Please note that English composition courses, whether developmental or not, are sequential and can not be taken out of numerical order.

Successful completion of ENGL 2015 or ENGL 2010 with a grade of C or better satisfies the University core requirement for Composition. Entrance into ENGL 2015 or ENGL 2010 can be accomplished in the following ways: 1) passing ENGL 1005 or ENGL 1010 or ENGL 1006 and ENGL 1007 with a grade of C or better, 2) passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, 3) achieving an ACT English and Reading score of 29 or better, 4) a CLEP with essay test with a score of 50 or better, or 5) articulated transfer credit from another regionally accredited college or university.

Interdisciplinary Minors

The English Department participates in the Asian Studies, Environmental Studies and Linguistics Minor/BIS Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Interdisciplinary Associate's

The English Language and Literature Department participates in the interdisciplinary associate's degree in Workplace Communication and Writing (AS). Students who wish to enroll in this program should contact the English Language and Literature Department or one of the college advisors for the College of Arts & Humanities who will help them work out a schedule.

The English Department offers Face-to-Face (F2F), Hybrid, and Online (OL) classes.

The following definitions are intended to help faculty and students understand the differences between Face-to-Face (F2F), Hybrid, and Online (OL) classes taught in the English Department.

> If less than 15% of the class sessions are online, a course will be designated Face-to-Face (F2F)-the current default for courses.
> If 30–70% of class sessions are conducted online, normally but not exclusively in Canvas, courses will be designated Hybrid. This is consistent with WSU Online's definition.
> Classes that are 100% online will be defined as Online (OL).
> Classes will be designated as F2F, Hybrid, or OL prior to the time the department finalizes schedules for any given semester. The designation may not be changed once registration has opened or during the semester except in the event of extenuating circumstances such as injury, illness or university closure; Department Chair approval is required.
> Within the various categories (F2F, Hybrid, Online) the table below illustrates how many online class sessions students can expect in each category. This number is dependent on how often a class meets: once a week (mainly evening classes), twice a week (TR or MW), and three times a week (MWF):

	How Many Sessions May Be Online?		
Course Scheduled As:	F2F (up to 15% online)	Hybrid (30-70% online)	Online (100% online)
1x/week: (14-15 classes/semester)	2 sessions, maximum	Minimum 4 / Maximum 10 sessions	100%
2x/week: (TR or MW: 30 classes/semester)	4-5 sessions, maximum	Minimum 9 / Maximum 21 sessions	100%
3x/week: (MWF: 42 classes/semester)	6 sessions, maximum	Minimum 13 / Maximum 30 sessions	100%

The Department of Foreign Languages promotes global awareness and intercultural understanding by providing instruction and study abroad opportunities in various languages. We prepare majors and minors to function effectively in a foreign language by offering courses in literature, culture, linguistics, pedagogy and language for professional purposes.

A bachelor of arts degree is offered. Students may select a regular major, a teaching major or a major with a commercial emphasis in French, German or Spanish. Regular and teaching minors are offered in these three languages as well. In addition, a Japanese minor is offered, and the department participates in Asian Studies, European Studies and Latin American Studies minors and in a departmental Honors Program. A language emphasis for the BIS degree requires a minimum of 18 hours, 15 of which must be upper-division course work. Courses in other languages may be offered as need and resources allow. The curriculum is based on the National Standards for measuring proficiency. Each course is designed to foster linguistic skills and to increase the student's ability to participate in the culture.

Foreign Language Requirement for the Bachelor of Arts Degree

The Bachelor of Arts degree includes a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

Documentation of a proficiency level of "Intermediate Low" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.

Completion of WSU foreign language course ASL 2020 or CHNS 2020 or FRCH 2020 or GRMN 2020 or ITLN 2020 or JPNS 2020 or PTGS 2020 or SPAN 2020 with a grade of "C" or higher, or comparable transfer credit.

Completion of any upper-division WSU foreign language course with a grade of "C" or higher, or comparable transfer credit.

Students for whom English is a second language may meet the BA foreign language requirement by verifying their proficiency in their native (non-English) language in cooperation with the Foreign Language Department and verifying their proficiency in English as a Second language by passing the ESL Special Examination.

Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at Salt Lake Community College (SLCC). The signer must "produce and maintain American Sign Language with continuity and precision."

Completion of SLCC's American Sign Language Course ASL 1050 with a grade of "C" or higher, or comparable transfer credit.

Completion of twelve semester-hours of foreign language.

Obtaining Foreign Language Credit for Prior Language Experience

Students with prior language experience may obtain lower-division foreign language credit by completing one of the following options:

Students may obtain credit for 1010, 1020, 2010 and 2020 by passing a higher numbered course with a minimum grade of "C"

Students may obtain credit for 1010, 1020, 2010 and 2021 through examination, but only in those languages in which the Department of Foreign Languages has expertise (usually limited to French, German, Japanese and Spanish). This examination is administered regularly by the department. Credit for Humanities General Education (2020) cannot be obtained through examination.

Upon payment of a nominal fee, hours earned through either option are recorded as "credit" on the transcript and do not affect the student's GPA. The department may accept results from other foreign language testing agencies as evidence of proficiency. Application for credit is to be made at the office of the Department of Foreign Languages.

Generally, students may not earn lower-division foreign language credit for proficiency in their native language. If a student's second language is English, then English may fill the BA foreign language requirement (see specific BA-major department advisors).

Interdisciplinary Minors

The Foreign Languages Department participates in the Asian Studies, European Studies, Linguistics, and Latin American Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Oral Proficiency Requirements

The American Council on the Teaching of Foreign Languages (ACTFL) has defined a scale for the evaluation of the language proficiency of students. The ACTFL Proficiency scale has four levels: Novice, Intermediate, Advanced and Superior. The Department of Foreign Languages requires that students achieve a determined proficiency level, depending on the students' goals. In addition, instructors assume that students entering any class have acquired the entry-level proficiency indicated for that class. (These levels are indicated in parentheses by the description of each course. N=Novice; NH=Novice High; IL=Intermediate Low; IM=Intermediate Mid; IH=Intermediate High; AL=Advanced Low.)

Novice (N)

Students at this level have no experience in the language they are studying. They begin by learning the sound and spelling system and by memorizing words and phrases. During the course, they will progress to the point of being able to create simple sentences, to ask some questions, and to initiate, sustain and conclude simple social tasks more than half of the time.

Novice High (NH)

At the Novice-High level student's progress from the ability to respond simply with learned utterances to the ability to create language face-to-face, to ask and answer simple questions, and to create sentence-level constructions.

Intermediate Low (IL)

At the Intermediate-Low level students continue to build mastery of personal social-oriented informational tasks and move to a higher level by practicing informational tasks beyond the immediate and personal. Students will move from simple-sentence to more complex sentence-level discourse. They will practice narration, description and comparison, but mastery is not expected.

Intermediate Mid (IM)

Students at this level build on an ability to perform informational tasks beyond immediate and personal needs while they continue to practice narration, description and comparison. In addition, students begin

practice in supporting opinions and hypothesizing in the language. They move from complex sentence-level structures to paragraph-level discourse.

Intermediate High (IH)

At this level students can function at the Advanced level most of the time. They still need practice narrating, describing and comparing, and Linking sentences together smoothly. In addition, they encounter more tasks that require them to support opinion and to hypothesize. Student's progress from complex sentences to paragraphs to extended discourse.

Advanced Low (AL)

Students at this level function at the Advanced level all or almost all of the time. Students have no difficulty with extended discourse, narration in all tenses and explanation. They are able to and use language both oral and written in complex and sophisticated ways.

