Description: Students are required to perform original research that results in a thesis under the direction of a faculty advisor. Students receive T (temporary) grades until their thesis defense, after which these grades are changed retroactively. Students must be enrolled in ECE 6020 at the time of their thesis defense.
Pre-requisite(s): Permission from the department.
This course may be taken 3 times and up to 9 credits.

ECE 6110 - Digital VLSI Design

Credits: (3)
Course Fee: $100.00
Course Fee Purpose: Software licensing and maintenance of laboratory equipment.
Description: Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.
Pre-requisite(s): ECE 3610 and either ECE 3110 and ECE 3130 or BME 3130.

ECE 6120 - Analog VLSI Design

Credits: (3)
Course Fee: $100.00
Course Fee Purpose: Software licensing and maintenance of laboratory equipment.
Description:

Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.
Pre-requisite(s): ECE 3120.

ECE 6130 - Advanced Semiconductor Devices

Credits: (3)
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.
Pre-requisite(s): PHYS 2220 and either ECE 3110 and ECE 3130 or BME 3130.

ECE 6140 - Sensors and Instrumentation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, coustic, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.
Pre-requisite(s): ECE 3210 and either ECE 3110 and ECE 3130 or BME 3130.

ECE 6150 - Thin Film Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Thin films are shaping the future of electronic devices. Understanding how materials are grown and characterized is vital to understanding and mitigating limitations in device design. This course focuses on the materials used to create state of the art ultra-thin device quality layers and coatings as well as how they are grown, characterized, and then used in fabrication processes for electronic devices such as transistors.
Pre-requisite(s): PHYS 2220 and (MATH 3410 or ECE 3430)

ECE 6210 - Digital Signal Processing

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.
Pre-requisite(s): ECE 3210.

ECE 6220 - Image Processing

Credits: (3)
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).
Pre-requisite(s): ECE 3210.

ECE 6230 - Engineering Applications in Deep Learning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.
Pre-requisite(s): ECE 3210, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

ECE 6310 - Electromagnetics II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.
Pre-requisite(s): ECE 3310.

ECE 6320 - Antennas and Wave Propagation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.
Pre-requisite(s): ECE 3310.

ECE 6410 - Communication Circuits and Systems

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6420 - Digital Communication

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: This course provides in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired and wireless data communication. Students will develop computer models to emulate the concepts. The course is particularly beneficial to students interested in doing work/research in fields related to communications and networking.
Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6440 - Optical Communication Systems

Credits: (3)
Description: This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics, optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.
Pre-requisite(s): ECE 3310.

ECE 6510 - Advanced Power Systems

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course will explore advanced power systems concepts.
Pre-requisite(s): ECE 3510.

ECE 6620 - Digital System Testing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating

test patterns for fault detection.

Pre-requisite(s): ECE 3610.

ECE 6640 - Model-Based Systems Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.
Pre-requisite(s): ECE 3610.

ECE 6710 - Real-Time Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.
Pre-requisite(s): ECE 3710 or CS 3100.

ECE 6730 - Robotics

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Robotic hardware design and control principles. Topics include selection and design of sensors, motor and actuator types and control, computer vision for navigation and tasks and hardware interfaces to sensors. Use of the Robot Operating System to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Use of the Gazebo simulation environment to validate designs before implementation.
Pre-requisite(s): ECE 3730 and ECE 4100.

ECE 6750 - Quantum Computer Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.

Pre-requisite(s): ECE 3610, ECE 2700, PHYS 2220, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270, MATH 3410.

ECE 6800 - Individual Studies

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students taking this course will receive credit for approved, mentored studies in the Master of Science in Electrical Engineering (MSEE) and Master of Science in Computer Engineering (MSCE) programs. A maximum of three credits may be counted toward graduation.
Pre-requisite(s): Permission from the department.

ECE 6900 - Special Topics

Credits: (1-4)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic.
May be repeated 10 times and up to 12 credit hours.

ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

ECED 2500 - Development of the Child

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines contemporary theory and research of growth and development from conception through childhood, studied in the context of family, gender, culture, language, disability, socioeconomics, diversity, and society.
Pre-requisite/Co-requisite: CHF 1500.

ECED 2600 - Introduction to Early Childhood Education & Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: This course examines the historical philosophical, ethical and cultural roots of early childhood education of contemporary perspectives on childhood and the meaning of human difference. Students will explore ways to live out inclusive commitments and aspirations to create communities where all children and families experience a sense of belonging.
3 hours lecture per week and 12 hours field observation.
Pre-requisite(s): CHF 1500 or instructor consent.
Pre-requisite/Co-requisite: ECED 2500.

ECED 2610 - Child Guidance

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: This course focuses on the understanding and use of developmentally, culturally, and linguistically appropriate guidance practices to make evidence-based, data-informed decisions that support each child. Students complete a minimum of 24 hours of field experience observing and practicing in an early learning setting serving diverse populations of children 0-8 years.
Pre-requisite(s): CHF 1500.

ECED 2620 - Planning Creative Experiences for Young Children

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Development of attitudes, materials, and skills needed to plan and teach age, individually, and culturally appropriate curriculum for young children. Students complete a minimum of 24 hours practicum arranged by the instructor.
Pre-requisite(s): CHF 1500, ECED 2500, and ECED 2610.
Pre-requisite/Co-requisite: ECED 2600.

ECED 2640 - Collaborating with Families of Young Children.

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores culturally sustaining philosophies, processes, and methods of relational

ethical practice for collaborating with diverse families of young children.

Pre-requisite(s): CHF 1500.

ECED 2670 - STEM in Early Childhood

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.
Pre-requisite(s): ECED 2600, ECED 2610
Pre-requisite/Co-requisite: ECED 2620.

ECED 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ECED 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

ECED 2850 - Child Development Associate Training

Credits: (2)
Description: Understanding child development concepts and applying them to teaching situations with young children. The Professional Resource File in preparation for National Child Development Associate Credential (CDA) is compiled during the course.
Note: This course is not currently offered.

ECED 2860 INT - Practicum

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. A practicum for 3 credits requires students complete a minimum of 135 field experience hours (45 hours/credit) supervised in an early childhood setting that must be approved by the instructor.
Pre-requisite(s): For Early Childhood majors: CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620, or consent of faculty advisor prior to registration.
May be repeated up to 6 credit hours.

ECED 2890 INT - Internship in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation for progress are including in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood AAS majors.
Pre-requisite(s): ECED 2860 or consent of faculty advisor.

ECED 2910 - Children & Families: Variable Titles

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.
Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620.

ECED 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

ECED 2990A - Seminar in Early Childhood Education

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This one credit course is designed as a capstone opportunity for students completing the AAS in Early Childhood culminating in a synthesis of prior learning to articulate what it means to be an early childhood educator based on the Early Childhood Education professional standards and competencies.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Pre-requisite/Co-requisite: ECED 2860.

ECED 3145 - Educational Psychology, Child Development, and Classroom Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Education Level I and includes an integrated field experience.

ECED 3500 - Young Children: Adversity and Resilience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines varying perspectives on the contexts and systems that effect the potential advantages or adversities experienced by young children in a diverse society. Students develop an awareness of opportunities and resources for children and families that support well-being and nurture resilience. Students explore current topics of interest to find their passion and voice to advocate for children and families.

ECED 3570 - Infants and Toddlers: Development and Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an in-depth study of physical, cognitive, language, social, and emotional development from prenatal period through toddlerhood. Practical application and assessment play an integral part of the course. Students will be introduced to observation, early intervention, and relationship-based care in diverse settings. Students complete a minimum of 24 hours practicum

arranged by the instructor.
Pre-requisite(s): CHF 1500.

ECED 3620 - Curriculum Planning for Kindergarten

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to planning curriculum in kindergarten with an emphasis on design of learning environments and curriculum that are developmentally appropriate and evidence based. Students complete a minimum of 24 hours practicum. Student are required to complete a background check by the beginning of the semester.
Pre-requisite(s): CHF 1500; ECED 2500; ECED 2610.

ECED 3640 - Collaborating with Families of Young Children

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.
Pre-requisite(s): CHF 1500.
Suggested Requisite(s): Pre-requisite: ECED 2610 and ECED 3500. Co-requisite: ECED 4710 and ECED 4720.

ECED 3680 - Teaching Experience in the Preschool

Credits: (3)
Description: Provides students an opportunity to be an assistant teacher, to observe and interact with children on an individual and group basis; plan, develop, and implement activities for children.
Pre-requisite(s): CHF 1500, ECED 2610 and ECED 2620, or consent of instructor.
Note: This course is not currently offered.

ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

ECED 4130 - Language Development and Emergent Literacy in Early Childhood

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores current theory, research, and evidence based practices for promoting early language and emergent literacy development (birth 8 years) in home, child care, prekindergarten, and primary education environments through collaborative practices between early childhood

professionals and parents.

Pre-requisite(s): CHF 1500.

ECED 4201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential.

ECED 4202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Becoming an effective coach is a result of introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self- directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.
Pre-requisite(s): ECED 4201/GSE 6201 or instructor permission.

ECED 4203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self- analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social

learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home- based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential. **Pre-requisite(s):** ECED 4201/GSE 6201 and ECED 4202/GSE 6202 or instructor permission.

ECED 4220 - Understanding Children Beyond Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

ECED 4230 - Observing and Assessing Children in Context

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.
Suggested Requisite(s): Prerequisite ECED 2500, ECED 2610, ECED 2620; Corequisite ECED 4710, ECED 4720.

ECED 4250 - Inclusive Early Childhood Intervention and Special Education

Credits: (3)
Typically Taught Summer Semester: *1st Block, 1st Block Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Students will explore and apply current theory and practice in critical special education, Disability Studies in Education, and infant and child mental health for supporting young children (birth-age 8) with disabilities by supporting caregiver-child relationships in family, early childhood community and classroom environments. Students will gain an understanding of applicable history, laws and policies around inclusive education and special education service provision to effectively and equitably collaborate with children, families, and service providers in public and private settings in ways that sustain the rights and cultures of individual children and families, and of disability communities.

ECED 4260 - Inclusive Early Childhood Curriculum

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

ECED 4270 - Young Children's Play

Credits: (3)
Typically Taught Summer Semester: *1st Block, 1st Block Online*
Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

ECED 4510 - Contemporary Issues in Planning for Children

Credits: (1-3)
Variable Title
Description: An in-depth study of a contemporary issue in childhood. In some cases, this course may substitute for one of the minor requirements when it has received prior approval from a department advisor.
May be repeated up to 3 credit hours.
Note: This course is not currently offered.

ECED 4670 - STEM in Early Childhood

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.
Pre-requisite(s): ECED 2600, ECED 2610.
Pre-requisite/Co-requisite: ECED 2620.

ECED 4710 - Advanced Guidance and Planning for Early Childhood Education

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: A synthesis of guidance and planning with an emphasis on assessment, appropriate objectives and strategies for individual and specific groups of children. Requires both lecture and lab time.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.

Co-Requisite(s): Students majoring in EC, ECE, or taking an early childhood specialization with their K-6 license will register for the section that is offered the first 5 weeks of the semester, and take it concurrently with ECED 4720.

Pre-requisite/Co-requisite: ECED 3640.

ECED 4720 INT - Student Teaching Birth-5

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Student teaching provides a full-time 16-week, immersion experience. Students are placed in the Weber State University Melba S. Lehner Children's School or an approved off-campus pre-kindergarten classroom and spend the entire semester there. The focus is the study of developmentally appropriate practices using NAEYC professional standards for children birth to 5 years. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the pre-K early childhood classroom. Supervision is provided by university supervisor and field-based professionals.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.

Co-Requisite(s): To be taken concurrently with ECED 4710.

Pre-requisite/Co-requisite: ECED 3640.

Suggested Requisite(s): Search

May be repeated 2 times up to 9 credit hours.

ECED 4721 INT - Student Teaching K-3

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $250.00
Description: Students are placed in a public school K-3 classroom to teach a minimum of 60 contract days. The focus is to meet expectations of the Utah Effective Teaching Standards (UETS) and the NAEYC Professional Standards and Competencies for Early Childhood Educators. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the public school early childhood classroom. Supervision is provided by university supervisors and field-based professionals to support mastery of knowledge, skills, and dispositions required for Utah Educator License in Early Childhood Education (Pre-Kindergarten - Grade 3).

Pre-requisite(s): ECED 4720; EDUC 3240.

ECED 4730 - Early Childhood/Early Childhood Education Program Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares students with skills specific to leadership roles in early childhood education programs including: professional ethics, ensuring the health and safety of children, ongoing quality improvement, program leadership, planning, and management. Content and skills focus on practices endorsed by the National Association for the Education of Young Children (NAEYC) and are aligned with the NAEYC Standards for Early Childhood Professional Preparation Programs.
Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620, or consent of the instructor, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECED 4800 - Individual Research

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor.
May be repeated up to 6 credit hours.

ECED 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ECED 4820 - Child Observation Seminar

Credits: (1)
Typically Taught Summer Semester: *1st Block Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

ECED 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

ECED 4850 - Integrated ECE K-3 Student Teaching Seminar and Sythesis

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course will provide preparation and support for your pedagogical practice. Collaborative and topical seminars will emphasize on-going discussions and support on the pedagogical practice assessment, as well as topics such as classroom management, student engagement, ethics, and preparing a professional career file.
Pre-requisite(s): EDUC 3240.
Co-Requisite(s): ECED 4721.

ECED 4860 INT - Practicum in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. The practicum requires 45 field experience hours for each credit hour registered. A background check is required for all early childhood field experiences.

Consent of instructor or faculty advisor is required prior to registration.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620 and ECED 3640.
Suggested Requisite(s): Can be taken concurrently with ECED 4710 and ECED 4720.
May be repeated up to 6 credit hours.

ECED 4861 INT - Practicum in K-3

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: $50.00/credit
Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the early elementary grades (K-3) working with an experienced teacher. Students will focus on integrating pedagogical approaches and discipline specific content related to the courses taken concurrently with the practicum.
Pre-requisite(s): ECED 2620 or instructor's consent

ECED 4890 INT - Internship in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation of progress are included in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood BS majors.
Pre-requisite(s): For Early Childhood BS majors: ECED 4710 and ECED 4720, or consent of faculty supervisor.

ECED 4900 - Career Strategy Seminar

Credits: (1)
Description: Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.
Note: This course is not currently offered.

ECED 4910 - Children & Families: Variable Titles

Credits: (1-3)
Variable
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

ECED 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

ECED 4980 - Early Childhood Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of Early Childhood/Elementary Education program of study with specific emphasis on beginning a professional career in teaching. Senior project not required.
Suggested Requisite(s): To be taken concurrently with student teaching.
Note: This course is not currently offered.

ECED 4990 - Seminar in Early Childhood Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is an Early Childhood Education capstone course in which students synthesize and demonstrate learning outcomes expected for all ECE professional standards and competencies.
Pre-requisite(s): ECED 2500, ECED 2600, and ECED 3500 or instructor's consent.
Pre-requisite/Co-requisite: ECED 3640, ECED 4710, and ECED 4720.

ECON 1010 SS - Economics as a Social Science

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to basic economic institutions and principles of economics for non-business and non-economics majors. The primary objective of the course is to provide a framework of economic approaches useful in the analysis of social problems. Topics include poverty, economic systems, crime, pollution, health, discrimination, unemployment, inflation, and the role of government in the economy.

ECON 1100 SS - Environmental Issues and Economic Policy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An analysis of policies which affect environmental resources. Emphasis on economic analysis of renewable and nonrenewable resources, pollution, and public policy. This course demonstrates economic solutions to environmental problems, and the role economics plays in designing environmental policy.
Note: Check with department for course availability.

ECON 1740 AI - Economic History of the United States

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A critical study of the history of the American Economy, significant events, fundamental principles of a market economy, interactions between government and the market economy, and the evolution of fundamental economic institutions.

ECON 2010 SS - Principles of Microeconomics

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: The application of economic concepts to the analysis of scarcity of individual, firm, and organizational behavior. Topic coverage includes the theories of how consumers and firms make choices, and how various rules guide their respective decisions. The course also explores the theory of market structures, such as perfect and imperfect competition, as well as monopoly.
Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2020 SS - Principles of Macroeconomics

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Analyzes human behavior and choices as they relate to the entire economy, with specific focus on national income measurement, unemployment, inflation, business cycles, global trade, and economic growth. Implications of different government policies, e.g., changes in taxation, government spending, money supply or interest rates for a stable economy and steady growth are explored.
Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2899 - Economics Foundations and Admissions Process

Credits: (0)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Completion of ECON 2899 is required of all non-business Economics students pursuing any Bachelor of Science, Associate of Science, or minors awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Foundation knowledge, and 2) admittance to the Goddard School. Students should register for this course concurrent with (same semester as) their last required Foundation course (ECON 2010, ECON 2020, and QUAN 2600) or after the required Foundation courses have been completed. Students must have an overall GPA of 2.5 or higher and a Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the three Foundation courses plus a minimum grade of "C" in the two Liberal Support courses. *Credit/No credit.*
Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C"

or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

Pre-requisite/Co-requisite: (ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600.

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Economics Foundation course(s) ((ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600) or after the required Economics Foundation courses have been completed.

ECON 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ECON 3030 - Managerial Economics

Credits: (3)
Description: This course uses the tools of differential calculus and regression theory to analyze the managerial decisions of individual firms.
Pre-requisite(s): MATH 1050, QUAN 2600, QUAN 3610.
Note: Course not currently being offered.

ECON 3090 - History of Economic Thought

Credits: (3)
Description: This course covers the major concepts and contributions of the scholars of the past in economic doctrine and interpretations.
Pre-requisite(s): ECON 2010, ECON 2020, and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 3110 - International Trade

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the pure theory of trade, international trade agreements and negotiations (e.g., GATT, EU and NAFTA) and the institutions designed to encourage trade. Emphasis on the benefits of free trade as well as the reasons for the existence of trade barriers such as tariffs and quotas. Special topics include trade in agricultural products and international labor migration.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on

ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3120 GLB - International Finance and Monetary Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Applications of the principle of economics to the international monetary system. Special emphasis on the way in which international monetary institutions can facilitate trade. Macroeconomic models of an open economy are used to examine the effect that international trade and financial ties have on the domestic economy. Special topics include institutions such as the World Bank and the IMF, along with regional monetary unification in Europe.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3150 - Business Studies Abroad-International Finance

Credits: (3)
Description: This course studies the globalization of financial markets and the environment in which international finance takes place, e.g., the international monetary system. With this background, a global financial strategy design for corporations will be discussed. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).
Note: Check with department for course availability.

ECON 3200 - Money and Banking

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course presents a detailed description and economic analysis of the U.S. financial system which includes the banking industry, bond and stock markets, and the Federal Reserve system. This course serves as an extension to the material covered in an introductory macroeconomics course. The enhanced understanding of the workings of the financial system, including the determination of interest rates, will be used to trace out the channels of monetary policy as conducted by the Federal Reserve and the effect of monetary policy on financial markets, such as the stock market.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3300 - Environmental Economics

Credits: (3)
Typically Taught Spring Semester: *-Every Other - Full Sem*
Description: Environmental Economics applies economic concepts to environmental and resource topics. We will use both standard economic and ecological analyses. Specific topics include externalities, public goods, environmental accounting, nonrenewable and renewable resource use, pollution, and climate change.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3400 - Labor Economics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The study of labor economics explores choices made by the two sides of the labor market, employers and workers and how these choices interact in determining wage and employment levels. Hence, an important part of the course consists of a detailed analysis of labor demand and supply. This analysis is followed by a discussion of why the labor market often does not clear, i.e., why we observe unemployment. The analysis focuses on special features of the labor market such as minimum wage, labor unions and efficiency wages. Other topics include the effect of education and training on earnings, the optimal incentive structure of an employment contract and determinants of income inequality.
Pre-requisite(s): ECON 2010, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3410 - Women in the World Economy

Credits: (3)
Description: Applications of the principles of economics to the analysis of the economic status of women in the U.S. and elsewhere. The focus is on labor markets, income differentials, the tax system and household work. Special consideration is given to women in developing economies.
Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 4010 - Intermediate Microeconomic Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The application of economic concepts to individual and firm behavior, consumer behavior, demand analysis, economics of the firm, and price theory.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 4020 - Intermediate Macroeconomic Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The building of standard models to test theories of long-run economic performance and short-term fluctuations in closed and open economies. Emphasis is placed on how fiscal and monetary policies encourage long-run growth while mitigating the negative effects of short-term fluctuations.
Pre-requisite(s): ECON 2010 and ECON 2020 and (QUAN 2400 or MATH 1210) and (BSAD 2899 or ECON 2899).

ECON 4170 - Economic Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The application of economic principles to the challenging problems of third world and developing nations including Africa, Asia, Latin America and the newly independent states of the Former Soviet Union and Eastern Europe.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050 ,MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4320 - Industrial Organization

Credits: (3)
Description: The theory and performance of firms and industries in the context of substantial market power and market regulation. Emphasis on oligopoly, game theory, and theory of markets within the context of global market competition.
Pre-requisite(s): QUAN 2400 or ECON 3030, ECON 2010.
Note: Course not currently being offered.

ECON 4330 - Game Theory

Credits: (3)
Typically Taught Fall Semester: *Every Other - Full Sem*
Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050 ,MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4520 - Public Finance

Credits: (3)
Description: This course covers the aspects of economic policy that arise in the operations of a public budget. Topics addressed include economic theories of bureaucracy, public expenditures, and taxation.
Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 4550 - Introduction to Econometrics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Advanced Regression Analysis. Topics include ordinary least squares, generalized least squares, nonlinear regression, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively.
Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and QUAN 3610.

ECON 4560 - Mathematical Economics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Advanced application of mathematical modeling techniques to selected economic issues.
Pre-requisite(s): ECON 4010, ECON 4020, QUAN 2400 or MATH 1210, and QUAN 3610.

ECON 4800 - Independent Research

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, in special topics not included in the announced course offerings.
Pre-requisite(s): QUAN 3610 and approval of instructor.

May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

ECON 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ECON 4850 - Economics Study Abroad

Credits: (1-3)
Description: This course is designed for students who will study economics at one of the international partner universities of the Goddard School of Business and Economics as part of an extended study abroad visit. Students will explore the international economic institutions, business culture, and applications of economic theory to countries outside of the US. Students will study international economics as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): ECON 2899 and BSAD 2899.
May be repeated once up to 6 credits.
Note: This course is offered as needed.

ECON 4860 INT - Economics Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Business Economics or International Business Economics program courses.
Pre-requisite(s): BSAD 2899; Instructor approval.

ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ECON 4970 - Introduction to Research Methods

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares students for ECON 4980 Research Methods. Students will study the research process and the scientific method as it applies to economics. Students will have an opportunity to explore various fields and literature in order to design a thesis project for ECON 4980.
Pre-requisite(s): ECON 2899 or BSAD 2899.

ECON 4980 CRE - Research Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A course designed for senior economics majors which requires the completion of an extensive thesis project. This course will focus on the formulation of hypotheses, review of relevant literature, and either theoretical or empirical analysis.
Pre-requisite(s): ECON 4970, BSAD 2899 or ECON 2899, QUAN 3610, ECON 4010 or ECON 4020.

ECON 6330 - Game Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit. The graduate version of the course includes advanced readings from academic literature and other assignments for a more in-depth review of game theory concepts.
Pre-requisite(s): Admission to the MA in Peace, Development, and Social Transformation and the leveling requirements associated with admission to that program, and ECON 2010 Principles of Microeconomics

ECON 6550 - Econometrics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Regression Analysis. Topics include ordinary least squares, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively. By the end of the course, students will be able to: Develop a multiple regression model, understand the assumptions of multiple regression and recognize the consequences when they are not satisfied, test for statistical significance in a multiple regression setting, use dummy variables as independent and dependent variables, recognize endogenous regressors, and simulate key econometric principles.
Pre-requisite(s): Admission to the Master of Science in Data Science and the leveling courses associated with those requirements.

ECON 6900 - Special Topics in Economics

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores new or otherwise relevant economics topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on students' transcripts. Course may be repeated for credit under different titles. Lecture or Lecture/Lab combination. May be taken twice up to 6 credits.
Pre-requisite(s): Instructor Permission.

EDUC 1010 CEL - Exploring Teaching

Credits: (3)
Description: Students will explore the exciting world of teaching, examine what it means to be a teacher, and participate in field observations. This course is designed to introduce students to personal and professional experiences within the educational community.
Pre-requisite(s): This course or an equivalent approved course is a prerequisite to all licensure programs in the Department of Teacher Education.

EDUC 1210 - Learning and Engagement for Adult Learners

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Block*
Typically Taught Fall Semester: *Full Sem, 1st Block*
Typically Taught Spring Semester: *Full Sem, 1st Block*
Description: This course focuses on helping teachers of adult learners create an inclusive learning environment by incorporating effective learning strategies and skills in an engaging, well-managed classroom.

EDUC 1220 - Instructional Planning and Assessment for Adult Learners

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 2nd Block*
Typically Taught Fall Semester: *Full Sem, 2nd Block*
Typically Taught Spring Semester: *Full Sem, 2nd Block*
Description: This course focuses on the identification or creation of instructional learning objectives, selecting and/or designing aligned assessments, planning engaging instructional activities, and enactment and reflection of instruction to meet the needs of all adult learners.
Pre-requisite/Co-requisite: EDUC 1210.

EDUC 2000 - Social Studies Concepts for Elementary Teachers

Credits: (3)
Description: Fundamental concepts from the social sciences commonly found in elementary social studies curriculum.
Note: This course is not currently offered.

EDUC 2010 CEL - Human Exceptionality

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the characteristics of exceptional children with emphasis on the educational and psychological implications of disabilities to the development of the child. A minimum grade of C is required in this course.

EDUC 2210 - Designing Hybrid Courses for Adult Learners

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Block*
Typically Taught Fall Semester: *Full Sem, 1st Block*
Typically Taught Spring Semester: *Full Sem, 1st Block*
Description: This course is on the design of hybrid courses for adult learners. Students will practice designing a course using a Learning Management System, graphic design and tools for designing instructional material. They will learn about basic principles for integrating technology and supporting interaction. Special emphasis in this course will be given to course accessibility.

EDUC 2220 - Program Planning and Evaluation

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 2nd Block*
Typically Taught Fall Semester: *Full Sem, 2nd Block*
Typically Taught Spring Semester: *Full Sem, 2nd Block*
Description: This course focuses on the creation and evaluation of competency-based programs for adult learners including the development of program scope and sequence, program-level outcomes, program assessment plans, and program evaluation reporting.
Pre-requisite/Co-requisite: EDUC 1220.

EDUC 2300 GLB - Global Perspectives on Education and Learning

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course begins by introducing perspectives on globalization and how the globalization process impacts educational policies and practices. We will then discuss three major topics from an international and comparative perspective. These three topics are: 1) educational policies and practices; 2) pedagogies and classroom practices; 3) individual experiences of learning. Case studies will be used to demonstrate different ways to examine how schools teach, as well as how students learn, in various social contexts. Towards the end of the course, students will learn to develop age appropriate pedagogical tools by incorporating global learning perspectives that can be used in K-12 classrooms.

EDUC 2604 - Information Resources in Education

Credits: (1)
Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic

integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines. Cross-Listed with LIBS 2604.

EDUC 2800 - Instruction, Technology, Assessment, and Planning

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to prepare paraeducators with a foundation in supporting instructional planning, presenting instruction, using technology in the classroom, and using teacher selected assessment to determine student learning.

EDUC 2820 - Creating a Learning Environment

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores methods for designing positive K-12 learning environments. Students will be provided with a framework for supporting a positive learning environment including classroom spaces, and consider a wide range of strategies, techniques, and factors in supporting a positive learning environment for all learners.

EDUC 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: For students not yet accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/ background check must be completed prior to working in the schools.
May be repeated up to 6 credit hours.

EDUC 2900 - Career Planning and Exploration

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course provides a comprehensive approach to career development, planning, preparation, and selection. It is designed to assist students as they develop their future goals through assessment of personal strengths, values, interests, and abilities. Students will learn valuable decision-making skills required for choosing a major and career path. The course provides strategies for successfully entering the job market through resume creation, interview preparation, and exploration of

labor market information. This class requires the completion of online career assessments for a total cost of $10. To access online course materials, please go to your student portal, log into eWeber, and click on WSU Online-Canvas.

EDUC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: May be taken on a Credit/No Credit basis.

EDUC 3100 - Instructional Planning & Assessment

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces the basic concepts of lesson and unit design, planning and assessment based on student needs. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course should be taken with other courses in Elementary Education Level 2.

EDUC 3110 - Instructional Technology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course allows students to apply existing technology literacy into educational environments to promote enhanced learning. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-8 settings. The course focuses on providing teacher licensure candidates with basic technology proficiencies for teaching with technology.
Pre-requisite(s): Completion of the computer and information literacy requirements.

EDUC 3115 - Media Integration in Elementary Education Settings

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on how to create media to support and apply research-based principles for learning into educational environments. The course content is based on Utah core curriculum skills for students in the K-8 setting. The course provides students with technology proficiencies for integrating technology into teaching.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3117 - Media Integration in Elementary Education Settings 2

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on integrating media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online instruction. Students will continue to develop their skills and knowledge about how to incorporate technology into the curriculum to support meaningful instruction. A variety of technologies will be utilized for designing digital curriculum and developing 21st century standards. The course content is based on Utah core curriculum skills for students in the K-8 setting. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1.

EDUC 3120 - Reading Instruction in the Primary Grades

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to familiarize the teacher candidate with current knowledge and practices as they relate to teaching literacy (reading, writing, listening, and speaking) in the primary grades (K-2). The focus of this course will be how to apply current literacy research in a primary grade classroom.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3130 - Curriculum, Instructional Planning, and Assessment

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces the basic concepts of lesson and unit design, planning, and assessment based on student needs.
Pre-requisite(s): Elementary Level 1
Co-Requisite(s): Elementary Level 2
Note: Program of Study Code

EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The focus of this course is the fundamental theories and philosophies, concepts, processes, and applications related to human behavior, teaching and learning, interpersonal relationships, and classroom management.
Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3205, EDUC 3270, EDUC 4550.

EDUC 3145 - Educational Psychology, Child Development, and Classroom Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Level I and includes an integrated field experience.
Co-Requisite(s): Elementary Level 1
Note: Program of Study Code

EDUC 3205 - Culturally and Linguistically Responsive Teaching

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Rationales, concepts, practices provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values are also explored. Experiences are provided intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3210 INT - Elementary Level II Practicum

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.
Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on integrating the arts, healthy lifestyles, and literacy. Students are required to spend at least 40 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3240, EDUC 4345, PEP 3620.

EDUC 3220 - Foundations of Diversity

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Rationales, concepts, practice provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values. Experiences intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, and EDUC 3935.

EDUC 3230 - Media and Data Science for Elementary Settings

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course supports students to utilize a range of technology tools to present teaching content, analyze student achievement data, calculate basic statistics, develop personalized learning activities, and facilitate creative content creation.

The course builds upon and will use content learned in MATH 2010, MATH 2015, and MATH 2020. The course content is based on Utah core curriculum skills for students in the K-8 settings. and may include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1. Should be taken with Elementary/Early Childhood Level 2 courses.

EDUC 3240 - Reading Instruction in the Intermediate Grades

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide theories, methods, and assessments for reading in the elementary school, Grades 3-6. Students will understand reading instruction in relation to the wider processes of literacy and language development to guide elementary students to effectively communicate through oral and written languages for different contexts, which includes text-based and digital environments. The course will also include the contemporary issues on elementary reading instruction. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken concurrently with EDUC 3100, EDUC 3210, EDUC 4345, PEP 3620.

EDUC 3265 - The Exceptional Student

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will learn about the learning and social characteristics of young people with

exceptionalities-that is, disabilities (physical, mental, learning) or giftedness-and about public policy and services available to them. As future teachers, they will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3900, EDUC 3315, EDUC 3935, EDUC 3910.

EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Individuals with Disabilities Education Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.

Pre-requisite(s): Admission to Teacher Education and EDUC 2010.

Pre-requisite/Co-requisite: ECED 3500

Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3280 - Elementary Social Studies Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the place of social studies in the elementary school curriculum, the scope and rationale of the social studies curriculum, connections with other subject areas, teaching and assessment strategies, and building classroom community.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 3300 - Introduction to International Education: Case Studies

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course uses case studies of education systems and practices from Japan, China, South Korea, Finland, Cuba, Germany, Poland, and the U.S. to demonstrate the interactions of social-cultural contexts, school policies and practices, as well as the individuals' learning processes. Theories of and perspectives on examining educational policies and practices will be introduced throughout the class

along with case studies covering a diverse range of contexts. The class will be a mix of lectures, discussions, and in-class demonstrations, so students will have many opportunities to actively engage with the material in multiple ways. Students will also have opportunities to discuss educational issues with college students from China, Japan, India and Singapore via a virtual platform.

EDUC 3315 - Media Integration in the Secondary School Setting

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on how to create media to support and apply research-based principles for learning into the educational environments. The curriculum is based on Core Curriculum skills for students in grades 9-12. The course content provides teacher licensure candidates with technology proficiencies for integrating technology into teaching.
Pre-requisite(s): Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

EDUC 3370 - Advanced Instructional Technology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course allows students to apply existing technology literacy into educational environments to promote advanced use of educational technology in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-6 settings. The course focuses on providing teacher licensure candidates with advanced technology proficiencies for teaching with technology.
Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

EDUC 3371 - Assistive Technology

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides students with an understanding of the use of assistive technology for students with disabilities. Students will learn to assess student assistive technology needs, identify assistive technology used to provide students access to educational opportunities, and application of assistive technology in instructional programs, career tasks, and life skills for individuals with disabilities.

EDUC 3375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)
Description: The course examines the background, underlying theory, and research foundations that

support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

EDUC 3390 - Literacy in the Primary Grades

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Analysis of developmental reading skills with emphasis on readiness for reading, phonic and structural analysis, word recognition, use of the basal reader, and reading for various purposes.

EDUC 3430 - Creative Processes in the Elementary School

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: A $15 fee is associated with this course. A ukulele will be available for you to borrow during the semester. Art supplies for projects completed in the classroom will be supplied.
Description: This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories that support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to teach teacher candidates validated classroom management strategies and level one behavioral intervention strategies. This course focuses on techniques and methods for preventative classroom student management. The course will assist candidates in writing effective classroom management plans. Candidates will be introduced to the process of Functional Behavior Assessments and Behavior Intervention Plans.
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to teach pre-service teachers validated accommodations and supports for K-12 students with disabilities struggling in English Language Arts (ELA) and/or Math in inclusive settings, specifically focusing on reading, writing, speaking, listening, language, and math.
Pre-requisite(s): MATH 2010, successful completion of Education Level 1.

EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to teach pre-service teachers validated evaluation and remediation strategies for K-12 students with disabilities in English Language Arts and/or math, focusing on identifying deficits and designing and disseminating evidence-based remediation plans.
Pre-requisite(s): MATH 2020, successful completion of Level 2.

EDUC 3900 - Preparing, Teaching, and Assessing Instruction

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This integrated course will focus on lesson planning, teaching, and assessment through the application of the Teacher Work Sample (TWS) using lesson plan formats taught in the content areas. A variety of instructional strategies effective for use at the secondary level will be taught and modeled.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3315, EDUC 3265, EDUC 3910, and EDUC 3935.

EDUC 3910 INT - Secondary Education Practicum

Credits: (2)
Course Fee: $10.00
Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.
Description: The purpose of this practicum is to provide students with opportunities to design and implement content-specific instruction at the secondary level. Students are required to spend at least 40 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3935.

EDUC 3935 - Reading and Writing Across the Secondary Curriculum

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will focus on assessment of reading comprehension of students, and decisions teachers make concerning methods, materials and procedures based on those assessments. Teacher candidates will integrate literacy skills (vocabulary, study skills, comprehension development and writing) within their respective content areas and teach sample lessons to secondary students.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910.

EDUC 4210 INT - Elementary Level III Practicum

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Course fees are used to pay for mileage of supervisors.
Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on instruction of core subjects including language arts, mathematics, science, and social studies. Students are required to spend at least 60 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 4250 - Second Language Acquisition: Theories and Implementation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 4270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 4300 - Elementary Mathematics Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $3.00
Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.
Description: This course includes the study of mathematics methods appropriate for elementary school curriculum with specific emphasis on developmental strategies including the concrete-representational-abstract instructional model. Connections to other subject areas, problem solving, critical thinking skills and real-life situations are stressed.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.

EDUC 4310 - Foundations of Cooperative Learning

Credits: (2)
Description: This course examines the rational, principles, skills and interaction strategies necessary before implementing Cooperative Learning in the classroom. Emphasis will be upon the basic components of Cooperative Learning, team building, and simple teamwork. Methods and strategies will be demonstrated and will involve active student group participation.

EDUC 4320 - Elementary Language Arts Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on methods for language arts instruction in the elementary setting with specific emphasis on writing strategies. Particular emphasis is given to models of research-based instruction of core curriculum in language art.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4330.

EDUC 4330 - Elementary Science Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $3.00
Course Fee Purpose: Course fees are used to purchase items used in science demonstrations and labs.
Description: This course focuses on methods and materials for teaching hands-on guided discovery science with an emphasis on concepts included in the Utah core curriculum.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320.

EDUC 4345 - Elementary Integrated Arts Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: A fifteen dollar fee is associated with this course in order to replenish equipment and supplies. Art and other supplies are required for some assignments and meetings. If you are completing portions of the course remotely, you may need to purchase some supplies, or you can come to campus to pick up anything that is needed (by appointment).
Description: This course is designed to prepare students to successfully teach art and music in the

elementary classroom. Students are expected to design, prepare and teach lessons to engage elementary students in art and music activities. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3210, EDUC 3240, PEP 3620.

EDUC 4350 - Elementary Mathematics Pedagogy

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $3.00
Course Fee Purpose: This course has a fee that covers the purchase and replacement of mathematics manipulatives used by students.
Description: This course will focus on the study of appropriate mathematics teaching methods for the Utah core curriculum. Emphasis will be on teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations. Students will practice teaching mathematics using content from the K-8 Utah Mathematics Core.
Pre-requisite(s): EDUC 3230.
Pre-requisite/Co-requisite: ECED 4670.

EDUC 4380A - Student Teaching in Elementary Education

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $100.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.
Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4380B - Student Teaching in Elementary Education

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $175.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.
Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330)

and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4400 - International Education Experiences: Study Abroad

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is a study abroad course led by two faculty members from Moyes College of Education. The class will visit various kinds of schools, interview teachers, students and parents, as well as study the socio-cultural contexts of a certain country or region. We expect the learning to occur during the lectures conducted by WSU faculty, the observations of the classes in the schools, visits to the schools and other educational/cultural sites, communications between students and school teachers and administrators in a certain country, as well as reflection sessions led by WSU faculty. The country covered by this course may change from year to year. Examples of countries include Nordic countries (Finland, Sweden, and Estonia) or selected South Asian countries (Singapore and Vietnam).

EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment

Credits: (3)
Description: Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

EDUC 4420 - Foundations of Education of the Gifted

Credits: (2)
Description: An overview of education for the gifted and talented; historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum, and educational program options; special populations of gifted students.
Note: This course is not currently offered.

EDUC 4450 - Creativity and Applied Imagination in the K-12 Classroom

Credits: (2)
Description: Exploration and development of readily available personal and community resources to encourage creative thinking, classroom involvement, and transfer of learning.
Note: This course is not currently offered.

EDUC 4470 - Teaching for Thinking

Credits: (2)
Description: Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

Pre-requisite(s): Admission to Teacher Education and EDUC 3140 or equivalent.
Note: This course is not currently offered.

EDUC 4480 - Differentiated Curriculum for the Gifted and Talented

Credits: (3)
Description: Curriculum theories and educational strategies for educating gifted and talented students. A practical course, with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.
Note: This course is not currently offered.

EDUC 4490 - Assessment and Evaluation in Education of the Gifted

Credits: (3)
Description: Principles of assessment applied to: identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.
Note: This course is not currently offered.

EDUC 4510 - Foundations in Special Education Practice and Law

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will introduce students to the philosophical, historical, legal and ethical foundations of special education. Students will examine in depth the characteristics of exceptional learners.
Pre-requisite(s): Admission to Teacher Education, EDUC 2010.

EDUC 4515 - IEP Planning and Special Education Law

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides students with a broad knowledge and understanding of a wide range of legal issues concerning the provision of special education services to students with disabilities. A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities will be addressed. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs.
Pre-requisite(s): Completion of Special Education Level 2 courses with a grade of B- or better.

EDUC 4520 - Collaboration, Consultation, and IEP Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities and techniques of collaboration and consultation.
Pre-requisite(s): Admission to Teacher Education.

EDUC 4521 - Practicum in Special Education A

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Mileage fee for supervision
Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 60 hours in an assigned classroom.
Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

EDUC 4530 - Principles and Applications of Special Education Assessment

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This course is designed to provide students with knowledge of the basic terminology of test measurements, criterion referenced assessments, curriculum based assessments and data collection. The fees in this course are used for purchasing assessment instruments used in schools.
Description: Administer, score, and interpret norm-referenced assessments instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs. Requires passing Block 1 with a B- or better.
Suggested Requisite(s): This course is part of Special Education Block 3 courses and should be taken with EDUC 4545, EDUC 4580.

EDUC 4535 - Strategic Plan for Disability

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description:

This course is designed to instruct students in methods to successfully facilitate the inclusion of students with disabilities in the general education classroom. Strategies will be given for how to initiate, grow, and sustain, effective collaborative educational environments, utilize specifically designed instruction, and develop targeted accommodations and modifications that can be efficiently delivered in general education environments to create meaningful access for students with disabilities.
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4540 - Managing Student Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Current issues, practices, and application of a variety of approaches for behavior change, discipline and management of the classroom environment, and the teaching of appropriate social skills.

Suggested Requisite(s): This course is part of Special Education Block 1 courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4550, EDUC 4560.

EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to teach teacher candidates validated individual behavioral intervention strategies, particularly those designed to meet the needs of students with severe behavioral and social skill deficits. This course will address the needs of those candidates using Applied Behavior Analysis. Candidates will conduct functional assessments and write and implement a function-based behavior intervention plan.
Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4550 - Instructional Planning and Learning Environments for Special Education Students

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 3270.

EDUC 4555 - Validated Instructional Methods: Reading

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.
Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4570, EDUC 4580, EDUC 4581.

EDUC 4560 - Validated Instructional Methods: Mathematics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 2 Integrated Methods courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4540, EDUC 4550.

EDUC 4570 - Validated Instructional Methods: Written Expression

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.
Pre-requisite(s): EDUC 4530.
Co-Requisite(s): EDUC 4581.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4580, EDUC 4581.

EDUC 4580 - Instructional and Transition Planning for Special Education Students

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $7.00
Course Fee Purpose: The course fees in this course will be used to buy consumable assessment protocols and to purchase non-consumable assessment kits as new versions are made available.
Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4581 - Pre-Student Teaching in Special Education: Assessment, Behavior Management, Instruction

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of Pre-Student Teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the Cooperating Teacher and the Course Instructor. This course is designed to provide students with practical experiences in the areas of: a) literacy curriculum and instruction for students K-12, and (b) planning and developing post-secondary transition plans. Practical experience in assessment and behavior management are continued.
Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4582 INT - Practicum in Special Education B

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00

Course Fee Purpose: Mileage fee for supervision

Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality instruction while working in special education and/or general education classrooms.

Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4640 - Validated Instructional Methods: Mathematics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

EDUC 4650 - Validated Instructional Methods: Reading

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

EDUC 4660 - Validated Instructional Methods: Written Expression

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

EDUC 4670A - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $100.00

Course Fee Purpose: The course fee pays for student teaching supervisor visits.

Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.

Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4670B - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $175.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4680A INT - Special Education Student Teaching

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Supervision stipend and mileage reimbursement.
Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.
Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4680B INT - Special Education Student Teaching

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $400.00
Course Fee Purpose: Supervisor stipend and mileage reimbursement (remote location).
Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.
Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4685 - Special Education Student Teaching Seminar and Synthesis

Credits: (1)
Description: The Seminar and Synthesis will support student teaching through regular meetings.
Pre-requisite(s): Successful completion of Special Education Licensure requirements.
Co-Requisite(s): Must be taken concurrently with EDUC 4670A.
Note: This course is available to non-majors.

EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Seminar and Synthesis will support student teaching through regular meetings on campus.
Pre-requisite(s): SPED Levels 1-3 and approval by student teaching director.

EDUC 4700 - Learning in the Schools

Credits: (2)
Description: Principles of learning and management and their application to the school situation.
Pre-requisite(s): Student teaching.

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares students to be advocates and practitioners of family involvement in education. Goals and benefits of family involvement will be explored along with specific strategies for developing a partnership within the education system. Components of family structure, economics, cultural diversity, second-language learners, communication skills and resources are integrated into the student experience.

EDUC 4820E - Managing Diverse Classrooms

Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).
Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4840A, EDUC 4860).
Note: This course is not currently offered.

EDUC 4820S - Managing Diverse Classrooms

Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3900, and EDUC 3935).
Note: This course is not currently offered.

EDUC 4830 - Individually Prescribed Program

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Description: Designed primarily for individual needs.
May be repeated up to 6 credit hours.

EDUC 4840A INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Student teaching supervision stipend and mileage.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Suggested Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4840B INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Co-Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will help prepare teacher candidates for student teaching and ultimately licensure with two different types of activities. First, are weekly, 3-hour collaboration and topical seminars emphasizing on-going discussions and support on classroom management, preparing the TWS and INTASC portfolio, creating your career file, and other education issues. Second, is a two-day workshop to synthesize the semester and have your INTASC portfolio assessed.
Pre-requisite(s): Satisfactory completion of Levels 1-3.
Suggested Requisite(s): Should be taken concurrently with EDUC 4840A/B.

EDUC 4860 - Elementary Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of the TREC model for elementary programs with specific emphasis on beginning a professional career in teaching. Senior project is required. To be taken for CR/NC only.

Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).
Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4820E , EDUC 4840A).
Note: This course is not currently offered.

EDUC 4870 - Directed Experiences with Students

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed experiences with elementary and secondary school students in cooperating schools. Students may register for one unit of credit per semester for a maximum of three semester hours.

EDUC 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: For students accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/background check must be completed prior to working in the schools.
May be repeated up to 6 credit hours.

EDUC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Available on CR/NC basis.

EDUC 4930A - Student Teaching in Secondary Education

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $100.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4930B - Student Teaching in Secondary Education

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $175.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3900 , EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4940A INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 Integrated Secondary Student Teaching Seminar.

EDUC 4940B INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 - Integrated Secondary Student Teaching Seminar.

EDUC 4950 - Integrated Secondary Student Teaching Seminar

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Preparation and support for secondary clinical practice. Collaborative and topical seminars

will emphasize on-going discussions and support on classroom management, ethics, preparing the TWS and INTASC portfolio, creating a career file, and secondary school issues.

Pre-requisite(s): Completion of Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with Student Teaching in Secondary Education (EDUC 4930A or EDUC 4940A).

EDUC 4960 - Secondary Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of the TREC Model for elementary and secondary programs with specific emphasis on beginning a professional career in teaching. Senior Project is required.
Suggested Requisite(s): Should be taken concurrently with EDUC 4820S and EDUC 4840A.
Note: This course is not currently offered.

EDUC 5050 - Action Research in the Classroom

Credits: (2)
Description: Students will explore effective classroom-based research techniques, complete a classroom-based case study, and promote the ongoing application of research to the improvement of teaching practice. This course is designed for cooperating teachers in the site-based teacher education program, and is graded CR/NC.
Note: This course is offered as needed.

EDUC 5060 - Effective Mentoring in the Classroom

Credits: (2)
Description: Course covers strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.
Note: This course is offered as needed.

EDUC 5110 - Advanced Multicultural/Bilingual Education

Credits: (3)
Description: Provides a knowledge base concerning the curricular issues and need for multicultural education, and explores various curriculum models and approaches for successful implementation of multicultural education across the curriculum.

EDUC 5120 - Culture and Language

Credits: (3)
Description: Examines the effects and impact of historical, political, social, and economic issues which affect teaching and learning for students from diverse cultural and ethnic groups.

EDUC 5320 - Reading in the Content Areas

Credits: (3)
Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.

EDUC 5330 - Using Children's Literature in the Classroom

Credits: (2)
Description: This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

EDUC 5340 - Assessment and Corrective Procedures in Reading

Credits: (3)
Description: Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

EDUC 5360 - Literacy in the Elementary School

Credits: (3)
Description: An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

EDUC 5770 INT - Field Experience in ESL/Bilingual Education

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will gain experience in teaching and working with ESL/bilingual students and apply what they have learned from relevant courses.

EDUC 5920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Available on CR/NC basis.

EDUC 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated up to 18 credit hours.
Note: Available on CR/NC basis. For graduate students.

EDUC 6020 - Diversity in Education

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description:

This course is designed to integrate classical and contemporary education theory and practice as a way to understand the nature and scope of how equity manifests itself in an ever-changing society. Students will apply their understanding of equity in education as they critically reflect, empirically investigate, and apply their knowledge as skillful transformative educational leaders.

EDUC 6050 - Curriculum Design, Evaluation & Assessment

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An overview of the theories of curriculum development as well as a practical appraisal of curriculum design, implementation, evaluation and assessment.

EDUC 6060 - Instructional Strategies

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: This methods course will include organizing and universal teaching strategies that can accommodate the variety of learning contexts and content that is taught to a diverse audience of learners.
Pre-requisite(s): (Recommended) GSE 6080.

EDUC 6110 - Introduction to Classroom Management

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course serves as an introduction to classroom management for those who have not had classroom experience or have been hired by a school district on a "letter of authorization," (hired without a license). The focus will be on current issues, methodology, and application of a variety of approaches for behavior change, discipline, and management of diverse learners in the context of classroom environments. Classroom management as a function of good teaching will be examined. Note: This course or MED 6120 is required for licensure.

EDUC 6229 - Instructional Technology for Pre-service Teachers

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course allows students to apply existing technology literacy into educational environments to promote use of technology for teaching and instructional support in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards.
Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

EDUC 6240 - Foundations of Teaching for Cultural and Language Differences

Credits: (2)
Description: This course will address the nature of pluralism in American Society, including but not limited to exploration of multiculturalism, bilingualism, first and second language acquisition and instructional strategies. Establishes the core foundations for valuing diversity.

EDUC 6250 - Second Language Acquisition: Theories and Implementation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 6265 - Foundations of Inclusive Teaching

Credits: (2)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course, designed for non-special education teacher candidates, will introduce candidates to the legal, philosophical, historical, and ethical foundations of special education. An emphasis is placed on strategies and methods for instructing students with exceptionalities in the general education setting and the expanded roles and responsibilities of school personnel for providing appropriate educational experiences for all students.
Pre-requisite(s): Admission to the masters of education program.

EDUC 6270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 6311 - Content Instruction in the Elementary School: Science

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Description: Explores new concepts in curriculum and methods of science instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6312 - Content Instruction in the Elementary School: Mathematics

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Explores new concepts in curriculum and methods of mathematics instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6313 - Content Instruction in the Elementary School: Social Studies

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Explores new concepts in curriculum and methods of social studies instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6314 - Reading Instruction in Elementary Schools

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, fluency, phonics, and phonemic awareness in elementary school classrooms. The course will focus on the science of reading as defined by the Utah State Board of Education.
Note: This course is required for elementary licensure.

EDUC 6316 - Language Arts Instruction in Elementary Schools

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Students will explore theory, instructional methodology, and activities for supporting students in developing expertise in the essential skills of communication: listening, speaking, reading, writing, viewing, and visually representing.
Note: This course is required for elementary licensure.

EDUC 6317 - Arts Integration for Elementary Teachers

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Description: This course is designed to prepare students to successfully teach the arts in the elementary

classroom. Students are expected to design, prepare, and teach lessons to engage elementary students in arts and music activities. State curriculum guidelines will be reviewed and discussed.

EDUC 6320 - Content Area Literacy Instruction

Credits: (3)
Typically Taught Summer Semester: *Online odd years*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.
Note: This course is required for secondary licensure.

EDUC 6375 - Foundations of Dual Immersion and Immersion Education

Credits: (3)
Description: The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

EDUC 6415 - Content-based Language Curriculum, Instruction and Assessment

Credits: (3)
Description: Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

EDUC 6500 - Curriculum Planning and Evaluation for Special Education Students

Credits: (3)
Typically Taught Summer Semester: *1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Effective teaching methods, instructional programming and modification of curriculum for students with disabilities. A direct instruction model is emphasized.

EDUC 6515 - Foundations in Special Education: Law and Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will introduce students to the philosophical, historical, legal, and ethical foundations of special education. Students will examine in depth the laws and practices related to special education and how those laws are influencing children with special needs today. Students will also learn about individuals with special needs as they are identified and served in our school system.

EDUC 6529 - Assistive Technology

Credits: (2)
Typically Taught Summer Semester: *1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides students with the knowledge and skills needed to successfully determine the assistive technology needs of students with disabilities. The curriculum is based on the Utah Effective Teaching standards addressing technology and CEC standards for teacher preparation.

EDUC 6530 - Principles and Applications of Special Education Assessment

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Administer, score, and interpret norm-referenced assessment instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs.

EDUC 6540 - Advanced Managing Student Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will address current issues, practices, and application of a variety of approaches for behavior change. It is designed to teach students validated classroom management strategies, behavioral intervention strategies and techniques for use with students who have behavioral and social skill deficits. The primary goal of this course is for each student to conduct a functional assessment and implement and evaluate a behavior intervention plan.

EDUC 6565 - Advanced Instructional Methods and Practices: English Language Arts

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to prepare teacher candidates to teach English Language Arts to elementary and secondary students. Teacher candidates learn to identify reading and writing difficulties, using evidence-based interventions. They will also learn how to implement effective instruction, using data-based instructional decision model to monitor students' ELA progress. This course is to be taken concurrently with MED 6860 Practicum in Education.
Co-Requisite(s): EDUC 6860.

EDUC 6575 - Advanced Instructional Methods and Practices: Mathematics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to prepare teacher candidates to teach mathematics to Tier 2 and 3 students in elementary and secondary classrooms. Teacher candidates will acquire a set of skills that will enable them to determine what math concepts to teach to pupils and effective instructional methods to aid in the teaching of these concepts. This course is to be taken concurrently with MED

6860 Practicum in Education.

Co-Requisite(s): EDUC 6860.

EDUC 6580 - Advanced Learning Strategies and Transition for Special Education Students

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Effective teaching methods, strategies, and practices for secondary age level students with disabilities. A cognitive learning strategies approach is emphasized.

EDUC 6860 INT - Practicum in Education

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Mileage fees for supervision
Description: Practical synthesis and application of knowledge and skills gained in previous education courses. Students must have approval from the program director, and should follow specific graduate certificate in teaching program guidelines for prerequisites and other requirements. This course does not grant credit towards the MED degree, but is required for a teaching license in the state of Utah.

EDUC 6870 INT - Student Teaching and Seminar in Elementary Education

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

EDUC 6880 INT - Student Teaching and Seminar in Secondary Education

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to

registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

EDUC 6890 INT - Student Teaching and Seminar in Special Education

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $150.00
Course Fee Purpose: Supervision stipend and mileage fees
Description: The student teaching experience is the culminating learning experience for the special education licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.
Pre-requisite(s): EDUC 6860.

EDUC 6920 - Workshop

Credits: (1-6)
Description: In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated 4 times for 6 credits.

EEN 1200 - Introduction to Energy Engineering

Credits: (2)
Description: Introduction to the field of energy engineering. Energy sources, electrical power generation, renewable and non-renewable energy, environmental and economic issues, the energy future.
Pre-requisite(s): ENGR 1000 and PHYS 2210.

EEN 2600 - Engineering Economics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Emphasizes the systematic evaluation of the costs and benefits of engineering solutions. Topics include equivalence, simple and compound interest, cash flow diagrams, present worth, equivalent uniform annual worth, rate of return, payback period, depreciation, income taxes, and

inflation.
Pre-requisite(s): MATH 1050 or equivalent placement.

EEN 3000 - Design, Ethics & Entrepreneurship

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Fundamentals of the engineering design process. Design modeling, simulation, documentation and communication. Engineering ethics and entrepreneurship.
Pre-requisite(s): EEN 1200.

EEN 3200 - Sustainable Energy

Credits: (3)
Description: Introduction to sustainable energy. Energy conservation and efficiency. Renewable energy systems and energy storage. Economic, societal and environmental aspects of sustainable energy.
Pre-requisite(s): EEN 1200.

EEN 4100 - Senior Project I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An energy engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.
Pre-requisite(s): Departmental permission.

EEN 4200 - Senior Project II

Credits: (3)
Description: Continuation of EEN 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.
Pre-requisite(s): EEN 4100.

EEN 4300 - Energy Auditing

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to energy auditing of buildings and industrial processes. Energy assessment,

conservation, efficiency, and cost analysis of energy systems.
Pre-requisite(s): EEN 2600 and ME 4000.

EEN 4420 - Renewable Energy Systems Design I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to renewable energy systems. In-depth coverage of the analysis and design of solar and wind energy systems.
Pre-requisite(s): EEN 3200 and ME 4000.

EEN 4430 SUS - Renewable Energy Systems Design II

Credits: (3)
Description: Follow-on course to EEN 4420. Analysis and design of hydroelectric, geothermal, marine, and biomass energy systems. Environmental and economic impacts of these renewable energy technologies.
Pre-requisite(s): EEN 4420.

EEN 4440 - Introduction to Energy Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to systems engineering as applied to the energy industry. Systems definition, attributes and properties. Command and control, mission modeling, verification and validation, documentation.
Pre-requisite(s): EEN 3000.

EEN 4450 - Electric Vehicles Engineering

Credits: (3)
Description: Introduction to electric and hybrid-electric vehicles. Alternative fuels, powertrains, battery technologies, vehicle dynamics, propulsion, energy management, braking and controls.
Pre-requisite(s): EEN 3200.

EEN 4460 - Energy Management

Credits: (3)
Description: Energy management design, utility rates, economic analyses, mechanical and electrical systems, safety, green technologies and sustainability.
Pre-requisite(s): EEN 3000.

EEN 4470 SUS - Energy and Environmental Issues

Credits: (3)
Description: Environmental impacts of energy systems, fossil fuels, renewable and green technologies,

nuclear energy, energy conservation and climate change.

Pre-requisite(s): EEN 3200.

EEN 4480 - Energy and Legal Issues

Credits: (3)
Description: Legal issues of energy systems, regulations, case law pertaining to development and implementation of energy systems, climate change, political influences.
Pre-requisite(s): EEN 3000.

EET 1110 - Basic Electronics

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the concepts and fundamentals of electronic devices, circuits and systems. An electronics overview course for technology majors. Topics include direct current electricity, alternating current electricity, transistors and integrated circuits, amplifiers and oscillators, transmitters and receivers, digital logic circuits, electronic memory, and computers.
Pre-requisite(s): Credit for or concurrent enrollment in MATH 1010 or higher.

EET 1130 - Digital Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, programmable logic devices, and computer architecture.
Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.
Pre-requisite/Co-requisite: Prerequisite: Credit for or concurrent enrollment in MATH 1010 or equivalent or any higher math.

EET 1140 - DC Circuits

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to DC circuit fundamentals, analysis, theorems, laws, components, measuring devices, and equipment. The introduction and use of measuring instruments and power supplies.
Lecture and lab combination. Laboratory activities to include circuit design, construction, and analysis of

DC circuits.

Pre-requisite/Co-requisite: Prerequisite: EET 1110 and credit for or concurrent enrollment in MATH 1060 or MATH 1080 or any higher math.

EET 1850 - Industrial Electronics

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Industrial electronics course for Mechanical and Manufacturing Engineering Technology majors. Introduction to DC and AC circuits, machines, and power systems.
Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of DC/AC circuits and machinery.
Pre-requisite(s): MATH 1010 or equivalent or any higher math.

EET 2010 - AC Circuits

Credits: (3)
Description: The course serves as an extension of circuit analysis methods taught in EET 1140 to AC networks. The introduction of complex numbers and phasor notation at the beginning of the course is followed by AC circuit analysis techniques and the determination of the frequency response for passive AC networks. The course is a combination of lecture and laboratory formats. Laboratory activities will include the design, computer simulation, validation and analysis of passive AC networks.
Pre-requisite(s): EET 1140 and credit for MATH 1060 or MATH 1080.

EET 2110 - Semiconductor Circuits

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the design and analysis of semiconductor circuits using diodes, transistors, op-amps, field effect devices, thyristors, and regulators.
Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.
Pre-requisite(s): EET 1130 , EET 1140, MATH 1060 or higher.

EET 2120 - Power and Motors

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to AC and DC motors, relays, transformers, power measurements, National Electrical Code, ladder logic, wiring, and programmable logic controllers (PLCs).

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of basic power circuits and machinery configurations.
Pre-requisite(s): EET 1140, MATH 1060 or higher.

EET 2130 - PC Board Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to the design of printed circuit boards and packaging with emphasis on the design, simulation, analysis and packaging of circuits.
Lecture and lab combination. Laboratory activities include the design, construction, and testing of prototype circuit boards. CAD programs will be used for the design and layout of circuit boards.
Pre-requisite(s): EET 2110.

EET 2140 - Communications Systems

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to digital and wireless communication circuits. Topics to include radio frequency circuits, modulation, detection, transmitters, receivers, transmission lines, antennas, and measurement instruments. Digital communications topics to include parallel and serial data transmission.
Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of communication circuits.
Pre-requisite(s): EET 2110.

EET 2150 - Embedded Controllers

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: A study of microprocessors, embedded controllers, operational characteristics, computer architecture, machine code programming, memory devices, and interfacing.
Lecture and lab combination. Laboratory activities include the design, construction, and analysis of microprocessor based systems. Analysis techniques include the use of assemblers, cross-assemblers, and emulators.
Pre-requisite(s): Credit for or Current Enrollment in EET 2110.

EET 2160 - Troubleshooting

Credits: (3)
Typically Taught Spring Semester: *Full Sem*

Course Fee: $5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to troubleshooting techniques and skills. Topics include the use of diagnostic electronic test equipment such as multi-meters, power supplies, signal generators, digital storage oscilloscopes, and spectrum analyzers. Students will diagnose and repair electronic circuits and systems. Lecture and laboratory combination.

Pre-requisite(s): EET 2110, EET 2120, EET 2170.

EET 2170 - Industrial Controls

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $100.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to industrial control systems for manufacturing and automated test applications. The course will focus on LabVIEW control systems and Programmable Logic Controllers (PLCs). Students will configure, program, and troubleshoot industrial control systems. Lecture and lab combination.
Pre-requisite(s): EET 1130, EET 1140.

EET 2180 - Solar PV Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is for each student to learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. This course discusses the limitation and the impacts of using fossil fuel energy and its possible impact on global climate change. Solar energy can provide a long term solution and minimize climate change. This course will enable students to build an essential foundation towards how to design the solar PV systems for various applications. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.
Pre-requisite(s): EET 1140 or EET 1850.

EET 2190 - Solar PV Technical Assessments

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to educate each student how to be a solar electric professional with demonstrated expertise in the siting, design, analysis and performance of PV systems from site

specific information, analyzes customer needs and energy usage for the purpose of advising and providing customers with the most appropriate solution for their situation. Each student will also learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components and configurations, grid-tied and battery-based systems, load analysis, qualifying the customer, site analysis, conceptual PV system design, financial costs, incentives and savings, financial benefit analysis and financing, non-financial benefit analysis, performance analysis, prepare proposals, and professional sales skills. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.
Pre-requisite(s): EET 1140 or EET 1850.

