in the limited scope of radiographic examinations, as well as the basics of human anatomy associated with those exams.

Co-Requisite(s): RADT 1024, RADT 1025, and RADT 1021

RADT 1024 - Limited Principles of Radiographic Exposure

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Limited Principles of Radiographic Exposure will cover all radiation safety, exposure factors, and image production concepts.

Co-Requisite(s): RADT 1023, RADT 1025, and RADT 1021

RADT 1025 - Limited Patient Care and Assessment

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

To provide patient care skills that will sustain students in a medical clinic as a limited radiographer.

Co-Requisite(s): RADT 1023, RADT 1024, and RADT 1021

RADT 1303 - Principles of Radiographic Exposure I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Theory of x-ray production; image production and radiographic equipment.

RADT 1502 - Radiographic Anatomy and Positioning I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Terminology, pathology and radiographic positioning.

RADT 1512 - Radiographic Anatomy and Positioning II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of RADT 1502.

Pre-requisite(s): RADT 1502.

RADT 1522 - Radiographic Anatomy and Positioning III

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Continuation of RADT 1512.

RADT 1532 - Radiographic Anatomy and Positioning IV

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Continuation of RADT 1522.

Pre-requisite(s): RADT 1522.

RADT 1542 - Radiographic Anatomy and Positioning V

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Continuation of RADT 1532.

RADT 1601 - Clinical Simulation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Patient positioning, darkroom experience and review of radiographic quality.

RADT 1621 - Clinical Simulation II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Continuation of RADT 1601.

Pre-requisite(s): RADT 1601.

RADT 1641 - Clinical Simulation III

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Continuation of RADT 1621.

RADT 1661 - Clinical Simulation IV

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Continuation of RADT 1641.

RADT 1681 - Clinical Simulation V

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

RADT 2042 - Community-Based Patient Care I

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Patient case studies and critical care situations.

Number of Times this Course May Be Repeated: May be repeated once for credit.

RADT 2043 - Specialty Based Patient Care

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Patient care and management in radiology.

RADT 2272 - Basic Sectional Anatomy

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

The anatomical appearance of each organ system and common pathology on sectional medical images.

RADT 2403 - Principles of Radiographic Exposure II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Radiographic imaging, instrumentation, image production and factors affecting radiologic quality.

RADT 2803 - Independent Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individualized projects.

Number of Times this Course May Be Repeated: May be repeated 3 times for credit.

RADT 2821 - Directed Readings & Research I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2822 - Directed Readings & Research II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2823 - Directed Readings & Research III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2824 - Directed Readings & Research IV

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Selecting readings and/or a research project on medical imaging

procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2825 - Directed Readings & Research V

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2861 INT - Clinical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Experience gained in a health care facility.

Pre-requisite(s): Acceptance into the program.

RADT 2862 INT - Clinical Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Continuation of RADT 2861.

RADT 2863 INT - Clinical Education

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of RADT 2862.

RADT 2864 INT - Clinical Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Continuation of RADT 2863.

RADT 2865 INT - Clinical Education

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Continuation of RADT 2864.

RADT 2866 INT - Final Competency Evaluation

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Demonstration of competency performing the procedures required by the certification agency.

RADT 2913 - Comprehensive Review

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Review of didactic and clinical applications.

RADT 2921 - Workshop, Conferences and Telecourses

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

RADT 2942 - Transition to Clinical Practice

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Assistance with career planning and an introduction to specialized imaging procedures and new and future imaging procedures.

RADT 3003 - Psycho-Social Medicine

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Designed to prepare students to better understand their patient and the patient's family through comparison of diverse populations based on their value systems, cultural and ethnic influences, communication styles, socio-economic influences, health risks and life stages. Study of factors that influence the interrelationships with patients and professional peers. Understanding multicultural diversity assists the student in providing better patient care.

RADT 3043 - Medical Ethics and Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Medical ethics and law and case studies in medical imaging and radiation therapy.

RADT 3123 - Sectional Anatomy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Anatomical study of the body in the sagittal, transverse and coronal imaging planes.

RADT 3143 - Imaging Pathophysiology I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Imaging adaptations and alterations in anatomy and physiology with variation outside of the normal range (Unit 1).

RADT 3144 - Imaging Pathophysiology II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Imaging adaptations and alterations in anatomy and physiology with variation outside of the normal range (Unit 2).

Pre-requisite(s): RADT 3143 - Imaging Pathophysiology I.

RADT 3243 - Community-Based Patient Care II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Advanced level patient care, assessment, and management in the community-based environment.

RADT 3253 - Specialty-Based Patient Care II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Advanced level patient care, assessment, and management in the specialty-based environment.

RADT 3263 - Diagnostic Services Pharmacology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Concepts of pharmacology including modes of action, uses, modes of excretion effects, side effects and patient care required for specific pharmacologic agents.

RADT 3403 - Radiobiology & Health Physics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Effects of ionizing radiation on the human body, patient and personnel protection, exposure monitoring health physics and oncology.

RADT 3423 - Federal Regulations

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Regulations governing health care, equipment and application of ionizing radiation.

RADT 3443 - Quality Assurance in Radiology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Development of a quality assurance program and manual to meet accreditation requirements.

RADT 3463 - Computerized Imaging

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Digital radiography, image acquisition, image processing and digital image management.

RADT 3563 - Managing Clinical Information

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Digital and volumetric imaging, emerging technologies, secure computerized management practice, and patient privacy regulations.

RADT 3863 INT - Clinical Internship

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Experience in a radiology specialty area. Consent of instructor is required.

Number of Times this Course May Be Repeated: May be repeated twice for credit.

RADT 4203 - Patient Education in Radiology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Skills necessary to assess, plan and evaluate a variety of educational programs specific to radiology patients.

RADT 4213 - Supervision and Staff Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Federal regulations, developing department protocol, designing departments personnel supervision and quality of care assessment.

RADT 4223 - Promotional Strategies

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Assessment of needs, development and implementation of promotional strategies for Radiology Departments.

RADT 4233 - Fiscal Analysis in Radiology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Justification, acquisition and leasing of imaging equipment and accessories, staffing formulas and review of maintenance contracts.

RADT 4243 - Quality Management in Radiology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Concepts and principles of quality management, collection and analysis of data.

RADT 4253 - Risk Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Study of management of risk associated with the delivery of health care in clinical and non-clinical settings.

RADT 4303 - Cardiology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Detailed study of the heart: anatomy, physiology, pathophysiology, pharmacology, EKGs and imaging modalities.

RADT 4313 - Visceral, Pelvic and Extremity Angiography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Anatomy, pathology, protocols and interventional procedures of abdominal viscera, extremities and pelvis.

RADT 4333 - Head and Neck Angiography

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Anatomy, pathology, protocols and interventional procedures of the aortic arch, brachiocephalic, thyroid and other facial and neck arteries.

RADT 4343 - Thoracic and Venous Procedures

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Anatomy, pathology, protocols and interventional procedures of the venous and cardiac systems.

RADT 4403 - Imaging Pathology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Radiographic presentation of pathological conditions, abnormalities and anomalies.

RADT 4413 - Forensic Radiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course provides a comprehensive study of medical imaging's role in forensic medicine. Forensic Radiology is used to determine identity of remains, evaluate injury or cause of death and assist in the detection of abuse. Junior or Senior standing required.

RADT 4433 - PACS Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Digital imaging and communication standards, PACS administration, image quality, and emerging technology standards.

RADT 4443 - Imaging Informatics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Analyzing system needed, project management, quality improvement, bioinformatics, clinical informatics, and medical informatics.

RADT 4543 - Bone Densitometry

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

This course comprehensively covers the methods of bone density measurement (bone densitometry, DEXA), the pathogenesis of osteoporosis, quality management issues, therapies for osteoporosis and a review of additional analysis methods.

RADT 4553 - Breast Anatomy, Physiology and Pathology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Normal breast anatomy and physiology compared to pathological conditions.

RADT 4563 - Mammographic Positioning/Imaging Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Routine positions, risk versus benefit; tissue variations, specialized procedures and imaging modalities.

RADT 4572 - Advanced Breast Imaging

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will highlight advanced breast imaging and correlate findings between modalities; discuss associated patient education and medicolegal considerations; and highlight best practice in relation to pathology and patient history.

RADT 4573 - The Female Patient and Medical Imaging

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course will familiarize the student to disease processes specific to the female patient and the imaging methods that may be used in diagnosis and treatment. The clinical pathways that are commonly used, involving all radiologic imaging modalities, will be explored. Students who enroll in this course must be certified by the American Registry of Radiologic Technologists.

RADT 4583 - Mammographic Equipment and Quality Assurance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Equipment operation, technical factors and quality assurance procedures in mammography.

RADT 4603 - Magnetic Resonance Imaging Physics, Instrumentation & Safety

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Physical principles and theories of magnetic resonance, instrumentation, safety, imaging sequences and methods in normal and abnormal tissue, and computer parameters of magnetic resonance.

RADT 4610 - Clinical Simulation I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in the Radiology and Computer Labs.

RADT 4611 - Clinical Simulation II

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in the Radiology and Computer Labs.

RADT 4612 - Clinical Simulation III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical Simulation in the Radiology and Computer Labs.

RADT 4613 - Computed Tomography of the Torso and Limbs

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Sectional anatomy, pathology and imaging protocols of the abdominal viscera, pelvis, thorax and extremities.

RADT 4623 - Advanced MRI Procedures

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Evaluation of organ function and diagnosis of disease process using advanced MRI procedures with emphasis on spectroscopy and functional MR.

RADT 4633 - Magnetic Resonance Imaging of the Central Nervous System

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Sectional anatomy, pathology and imaging protocol of the head, spine and central nervous system.

RADT 4643 - Magnetic Resonance of the Torso and Limbs

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Sectional anatomy, pathology and imaging protocols of the abdominal viscera, pelvis, thorax and extremities.

RADT 4653 - Computed Tomography of the Central Nervous System

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Sectional anatomy, pathology and imaging protocols of the head, spine and central nervous system.

RADT 4663 - Computed Tomography Physics, Instrumentation & Safety

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Interactions of electromagnetic waves, instrumentation, imaging sequences, computer parameters, and safety of computerized tomography imaging.

RADT 4803 - Individual Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Research projects developed for district, state, regional or national presentation.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 3 credit hours.

RADT 4833 - Directed Readings and Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Synthesis and analysis of journal articles resulting in a research paper for the purpose of publication.

RADT 4850 - Study Abroad

Credits: (1-6)

Variable Title

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

RADT 4861 - Clinical Internship

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Experience in a radiology specialty area. Consent of instructor is needed.

RADT 4862 - Clinical Internship

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Experience in a radiology specialty area. Consent of instructor is needed.

RADT 4863 INT - Clinical Internship

Credits: (2-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Experience in a radiology specialty area. Consent of instructor is needed.

Number of Times this Course May Be Repeated: May be repeated twice for credit.

RADT 4911 - Comprehensive Review/CT

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Preparation for advanced certification examination.

RADT 4912 - Comprehensive Review/MRI

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Preparation for advanced certification examination.

RADT 4913 - Comprehensive Review/CIT

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Preparation for advanced certification examination.

RADT 4914 - Comprehensive Review/M

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Preparation for advanced certification examination.

RADT 4915 - Comprehensive Review/QM

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Preparation for advanced certification examination.

RADT 4922 - Workshop, Conferences and Telecourses

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

RADT 4933 - Research Methods

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Apply research strategies in health care and clinical practice, obtain certificate for human subject research, formulate a research proposal, and complete an institutional review board application.

RADT 4942 - Transition to Specialty Practice

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Review of the program educational requirements. Professional responsibilities and requirements as the student transitions into the healthcare marketplace.

RADT 4943 - Baccalaureate Thesis

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Research in health professions utilizing the scientific inquiry method.

RADT 4992 - Seminar

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

New developments and procedures in imaging and therapy and preparing for the future.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 2 credit hours.

RADT 5864G - Clinical Preceptorship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Continuation of RADT 6863.

RADT 5867G - Competency Assessment/Residency

Credits: (3)

Assessment of competency knowledge and skills in the clinical setting.

Note: This course is offered as needed.

RADT 6863 - Clinical Preceptorship

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Continuation of MSRS 6862.

Recreation - Master Level

OCRE 6930 - Outdoor Education Workshop

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

A broad interdisciplinary approach to the methodology of outdoor education teaching techniques; experiential learning-course taught almost totally outdoors.

Respiratory Therapy

REST 1540 - Survey of Respiratory Therapy

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

This course is designed to introduce allied health and other students to the profession of respiratory therapy. It includes field trips, group discussions, lecture/demonstrations and limited lab activities. Open to all students.

REST 1560 - Multi-Skilled Health Care Worker

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course prepares students from different health care disciplines to understand the hospital environment, patient needs, and perform basic skills of patient care. Topics include the patient's right to privacy, confidentiality, ethical, legal, and cultural issues, documentation, team building, age related concerns, medical terminology, and death and dying. Patient skills include vital signs, oxygen administration, specimen collection, personal care and cleanliness, environmental cleanliness, nutrition and diet, elimination, positioning and ambulating, patient safety and comfort, and OSHA guidelines for healthcare worker safety.

REST 2140 - Introduction to Basic Therapeutic Modalities Lab

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introductory Laboratory course emphasizing basic patient interaction and assessment skills. Includes infection control, the administration of medical gases, humidity and aerosol, pharmacologic agents, hyperinflation therapy, airway clearance techniques and methods of care, and artificial ventilation.

REST 2160 - Equipment Management Lab

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Laboratory course emphasizing patient assessment skills relating to ventilation techniques and equipment. Includes equipment used by the respiratory care practitioner in initiating, troubleshooting, monitoring, and weaning from mechanical ventilation.

REST 2210 - Elementary Cardiopulmonary Anatomy and Physiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Cardiopulmonary anatomy and physiology specifically for the entry-

level respiratory care practitioner. Includes physics of respiration, oxygen and carbon dioxide transport, and control of ventilation.

REST 2230 - Cardiopulmonary Pathophysiology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A synopsis of medical and surgical cardiopulmonary disorders for the entry-level practitioner. Etiology, symptomatology, pathology, diagnosis, treatment, and prognosis of these disorders are presented.

REST 2250 - Basic Patient Assessment

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A basic orientation to patient assessment techniques used to obtain a patient medical history and physical examination. Discussion of pulmonary disease integrates assessment information with laboratory and radiographic data.

REST 2270 - Application of Cardiopulmonary Diagnostics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to theory and clinical application of basic cardiopulmonary diagnostic studies, including simple spirometry, arterial and mixed venous blood gases, and electrocardiograms. Course emphasizes critical thinking skills in the application of diagnostic findings and utilizes case studies, class discussions, and extensive study guides.

Pre-requisite(s): Program acceptance required.

REST 2300 - Basic Modalities in Respiratory Care I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory and clinical application of basic therapies. Course includes indications, complications, hazards, equipment needed, side effects, and assessment for medical gases, humidity, aerosols, airway clearance, hyperinflation therapy, and pharmacologic agents. Course emphasizes patient assessment and critical thinking skills.

Co-Requisite(s): Concurrent enrollment in REST 2140.

REST 2310 - Basic Modalities in Respiratory Care II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory and clinical applications of airway management and artificial ventilation, including IPPB and introduction to modes of mechanical ventilation. Also includes the theory of invasive and non-invasive monitoring technology, and equipment decontamination.

REST 2320 - Essentials of Mechanical Ventilation

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Course provides a basic understanding of essentials for mechanical ventilation. Includes determining the need for ventilatory support, the associated physiology and how ventilatory support is initiated,

maintained, monitored, and discontinued.

Pre-requisite(s): Program acceptance required.

REST 2330 - Entry Level Respiratory Therapy Review

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course is a comprehensive review intended to prepare the student for the entry-level certification/licensure examination. The material covered is based on the examination matrix provided by the National Board for Respiratory Care (N.B.R.C.).