The Department of Performing Arts at Weber State is based on five primary purposes: 1) to develop aesthetically aware and artistically discriminating citizens; 2) to provide opportunities for all students to participate in creative, artistic experiences and to encourage community members to participate in the performing arts; 3) to develop artistic competence and sensitivity; 4) to provide for career development in the arts through the preparation of teachers, performing artists, scholars, and technical specialists; and 5) to expose students and community to classic and contemporary works in all genres of the performing arts and to continue to provide the finest possible performances in the arts.

The department's degree programs prepare students for professional careers in teaching and performance as well as in technical specialties while providing the liberal arts background necessary for graduate study. In the department's Performing Arts Series, students and faculty participate in professionally produced dance, musical, and theatrical events.

Dance Area

The primary goals of the Dance area of the Department of Performing Arts are:

> To develop aesthetically aware and artistically discriminating citizens;
> To promote cultural understanding of ourselves and others through the study of dance;
> To encourage appreciation of dance through critical thinking;
> To engage the community in a range of dance experiences;
> To foster an understanding of and engagement in the creative process through dance performance, improvisation, choreography, pedagogical studies, technology, and collaborative endeavors;
> To provide the guidance, class work, and experience necessary to prepare teachers, performing artists, and scholars;
> To prepare students for careers or advanced study that require creativity, collaboration, and an understanding of the human experience as explored in the study of dance;
> To provide rigorous dance training.

Two majors are offered: 1) a Bachelor of Arts in Dance, with a focus on creativity in performance and choreography; and 2) a Bachelor of Arts or Bachelor of Science in Dance Education, with a focus on education and pedagogy. Dance majors follow a program based on growth beginning with foundational theory courses, technique courses appropriate to each dancer's ability, and a culminating senior project.

Dance Education majors follow a program based in the knowledge and understanding of dance education in relation to secondary education and/or studio teaching, focusing on pedagogy, choreography, history, and performance. The Dance Education major prepares students to be teachers of dance in the public sector, private sector, and non-profit environments. In addition, Education majors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program).

Two minors are offered: 1) Dance, with a focus on performance and choreography; and 2) Dance Teaching. Dance minors follow a program that provides for study in technique, creative and theoretical coursework. A minimum of eighteen (18) credit hours (GPA of 2.25 or better) must be completed in the Dance Area courses.

Dance Teaching minors must complete a minimum of eighteen (17-18) credit hours (GPA of 2.25 or better) from the Dance Area courses. This program is comprised of a dance teaching core (7-8 hours), dance history, technique in ballet and modern dance, additional dance forms and creative work. In addition, teaching minors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program). Dance teaching minors are strongly encouraged to select teaching majors in subject areas that are needed in Utah secondary schools.

Performance Opportunities

Orchesis Dance Theatre provides performance and production opportunities for qualified students who demonstrate technical abilities in dance. The company's activities include on-campus and dance festival concerts. Its repertoire consists of traditional and experimental modern dances, contemporary ballets, and theatrical and performance works choreographed/directed by dance faculty, students, and well-known artists. Auditions are required for performances sponsored by Orchesis. WSU Moving Company is the Dance Area's outreach program, which provides further performance, production and teaching opportunities. Significant dance works and lecture demonstrations are performed; teaching residencies are implemented in the public schools and for campus and community organizations.

School of Music

The School of Music is an accredited member of the National Association of Schools of Music. Programs leading to the Bachelor of Music degree are offered for students seeking emphases in performance, keyboard pedagogy, stringed instrument pedagogy, vocal pedagogy, or music education. Additional programs include the Bachelor of Arts in music, Bachelor of Integrated Studies, Minor in Music Performance, Music Studies Minor, Sound Production/Recording Minor. Certificate of Proficiency in Jazz Studies and Certificate of Proficiency in Music Entrepreneurship.

The primary goals of the School of Music are: 1) To develop individuals who are aware, artistically discriminating, and devoted to a lifelong association with music; 2) To provide opportunities for students and community members to participate in creative musical experiences; 3) To develop musical competence, sensitivity, and purpose; 4) To expose students and community to classic and contemporary musical works, and to provide the finest possible performances; 5) To provide for career development in music through the preparation of teachers, performers, and scholars.

Policies and Procedures

The following policies are subject to change. For current information, see the latest Performing Arts | School of Music student handbook and make an appointment with a music area advisor.

Freshman Registration and the Music Core

All freshman music majors and minors entering WSU as full-time students should register for the following courses: MUSC 1006, MUSC 1110, MUSC 1130, MUSC 1150, MUSC 1901, MUSC 1681 or MUSC 1682, and large ensemble. Piano Pedagogy and Piano Performance majors do not register for MUSC 1150.

General Policies and Performance Requirements

All entering music majors and minors, including transfer students, must audition with the respective program faculty for admittance to that program.

A $445 Applied Music Fee is charged to music majors and minors for instrumental or vocal lessons. These lessons are 45 minutes in length and require attendance at a weekly master class. These lessons may be taken for one or two credit hours. There is also an option for two 45 minute lessons each week for two credit hours plus master class attendance and a research paper or project. The fee is $890.

A $320 Applied Music Fee is charged to students registering as non-music majors or minors. These lessons are 30 minutes in length and may not be used as credit for music majors or minors in their primary performance area. A limited number of slots are available for students registering in this category.

All music education, vocal, keyboard and string pedagogy majors should consult with the latest student handbook, and their major advisor.

Schedule for Performance Evaluations (Juries)

Performance evaluations will be regularly conducted and scheduled:
> At the end of Fall and Spring semesters.
> By special request for evaluation during the year upon agreement of the student, the teacher and the committee. All special requests must be scheduled through the area head.

All music majors and minors must take performance evaluations each semester. Performance evaluations are required until completion of the student's final recital as stipulated by the degree program.

Students completing a junior or senior recital are excused from that performance area's performance evaluation the semester in which the recital is completed.

Procedures for Performance Evaluation (Juries)

All incoming music majors and minors and all transfer students and current students who change their major or minor to music subsequent to their initial enrollment at Weber State University will enroll at the 1000 level of private instruction.

A student may be placed in a higher competency level at the completion of any evaluation. A student will not be permitted to progress to the 3000 level until they have met with their major advisor. The advisor will review the student's graduation progress and determine whether it is in the student's best interest to move to the 3000 level.

Student admittance to each competency level is granted only by general consent of the area faculty upon satisfactory completion of a performance level evaluation appropriate to that level.

Refusal by the appropriate area faculty to allow admittance to the next level may be appealed by the student provided there is consent of the private teacher.

This appeal should be made directly to the area head, who will in turn consult with the faculty regarding a repeat performance evaluation.

Only one appeal will be accepted at each performance evaluation.

More than three (3) semesters of study at any one competency level due to lack of improvement on the part of the student will be cause for a recommendation from the appropriate faculty that the student not continue as a music major or minor.

Failure to attend proficiency evaluations will result in a grade of "E" being given for the private lesson during that semester.

Recital Performance

All Bachelor of Music and Bachelor of Music Education students must participate in at least one general student recital or master class per semester. This should normally be a solo appearance, but this determination is left to the discretion of the applied music teacher.

All music majors except those in the Bachelor of Arts and pedagogy programs, must present a half-hour formal junior recital upon reaching the 3000 competency level. All music performance minors must present a half-hour formal junior recital upon reaching the 3000 competency level. The student must register for MUSC 3991 during the semester the recital will be presented.

All Bachelor of Music students must present a one-hour senior recital while at the 4000 competency level. The student must register for MUSC 4991 during the semester the recital will be presented.

Repertoire for the senior recital must not contain music performed on the junior recital. Completion of a senior recital will exempt a student from further proficiency level evaluations.

All students presenting a senior recital must perform that recital before a faculty review committee not less than two weeks prior to the recital date. The review committee will consist of the student's applied teacher, the appropriate area head, and one other music faculty member of the student's choice.

The review committee will be present at the public performance of the senior recital and will recommend pass/fail for the recital.