EET 3010 - Circuit Analysis

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Advanced calculus-based topics related to electronic circuit analysis, Laplace transforms, differential equations, Fourier series, Fourier transforms, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.
Pre-requisite(s): EET 2110, EET 2140, Credit for or Current Enrollment in in MATH 1210.

EET 3020 - Active Filters

Credits: (4)
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Continuation of Circuit Analysis, EET 3010. Topics include active and passive filters, Pole-zero analysis, stability, Bode diagrams, frequency response, and applications.
Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.
Pre-requisite(s): EET 3010.

EET 3030 - FPGA and ASIC Design

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to field programmable gate arrays (FPGA) and application specific integrated circuit (ASIC) design.
Lecture and lab combination. Laboratory activities to include the use of computer design tools to design, model, simulate, and program gate arrays and application specific integrated circuits.
Pre-requisite(s): EET 2150.

EET 3040 - Instrumentation and Measurements

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to electronic data acquisition, data analysis, error analysis, signal measurement, and automatic testing techniques.
Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of measurement circuits, data acquisition circuits, instrumentation devices, and automatic testing.
Pre-requisite(s): EET 2110, EET 2170.

EET 3050 - Microprocessor Systems

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Microprocessor system development using modern software design principles and high level programming languages. Topics include peripheral interfacing, real-time operating systems and debugging techniques.
Lecture and lab combination. Laboratory activities to include design, simulation, computer programming, analysis, and troubleshooting.
Pre-requisite(s): EET 2150 and either CS 1410 or CS 2250.

EET 3060 - Real-Time Embedded Controllers

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to real-time kernals and operating systems. Priority-based pre-emptive scheduling, intertask communication, and intertask synchronization will be studied. Other topics include priority inversions, semaphores, mutexes, context switches, rate monotonic analysis (RMA), various kernal services, finite state machines, and nested state machines.
Pre-requisite(s): EET 2150.

EET 3070 - Engineering Technology Research

Credits: (3)
Description: Engineering problem solving using the Internet, professional journals, and human networking. Three styles of writing emphasized; technical descriptions, historical perspectives of technology, and technical defensible arguments.
Pre-requisite(s): AAS degree in CET or EET.

EET 3080 - Embedded Networks

Credits: (4)
Typically Taught Spring Semester: *Full Sem*

Course Fee: $5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course provides an in-depth study of several serial communication standards and how to implement them in embedded systems. The standards addressed in this class include RS232, RS485, Controller Area Network (CAN), and Ethernet. Emphasis will be placed on utilizing the stacks and protocols for each standard. The channel bandwidth, noise, and data error rate will be addressed. Wireless methods of serial communication will be surveyed.

Pre-requisite(s): EET 2150.

EET 3090 - Project Management

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: EET 3090 Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.
Pre-requisite(s): EET 1110, and EET 1140, and EET 2010.

EET 3100 - Renewable Energy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of the EET 3100 Renewable Energy course is for each student to learn the fundamental knowledge and technology of various types of renewable energy including solar energy, wind power, hydroelectric, geothermal energy, biomass and ocean energy. This course discusses the limitations and the impacts of using fossil fuel energy and its possible impact on global climate change. This course will enable students to build an essential foundation towards the specific applications of renewable energy such as solar PV (Photovoltaic) systems, wind turbine systems and micro-hydro systems. Incentives, rebates and policies from federal, state and local power companies will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in the area of renewable energy.
Pre-requisite(s): EET 1110 or EET 1850.

EET 3180 - Advanced Solar PV Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is for each student to learn the advanced knowledge and technology of solar PV (Photovoltaic) systems. This course will enable students to verify system design, manage project, install electrical and mechanical components, complete system installation, and

conduct maintenance and troubleshooting. The topics in this course includes PV markets and applications, safety requirements, the advanced technology of solar PV systems, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting, and CAD software for PV system design. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 2180.

EET 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

EET 4010 - Senior Project I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.
Pre-requisite(s): EET 3090.

EET 4020 - Senior Project II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: A continuation of EET 4010 Senior Project I. Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.
Pre-requisite(s): EET 4010.

EET 4030 - Controls & Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to automatic control theory, analysis, and testing, pole, zero, Bode plots, and frequency response. The design and application of programmable controllers using ladder logic, sequential functions charts, PID, and data highway.
Lecture and lab combination. Laboratory activities to include computer simulation, servo-system construction, and analysis.
Pre-requisite(s): EET 3010, MATH 1210, PHYS 2210.

EET 4040 - Signals and Systems

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to digital signal processing, digital filters, discrete and fast Fourier transforms, quantization, introduction to adaptive filters, industrial applications, and DSP hardware. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of digital signal processing circuits.
Pre-requisite(s): EET 3010, MATH 1210.

EET 4060 - Advanced Communications

Credits: (4)
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to satellite communications, spread spectrum techniques, digital satellite communications, antennas, small signal amplifiers, Smith charts, and "S" parameter analysis. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation and analysis of wireless communications circuits and systems.
Pre-requisite(s): EET 3010.

EET 4090 - Systems Design and Integration

Credits: (3)
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to the fundamentals of large-scale systems. The first part deals with systems analysis, design and integration with emphasis on input/output models, transfer functions, and interface issues. The second part discusses a variety of systems design and management approaches, particularly those concerned with system requirements, interface control, evaluation, quality assurance through configuration management, audits and reviews, and the human role in systems.
Pre-requisite(s): EET 3090.

EET 4800 - Individual Studies

Credits: (1-4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.
Description: The student will receive credit for approved studies in an area not covered in the EET program. A maximum of four credits can be counted as electives for EET majors.

EET 4890 INT - Cooperative Work Experience

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The student will receive credit for approved electronics industrial experience. Professional development activities will include resume writing, goal setting, progress reports, and a supervisor's evaluation.
Pre-requisite(s): Permission from the department.
The course can be taken a maximum of three times for a total of 6 credits.

EET 4900 - Special Topics

Credits: (1-4)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.
Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the EET program.
Lecture and lab combination. Laboratory activities to support the selected course topic.
May be repeated four times for a maximum of seven credit hours.
Note: A maximum of four credits can be counted for EET majors.

ENGL 0900 ND - Fundamentals of College Reading and Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to help students develop fundamental reading, writing, grammar, and thinking skills. Students in this course may work closely with Writing Center tutors in one-to-one settings.

Students with ACT scores in either English or Reading of 12 and below are required to take ENGL 0900 ND. Students without ACT scores are also placed in this course unless they are otherwise placed by Accuplacer. Students must complete this course with a grade of C or better before enrolling in ENGL 1005 or ENGL 1006. For optimal learning, students are strongly encouraged to enroll in ENGL 1000 (College Reading) or ENGL 1001 (College Reading for Multilingual Learners) while taking ENGL 0900.

Note: ND (non-degree) courses do not count toward hours required for graduation.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 0955 ND - Developmental College Reading and Writing

Credits: (6)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A course to help students develop reading, writing, and critical thinking skills prerequisite for entry-level college courses. Students in this course are supported by the Skills Enhancement Center. Students who pass ENGL 0900 with a grade of C or better, whose ACT scores in English or Reading run from 13 to 16, or who are placed by Accuplacer are placed in ENGL ND0955. Students must complete ENGL ND0955 with a grade of C or better before enrolling in ENGL 1010.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 1000 - College Reading

Credits: (1-3)
Description: The objective of ENGL 1000 is to improve students' skills for successful college-level reading, emphasizing proven literacy strategies. This goal is accomplished by providing a variety of active reading and thinking approaches, as applied to college-level texts.

May be repeated 4 times up to 6 credit hours.

Note: Check with Department for course availability.

ENGL 1001 - College Reading for Multilingual Learners

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: English 1001 is primarily designed for bilingual or multilingual learners. This course focuses on support for language acquisition, focusing on reading, understanding, and engaging with academic topics. Through a guided approach, the students will improve reading comprehension and thereby improve writing, listening, and speaking skills. The course will also include exposure to university culture and language development.

ENGL 1002 - College Reading 2

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Description: The objective of ENGL 1002 is to deepen students' skills for successful college-level reading, emphasizing advanced literacy strategies. This goal is accomplished by building on the foundations of ENGL 1000/ENGL 1001 using active reading and thinking approaches as applied to college-level texts.
Pre-requisite(s): ENGL 1000 or ENGL 1001 with a grade of "C" or better.
Suggested Requisite(s): ENGL 1005 or ENGL 1007.

ENGL 1005 EN1 - College Reading and Introductory Writing

Credits: (6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: English 1005 introduces students to the habits and practices necessary for reading and writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, improving reading comprehension, and the interrelationship between reading and writing. Students who have placed into ENGL 0955 (Level 2) may choose to take this accelerated course, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.
Pre-requisite(s): Level 2 placement or ENGL 0900 with a grade of C or better.

ENGL 1006 - College Reading and Introductory Writing, Part A

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: English 1006 introduces students to the habits and practices necessary for writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, and reading comprehension. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete both ENGL 1006 and ENGL 1007 satisfactorily (with a grade of C or better) before enrolling in ENGL 2010 or ENGL 2015.
Pre-requisite(s): Level 2 English placement or completion of ENGL 0900 with a grade of C or better.
Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with ENGL 1000 (College Reading) or ENGL 1001 (College Reading for Multilingual Learners) in the same semester.

ENGL 1007 - College Reading and Introductory Writing, Part B

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: English 1007 builds upon the foundational habits and practices necessary for writing at the college level established in ENGL 1006. Students will learn practices of successful university-level writing across multiple genres, focusing on the writing process, writing for specific audiences, collaboration with

peers, the interrelationship between reading and writing, and applying literacy techniques learned to college-level texts. The course applies advanced reading comprehension practices. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.
Pre-requisite(s): ENGL 1006 with a grade of "C" or better.
Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with either ENGL 1001 (College Reading for Multilingual Learners) or ENGL 1002 (College Reading 2) in the same semester.
Note: Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.

ENGL 1010 EN1 - Introductory College Writing

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Blk Online, 2nd Block*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online, 1st Block*
Description: Students will learn practices of successful university-level writing across multiple genres. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.
Pre-requisite(s): To enter 1010 the student must have 17 or higher on both ACT English and Reading, or equivalent. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.

ENGL 2010 EN2 - Intermediate College Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will focus on writing researched arguments, discerning, engaging with, and documenting sources, and writing with rhetorical awareness and persuasive force. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers.
Pre-requisite(s): Level 4 placement, passing ENGL 1005 or ENGL 1006 or ENGL 1007 or ENGL 1010 with "C" grade or better, AP Language and Composition or Literature and Composition examination with a score of 3 or better, ACT English and Reading score of 29 or better, CLEP with essay test with a score of 50 or better, or articulated transfer credit from another regionally accredited college or university.

ENGL 2015 EN2 - Intermediate College Writing & Research

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Intermediate College Writing & Research focuses on combining writing and research skills. It will focus on writing arguments, conducting research, and documenting sources. Students will continue to learn practices of successful academic writing including the writing process, writing for specific

audiences, and collaboration with peers. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning. This course will fulfill both the English Composition and the Information Literacy General Education core requirements.

Pre-requisite(s): Level 4 placement, passing ENGL 1005 or ENGL 1010 or *both* ENGL 1006 and ENGL 1007, with a grade of "C" or better, passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, achieving an ACT English and Reading score of 29 or better, a CLEP with essay test with a score of 50 or better, or an articulated transfer credit from another regionally accredited college or university.

ENGL 2100 - Technical Writing

Credits: (3)
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course prepares students for on-the-job writing and emphasizes the importance of audience analysis, graphics, and document design. Students study and practice writing and designing a variety of technical documents as they learn to write clearly, concisely, and persuasively to a specific audience for a specific purpose.
Pre-requisite/Co-requisite: ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2120 - Introduction to Writing and Document Design

Credits: (3)
Typically Taught Fall Semester: *Check with department*
Typically Taught Spring Semester: *Full Sem*
Description: Through literary texts, including fiction, non-fiction and poetry as well as film and other digital mediums, this course will introduce students to the ways writing fits into various types of organizations, which are increasingly focused around knowledge work, or work that analyzes and communicates rather than manufactures products. Within the framework of writing, students will learn how organizations are networked and situated, and how collaboration, systems of power, organizational structures, and various audiences and stakeholders function.

ENGL 2130 - Media and Technology in Texts

Credits: (3)
Typically Taught Fall Semester: *Check with department*
Typically Taught Spring Semester: *Full Sem*
Description: Through the study of literary texts such as fiction, poetry, nonfiction, and film, students will gain an understanding of key concepts in the study of media and technology, including historical and forward-looking perspectives. These might include such topics as the impact of technology on society and culture, how new technologies shape information and how new media forms affect reading, writing and analysis.

ENGL 2140 - Introduction to Professional and Technical Editing

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem-Online*
Description: This course focuses on basic editing in the workplace. We examine genres, electronic editing, version control, collaboration, synchronous and asynchronous writing/editing, and literature related to editing.

ENGL 2150 - Gender and Culture in Workplace Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Check with department for course availability.*
Description: Gender and culture affect professional and technical writing and an understanding of the many roles we encounter and play through gender and culture is essential for writers. This course will overview for students the many ways gender and culture can be applied to and explored in professional and technical writing and provide practice identifying and analyzing such issues through literature.

ENGL 2160 - Introduction to Web-Based Technical Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Check with department for course availability.*
Description: This course will first cover how organizations create and share information on the web and social media, and how the differences in reader expectation and reading behavior between printed and online texts help shape the information. The course will then focus on characteristics of good online content, analysis of audience and purpose, and strategies for writing and designing content to meet the needs and expectations of the readers. Throughout the semester, students will practice, individually and collaboratively, good writing and designing skills in learning to become effective writers of a workplace.

ENGL 2200 HU/EDI - Introduction to Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This foundational course examines literary form and genre. Studying literature written by a diverse range of authors from various cultures and historical periods, students will be introduced to three major literary modes: fiction, drama and poetry. Students will learn how to read literary texts closely and critically. They will learn how forms adapt over time. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2210 - Introduction to Film Theory and Criticism

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces students to the theory and practice of critically analyzing film. We will survey the international development of film from its origins to the present. Our focus will be on the history and methods of narrative film, including the development of film and digital technology, and on the modern viewer's expected skill in "reading" film.

ENGL 2220 HU/EDI - Introduction to Fiction

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: An introduction to short stories, novellas, and novels, selected from a diverse range of authors from various cultures and historical periods. Students will learn how to read fiction carefully and critically, and how fiction can have a meaningful part in their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2230 HU/EDI - Introduction to Drama

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: An introduction to drama from around the globe, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze and appreciate plays and to recognize their contemporary relevance. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2240 HU/EDI - Introduction to Poetry

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: An introduction to poetry written in English, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to appreciate the craft of poetry as a valid and important way of talking about human experiences. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2250 CA/EDI - CW: Introduction to Creative Writing

Credits: (3)
Typically Taught Summer Semester: *Full Sem-Online, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: In this introductory course students will write original pieces in three genres that may include flash fiction, short stories, poetry, creative non-fiction, plays, and graphic novels. Students will read exemplary pieces from each genre in order to build a vocabulary base. Through writing exercises, students will generate original writing and refine oral and communicative skills. Students will critique and be critiqued in order to revise early drafts.
Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This intermediate course introduces students to short fiction writing in a workshop setting. This course is a writing laboratory where students will experiment with various types of short fictions. Students will read canonical and contemporary stories with an eye toward elements of craft as they discover, write, workshop, and revise.
Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry

Credits: (3)
Typically Taught Summer Semester: *1st Block*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This intermediate course introduces students to poetry writing in a workshop setting. This course is a writing laboratory where students will experiment with various types of poetry. Students will read canonical and contemporary poems with an eye toward elements of craft as they discover, write, workshop, and revise.
Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: In this introductory course, students will learn the basics of writing creative nonfiction, including how to shape personal experiences into dynamic art through study, practice, and play. Students will be introduced to a variety of narrative strategies such as braided, hybrid, and lyric essays. Ultimately, students will deepen their self-understanding while refining and expanding their storytelling skillset.
Pre-requisite(s): ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2295 - CW: Introduction to Screenwriting

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: In this introductory course, students will learn the basics of screenwriting, including how to use action and dialogue to convey character and establish tension. Additionally, students will begin working with screenwriting software to develop an understanding of the formatting conventions of the

genre.
Pre-requisite(s): ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2420 - Young Adult Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Young Adult Literature will introduce students to a variety of literary works within this popular and compelling genre. Through close reading, we will examine various features, themes, and representations of adolescence and adulthood. We will also consider different pedagogical approaches to these texts to uncover broader literary and sociocultural dimensions.
Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 2501 HU/EDI - Literature Today

Credits: (3)
Typically Taught Summer Semester: *Full Sem-Online*
Typically Taught Fall Semester: *Full Sem, Full Sem-ONL*
Typically Taught Spring Semester: *Full Sem. Full Sem-ONL*
Description: Why and how do writing and reading still matter? This course explores writing since the year 2000, by writers from around the world whose work - directly and indirectly - addresses the urgent issues of today, including but not limited to economic disruption, technological innovation, exclusionary and divisive politics, social alienation, racism, misogyny, colonialism. The course is geared towards students in their first and second year, and includes opportunities to learn more about the Department of English Language and Literature and its programs.

ENGL 2700 - Introduction to Critical Theory

Credits: (3)
Typically Taught Summer Semester: *Full Sem-Online*
Typically Taught Fall Semester: *Full Sem, Full Sem-ONL*
Typically Taught Spring Semester: *Full Sem. Full Sem-ONL*
Description: Students will study and practice critical approaches to literature. This course introduces theories, interpretive frameworks, and central questions about literature and literary media. What do we mean by "literature" itself? How might we compare and evaluate literary interpretations? Why do we read? What assumptions do we take for granted when we read? How does the historical, social and cultural context of a text shape its meanings and its effects? Combining major critical and theoretical writings with literary works, the course investigates how textual production and interpretation are informed by philosophical and aesthetic traditions, gender and sexuality, race and ethnicity, national and postcolonial identities, and the material forms in which literature circulates. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

ENGL 2710 HU/EDI - Perspectives on Women's Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Check with Department*
Description: The purpose of this class is to introduce students to the rich contributions of women to the field of literature. The course will cover a variety of women writers that may range from the medieval period to the present and will feature literary genres such as fiction, poetry, drama, non-fiction, and journals/diaries. In discussing and writing about these works, students will consider why women were excluded or marginalized in the canon for such a large part of literary history and how society, family, and politics impacted the way these women wrote.

ENGL 2750 HU - Topics and Ideas in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This variable topics course focuses on topics and ideas in the humanities. The course may consider social, political, artistic, environmental, or philosophical themes across disciplines. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion and to probe the various intentions of any act of writing.
May be taken twice for a total of 6 credits.

ENGL 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENGL 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings supervised by a faculty member.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated twice up to 6 credit hours.

ENGL 2890 - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in the English Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated 5 times up to 6 credit hours.
Note: Check with department for current course offerings.

ENGL 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.
May be repeated for a total maximum of 6 credit hours.
Note: Check with department for current course offerings.

ENGL 2920S INT - Community Service

Credits: (3)
Description: Students will receive an overview of community service and explore opportunities for service learning in the community. A weekly seminar with required readings and writings as necessary and 50 hours of community service.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
Note: Check with department for current course offerings.

ENGL 2999 INT - Capstone in Workplace Communication and Writing

Credits: (3)
Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with COMM 2999.
Pre-requisite(s): Permission of Instructor Required.
Note: Check with Department for course availability.

ENGL 3010 - Introduction to Linguistics

Credits: (3)
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces students to the scientific study of language. It looks across languages to explore what they have in common, as well as what distinguishes them from one another. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be applied to other areas, such as language acquisition, language history, language and culture, language and society, language and thought, or language and literary expression.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.

Note: Students in English, foreign languages, anthropology, philosophy, psychology, and history are encouraged to take this course.

ENGL 3020 - Teaching English/Language Arts

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed for English teaching majors and minors. Students in the course will study a variety of literary works to better understand the ways that literature engages interest and promotes deep learning. Students in the course will study pedagogical practices that support the effective and equitable teaching of literature in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.
Pre-requisite(s): ENGL 2010, ENGL 2015 or equivalent and admitted to Secondary Education program.
Pre-requisite/Co-requisite: ENGL 2420.

ENGL 3030 - Structure of English

Credits: (3)
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.
Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 3040 - History of the English Language

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing or creative writing. Students in communication, pre-law, and criminal justice may also find the class meets requirements.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3080 - Critical Approaches to Literature

Credits: (3)
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective. Primarily for English majors and minors. Recommended to take early in major.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
Suggested Requisite(s): ENGL 2200, ENGL 2220, ENGL 2230, or ENGL 2240.

ENGL 3100 - Professional and Technical Writing

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online, Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course introduces students to the basic theories and practices of technical communication. Using audience, purpose, and context as their guides, students create various professional and technical documents, such as formal and informal reports, instructions, proposals, job application materials, brochures, web media, and presentations. Working both individually, and in collaboration, students analyze their rhetorical situation as they create usable and appropriate professional documents. This course provides the practical and theoretical basis for the minor and emphasis in Professional and Technical Writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3120 - Foundations in Professional & Technical Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem-Online*
Typically Taught Spring Semester: *Full Sem, Full Sem-Online*
Description: This course provides the theoretical and rhetorical knowledge that underpins the practice of technical and professional writing. Students will learn about rhetorical theories, research methods, social justice initiatives, technological theories, and ethics. The course will prepare students for understanding why technical and professional writers make the choices they do and empower students

to explain the exigence of their field of study.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3130 - Digital Writing Technologies

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem-Online*
Description: This course will introduce students to the tools/software that technical writers and other professionals use in the workplace. Topics include, but are not limited to, Advanced Features in MS Word (styles, macros), the Adobe Suite, Advanced Features of online collaborative tools (the Google Suite among others), the suite of Apple products. This instruction prepares students, not just English majors, for the necessary skills to enter into the workforce prepared to succeed.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3140 - Professional and Technical Editing

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem-Online*
Description: Building on the knowledge of technical writing genres and the writing strengths developed in ENGL 3100, this course introduces students to copyediting, comprehensive editing, and the basics of collaborative editing and document management. Technical editing is designed to strengthen students' writing, editing, and visual design skills through attention to detail and application of style, grammar, and usage principles. Additionally, this course focuses on hard copy and soft copy editing principles.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3160 CEL - Grant Writing

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem-Online*
Description: This class introduces you to the grant writing process and provides you with experience writing actual grant applications in collaboration with a local non-profit organization. By the end of the class you will know the basic elements of grant writing and be able to identify organizational needs; research appropriate funding sources; plan, develop, and write grant proposals.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3190 CEL - Document Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem-Online*
Description: This course teaches a rhetorical approach to document design. Using the rhetorical principles of audience, purpose, and context, students will discuss sample documents, analyze the layout of documents (both professional documents and ones students create in class), and articulate what makes an effective layout and design (regarding arrangement, emphasis, clarity, conciseness, tone, and ethos). Throughout the course, students will create (both individually and collaboratively) documents that meet client specifications thereby providing practical experience and generating material for their

professional portfolios.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3210 - Advanced College Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Basic expository techniques combined with other forms of discourse. Emphasis on originality, clarity and practical application for other courses as well as vocation.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3240 - CW: Writing Creative Nonfiction

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This advanced course is designed for students who wish to increase their aptitude in the art of creative nonfiction writing, including lyric essay, personal essay, and memoir. Students will write, revise, and workshop in order to produce publishable material.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3250 - CW: Advanced Fiction Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Students will learn advanced fiction writing skills. Whether they plan to write novels or short fiction, this class will develop their use of plot, character, point of view, narrative structure, setting, image, wordplay and syntax. Students will write, revise, and workshop in order to produce publishable material.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3260 - CW: Advanced Poetry Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This advanced course is designed for students who wish to increase their aptitude in the art of poetry writing. Students will read contemporary and canonical poems with an eye toward line, stanza breaks, imagery, sound, rhythm, and structure. Students will write, revise, and workshop in order to produce publishable material.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.
Note: This course is taught every other Spring.

ENGL 3280 - Biographical Writing

Credits: (3)
Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*
Description: Includes autobiographical writing and is oriented strongly toward personal and familial interests. Written assignments include the personal narrative, character sketch, as told to, and conclude with a chapter or two on a projected book-length project. Extensive written and oral input on each assignment from professor and class. Strong emphasis is placed on techniques of research including interviewing, effective characterization, narration and description. Prior experience in imaginative writing and other areas of literature is recommended.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3290 - CW: Advanced Screenwriting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: In this advanced course, students will enhance their understanding of screenwriting by studying produced films and workshopping their own original work. We will focus on developing complex characters through action and dialogue, studying and applying the movement of the three-act structure, and creating scenes driven by desire and the obstacles to those desires. In short, students will build on the basics that they have already begun to master and will apply those towards creating more sophisticated work.
Pre-requisite(s): ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3300 - Children's Literature

Credits: (3)
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will study the principles of literature for children with special emphasis on evaluation and selection, classroom and library use, ethnic and cultural diversity, and the development of literacy. Designed to meet the needs of teachers, those preparing to teach and those who work with children in various settings.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3350 - Studies in Literary Genres

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course introduces students to the historical and cultural origins of literary genres, their distinguishing features, and the dynamics of literary development. Genres may include the novel, drama, poetry, creative non-fiction, bildungsroman, the diary, biography, autobiography, satire, and others. It may be taken more than once with different designations.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated once for a total of six credit hours.

ENGL 3352 - Studies in World Literary Genres

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course introduces students to familiar and unfamiliar world literary genres, exploring their distinctive features and their interactions with the cultures and histories they represent. Genres might include poetry and prose, fiction and non-fiction, satire and fable, tragedy and ballad, biography and autobiography, and many others.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3353 - Genres in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course introduces students to genres in cultural and media studies, their distinguishing features, and the dynamics of their development. Genres may include the novel, digital novel, film, television, social media, advertising, music, and the internet.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3354 - Genres in Writing and Interdisciplinary Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course introduces students to interdisciplinary genres, new directions in transcending disciplinary boundaries, or issues in writing and rhetoric. Genres may include various forms of narrative as they intersect with the sciences, social sciences, arts and humanities, health professions, business and economics, applied science and technology, and others.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3355 - CW: Creative Nonfiction Forms and Craft

Credits: (3)
Description: This class asks students to experiment with form and structure within the genre of creative nonfiction writing to understand how narrative shape affects the reader's experience.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3360 - CW: Short Story Forms and Craft

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Description: This class asks students to experiment with form and story structure within the genre of fiction writing, to understand how narrative shape affects the reader's experience.
Pre-requisite(s): ENGL 2250, ENGL 2260, ENGL 2270, ENGL 2280, or ENGL 2295.

ENGL 3365 - CW: Novel Forms and Craft

Credits: (3)
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This class asks students to experiment with form and structure within the genre of novel writing to understand how narrative shape affects the reader's experience.
Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3370 - CW: Poetic Forms and Craft

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This class asks students to experiment with form and structure within the genre of poetry writing to understand how prosody affects the reader's experience.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3375 - CW: Notebooks and Journals Forms and Craft

Credits: (3)
Description: This class examines the writer's notebook, reading examples and studying possibilities. Students will keep a writer's notebook inspired by those examples.
Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, ENGL 2270

ENGL 3380 - CW: Screenwriting Forms and Craft

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: This class asks students to experiment with form and structure within the genre of screenwriting to understand how dialogue and scene affects the reader's experience.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3410 INT - The Teaching of Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed for English Teaching majors and minors. Students in the course will study pedagogical practices that support the effective and equitable teaching of writing in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent, and admitted to Secondary Education program.
Co-Requisite(s): ENGL 3020.
Pre-requisite/Co-requisite: ENGL 2420.

ENGL 3500 HU - Introduction to Shakespeare

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Even Years, Full Sem - Online Odd Years*
Description: This class is an introduction designed to foster a critical appreciation of the plays of Shakespeare. The class is intended for all who wish to gain a greater appreciation for Shakespeare and his work. Students can expect to study a varied selection of Shakespeare's plays and poems, as well as historical, cultural, critical, and performance contexts.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3510 HU/EDI - World Literature

Credits: (3)
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This is a selection of masterworks from a variety of authors, regions, and eras - expressly to introduce diverse literatures other than British and American. The required readings may vary considerably from semester to semester, according to the instructors' expertise.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3520 HU - Literature of the Natural World

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Check with department for course availability.*
Description: This course engages literary texts that focus on humans in relation to their natural environment. Conceived as a survey course, it attempts to delineate the various traditions of environmental concern, from the ancient past to the present, and to draw attention to the ongoing relevance of such texts. Students will learn how to read closely and carefully, and how to make such literature meaningful for their own daily lives.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3530 - The Literature of Business and Economics

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This course examines historical and contemporary issues in the world of business and economics through literature, film, and essays. The course will explore concepts such as private property, commodities and natural resources, wage labor, capital, public lands, and globalization. Students will investigate pertinent moral and ethical questions connected with these concepts from both historical and contemporary perspectives, such as the distribution of wealth and poverty,

consumption and resource management, competition and conflict, and social (in)stability. The course is designed to improve writing skills, specifically the ability to express complex ideas from a variety of perspectives and to improve critical and creative thinking skills while stressing the importance of learning through writing.

ENGL 3540 - Adaptation Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course focuses on the process by which literary works and other texts are adapted into other forms and media, and on the product of that adaptive process. Works may include traditional text-to-film adaptations, as well as more non-traditional forms such as graphic novels, music, television, the Internet, and more.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3610 - American Literature I

Credits: (3)
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3620 - American Literature II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3650 - British Literature I

Credits: (3)
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online Even Years*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3660 - British Literature II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3730 - Literatures of Cultures and Places

Credits: (3)
Variable Title
Description: This variable topics course examines literatures, cultures, and nations beyond England and America. Students will be introduced to the ways in which texts are closely tied to geographical place and cultural space as well as the historical movement from which they emerge. The course may focus on a single national culture or, alternately, offer representative works from various cultures.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be repeated 3 times with different designations.

ENGL 3750 HU - Topics and Ideas in Literature

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be repeated 3 times with different designations.

ENGL 3752 - Topics and Ideas in World Literature and Language

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts from around the world. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Note: Check with Department for course availability.

ENGL 3753 - Topics and Ideas in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Check with Department*
Description: This variable topics course focuses on various themes in cultural and media studies. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: *Check with department for course availability.*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course focuses on themes manifest in the field of writing and in interdisciplinary studies. This course may focus on issues in writing, rhetoric, and other disciplines as they intersect with English. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3755 - Topics in English Teaching

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: This variable topics course focuses on critical ideas in the teaching of English. The course may consider social, political, artistic, environmental, or philosophical themes. Students in the class will learn to translate intellectual movements to pedagogical practices and approaches. May be taken twice for a total of 6 credits.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program.

ENGL 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENGL 3840 - Methods and Practice in Tutoring Writers

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Description: Controlled experience in tutoring student writers in all disciplines. This course is only for people who are actually employed as a tutor.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3850 INT - Methods and Practice in Tutoring and Mentoring ESL Students

Credits: (1-3)
Description: This course trains students who are native speakers of English or who are second language learners of English at native or near native levels of proficiency to work or volunteer in the ESL Program as tutors, classroom aides, mentors, and as language informants leading conversation groups.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
Note: Check with Department for course availability.

ENGL 3880 - Philosophy and Literature

Credits: (3)
Typically Taught Spring Semester: *Check with Department*
Description: A study of the interrelationships between ideas that shape the course of history and the poetry, prose, and/or drama of the periods that produce these ideas.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4010 - Topics in Language Study

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This variable topics course explores areas of study such as advanced grammar, sociolinguistics, language and the law, linguistics and composition, linguistics and language acquisition, or linguistics and literature, among others, as determined by the instructor. A previous language course or consultation with the instructor is recommended before enrolling.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken more than once with different designations.
Note: Check with Department for course availability.

ENGL 4100 - Issues in Professional and Technical Writing

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: This variable topics course focuses on specific issues in the ever-evolving field of professional and technical writing. Recent issues include indexing, professionalization, theoretical approaches, and discipline-specific emphases such as writing in the sciences and writing for the Web.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

It may be taken up to four times (for a total of 12 credit hours) with different designations to fulfill electives and must be pre-approved by an advisor.

ENGL 4110 - Content Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem-Online*
Description: This class teaches the theory and application of content management. Students will learn how to evaluate content, divide content into reusable elements, label these elements, and then re-configure them into usable structures. Using the principles of single sourcing, modular writing, and structured authoring, students will map content for reuse, evaluate available authoring tools, implement state-of-the-art technologies, and develop project strategies.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 4120 CEL/INT - Seminar and Practicum in Professional and Technical Writing

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem-Online*
Description: This course serves as a capstone for the minor and emphasis, preparing students for immediate job placement. In the seminar, students review issues and strategies of professional and technical writing and prepare portfolios for job interviews. The practicum is based on an internship or cooperative work experience in the community, with industry, or with an on-campus organization. The internship is the most time-intensive aspect of the course.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: This course emphasizes practical strategies and methods of teaching ESL/Bilingual in the public school systems of this country.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)
Typically Taught Summer Semester: *Odd-numbered years*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides the essential foundation for ESL/Bilingual teachers in the workings of the English language: pronunciation and spelling systems, word-forming strategies and sentence structure patterns.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)
Typically Taught Summer Semester: *Full Sem - even-numbered years*
Typically Taught Fall Semester: *Full Sem*
Description: This course explores how to effectively evaluate and implement assessment processes for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized tests and authentic assessment.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4520 - American Literature: Early and Romantic

Credits: (3)
Description: This historical survey follows waves of European immigration and chronicles the effects of those on the American natives. The class then moves through the Revolutionary War and finishes with the relatively short but intense age of American Romanticism, which occurred in the decades just before the Civil War. The diverse writers in this period include such figures as Columbus, William Bradford, Anne Bradstreet, Benjamin Franklin, Washington Irving, Nathaniel Hawthorne, Edgar Allan Poe, Harriet Beecher Stowe, Henry David Thoreau, Frederick Douglass, Herman Melville, and Walt Whitman.
Pre-requisite/Co-requisite: ENGL 2700.
Note: Check with Department for course availability.

ENGL 4530 - American Literature: Realism and Naturalism

Credits: (3)
Description: This historical survey typically runs from the Civil War to WWI - emphasizing reconstruction, laissez-faire economics, growing imperialism, and universal suffrage. The diverse writers in this survey include such figures as Mark Twain, W. D. Howells, Sarah Orne Jewett, Henry James, Kate Chopin, Booker T. Washington, W. E. B. Du Bois, Stephen Crane, Jack London, Frank Norris, Theodore Dreiser, Mary Austin, and Henry Adams.
Pre-requisite/Co-requisite: ENGL 2700.
Note: Check with Department for course availability.

ENGL 4540 - American Literature: Modern

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This historical survey focuses on the first half of the 20th century, when the United States went through a series of profound political and social changes, such as its entry into World War I and II, Prohibition, The Red Scare, Suffrage, the advent of the mass media, and Progressivism. Drawing on a variety of genres and media (including painting and film), the course will study developments in the New Negro Renaissance, Greenwich Village bohemianism, the Provincetown Players, "high" modernism, and the Lost Generation. Representative writers of the period include: Langston Hughes, Zora Neale Hurston, Nella Larsen, Edna St. Vincent Millay, Mina Loy, Eugene O'Neill, Susan Glaspell, Ezra Pound, John Dos Passos, Amy Lowell, William Carlos Williams, Gertrude Stein, Ernest Hemingway, and e.e. cummings.
Pre-requisite/Co-requisite: ENGL 2700.
Note: Check with Department for course availability.

ENGL 4545 - American Literature - World War II to 2001

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on American literature from World War II to 2001 within the context of the dramatic political and cultural changes that have shaped contemporary American culture, such as the Cold War, Vietnam, the Civil Rights movement, feminism, and multiculturalism. Like its modernist predecessor, it ranges across genres and media to survey various emergent traditions and tendencies in contemporary and postmodern US letters.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4550 - American Literature: Contemporary

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on American literature from 2001 to the present. Like its predecessor, English 4545, it ranges across genres and media to survey traditions and tendencies in contemporary US letters that continue to emerge and evolve. The literature produced during this open-ended period is often less burdened by the legacies of Euro-American literature or the politics of the late 20th century, and hence still fluid in terms of defining period markers. Often written within the wider context of 9/11, U.S. foreign policy, and the changing world order, such work often complicates the aesthetic sensibilities of high postmodernism while providing American literature with a more global set of historical and geographic referents.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4560 - Contemporary Literature for Creative Writers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces students to the work of contemporary writers through the study of literary journals and magazines, full-length books, collections, and individual pieces. Students will examine stylistic choices and the effects of those choices.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4610 - British Literature: Medieval

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This historical survey runs from the eighth century to the end of the fifteenth century - roughly from the reign of Alfred the Great to Henry VII. Some of the more recognizable works include Beowulf, The Wanderer, Geoffrey Chaucer's Canterbury Tales, early histories of King Arthur, Thomas Malory's Le Morte D'Arthur, Julian of Norwich's Showings, Everyman, and Gawain and the Green Knight.

Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations.

ENGL 4620 - British Literature: Renaissance

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth - roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick.
Pre-requisite/Co-requisite: ENGL 2700.
Note: (Note: this survey does not typically try to do justice to its largest figure, Shakespeare - for whom the department has established ENGL 4730: Studies in Shakespeare.) Check with department for course availability.

ENGL 4630 - British Literature: Neoclassical and Romantic

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This historical survey links two periods: the first has frequently been referred to as the Enlightenment of the Eighteenth Century and includes such figures as Alexander Pope, Anne Finch, Mary Montagu, Jonathan Swift, and Samuel Johnson. The second period covers the relatively short but intense age of English Romanticism - popular because of such writers as William Blake, William Wordsworth, Samuel Coleridge, Lord Byron, Mary Shelley, Percy Bysshe Shelley, Mary Wollstonecraft, Sir Walter Scott, Thomas De Quincey, and John Keats.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4640 - British Literature: Victorian

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's Origin of Species. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Bronte, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels); Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4650 - British Literature: Modern

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Check with Department*
Description: This historical survey focuses on the first half of the twentieth century, a time of great social change for Great Britain and Ireland that led to a rich outpouring of traditional and experimental writing. A variety of writers will be studied in this course in connection with such key developments as the critique of Empire (Joseph Conrad, E.M. Forster); the Abbey Theatre and the Irish Literary Renaissance (Lady Gregory, W.B. Yeats); World War I (Siegfried Sassoon, Vera Brittain); High Modernism (T.S. Eliot, James Joyce, D.H. Lawrence, Virginia Woolf, Katherine Mansfield); divergent poetic world-views (W.H. Auden, Dylan Thomas); and World War II, the collapse of Empire, and dystopian visions (Evelyn Waugh and George Orwell).
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4655 - British Literature - World War II to 2001

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines British and Anglo-Irish literature from World War II to 2001 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in an era increasingly multicultural in outlook and studies a variety of British and Anglo-Irish writers in connection with such key developments as post-war disillusion. Absurdism and Postmodernism, neo-Romanticism, magical realism, innovative historical fiction, and legacies of Empire in a postcolonial world.
Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4660 - British Literature: Contemporary

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on British literature from 2001 to the present. Like its predecessor, English 4655, it ranges across genres and media to survey traditions and tendencies in contemporary British and Anglo-Irish letters that continue to emerge and evolve as the UK attempts to define itself and Britishness in the wake of 9/11, a changing UK foreign and domestic policy, and Brexit.
Pre-requisite/Co-requisite: ENGL 2700.
Note: Check with Department for course availability.

ENGL 4710 - Eminent Authors

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This variable topics course features a single author or several authors. Students may study

authors such as Sir Arthur Conan Doyle, Ralph Waldo Emerson, Emily Dickinson, Walt Whitman, Virginia Woolf, or Toni Morrison, in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

May be taken up to 3 times with different designations.

Note: Check with Department for course availability.

ENGL 4712 - Eminent World Authors

Credits: (3)
Variable Title
Description: This variable topics course features a single author or several authors. Students may study global anglophone writers and/or works in translation, by authors such as Derek Walcott, Arundhati Roy, Chinua Achebe, Gabriel García Márquez, Nadine Gordimer, Margaret Atwood, Mo Yan, Fyodor Doestoevsky, Naguib Mahfouz, and Umberto Eco in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Note: Check with Department for course availability.

ENGL 4713 - Eminent Authors in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Check with Department*
Description: This variable topics course features a single author or several authors. Students may study foundational and emerging authors in this dynamic and influential field in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 4730 - Studies in Shakespeare

Credits: (3)
Typically Taught Fall Semester: *Check with Department*
Typically Taught Spring Semester: *Full Sem*
Description: This class is intended for English majors and minors seeking a deeper understanding of Shakespeare's work. Students can expect to do close readings of at least five plays and to study such secondary materials as literary criticism and historical background.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4760 - Irish Literature

Credits: (3)
Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This course examines the distinctive temperament and outlook of both the Gaelic and Anglo-Irish traditions in such writers as Aogán Ó Rathaille, Eibhlín Dubh Ní Chonaill, Jonathan Swift, Lady Gregory, Oscar Wilde, John Millington Synge, William Butler Yeats, James Joyce, George Bernard Shaw, Samuel Beckett, Seamus Heaney, Eavan Boland, and Nuala Ni Dhomhnaill. The first portion of the course studies the body of literature from the sixth century through 1900; the remainder of the course focuses on modern and contemporary texts. Key themes to be examined, always in the larger context of Irish history as a whole, include the Irish use of words as weapons, the place of gender in Irish writing, and the intriguing nature of Irish - particularly as opposed to English - identity.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4801 - A&H Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ENGL 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings supervised by a faculty member.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

May be repeated twice with a maximum of 6 credit hours.

Note: Check with Department for course availability.

ENGL 4890 - Cooperative Work Experience

Credits: (1-6)
Description: A continuation of ENGL 2890 Cooperative Work Experience. Open to all students.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

May be repeated 5 times with a maximum of 6 credit hours.

Note: Check with department for current course offerings.

ENGL 4900 INT - Internships in Literary and Textual Studies

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course allows students to receive academic credit for on-the-job learning in approved work environments and for approved projects. A maximum of 3 credit hours may be counted toward the

major. Credit/No-Credit only.

Pre-requisite(s): English major with a Junior or Senior standing; ENGL 2010 or ENGL 2015, and ENGL 3080. May be repeated for up to 6 credit hours.

ENGL 4910 - Capstone in English Teaching

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to synthesize a student's knowledge and training. The course will assist students in applying their content knowledge during the required teaching field experience. The course will also serve as a bridge to future employment by instructing students in portfolios, resumes, and recommendations. The class will underscore the acquisition of dispositional traits that produce responsible and effective teaching practices.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program, ENGL 2420, ENGL 3410, ENGL 3020, and ENGL 3755.

ENGL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.
May be repeated for a total maximum of 6 credit hours.
Note: Check with Department for course availability.

ENGL 4930 - Visiting Writing Master Class

Credits: (1)
Typically Taught Fall Semester: *1st Blk, 2nd Blk*
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Description: In this class, students will study the art and craft of creative writing, studying under the guidance of a nationally recognized visiting writer who will instruct them on writing theory and/or provide a short writing workshop of work from each student. Credit/No Credit grading.
May be repeated 3 times up to 4 credit hours.

ENGL 4940 - CW: Senior Project

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students will assemble a capstone portfolio to prepare them for professional writing environments. Some of the many topics students will explore are revision strategies, publishing, literary citizenship, applying to graduate schools, community building, and learning to write daily without academic deadlines.
Pre-requisite(s): ENGL 3250 or ENGL 3260 or ENGL 3280 or ENGL 3350.

ENGL 4960 INT - Metaphor: Editing the Student Literary Journal

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Designed for students selected as staff for Weber State's Literary Journal, Metaphor. Therefore, it is a hands-on workshop centering on all aspects of journal production: creating an editorial policy, advertisement, selection, layout, copy editing, preparing for print, marketing, distribution, etc. The journal itself is the final product. The staff supports writing and visual arts across campus through participation in several ancillary projects.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated twice with a maximum of 6 credit hours.

ENGR 1000 - Introduction to Engineering

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase design project parts
Description: ENGR 1000 (2) Introduction to Engineering is a required course in the Pre-engineering and Mechanical Engineering programs. A major part of ENGR 1000 is a design project in which the students participate on a team basis. Costs for this design project fall into one category only, consumables, which are mechanical and electrical components for their projects. The project is called a Stop-Shoot Vehicle (SSV). The components and associated costs per student per semester are summarized below:
Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

ENGR 2010 - Statics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Vector mechanics, force and moment systems, equilibrium of particles and rigid bodies, friction and moments of inertia.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2030 - Dynamics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Fundamentals of position, velocity and acceleration. Kinematics and kinetics of particles. Newton's laws, conservation of momentum and energy. Dynamics of rigid bodies.
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2140 - Mechanics of Materials

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Fundamentals of stress and strain, Hooke's law, torsion, bending of beams, combined stresses and design of members.
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2160 - Materials Science and Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Course fee for replacement of lab equipment and consumable parts
Description: A lecture course that introduces the fundamentals of atomic and microscopic structure of metals, polymers, ceramics and composite materials, and how these structures affect mechanical, thermal, electrical and optical properties.
Pre-requisite(s): CHEM 1210.
Pre-requisite/Co-requisite: ENGR 2140.

ENGR 2165 - Materials Science and Engineering Laboratory

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Laboratory course to accompany ENGR 2160 Materials Science and Engineering. Fundamenal concepts of mechanical measurement, reporting technical data, procedures for measuring material properties and measurement standards.
Co-Requisite(s): ENGR 2160.

ENGR 2240 - Dynamic Systems Engineering

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the modeling, analysis, and control of dynamic systems. Models of electrical, mechanical, electromechanical, and mass-transport systems in state-variable, input-output, and transfer function form. Topics include linear approximations of nonlinear systems, time domain and Laplace transform solutions, Block diagrams, feedback systems and large-scale linear systems analysis.
Pre-requisite(s): ECE 1270 and ECE 1400 and MATH 1210.

ENGR 2300 - Thermodynamics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Thermodynamic properties, equations of state, first and second laws of thermodynamics. Analysis of open and closed systems, availability and irreversibility, power and refrigeration cycles.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENTR 1001 - Principles of Entrepreneurship

Credits: (1)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.
Note: This course is not currently offered.

ENTR 1002 - Startup Innovation

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description:
This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneurial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven instead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manual textbooks. This class will also have students spending time 'out of the classroom'-
learning about what customers want and will pay for through in-
person prototype testing, iteration and feedback.

ENTR 1003 - Ideation and Customer Development: Testing Ideas with Customers

Credits: (1.5)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.
Pre-requisite(s): ENTR 1001, BSAD 2899 or ECON 2899.
Note: This course is not currently offered.

ENTR 1004 - Entrepreneurial Finance: Bootstrapping, Accounting & Survival Tactics

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start-up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start-up purposes.
Pre-requisite(s): ENTR 1002.

ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: This course takes students who have successfully identified a start-up and teaches them the process of customer development, product development, business models and selling ideas to investors and customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability.
Pre-requisite(s): ENTR 1004.

ENTR 2002 - Marketing Strategy for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course introduces students to marketing methods used by startups and early-stage companies with a particular an emphasis on pre-launch marketing strategies. This course seeks to develop the student's understanding of delivering value, standing out from the competition, and having a compelling reason to exist. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, assignments and a final project based on the student's business idea.

ENTR 2003 - Marketing Execution for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course introduces students to marketing methods used by startups and early-stage companies. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, and assignments to examine existing companies and how they executed various marketing tactics.

ENTR 2004 - Branding for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Branding for Small Business takes you through the process of identifying an innovation opportunity to create a new product and/or service that can generate profitable revenue for an established organization (aka: corporate innovation or non-profit innovation). In this course, students take on the role of managers, both proposing an innovation project and evaluating other innovation projects on behalf of the organization. Managers use a disciplined approach to identify an important customer "job" that's not getting done well with existing solutions. Managers precisely and accurately define important and unsatisfied customer needs for this job and propose a new solution that can profitably satisfy those needs better than competing alternatives.

ENTR 2005 - Product to Market

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Entering this course, you will move forward with validating in the market an opportunity you have identified that you believe is a high-potential demand creation opportunity. It is expected that you have already 1) verified the customers' job priorities, 2) verified that your value proposition is compelling to those customers, 3) designed a viable business model that you believe can profitably fulfill the value proposition, 4) ascertained an exhaustive set of value targets to inform solution design and 5) determined a demand creation strategy for commercializing the proposed solution (steps 1-5 in the AVID methodology). In this course, you'll continue through the AVID cycle, moving deeper into the discovery process.

ENTR 2006 - E-Commerce for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course will help you establish an e-commerce foundation for your business that can be built upon as you grow. We'll learn the steps needed to help your business start selling online.
From which platform to use, to a growth strategy once a foundation is built, this course will aid your journey in becoming digitally mature entrepreneurs. I'm not a traditional professor, so this class probably won't follow traditional guidelines. Innovation, experiences gained, and execution of principles taught will be more important than papers written or assignments turned in.

ENTR 2007 - Product Design & Prototyping for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course presents the overall process of taking an idea through to a manufactured product ready for marketing and selling. Starting from the initial product idea, each lecture will cover

a step in the process. Though specific skills and techniques will be covered, the goal is to understand primarily how to manage the process of design and development successfully. Students will learn to analytically vet ideas at the beginning and continually through the design and development cycle. They will also research successful products online and in-person, and understand what factors contributed to this effectiveness.

ENTR 2008 - Legal Foundations for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course is concerned with understanding and navigating some of the top legal issues facing business today. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective business owner, and (2) leader.

ENTR 2009 - Money Management for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course covers basic financial statements, creating pro-forma statements and analysis of financial statements. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup purposes.

ENTR 2010 - Funding For Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business startup. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup or expansion purposes.

ENTR 2011 - Results-Focused Leadership

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course is concerned with identifying, evaluating, and supporting metrics which promote outcomes which are important for your venture. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing your: (1) results-focused analytical abilities, and (2) leadership approach in directing/promoting employee growth. It is designed to give you insight into your own attitudes, beliefs, and leadership philosophy, to provide you with assessment tools that will help you diagnose, understand, and develop more effective and

influential leadership programs for your business. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2012 - People Management for Small Business

Credits: (1)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course is concerned with understanding and managing the human resources of a small business. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective manager, and (2) leader. It is designed to give you insight into your own attitudes, beliefs, and management philosophy, to provide you with analytical tools that will help you diagnose, understand, and develop solutions to management problems. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2550 - Scale & Exit

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description:
The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business.

ENTR 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENTR 3003 - Growing the Business

Credits: (3)
Description: This course helps students take their start-ups business to the next level and accelerate the pace of customer validation and acquisition. This course will focus on launching the business from a student run start-up in a university setting, to a standalone company that can operate outside the confines of a college campus.
Pre-requisite(s): ENTR 2550
Note: This course is not currently offered.

ENTR 4680 - Consulting Essentials

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required. Cross-listed with BSAD 4680.

ENTR 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENVS 4999 - Environmental Science ePortfolio

Credits: (.5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the Environmental Science program. Students assemble ePortfolios with artifacts demonstrating achievement of each of the six program learning outcomes in Environmental Science and complete a reflection essay. Contact your major advisor to complete this requirement once your portfolio is complete or, at the latest, at the beginning of your last semester before graduation. Credit/no credit.

ESS 2200 - Exploring Exercise Science Professions

Credits: (3)
Typically Taught Summer Semester: *2nd Blk Online, 1st Blk Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $13.99
Course Fee Purpose: The course has a fee attached. This course fee is used to provide an access code to the StrengthFinders assessment to each student enrolled in this course.
Description: Designed to orient and acquaint students with the goals, objectives, scope, professional preparation, career opportunities, and trends in exercise science professions.

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription

Credits: (3)
Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include skinfold calipers, blood pressure cuffs, online blood pressure course access, cycle ergometer maintenance, heart rate monitors, sit and reach boxes, and sanitizing supplies.
Description: Skills and competencies for prospective health fitness instructors, personal fitness trainers, and nutrition educators to deliver preventive exercise programs.
Pre-requisite(s): HLTH 1030 and NUTR 1020.

ESS 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all students in Human Performance Management and Physical Education who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times up to 6 credit hours.

ESS 3450 - Structural Kinesiology

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include muscle and bone models, classroom computers, isokinetic Dynamometer, EMG equipment, goniometers, bone density tester, hand-grip dynamometers, and movement analysis tablets and apps.
Description: This course is a detailed study of muscles, nerves, bones, and joints as they are involved in the science of movement. It is designed for students to experience theoretical concepts and apply functional anatomy knowledge to the execution and improvement of human performance.
Pre-requisite(s): HTHS 1110 and Co-requisite: HTHS 1111, or Prerequisite: ZOOL 2320.

ESS 3500 - Biomechanics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Course Fee: $25.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include force plates, isokinetic dynamometer, motion analysis devices and programs and EMG equipment.

Description: A study of the musculomechanical bases of human movement and experience in applying that knowledge to the execution and evaluation of human performance.

Pre-requisite(s): ESS 3450 and MATH 1050 QL or higher.

ESS 3510 - Exercise Physiology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include body composition equipment, skinfold calipers, BodPod, blood pressure cuffs, metabolic cart and equipment, ECG equipment, core temperature sensors, spirometry filters, ergometers, and lactate analyzer.

Description: A study of various physiological and environmental factors which affect performance of exercise and sport during acute exercise and physiological adaptations to chronic exercise.

Pre-requisite(s): HTHS 1110 or ZOOL 1020 or ZOOL 2420.

ESS 3540 - Physiological Aspects of Human Performance

Credits: (2)
Description: Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.

Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

ESS 3600 - Measurement and Statistics in Exercise Science

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include computer lab use, body composition equipment, vertical leap device, and handgrip dynamometer.

Description: The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health

promotion.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement.

ESS 4280 - Advanced Strength and Conditioning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course focuses on a more comprehensive/deeper understanding and applications of strength and conditioning concepts through in-depth discussions and practical application of strength and conditioning competencies. The emphasis is placed on performing evaluation of athletes and on program design under the guidance of Certified Strength and Conditioning Specialists (CSCS).
Pre-requisite(s): ESS 3510, PEP 3280, or permission of the instructor.

ESS 4320 - Special Topics

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Blk, 1st Blk Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course will provide undergraduate students an opportunity to learn emerging and timely topics in the areas of exercise science by critically interpreting information from various sources. The course will also allow students to engage in discussions to appreciate different perspectives on certain exercise science topics.
Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 or Permission of the Instructor.

ESS 4370 - Exercise Physiology for Special Populations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include laboratory equipment for blood cholesterol measurements, skinfold calipers, blood pressure cuffs, heart rate monitors, ECG supplies, treadmill and cycle ergometer maintenance.
Description: This course provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease. It provides students with fundamental knowledge of disease-specific pathology and treatment guidelines. The guidelines and considerations for pregnancy and older polulation will be also discussed. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.
Pre-requisite(s): ESS 2300 and ESS 3510.

ESS 4470 - Electrocardiography and Cardiac Rehabilitation

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce students to cardiac rehabilitation and current scientific and evidence-based models for designing and updating rehabilitation programs. Emphasis is placed on a deeper understanding of cardiovascular diseases, operation of electrocardiography, interpretation of electrocardiography readings, exercise testing, and exercise prescriptions.
Pre-requisite(s): ESS 2300, ESS 3510, or permission of the instuctor.

ESS 4620 - Leadership Concepts for Human Performance Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will study the current philosophical leadership concepts and the principles, practices, and issues of administration.
Pre-requisite(s): ESS 2200.

ESS 4800 CRE - Directed Undergraduate Exercise Science Research

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide undergraduate students an opportunity to engage in research processes and participate in ongoing research projects in the areas of exercise and sport science under the guidance of the ESS faculty.
Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 and/or Permission of the Instructor.
May be repeated for a total of up to 10 credit hours.

ESS 4830 - Directed Readings in Exercise Science

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem - Online, 1st Blk Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Each student is given the opportunity to do independent and directed readings, or secondary research on advanced special topics under the direction of a faculty mentor.
Pre-requisite(s): ESS 2200 and consent of faculty supervisor.

ESS 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: A continuation of ESS 2890.

May be repeated 5 times up to 6 credit hours.

ESS 4990 - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: For Seniors only. Structured seminar focuses on synthesis of ideas and portfolio preparation.

ESS 6300 - Advanced Biomechanics

Credits: (3)
Description: Designed to expose the graduate student to appropriate research in sports biomechanics and to be involved in the analysis of movement based on selected mechanical principles such as balance, buoyancy, leverage, force, angles of rebound, projection and motion.
Note: Check with Department for course availability.

ESS 6400 - Advanced Exercise Physiology

Credits: (3)
Description: Understanding the physiological changes associated with exercise and training and the reasons for change are the paramount directives of this course.
Suggested Requisite(s): Concurrent with the lecture component is the practicum laboratory experience of equipment operation and individual assessment of physiological parameters.
Note: Check with Department for course availability.

ESS 6540 - Physiological Aspects of Human Performance

Credits: (2)
Description: Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.
Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).
Note: Check with Department for course availability.

ETC 2001 SS/EDI - Engineering Culture

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Engineering Culture describes the culture of engineering and the social and scientific practices as well as beliefs that engineers ascribe to in pursuing their profession. It also describes how culture is shaped by engineering and by the technologies that engineers make and maintain. This course examines the professional cultures that engineers inhabit as well as the way that a wider culture is shaped by engineering.

ETM 5913G - Six Sigma Tools I

Credits: (3)
Description: This distance learning course provides an introduction to the six sigma body of knowledge as defined by the American Society of Quality (ASQ). The course will examine the foundations of six sigma and the statistical tools used in the initial stages of the DMAIC problem solving methodology.
Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as MATH 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm.

ETM 5923G - Six Sigma Tools II

Credits: (3)
Description: This distance learning course is a follow-on to the initial six sigma course and provides additional detail on the analyze, improve and control portions of the DMAIC problem solving methodology. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.
Pre-requisite(s): ETM 5913G, Six Sigma Tools I.

ETM 5933G - Lean Tools

Credits: (3)
Description: This course teaches students lean manufacturing tools for continuous improvement in a manufacturing environment.
Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as Math 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm. This distance learning course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

ETM 5943G - Lean-Sigma Implementation

Credits: (3)
Description: This course introduces students to the implementation skills necessary to successfully combine and apply lean manufacturing and six sigma concepts in small to mid-sized manufacturing facilities. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.
Pre-requisite(s): ETM 5923G, ETM 5933G.

FAM 1400 - Marriage and Romantic Relationships

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: An introductory survey course which addresses individual, interpersonal, and developmental dynamics essential for sustaining interpersonal and marital relationships.

FAM 2100 - Family Resource Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Understanding the significance of values, goals, attitudes and planning strategies in the management of human, economic and environmental resources as they relate to increasing satisfaction and the enhancement of family relationships.

FAM 2810 - Experimental Courses

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

FAM 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

FAM 2860 INT - Practicum

Credits: (2-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Work experience which applies prior academic learning in a supervised setting.
Pre-requisite(s): For Early Childhood majors: CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620, or consent of faculty advisor prior to registration.
May be repeated up to 6 credit hours.

FAM 2910 - Children & Families: Variable Titles

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.
Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620.

FAM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

FAM 2990B - Seminar in Family Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Discussion and analysis of special topics for Family Studies majors including professional skills, professional credentials, and the development of professional ethics.

FAM 3150 - Consumer Rights and Responsibilities

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: The role and responsibilities of the family and its members as consumers. An exploration of marketplace fact and fraud and identification of consumer resources.

FAM 3350 GLB - Diverse Families

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comparative analysis of various types of ethnic families in the United States reflecting their social and political dynamics with extensive coverage of the family lifestyles, traditions and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional and current ethnic family characteristics, and changes and adaptations to the ethnic family and culture.

FAM 3400 - Development in Middle Adulthood

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The content of this course is designed to create a foundation of knowledge and understanding for the required core competency of the nationally recognized Family Life Education Content areas. Specifically addressing competency area number 3, Human Growth and Development across the Lifespan. The course will focus on normative and non-normative individual developmental processes, as well as systemic dynamics of social context surrounding and impacting middle-aged development.

FAM 3450 - Adult Development

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: Growth and development through young, middle, and late adulthood within a developmental and family system context.

FAM 3550 - Parenting Education

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A course designed to assist in the acquisition of skills and knowledge regarding the understanding and facilitation of contemporary parents in their parenting role. Course content will include conceptualizations and strategies from both contemporary theoretical and applied perspectives.

FAM 3650 - Family Processes

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An examination of family internal dynamics and family systems for the purpose of enrichment, problem prevention and education.
Pre-requisite(s): CHF 2400.

FAM 3660 - LGBTQ Families

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an exploration and investigation into the issues facing lesbian, gay, bisexual, transgender, and queer (LGBTQ) families. Family is defined broadly to include all relationships in which primary care-giving responsibilities are shared by individuals who are interdependent upon each other. This includes conjugal relationships (marriages and other romantic relationships) and non-conjugal relationships (parent/children, friends, siblings, grandparents/grandchildren, etc.). We will consider not

only LGBTQ families, but also the social structures and systems in which they operate. We will use lectures, group discussions, films, readings and in-class activities to explore the meanings of sex, sexual orientation and sexuality, family form and function, care-giving, family-planning, marriage and parenting. We will pay particular attention to cultural, political, gender, racial, and economic dimensions of queer families. You will develop an understanding of the issues facing a wide range of LGBTQ+ family configurations.

Suggested Requisite(s): CHF 2400.

FAM 3700 - Family Life Education and Sexuality

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course is a survey of issues and attitudes associated with Family Life Education (FLE) and sexuality. It is primarily intended for professionals who currently work with individuals or plan to in the future. Using a biopsychosocial perspective, emphasis will be placed on the social, cultural, familial and individual differences in sexual and reproductive attitudes, values, and behavior. Students will be introduced to common sex-related issues and to the particular concerns of various sexually oppressed groups. Information will also be provided about childhood sexual abuse and its relationship to the intimacy issues that clients typically present in direct practice.

FAM 3820 - Organization and Leadership of Non-profit Family Services

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

FAM 3850 CRE - Current Research Methods in Child and Family Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the methods and types of research used in the study of family issues and processes. Focus of the course includes the development of student knowledge and skills used in applying the scientific method in family studies contexts. Understanding, reviewing, evaluating, and interpreting the methods and conclusions reported in the professional empirically based journals will also be emphasized.

Pre-requisite(s): CHF 1500, CHF 2400.

FAM 4275 - Family Life Education Coaching

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is to prepare students to become family life coaches. The course covers topics from the foundational theories/models of coaching (positive psychology, cognitive-behavioral coaching, and others), how to conduct coaching sessions, the delineation between counseling and coaching, and how to run a coaching business. Students will practice coaching with other students as well as with actual practice clients.

FAM 4300 - Latino Child and Family Development

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Online*
Description: The Latino Child and Family Development course is designed as an upper division course for those who will work with, advocate for, or interact with children and families from a Latino background. The course uses a cultural constructivist approach to understand Latino children and their families. The central focus includes the study of Latino culture, parenting practices, couple and marital practices, and other family dynamics. Additionally, a major goal is to understand and deconstruct stereotypes associated with individuals within the Latino culture. The course will simultaneously focus on Latinos living within the United States as well as cultural groups throughout North America, South America, and the Caribbean.