REST 2500 - Survey of Polysomnography

Credits: (1)

Typically Taught Summer Semester: *1st Blk*

Introduction to polysomnography as a profession. Course includes an overview of the polysomnogram, sleep disorders as they affect the general population, typical employment in the field, and employment opportunities. Also includes an introduction to the professional organization of sleep and requirements to become a registered polysomnographic technologist (R.PSG.T). Students taking REST 3500 are required to write a 6-10 page paper outlining the assessment of sleep disorders or neurodiagnostics. Students taking REST 2500 cannot take REST 3500 for credit.

Pre-requisite(s): Medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2501 - Anatomy and Physiology of Sleep

Credits: (3)

Introduction to the anatomy and physiology of the neurologic, cardiac, and respiratory systems during sleep. Basic anatomy and physiology of wake-sleep cycles are studied, with emphasis on changes that occur during varying stages of sleep and during common sleep disorders. Introduction to the EEG, EOG, EKG, EMG, and other polysomnography data recorders. Students taking REST 3501 are required to write a 6-10 page paper outlining physiologic components affecting quality of sleep. Students taking REST 2501 cannot take REST 3501 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2502 - Introduction to Sleep Disorders

Credits: (2)

Typically Taught Summer Semester: *1st Blk*

Course provides an overview of the history of sleep medicine, normal sleep physiology, effects of the sleep-wake stage, sleep disorders and abnormal sleep physiology, and an introduction to polysomnography (including patient interaction, sensor and lead placements, and instrumentation). Course also introduces the fundamentals of therapeutic interventions utilized to treat sleep disorders. Students taking REST 3502 are required to write a 6-10 page paper outlining the implications for assisted ventilation to sleep disorders. Students taking REST 2502 cannot take REST 3502 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2503 - Instrumentation and Computers in Polysomnography

Credits: (2)

Course provides study of equipment, instrumentation, and recording

devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient-generated), computer basics, and monitoring devices. Students taking REST 3503 are required to write a 6-10 page paper outlining specific instrumentation in polysomnography assessing sleep disorders. Students taking REST 2503 cannot take REST 3503 for credit.

Pre-requisite(s): REST 2500/REST 3500 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

REST 2505 - Therapeutics of Managing Sleep Apnea

Credits: (2)

Course provides current therapies and interventions for treatment of sleep apneas. Interventions include positive airway pressure therapy (nocturnal CPAP and bi-level CPAP), surgery, and dental devices. Patient compliance and outcomes of these treatments are included. Students taking REST 3505 are required to write a 6-10 page paper outlining strategies managing sleep apnea. Students taking REST 2505 cannot take REST 3505 for credit.

Pre-requisite(s): REST 2501/REST 3501 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

REST 2520 - Principles of Pharmacology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Introduction to pharmacology, including general principles, autonomic and central nervous system agents, and cardiovascular agents. Also includes drugs used in managing renal, GI tract, endocrine, and infectious or neoplastic diseases and disorders.

REST 2700 INT - Clinical Applications

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical rotations in various medical settings performing skills learned and practiced in REST 2140. Recommending and modifying basic therapies will be emphasized utilizing patient assessment skills and review of patient medical history.

Suggested Requisite(s): Concurrent enrollment in REST 2140.

REST 2710 INT - Specialty Clinical Experiences

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical rotations in various medical settings providing the opportunity to observe and participate in various specialty areas within the profession, including PFTs, cardiac testing, EKGs, ABGs, and long-term artificial airway care.

Suggested Requisite(s): Concurrent enrollment in REST 2160

REST 2720 INT - Clinical Applications

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Clinical rotations in various medical settings performing skills learned and practiced in REST 2140. Initiating, monitoring, and weaning from mechanical ventilation will be emphasized utilizing

patient assessment skills. Case studies will be used to practice critical thinking skills in the management of ICU patients.

Suggested Requisite(s): Concurrent enrollment in REST 2160.

REST 2800 - Independent Projects

Credits: (1-3)

Projects must meet departmental and professional goals and standards and must have instructor approval prior to beginning project; enrollment by permission only.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

REST 2830 - Directed Readings

Credits: (1-2)

Typically Taught Spring Semester: *Full Sem*

Readings must meet departmental and professional goals and standards and must have instructor approval prior to beginning; enrollment by permission only.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of 3 credit hours.

REST 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)

Variable Title

Consult semester schedule for current offerings. The specific title and credit authorized will appear on student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours with different course content.

REST 3210 - Advanced Cardiopulmonary Anatomy and Physiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Cardiopulmonary anatomy and physiology specifically for the therapist-level practitioner. Includes advanced anatomical considerations for the cardiac, pulmonary and renal systems in neonates and adults. Includes developing abstracts from evidence-based research.

Pre-requisite(s):

Enrollment in baccalaureate respiratory therapy program, CRT credential, or equivalent.

REST 3220 - Advanced Cardiopulmonary Pathophysiology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pathophysiology and diagnosis of coronary artery disease, fungal lung diseases, neoplasms, HIV, ARDS, chest injuries, shock in relation to the care of the trauma patient, and differentiation of intracellular and extracellular fluid compartments. Includes developing abstracts derived from evidence-based research.

Pre-requisite(s): Enrollment in baccalaureate respiratory therapy program, CRT credential, or equivalent.

REST 3230 - Advanced Cardiopulmonary Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Advanced diagnostic procedures and interpretive skills in cardiopulmonary function, lung dynamics, specialty gases, blood gas analysis, and metabolic assessment.

REST 3260 - Neonatal/Pediatric Respiratory Care

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Pediatric and neonatal respiratory care with emphasis on intensive care activities, therapeutic procedures, life support modalities and fetal, neonatal, pediatric pathophysiology.

Pre-requisite(s): Enrollment in baccalaureate respiratory care program, CRT credential, or equivalent.

REST 3270 - Adult Critical Care

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Advanced adult respiratory intensive care, including hemodynamic monitoring, ventilation/perfusion monitoring, pulmonary assessment and airway management.

REST 3280 - Patient Care Continuum/ Quality Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Theory and principles of pulmonary and spinal cord rehabilitation, polysomnography, discharge planning, patient education, quality management, home and self care, legal, ethical, and moral considerations of chronic and extended care.

REST 3500 - Survey of Polysomnography

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Introduction to polysomnography as a profession. Course includes an overview of the polysomnogram, sleep disorders as they affect the general population, typical employment in the field, and employment opportunities. Also includes an introduction to the professional organization of sleep and requirements to become a registered polysomnographic technologist (R.PSG.T). Students taking REST 3500 are required to write a 6-10 page paper outlining the assessment of sleep disorders or neurodiagnostics. Students taking REST 2500 cannot take REST 3500 for credit.

Pre-requisite(s): Medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3501 - Anatomy and Physiology of Sleep

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Introduction to the anatomy and physiology of the neurologic, cardiac, and respiratory systems during sleep. Basic anatomy and physiology of wake-sleep cycles are studied, with emphasis on changes that occur during varying stages of sleep and during common sleep disorders. Introduction to the EEG, EOG, EKG, EMG, and other polysomnography data recorders. Students taking REST 3501

are required to write a 6-10 page paper outlining physiologic components affecting quality of sleep. Students taking REST 2501 cannot take REST 3501 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3502 - Introduction to Sleep Disorders

Credits: (2)

Course provides an overview of the history of sleep medicine, normal sleep physiology, effects of the sleep-wake stage, sleep disorders and abnormal sleep physiology, and an introduction to polysomnography (including patient interaction, sensor and lead placements, and instrumentation). Course also introduces the fundamentals of therapeutic interventions utilized to treat sleep disorders. Students taking REST 3502 are required to write a 6-10 page paper outlining the implications for assisted ventilation to sleep disorders. Students taking REST 2505 cannot take REST 3502 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3503 - Instrumentation and Computers in Polysomnography

Credits: (2)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Course provides study of equipment, instrumentation, and recording devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient-generated), computer basics, and monitoring devices. Students taking 3503 are required to write a 6-10 page paper outlining specific instrumentation in polysomnography assessing sleep disorders. Students taking REST 2503 cannot take REST 3503 for credit.

Pre-requisite(s): REST 2500/REST 3500 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

REST 3504 - Laboratory Practice of Instrumentation in Polysomnography

Credits: (1)

Course provides practice and application of operating principles of equipment, instrumentation, and recording devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient-generated), computer basics, and monitoring devices.

Pre-requisite(s): REST 3502/REST 2502 or medical terminology, human anatomy and human physiology

Co-Requisite(s): Concurrent enrollment with REST 3503.

REST 3505 - Therapeutics of Managing Sleep Apnea

Credits: (2)

Course provides current therapies and interventions for treatment of sleep apneas. Interventions include positive airway pressure therapy (nocturnal CPAP and bi-level CPAP), surgery, and dental devices. Patient compliance and outcomes of these treatments are included. Students taking REST 3505 are required to write a 6-10 page paper

outlining strategies managing sleep apnea. Students taking REST 2505 cannot take REST 3505 for credit.

Pre-requisite(s): REST 2501/REST 3501 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credit hours.

REST 3506 - Advanced Technical Procedures

Credits: (3)

Course provides detailed description and discussion of specific diagnostic procedures in PSG, including multiple sleep latency tests, maintenance of wakefulness test, REM behavior disorder studies, MMPI, movement disorders, TCM, nocturnal seizure disorders, esophageal balloon procedures, and others.

Pre-requisite(s): REST 3502 and REST 3503.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 6 credit hours.

REST 3507 - Event Recognition and Polysomnography Scoring

Credits: (3)

Course provides advanced study of sleep stages and recognition of EEG characteristics of each stage. Multi-channel recording of breathing events, leg movements, ocular movements, cardiac and oxygenation monitoring, parasomnias, and interictal and ictal epileptic events are also presented. Course will include review and scoring of 12-hour polysomnography records to determine the overall sleep score.

Pre-requisite(s): REST 3501 and REST 3502.

REST 3508 - Sleep Center Management

Credits: (1)

Course is designed to prepare students for sleep center management in hospitals and independent facilities. Course includes sleep laboratory requirements for accreditation, personnel requirements and training, PSG study documentation, technician manuals, quality assurance, policies and procedures, and lab protocols. REST 3500 or credentialed as C.R.T., R.R.T., or R.N.

REST 3509 - Cases in Sleep Medicine

Credits: (2)

Typically Taught Spring Semester: *1st Blk*

Typically Taught Summer Semester: *1st Blk*

Course will include physician presentations or case studies of patients with a variety of sleep disorders. Case-based learning is applied in the context of patient presentation and initial interview and diagnostic findings, determination of appropriate sleep medicine studies, interpretation of patient findings, recommendation for patient therapy, and follow-up of patient compliance and outcome(s) of therapeutic intervention.

Pre-requisite(s): REST 3502 and REST 3505.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credit hours.

REST 3510 - Clinical Practice I in Polysomnography

Credits: (2)

Introduction to the sleep laboratory and the set-up, monitoring, and therapeutic interventions associated with polysomnography. Students will be oriented to patient interviewing and selection, OSHA standards, sleep laboratory standards, and confidentiality. Competency is demonstrated in patient set-up, producing a reliable PSG, recognizing artifact, and basic therapeutic interventions for

common sleep disorders.

Pre-requisite(s): REST 3502.

Co-Requisite(s): Concurrent enrollment in REST 3503 and REST 3504.

Number of Times this Course May Be Repeated: May be repeated twice for credit.

REST 3511 - Clinical Practice II in Polysomnography

Credits: (2)

Case-based clinical applications course. Course requires competency in complete patient management (patient referral and interview, physician consult, patient study[ies], therapeutic intervention and follow-up of patient compliance). Students will develop the patient history and physical, perform the study, score the patient record, interpret the report, apply therapy, and follow-up patient compliance.

Pre-requisite(s): REST 3502 and REST 3510.

Co-Requisite(s): Concurrent enrollment in REST 3505.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credit hours.

REST 3512 - Clinical Practice III in Polysomnography

Credits: (4)

Clinical applications course providing experience in performing advanced technical procedures, including multiple sleep latency tests, maintenance of wakefulness tests, REM behavior disorders studies, MMPI, movement disorders, TCM, nocturnal seizure disorders, esophageal balloon procedures, and others.

Pre-requisite(s): REST 3502, REST 3510, and REST 3511.

Co-Requisite(s): Concurrent enrollment in REST 3506.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 8 credit hours.

REST 3760 INT - Clinical Applications of Neonatal/Pediatric Respiratory Care

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

The clinical application of pediatric and neonatal assessments as they relate to selection and use of respiratory care procedures and equipment specific for this patient population.

REST 3770 INT - Clinical Applications of Adult Critical Care

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Adult respiratory care in the intensive care setting [shock-trauma, thoracic, burn ICUs] with emphasis on hemodynamic monitoring, ventilation/perfusion monitoring, pulmonary assessment and airway management.

Co-Requisite(s): To be taken concurrently with REST 3270.

REST 3780 INT - Clinical Applications

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Clinical experiences related to REST 3280: rehabilitation, extended care, home care agencies, polysomnography, patient assessment and planning for discharge, and quality management.

Co-Requisite(s): To be taken concurrently with REST 3280.

REST 3900 - Clinical Simulation Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Problem-based clinical concepts course: comprehensive program review including written and clinical simulation examinations.

Pre-requisite(s): Enrollment in baccalaureate respiratory therapy program; CRT credential, or equivalent.

REST 4610 - Advanced Patient Assessment

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The advanced patient assessment project is designed to be a physician intensive, interactive experience that emphasizes an understanding of diagnostic processes involved in assessing, evaluating, and treating patients with cardiopulmonary diseases. Enrollment by permission only.

REST 4620 - Health Promotion

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The health promotion project addresses the growing role of the Respiratory Care Practitioner (RCP) in patient education, public education, and health promotion in general. Enrollment by permission only.

REST 4630 - Continuous Quality Improvement

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The continuous quality improvement project enhances an understanding of how to construct and conduct a quality improvement (quality assurance) project in the workplace. Enrollment by permission only.

REST 4800 - Independent Projects

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Student designed, instructor approved projects which will further develop cognitive or psychomotor skills for the baccalaureate level respiratory care practitioner. Projects must meet departmental and professional goals and standards and must have instructor approval prior to beginning project. Enrollment by permission only.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 6 credit hours.

REST 4830 - Directed Readings

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Student designed, instructor approved readings which will further develop professional knowledge or understanding for the baccalaureate level respiratory care practitioner. Readings must meet departmental and professional goals and standards and must have instructor approval prior to beginning. Enrollment by permission only.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

REST 4850 - Study Abroad

Credits: (1-6)

Variable Title

Typically Taught Summer Semester: *Full Sem*

The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

REST 4990 - Senior Seminar

Credits: (2)

Moderated discussion and/or laboratory experiences relating to current events in health care, legislative and ethical issues, and emergent technologies in respiratory care.

Master of Education

MED 6610 - Life Science for Elementary

Teachers

Credits: (3)

This course provides a background in concepts relating to living organisms and the interactions among them and their environment. The flexibility of these concepts is examined in light of research activities.

MED 6620 - Physical Science for Elementary

Teachers

Credits: (3)

Basic concepts of the physical sciences (chemistry and physics) are covered. The importance of the scientific method and the design of experiments is addressed as well as basic facts and discoveries. Hands-on laboratory activities are an important part of the course.

MED 6630 - Earth Science for Elementary

Teachers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A background in basic concepts relating to the formation, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet (atmosphere, lithosphere, and hydrosphere) are investigated through laboratory activities applicable to elementary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6640 - The World As A Classroom

Credits: (1-3)

variable title

This course is designed to provide enrichment opportunities for those who undertake either domestic or foreign travel to participate in study tours, research, and other professional development experiences. It offers participants an opportunity to learn outside the classroom in locations available only through travel.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours.