All students must complete a recital approval form for junior or senior recitals. The recital form must be completed and signed by the area head and applied teacher prior to scheduling any required faculty preview performance.

Failure to complete a junior or senior recital in the semester in which the student is registered for the recital will result in a grade of "E" for the recital.

Recital/Concert Attendance

All music majors and minors must attend 24 music area recitals, concerts, and/or community concert events per year while enrolled in applied music at the 1000 and 2000 level. Attendance reports are required for two years and are maintained in the music office. To receive credit for graduation, students enroll in MUSC 1006 for their first two semesters attending 12 recitals or concerts each semester and MUSC 2006 for their third and fourth semesters attending 12 recital or concerts each semester.

Theatre Arts Area

The Theatre Arts area of the Department of Performing Arts provides scholarly, creative, collaborative and practical theatre experience for students.

The objectives of the program are to: 1) Encourage participation in and appreciation of theatre and drama; 2) Foster creativity and develop technical skills in acting, directing, costuming, scenic design, script writing and theatre management; 3) Prepare students for careers or professional schooling in those fields that require strong presentational skills, creative problem solving, effective collaboration, and an understanding of human experience.

Theatre students must complete a sequence of formal course work that includes University general education, core theatre courses, and focus or specialty courses. Formal course work is complemented by a sequence of experiential learning opportunities in the theatre. Students and faculty develop individualized programs of course work and practical experience, including a junior seminar, annual juries, portfolio preparation, various practica, and opportunities for individual theatre projects.

Study of theatre provides students with useful tools to contribute to and make positive changes in society. Theatre students learn about diverse historical eras, communities and technologies. Theatre challenges students to be creative and to translate that creativity into applied processes - to think precisely, speak confidently in public, work productively with others, visualize abstract concepts and represent those concepts concretely. Theatre skills are useful in a variety of professions including, but not limited to, business, government, law, journalism, and public relations.

Major Requirements

The department offers a Bachelor of Arts (BA) degree in Musical Theatre, Theatre Arts, and Theatre Arts Teaching. A minimum of 62 course units (2.0 or better GPA) or courses in the combined areas of Dance, Music, and Theatre are required to qualify for the Musical Theatre Major. A minimum of 45 course units (2.0 or better) of Theatre Arts courses must be completed to qualify for either the Theatre Arts or Theatre Arts Teaching programs.

Teaching majors must also satisfy all requirements for the Licensure Program as outlined by the Department of Teacher Education.

A $350 Applied Music Fee is charged to Theatre Arts Area majors and minors enrolled in Individual Training in Stage Voice (THEA 4651). These lessons are 45 minutes in length. A limited number of slots are available for students registering for these lessons.

Performance Opportunities

Involvement in theatre productions is an important part of the Theatre program. The Weber State Theatre produces a full season of plays in the Austad, Allred and Eccles theatres of the state-of-the-art Val A. Browning Center for the Performing Arts. Theatre facilities include a variety of proscenium and flexible staging situations. Students are given first priority in all department productions.

The theatre season is offered by the Department of Performing Arts as part of the Performing Arts Series. Because the season is generously supported by the Associated Students of Weber State through student fees, students receive substantial discounts for performances.

In addition to performance opportunities at Weber State, theatre majors are encouraged to seek summer employment in stock or repertory companies relating to their interests.

Our world is partially understood through smell, taste, sound, and touch. But perhaps most of all we make sense of our environment through what we see. The art, architecture, mass media and even the furniture in our spaces bear distinct messages that influence our decisions and enrich life.

Creative processes are exciting. Students of art and design contribute new expression to the vitality of our visual environment and learn to interpret what is seen through trained observation. Innovative thinking is absolutely necessary for success and must be balanced against research and critical judgment. Emphasis is placed on writing and the critical evaluation of artistic products. Students gain experience at preparing exhibits and portfolios for eventual professional activity.

Studies in art and art history offer windows of understanding to other cultures, both past and present. This is one of our primary concerns in preparing citizens for productive relations in an increasingly multicultural society.

Seventy-eight different courses are offered by the Department of Visual Arts. These span traditional areas such as art history, art education, ceramics, drawing, small metals/jewelry, painting, photography, printmaking, sculpture, and visual communication. The department is continually expanding into emerging modes of expression involving digital video, digital photography, animation, interactive design, and sound. Classes are enhanced by public lectures, seminars, workshops and special sessions by critics, historians, and visiting artists.

Weber State University supports three Bachelor's degrees in the visual arts with specializations in most of the areas mentioned above. The Bachelor of Arts and Bachelor of Science degrees provide a broad liberal arts background, a solid base for many careers or further study. The Bachelor of Fine Arts degree is more professionally focused with high concentrations of studio art and art history. The BFA is for students who wish to move directly into professional work in art or design, or those who intend to pursue graduate study in the visual arts. Senior exhibitions are required for most Bachelor of Fine Arts majors.

The Elizabeth Dee Shaw Gallery exhibits art that exemplifies the ideas and values of the curriculum. This serves our students and the public interest as well. Exhibitions involving regional, national, and internationally recognized artists serve a vital role in the cultural life of the community. The Gallery organizes at least six exhibitions each year. All are free and open to the public.

Transfer of Credits

Transfer students must present an official transcript and a portfolio to petition course substitutions for visual arts program requirements. A minimum number of departmental residency hours is required for completion of degree programs: 19 credit hours for the BFA, 12 hours for BS and BA programs, 6 hours for minors.

The University requires students seeking a second baccalaureate degree to complete a full year in residence and a minimum of 30 total credit hours.

Studio Fees

Studio fees are required in most visual arts classes. Check the current course schedule for exact amounts.

Asian Studies Minor

MPC students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered and begun taking classes. Students who exceed this requirement may submit a letter of appeal to the MPC director to request that this requirement be waived. Students who fail to enroll in MPC courses for three consecutive semesters must apply for readmission to the program unless a deferment is approved by the program director. Grade Appeal Procedures

The evaluation of student performance is recorded on the student's University transcript as part of the student's permanent record. The grade is determined by the faculty member responsible for the course and is based upon factors related to achievement of the course objectives. The grade is considered final unless an appropriate appeal is filed by the student. For the student who is dissatisfied with a grade and has reason to believe the grade issued is incorrect, the following appeal procedure is provided by the College and the University. Steps 1 and 2 of the process are considered informal appeals and are designed to provide an avenue for resolution without a formal hearing.

Step 1   Within fourteen (14) days of the beginning of the following term, the student shall confer with the instructor who issued the grade and outline the reason/s why he or she believes the grade to be incorrect. (If the faculty member is unavailable, the student must contact the faculty member's

chairperson within this same time period to request an extension of the time allowed for this step. Such permission must be obtained in writing.) Within seven (7) days of the student-faculty conference, the faculty member shall advise the student, in writing, of the outcome of the course grade review.

Step 2

If the student still considers the grade to be incorrect, the student may appeal the grade at the department level. This appeal must be in writing, must follow the procedures outlined in the College's Grade Appeal Process document, and must be filed not later than seven (7) days from the date of the completion of step one. The College Grade Appeal Process document may be picked up from the department office or the office of the dean.

Step 3

If, after completion of step 2, the student is still dissatisfied, the student should consult with the University's due process officer and may request that the case be reviewed by a Weber State University hearing committee.

Exercise and Nutrition Sciences (ENS) in the Jerry & Vickie Moyes College of Education offers programs that teach skills and knowledge needed to maintain and enhance human performance and well-being through exercise, fitness, sport, and optimal nutrition. We offer undergraduate students exceptional educational experiences in a variety of teaching environments supported by faculty with diverse expertise. Our state-of-the-art facilities - including fully equipped laboratories (biomechanics, human performance, nutritional biochemistry, and foods), a networked computer lab, and ample indoor and outdoor fitness and activity arenas - provide outstanding areas for student instruction and research. With a curriculum designed to develop professional knowledge and skills, our graduates enter the workforce as fitness and nutrition professionals in a variety of educational, health and fitness settings, and are prepared to pursue graduate studies in their respective career fields.