FAM 4310 - Understanding the Modern United States Military Family

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to assist you in understanding the structure and formation of each service branch as well as the experiences of families serving in the U.S. Military focusing on both Active duty and Reserve components using Family Systems Theory, Risk and Resiliency Theory and Ambiguous Loss Theory. In recent years, many changes have taken place in the military family landscape. The knowledge gained in this course should provide you with insight into the complex experiences of today's U.S. Military Families. The information provided in this course is designed to assist students to be effective in professional settings working with military personnel and their families, and is a starting foundation for those interested in pursuing professional civilian careers working with military families in a variety of settings (e.g., nonprofit organizations, the U.S. Military, and others). This course will focus on different components of family life that specifically impact military families. The course format will include (1) readings, (2) online lectures, (3) quizzes, (4) exams, and (5) online and in class discussion.
Pre-requisite(s): FAM 1400, CHF 1500, CHF 2400.

FAM 4350 - Religiosity and Family Life Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The Religiosity and Family Life Education course as an upper-division course that examines how various religious traditions and practices influence family dynamics and interaction. Specifically, how religious traditions and practices influence couple formation, martial dynamics, parenting practices,

gender roles, intergenerational relationships, and sexuality. Furthermore, to develop an understanding and appreciation for a diversity of faith traditions (including nonbelief). Finally, how family life educators can effectively work with diverse populations in a variety of settings.

FAM 4400 - The Family in Stress

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Examining causes of stress in the family and developing strategies for coping with stress.

FAM 4450 - Children and Families in the Medical Setting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to understand and serve children and families in the medical setting and to provide basic background and knowledge of Child Life practices. This course prepares individuals who plan to complete a 600-hour volunteer internship in the field of Child Life. Passing this course is required prior to entering into an internship and taking the National Child Life Certification Examination. The content of this course is designed to create a foundation of knowledge, both academically and practically, in the required core competencies of the Association of Child Life Professionals to achieve the nationally recognized Child Life Certification. The core competencies include the ability to assess and provide services to infants, children, youth, and families in a medical setting including stress management, coping strategies, educational preparation, age-appropriate interventions and community resource education.

FAM 4500 - Comparative Study of Childhood and Adolescent Development

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Spring Semester: *Full Sem*
Description: An advanced level course that addresses the understanding of the principles and theories of growth and development within and between the stages of children in childhood and adolescence. Covers the physiological, intellectual, social, emotional domains of development.

FAM 4520 - Basic Mediation Training

Credits: (3)
Description: A basic mediation training course addressing the theory and skills to effectively deal with conflict situations. The course leads to certification in basic theory and skills of mediation. (Supervised mediation practice is required to complete certification.)
Note: This course is taught as needed.

FAM 4600 INT - Family Studies Field Experiences

Credits: (1-8)
Description: Six to eight weeks internship, which may require off-campus residence. Credit and hours as arranged with instructor.
Pre-requisite(s): consent of instructor.
May be repeated up to 8 credit hours.
Note: This course is taught as needed.

FAM 4650 - Family Life Education Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Preparing students to be Family Life Educators by exploring philosophies, methods, and skills for teaching and working with parents and family members.
Pre-requisite(s): FAM 3350, FAM 3550, and FAM 3850, or consent of instructor.

FAM 4660 - Advanced Skills for Family Life Educators

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This upper division course is centered on students' development of interpersonal and pedagogical skills as Family Life Educators under the direct supervision of course instructors. This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators. This includes building audience engagement and trust through the use of observational feedback, responding to nonverbal cues, and addressing common teaching challenges. This course will teach students to present specific family life education program curricula. The course training will include students reviewing and presenting the family life education materials in two contexts: 1-within the classroom among peers and faculty and 2-within the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education, and it also provides students with the experience of having presented a community education program in multiple contexts.

FAM 4800 - Individual Research

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Supervised projects and primary research in various areas of Child and Family Studies.
Limited to advanced students upon consent of faculty supervisor.
May be repeated up to 6 credit hours.

FAM 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific

title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

FAM 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

FAM 4860 INT - Practicum

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Work or volunteer experience which applies prior academic learning in a supervised setting. Consent of faculty supervisor is required prior to registration.
Pre-requisite(s): for Family Studies Majors include FAM 2990B, FAM 3350, FAM 3550, FAM 3850, and completed background clearance.
May be repeated up to 6 credit hours.

FAM 4900 - Career Strategy Seminar

Credits: (1)
Description: Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.
Note: This course is not currently offered.

FAM 4910 - Children & Families: Variable Titles

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

FAM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is taught as needed.

FAM 4990B - Senior Seminar in Family Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Discussion and analysis of special topics for seniors in Family Studies major.
Pre-requisite(s): FAM 2990B, FAM 3350, FAM 3550, FAM 3850, or consent of instructor.

FILM 2200 CA - Fundamentals of Film

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $30.00
Course Fee Purpose: Screening materials and camera and editing equipment
Description: Fundamentals of Film Studies offers film majors a more specialized analysis of formal cinematic elements, and narrative structure while introducing students to the basics of filmmaking and related technologies. It helps film students to articulate the theoretical and practical skills to recognize, analyze, and create the film as an art form. Students will also learn about the principle of "building blocks" and formal elements (narrative, mise-en-scene, cinematography, sound and editing) that constitute the fundamental principles of analysis, genre, style, performance and storytelling. We will also outline, explain, and draw connections among artistic, technological, socioeconomic forces, which have shaped and reflected in the world of cinema. We will concentrate on essential films and directors from around the world to comprehend their contribution to the evolution of film form and content. In addition to the weekly lecture, screenings, and reading and writing assignments, students will also have the opportunity to put theory to practice by producing short film projects.

FILM 2280 - Introduction to Film Production

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $30.00
Course Fee Purpose: Maintenance and purchasing of camera and editing equipment
Description: This practical and technical course explores all essential aspects of filmmaking in preparation of more advanced film production classes. Participants will acquire a fundamental grounding in all of the essential skills in film production from planning a project to producing and on toward completing the project with an overview of film festival participation and distribution. Students will also have an opportunity to gain insight into industry-standard film equipment and post-production technologies. One of the primary goals of this course is to familiarise film students with the fundamentals of

cinematography, including the use of the professional camera, composition, lighting, and editing. Another goal is to examine the conceptual and unique challenges of visual-driven filmmaking: scriptwriting, pre-production, planning, continuity, and directing among them.

FILM 2820 - Special Topics in Film Studies

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: The special topic in film course may focus on an international cinema, a major filmmaker, genre, or a specific era.
It may be repeated three times for credit.

FILM 3200 - History of Film

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $30.00
Course Fee Purpose: Screening materials
Description: This class is a survey of world cinema from 1893 to the present. We will examine movies as a business, a social phenomenon, a series of technological innovations, and an art form, and we will work toward a functional explanation of how each of these aspects of the movies has changed over time. Although many people associate movies with the American film industry, filmmakers in every historical period and all over the world have worked to both distinguish their work from that of Hollywood and to draw upon some approaches innovated by the Americans. The films screened in class may include silent epic blockbusters from Italy, riveting crime thrillers from Germany, explosive Hong Kong action movies, French New Wave dramas, anarchic British satires, and many other examples of exciting and innovative filmmaking from all over the world.

FILM 3780 - Survey of Documentary Cinema

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The history of documentary cinema consists of a series of experimentations in the attempt to represent reality, taking its material from the historical world we live in. As we study the forms, modes, theories, and criticism of non-fiction film in this course, we will also discover how filmmakers have chosen to represent reality, how changing technologies and sensibilities have affected the way reality is represented in documentaries, and how nonfiction films have been used for different purposes.

FILM 3800 - Independent Study

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This Independent Study course provides an opportunity to earn academic credit for learning outside the regularly scheduled class structure. A student interested in knowing more about a topic not covered in the regular Film Studies curriculum may propose a creative or research project to any rostered department faculty member. If a student and faculty member share a sufficient interest in the subject to sustain an independent study project, an independent study contract will be created.
Pre-requisite(s): FILM 2280: Introduction to Film Production.

FILM 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

FILM 3900 - Sundance Film Festival Experience

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is a hybrid intense first-hand experience of the world of independent filmmaking through the Sundance Film Festival. The Sundance Film Festival has launched the careers of many contemporary auteurs, including the Coen Brothers, Christopher Nolan, Wes Anderson, Lynn Ramsey, Quentin Tarantino, and Steven Soderbergh. This course provides the opportunity for film students to hone their own creative and critical visions by viewing and discussing a wide variety of world premiere films, as well as by attending talks by filmmakers, business people, scholars, and critics in the vibrant environment of Sundance.

FILM 4120 - Careers in Film and Entertainment Industry

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This introductory course for producers, directors, writers, development personnel, and aspiring film executives examines the changing business issues associated with the film industry. This course is designed to provide film students with a systematic overview of the modern-day filmed entertainment industry, not only the traditional "Hollywood System" operating out of Los Angeles but the independent film model as well. Through lectures, discussions, and case studies, instruction focuses on current business and production issues and introduces new business models to navigate content onto new distribution platforms.

FILM 4700 - Film Studies Capstone

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $30.00
Course Fee Purpose: Maintenance and purchasing of camera and editing equipment
Description: This Capstone course is designed to conclude students' experiences as film majors at the Weber State University as well as to develop students' research, writing, and/or production skills. In this course, students will analyze or produce films that pertain to the special topic of their choice. Peer review will occur throughout the writing or production process. At the end of the course, students will present their findings and/or films to the class and faculty members from the Film Studies program.

FILM 4890 - Film Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: FILM 4890 connects the theoretical and practical understanding of film studies that students develop in the classroom to professional experience in the workplace. The course is open to Film Studies majors who have obtained internship placements working with professionals in film production, Film organizations such as Sundance Institute and Utah Film Commission, exhibition, preservation, or other film-related fields. The academic component of the course consists of reading and written work designed to provide a theoretical framework for experiential learning. Students will submit a portfolio of writing, reflections, and evaluations where they connect these readings to their on-site experiences.
Pre-requisite(s): FILM 2200: Fundamentals of Film; FILM 2280: Introduction to Film Production.

FIN 1010 - Personal Finance

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Personal and family budgeting, installment buying, borrowing money, buying a home, life and property insurance, personal investment, and retirement and estate planning.

FIN 2300 - Introduction to Investments

Credits: (3)
Description: A study of investment opportunities, mechanics, analysis, risk, and risk management at the introductory level. This course is designed for non-finance majors and will not be accepted as a substitute for FIN 3300.
Note: Course not currently being offered.

FIN 3200 - Financial Management

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Financial analysis, planning and control, working capital management, capital budgeting, and short-term and long-term financing. Student use of computers is required for the preparation of case study material used to enhance the presentation of selected topics presented in the course.
Pre-requisite(s): ACTG 2010, ECON 2010, MIS 2010, and QUAN 2600.

FIN 3300 - Investments

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth study of principles, concepts, and tools used in the investment field as they relate to investment opportunities, mechanics, financial statement analysis, risk, and portfolio management. Computer use is required to access the Dow-Jones market analyzer investment software and in the preparation and analysis of investment portfolios.
Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 3350 - Financial Institutions

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of the functions and significance of the major financial institutions, such as commercial savings institutions, with an emphasis on management problems, regulations, credit appraisal, and loan types.
Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 3400 - Real Estate Principles and Practices

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Description: Fundamental economic aspects of real estate with emphasis on realty as a commodity of trade. The subject matter in this course is of general interest to both those desiring to enter the real estate profession and those who only intend to own real estate.
Pre-requisite(s): FIN 3200.

FIN 3500 - Capital Budgeting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Capital investment decision-making procedures relative to make/ buy, lease/buy, working capital, replacements, and new investment decisions. Involves use of the computer in the analysis of cash flows and capital acquisition alternatives.
Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 4400 - Financial Problems - Corporate Finance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Problems in financial management with an emphasis on corporate finance. Use of financial software and computers is an integral part of problem solutions.
Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 4410 - Financial Problems - Investments

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Problems in financial management with an emphasis on investments. Use of financial software and computers is an integral part of problem solutions.
Pre-requisite(s): BSAD 2899, FIN 3300.

FIN 4800 - Independent Research

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

FIN 4850 - Finance Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore financial theory and practice in countries other than the U.S. Students will study international finance as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
May be repeated once up to 6 credits.

FIN 4860 INT - Finance Internship

Credits: (1-3)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through finance courses.
Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

FIN 4900 - Special Topics in Finance

Credits: (4)
Variable Title
Description: Special treatment of current topics in Finance. This course will involve primary and/or secondary research by class participants.
Pre-requisite(s): BSAD 2899, FIN 3200; Instructor approval.

FRCH 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.
May be repeated for credit under different titles.
Note: Course not currently being offered.

FRCH 1010 - First Semester French

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

FRCH 1020 - Second Semester French

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of FRCH 1010. Basic language skills including listening, speaking, reading, writing and culture.

FRCH 1700 - Conversational Skills

Credits: (1-3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.
Note: Course not currently being offered.

FRCH 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.
May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

FRCH 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

FRCH 2010 - Third Semester French

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of FRCH 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

FRCH 2020 HU - Fourth Semester French

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of FRCH 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

FRCH 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of FRCH 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

FRCH 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

FRCH 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.
May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

FRCH 2851 HU - Study Abroad

Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

FRCH 2852 - Study Abroad

Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

FRCH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

FRCH 2960 - Introduction to World Languages and Cultures

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Required of all majors during their first year. This course provides guidance to help the student successfully navigate their academic career in WSU Department of World Languages & Cultures and its programs. It provides an overview of what it is like to study a second language, as well as an overview of the U.S. language industry and language careers. The course is also designed to help students develop a clearer focus on their educational and occupational goals, as well as creating a sense

of belonging in our department, college, and community.
Co-Requisite(s): FRCH 3060.

FRCH 3000 - Proficiency Development

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

FRCH 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with department for course availability.

FRCH 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better.

FRCH 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better.

FRCH 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better.

FRCH 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

FRCH 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

FRCH 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

FRCH 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

FRCH 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

FRCH 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

FRCH 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

FRCH 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

FRCH 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with FL 3160 . May be repeated under different titles.

FRCH 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

FRCH 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

FRCH 3650 - Literature Periods

Credits: (3)
Variable Title

Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.
Note: Check with department for course availability.

FRCH 3690 - Special Topics in Literature

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3710 - Business Language I

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

FRCH 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

FRCH 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

FRCH 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

FRCH 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

FRCH 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

FRCH 3760 - Special Topics in Translation

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation and Translation Studies.

FRCH 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

FRCH 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

FRCH 4190 - Foreign Language Journal

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

FRCH 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.
Pre-requisite(s): FRCH 3160.

FRCH 4630 - Survey of Literature II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.

FRCH 4690 - Special Topics in Literature

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): FRCH 3160.

FRCH 4740 - Translation II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FRCH 3740 is strongly advised, but not required.

FRCH 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.
Note: Check with Department for course availability.

FRCH 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

FRCH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

Note: Course not currently being offered.

FRCH 4960 - Senior Project

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

FYE 1105 - Foundations of College Success

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course assists incoming students in making a successful transition to college. Topics include the purpose of higher education, goal setting, time management, study and test taking skills, critical thinking, stress management, academic advisement, career and major exploration, using campus resources, and understanding student responsibilities.

FYE 3170 - First Year Experience Mentor Leadership Seminar

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: In this seminar course, FYE Peer Mentors are taught to effectively help Foundations of College Success (FYE 1105) students in making a successful transition to college. FYE Mentor requirements are available at www.weber.edu/fye/. Course enrollment limited to FYE Peer Mentors. May be repeated once for 2 more credits and additionally for zero credits.

GEO 1030 PS - Earthquakes and Volcanoes

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: The causes, distribution, and effects of earthquakes and volcanoes within the framework of global plate tectonics. Development of problem solving and analytical thinking skills are emphasized through homework assignments related to geologic processes.
Three lectures per week.

GEO 1060 PS - Environmental Geosciences

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: The scientific study of the interaction of humans and earth systems including topics of natural hazards; soil, water, energy and mineral resources; and issues of global change.
Three lectures per week.

GEO 1065 - Environmental Geosciences Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Laboratory and field exercises involving analysis of geologic data related to environmental issues or problems. Application of the scientific method and development of basic computational and map interpretation skills will be stressed.
One three-hour lab per week.
Pre-requisite/Co-requisite: GEO 1060.

GEO 1110 PS - Dynamic Earth: Physical Geology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Fundamental principles of geology emphasizing physical aspects of the Earth including earth materials, plate tectonics, and the effects of water, wind and ice on the Earth's surface. Useful for all students, and recommended as the first geology course for students with majors/minors in geosciences, science teaching, archaeology, and pre-engineering.
Three lectures per week. Optional field trip to observe local geologic features.

GEO 1115 - Physical Geology Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The study of minerals and rocks in hand specimens, as well as surficial processes of the Earth revealed by topographic maps and air photos.
One three-hour lab per week.
Pre-requisite/Co-requisite: GEO 1060 or GEO 1110 or GEOG 1000.

GEO 1130 PS - Introduction to Meteorology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Survey of atmospheric processes that create weather. Topics include solar radiation, temperature, moisture, pressure, wind, storm systems, weather forecasting, and air pollution. Problem

solving skills and use of satellite imagery included.

Three lectures per week.

GEO 1220 - Historical Geology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The history of the Earth and the methods used to interpret this history. Short field trips required.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1110 and GEO 1115.

GEO 1350 PS - Principles of Earth Science

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Overview of Earth's systems, including weather, climate, seasons, rocks and minerals, processes that change Earth's surface, earthquakes, volcanoes, and plate tectonics. Data collection and analysis are included.

Two lectures and one three-hour lab per week. Designed for Elementary Education majors.

GEO 1710 - Introduction to Geographic Information Systems (GIS)

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.
Description: This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

Pre-requisite/Co-requisite: GEOG 1790.

GEO 1720 - Geospatial Analysis

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of equipment (e.g., GNSS instruments). The remaining funds are used replace expendables such as printer paper and color printer cartridges used for student printing in the lab.

Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become an advanced GIS user with marketable skills transforming data into information needed to address today's geospatial problems.
Pre-requisite(s): GEO 1710.

GEO 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GEO 2050 - Earth Materials

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to the origin, classification, and identification of minerals and rocks including topics related to crystallography, mineral chemistry, petrology, and the importance of mineral and rock resources to our society.
Three lectures and one three-hour laboratory per week.
Pre-requisite(s): GEO 1115 and CHEM 1200.
Co-Requisite(s): CHEM 1210.

GEO 2200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description: This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.
Pre-requisite(s): GEO 1710.

GEO 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

Cross-listed with BTNY, CHEM, GEO, and PHYS.

GEO 2820 - Elements of Research in the Sciences

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.

Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).

Cross-listed with CHEM 2820 and PHYS 2820.

GEO 2840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.

Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400

This is a dual-listed course with GEO 4840.

May be repeated for a maximum of three credit hours.

GEO 2850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: *Even Years*
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of

a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.

This is a dual-listed course with GEO 4850.

GEO 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in Geosciences who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 2950 - Geoscience Fieldtrips

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Application of basic Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations may be required.

Pre-requisite(s): consent of instructor.

May be repeated for a maximum of 6 credit hours.

GEO 3000 - Geoscience Methods and Careers

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to a variety of methods and skills used by geoscientists, including geoinformation literacy, written-oral-visual communication, and basic statistical/data analysis skills, that will be used and further developed in upper-division courses. Basic field and laboratory methods used in geoscience research/investigations will be demonstrated and practiced. Geoscience career paths will be explored and students will begin planning for professional licensure. Two hours of lecture and three hours of field/laboratory per week.

Pre-requisite(s): GEO 1220 and MATH 1010.

GEO 3010 SUS - Oceans and Climate

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: The study of the ocean as a framework for understanding the climate system. Topics include plate tectonics, the origin of ocean basins, the climate system, atmosphere-ocean interactions and feedbacks, ocean circulation, nearshore processes, geochemical cycling, biological productivity and marine ecosystems, and anthropogenic impacts to the marine environment (including climate change and marine pollution).
Three lectures per week.
Pre-requisite(s): GEO 1060 or GEO 1110 or GEO 1130 or GEOG 1000.
Suggested Requisite(s): MATH 1050.

GEO 3060 - Structural Geology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: Origin and characteristics of structural features in deformed rock. Topics include basic principles of stress, strain, and rock deformation; analysis of faults and folds; and relations to major tectonic features of Earth. Field trips required.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 2050 and either MATH 1050 or MATH 1080; or consent of instructor.

GEO 3080 - Applied Hydrology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A detailed examination of Earth's water cycle, including precipitation, surface water, groundwater, water management, and water conservation. Three hours of lecture and three hours of laboratory per week.
Pre-requisite(s): GEO 1115 and GEO 3000.

GEO 3150 - Geomorphology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: A study of landforms, surficial deposits, and geomorphic processes operating in fluvial, coastal, eolian, and glacial environments. Laboratory exercises employ maps, aerial photographs, and field analysis to understand the interactive nature of geomorphic processes and landform development. Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 1220 and MATH 1050 or MATH 1080.

GEO 3180 - Paleontology

Credits: (4)
Description: Characteristics of important fossil groups and their geologic distribution and paleoecology. Emphasis on the invertebrate record with some treatment of vertebrates and plants.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1220 or ZOOL 1610 or consent of instructor.

Note: This course is not currently offered.

GEO 3210 SUS - Paleoclimate

Credits: (3)

Description: An introduction to climate science and an overview of the paleoclimatic history of Earth focusing on the interactions between geological, climatological, and biological processes in Earth's systems. Topics include paleoclimate reconstruction using proxies and climate models, how plate tectonics and the carbon cycle affect long-term climate change, insolation controls on monsoons and ice sheets, the Last Glacial Maximum, oscillations in climate, and anthropogenic climate change. Three lectures per week.

Pre-requisite(s): GEO 1220 or GEO 3010.

Suggested Requisite(s): GEO 1220 and GEO 3010.

Note: This course is not currently offered.

GEO 3214 - Soils

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104 or GEO 1110 or GEO 1060 and CHEM 1130 or CHEM 1110 or CHEM 1210. Course is cross listed with BTNY 3214.

GEO 3250 - Geology of Utah

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Description: The study of Utah's geologic history, rocks, minerals, fossils, and landforms and their relationship to regional and global events. Field trips required. Three lectures per week.

Pre-requisite(s): GEO 1220.

GEO 3550 - Sedimentology and Stratigraphy

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: The processes, origin, classification, identification, and basic petrology of sedimentary rocks and the principles, concepts, and applications of stratigraphy. Field trips required.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 1220 and GEO 2050; or consent of instructor.

GEO 3570 - Foundations of Science Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

GEO 3710 - Introduction to Geographic Information Systems

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.
Description: This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

GEO 3720 - Geospatial Analysis

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of equipment (e.g., GNSS instruments). The remaining funds are used replace expendables such as printer paper and color printer cartridges used for student printing in the lab.
Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become a Geospatial/GIS analyst or advanced GIS user with marketable skills required in the geospatial workforce today.
Pre-requisite(s): GEO 3710.

GEO 3753 - Geomicrobiology

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $30.00
Course Fee Purpose: GEO 3753: fees support the cost of field trips, supplies for the labs, and helps support the course based undergraduate research project.
Description: Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore 1. geological change mediated by microorganisms, 2. microbial evolution driven by geologically diverse habitats, and 3. applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial applications of geomicrobiology. This team-taught course includes classroom discussion, laboratories, and field trips.
Pre-requisite(s): CHEM 1210/CHEM 1215 or approval of the instructor.
Cross-listed with MICR 3753.

GEO 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GEO 3840 - Remote Sensing: Principles and Methods

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Fee is used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for non-expendable items such as annual software license fees for (ESRI, ArcGIS, ENVI, Trimble, etc.) and replacement of computer work-stations and other equipment.
Description: This is an advanced geospatial course that introduces and analyzes important concepts, issues, and methods related to a variety of multispectral and other types of remotely sensed imagery (e.g., satellite and airborne platforms). The major objectives are to provide students with both a foundation in understanding different types of imagery and how to process imagery used to address geospatial problems and issues. After successful completion of this course, you will have the knowledge needed to understand different types / applications of imagery and the skills needed to process the image data and assess the accuracy of the results.
Pre-requisite/Co-requisite: GEO 3710.

GEO 3880 - Groundwater

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Description: Origin, occurrence, behavior, and use of groundwater, with special emphasis on practical applications in Utah.

Three lectures and one three hour lab per week.

Pre-requisite(s): GEO 1115 and either MATH 1050 or MATH 1080; or consent of instructor.

Note: This course is currently not being offered.

GEO 4060 - Geoscience Field Methods

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: A capstone course in the collection and analysis of field data for various Geoscience applications. Topics include introductory surveying, geologic mapping of bedrock and surficial deposits, measuring stratigraphic sections, GPS surveying, groundwater monitoring, and analysis of geologic hazards. Results are presented in maps, computer graphics, written reports, and oral presentations. Two hours of lecture and six hours of lab/field work per week.
Pre-requisite(s): GEO 2050, GEO 3000, and GEO 3550.

GEO 4080 - Groundwater and Environmental Assessment

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of groundwater hydrology, including the origin, occurrence, behavior, and use of groundwater and the transport of groundwater and soil contaminants. Environmental site assessment and groundwater remediation are also examined. Three hours of lecture and three hours of laboratory per week.
Pre-requisite(s): GEO 3080.

GEO 4100 - Engineering Geology

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Introduction to basic concepts in engineering geology and geotechnical engineering; emphasizes problem solving as the primary method.
Three lectures per week.
Pre-requisite(s): GEO 1060 and GEO 1065, or GEO 2050, or consent of instructor.

GEO 4200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description: This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective

is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.

Pre-requisite(s): GEO 3710.

Crosslisted with GEO 2200.

GEO 4300 - Igneous and Metamorphic Petrology

Credits: (4)
Typically Taught Spring Semester: *Full Sem even years*
Description: The origin, classification, and identification of igneous and metamorphic rocks, and understanding of igneous and metamorphic processes. Laboratory includes analysis of rocks in thin section and an introduction to optical mineralogy.

Three lectures and one three-hour lab per week.

Pre-requisite(s): GEO 2050 and CHEM 1220; or consent of instructor.

GEO 4510 - Geology Field Camp

Credits: (4)
Typically Taught Summer Semester: *1st Blk even years*
Description: Integrated approach to collecting field data and interpreting geologic processes and history. Includes geologic mapping and analysis of bedrock, surficial deposits, and geologic structures using aerial photographs, topographic maps, and surveying techniques. Results presented in written reports, maps, and graphical formats.

About forty hours of lab per week for about 4 weeks.

Pre-requisite(s): GEO 3060, GEO 3550, and GEO 4060; or consent of instructor.

GEO 4550 - Geochemistry

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: The chemical evolution of the Earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere. Applications to chemical reactions, mineral stability, aqueous solutions, geochemical cycles, and isotope geochemistry.

Three lectures per week.

Pre-requisite(s): CHEM 1220 and GEO 2050; or consent of instructor.

GEO 4560 - Environmental Geochemistry

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and

isotope geochemistry. Laboratory introduces practical skills and real-world applications.

Three hours of lecture and three hours of lab per week.

Pre-requisite(s): CHEM 1220; or consent of instructor.

GEO 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)

Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

Note: This course is offered as needed.

GEO 4600 - Geophysics

Credits: (3)

Description: Principles and techniques of geophysical exploration, including gravity, magnetic, electric, and seismic methods. Course includes field collection and computer modeling of geophysical data.

Three lectures per week. Field trips required.

Pre-requisite(s): GEO 3060 and MATH 1220; or consent of instructor.

Note: This course is not currently offered.

GEO 4630 - Global Tectonics

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Description: Large-scale structure and dynamics of the Earth. Framework of plate tectonics including plate motion, processes at plate boundaries, and driving mechanisms. Processes of crustal deformation and evolution of orogenic belts over time, with examples from North America.

Three lectures per week. Field trips required.

Pre-requisite(s): GEO 2050 and GEO 3060; or consent of instructor.

GEO 4750 - Special Topics in Geosciences

Credits: (1-4)
Variable Title
Typically Taught Spring Semester: *Full Sem*

Description: An opportunity to examine in depth topics in the Geosciences not regularly offered as part of the standard course offerings. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): GEO 1110, GEO 1115, and any specific courses selected by the instructor.

May be repeated for a maximum of 8 credit hours.

GEO 4800 CRE - Independent Research

Credits: (1-3)
Typically Taught Summer Semester: *Offered as needed.*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent research under the advisement of a faculty member.
Pre-requisite(s): Consent of instructor prior to registration.
May be repeated for a maximum of six credit hours.

GEO 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GEO 4830 - Directed Readings

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual readings in the general areas of geoscience and/or environmental science. Specific topics and readings selected in consultation with faculty member. Students will complete a scientific literature review and/or annotated bibliography.
Pre-requisite(s): GEO 3000 and approval of instructor.
May be repeated twice for a total of 2 credits.

GEO 4840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.
Pre-requisite(s): Consent of instructor prior to registration.
Pre-requisite/Co-requisite: GEO 3720 and GEOG 4400.
This is a dual-listed course with GEO 2840.
May be repeated for a maximum of three credit hours.

GEO 4850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: *Even Years*
Description: This capstone course provides a summative learning experience that is a culmination of a

student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

Pre-requisite/Co-requisite: GEO 3720, GEO 4200, and GEOG 4400.

This is a dual-listed course with GEO 2850.

GEO 4890 INT - Cooperative Work Experience

Credits: (1-6)
Description: A continuation of GEO 2890. Open to all students.

May be repeated for a maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 4950 - Advanced Geoscience Fieldtrips

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Application of Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations required.

Pre-requisite(s): consent of instructor.

May be repeated for a maximum of 6 credit hours.

GEO 4970 - Senior Thesis

Credits: (2)
Description: A thesis to be written by a student at the culmination of a period of individual field/laboratory and library research, under the direction of a specific faculty person.

Pre-requisite(s): Senior standing and departmental approval of the thesis topic.

Note: This course is offered as needed.

GEO 4990 - Earth Science and Society Seminar

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Case studies, readings, presentations, and/or seminar-style discussions related to natural

hazards/disasters, natural resources, climate change, and environmental issues. Guest speakers highlight a range of careers in earth and environmental science.
 Two hours of lecture and/or seminar discussion per week.

GEO 5030G - Geology for Teachers

Credits: (2-4)
Description: Science content course for teachers in the M.Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
May be repeated once with a maximum of 4 credit hours.
Note: This course is offered as needed.

GEO 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: With a focus on interactions among air, water, land and life, this course explores the essentials of Earth's dynamic physical systems and society's profound impact upon them. When you finish this course, you will have a better understanding of how the planet works, a deeper appreciation for the environmental changes affecting all life on earth, and a guide to the prospects for a sustainable future.

GEOG 1002 - GPS, Map Reading and Navigation

Credits: (1)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *1st Blck*
Typically Taught Spring Semester: *2nd Blk*
Description: Students learn how to use fundamental navigational equipment such as global positioning systems (GPS), compasses, aerial photos, and common topographic maps. Field work prepares course participants to apply these navigational skills and knowledge. With these skills you will not get lost. Weekly two-hour lab sessions for ten weeks.

GEOG 1005 - Planet Earth: Local Field Studies

Credits: (1)
Typically Taught Summer Semester: *1st Block, 2nd Block*
Typically Taught Fall Semester: *1st Block*
Typically Taught Spring Semester: *2nd Block*
Description: Students conduct local field studies and measurements to explore air, water, land and life.
Pre-requisite/Co-requisite: GEOG 1000.

GEOG 1300 SS/SUS/EDI - Exploring Global Geography: Places, People and the Planet

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: With an eye toward change and challenges, this course explores the planet's diverse and interdependent regions and people. Students gain a firm grounding in global economic, social and environmental issues, and how they manifest in the countries of the world. When you finish this course, you will know more about the geography of our global community and the shared and substantial challenges we all face if we are to achieve a sustainable future.

GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course examines the science behind climate change and provides an understanding of the basic physical, chemical, biological and geographical principles that explain the Earth's climate system and the human influence upon it. This course also explores the impacts of climate change, climate justice and communication, and considers feasible solutions. When you finish this course, you will be able to separate climate change myths from realities, and grasp the map to a sustainable future.

GEOG 1520 SS/EDI/SUS - United States and Canada: Geography, Diversity and Change

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course explores the diverse places and people of the United States and Canada, with a focus on rapid change and sustainability. Students gain a firm grounding in a range of interconnected economic, social and environmental issues. Topics include warming climates, polarized politics, diversifying populations, growing economic inequality, all-consuming technology, natural disasters, social justice, immigration, and many more. When you finish this course, you will better understand the geography of such transformative change in the context of this multifaceted region.

GEOG 1790 - Exploring Our World Through Geospatial Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This exploratory course introduces students to the fundamental concepts of Geospatial Science and how Geospatial Technology (GST) is used to measure, imagine, study, and discover our complex and ever-changing human and natural world. You will learn the basic techniques of cartography (mapping), GPS (global positioning systems), GIS (Geographic Information Systems), spatial analysis, and remote sensing (drones and satellites).

GEOG 2400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Course Fee Statement: The fees for this course are used to support licensing and equipment needs of the course and geospatial courses in general at Weber State University. Thank you for allowing us to bring you the commercial grade and work bench software and tools that you will need and use in your geospatial futures.
Description: Cartography and Map Design is an essential component of geospatial knowledge and skills and anchors all research, presentation, publication, decision-making, and output from Geospatial Technologies. This course will cover geovisualization topics such as map components, projections, symbols, scale, grid systems, direction, coordinates, distance, relief, color, patterns, and the map design process. You can expect to work with Geographic Information Systems (GIS), though no previous experience is necessary. After finishing this course, you'll be able to study, understand, analyze, interpret, and especially construct good maps.

GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability

Credits: (1)
Typically Taught Fall Semester: *2nd Block*
Typically Taught Spring Semester: *2nd Block*
Description: This course introduces new and prospective Geography, Environment & Sustainability majors and minors to career opportunities, department faculty, options for major tracks, and real-world applications of geographic perspectives and techniques. When you finish this course, you will be able to identify a pathway through a major or minor and into a productive career.

GEOG 2840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description:

This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor

to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.

Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400.

May be repeated for a maximum of three credit hours.

GEOG 2850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.

GEOG 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

GEOG 2950 - Regional Field Studies or Field Trips

Credits: (1-3)
Typically Taught Summer Semester: *1st Block, 2nd Block*
Typically Taught Fall Semester: *1st Block*
Typically Taught Spring Semester: *2nd Block*
Description: Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience.

May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

GEOG 3050 - Weather and Climate: from daily storms to decades of drought

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines Earth's climate system, and the way its components interact to produce major weather and climate features. Examples include tornadoes, hurricanes, jet streams, El Niño, and the causes and consequences of climate change. When you finish this course, you will better

understand our complex atmosphere, and the ways in which it affects us all.
Pre-requisite(s): GEOG 1000, or GEOG 1500, or GEO 1130, or the equivalent, or instructor's consent.

GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores a range of environmental issues from local to global contexts, considering their root causes, impacts, and interconnections to social and economic factors. Topics typically include air and water quality, food production, forests, consumption and waste/resource management, and the overarching issue of climate change. The course also identifies solutions to these challenges toward the creation of a more sustainable, equitable and healthy world for all. When you finish this course, you will better understand how people have transformed the environment and your own ability to contribute to solutions.
Pre-requisite(s): GEOG 1000, or BTNY 1403, or the equivalent, or consent of the instructor.

GEOG 3070 - Wetland Environments

Credits: (3)
Description: Analysis of physical properties, values, economic, and legal issues associated with wetland environments. Since wetlands in different places have many different attributes, a detailed examination is made of wetland environments in different parts of the United States.
Note: Course not currently being offered.

GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This class explores the complexity of a desert environment using a variety of learning materials such as satellite imagery, local to global databases, literature, podcasts, and documentaries. Students will discern the natural forces responsible for creating features of desert landscapes throughout the world. The class also explores how arid environments have shaped cultural practices and the management of resources in areas with little water and those facing climate change. Students will likely participate in brief local field work either during class time or on their own. After taking this class, students will understand why water is scarce in certain places, what forms the unique features of arid lands including those in Utah, and the delicate process of sustaining life in such environments.
Pre-requisite(s): GEOG 1000, GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3090 - Arctic and Alpine Environments

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course explores polar and high mountain physical environments, how humans interact with them, and the broader roles these places play within global-scale Earth systems. Topics include the causes and consequences of avalanches, polar climate and ozone depletion, basic glaciology, sea ice,

and the responses of human physiology to high altitudes. When you finish this course, you will know more about Earth's spectacularly beautiful cold places, and why they matter to the rest of the world. **Pre-requisite(s):** GEOG 1000, or GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3210 - Urban Geography: The How and Why of Cities

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores cities-the urban and suburban places where most of us in the world choose to live. In this course we will study the historical development of cities, the geography of how cities continue to grow and change, and how cities interact with their changing natural environments. When you finish this course, you will understand how cities work and be prepared to participate in a more sustainable urban future.

GEOG 3300 - Historical Geography of the United States

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A geographic analysis of America's past featuring an examination of cultural development in different parts of the United States and how this has produced many distinct regional landscapes throughout the country.

GEOG 3360 - Economic Geography: Globalization, Development and Conflict

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: More than anything else, economic activity binds the world's places, resources, producers, consumers, markets, governments, technology, and citizens. This global development produces both extravagant wealth and searing poverty, and it is rapidly exhausting the planet's natural environment. This course takes students from local to global as it explores the stunning force of economic activity. When you finish this course, you will better understand the power and peril of the global economy.

GEOG 3500 - Geography of Utah and the American West

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course examines the geography of the fast-growing and ever-changing state of Utah. Through explorations of public land, water, cities, tourism, environmental issues, population, and political economies this course provides a foundation for understanding Utah and how the state fits in the regional context of the American West. When you finish this course, you will be prepared to engage more thoughtfully with the challenges and opportunities of Utah and the American West.

GEOG 3540 - Geography of Latin America and the Caribbean

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Description: From Mayan, Aztec, and Incan beginnings to Conquest and Colonization by European powers, and later U.S. hegemony, this region of extraordinary natural beauty and diversity has been the subject of foreign intervention and control. Its contemporary geography is a legacy of the mighty forces that created the Amazon and the Andes as well as the clash of cultures from abroad, and now rapid and transformative change. When you finish this course, you will be able to chart the influences that have shaped this fascinating region.

GEOG 3590 - Geography of Europe: the Land and People who Built a World Power

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: What is Europe? A hearth of civilization or the home of war, conquest, and global empires? An emerging superstate or a fragmented collection of nations? This course explores the geography of Europe, from its physical environments to its diverse people and historical landscapes, and the geographical origins of current issues, such as the expansion and fracturing of the European Union, the future of NATO, and tensions with nearby countries and regions. When you finish this course, you will better understand the complexities of this historic U.S. ally and trading partner.

GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Description: This course explores the diverse geographies of East Asia, South Asia, and Southeast Asia-including the powerful and populous countries of China and India. Specifically, the class investigates how each region is following different development paths, is impacted by and influences global geopolitics, and is experiencing changing populations, economies, and environments. When you finish this course, you will be better prepared to engage with a world in which many countries in the Asian region are becoming increasingly influential.

GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The geography of Africa is one of historical mystique, rapid modernization, and tremendous diversity. This course builds upon a basic understanding of Africa's physical geography and early history to examine continued neocolonial impacts and challenges facing the people of Africa today. In today's increasingly interdependent global community, understanding ethnic diversity, differences in gender, age and class is critical to resolving social, economic, political and environmental problems in both the African context, and in our own interconnected society. When you finish this course, you'll have a full appreciation of Africa's diverse geography.

GEOG 3780 - Geographic Area Studies

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Surveys different geographic areas and regions of the world. When this number is used it will

be accompanied by a descriptive title and the credit authorized, which will appear on the student's transcript. May be repeated for credit up to nine hours when a different title is used.

GEOG 3790 CRE - Research Methods in Geography

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces the methods used in geographic research, beginning with hypothesis formulation, review of literature, research design, gathering and analysis of data from a spatial perspective, and the analysis, interpretation and presentation of research results. Students are exposed to both quantitative and qualitative methods commonly used in geographic research, and are expected to have basic proficiency in spreadsheets, word processing and presentation software. IRBs and Grant Writing are also covered. The course is an essential prerequisite for GEOG 4990 CRE - Senior Seminar in Geography, which should be taken in the following semester.
Pre-requisite(s): One statistics class taken from any of the following: CJ 3600, SW 3600, GERT 3600, PSY 3600, SOC 3600, or MATH 1040.
Pre-requisite/Co-requisite: GEOG 2790 with a grade of C or higher.

GEOG 4400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Course Fee Statement: The fees for this course are used to support licensing and equipment needs of the course and geospatial courses in general at Weber State University. Thank you for allowing us to bring you the commercial grade and work bench software and tools that you will need and use in your geospatial futures.
Description: Cartography and Map Design is an essential component of geospatial knowledge and skills and anchors all research, presentation, publication, decision-making, and output from Geospatial Technologies. This course will cover geovisualization topics such as map components, projections, symbols, scale, grid systems, direction, coordinates, distance, relief, color, patterns, and the map design process. You can expect to work with Geographic Information Systems (GIS), though no previous experience is necessary. After finishing this course, you'll be able to study, understand, analyze, interpret, and especially construct good maps. Advanced work required for upper division credit.

GEOG 4410 SUS - Sustainable Land Use Planning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A study of the status and tools of planning, planning office organization, the federal and state role in planning, and problems in planning. The course emphasizes concepts of sustainable land use planning such as resource conservation, air and water quality improvement, agricultural land preservation, transit oriented development, and alternatives to suburban sprawl.

GEOG 4420 - Advanced Urban and Regional Planning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A study of the enabling legislation for planning, zoning laws and ordinances, rezoning and review processes, zoning problems, and the ramifications of urban growth. The preparation, financing, citizen participation and evaluation of land use pertaining to general plans. Class groups will prepare, critique, and present a draft urban general plan.
Pre-requisite(s): GEOG 4410.

GEOG 4600 - Geospatial Programming and Online Methods

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Course Fee Statement: The fees for this course are used to support licensing and equipment needs of the course and geospatial courses in general at Weber State University. Thank you for allowing us to bring you the commercial grade and work bench software and tools that you will need and use in your geospatial futures.
Description: Increasingly, geospatial professionals count both programming and web methods among their most useful skill sets, and employers often list them as highly desirable. This course focuses on two essential components of that geographic online experience: geospatial programming and online methods. This class is conducted in the Python programming language, but no previous experience is required. The first half of the course is devoted to helping students learn Python, while the second half is focused on applications of Python in the geospatial domain, including ESRI's ArcPy, Open Source Modules, and custom web mapping solutions. With these tools, students will be able to solve geospatial problems, extend functionality, and streamline/automate GIS workflows through the creation and modification of Python scripts.
Pre-requisite/Co-requisite: GEO 4200.

GEOG 4800 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A personalized course designed to foster individual research and scientific writing. A maximum of six credit hours will be accepted toward a major in geography. **Instructor approval required before registering for this course.**
Pre-requisite(s): Instructor approval required before registering for this course.
May be repeated up to a maximum of 12 credit hours.

GEOG 4840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This summative course provides a structured work experience in a supervised setting under

the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.

Pre-requisite/Co-requisite: GEO 3720 and GEOG 4400.

May be repeated for a maximum of three credit hours.

GEOG 4850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

This is a dual-listed course with GEOG 2850.

GEOG 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all students in Geography who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

A maximum of six credit hours will be accepted toward a major in geography. **Instructor approval required before registering for this course.**

GEOG 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student's transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

GEOG 4950 - Advanced Regional Field Studies or Field Trips

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Fall Semester: *1st Block*
Typically Taught Spring Semester: *2nd Block*

Description: Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience. Expectations and outcomes are more advanced than those of GEOG 2950. A maximum of six credit hours will be accepted toward a major in geography.

Pre-requisite(s): A general course in Geography or consent of the instructor.

May be repeated up to a maximum of 12 credit hours.

GEOG 4990 CRE - Senior Seminar in Geography

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This capstone course builds on GEOG 3790 CRE - Research Methods in Geography. Students engage in a primary research experience that draws on the full range of skills and abilities acquired in prior semesters and classes, culminating in an original, professional-quality research report, thesis, or applied project. Students present their work in an end-of-semester forum, and will have the opportunity to present in other professional settings and/or submit their work for publication.

Pre-requisite(s): Senior standing.

Pre-requisite/Co-requisite: GEOG 3790.

GEOG 5030G - Geography for Teachers

Credits: (3)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Course may be repeated. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. Graduate.

Note: This course is offered as needed.

GERT 1010 SS - Introduction to Gerontology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of physical, psychological, social-psychological, and social dimensions of aging and the application of principles and strategies to facilitate adaptation to aging. Emphasis is placed on methods of gathering knowledge, the current knowledge base, and strategies for adaptation in the later stages of life cycle.

GERT 2220 - Introduction to Social Gerontology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A scientific study of social and psychological aging and the application of principles and strategies to facilitate adaptation to aging. The focus is on methods and systems for gathering data, demography of aging, social theoretical perspectives, psychological effects of aging, aging and the economy, and government and the politics of aging.

GERT 2900 - Current Topics on Aging

Credits: (2-4)
Variable Title
Description: A study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.
May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated up to 3 times for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 3000 - Death and Dying

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth study of death, death-related issues and social institutions and practices dealing with death in American society, with special emphasis on the social processes surrounding death and constructive responses to death and dying.
Cross-listed with SW 3000.

GERT 3120 - Aging: Adaptation and Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes.
Cross-listed with SW 3120.

GERT 3320 - Ethnicity and Older Women in the American Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The importance of special populations (ethnic, racial and women) as they relate to the aging process.
Cross-listed with SW 3320.

GERT 3400 - Methods of Research: Social and Behavioral Research

Credits: (4)
Description: Focus on acquiring knowledge, developing skills, and conducting social and behavioral scientific research, utilizing single system design that includes visual and statistical assessment. The course will include both qualitative methodologies (evaluative research, historical methods, case studies, field research, ethnography studies, and grounded theory) and quantitative methodologies (experimental and survey with a special emphasis on survey).
Pre-requisite(s): It is recommended to take a Statistics course before Research.
Note: Course not currently being offered.

GERT 3500 - Social Welfare & Gerontological Policy Development and Service

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The history, mission, philosophy and human service aspects used in the development of social work/gerontology as a profession will be covered. Examples of social, public and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobby, funding and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of processes and policy will be covered.
Pre-requisite(s): SW 1010 or GERT 1010. (SW 3500/GERT 3500 must be completed before entering Field Practice).

GERT 3600 - Social Statistics

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*
Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*
Description: Introduction to analysis and presentation of data.
Pre-requisite(s): Meet WSU Quantitative Literacy requirement.
Cross-listed with SW 3600.

GERT 4220 - Societal Responses to Aging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will presented.
Cross-listed with SW 4220.

GERT 4650 - Retirement: Adjustment/Planning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to cover aspects of retirement relating to job change or

discontinuance. The processes, events, social roles, and phases of life will presented.
Cross-listed with SW 4650.

GERT 4830 - Readings and/or Projects

Credits: (2-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings and/or projects for the senior Gerontology major (with the approval of the instructor).
May be repeated once for a maximum of 4 credits.
Note: Check with department for course availability.

GERT 4860 - Introductory Field Practicum

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introductory experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 1010, GERT 3320 and GERT 3500; must be a declared minor. Offered on demand.

GERT 4861 - Advanced Field Practicum

Credits: (2)
Description: Advanced experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 3400, GERT 3500, GERT 4860, and must be a declared major or minor.
Note: Course not currently being offered.

GERT 4862 - Specialized Field Practicum

Credits: (2)
Description: Specialized experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 3600, GERT 4861, and must be a declared major or minor.
Note: Course not currently being offered.

GERT 4900 - Current Topics on Aging

Credits: (2-4)
Variable Title

Description: An in-depth study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.

May be repeated once for a maximum of 4 credits.

Note: This course is offered as needed. Please check with the department for availability.

GERT 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

GERT 4990 - Senior Seminar

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Preparation and discussion of gerontology concepts and topics. Information and techniques for obtaining a job and selecting a graduate school.
Pre-requisite(s): GERT 1010, GERT 3320, GERT 3400, GERT 3500 and GERT 3600. Offered on demand.

GRMN 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

May be repeated for credit under different titles.

Note: Course not currently being offered.

GRMN 1010 - First Semester German

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

GRMN 1020 - Second Semester German

Credits: (3)
Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of GRMN 1010. Basic language skills including listening, speaking, reading, writing and culture.

GRMN 1700 - Conversational Skills

Credits: (1-3)
Course Fee: $8.00
Course Fee Purpose: Cover the cost of classroom equipment maintenance and replacement such as desktops, projectors, projector screens, and software, including the tutoring site (EH 244) and the language lab (EH 408); consumable materials and supplies; and support for student tutors, and online instructional resources.
Description: Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

GRMN 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.
May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

GRMN 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

GRMN 2010 - Third Semester German

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

GRMN 2020 HU - Fourth Semester German

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

GRMN 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of GRMN 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

GRMN 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

GRMN 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.
May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

GRMN 2851 - Study Abroad

Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

GRMN 2852 - Study Abroad

Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply. Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

GRMN 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GRMN 2960 - Introduction to World Languages and Cultures

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Required of all majors during their first year. This course provides guidance to help the student successfully navigate their academic career in WSU Department of World Languages & Cultures and its programs. It provides an overview of what it is like to study a second language, as well as an overview of the U.S. language industry and language careers. The course is also designed to help students develop a clearer focus on their educational and occupational goals, as well as creating a sense of belonging in our department, college, and community.
Co-Requisite(s): GRMN 3060.

GRMN 3000 - Proficiency Development

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

GRMN 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with department for course availability.

GRMN 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better.

GRMN 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better.

GRMN 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better.

GRMN 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

GRMN 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

GRMN 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

GRMN 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

GRMN 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

GRMN 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

GRMN 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

GRMN 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

GRMN 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place.
May be repeated under different titles.

GRMN 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place.
May be repeated under different titles.

GRMN 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM= Intermediate Mid) One literature course is required for regular and teaching majors.
May be taken concurrently with GRMN 3160. May be repeated under different titles.

GRMN 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3650 - Literature Periods

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

GRMN 3690 - Special Topics in Literature

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.
Suggested Requisite(s): May be taken concurrently with GRMN 3160.
Note: Check with department for course availability.

GRMN 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

GRMN 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

GRMN 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

GRMN 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

GRMN 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

GRMN 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

GRMN 3760 - Special Topics in Translation

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation Studies and Localization.

GRMN 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GRMN 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be

performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

GRMN 4190 - Foreign Language Journal

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

GRMN 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4630 - Survey of Literature II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4690 - Special Topics in Literature

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): GRMN 3160.
May be repeated up to 10 times under different titles.

GRMN 4740 - Translation II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation

of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

GRMN 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

GRMN 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

GRMN 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

GRMN 4960 - Senior Project

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

GSE 6000 - Fundamentals of Graduate Study

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: This course serves as an introduction to the MED program and to scholarship in education. Students will draw from diverse fields of educational inquiry (e.g. psychology, sociology, philosophy, history) to develop and present critically informed perspectives on current topics in P16 education. Multiple approaches to scholarly writing will be addressed.

GSE 6010 - Advanced Historical Foundations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Study of the relationship of contemporary schooling issues to historical practices and philosophies.

GSE 6020 - Creating Environments for Student Success

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to provide students with the knowledge and concepts needed to develop appropriate, informed, and sensitive responses to the rich diversity found in the U.S. educational system. Content will focus on theoretical and practical issues of diversity, equity, inclusion, and belonging in educational settings.

GSE 6030 - Advanced Educational Psychology

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course is designed to provide an in-depth understanding of behavioral, cognitive and brain based psychological theories. The focus will be how this knowledge can impact and inform educational decisions and practices.

GSE 6055 - Curriculum Theory

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Description: This course will focus on advancing students' understanding of the historical and contemporary theoretical underpinnings of curriculum development in the United States. In exploring these issues, students will gain a broad perspective of curriculum, recognize historical orientations of curricular theories, and investigate the societal consequences of the implementation of individual curricular frameworks.

GSE 6065 - Assessment and Informed Decisions in the Classroom

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: This course explores making ethical and practical decisions in the classroom informed by a variety quantitative and qualitative data as well as formal and informal assessments relative to students' safety, academic achievement, and overall well-being.

GSE 6080 - Conducting Educational Research

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students learn to locate and interpret educational research, and to apply research methods to their own education issues.
Pre-requisite(s): GSE 6000.
Note: (Only taught fall and spring)

GSE 6100 - Leadership and Organizational Theory

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Description: This course focuses on the multiple facets of organizational cultures, leadership styles, and organizational change for educational leaders. Students will examine how organizational theory is applied in the educational setting.

GSE 6101 - Assessment and Data-Driven Decision Making

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course will provide an overview of planning and decision making including assessment, strategic planning, and program evaluation and review processes. Concepts will include the gathering and use of data as well as the utilization of that data in the decision making process.

GSE 6102 - Education Finance and Resource Management

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This course will examine the economics, financing, and financial policy of public and higher education. Course topics will include an exploration of the different funding pools and regulations for both public and higher education as well as the economic and political forces driving these concepts and processes.

GSE 6130 - Topic in Education: (i.e., School Finance, Cooperative Learning, TRIBES, Teaching for Inquiry, etc.)

Credits: (1-3)
Typically Taught Summer Semester: *1st Blk*
Description: This course explores a topic receiving current attention by educators and the public and deemed worthy of in-depth study. Credit will be determined by the nature of the topic.
May be repeated up to four times.

GSE 6140 - Adolescent Development

Credits: (2)
Description: Study of physical, mental, social, and psychological characteristics of adolescents, their needs and problems, and methods of working with those who have behavior problems.

GSE 6201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources, program experiences, and related theory. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include theory, research, interpersonal communication skills, and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Educator coaching skills will apply to any early childhood/early childhood education curriculum or model. This is course 1 of a three course series for the Utah Coaching Credential.

GSE 6202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Becoming an effective educator coach is a result of theoretical understanding, introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing educator coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self- directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.
Pre-requisite(s): ECED 4201/GSE 6201 or instructor permission.

GSE 6210 - Education Law and Policy

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: This course considers the legal rights and responsibilities of students, teachers, faculty and other educational practitioners. Students will connect these to education systems, policies, programs, and operations as determined by state and federal constitutions, laws, and court decisions.

GSE 6215 - Critical Perspectives and Research in Inclusive Early Childhood Education and Care

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Description: This course examines the historical, philosophical, ethical, and cultural roots of contemporary perspectives and research on early childhood and inclusion. Students will explore methods of understanding the lived experience of diverse children and early childhood professionals, and how research can inform practice, leadership, and policy.

GSE 6220 - Understanding Children Beyond Behaviors

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

GSE 6230 - Observing and Assessing Children in Context

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.

GSE 6240 - Culturally Sustaining Advocacy and Collaboration with Children and Families

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Description: This course explores Culturally Sustaining ethical practice for navigating the challenges, hopes, and possibilities that early childhood professionals may experience as they collaborate and advocate with diverse children and families. Topics include the social and cultural construction of the meaning of difference, race, disability, and intrinsic difference at the intersection of identity. Historical and contemporary rights, movements, and priorities of disability and other communities (e.g., low income, immigrant, etc.) with a specific emphasis on issues of access and opportunity. Program, community and social systemic change, and self-advocacy. Students will collaborate with families, analyze the application of laws to their practice, program and social policies, and advocate to address challenges within specific sites, communities and systems.

GSE 6250 - Inclusive Early Childhood Intervention and Special Education

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Description: Students will explore and apply current theory and practice in critical special education, Disability Studies in Education, and infant and child mental health for supporting young children (birth-age 8) with disabilities by supporting caregiver-child relationships in family, early childhood community and classroom environments. Students will gain an understanding of applicable history, laws and policies around inclusive education and special education service provision to effectively and equitably collaborate with children, families, and service providers in public and private settings in ways that sustain the rights and cultures of individual children and families, and of disability communities.

GSE 6260 - Inclusive Early Childhood Curriculum

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

GSE 6270 - Young Children's Play

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online, 1st Block Online, 2nd Block Online*
Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

GSE 6280 - Student Teaching in Early Childhood Education

Credits: (3-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Practical early childhood teaching experience in the WSU early learning lab on campus.

GSE 6290 - Practicum/Internship in Early Childhood Education

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Spring Semester: *Full Sem, 1st Block, 2nd Block*
Description: Work experience which applies prior academic learning in a supervised early learning setting.

GSE 6301 - Specialized Family and School Programs

Credits: (3)
Typically Taught Summer Semester: *1st Blk, odd years*
Description: The Specialized Family and School Programs class is an advanced review of the theoretical foundations for established and emerging family life education programs. Furthermore, a review of best practices in disseminating and evaluating family life education programs in diverse settings and with diverse populations. Implications for policy are reviewed.

GSE 6302 - Advanced Family Theories

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *1st Blk*
Description: This course provides students with the ability to critically review and assess theories in family science. Additionally, they will learn and practice the construction and application of family theory vital for conducting research and practicing family life education.

GSE 6303 - Diverse Family Contexts

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This class will proceed via comparative analysis of culture, ethnicity, and family life in the United States reflecting social and political dynamics with extensive coverage of the family lifestyles, traditions, and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional, and current ethnic family characteristics, and changes and adaptations to families and individuals. Emphasis will be made on how to address ethnocentrism, and serve families due to their various strengths and challenges.

GSE 6304 - Organization and Leadership in Non-profit Family Services

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

GSE 6305 - Advanced Skills for Family Life Educators

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators by reviewing and presenting family life education materials in both the classroom and among the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education.

GSE 6306 - Parenting Education

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: This course will provide students with the latest research and theory on developmentally appropriate practices for parents. Also, students will learn the theory- and research-based methods for educating parents.

GSE 6400 - Principles of Coaching and Leadership

Credits: (3)
Typically Taught Fall Semester: *1st Block Online*
Description: The course is designed to provide a foundation in sport coaching leadership. The course will examine theoretical underpinnings and applications of sport coaching and leadership, and strategic planning processes and management within sport organizations. The primary goal of this course is to help current and aspiring coaching leaders gain a better understanding of effective leadership.

GSE 6401 - Psychological Aspects of Sport Coaching

Credits: (3)
Typically Taught Fall Semester: *2nd Block Online*
Description: The course is designed to examine psychological knowledge and skills to address optimal performance and well-being in athletes, including interventions that are designed to assist athletes, coaches, and administrators in an array of sport settings.

GSE 6402 - Strength & Conditioning/Injury Prevention

Credits: (3)
Typically Taught Spring Semester: *1st Block Online*
Description: The course is designed to provide knowledge regarding advanced strength and conditioning theory and practice, what to do when athletes get injured, and how to prevent athletes from injury. Students will explore models of safe training protocols both at a physical and mental level, and develop a periodization model in all facets of strength and conditioning when it comes to sport-specific training.

GSE 6403 - Ethics in Sport

Credits: (3)
Typically Taught Spring Semester: *2nd Block Online*
Description: The course is designed to offer an introduction to ethics within the sporting context. The values promoted within sport will be examined along with academic investigation of sport within society, including drug use for performance enhancement, fair play and sportsmanship, Title IX, and many other ethical issues in sport. This course is intended to develop and foster critical thinking skills, and to learn and understand the ethical background of sport.

GSE 6404 - Facilities and Event Management in Sport

Credits: (3)
Typically Taught Summer Semester: *2nd Block Online*
Description: The course is designed to help students understand the role of managing sports events and facilities. Topics including maintenance, day-to-day operations, producing events, types of facilities, financial management, and building a facility will be presented. Multiple types of recreation facilities will be examined to compare and contrast differences and learn how to improve sustainability at sport and recreation facilities and events.

GSE 6405 - Advanced Sport Pedagogy

Credits: (3)
Typically Taught Summer Semester: *1st Block Online*
Description: The course is designed to increase understanding of sport pedagogy, effective coaching, and the art and science of coaching. Athlete skill development, practice and game planning, season schedules, creating drills and practice sessions, and motivating players will be presented. Students will also learn to assess and utilize apps, software, and other technology related to sport.

GSE 6430 - Creative Processes in the Elementary School

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: This is used for consumable art supplies and repair/replacement of musical instruments.
Description: This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories which support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

GSE 6501 - Introduction to K-12 Coding

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will introduce candidates to coding in K-12 classrooms. Students will practice introducing coding concepts and activities to students, while simultaneously exploring current issues in computer science education. Activities will include anything from unplugged coding activities, CS books, board games, and toys, through block programming, and some basic text-based coding with HTML and CSS.

GSE 6502 - Advanced Educational Technology

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Description: This course allows students to develop advanced educational technology skills using Adobe

products, such as Photoshop, Premiere Pro, InDesign, and Illustrator. Students will practice using Adobe technology to design graphics, manipulate images, make posters for school events, and make instructional videos. Students are allowed to "choose their own adventure" as they progress through the course and work in any order that they wish.

GSE 6503 - Intersections of Science, Technology and Culture

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In this course, we examine scientific and technological ideas in their social and historical contexts. Students will also explore relationships between science, technology, and culture, while simultaneously exploring current issues in STEM (science, technology, engineering, and mathematics) education through the unique lens of Indigenous education.

GSE 6504 - Data Science with R for K-12 Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides an introduction to using the R programming language with R Studio for basic data analysis. Students will import, clean, visualize, create frequency tables, and run t-tests using R Studio.

GSE 6505 - Educative Making in K-12 Settings

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Cover students' take-home Circuit Playground Board Kit and maintenance of classroom supplies and equipment (LEGO Robotics, 3D Printer, and Laser Cutter).
Description: This course provides a survey of educative making from a constructionist perspective. Students will have hand-on experiences using LEGO robotics, other physical computing platforms, and use digital fabrication tools. In addition, students will design project-based, interdisciplinary mini-unit plans.

GSE 6600 - Ethical Leadership

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: This course will explore issues of ethical and professional conduct as a steward of school resources, student academic success and wellbeing, and faculty and staff professional development. This course will be based on the Utah Educator Professional Standards as described in Utah State School Board rule.

GSE 6601 - Community Engagement and Advocacy

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course will explore strategies effective educational leaders engage families and the community in order to create an inclusive, caring, safe, and supportive school environment to advocate for each student's academic success and well-being.

GSE 6602 - Organizational Change and School Improvement

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

GSE 6603 - Positive Academic and Behavior Supports in Schools

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

GSE 6604 - Educational Leader Internship

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide directed and supervised leadership experiences in public education settings. Students will complete the hours required by Utah State Board Rule.

GSE 6700 - Higher Education Administration

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides an overview of the various types of institutions of higher education including a brief history, typical institutional organizational structures, principal administrative functions, and the philosophy of administration overall. Strategic decision making within organizations will also be discussed.

GSE 6701 - Current Issues in Higher Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an overview of current issues and trends, challenges, research, and policies impacting higher education at the institutional, state, national, and international level.

GSE 6702 - College Student Access and Success

Credits: (3)
Typically Taught Summer Semester: *2nd Block*
Description: This course introduces students to issues of access and success in postsecondary education through a lens of equity. Students will engage in and apply research and theories on current outcomes for students in higher education institutions including issues related to racial/ethnic minoritized groups, socioeconomic status, first-generation, gender and other minoritized identities. Issues addressed include: college choice, admissions, affirmative action, community colleges, financial aid, retention, and graduation outcomes.

GSE 6704 - Higher Education Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide directed and supervised experiences in higher education administrative settings. Students will spend the required hours per semester in a structured, supervised setting.
This course can be taken 2 times for credit for a maximum of 4 credit hours.