MED 6650 - Understanding Science

Credits: (3)

This course will examine the nature of science, the philosophy of science, and research in science education. Students will engage in authentic scientific research.

MED 6661 - Life Science for Secondary

Teachers: Zoology

Credits: (3)

This course examines basic concepts relating to living organisms, interactions among them, and relationships with their environment. Concepts of structure, function, ecology, behavior, and evolution will be investigated through laboratory activities applicable to secondary classrooms. Content relates to current areas of public concern and advances in the life sciences.

MED 6662 - Life Science for Secondary

Teachers: Microbiology

Credits: (3)

This course examines basic concepts relating to living organisms, interactions among them, and relationships with their environment. Concepts of structure, function, ecology, behavior, and evolution will be investigated through laboratory activities applicable to secondary classrooms. Content relates to current areas of public concern and advances in the life sciences.

MED 6663 - Life Science for Secondary

Teachers: Botany

Credits: (3)

This course examines basic concepts relating to living organisms, interactions among them, and relationships with their environment. Concepts of structure, function, ecology, behavior, and evolution will be investigated through laboratory activities applicable to secondary classrooms. Content relates to current areas of public concern and advances in the life sciences.

MED 6670 - Physics for Secondary Teachers

Credits: (3)

A background in the basic concepts of physics is provided. Topics include laws of motion, gravity, energy, light, heat, sound, electricity, magnetism, atomic and nuclear physics, radioactivity, and relativity. Laboratories investigate concepts applicable to secondary classrooms. Activities associate science content with appropriate activities designed to develop process skills, laboratory skills, and positive attitudes toward science.

MED 6680 - Chemistry for Secondary Teachers

Credits: (3)

A background in the basic concepts related to matter, its properties, and its reactions is provided. Laboratories investigate concepts applicable to secondary classrooms. Activities associate science content with appropriate activities designed to develop process skills, laboratory skills, and positive attitudes toward science.

MED 6691 - Earth Science for Secondary

Teachers: Geology

Credits: (3)

A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's lithosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate

activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6692 - Earth Science for Secondary Teachers: Meteorology

Credits: (3)

A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's atmosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6693 - Earth Science for Secondary Teachers: Oceanography

Credits: (3)

A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's hydrosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

Supply Chain Management

SCM 2400 - Fundamentals of Project Management

Credits: (3)

Typically Taught Fall Semester: Full sem

Provides practical knowledge and skills for managing a project from inception to completion to meet time, cost, and performance objectives. Prepares students from all backgrounds to successfully perform the role of a project manager in any profit or non-profit context, including business, government, engineering, healthcare, arts, humanities, or education. Topics include management of project teams, stakeholders, communications, schedule, cost, scope, performance and risk for achieving project success.

SCM 3050 - Operations and Supply Chain Management

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Supply chain management is the value creation engine of every organization. The focus of this course is to acquaint students with the core elements of supply chain management: 1) customer value, 2) collaborative value creation, and 3) systems thinking. The course introduces and defines the three primary functions that compose supply chain activities- 1) purchasing, 2) operations, and 3) logistics- and shows how they need to work together to create the high-quality, low-cost, and innovative products and services that customers expect to find in today's marketplace. Important analytical tools are introduced.

Pre-requisite(s): MATH 1010 or MATH 1050.

SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

Spreadsheet software enables business people to model and analyze quantitative problems in a wide variety of business contexts. This course covers spreadsheet modeling in terms of optimization models for deciding the best set of decisions to meet constraints and performance objectives; simulation models for considering uncertainty in business operations and decisions; and other decision models and tools. Through conceptual and applied topics, this course will enhance one's problem solving and modeling capabilities as well as Excel spreadsheet skills.

Pre-requisite(s): MIS 2010, QUAN 2600.

SCM 3600 - Logistics & Transportation

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course incorporates readings, site visits, and case analysis to convey state-of-the-art and emerging business logistics practices. The focus of this course is on forecasting, inventory management, transportation, distribution and warehousing, with an introduction to contemporary issues in logistics such as HADR and sustainability. Development of leading-edge strategies, which promote a firm's ability to differentiate itself in terms of its supply chain performance is emphasized.

Pre-requisite(s): BSAD 2899; SCM 3050.

Pre-requisite/Co-requisite: SCM 3500.

SCM 3700 - Purchasing & Strategic Sourcing

Credits: (3)

Typically Taught Fall Semester: Full Sem

This course provides students an introduction to the supply management discipline, focusing on the development of category management skills and the purchasing process. Companies have always sourced a large percent of their COGS--up to 50-80%. However, today's emphasis on core competencies and increased use of outsourcing makes sourcing even more strategic. Sourcing managers are responsible for managing supplier capacity and capabilities. The course emphasizes costing and relationship management tools. This course builds the foundation for students to pass the Certified Profession in Supply Management (CPSM) exam.

Pre-requisite(s): BSAD 2899; SCM 3050.

Pre-requisite/Co-requisite: SCM 3500.

SCM 4100 - Quality Management and Process Improvement

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Introduces principles and practices for achieving quality, customer satisfaction, and performance excellence. Emphasis on process improvement, problem-solving, variation and statistical thinking, customer and supplier relationships, service quality, employee involvement, project management, and quality management frameworks. Presents tools and methods for analyzing and improving business processes, including Six Sigma, lean, and theory of constraints. This course builds the foundation for students to pass the ASQ Certified Quality Process Analyst exam.

Pre-requisite(s): BSAD 2899; QUAN 3610; SCM 3050; or

Instructor Permission.

SCM 4400 - Global Supply Chain Management

Credits: (3)

Typically Taught Spring Semester: Full Sem

Globalization has changed the rules of competition. Globalization

also raises complex and controversial issues such as job displacement and worker exploitation. Winning companies now use worldwide resources to meet the needs of global consumers. This course introduces and is built around a scanning model. Students are expected to actively scan, using emerging information to identify inflection points and determine their strategic and tactical implication. From this analysis, strategic objectives are renewed to guide the design of a global supply chain. Effective communication and teamwork are emphasized via the in class activities and projects.
Pre-requisite(s): BSAD 2899 and SCM 3050.

SCM 4500 - Supply Chain Relational Strategies **Credits: (3)**

Typically Taught Spring Semester: Full Sem

This course focuses on the soft side of supply chain management, addressing both the internal (including individual) and external relationships that allow a supply chain to function. Key elements of the course include the perspective on supply chain strategic relationships, managing cultural disparities and conflict between businesses and functional units within them, and change management issues. Students will learn core processes around initial exploration and assessment of supply chain relationships, establish metrics/expectations for the relationship, craft and manage teams and work groups, and develop negotiation skills.

Pre-requisite(s): BSAD 2899; SCM 3050, SCM 3500, SCM 3600, SCM 3700; MGMT 3200 or PS 3250; should be taken concurrently with SCM 4550.

SCM 4550 - Strategic Supply Chain Design **Credits: (3)**

Typically Taught Spring Semester: Full Sem

Supply chain management is integrative in nature, requiring a systems approach to process design and management. The goal is to co-create value across organizational boundaries. This capstone SCM course emphasizes the analytical aspects of identifying the right capabilities required to design a collaborative business model and create distinctive customer value. This analysis answers the question, "Who should be on the value-creation team?" The course is designed as a collaborative laboratory, employing extensive experiential learning and case analysis.

Pre-requisite(s): BSAD 2899; SCM 3050, SCM 3500, SCM 3600, SCM 3700; MGMT 3200 or PS 3250; should be taken concurrently with SCM 4500, but can be taken after.

SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation **Credits: (3)**

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course is designed around the case analysis methodology and has the explicit goal of preparing student teams for participation in specific competitive supply chain case competitions (both regionally and nationally). Preparation time will be extensive and students must possess an advanced level of SCM mastery prior to enrollment in this class. Class meetings will be scheduled with the students throughout the semester for presentation and preparation. Please see the instructor for information on enrollment eligibility. Credit/no credit grading.

Pre-requisite(s): SCM 3050, instructor approval.

SCM 4800 - Independent Research **Credits: (1-3)**

Directed research and study on an individual basis.

Pre-requisite(s): Business Foundations; BSAD 2899; Senior Standing; Written Instructor Approval.

Number of Times this Course May Be Repeated: May be repeated until a total of 4 hours credit is accumulated.

SCM 4840 - Operations & Supply Chain Industry Projects **Credits: (3)**

Typically Taught Fall Semester: Full Sem

Early in their careers, many choose to work for a management consulting company or get involved in rotations within a company. These jobs and programs expose the worker to a wide variety of job types and functions and prepare the worker for whatever opportunities the future may bring. In this course, students are exposed to operations and supply chain management consulting projects typical of what they could expect in a full-time consulting position or in a company's early-career leadership rotation program.

Pre-requisite(s): SCM 3500.

Co-requisite(s): SCM 3600 and SCM 3700.

Number of Times this Course May Be Repeated: May be repeated up to two times for a total of 6 hours of credit.

SCM 4850 - Supply Chain Management Study Abroad **Credits: (1-3)**

Typically Taught Spring Semester: Full Sem

This course is designed for students who wish to explore supply chain management theory and practice in countries other than the U.S. Students will study global supply chain management as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: Can be repeated once up to 6 credits.

SCM 4860 INT - Supply Chain Management Internship **Credits: (3)**

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Typically Taught Summer Semester: Full Sem

A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through operations management and logistics courses.

Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

Sociology

SOC 1010 SS/DV - Introduction to Sociology **Credits: (3)**

Typically Taught Fall Semester: Full Sem, Full Sem Online

Typically Taught Spring Semester: Full Sem, Full Sem Online

Typically Taught Summer Semester: 1st Blk, Full Sem Online

An introduction to the study of Sociology through the concepts and principles used to understand and evaluate society. It focuses on all aspects of society: culture; social interaction; institutions; group processes; deviance and social control; stratification, diversity, and inequality based on race, ethnicity, class, gender, etc.; and social stability and change.

SOC 1020 SS/DV - Social Problems **Credits: (3)**

Typically Taught Fall Semester: Full Sem, Full Sem Online

Typically Taught Spring Semester: Full Sem, Full Sem Online

Typically Taught Summer Semester: 2nd Blk, Full Sem Online

A study of major social problems in contemporary society, including issues of age, gender, family, race, ethnicity, wealth and poverty, politics, education, public safety, health care, substance abuse, and environment. Special emphasis is given to these issues and their consequences for today's global and diverse society.

SOC 2370 - Sociology of Gender

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

This course examines gender as an organizing principle of social life and the ways in which gender influences individuals' identities, behaviors, and life experiences. Students will study gender within a variety of contexts, such as the workplace, family, politics, athletics, education, health, media, and religion. Attention will also be given to sociological theories of gender, gender socialization, and the intersection of gender, race, class, and sexuality.

SOC 2600 - Sociology of Family

Credits: (3)

Typically Taught Spring Semester: Full Sem

The course analyzes family arrangements and structures, changes in such arrangements over time, and contemporary issues facing families. Emphasis is placed on variations in family experiences with regard to race, gender, social class, and sexual orientation. Students examine the relationship between families and other social institutions such as politics, religion, and the economy.

SOC 2810 - Experimental Course Offerings

Credits: (2-3)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SOC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SOC 3000 - Self and Society

Credits: (3)

Typically Taught Spring Semester: Full Sem odd years

Sociological Social Psychology is the study of individual, group, and social behavior through analysis of the relationship between individuals and social institutions. Individuals actively create social structure while they are simultaneously shaped by it. Students will analyze how social interaction, processes, roles, and statuses are created and maintained by individuals. Students will also analyze how these same processes, roles, and statuses shape their individual behavior. Social Psychological theories and methodologies are also addressed.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3010 - Social Inequality

Credits: (3)

Typically Taught Spring Semester: Full Sem odd years

The study of social stratification and inequality in the United States and globally. The course focuses on economic class and status groups, such as gender, race and ethnicity, age, sexuality, and physical ability.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3030 - Classical Sociological Theory

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

A study of the classical tradition of sociological thought in late 18th to early 20th century Europe and 19th to early 20th century U.S. The course introduces the main theories of Comte, Martineau, Marx, Weber, Simmel, Durkheim, and others, including early theorists of gender and race. To be taken before SOC 4030.

Pre-requisite(s): SOC 1010.

SOC 3250 - Deviance and Social Control

Credits: (3)

Typically Taught Spring Semester: Full Sem even years

Introduces the student to the various sociological concepts of deviance and social control. Deviance and social control are examined in their positive and negative forms. The benefits and contributions as well as the consequences and disruptions of these forms are considered in the context of the formal and informal socialization processes and the internalization of social norms.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3260 - Juvenile Delinquency

Credits: (3)

Typically Taught Fall Semester: Full Sem even years

Juvenile delinquency as a social phenomenon and its causes involving definitions, agencies of law enforcement, and the courts.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3270 - Criminology

Credits: (3)

Typically Taught Fall Semester: Full Sem odd years

Study of the nature, extent, causes, and treatment of crime.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3300 - Environment and Society

Credits: (3)

Typically Taught Spring Semester: Full Sem even years

An in-depth study of societal-environmental interactions including population, technology and organization impacts of human societies on the physical environment, and environmental impacts on human behavior and social organization.

SOC 3400 - Social Change

Credits: (3)

Typically Taught Fall Semester: Full Sem odd years

The factors which change society and how society changes, emphasizing technological innovations and its implications, social movements, and the role of individuals.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3410 - Sociology of Religion

Credits: (3)

Typically Taught Spring Semester: Full Sem even years

Examination of religion and religious activities globally from the theoretical perspectives of Sociology.

SOC 3420 - Sociology of Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Analysis of the structure and function of education as a central social institution in contemporary society.

SOC 3430 - Medicine and Healthcare in Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Utilizes the Sociological perspective to explore the Institution of Medicine and the Medical Healthcare Delivery System; its function as a social institution and its capability, accessibility, and the related issues of providing Healthcare. The various organizational system structures, and their economic and political dimensions are also examined. Further emphasis is placed on the various professional roles, supporting roles, and patient behaviors. Additional focus is placed upon selected international comparisons, as well as medical research, ethical considerations, and international health issues.

SOC 3550 - Organizations in Society

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Surveys the nature and structure of organizations in general and modern formal organizations and globalization in specific. How organizations work, function and affect contemporary society and individuals' lives and behavior. Sociological theories about modern organizations and globalization will be examined.

Pre-requisite(s): SOC 1010.

SOC 3600 - Social Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Introduction to descriptive and inferential statistical analysis techniques and the presentation of results.

Pre-requisite(s): MATH 1010 or equivalent.

SOC 3660 - Sociological Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

Examines the scientific foundations of Sociology and methods of Sociological Research.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3840 - Cities and Urban Life

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

In-depth analysis of the urbanization, modernization, and development of the system of cities. The relationship between cities and culture, mental illness, and social problems are examined.

SOC 3850 - Race & Ethnicity

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Examines the social construction of race and ethnicity and the conditions of racial and ethnic groups in the United States and globally, based on statistical and ethnographic data. Includes a

survey of theories of the origins, causes, and dynamics of ethnic and race relations.

SOC 4030 - Contemporary Sociological Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The works of major contemporary theorists (Mead, Parsons, Merton, Goffman, Garfinkel, etc.) and the emergence of current schools of sociological thought.

Pre-requisite(s): SOC 1010 and SOC 3030.

SOC 4220 - Life in a Consumer Society

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Examination of consumption, consumerism, and the increasing commercialization of contemporary life. Students study the history of consumerism and advertising; explore how consumer culture influences their own consumption choices; and analyze the relationship between consumerism and social inequality.

SOC 4270 - Sociology of Law

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A study of the interchange between law and society, where society creates the law, yet law regulates society.

Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 4300 - Qualitative Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

This course provides students with a practical introduction to qualitative research methods, focusing on ethnography, interviewing, and content analysis. Framing qualitative research in the context of contemporary theory and ethical concerns, it provides hands-on exposure to qualitative research's unique logic, design, practice, analysis, and writing in a variety of research and applied contexts.

Pre-requisite(s): Junior or Senior standing.

SOC 4410 - Sociology of Globalization

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Study of economic, political, and cultural globalization in the late 20th and early 21st century. The course examines the history, theories and critiques of globalization, the key actors in global political-economy, the institutions and events that shape global processes, and globalization's impact on local economies, politics, culture, and the natural environment.

SOC 4550 - Sociology of Work

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Explores the relationship between work and social class, gender, technology, race, and ethnicity. Additionally, the nature of occupational subcultures is analyzed.

SOC 4810 - Experimental Course Offerings

Credits: (2-3)

Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. Refer to

Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SOC 4830 INT - Readings and/or Projects

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Individual readings and/or projects for sociology majors or minors. (Maximum of 5 hours applied toward graduation, 3 of which can be applied toward the sociology major or minor.)

Pre-requisite(s): SOC 1010, senior standing, permission of instructor, approval of program coordinator.

Number of Times this Course May Be Repeated: May be repeated 4 times up to 5 credit hours.

SOC 4890 INT - Internship

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Qualified juniors and seniors may apply for internships among federal, state and private agencies. Internships are anticipated to provide the student with both practical and research experiences. A student may complete up to 9 hours, but not more than 6 hours in any one type of internship. A maximum of 3 hours may be applied towards the sociological major or sociological minor.

Pre-requisite(s): SOC 1010, junior or senior status, approval of program coordinator.

Number of Times this Course May Be Repeated: May be repeated 8 times up to 9 credit hours.

SOC 4900 - Senior Capstone Course

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to organize all of the knowledge that the student has gleaned from his/her major into an integrated whole. This course will help the student make relevant the knowledge that he/ she has learned. This will be accomplished by having the student write a senior thesis as well as attend lectures.

Pre-requisite(s): SOC 1010, SOC 3030, SOC 3600, SOC 3660, senior standing.

SOC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SOC 4930 INT - Community Engaged Capstone

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A course designed to organize all of the knowledge that the student

has gleaned from his/her major into an integrated whole. This course will help the student make relevant the knowledge that he/ she has learned. This will be accomplished by having the student prepare a project based on a previously completed internship as well as attend lectures. Prerequisite: SOC 1010, SOC 3030, SOC 3600, SOC 3660, 3 credit hours minimum of SOC 4890, senior standing.

SOC 4990 - Seminar in Sociology

Credits: (3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

An advanced course allowing in-depth study of selected topics in Sociology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student transcript.

Pre-requisite(s): SOC 1010 or consent of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 9 credit hours.

Note: (Formerly Contemporary Issues.)

Social Work

MSW 6010 - Foundations of Social Work

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A thorough review of the history, philosophy, and fundamental principles of social work, emphasizing the knowledge, values and skills needed for social work practice in all settings.

Pre-requisite(s): Formal admittance to the MSW program.

MSW 6100 - Behavior, Environment & Social Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A graduate level introduction to the ecological model, examining in-depth, the relationship between human development (individuals, families, groups, communities, and organizations) and the social environment. Systems and theory are examined critically in the biological, psychological, sociological, and spiritual arenas, with an emphasis on social justice and the intersectionality of race, ethnicity, sexuality, gender, economic status and other dimensions of diversity on the developmental process.

Pre-requisite(s): Formal admittance to the MSW program.

MSW 6150 - Behavioral Health, Diagnostics, and Mental Health

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to introduce students understanding to the mental health diagnoses associated with the DSM-V.

MSW 6200 - Human and Social Diversity and Oppression

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A study of diversity among individuals, groups, and communities and dynamics of oppression locally, regionally, nationally, and globally. Application of knowledge, skills, and interventions to alleviate social inequities and human suffering will be stressed.

Pre-requisite(s): Formal admittance to Master of Social Work program.

MSW 6235 - Loss Across the Lifespan

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will provide an overview of loss as a normal and necessary part of life and growth. It will also provide the foundation of classical grief theory and its evolution to more modern grief theory and work. While death and dying at different stages in the lifespan will be addressed, each life stage will also be explored for the normative losses that occur at that stage.

Pre-requisite(s): Formal admittance to Master of Social Work Program, or other WSU graduate program.

MSW 6245 - Aging Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Overview of older adults as a population group and of aging as a biopsychosocial process. The course explores aspects of social services and health care systems intended to help individuals, families, and communities confront aging-related challenges and capitalize upon aging-related strengths.

Pre-requisite(s): Formal admittance to Master of Social Work program or WSU graduate program.

MSW 6255 - Sexuality in Social Work Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A graduate-level introduction and thorough overview of the nature and meaning of sexuality and an in-depth consideration of various ways that sexuality is part of social work practice. Students will examine the knowledge, values, and skills needed to address sexuality in social work practice.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6300, MSW 6910.

MSW 6265 - Crisis Intervention and Trauma

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is designed to prepare students to develop assessment, diagnostic and evidenced based interventions to assist those in critical need during and after a crisis or trauma. A crisis is defined as an event that exceeds and overwhelms an individual's coping skills to the point where equilibrium is disrupted. Micro, mezzo, and macro crises as well as trauma will be explored.

Pre-requisite(s): Formal admittance into the MSW program, or other WSU graduate program.

MSW 6275 - Harm Reduction in Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth analysis of harm reduction and its use in clinical social work practice. Considers harm reduction in assessment, treatment planning, intervention, and evaluation of effectiveness of services. Explores the history and context of harm reduction as a therapeutic model, as well as its applications at the micro, mezzo, and macro areas of practice.

Pre-requisite(s): Formal admittance to Master of Social Work Program, or other WSU graduate program.

MSW 6285 - Dialectical Behavior Therapy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Dialectical Behavior Therapy or DBT, is a theoretical practice model that was conceptualized to address suicidal and para-suicidal behaviors. It is one of the first evidence-based models to document reductions in para-suicidal and suicidal behaviors. Originally developed as an adult model working with Borderline Personality Disorder it has proven effective in treating many other disorders and in working with adolescents and their families as well. It has gained in popularity as a treatment model and many states and insurance payers have recognized it as the treatment of choice for certain diagnoses.

Pre-requisite(s): Formal admittance to the MSW program, or other WSU graduate program.

MSW 6300 - Ethics, Ethical Practice, Ethical Decision-Making

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

An exploration of professional social work roles, values, and ethical principles. Students will review the history and evolution of the National Association of Social Workers' Code of Ethics, as well as other statements of ethical principles in social welfare. An ethical problem-solving model will be introduced and course activities will assist students in using these guidelines in making ethical decisions in professional practice.

Pre-requisite(s): Formal admittance to the MSW program and MSW 6900 OR formal admittance to the MSW program with advanced standing.

Co-Requisite(s): Must be taken concurrently with MSW 6910.

MSW 6400 - Macro Aspects of Clinical Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A consideration of practical aspects of clinical social work practice and social service programs. Content covers administration, budgeting, program development, marketing, and institutional policy. Work with Latino communities provides a context for exploring these topics.

Pre-requisite(s): Formal admittance to MSW program, Advanced Standing Status, or MSW 6300 and MSW 6500.

MSW 6500 - Social Policy and Social Work Practice

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An examination of the major political issues faced by social work as a profession. Examples of challenges and related social, public and social welfare policies will be identified and studied. Knowledge of local, state, and federal legislation, as well as professional, membership, and international organizations will assist in review of lobbying, funding, development, and implementation strategies used in the support of clinical social work practice and meeting human service needs. Methods for political and organizational analysis of processes and policy will be discussed.

Pre-requisite(s): Formal admission to the MSW program.

MSW 6600 - Research I: Research Informed Practice

Credits: (3)

Typically Taught Fall Semester: Full Sem

A study of advanced research methods and statistical procedures as they inform and shape professional social work practice. The class reviews basic qualitative, quantitative, and single system research methodologies; analysis of data, including statistical procedures; analysis and evaluation of theoretical bases, research questions, methodologies, statistical procedures, and conclusions of research reports; and relevant technological advances. Students apply activities such as needs assessments, satisfaction surveys, and other research tools to the creation, implementation, and evaluation of evidence-based practices. The course also prepares students to examine the empirical basis of practice models and how to effectively access, critique and appraise literature in order to find best evidence-based solutions. Ethics and sensitivity to research with various groups will be emphasized.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6010 (or advanced-standing status), MSW 6300, and MSW 6910.

MSW 6700 - Research II: Practice-Informed Research

Credits: (3)

Typically Taught Spring Semester: Full Sem

Research II: Practice-Informed Research - A study of advanced research methods and statistical procedures as they relate to and are guided by professional social work practice. Students learn about empirical research designs and how to conduct program evaluations, including needs assessments, process evaluations and outcome evaluations. Students also learn about strategies to communicate research outcomes effectively with clients, colleagues, and stakeholders to ensure the implementation sound and empirically supported prevention and intervention strategies and models of practice. Ethics and sensitivity to research with various groups will be emphasized.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6010 (or advanced-standing status), MSW 6300, MSW 6910, and MSW 6930.

MSW 6760 - Foundation Field I

Credits: (3)

Typically Taught Fall Semester: Full Sem

The first 200 hours of the first-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.

Pre-requisite(s): Formal admittance to the MSW program.

MSW 6761 - Foundation Field II

Credits: (3)

Typically Taught Spring Semester: Full Sem

The second 200 hours of the first-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work

practice with academic content.

Pre-requisite(s): Formal admittance to the MSW program.

MSW 6860 - Advanced Field I

Credits: (3)

Typically Taught Fall Semester: Full Sem

The first 250 hours of the second-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6760 (or advanced-standing status), and MSW 6761 (or advanced-standing status).

MSW 6861 - Advanced Field II

Credits: (3)

Typically Taught Spring Semester: Full Sem

The second 250 hours of the second-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6760 (or advanced-standing status), and MSW 6761 (or advanced-standing status).

MSW 6900 - Clinical Practice I: Traditional Theories and Model

Credits: (3)

Typically Taught Fall Semester: Full Sem

An overview of common traditional theories and models of social work practice at micro, mezzo, and macro levels. The course combines lecture and hands on application experiences.

Pre-requisite(s): Formal admittance to the MSW program.

MSW 6910 - Clinical Practice II: Vulnerable and At-Risk Populations

Credits: (3)

Typically Taught Spring Semester: Full Sem

Clinical Practice II - A study of clinical social work practice theories and models with vulnerable and at-risk populations at micro, mezzo, and macro levels, with an emphasis on work with Latino clients, families, and communities. Content also covers harm reduction, advocacy, social action, and social justice practice. The course combines lecture and hands on application experiences.

Pre-requisite(s): Formal admittance to the MSW program and MSW 6900, OR formal admittance to the MSW program with advanced standing.

Co-Requisite(s): Must be taken concurrently with MSW 6300.

MSW 6930 - Clinical Practice III: Evidence-Based Practice

Credits: (3)

Typically Taught Fall Semester: Full Sem

An advanced course of study of evidence-based clinical social work

practice theories and models for work with individuals (e.g., EMDR, DBT, CBT, Trauma-Focused CBT, Cue Exposure-Response Prevention, ACT, PCIT, Motivational Interviewing). The course combines lecture and hands on application experiences.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6900 (or advanced-standing status), and MSW 6910.

MSW 6940 - Clinical Practice IV: Group Work

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An advanced course of study of evidence-based clinical social work practice theories and models for work with groups and families. The course combines lecture and hands on application experiences.

Pre-requisite(s): Formal admittance to the MSW program, MSW 6900 (or advanced-standing status), MSW 6910, and MSW 6930.

SW 1010 SS CEL - Introduction to Generalist Social Work

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, Online*

Typically Taught Summer Semester: *Full Sem Online*

A generalist introduction to the relationships between social systems (individuals, groups, and communities) and the social welfare networks which impact them, including the role of the social work profession. Open to all Weber State University students.

SW 2100 SS - Human Behavior and the Social Environment I

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 2nd Blk, Online*

Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*

Typically Taught Summer Semester: *1st Blk Online*

This is the first course in the Human Behavior and the Social Environment sequence. It identifies the relationships between human developmental stages (from conception to death) and the problems associated with environmental interactions. Systems and theory are examined in the biological, psychological, and sociological arenas.
Pre-requisite(s): (It is recommended for Social Work Majors that SW 1010 be taken before or concurrently with SW 2100. It is also suggested that ZOOL 1020 be taken before or concurrently with SW 2100.)

SW 2200 SS/DV - Issues in Diversity

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

A study of diversity among individuals, groups, communities, and of issues social workers will need to understand when interfacing with diverse populations.

SW 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for these elective courses will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

SW 3000 - Death and Dying

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An in-depth study of death, death-related issues and social institutions and practices dealing with death in American society, with special emphasis on the social processes surrounding death and constructive responses to death and dying.

Cross-listed with GERT 3000.

SW 3100 - Human Behavior and the Social Environment II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

This second course in the Human Behavior and the Social Environment sequence is designed to present basic principles and fundamental concepts necessary for acquiring and organizing knowledge for practice with individuals, families, groups, organizations, and communities and on the interaction among these systems. Alternative paradigms on human behavior and the social environment are also explored.

Pre-requisite(s): SW 1010, SW 2100 and formal admittance to the Social Work Program.

SW 3120 - Aging: Adaptation and Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes.

Cross-listed with GERT 3120.

SW 3200 - Child and Family Welfare

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A historical and contemporary examination of child and family welfare issues, and social work intervention strategies.

Pre-requisite(s): SW 1010.

SW 3320 - Ethnicity and Older Women in the American Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The importance of special populations (ethnic, racial and women) as they relate to the aging process.

Cross-listed with GERT 3320.

SW 3500 - Social Welfare & Gerontological Policy Development and Service

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The history, mission, philosophy and human service aspects used in the development of social work/gerontology as a profession will be covered. Examples of social, public and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobby, funding and implementation practices used in meeting human service needs. Methods for the political and

organizational analysis of processes and policy will be covered.
Pre-requisite(s): SW 1010 or GERT 1010. (SW/GERT 3500 must be completed before entering Field Practice.)

SW 3600 - Social Statistics

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*

Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*

Typically Taught Summer Semester: *Online*

Introduction to analysis and presentation of data.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement.
Cross-listed with GERT 3600.

SW 3700 - Social Work Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 2nd blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk*

Social work research and its relationship to social work theory and practice. The class will include content on qualitative, quantitative and single system research methodologies; analysis of data, including statistical procedures; systematic evaluation of practice; analysis and evaluation of theoretical bases, research questions, methodologies, statistical procedures, and conclusions of research reports; and relevant technological advances. The course will also identify how the research curriculum contributes to the student's use of scientific knowledge for practice.

Pre-requisite(s): SW 1010. (Must be completed before entering SW 4861.) Recommended prerequisite: completion of social statistics class.

SW 3800 - Writing in Social Work

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to help students develop and sharpen professional writing skills and become more effective in various forms of written communication in social work and the broader social welfare delivery system. The course will offer an in-depth overview of APA writing style guidelines and apply these, as appropriate, in the preparation of written documents common in professional practice in social and behavioral sciences.

Pre-requisite(s): University Composition (ENGL 2010 or equivalent).

Suggested Requisite(s): (It is recommended that this course be taken concurrently with SW 3700 and/or SW 4860.)

SW 3900 - Social Work Methods, Values, and Ethics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

An ecological system and generalist approach to social work practice methods. Content is germane to various systems and subsystems typically implicated in problems encountered by social workers. A study of values and ethics will assist the social worker to understand the proprieties of professional practice.