Through instruction, scholarship and service, our department offers Bachelor of Science degrees in Exercise and Sport Science (Fitness Professional and Exercise Science emphases) and Nutrition Education (Integrative Nutrition and Sports Nutrition emphases) and a Nutrition Education minor. We also support the efforts of undergraduates seeking the Bachelor of Integrated Studies degree, offering Exercise Science and Nutrition Education and as emphases for the BIS Program.

Mission Statement

The Department of Exercise and Nutrition Sciences (ENS) supports and enhances the mission of the University through learning, access, and community partnerships in exercise and nutrition sciences. We provide effective instruction, exploratory research, and engaged service to prepare exercise, fitness, and nutrition professionals for the workforce and graduate studies and to promote optimal health, human performance, and overall well-being.

Exercise and Sport Science (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Exercise and Sport Science with three emphasis options: Strength & Conditioning, Clinical Exercise Physiology, and Exercise Science. Students may declare one or more emphases. The Exercise and Sport Science major program prepares students for a variety of career options, several national certifications, and for entering graduate and professional schools.

Graduates will have demonstrated competence and knowledge in anatomy, physiology, fitness assessment, kinesiology, biomechanics, exercise physiology, exercise programming and implementation, exercise leadership and client education, nutrition, health, strength and conditioning, weight lifting, aerobic activities, and more.

Nutrition Education (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Nutrition Education with two emphasis options: Sports Nutrition; and Integrative Nutrition. Students may declare one or both emphases. The Nutrition Education major program prepares students for a variety of career options and for graduate school to pursue advanced degrees.

The Sport's Nutrition Educator graduate will have demonstrated competence and knowledge in chemistry, anatomy, physiology, diet analysis and design, nutrition assessment, sports and fitness nutrition, diet therapy, lifespan nutrition, research, and related exercise science topics with cultural application and sensitivity for individuals and athletes. Information is provided for typical graduate Registered Dietitian Nutritionist (RDN) program pre-requisites. The prerequisites vary somewhat from one graduate program to another and it is the student's responsibility to ensure that all pre-professional courses fulfill entrance requirements.

Integrative nutrition includes nutrition as it intersects with other related fields to support health and wellbeing of individuals and groups. The Integrative Nutrition Educator graduate will have demonstrated competence and knowledge in diet analysis and design, fitness nutrition, lifespan nutrition, sustainable cooking, and related exercise science, health, child and family studies, botany, microbiology, physical education, recreation, and/or psychology topics with cultural application and sensitivity.

Department of Child and Family Studies

Department Chair: Ryan Dunn, 385-244-0141
Location: McKay Education Building
Telephone Contact: Danielle Orozco 801-626-7151
Advisor: Darcy Gregg, 801-626-6411
Professors: Carrie Ota, Wei Qiu, Paul Schvaneveldt; **Associate Professors:** Mark Adams, Sheila Anderson, Teri Henke, Daniel Hubler; **Assistant Professors:** Charles Dunn, Keith Osai

The Department of Child and Family Studies offers a broad personal and professional education by providing majors in the following areas: Early Childhood (Bachelor's and Associate of Applied Science), Early Childhood Education, and Family Studies. The AAS Early Childhood and BS Family Studies are also fully online. Minors in Child Development and Family Studies are also offered. Child and Family Studies is also an area available for a Bachelor of Interdisciplinary Studies (BIS).

Learning is enhanced by the Melba S. Lehner Children's School where preschool laboratory experience is provided for practical application. Practical experience is built into all areas of study. Honors credit is available for students who desire greater depth. Preparation for graduate study can be pursued in any area represented in the department.

Child and Family Studies Department Policies

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

The Child and Family Studies Department will only accept two non-articulated transfer courses for the major/minor.

If a grade in a Child and Family Studies major/minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. The Retention & Referral Policy can be found at https://www.weber.edu/wsuimages/chfam/CHF_Retention18.pdf.

All students with a major/minor in Child & Family Studies are strongly encouraged to contact the department academic advisor in McKay Education Building (801-626-6411) early in their academic career for advisement and declaration of a major and/or minor.

Students must undergo a background check and be fingerprinted for major and course requirements.

Early Childhood Laboratory

The Melba S. Lehner Children's School serves as an early childhood laboratory to give students practical experience in early childhood environments. Students must complete Child and Family Studies prerequisite major courses at a B- level or better and apply to the Director of the Melba S. Lehner Children's School one semester prior to student teaching. Other practical experience can be arranged with a faculty advisor.

Child and Family Studies (BIS)

The Bachelor of Interdisciplinary Studies (BIS) is an interdisciplinary degree that allows students to combine three areas of study to create a unique major that matches their interests. An emphasis in child and family studies provides you with knowledge of family relations and child growth and development.

Grade Requirements: An overall GPA of 2.00 or C in courses used toward the emphasis. Students will receive the final grade they have earned in each course. If a grade in a Child & Family Studies major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

Credit Hour Requirements: A minimum of 18 credit hours from Child and Family Studies to include 6 hours of required courses and 12 hours of electives. Two courses (6 credits) must be upper division (3000 level or above).

Program Code: 5054

CIPC: 190704

The major purpose of the professional education programs in teacher education is to prepare candidates for teaching in elementary and secondary schools. Preparation is also provided for teachers of students with mild to moderate disabilities with the special education mild/moderate license. The department prepares students for endorsements in Mathematics, ESL (English as a Second Language), Dual Language Immersion, Basic Reading (graduate level only), and Education of the Gifted (graduate level only). All programs are accredited through the Teacher Education Accreditation Council (TEAC).

The preparation for teaching falls academically within four major categories: University General Education, support courses, subject specialization, and professional education.

> University General Education requirements -- In selecting courses to satisfy the general education requirements, candidates should note the general education courses recommended and/or required in their major and/or professional education requirement sheets available in the Teacher Education Advisement Center (ED 230).
>
> Support courses
>
> Specializations are required of all elementary candidates. Elementary education majors have two track options; K-6 and 1-8. The K-6 track requires one 9 credit specialization and a 9 credit early childhood specialization while the 1-8 track requires a 18 credit specialization or a teaching minor. The professional education program outlines acceptable subject specialization areas and requirements. Special Education majors choose one 9-hour specialization or a teaching minor. Secondary candidates completing a teaching major may be required to complete a teaching minor (refer to the teaching major program requirements). The teaching major and teaching minor must be in subjects taught in Utah public secondary schools.
>
> Professional Education courses help the prospective teacher learn about children, the nature of the learning process, and how to provide desirable learning experiences. To meet licensure requirements, secondary school candidates are required to complete a minimum of 24 semester hours of professional course work; 55 semester hours are required of the prospective elementary school teacher.

Professional course work in the program is organized into sequential levels. As students move through the program, they are required to demonstrate in a variety of ways the knowledge, skills and dispositions that embody the department's organizing theme and program model.

It is important that interested students contact the Teacher Education Advisement Center (ED 230) as quickly as they decide to become a teacher. Specific program admission requirements, required courses, and recommended general education course work are available.

Admission to Teacher Education

Admission to the Teacher Education Programs is a separate process from general university admission. The Teacher Education programs maintain a competitive admissions process. **Applicants are provisionally admitted each semester after submitting their application materials and meeting the minimum admission criteria listed below.** Students are admitted two times per year: fall semester and spring semester. Applicants are evaluated by cumulative GPA and admission interview score.

Minimum Admission Requirements

Formal Application submitted online by the deadline date.