GSE 6820 - Child Observation Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

GSE 6900 - Individual Study

Credits: (1-3)
Description: Intended for the candidate who has special needs and who would benefit from an individual study program. Forms are available from Room ED 234 MEd program office and must be approved by the instructor and the director at time of registration.
May be repeated up to 3 credit hours.

GSE 6910 - Project Development I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is the first of three courses intended to support the development of a project

proposal. Specifically, this course supports the development of the Problem Statement of the project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.

Pre-requisite/Co-requisite: GSE 6000.

GSE 6920 - Project Development II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is the second of three courses intended to support the development of a project proposal. This course supports the development of the Literature Review of the research project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.

Pre-requisite/Co-requisite: GSE 6910.

GSE 6930 - Project Development III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is the third of three courses intended to support the development of a project proposal. This course supports the development of the Purpose and Method of the research project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.

Pre-requisite/Co-requisite: GSE 6910, GSE 6920.

GSE 6950 - Supervised College Teaching

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Description: Teaching assistant experience in undergraduate courses under faculty supervision.

GSE 6970 - Master of Education Project/Thesis/Capstone

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The student works independently and in consultation with the faculty chair and graduate committee to complete the final project/thesis/capstone.

Pre-requisite/Co-requisite: GSE 6930.

GSE 6990 - Continuing Graduate Advisement

Credits: (1)
Description: This course is used to fill the continuous enrollment requirement while completing the Master's project. The course is graded Credit/ No Credit.

HAS 3000 - The Healthcare System

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: A study of the U.S. healthcare system to help students understand the critical issues facing healthcare in its ever-changing environment and to gain a sense of the complex multidimensional nature of healthcare delivery in the United States.

HAS 3010 - Professionalism in Healthcare

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course explores a variety of topics to develop a stronger sense of professionalism for healthcare managers. Topics include business and social etiquette, self-assessment, professional deportment, networking, effective communication skills, and dressing professionally.

HAS 3020 - Healthcare Marketing

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course outlines the application of marketing principles to healthcare organizations and the public health arena. Students will apply those principles in the development of a marketing plan.

HAS 3190 - Cultural Diversity in Patient Education

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to patient or client education skills and theory. It also focuses on health traditions of culturally diverse clients and how those traditions must be considered during effective patient education. In particular, the course will move from the general health traditions of world populations and religions, to the more specific behaviors and expectations of U.S. populations. Gender, age, and class will all be considered in the studies.

HAS 3230 - Health Communication

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments. Cross-listed with COMM 3230.

HAS 3240 - Human Resource Development in Healthcare

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: Study of human resource principles and practices in healthcare facilities. The general topics include: job analysis and work flows, compensation, recruitment and selection, performance appraisals, discipline, legal environment, unions, safety and health.
Pre-requisite(s): HAS 3000.

HAS 3260 - Healthcare Leadership and Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: Basic theories and concepts of management. Emphasis is on individual and group behavior, interpersonal skills, decision making, leadership theory, planned change, motivation, teamwork, organizational design and culture within the context of the health care organization.
Pre-requisite(s): HAS 3000.

HAS 3700 - Public Health Finance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Finance in the public sector is fundamentally different from business or corporate finance. This course will provide an overview of finance as directly related to public health. Basic concepts of government accounting and budgeting will be presented. The financial aspects of Medicare and Medicaid along with grant funding and funding agencies will be discussed. Students will leave the course with the ability to formulate a public health program budget as well as the background knowledge necessary to understand the financial operations of local and state departments of health.

HAS 3750 - Healthcare Financial Administration

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to build upon the concepts introduced in basic accounting courses and develop proficiency in applying administrative financial techniques in healthcare decision making.
Pre-requisite(s): HAS 3000, ACTG 2010, Quantitative Literacy.

HAS 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

HAS 3980 - Interprofessional Education

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: Variable titled course to discuss topics related to interprofessional education.
May be repeated up to 3 times for credit.

HAS 4160 - Medical Practice Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem Online*
Description: Covers the fundamentals of group practice and ambulatory care management. Includes leadership, planning, marketing, IT, business operations, physician/hospital relationships, and basic principles of management applied to the out-patient setting. This is an elective course for HAS students.
Pre-requisite(s): HAS 3000.

HAS 4320 - Healthcare Economics and Policy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Discussion and analysis of the economic models controlling healthcare markets with subsequent investigation of the complex federal, state, and local policies and policymaking processes which result from those models in U.S. healthcare systems.
Pre-requisite(s): HAS 3000 and ECON 1010 or ECON 2010.

HAS 4400 - Legal and Ethical Aspects of Health Administration

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem Online*
Description: Review of legal responsibilities of physicians, other healthcare workers, and healthcare institutions and means by which health-related laws and regulations are developed and implemented.

Issues involved in healthcare professional ethics are discussed and evaluated.
Pre-requisite(s): HAS 3000.

HAS 4410 - Clinical Instructional Design and Evaluation

Credits: (3)
Typically Taught Fall Semester: *Online*
Description: Designed to provide individuals with the skills necessary for the preparation, planning and evaluation of instruction. The Philosophy, theory, and effective methods and techniques of teaching the adult learner.

HAS 4420 - Clinical Instructional Skills

Credits: (3)
Typically Taught Spring Semester: *Online*
Description: Designed to provide individuals with skills necessary for the implementation of instruction. Presentation practice is provided with peer evaluation and feedback.

HAS 4520 - Long-Term Care Administration

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Application of health administration core curriculum to specific practice issues in the long-term care setting. Includes specific organization structures in skilled nursing care, relationships with healthcare providers, services offered, financial management issues in long-term care, and regulatory issues are investigated. Course includes a review of long-term care facility operations utilizing simulations. Teams of students make operational decisions utilizing financial statements, census reports, staffing schedules and other relevant factors. Prepares students for specific types of situations and questions encountered on the long-term care administrator licensing examination.
Pre-requisite(s): HAS 3000 and HAS 4400.

HAS 4525 - Post-Acute Care Operations

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This course is designed to introduce the specific issues and body of knowledge pertaining to the healthcare management of: specialty hospitals, rehab facilities, homecare agencies, hospice and palliative care and post-acute care. Emphasis is placed on guest lectures by professionals from each of these types of provider organizations.
Pre-requisite(s): HAS 3000 and HAS 4520.

HAS 4620 - International Health and Healthcare

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to explore health and health care systems in countries other than the

United States. Emphasis will be directed toward illnesses and treatments, health promotion, environmental and economic issues, governmental infrastructures that support health, and cultural considerations. The course will be targeted to the professional interested in international health information and experiences.

HAS 4740 - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis. Departmental approval required.
Pre-requisite(s): HAS 3000.

HAS 4741 - Senior Seminar Capstone

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis, competency assessment, interaction with current practitioners, individual and team projects. Students will be provided with resources to assess and enhance their competencies in the various functional areas of health administration. Departmental approval required.
Pre-requisite(s): HAS 3000.

HAS 4800 - Individual Study

Credits: (1-3)
Description: Topics in allied health education studies tailored to the particular needs and interests of the student.
Class may be repeated once up to six credits with program approval.
Note: This course is offered as needed.

HAS 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.
May be repeated five times up to six credit hours.
Note: This course is offered as needed.

HAS 4860 INT - Practicum/Internship

Credits: (2-6)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Provides opportunities for observation, participation and practical application of administrative and management skills in the institutional setting. Departmental approval required.
Pre-requisite(s): HAS 3000 and HAS 3750.

HAS 4990 - Seminar

Credits: (1)
Description: Topics, issues, and trends in Health Care.
May be repeated twice up to 3 credit hours with program approval.
Note: This course is offered as needed.

HIM 2000 - Introduction to Health Information Systems and Settings

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Online*
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record
Description: Introduction to the health information profession. Job duties, functions, and the professional organization are discussed. Health care settings, master patient indexes, health information documentation requirements, analysis, and deficiency management are presented.
Pre-requisite(s): HTHS 1101 and HTHS 1110 or ZOOL 2320.

HIM 2250 - Health Care Privacy and Security

Credits: (3)
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem*
Description: The HIPAA privacy and security law, institutional review boards and human subjects research, development of policies and procedures for privacy and security, and release of information are discussed.

HIM 2300 - Diagnosis Coding

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Online*
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: Coding conventions and procedure using the ICD-10-CM coding system are introduced and practiced.
Pre-requisite(s): HTHS 1110 and HTHS 1111 or ZOOL 2320 and ZOOL 2420 or equivalent.

HIM 2320 - Ambulatory and Physician Office Coding

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: CPT classification, conventions and coding procedures are introduced and practiced. Abstracting medical information from health documentation for coding facility outpatients, physician and professional billing is presented, discussed and practiced.
Pre-requisite(s): HIM 2300.

HIM 2330 - Healthcare Reimbursement

Credits: (2)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Discussion of issues parallel to or founded in the use of classification systems: Federal reimbursement systems, coding compliance, auditing, chargemaster maintenance, and revenue cycle management.

HIM 2410 - ICD-10-PCS Coding

Credits: (2)
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: ICD-10-PCS coding, conventions and guidelines are introduced and practiced. Students will gain exposure to procedure coding using the ICD-10-PCS system for hospital inpatient claims.
Pre-requisite(s): HIM 2300.

HIM 2500 - Healthcare Data Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Online*
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access.
Description: An introduction to database monitoring, maintenance and use. Data definition, vocabularies, terminologies and dictionaries are discussed. Clinical abstracting and report writing are practiced. A working knowledge of data management is developed.

HIM 2861 INT - (2nd Year) Professional Practice Experiences

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. The student observes in other health care settings. Projects assigned give the student expertise in technical functions, e.g., diagnostic and procedure coding systems.
Pre-requisite(s): HIM 2000.

HIM 2862 - Professional Practice Management

Credits: (2)
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions.
Pre-requisite(s): HIM 2000.

HIM 2863 - Professional Practice Experience in Coding

Credits: (1)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: Student's final experience in the coding setting. Skills and learning from the classroom and laboratory are reinforced and practiced in a simulated setting.
Pre-requisite(s): HIM 2300.

HIM 3000 - Health Informatics

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the clinical, research, and administrative applications of computers in the health care industry from which health care information is currently derived. The role of this technology and of the data collected in accomplishing the objectives and procedures of the principle functional areas in health care organizations is emphasized as are the interrelationships of the organizational units with respect to data acquisition, storage, analysis, retrieval, and use.

HIM 3300 - Introduction to Quality Improvement in Healthcare

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Quality assessment, disease processes, risk management, and utilization review systems are presented to the student with an emphasis upon integration. TQM/CQI processes are examined and practiced.

HIM 3400 - Health Care Networks and Databases

Credits: (3)
Typically Taught Fall Semester: *Online*
Course Fee: $10.00
Course Fee Purpose: Access to Database for course
Description: A comprehensive introduction to health care application development, including local and wide area networks, the internet and intranets, database structure, database tools, data management, and information management.
Note: This course is no longer taught.

HIM 3450 - Healthcare Systems Analysis and Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem - Online*
Description: A comprehensive introduction to the planning, design, and construction of healthcare information systems, using the systems development life cycle and other appropriate design tools.

HIM 3550 - Healthcare Data Analytics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $10.00
Course Fee Purpose: Access to use UT Dept of Health Care Statistics to use in Tableau:
https://stats.health.utah.gov/about-the-data/data-series/
Description: An in depth exploration of healthcare data analytics. Application of data analytic methodologies to improve decision making, performance, healthcare quality and strategic planning will be presented and practiced. Students will become familiar with internal and external data sources in healthcare and will be able: extract data from the data source; evaluate the quality of the data; perform basic data analytics; interpret analysis; present information in a final report.
Pre-requisite(s): PUBH 3200.
Pre-requisite/Co-requisite: PUBH 3200 - Epidemiology and Biostatistics.

HIM 3600 - Advanced Diagnosis and Procedure Coding

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*

Description: This is an advanced coding course designed for students with previous medical coding experience or previous medical coding courses. This course explores the more complex areas of ICD-10-CM, ICD-10-PCS, and CPT coding in hospital, outpatient, and physician based settings. Students will apply coding principles and guidelines related to complex diagnoses and procedures. Coding from actual patient records is emphasized. The use of coding references and coding software is integrated into the course.

Pre-requisite(s): HIM 2300, HIM 2320, HIM 2410 or instructor approval.

HIM 3610 - Advanced Principles of Revenue Cycle Management

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: Elements of the revenue cycle are reviewed. Principles of revenue cycle management are examined including: scope and management of clinical coded data, process improvement and data quality, compliance, internal and external auditing, reporting, case-mix management, and changes in revenue cycle management.

Pre-requisite(s): HIM 2330 or instructor approval.

HIM 3620 - Principles of Clinical Documentation Improvement

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: Clinical documentation is the foundation of every patient health record. This course addresses the fundamentals of clinical documentation-assessing the current quality of health record documentation, development of a CDI program and process. How clinical documentation improvement impacts the revenue cycle of a healthcare organization will be reviewed.

Pre-requisite/Co-requisite: HIM 2300, HIM 2320, and HIM 2410 or instructor approval.

HIM 4100 - Health Information Services Management

Credits: (3)
Typically Taught Spring Semester: *Online*
Description: Management issues of health information services departments are discussed and worked through with reference to planning information services, organizing work force, procedures, and resources, staffing work units with qualified personnel, influencing information services teams performance, controlling/evaluating health information services performance and products, and resolving organizational conflict involving information issues. Background is developed to facilitate evaluation of a vended system's ability to meet health care information applications, objectives and procedural requirements. "Entrepreneurial" skill is developed to lead organizations in finding solutions to their information management problems.

HIM 4990 - Baccalaureate Thesis and Presentation

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Senior health information management students complete a research project and thesis in partial fulfillment of program requirements. By the completion of the course, the senior student will be able to specify a thesis topic, specify individual thesis learning objectives, specify individual thesis learning activities, develop a thesis project time-line, implement the thesis project, write the thesis, and present it to the Health Information Management faculty and students. Topics are chosen by the student but require approval by the Program Coordinator.
Pre-requisite(s): PUBH 3500.

HIM 5000 - Clinical Foundations in HIM

Credits: (3)
Description: A foundation in the language of medicine, pathophysiology and pharmacology will be discussed and developed.
Note: This course is offered as needed.

HIM 5010 - Health Data Management

Credits: (3)
Description: This course prepares students to manage and create health data elements and data sets; and to develop and maintain organizational policies, procedures and guidelines for management of health information. Compliance with health care information laws, regulations, standards, and preparation for accreditation and licensing processes is discussed and practiced.
Note: This course is offered as needed.

HIM 5020 - Diagnosis and Procedure Coding

Credits: (3)
Description: Coding and classification conventions and procedures are developed and practiced. The course will also include auditing of coded data for accuracy.
Note: This course is offered as needed.

HIM 5030 - Clinical Data Management for Quality Care & Revenue Cycle Integrity

Credits: (3)
Description: This course prepares the student to collect, analyze, present and organize data to improve quality of patient care and revenue cycle management. The management of clinical data required in reimbursement systems and prospective payment systems in health care delivery are discussed.
Note: This course is offered as needed.

HIM 5040 - Privacy, Security and Confidentiality in Health Care

Credits: (3)
Description: This course prepares students to design and implement security measures to safeguard

protected health information. The management, access, disclosure and use of PHI to ensure confidentiality is discussed. How to investigate and resolve health care privacy and security issues and problems are introduced.
Note: This course is offered as needed.

HIM 5050 - Health Information Systems & Technology

Credits: (3)
Description: A foundation of electronic heath record terminology and the information systems life cycle is explored. The important basis upon which successful EHR implementation must rely - project management, strategic planning, and migrations from the current state are discussed. Skills in selecting, negotiating for, implementing and operating the electronic health record and its corresponding databases are developed. The use of data dictionary, data models, database management and design for electronic health records are introduced.

HIM 5080 - Health Information Management Issues

Credits: (3)
Description: Managing the HIM function including the monitoring of industry trends and organizational needs for change, strategic and operational planning, training or educational activity development, and preparation for accreditation and licensing processes are discussed.
Note: This course is offered as needed.

HIM 5090 INT - HIM Internship

Credits: (3)
Description: Provides opportunities for observation, participation and practical application of health information management skills in the institutional setting.
Note: This course is offered as needed.

HIST 1000 - Introduction to the Craft of History

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: History 1000 is a one-credit course for newly declared history majors. It is designed to introduce students to different subfields within history; to familiarize them with the standard modes of researching, interpreting, analyzing, and citing historical sources; and to teach them how to build an historical argument.
Should be taken upon registration as a history major or history teaching major.

HIST 1500 SS/EDI/GLB - World History to 1500 C.E.

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Examines the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of world civilizations to 1500 C.E. Emphasis is global, comparative, and multi-cultural.

Note: Multiple Sections are offered each semester.

HIST 1510 SS/EDI/GLB - World History from 1500 C.E. to the Present

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A survey of the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of Asia, Africa, the Americas, and Europe from 1500 to the present.
Note: Multiple Sections are offered each semester.

HIST 1600 AI/EDI - The Black Experience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: HIST 1600 is the History of Black people in the United States. We will begin by tracing the origins of Blacks and Black Americans in the New World from their origins in Africa. We will then explore the history of Black people in the United States from the Atlantic Creoles to the present day. This course will also fulfill all the requirements for American Institutions (AI) credit.

HIST 1610 AI - The Latinx Experience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a general introduction to the history of Latinx in the United States from the era of Contact to the present day. Even before this country existed as a republic, people from "Hispanic" and Indo-America had been incorporated into the culture, history, and occupational fabric of what would become the United States. Yet larger society and, oftentimes, the government, have frequently perceived Latinx as racially and culturally "alien." This course will examine how people of Latin American heritage have adjusted to, been integrated by, assimilated, resisted, and adapted to these forces in the United States over past centuries, creating new identities in the process.

HIST 1620 AI/EDI - The LGBTQ Experience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will be a survey of LGBTQ history in American history, from the colonial era to the present day. It will not only consider LGBTQ experiences, but also focus on changing views toward slavery, economics, race, gender, and nationality that inform American society. As a General Education American Institutions course, we will discuss the major principles of the United States, the operations of

its institutions, and the consequences of its market economy, with a focus on the particular LGBTQ experience within that narrative.

HIST 1700 AI - American History

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 2nd Blk, Full Sem - Online, 1st Blk*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: An analysis of American history that traces social, cultural, economic, and political developments in the United States. May be taken to complete the American Institutions requirement (grade of C or better required).
Note: Multiple Sections are offered each semester.

HIST 2700 - History of the United States to 1877

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A chronological survey of American history from Native American and European contacts through Reconstruction, 1877. Directed toward History majors, minors, and those planning to teach U.S. history.
Note: Note: Students may fulfill the American Institutions requirement by completing either HIST 1600, 1610, 1620, or 1700 or this course AND HIST 2710 with a grade of C or better.

HIST 2710 - History of the United States since 1877

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A chronological survey of American history from the Gilded Age, 1877, to the present. Directed toward History majors, minors, and those planning to teach U.S. history.
Note: Note: Students may fulfill the American Institutions requirement by completing either HIST 1600, 1610, 1620, or HIST 1700, or this course AND HIST 2700 with a grade of C or better.

HIST 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for credit under unique course titles. Only six hours many count toward major or minor.

HIST 3010 - History of Indigenous America

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online, even years*

Description: An introduction to Indigenous history before and after the creation of the United States. The course focuses especially on the resiliency and adaptability of sovereign Indigenous nations and societies with specific attention paid to the modern history of Indigenous peoples and their experiences with colonialism and settlement.

HIST 3030 - African-American History

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: African-American history from African origins to the late twentieth century. This course examines the historical experiences and enduring influence of African-Americans on U.S. history.

HIST 3050 - History of U.S. Latinos

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: Traces the historical development of the Latin Americans in the U.S. from their Indian, Spanish and African heritage to the present with special emphasis on the Mexican-American, Chicano contributions to American life.

HIST 3070 - Women in American History: 1600 to Present

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: Examines gender as an organizing principle in United States history from the beginnings of European settlement to the present. Also explores the ways in which race, ethnicity, class, and region have shaped different female experiences.

HIST 3090 - American Social History

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online every other year*
Description: Explores American society through analyses of the public and private lives of ordinary individuals from colonial times to the present.

HIST 3110 - American Ideas and Culture

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: This course will look at key transformations in American cultural and intellectual history. Subjects will include the history of religion, the changing nature of political ideology, and transformations in who creates and controls entertainment, leisure and literature in American society. The course will use novels, sermons, essays, movies, museums, paintings, and music as tools for understanding American cultural life.

HIST 3120 - American Society through Film

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores the development of society and culture of twentieth-century America as they are represented and created through the medium of film. The motion picture has had a major impact on American society and culture, and this course analyzes how movies reflected and created American social and cultural structures in history.

HIST 3130 - U.S. Urban History

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: Examines themes in social, economic and cultural development of American cities from the colonial era to the present. Key topics will include the process of urbanization and the ways in which various social groups and classes adapt to urban life and society. The course will also examine the transformation of urban neighborhoods and ghettos, social reform movements in the city, and the history of urban planning.

HIST 3210 - U.S. Constitutional History

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: The ideas and issues which resulted in the 1787 Constitution. It considers two centuries of America Constitutionalism, focusing on powers and rights, and the role of the Constitution in American culture.

HIST 3220 - History of the Bill of Rights

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: This course will explore the historical origins of the first Ten Amendments to the Constitution, also known as the Bill of Rights. We will explore the original intent of the Framers of the Constitution and the Bill of Rights, as well as the context in which they were drafted and ratified. The historical significance of the Bill of Rights will be compared with their current understanding by Americans in the present.

HIST 3230 GLB - American Foreign Relations

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: Diplomatic relations and foreign policy of the United States, with particular emphasis in the "American Century" beginning with the imperialist thrust of 1898.

HIST 3250 - Religion in American History

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: A history of religion in America from the colonial period (including Native American

spirituality) through the early twentieth century. This course will examine religious figures, events, and movements in U.S. history. Particular emphasis will be placed upon the influence of religion in the United States on culture, politics, education, and reform.

HIST 3270 SUS - American Environmental History

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Explores the new scholarship in American environmental history, considering the intellectual and material interaction people have had with the environment of North America, from pre-contact to the present.

HIST 3280 GLB - American Military History from 1500 to 1890

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3290 GLB - American Military History from 1890 to the Present

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3350 - History and Philosophy of Science

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The evolution and practice of Western science from origins to contemporary ideas.

HIST 3400 - Principles of Public History

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will consider the theoretical background of public history and its disciplines: historic preservation, museum studies, archives and records administration, and documentary editing. Students will survey, research, and analyze the ways in which history is conveyed to a broad public

through museums, monuments, sites, films, and other media outside the classroom or scholarly writings.
Note: (Replaces HIST 2500.)

HIST 3500 - Historic Preservation

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: A study of the historic preservation movement in the United States including the history and evolution of the movement, theoretical origins, current conditions and laws, organizational framework and design philosophies.

HIST 3530 INT - History Editing

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced principles in copyediting, scholarly publication, and preparation of material for multiple publishing venues, including journals and monographs, public displays, and online collections.
Suggested Requisite(s): HIST 1000 or HIST 3400.

HIST 3550 - Archives: Principles, Practices & Preservation

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: This course provides an introduction to archival management, in which the students learn how archival institutions obtain, process and manage a variety of archival formats, and how this information is made available to the public generally and to historians in particular.

HIST 4010 - Early North America to 1763

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The history of the North American continent from pre-contact to the end of the French and Indian War. This course will study the lives of the First Nations in the countries now known as Canada, the United States, and Mexico before and after contact with Europeans. We will also investigate the imperial conquest of North America by the Spanish, French, British, and other European powers. In addition, the forced migration of Africans and their enslavement in North America as well as the enslavement of others will also be a key focus of the semester.

HIST 4015 - History of the Atlantic World, 1400-1815

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: Atlantic World history refers to relationships and interactions between the peoples of the Americas, Africa and Europe, from the fifteenth through the nineteenth century. Its study focuses on

themes such as migration and colonialism; the African slave trade, New World slavery and its abolition; trans-oceanic commerce and the development of history's first worldwide cash economy; violence, mixing and transculturation among Europeans, Africans and indigenous Americans; negotiation of knowledge about medicine, geography and the natural world; and the evolution of imperial systems and the wars of Independence.

HIST 4020 - Era of the American Revolution: 1763-1800

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Causes of American Revolution, including the military, diplomatic and social aspects; the formation of the Union under the Articles of Confederation; the Constitution; and the Federalist era.

HIST 4030 - New Nation: 1800-1840

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 1st Blk odd years*
Description: Emphasizes Jefferson's Administration, War of 1812, the Era of Good Feelings, and the Age of Jackson, including the growth of political parties, territorial expansion, sectionalism, and social reform.

HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Slavery and the causes of the Civil War with attention to the political, economic, social, and military aspects of the conflict, including the period of Reconstruction to 1877.

HIST 4050 - U.S. in the Gilded Age and Progressive Era: 1877-1919

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: The transformation of the United States following the Civil War and Reconstruction into a modern urban-industrial superpower by the end of the First World War.

HIST 4060 - United States: 1919-1945

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Developments, historical patterns and conflicts that shaped the modern United States in the Twenties, the Great Depression and the Second World War.

HIST 4065 GLB - The United States in the Second World War

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: History of the United States during the Second World War. The course examines the war's origins, conduct, and consequences in distant battlefields and on the American homefront.

HIST 4070 - United States since 1945

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Description: The United States from 1945 to the present, including investigations of the Cold War, the Civil Rights Movement, the affluent society, modern politics, the Vietnam and Watergate crises and contemporary issues.

HIST 4110 - History of the American West to 1900

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Explores the history of the Trans-Mississippi West region of the United States from 1500 to the 1890s. The course considers the varied experiences of its peoples and the myth of the West in American culture.

HIST 4120 - The American West since 1900

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Explores the history of the Trans-Mississippi West Region since 1900, to include analysis of such issues as water use and allocation, population growth, land use, exploitation of resources, conservation, the federal presence, tourism, and threats to the environment.

HIST 4130 - History of Utah

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of Utah history from its Native American beginnings to the present, emphasizing political, economic, and social developments.
Note: This course is taught online when not offered face-to-face.

HIST 4210 - Ancient History

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: The ancient Near East and Mediterranean world, including the civilizations of Greece and Rome, from approximately 3500 B.C.E. to 475 C.E. This course examines the origins of civilization and traces the development of culture, emphasizing the religious, political, and intellectual legacy of the ancient world.

HIST 4220 - History of the Middle Ages 300-1300

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*

Description: A survey of Europe during the Middle Ages emphasizing the religious, political, and cultural institutions shaping this period.

HIST 4230 - Renaissance and Reformation - Europe: 1300-1660

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Examines the cultural, religious, political and economic factors that affected Europe from the end of the Middle Ages to the mid-1600s. Special emphasis is given to the Renaissance and Reformation as vital forces at work during the period.

HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: Examines the political, economic, social, and cultural factors that affected Europe during the period. Special consideration is given to the Enlightenment as a cultural phenomenon and to European-wide revolution and counter-revolution in the late eighteenth century.

HIST 4250 - Nineteenth-Century Europe

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: A survey of European history from the fall of Napoleon to the beginning of the First World War. The course will focus on the lingering impact of the political and economic revolutions of the late eighteenth century on the politics, culture, and social development of the nineteenth. Major consideration will be given to liberalism, romanticism, socialism, nationalism, imperialism, industrialization, science, and the rise of mass society.

HIST 4260 - Europe in the Age of Total War

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: This course on European history begins with a consideration of the causes of the First World War and concludes with an assessment of the impact of the Second World War on European politics, culture, and society. The course will examine the ways in which Europe was shaped in this period by warfare, revolution, the collapse of dynastic states, international agreements, colonial interests, labor movements, economic crises, economic modernization, the rise of totalitarian movements, genocide, and foreign occupation.

HIST 4280 - History of Christianity in Europe

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A history of the development and impact of Christianity within Europe through the twentieth century. This course will examine how Christianity affected European society, culture, politics, and science; and how these affected the institutions within Christianity. Particular emphasis will be placed

on the early growth of Christianity, medieval changes, the Reformation, and spirituality in the industrial age.

HIST 4310 - Tsarist Russia

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: Russia's political, economic, social and cultural institutions from pre-history to 1917, emphasizing dynastic leaders, expansion, religion and other significant forces of change. Includes an analysis of both foreign and domestic policies that led to world war and revolution.

HIST 4320 CRE - Stalin and the Soviet Experiment

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: Analyzes the political, economic, military, diplomatic, social, and ideological problems, crises, and programs from the Russian Revolutions of 1917 to the present.

HIST 4330 - Medieval England

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: A survey of English history to 1485 with special consideration given to England's cultural, political, economic and social development during the Middle Ages.

HIST 4335 - Tudor and Stuart England

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: A survey of English history during the Tudor and Stuart periods (1485-1714). Emphasis will be placed on the social, cultural, political, religious and economic development of England during this period.

HIST 4340 - The British Empire

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: A survey of English history from 1714 to the present. Special emphasis will be given to England's cultural, political, economic, and social development during the Industrial Revolution, the Victorian era, and the twentieth century.

HIST 4350 - Germany and the Third Reich

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: German social-political, economic and cultural developments from the eighteenth century to

the present. Topics include the Prussians, Classicism, Revolution, the Age of Bismarck, industrialism and warfare, and the 20th Century.

HIST 4370 - History of Modern France 1789-present

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: Examines the political, social, and cultural history of France from the outbreak of the French Revolution to the present. Attention will focus on political ideologies, religious and philosophical movements, artistic and literary expression, and changes in the social environment. The course will also attend to the impact of France and French culture on the world and to recent challenges presented to French national identity by globalization.

HIST 4410 - History of Spain and Portugal

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: A survey of the political, economic, social and cultural development of Spain and Portugal from the beginning to the present.

HIST 4440 SUS - East European Empires

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Examines the political, economic, and social factors that have shaped the history of this region from medieval era until 1815.

HIST 4450 - Cold War Europe

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Examines the political, economic, and social factors that have shaped the history of Europe.

HIST 4490 - Historiography and Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will consider the methods of the professional historian necessary for integrating primary and secondary sources with a focus on historiography, and provide practice with those skills for classroom teachers.

HIST 4500 - Teaching Social Studies in Grades 5-12

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Materials and methods of teaching for skill, concept and value development in middle, junior high and senior high school social studies.
Note: (Required of all majors in Social Science area).

HIST 4510 GLB - Twentieth Century World

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The political, economic, and social forces of the twentieth century since World War I. Emphasis is placed on global relationships, the rise of mass society, and conflict among cultures in an era of accelerating change.

HIST 4520 - History of Medicine

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine the history of medicine from antiquity to the present in a comparative framework. It will discuss changing ideas about the body, the nature of disease, the role of physicians, and the practice of medicine in relationship to larger cultural transformations.

HIST 4530 - Far Eastern History

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A survey of the political, economic, social and cultural development of China, Japan, and Korea from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4550 - Southeast Asian History

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the political, economic, social and cultural development of Southeast Asia from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4570 - Islamic Civilization

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine the history of Islam from the 7th century to the present. It will discuss key theological developments, the spread of the religion and its diverse forms, and its effects on culture, art, and science.

HIST 4590 GLB - Middle Eastern History

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A survey of the political, economic, social and cultural development of the Middle East from the rise of Islam to the present with particular emphasis on the 19th and 20th centuries.

HIST 4610 GLB - History of Africa

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: Africa from earliest times to the twentieth century, with emphasis on the Sub-Sahara from its ancient kingdoms through the travails of the slave trade, European colonialism, and the independence movement.

HIST 4630 - Latin American History: Pre-Columbian to Independence

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: History of Latin America from the Pre-Columbian period through the Spanish and Portuguese invasion and colonial rule.

HIST 4650 - Latin American History Since Independence

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: A survey of the political, economic, social and cultural developments of the Latin American nations from independence to the present.

HIST 4670 - History of Mexico

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: A survey from ancient Native American times, the colonial experience, and the nation including the U.S. Southwest until 1848.

HIST 4700 GLB - The U.S. and East Asia: War, Revolution, and Modernization

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will survey major developments involving the U.S. in East Asia in the 20th century. Wars, revolution, and modernization resulted from direct encounters with the Philippines, China, Japan, and Vietnam, making these among the consequential episodes in world history.

HIST 4710 - Special Issues and Topics in American History

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: When offered will focus on a specific and detailed subject in American History. Students may repeat this course for credit when the topic offered is substantially different than the previous class. May be repeated 3 times with a maximum of 9 credit hours.

HIST 4720 - Special Issues and Topics in European History

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: When offered will focus on a specific and detailed subject in European History. Students may repeat this course for credit when the topic offered is substantially different than the previous class. May be repeated 3 times with a maximum of 9 credit hours.

HIST 4730 - Special Issues and Topics in Global and Comparative History

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem odd years*
Description: When offered will focus on a specific and detailed subject in global or comparative history. Students may repeat this course for credit when the topic offered is substantially different than the previous class.
May be repeated 3 times with a maximum of 9 credit hours.

HIST 4810 - Experimental Course

Credits: (3)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

HIST 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent reading under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed. No more than three hours will count towards a major or minor.
Pre-requisite(s): Instructor approval.

HIST 4860 INT - Internships in Historical Studies

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to all students. Faculty supervised off-campus internships in public history institutions. Each internship is individually established and provides students with practical experience and the opportunity to apply and learn new professional skills. Six hours of internship are required for the Public History Emphasis. No more than six hours will count towards a major or minor.

Pre-requisite(s): Junior-class standing and permission of instructor and field supervisor.

May be repeated 3 times with a maximum of 9 credit hours.

HIST 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for credit under unique course titles. Only six hours may count toward major or minor.

HIST 4985 - Historical Research and Methods

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course teaches research and writing skills and is designed to prepare History students for History 4990. Students will learn how to find a research topic, develop a thesis, identify primary sources, cite those sources, and prepare a research proposal. The course will expose students to models of good historical writing and argumentation which will serve as models for their own writing.

Pre-requisite(s): HIST 1000 or instructor approval.

HIST 4990 - Senior Seminar

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A seminar for History majors requiring the completion of an extensive thesis project.

Pre-requisite(s): HIST 4985.

HIST 6830 - Directed Readings

Credits: (1-3)
Description: Independent readings under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed.

Pre-requisite(s): Instructor approval.

No more than three hours will count towards a major or minor.

Note: This course is offered as needed.

HLTH 1020 LS - Science and Application of Human Nutrition

Credits: (3)
Description: (available online) Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions.
This course is taught Web enhanced.

HLTH 1030 SS - Healthy Lifestyles

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: A systematic approach to promote health enhancing behaviors related to the prevention of disease and achievement of optimal health. Focuses on the total person with a consideration of the mental, emotional, intellectual, social, physical, and environmental dimensions which impact human health.

HLTH 1110 - Stress Management

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: An introductory course focusing on the causes of stress, recognizing personal stressors and life change management for stress control.

HLTH 1300 - First Aid: Responding to Emergencies

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Training the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Red Cross certification in Adult, Infant and Child CPR and First Aid: Responding to Emergencies.
Cross listed with Athletic Training.

HLTH 2220 - Prenatal and Infant Nutrition

Credits: (2)
Description: This course focuses on nutrition and diet as they apply to birth outcome, the maintenance of maternal health, and the growth of the infant. Breastfeeding and community programs will be discussed in support of maternal and infant health.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2300 - Emergency Response

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer.
Cross listed with RHS 2300.

HLTH 2400 - Mind/Body Wellness

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Promotion of emotional wellness and understanding the body, mind, spirit connection. Required by the Utah State Board of Education for endorsement in health education.

HLTH 2420 - Childhood and Adolescent Nutrition

Credits: (2)
Description: The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2700 - Consumer Health

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem*
Description: Knowledge and skills relating to consumption of health products and services, including advertising and health, quackery, alternative health care, economics of health care, etc.

HLTH 2800 - Individual Projects

Credits: (1-3)
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged. May be repeated 2 times up to 3 credit hours.
Note: This course is offered as needed.

HLTH 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in Health who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

HLTH 3000 - Foundations of Health Promotion

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Emerging trends and roles of health education within occupational, medical, community, and school settings including history, philosophy, current practices.
Pre-requisite(s): HLTH 1030.

HLTH 3050 - School Health Program

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Designed to prepare the prospective teacher for their responsibilities in administering the functions of the School Health Program, including: health services, healthful school environment, and health education.

HLTH 3100 - Applications of Technology in Health Promotion

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is an exploration of current and future uses of technology in the health promotion fields.
Pre-requisite(s): Completion of Computer & Information Literacy requirement or permission of instructor.

HLTH 3150 - Community Health Agencies and Services

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: An overview of public and community health including history, management, prevention and

epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.
Pre-requisite(s): HLTH 3000 or HLTH 3050.

HLTH 3160 - Principles of Health Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The course provides a comprehensive overview of theories and models that explain and modify health behaviors. The models and theories are viewed from a multidisciplinary perspective and are applied to health behaviors among both normal and special populations.
Pre-requisite(s): HLTH 3000.

HLTH 3200 - Methods in Health Education

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Designed to appraise and utilize the different methods and aids used in teaching health and lifestyle management in the schools, community, worksite, and health care settings. Students develop skills in organizing, presenting, and evaluating learning experiences presented to target populations in the various settings.
Pre-requisite(s): HLTH 3000 or HLTH 3050 or ESS 2200.

HLTH 3320 - Health and Nutrition in the Older Adult

Credits: (3)
Description: The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental, and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are explored in the context of promoting healthy aging.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 3400 - Substance Abuse Prevention

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Study of legal and illegal drugs from a pharmacological, historical, psychosocial, and behavioral perspective. Emphasis on primary prevention concepts and responsible consumerism. Education students can receive "Substance Abuse Certification" from the Utah State Office of Education.

HLTH 3420 - Multicultural Health and Nutrition

Credits: (3)
Description: The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding or world food problems as they pertain to the health will also be discussed.
Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.
This course is taught Web enhanced.

HLTH 3500 - Human Sexuality

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: A survey course of the biomedical and psychosocial forces which shape our sexuality. The focus will be upon the scholarly study of the biological, social, psychological, and spiritual dimensions of human sexuality.

HLTH 4013 - Health Promotion Research and Assessment

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Description: Application of research methods used both in assessing individual and community needs for health education, and in assessing the effectiveness of health education programs.
Pre-requisite(s): HLTH 3000 and PUBH 3200.

HLTH 4150 - Needs Assessment & Planning Health Promotion Programs

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Conducting needs assessment and planning health promotion programs in a community, occupational, school or clinical setting.
Pre-requisite(s): HLTH 3000.

HLTH 4220 - Women's Health Issues

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A feminist perspective and analysis of the psychological, cultural and political health related issues that impact women throughout the life span.
Pre-requisite(s): Upper division standing or consent of instructor.
(Cross listed with Women's Studies)

HLTH 4250 - Contemporary Health Issues of Adolescents

Credits: (2)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 4300 - Health Education in the Elementary School

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

HLTH 4700 - Wellness Coaching

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Wellness coaching provides a highly effective and focused approach towards improving people's individual health habits and involves coaching people towards achieving their personal, health, and wellness goals. Students with an interest in wellness coaching will gain a broad overview of the field including an introduction to the application of wellness coaching tools, theory, concepts and techniques.
Pre-requisite(s): HLTH 2400, HLTH 3200.

HLTH 4800 - Individual Projects

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged for seniors only.
May be repeated 2 times up to 3 credit hours.

HLTH 4860 INT - Field Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Work experience which applies prior academic learning in a supervised setting.
Pre-requisite(s): HLTH 3000, HLTH 3100, HLTH 3200, HLTH 4150.
May be repeated 5 times up to 6 credit hours.

HLTH 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A continuation of HLTH 2890.
May be repeated 5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

HLTH 4990 - Senior Seminar

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is a capstone course of Health Promotion seniors only. Summarizes the experiences of the Health Promotion Major, addresses future alternatives and prepares students for employment now and/or graduate study.

HLTH 6250 - Contemporary Health Issues of Adolescents

Credits: (2)
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 6300 - Health Education in the Elementary School

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

HNRS 1110 HU - Introduction to Honors

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An interdisciplinary class introducing students to the different ways university disciplines see the world and construct meaning.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1500 PS - Perspectives in the Physical Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary approach to the physical sciences. This introductory class deals with basic concepts, problems and issues of the physical sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1510 LS - Perspectives in the Life Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary approach to the life sciences. This introductory class deals with basic concepts, problems and issues of the life sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1520 SS - Perspectives in the Social Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary introduction to the social sciences. This introductory course deals with the basic concepts, methods, models and issues of the social sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1530 CA - Perspectives in the Creative Arts

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary introduction to the creative arts. This introductory class deals with basic concepts, problems and issues of the creative arts.
A student may repeat a course number twice for a maximum of 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1540 HU - Perspectives in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary approach to the arts and humanities. This introductory class deals with basic concepts, problems and issues of the arts and humanities.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will focus on the history and development of a central concept in the Humanities, using original sources as the primary class texts.
Pre-requisite(s): Prior to taking this course students are strongly advised to take HNRS 1110 HU and a 1000-level HNRS "Perspectives" General Education course.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts

Credits: (3-6)
Variable Title
Description: This course will focus on a central concept in the Creative Arts, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences

Credits: (3)
Variable Title
Description: This course will focus on a central concept in the Physical Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This course will focus on a central concept in the Life Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science

Credits: (3)
Variable Title
Description: This course will focus on the history and development of a central concept in the Social Sciences, using original sources as the primary class texts.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A survey of influential ideas, literature and events that characterize antiquity and the middle ages in the Western world. This course is offered either for HU credit (2110A) or for SS credit (2110B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the great ideas, literature and events that characterize Western civilization from the Renaissance to relativity. This course is offered either for HU credit (2120A) or for SS credit (2120B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: A survey of the great ideas, literature, religions and philosophical foundations of Asia. This course is offered either for HU credit (2130A) or for SS credit (2130B). This course also fills the Diversity requirement. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2830 - Directed Readings, Projects, and Research

Credits: (1-3)
Description: Individualized tutorial with a professor who may be selected from many possible disciplines.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2900 - Honors Colloquium

Credits: (1-3)
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus; may be taken twice up to 3 credits with different course content: restricted to lower division credit.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

HNRS 3110 - Great Books

Credits: (3)
Description: A selection of books that embody some of the great ideas, literature, and events influential in history.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 3900 - Honors Colloquium

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4830 - Directed Readings: Senior Project Research

Credits: (1-3)
Description: This class is taken in preparation for the HNRS 4990 Honors Senior Project. Class time is TBA, but students working towards their Honors Senior Project usually meet about seven times during the semester.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4900 - Honors Colloquium

Credits: (2-4)
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

HNRS 4990 - Honors Senior Project

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course offers a capstone senior project experience for students. All students aiming to complete University Honors must take this class in its 1-credit hour form. Students interested in completing additional research with the Honors Program may register for 2-3 credit hours as appropriate.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HTHS 1005 - Current Certification in Health Care

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Certificate programs provide a foundation for many of the Allied Health Professions. This

course allows students to obtain University credit for the completion of a certificate program. Students should complete their certificate program prior to or during the semester in which they are enrolled in the course. Certificates that currently qualify for this course are Certified Nurse Assistant. Other certificates may be eligible on a case-by-case basis. Students may elect 1-3 credit hours for this course. Required assignments will match the elected credit hours.

HTHS 1101 - Medical Terminology

Credits: (2)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: A comprehensive overview of medical language. This course takes a body-systems approach to presenting the medical terminology associated with anatomy, physiology, diseases and treatments. Designed for all students interested in health sciences or a career in medicine.

HTHS 1103 - Introduction to Health Careers and Care in a Diverse Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will compare and contrast diverse health careers. Students will discuss the history, providers, and delivery models involved in Health Care. The course will explore how such factors as economic class and status in groups such as gender, age, and physical ability affect health care professionals. Students will also explore numerous fields and opportunities in the Health Care Industry.

HTHS 1104 - Introductory Human Anatomy and Physiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Introductory Human Anatomy and Physiology is a single semester 3 credit-hour course that focuses on the basic structure and function of the human body. Course topics include a basic introduction to atomic, molecular, cellular, and tissue levels of organization; and the integumentary, musculoskeletal, neuroendocrine, cardiovascular, lymphatic, immune, respiratory, digestive, and genitourinary systems. Course activities will enhance your understanding of the material by providing practice in critical thinking, content application, and data analysis.

HTHS 1108 - Biocalculations for Health Professions

Credits: (5)
Description: Fundamental mathematical concepts using health professions applications. Topics include: basic arithmetic, pre-algebra, beginning algebra, geometry, and statistics applied to solutions, dosage calculations, electrolytes, acid base balance, circulatory and urinary function, pulmonary function testing and energy and metabolism. This course does not meet the University's quantitative literacy

requirement.
Note: This course is offered as needed.

HTHS 1110 LS - Integrated Human Anatomy and Physiology I

Credits: (4)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Integrated Human Anatomy and Physiology I is the first semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the atomic and molecular levels of organization, cell biology and metabolism, microbiology, and the integumentary, skeletal and muscular body systems. Weekly integrated laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology. This course meets the life science (LS) general education learning outcomes for the university.
Suggested Requisite(s): Completion of HTHS 1101 and/or HTHS 1104 is strongly recommended.
Note: Course may only be taken three times.

HTHS 1111 - Integrated Human Anatomy and Physiology II

Credits: (4)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Integrated Human Anatomy and Physiology II is the second semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the nervous, endocrine, cardiovascular (blood), cardiovascular (heart and blood vessels), respiratory, digestive, urinary, and reproductive body systems. Laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology.
Pre-requisite(s): HTHS 1110 with a grade of C or better.

HTHS 1120 - Case Studies in Health Sciences

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of a variety of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care.

Pre-requisite(s): HTHS 1110 and HTHS 1111 or an equivalent course in anatomy and physiology. Recommended prerequisite: HTHS 1101.

HTHS 1130 - Common Medicines

Credits: (3)
Description: This is an introductory course that will provide information regarding proper drug usage for those without significant backgrounds in the Biological Sciences. The course primarily discusses over-the-counter medicines as well as prescription drug groups that are commonly used by the public. The overall objective of this course will be to provide information in such a way that individuals are able to make wise and appropriate choices, are more aware of possible drug-related problems, and will become well-informed consumers.
May be repeated twice with a maximum of 6 credit hours.
Note: This course is offered as needed.

HTHS 2230 - Introductory Pathophysiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: An introduction to the pathophysiologic disruptions of normal human body function, this course will emphasize disease mechanisms and the body's response to restore homeostasis. Units of study include foundational concepts of cellular injury, genetics, acid-base, electrolyte, fluid balance and functional alterations of the immune, hematologic, nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems.
Pre-requisite(s): Completion of HTHS 1110 and HTHS 1111, or ZOOL 2420, or an equivalent human physiology course with a grade of C or better. Concurrent enrollment in HTHS 2231 is recommended.

HTHS 2231 - Introductory Pathophysiology Laboratory

Credits: (1)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Laboratory and computer exercises involving analysis of both clinical and laboratory data. Students evaluate signs, symptoms, diagnosis, and treatment of various pathological conditions and diseases.
One two-hour laboratory session per week.
Co-Requisite(s): HTHS 2230.

HTHS 2240 - Introduction to Pharmacology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Introductory pharmacology course which covers pharmacological principles including modes

of action, uses, modes of excretion, and patient side effects of various drug classes. The drugs are presented in a "system approach" with emphasis on medications utilized in diagnosing and treating diseases associated with the various body systems. Class format includes a 3 hour lecture class with students participating in oral presentations and case studies. Recommended prerequisite: HTHS 1101, HTHS 1110 and HTHS 1111.

HTHS 2830 - Health Sciences Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed Readings in Health Sciences areas. Must have departmental approval.
May be repeated twice with a maximum of 3 credit hours.

HTHS 2904 - Information Resources in the Health Professions

Credits: (1)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences.
Cross-listed as LIBS 2904.

HTHS 2910 IL - Health Information Literacy, Healthcare Systems & Career Exploration

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: HTHS 2910 is designed for students who are investigating healthcare systems and careers in healthcare, integrating content from both health sciences and information literacy. The course explores pathways that can lead to meaningful and rewarding careers in healthcare, and techniques useful in applying and matriculating into these educational programs. Evidence-based practice is incorporated into the research process, enabling students to identify information needs, and to select, evaluate, and ultimately utilize health information to make informed decisions. This course emphasizes critical thinking and prepares students to join conversations on important topics in healthcare as informed and responsible participants. Ultimately, this course will enable students to approach our information landscape more critically, both as a consumer and creator of information and as a practitioner in the health sciences. This course fulfils the information literacy general education core requirement.
Note: Cohort Code

HTHS 2990 - Health Sciences Seminar

Credits: (1)
Description: Presentations, group discussions and analysis of selected topics, designed to prepare the Health Science major for career opportunities in the job market and applying for Health Professions professional programs.
May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

HTHS 3240 - Pharmacology Principles and Clinical Applications

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Pharmacology Principles and Clinical Applications is an upper division course designed for students who are pursuing a career in health, health education, or the health professions. This course will focus on pharmacokinetics, pharmacodynamics, mechanisms of drug action, evidenced-based medicine, organ-systems approach to differential therapeutics, and topics of current relevancy. In addition, students will present on a pharmacology case or topic of their choice.
Pre-requisite(s): HTHS 1111 or ZOOL 2420, or an equivalent human physiology course. HTHS 2230 - Introductory Pathophysiology is also recommended.

HTHS 3328 - Pathophysiology of Cells and Tissues

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Pathophysiology of Cells and Tissues is a course that will emphasize disease mechanisms and the body's response to restore homeostasis by presenting an orientation to disease as disordered physiology. This course describes the etiology, developmental considerations, pathogenesis and clinical manifestations of disease processes. Units of study focus on the interactions of cellular injury mechanisms, genetic disorders, neoplasia, and inflammatory and immune disorders. WSU Online class only.
Pre-requisite(s): HTHS 1111, ZOOL 2420, or equivalent human physiology course.
May be repeated once for credit.

HTHS 3329 - Pathophysiology of Organs and Systems

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Pathophysiology of Organs and Systems is a course that will emphasize the mechanisms of disordered physiology that underlie disease conditions by analyzing the mechanism(s) of different disease states. Particular attention will be given to etiology, pathogenesis, developmental and environmental influences, and clinical manifestations. Units of study focus on the nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems. WSU Online class only.

Pre-requisite(s): HTHS 1111 or ZOOL 2420, or equivalent human physiology course.
May be repeated once for credit.

HTHS 3410 - Foundations of Health Science Technology

Credits: (3)
Description: The purpose of this course is to teach the student fundamental technological and pharmacological principles used in dental and medical equipment. It will be focused on criteria used by dental and medical personnel to make technology and pharmacology decisions.
Note: This course is offered as needed.

HTHS 3412 - Health Science Technology Applications

Credits: (3)
Description: The purpose of this course is to teach students fundamental technological and pharmacological principles used in specific medical devices. The students will develop an understanding of different health science manufactured products and services and will receive exposure to industry representatives.
Pre-requisite(s): HTHS 3410.
Note: This course is offered as needed.

HTHS 3997 - Digital EEG Concepts

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the fall semester will be required and there is a required research paper.

HTHS 3998 - Normal Adult EEG

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

HTHS 3999 - Artifacts in EEG

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students

will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

HTHS 4010 - Interdisciplinary Health Care Teams

Credits: (3)
Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.
Cross-listed with DENT 4010 and NRSG 4010.
May be repeated twice for credit.
Note: This course is offered as needed.

HTHS 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: This course provides opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.
May be repeated 5 times for 6 credit hours.

HUMA 1010 HU - Introduction to Humanities

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines the world by learning about humanistic disciplines including philosophy, art, literature, and history. In considering how the humanities help us understand what makes us human, we will explore questions about individual identity and our roles in our communities. Europeans in the Renaissance thought that the study of the humanities would make people better citizens. We will ask ourselves if we agree with that sentiment and reflect on what the arts and humanities mean to us as individuals and as a society in the twenty-first century.

ID 1010 CA - Introduction to Interior Design

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Explores the interior design profession, professional certification and licensure. Students learn the various phases of the design process and develop spaces that relate to sustainability, accessibility and human factors. Study of architectural and furniture styles are explored. Students

develop aesthetic judgment as they create spaces that utilize the elements and principles of design and color theory.

ID 1020 - Presentation Techniques

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Exploration of materials and application of methods required for visual communications with interior design presentation. Emphasis in conceptualizing and quick-sketching techniques. Introduction to oral and technical visual presentation methods such as Adobe Illustrator, InDesign and Google SketchUp are incorporated into curriculum.

ID 1050 - Design Documentation, Visualization & Modeling I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course: AutoDesk products licensure, printers, computers. Licensing fees annually
Description: The first in a series focusing on digital documentation, visualization and modeling using the latest technologies for interior construction documents and/or interior architectural renderings.

ID 1860 - Practicum

Credits: (1-2)
Description: A course of occupational experiences in the interior design industry. A plan is created by the instructor and student to provide meaningful training in the student's career field.
Pre-requisite(s): ID 2020, ID 2035.
May be repeated for a maximum of 2 credit hours.
Note: This course is offered as needed.

ID 2010 SUS - Sustainability I: Textiles and Soft Materials

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: A study of fibers, yarns, fabric structure, codes, finishes, and sustainable manufacturing

practices and products-as they relate to residential and commercial interiors. Three-dimensional projects may be required as part of this course.

ID 2020 - Design Documentation, Visualization & Modeling, II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually
Description: The second in a series focusing on digital documentation, visualization and modeling using the latest technologies for interior construction documents and/or interior architectural renderings.

ID 2035 - Design Process/Space Planning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually
Description: Experiences in programming, research development, and schematic design development. Emphasis on problem solving and space planning for residential and non-residential spaces. Design charettes may be included as part of the course curriculum.
Pre-requisite(s): ID 1050 or ARCH 1350.

ID 2040 - Architectural Detailing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually
Description: This course develops interior detailing technical skills, emphasizing stairways, fireplaces, ceilings, floor systems, and millwork (built-in furniture) details for residential and commercial spaces. Accessibility standards are discussed and incorporated into construction drawings and custom millwork designs. Life safety issues in regards to door, frame and hardware specification. Preparation of construction drawings, specifications, door, window and finish schedules for use by the trade. Three-dimensional projects may be required as part of this course.
Pre-requisite(s): ID 2020.

ID 2050 - Codes

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The study and application of interior building codes that insures the health, safety, and welfare of individuals who occupy the structure.

ID 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Exploration and research of interior finishes, materials, and sustainable practices. Practical application for specifying and installation of materials will be emphasized. Three-dimensional projects may be required as part of this course. An interdisciplinary design charrette is featured as part of this course.

ID 2080 - Design Documentation, Visualization & Modeling, III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: The third in a series focusing on digital documentation, visualization and modeling using the latest technologies for interior construction documents and/or interior architectural renderings.

ID 2820 - Historical Interiors

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Historical research of interior furnishing and architecture from Egyptian through English Victorian. Oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

ID 2830 - Directed Readings

Credits: (1-3)
Description: Individually chosen readings or specialized topics supervised by a faculty member.
Instructor's approval required.
May be repeated up to 3 credit hours.
Note: This course is offered as needed.

ID 2860 - Practicum

Credits: (1-2)
Typically Taught Spring Semester: *Full Sem*
Description: A course of occupational experiences in the interior design industry. Students are given

opportunity to apply the design process to a real-life project, often with a service-learning emphasis. Instructor's approval required. This course may be listed among credits for the IDT Study Abroad program.

Pre-requisite(s): ID 2020 and ID 2035.

May be repeated up to 2 credit hours.

ID 2990 - Interior Design Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Support class materials, tour fees, guest lecture materials
Description: Professional issues presented by guest lecturers, tours, and current discussions in interior design. Due to the nature of the curriculum, not all lectures, tours and experiences may be held in a traditional setting or time. This course may be listed among credits for the IDT Study Abroad program. It is encouraged that design majors enroll in this course each semester. May be taken for credit/no credit. May be repeated for credit up to 8 times for a maximum of 9 credit hours.

ID 3000 - Lighting Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: A study of lighting principles, lighting systems, light sources, layered lighting concepts, calculation of lighting levels. Voice and data telecommunications systems, communication of lighting design and specifications including budgetary limitations are covered. Lighting plans, switching plans and electrical plans are explored. Focus is given to life safety concerns, codes, and accessibility. Also, exploration of daylighting principles and energy efficiency is incorporated. Emphasis is placed on communicating a design solution by practical application of learned principles in project format. An interdisciplinary design charrette is featured as part of this course.
Pre-requisite(s): (ID 1050 OR ARCH 1350) and ID 2035.

ID 3020 - American and Modern Interiors

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Historical survey and research of interiors, furnishings, and architecture from the 1880's to the present. Application of modern design in today's interior including oral presentations, research

projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

ID 3025 - Professional Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: A study of the business aspect of Interior Design. Information will be presented regarding forms and professional practices for the Interior Designer, i.e., ethics, contracts, fees, purchase orders, letters of agreement, business formations and terminology of business practice. Job seeking skills will also be covered, along with professional licensing and certification. An interdisciplinary design charrette is featured as part of this course.

ID 3040 - Design Rendering

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Manual and computer-generated rendering techniques are explored and utilized.. An interdisciplinary design charrette may be featured as part of this course.
Pre-requisite(s): ID 2080.

ID 3045 - Residential Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on projects that apply the design process to residential interiors. Kitchen and Bath curriculum and NKBA standards are introduced. 20/20 Technologies software is introduced. Design charettes, local or national competition participation, and/or three-dimensional projects may be featured as part of this course.
Pre-requisite(s): ID 3000 and ID 3040.

ID 3060 - Kitchen & Bath

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: A continuation of residential design is explored in which NKBA guidelines for kitchens and

baths is applied to projects. In-depth study of the design of kitchens and baths is the focus. Kitchen and bath-specific 20/20 Software is utilized. Design charettes and national competition participation are featured as part of this course. Prepares the student for NKBA (National Kitchen and Bath Association) certification exams.
Pre-requisite(s): ID 3045.

ID 4010 - Commercial Studio

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Application of codes as they pertain to egress, accessibility, and fire in commercial interiors. Emphasis on NCIDQ-based commercial projects are featured in this studio course.
Pre-requisite/Co-requisite: ID 4020.

ID 4020 - Commercial Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Applying the design process to commercial design projects is the focus of this course. Contract, hospitality, healthcare, and global projects are emphasized in which students apply codes knowledge and commercial design strategies and specification of commercial-grade finishes and furnishings. Design charettes and national competition participation are featured as part of this course.
Pre-requisite(s): ID 2035, ID 2050, ID 3000, ID 3040.

ID 4025 - Senior Program Development

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: The first of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The first four phases of the design process are embarked upon in this semester. The senior student must take ID 4030 in the same academic year following completion of IDT 4025. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.
Pre-requisite(s): ID 4020.

ID 4030 - Senior Project

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: The second of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The design process continues in this semester including presentation of the capstone project. The senior student must take IDT 4025 in the same academic year preceding IDT 4030. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.
Pre-requisite(s): ID 4025.
May be taken twice.

ID 4040 - Portfolio Design

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Developing and presenting both a hard-copy and digital portfolio for job searching in the field of interior design. In addition to the portfolio, student will create a customized resume, business card, and letter of introduction to accompany both the hard-copy and digital portfolio for presentation to prospective employers and clients. Adobe Creative Suite software is used extensively in this course. Local and national competitions are featured as part of this course.
Pre-requisite(s): ID 4025 or ARCH 4350.

ID 4830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings supervised by a faculty member. Junior/Senior level course. Must be taken with the approval of the instructor. This course may be listed among credits for the IDT Study Abroad program.
May be repeated twice for a maximum of 3 credit hours.

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

JPNS 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

JPNS 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

JPNS 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

JPNS 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

JPNS 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place.
May be repeated under different titles.

JPNS 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place.
May be repeated under different titles.

JPNS 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160. May be repeated under different titles.

JPNS 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3632 - Literature: Drama

KOR 3810 - First Semester Korean

Credits: (3)
Experimental Course, Contact Department for More Information
Description: First Semester Korean is the first part of First Year Korean. This course is designed for beginning-level undergraduate and graduate students who have no or very little knowledge in Korean. This course will start from the Korean alphabet, basic greetings and basic conversational and grammatical patterns. The objective of this course is for the students to acquire a basic level of communication skills and to be able to communicate with Koreans. At the end of the semester, students will be able to listen, read, write and speak Korean at the elementary level. Students should be able to introduce themselves, describe their family, express simple ideas, and narrate their daily life, school activities and weekend activities in the present, past and future tenses. In addition, students will learn useful facts about Korean culture and daily life.

KOR 4810 - Experimental Course

Credits: (1-6)
Experimental

May be repeated for a total maximum of 6 credit hours.

KOR 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
Note: Check with Department for course availability.

LIBS 1704 - Information Navigator

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Online*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Online*
Description: Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning.

LIBS 2504 - Information Resources in History

Credits: (1)
Typically Taught Spring Semester: *Full Sem, Online*
Description: Intended for students interested in history, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in history.

LIBS 2604 - Information Resources in Education

Credits: (1)
Typically Taught Summer Semester: *1st Blk, Online*
Typically Taught Fall Semester: *1st Blk, 2nd Blk, Online*
Typically Taught Spring Semester: *1st Blk, 2nd Blk, Online*
Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.
Cross-Listed with EDUC 2604.

LIBS 2704 - Information Resources in the Business Disciplines

Credits: (1)
Typically Taught Fall Semester: *1st Blk, 2nd Blk, Online*
Typically Taught Spring Semester: *1st Blk, 2nd Blk, Online*
Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.
Cross listed with BSAD 2704.

LIBS 2804 - Information Resources in the Social Sciences

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Intended for students interested in the social sciences, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in the social sciences.

LIBS 2904 - Information Resources in the Health Professions

Credits: (1)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences.
Cross-listed as HTHS 2904.

LING 4830 - Directed Readings in Linguistics

Credits: (1-3)
Description: Directed readings may be undertaken in the general area of linguistics, whether theoretical or applied. Specific topics are to be selected in consultation with the instructor and the linguistics minor program coordinator. The amount of material to be read, and any written assignments based on the reading, will be at the discretion of the instructor; it will be based on the level of the topic and the degree of difficulty of the reading, consistent with existing departmental or university guidelines.
Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

LING 4900 - Variable Topics in Linguistics

Credits: (1-3)
Variable Title
Typically Taught Spring Semester: *Full Sem*
Description: This course will offer opportunities for classroom study beyond those available in the regular course offerings for the linguistics minor. Topics will vary according to the interests of students and the expertise of the instructor; for example, advanced syntax, sociolinguistics, language typology, language and the law, artificial intelligence, neurolinguistics, and language death. The course may be taken more than once with different content.
Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.
May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

LING 4990 - Centering Experience

Credits: (.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Centering Experience is the final requirement for the minor in linguistics at Weber State. Students will assemble a portfolio of their work in linguistics and write a reflection paper.
Note: This course is credit/no credit.

MACC 6120 - Financial Accounting & Reporting

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In-depth coverage of financial accounting and reporting topics from a theoretical and practical standpoint through a combination of lectures, research projects, case studies, and other homework assignments. Topics include accounting for leases, income taxes, investments, consolidations, foreign currency transactions, FASB Accounting Standards Codification, etc.

MACC 6130 - Governmental and Nonprofit Accounting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A study of governmental and nonprofit accounting concepts including revenue and expense recognition; asset and liability valuation; and reporting, disclosure, and financial analysis. Includes in-depth discussion of the new GASB reporting model for governments and analysis of actual government financial statements produced using the new model. Not currently taught.