Pre-requisite(s): SW 1010, SW 2100, SW 2200 and formal admittance to the social work program. (May be taken prior to or concurrently with SW 3910.)

SW 3910 - Social Work Practice I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

An intensive knowledge-based generalist course concentrating on micro social work intervention skills combining lecture and hands-on experiences.

Pre-requisite(s): Formal admittance to the social work program.

Suggested Requisite(s): (May be taken prior to or concurrently with SW 3900.)

SW 3920 - Social Work Practice II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

A generalist course directed at understanding and demonstrating the principles, concepts and techniques of planned change in mezzo settings including families and small groups.

Pre-requisite(s): SW 3910.

Co-Requisite(s): (Must be taken concurrently with SW 3930 and SW 4860.)

SW 3930 - Social Work Practice III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

A generalist course designed to illustrate the principles, concepts and techniques of planned change in macro settings including institutions, organizations, and communities.

Co-Requisite(s): Must be taken concurrently with SW 3920 and SW 4860.

SW 4140 - Perspectives on Drug Use and Substance Abuse

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course examines drug use and substance abuse across the lifespan and addresses issues such as prevention, treatment, and public policy as they affect and relate to individuals, groups, families, organizations, and communities. Course material draws on current research, theory, and practice experience.

SW 4150 - DSM-5

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This elective course is designed to familiarize the student with the Diagnostic Statistical Manual of Mental Disorders (DSM-5 classification). The DSM-5 provides the practitioner with a systematic diagnostic tool for practice and research.

SW 4220 - Societal Responses to Aging

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with GERT 4220.

SW 4250 - Medical Social Work

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This elective course explores the process and dynamics of the

provision of social work services within the medical service delivery system.

SW 4500 - Interventions for Populations at Risk

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

A course designed to study populations at risk with an emphasis on women and people of color. Interventions to alleviate conditions of human suffering are stressed.

Pre-requisite(s): SW 3910, SW 4860.

SW 4600 - Social Work in Special Settings

Credits: (2-4)

This elective course is designed to accommodate special topic areas in Social Work practice.

Number of Times this Course May Be Repeated: May be repeated once for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

SW 4650 - Retirement: Adjustment/Planning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with GERT 4650.

SW 4800 - Projects and Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This elective course allows for supervised projects and primary research in various areas of social work. Limited to senior students.

Pre-requisite(s): Consent of department chair.

Number of Times this Course May Be Repeated: May be repeated up to 2 times for a maximum of 3 credits.

Note: Check with department for course availability.

SW 4810 - Experimental Courses

Credits: (2-3)

This elective course is designed to accommodate new courses under an experimental format. Refer to Experimental Courses.

Number of Times this Course May Be Repeated: No more than 2 experimental courses may be taken up to a maximum of 6 credits.

Note: This course is offered as needed. Please check with the department for availability.

SW 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This elective course is an individual readings for seniors who are majoring in social work. Permission must be obtained from the instructor. Students are required to complete a minimum of 1000 pages of selected readings per class hour requested for credit.

Pre-requisite(s): Consent of department chair.

Number of Times this Course May Be Repeated: May be repeated up to 2 times for a maximum of 3 credits.

Note: Check with department for course availability.

SW 4860 INT - Social Service Field Experience I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This field practice course requires a minimum of 200 hours of supervised field service in an approved social service agency. The emphasis is to include micro, mezzo, and macro practice opportunities.

Pre-requisite(s): SW 2200, SW 3100, SW 3200, SW 3500, SW 3900 and SW 3910. Formal admittance to Field Experience required.

Suggested Requisite(s): (Must be taken concurrently with SW 3920 and SW 3930.)

SW 4861 INT - Social Service Field Experience II

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This field practice course requires a minimum of 200 hours of supervised field service in an approved social service agency. The emphasis is to include micro, mezzo, and macro practice opportunities.

Pre-requisite(s): SW 3700, SW 4860, SW/GERT 3600 (or equivalent).

Co-Requisite(s): (To be taken concurrently with SW 4990).

SW 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (2-4)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for these elective courses will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated up to 2 times for a maximum of 6 credits.

Note: This course is offered as needed. Please check with the department for availability.

SW 4990 - Social Work Senior Seminar

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This course requires preparation and discussion of social work concepts and topics, and information and techniques in obtaining a job and selecting a graduate school.

Pre-requisite(s): SW 4860. (Must be taken concurrently with SW 4861.)

SW 5010 - Professional Development: Human Development in the Social Environment

Credits: (3)

This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. The course explores human development in the context of the broader social environment. It identifies the relationship between human developmental stages (from conception to death) and the problems associated with environmental interactions. Systems and theory are examined in the biological, psychological, sociological, and spiritual arenas. *Credit/No credit.*

Note: This course is offered as needed. Please check with the department for availability.

SW 5020 - Professional Development: Social Welfare Policy

Credits: (3)

Typically Taught Spring Semester: *1st Blk*

This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. The history, mission, philosophy and human service aspects used in the development of social welfare policy will be covered. Examples of social, public, and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobbying, funding, and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of processes and policy will be covered. *Credit/No credit.*

SW 5030 - Professional Development: Social Work Ethics and Practice Methods

Credits: (3)

Typically Taught Spring Semester: *2nd Blk*

This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. Using an ecological and generalist approach to social work practice at the individual, family, group, organization, and community levels, this course provides training in a planned client change process and considers social work roles at various levels. A significant focus of this course is the study of the application of key values and ethical principles, as defined by the National Association of Social Workers (NASW), to professional practice and the resolution of ethical dilemmas. The course also includes content on the evaluation of practice and programs. *Credit/No credit.*

Theatre Arts

THEA 1013 CA - Introduction to Theatre

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Online*

An introduction to live theatre and drama and the creative heritage of theatre. Students will develop critical awareness of dramatic theory and performance practice through reading and evaluating historical and contemporary drama, and through applied creative activities. Students are expected to attend theatre performances outside of regularly scheduled class time. Note: Theatre majors are required to enroll in the face-to-face class, not the online section.

THEA 1023 CA - Introduction to Film

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Typically Taught Summer Semester: *Full Sem, Online*

Examination and analysis of film and film techniques. Students will develop critical awareness of film as an artistic, social, and cultural phenomenon. Students may be required to attend film screenings outside of the regularly scheduled class time.

Note: A lab fee is required for this class.

THEA 1030 - Voice and Movement for the Actor

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Natural resources of the human voice and body are studied as artistic resources for the performing artist. The course is designed to examine

both the process and products of vocal and physical dynamics. The goal of this course is to integrate vocal and physical skills into the working process of the actor.

Pre-requisite(s): THEA 1033. (Theatre majors only).

THEA 1033 CA - Introduction to Acting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

This is an introductory class where students learn basic acting skills through class participation in improvisation, monologue work, and scene study. Students learn a basic understanding of theories and methodologies. Skills demonstrated in areas of body movement, diction, observation, imagination and "action". (For non-theatre majors).

Note: Note: Theatre majors are strongly encouraged to enroll in the "majors only section" offered spring semester and concurrently enroll in THEA 1713.

THEA 1043 CA - Introduction to American Musical Theatre

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introduction to American Musical Theatre, its history and creative elements. Students will develop critical awareness of the differences between traditional and musical theatre by becoming actively involved in reading, observing, and analyzing musical theatre.

Note: Note: Musical Theatre majors are strongly encouraged to enroll in this class fall semester.

THEA 1051 - Freshman (New Student) Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

An introduction to the Theatre Arts Area devoted to the needs of incoming majors, including: faculty and staff introductions and theatrical personnel responsibilities, audition notices and practices, production and Practicum assignments, and opportunities available within the facility. Includes detailed academic advice for majors and minors, and practical methods of library research for theatre topics at WSU.

THEA 1053 - Introduction to Technical Production

Credits: (3)

An introduction to the production components of live theatre in which students will develop an awareness of technical aspects including scenery, lighting, costume, properties and sound. Students are expected to attend theatre performances outside of regularly scheduled class time. This course is recommended for non-theatre majors and minors.

THEA 1063 - Theatre Foundations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

An introduction to live theatre and drama and the creative heritage of theatre. Students will develop critical awareness of dramatic theory and performance practice through reading and evaluating historical and contemporary drama, and through applied creative activities. This course serves as an introduction to the Theatre area of the Department of Performing Arts, the requirements, and the curriculum. Students are expected to attend theatre performances outside of regularly scheduled class time.

THEA 1075 - Class Voice for Musical Theatre

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course will serve as a preparation for private vocal instruction, departmental production auditions, and the application audition in the musical theatre program. While all theatre majors are welcome to take the course, it's geared specifically for incoming freshman musical theatre applicants. The instruction will cover basic singing technique and an introduction to acting a musical theatre song.

Pre-requisite(s): Must be a theatre major or minor.

Number of Times this Course May Be Repeated: May be repeated once up to 2 credit hours.

THEA 1220 - Acting I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Required for Theatre Performance and Teaching Majors. Non-majors should enroll in THEA 1033. Students in this course will demonstrate a knowledge of and an ability to integrate fundamental acting principles and analysis skills into performance. Students will develop professional work habits of dependability, promptness, cooperation, a sense of ensemble, and the ability to make independent choices.

Pre-requisite(s): THEA 1013, THEA 1030, THEA 1051.

THEA 1223 - Stage Makeup

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A practical investigation of stage makeup techniques and skills of design and application.

Note: A lab fee is required for this class.

THEA 1713 - Script Analysis

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introductory course focusing on plot, character, language, and thematic analysis of varied historical and modern performance texts in the context of contemporary staging practice. This course teaches play analysis from a practical perspective. For students who intend to perform, direct, and design within the collaborative production process.

Co-Requisite(s): (Recommended) THEA 1033.

THEA 1810 - Class Voice

Credits: (1)

Experimental Course, Contact Department for More Information

This is a singing class designed for freshmen and other theatre students who want to explore and develop their singing instruments. There will be a technical portion and repertoire portion.

THEA 1810 - Group Vocal Technique for Musical Theatre

Credits: (3)

Experimental Course, Contact Department for More Information

Group Vocal Technique is a technique-focused course. This is a freshman level course and part of the pre-core requirements of the musical theatre program. This course will allow all incoming freshman musical theatre majors and applicants an opportunity to learn the core skills needed to succeed vocally and be best prepared

for juries, acceptance into the program for applicants, and a base to build from in future private lessons.

THEA 2012 - Stagecraft

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to stage scenery: lecture/demonstration of basic materials, shop and stage equipment, construction principles, and elementary technical drawing and design procedures.

THEA 2022 - Costume Fundamentals

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Introduction to stage costume: with lectures, demonstrations and projects to introduce the basic materials, fabrics, costume construction methods, costume history, and design principles and procedures for theatrical costumes.

THEA 2032 - Lighting Fundamentals

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course provides an introduction to stage lighting. This course includes lectures and demonstration of principles and practical use of electricity, lighting equipment, control systems, elementary technical drawing, and lighting design practice as applied to the stage.

THEA 2033 - Acting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Applies the principles learned in Acting I on a more intense level. Includes two arranged acting studio hours per week.

Pre-requisite(s): THEA 1030, THEA 1033, and by audition.

THEA 2203 - Costume Technology

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

A practical exploration of the research and construction techniques used to create contemporary and historic costumes for the stage. A lab fee is required for this class.

Pre-requisite(s): (Recommended) THEA 2022.

Note: Offered spring semester every odd-numbered year.

THEA 2330 - Dramaturgy and Criticism

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

This course will be a practical study of the role and duties of a dramaturg in a production as well as a critic reviewing a finished work. Work will include all facets of dramaturgy: historical research, script analysis, audience outreach, and lobby displays. A completed Dramaturgy workbook for a proposed play or practical work on a department play will be the final assignment.

Number of Times this Course May Be Repeated: This course may be repeated once up to 6 credit hours.

THEA 2403 - Production and Stage Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A practical study of stage management techniques necessary for efficient theatre production. A conceptual overview of the rehearsal and performance process will be stressed, including an overview of management techniques as applied to the performing arts in general. Front of house management and company management will be studied.

THEA 2443 - Acting for Musical Theatre

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A practical study of acting methods unique to the discipline of musical theatre. Emphasis will be placed on the interpretation of modern musical theatre, literature through imagery, action, characterization, and analysis of the score and libretto.

Pre-requisite(s): THEA 2033 and admittance to the Musical Theatre program.

THEA 2580 - Computer Software for the Theatre

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

The class provides a basic introduction to several important computer programs used in theatre productions, including Vectorworks, Lightwright, Qlab, Google Sketch Up, and Photoshop.

THEA 2821 HU - Period Styles in Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey of the history of Western Art, including architecture, clothing, music, art, and decorative arts for the theatre.

THEA 2851 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2852 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2853 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and

performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2854 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2855 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2856 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2857 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2858 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2859 - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.

Number of Times this Course May Be Repeated: May be repeated up to 3 times for credit.

THEA 2920 INT - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for the current offering under this number. The department will determine the specific title and credit authorized.

THEA 3033 - Advanced Acting

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Introduces students to the techniques required to perform in various styles encountered in contemporary theatre, from Greek tragedy to

the most modern forms. Includes two arranged studio hours per week.
Pre-requisite(s): THEA 2033, and by audition.

THEA 3070 - Voice and Movement for the Actor II

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

An intermediate continuation of intensive voice and movement training for the actor, strong focus in movement and voice for extension of range and availability and for character development. Intermediate development and conditioning of the actor's voice and body with emphasis on dialect work and stylized movement.

Pre-requisite(s): THEA 1030.

Number of Times this Course May Be Repeated: This course may be repeated once up to 6 credit hours.

THEA 3100 - Projection Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is a practical application of the tools and processes essential to conceptualizing and implementing projection design. This course also examines the history of projection design in theatre performance leading up to current practices.

THEA 3103 INT - Directing I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Theory and practical application of directing approaches.

Pre-requisite(s): THEA 1033, THEA 1013 and THEA 1713.

THEA 3212 - Scenic Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Scenic Design will provide a practical exploration of the methods and materials of scenic design for the theatre. The course includes instruction in visual research, conceptual sketching, rendering, hand and computer aided drafting for theatre, and requires some outside class production contribution.

Pre-requisite(s): THEA 2012.

Note: Class meets the 2nd block of spring semester every even-numbered year.

THEA 3222 - Lighting Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

This course will be an advanced exploration of lighting design for theatre. This course is a practical exploration of the equipment, materials, and design processes of stage lighting and stage lighting design.

Pre-requisite(s): THEA 2032.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

THEA 3232 - Scenic Art and Painting

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Applied training in basic scene painting/scenic artist techniques for theatre. Surface preparation, priming, base painting, blending and scumbling, texture and detailing lessons are applied in producing finished demonstration flats including wall surfaces, wallpaper, bricks, rocks, wood grain and molding, marble, foliage, and copying a selected original.

Pre-requisite(s): THEA 2012.

THEA 3233 - Prop Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A studio course in the process and techniques of prop making techniques. Tools, materials, building, and painting techniques will be demonstrated by the instructor and explored and executed by the student. This course not only places emphasis on artist ability but time management, critical thinking, and problem solving as well.

Pre-requisite(s): THEA 2012.

THEA 3243 - Costume History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of fashion from ancient Egypt to the 20th century in relation to stage applications and contemporary fashion. Students will gain a basic understanding of major periods in Western clothing history as well as the interrelationship of clothing and culture and a working ability to research clothing of any culture or era.

THEA 3303 - History and Literature of Theatre I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

A study of theatre and drama from their Pre-Ancient Greek origins through the Renaissance about 1700. The predominantly lecture format course includes significant readings in theatrical practice, historically significant plays, and basics of dramatic criticism. Additional research assignments are required.

THEA 3313 - History and Literature of Theatre II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A study of theatre and drama from about 1700 until the present. The predominantly lecture format course includes significant readings in theatrical practice, historically significant plays, and basics of dramatic criticism. Additional research assignments are required.