At least 40 semester hours of general education and relevant prerequisite courses.

Those intending to teach *Special Education* **or teach at the** *elementary level***, please note:**

The Professional Education component of the Special Education major and the Elementary Education major requires **four semesters** *to complete. Therefore, it is* **very important** *that candidates have completed the General Education requirements and have taken most of the required Support Courses prior to entering the program. Passing the appropriate Praxis II Content test or passing the ACT with the composite score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19 is reguired for all programs. The Utah State Office of Education specifies the passing score for each test. **Students will not be considered for admission if they do not meet the state specified passing score on the Praxis II or ACT.**

Sign up for an interview in the Advisement Center when you turn in application materials (the schedule will be available approximately one (1) month prior to the interview dates).

Any *Elementary, Special Education, and Early Childhood Education major* pursuing the Middle School Mathematics Teaching minor is encouraged to take MATH 1050 and MATH 1060 or MATH 1080 as soon as possible as part of the requirements for that minor.

Communication competency completed (grade "B-" or above in COMM 1020 or COMM 2110 or equivalent).

University Computer and Information Literacy competency completed (see General Requirements in this catalog).

EDUC 1010 Exploring Teaching or approved equivalent course completed.

Teacher Education also recognizes specific program and diversity needs of professional education and reserves the right to consider such factors in the admission of candidates.

For teacher education applicants who are English language learners, an additional requirement of 6.5 on each of the four sections of the International English Language Testing System (IELTS) test is required for admission.

Additional Notes

Fingerprinting/background check must be completed immediately after being admitted. Go to the following link for more information: https://weber.edu/fingerprinting

Students are provisionally admitted to a specific teacher education program: (1) early childhood education; (2) elementary education; (3) special education; (4) secondary education.

Provisional admission to a specific program is valid for a period of five years. If a student has not completed the program within the five-year period or desires to pursue a different program, he/she must seek readmission under the current admission standards and complete current course/program requirements. Changes in state licensure requirements may necessitate more immediate program changes.

Professional education credits older than five years at the time of program admission generally will not be counted. However, students may revalidate outdated course work by following procedures available in the Teacher Education Advisement Center, ED 230.

A Graduate Certificate in Teaching is also available through the Master of Education program.

Applicants who hold Bachelor's degrees older than five years and who have not had more recent relevant course work or work experiences related to their major and minor must take at least two courses in their major and one course in their minor as designated by the academic department.

Applicants with an earned graduate degree seeking initial licensure must satisfactorily complete requirements 1, 2, 4, and 5. They are then placed in the pool with others seeking provisional admission.

Data are collected on students admitted to the Teacher Education program for the purposes of national accreditation and program improvement. No personal information is used in this process.

Early Childhood Education Major

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with licensure for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Requirements are listed under the Department of Child and Family Studies. See Room ED 248 for additional information.

Elementary Education Major

Students preparing to teach in elementary schools graduate with a major in Elementary Education. The elementary education major has a K-6 track and a 1-8 track.

The Teacher Education Advisement Center and faculty advisors from the Department of Teacher Education are available to advise prospective teachers. A program requirement sheet is available from the Teacher Education Advisement Center in Room 230 in the McKay Education Building. It is to the student's advantage to begin program planning early.

Interdisciplinary Minors

The Teacher Education Department participates in the interdisciplinary Linguistics Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. Communication is a dynamic process that plays a complex and profound role in shaping both individuals and society and is vital to the free exchange of ideas central to a democratic society. The Weber State University Department of Communication seeks to promote an understanding of this process and the effective and ethical practice of human communication by focusing on how people create and use messages to generate meanings within and across various contexts, cultures, channels and media, including those delivered through technology. WSU Communication Department curricula and programs are grounded within a liberal arts tradition and are designed to help students live vital and successful lives in an ever-changing global environment.

The curriculum for the major is designed to provide a liberal arts-based study of human communication combined with a course of study that prepares graduates for entry-level employment in Communication and Communication-related careers. The major also prepares students for graduate study in Communication and related disciplines. The Department is committed to enhancing student learning through required internships and through co-curricular opportunities afforded by our award-winning student-operated organizations, including The Signpost, KWCR Wildcat Radio, Ogden Peak Communications, Studio 76, and Weber State Debate and Speech Team.

Communication majors may select one of six emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. They may also select a Communication Teaching major with emphases in Communication Studies or Multimedia Journalism. Students may earn the Communication major as either a Bachelor of Arts or a Bachelor of Science degree.

The Communication minor and the Bachelor of Integrated Studies concentration in Communication (BIS) are designed to provide students with knowledge and skills in Communication that complement the major or other concentrations of study.

The interdisciplinary associate's degree in Workplace Communication & Writing is a career-oriented program designed to prepare students for entry-level careers in many fields while also preparing students for bachelor's degrees in Communication. The Associate of Science in Communication is another two-year degree offered that benefits students from many professions where communication plays a critical role.

In addition to emphasizing knowledge, understanding, and demonstrated competence in the skills of human communication, curricular and co-curricular programs emphasize the development of character in students. Accordingly, department faculty discourage symbolic expression that demeans and degrades other human beings, and encourage symbolic expression that celebrates the fundamental dignity of all human beings.

Obsolete Credit

Credit earned more than 10 years earlier than the proposed date of graduation will not be accepted for the major, minor or BIS concentration in Communication unless validated through a challenge examination or department chair approval.

Co-curricular and Extra-curricular Activities

Scholarships, Fellowships, and Tuition Waivers

Scholarships and/or tuition waivers are available to WSU Policy Debate Speech Team competitors and to The Signpost, KWCR Wildcat Radio, Ogden Peak Communications, and Studio 76 staff members. Other academic scholarships are also available. Contact the department office at 801-626-6426 or visit the department website at weber.edu/communication for more information.

Professional and/or Honorary Organizations

Communication students are encouraged to join one or more of the professional and/or honorary organizations affiliated with the department. Memberships in these organizations provide students with opportunities to meet and network with Communication professionals, learn about employment opportunities in the field of Communication, and participate in practical experiences relevant to future employment. Professional organizations in Communication include:

Society of Professional Journalists (SPJ)

Public Relations Student Society of America (PRSSA)

Lambda Pi Eta Honor Society (LPH)

Weber State Debate and Speech Team

Participation in intercollegiate debate and speech team activities is conducted in conjunction with the instructional program in argument, public speaking, and civic advocacy. Students participate in debate and speech team tournaments under supervision of the program's directors. The Department of Communication hosts the annual Bob Mukai College Classic, the annual Val Browning Round Robin, and the state high school debate and speech championship. Policy debate is a two-on-two format, centering on a policy question derived from a resolution. Policy debate simultaneously challenges and improves student research, analytical, advocacy, and public speaking skills. Speech competition is a contest between individuals or teams in various argument and advocacy skills that can be used and applied across the educational spectrum. There are four main categories of competition: platform speaking, interpretive speaking, limited preparation, and individual debate.

Weber State Student Media

The Signpost

Multimedia Journalism students polish reporting, writing, and multimedia skills at The Signpost, Weber State University's student-run news organization. Content is disseminated online 24/7 and via newspaper two days a week.

KWCR Wildcat Radio

Students practice and develop their knowledge and resumes by joining Weber State's student-run, digital-streaming radio station KWCR Wildcat Radio. Student staffers gain experience in audio production, podcast creation, live broadcasting, public relations, live event planning, social campaigns, and seeking music promoters and sponsorship opportunities. KWCR streams music, local sports, news, and specialty programs on the MyWeberMedia app and the RadioFX app.

Studio 76

Studio 76 produces high-quality video content for campus and community organizations as well as creates multiple studio shows ranging from a weekly newscast produced for The Signpost to in-studio entertainment shows. Studio 76 also offers live-streaming services to many campus clubs and organizations. Content is shown online via MyWeberMedia.com or Studio 76's YouTube channel.