MACC 6141 - Accounting for Global and Complex Entities

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Issues in international accounting not covered in Intermediate Accounting are covered in this course. The course also covers concepts related to accounting for complex entities, consolidated entities and partnerships. Students who have taken ACTG 4140 - Accounting for Global and Complex Entities will not be permitted to take this course.
Suggested Requisite(s): ACTG 3120.

MACC 6160 - Financial Statement Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Comprehensive study of the analysis and interpretation of financial statements by external decision makers and the impact of accounting conventions and alternative standards on analytical measures.

MACC 6180 - Advanced Accounting Data Analytics

Credits: (3)
Description: Prepare students to apply data analytics in a systematic fashion to different domains of accounting and develop key skills required for an analytics mindset that are valued significantly by industry. The skills we will focus in developing are data preparation and understanding quality of data, performing descriptive data analysis, data manipulation, addressing business and accounting problems using statistical analysis, and creating visualizations that allow business users to see data with new insights.
Pre-requisite(s): QUAN 2600, MBA 6050 , and ACTG 2010 or MBA 6020 or instructor's permission.

MACC 6210 - Business Law and Legal Liability

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MACC 6310 - Advanced Cost Accounting

Credits: (3)
Description: Advanced cost accounting topics including cost accounting for non-manufacturing organizations, human information processing, activity resource usage, pricing, performance measurement, and non-routine decisions.
Note: This course is not currently offered.

MACC 6330 - Strategic Management Accounting

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A study and analysis of advanced managerial accounting subjects. Examines the impact of accounting information on managerial processes including planning, organizing, and controlling.

MACC 6510 - Auditing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Generally-accepted auditing standards, professional responsibilities, evidence, internal control, sampling, audit tests, and audit reports. Students who have taken ACTG 4510 - Auditing will not be permitted to take this course.

MACC 6560 - Advanced Auditing & Assurance Services

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Advanced topics of auditing and assurance services including professional and technical aspects of auditing practice, introduction to SEC, ethics and legal responsibilities, fraud, recent auditing developments, sampling techniques for decision making, internal control, and risk assessment.
Pre-requisite(s): ACTG 4510.

MACC 6570 - Information Systems Auditing

Credits: (3)
Description: Methods, techniques, controls, and procedures used in the audit of computerized accounting systems.
Note: This course is not currently offered.

MACC 6580 - Internal Auditing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Internal audit profession, internal control, risk assessment, evidence gathering, audit management, internal/external auditor relations, environmental auditing and federal sentencing guidelines, and audit reporting.

MACC 6590 - Risk Assessment, and Internal Controls

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Enterprise risk management, risk modeling, fraud risks, internal controls in business and IT processes.

MACC 6610 - Advanced Accounting Information Systems

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: An advanced study of accounting information systems including general ledger, principles, tools, and techniques for controls, database systems, management query, and data analysis tools and systems. Course integrates projects and case studies where applicable.

MACC 6695 INT - Graduate Accounting Internship

Credits: (1-3)
Typically Taught: Various
Description: A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses.
Pre-requisite(s): Admission to the MAcc or MTax program; approval by department chair and program director.
Can be repeated once up to 6 credit hours.

MACC 6700 - CPA Examination Review: FAR

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is a directed self-study course designed to help students prepare for the Financial Accounting and Reporting (FAR) section of the CPA examination. This is a review course and assumes that the student has already taken a number of financial accounting courses. A faculty member will monitor the student's progress and a grade will be determined by the student's performance on weekly quizzes and a final examination.
Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MACC 6750 - Study Abroad

Credits: (3)
Variable Title
Description: This course integrates international travel and site visits with the study of accounting and international business practices. Through readings, assignments, discussions, and visits to important business and cultural sites, the course builds understanding and competence as it relates to the history of accounting, the global accounting profession, and the business and cultural environment in the host countries.
Pre-requisite(s): The student must be admitted to the MAcc or MTax program.

MACC 6801 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.
Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6802 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.
Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6803 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.
Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MACC 6991 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6992 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6993 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MATH 0810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

MATH 0950 ND - Pre-algebra

Credits: (4)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $19.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.
Description: An introduction to mathematical literacy including number sense, algebraic thinking, proportional reasoning, and math learning strategies. Topics include properties of and operations with whole numbers, integers, decimals, fractions and percent; introductory operations and applications with exponents, algebraic expressions, linear equations, and basic geometry. Course fees include math assistance from tutoring services. Does not count toward graduation. Prerequisite: none.

MATH 0970 ND - Pathway to Contemporary Mathematics

Credits: (5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course integrates geometry, numeracy, proportional reasoning, algebraic reasoning, and topics in statistics and functions (linear, quadratic, rational, radical, exponential and logarithmic) using modeling, problem solving, and critical thinking. The course fee for this course includes homework software and math assistance from tutoring services. This course may not be transferred to other USHE schools.
Pre-requisite(s): MATH 0950 or Level 2 placement.

MATH 0990 ND - Beginning Algebra

Credits: (4)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $19.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.
Description: An introduction to algebraic literacy using properties of real numbers, solving linear equations and inequalities, geometry, ratio and proportion, applications, graphing, solving linear systems, exponents, scientific notation, polynomials, factoring, and solving quadratic equations. Learning strategies for mathematics success, including development of a mathematical growth mindset

are integrated into the course.

Pre-requisite(s): MATH 0950 or equivalent placement.

Note: Does not count toward graduation.

MATH 1010 - Intermediate Algebra

Credits: (4-5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $19.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.
Description: Inequalities (including absolute value and systems), systems of equations, applications, functions (inverse, exponential, and logarithmic), variation, factoring, rational expressions, radicals, complex numbers, quadratic equations, parabolas, circles, quadratic formula, formulas, properties and applications of logarithms. The course fee for this course includes homework software and math assistance from tutoring services.
Pre-requisite(s): MATH 0990 or Level 3 placement.

MATH 1020 - Fundamentals of Geometry

Credits: (3)
Description: An introduction to the definitions, methods, and logic of geometry.
Pre-requisite(s): MATH 0990 or placement test.
Note: This course is offered as needed.

MATH 1030 QL - Contemporary Mathematics

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Topics include geometry, statistics, probability, and growth and form.
Pre-requisite(s): MATH 0970 or MATH 1010 or ACT Math score 21 or higher or placement test.

MATH 1035 QL - Contemporary Mathematics with Prerequisite Topics

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will center on topics including: proportional reasoning, financial mathematics, linear and exponential modeling, geometry, probability and statistics. Material will be introduced in the form of real-life problems. Pre-requisite material will be incorporated as appropriate.
Pre-requisite(s): MATH 0950 or ALEKS score of 14 or ACT score of 17 or instructor approval.

MATH 1036 QL/EDI - Mathematics and Movement for the Whole Person

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will center on topics including proportional reasoning, financial mathematics, linear and exponential modeling, geometry, and probability and statistics. Material will be introduced in the form of movement and choreographic tasks. The course also investigates how agency and creativity open access to learning for a diverse group of students. Prerequisite material will be incorporated as appropriate.
Pre-requisite(s): MATH 0950 with C or better or ALEKS score of 14 or ACT score of 17 or MATH 0970 or MATH 0990 or MATH 1010 or MATH 1020 or MATH 1030.

MATH 1040 QL - Introduction to Statistics

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Basic concepts of probability and statistics including data collection and analysis, correlation and regression, probability, discrete and continuous distributions (binomial, normal and t distributions), estimation and hypothesis testing, with an emphasis on applications and understanding of the main ideas.
Pre-requisite(s): MATH 1010, Math ACT score 23 or higher, Placement Test, MATH 1050, MATH 1080 or MATH 1210 and above.

MATH 1050 QL - College Algebra

Credits: (4)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course covers a survey of college mathematics and is also a preparatory course for calculus. Topics from continuous mathematics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems. Topics from discrete mathematics include matrices, matrix algebra and inverses, and determinants.
Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1060 QL - Trigonometry

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is true to its Greek title root "triangle-measure" and is a preparatory course for calculus. Topics include trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry.

Complex numbers, polar coordinates and vectors are also introduced.
Pre-requisite(s): MATH 1010 or MATH 1050 or Math ACT score of 23 or higher or placement test.

MATH 1080 QL - Pre-calculus

Credits: (5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is an accelerated course that covers the main topics of College Algebra and Trigonometry. It is a single course prerequisite to calculus and is primarily for those students that need a review. Topics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems; matrices, matrix algebra and inverses, determinants, sequences and series; trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. In addition, conics and polar coordinates are also covered.
Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1090 QL - Business College Algebra

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Concepts and applications of functions and graphs, polynomial and rational functions, matrices, Gaussian elimination, exponential and logarithmic functions, growth, periodic and continuously compounded interest, arithmetic and geometric series, annuities and loans. Applications mainly to business and economic problems.
Pre-requisite(s): MATH 1010 with a grade of C or better or ACT math score of at least 23, or placement test. Math prerequisites (courses and test scores) expire after 24 months (see www.weber.edu/placement/math-details.html).

MATH 1110 QL - Calculus Concepts and Applications

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A conceptual understanding of the fundamental notions of calculus (limits, continuity, differentiation and integration). Application of these ideas to economics, the social and life sciences, and natural resource modeling is central to the course.
Pre-requisite(s): MATH 1050 QL or MATH 1080 QL or placement test.

MATH 1120 QL - Foundations of Data Science

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will acquire the knowledge and skills used in data science at an introductory level.

The course will focus on interaction between statistical and mathematical reasoning and their application to the collection, preparation, and presentation of data and underlying data management skill for such analysis. Access to a computer is required.

Pre-requisite(s): MATH 1010, or ACT math score of 23 or higher, or a placement test.

MATH 1200 - Mathematics Computer Laboratory

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Solving mathematics problems at the appropriate level for students' backgrounds using a computer algebra system.
Pre-requisite(s): MATH 1050 and MATH 1060, or MATH 1080, or
Pre-requisite/Co-requisite: MATH 1210.

MATH 1210 - Calculus I

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Limits, continuity, differentiation, integration.
Pre-requisite(s): MATH 1050 and MATH 1060 or MATH 1080 or placement test.
Co-Requisite(s): The ability to use a computer algebra system.

MATH 1216 - Integral Calculus

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Definite, indefinite, and improper integrals, transcendental functions, inverse functions, techniques of integration, applications of integration.
Pre-requisite(s): MATH 1210.

MATH 1220 - Calculus II

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Transcendental functions, techniques of integration, analytic geometry, infinite series.
Pre-requisite(s): MATH 1210.
Co-Requisite(s): The ability to use a computer algebra system.

MATH 1630 - Discrete Mathematics Applied to Computing

Credits: (4)
Description: An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include logic, proofs, sets, functions, counting, relations, graphs, trees, Boolean algebra, and models of computation. This course includes programming.
Pre-requisite(s): MATH 1050 or MATH 1080, and CS 1400 or ability to program in a contemporary computer language and the consent of the instructor.
Note: This course is offered as needed.

MATH 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MATH 2010 - Arithmetic for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including arithmetic, number theory, and problem solving.
Pre-requisite(s): ACT score of 23 or better, Accuplacer CLM of 50 or better, MATH 1010 with a C or better, MATH 0970 with a C or better or completion of any math course MATH 1030 or above with a C or better.

MATH 2015 - Algebra for Elementary Teachers

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including variables, expressions, equations and inequalities, and functions. This course includes recitation and hands on activities. The goal is to present mathematical concepts and effective teaching strategies in an integrated manner. Underlying goals are to stimulate variety in solution processes, provide concrete, pictorial and abstract models, develop communication, collaboration and math reading skills in an environment rich with manipulatives and technology.
Pre-requisite(s): MATH 2010.

MATH 2020 QL - Geometry for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Prospective elementary school teachers revisit mathematics topics from the elementary school curriculum and examine them from an advanced perspective including probability, statistics, geometry and measurement.

Pre-requisite(s): MATH 2015.

MATH 2120 - Euclidean Geometry

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Exploration of Euclidean geometry, from basic concepts to advanced theorems.
Pre-requisite(s): MATH 1210 or consent of instructor.

MATH 2210 - Calculus III

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Vector algebra, vector valued functions, multivariable functions, partial derivatives, multiple integrals, line integrals, integration in vector fields.
Pre-requisite(s): MATH 1220.

MATH 2250 - Linear Algebra and Differential Equations

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.
Pre-requisite(s): MATH 1220.

MATH 2270 - Elementary Linear Algebra

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Systems of linear equations, matrices, vector spaces, eigenvalues linear transformations, orthogonality.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 2280 - Ordinary Differential Equations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Methods of solution for ordinary differential equations. Exact equations, linear equations

Laplace Transforms, series solutions.

Pre-requisite(s): MATH 1220.

MATH 2410 - Foundations of Probability and Statistics

Credits: (3)
Description: An introduction to probability and statistics with special emphasis on concepts in the K-12 school curriculum.
Pre-requisite(s): MATH 1210 or MATH 1050 and consent of instructor.
Note: This course is offered as needed.

MATH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

MATH 2925 - Mathematics Monday

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A high impact mathematical educational experience through diverse topics and methods of learning. To form a mathematical community for appreciation and dissemination of mathematics. To develop skills of independent learning, critical thinking, effective verbal and written communication skills, and working within a group.

Learning Outcomes:
1. Exposure to a variety of mathematical topics.
2. Opportunity for mathematical and interpersonal growth.

Topics not typically covered in standard mathematics courses. Topics and activities are at the discretion of the instructor.
Pre-requisite(s): MATH 1220 Calculus II with a grade of C or better.
This course may be taken three times for a total of 3 credit hours.

MATH 2990 - Seminar in Mathematics

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Joint sessions of students and faculty dedicated to the discussion of topics in mathematics and mathematics education. Students will attend seminars, participate in discussions, and write reviews of the presentations.

Pre-requisite(s): MATH 1210 and ENGL 2010, or consent of instructor.

The course may be taken 5 times and up to 6 credits.

MATH 3050 - History of Mathematics

Credits: (3)
Description: A survey of the history of mathematics and its impact on world culture with emphasis on mathematical motivations, original methods and applications.
Pre-requisite(s): MATH 1220.
Note: Check with Department for course availability.

MATH 3110 - Foundations of Algebra

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to Abstract Algebra, Number Theory and Logic with an emphasis on problem solving and proof writing.
Pre-requisite(s): MATH 1210.

MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Axiomatic development of geometry; Euclidean and non-Euclidean.
Pre-requisite(s): MTHE 3117 or instructor consent.

MATH 3160 - Number Theory

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.
Pre-requisite(s): MATH 1210.

MATH 3270 - Linear Algebra

Credits: (3)
Typically Taught Spring Semester: *Full Sem, alternate years*
Description: Theory and applications of linear algebra including abstract vector spaces and canonical forms of matrices.
Pre-requisite(s): MATH 2270.

MATH 3280 - Dynamical Systems

Credits: (3)
Typically Taught Spring Semester: *Full Sem, alternate even years*
Description: Linear and nonlinear systems of differential equations, qualitative behavior and stability of

solutions, applications.
Pre-requisite(s): MATH 2270 and MATH 2280.

MATH 3410 - Probability and Statistics I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 1220.

MATH 3420 - Probability and Statistics II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A continuation of MATH 3410-Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 2210 and MATH 3410.

MATH 3450 - Advanced Statistical Methods

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: This applied statistics course discusses study design, data exploration and visualization, choosing among statistical techniques, and the interpretation of statistical results. Analyses, including T-tests, ANOVA, regression and their non-parametric versions, will be performed on real-world data sets using statistical software.
Pre-requisite(s): MATH 3410 or MATH 1120 or (MATH 1040 and a three-credit 3000 or 4000 level course with one of the following designations: MATH, BTNY, CHEM, PHYS, GEO, MICR, ZOOL, CS, ECE, ME, FIN, ECON). Students may also enroll with permission of instructor.

MATH 3550 - Introduction to Mathematical Modeling

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Formulation, solution and interpretation of mathematical models for problems occurring in areas of physical, biological and social science.
Pre-requisite(s): MATH 1200 and (MATH 2270 or MATH 2280).

MATH 3610 - Graph Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3620 - Enumeration

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3710 - Boundary Value Problems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Fourier series and the method of separation of variables. Heat, wave, and potential equations, Sturm-Liouville problems, orthogonal functions, special functions.
Pre-requisite(s): MATH 2210 and [MATH 2250 or MATH 2280].

MATH 3810 - Complex Variables

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: Analysis and applications of a function of a single complex variable. Analytic function theory, path integration, Taylor and Laurent series and elementary conformal mapping are studied.
Pre-requisite(s): MATH 2210.
May be repeated for a total maximum of 6 credit hours.

MATH 4010 - Capstone Mathematics for High School Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from algebra and geometry.
Pre-requisite(s): MATH 3110 and MATH 3120.

MATH 4110 - Modern Algebra I

Credits: (3)
Typically Taught Fall Semester: *Full Sem, odd years*
Description: Logic, sets, and the study of algebraic systems including groups, rings, and fields.
Pre-requisite(s): MATH 2270 and MATH 3110.

MATH 4120 - Modern Algebra II

Credits: (3)
Typically Taught Spring Semester: *Full Sem, even years*
Description: A continuation of MATH 4110: advanced topics from groups, rings, and fields including the

Sylow theorems and Galois theory.
Pre-requisite(s): MATH 4110.

MATH 4160 - Introduction to Mathematical Cryptography

Credits: (3)
Description: An introduction to the mathematical concepts on which cryptography is based and an introduction to basic cryptographic systems. The course will typically be offered every other year.
Pre-requisite(s): (MATH 3110 or 3160 or 4110 or 3410) and CS 1400.
Note: This course is offered as needed.

MATH 4210 - Introductory Real Analysis I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MATH 2210, MATH 2270, and MATH 3110.

MATH 4220 - Introductory Real Analysis II

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: A continuation of MATH 4210-Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MATH 4210.

MATH 4320 - Topology

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.
Pre-requisite(s): MATH 2210, MATH 2270 and MATH 3110.

MATH 4400 - Statistical Analysis of Big and Small Data

Credits: (3)
Description: This course combines and develops the knowledge and skills used in big and small data using both theory and application. The course deals with methods to analyze data with varying volume, velocity, and variety and their associated challenges. Topics such as data mining, predictive analytics, heteroskedasticity of data, and data visualization will be explored.
Pre-requisite(s): MATH 3410 or (MATH 1220 and MATH 1040) or MATH 3450.

Pre-requisite/Co-requisite: CS 1400 or CS 2550.
Note: This course is offered as needed.

MATH 4610 - Numerical Analysis I

Credits: (3)
Typically Taught Fall Semester: *Full Sem, even years*
Description: Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 2270 and an ability to use a programming language

MATH 4620 - Numerical Analysis II

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: A continuation of MATH 4610-Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 4610.

MATH 4710 - Partial Differential Equations

Credits: (3)
Typically Taught Spring Semester: *Full Sem, odd years*
Description: Partial differential equations. First and second order equations, characteristics and classifications, methods of solution, applications.
Pre-requisite(s): MATH 3710.

MATH 4750 - Topics in Mathematics

Credits: (2-4)
Variable Title
Description: This course will vary with the demand.
Pre-requisite(s): Consent of the instructor.
May be taken more than once for a maximum of 8 credit hours.
Note: This course is offered as needed.

MATH 4910 - Senior Research Project

Credits: (3)
Description: Mathematical research project for seniors. Students may not register for this course the last semester before they intend to graduate.
Pre-requisite(s): Instructor approval.
Note: This course is offered as needed.

MATH 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Note: This course is offered as needed.

MATH 4925 - Problems, Journals, and Research in Mathematics

Credits: (1)
Typically Taught Fall Semester: *Full Sem, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 2nd Blk*
Description: Development and demonstration of independent learning and communication skills through advanced problems solving, presenting journal articles, or undergraduate research under guidance of an advisor.
Pre-requisite/Co-requisite: MATH 2925.
This course may be repeated once for a total of 2 credit hours.

MATH 6400 - Advanced Statistical Learning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students will learn about Statistical Learning and Data Science which are so widely used in the technology sector and beyond. You will learn about common statistical methods and algorithms used by Amazon, Facebook, and Google to made predictive models for data. This course will have an emphasis on modeling (numeric and non-numeric) data, model selection, and neural networks.
Pre-requisite(s): MATH 3410 or MATH 3450 or (MATH 1220 and MATH 1040).

MATH 6450 - Applied Statistics & Regression

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students learn the knowledge and skills necessary for applied statistical analysis. These methods allow focus typically on a selection of advanced regression analysis, missing data, categorical data analysis, time series in relation to regression, colinear data, and model and variable selection. This course also focuses on Applied Statistics & Regression in the context of both a statistical and data scientist view point as this course is part of the Masters of Data Science.
Pre-requisite(s): MATH 3450 or MATH 3410 or MATH 4400 or CS 4580.

MATH 6500 - Factor and Cluster Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students learn the methodology used in big data applications, learn how to make sense out of large data, understand how to analyze survey data with factor analysis, determine distinct groups with the data using cluster analysis, and understand relationships within data. The course will make use of statistical analysis software, and students will be expected to understand both the results of the output and theoretical considerations of the analysis.

Pre-requisite(s): MATH 2270 and (MATH 3450 or MATH 3410 or MATH 4400 or CS 4580) or permission of instructor.

MATH 6900 - Capstone in Statistics and Data Science

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students are required to complete a substantial statistical or data science project. Students must demonstrate proficiency in data analysis, presentation, solving an applied data problem. Students receive T (temporary) grades until successful completion of the project and dissemination, after which the course grade will be changed retroactively.
Pre-requisite(s): Permission of the instructor.

MATH 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Permission of the instructor.
May be repeated for a total maximum of 6 credit hours.

MBA 6010 - Legal and Regulatory Environment of Business

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This course is an introduction to business law, emphasizing basic legal principles and the broad application of domestic and international public and private law. Its overriding objective is to provide a working understanding of the legal environment of business for MBA students. Its focus is on regulatory law, business organizations, and other legal topics of special importance to managers of businesses.
Note: Course offerings are subject to change.

MBA 6020 - Financial and Managerial Accounting

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: A general study of the use of accounting information by internal and external decision makers with emphasis on the use of accounting information by managers of an entity. Topics covered include the accounting cycle, the basic financial statements, inventories, long-term liabilities, cost concepts and behaviors, cost-volume-profit analysis, and financial statement analysis.
Note: Course offerings are subject to change.

MBA 6040 - Managerial Economics

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: This course develops the basic concepts and analytical tools of economics which include opportunity cost, marginal analysis, constraints, and optimizing behavior. Applications include theories of the firm, its organizational architecture, transactions costs, markets, pricing, and other managerial issues.
Note: Course offerings are subject to change.

MBA 6050 - Quantitative Methods I

Credits: (3)
Typically Taught Fall Semester: *1st Blk-Online*
Course Fee: $40.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.
Description: This class will give students the opportunity to learn how to write, read, and analyze statistical data as it pertains to business and society. The basic premise of this course is to provide the student with an understanding of statistics as it is used in business and economics. This course will give special emphasis to understanding, interpreting and communicating statistics. Topics covered include descriptive statistics, probability, probability distributions, sampling distributions and hypothesis testing.
Pre-requisite(s): Additional course work in College Algebra may be required prior to course registration as per department advisement and student's program of study requirements.
Note: Course offerings subject to change.

MBA 6051 - Quantitative Methods II

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Course Fee: $40.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.
Description: This course will build on the first foundation course on descriptive statistics by emphasizing inferential statistics. This course will be application oriented and will focus on hypothesis testing and regression analysis. Students will learn how to design a survey and evaluate the data in order to test theories learned in other MBA classes. Students will also learn basic concepts and methods of optimization using elementary concepts in differential calculus. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6050, or equivalent course in statistics.
Note: Course offerings are subject to change.

MBA 6110 - Fundamentals of Ethical Leadership

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *1st Blk*
Course Fee: $84.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MBA conference room, MBA student computer lab, and hybrid/virtual classrooms, guest speaker costs, software licenses, and program assessment materials.
Description: This course is designed to be taken at the beginning of formal course work in the MBA program. Students will explore various aspects of moral reasoning and apply these concepts to common ethical issues faced in business. Students will work individually and in groups to explore issues of personal values, self-awareness, teamwork, communication, managing differences, and career management. Students in this course will be introduced to analytical, communication, and technological tools used throughout the program.
Note: Course offerings are subject to change.

MBA 6120 - Organizational Behavior

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This is a course for graduate students who have already been exposed to the principles of management and organizational behavior and who are now seeking a more advanced preparation for the behavioral role of the manager. It offers a critical review of the factors that influence behavior within the organizational setting. Behavioral concepts are emphasized which particularly relate to group dynamics, interpersonal relations, and ultimately, organizational effectiveness. In short, this course deals with the human aspects of management--the kinds of problems most frequently experienced in day-to-day interaction with others. The format will include discussions, group and individual exercises, case studies, and student reports.
Note: Course offerings are subject to change.

MBA 6130 - Financial Management

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Financial Management is a detailed presentation of the practices, techniques, and applications of theory in corporate finance. The focus is an understanding of how companies operate and acquire the tools necessary to analyze and evaluate corporate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues. The purpose of the course is to assist current and prospective managers in making better investment and financing decisions. The course addresses (1) the investment decision (capital budgeting) as well as (2) the financing decision. Class discussion and cases will focus on capital budgeting and specifically on the establishment of goals, development of strategy, identification of investment opportunities, evaluation of projects, implementation of projects, and the monitoring processes. Shareholder wealth maximization is the standard for determining why one decision is "better" than another. The ethical

considerations of wealth maximization will also be addressed. Additional foundation course work in accounting and statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6020 and MBA 6050 and MBA 6051, or equivalent courses in accounting and statistics.

Note: Course offerings are subject to change.

MBA 6140 - Marketing Management

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: This course centers on creating customer value profitability in competitive markets. In an integrative fashion, it covers analyzing customer needs and preferences; estimating market potential; assessing market opportunities and threats in view of the focal company's and its competitors' resources and capabilities; developing market and marketing strategies; making astute product, pricing, distribution, and promotion decisions; and measuring marketing performance.
Pedagogical vehicles include lectures, reading assignments, and case-based discussions and reports.
Note: Course offerings are subject to change.

MBA 6150 - Operations/Supply Chain Management

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: "Manufacturing of the future will be required to meet customer-driven demand instantaneously." The future is now! The requirements for faster response, more customer input, and greater product variety have not diminished, but instead have escalated. This course builds upon basic production and operations management knowledge to meet the needs of customers generated in today's global market. It is designed to enhance the student's understanding of how to analyze problems related to design, planning, control, and improvement of manufacturing and service operations. Topics include, but are not limited to, supply chain management, materials management, production planning and control, scheduling, capacity and facilities planning, manufacturing strategy, and global operations. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6050 and MBA 6051, or equivalent courses in statistics.

Note: Course offerings are subject to change.

MBA 6160 - Applications of Decision Models

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Description: This course presents a rigorous treatment of quantitative decision-making with emphasis on data collection, analysis, and model building. This course emphasizes experience in structuring realistic business problems, collecting data, developing an appropriate model for analysis, and interpreting and defending results. A number of cases are employed. Additional foundation course work in statistics may

be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6050 and MBA 6051, or equivalent courses in statistics.

Note: Course offerings are subject to change.

MBA 6170 - Corporate Communications

Credits: (3)

Description: The focus of this course is to develop an integrated corporate communications program in organizations which will provide effective communication both to internal and external stakeholders. Among the topics to be discussed are corporate image and identity, corporate advertising and advocacy, media relations, marketing, communication, financial communication, community relations, corporate philanthropy, government affairs and crisis communication. Attention will also be given to effective communication internally through various methods, such as meetings, programs and publications.

Note: This course is not currently offered.

MBA 6180 - Strategic Management

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: This course takes a broad view of the entire organization. In some instances, the organization will have one line of business. In other cases, the organization may be a large diversified corporation with many lines of business. We will examine the strategic issues facing diversified corporations including: vertical integration, diversification into related and unrelated businesses, and operating synergies.

Pre-requisite(s): MBA 6130, MBA 6140, MBA 6150, MBA 6110.

Note: Course offerings are subject to change.

MBA 6210 - Management Accounting and Control

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: This course is designed to introduce the student to the concepts and procedures of managerial accounting through readings and case studies. The course emphasizes the use of accounting data in the decision-making process by internal decision-makers (e.g., management), rather than external decision-makers (e.g., stockholders, investors, creditors, and regulatory bodies). The course topics include cost terms and concepts, job-order costing, activity-based costing, quality management, cost behavior, cost-volume-profit analysis, profit planning, relevant costs, capital budgeting, cost allocation, and pricing. Additional foundation course work in accounting may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6020, or equivalent courses in accounting.

Note: Course offerings are subject to change.

MBA 6260 - Data Visualization Using Tableau

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *1st Blk, 2nd Blk*
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Description: This course will provide a solid foundational understanding of data visualization with plenty of opportunities to practice and develop visualization skills. This course aims to provide students with a foundational understanding of data visualization and enable them to think through and interact with big data. The overall goal of the course is to teach problem-solving and analysis skills that can be applied to any type of data with any of the numerous tools available.

MBA 6310 - Information Technology in the Enterprise

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *2nd Blk*
Description: Information technology from an enterprise perspective with an orientation toward the management of technology for competitive/ strategic advantage. Managers will be increasingly responsible for making decisions with respect to implementing new technology. This course will provide the background knowledge to enable managers in traditional business units to function as full participants in decisions involving the purchase and application of technology to create a business advantage.
Note: Course offerings are subject to change.

MBA 6360 - Aerospace Program Management

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: Within the context of the aerospace industry, students will be taught how to manage change across multiple projects using program management techniques. In organizations in which multiple strategic initiatives as well as continuous improvement projects are ongoing, understanding how to successfully plan and execute is vital.
Note: Course offerings are subject to change.

MBA 6370 - CPI & Strategy in Aerospace Management

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This management course is designed to teach aerospace business managers how to use the tools in Continuous Process Improvement (CPI) to attain and maintain operational excellence. The course includes relevant CPI tools such as Lean, Six Sigman, Theory of Constraints and Benchmarking. The course will also show managers how to conduct a strategic planning session with senior leadership and strategically align their organizations to maximize the use of CPI tools.
Pre-requisite(s): Admission to the MBA Program or approval to seek the stand-alone Graduate Certificate in Aerospace Management. This course is an elective for all MBA students, but is a required course for students seeking the Graduate Certificate in Aerospace Management. Students must complete

prerequisites of MBA 6050 , 6051 and MBA 6150 prior to registering for this course.
Note: Course offerings are subject to change.

MBA 6410 - Global Macroeconomic Conditions

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course will focus on the impact of global macroeconomic conditions on firm decision-making. To review and analyze current macroeconomic topics, a theoretical framework is developed, from the start showing the linkages among national economies. This framework is used to analyze and forecast business cycles, interest rates, exchange rates, causes of trade deficits, short- and long-term consequences of fiscal and monetary policy decisions, and the globalization of financial markets. Examples from different countries are used to enhance knowledge of the world economy. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6040, or equivalent course in economics.
Note: Course offerings are subject to change.

MBA 6420 - The Economics of Industry

Credits: (3)
Description: This course will focus on the behavior of the individual firm in different market settings, competitive and imperfectly competitive. We are concerned with the strategic behavior of firms under different industry structures as they struggle with the pressures of competition. Students will study how differing levels of the firm's market power impacts pricing and output policies, product differentiation, and barriers to entry. In addition, the student will learn the basics of game theory and use it to analyze the strategic behavior of firms. Topics will include different types of pricing strategies including price discrimination, pricing of product lines, predatory pricing, peak load pricing, and entry deterrence. Issues of non-price competition such as research and development, information, externalities, moral hazard, and firm structure will also be discussed. The course includes both supplemental readings designed to illustrate real-world applications of the theoretical principles developed as well as in-class experiments in strategic behavior designed to illustrate certain theoretical conclusions. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6040, or equivalent course in economics.
Note: This course is not currently offered.

MBA 6430 - International Marketing

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: The course provides foundational knowledge and practical application of international marketing principles and practices so as to prepare participants for entry-level marketing positions in the global context.
Note: Course offerings are subject to change.

MBA 6440 - Strategic Leadership

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: This course will expose students to the strategic nature of leadership. Students will evaluate and discuss key principles and frameworks of leadership through the case method. Students will study leadership styles, situational leadership, personal leadership, and power & influence, as they relate to strategy.
Note: Course offerings are subject to change.

MBA 6450 - Leadership Through People Skills

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course will provide a highly applied introduction to the interpersonal dynamics of leading and motivating others. Emphasis will be placed on the development and acquisition of key behaviors, skills, techniques and mental models for influencing others through sound people skills. By means of hands-on application, role-playing and "learning-by-doing" activities, students will learn to listen for understanding and insight; gain commitment rather than compliance; manage conflict; adapt their style to different people; apply influence skills in all directions; and develop insights into their impact on others.
Note: Course offerings are subject to change.

MBA 6460 - Leadership Through Character

Credits: (3)
Typically Taught Spring Semester: *1st Blk Online, 2 Blk Online*
Description: This course takes a character and values-based focus to developing students' understanding of and capacity for effective leadership. Covered concepts include: identifying and understanding one's own core values and capabilities; a deeper understanding of leadership as it pertains to power, influence and motivation; and the socio-psychological aspects of successfully leading and interacting with others. The course also includes a deeply immersive experiential component whereby students are coached through a self-guided development planning and application process focused on improving on a leadership competency that is mutually selected by the student and instructor. An in-depth personal exploration of each student's unique leadership capabilities and growth opportunities is central to the learning objectives for this course.

MBA 6510 - Investment Analysis and Portfolio Management

Credits: (3)
Description: This course engages class participants in a detailed study of the practices, techniques, policies and applications of theory in investments. Emphasis will be on an understanding of security markets, analysis, asset allocation, portfolio management and evaluation. Students will examine and apply investment tools and evaluate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues and current topics. Course work in finance may be

required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6130.

Note: This course is not currently offered.

MBA 6520 - International Business Field Studies

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: This course integrates international travel and site visits with the study of international business topics. Through readings, assignments, discussions, and visits to important business and cultural sites in the destination countries, the course builds understanding and competence in international business practices and managing across cultures. This course entails travel expenses beyond regular tuition and may be repeated when offered to a different world region.
May be repeated 3 times with a maximum of 9 credit hours.
Note: Course offerings are subject to change.

MBA 6530 - E-Business

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: The Internet has become an important influence in the world. Business on the internet, in terms of operations, marketing, security, etc., has increased concomitantly in influence. This course will provide a foundation for understanding the possibilities and potential pitfalls for doing e-business.
Note: Course offerings are subject to change.

MBA 6540 - Negotiations

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: The purpose of this course is to provide opportunities for class participants to develop their negotiating abilities for use in organizational and other settings. The course is premised on the assumption that negotiating concepts are best learned through practice which is grounded in rigorous analysis and reflection. While theoretical principles and concepts from various reference disciplines (such as social psychology, sociology, and economics) will be presented through lectures and readings, this course will focus primarily on improving practical skills. Class participants will not only learn to enhance their individual abilities in dyadic and group situations, but also to analyze contexts for the most effective application of these skills.
Note: Course offerings are subject to change.

MBA 6550 - Managing and Improving Quality

Credits: (3)
Description: This course examines how organizations can gain competitive advantage by improving the quality and productivity of their business processes, manufactured goods and service outputs. Customer-focused approaches for designing, controlling and improving processes are emphasized,

together with other concepts and approaches of quality management. Specific topics include process analysis, problem-solving methods, variability and statistical process control, performance measurement, and quality management systems. Guest lectures from industry professionals, experiential learning exercises and cases from manufacturing and service industries will assist students in understanding key issues and current topics.

Pre-requisite(s): MBA 6050 & MBA 6051, or equivalent courses in statistics.

Note: Courses offered as needed.

MBA 6560 - Business/Market Planning Using Online Resources

Credits: (3)
Typically Taught Summer Semester: *1st Block, 1st Blk Online*
Description: In this hands-on project-oriented course, students learn to (1) develop and write effective business/marketing plans and (2) use online resources to gather pertinent market, competitor, and environmental information. Students may develop a business/marketing plan for an existing business or for a potential start-up of interest to them. Alternatively, they may write a business/marketing plan and conduct requisite research and data analyses for a business suggested by the course instructor. Learning is facilitated primarily via practical discovery exercises, an extensive term project, and coaching. Although lectures and reading assignments serve to convey essential background knowledge, especially during the first half of the course, much class time is devoted to working on plans in teams under the instructor's guidance.

Note: This course is not currently offered.

MBA 6580 - Project Management

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: This course is a study of topics involved with managing projects. It examines the roles and skills of the project manager and the project office. Students will study the phases of the project life cycle, specifically the activities, requirements, methodologies, and tools common in project management.

Note: Course offerings are subject to change.

MBA 6590 - Strategic Business Tax Planning

Credits: (3)
Description: This course examines tax strategy and planning topics related to making important business decisions. The course addresses business formations, operations, terminations, reorganizations, acquisitions, and divisions. The course also covers tax issues related to multi-state and multi-national business transactions. Unique issues related to executive compensation, partnerships, limited liability companies, S corporations and C corporations are also addressed.

Pre-requisite(s): MBA 6010 or equivalent course in business law; MBA 6020 or equivalent courses in accounting.

Note: This course is not currently offered.

MBA 6620 - Data Mining for Business

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: The broad availability of data, either within organization or about market trends, has led to increasing interest in the methods for extracting useful information and knowledge from data. This course will change the way you think about data and its role in organization. We will examine how data mining technologies can be used to improve decision-making. We will study the principles and techniques of data mining, and we will examine real-world examples and cases to place data-mining techniques in context, to develop data-analytic thinking, and to illustrate that proper application is as much an art as it is a science.
Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.

MBA 6630 - Networking

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course covers the role of networking technology in information systems. Through hands-on and conceptual knowledge, students will learn how data communications and networks are used to facilitate decentralized and distributed systems in support of decision making. Various aspects of networking including standards, media, network design and applications will be covered. Students will gain hands-on familiarity with a local area network and the Internet.
Pre-requisite(s): Admittance to MACC, MBA or MHA program.
Note: Course offerings are subject to change.

MBA 6640 - Cyber Security

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course covers the basic principles and concepts in information assurance. It examines the managerial, operational, and organizational issues of securing information systems. Topics include legal and ethical issues in computer security; privacy concerns; malware; security awareness at the executive, technical and user levels; physical security, personnel security issues; policies and procedures; the need for enterprise security awareness; and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.
Pre-requisite(s): Admittance to MACC, MBA or MHA program.
Note: Course offerings are subject to change.

MBA 6650 - Penetration Testing

Credits: (3)
Typically Taught Fall Semester: *1st Block*
Typically Taught Spring Semester: *1st Block*
Description: This course looks at how penetration testing can help improve information security within organizations. This course will discuss issues related to ethical hacking, scanning, enumeration, systems

hacking, social engineering, malware, vulnerability analysis, session hijacking, denial of service attacks, Web attacks, ID, cryptographic attacks, and IoT vulnerabilities.

Pre-requisite(s): MBA 6630 and MBA 6640, or instructor approval.

MBA 6660 - Forecasting and Time Series

Credits: (3)
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: This course is intended to provide students with applied interest with up to date techniques used in the forecasting of time series. These techniques will be motivated by specific practical problems and will be used in forecasting practices. Although the flavor of this course will be mainly applied, we will need to review and develop some technical background. The emphasis of the class is on practical application and computer implementation.
Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.

MBA 6670 - Cloud Computing

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: Cloud computing is widely used by nearly all organizations to store and process data, host applications, and scale growth effectively. This course will look at how cloud providers (AWS) operate. It will also discuss issues related to security, maintenance, scalability, cost effectiveness, service models, architecture, and deployment models.

MBA 6680 - Graduate Consulting Project

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Graduate students are given the opportunity to consult with an existing organization, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.
Pre-requisite(s): Instructor approval.
Note: Course offerings are subject to change.

MBA 6700 SUS - Managing for Sustainability

Credits: (3)
Description: This course explores how business organizations can address environmental issues to meet societal needs and create competitive advantages. Emphasis is placed on understanding the impacts of businesses on the natural environment; identifying the opportunities for businesses to align their strategies and practices toward more sustainable business models; and using various methods and tools for measuring and improving the environmental performance of individual business organizations and the business system as a whole. Major topics include frameworks for understanding business and environmental sustainability; innovation, design and assessment of green products/services; green marketing issues; green purchasing; environmental management systems; operations and supply chain

management issues for environmental sustainability.

Pre-requisite(s): Admission to MBA program; or graduate standing with permission of the MBA program.

Note: This course is not currently offered.

MBA 6710 - Accounting and Finance for Environmental Sustainability

Credits: (3)

Description: This course will expose MBA students to contemporary accounting and finance thought on environmental sustainability. The course will be divided into accounting and finance modules. The focus of the accounting module will include measurement and reporting of the environmental sustainability of business practices. The focus of the finance module will include capital budgeting for sustainability, financial assessment of sustainable business practices, and investing in environmental sustainability.

Note: This course is not currently offered.

MBA 6715 - Sustainability Tools and Methods

Credits: (3)

Description: This hybrid 8-week course consists of weekly modules, each of which addresses key aspects of sustainability-related business practices. Weekly topics are designed to explore in more depth specific sustainability-related tools and methods as they relate and add value to various aspects of business operations, including finance, accounting, supply chain management, information technology, stakeholder relations, and strategic planning. Secondly, students will gain an overview of the tools, techniques and bodies of knowledge through which they may pursue sustainability-related projects or entrepreneurship within their organizations. The course will utilize sustainability practitioners and subject-matter experts from a variety of organizational backgrounds.

Pre-requisite(s): MBA 6700; Admission to the MBA Program or Graduate Certificate in Sustainability in Business.

Note: This course is not currently offered.

MBA 6720 - Business, Economics, and the Environment

Credits: (3)

Description: Environmental economics considers the efficient and equitable use of society's scarce environmental resources. Environmental resources include air, water, land, wildlife, biodiversity, and ecological systems. The allocation of environmental resources will be considered from different perspectives: (1) market allocations; (2) efficient allocations; (3) equitable allocations; and (4) government attempts to allocate these resources efficiently. Topics of the course include property rights, market failures, benefit-cost analysis, welfare economics, non-market valuation, environmental regulation, and sustainable development and business practices. Emphasis will be placed on the impacts on the firm resulting from environmental problems and regulations; and on sustainable business practices.

Pre-requisite(s): MBA 6040, MBA 6051 or equivalent.

Note: This course is not currently offered.

MBA 6730 - Consulting Project in Sustainability

Credits: (3)
Description: Graduate students are given the opportunity to consult with an existing organization, evaluate sustainable business practices, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.
Pre-requisite(s): Instructor approval and MBA 6700, MBA 6710, and MBA 6720.
Note: This course is not currently offered.

MBA 6740 - Principles of Contract Management

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: Students will gain an overview of the fundamentals of contract management from the development of acquisition requirements, solicitation/proposal, negotiation, contract formation, contract performance, and contract closeout. Learn the basics of what it takes to solicit, procure, negotiate and administer contracts and subcontracts while gaining a broad understanding of business principles to establish long-term relationships with customers, suppliers and other stakeholders. Explore an insider's view of the roles and responsibilities of contract administrators and the various interfaces with program management and other internal disciplines. Learn how to identify the basic differences between contract types and how they are selected to mitigate risk in a contractual environment, as well as exploring the key distinctions between commercial, government and international contracting processes.
Note: Course offerings are subject to change.

MBA 6750 - Financial Aspects of Contract Management

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: Within the context of contract management, students will learn how to structure cash flow through financial methods that include invoice timing, pricing, overhead considerations, advance payments, letters of credit and other financial sources. Gain a comprehensive knowledge of accounting systems, budgeting, reporting, auditing and settlements. Enhance the profitability of your business through prudent contracting financial practices.
Note: Course offerings are subject to change.

MBA 6760 - Legal Aspects of Contract Management

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Description: Within the context of contract management, students will gain a working knowledge of stakeholder requirements, applicable common law, Federal Acquisition Regulations (FAR), Uniform Commercial Code (UCC) and other local, state and federal regulations and law that must be adhered to throughout the contract management process. Students will learn the legal aspects of contract management with an emphasis on real world, day-to-day application. Students will explore all phases of managing an approved contract successfully through completion of performance including change management, communications, negotiations, contract types, terms and conditions, risks, defaults,

terminations, claims and much more. Students will participate in projects and discussions to rapidly enhance knowledge and proficiency in contract management in order to apply classroom concepts in the workplace.

Note: Course offerings are subject to change.

MBA 6800 - Directed Study

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual study and research on special topics related to business.
Pre-requisite(s): Written approval of MBA program and instructor.
May be repeated for a cumulative total of three credits.
Note: Course offerings are subject to change.

MBA 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MBA 6850 - Business Development and Entrepreneurship

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: Students will learn how to effectively come up with an idea, iterate around that idea, and validate customers around their final direction so that they can learn how to successfully launch an idea into a business with low risk, low capital, and higher degrees for success. In addition, if a student is interested in learning how to be a better "intrapreneur" this course will help them use some of these same skills in a corporate or employee environment. Being innovative and creative is always valuable.
Note: Course offerings are subject to change.

MBA 6870 - Sales Strategy & Management

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Description: This course looks at advanced selling techniques or the skills that make a salesperson and/or business leader successful in large or complex sales. These sales differ from the simple sales because they involve high-value goods or services, a sophisticated customer or business executive, and there is a continuing relationship after the sale. This course will build managerial relationship-selling skills that can be used in many settings.

MBA 6890 - MBA Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description:
The Master's of Business Administration offers MBA students the opportunity to earn 1 to 3 elective credits for a work internship.
Pre-requisite(s): For requirements and guidelines, contact the MBA office.
May be repeated three times for a maximum of three credit hours.

MBA 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MCJ 6000 - Criminal Justice Statistics

Credits: (3)
Typically Taught Fall Semester: *Full Sem-Online*
Typically Taught Spring Semester: *Full Sem-Online*
Description: Criminal Justice Statistics is a focus on the role of data collection and analysis in formal, empirical research projects. The course begins with a review of statistical applications including measures of central tendency, dispersion, and hypothesis testing. The course concludes with an examination of more complex analytical tools such as MANOVA, Factor Analysis, Path Analysis, and Logistical Regression. Students will review various styles of multivariate analysis in peer-reviewed scholarly literature as well as use computing resources to conduct their own multivariate analysis of a criminal justice dataset.

MCJ 6060 - Private Security

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Description: This course will examine the philosophical, practical, and legal basis of security. The role of security and the security of the individual in modern society, the concept of professionalism and the relationship to public law are reviewed. Personnel, physical, and administrative aspects to security are examined.

MCJ 6070 - Terrorism

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Course provides an overview of key research areas into terrorism, including the nature and

conceptualization of terrorism, the individuals and groups that perpetrate terrorism, and counterterrorism and homeland security as responses to terrorism.

MCJ 6080 - Media and Crime

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This class uses a combination of criminal justice, sociology, and cultural studies to guide students as they examine the relationship between broad media (including social, movies, television, and music), and crime. Students will become familiar with the theoretical lenses used to assess media effects and cultural criminology. Crime and media construction, image, moral panics, and the impact of the internet on crime and deviance will also be explored.

MCJ 6090 - Ethics in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: *Full Sem - Online*
Description: An advanced course in ethics as it relates to law enforcement, courts, and corrections.

MCJ 6100 - Contemporary Criminal Justice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Course provides an analysis of the policies and practices of agencies of the criminal justice system including the police, prosecution, courts and corrections. Additionally, the latest technology and developments in the field of criminal justice will be addressed.

MCJ 6110 - Research Methods in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Course teaches quantitative and qualitative research design, data collection and analysis techniques, and research presentation and dissemination methods. Descriptive and inferential statistics will be covered as well as basic computer applications in criminal justice.

MCJ 6120 - Theories of Crime and Delinquency

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Course focuses on a review of classical and current theories of criminology and delinquency and the underlying assumptions of each. Advancements in profiling and classification as well as other applications of theoretical models will be studied.

MCJ 6130 - Law and Social Control

Credits: (3)
Typically Taught Spring Semester: *Full Sem-Online*
Description: Course focuses on the nature of law and legal institutions and the relationships between law and social control. Concepts of law and justice from the perspectives of its effects on the American criminal justice system will be investigated as well as the public policy concerns of laws and their relationship to our society.

MCJ 6140 - Technology and Innovation in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Course explores the latest developments in technology and innovations in criminal justice. Included will be current developments in forensic science, i.e. DNA and the use of computer applications in criminal justice. Specific topics will be adjusted as new technologies arrive. Emphasis will be on impact and management rather than the strict science of the protocols.

MCJ 6150 - Race, Class, Gender, and Criminal Justice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Course will sensitize and educate criminal justice professionals to issues of diversity and equity. It explores the cross-cultural contact that criminal justice professionals have with citizens, victims, suspects, and co-workers, and the influence of culture, class, race and gender in the criminal justice field.

MCJ 6160 - Criminal Justice Policy Analysis

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Course focuses on crime as a political issue and examines how conflicting political philosophies influence criminal justice policy. Emphasis will be placed on how decisions in politics affect criminal justice organizations and how these decisions can be influenced by executive managers.

MCJ 6170 - Juvenile Justice & Delinquency

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Course examines the origins and development of the juvenile justice system with particular emphasis on the current policies and practices of the agencies which process young offenders through the juvenile system. Course examines a variety of political initiatives designed to reduce the jurisdiction of the juvenile court, enhance the due process rights of juveniles, and create a more punitive approach in the juvenile justice system.

MCJ 6180 - Contemporary Legal Issues

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course exposes students to current law impacting criminal justice professionals. Topics will change depending upon current legal developments, but will include the general areas of corrections, law enforcement, employment, civil liability and criminal procedure.

MCJ 6190 - Legal Foundations of Criminal Justice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Broad survey of foundational legal topics relevant to criminal justice, including: criminal law, search and seizure, bail, right to counsel, self-incrimination, lineups, responsibilities of courtroom legal actors, speedy trial, impartial jury, plea bargaining, double jeopardy, sentencing law, inmate rights, juvenile law, death penalty law, and basic rules of evidence.

MCJ 6200 - Advanced Victimology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This is a graduate-level seminar designed to provide an overview of key research areas in victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

MCJ 6210 - American Criminal Courts

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Course exposes students to the dynamics of the American criminal courthouse. Students will examine how defense attorneys, defendants, prosecutors, judges, juries and others interact and contribute to America's version of criminal case disposition. Course also examines the mechanics of criminal case processing, as well as how the court system is supposed to work, how it really does work, and the implications for American democracy.

MCJ 6220 - Contemporary Law Enforcement

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: From the response and investigation of crimes committed, to the theory and practice

involved in crime prevention, this course studies the development, theory, history and contemporary organizational structure of America's law enforcement organizations.

MCJ 6230 - Contemporary Corrections

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Course provides an analysis of critical problems confronting contemporary adult corrections agencies. Course examines the problems of institutions, the effect of judicial intervention in corrections, alternatives to incarceration, and the political milieu in which this occurs.

MCJ 6250 - Topics in Criminal Justice

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: Course focuses on a special issue or topic in criminal justice. A new topic/issue will be selected each time the course is offered.
May be repeated with a maximum of 10 credit hours.

MCJ 6255 - Great Thoughts in Criminal Justice

Credits: (3)
Typically Taught Fall Semester: *Full Sem-Online*
Description: This course explores the broader context of criminal justice studies and concepts through the writings of significant authors and thinkers. Readings will focus on subjects such as justice, punishment, law and social control. Students will be expected to read extensively and participate in analysis and discussion.

MCJ 6260 - Graduate Readings

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Course allows the student to examine the scholarly literature on a subject of special interest under the supervision of faculty. Reading list and accompanying assignments must be approved by the supervising faculty member. Periodic progress meetings will be scheduled throughout the semester.
May be repeated once with a maximum of 6 credit hours.

MCJ 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific

title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

MCJ 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ME 3040 - Dynamic System Modeling

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Fundamentals of analysis, design and control of physical engineering systems.   Analytical and numerical modeling of mechanical, electrical, fluid and thermal systems with applications.
Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ENGR 2030.

ME 3050 - Machine Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Design and analysis of machine elements and machines. Material selection, connections and joints, shafts and bearings, fits and tolerances, fasteners, material failure and reliability.
Pre-requisite(s): ENGR 2030 and ENGR 2140.

ME 3060 - Sensors, Instrumentation and Control Systems

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: maintenance and replacement of instruments and replacement of sensors and other consumable parts.
Description: Fundamental principles of sensors for the measurement of physical quantities. Instrumentation for processing the inputs and outputs of sensor signals. Control of mechanical, electrical and thermal systems. Lecture plus laboratory.
Pre-requisite(s): ME 3040 and ME 3050.

ME 3300 - Fluid Mechanics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Fundamental principles of fluid statics and dynamics. Fluid properties, flow regimes,

pressure, velocity, flow rate, internal and external flow, and dimensional analysis. Applications of fluid mechanics. Lecture plus laboratory.
Pre-requisite(s): MATH 1220, ENGR 2030 and ENGR 2300.

ME 3350 - Engineering Computing

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Introduction to engineering computing with applications to the analysis and design of engineering systems using an industry-standard software platform.
Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280).

ME 3500 - Numerical Methods for Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Fundamental methods for the numerical solution of engineering problems. Topics include root finding, interpolation, curve fitting, differentiation, integration, differential equations and curve fitting.
Pre-requisite(s): ME 3040 and ME 3350.

ME 4000 - Heat Transfer

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Fundamental principles of conduction, convection and radiation. Heat transfer with phase change, heat exchangers, and applications of heat transfer. Lecture plus laboratory.
Pre-requisite(s): MATH 2250 or MATH 2280 and ME 3300.

ME 4050 - Thermal-Fluid Laboratory

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Course fees are used to maintain and periodically replace necessary laboratory equipment and instruments and to purchase required consumable materials.
Description: This laboratory course provides experiences observing, predicting, and measuring fundamental phenomena in the thermal-fluid sciences. The course focuses on hands-on learning through weekly laboratory activities. Key concepts include measurement techniques, uncertainty analysis, sensor calibration, and other measurement-related important topics.
Pre-requisite(s): ME 3300
Co-Requisite(s): ME 4000

ME 4100 SUS - Senior Project I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Course Fee: $75.00

Course Fee Purpose: Maintenance of machine tools and hand tools. Replacement of mills, drills, reamers, bores, etc.

Description: A mechanical engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.

Pre-requisite(s): ME 3060, ME 3500, ME 4000.

ME 4150 - Vibrations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Fundamental principles of free and forced vibrations of discrete linear systems with and without damping. Multiple-degree-of freedom systems, continuous systems, shock isolation and vibration control.

Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ENGR 2030.

ME 4200 SUS - Senior Project II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Maintenance of machine tools and hand tools. Replacement of mills, drills, reamers, bores, etc.
Description: Continuation of ME 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.

Pre-requisite(s): ME 4100.

ME 4250 - Finite Element Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Introduction to the finite element method. Survey of FEA theory, including element formulation, stiffness matrix operations, shape functions, etc. Application and use of commercial FEA software for engineering design and analysis.

Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ME 3050.

ME 4300 - Material Failure Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A survey of material failure modes, including fatigue, fracture, wear and corrosion. Introduction to damage tolerant design methodologies. Case studies in material failure.
Pre-requisite(s): ENGR 2160 and ME 3050.

ME 4350 - Intermediate Mechanics of Materials

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Intermediate topics in mechanics of materials such as three-dimensional combined stress fields, stress concentrations, dynamic loads, torsion of non-circular members, plates and shells, stability and buckling of columns, and energy methods.
Pre-requisite(s): ENGR 2140.

ME 4400 - Aerodynamics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Airfoil theory, lifting bodies, boundary layers, lift and drag, compressible aerodynamics.
Pre-requisite(s): ME 3300.

ME 4440 - Compressible Fluid Flow

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Fundamentals of compressible fluid flow. Normal shock waves, Fanno flow and Rayleigh flow. Two-dimensional supersonic flows with oblique shocks and Prandtl-Meyer expansion fans. Compressible flow in nozzles and supersonic wind tunnels.
Pre-requisite(s): ME 3300 and ME 4000.

ME 4450 - Aerospace Propulsion

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Design and analysis of gas turbine engines and rocket motors. Liquid and solid fuel propulsion systems. Thermodynamics of flow associated with aerospace propulsion systems. Introduction to fuel combustion processes.
Pre-requisite(s): ME 4440.

ME 4500 - Heating, Ventilating and Air-Conditioning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Principles of heating, ventilating and air-conditioning (HVAC) of buildings. Refrigeration

systems and indoor thermal environmental control system analysis and design.
Pre-requisite(s): ME 4000.

ME 4550 - Robotics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $ 50.00
Course Fee Purpose: maintenance of equipment, software license and replacement of consumable parts.
Description: The mechanics and dynamics of robots. Kinematics, kinetics and trajectories of motion. Instrumentation, sensors and control system theory of robotic systems. Programming of robotic systems. Human/robot interfaces and safety.
Pre-requisite(s): ME 3040.

ME 4600 - Intermediate Thermal-Fluids

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Intermediate topics in thermal-fluid sciences built upon knowledge from thermodynamics, fluid mechanics and heat transfer. Topics include thermodynamic cycles, psychrometrics, piping systems, boundary layers, heat transfer with phase change, radiation, and thermal design. Lecture plus laboratory.
Pre-requisite(s): ME 4000.

ME 4800 - Individual Research Problems

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: With permission and under the direction of faculty, the student researches a specific problem in the mechanical engineering field.
Pre-requisite(s): Permission of department.

ME 4830 - Readings in Mechanical Engineering

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.
Pre-requisite(s): Permission of department.

ME 4890 - Cooperative Work Experience

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for engineering work experience. Permission of department required.
Pre-requisite(s): Permission of department.

ME 4900 - Special Topics

Credits: (1-3)
Variable Title
Typically Taught Spring Semester: *Full Sem*
Description: A special topic in mechanical engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.
Pre-requisite(s): Permission of department.

ME 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Permission of department.
May be repeated for a total maximum of 6 credit hours.

ME 4990 - Seminar in Mechanical Engineering

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees in ME 4990 are used to cover the cost of class handouts, consumable materials in the labs, lab computing equipment, and related software.
Description: Seminar is designed to prepare the student for professional engineering employment. Topics include resumes, interviewing techniques, engineering ethics, professionalism, patent law, social issues, lifelong learning, diversity, communication, timeliness, and continuous improvement. Lectures and presentations by faculty, staff, and guests from local engineering industry.
Pre-requisite(s): ME 4100.

MENG 5010G - Introduction to Linguistics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces students to the scientific study of language. It explores what languages have in common, as well as what distinguishes them. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be expanded and applied to other areas, such as language acquisition, language history, language and culture, language and thought, and language and literary expression. This course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5050G - Grammar, Style, and Usage for Advanced Writing

Credits: (3)
Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage to become more proficient writers. Its offers practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5080G - Critical Approaches to Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

MENG 5510G - World Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students in this course read texts from a variety of eras and of authors and regions outside the United States and Great Britain. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same period was applied toward an undergraduate degree.

MENG 5570G - American Literature I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

MENG 5580G - American Literature II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5670G - British Literature I

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

MENG 5680G - British Literature II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5730G - Literature of Cultures and Places

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students in this course read texts focusing on a single national culture or works from various cultures. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated 5 times with a maximum of 6 credit hours.

MENG 6005 - Intercultural Classroom Discourse

Credits: (3)
Description: Students will read, discuss and experience interactive learning tools from the fields of sociolinguistics, intercultural communication, and TESOL pedagogy. Students will analyze dialects and personal/social conversational styles. Examples from literature and film will help provide a contextualized means of observing and understanding cultural identities.

MENG 6010 - Introduction to Graduate Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will learn research methods and methodologies that will allow them to produce publishable, sophisticated pieces of academic prose of the kind expected of professional academics. Students will compose abstracts, conference paper proposals, annotated bibliographies, and surveys of

scholarship. Students will explore academic databases extensively and learn to evaluate rigorously other scholars' work. Students will be encouraged to submit their work in the class to journals, conferences, or collections of essays. Students should take this course within their first year of study and focus their research on topics that may support future work on a thesis or project. Required in first or second semester.

MENG 6030 - Studies in Literary Theory and Criticism

Credits: (3)
Variable Title
Description: Students will study influential works in literary theory--potentially ranging from Plato's REPUBLIC to Gayatri Spivak's groundbreaking feminist studies to Stephen Greenblatt's New Historicist studies to Homi Bhabha's postcolonial analyses--paying specific attention to the influence of these theories on English studies.
May be repeated 10 times for credit hours with different content.

MENG 6100 - Literary Curriculum Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores theory and research in curriculum design in the field of teaching literature and literacy. With the intention of preparing teachers to design intentional, equitable curricula that serves secondary students in grades 7 - 12 grade, this course also has pragmatic implications for teaching at the collegiate level. Through surveying multiple learning and educational theories related to curriculum design, this course promotes intellectual, well-paced, and purposeful teaching in the discipline of English.

MENG 6110 - Writing for Teachers

Credits: (3)
Description: Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of writing and applies it to issues in the secondary classroom. Permission of instructor required to register.

MENG 6120 - Young Adult Literature

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores young adult literature through three critical lenses: authorship, readership, and pedagogy. This course examines theory, research, and practice in publishing, reading, and teaching young adult literature. With an explicit focus on diverse and inclusive books, this course prepares scholars to evaluate young adult literature across multiple genres, contexts, and purposes. Note: Permission of instructor required to register.

MENG 6130 - Theories of Rhetoric and Writing Studies

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is an intensive study of rhetoric and writing theory. Selected works of major composition and rhetorical theorists will be examined and historicized within a survey of the teaching of academic writing from antiquity to the present.

MENG 6140 - Foundations of Professional and Technical Writing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will study the theoretical foundations and scholarly practices of professional and technical writing and communication. The course will examine the major ideas of those who practice professional and technical writing and the main values and practices of the field.

MENG 6150 - Grant Writing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This class covers advanced studies in the grant writing process. Class will examine the processes of formulating legible questions and developing meaningful partnerships and move toward experience in taking action and member checking. Students in this class will master contemporary theories of audience and genre while learning action research theories of change.

MENG 6210 - Teaching Literature, Literacy, and Language in the Secondary Schools

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores the most current research and theory in literature, literacy, and language as it applies to teaching in secondary English classrooms. This course explores culturally sustaining pedagogical practices that affirm adolescents' knowledge and use of language.

MENG 6230 - Wasatch Range Writing Project Summer Institute

Credits: (1-6)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Description: This course is designed to follow the National Writing Project model. The four-week Invitational Institute is for inservice teachers nominated by their school district or their peers. It is designed to develop leadership skills in those teachers to enable them to impact the quality of writing instruction in their individual schools and district. It is also designed to develop teacher leadership for the Wasatch Range Writing Project. The One Week Open Institute is open to any inservice teacher wishing to improve writing instruction in his/her classroom.
Can be repeated once up to eight (8) credit hours total.
Note: Permission of instructor required to register.

MENG 6231 - Wasatch Range Writing Project Advanced Institute

Credits: (1-6)
Variable Title
Description: This is a variable topics variable title course designed for Wasatch Range Writing Project Teacher Consultants, teachers who have taken the WRWP Summer Institute and work with WRWP providing professional development to local school districts. It allows those teachers to increase their effectiveness as teachers, add to their expertise for work with inservice teachers and research possible solutions to literacy issues facing elementary and secondary education in our region. Course titles may include: Developing Utah State Core Standards Workshops, Digital Writing, Developing Argument Writing Across the disciplines. Only six hours can be used for meeting elective requirements in the MENG program.
Pre-requisite(s): Six hours credit in MENG 6230.
May be repeated 6 times and up to 18 credit hours.