THEA 3323 - History and Literature of Contemporary Theatre

Credits: (3)

A survey of theatre history and literature that will study theatre from the 20th century and into the present time. Specific attention will be given to the plays and producing organizations of minorities and other underrepresented groups.

THEA 3340 - Theatre Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

An overview of theatre management techniques that includes all the operating functions such as marketing, promotion, fundraising, accounting and personnel management. A functional business plan for a Theatre is the culminating experience of this course.

THEA 3343 - History & Literature of Musical Theatre

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

A study of musical theatre from the origins of Opera through contemporary musical theatre. Cultural connections are emphasized through examination of book, score and performance.

Pre-requisite(s): admittance to the Musical Theatre program.

THEA 3350 - Marketing and Communication for the Arts

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

This class explores the dynamics of marketing and communication across dance, music, and theatre. The emphasis is on practical application of course content to enhance students' future roles in a variety of arts related careers.

THEA 3443 - Scene Study for Musical Theatre

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Advanced study of acting methods unique to the discipline of musical theatre. Emphasis will be placed on the interrelationship of characters through the use of duets, group scenes, and production numbers.

Pre-requisite(s): Admittance to the Musical Theatre program.

THEA 3500 - Sound Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This class is an introduction to the art and craft of sound design for live theatre productions. This course covers a practical application of the tools and processes essential to conceptualizing and implementing the content of a sound design as well as the sound system for delivery of that content.

THEA 3505 - Playwriting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course will be a practical study of dramatic structure and the process of playwriting, including writing assignments with monologues, scenes, and one-act plays. Extensive writing is required.

Pre-requisite(s): ENGL 1010 and ENGL 2010.

THEA 3525 - ArtsBridge

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a comprehensive, needs-based, integrated arts project with community organizations or area schools. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.

Pre-requisite(s): Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.

Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

THEA 3651 - Musical Theatre Repertoire

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Advanced study of standard musical theatre repertoire, audition techniques and the business of musical theatre.

Pre-requisite(s): THEA 2443.

Number of Times this Course May Be Repeated: May be repeated for a total of four semester hours.

Number of Times this Course May Be Repeated: May be repeated up to two times.

THEA 3810 - Digital Design Theatre

Credits: (3)

Experimental Course, Contact Department for More Information

This course emphasizes close collaboration among students in Theatre Arts and students in the School of Computing. Software and hardware commonly used in current digital theatre design will be explored. Students will be given an introduction to the "tools" of the trade in a studio setting as they advance through a series of exercises, as well as independent and team projects focusing on both artistic design and software engineering. The course will culminate in a selection of short realized multimedia performance projects with guest student actors. Members of each discipline will be immersed in the problem solving approaches and thinking patterns of peers from a different field, which more accurately represents the experiences of working individuals within their chosen careers. Instructor permission required.

THEA 3810 - Experimental Courses

Credits: (1-3)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated 2 times with a maximum of 3 credits. Refer to Experimental Courses.

THEA 3991 - Junior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

A colloquium that draws theatre students from various interests together in a mutual exploration of theatre research, production, and planning for employment opportunities and graduate study.

Pre-requisite(s): Theatre major - junior standing.

THEA 4002 - Special Studies in Theatre

Credits: (2)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Allows for the advanced study of a changing series of pertinent theatre topics. All Special Studies in Theatre courses are half-semester.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this class for credit is four times.

THEA 4002C - Special Studies in Theatre: Stage Combat

Credits: (2)

Physical training in the art and craft of stage combat. Emphasis is on safe application of technique to choreograph stage fights. All Special Studies in Theatre courses are half-semester.

Number of Times this Course May Be Repeated: May be repeated up to two times.

THEA 4002D - Special Studies in Theatre: Auditioning

Credits: (2)

Typically Taught Fall Semester: *2nd Blk*

A practical exploration of professional audition techniques including cold reading, prepared monologues, improvisation and portfolio preparation. Class meets the 2nd block of fall semester.

THEA 4002H - Special Studies in Theatre: Contemporary Topics

Credits: (2)

A diversified exploration of pertinent theatre topics. May be repeated for upper division credit. All Special Studies in Theatre courses are half-semester.

Number of Times this Course May Be Repeated: May be repeated up to two times.

THEA 4103 INT - Directing II

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Advanced theory and application of directing approaches.

Pre-requisite(s): THEA 3103, and by audition.

Note: Offered spring semester every odd-numbered year.

THEA 4120 - Collaboration in the Theatre

Credits: (3)

This class will help theatre students improve collaborative skills specific to production teams in the process of theatrical creation. Students will work in model production teams and explore different modes of communication and collaboration.

Pre-requisite(s): THEA 3103 INT - Directing I or THEA 4203 - Costume Design or THEA 3212 - Scenic Design or THEA 3222 - Lighting Design or THEA 3500 - Sound Design and instructor approval.

THEA 4143 - Directing and Choreographing for Musical Theatre

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Theory and practical application of directing and choreographing approaches as they pertain to Musical Theatre.

Pre-requisite(s): THEA 3103.

Note: Offered spring semester every even-numbered year.

THEA 4203 - Costume Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

A practical application of the techniques of visual communication used to create costume renderings for dramatic scripts.

Pre-requisite(s): (Recommended) THEA 2022 and THEA 3243.

Note: Offered spring semester every even-numbered year.

THEA 4220 - Design Seminar

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

A flexible emphasis course devoted to the design processes of theatrical production; a forum through which advanced design students may further their interests and abilities in the design process and/ or portfolio development and presentation that will change in focus from student to student. THEA 4220 Design Seminar may be used as a capstone design project with faculty approval.

Pre-requisite(s): at least one Theatre Area design course - THEA 3212 or THEA 3222 or THEA 4203, and permission of the instructor.

Note: This class provides an opportunity for in-depth theatrical design work. Since there is only one formal design class in each of the design areas (costume, lighting, and scenery) students can continue their studies in Design Seminar. The course number stays

the same from semester to semester but the content; the design projects changes each time. The maximum time a student can repeat this class for credit is eight times.

THEA 4230 - Performance Seminar

Credits: (1-3)

Typically Taught Fall Semester: *2nd Blk*

A flexible emphasis course devoted to the acting and directing process of live theatrical production, a forum through which advanced performance students may further their interests and abilities in the acting/directing process that will change in focus from student to student. THEA 4230 Performance Seminar may be used as a capstone project with faculty approval.

Pre-requisite(s): THEA 1033, THEA 2033, THEA 3103 and permission of the instructor.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 6 credit hours.

THEA 4270 - Dramatic Theory and Analysis

Credits: (3)

A study of dramatic theory from early Greek thinkers through contemporary theorists. The class will be based on reading primary and secondary texts and will class time will be spent on projects, activities, discussion, and lecture. Additional research assignments are required.

THEA 4603 - Creative Drama

Credits: (3)

Theories and practices incorporating the techniques of creative drama into the elementary school curriculum. Especially recommended to students of elementary education, recreation, and social services.

THEA 4651 - Individual Training in Stage Voice

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Twelve individual lessons on vocal technique for the actor. A list of approved voice instructors is maintained in the department office. Students are responsible for contacting individual instructors to schedule lessons.

Number of Times this Course May Be Repeated: May be repeated up to nine times.

Note: The Musical Theatre students are required to complete Individual Training in Stage Voice a minimum of six times to complete their degree however it is not uncommon for students to take private voice lessons each semester they are enrolled. The maximum time a student can repeat this class for credit is eight times.

THEA 4713 INT - Teaching Theatre in the Secondary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Application of pedagogy to teaching theatre arts in secondary schools. Requires field experiences supervised by Theatre Arts Faculty.

Pre-requisite(s): ENGL 2010 and THEA 1033.

THEA 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

This one-credit elective course will give arts and humanities' majors

the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

THEA 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Advanced level, independent study under the direction of faculty member.

Pre-requisite(s): Permission of supervising instructor required for credit.

Number of Times this Course May Be Repeated: May be repeated 8 times with a maximum of 9 credit hours.

THEA 4851 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

To become a well-rounded theatre student, students are required to participate in the production of the departmental plays as often as their schedule allows. Since there are so many different learning opportunities in the theatre it is though Practicum that they are each exposed to the whole production process. There are 2 different Practicum course numbers, one for performance and the other for the design, technical, and management aspects of theatre. The course numbers stay the same from semester to semester but the content; the plays produced changes each time. Minimally students are required to enroll in a Practicum course 3 times to graduate, however since students are expected to be involved in the production of each play (2 per semester) then they should be completing 4 Practicums each academic year.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this or any combination of THEA 4851 and THEA 4861 for credit is sixteen times.

THEA 4852 INT - Design/Tech Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 9 times and receive up to 10 credits.

THEA 4853 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4854 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4855 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4856 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4857 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4858 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4859 INT - Design/Tech/Management Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.

Number of Times this Course May Be Repeated: May be repeated 12 times and receive up to 12 credits.

THEA 4860 - Advanced Playwriting

Credits: (3)

This course will be an advanced study of dramatic structure and the process of playwriting, focusing on writing full length plays. Extensive writing is required.

Pre-requisite(s): THEA 3505 and instructor approval.

Number of Times this Course May Be Repeated: May be repeated up to two times for a maximum of six credit hours.

THEA 4861 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Practical applied performance work to be registered for by students who are 1) cast in, 2) have a significant assistant directing responsibility, or 3) are the production director for a WSU production.

To become a well-rounded theatre student, students are required to participate in the production of the departmental plays as often as their schedule allows. Since there are so many different learning opportunities in the theatre it is through Practicum that they are each exposed to the whole production process. There are 2 different Practicum course numbers, one for performance and the other for the design, technical, and management aspects of theatre. The course numbers stay the same from semester to semester but the content; the plays produced changes each time. Minimally students are required to enroll in a Practicum course 3 times to graduate, however since students are expected to be involved in the production of each play (2 per semester) then they should be completing 4 Practicums each academic year.

Pre-requisite(s): Audition and permission of the instructor/director.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this or any combination of THEA 4851 and THEA 4861 for credit is sixteen times.

THEA 4863 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4864 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director. The maximum time a

student can repeat this or any combination of practicum for credit is twelve times.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4865 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4867 INT - Performance Practicum

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

THEA 4890 INT - Cooperative Work Experience or Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Actual participation with outside performing arts organizations in the day-to-day activity of a performing arts organization will introduce the student to the professional application of classroom skill and knowledge. Students will arrange their own opportunities by interview or audition. A journal of their experience and a letter from a supervisor are required for credit. Possibilities include but are not limited to: Repertory Dance Theatre, Ballet West or Utah Symphony (management or tech only), Utah Shakespeare Festival, Salt Lake Acting Company, and Pioneer Theatre Company. P

Pre-requisite(s): permission of supervising instructor required for credit.

Number of Times this Course May Be Repeated: May be repeated twice with a maximum of 3 credit hours.

THEA 4900 INT - Senior Project

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The Senior Project is an opportunity for graduating students to generate and realize a project in an area of primary interest. Typically, the project will reflect the student's emphasis in theatre arts (e.g., Acting, Directing, Design, etc.) and will demonstrate a culmination of previous study and may be a collaborative project.

Pre-requisite(s): Faculty approval of the proposal and a faculty advisor and the student must have completed a minimum of 90 credit hours.

THEA 4920 INT - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Variable Title

Consult the semester class schedule for the current offering under this number. The department will determine the specific title and credit authorized.

Number of Times this Course May Be Repeated: The maximum time a student can repeat this class for credit is four times.

THEA 4950 INT - Theatre Festival Participation

Credits: (1)

Attend the Kennedy Center/American College Theatre Festival Region VIII annual meeting or other national theatre conference. Students will have the opportunity to attend theatre performances brought to the festival from throughout the region, display designs, audition, act in new 10-minute plays, and participate in workshops.

Students may be responsible for their own registration fees and transportation, lodging and meals.

Pre-requisite(s): Audition and Permission of Instructor.

Note: May be repeated up to 4 times for credit.

Undergraduate Accounting

ACTG 1010 - Practical Accounting & Taxes

Credits: (3)

A pragmatic look at financial accounting and federal taxes as they relate to the individual's personal life. Designed for non-accounting majors.

Note: This course is not currently being offered.

ACTG 2010 - Survey of Accounting I

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online, 1st Blk*

Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. The course emphasizes the uses and limitations of accounting information in economic decision-making, as well as problem-solving, oral and written communication skills, and computer skills.

ACTG 2020 - Survey of Accounting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, 2nd Blk, Full Sem Online*

Further consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling, and decision-making processes. Emphasizes skills in problem-solving, oral and written communication, and computer skills.

Pre-requisite(s): ACTG 2010.

ACTG 2891 - Coop Work Experience

Credits: (1-3)

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 2892 - Coop Work Experience

Credits: (1-3)

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 2893 - Coop Work Experience

Credits: (1-3)

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the

department.

Pre-requisite(s): Instructor Approval.

ACTG 2921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 3110 - Intermediate Financial Accounting I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Introduction to the accounting profession, standard-setting process, and financial accounting concepts. Thorough study of the balance sheet, income statement, and statement of retained earnings. Theory and application of the time value of money. Financial accounting and reporting considerations for selected balance sheet topics.

Pre-requisite(s): ACTG 2020.

ACTG 3120 - Intermediate Financial Accounting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Thorough study of the statement of cash flows. Financial accounting and reporting considerations for selected balance sheet topics not considered in Intermediate Financial Accounting I.

Pre-requisite(s): BSAD 2899, ACTG 3110.

ACTG 3130 - Accounting Data Analytics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The purpose of this course is to increase student's technical and analytical skills and at the same time provide a review of accounting topics so that as professional accountants, students will have the skills to manage data effectively in a variety of accounting positions. Software products like Microsoft Excel, Microsoft SQL, and Tableau will be utilized in this class. Specifically, this course will enhance understanding of AIS data elements and data structures, critical thinking skills, and technical skills through the use of

software packages and a variety of accounting topics.
Pre-requisite(s): ACTG 3110.

ACTG 3300 - Cost Accounting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Cost determination for budgeting, product costing, process costing, cost assignment and allocation, standard costing, and decision making in manufacturing and service organizations.

Pre-requisite(s): BSAD 2899, ACTG 2020.

ACTG 3400 - Taxation of Individuals

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk*

Basic concepts of gross income, deductions, credits, special computations, and property transactions for individual taxpayers.

Pre-requisite(s): ACTG 2020.

ACTG 3500 - International Accounting

Credits: (3)

This course reviews major issues in international accounting, including historical, cultural, and environmental influences that impact various national accounting systems. Harmonization of standards is also examined.

Pre-requisite(s): ACTG 2020.

Note: Course not currently being offered.

ACTG 3750 - Accounting & Information Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Analysis, design, and implementation of accounting information systems with special emphasis on an understanding of accounting cycles, internal control concepts, and data flows associated with basic economic entities of the organization.

Pre-requisite(s): BSAD 2899, ACTG 3110.

ACTG 4130 - Advanced Accounting

Credits: (3)

A study of business combination accounting. The course will also include an introduction to government and fund accounting.

Pre-requisite(s): BSAD 2899, ACTG 3120.

Note: Course not currently being offered.

ACTG 4140 - Accounting for Global and Complex Entities

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Issues in international accounting not covered in Intermediate Accounting are covered in this course. The course also covers concepts related to accounting for complex entities, consolidated entities and partnerships.

Pre-requisite(s): ACTG 3120 and BSAD 2899.

ACTG 4440 - Taxation of Business Entities

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *2nd Blk*

A study of the income taxation of corporations (including S corporations), limited liability companies, and partnerships.

Pre-requisite(s): BSAD 2899, ACTG 3400.

ACTG 4510 - Auditing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Generally-accepted auditing standards, professional responsibilities, evidence, internal control, sampling, audit tests, and audit reports.