Ogden Peak Communications

Students run a public relations and advertising agency to apply the skills they have learned in the classroom. Ogden Peak Communications works with clients to develop content and campaigns. Students take on the same roles and responsibilities as PR professionals.

My Weber Media

Members of each student media co-curricular area collaborate through the My Weber Media Group and distribute media content on the converged media site MyWeberMedia.com. Students develop multimedia skills and learn about cross-promotion. The My Weber Media site contains news and views from The Signpost, video content from Studio 76, music and interviews from KWCR Wildcat Radio, as well as promotional material from Ogden Peak Communications. Additional content includes student films and live streaming of important events.

Furthermore, students preparing for careers in law, medicine, business, public relations and government service may find departmental courses highly beneficial. The English Department has also designed courses for the general student in introductory and intermediate writing and creative writing.

Students transferring to Weber State as English majors, with most of their junior and senior status completed, are required to take a minimum of 9 upper division credit hours, minors a minimum of 6 upper division credit hours. This requirement also applies to transfer graduate students.

English Composition Requirement

Students seeking the Associate of Applied Science degree must pass ENGL 1010 or ENGL 1005 or ENGL 1006 and ENGL 1007 with a "C" grade (2.0) or better in order to satisfy the composition requirement. Students seeking any other degree must successfully complete ENGL 2010 or ENGL 2015 with a grade of

"C" or higher. Students placed in developmental English courses ENGL 0900 must also pass that course with a grade of "C" or higher. Please note that English composition courses, whether developmental or not, are sequential and can not be taken out of numerical order.

Successful completion of ENGL 2015 or ENGL 2010 with a grade of C or better satisfies the University core requirement for Composition. Entrance into ENGL 2015 or ENGL 2010 can be accomplished in the following ways: 1) passing ENGL 1005 or ENGL 1010 or ENGL 1006 and ENGL 1007 with a grade of C or better, 2) passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, 3) achieving an ACT English and Reading score of 29 or better, 4) a CLEP with essay test with a score of 50 or better, or 5) articulated transfer credit from another regionally accredited college or university.

Lowest ACT English or Reading score 12 or below	**Both** Reading and Writing score 236 or below	ENGL 0900

ACT scores in English and Reading expire after 4 years. ACCUPLACER scores expire after 48 months.

Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

The English Language and Literature Department participates in the interdisciplinary associate's degree in Workplace Communication and Writing (AS). Students who wish to enroll in this program should contact the English Language and Literature Department or one of the college advisors for the College of Arts & Humanities who will help them work out a schedule.

The English Department offers Face-to-Face (F2F), Hybrid, and Online (OL) classes.

The following definitions are intended to help faculty and students understand the differences between Face-to-Face (F2F), Hybrid, and Online (OL) classes taught in the English Department.

- If less than 15% of the class sessions are online, a course will be designated Face-to-Face (F2F)-the current default for courses.
- If 30–70% of class sessions are conducted online, normally but not exclusively in Canvas, courses will be designated Hybrid. This is consistent with *WSU Online's* definition.
- Classes that are 100% online will be defined as Online (OL).
- Classes will be designated as F2F, Hybrid, or OL prior to the time the department finalizes schedules for any given semester. The designation may not be changed once registration has opened or during the semester except in the event of extenuating circumstances such as injury, illness or university closure; Department Chair approval is required.

Within the various categories **(F2F, Hybrid, Online)** the table below illustrates how many online class sessions students can expect in each category. This number is dependent on how often a class meets: once a week (mainly evening classes), twice a week (TR or MW), and three times a week (MWF):

	How Many Sessions May Be Online?		
Course Scheduled As:	**F2F (up to 15% online)**	**Hybrid (30-70% online)**	**Online (100% online)**
1x/week: (14-15 classes/semester)	2 sessions, maximum	Minimum 4 / Maximum 10 sessions	100%
2x/week: (TR or MW: 30 classes/semester)	4-5 sessions, maximum	Minimum 9 / Maximum 21 sessions	100%
3x/week: (MWF: 42 classes/semester)	6 sessions, maximum	Minimum 13 / Maximum 30 sessions	100%

The Department of Foreign Languages promotes global awareness and intercultural understanding by providing instruction and study abroad opportunities in various languages. We prepare majors and minors to function effectively in a foreign language by offering courses in literature, culture, linguistics, pedagogy and language for professional purposes.

A bachelor of arts degree is offered. Students may select a regular major, a teaching major or a major with a commercial emphasis in French, German or Spanish. Regular and teaching minors are offered in these three languages as well. In addition, a Japanese minor is offered, and the department participates in Asian Studies, European Studies and Latin American Studies minors and in a departmental Honors Program. A language emphasis for the BIS degree requires a minimum of 18 hours, 15 of which must be upper-division course work. Courses in other languages may be offered as need and resources allow. The curriculum is based on the National Standards for measuring proficiency. Each course is designed to foster linguistic skills and to increase the student's ability to participate in the culture.

Foreign Language Requirement for the Bachelor of Arts Degree

Obtaining Foreign Language Credit for Prior Language Experience

Students with prior language experience may obtain lower-division foreign language credit by completing one of the following options:

Students may obtain credit for 1010, 1020, 2010 and 2020 by passing a higher numbered course with a minimum grade of "C"

Students may obtain credit for 1010, 1020, 2010 and 2021 through examination, but only in those languages in which the Department of Foreign Languages has expertise (usually limited to French, German, Japanese and Spanish). This examination is administered regularly by the department. Credit for Humanities General Education (2020) cannot be obtained through examination.

Upon payment of a nominal fee, hours earned through either option are recorded as "credit" on the transcript and do not affect the student's GPA. The department may accept results from other foreign language testing agencies as evidence of proficiency. Application for credit is to be made at the office of the Department of Foreign Languages.

Generally, students may not earn lower-division foreign language credit for proficiency in their native language. If a student's second language is English, then English may fill the BA foreign language requirement (see specific BA-major department advisors).

Interdisciplinary Minors

The Foreign Languages Department participates in the Asian Studies, European Studies, Linguistics, and Latin American Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Oral Proficiency Requirements

The American Council on the Teaching of Foreign Languages (ACTFL) has defined a scale for the evaluation of the language proficiency of students. The ACTFL Proficiency scale has four levels: Novice, Intermediate, Advanced and Superior. The Department of Foreign Languages requires that students achieve a determined proficiency level, depending on the students' goals. In addition, instructors

assume that students entering any class have acquired the entry-level proficiency indicated for that class. (These levels are indicated in parentheses by the description of each course. N=Novice; NH=Novice High; IL=Intermediate Low; IM=Intermediate Mid; IH=Intermediate High; AL=Advanced Low.)

Novice (N)

Students at this level have no experience in the language they are studying. They begin by learning the sound and spelling system and by memorizing words and phrases. During the course, they will progress to the point of being able to create simple sentences, to ask some questions, and to initiate, sustain and conclude simple social tasks more than half of the time.

Novice High (NH)

At the Novice-High level student's progress from the ability to respond simply with learned utterances to the ability to create language face-to-face, to ask and answer simple questions, and to create sentence-level constructions.

Intermediate Low (IL)

At the Intermediate-Low level students continue to build mastery of personal social-oriented informational tasks and move to a higher level by practicing informational tasks beyond the immediate and personal. Students will move from simple-sentence to more complex sentence-level discourse. They will practice narration, description and comparison, but mastery is not expected.

Intermediate Mid (IM)

Students at this level build on an ability to perform informational tasks beyond immediate and personal needs while they continue to practice narration, description and comparison. In addition, students begin practice in supporting opinions and hypothesizing in the language. They move from complex sentence-level structures to paragraph-level discourse.