MENG 6240 - Seminar in American Literature

Credits: (3)
Variable Title
Description: This seminar explores major texts of one particular American era. The course focuses on literature which articulates the selected period.
This variable emphasis course may be repeated 10 times for credit with different content.

MENG 6250 - Seminar in British Literature

Credits: (3)
Variable Title
Description: This seminar explores major texts of one particular British era. This course focuses on the literature which articulates the selected period. This variable emphasis course may be repeated 3 times up to 6 credit hours with different subject matter.
This course may be repeated four times for a maximum of 12 credit hours.

MENG 6260 - Seminar in World Literature

Credits: (3)
Variable Title
Description: This seminar explores literature other than American or British. The course focuses on the literature which articulates the selected time and place.
This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6280 - TESOL Practicum

Credits: (1)
Description: TESOL practicum provides guided and supported experience in one or more of the following: tutorial, small group teaching, whole class lesson planning. Candidates will practice a variety of instructional modes for speaking, reading and writing.
Note: Instructor permission is required for registration.

MENG 6310 - Language and Sociolinguistics for Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Designed primarily for in-service teachers, this course explores recent research in linguistics and sociolinguistics, and applies it to issues in the classroom.

MENG 6320 - World Languages

Credits: (3)
Description: This course broadens students' awareness of diversity among the world's languages, thereby fostering understanding and appreciation of the nature of human language in general. Issues may include language obsolescence and maintenance, writing systems of the world, prosody and poetic forms in other languages, language history, and language families. Some prior experience in linguistics or language structures will be helpful as students study profiles of selected languages representing major language families of the world and various geographical areas.

MENG 6330 - Literary and Rhetorical Stylistics

Credits: (3)
Description: This course surveys the literature on style in linguistics, literature, and rhetoric. Some prior background in grammar will be useful as students engage in quantitative and qualitative stylistic analysis of texts from a literary period, genre, or particular author and learn how diction, syntax, and figurative language can be deployed to communicative and artistic ends.

MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, Odd Years*
Typically Taught Spring Semester: *Full Sem*
Description: This course emphasizes practical strategies and methods of teaching English as a Second Language in elementary and secondary schools.

MENG 6420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem, Odd Years*
Description: This course provides the foundation for ESL/Bilingual teachers in the workings of the English language: its pronunciation and spelling systems, its word-forming strategies, and its sentence structure patterns.

MENG 6450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, Even Years*
Typically Taught Fall Semester: *Full Sem*
Description: This course explores how to evaluate and implement assessment processes effectively for

ESL/Bilingual pupils in public schools. Students will gain experience with both standardized test and authentic assessment.

MENG 6510 - Seminar in Eminent Writers:

Credits: (2-3)
Variable Title
Description: This seminar examines significant works of and relevant criticism on an influential writer or a small group of writers.
This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6520 - Seminar in Shakespeare

Credits: (3)
Typically Taught Summer Semester: *1st Blk, Even Years*
Description: This seminar examines a range of Shakespeare's major works as well as relevant criticism.

MENG 6610 - Advanced Studies in Genre

Credits: (2-3)
Variable Title
Description: Students will analyze primary and secondary texts about one genre or sub-genre to develop a definition and understanding of the form.
This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6710 - Variable Topics

Credits: (2-3)
Variable Title
Description: Topics will vary based on student interest and instructor expertise.
This course may be repeated 10 times for credit with different subject matter.

MENG 6730 - Creative Writing Forms and Crafts

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: This course will investigate the relationship of form and function in creative work and explore how the underlying structure affects the impact of the work. This course will examine a variety of work to examine the effect of formal choices on readers' response. The course will then put these strategies and insights to work by drafting, workshopping, and revising students' own original writing.
May be repeated 2 times and up to 9 credit hours.

MENG 6740 - Creative Nonfiction Writing

Credits: (3)
Variable Title
Typically Taught Spring Semester: *Full Sem*

Description: In this course, students will study the art and craft of writing creative nonfiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

May be repeated 2 times and up to 9 credit hours.

MENG 6750 - Fiction Writing

Credits: (3)
Variable Title
Typically Taught Spring Semester: *Full Sem*
Description: In this course, students will study the art and craft of writing fiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

May be repeated 2 times and up to 9 credit hours.

MENG 6760 - Poetry Writing

Credits: (3)
Variable Title
Typically Taught Spring Semester: *Full Sem*
Description: In this course, students will study the art and craft of writing poetry. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing.

May be repeated 2 times and up to 9 credit hours.

MENG 6770 - Screenwriting

Credits: (3)
Description: This course provides advanced study and practice in the craft of screenwriting. Students will analyze screenplays, read and discuss craft advice from professional screen writers, watch films and compare script to screen, complete exercises on craft theory, and practice the craft by writing scenes and short scripts. The course will also provide context in terms of current issues in the screenwriting industry.

MENG 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

MENG 6821 - Teaching Developmental Reading and Writing

Credits: (2)
Description: This course introduces first-time teachers to the theory and practice of teaching

developmental reading and writing.

Note: Permission of instructor required to register.

MENG 6822 - Teaching College Writing

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces first-time teachers to the theory and practice of teaching college writing.

Note: Permission of instructor required to register.

MENG 6823 - Teaching Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course supports teachers in their second semester of teaching college writing. Students will meet regularly to develop teaching strategies, enhance grading skills, resolve problems that have arisen in their classes, and plan strategies and procedures for classes they are teaching.

Note: Permission of instructor required to register.

MENG 6830 - Directed Readings

Credits: (1-3)
Description: This course allows students credit for individual study with a professor, usually for further study that grows out of course work. The student and professor agree to a written contract for study which must be approved by the program director. No more than 3 credit hours of directed readings may apply toward the MA degree unless approved by the program director. This course is designed to allow students to explore in depth and/or breadth, subject matter which goes beyond the established courses in the Master's Degree Program.

May be repeated 3 times with a maximum of 9 credit hours.

MENG 6861 - Practicum in Secondary English Education

Credits: (2)
Description: This course provides a broad, practical background in teaching young adult (YA) literature for MENG students seeking secondary school licensure. Selection, evaluation, curriculum planning, and assessment in teaching literature will receive primary emphasis. Issues concerning community values and censorship will also receive our attention.

Pre-requisite(s): EDUC 6050 Curriculum Design, Evaluation, Assessment (3) must be taken prior to MED 6120 /6861. We strongly recommend that MENG 6110 Writing for Teachers (3) or MENG 6230 Wasatch Range Writing Project Summer Institutes (3) be taken prior to MENG 6120/6861. MENG 6120 and MENG 6861 must be taken concurrently.

MENG 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current oferring under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MENG 6940 - Masters Project

Credits: (2-6)
Description: This course provides for the creation and execution of a project growing out of graduate study particularly as it applies to the workplace. Project credit may be taken in increments of 1-3 hours in any term.
May be repeated twice up to 6 credits.

MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry

Credits: (1-6)
Description: The course is designed as a rigorous academic and professional mentorship for students who intend to produce a MA thesis in creative writing. The thesis will include a manuscript of original writing with a critical foreword, both of which require extensive research and substantial writing on the thesis topic. The manuscript can be a creative response to literary works or original creative poetry, fiction, and/or nonfiction. The critical introduction will situate the creative component within the literary, historical, and/or theoretical context(s) of the creative component. Minimum of 3 hours required, with a possible maximum of 6 hours with approval.
Pre-requisite(s): MENG 6730 - Creative Writing Forms and Crafts **(3)**, must complete at least two workshops (6 Credits), MENG 6740 - Creative Nonfiction Writing **(3)***, MENG 6750 - Fiction Writing **(3)***, MENG 6760 - Poetry Writing **(3)***. *Repeated with different titles.
May be repeated three times for a maximum of six credit hours.

MENG 6960 - Thesis

Credits: (1-6)
Description: Thesis credit may be taken in increments of 1-3 hours in any term. The thesis is a capstone writing course for the Master's Degree Program.
May be repeated 5 times with a maximum of 6 credit hours.

MENG 6990 - Extension of Thesis/Project

Credits: (1)
Description: This course allows students to continue to work on their thesis/project. The course is graded credit/no credit.
May be repeated up to two times for a maximum of two credit hours.

MET 1000 - Introduction to Mechanical Engineering Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Course fees are used to cover materials needed to complete the semester project and to replace small tools in the Freshman Project Lab as needed.
Description: Introductory course for students majoring in mechanical engineering technology. The role of mechanical engineering technology and its place in the occupational spectrum. The experimental and analytical tools used in mechanical engineering technology and fundamentals of mechanical design and problem solving. College algebra and trigonometry strongly recommended.
Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MET 1500 - Mechanical Design for Engineering Technology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will focus on understanding the engineering design process within the MET discipline. Students will develop problem statements and use brainstorming techniques to generate design concepts. These design concepts are evaluated and implemented for possible solutions to bring a factious engineered product to market.
Pre-requisite(s): (MATH 1060 or MATH 1080) and MET 1000.

MET 1890 INT - Cooperative Work Experience

Credits: (1-3)
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
Pre-requisite(s): PDD 1010, MATH 1080 and Permission of Instructor.

MET 2500 - Modern Engineering Technologies

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of modern engineering technologies including, but not necessarily limited to, energy generation, nano systems, smart materials, robotics, lasers, transportation systems, and bioengineering.
Pre-requisite(s): MET 1500.

MET 2890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required. May be repeated for credit up to 3 times for a max of 3 credit hours total.
Pre-requisite(s): Credit or concurrent enrollment in MFET 2300.

MET 3050 - Dynamics for Engineering Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Fundamentals of force, mass and acceleration, work and energy, and impulse and momentum applied to particles and rigid bodies.
Pre-requisite(s): MATH 1210 and PHYS 2210 and (MFET 2300 or MFET 2310).

MET 3150 - Engineering Technology Materials

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Material properties, processing and selection of materials for technological applications. Design parameters for material selection of metals and nonmetals. Mechanical behavior and service failures of metallic alloys and other engineering materials at high and low temperatures. Lecture plus laboratory work in materials testing.
Pre-requisite(s): CHEM 1110 and (MFET 2300 or MFET 2320) .

MET 3300 - Computer Programming Applications of Mechanical Engineering Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Applications of computer programming and computer software to problems in mechanical engineering technology. Lecture plus computer-based laboratory work.
Pre-requisite(s): MFET 2300 or MFET 2310.

MET 3400 - Machine Design for Engineering Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Application of engineering technology fundamentals to machine design. Techniques involved in designing and selecting individual machine parts.
Pre-requisite(s): MFET 2300 or MFET 2320.

MET 3500 - Mechanical Measurements and Instrumentation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Principles of temperature, pressure, strain, flow, force, and vibration measurements. Techniques of computerized data acquisition and reduction. Students will learn how to specify instrumentation systems, take data and interpret the results. Lecture plus laboratory work in selected topics.
Pre-requisite(s): EET 1850 and (MFET 2300 or MFET 2310).

MET 3700 - Testing and Failure Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Description: Mechanical testing of materials, fatigue, fracture, wear, corrosion, embrittlement, failure mechanisms and analysis, case studies of failures. Lecture plus laboratory work.
Pre-requisite(s): MET 3150 and (MFET 2300 or MFET 2320).

MET 3890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required. May be repeated for credit up to 3 times for a max of 3 credit hours total.
Pre-requisite(s): Credit or concurrent enrollment in MET 3400.

MET 4200 - Mechanical Design with FEA

Credits: (3)
Description: Application of engineering technology fundamentals in mechanical design using Finite Element Analysis. Lecture plus computer-based laboratory work.
Pre-requisite(s): MET 3400 and (MFET 2300 or MFET 2320).

MET 4300 - Heating, Ventilating & Air Conditioning

Credits: (3)
Description: Principles of heating, ventilating and air conditioning of buildings. Refrigeration systems, air and water distribution and solar energy. Indoor thermal environmental control.
Pre-requisite(s): Permission of instructor.

MET 4500 SUS - Senior Project I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing, and documentation.
Pre-requisite(s): MET 3400; AAS or AS Degree.

MET 4510 SUS - Senior Project II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing and documentation.
Pre-requisite(s): MET 4500.
Note: MET 4500 and MET 4510 are a two-course sequence, with MET 4500 only taught in fall semester and MET 4510 only taught in spring semester. The courses must be taken back-to-back.

MET 4650 - Thermal Science

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Fundamental principles of thermal science for mechanical engineering technology. Basic thermal science theory with an emphasis on technological applications and systems.
Lecture plus laboratory work in selected thermal science topics.
Pre-requisite(s): MATH 1210, PHYS 2210 and CHEM 1110 or CHEM 1210.

MET 4800 - Individual Research in Mechanical Engineering Technology

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Special individual research and development projects in mechanical engineering technology. Credit and time determined by the student and the faculty project supervisor. May be repeated for credit up to 3 times for a max of 3 credit hours total.
Pre-requisite(s): Permission of instructor.

MET 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual readings in mechanical engineering technology. Topic selected in consultation with instructor.
Pre-requisite(s): Permission of instructor.

MET 4890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
May be repeated for credit up to 3 times for a max of 3 credit hours total.
Pre-requisite(s): MET 3400 and Permission of instructor.

MET 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MET 4990 - Seminar in Mechanical Engineering Technology

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Guest lectures from local industry, professionalism and engineering ethics, technology and

society, and employment preparation.
Pre-requisite(s): MET 4500.

MFET 1000 - Manufacturing Engineering Technology Fundamentals

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $65.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This is an introductory course for students interested in majoring in Manufacturing Engineering Technology. Students will be exposed to Manufacturing Engineering Technology through several hands-on laboratory experiences that introduce them to concepts needed for future classes. Students will gain a clear understanding of degree requirements and possible career paths.

MFET 1150 - Pre-Professional Seminar in Manufacturing

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory course for students planning to major in Manufacturing Engineering Technology. An explanation of the Manufacturing Engineering Technology curriculum and its place in the occupational spectrum. Current job functions of manufacturing engineering technologists will be discussed by manufacturing engineers and technologists from industry.

MFET 1210 - Machining Principles Lecture/Lab I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: Consumables (aluminum, steel, tools), paper, lab support, computers, software licenses, lab equipment
Description: Introduction to machining processes through theory and practice including: setup and operation of the engine lathe & milling machine, machine and tool performance, inspection techniques, basic blueprint reading, and process planning. Students will utilize lab time to complete assignments as required.
One lecture per week and two 3-hour labs per week are required.

MFET 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MFET 1820 - Manufacturing Electricity and Electronics

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to basic electrical and electronic principles and the application of these principles to AC and DC circuits. The course will give students the foundation for required manufacturing courses in welding power supplies, motor controls and automation. An integrated hands-on lab will reinforce concepts taught in the classroom
Pre-requisite(s): MATH 1010 or QL.

MFET 1890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Description: Open to all first year students in Manufacturing Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

MFET 2150 - Metal Forming, Casting and Welding

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Introduction to industrial metal forming, casting and welding processes, equipment selection, design criteria, shop procedures and terminology.
Two one-hour lectures per week and one two-hour lab
Co-Requisite(s): MFET 2150L. (MFET 2150L) is required.

MFET 2150L - Metal Forming, Casting & Welding Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Lab application of theories taught in MFET 2150 by use of student projects.
Co-Requisite(s): MFET 2150.

MFET 2151 - Metal Forming Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal forming processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.

MFET 2152 - Metal Casting Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal casting processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.

MFET 2153 - Metal Welding Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal welding processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.

MFET 2300 - Statics and Strength of Materials

Credits: (5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis. Also concept of stress and strain, shear, bending moments, torsion, bending stresses in beams and stress resolution and shear.
Five lectures per week.
Pre-requisite(s): PHYS 2010/L or PHYS 2210/L; MATH 1060 or MATH 1080 or MATH 1210.

MFET 2310 - Statics for Engineering Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Course fees: Course fees support computer lab aids, lab computers, and software licensing in the computer labs.
Description: Topics include: Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis.
Pre-requisite(s): MATH 1080 or MATH 1050 and MATH 1060.

MFET 2320 - Mechanics of Materials

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Course Fee: $15.00

Course Fee Purpose: Course fees: Course fees support computer lab aids, lab computers, and software licensing in the computer labs.

Description: Topics include: Principles of stress and strain, shear, bending moments, torsion, and bending stresses in beams.

Pre-requisite(s): MFET 2310.

MFET 2360 - Manufacturing Processes and Materials

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00

Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment

Description: Survey of industrially important processes used to change material shape and condition for industrial use. Survey of industrially important materials and the principles of material behavior.

MFET 2410 - Quality Concepts and Statistical Applications

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00

Course Fee Purpose: Paper, lab support, consumables, instructor supplies, simulation materials, computers, software licenses, lab equipment

Description: This is the first course in a series of three designed to impart the Six Sigma body of knowledge. It integrates managerial, technological and statistical concepts across all functions of an organization to ensure that a product is fit for use. Provides a foundation in current quality paradigms and introduces students to software tools (MS Excel and Minitab) used to statistically analyze problems encountered in manufacturing firms.

Three lectures per week.

Pre-requisite(s): MATH 1010 or Aleks (score: 30 or above).

MFET 2440 - Computer Numeric Control (CNC) in Manufacturing

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00

Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment

Description: This course is designed for those who have little or no experience with CNC programming, setup or operations. Manual programming, APT programming, and Mazatrol (a conversational programming language) will be taught. In addition, an introduction to CAD/CAM will also be discussed. A three-hour lab, once a week is required.

Pre-requisite(s): MATH 1080 or MATH 1050 and MATH 1060; MFET 1210.

Co-Requisite(s): MFET 2440L.

May be repeated 3 times up to 6 credit hours.

MFET 2440L - CNC in Manufacturing Lab

Credits: (1)
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Applications of the theory taught in MFET 2440. Introduction to the setup & operation of the CNC lathe and mill.
One 3-hour lab per week.
Co-Requisite(s): MFET 2440.

MFET 2500 - Process Automation I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Computer lab refurbishment, software, lab aide
Description: A study of the elements used in manufacturing automation and control technologies including: basic elements of an automated system, cost benefit analysis, programmable logic controllers, robotics (servo and non-servo), material handling devices and automated inspection technologies. One 50 minute lecture per week.
Pre-requisite(s): EET 1850.
Co-Requisite(s): MFET 2510.

MFET 2510 - Process Automation I Lab

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Automation equipment and consumables
Description: Students duplicate demonstration sequences of automation equipment and develop new routines in: Controlling servo and non-servo robots, computer-aided manufacturing systems, programmable logic controllers, and other devices used in process automation. Labs will include additional lectures.
Pre-requisite(s): EET 1850.
Co-Requisite(s): MFET 2500.

MFET 2550 - Basics of Quality Engineering

Credits: (2)
Description: Approaches quality from the perspective of the production technician using applied statistics, total quality concepts, inspection techniques and methods and nonconforming material control. Addresses sampling principles used in production management as well as a review of industry accepted standards. (ASQC Series)
Note: This course is offered in the evenings only.

MFET 2610 - Quality Improvement Principles and Techniques

Credits: (2)
Description: This course assesses vital knowledge of quality tools and their uses by individuals, from non-traditional quality areas, who are involved in quality improvement projects. The course examines the rapid spread of quality principles and practices throughout organizations, and covers the essentials of quality management for individuals who manage quality programs, but who are not necessarily specialized in traditional quality areas. The course prepares students for the Certified Quality Improvement Associate examination administered by the American Society for Quality.

MFET 2670 - GMA, FCA and GTA Welding

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Theory and skills course covering Gas Metal Arc Welding, Flux Core Arc Welding, and Gas Tungsten Arc Welding.
Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153.
Co-Requisite(s): MFET 2670L.

MFET 2670L - GMA, FCA and GTA Welding Lab

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: A "hands on" lab that reinforces the theory and skills course (MFET 2670) covering Gas Metal Arc Welding, Flux Core Arc Welding, and Gas Tungsten Arc Welding.
Pre-requisite(s): MFET 2150/MFET 2150L.
Co-Requisite(s): MFET 2670.

MFET 2830 - Directed Readings in Manufacturing Engineering Technology

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Description: Individual research on topics requested by industry or which meet special needs of Manufacturing Engineering Technology students.
Pre-requisite(s): Departmental approval.

MFET 2850 - CNC/CAM for Plastics and Composites Lecture/Lab

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: Plastic material, paper, lab support, computers, software licenses, lab equipment
Description: Traditional and nontraditional methods for machining organic-matrix and metal-matrix

composites are reviewed. Traditional machining procedures are discussed together with the damage introduced into composites by these manipulations. Computer Numerical Control (CNC) codes and Computer Aided Manufacturing are covered, focusing on the production of plastic products and tooling. Machining concepts also including laser, water-jet, electrodischarge, electrochemical spark, and ultrasonic machining.

Pre-requisite(s): MFET 1210/L.

MFET 2860 - Plastics/Composites Materials & Properties

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: Plastic material, paper, lab support, computers, software licenses, lab equipment
Description: Coverage of the most common commercial plastics including their additives, fillers, and fibers; includes common physical tests used to determine material characteristics; writing intensive.
Pre-requisite(s): CHEM 1110.

MFET 2870 - Design of Plastics/Composites Products

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Plastic material, paper, lab support, computers, software licenses, lab equipment
Description: Designing plastic parts utilizing CAD and CAE technologies for the design and for structural, dimensional, and process evaluation and optimization. A strong emphasis in design principles related to design of plastics products. Also analysis of functional requirements, structural properties, aesthetic qualities and cost relationships. The student will gain experience in product design and material evaluation.
Pre-requisite(s): PDD 1160 and MFET 2860.

MFET 2890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Description: Open to all second year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Departmental approval.
May be repeated for a total maximum of 6 credit hours.

MFET 3010 - Tool Design

Credits: (3)
Description: Principles of workpiece control including: Geometric, dimensional, and mechanical control. Other topics include: process tolerance stacks, design of special tools and gauges, applications in the production of manufactured parts, tool drawings, specifications, and modular tooling.
Three lectures per week.
Pre-requisite(s): MFET 1210; PDD 1160.

MFET 3060 - Codes, Weld Inspection, and Quality Assurance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Computer lab fees and supplies used in the Lab portion of this course.
Description: Study of ASME and AWS codes as relating to procedure qualification and welder qualification for fabrication of pressure vessels and structures, and how codes relate to quality assurance and ISO 9000.
Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153.

MFET 3310 - Material Selection and Heat Treat

Credits: (2)
Description: Terminology, concepts and principles involved in the selection, specification and processing of engineering materials so they meet design criteria including load, life, and appearance. Testing methods to determine those properties and characteristics. Manual and computer assessing of material data.
Two lectures per week.
Pre-requisite(s): MFET 1210/L, MFET 2300, CHEM 1110.
Co-Requisite(s): MFET 3310L.

MFET 3310L - Material Selection and Heat treat Lab

Credits: (1)
Description: Application of theory taught in MFET 3310.
One 2-hour lab per week.
Co-Requisite(s): MFET 3310.

MFET 3320 - Machine Design

Credits: (2)
Description: Application of engineering fundamentals to the design of individual machine components such as shafts, couplings, springs, bearings, gears, fasteners, clutches, and breaks. Students will be required to complete a design project emphasizing manufacturing equipment.
Two lectures per week.
Pre-requisite(s): MFET 2300.

MFET 3340 - Applied Fluid Power

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, Hydraulic fluid, hydraulic lab components, computers, software licenses, lab equipment
Description: Principles of fluid mechanics and component operation as they apply to the design of hydraulic and pneumatic systems. Computer programs may be used to analyze and design systems. Two lectures per week.
Pre-requisite(s): MFET 2300 or MFET 2320 or ENGR 2010 and ENGR 2140; PHYS 2010/L or PHYS 2210/L.
Co-Requisite(s): MFET 3340L.

MFET 3340L - Applied Fluid Power Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Paper, lab support, Hydraulic fluid, hydraulic lab components, computers, software licenses, lab equipment
Description: Application of the theory taught in MFET 3340.
One 2-hr lab per week.
Co-Requisite(s): MFET 3340.

MFET 3350 - Plastic and Composite Manufacturing

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Plastic material, paper, lab support, computers, software licenses, lab equipment
Description: Design and processing of plastic and composite materials for industrial applications.
Two lectures per week.
Pre-requisite(s): CHEM 1110 or CHEM 1210.
Co-Requisite(s): MFET 3350L.

MFET 3350L - Plastic and Composite Manufacturing Lab

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: Plastic material, paper, lab support, computers, software licenses, lab equipment
Description: Application of the theory taught in MFET 3350.
Two 2-hr labs per week.
Pre-requisite/Co-requisite: MFET 3350.

MFET 3460 - Engineering Design using Solid Modeling

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, 3D print material, computers, software licenses, lab equipment
Description: An advanced computer-aided design course using state-of-the-art solid modeling CAD/CAM software. Topics include: 3D parametric solid modeling, applications associativity, design-by-feature, assembly modeling, injection mold design, flat pattern development, design analysis using FEA, realistic rendering, and detailing.
Pre-requisite(s): PDD 1010.
Co-Requisite(s): MFET 3460L.

MFET 3460L - Engineering Design using Solid Modeling Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Paper, lab support, 3D print material, computers, software licenses, lab equipment
Description: Lab assignments will include: Fundamentals of 3D parametric solid modeling, Extrude & Revolve Features, Sweep & Loft Features, Assembly Modeling, Injection Mold Design, Flat Pattern Development, Design Analysis using FEA, and others.
Pre-requisite(s): PDD 1010 and WEB 1700.
Co-Requisite(s): MFET 3460.

MFET 3510 - Basics of Supply Chain Management

Credits: (2)
Description: Introductory course for production and inventory management personnel which provides basic definitions and concepts for planning and controlling flow of materials into, through, and out of an organization. Explains fundamental relationships of supply chain from suppliers to customers. Addresses manufacturing systems, forecasting, master planning, material requirements planning, capacity management, production activity control, purchasing, inventory management, distribution, quality management, and Just-in-Time manufacturing. (APICS Series).
Note: This course is offered in the evenings only.

MFET 3550 - Manufacturing Supervision

Credits: (3)
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: The application of supervision skills. Students will gain an understanding of; motivation of subordinates, personal leadership theories, problem-solving and decision-making techniques, organizational communication, employee selection, evaluation and training process, and organizational structures. Topics will include; the American Disabilities Act, OSHA and environmental issues, Equal

opportunity Employment, and Affirmative Action issues. Three lectures per week.
Pre-requisite(s): MFET 2410 (or MATH 1040).

MFET 3560 - Advanced Quality Engineering

Credits: (2)
Description: Addresses the application of advanced quality techniques by personnel in positions of responsibility such as manufacturing leads and supervisors. Uses statistics, metrology, inspection methods, quality management concepts, and sampling principles to address process decisions involving both overall quality and costs. (ASQC Series).
Pre-requisite(s): MFET 2550.
Note: This course is offered in the evenings only.

MFET 3570 - Manufacturing Quality Auditing

Credits: (2)
Description: Utilizes auditing principles and quality management tools and techniques to prepare an individual to plan and conduct, or prepare an organization, for a quality audit. Links directly to process associated with implementation of ISO 9000 standards.
Two one-hour lectures per week. (ASQC Series).
Pre-requisite(s): MFET 2410 or equivalent.
Note: This course is offered in the evenings only.

MFET 3580 - Certified Mechanical Inspector

Credits: (2)
Description: Provides the student with terminology, concepts and tools needed to be professionally competent in advanced quality management. The course will also be helpful to those preparing to take the ASQC CMI Certification Exam. (ASQC Series).
Note: This course is offered in the evenings only.

MFET 3610 - Machining Processes Lecture/Lab II

Credits: (3)
Description: The manufacture and assembly of precision and interchangeable parts using conventional lathes, mills, drills, and grinders. Introduction to geometric dimensioning & tolerancing (GD&T), and advanced inspection techniques. Students will utilize lab time to complete assignments as required. One lecture per week and two 3-hour labs per week are required.
Pre-requisite(s): MFET 1210.

MFET 3620 - Senior Capstone Project Planning

Credits: (.5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course must be taken the semester prior to beginning the MFET senior project sequence

of classes (MFET 4610, MFET 4610L and MFET 4620L). Capstone requirements will be discussed. Capstone projects will be selected and teams formed with faculty input.

Pre-requisite(s): Department Approval.

MFET 3630 - Fusion Joining and Brazing Processes

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, welding supplies, computers, software licenses, lab equipment
Description: Study of SAW, ESW, GMAW, EG, RW, PAW, PAC, Electron Beam, Laser, Friction, Brazing, and other welding processes.
Pre-requisite(s): MFET 2670/MFET 2670L.
Co-Requisite(s): MFET 3630L.

MFET 3630L - Fusion Joining and Brazing Processes

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $85.00
Course Fee Purpose: Paper, lab support, welding supplies, computers, software licenses, lab equipment
Description: A "hands-on" lab that reinforces the concepts taught in MFET 3630 of SAW, ESW, GMAW, EG, RW, PAW, PAC, Electron Beam, Laser, Friction, Brazing, and other welding processes.
Pre-requisite(s): MFET 2670/MFET 2670L.
Co-Requisite(s): MFET 3630.

MFET 3650 - Quality Management Institute

Credits: (3)
Description: This course consists of application process control and problem solving techniques including statistical process control (SPC), measurement systems analysis, and process capability analysis. Students will apply cause-and-effect diagrams, check sheets, sampling, line and bar charts, Pareto charts, scatter diagrams, variation, probability plots, x-R charts, gate repeatability and reproducibility (gage R & R) on course projects. Curriculum will include practical application exercises.
Pre-requisite(s): MFET 2410, MATH 1010 Intermediate Algebra or equivalent, and Basic Statistics course (MATH 1040) or equivalent.

MFET 3710 - Computer Aided Manufacturing and Rapid Prototyping

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, software licenses
Description: This course will introduce and explain concepts behind Computer-Automated Manufacturing (CAM). It will define elements, terms, and concepts involved with CAM. Elements of rapid prototyping will also be covered from conceptual design in solids to production of tooling and parts. This course is

designed for those who have the basic understanding of the setup and operation of CNC machine tools and programming. Software will be used to perform the CAM operations, such as part generation and post processing.

Pre-requisite(s): MFET 2440/MFET 2440L, PDD 1010, PDD 1160 or MFET 3460.
Co-Requisite(s): MFET 3710L.

MFET 3710L - Computer Aided Manufacturing and Rapid Prototyping Lab

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Waterjet nozzles, steel, plastic shop consumables
Description: A "hands-on" lab that reinforces the concepts taught in MFET 3710. Students will learn how to transfer CNC part programs from a PC to the CNC machine controller. Testing, editing and running their part programs on the CNC machines will also be covered.
May be repeated twice up to 3 credit hours.

MFET 3750 - Welding Metallurgy I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, software licenses
Description: Metallurgical principles applied to welding and weldability of ferrous metals.
Pre-requisite(s): MFET 2150/MFET 2150L or MFET 2153, CHEM 1110 or CHEM 1210.
Co-Requisite(s): MFET 3750L.

MFET 3750L - Welding Metallurgy I Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $85.00
Course Fee Purpose: Welding supplies
Description: A "hands-on" lab that reinforces the concepts taught in MFET 3750 of metallurgical principles applied to welding and weldability of ferrous metals.
Pre-requisite(s): MFET 2150/MFET 2150L, CHEM 1110.
Co-Requisite(s): MFET 3750.

MFET 3760 - Welding Metallurgy II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, software licenses
Description: Metallurgical principles applied to welding and weldability of nonferrous metals.

Pre-requisite(s): MFET 3750/MFET 3750L.

Co-Requisite(s): MFET 3760L.

MFET 3760L - Welding Metallurgy II Lab

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $85.00
Course Fee Purpose: Welding supplies
Description: A "hands-on" lab that reinforces the concepts taught in MFET 3760 of metallurgical principles applied to welding and weldability of nonferrous metals.
Pre-requisite(s): MFET 3750/MFET 3750L.
Co-Requisite(s): MFET 3760.

MFET 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MFET 3820 - Nondestructive Testing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Fundamental concepts relating to liquid penetrant, magnetic particle, ultrasonics, and radiography and other NDT processes.
Pre-requisite(s): MATH 1210 or MATH 1110 and PHYS 2010 or PHYS 2210.

MFET 3830 - Reinforced Plastics/Advanced Composite Lecture/Lab

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $135.00
Course Fee Purpose: Paper, lab support, lab consumables
Description: Polymer and reinforcement systems; material testing; mold design and development; laboratory involvement in reinforced plastics production processes.
Pre-requisite(s): MFET 3350/MFET 3350L and MFET 2860.

MFET 3870 - Mold Design and Process Strategies Lecture/Lab

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00

Course Fee Purpose: Paper, lab support, lab consumables

Description: Overview of mold design and the development of strategies and techniques integrating CAD and CAE technologies for optimizing part quality, moldability, and productivity. Additional study on design and construction of various types of production molds that are used for processing plastics in final shape. Product design in relationship to molding techniques and various techniques and materials used to construct the molds are the major units of study.

Pre-requisite(s): MFET 2850 and MFET 2870.

MFET 3890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all third year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 4050 - Detailed Scheduling and Planning I

Credits: (2)
Description: Techniques and practices of detailed scheduling and planning of inventory management including order review methodologies, policies and functions of inventory. Covers lot sizing, safety stock techniques, demand, and Just-in-Time as they relate to detailed scheduling and planning.
Pre-requisite(s): MFET 3510 or equivalent. (APICS series).
Note: This course is offered in the evenings only.

MFET 4090 - Welding Power Sources

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Study of power sources used to generate and control voltage and amperage for welding. Two lectures per week.
Pre-requisite(s): EET 1850.

MFET 4150 - Execution and Control of Operations

Credits: (2)
Description: Focuses on prioritizing and sequencing work, executing work plans, implementing controls, reporting activity results, and evaluating and providing feedback on performance. Eval.
Pre-requisite(s): MFET 3510 or equivalent. (APICS Series).
Note: This course is offered in the evenings only.

MFET 4200 - Manufacturing Processes

Credits: (2)
Description: Manufacturing processes define the methods that companies use in designing, producing, and delivering goods and services required by customers. The manufacturing processes provide the execution component to the other activities of the integrated manufacturing system. Beginning with customer requirements and needs, they design, build, operate, upgrade, and maintain a manufacturing process which is most supportive of and consistent with those needs and requirements. To achieve these objectives, manufacturing processes draw on three different but very interrelated subsystems: industrial facilities management, process design and development, and manufacturing. (APICS Series)
Note: This course is offered in the evenings only.

MFET 4210 - Cost Estimating and Engineering Economics

Credits: (2)
Description: Production cost structure, operation costing, break-even analysis, make buy decision, and capital equipment justification. Computer aids are used to analyze cost data.
Three lectures per week.
Pre-requisite(s): MATH 1080; WEB 1700.
Co-Requisite(s): MFET 4610.

MFET 4250 - Detailed Scheduling and Planning

Credits: (2)
Description: Detailed explanation of inventory management including order review methodologies, policies and functions of inventory. Covers material requirements planning (MRP) and other material planning and capacity requirements planning techniques. Includes concepts, principles, interfaces, desired characteristics, applications, and supplier relations.
Pre-requisite(s): MFET 3510 or equivalent. (APICS Series)
Note: This course is offered in the evenings only.

MFET 4300 - Design of Experiments

Credits: (2)
Description: A step-by-step description of procedures used to organize, conduct and evaluate industrial experiments. Emphasizes the usefulness of results and the decision criteria for choosing the proper design.
Pre-requisite(s): MFET 2410

MFET 4310 - Corrosion and Corrosion Control

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Analysis of corrosion mechanisms for ferrous metals, nonferrous metals, and nonmetallic materials, as well as the control of corrosion.
Pre-requisite(s): CHEM 1110 and MATH 1080.

MFET 4315 - Welding Robotics

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Paper, lab support, software licenses
Description: This course is designed to introduce students to welding robot programming and applications. Students will demonstrate skills learned in welding robot programming in applied labs. They will learn parameters, terms and nomenclature and obtain knowledge of applications and configurations in industry settings.
Pre-requisite(s): MFET 2670, MFET 2670L.

MFET 4350 - Principles of Lean Manufacturing

Credits: (2)
Typically Taught Spring Semester: *Online*
Description: This course introduces students to lean manufacturing and waste reduction concepts such as work standardization, visual manufacturing & workplace organization, value stream mapping, setup reduction & batch size reduction, quality at the source, point of use storage, total productive maintenance, pull systems/kanbans, tack time calculation and cellular/synchronous manufacturing design concepts.
A combination of lectures, videos and hands on exercise will be used.

MFET 4550 - Advanced Quality Principles

Credits: (2)
Description: Provides advanced study in all aspects of the application of quality principles to a production environment. The course will involve case study and application of quality theory. Students should have a broad knowledge of organizational structure and planning, quality techniques, customer satisfaction and focus, project management, and human resource management. Cooperative experience in a business/industry is recommended. (ASQC Series)
Pre-requisite(s): MFET 2410 or equivalent.
Note: This course is offered in the evenings only.

MFET 4580 - Process Automation II & Robotics

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Computer lab refurbishment, software, lab aide
Description: An advanced study of the elements used in manufacturing automation and control technologies including: the use of basic elements of an automated system, cost benefit analysis, programmable logic controllers, robotics (servo and non-servo), material handling devices and automated inspection technologies. One 1-hour lecture per week.

Pre-requisite(s): MFET 2500 and MFET 2510.

Co-Requisite(s): MFET 4585.

MFET 4585 - Process Automation II Lab

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Mechatronics automation equipment and consumables
Description: Students work in teams to demonstration proficiency programming individual automated manufacturing stations using Allen Bradley PLCs (Cognex Vision Systems, RF Systems, bar coding, pick and place feeding station, gauging station, part orientation processing station, sorting-buffering station, servo robotic assembly station-Fanuc, torque assembly station, inventory storage station, electro-hydraulic station). Students then work as a class to integrate an entire manufacturing process using all of the stations for a small part. Labs will include additional lectures.
Pre-requisite(s): MFET 2500 and MFET 2510.
Co-Requisite(s): MFET 4580.

MFET 4610 - Senior Project Management & Cost Estimating

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: This is designed as a capstone course for students and is to be taken in the senior year of their program. The course will teach students fundamental principles in Project Management, Cost Estimating, and Engineering Economics that will be necessary to successfully complete their Senior Project experience. Students must apply and gain departmental approval before entering Senior Project. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. All students approved for Senior project will register for this course regardless of individual project group assignments.
Pre-requisite(s): MFET 3620 and AAS or AS Degree.
Co-Requisite(s): MFET 4610L for manufacturing students or PDD 4600 for design graphics students.

MFET 4610L - Senior Project Lab

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Senior Project consumables
Description: Must apply for senior project before March 1 of the previous year. Must have department approval. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. Time: as

required to complete the project. Two consecutive semesters.

Co-Requisite(s): MFET 4610 (with MFET 4610L only).

MFET 4620L - Senior Project Lab

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Senior Project consumables
Description: Must apply for senior project before March 1 of the previous year. Must have department approval. Approval is based on an interview with department faculty and fulfilling the prerequisites listed on the "Senior Project Requirements Sheet" available from the department secretary. Time: as required to complete the project. Two consecutive semesters.

MFET 4650 - Software Quality Engineering Principles

Credits: (2)
Description: This course prepares the student to incorporate quality development and implementation as a software design team member. The course provides instruction on concepts, principles and techniques to develop a comprehensive understanding of software inspection, testing, verification, and validation. Participants will learn to implement software development and maintenance processes and methods. This course also prepares the student for the Certified Systems Quality Engineer examination administered through American Society for Quality.

MFET 4670 - Reliability Engineering Principles

Credits: (2)
Description: This course prepares the student to work as a design team member to incorporate reliability considerations into a basic design. Course provides information on application of proven techniques to achieve quality product results. This course also prepares the student for the Certified Reliability Engineer examination administered through American Society for Quality.

MFET 4750 - Master Planning of Resources

Credits: (2)
Description: Explore processes used to develop sales and operations plans, forecast internal and external demand, create the master schedule consistent with business policies, objectives and resource constraints. (APICS series).
Pre-requisite(s): MFET 3510.
Note: This course is offered in the evenings only.

MFET 4770 - Strategic Management of Resources

Credits: (2)
Description: The relationship of existing and emerging processes and technologies to manufacturing

strategy and supply chain related functions. Addressing aligning resources with strategic plan, integrating operating processes to support the strategic plan, and implementing change.
Pre-requisite(s): MFET 3510 and be familiar with concepts addressed in all other APICS courses. (APICS series).
Note: This course is offered in the evenings only.

MFET 4800 - Individual Research in Manufacturing Technology

Credits: (1-3)
Description: Special individual research and development projects in Manufacturing and Engineering Technology. Credit and time determined by the student and the faculty project supervisor.
Pre-requisite(s): Permission of instructor.

MFET 4830 - Directed Readings in Manufacturing Engineering Technology

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Must have department approval.

MFET 4850 - Integration of Automated Systems

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Paper, lab support, automation lab supplies
Description: An Advanced Automation course designed to give the student both theory and practical application in control and integration issues dealing with automated equipment. Selected topics include motor controllers, PID's, data collection and transfer devices, vision systems, and systems integration issues.
Pre-requisite(s): MFET 4580/MFET 4585.

MFET 4890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all fourth year students in Manufacturing Engineering Technology. A continuation of MFET 1890.

MFET 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. Juniors and Seniors only. Faculty approval required.

MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $115.00
Course Fee Purpose: SME CmfgT exam, paper, lab support
Description: This course is designed to provide a structured review for the student to take the Certified Manufacturing Technologist (CMfgT) Exam.
Pre-requisite(s): MSE 3910.

MFET 5100G - Introduction to Engineering Design (IED)

Credits: (5)
Description: IED provides students with opportunities to be creative and to apply their decision-making and problem-solving skills to design problems. Students use powerful computer hardware and software (Inventor) to develop 3-D models or solid renderings of objects. Using a Computer Aided Design System, students learn the product design process through creating, analyzing, rendering and producing a model. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 5300G - Principles of Engineering (POE)

Credits: (5)
Description: POE is designed to help students understand the field and the career possibilities of engineering and engineering technology. Students work on the problem-solving skills that are used at the college level and in the workplace, and they explore engineering systems and manufacturing processes. Students learn how engineers address concerns about the social and political consequences of technological change. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 5400G - Computer Integrated Manufacturing (CIM)

Credits: (5)
Description: CIM is a course that applies principles of prototyping, robotics, and automation. It builds on the solid modeling skills developed in Introduction to Engineering Design. Students use computer-controlled equipment to solve problems by constructing models of their three-dimensional designs. Students are also introduced to the fundamentals of robotics and to how this equipment is used in an automated environment. Students evaluate their design solutions using various techniques and

modifications before they produce the prototype. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 5500G - Engineering Design and Development (EDD)

Credits: (5)
Description: In this course, students work on a team with one or two others to design and construct the solution to an engineering problem. The problems involve a wide range of engineering applications (e.g., a school robo-mascot, automated solar water heater, remote control hover craft). The course serves as a capstone course where students apply the principles they developed in previous courses. A journal is part of each student's portfolio. Each team is responsible for delivering progress reports and making final presentations to an outside review panel. The course meets for a total of 75 hours over a two-week period and focuses on the content as well as teaching methods appropriate for the course. This course is designed specifically and only for current high school teachers who have been assigned by their schools and districts to teach the Project Lead the Way courses in their respective schools. These courses carry graduate credit for those teachers who would use them as part of a master's degree program or for recertification.

MFET 6050 - Gateway to Technology

Credits: (1-4)
Typically Taught Summer Semester: *2nd Blk*
Description: Gateway to Technology is a course designed specifically and only for current high school teachers who have been assigned by districts to teach the related Project Lead the Way course in their respective schools. Gateway to Technology introduces the Project Lead the Way series of courses covering the principles of engineering and technology. The course promotes an understanding of the field of technology and covers the continuous evolution of technology, the positive and negative impact of technology on our society, and career opportunities in technology. The various modules in this course will utilize a train the trainer approach. Teachers will learn technical content, teaching methodologies used to present the course, and the Project Lead the Way learning management system (Canvas). Credit hours will be based on the number of modules taken (two credits for each one-week module).
May be repeated 4 times and up to 8 credit hours.

MGMT 3010 - Organizational Behavior and Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Focus of the course is on individual and group behavior in an organizational setting and on

decision processes. Examples of topics included are motivation, group behavior, organizational design and development, organizational culture, and decision making theory.

MGMT 3200 - Managerial Communications

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Study of corporate communication methods to improve communication in organizations. Written and oral reports tailored to achieve strategic goals contingent upon business situations.
Pre-requisite(s): ENGL 1010, ENGL 2010.

MGMT 3300 - Human Resource Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Study of principles and methods in managing specific aspects of human resources, either as an operating manager or as a human resource specialist. Topics include: legal constraints in managing human resources, strategic planning of human resources, recruitment, selection, orientation, performance evaluation, employee/ labor relations and communication programs, safety and health, and work scheduling. The computer will be used for analysis in certain areas studied.
Pre-requisite(s): BSAD 2899; MGMT 3010.

MGMT 3350 - Employment and Labor Law

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will focus on legal and ethical issues most closely associated with Human Resource Management. Title VII of the Civil Rights Act of 1964, ADEA, and ADA form the heart of this course. Other topics include FLSA, OSHA, ERISA, sexual harassment, drug testing and privacy. Labor law issues include preventing unionization, and dealing effectively with a union.
Pre-requisite(s): BSAD 2899; MGMT 3300.

MGMT 3400 - International Business

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An exploration of the role of multi-national corporations in worldwide economic development and an analysis of the management processes of such corporations.
Pre-requisite(s): BSAD 2899.

MGMT 3450 - Business Studies Abroad-International Management

Credits: (3)
Description: An exploration of the internationalization of economies and the analysis of international

decision-making. Focus is internationalization as the central challenge for management. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@ weber.edu).
Pre-requisite(s): BSAD 2899, MGMT 3010.
May be repeated 3 times for credit.

MGMT 3550 - The Cultural Environment of International Business

Credits: (3)
Description: This course considers issues in communication, negotiation and culture in international business relations. Topics include the role of language and nonverbal communication, contrasting cultural values and using sources of information on the culture of international business.
Pre-requisite(s): BSAD 2899.

MGMT 4300 - Leadership and Group Effectiveness

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course is about getting things done through the use of influence. The course emphasizes influencing others and influencing a situation. Power and other forms of influence are studied in-depth. Topics also include an examination of group behavior in work setting and the management of work groups. All stages of group development are studied from the forming stage of a group to its development as a high performance, self-managed team.
Pre-requisite(s): MGMT 3010 or COMM 3550 or HAS 3260.

MGMT 4310 - Compensation and Benefits

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is intended to provide the student with a basic working knowledge of compensation and benefits as an important part of the broader Human Resources field. The topics to be covered include: benefits management, job analysis, job evaluation, performance appraisal and recognition, and different approaches to employee compensation. The course is also designed to assist the student in their preparation for professional certification examinations in related areas.
Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4320 - Staffing Organizations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Designed to provide students with the knowledge and skills necessary to effectively analyze and project organizational staffing requirements, recruit and select candidates, and effectively place employees in today's complex organizations. Includes treatment of legal aspects of staffing process.
Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4350 - Training

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to provide prospective human resource managers with an understanding of the applicable theory and with the "tools" required to effectively manage the training function within an organization.
Pre-requisite(s): BSAD 2899, MGMT 3300.

MGMT 4400 - Advanced Organizational Behavior

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth study of leadership and organizational behavior. Focus is on the structural and behavioral variables that are most significant for organizational effectiveness. Both theory and application are emphasized.
Pre-requisite(s): MGMT 3010 or COMM 3550 or HAS 3260.

MGMT 4410 - Leadership Through Character

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide students access to the concepts and skills to possess the competencies, commitment, emotional intelligence and character to be effective leaders. While competencies and commitment are important, character plays a critical role in leadership behavior and will be the focus of this course. By character it is meant the combination of traits, values and virtues that are recognized as admired and appreciated in leaders, providing them with the expertise to exercise quality of judgment and decision-making. For example, in the financial crisis of 2008 - 2009 some corporate leaders' needs for instant gratification triumphed over temperance; and others who knew ethical risks were taken remained silent because they did not have the skills or courage to speak up. A component of this course is to explore the fundamentals of corporate governance, emphasizing the leader's responsibility to make ethical, socially responsible, legal, and wise financial decisions on behalf of the organization. We will explore a number of corporate examples that demonstrate positive and negative character development. Effective corporate governance requires leaders know the purpose or values of the organization, design the space of the organization to achieve its purpose, organize the flow of power within the organization, and manage the relationships of the key stakeholders in the organization: owners, directors, managers, employees, customers, suppliers, regulators, and the wider community of which the organization is a member. The skills and knowledge acquired in this course are transferable to other areas of life including one's community service and interaction with family and friends.
Pre-requisite(s): MGMT 3010, or HAS 3260, or COMM 3550.

MGMT 4420 - Critical Thinking for Leaders

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to apply a well-rounded and experiential learning process to developing critical thinking skills for leaders. Course topics are broad and include the major branches of philosophy, the nature of thinking and knowledge, the formation of beliefs, perceptual biases, cognitive biases, the nature of memory, the structure and purpose of argument, logic and logical fallacies, the practice of street epistemology, probabilities and statistics, culture and mass delusions, the philosophy of science, the scientific method, skepticism, and pseudoscience. Application of critical thinking skills will target the human side of business in areas most relevant to leaders - leading, decision making, influence, conflict management and the development of conceptual skills and human capital.
Pre-requisite(s): MGMT 3010, or HAS 3260, or COMM 3550.

MGMT 4650 - Negotiations

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an opportunity for management students to obtain an understanding of negotiation concepts and to develop management negotiation skills. Because the objective is skill building, the course emphasizes hands-on experience through negotiation simulations. These role playing exercises are designed to simulate the situations and issues commonly faced in management/organizational settings (e.g., labor negotiations, contract provisions, vendor arrangements).
Pre-requisite(s): BSAD 2899.

MGMT 4800 - Independent Research

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

MGMT 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current ofering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MGMT 4850 - Management Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore management theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

May be repeated once up to 6 credits.

MGMT 4860 - Management Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Management program courses. Students receiving credit in this course cannot also receive credit in MGMT 4865.
Pre-requisite(s): BSAD 2899; Instructor approval.

MGMT 4865 INT - Human Resource Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Human Resource or Management program. Students receiving credit in this course cannot receive credit for MGMT 4860.
Pre-requisite(s): BSAD 2899; Instructor approval.

MHA 6000 - Health Systems & the Healthcare Economy

Credits: (3)
Typically Taught Fall Semester: *1st Blk, 1st Blk Online*
Description: In-depth analysis and synthesis of all aspects of the health care delivery system emphasizing improvement of health care delivery and access. Examines the complex organizational dynamics and structures that predicate the interaction among major components of the U. S. health care system, including service provider settings in which care is provided. The course surveys the funding systems and regulatory structures for financing healthcare delivery and resource management in health services organizations. Current reform debates will be challenged.

MHA 6100 - Leading & Managing People in Healthcare

Credits: (3)
Typically Taught Fall Semester: *1st Blk, 1st Blk Online*
Description: The course content emphasizes visionary leadership and management of diverse healthcare professionals in complex organizational structures. Individual leadership talents in handling various organizational challenges, such as leading organization change, building strong culture, developing effective teams, resolving conflicts, implementing effective motivational systems, and nurturing a learning organization are investigated.

MHA 6140 - Post Acute Care Administration

Credits: (3)
Description: Seminar analysis of effect of chronic conditions and aging on delivery of health services, nursing homes and alternatives, mental health facilities and agencies, and rehabilitation facilities and services. Field trips and individual research projects.
Note: Check with department for course availability.

MHA 6160 - Medical Group Management

Credits: (3)
Description: Theory and principles of practice management. Emphasis on the fundamentals of organizing, staffing, and controlling a physician practice. Financial applications and resource consumption.
Note: Check with department for course availability.

MHA 6180 - Healthcare Entrepreneurship

Credits: (3)
Description: Develops an understanding of entrepreneurship, its importance for a healthcare organization and the health economy, and the challenges associated with promoting entrepreneurship within healthcare organizations.
Note: Check with department for course availability.

MHA 6200 - Population Health and Data Analytics

Credits: (3)
Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*
Description: The course addresses the integration of population health into strategic planning and managerial decision-making in health services organizations. Epidemiological principles, social determinates of health, and the improvement of health of the entire population from clinical and managerial perspectives are addressed. This course teaches the necessary fundamentals of data analytics and engages students in the process of analyzing data related to population health topics. Course work includes environmental analysis of community health, and health behaviors and lifestyle that impact demand on health care delivery systems. The student will evaluate models for integration of health services, preventive programs, demand management, and policy issues affecting continuity of care.
Pre-requisite(s): MHA 6000 (may be taken concurrently)or Instructor Approval.

MHA 6240 - Human Resources Management in Healthcare

Credits: (3)
Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*
Description: Human resources management in healthcare organizations including recruitment and selection of employees, benefits and compensation management, privileging and credentialing of health professionals, performance evaluation, staffing plans, labor relations and labor law relevant to health care organizations.

MHA 6249 - Accounting and Finance Principles for Healthcare Managers

Credits: (3)
Typically Taught Spring Semester: *1st Blk, 1st Blk Online*
Description: The first course in a two-course sequence addressing the accounting and finance knowledge and skills required of successful healthcare managers. It emphasizes the understanding of accounting and finance functions, use and interpretation of documents, reports, and statements, and the ability to work with the accounting and finance professionals in one's organization.
Pre-requisite/Co-requisite: MHA 6000.

MHA 6250 - Healthcare Finance

Credits: (3)
Typically Taught Spring Semester: *2nd Blk, 2nd Blk Online*
Description: Application of financial management techniques to decision making for healthcare providers. Financial management functions and organizations, financial statement analysis, working capital management, present value analysis, capital budgeting, cost of capital, variance analysis, financing techniques, and financial analysis case studies.
Pre-requisite(s): MHA 6000 and MHA 6249 (6249 may be taken concurrently).

MHA 6300 - Quality Improvement and Risk Management in Health Services Organizations

Credits: (3)
Typically Taught Spring Semester: *1st Blk, 1st Blk Online*
Description: A study of the effects of sophisticated quality and health outcome measures as used by individuals, employers and insurers to compare the results of various providers. The course will cover the forces of external customers and in addition to internal pressures to justify costs, provide continuous quality improvement, risk management, and changes within a complex health care system. Course content will include systems behavior and relationships, creating a culture of safety, using measurement to improve quality, fostering teamwork, and understanding the role of risk management in quality improvement.
Pre-requisite(s): MHA 6000 or Instructor Approval.

MHA 6320 - Health Policy and Economics

Credits: (3)
Typically Taught Spring Semester: *1st Blk, 1st Blk Online*
Description: Economic analysis applied to health services sector; concept of efficiency applied to production and distribution of health services, health insurance, government programs, health care personnel, and health services organizations; current public policy issues; emphasis on student application of economic principles to health care issues.

MHA 6350 - Decision Making for Healthcare Leaders

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: Course focuses on concepts for approaching executive decision-making in addressing key

strategic, tactical execution, operational, and competitive issues facing healthcare organizations. Emphasis is placed on the development of analytical skills and the use of data to enable effective decision-making and sustained high organizational performance.

MHA 6360 - Comparative International Health Systems

Credits: (3)
Description: Analysis of key attributes of health care policy in selected countries and comparisons with the US health care system. This course includes an international field trip and appropriate travel expenses will be required of the students. Please check with the course instructor for more details. Note: Check with department for course availability.

MHA 6370 - Executive Leadership Seminars in Healthcare

Credits: (3)
Description: Via a series of in-depth seminars, dialogues, interactions, and/or lectures with top level clinical leaders and healthcare executives, this course will explore complex and timely healthcare topics and issues of the day from the perspective of successful leaders in the healthcare industry, exploring and analyzing their implementation and application of management and leadership theory and practice as put into effect in a variety of healthcare settings and facilities.
Note: This course is offered as needed.

MHA 6400 - Strategic Health Planning and Marketing

Credits: (3)
Typically Taught Spring Semester: *2nd Blk, 2nd Blk Online*
Description: Various planning approaches, styles and theories are considered from a corporate decision-making perspective within the unique governance structures of health service organizations. Issues covered include strategic planning and resource allocation within integrated health systems. Environmental analysis explores national health care delivery policy, unique financing structures such as third party payment systems, and open vs. regulated markets and development of comprehensive marketing plans.
Pre-requisite(s): MHA 6100 and MHA 6200.

MHA 6440 - Health Ethics and Law

Credits: (3)
Typically Taught Fall Semester: *1st Blk, 1st Blk Online*
Description: Selected legal principles and their application to health field. Legal aspects of corporate liability, medical malpractice, admission and discharge processes, medical staff bylaws, informed consent, nursing, patients' rights, medical records, and governmental regulation of personnel and health facilities.

MHA 6450 - Health Informatics

Credits: (3)
Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online*
Description: This course addresses the concepts and application of health informatics. Topics addressed in the course include: interoperability, IT standards, privacy and security of health information, cybersecurity, strategic planning for IT, and emerging trends in health informatics. Emphasis is placed on the use of data analytics to support management decision making.

MHA 6500 INT - Field Work

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides a capstone experience where the student synthesizes theory learned the classroom and applies it real world problem solving in health care organizations. Designed to integrate the knowledge gained in other graduate courses into an applied management project. The project will have enterprise wide applicability to a health services organization. The Student will develop and present a deliverable product that could be implemented by management to improve their organizational performance, specifically with analysis and recommendations for policy and strategic improvements.
Pre-requisite(s): MHA 6000, MHA 6200, MHA 6300, MHA 6400.

MHA 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): MHA 6000 and permission of instructor.
May be repeated for a total maximum of 6 credit hours.

MHA 6830 - Directed Study

Credits: (1-3)
Description: Directed individual study and research on special topics related to health care.
Pre-requisite(s): Approval of MHA program and instructor.
May be repeated for a cumulative total of three credits.
Note: This course is offered as needed.

MHA 6840 - Case Study Analysis

Credits: (3)
Description:

Analysis, Preparation, and Presentation at a national Case Study Competition. Students synthesize theory and apply it to the explicit healthcare circumstance outlined in the case. Case studies require the demonstration and integration of knowledge, skills, and competencies from prior graduate courses and the application of them to a specific case situation. Students will travel and present their case analysis

at a national case competition.

Pre-requisite(s): MHA 6000, and permission of instructor.

Note: Check with department for course availability.

MHA 6850 GLB - MHA Study Abroad

Credits: (3)

Description: Healthcare has become a global phenomenon. Travel to other countries to see firsthand how their health industries are planned and organized, how care is delivered, and to interact with health leaders, providers, and patients from other countries provides an inarguably rich experience for healthcare leaders. In addition, the study abroad experience requires both sound knowledge of the health industry being observed and scholarly reflection on its effectiveness, efficiency, and success in addressing and meeting that country's healthcare needs.

Pre-requisite(s): MHA 6000 and permission of instructor.

Note: Check with department for course availability.

MHA 7080 - Healthcare Finance/Economics

Credits: (2)

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This course focuses on principles of healthcare economics and finance to develop and implement effective planning, decision-making, and evaluation for healthcare delivery within healthcare organizations and systems. It provides a financial management perspective to advanced nursing practice and general health care issues. This course offers 15 practicum hours 1:4 credit to clock hours (0.25 credit = 15 clock hours).

MICR 1113 LS - Introductory Microbiology

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online, 1st Blk Online, 2nd Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: An overview of how microorganisms are used as model systems to study biology, genetics, metabolism, and ecology; how microorganisms play an integral role in disease and how microbial and immunological methods are used to treat and prevent disease; why microorganisms are found inhabiting a wide range of ecological habitats; how microorganisms play a vital role in biotechnology, fermentation, medicine, and other industries important to human well-being; and how microorganisms play an indispensable role in element cycles, biodegradation, and other aspects of the environment. This course is intended for all students who are not Microbiology majors. This course consists of 3 one-hour lectures/demonstrations per week.

MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Blk Online, 2nd Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: We live in a microbial world. In this course, we will explore our complicated relationships with microbes, from those used to make bread, beer, and yogurt, to those that cause disease and death. To understand how microbes spread, cause illness, and evolve, we will use current important public health examples and case studies, such as sexually transmitted diseases, antibiotic resistance, measles outbreaks, food-borne illnesses, and drug use and abuse. Students will also learn about current efforts to understand and control our microscopic neighbors, such as vaccines, hand sanitizer, and antibiotics. We will discuss how public health issues are studied, how they influence society, and how we make policy decisions to prevent disease. This course consists of 3 one-hour lectures/demonstrations per week.

MICR 1280 - Life in Medicine

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This one credit course for premedical students is designed to provide insight into many of the aspects associated with a career in medicine. The objectives of this course include 1.) provision of basic information regarding admission to medical training programs; 2.) exposure to some of the basic tenants necessary for professional success; 3.) investigation of some of the benefits and detriments associated with this challenging career; and 4.) establishing a forum through which students can question and self-assess the feasibility and desire to pursue a medical career. Presentations, group discussions and introspective analysis of selected topics will be led by a local physicians of various specialties to accomplish these goals.
May be repeated once.

MICR 1353 LS - Microbes Rule the World - Power of Disease

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: We will explore the intimate relationships between infectious diseases and humans. Students will examine the biology of influential diseases and the biological principles that allow diseases to influence human events. The course uses scientific explanations and case studies to investigate the effects of diseases on human society. Each disease will be examined from different angles including its natural history (reservoirs, host factors, transmission), pathogenicity, historical impacts, and appropriate interventions. The diseases chosen reflect plagues that have occurred throughout history, especially those that have important lessons for the fields of microbiology or public health. This course consists of 3 one-hour lectures per week.

MICR 1370 LS - Principles of Life Science

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized.

This course consists of 2 hours of lecture and 1 three-hour laboratory per week.
Cross-listed with BTNY 1370 and ZOOL 1370.

MICR 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MICR 2051 - LS - Principles of Microbiology Lab

Credits: (1)
Typically Taught Summer Semester: *2nd Block*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: MICR 2051 is a stand-alone laboratory version of the MICR 2054 laboratory. The laboratory experience focuses on the microscopy, cultivation, control, and identification of microorganisms. This course has the same syllabus content; including textbook, supplies, laboratory fee, and assessment as MICR 2054 laboratory. This laboratory course is to accommodate transfer students from other universities, departments, or microbiology majors that have completed an Introductory Microbiology course without a laboratory. To register for this course a grade of B- or higher is required in MICR 1113 or an equivalent course and Instructor approval is needed.This course consists of 1 two-hour laboratory per week.
Pre-requisite(s): A passing grade of B- or higher in MICR 1113 or equivalent course and CHEM 1110/CHEM 1115 or CHEM 1200 or CHEM 1210/CHEM 1215. Instructor approval is required.
Pre-requisite/Co-requisite: CHEM 1210/CHEM 1215 may be taken concurrently.

MICR 2054 LS - Principles of Microbiology

Credits: (4)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: Comprehensive introduction to the microbial world, including cell structure and function, metabolism, genetics, ecology, and interactions with humans and other organisms. Discussions include current research topics and applications of microbiology. Laboratory experience focuses on the microscopy, cultivation, control, and identification of microorganisms. This course is designed for

science majors, pre-professional students, and Biology Composite Teaching majors. However, anyone meeting the pre- or co-requisites may take this course. This course consists of 3 one-hour lectures and 1 two-hour laboratory per week.