Pre-requisite(s): BSAD 2899, ACTG 3120 or concurrent enrollment in ACTG 3120.

ACTG 4801 - Individual Study

Credits: (1-3)

Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4802 - Individual Study

Credits: (1-3)

Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4803 - Individual Study

Credits: (1-3)

Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4810 - Experimental Courses

Credits: (1-3)

Experimental or one-time courses designed to fill a need in the community or investigate interesting and unusual topics. Refer to Experimental Courses.

ACTG 4850 - Accounting Study Abroad

Credits: (1-3)

This course is designed for students who wish to explore accounting theory and practice in countries other than the U.S. Students will study international accounting as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Number of Times this Course May Be Repeated: Can be repeated once up to 6 credits.

ACTG 4891 - Accounting Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4892 - Accounting Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4893 INT - Accounting Internship

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

University Course

UNIV 1105 - Foundations of College Success

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

This course assists incoming students in making a successful transition to college. Topics include the purpose of higher education, goal setting, time management, study and test taking skills, critical thinking, stress management, academic advisement, career and major exploration, using campus resources, and understanding student responsibilities.

UNIV 1106 - American College Experience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

To aid in the integration of international students into Weber State campus life, and to foster a better understanding of the relationships between campus and community; comparing the experience with home country and institution. The class combines courses and programs designed to help students transition well to the rigorous academic environment of U.S. higher education.

UNIV 1110 - FYS: Cultivating Your Future

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The goal of the course is for first-time students in the Wildcat Scholars program to understand and embrace what it means to be a college student who is cultivating a future. Students will be exposed to and apply ways of thinking, acting, and interacting that social science and educational research has shown to promote success in college and in life. The course requires traditional academic activities coupled with other activities, such as tutoring, designed to help students adopt the beliefs, attitudes, skills, and knowledge necessary to be a person who is cultivating a future through college.

Pre-requisite(s): Acceptance into the Wildcat Scholars program.

UNIV 2900 - Career Planning and Exploration

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

This course is a comprehensive approach to career development, planning, and selection. It assesses personal strengths and identification of job skills, and provides strategies for successfully entering the job market upon graduation. The course assists students to design their future through clarification of personal values and attitudes, identification of career interests and job skills, development of decision-making skills, and labor market information. These skills will help the student in making good career decisions and selecting a major course-of-study at Weber State University.

UNIV 3170 - First Year Experience Mentor Leadership Seminar

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

In this seminar course, FYE Peer Mentors are taught to effectively help Foundations of College Success (UNIV 1105) students in making a successful transition to college. FYE Mentor requirements are available at www.weber.edu/fye/. Course enrollment limited to FYE Peer Mentors.

Number of Times this Course May Be Repeated: May be repeated once for 2 more credits and additionally for zero credits.

Women & Gender Studies

WGS 1500 SS/DV - Introduction to Women and Gender Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

An introduction to the discipline of Women and Gender studies using

multicultural sources based on current feminist scholarship. In this course, we will examine the diversity of women's experiences, perspectives, critiques, and theories across the categories of race, ethnicity, class, and gender.

WGS 2500 SS/DV - Human Rights in the World

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Human rights (HR) are a powerful idea in the modern world, but also the focus of controversy. This course will provide students with a broad foundation in human rights including the ability to analyze HR in domestic and int'l law, examine prevention and prosecution techniques, and debate current issues at home and abroad. Emphasis will be placed on women and gender studies (including LGBT issues), vulnerable populations such as refugees, and atrocity crimes.

WGS 2900 - Topics in Women's Studies

Credits: (1-3)

Varied topics as described in the semester schedule. Topics will be drawn from issues related to women's studies.

Number of Times this Course May Be Repeated: May be repeated 3 times up to 9 credits with different course content.

WGS 3050 - Introduction to Feminist Theories

1700 -- Present

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An introduction to the study of feminist theories from the 18th Century to the present. Students will study historical accounts of feminism by looking at primary sources written by influential feminists, as well as theoretical treatises on different kinds of feminism, from liberal feminism, to radical feminism, socialist feminism, black feminism, multicultural or global feminism, and so on.

The class will be taught using collaborative learning and will rely on class discussion and interaction, rather than traditional lecture format.

WGS 3090 - Gender and Communication

Credits: (3)

This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.

Pre-requisite(s): Junior or Senior standing required or instructor permission.

Cross listed with COMM 3090.

WGS 4050 - Research Methodologies

Credits: (2)

Designed to introduce students to a variety of approaches to research in women's studies. Students will consider some of the assumptions which underlie research methodologies which may limit our knowledge about women as research subjects and as researchers themselves.

Pre-requisite(s): WGS 3050 (or equivalent coursework) or permission of instructor.

Note: Course not currently being offered.

WGS 4060 - Research Project

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Directed research project including literature survey and completion of study in area of student's choosing, guided by faculty mentor(s) from Women's Studies program (and, where appropriate, student's major department.)

Pre-requisite(s): WGS 4050 (or equivalent coursework) and permission of instructor.

WGS 4150 - Research Methodologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Designed to introduce students to a variety of approaches to research in women and gender studies. Students will consider some of the assumptions which underlie research methodologies which may limit our knowledge about women as research subjects and as researchers themselves.

Pre-requisite(s): WGS 3050 (or equivalent coursework) or permission of instructor.

WGS 4250 INT - Community-Based Research/Internship

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

The purpose of this research/internship is to provide students with community experiences related to issues of women and gender. Students in this practicum will apply knowledge skills learned throughout their course of study in either the Women and Gender Studies minor or BIS. For this research/internship students will be required to check in with their course faculty supervisor weekly during the semester.

Pre-requisite(s): WGS 4150.

WGS 4810 - Experimental Courses

Credits: (1-3)

Refer to Experimental Courses.

Number of Times this Course May Be Repeated: May be repeated up to 6 hours for credit.

WGS 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed individual readings in the general area of women's studies. Specific topic selected in consultation with instructor; amount of material to be read determined at discretion of instructor, based on level of topic and degree of difficulty of reading and consistent with any existing university and departmental guidelines.

Pre-requisite(s): WGS 1500 (or equivalent coursework) and permission of instructor.

Number of Times this Course May Be Repeated: May be repeated 5 times up to 6 credit hours.

WGS 4860 - Internship in Women's Studies

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Opportunity for service learning with campus/community organizations involved with women's issues, applying principles learned in women's studies coursework to bring about beneficial social change.

Pre-requisite(s): completion of WGS 4050 (or equivalent coursework) and permission of the instructor.

Number of Times this Course May Be Repeated: This course may be repeated once up to two credits toward the minor.

Note: When taken to fulfill a program requirement, students must register for 2 credit hours.

WGS 4900 - Topics in Women's Studies

Credits: (1-3)

Varied topics as described in the semester schedule. Topics will be drawn from issues related to women's studies.

Number of Times this Course May Be Repeated: This course may be taken 3 times up to 9 credits with different course content.

WGS 4990 - Senior Seminar

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Capstone course including discussion and synthesis of major issues in women's studies. Students will discuss specific projects (completed or in progress) related to their career goals; these projects may have an academic or service orientation.

Pre-requisite(s): completion of the women's studies core (or equivalent) courses and permission of the instructor.

Zoology

ZOOL 1010 LS - Animal Biology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

A non-major's introduction to cell biology, genetics, evolution, ecology, and animal diversity with emphasis on diversity of animal architecture and life strategies in relation to the diverse environments of Earth. The overriding theme is the process of evolution, its basis, and its implications for all animals, including humans.

Three lecture/discussion hours a week.

ZOOL 1020 LS - Human Biology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

Survey course for non-science majors. Course content includes basic structure and function of the human body, homeostasis, heredity, human evolution, and ecology. Implications for personal health, bioethical and environmental issues and the impact of each of these on society will be examined.

Three lecture/discussion hours a week.

ZOOL 1030 LS - The Nature of Sex

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

This course will present an overview of sexual reproduction in animals, including humans. It provides evolutionary, ecological, and behavioral perspectives on sex. Topics cover the value of sex for generating variation among individuals, breeding patterns in

nonsocial and social species, mating systems such as monogamy and polygamy, and reproductive behavior. The relevance of this material to human reproduction is addressed.

ZOOL 1110 LS - Principles of Zoology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A science major's introduction to the study of cell biology, genetics, inheritance, evolution, and ecology. The nature and practice of science is also emphasized and basic skills in data collection, analysis, and presentation are introduced. Three hours of lecture and two hours of lab per week.

ZOOL 1370 LS - Principles of Life Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A survey course recommended for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized.

Two lecture hours and one 3-hour lab a week.

Cross-listed with BTNY 1370 and MICR 1370.

ZOOL 1990 - Zoology Orientation

Credits: (1)

This seminar consists of faculty, staff, and professional presentations which will inform students of potential research opportunities in the department and career possibilities in the discipline.

One hour a week.

Suggested Requisite(s): This course should be taken concurrently with ZOOL 1110 or ZOOL 2220.

Note: This course is offered as needed.

ZOOL 2100 - Human Anatomy

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Systematic study of the organs of the human body with cadaver-based laboratory. ZOOL 1020 or HTHS 1101 strongly recommended prior to enrollment. First semester students are discouraged from registering.

Three hours of lecture and one 2-hour lab per week.

ZOOL 2200 LS - Human Physiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*

Human physiology pertains to the study of the physical, biochemical and mechanical functions of the various human organs and the relationships between these organ systems. Its knowledge is essential in understanding diseases and the development of modern medical therapies. This class is critically important to undergraduate students aspiring to enter professional field in health-science such as medicine, dentistry, nursing, pharmacy, physical and occupational therapies, education, and research. Three hours of lecture and two hours of lab per week.

ZOOL 2220 - Diversity of Animals

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: Full Sem

A major's introduction the diversity and evolution of vertebrate and invertebrate animals. Three hours of lecture and one 2-hour lab a week.

Pre-requisite(s): ZOOL 1110 or permission of instructor.

ZOOL 2800 - History of Life Sciences

Credits: (3)

Examination of the ways in which interaction among personalities, instrumentation, and ideas shape the development of biology - past, present, and future.

Three lecture hours a week.

Note: This course is offered as needed.

ZOOL 2900 - Topics in Zoology

Credits: (1-4)

Variable Title

Variable topics related to zoology as announced in the class schedule; may include medical entomology, biostatistics, primatology, etc., and may be taught with a laboratory section.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Number of Times this Course May Be Repeated: May be repeated 3 times with a maximum of 4 credit hours.

Note: This course is offered as needed.

ZOOL 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult class schedule for offerings under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): vary and are determined by instructor.

Number of Times this Course May Be Repeated: May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

ZOOL 3099 - Teaching the Human Anatomy Laboratory

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

The purpose of this course is to introduce students to human dissection and the teaching of human cadaver anatomy. In so doing, we will (1) provide a uniform laboratory experience for Zoology 2100 (Human Anatomy), (2) teach the students what and how to teach the human anatomy laboratories, (3) provide the students with the opportunity to teach their peers thus providing experience at public speaking, and, (4) reinforce the knowledge base of the students (the power of knowing something by teaching something).

Pre-requisite(s): Successful completion of ZOOL 2100 with a grade of B+ or higher; completion of interview process, and instructor approval.

ZOOL 3100 - Advanced Human Anatomy

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

The purpose of this course is to further expose and train students in human cadaver dissection and the teaching of human cadaver anatomy. In so doing, we will (1) provide a uniform laboratory experience for Zoology 2100 (Human Anatomy), (2) teach these advanced students what and how to mentor their junior colleagues in teaching the human anatomy laboratories, (3) provide these advanced

students with the opportunity to teach both the 2100 students and other student instructors, thus further improving their public speaking, (4) place these advanced students in a more senior leadership position among their lab instructor peers, and (5) further reinforce the knowledge base of the students (the power of knowing something by teaching something).

Due to the complex and pedagogical nature, this course can be taken up to 4 times. Each semester, the focus of the lecture portion of this course will vary from: histological anatomy, developmental anatomy, evolution and pathological/clinically-relevant anatomy. In addition, the prosection assignments each repeated semester will increase in complexity, difficulty and leadership demand. The student instructor experience is maximized by their ability to repeat this unique course by allowing them to capitalize on and improve their past efforts in both the teaching environment and prosection assignment.

Pre-requisite(s): Successful completion of ZOOL 2100 with a grade of B+ or higher, successful completion of ZOOL 3099, completion of interview process, and instructor approval.

Number of Times this Course May Be Repeated: May be repeated up to four times with a maximum of 12 credit hours.

ZOOL 3200 - Cell Biology

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Cells form the basis of all life on Earth and an understanding of cells is essential for examining the features of all living things, including evolutionary adaptations. This course explores the fundamentals of cellular structure and function, including bioenergetics, protein function, membrane properties, cell transport, and cell signaling. Research techniques are emphasized throughout. Applications of cell biology, such as stem cell biology, tissue organization and cancer are explored. Three hours of lecture and three hours of lab per week. Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and either the CHEM 1110 and CHEM 1120 series or the CHEM 1210 and CHEM 1220 series, or approval of instructor.

ZOOL 3300 - Genetics

Credits: (4)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Genetics is the foundation for all of biology, from anatomy, physiology, and cell biology, to ecology, behavior and evolution. This course is a comprehensive exploration of genetics, from molecular genetics to organismal genetics to population genetics. Specific topics include DNA and chromosome structure, regulation of gene expression, mutation, Mendelian genetics, and population genetics. The focus is on applications and current research, including biotechnology, forensics, medicine, genetic counseling, wildlife management, and evolution. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and MATH 1050 (or equivalent), or approval of instructor.

ZOOL 3340 - Information Resources in the Life Sciences

Credits: (2)

A practical introduction to the literature and information resources of the life sciences. Students will expand their research skills and be able to develop effective research strategies to find and synthesize information available in academic libraries.

Two lecture hours a week.

Pre-requisite(s): ENGL 2010.

Cross listed in Botany, Library Sciences and Microbiology.
Note: This course is offered as needed.

ZOOL 3450 - Ecology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Study of how environmental factors, both nonliving and living, affect the distribution and abundance of organisms at the individual, population, community, and ecosystem levels. Three hours of lecture and three hours of lab (or field trip) a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Note: Writing intensive course.

ZOOL 3470 - Zoogeography

Credits: (3)

Typically Taught Spring Semester: *Full Sem, alternating years*

Study of factors determining the distributions of animals with emphases on ecological and evolutionary processes occurring across landscapes and around the globe. Three hours of lecture per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 3500 - Conservation Biology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, alternating years*

The study of how biological principles and concepts are used in conservation. Major emphasis on the preservation and management of biodiversity. Connections between biological and societal issues are explored. Three hours of lecture per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework. Cross-listed with BTNY, CHEM, GEO, MICR, & PHYS 3570.

ZOOL 3600 - Comparative Physiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A comparative and evolutionary approach to the study of how animals function in a variety of environments from cellular to whole-body level. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 3720 - Evolution

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Typically Taught Summer Semester: *Full Sem Online*

The patterns and processes involved in changes in natural populations. How organisms evolve at the genetic, organismal, and population levels. Topics include adaptation,

taxonomy, sex, speciation & species, coevolution, and extinction. Three lecture hours a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 3730 - Population Biology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Population biology is an interdisciplinary field combining the areas of ecology, genetics, and evolution. Topics include population growth and regulation, interspecific interactions, population genetics, quantitative genetics, phenotypic plasticity, and evolution of life histories. Emphasis is on current research applications in wildlife management including the structure and dynamics of wildlife populations, competition, predation, and dispersal. Three lecture hours a week.

Pre-requisite(s): ZOOL 1110, ZOOL 2220, and ZOOL 3300, or approval of instructor.

Note: This course is not currently offered.

ZOOL 4050 - Comparative Vertebrate Anatomy

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

In-depth, comparative study of vertebrate functional anatomy.