Intermediate High (IH)

At this level students can function at the Advanced level most of the time. They still need practice narrating, describing and comparing, and Linking sentences together smoothly. In addition, they encounter more tasks that require them to support opinion and to hypothesize. Student's progress from complex sentences to paragraphs to extended discourse.

Advanced Low (AL)

Students at this level function at the Advanced level all or almost all of the time. Students have no difficulty with extended discourse, narration in all tenses and explanation. They are able to and use language both oral and written in complex and sophisticated ways.

School of Performing Arts

Chair: Jessica Greenberg
Location: BC 331
Telephone: 801-626-6437
Professors: Karen Bruestle, Tracy Callahan, Carey Campbell, Francisco de Galvez, David Feller, Mark Henderson, Thomas Priest, Amanda Sowerby, Erik Stern, Viktor Uzur, Shi-Hwa Wang, Yu-Jane Yang, Catherine Zublin; **Associate Professors:** Tamara Goldbogen, Jessica Greenberg, Daniel Jonas; **Assistant Professors:** Esther Ahn, Joseph Blake, Andrew Lewis, Cully Long; **Visiting Assistant Professor:** Kenneth Plain; **Instructors:** Samuel Bryson, Juan Carlos Claudio, Steven Henricks

The Department of Performing Arts at Weber State is based on five primary purposes: 1) to develop aesthetically aware and artistically discriminating citizens; 2) to provide opportunities for all students to participate in creative, artistic experiences and to encourage community members to participate in the performing arts; 3) to develop artistic competence and sensitivity; 4) to provide for career development in the arts through the preparation of teachers, performing artists, scholars, and technical specialists; and 5) to expose students and community to classic and contemporary works in all genres of the performing arts and to continue to provide the finest possible performances in the arts.

The department's degree programs prepare students for professional careers in teaching and performance as well as in technical specialties while providing the liberal arts background necessary for graduate study. In the department's Performing Arts Series, students and faculty participate in professionally produced dance, musical, and theatrical events.

Dance Area

The primary goals of the Dance area of the Department of Performing Arts are:

> To develop aesthetically aware and artistically discriminating citizens;
> To promote cultural understanding of ourselves and others through the study of dance;
> To encourage appreciation of dance through critical thinking;
> To engage the community in a range of dance experiences;
> To foster an understanding of and engagement in the creative process through dance performance, improvisation, choreography, pedagogical studies, technology, and collaborative endeavors;
> To provide the guidance, class work, and experience necessary to prepare teachers, performing artists, and scholars;
> To prepare students for careers or advanced study that require creativity, collaboration, and an understanding of the human experience as explored in the study of dance;
> To provide rigorous dance training.

Two majors are offered: 1) a Bachelor of Arts in Dance, with a focus on creativity in performance and choreography; and 2) a Bachelor of Arts or Bachelor of Science in Dance Education, with a focus on education and pedagogy. Dance majors follow a program based on growth beginning with foundational theory courses, technique courses appropriate to each dancer's ability, and a culminating senior project.

Dance Education majors follow a program based in the knowledge and understanding of dance education in relation to secondary education and/or studio teaching, focusing on pedagogy, choreography, history, and performance. The Dance Education major prepares students to be teachers of dance in the public sector, private sector, and non-profit environments. In addition, Education majors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program).

Two minors are offered: 1) Dance, with a focus on performance and choreography; and 2) Dance Teaching. Dance minors follow a program that provides for study in technique, creative and theoretical coursework. A minimum of eighteen (18) credit hours (GPA of 2.25 or better) must be completed in the Dance Area courses.

Dance Teaching minors must complete a minimum of eighteen (17-18) credit hours (GPA of 2.25 or better) from the Dance Area courses. This program is comprised of a dance teaching core (7-8 hours), dance history, technique in ballet and modern dance, additional dance forms and creative work. In addition, teaching minors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program). Dance teaching minors are strongly encouraged to select teaching majors in subject areas that are needed in Utah secondary schools.

Performance Opportunities

Orchesis Dance Theatre provides performance and production opportunities for qualified students who demonstrate technical abilities in dance. The company's activities include on-campus and dance festival concerts. Its repertoire consists of traditional and experimental modern dances, contemporary ballets,

and theatrical and performance works choreographed/directed by dance faculty, students, and well-known artists. Auditions are required for performances sponsored by Orchesis. WSU Moving Company is the Dance Area's outreach program, which provides further performance, production and teaching opportunities. Significant dance works and lecture demonstrations are performed; teaching residencies are implemented in the public schools and for campus and community organizations.

School of Music

The School of Music is an accredited member of the National Association of Schools of Music. Programs leading to the Bachelor of Music degree are offered for students seeking emphases in performance, keyboard pedagogy, stringed instrument pedagogy, vocal pedagogy, or music education. Additional programs include the Bachelor of Arts in music, Bachelor of Integrated Studies, Minor in Music Performance, Music Studies Minor, Sound Production/Recording Minor. Certificate of Proficiency in Jazz Studies and Certificate of Proficiency in Music Entrepreneurship.

The primary goals of the School of Music are: 1) To develop individuals who are aware, artistically discriminating, and devoted to a lifelong association with music; 2) To provide opportunities for students and community members to participate in creative musical experiences; 3) To develop musical competence, sensitivity, and purpose; 4) To expose students and community to classic and contemporary musical works, and to provide the finest possible performances; 5) To provide for career development in music through the preparation of teachers, performers, and scholars.

Policies and Procedures

The following policies are subject to change. For current information, see the latest Performing Arts | School of Music student handbook and make an appointment with a music area advisor.

Freshman Registration and the Music Core

All freshman music majors and minors entering WSU as full-time students should register for the following courses: MUSC 1006, MUSC 1110, MUSC 1130, MUSC 1150, MUSC 1901, MUSC 1681 or MUSC 1682, and large ensemble. Piano Pedagogy and Piano Performance majors do not register for MUSC 1150.

General Policies and Performance Requirements

All entering music majors and minors, including transfer students, must audition with the respective program faculty for admittance to that program.

A $445 Applied Music Fee is charged to music majors and minors for instrumental or vocal lessons. These lessons are 45 minutes in length and require attendance at a weekly master class. These lessons may be taken for one or two credit hours. There is also an option for two 45 minute lessons each week for two credit hours plus master class attendance and a research paper or project. The fee is $890.

A $320 Applied Music Fee is charged to students registering as non-music majors or minors. These lessons are 30 minutes in length and may not be used as credit for music majors or minors in their primary performance area. A limited number of slots are available for students registering in this category.

All music education, vocal, keyboard and string pedagogy majors should consult with the latest student handbook, and their major advisor.

Schedule for Performance Evaluations (Juries)

Performance evaluations will be regularly conducted and scheduled:

At the end of Fall and Spring semesters.

By special request for evaluation during the year upon agreement of the student, the teacher and the committee. All special requests must be scheduled through the area head.

All music majors and minors must take performance evaluations each semester. Performance evaluations are required until completion of the student's final recital as stipulated by the degree program.

Students completing a junior or senior recital are excused from that performance area's performance evaluation the semester in which the recital is completed.

Procedures for Performance Evaluation (Juries)

All incoming music majors and minors and all transfer students and current students who change their major or minor to music subsequent to their initial enrollment at Weber State University will enroll at the 1000 level of private instruction.

A student may be placed in a higher competency level at the completion of any evaluation. A student will not be permitted to progress to the 3000 level until they have met with their major advisor. The advisor will review the student's graduation progress and determine whether it is in the student's best interest to move to the 3000 level.

Student admittance to each competency level is granted only by general consent of the area faculty upon satisfactory completion of a performance level evaluation appropriate to that level.

Refusal by the appropriate area faculty to allow admittance to the next level may be appealed by the student provided there is consent of the private teacher.