Pre-requisite(s): CHEM 1110/CHEM 1115 or CHEM 1200 or CHEM 1210/CHEM 1215.

Pre-requisite/Co-requisite: CHEM 1210/CHEM 1215 may be taken concurrently.

MICR 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.
Class will meet once per week and will be taught in a lecture/demonstration format.
Cross-listed with BTNY, CHEM, GEO, and PHYS.

MICR 2890 INT - Cooperative Work Experience

Credits: (1-5)
Description: Open to all students in the Microbiology Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): MICR 2054.
Note: This course is offered as needed.

MICR 2920 - Short Courses, Workshop, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

MICR 3012 GLB - Microbiology and Global Public Health

Credits: (2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on microbial diseases that are major causes of morbidity and mortality worldwide (e.g. HIV, tuberculosis, malaria, influenza, etc.), diseases that are classified as emerging diseases (e.g. Ebola) and diseases that are being eliminated or eradicated, including certain Neglected Tropical Diseases. This course will analyze the pathogenesis, life cycles, epidemiology and societal impacts of these diseases, while emphasizing preventative interventions such as vaccinations, water and sewage treatment, and elimination and eradication strategies. The role of various agencies (e.g. WHO and CDC) in improving global health will also be discussed.

This course consists of 1 two-hour lecture per week.

Pre-requisite(s): MICR 1113 or MICR 1153 or MICR 2054 or ZOOL 1610 or permission of the instructor.

MICR 3053 - Microbiological Procedures

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: This course is designed to increase proficiency with basic laboratory skills in microscopy, staining methods, preparation of media, aseptic technique, preservation and maintenance of cultures, culture identification, and enumeration methods while developing practical and professional skills in data analysis, presentation, and instrumentation.
This course consists of 2 two-hour combined lecture and laboratory sessions per week.
Pre-requisite(s): MICR 2054, CHEM 1210/CHEM 1215, and MATH 1050 or MATH 1080 or MATH 1210.

MICR 3154 - Microbial Ecology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: This course has a lab fee that will help fund unique activities done in this course. This will include materials and kits needed for DNA extraction and sequencing. It will also support providing other laboratory materials, media, and reagents.
Description: Microbial Ecology is the study of microorganisms in their natural habitats and their interactions with other living organisms. Topics explored in this course include the evolution of life on Earth, the diversity of microorganisms, microbial biogeography, symbiotic microbial interactions, and biogeochemical cycles. Current and historical research in microbial ecology is emphasized throughout the course. The laboratory experiments may involve isolating, identifying, and studying novel microorganisms from unique environments, studying environmental microbiomes, finding novel antibiotic producing organisms, and modeling biogeochemical cycles. Experimental techniques used in the laboratory involve advanced methods of cultivation, molecular identification techniques, and chemical assays.
This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.
Pre-requisite(s): MICR 2054 and CHEM 1210/CHEM 1215.

MICR 3203 - The Immune System in Health & Disease

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course will focus on the study of the human immune system and its role in health and

disease. The course topics include the innate and adaptive immune responses and their role in host defense as well as immunodeficiency and hypersensitivity responses. Manipulation of the immune system through pharmacological means, vaccination or transplantation will also be studied. This course is intended for the student studying Medical Lab Sciences or someone who wants to know more about the human immune system and who has already taken a course in Microbiology. The course is not intended as a first course in biology and it cannot be used as a Microbiology elective course for Microbiology majors. This course is only offered online with the exception of Fall Semester which also offers a face-to-face option consisting of 3 one-hour lectures per week.

MICR 3254 - Immunology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: This course will focus on the study of the human immune system and its role in heath and disease. The course topics include the innate and adaptive immune responses and their role in host defense as well as immunodeficiency and hypersensitivity responses. Manipulation of the immune system through pharmacological means, vaccination or transplantation will also be studied.
This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.
Pre-requisite(s): MICR 2054 or consent of instructor.

MICR 3305 - Medical Microbiology

Credits: (5)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: This course has a fee of $30 that will help offset the costs of the laboratory supplies used in this course. This includes, but is not limited to, the purchase of supplies for microscopy, antibiotics, media, and DNA sequencing. Other consumable supplies, such as pipettes, Petri plates, and basic reagents are provided in the lab.
Description: Characteristics of clinically relevant pathogenic bacteria, fungi, and other microbes. From the point of view of the microbe, topics will include pathogenesis, virulence factors and toxins, mechanisms of immune evasion, and unique biological features. From the point of view of the human host, we will discuss epidemiology, disease symptoms, diagnosis, treatment, prevention, and control.
This course consists of 3 one-hour lectures and 2 two-hour laboratory per week.
Pre-requisite(s): MICR 2054.
Suggested Requisite(s): Pre-requisite of MICR 3254 or MICR 3203 is strongly recommended.

MICR 3340 - Information Resources in the Life Sciences

Credits: (2)
Description: A practical introduction to the literature and information resources of the life sciences. Students will expand their research skills and be able to develop effective research strategies to find and

synthesize information available in academic libraries.

Two lecture hours per week.

Pre-requisite(s): ENGL 2010.

Cross listed in Botany, Library Sciences and Zoology.

Note: This course is offered as needed.

MICR 3403 GLB - Tropical Diseases

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Study of tropical diseases caused by viral, bacterial, protozoan, fungal, and helminthic agents, including their transmission, disease course, pathogenesis, treatment, prevention, and control using a multi-disciplinary approach integrating case studies, labs, epidemiology, immunopathology as well as microbiology.

This course consists of 2 hours of lecture and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054.

MICR 3484 - Environmental Microbiology

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: Applied environmental microbiology and biotechnology including transport of microorganisms through environment, microbial pathogens, and toxins in the environment. Biodeterioration, contamination control, and biosafety. Pollution microbiology, environmental management, bioremediation, waste treatment, biological insecticides. Microbiology of man-made environments.

This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 1210/CHEM 1215.

MICR 3502 SUS - Environmental Health

Credits: (2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Air and water quality, solid and hazardous waste management, food protection, environmental inspection, and testing.

This course consists of 1 two-hour lecture per week.

Pre-requisite(s): MICR 1113 or MICR 2054 or consent of instructor.

MICR 3570 - Foundations of Science Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a pre-service science

teacher's education coursework.
Cross-listed with BTNY, CHEM, GEO, PHYS, and ZOOL.

MICR 3603 - Advanced Microbiology for the Health Professions

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Characteristics of microorganisms and parasites - emphasizing mechanisms by which they cause disease in humans. Intended for students in the Clinical Laboratory Sciences program and those working in that field. The course is not intended as a first course in biology and it cannot be used as a Microbiology elective course for Microbiology majors. This course is only offered online.

MICR 3753 - Geomicrobiology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore the geological change mediated by microorganisms, microbial evolution driven by geologically diverse habitats, and applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial application of geomicrobiology. The course includes classroom discussion, laboratories, and field trips.
This course consists of 2 hours of lecture and 1 two-hour laboratory.
Pre-requisite(s): CHEM 1210/CHEM 1215 or approval of the instructor.
Cross-listed with GEO 3753.

MICR 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MICR 3813 - Bioinformatics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Bioinformatics is the use of computers to analyze biological data. Students will learn the basic concepts, methods, and tools used in bioinformatics, such as sequence alignment, phylogenetics, gene prediction, genomics, protein structure prediction, expression analysis, systems biology, sequence

assembly, and metagenomics. This course consists of 3 one-hour lectures per week.

Pre-requisite(s): MICR 2054 or ZOOL 1610 or BTNY 2104.

MICR 3853 - Food Microbiology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: This course charges a fee. That fee is used to purchase specialty media and supplies used in the lab. These supplies are meant to help you practice valuable workplace skills. Any unused portion of the course fee will be used to purchase other consumable supplies or media required for this course.
Description: Role of microorganisms in food production, preservation, spoilage, and food borne disease. This course consists of 2 one-hour lectures and 1 two-hour laboratory per week.
Pre-requisite(s): MICR 2054 and CHEM 1210/CHEM 1215.

MICR 4054 - Microbial Physiology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course Fee: As part of your registration, you paid a course fee for this course. That fee is used to purchase lab supplies for this class including: slides, staining reagents, culture media, pipettes, gloves, and other disposable supplies. Any remaining money is used for maintenance of equipment used in this course.
Description: Structure, function, and physiology of microorganisms, with emphasis upon the bacteria. The course highlights the amazing diversity in metabolism found among bacteria.
This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.
Pre-requisite(s): MICR 2054, CHEM 1220/CHEM 1225 and CHEM 2310/CHEM 2315.
Suggested Requisite(s): Completion of or concurrent registration in CHEM 3070/ CHEM 3075 is recommended.

MICR 4154 - Microbial Genetics

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: The genetics of microorganisms and its applications, including isolation and characterization of mutants, the biology and uses of plasmids, conjugation, transformation, the biology and uses of bacteriophages, transposition, recombinant DNA technology, gene regulation, and bioinformatics.
This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.

Pre-requisite(s): MICR 2054 and CHEM 2310/CHEM 2315.

Suggested Requisite(s): Completion or concurrent of CHEM 3070/CHEM 3075 is recommended.

MICR 4253 - Cell Culture

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Consumable laboratory supplies including, but not limited to, culture tubes, Petri plates, broth and agar media, gloves, pipets, staining reagents, microscope slides and coverslips, disinfectant, swabs, and chemicals and reagents used in media preparation.
Description: Introduction to core skills used in the biotechnology industry for culturing animal cells in vitro, with some use of insect and/or plant cells. Skills include sterile technique, cell counts, and the culture, maintenance, and preservation of cell lines. Specialized experiences include transfections with foreign DNA, confocal microscopy, real-time PCR and viral infections.
This course consists of 2 two-hour combined lecture and laboratory sessions per week.
Pre-requisite(s): MICR 2054 or BTNY 2104 and BTNY 2121 and CHEM 1220/CHEM 1225.

MICR 4354 - Industrial Microbiology and Biotechnology

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: Experimental design for application of microbial physiology and biochemical ecology as potential solutions to current world problems, as well as exposure to traditional topics in product development.
This course consists of 3 one-hour lectures (presented in a laboratory) and 1 three-hour laboratory per week.
Pre-requisite(s): MICR 2054 and CHEM 1220/CHEM 1225.
Suggested Requisite(s): Pre-requisite of MICR 3053 is recommended.

MICR 4554 - Virology

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: The study of viruses and virus-like agent structure, classification, genetics, replication, and other interaction with the host, with emphasis on bacteriophage and animal viruses.
This course consists of 3 one-hour lectures and 1 three-hour laboratory per week.
Pre-requisite(s): MICR 2054 and CHEM 1220/CHEM 1225.

MICR 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

Cross-listed with BTNY, CHEM, GEO, PHYS, and ZOOL.

MICR 4800 - Directed Research

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent research under the advisement of a faculty member. No more than 3 credit hours may count toward the major.
Pre-requisite(s): Consent of instructor and a minimum of 6 credits of upper division microbiology course work.
May be repeated up to 10 times for credit.

MICR 4830 - Directed Readings

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent readings on advanced special topics under the direction of a faculty member. No more than 2 credit hours may count toward the major.
Pre-requisite(s): Consent of instructor and a minimum of 6 credits of upper division microbiology course work.
May be repeated up to 10 times for credit.

MICR 4890 INT - Cooperative Work Experience

Credits: (1-5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all students in the Microbiology Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): CHEM 1210/CHEM 1215, CHEM 1220/CHEM 1225, and MICR 2054.
May be repeated up to 10 times for credit.

MICR 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

MICR 4991 - Microbiology Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Current topics in Microbiology.
This course consists of 1 one-hour lecture per week.
Pre-requisite(s): MICR 2054 and MICR 3053 or MICR 3154 or MICR 4054 or MICR 4154.

MICR 5034G - Microbiology for Teachers

Credits: (1-4)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
May be repeated twice with a maximum of 4 credit hours.
Note: This course is offered as needed.

MILS 1010 - Introduction to the Army and Critical Thinking

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: Introduces cadets to the personal challenges and competencies critical for effective leadership. Cadets learn how the personal development of life skills such as critical thinking, time management, goal setting, stress management and comprehensive fitness relate to leadership and the Army profession. A three hour weekly leadership lab is included, as well as one weekend field training exercise during the semester.
Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 1020 - Introduction to Profession of Arms

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: Introduces cadets to the personal challenges and competencies that are critical for adaptive leadership. Cadets learn the basics of the communications process and the importance for leaders to develop the essential skills to effectively communicate in the Army. Students will examine the Army profession and what it means to be a professional in the U.S. Army. A three-hour weekly leadership lab

is included as well as one weekend field training exercise during the semester.
Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 1110 - Basic Rifle Marksmanship

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Open to all Weber State University students. Introduction to safe use of a rifle and practical application of rifle marksmanship. Course includes weapons safety, mechanics, capabilities, and fundamentals of marksmanship. Includes visit to fire at indoor air rifle range. Materials and equipment furnished by Department of Military Science and Leadership (Army ROTC).
May be repeated twice for up to two hours of credit.

MILS 1220 - Wilderness Survival Skills

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: Open to all WSU students. This class will teach you how to build makeshift shelters, procure food and water, cook a meal, identify edible and poisonous plants, avoid dangerous animals, treat wounds and illness, navigate with the sun and stars, make equipment, and much more. The class covers wilderness survival and an urban survival situation. Materials and equipment furnished by Department of Military Science.
This course may be repeated once for a total of two credit hours.

MILS 2010 - Innovative Team Leadership

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: Builds on previous leadership instruction enhancing student skills in land navigation, small unit tactics, written and oral communication, event planning, group coordination and effectiveness and first aid. During this course, students develop basic skills for leading others in a tactical environment.
A three-hour weekly leadership lab is included as well as one weekend field training exercise during the semester.
Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 2020 - Foundations of Tactical Leadership

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding field training

exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: This course focuses on leader effectiveness. Course content includes analysis of selected historical leaders and battles using the principles of war and other tenets. Student led discussions highlight lessons learned relative to leadership and organizational success. Oral communications skills are central to this course.

A three-hour weekly leadership lab is included as well as one weekend field training exercise during the semester.

Participation in weekly physical fitness training is expected and should be taken as MILS 2400.

MILS 2220 - Advanced Rifle Marksmanship

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Open to all Weber State University students. Course provides instruction on the fundamentals of Advanced Rifle Marksmanship. Class is conducted once a week with topics including: Air Rifle, Small Bore firing, and advanced practical exercises of different shooting positions. Prerequisite: MILS 1110 or permission of Instructor.

May be repeated two times for credit for a total of two credit hours.

MILS 2400 - Physical Readiness

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A physical conditioning course that employs U.S. Army principles of fitness. Subjects include: body composition, nutrition, cardiorespiratory fitness, muscle endurance and strength, circuit training and drills. Students registered for MILS 1010, MILS 1020, MILS 2010, or MILS 2020 are encouraged to enroll in this course to gain the full perspective of the physical demands required to be an Army officer. May be repeated 3 times with a maximum of 4 credit hours.

MILS 2600 - Leadership Under Fire

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will explore both functional and dysfunctional behavior in leadership roles. Using examples from military and civilian leadership, this course will teach leadership techniques essential for future managers and leaders that will be of great value to both civilian and military leaders. It will focus on ethical/moral, historical, and social influences and examine outlook, styles, skills, and behavior essential for providing successful leadership. This will culminate in a hands-on team-building exercise. No prerequisites. Students are NOT required to be enrolled in a ROTC course, nor to do so in the future.

MILS 2830 - Directed Readings, Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent reading/research on topic(s) of military interest under the supervision of a Military Science faculty member.
Pre-requisite(s): Requires instructor permission.
May be repeated 2 times with a maximum of 3 credit hours.

MILS 2921 - Cadet Initial Entry Training

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A four-week leadership camp conducted at Fort Knox, Kentucky. Designed to introduce students to basic military skills and leadership requirements. Training includes rappelling, marksmanship, small unit tactics, physical fitness, leadership, and adventure training. Credit/no credit grade only.
Pre-requisite(s): Requires instructor permission.

MILS 2922 - Northern Warfare

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: A two week course conducted in Alaska. Provides training in cold weather survival and small unit tactics. Credit/no credit grade only.
Pre-requisite(s): include the completion of the basic course and instructor permission.

MILS 2923 - Air Assault

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: A two week course conducted at an Army installation in the continental U.S. Provides students training in helicopter operations to include sling loading and rappelling. Credit/ no credit grade only.
Pre-requisite(s): include successful completion of the basic course and instructor approval.

MILS 3000 - Leadership in Military History

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Army Pre-Commissioning Military History course covers military history from early colonial warfare in the eighteenth century to the global war on terrorism in the twenty-first century. The purpose of this course is to lead Reserve Officer Training Corps (ROTC) Cadets to understanding the role military officers have played in the development of our country. Completion of this block of instruction is a prerequisite for commissioning as a Lieutenant in the United States Army.
Pre-requisite(s): Instructor approval is required.

MILS 3010 - Adaptive Team Leadership

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding staff ride/battlefield tour (to include lodging, airfare/transportation, and meals), field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: Develops leadership skills within the framework of the U.S. Army. This course focuses on theory and application of decision making, planning, organizing, management control and communications.
The course also emphasizes small unit tactics and advanced land navigation skills; it includes a three-hour weekly leadership lab. Students must participate in up to three, one-hour physical fitness sessions per week, which may be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 3020 - Leadership in Changing Environments

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding staff ride/battlefield tour (to include lodging, airfare/transportation, and meals), field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.
Description: Focuses on theory and application of small unit tactics, leadership and land warfare. Subjects include preparing and issuing combat orders, organizing for combat, unit and individual movement techniques, communications and security.
A three-hour weekly leadership lab is included. Students must participate in up to three, one-hour physical fitness sessions per week, which may be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MILS 4010 - Mission Command and the Army Profession, Part 1

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $50.00

Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding staff ride/battlefield tour (to include lodging, airfare/transportation, and meals), field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.

Description: This course focuses on the functions and roles of the commander/ leader and the staff. Subject matter includes problem solving, planning techniques and procedures, written and oral communications, training management and evaluation systems.

A three-hour weekly leadership lab to enhance leadership skills and apply classroom instruction to hands on training and execution is included. Students must participate in up to three, one-hour physical fitness sessions per week, which should be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 4020 - Mission Command and the Army Profession, Part 2

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: The course fees in this course will be used to purchase training aides, training resources and academic materials. Course fees will be used to pay for expenses regarding staff ride/battlefield tour (to include lodging, airfare/transportation, and meals), field training exercises, food/meals, training site fees, transportation costs, uniform items and lab supplies.

Description: A conference course addressing future roles and responsibilities of junior Army officers. Subject matter includes the world environment and future threats to U.S. security, the spectrum of Army requirements, Army modernization initiatives, the laws of war, joint operations and other issues designed to complete the cadet-to-lieutenant process.

A three-hour weekly leadership lab to enhance leadership skills and apply classroom instruction to hands-on training and execution is included. Students must participate in up to three, one-hour physical fitness sessions per week, which should be taken as MILS 4400, to satisfy requirements of the Military Science minor. One weekend field training exercise is required during the semester.

MILS 4400 - Advanced Physical Readiness

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides advanced instruction in physical fitness employing Army techniques and procedures. Students assist Military Science faculty in the planning/conduct of physical fitness training activities performed by lower division students.

Pre-requisite(s): Requires instructor permission.
Suggested Requisite(s): (Students must be enrolled in one of the following courses: MILS 3010, MILS 3020, MILS 4010, or MILS 4020.)
May be repeated 3 times with a maximum of 8 credit hours.

MILS 4830 - Directed Readings, Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Independent reading/research on topics of military interest under the supervision of a Military Science faculty member. For each credit awarded the student will read approximately 1000 pages and prepare a written review or summary.
Pre-requisite(s): Requires instructor permission.
May be repeated for a maximum of 6 credit hours.

MILS 4921 - Cadet Leadership Course (CLC)

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A five week leadership camp conducted at Fort Lewis, Washington. The Advanced Camp environment stresses small unit leadership under varying and challenging conditions. Credit/no credit grade only.
Pre-requisite(s): Requires instructor approval. Open only to students who have successfully completed basic course requirements, MILS 3010 and MILS 3020.

MILS 4922 - Airborne Operations

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: A three week course conducted at Fort Benning, Georgia. Provides students training in military sky diving techniques with practical applications. Credit/no credit grade only.
Pre-requisite(s): Requires instructor approval. Prerequisite includes completion of the basic course.

MILS 4923 - Cadet Troop Leader Training

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: A two week course conducted at an Army installation in the continental U.S. or overseas. Provides firsthand experience in an Army unit. Students learn about military life and the duties of a lieutenant. Credit/no credit grade only.
Pre-requisite(s): MILS 3010, MILS 3020, Advanced Camp, and instructor approval.

MIS 1100 SS - The Digital Society

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $5.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: The explosive growth of information technologies in general, and the Internet in particular,

has irreversibly changed the way we work and play. This course prepares students to be knowledgeable citizens of cyberspace. It reviews our social institutions and how they are being impacted by information technology as well as the ways in which technology has been shaped by our social institutions. The course also provides hands-on experience with a variety of Internet tools.

MIS 2010 - Business Computer Skills

Credits: (1)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Course Fee: $5.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course prepares all students in business and economics to demonstrate current competence in desktop software commonly used in the business environment. The course covers computer competencies students will use in their business functional and cross-functional core courses, using more complex features of desktop software. It is followed by a hands-on exam that tests these competencies. *Credit/No credit.*

MIS 2015 - Introduction to Information Systems & Technologies

Credits: (1)
Description: This course introduces the student to the role played by computer technology in business strategy and problem resolution. It also introduces information technologies used in information systems, including: software development, hardware, operating systems, network management, project planning, and career paths. Students will develop their academic MIS program plan. Lecture series by MIS Faculty.
Note: Course not currently being offered.

MIS 2020 - Introduction to Information Systems

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: Overview of the role and use of information systems to support individual, group, and business decision-making. Includes coverage of technology's role in supporting the business decision-making process. It will prepare students to use information technologies effectively to improve productivity and promote competitive position in the marketplace.

MIS 2030 - Introduction to Business Analytics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Business analytics refer to the ways in which organizations use data to gain insights and make better decisions, and has become a critical capability for organizations of all types and sizes. It is applied in various business functions including marketing, finance, human resources, operation and strategic planning. This course covers basic analytic methods used by organizations. Students will learn how to explore, manipulate and present data. They will also learn how to use data to develop insights and predictive capabilities by using predictive analytics techniques.
Pre-requisite(s): MATH 1040 or QUAN 2600.

MIS 2040 - Business Analytics with Python

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course introduces Python within the context of business analytics. Students will learn Python programming basics and be exposed to the business analytics workflow, starting with interacting with SQL databases to query and retrieve data, through data wrangling, reshaping, summarizing, analyzing and ultimately reporting their results.
Pre-requisite(s): MATH 1040 or QUAN 2600.

MIS 2110 - Software Development I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course introduces the student to the fundamentals of software construction using a contemporary programming language. This includes the IDE (Integrated Development Environment), syntaxes of the language, basic programming constructs, data representation, object concepts, programming flow control and problem solving logic. Students will design, program and debug several business application projects.
Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050 or MATH 1080 or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

MIS 2410 - Information Systems Architecture

Credits: (3)
Description: This course provides students with a thorough grounding in computer hardware and operating system software, peripheral devices and contemporary information system architecture,

including its structure, theory, and applications.
Note: Course not currently being offered.

MIS 2720 - Data Structures and Algorithms

Credits: (3)
Description: This course introduces the basics of specifying abstract data types, control structures and modularization, and using them to design programs. Commonly used data structures and algorithms are studied. Emphasis is made on choosing data structures and algorithms appropriate for solving given business problems.
Pre-requisite(s): MATH 1050 and MIS 2110.
Note: Course not currently being offered.

MIS 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MIS 2891 - Cooperative Work Experience

Credits: (1)
Description: Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.
Pre-requisite(s): Department Approval.

MIS 2892 - Cooperative Work Experience

Credits: (2)
Description: Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.
Pre-requisite(s): Department Approval.

MIS 2893 - Cooperative Work Experience

Credits: (3)
Description: Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.
Pre-requisite(s): Department Approval.

MIS 2894 - Cooperative Work Experience

Credits: (4)
Description: Open to all associate's degree-seeking students who have been selected to serve an internship in the information technology field or who have identified a special MIS project with their current employer, subject to approval by the Management Information Systems Department.
Pre-requisite(s): Department Approval.

MIS 3210 - Database Design and Implementation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course provides a comprehensive coverage of business database systems. Students will learn how to design, implement and manage databases. They will learn both GUI interface and how to use the Structured Query Language (SQL). They will also gain experience in using an enterprise level, multi-user database.
Pre-requisite(s): MIS 2110or MIS 2020 and earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or score 3 or higher on AP Calculus exam or score 70 or higher on ACCUPLACER College Level Math (CLM) or score of 26 or higher on Math ACT or score of 65 or higher on ALEKS.

MIS 3220 - Business Intelligence

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an understanding of the concepts of Business Intelligence (BI) as an information technology approach of data collection and data analysis to help enterprise users make better managerial decisions. The course explores the detailed discussion of the analysis, design, and implementation of systems for BI including enterprise data-warehousing, knowledge management systems, big data, and text mining. The course will help students learn analytical components and technologies to integrate, analyze and report data. The course will utilize Microsoft BI tools including Microsoft Power BI desktop, SQL Server Integration Services (SSIS), SQL Server Analysis Services (SSAS) and SQL Server Reporting Services (SSRS).
Pre-requisite(s): MIS 2030.

MIS 3230 - Data Mining for Business

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine how data mining technologies can be used to improve decision-making. Students will study the principles and techniques of data mining, including gaining knowledge of the algorithms and computational paradigms that allow computers to find patterns in large datasets.

Students will examine real-world examples and cases to place data-mining techniques in context, to develop data-analytic thinking, and to illustrate that proper application is as much an art as it is a science.

Pre-requisite(s): MIS 2030.

MIS 3610 - Networks & Data Communications I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course provides an introduction to the design, operation, and management of telecommunication systems. It covers computer network definitions, concepts and principles, including (but not limited to): server management; topologies; protocols; standards; and fundamental concepts related to data communication networks.
Pre-requisite(s): MIS 2020 or MIS 2410.

MIS 3620 - Networks and Data Communications II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: In this intensive hands-on course, the student will acquire the skills and techniques needed to configure, troubleshoot and support reliable TCP/IP internetworks. The student will learn the essentials of building an internetwork, including routing, configuring the Domain Name Server (DNS), setting up and managing a web server, configuring a firewall and IDS, and standards-based email. Students will also participate in configuring clients, redesigning networks and troubleshooting routing.
Pre-requisite(s): BSAD 2899 and MIS 3610.

MIS 3700 - E-business Technologies & Web Development

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course provides students with knowledge of technologies needed in planning, implementing and supporting web-hosted applications and on-line commerce. Topics include web and commerce server design and deployment, search engines n-tier web architecture and supporting

software, client-side/server-side programming with data-bound controls and session management, e-business application languages, markup languages, on-line payment mechanisms, systems reliability and security, scalability analysis, and solutions sourcing.
Pre-requisite(s): BSAD 2899 and MIS 2110, or MIS 2020.

MIS 3710 - Global Issues in Information Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course shows how information technology is used as a key competitive advantage by multinational and transnational businesses. Topics include global perspectives on coordination and control, cultural dimensions, and geo-political considerations of global information technology applications.
Pre-requisite(s): BSAD 2899.

MIS 3720 - Software Development II

Credits: (3)
Description: This course builds on the software development skills learned in Software Development I. Topics include class hierarchies, inheritance and interfaces, object aggregation, data structure and collections, file management, threading, network programming, and the design of multi-tiered, distributed computing applications involving relational databases.
Pre-requisite(s): BSAD 2899 and MIS 2720.
Note: Course not currently being offered.

MIS 3730 - Systems Analysis and Design

Credits: (3)
Description: This course provides the knowledge and skills to design and implement computer-based systems to solve business problems. Topics include feasibility studies, requirement analysis, system design and development, implementation and testing. Students will learn the use of appropriate methodologies and tools, including object-oriented modeling and the use of computer-aided software engineering (CASE).
Pre-requisite(s): BSAD 2899 and MIS 3210.
Note: Course not currently being offered.

MIS 3740 - Business Machine Learning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to teach and give students hands-on experience with cutting-edge machine learning methods used frequently in business contexts. Many companies have made significant contributions to the field of data analytics with products and services they've launched. This class is designed to prepare students to participate in such analysis to make significant business impact.

We examine Netflix- and Amazon-style recommender systems and market basket analyses, customer segmentation and classification, Zillow-style prediction of home sale prices, and other business-relevant examples.

Pre-requisite(s): MIS 2030.

MIS 3750 - Electronic Business Communications

Credits: (3)
Description: This course gives students knowledge regarding the best practices in designing or developing electronic presentations, meetings, and collaborations. This course also familiarizes students with technologies fostering effective communication in virtual situations.
Pre-requisite(s): BSAD 2899, MGMT 3200 or PS 3250.
Note: Course not currently being offered.

MIS 4600 - Information Security I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: This course looks at management issues and practical implications related to securing information systems. This course focuses on the threat environment, security policy and planning, cryptography, secure networks, access control, firewalls, host hardening, application security, data protection, incident response, and networking and a review of TCP/IP.
Pre-requisite(s): Business Foundations; BSAD 2899 and MIS 2020, or MIS 3610.

MIS 4620 - Information Security Basics

Credits: (3)
Description: In a computer-literate age, sophisticated criminals use computers in their illegal and destructive activities. This course discusses cybercrime and teaches students to understand networks; the phases of computer hacking; and setting up a secure environment.
Pre-requisite(s): BSAD 2899 and MIS 2410 or MIS 3610.
Note: Course not currently being offered.

MIS 4700 - Information Security II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.

Description: This course covers the basic principles and concepts in information security and information assurance. It examines the technical, operational, and organizational issues of securing information systems. Topics include operating system issues, viruses, security awareness at the executive, technical and user levels, physical security, personnel security issues, policies, procedures, and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.
Pre-requisite(s): BSAD 2899 and MIS 4600.

MIS 4710 - Enterprise Software Development

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fess collected from students enrolled in this class are used for student-related expenditures such as periodic technology upgrades in the MIS Lab, software licenses, and materials.
Description: This course introduces students to the concept of a business as an integrated set of business processes and associated systems designed to deliver value to customers. It focuses on enterprise systems, product lifecycle management, and supply chain management. This course also focuses on how to effectively manage enterprise projects with respect to organizational constraints. Students will learn how to manage project initiation, planning, execution, monitoring and closing.
Pre-requisite(s): BSAD 2899 and MIS 2020.

MIS 4720 - Emerging Information Technologies

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS Lab, software licenses, and program assessment materials.
Description: New information technologies can give early adopters significant competitive advantage when used with careful planning, or they can mean disaster if hastily implemented. This course covers how to conduct an environmental scan toward evaluating and implementing new information technologies.
Pre-requisite(s): BSAD 2899, and MIS 2410, or MIS 2020.

MIS 4730 - IT Project Management and Systems Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MIS

Lab, software licenses, and program assessment materials.

Description: This course covers project management principles, methodology, and tools. It also provides the knowledge and skills to design and implement computer-based systems to solve business problems. Topics include the planning and management of IT and software development projects, requirement analysis, system design and development, implementation and testing.

Pre-requisite(s): Business Foundations; BSAD 2899 and MIS 3210 and MIS 3610 and MIS 2110.

MIS 4801 - Individual Projects

Credits: (1)

Description: This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4802 - Individual Projects

Credits: (2)

Description: This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4803 - Individual Projects

Credits: (3)

Description: This course is open only to senior MIS majors. Students will be required to complete an individual project, program, system, or research paper which will enhance their skills and marketability.

Pre-requisite(s): BSAD 2899, Management Information Systems Department approval, and Senior standing.

MIS 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under thsi number. The specific title ad credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MIS 4850 - Information Systems & Technology Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore information systems and technology theory and practice in countries other than the U.S. Students will study global information systems as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

May be repeated once up to 6 credits.

MIS 4891 - Cooperative Work Experience

Credits: (1)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Pre-requisite(s): BSAD 2899 and instructor approval.

MIS 4892 - Cooperative Work Experience

Credits: (2)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Pre-requisite(s): BSAD 2899 and instructor approval.

MIS 4893 INT - Cooperative Work Experience

Credits: (3)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Pre-requisite(s): BSAD 2899 and instructor approval.

MIS 4894 - Cooperative Work Experience

Credits: (4)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the MIS courses.
Pre-requisite(s): BSAD 2899 and instructor approval.

MIS 5930G - Professional Development Workshop in Information Technology

Credits: (1-4)
Description: Information technology professionals must remain current with new technologies to remain competitive in their careers. This course offers professional development in new systems and software as they enter the mainstream of information technology practice.
Pre-requisite(s): Permission of instructor.

MIS 6610 - Information and Communications Technologies for e-Business

Credits: (3)
Description: Covers the information and communications technology infrastructure required to support a robust e-business activity. Issues such as reliability, scalability, security, and responsiveness as well as n-tier architectures are reviewed.
Pre-requisite(s): MACC, MBA, or MIS Certificate program standing.

MIS 6620 - Databases & Information Systems

Credits: (3)
Description: This course covers the role of database technology in information systems. Through hands-on and conceptual knowledge, students will learn how databases are used to construct and operate information systems designed to support decision making. Various aspects of database systems including both correct methods and problems encountered during the design, implementation and operation of database systems will be covered. Students will gain hands-on familiarity with a relational database system.
Pre-requisite(s): Admittance to MACC or MBA program and MIS 2020 or equivalent.

MIS 6800 - Directed Studies

Credits: (1)
Description: Directed individual study and research on special topics related to information assurance.
Pre-requisite(s): Approval of Management Information Systems Department Chair and course instructor. May be repeated for a cumulative total of three credit hours.

MKTG 3010 - Marketing Concepts and Practices

Credits: (3)
Typically Taught Summer Semester: *1st Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course includes planning, implementation, and control of the marketing process; consumer behavior; marketing research; segmentation and target marketing; and consideration of price, place, and promotion.

MKTG 3100 - Consumer Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduces students to the application of behavioral sciences to study consumers as they navigate the purchase decision journey. The course synthesizes relevant theories and methods to provide practitioner-oriented insights into internal, external, and situational factors affecting consumers and tools/strategies for targeting consumers as they engage in consumption activities.
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment: MKTG 3010.

MKTG 3200 - Selling and Sales Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Theory, methods, and techniques of personal selling in professional settings including analysis of buyer behavior, the delivery of customer satisfaction, and integration of personal selling with other marketing communication tools. Sales management includes managing the sales force,

salesperson selection, deployment, compensation, training, field supervision and industrial marketing management.
Pre-requisite(s): MKTG 3010.

MKTG 3450 - Promotion Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Strategic development of advertising, sales, sales management, public relations, and sales promotion programs.
Pre-requisite(s): BSAD 2899, MKTG 3010. Prerequisite or concurrent enrollment: MKTG 3100.

MKTG 3500 - Services and Sports Marketing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Marketing education has traditionally focused on the marketing of goods. However, services account for the majority of the economic activity in the United States and much of the developed world. In order to successfully develop and manage service products, marketers must understand the characteristics that differentiate them from conventionally manufactured goods. This course aims to systematically study these characteristics and the challenges they present to marketers in service organizations. The latter half of the course will focus on sports marketing as a special form of services marketing.
Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 3600 GLB - International Marketing

Credits: (3)
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: In this course students will learn the problems and procedures of marketing in foreign countries, including effects of foreign cultures and marketing systems on the design of marketing programs.
Pre-requisite(s): BSAD 2899; MKTG 3010.

MKTG 3700 - Business Studies Abroad - International Marketing

Credits: (3)
Description: Basic principles of international marketing. Fundamentals of international market research including macro and micro-level analysis. Discusses international marketing as part of a global strategy. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).
Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 4200 - Digital Marketing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course integrates proven marketing concepts with contemporary tools. Topics will include, but are not limited to, the modern consumer decision process, paid search, website usability, search engine optimization, social media, and mobile marketing.
Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 4300 - Social Media Marketing & Strategy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will enable students to plan, develop and implement social media marketing strategies in order to create, maintain, and grow a firm's social media presence. Students will learn platform-specific foundations of social media marketing focusing on the use of social media in growing and sustaining a business. The course objectives involve teaching students to create social media campaigns to boost brand recognition, run targeted ads to drive sales, manage social media crises, enable influencer marketing, and achieve organizational goals. Students will be able to create, manage and strategize a firm's social media presence across multiple platforms to drive business growth after completing this course.
Pre-requisite(s): BSAD 2899, MKTG 3010.

MKTG 4400 - Marketing Strategy

Credits: (3)
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: This course centers on gaining and sustaining competitive advantages. It entails analyzing customers, competitors, and internal capabilities; then making appropriate product, pricing, promotion, and distribution decisions.
Pre-requisite(s): BSAD 2899; ACTG 2020; MGMT 3200 or PS 3250; ENGL 3100 or ENGL 3530 or SCM 4500.

MKTG 4800 - Independent Research

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

MKTG 4850 - Marketing Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore marketing theory and practice in countries other than the U.S. Students will study international marketing as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

May be repeated once up to 6 credits.

MKTG 4860 INT - Marketing Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Marketing courses.
Pre-requisite(s): BSAD 2899; Instructor approval.

MLS 1001 - Online Orientation for AAS Degree

Credits: (1)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course is designed to prepare the student for the academic environment and requirements of the MLS program, accommodating both online and campus-based learners. Course components include study and computer skills pertinent to our digital and physical resources, understanding of diverse learning styles, comprehensive guidance through the MLS student handbook, interactive library tutorials, introductions to our dedicated faculty, essential contact and troubleshooting information, and personalized academic advisement tailored specifically for the AAS degree MLS students, ensuring seamless integration into relevant campus and online platforms.

MLS 1010 INT - Core Clinical Laboratory Skills

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: The MLS 1010 course is designed to teach core clinical laboratory skills to individuals from various health care professions. The curriculum will focus on basic laboratory methods in quality control, quality assurance, information recording and transfer, normal and abnormal laboratory values, and problem recognition. Students will receive basic technical instruction in laboratory safety, microscopy, phlebotomy, specimen collection and processing, and laboratory instrumentation in the areas of hematology, serology, urinalysis, and clinical chemistry and microbiology. Students must have the support of a clinical laboratory to fulfill the laboratory requirement. The laboratory component will address applications with a focus on Point of Care testing (POCT). Students will be required to spend a minimum of 4 unpaid hours per week working on laboratory competency. Upon successful completion of the course students will receive a Certificate of Completion from the Dr. Ezekiel R. Dumke College of Health Profession's Clinical Laboratory Assistant (CLA) program.
Pre-requisite(s): Departmental Approval.

MLS 1113 - Introduction to Medical Laboratory Practices

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Principles and applications to laboratory testing including safe practices for the laboratory practitioner, specimen quality assurance, phlebotomy, urinalysis, basic concepts in clinical immunology, clinical chemistry, and clinical microbiology. Laboratory session addresses the principles and applications involved in medical laboratory assisting to include safety, microscopy, specimen processing, quality assurance, phlebotomy, and urinalysis; with a focus on Point of Care testing (POCT) in clinical immunology, clinical chemistry, and clinical microbiology. *Acceptance into the Online MLS AAS Program required to take this course Online.
Note: *Acceptance into the MLS AAS Program required

MLS 1114 - Principles of Hematology and Hemostasis

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Fundamental theories of hematopoiesis, routine laboratory evaluation of blood components using standard instrumentation and microscopic methods, including safety and quality control. Fundamental theories of hemostasis and introduction to abnormal hematology. Introduction to routine laboratory methods in hemostasis. At least one semester of chemistry and one semester of anatomy/physiology is recommended prior to taking this course. *Acceptance into the Online MLS AAS Program required to take this course Online.
Pre-requisite(s): MLS 1113. *Acceptance into the MLS AAS Program required.

MLS 2003 - Applied Laboratory Mathematics and Operations

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Description: A discipline-specific course that covers basic laboratory mathematics and statistics, along with applications to discipline-specific areas. Topics to include; reagent preparation, specimen dilution protocols, quality assurance and quality control, practical applications of common statistical tests, and method comparison.

MLS 2210 - Principles of Immunohematology

Credits: (5)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $65.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Lecture and laboratory covering the theory and principles of Immunohematology relevant to blood group serology, antibody detection and identification, compatibility testing, component preparation and therapy in blood transfusion service, quality controls, donor screening and phlebotomy, transfusion reactions and hemolytic disease of the newborn.
Pre-requisite(s): MLS 1113. *Acceptance into the MLS AAS Program required.

MLS 2211 - Principles of Clinical Chemistry I

Credits: (4)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $65.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Basic concepts and techniques in clinical chemistry and quality control utilizing manual and automated laboratory procedures. Emphasis on blood and body fluid assessments of carbohydrates, bilirubin, non-protein nitrogen testing and electrolyte acid/base balance.
Pre-requisite(s): CHEM 1110 and CHEM 1120 or CHEM 1210 and CHEM 1220.
*Acceptance into the MLS AAS Program required

MLS 2212 - Principles of Clinical Microbiology I

Credits: (5)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course provides an in-depth coverage of clinically significant pathogenic cocci and Gram negative rods, including epidemiology, pathogenicity, and procedures for traditional laboratory identification.
Pre-requisite/Co-requisite: MICR 1113 or MICR 2054. *Acceptance into the MLS AAS Program required.

MLS 2213 - Principles of Clinical Chemistry II

Credits: (4)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $65.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Continuation of MLS 2211 with the introduction to methods for the assessment of proteins, lipids, enzymology, therapeutic drug monitoring, toxicology and basic endocrinology.
Pre-requisite(s): MLS 2211.
*Acceptance into the MLS AAS Program required

MLS 2214 - Principles of Clinical Microbiology II

Credits: (5)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course is a continuation of MLS 2212 including, antimicrobial testing, clinical mycology, virology, parasitology and miscellaneous clinical bacteria including Gram positive bacteria, mycobacteria, and anaerobes.
Pre-requisite(s): MLS 2212. *Acceptance into the MLS AAS Program required.

MLS 2256 INT - Supervised Clinical Experience I

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Offered CR/NC only.
Co-Requisite(s): MLS 2257.
Online students receive credit for clinical experience. *Acceptance into the MLS AAS Program required

MLS 2257 INT - Supervised Clinical Experience II

Credits: (1)
Typically Taught Spring Semester: *Full Sem*

Course Fee: $13.00

Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.

Description: Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Offered CR/NC only.

Co-Requisite(s): MLS 2256.

Online students receive credit for clinical experience. *Acceptance into the MLS AAS Program required

MLS 2830 - Directed Reading

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Topics in Laboratory Medicine under the direction of departmental faculty advisor.

*Acceptance into the MLS AAS Program required May be repeated for a maximum of 6 hours.

MLS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Acceptance into the MLS AAS Program required.

MLS 3301 - Online Orientation for BS Degree

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course is designed to prepare the student for the online environment and specifics of the MLS program. Course components include: study and computer skills, learning styles, MLS student handbook, library tutorial, faculty introductions, contact and troubleshooting information, academic advisement, Power Point Presentations, an abbreviated overview of the core MLS disciplines such as hematology, clinical chemistry, clinical microbiology, clinical immunohematology, and a short referenced paper writing and using library resources tailor-made specifically for BS degree MLS students online.

MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Course Fee: $0.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Advanced theory to include laboratory instrument systems comparison, evaluation, and CLIA 88 validation procedures with emphasis on scientific research design and statistical analysis. Interrelated topics in the medical laboratory sciences to include educational strategies for laboratory personnel, approaches to work-load management, budgeting and marketing strategies for laboratory services. Students also learn about and evaluate the new diagnostic technology available to medical laboratories, as well as learning how to select, evaluate, design, perform, and document CLIA-88 acceptable validations studies on new chemistry instrumentation or analytical methods. Interrelated topics in the medical laboratory to include workload management, designing and implementing standards for quality assurance, budgeting laboratory operations, and investigative concepts related to new method and instrument evaluation, selection, and validation.
**Acceptance into the MLS BS Program required

MLS 3310 - Advanced Immunohematology

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Advanced blood banking theory and specialized procedures as they pertain to transfusion, quality assurance and regulatory issues pertaining to Transfusion Medicine. **Acceptance into the MLS BS Program required.

MLS 3312 - Clinical Laboratory Immunology and Virology

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course provides MLS students with clinical immunology theory and simulated laboratory experience necessary to prepare students for a career in a clinical laboratory setting. The course will be divided into four sections: basic concepts in immunology, clinical immunology techniques, immune related disease states, and diagnostic virology and will focus heavily on clinical immunology laboratory

methods as well as in-depth clinical immunology techniques applicable for the clinical laboratory sciences student. **Acceptance into the MLS BS Program required

MLS 3313 - Advanced Hematology and Hemostasis

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Correlation of medical laboratory hematology and hemostasis with emphasis on hematopathology specialized procedures and hematological abnormalities in human cellular components. Routine and specialized coagulation procedures will also be used to detect hemorrhagic and thrombotic problems.
**Acceptance into the MLS BS Program required

MLS 3314 - Advanced Clinical Chemistry

Credits: (4)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $39.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This problem-solving oriented course provides a review of basic clinical chemistry test results and then goes deeper and allows students to make connections to organ-related diseases, such as renal, hepatic, and endocrine diseases. The students will learn how to use clinical correlation as a quality assurance tool to detect patient testing errors. Students also learn about and evaluate the new diagnostic technology available to medical laboratories. Students also learn about and evaluate the new diagnostic technology available to medical laboratories, as well as learning how to select, evaluate, design, perform, and document CLIA-88 acceptable validations studies on new chemistry instrumentation or analytical methods. Interrelated topics in the medical laboratory include workload management, and designing and implementing standards for quality assurance. Additionally, Therapeutic Drug Monitoring and Toxicology studies are presented. Urinalysis is also reviewed throughout the semester, to include the full scope of both microscopic and macroscopic evaluations.
Pre-requisite(s): Acceptance into the BS program.

MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics

Credits: (4)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course begins with a comprehensive review of introductory clinical bacteriology and mycology, along with a culture site approach to clinical bacteriology for the laboratory identification of pathogens by traditional manual methods. Diagnostic molecular biology of infectious microorganisms will also be covered and will include background of nucleic acid chemistry along with current molecular methodologies of detection.

MLS 4409 - Clinical Correlation

Credits: (1)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course will enable students to better integrate material from all the major medical laboratory science disciplines including Blood Bank, Chemistry, Hematology, Immunology, Microbiology, and Urinalysis. The case studies presented will also include information about the pathophysiology, etiology and epidemiology. Students will correlate results with disease states, and develop problem solving and critical thinking skills based on real scenarios. Students will also develop skills on how to write and present a case study of their own based on an assigned disease, which will include data gathered from all disciplines and will be presented to the class. **Acceptance into the MLS BS Program required

MLS 4410 SUS - Interdisciplinary Health Care Teams

Credits: (3)
Typically Taught Summer Semester: *Full Sem online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $39.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact, and learn in the interdisciplinary environment of a health care setting. **Acceptance into the MLS BS Program required.

MLS 4411 - MLS Simulated Laboratory I

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Foundational principles for establishing a simulated working laboratory in which students refine technical skills, problem identification and solving, refine work-load management and decision-making skills, development of strategies for managing and implementing the rules and regulations that govern medical laboratory testing.
Pre-requisite/Co-requisite: MLS 3302.

MLS 4412 - MLS Simulated Laboratory II

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $52.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: A continuation of project-based applications set forth in MLS 4411. Students staff a simulated medical laboratory and assume responsibilities associated with all facets of laboratory operations. Clinical and academic faculty serve as advisors/managers to each team of students. The process develops team building skills critical to the modern health care setting. MLS 4411 expands to examine issues that cross all health care disciplines.
Pre-requisite(s): MLS 4411.

MLS 4415 - Laboratory Teaching and Supervision

Credits: (3)
Typically Taught Summer Semester: *Full Sem online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: On Campus: Students will learn basic instructional and pedagogical theory as it applies to the field of medical laboratory science. Theory will be applied through collaborative learning and short presentations, as well as laboratory employee in-service training projects. Basic principles and applications of running a medical laboratory to include system approaches to management, leadership of groups, human resource management, and technical supervision will also be covered. Concepts will be reinforced through case study analysis and online discussions. Campus students will also participate as laboratory assistants in at least two lower division MLS courses, assisting the faculty in the administration of laboratory instruction, and applying instructional skills one-on-one with students entering the MLS program. Online: Students fulfill the laboratory requirement by completing a series of management projects specifically designed for the laboratory provided in their clinical rotation.
Pre-requisite(s): **Acceptance into the MLS BS Program required.

MLS 4453 INT - Supervised Clinical Experience I

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Emphasis on experiences associated with laboratory administrative functions. Offered CR/NC only.
Co-Requisite(s): MLS 4454.
Online students receive credit for clinical experience. **Acceptance into the MLS BS Program required

MLS 4454 INT - Supervised Clinical Experience II

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: Off campus supervised clinical experiences administered in conjunction with clinical faculty in WSU affiliated health care institutions. Emphasis on experiences associated with laboratory administrative functions. Offered CR/NC only.
Co-Requisite(s): MLS 4453.
Online students receive credit for clinical experience. **Acceptance into the MLS BS Program required

MLS 4800 - Special Problems

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Pre-requisite(s): Consent of instructor prior to registration.
May be repeated twice for a maximum 3 credit hours.
Note: **Acceptance into the MLS BS Program required

MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $26.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: In this first of two courses, students will identify a significant laboratory related research question and develop an original research design to address that question. Students will work closely with faculty mentors and will prepare a grant application for funding of supplies and reagents, and write

an IRB (Institutional Review Board) application. Actual research will be conducted spring semester in the course MLS 4804.
Pre-requisite/Co-requisite: Pre/Co-requisite: MLS 3302. **Acceptance into the MLS BS Program required.

MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $26.00
Course Fee Purpose: The course fees that are assigned to this course will pay for consumables (e.g. pipette tips and reagents), non-consumables (e.g. instrumentation), and in some cases software and instrument maintenance.
Description: This course is a continuation of MLS 4803, Research Projects in MLS I. Students will continue working on their original research project that was initiated fall semester. After completing the project, students will present their research findings in poster and oral formats, along with preparing a formal manuscript for publication in the university undergraduate research journal ERGO and possibly in other appropriate scientific journals.
Pre-requisite(s): MLS 4803. Acceptance into the MLS BS Program required.

MLS 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Advance topics related to the correlation of medical laboratory data to disease processes. Students may work as a group or independently with academic or clinical faculty. Consent of instructor prior to registration.
May be repeated twice for a maximum 3 credit hours.
Note: **Acceptance into the MLS BS Program required.

MLS 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.
May be repeated 5 times with a maximum 6 credit hours.
Note: Check with Department for course availability.

MLS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Acceptance into the MLS BS Program required.

MLS 5101 - Applications in Clinical Chemistry in Medical Laboratory Sciences

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Concepts, methods and clinical correlation of clinical chemistry tests are presented. Emphasis is on testing methods and quality control practices covering carbohydrates, bilirubin, non-protein nitrogen, electrolytes, proteins, lipids, enzymes, therapeutic drug monitoring, toxicology, and endocrinology. These topics will include clinical correlation with diseases, allowing students to understand conditions in which abnormal results and or data might be obtained.

MLS 5102 - Clinical Applications in Hematology and Hemostasis

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course covers the concepts, analytical methods, and clinical correlation of hematology and hemostasis as it applies to the medical laboratory. In addition to normal functions, the topics will include clinical correlation with various hematological and hemostatic disease processes. Current testing and instrumentation will be included as well as regulatory and competency information.
Pre-requisite(s): For medical laboratory personnel.

MLS 5103 - Clinical Laboratory Microbiology I

Credits: (3)
Typically Taught Fall Semester: *Full Sem Online*
Description: This course provides an in-depth coverage of clinically significant pathogenic cocci and Gram negative rods, including epidemiology, pathogenicity, procedures for traditional laboratory identification.
Pre-requisite(s): For medical laboratory personnel.

MLS 5104 - Clinical Laboratory Microbiology II

Credits: (3)
Typically Taught Spring Semester: *Full Sem Online*
Description: This course is a continuation of MLS 5103, including antimicrobial testing clinical mycology, virology, parasitology and miscellaneous clinical bacteria including Gram positive bacteria, mycobacteria, and anerobes.

Pre-requisite(s): MLS 5103; for medical laboratory personnel.

Note: This course is not offered on campus.

MLS 5105 - Clinical Immunohematology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course covers the theory and principles of immunohematology relevant to blood group serology, antibody detection and identification, compatibility testing, component preparation and therapy in blood transfusion service, quality control parameters, donor screening and phlebotomy, transfusion reactions and hemolytic disease of the newborn. This non-laboratory course is for MLS or MLT professionals who would like to update their didactic skills and knowledge in immunohematology as it is practiced in today's hospitals and clinics. Additionally, the course may also be of interest to individuals with a BS/BA degrees in non-medical laboratory science who wish to obtain current education in clinical immunohematology.
Pre-requisite(s): For medical laboratory personnel.

MLS 5112 - Clinical Laboratory Immunology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides MLS students with clinical immunology theory and virtual laboratory simulations necessary to prepare for a career in a clinical laboratory setting. The course will be divided into four sections: basic concepts in immunology, clinical immunology techniques, immune related disease states, and diagnostic virology and will focus heavily on clinical immunology laboratory methods as well as in-depth clinical immunology techniques applicable for the clinical laboratory sciences student.

MLS 5201 - Technologist in Microbiology: Clinical Microbiology I

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course will cover bacterial structures, bacterial metabolism, taxonomy, Gram staining, media selection and composition, colony morphology, biochemical tests, antimicrobials, and identification of pathogens. The organisms studied will include aerobic Gram-positive cocci, aerobic Gram-negative diplococci, Gram positive rods, spirochetes, and aerobic Gram-negative bacilli.

MLS 5202 - Technologist in Microbiology: Clinical Microbiology II

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*

Description: This course will cover anaerobes of clinical importance, mycobacteria, obligate intracellular parasites, viruses, parasites of clinical importance, mycology, and molecular diagnostics. The identification and pathogenesis of these organisms will also be reviewed. The emphasis of this course will be to present clinically relevant material to the clinical microbiology laboratory.

MLS 5203 - Technologist in Microbiology: Applied Laboratory Mathematics and Operations

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course covers basic concepts in clinical laboratory mathematics and calculations, quality assurance and control, discipline specific calculations, postanalytical procedures, and laboratory administration.

MLS 5204 - Technologist in Microbiology: Supervised Clinical Experience

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: The student will attend a four-week rotation at a clinical affiliate of the Medical Laboratory Science (MLS) Program at Weber State University. It is the goal of these institutions to assist students in completing their education by providing a variety of clinical laboratory experiences and exposure to the professional workplace. All student placements are scheduled and coordinated through the clinical rotation coordinator.

MLS 5810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 12 credit hours.

MPAS 6001 - Professional Development 1

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: The first in a series of courses focused on historical and future directions of the PA profession, the importance of professionalism in medical practice, medical ethics, fiduciary duty, and working as part of a healthcare delivery team.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6002 - Professional Development 2

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: The second course in the Professional Development series focuses on the health care provider's roles and responsibilities in the area of public health and the practice of preventive medicine. There is a continued emphasis on the display and development of professionalism as it applies to clinical practice.
Pre-requisite(s): Student must be accepted into the PA Program.

MPAS 6003 - Professional Development 3

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: The third course in the series of Professional Development teaches students strategies to build the confidence, skills, and presence needed to become leaders in the field of medicine. There is a continued emphasis on the display and development of professionalism as it applies to clinical practice.
Pre-requisite(s): Student must be accepted into the PA Program

MPAS 6004 - Professional Development 4

Credits: (1)
Description: The fourth course in the Professional Development series is taken at the onset of the student's supervised clinical practice experiential learning. The focus during this transitional phase is in preparation for clinical practice. There is a continued emphasis on the display and development of professionalism as it applies to clinical practice.
Pre-requisite(s): Admission to the Physician Assistant Program.

MPAS 6005 - Professional Development 5

Credits: (1)
Description: The fifth course in the Professional Development series introduces students to topics related to their future roles as a medical provider and what it means to be a medical professional. This course examines the organizational and economic elements of a systems-based practice. There is continued emphasis on the display and development of professionalism as it applies to clinical practice.
Pre-requisite(s): Admission to the Physician Assistant Program.

MPAS 6006 - Professional Development 6

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: The sixth and final course in the Professional Development series has students discussing and reflecting on issues they will face as they head toward graduation and enter into clinical practice.
Pre-requisite(s): Admission to the Physician Assistant Program.

MPAS 6010 - Mechanisms of Health and Disease

Credits: (2)
Typically Taught Spring Semester: *Full Sem*

Description: The MOHD course provides an introduction to fundamental mechanisms of general pathology covering the basic principles of cell biology, immunology, genetics, infectious processes, microbiology, biochemistry, and environmental effects on health. Integration of this material will allow for an understanding of human disease processes and the molecular mechanisms underlying disease development. Disease-specific pathophysiology is integrated and taught in systems-based courses.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6020 - Introduction to History and Physical

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This foundational course introduces students to the art and science of taking an effective, culturally sensitive history and performing a thorough, technically proficient general physical examination. It focuses on normal physical exam findings in pediatric, adult, and geriatric populations. Students participate in small group, application-based laboratory exercises focusing on the general principles of physical examination as well as recognition of topographic anatomical landmarks on classmates and identification of important surgical anatomy. In addition, students receive instruction and practice in documenting comprehensive health histories and physical exam findings.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6030 - Introduction to Clinical Pharmacology

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a foundation for students to understand and utilize the basic principles of pharmacotherapy in the practice of medicine. Topics include pharmacokinetics, pharmacodynamics, drug-drug interactions, adverse drug reactions, and autonomic nervous system pharmacology. Emphasis is placed on individualization of drug therapy and patient-centered care. Specific drug classes will be introduced in relevant medicine courses.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6040 - Introduction to Medical Diagnostics

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the fundamental principles of, and provides practical experience in selecting, ordering, and interpreting common diagnostic studies used to screen and diagnose disease. Further detail and use of diagnostic studies is integrated within systems-based medicine courses.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6050 - Evidence-Based Practice 1

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides foundational knowledge needed by students to integrate evidence-

based medicine into their clinical practice. It reviews basic statistics, epidemiological concepts and principles, research methodology and design, and ethical standards in research. Students will learn how to critically evaluate scientific evidence and will be asked to use that knowledge to critically appraise research articles in this course and during systems-based medicine courses.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6051 - Evidence-Based Practice 2

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: The second EBP course continues teaching the principles of evidence-based medicine, and is designed to assist students in planning their masters project, which will be completed and presented during their clinical year of training. Students will create a PICO question that will be the basis of their masters project, develop an annotated bibliography, and create a plan for writing a literature review.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6060 - Eyes, Ears, Nose, and Throat

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical conditions affecting the eyes, ears, nose, and throat (EENT).
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6070 - Dermatology

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of conditions commonly encountered in Dermatology.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6080 - Infectious Disease

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a solid foundation in the diagnosis and management of infectious diseases. Common bacterial, viral, fungal, and parasitic pathogens are explored by examining mechanisms of disease transmission and pathogenicity, epidemiology, pathophysiology, clinical presentation, diagnosis, and medical management, including antimicrobial pharmacotherapy.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6100 - Hematology/Oncology

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical disorders in hematology and oncology. Specific oncology disorders are covered in systems-based courses.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6101 - Clinical Integration 1

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The first Clinical Integration course teaches students how to care for patients (and their families) from diverse backgrounds and various life phases, in ways that are meaningful and valuable to individual patient preferences. Students learn about healthcare disparities and their impact on health and wellness, and are challenged to identify and reflect on how their own potential biases may affect patient care.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6102 - Clinical Integration 2

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: The second Clinical Integration course focuses on ambulatory care medicine with integration of preventive care and principles of public health.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6103 - Clinical Integration 3

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: The third in this series of Clinical Integration courses focuses on longitudinal management of established patients, admission orders, inpatient management, progress notes, discharge summaries, management of surgical patients, rehabilitative care, and issues surrounding end-of-life care.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6110 - Pulmonology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered pulmonary disorders.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6120 - Genitourinary (Nephrology/Urology)

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical disorders in nephrology and urology.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6130 - Endocrinology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical conditions affecting metabolism and organs of the endocrine system.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6140 - Obstetrics and Gynecology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of disorders commonly encountered in women's health.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6150 - Musculoskeletal Disorders 1

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered musculoskeletal disorders. The first course in this series focuses on rheumatological disorders, osteoarthritis, osteoporosis, and bone tumors.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6170 - Neurology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical conditions in neurology.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6180 - Cardiovascular Medicine

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical conditions affecting the cardiovascular system. Students will also be challenged to learn the fundamentals of interpreting an electrocardiogram (EKG) with an emphasis on identifying common abnormal EKG patterns and differentiating these patterns from normal and normal variant EKG tracings.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6190 - Gastroenterology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical disorders in gastroenterology.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6200 - Musculoskeletal Disorders 2

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: A systems-based course that examines and integrates the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered musculoskeletal disorders. This second course in the series focuses on orthopedic injuries and disorders.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6210 - Psychiatry

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A systems-based course that emphasizes the psychosocial aspects of medicine, examining and integrating the epidemiology, anatomy, physiology, pathophysiology, clinical presentation, diagnosis, and medical management of commonly encountered medical disorders in psychiatry. This course also emphasizes internal behavior patterns that motivate or cause behaviors.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6500 - Preceptorship 1

Credits: (12)
Typically Taught Spring Semester: *Full Sem*
Description: Supervised clinical practicum experience in primary care or specialty care in medical practice settings. May also include assignments and objective examinations.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6510 - Preceptorship 2

Credits: (12)
Typically Taught Summer Semester: *Full Sem*
Description: Supervised clinical practicum experience in primary care or specialty care in medical practice settings. May also include assignments and objective examinations.
Pre-requisite(s): Student must be accepted to the PA program.

MPAS 6520 - Preceptorship 3

Credits: (12)
Typically Taught Fall Semester: *Full Sem*
Description: Supervised clinical practicum experience in primary care or specialty care in medical practice settings. May also include assignments and objective examinations.
Pre-requisite(s): Student must be accepted to the PA program.

MPC 5080G - Intercultural Communication

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

MPC 5090G - Gender and Communication

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females in a wide range of communication contexts. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5100G - Small Group Facilitation and Leadership

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5220G - Editing

Credits: (3)
Typically Taught Fall Semester: *Online*
Description: Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5400G - Public Relations Media and Campaigns

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Apply communication principles to internal and external publics; research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public relations campaign for a selected client. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.

MPC 5500G - Topics in Communication

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The study and application of communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.
This course may be taken twice with different designations (topics).

MPC 5550G - Organizational Communication

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Study of communication organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5650G - Communication Law

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: First Amendment origins, interpretations and philosophy underlying regulation of the mass media. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5820G - Persuasive Communication

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, advertising, politics, and other contexts. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 5850G - Advertising

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system. This course may not apply toward graduate degree requirements if an undergraduate course of the same name or content has been used for undergraduate credit.
Pre-requisite(s): Permission of MPC program director.

MPC 6010 - Introduction to Graduate Study and Communication Theory

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course provides a survey of major theoretical perspectives in the field of communication with an emphasis on how theory can be applied in interpersonal, group, organizational and mass communication contexts. Students also learn about the logic of communication inquiry, the nature and expectations of graduate study, and techniques for conducting literature searches and writing literature reviews.