Students learn to dissect and understand the anatomical and evolutionary relationships between fishes, amphibians, reptiles, birds, and mammals. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4100 - Vertebrate Embryology

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

A study of the principles and processes of embryological development in animals, emphasizing mechanisms of development, evolution, and pathology. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Suggested Requisite(s): A prior anatomy class is strongly recommended.

ZOOL 4120 - Histology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

Microscopic study of the structure and function of vertebrate tissues and organs, with an emphasis on human organ systems. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110, ZOOL 2220, either ZOOL 2100 or ZOOL 4050, or approval of instructor.

ZOOL 4210 - Advanced Human Physiology

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

A study of vertebrate physiological processes with human emphasis, focusing on cardiovascular, digestive, and neuromuscular systems. Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110, ZOOL 2220, and ZOOL 2200, or approval of instructor; a minimum of one year of (preferably Organic) Chemistry.

ZOOL 4220 - Endocrinology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

The comparative study of the function of the cells, tissues, glands, and organs that secrete hormones and how these hormones affect the physiology of organisms, from invertebrates to vertebrates.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, and either ZOOL 2200 or ZOOL 3600, or approval of instructor.

ZOOL 4250 - Radiation Biology

Credits: (4)

The study of harmful effects of radiation and practical applications of radioactive tracer techniques to biological problems.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110, ZOOL 2220, and beginning courses in chemistry and physics, or approval of instructor.

Note: This course is not currently offered.

ZOOL 4300 - Molecular Genetics

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

A laboratory-based investigation of the molecular properties of the genetic material, including its structure, expression and evolution.

Emphasis on applications and the genetics of humans.

Three lecture/lab hours and one 3-hour lab per week.

Pre-requisite(s): ZOOL 3300, CHEM 1210 and CHEM 1220, or approval of instructor.

ZOOL 4350 - Animal Behavior

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

All animals are motivated to acquire food, avoid predators and parasites, find and secure mates, select habitat, communicate with other animals, and move through their environment. This course is centered on the concepts that underlie such behaviors in nature, with a strong emphasis on both the ecological context and the evolutionary history that has produced them. The primary focus of the lab is on the development and completion of an original, semester-long research project. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4470 - Wildlife Ecology and Management

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

Principles of wildlife ecology and the techniques of wildlife population analysis and manipulation.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110, ZOOL 2220, and ZOOL 3450, or approval of instructor.

Number of Times this Course May Be Repeated: Writing intensive course.

ZOOL 4480 - Aquatic Ecology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

Study of the physical, chemical, and biological interactions of freshwater ecosystems with emphasis on streams. Field trips required.

Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Number of Times this Course May Be Repeated: Writing intensive course.

ZOOL 4490 - Marine Ecology

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

This course will examine the physical, chemical, and biological interactions within and among marine ecosystems. Topics covered will include: physical and biological oceanography, ecological processes driving the distribution and abundance of marine organisms, and exploration of major marine communities. Emphasis will be placed on reading primary scientific literature and discussion of human impacts such as pollution, overfishing, and climate change on all aspects of marine ecosystems. This course is a mixed lecture-lab design with six hours of lecture/lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220 or approval of instructor. ZOOL 3450 recommended.

ZOOL 4500 - Parasitology

Credits: (4)

Survey of representative external and internal parasites of humans, domestic animals, and wildlife. Emphasis is on their ecology and epidemiology.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Note: This course is not currently offered.

ZOOL 4570 - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program. Cross-listed with BTNY, CHEM, GEO, MICR, & PHYS 4570.

ZOOL 4600 - Protozoology

Credits: (4)

Structure, function and evolutionary relationships of unicellular organisms.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Note: This course is not currently offered.

ZOOL 4640 - Entomology

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Insects are the dominant animal group in terrestrial ecosystems and account for over half of all described species of organisms. This course provides an overview of insect anatomy, physiology, ecology and evolution. It also emphasizes the taxonomy of insects at the order and family levels and examines their role in natural systems, as well as their harmful and beneficial effects on agriculture and human health. The field-oriented lab focuses on the collection and curation of local insect specimens. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4650 - Ichthyology

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

Classification, ecology and biology of fishes and emphasis on local

freshwater forms. Field trips required.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4660 - Herpetology

Credits: (4)

Typically Taught Fall Semester: *Full Sem, alternating years*

Structure, function and evolutionary relationships of amphibians and reptiles.

Three lecture hours and one 3-hour lab a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4670 - Ornithology

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

The biology of birds including form, function, behavior and ecology. Lab emphasizes identification of Utah species.

Three lecture hours and one 3-hour lab or a field trip each week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4680 - Mammalogy

Credits: (4)

Typically Taught Spring Semester: *Full Sem, alternating years*

An overview of mammalian anatomy, behavior, conservation, ecology, evolution, physiology, and taxonomy. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

ZOOL 4800 - Problems in Zoology

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed individual research in zoology guided by faculty member. Specific requirements determined in consultation with faculty member.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 8 credit hours for university credit.

ZOOL 4820 - Human Physiology Laboratory Teaching Assistant

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

Students selected to be Laboratory Teaching Assistants (Lab TA) will help in the Human Physiology laboratories. Under the teacher's supervision, they (two teaching assistants per class) will address classes of up to 30 students. They will help set up the instruments, present background information, run the experiments and assess the student's learning by giving and grading short quizzes.

Pre-requisite(s): Students will need to have taken the Human Physiology class (ZOOL 2200) and laboratory (ZOOL 2200L) and obtained a minimum of a B+ in the class. Students will need to apply for one of the positions. Approval to be a Laboratory Teaching Assistant will be at the teacher's discretion.

Number of Times this Course May Be Repeated: May be repeated twice for a maximum of two credit hours.

ZOOL 4830 - Readings in Zoology

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Directed individual readings in the general area of zoology. Specific topic selected in consultation with faculty member.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, and approval of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 8 credit hours for university credit.

ZOOL 4890 INT - Cooperative Work Experience

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Academic credit for employment in career area related to zoology guided by specific written contract design by student, employer, and Zoology Department Chair. Open to all students; requires approval by Department Chair.

Number of Times this Course May Be Repeated: May be repeated up to 12 credit hours for university credit.

ZOOL 4900 - Topics in Zoology

Credits: (1-4)

Variable Title

New and experimental courses, taught infrequently; may be taught with a laboratory section. Check current semester schedule. Specific title and credit hours will appear on the student transcript.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 12 credit hours for university credit.

Note: Check with Department for course availability.

ZOOL 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Consult class schedule for offerings under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): vary and are determined by instructor.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 4 credit hours.

Note: This course is not currently offered.

ZOOL 4950 - Field Zoology

Credits: (1-3)

Study conducted on an extended, supervised field trip.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Number of Times this Course May Be Repeated: May be repeated for a maximum of 3 credit hours.

Note: Check with Department for course availability.

ZOOL 4970 - Thesis

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

An extended, individual research project planned and completed under faculty supervision. Normally, two semesters of research

(ZOOL 4800) will precede registration for this course. Culmination is

an oral and written report of results obtained, with the final draft of the latter being due two weeks prior to the beginning of final exam week. Instructor approval required.

Pre-requisite(s): thesis committee approved research proposal, advanced class standing, and ZOOL 1110 and ZOOL 2220.

ZOOL 4980 - Research Design

Credits: (2)

A basic course in the design and analysis of scientific experiments. Two lecture hours a week.

Pre-requisite(s): minimum of two upper division Zoology courses. Note: This course is not currently offered.

ZOOL 4990 - Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Presentations and discussion concerning a specific topic in zoology. One semester required. May be repeated to fulfill one additional credit of Zoology elective hours if taken beyond the one credit hour required for the major.

One hour a week.

Pre-requisite(s): ZOOL 1110 and ZOOL 2220, or approval of instructor.

Number of Times this Course May Be Repeated: May be repeated up to 3 credit hours for university credit.

ZOOL 5030G - Zoology for Teachers

Credits: (1-4)

Science content course for teachers in the MEd Science Emphasis Program. To register, select another Zoology course and develop a contract detailing additional work required for graduating credit. Contract must be approved by instructor, Department Chair, and Director of the Master of Education Program.

Number of Times this Course May Be Repeated: Course may be repeated 3 times up to 4 credits.

Note: This course is not currently offered.

WSU Gen Ed

WSU 1450 CA/HU - Perspectives in Creative Arts and Humanities

Credits: (3-5)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1460 SS/CA - Perspectives in Social Science and Creative Arts

Credits: (3-5)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1470 PS/CA - Perspectives in Physical Sciences and Creative Arts

Credits: (3-5)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1480 CA/LS - Perspectives in Creative Arts and Life Sciences

Credits: (3-5)

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1560 SS/HU - Perspectives in Social Science and Humanities

Credits: (3-5)

Product Design and Development

PDD 1010 - Introduction to Engineering & Technical Design (Solidworks)

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introductory course to explore engineering and technical design solutions using critical thinking in Science, Technology, Engineering and Mathematics (STEM). Learning modules include; The Engineering Design Process & Professions, Sketching & Documentation, Design Measuring, Introduction to CAD & Geometric Constraints, Design Visualization, Orthographic Projection & Multi-View Drawings, Fasteners, Assembly Drawings, Dimensioning, Tolerancing, Final Team Design Projects, and Final Review & Assessment.

Pre-requisite(s): MATH 1010 or placement.

PDD 1020 - Introduction to 2D CAD Software

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

An introductory course to explore engineering and technical design solutions using critical thinking in Science, Technology, Engineering and Mathematics. Topics include Engineering Design Processes & Professions, Sketching and Documentation, Design Measuring, Introduction to 2 D CAD Software, Design Visualization, Orthographic Projection and Multi-View Drawings, Fasteners, Assembly Drawings, Dimensioning, and Tolerancing.

PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

The use of CAD to create industrial level production working drawings. Includes the latest ASME Y14.5 standards for Geometric Dimensioning & Tolerancing. Topics of discussion will include: dimensions, fits, tolerances, surface finishes, symbols for welding, piping, machined elements/processes and sheet metal flat patterns.

Pre-requisite(s): PDD 1010.

PDD 2460 - Product Design Fundamentals Using 3D CAD

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Product Design is the creative process of applying scientific and mathematical principles, experience, and judgment to the development of the solution of a technical product or system to meet a specific need. Turning ideas into design will incorporate problem identification, market research and brainstorming possible solutions, develop detailed part and assembly drawings, implementation, and evaluation. Sketching, gears/cams/shafts, advanced GD&T, tolerance build-up, tolerances for assemblies, introduction to rapid prototyping, and CNC design for manufacturing concepts will be presented. Advanced 3-D modeling software applications will include: library of parts, assembly constraints, motion constraints, drive constraints, and adaptive design. Three lectures per week.

Three lectures per week.

Pre-requisite(s): PDD 1160.

PDD 2650 - Product Design & Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Uses CAD to lay out advanced production drawings and design. Uses the Machinery's Handbook, ANSI standards, geometric dimensioning and tolerances and manufacturer's reference materials. Supports the design and drafting required for senior project.

Pre-requisite(s): PDD 2460.

PDD 2830 - Directed Readings

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Directed readings in Design Engineering Technology including product design and development and architectural areas. Must have department approval.

Number of Times this Course May Be Repeated: Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 2890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all advanced students in Design Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)

Variable Title

Typically Taught Spring Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times for a maximum of four credit hours.

PDD 3100 - Tool Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Tool design principals used for work piece control in manufacturing and production. Topics include responsibilities of a tool designer, the design process, economics of design, tooling materials, and tool drawings and specifications. Other topics will include jigs, fixtures, gages, dies and tooling required by specialized manufacturing processes.

Pre-requisite(s): MFET 1210, PDD 2460, and MATH 1080 (or MATH 1050 and MATH 1060).

PDD 3300 - Applied Kinematic Analysis

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Graphical representation of the motion of bodies without reference to the forces that cause the motion. Devices will be modeled and the limits of movement of components defined so that overall machine design can be animated and analyzed.

Pre-requisite(s): MFET 2300.

PDD 3400 - Rendering Basics (Photoshop/3ds Max)

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

This course introduces students to the basic tools and concepts used in Adobe Photoshop and 3ds Max. Photoshop instruction includes using layers, image editing using selection tools, filtering, and touching up a 3D render. 3ds Max instruction includes importing models, adding materials, lighting a scene, and creating a basic animation.

PDD 3460 - Parametric Design Graphics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An advanced design graphics course using state-of-the-art parametric modeling software. Topics include: parametric modeling fundamentals, constructive solid geometry concepts, model history, parent/child relationships, parametric constraints & relations, datum features, symmetrical features, 3D construction tools, advanced modeling tools, and assembly modeling.

Pre-requisite(s): PDD 1010 and WEB 1700.

PDD 3470 - Introduction to CATIA V5

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Use of parametric 3D modeling software to prepare engineering documentation and model analysis for the automotive and aerospace manufacturing industries. Students will complete a series of laboratory assignments and term projects in an open lab environment.

Pre-requisite(s): PDD 2460 or MFET 2870 or instructor's approval.

PDD 4200 - Advanced Mechanical Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Typically Taught Summer Semester: *Full Sem*

Uses 3D CAD (3-dimensional computer-aided design) software to create production designs and drawings for heavy industrial applications. Uses the American Institute of Steel Construction (AISC) Manual and the Structural Aluminum Design Handbook in conjunction with metal supplier's product engineering data to design and analyze mechanical systems using traditional and Finite Element Analysis (FEA) Methods in quantifying component mechanics of material integrity. Preparation of fabrication drawings for said systems will also be covered in the course.

Pre-requisite(s): MFET 2320.

PDD 4400 - Animation Basics (3ds Max)

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

This course is a continuation of DET 3400. An in-depth look into 3ds Max focusing more on photorealism and animation. Students will learn how to take models created in other programs learned throughout the DET program into 3ds Max and bring them to life. Video editing is covered to allow students to create professional animations and videos.

Pre-requisite(s): PDD 3400.

PDD 4470 - Advanced CATIA V5

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

An advanced 3D CAD course featuring 3-D parametric modeling using commercially available software. Studies in parametric design and design intent, applying surfaces, rendering, and creating

animated presentations for the automotive and aerospace industries.

Pre-requisite(s): PDD 3470.

PDD 4500 - Hydraulic and Pneumatic Applications

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Examines the components of hydraulic and pneumatic systems, including a detailed study of each type of system and the integration of all components required for machine design. The symbols used to document hydraulic and pneumatic systems and the selection of components from vendor catalogs will be included in the detailing of complete machines.

Pre-requisite(s): MET 3400.

PDD 4600 - Senior Project I (Design)

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A Capstone project spanning two consecutive semesters. This semester concentrates on documenting the design solution. The project includes application of skills, knowledge, techniques and concepts to design and manufacture or construct a project. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation. Prerequisite: Senior Project Application form, senior standing, approval of the department, and Associates Degree in DET or equivalent. (A student must apply for senior project one semester before the start of the senior project.)

Co-Requisite(s): MFET 4610. Cross-listed with MFET 4610L.

PDD 4610 - Senior Project II (Build)

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

A Capstone project spanning two consecutive semesters. This semester concentrates on manufacturing or building the design solution. The project includes application of skills, knowledge, techniques and concepts to design and manufacture or construct a project. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.

Pre-requisite(s): PDD 4600. Cross-listed with: MFET 4620L.

PDD 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Directed readings in Design Engineering Technology including product design and development and architectural areas. Must have department approval.

Number of Times this Course May Be Repeated: Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 4890 INT - Cooperative Work Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Open to all advanced students in Design Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Number of Times this Course May Be Repeated: Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

**PDD 4920 - Short Courses, Workshops,
Institutes and Special Programs**

Credits: (1-4)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Number of Times this Course May Be Repeated: May be repeated 3 times.