This appeal should be made directly to the area head, who will in turn consult with the faculty regarding a repeat performance evaluation.

Only one appeal will be accepted at each performance evaluation.

More than three (3) semesters of study at any one competency level due to lack of improvement on the part of the student will be cause for a recommendation from the appropriate faculty that the student not continue as a music major or minor.

Failure to attend proficiency evaluations will result in a grade of "E" being given for the private lesson during that semester.

Recital Performance

All Bachelor of Music and Bachelor of Music Education students must participate in at least one general student recital or master class per semester. This should normally be a solo appearance, but this determination is left to the discretion of the applied music teacher.

All music majors except those in the Bachelor of Arts and pedagogy programs, must present a half-hour formal junior recital upon reaching the 3000 competency level. All music performance minors must present a half-hour formal junior recital upon reaching the 3000 competency level. The student must register for MUSC 3991 during the semester the recital will be presented.

All Bachelor of Music students must present a one-hour senior recital while at the 4000 competency level. The student must register for MUSC 4991 during the semester the recital will be presented.

Repertoire for the senior recital must not contain music performed on the junior recital. Completion of a senior recital will exempt a student from further proficiency level evaluations.

All students presenting a senior recital must perform that recital before a faculty review committee not less than two weeks prior to the recital date. The review committee will consist of the student's applied teacher, the appropriate area head, and one other music faculty member of the student's choice.

The review committee will be present at the public performance of the senior recital and will recommend pass/fail for the recital.

All students must complete a recital approval form for junior or senior recitals. The recital form must be completed and signed by the area head and applied teacher prior to scheduling any required faculty preview performance.

Failure to complete a junior or senior recital in the semester in which the student is registered for the recital will result in a grade of "E" for the recital.

Recital/Concert Attendance

All music majors and minors must attend 24 music area recitals, concerts, and/or community concert events per year while enrolled in applied music at the 1000 and 2000 level. Attendance reports are required for two years and are maintained in the music office. To receive credit for graduation, students enroll in MUSC 1006 for their first two semesters attending 12 recitals or concerts each semester and MUSC 2006 for their third and fourth semesters attending 12 recital or concerts each semester.

Music Major Foreign Language Requirement

The Bachelor of Music degree requirement is for two semesters of foreign language chosen from French, German, Italian, and Spanish. Theatre Arts Area

The Theatre Arts area of the Department of Performing Arts provides scholarly, creative, collaborative and practical theatre experience for students.

The objectives of the program are to: 1) Encourage participation in and appreciation of theatre and drama; 2) Foster creativity and develop technical skills in acting, directing, costuming, scenic design, script writing and theatre management; 3) Prepare students for careers or professional schooling in those fields that require strong presentational skills, creative problem solving, effective collaboration, and an understanding of human experience.

Theatre students must complete a sequence of formal course work that includes University general education, core theatre courses, and focus or specialty courses. Formal course work is complemented by a sequence of experiential learning opportunities in the theatre. Students and faculty develop individualized programs of course work and practical experience, including a junior seminar, annual juries, portfolio preparation, various practica, and opportunities for individual theatre projects.

Study of theatre provides students with useful tools to contribute to and make positive changes in society. Theatre students learn about diverse historical eras, communities and technologies. Theatre challenges students to be creative and to translate that creativity into applied processes - to think precisely, speak confidently in public, work productively with others, visualize abstract concepts and represent those concepts concretely. Theatre skills are useful in a variety of professions including, but not limited to, business, government, law, journalism, and public relations.

Major Requirements

The department offers a Bachelor of Arts (BA) degree in Musical Theatre, Theatre Arts, and Theatre Arts Teaching. A minimum of 62 course units (2.0 or better GPA) or courses in the combined areas of Dance, Music, and Theatre are required to qualify for the Musical Theatre Major. A minimum of 45 course units (2.0 or better) of Theatre Arts courses must be completed to qualify for either the Theatre Arts or Theatre Arts Teaching programs.

Teaching majors must also satisfy all requirements for the Licensure Program as outlined by the Department of Teacher Education.

A $350 Applied Music Fee is charged to Theatre Arts Area majors and minors enrolled in Individual Training in Stage Voice (THEA 4651). These lessons are 45 minutes in length. A limited number of slots are available for students registering for these lessons.

Performance Opportunities

Involvement in theatre productions is an important part of the Theatre program. The Weber State Theatre produces a full season of plays in the Austad, Allred and Eccles theatres of the state-of-the-art Val A. Browning Center for the Performing Arts. Theatre facilities include a variety of proscenium and flexible staging situations. Students are given first priority in all department productions.

The theatre season is offered by the Department of Performing Arts as part of the Performing Arts Series. Because the season is generously supported by the Associated Students of Weber State through student fees, students receive substantial discounts for performances.

In addition to performance opportunities at Weber State, theatre majors are encouraged to seek summer employment in stock or repertory companies relating to their interests.

Department Chair: Paul Crow

Our world is partially understood through smell, taste, sound, and touch. But perhaps most of all we make sense of our environment through what we see. The art, architecture, mass media and even the furniture in our spaces bear distinct messages that influence our decisions and enrich life.

Creative processes are exciting. Students of art and design contribute new expression to the vitality of our visual environment and learn to interpret what is seen through trained observation. Innovative thinking is absolutely necessary for success and must be balanced against research and critical judgment. Emphasis is placed on writing and the critical evaluation of artistic products. Students gain experience at preparing exhibits and portfolios for eventual professional activity.

Studies in art and art history offer windows of understanding to other cultures, both past and present. This is one of our primary concerns in preparing citizens for productive relations in an increasingly multicultural society.

Seventy-eight different courses are offered by the Department of Visual Arts. These span traditional areas such as art history, art education, ceramics, drawing, small metals/jewelry, painting, photography, printmaking, sculpture, and visual communication. The department is continually expanding into emerging modes of expression involving digital video, digital photography, animation, interactive design, and sound. Classes are enhanced by public lectures, seminars, workshops and special sessions by critics, historians, and visiting artists.

Weber State University supports three Bachelor's degrees in the visual arts with specializations in most of the areas mentioned above. The Bachelor of Arts and Bachelor of Science degrees provide a broad

liberal arts background, a solid base for many careers or further study. The Bachelor of Fine Arts degree is more professionally focused with high concentrations of studio art and art history. The BFA is for students who wish to move directly into professional work in art or design, or those who intend to pursue graduate study in the visual arts. Senior exhibitions are required for most Bachelor of Fine Arts majors.

The Elizabeth Dee Shaw Gallery exhibits art that exemplifies the ideas and values of the curriculum. This serves our students and the public interest as well. Exhibitions involving regional, national, and internationally recognized artists serve a vital role in the cultural life of the community. The Gallery organizes at least six exhibitions each year. All are free and open to the public.

Transfer of Credits

Transfer students must present an official transcript and a portfolio to petition course substitutions for visual arts program requirements. A minimum number of departmental residency hours is required for completion of degree programs: 19 credit hours for the BFA, 12 hours for BS and BA programs, 6 hours for minors.

The University requires students seeking a second baccalaureate degree to complete a full year in residence and a minimum of 30 total credit hours.

Studio Fees

Studio fees are required in most visual arts classes. Check the current course schedule for exact amounts.

Asian Studies Minor

The Department of Visual Arts participates in the Asian Studies Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Interdisciplinary Programs section of this catalog.)

Associate of Arts

Art (AA)

An Associate of Arts with an Art major will indicate that a student has completed all WSU AA degree requirements and the Studio Foundations curriculum required for the Bachelor of Arts in Art. Students who have completed the AA degree may continue with intermediate and advanced coursework for the

BA, and are eligible to apply for admission to the Bachelor of Fine Arts degree program (Graphic Design, Photography, Art Education, 2-dimensional Media, or 3-dimensional Media).