MPC 6100 - Team Building and Facilitation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Creating, facilitating and coaching effective work groups and teams is one of the hardest soft skills for organizational professionals to master. This course examines the impact that different

structures and communication processes have on group and team collaboration effectiveness, as well as the central role competent communication plays in effective group and team facilitation. It investigates structural and process issues of team building, interpersonal and group communication, and effective problem solving and decision-making skills in collaborative environments. Students should have a greater understanding of their own collaborative teaming abilities upon completion. The purpose of this course is to teach-and have students experience-strategies and tactics for building, working effectively within, and facilitating collaborative teams in the work place.

MPC 6150 - Writing for Professional Communicators

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab & software for writing course
Description: Good writing skills are critical to achieving a professional image. Individuals and organizations are judged by the quality of written documents they produce. In this course, students learn to plan and organize, to write clearly, concisely and correctly, and to develop polished final projects. Students undergo an intensive review of basic writing and editing principles and then apply them to specific writing projects. Genres of writing may include funding proposals, yearly reports, executive plans, organizational descriptions, Web sites, social networking messages, and marketing materials.

MPC 6210 - Presentational Speaking in the Workplace

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Description: The professional work environment benefits from the communication competency of its members. This course is designed to enhance the communication skills required by the professional communicator across a broad set of communication media: oral presentations, written texts, and digital interactions. Primary emphasis will be placed on combining strategic thinking with powerful writing to produce a variety of effective messages aimed at different audiences. In addition, students will develop a broad-based understanding of how each of these modes of communications function both separately and independently to produce a coherent organizational message.

MPC 6250 - Interviewing

Credits: (3)
Description: This course will explore various types of interviews conducted in work and personal situations: Recruiting, Performance Appraisals, Informational, Survey, Persuasion, Counseling, and Health Care. While core communication skills are important across types of interviews, interviewing strategies can differ greatly based on different contexts, specific situations, and personalities of interviewers and interviewees.
Note: This course is offered as needed.

MPC 6300 - New Media in Professional Communication

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Course Fee: $50.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course
Description: New media allow all individuals and organizations to effectively interact with their audiences on an ongoing basis. This course addresses how new and emerging media technologies such as social networks, social media, blogs, podcasts, video sites, search engine management tools, and even virtual worlds can be leveraged by communication professionals in order to further meaningful relationships with their internal and external audiences. This course will give students greater understanding of new media required to allow a rethinking of the overall communication process. As a result students will develop effective communication strategies specifically geared toward the needs of their organization or field of interest.

MPC 6350 - Visual Communication in the Workplace

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Course Fee: $15
Course Fee Purpose: Maintaining computer lab & software for writing course.
Description: Visual messages are a powerful way to inform, persuade and educate. Within the workplace, the ability to effectively communicate goals, ideas and client information through combinations of visual and textual elements is an invaluable skill. This course introduces students to philosophical and theoretical perspectives that enable effective visual presentation in the organization. It also exposes them to practical design principles, skills and tactics that generally guide effective screen and print design. Additionally, students will learn how to critically analyze visual communication materials and aids according to standards that reflect sensitivity to fairness, diversity, good ethics and effectiveness.

MPC 6400 - Leadership Communication

Credits: (3)
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Description: Communication is the core of organizational leadership. This course is designed to explore both the theoretical and practical aspects of leader- and followership embedded in complex environments with an emphasis on recognizing and managing change. Leadership in organizations will be examined from a variety of perspectives including historical, ethical and critical. Key topics include leadership traits and skills, leadership roles and behaviors, power and influence, theories of leadership, leading change, ethical leadership, and developing leadership skills. The course includes experiential activities using cases, role plays, and action learning projects to develop relevant skills.

MPC 6450 - Advanced Organizational Communication

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides a graduate-level overview and introduction to the discipline of organizational communication in a global world. Class readings and discussions will include topics such

as organizational structure/process, rationality and decision-making, (sub)cultures and socialization, individual and collective identities, networks, leadership, teams, power/control, conflict, change, technologies, and ethics. Case studies from current events and guest speakers will be used to apply theoretical concepts to actual organizational life.

MPC 6500 - Org Comm Consulting

Credits: (3)
Variable Title
Typically Taught Summer Semester: *2nd Blk*
Description: The purpose of this course is to explore organizational communication assessment, organizational consulting, and executive coaching concepts, practices, and methodologies. This class will teach students how to effectively work with and in organizations to improve their communication processes, management communication strategies, and strategic long-term planning in order to optimize talent and performance. The skills acquired in this class will prepare students to apply evidence-based communication best practices in organizations.

MPC 6500 - Topics in Professional Communication

Credits: (3)
Variable Title
Description: The study and application of professional communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in a seminar format.
Pre-requisite(s): MPC 6010 or permission of MPC program director.
This course may be taken twice as elective credit with different titles and topics.
Note: This course is offered as needed.

MPC 6600 - Strategic Communication

Credits: (3)
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Description: Effective strategic communication and planning is essential to any organization. This course helps students to understand and develop skills to create and manage internal and external messages for different situations, industries, and locations. Students prepare for effective strategic communication by asking and answering the right questions about the goals of the organization, its members, stakeholders and others who impact its operation, such as regulatory bodies. Effective strategic communication and its planning consist of the optimal use of people, budgets, tactical elements, and media in a chaotic, changing world.

MPC 6620 - Conflict Resolution and Mediation

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Description: Communication is at the center of any negotiation or mediation process. It is in and through communication that resolution becomes possible. This class will explore the key interpersonal skills that are central to managing the processes of conflict resolution and mediation competently.

MPC 6700 - Qualitative Communication Research & Analysis

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: Research skills are essential for answering questions and solving problems. This course reviews qualitative investigations in communication. In this course, students will learn to read, interpret, and critically evaluate qualitative communication research. Students will be exposed to qualitative concepts, research designs, and the fundamentals of conducting and analyzing research using interviewing, ethnography, constant comparative analysis, and content analysis. In addition, students will design and execute their own research study, which entails: an appropriate qualitative design, data collection, data analysis, and a formal research report.
Pre-requisite(s): MPC 6010 or permission of MPC program director.

MPC 6710 - Communication Survey Design and Analysis

Credits: (3)
Typically Taught Fall Semester: *2nd Blk*
Course Fee: $15.00
Course Fee Purpose: This course uses course fees to maintain computer lab & software for research purposes.
Description: Research skills are essential for answering questions and solving problems. This course reviews quantitative communication research methods, with an emphasis on survey design and statistical analysis, and explores vocational/professional applications of communication research. In this course, students will learn to read, interpret, and critically evaluate quantitative communication research reports. Students will be exposed to basic social science concepts, research designs, and the fundamentals of conducting and analyzing research. In addition, students will design and execute their own research study, which entails: a survey design, data collection, data analysis, and a formal research report.
Pre-requisite(s): MPC 6010.

MPC 6840 - Data Visualization & Storytelling

Credits: (3)
Typically Taught Fall Semester: *2nd Block*
Course Fee: $15.00
Course Fee Purpose: Maintaining computer labs for design course.
Description: This course teaches students the skills necessary to be effective data storytellers. Students taking this course will study the fundamentals of compelling data-driven storytelling and become familiar with associated Visual Communication tools. Moreover, students will learn how to detect and articulate the stories behind datasets and how to tell data stories in different ways for different audiences and stakeholders. Finally, students will sharpen their skills to evaluate data visualizations and visual analysis tools.

MPC 6900 - Thesis/Project I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: In this course students will begin their theses or projects under the direction and with the support of their faculty committees. They will write, present and have their thesis or project proposal approved.
Pre-requisite(s): MPC 6010 or permission of MPC program director.

Note: *Please note that students who, for any reason, do not finish their thesis or project or program of courses within the two-year framework suggested in this program, must pay continuing enrollment and tuition the semester they defend their thesis or project.*

MPC 6950 - Thesis/Project II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will allow students to complete their workplace project or traditional academic thesis. Students will prepare, present and defend their projects or theses during this semester for review and approval.
Pre-requisite(s): MPC 6010 or permission of MPC program director.

This course is repeatable for a total of two times for a total of nine credit hours of which only three will apply to degree completion.

Note: *Please note that students who, for any reason, do not finish their thesis or project within the two-year framework suggested in this program, must pay continuing enrollment and tuition the semester they defend their thesis or project.*

MSAT 6080 - Research Methods I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores the process and methods of scientific inquiry and interpretation of research findings in athletic training. Students will gain familiarity with the major elements of research including literature review, quantitative and qualitative methodology, design, evaluation of research, statistical analysis, presentation of data, and ethical considerations. This course also provides an overview of statistics including descriptive and inferential statistics and one-way ANOVA. Students should have a basic understanding of conducting library and Internet information searches prior to taking this course.

MSAT 6085 - Research Methods II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $100.00
Course Fee Purpose: Thesis research supplies.
Description: This course is designed to help students develop a master's thesis research project proposal that is carefully researched and professionally written. Students will prepare an introduction, literature review, detailed methodology, and IRB proposal.
Pre-requisite(s): MSAT 6080.

MSAT 6090 - Research Methods III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to help students complete a master's thesis research project. Basic statistical analysis will be reviewed and advanced statistics will be introduced. Students will collect and analyze data and synthesize results. At the completion of the course, students will submit a full manuscript, suitable for publication, along with an abstract and a professional poster.
Pre-requisite(s): MSAT 6085.

MSAT 6095 - Research Methods IV

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course allows students to choose one of the following options: 1) complete their master's thesis requirements from MSAT 6090; 2) prepare a manuscript for publication or formal oral presentation for a professional conference, or 3) participate in additional research above and beyond the master's thesis.
May be taken twice up to 9 credit hours.

MSAT 6100 - Advanced Emergency Care in AT

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $61.00
Course Fee Purpose: American Red Cross Emergency Responder (EMR) Certification, blood pressure kit with stethoscope, pressure dressing and hemostatic gauze.
Description: To prepare graduate athletic training students to respond to life and limb-threatening emergencies. This course also includes advanced wound care, equipment removal, and emergency drug administration. When successfully completed, this course leads to a two-year American Red Cross certification in Emergency Medical Response, CPR/AED for Professional Rescuers, Emergency Oxygen administration, and one-year certification in Bloodborne Pathogens Training.

MSAT 6200 - Mental and Behavioral Health in Injury and Rehabilitation

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: This course is designed to provide a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered include emotional and cognitive response to injury and rehabilitation, motivation, mental skills training and use, psychological antecedents of injury, psychology of injury and rehabilitation, using mental skills with injured athletes, career transition and termination, disabilities, rehabilitation/exercise adherence, eating disorders, alcohol and drug/substance abuse, gender and cultural diversity, and research methods related to psychology of sport, injury and rehabilitation. The graduate student will get an advanced approach, including in-depth application of psychological

interventions with injured athletes and a more comprehensive investigation of psychosocial aspects.
Pre-requisite(s): PSY 1010.

MSAT 6300 - Orthopedic Assessment and Diagnosis I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Goniometers, anatomical models, 2-point discriminators.
Description: Content of this course addresses the principles of orthopedic evaluation techniques and the diagnosis and care for most common musculoskeletal injuries for master's of athletic training students. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

MSAT 6301 - Orthopedic Assessment and Diagnosis II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Inclinometers, penlights, anatomical models.
Description: This course is a continuation of MSAT 6300 - Orthopedic Assessment and Diagnosis I. Content from this course will further develop students' current knowledge and skills to evaluate musculoskeletal injuries while furthering their understanding of less commonly reported injuries. The students will integrate knowledge of anatomical structures and principles of physiology to appropriately select, perform, and correctly interpret results from an orthopedic evaluation technique, and to make critical decisions regarding treatment, injury management, and return to play.
Pre-requisite(s): MSAT 6300.

MSAT 6350 - Assessment and Care of General Medical Conditions

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Stethoscopes, blood pressure cuffs, otoscopes, ophthalmoscopes, glucose meters, peak flow meters.
Description: Content of this course addresses evaluation and care for general medical conditions of athletes and active individuals. The student must integrate knowledge of anatomy, physiology, pharmacology and injury related to athletics and sport in order to provide a basis for clinical decision making as athletic trainers.

MSAT 6390 - Foundations of Therapeutic Interventions

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to introduce students to the contemporary usage and foundation of common therapeutic interventions in musculoskeletal rehabilitation (i.e., cryotherapy, thermotherapy,

proprioceptive neuromuscular facilitation, etc.). Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving these therapeutic interventions will be examined. Students will learn about the body's response to musculoskeletal injury and the subsequent healing process. Emphasis will be placed on theoretical and physiological effects of therapeutic interventions, their indications and contraindications, and application based on the goals in each phase of rehabilitation.

MSAT 6400 - Therapeutic Modalities for Musculoskeletal Injuries

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: Equipment and supplies for ice, heat, massage, compression.
Description: Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. This course is designed to build upon the introductory foundations of therapeutic modalities established in MSAT 6390. Topics for discussion include the application of electrotherapy devices, therapeutic ultrasound, and other therapeutic modalities.
Two lecture and 2 lab hours per week.
Pre-requisite(s): MSAT 6300 and MSAT 6390

MSAT 6401 - Innovations in Therapeutic Modalities

Credits: (2)
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $45.00
Course Fee Purpose: Equipment and supplies for electrical stimulation, ultrasound, laser, diathermy, and traction.
Description: This course is designed to introduce students to novel therapeutic modalities that are being integrated in modern musculoskeletal rehabilitation. Through lecture, discussion, and laboratory experience, both the theoretical and scientific basis of new therapeutic modalities will be examined. Students will learn the foundational concepts and techniques of these modalities, and review the literature to determine their effectiveness from an evidence-based perspective.
Pre-requisite(s): MSAT 6400.

MSAT 6430 - Principles of Athletic Training

Credits: (3)
Description: This course is designed to give graduate-level athletic training students an overview of athletic training principles. Students will gain knowledge in the areas of musculoskeletal injuries, environmental risk factors, mechanisms and characteristics of sports trauma, and the cooperative sports medicine team.
Pre-requisite(s): HLTH 2300 or RHS 2300.
Note: This course is not currently offered.

MSAT 6431 - Orthopedic Taping and Durable Medical Equipment

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $110.00
Course Fee Purpose: White and elastic tape, kinesiotape, braces.
Description: Graduate students in this course will be instructed in evidence-based applications and use of orthopedic and kinesiology taping, padding, and wrapping techniques as well as durable medical equipment including sport performance or stability braces, manufactured splints, and crutches/canes. Students will also learn how to properly fit protective sports equipment. Students will learn to apply a variety of techniques to support the trunk and extremities.

MSAT 6432 - Casting and Orthotic Fabrication

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $120.00
Course Fee Purpose: Casting supplies.
Description: Graduate students in this course will be exposed to evidence-based applications including orthopedic casting custom splints, and orthotics. Students will learn to apply a variety of techniques to support orthopedic injuries of the trunk and extremities.
Pre-requisite(s): MSAT 6431.

MSAT 6450 - Therapeutic Rehabilitation I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Therapy tables, towels, cleaning supplies, hand sanitizer, goniometers, tape measures.
Description: Content of this course provides a foundational understanding and concepts of therapeutic exercise as it relates to the rehabilitation process of musculoskeletal injuries. Course provides understanding and skills associated with hands-on techniques used in the rehabilitation of athlete/patient from an injury state to a high level of function for return to sport, occupational activities, and/or general activities of daily living.
Pre-requisite(s): MSAT 6300.

MSAT 6451 - Therapeutic Rehabilitation II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Rehabilitation equipment such as weights, swiss balls, theraband, wobble boards, etc.
Description: Content of this course provides advanced understanding of therapeutic rehabilitation as it relates to designing, implementing, and instructing patients through a therapeutic rehabilitation program. This course provides advanced instruction and hands-on techniques in the rehabilitation of a patient from an injury state to a high performance level in sport, occupation, or other activities

reflective of the patient's environment and movement goals.
Pre-requisite(s): MSAT 6450.

MSAT 6452 - Advanced Manual Therapy Techniques

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Content of this course provides a specialized understanding of therapeutic rehabilitation as it pertains to manual therapy techniques. This course provides advanced instruction and hands-on techniques such as massage, soft-tissue mobilization, joint mobilizations, myofascial release, traction, and muscle energy techniques. This course will also introduce and discuss emerging rehabilitation techniques.
Pre-requisite(s): MSAT 6390.

MSAT 6480 - Advanced Principles of Evidence-Based Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: This course will expand students' understanding and application of Evidence-Based Practice (EBP) skills introduced in MSAT 6080. Students will be expected to read, critically analyze, and participate in the discussion of peer-reviewed research articles.

MSAT 6500 INT - Foundations of Athletic Training

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $335.00
Course Fee Purpose: Polo shirt, jacket, crutches, canes, student supply kits.
Description: Through lecture, discussion, and laboratory experiences, the recognition and management of environmental illnesses will be examined. Explores the history and governance of the AT profession. Orients students to the graduate athletic training program including professional writing and clinical experiences.

MSAT 6501 INT - Graduate Practicum I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Taping supplies, football helmets, shoulder pads, spineboards, anatomical models, goniometers, inclinometers.
Description: Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from prior coursework and demonstrate proficiency in orthopedic assessment and treatment. Students will participate in clinical rotations and other clinical experiences.
Pre-requisite(s): MSAT 6500.

MSAT 6502 INT - Graduate Practicum II

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $20.00
Course Fee Purpose: Anatomical models, goniometers, inclinometers.
Description: Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from prior coursework and demonstrate proficiency in orthopedic assessment and treatment. Students will participate in clinical rotations and other clinical experiences.
Pre-requisite(s): MSAT 6501.

MSAT 6503 INT - Graduate Practicum III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Basic modalities equipment and supplies.
Description: Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from previous coursework and demonstrate proficiency in orthopedic assessment, therapeutic rehabilitation, and treatment. Students will participate in clinical rotations and other clinical experiences.
Pre-requisite(s): MSAT 6502.

MSAT 6504 INT - Graduate Practicum IV

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Advanced modalities equipment and supplies such as E-stim, Ultrasound, laser, diathermy.
Description: Provides an opportunity for graduate-level athletic training students to review athletic training concepts and skills from previous coursework and demonstrate proficiency in orthopedic assessment, therapeutic rehabilitation, manual therapy, and treatment. Students will participate in clinical rotations and other clinical experiences.
Pre-requisite(s): MSAT 6503.

MSAT 6600 - Administration and Management in Athletic Training

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Provides an overview of the necessary policies, procedures, maintenance, and daily operation of athletic training facilities. Applies principles of facility design and planning, information management, legal and ethical considerations in health care, and professional development as it relates to athletic training.
Pre-requisite(s): MSAT 6502.

MSAT 6700 - Advanced Diagnostic Imaging for the Athletic Training Profession

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an opportunity for students to gain exposure to the diagnostic imaging techniques commonly used by the medical community in diagnosis of injury in the athlete. Upon completion of the course, students will be able to identify anatomy and understand terminology used by health professionals when discussing diagnostic images and have an advanced understanding of indications, contraindications, and clinical implications.
Pre-requisite(s): MSAT 6350.

MSAT 6740 - Nutrition for Athletic Trainers

Credits: (1)
Typically Taught Summer Semester: *1st Blk, 1st Blk Online*
Description: Graduate students in this course will expand their nutritional knowledge and skills in counseling athletes in common athletic training situations. This course will also include special situations like nutrition role in concussion recovery and popular diet and sports misconceptions.

MSAT 6750 - Evidence-Based Evaluation and Treatment of the SI Joint and Spine

Credits: (2)
Typically Taught Spring Semester: *1st Blk*
Description: This course will focus on evidence-based evaluation and management of the spine and pelvis, including the cervical spine, thoracic spine, lumbar spine and the sacroiliac joints. The student must integrate anatomical structures, physiology principles, and evaluative techniques to provide a basis for critical decision-making and management for these pathologies.
Pre-requisite(s): MSAT 6300, MSAT 6301.

MSAT 6760 - Suturing, Joint Relocation and Advanced AT Skills

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk, 1st Blk*
Course Fee: $40.00
Course Fee Purpose: Suturing Practice Kit and e-book.
Description: Graduate students in this course will learn advanced wound closure techniques such as skin adhesives and basic suturing. This course will also include advanced clinical skills such as reducing dislocations.

MSAT 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current oferring under this number. The specific title will appear on student's transcript along with the authorized credit.
May be repeated for a total maximum of 6 credit hours.

MSAT 6998 - Master's Board of Certification (BOC) Exam Preparation

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: Cover the cost of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditures for this specific course are for BOC self-assessment exam student vouchers.
Description: This course prepares Graduate Athletic Training students to take the Athletic Trainer Board of Certification (BOC) Exam. This course will review content from all courses in the Master of Science in Athletic Training program as well as content from the program's prerequisite courses.
Pre-requisite(s): MSAT 6450.
May be repeated 2 times up to 3 credit hours.

MSAT 6999 - Special Topics in Athletic Training

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: The profession of Athletic Training evolves quickly and frequently new skills and techniques are required. This course will present cutting edge athletic training skills and concepts.

MSE 1210 - Metal Processing and Joining for Engineers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: Consumables (aluminum, steel, tools), paper, lab support, computers, software licenses, lab equipment
Description: Manufacturing processes for cost-effective, high-quality production. Consideration of technical capabilities and limitations of alternative methods. Includes Metal Removal, forming, welding concepts and non-tradition manufacturing processes. Course project required. Laboratory experiments include mill and lathe work, welding techniques, friction coefficients analysis and milled surface evaluation.

MSE 3040 - Cost Estimating and Engineering Economic Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Software licensing, lab computers and support
Description: This course focuses on effective design and implementation of reliable, economically competitive, and environmentally benign manufacturing processes and systems. Topics will include an overview of the manufacturing systems approach in production, control, quality, automation, an introduction to facilities planning and design, an introduction to operations research and simulation in manufacturing, and engineering economics. An introduction to government manufacturing systems engineering will also be presented.
Pre-requisite(s): MATH 1210, MSE 3700.

MSE 3360 - Manufacturing Process and Materials Lab

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Manufacturing processes for cost-effective, high-quality production. Consideration of technical capabilities and limitations of alternative methods. Includes forming, removal, casting, joining, heat treating, molding, finishing and coating. Course project required. Laboratory experiments include heat treating, deep drawing, powder metallurgy, casting, injection molding, fabricating composites, friction coefficients analysis and milled surface evaluation.
Pre-requisite(s): ENGR 2010, ENGR 2160.

MSE 3460 - Product Design and Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Software licensing, lab computers and support
Description: An advanced computer-aided design course using state-of-the-art solid modeling CAD/CAM software. Topics include: 3D parametric solid modeling, applications associativity, design-by- feature, assembly modeling, injection mold design, flat pattern development, design analysis using FEA, realistic rendering, and detailing.
Pre-requisite(s): ENGR 1000, PDD 1160.

MSE 3700 - Manufacturing Systems I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers, and support.
Description: This course focuses on effective design and implementation of reliable, economically competitive, and environmentally benign manufacturing processes and systems. Topics will include an overview of the manufacturing systems approach in production, control, quality, automation, an introduction to facilities planning and design, an introduction to operations research and simulation in manufacturing, and engineering economics. Students will also be introduced to DoD systems engineering terminology.
Pre-requisite(s): MFET 2320 and ENGR 2140.

MSE 3710 - Computer Aided Manufacturing and Additive Manufacturing/Lab

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: This course will introduce and explain concepts behind Computer-Automated Manufacturing

(CAM). It will define elements, terms, and concepts involved with CAM. Elements of rapid prototyping will also be covered from conceptual design in solids to production of tooling and parts. This course is designed for those who have the basic understanding of the setup and operation of CNC machine tools and programming. Software will be used to perform the CAM operations, such as part generation and post processing.

Pre-requisite(s): MSE 1210, PDD 1010, PDD 1160 or MSE 3460.

MSE 3850 - Statistical Process Control and Reliability

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Control of quality with statistical analysis; typical control techniques and underlying theory. Development of reliability models and procedures for product assurance. Course will utilize Minitab and Microsoft Excel Spreadsheet software.
Pre-requisite(s): MFET 2410 or MATH 1040 or MATH 3410.
Pre-requisite/Co-requisite: MATH 1210 or MATH 1110

MSE 3910 - Six Sigma Methods and Tools in Manufacturing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Six Sigma methods use statistical tools to bring about continual improvement of quality in manufactured goods and services and to document that positive change has occurred. These tools include Failure Mode and Effects Analysis (FMEA), Measurement Systems Analysis (gage R&R), Control Charts, Process Capability Analysis, and Design of Experiments. Students will learn and apply these methods and tools through class participation and completion of required projects. Course will utilize Minitab and Microsoft Excel spreadsheet software.
Pre-requisite(s): MSE 3850 or MFET 3810.

MSE 4010 - Facility Design and Material Handling

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Software licensing, lab computers and support
Description: In-depth concepts in the planning and design of manufacturing facilities, product analysis, manufacturing processes and equipment selection, and schedule design; flow, space, activity relationships and space planning; location and layout; material handling systems; and facilities planning models.
Pre-requisite(s): MSE 3360, MSE 3460, and MSE 3700.

MSE 4590 - Lean Manufacturing Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $30.00
Course Fee Purpose: Software licensing, lab computers and support
Description: This course addresses the organization, design, and management of production systems using lean manufacturing techniques. Topics include work standardization, visual manufacturing, workplace organization, poke-yoke methodology, value stream mapping, setup reduction, batch size reduction, kaizen, total productive maintenance, pull systems/kanbans, cellular manufacturing design concepts, & cellular plant layout concepts.
Pre-requisite(s): MFET 2300 or MFET 2320.

MSE 4600 - Production Systems Modeling and Analysis/Lab

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Design and analysis of production systems. Fixed, flexible, and programmable automation. Modeling and simulation of alternative production systems in conjunction with the systems-design process.
Pre-requisite(s): MSE 3460, MSE 3700.

MSE 4610 - Project Management for Engineers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: This course is focused on teaching methods and tools for planning and managing complex product and system development projects. The class will focus on the preparation, planning, monitoring and adaptation of projects. The class is organized into five loosely interwoven modules; project planning and simulation techniques, case studies, project tracking, international projects, and project management resources.
Pre-requisite(s): MSE 3040, MSE 3460.
Co-Requisite(s): MSE 4615.

MSE 4615 - Lab: Senior Project Design I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Equipment maintenance and replacement, tools, software, consumables, materials, manuals, supplies and instructional resources.
Description: This is an engineering laboratory subject for manufacturing systems engineering seniors. Major emphasis is on interplay between analytical and experimental methods in solution of research

and development problems. Communication (written and oral) of results is also a strong component of the course. Groups of three or more students work together for two terms on an assigned engineering and design project. Must be taken concurrent with MSE 4610 Project Management for Engineers.
Co-Requisite(s): MSE 4610.

MSE 4620 - Lab: Senior Project Design II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Continuation of MSE 4615. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.
Pre-requisite(s): MSE 4610, MSE 4615.

MSE 4700 - Manufacturing Systems Engineering II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course consumables(controllers, robotics, etc.), software licensing, lab computers and support.
Description: This course covers the following topics: models of manufacturing systems, including transfer lines and flexible manufacturing systems; calculation of performance measures, including throughput, in-process inventory, and meeting production commitments; real-time control of scheduling; effects of machine failure, set-ups, and other disruptions on system performance. Also A study of the elements used in the automation of manufacturing processes including: programmable logic controllers, robotics (servo and non-servo), vision systems, and material handling devices.
Pre-requisite(s): MSE 3040, MSE 3700.

MSE 4800 - Individual Research Problems

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Software licensing, lab computers and support
Description: With permission and under the direction of faculty, the student researches a specific problem in the manufacturing systems engineering field.
Pre-requisite(s): Permission of department.
May be taken 3 times and up to 3 credits.

MSE 4830 - Directed Readings for Manufacturing Systems Engineering

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.
Pre-requisite(s): Permission of department.
May be taken 3 times and up to 3 credits.

MSE 4890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for engineering work experience. Permission of department required.
Pre-requisite(s): Permission of department.
May be taken 3 times and up 3 credits.

MSE 4900 - Special Topics

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A special topic in manufacturing systems engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.
Pre-requisite(s): Permission of department.
May be repeated three times with a maximum of three credit hours.

MSE 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Permission of department.
May be repeated for a total maximum of 6 credit hours.
Note: With departmental approval, may substitute for a technical elective.

MSE 5010 - Foundation of Systems Engineering

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*

Course Fee: $25.00

Course Fee Purpose: Per class registration, allocated partially to computer lab refurbishment, lab aids and software licenses.

Description: The Foundation of Systems Engineering course is an introductory overview of the systems engineering perspective and is presented to set the conceptual and practical framework of the entire systems engineering graduate program. The course covers the foundational components of systems engineering, from the concept development stage through the process steps of engineering development. Several issues related to post-development, disposal, and special topics areas are also presented.

MSE 5020 - Engineering Project and Program Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $25.00

Course Fee Purpose: Per class registration, allocated partially to computer lab refurbishment, lab aids and software licenses.

Description: The Engineering Project and Program Management course provides participants the opportunity to gain skills and experience applying the framework, processes, and knowledge areas of the P*roject Management Body of Knowledge (PMBOK)* as defined by the Project Management Institute (PMI). Students apply methods and tools through in-class lab work, deliverables, and portfolio generation.

MSE 5140 - Design for Operational Feasibility

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $25.00

Course Fee Purpose: Per class registration, allocated partially to computer lab refurbishment, lab aids and software licenses.

Description: This course will introduce the application of engineering and management efforts to maximize the likelihood that the resulting system design will be operationally feasible and perform as intended in an effective and efficient manner. The objective of the course is to study the characteristics that are known to have a significant impact on the success of a system and the customer's need. Topics include Design for reliability, maintainability, human factors, logistics, producibility, and affordability.

MSE 5810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MSRS 6100 - Research Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course assists students to critique, evaluate, and use research within their health science education careers. The research process including the theoretical/conceptual basis of health sciences research, methods, and critique strategies are examined in detail. There is a focus on evaluation of published research reports to evaluate the appropriateness of application of findings to clinical practice. This course is cross-listed with NRSG 6110.

MSRS 6120 - Research and Statistics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the development of research skills used to evaluate data in support of the utilization of findings in clinical practice. Skills related to statistical analysis of quantitative data will be emphasized. Parametric and non-parametric methods of statistical analysis will be discussed. This course is cross-listed with NRSG 6120.

MSRS 6130 - Functional Hemodynamics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course offers the fundamental principles and indications for invasive hemodynamic monitoring. The indications, possible contraindications and possible complications involved with the insertion of central Venous lines, arterial lines, Pulmonary artery catheters and ICP monitoring with the expected CVP, RV, PAP, PCWP, CO and CI reading, waveforms and troubleshooting.

MSRS 6140 - Clinical Laboratory Correlation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course covers the concepts, analytical methods and clinical correlation of laboratory values as they relate to radiographic imaging, pathology and patient history.

MSRS 6150 - Grant Writing for the Imaging Clinical Scientist

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will learn to write competitive imaging clinical grant proposals. These proposals will be specific to resources required by professionals within Radiologic Sciences. For example, grants may be obtained for equipment, International RADAID (a humanitarian imaging group), and/or professional development. Learners will achieve competence in writing typical grant components including statements of need/rationale, implementation of strategies, outcomes, personnel, evaluaution, budgets, and executive summaries.

MSRS 6200 - Population Health in Radiologic Sciences

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: The course addresses the integration of population health concepts into strategic planning and managerial decision-making in health services organizations. Course work includes environmental analysis of health behaviors and lifestyle that impact demand on health care delivery systems. The student will evaluate models for integration of health services, preventive programs, demand management, and policy issues affecting continuity of care.
This course is cross-listed with MHA 6000.

MSRS 6210 - Global Health in Medical Imaging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to explore the role of radiology in addressing healthcare disparities. This course will identify the challenges and strategies in providing radiologic services within a resource-poor complex systems with various stakeholders, advanced technologies, diverse education, volunteer management, and legal and financial considerations.

MSRS 6220 - International Competency in Medical Imaging

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to identify the clinical role of medical imaging in developing worlds. The current challenges of managing unique illnesses with limited resources will be discussed. Some common diseases and radiologic findings will be addressed regarding diagnosis and treatment.

Course Objectives

Students will gain and understanding and develop skills necessary to:

Identify methods for optimization of Radiologic services in the developing world.
Discuss public health and international epidemiology for radiology
Identify appropriate disaster response
Discuss infectious disease and imaging.
Discuss interventional, cardiac, and pediatric services in a global health environment.
Identify challenges in maternal-fetal medicine and women's health in a global health environment.

MSRS 6263 - Advanced Diagnostic Services Pharmacology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to enhance student knowledge of pharmaceuticals and their impact on patients undergoing advanced imaging procedures. The content addresses the intent of pharmaceuticals and their effect on patient diseases, conditions, and physiology. After acquiring this content and the appropriate clinical skills, students will review the patients' past and current clinical

condition and history to gain an understanding of medication significance relevant to the imaging procedure.

MSRS 6310 - Evaluation of the Cardiac System

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The content of this course is designed to enhance student knowledge of the diagnostic procedures performed in the cardiac catheterization laboratory to identify atherosclerotic coronary or peripheral artery disease, abnormalities of the heart muscle, and valvular or congenital heart abnormalities.

MSRS 6311 - Interventional Cardiac Procedures I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address coronary artery disease & myocardial infarction; The foundations of percutaneous coronary intervention techniques will be presented including indications, contraindications, and complications.

MSRS 6312 - Interventional Cardiac Procedures II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address pericardial and myocardial disease, heart failure and cardiogenic shock. The principles of hemodynamic data collection techniques will be presented including pressure pathology, waveform interpretation and cardiac output. Course content will also include mechanical circulatory support technologies such as the left ventricular assist devices (LVAD) and the intra-aortic balloon pump (IABP).

MSRS 6313 - Interventional Cardiac Procedures III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to enhance student knowledge of the interventional procedures performed in the cardiac catheterization laboratory that address valvular disease, septal defects, and vascular disease. Transcatheter structural heart repair devices deployed in the cath lab have largely replaced open-heart surgery as the therapy of choice and many labs are incorporating vascular procedures into cardiac cath. Patient preparation, medical instrumentation, and performance of these procedures will be presented.

MSRS 6403 - Evaluation of the Osseous System

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Description: Imaging evaluation of pathological conditions, abnormalities and anomalies of the osseous system.

MSRS 6413 - Evaluation of the Chest

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Imaging evaluation of pathological conditions, abnormalities and anomalies of the chest.

MSRS 6423 - Evaluation of the Abdomen and G I System

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Imaging evaluation of pathological conditions, abnormalities and anomalies of the abdomen and gastrointestinal system.

MSRS 6433 - Evaluation of the Genitourinary System

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Imaging evaluation of pathological conditions, abnormalities and anomalies of the genitourinary system.

MSRS 6443 - Clinical Pathways

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Studying clinical pathways for patients based on disease processes and trauma.

MSRS 6450 - Managing Health Information

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This introductory course is to help students develop a basic vocabulary and understanding of the principles of medical information systems. Students will additionally be introduced to the basic principles of health insurance and medical billing and coding. The main goals of this course are (1) Understanding current networking and communication systems and (2) Application of knowledge of specialized medical terminologies, insurance, and regulation systems.
This course is cross-listed with MHA 6450.

MSRS 6453 - Evaluation/CNS and Facial Structures

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Imaging evaluation of pathological conditions, abnormalities and anomalies of the central nervous system and facial structures.

MSRS 6461 - Leadership in Clinical Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: The purpose of this course is to identify essential leadership and management behaviors that support a clinical practice in medical imaging. Students will gain an essential understanding of clinical organization, power, and empowerment. Career and professional considerations regarding quality, safety, work environment, communication, and career development will be critically discussed.

MSRS 6463 - Problem Patient Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Determination of pathological conditions utilizing problem-solving case studies.

MSRS 6473 - Non-vascular Invasive Imaging

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Patient preparation and student performance of medical imaging non-vascular invasive procedures.

MSRS 6481 - Current Trends in Pediatric Imaging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to help students develop the knowledge and cognitive skills required for advanced pediatric imaging. The main goals of this course are (1) Understanding the differences in the appearance of neonate, infant, and child normal anatomy; (2)Assisting or performing various pediatric imaging studies; (3)Recognizing normal/pathologic advanced imaging appearance of common pediatric conditions; (4)Becoming familiar with common conditions diagnosed in the pediatric patient

MSRS 6482 - Current Trends in Cardiovascular Imaging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The content of this course is designed to enhance student knowledge of contemporary cardiovascular imaging techniques and the pathology they address. Advances in modalities used to image the heart, including conventional radiography, angiography, echocardiography, cardiac magnetic resonance, and cardiovascular computed tomography, have fundamentally advanced the understanding and treatment of cardiovascular disease in the 21st century. This course will present the latest advances in the field and compare the strengths and weaknesses of each modality. Course content will focus on heart defects, endocarditis, coronary heart disease, cardiomyopathies, myocarditis, cardiac tumors, pericardial diseases, pulmonary vascular diseases, and diseases of the thoracic aorta. Student will

discuss anatomy, pathophysiology, and clinical features, encouraging the technologist to think critically, problem-solve, and evaluate the need for therapeutic intervention.

MSRS 6483 - Musculoskeletal Sonography

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The (MSK) Sonography course will provide concepts in musculoskeletal anatomy and sonographic scanning technique and protocols necessary to produce and evaluate diagnostic images in the clinical setting for diagnosis of musculoskeletal pathology.

MSRS 6484 - Sonographic Fundamentals for Invasive Guidance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to aid in the development of knowledge and skills necessary to perform invasive procedures under the guidance of medical imaging.

Course Objectives

Students will review and become competent in concepts and skills including (1) common invasive procedures (2) location, appearance, and approach for masses, cysts, and/or vascular access using medical imaging (3) procedural safety, confidence, and risks. Areas of interest will include:

   Liver Biopsy
   Renal Biopsy
   Extra Visceral Abdominal Mass Biopsy
   Chest Mass Biopsy
   Breast Biopsy
   Fine-Needle Aspiration of Thyroid Nodules
   Superficial Lymph Node Biopsy
   Endovaginal Procedures
   Transrectal Prostate Biopsy
   Ultrasound Guided Access and Drainage for Vascular, Percutaneous Nephrostomy, and Transhepatic
      Biliary Drainage

MSRS 6485 - Current Trends in Visual Analytics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to provide an understanding of the evolution in the application for artificial intelligence (AI) within healthcare and radiology. Students will learn about the technological background of AI and how this technology has impacted emerging technology, clinical practice, and patient care.

MSRS 6486 - Pathological Review Across Imaging Modalities

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to help students develop the knowledge and cognitive skills required for advanced imaging in various modalities. Students will become familiar with how different imaging modalities enhance and complement radiographic diagnosis of common pathologies and conditions.

MSRS 6487 - Current Trends in Pain Management

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to overview the etiology, classification, evaluation, imaging, and treatment for pain management.

Course Objectives

Students will gain and understanding and develop skills necessary to:

Discuss the taxonomy of chronic and acute pain.
Identify challenges in the training, education, and certification of pain medicine
Determine psychosocial aspects of pain and consider appropriate assessments
Identify clinical conditions related to pain and pharmacologic treatments.
Discuss nerve block techniques and interventional techniques.
Characterize best practice in image modalities for procedures targeted for pain management.
Consider research, ethics, and reimbursement in regards to pain management.

MSRS 6493 - Advanced 3D Medical Imaging

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Lab Supplies, Phantoms, software upgrades and maintenance
Description: The Advanced 3D Medical Imaging course will provide instruction on the creation, manipulation, and printing of three-dimensional data-sets of different anatomical parts of the body. The data-sets will originate from diagnostic images (provided by the department or the student), particularly Magnetic Resonance Imaging (MRI) and Computer Tomography (CT) images. The course will include a hands-on learning lab where the student will use software to create a three-dimensional digital image and a three-dimensional print of an anatomical body part.

MSRS 6501 - Advanced Practice Simulation I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*

Description: Advanced imaging simulation courses are designed to help students develop the knowledge and cognitive skills required for the performance of advanced imaging clinical assignments.

MSRS 6502 - Advanced Practice Simulation II

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Advanced imaging simulation courses help students develop the knowledge and cognitive skills required for the performance of advanced medical imaging clinical assignments.

MSRS 6503 - Advanced Practice Simulation III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: Advanced imaging simulation courses help students develop the knowledge and cognitive skills required for the performance of advanced medical imaging clinical assignments.

MSRS 6504 - Pediatric Sedation and Physical Exam

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides information for advanced imaging procedure-related sedation and physical exam. Sedation standards, techniques, and regulations for pediatric imaging procedures will be provided. Essential aspects of collaboration with other medical providers are emphasized in the course to benefit pediatric patients during imaging exams and procedures.

MSRS 6505 - Pediatric Simulation Imaging I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Simulation of advanced imaging and evaluation of pathological conditions, abnormalities, and anomalies of the pediatric systems.

MSRS 6506 - Pediatric Simulation Imaging II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Simulation, practice, and discussion of the performance of advanced imaging and evaluation of pediatric patients.

MSRS 6507 - Pediatric GI and GU Imaging

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Advanced imaging and evaluation of pathological conditions, abnormalities and anomalies of the pediatric GI and GU systems.

MSRS 6508 - Pediatric Respiratory and Musculoskeletal Imaging

Credits: (6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced imaging and evaluation of pathological conditions, abnormalities, and anomalies of the pediatric respiratory and musculoskeletal systems.

MSRS 6509 - Pediatric Neurologic Imaging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced imaging and evaluation of pathological conditions, abnormalities, and anomalies of the pediatric neurologic system.

MSRS 6850 - Study Abroad

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will gain knowledge and cultural experiences developed to address historical, community, political, economic, educational, geographical, and literary/artistic variables.

MSRS 6860 INT - Clinical Preceptorship I

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Experience in a radiology department. Consent of instructor needed.

MSRS 6861 INT - Clinical Preceptorship II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Continuation of MSRS 6860.

MSRS 6862 INT - Clinical Preceptorship III

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Continuation of MSRS 6861.

MSRS 6863 - Vascular Invasive Imaging Procedures

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Patient preparation and performance of medical imaging vascular invasive procedures are presented.

MSRS 6900 INT - Capstone: Clinical Fellowship & Portfolio

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Experience in a radiology department and interventional Radiology coordinated by Weber State University under the supervision of a radiologist or other Medical Practitioner. Review and evaluation of student competencies, clinical performance and professional development as required by certification.

MSRS 6910 - Transition to Practice

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Transition to practice provides students with a pertinent review of the content, skills, and processes necessary to gain and maintain imaging credentials and elevate professional practice. The course explores the fundamental aspects of professionalism, interprofessional communication, quality in practice, and professional resilience.

MSRS 6992 - Advanced Practice Seminar

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to enhance students' knowledge of current research and advances in the Radiologic Sciences.

MSRS 6999 - Master's Thesis in Radiologic Sciences

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Students will enroll for this course as they complete their master's thesis under the direction of a departmental graduate advisor. Departmental seminars and readings may also be assigned as part of this course. Students will finish their Master of Science in Radiologic Sciences degree by first

completing a course of classroom or didactic study, then writing an original research monograph for their thesis. This course is to be used during the time the student is writing the thesis and getting approval for the thesis.

MSRT 6010 - Medical Writing, Research Methods & Design

Credits: (3)
Typically Taught Fall Semester: *2nd Blk - Online*
Description: This course will assist students in developing writing skills that meet professional journal requirements. Students will learn how to write research reports, abstracts, clinical case reports and scientific posters. Students will develop skills in effective editing, reviewing and proofreading. They will also develop skills that allow them to critically read published research articles in order to understand the validity and implications of the study results.
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6020 - Medical Pathophysiology/Cardiopulmonary Case Reviews

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: Advanced-practice pathology of the heart and lungs presented in case study format for articulating a working diagnosis, treatment, and follow-up care based on an abundance of patient assessment techniques including patient history/physical, signs, symptoms, and ancillary radiographic evidence. Medical information gathered from research database articles are presented to enhance a decision-making rationale for the treatment of cardiopulmonary diseases.
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6030 - Adult Learning Theory & Simulation Strategies

Credits: (3)
Typically Taught Spring Semester: *1st Blk - Online*
Description: An application of teaching and learning theories for adult learners across variable clinical, laboratory, simulation lab, and in face-to-face interactions are explored within both traditional and non-traditional classroom settings. Teaching strategies and simulation designs are designed to support student learning for future respiratory therapy educators and clinical instructors.
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6040 - Respiratory Care Education

Credits: (3)
Typically Taught Spring Semester: *2nd Block Online*
Description: This course aims to explore concepts of teaching and learning theories (adult learners) in a rapidly changing healthcare environment. Included are knowledge, attitudes, and skills needed to train future respiratory therapy educators, clinical educators for expanding roles in healthcare.
Pre-requisite(s): Admitted to MSRT Program

MSRT 6050 - Respiratory Care Curriculum and Course Design

Credits: (3)
Typically Taught Fall Semester: *1st Block Online*
Description: This course aims to explore concepts of course design and curriculum development specific to respiratory therapy education. Essential elements will include developing a syllabus, determining course materials, selecting optimal teaching methods, and designing appropriate assessments. The course will also address course management, teaching diverse students, using technology in teaching, and meeting accreditation standards.
Pre-requisite(s): Admitted to the MSRT program

MSRT 6130 - Evidence-based Practice

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Description: This course explores research-based evidence of best practices for advanced respiratory care practitioners (RCP's) by identifying important questions, i.e., medication, ventilation strategies, protocols, etc. in the evaluation, diagnosis, or treatment of patients suffering abnormalities of the cardiopulmonary system. A methodological approach to evaluate practice is explored through a systematic literature search whereby the evidence manifest through particular treatments of a population can be expected.
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6140 - Applied Research in Respiratory Care

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Research is a fundamental part of healthcare. This course will explore research opportunities specifically in the field of respiratory care. Basic statistical concepts will be reviewed. Nominal, ordinal, and continuous methods will also be studied. Publishing the findings through an original research paper, an abstract, case report, and poster presentation will be a main focus for this course.
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6150 - Research Methods in Respiratory Care

Credits: (3)
Typically Taught Summer Semester: *1st Block Online, 2nd Block Online*
Typically Taught Fall Semester: *1st Block Online, 2nd Block Online*
Typically Taught Spring Semester: *1st Block Online, 2nd Block Online*
Description: Research involves a process of "sense-making" of interrelated activities rather than a simple description or basic understanding of unrelated events. Appreciating the sequence of events and the diverse methods of inquiry can lead a researcher in multiple directions. It is important to ground your initial question in methods that enhance understanding. Researchers must develop a "toolkit" with methods that address a central question and provide a means to thoroughly evaluate a stated outcome. Methods can assist healthcare researchers to identify problems to be studied with ideas that answer the questions or central problem in the inquiry process. In this way, practitioners need to know quantitative, qualitative, and mixed approaches of inquiry to develop an indepth understanding of multiple research designs and procedures used in research today. Through this course, students will gain an understanding of reserach used in the field of Respiratory Care and apply and evaluate methods of inquiry in the

discovery of new medical knowledge.

Pre-requisite(s): Acceptance in the MSRT program

MSRT 6300 - Respiratory Care Internship

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: This course has been designed as a way for students to put "theory into practice" by seeing a project (curriculum proposal, administrative problem, or research question) through to completion. It has been developed to provide course participants with an opportunity to work with a self-identified mentor to prepare a course, identify an organizational problem and implement its solution, or to design and answer a "best-practice" procedure to improve clinical outcomes. The course includes a strategy to work closely with an instructor approved mentor to implement a deliverable written project outlining the problem encountered, the process implemented to overcome the problem, or the literature necessary to address the practice.

MSRT 6410 - Certified Pulmonary Function Technologist (CPFT)

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Evaluation and assessment of pulmonary disease is an important skill for the advanced-practice respiratory care practitioner (RCP). Requisite to making an accurate diagnosis, practitioners must understand diagnostic measurements and recommend treatment of patients with specific pulmonary diseases. This course is essential to gain knowledge to pass the CPFT (NBRC) exam for Certified Pulmonary Function Technologists.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6420 - Sleep Disorders Specialty (SDS)

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is essential to gain knowledge in the evaluation and treatment of sleep disorders in the context of a polysomnography lab and to pass the SDS (NBRC) credential for sleep disorder specialists.

Pre-requisite(s): Acceptance into MSRT program.

MSRT 6460 - Neonatal Pediatric Specialty (NPS)

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares the advanced-practice respiratory care practitioner (RCP) to optimally participate in the assessment, management, and care of newborn and pediatric populations. The course includes development, common disease pathology, pharmacology, and management of neonatal patients, emergency treatment, and evaluation of conditions and abnormalities of the cardiopulmonary systems. This course will prepare the practitioner for a national neonatal and pediatric specialty

examination (NPS).
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6470 - Adult Critical Care Specialty (ACCS)

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares the advanced-practice respiratory care practitioner (RCP) to effectively evaluate, assess, manage and provide appropriate care to critically ill adult patients. This course extensively covers advanced airway and cardiovascular management, mechanisms of respiratory failure, analysis of laboratory and imaging results, specialty medical gasses and pharmacological agents, management of patients with infectious disease and sepsis, assisting and performing advanced procedures, and end-of-life care in the adult population. This course will prepare the practitioner for an advanced critical care specialty credentialing examination (ACCS).
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6480 - Asthma Educator Specialty Credential (AE-C)

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares the advanced-practice respiratory care practitioner (RCP) to optimally educate patients and family members of patients suffering with asthma. The course includes disease pathophysiology, assessment, pharmacology, classification, and management of asthma based on severity, emergency treatment and evaluation of treatment programs. This course will prepare the practitioner for a national asthma education certification examination (AE-C).
Pre-requisite(s): Acceptance into MSRT program.

MSRT 6600 - Patient Education and Disease Management

Credits: (3)
Typically Taught Fall Semester: *2nd Blk Online*
Description: The course will provide students with opportunities to hone techniques for effective communication and patient education in a variety of settings. Students will advance knowledge and skills necessary in disease management for common respiratory care disorders, specifically chronic illnesses.

MSRT 6700 - Capstone Project

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to be self-directed, faculty supervised culminating project specific to the educational track that the student has chosen within the MSRT program (Education, Research or Health Administration). The student will demonstrate their firm grasp of their educational track and their mastery of professional/scientific writing through the development of a research paper. This course requires that the student develop a research question, prepare a learning contract that outlines their approach to the research question, and complete 40 hours of documented time with a mentor(s)

who have a minimum of a Master's degree in a related area or in performing original research. The student will also assemble a formative committee to act as a resource as the student develops the research project and summative committee to evaluate and validate the student's research. The formative and summative committees each consist of three professionals with a minimum of a Master's degree. The student will complete a Masters level research paper that is a minimum of 40-50 pages in APA format.

Pre-requisite(s): Acceptance into MSRT program.
May be repeated once up to 6 credit hours.

MSRT 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

MSW 6010 - Foundations of Social Work

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A thorough review of the history, philosophy, and fundamental principles of social work, emphasizing the knowledge, values and skills needed for social work practice in all settings.
Pre-requisite(s): Formal admittance to the MSW program.

MSW 6100 - Behavior, Environment & Social Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A graduate level introduction to the ecological model, examining in-depth, the relationship between human development (individuals, families, groups, communities, and organizations) and the social environment. Systems and theory are examined critically in the biological, psychological, sociological, and spiritual arenas, with an emphasis on social justice and the intersectionality of race, ethnicity, sexuality, gender, economic status and other dimensions of diversity on the developmental process.
Pre-requisite(s): Formal admittance to the MSW program.

MSW 6150 - Behavioral Health, Diagnostics, and Mental Health

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce students understanding to the mental health diagnoses associated with the DSM-V.

MSW 6200 - Human and Social Diversity and Oppression

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of diversity among individuals, groups, and communities and dynamics of oppression locally, regionally, nationally, and globally. Application of knowledge, skills, and interventions to alleviate social inequities and human suffering will be stressed.
Pre-requisite(s): Formal admittance to Master of Social Work program.

MSW 6235 - Loss Across the Lifespan

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide an overview of loss as a normal and necessary part of life and growth. It will also provide the foundation of classical grief theory and its evolution to more modern grief theory and work. While death and dying at different stages in the lifespan will be addressed, each life stage will also be explored for the normative losses that occur at that stage.
Pre-requisite(s): Formal admittance to Master of Social Work Program, or other WSU graduate program.

MSW 6245 - Aging Services

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Overview of older adults as a population group and of aging as a biopsychosocial process. The course explores aspects of social services and health care systems intended to help individuals, families, and communities confront aging-related challenges and capitalize upon aging-related strengths.
Pre-requisite(s): Formal admittance to Master of Social Work program or WSU graduate program.

MSW 6255 - Sexuality in Social Work Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A graduate-level introduction and thorough overview of the nature and meaning of sexuality and an in-depth consideration of various ways that sexuality is part of social work practice. Students will examine the knowledge, values, and skills needed to address sexuality in social work practice.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6300, MSW 6910.

MSW 6265 - Crisis Intervention and Trauma

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare students to develop assessment, diagnostic and evidenced based interventions to assist those in critical need during and after a crisis or trauma.   A crisis is defined as an event that exceeds and overwhelms an individual's coping skills to the point where equilibrium is

disrupted. Micro, mezzo, and macro crises as well as trauma will be explored.
Pre-requisite(s): Formal admittance into the MSW program, or other WSU graduate program.

MSW 6275 - Harm Reduction in Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth analysis of harm reduction and its use in clinical social work practice. Considers harm reduction in assessment, treatment planning, intervention, and evaluation of effectiveness of services. Explores the history and context of harm reduction as a therapeutic model, as well as its applications at the micro, mezzo, and macro areas of practice.
Pre-requisite(s): Formal admittance to Master of Social Work Program, or other WSU graduate program.

MSW 6285 - Dialectical Behavior Therapy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Dialectical Behavior Therapy or DBT, is a theoretical practice model that was conceptualized to address suicidal and para-suicidal behaviors. It is one of the first evidence-based models to document reductions in para-suicidal and suicidal behaviors. Originally developed as an adult model working with Borderline Personality Disorder it has proven effective in treating many other disorders and in working with adolescents and their families as well. It has gained in popularity as a treatment model and many states and insurance payers have recognized it as the treatment of choice for certain diagnoses.
Pre-requisite(s): Formal admittance to the MSW program, or other WSU graduate program.

MSW 6300 - Ethics, Ethical Practice, Ethical Decision-Making

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Description: An exploration of professional social work roles, values, and ethical principles. Students will review the history and evolution of the National Association of Social Workers' Code of Ethics, as well as other statements of ethical principles in social welfare. An ethical problem-solving model will be introduced and course activities will assist students in using these guidelines in making ethical decisions in professional practice.
Pre-requisite(s): Formal admittance to the MSW program and MSW 6900 OR formal admittance to the MSW program with advanced standing.
Co-Requisite(s): Must be taken concurrently with MSW 6910.

MSW 6400 - Macro Aspects of Clinical Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A consideration of practical aspects of clinical social work practice and social service programs. Content covers administration, budgeting, program development, marketing, and

institutional policy. Work with Latino communities provides a context for exploring these topics.
Pre-requisite(s): Formal admittance to MSW program, Advanced Standing Status, or MSW 6300 and MSW 6500.

MSW 6500 - Social Policy and Social Work Practice

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An examination of the major political issues faced by social work as a profession. Examples of challenges and related social, public and social welfare policies will be identified and studied. Knowledge of local, state, and federal legislation, as well as professional, membership, and international organizations will assist in review of lobbying, funding, development, and implementation strategies used in the support of clinical social work practice and meeting human service needs. Methods for political and organizational analysis of processes and policy will be discussed.
Pre-requisite(s): Formal admission to the MSW program.

MSW 6600 - Research I: Research Informed Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A study of advanced research methods and statistical procedures as they inform and shape professional social work practice. The class reviews basic qualitative, quantitative, and single system research methodologies; analysis of data, including statistical procedures; analysis and evaluation of theoretical bases, research questions, methodologies, statistical procedures, and conclusions of research reports; and relevant technological advances. Students apply activities such as needs assessments, satisfaction surveys, and other research tools to the creation, implementation, and evaluation of evidence-based practices. The course also prepares students to examine the empirical basis of practice models and how to effectively access, critique and appraise literature in order to find best evidence-based solutions. Ethics and sensitivity to research with various groups will be emphasized.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6010 (or advanced-standing status), MSW 6300, and MSW 6910.

MSW 6700 - Research II: Practice-Informed Research

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Research II: Practice-Informed Research - A study of advanced research methods and statistical procedures as they relate to and are guided by professional social work practice. Students learn about empirical research designs and how to conduct program evaluations, including needs assessments, process evaluations and outcome evaluations. Students also learn about strategies to communicate research outcomes effectively with clients, colleagues, and stakeholders to ensure the implementation sound and empirically supported prevention and intervention strategies and models of practice. Ethics and sensitivity to research with various groups will be emphasized.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6010 (or advanced-standing status), MSW 6300, MSW 6910, and MSW 6930.

MSW 6760 - Foundation Field I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $0.00
Course Fee Purpose: The course fee for MSW 6760 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: The first 200 hours of the first-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.
Pre-requisite(s): Formal admittance to the MSW program.

MSW 6761 - Foundation Field II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $0.00
Course Fee Purpose: The course fee for MSW 6761 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: The second 200 hours of the first-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.
Pre-requisite(s): Formal admittance to the MSW program.

MSW 6850 - Graduate Social Work Study Abroad

Credits: (1-4)
Description: The purpose of this course is to provide opportunities for graduate students in social work to experience study abroad or study away programs that are designed to explore issues relevant to graduate-level social work theory and practice with individuals, families, groups, communities, and organizations.
Pre-requisite(s): Admission into the Master of Social Work (MSW) program or other graduate program with permission of the instructor.

MSW 6860 - Advanced Field I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Course Fee: $0.00
Course Fee Purpose: The course fee for MSW 6860 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: The first 250 hours of the second-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6760 (or advanced-standing status), and MSW 6761 (or advanced-standing status).

MSW 6861 - Advanced Field II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $0.00
Course Fee Purpose: The course fee for MSW 6861 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: The second 250 hours of the second-year supervised field practicum in an approved social service setting, with a focus on the application of social work knowledge, ethics, values, theory, skills, and practice evaluation and the development of competencies and behaviors necessary for effective clinical practice with individuals, families, and groups. The course includes regular meetings with an on-site field supervisor, the program's field director, and other field students in a professional seminar. The seminar links professional social work practice with academic content.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6760 (or advanced-standing status), and MSW 6761 (or advanced-standing status).

MSW 6900 - Clinical Practice I: Traditional Theories and Model

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An overview of common traditional theories and models of social work practice at micro, mezzo, and macro levels. The course combines lecture and hands on application experiences.
Pre-requisite(s): Formal admittance to the MSW program.

MSW 6910 - Clinical Practice II: Vulnerable and At-Risk Populations

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Clinical Practice II - A study of clinical social work practice theories and models with vulnerable and at-risk populations at micro, mezzo, and macro levels, with an emphasis on work with Latino clients, families, and communities. Content also covers harm reduction, advocacy, social action, and social justice practice. The course combines lecture and hands on application experiences.

Pre-requisite(s): Formal admittance to the MSW program and MSW 6900, OR formal admittance to the MSW program with advanced standing.
Co-Requisite(s): Must be taken concurrently with MSW 6300.

MSW 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current oferring under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MSW 6930 - Clinical Practice III: Evidence-Based Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An advanced course of study of evidence-based clinical social work practice theories and models for work with individuals (e.g., EMDR, DBT, CBT, Trauma-Focused CBT, Cue Exposure-Response Prevention, ACT, PCIT, Motivational Interviewing). The course combines lecture and hands on application experiences.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6900 (or advanced-standing status), and MSW 6910.

MSW 6940 - Clinical Practice IV: Group Work

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An advanced course of study of evidence-based clinical social work practice theories and models for work with groups and families. The course combines lecture and hands on application experiences.
Pre-requisite(s): Formal admittance to the MSW program, MSW 6900 (or advanced-standing status), MSW 6910, and MSW 6930.

MTAX 6210 - Business Law and Legal Liability

Credits: (3)
Description: A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MTAX 6400 - Tax Research & Procedure

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Typically Taught Fall Semester: *Full Sem*

Description: Techniques in effective tax research, planning and communication. Also includes a discussion of tax policy.

MTAX 6405 - Accounting for Income Taxes

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Cash and accrual methods of accounting, inventories, accounting for book/tax disparities, income statement tax provision, original issue discount, depreciation methods, amortization, long-term contracts, changes in methods of accounting, accounting periods, capitalization vs. expense, and other topics critical to bridging financial accounting and tax accounting.

MTAX 6410 - International Taxation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Principles of U.S. taxation applicable to inbound and outbound international transactions. Also covers issues related to international tax treaties.

MTAX 6430 - Advanced Individual Taxation

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Typically Taught Spring Semester: *Full Sem*
Description: In-depth coverage of advanced individual tax issues such as alternative minimum tax, loss limitations, real estate transactions, stock options, employment taxes, tax credits, charitable contributions, interest classification, related-party transactions, and timing of income/loss recognition.

MTAX 6435 - State & Local Taxation/Federal Tax Practice

Credits: (3)
Description: State income taxation, nexus, multijurisdictional operations, constitutional limitations, sales tax, excise tax, property tax; federal tax procedure, handling IRS audits, appeals, petitions to U.S. Tax Court, and other issues related to tax practice.
Note: This course is not currently offered.

MTAX 6437 - State & Local Tax/Exempt Orgs

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: State income taxation, nexus multijurisdictional operations, constitutional limitations, sales tax, excise tax, property tax; types of exempt organizations, application for exempt status, public charities, private foundations, unrelated business income tax, and compliance issues.

MTAX 6445 - Gifts, Estates, Trusts and Exempt Organizations

Credits: (3)
Description: Principles of estate & gift taxation, exclusions, deductions, valuation issues, the unified credit, wills and intestate succession, income in respect of a decedent, income taxation of estates and trusts, income and estate/gift issues affecting donations to charity, nonprofit corporations, public charities, private foundations, excise taxes, unrelated business income, and compliance issues for tax-exempt entities.
Note: This course is not currently being offered.

MTAX 6450 - Real Estate Taxation

Credits: (3)
Description: In-depth study and analysis of the taxation of real estate transactions. Covers topics such as like-kind exchanges, personal residences, real estate development, passive loss rules, involuntary conversions, casualty losses, and real estate investment trusts.
Note: Course not currently being offered.

MTAX 6455 - Gifts, Estates, Trusts & Real Estate Taxation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Principles of gift and estate taxation. Includes a discussion of wills and the income taxation of estates and trusts. Also covers taxation of real estate transactions including like-kind exchanges, involuntary conversions, leases, personal residences, real estate development, and cost segregation.

MTAX 6460 - Advanced Corporate Taxation

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Typically Taught Spring Semester: *Full Sem*
Description: Income taxation of corporations and shareholders. Includes in-depth analysis of tax issues related to corporate formations, operations, distributions and liquidations. Also covers the taxation of S corporations.

MTAX 6470 - Advanced Partnership Taxation

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Description: Income taxation of partnerships and partners. Includes in-depth analysis of tax issues related to partnership formations, operations, distributions and liquidations. Also covers issues related to limited liability companies.

MTAX 6480 - Retirement Planning & Employee Benefits

Credits: (3)
Description: Consideration of tax, insurance, investment and estate planning principles from a retirement

perspective. Includes discussion of sources of retirement income and anticipated retirement expenses. Note: Course not currently being offered.

MTAX 6485 - Retirement Plans & Exempt Organizations

Credits: (3)
Description: Discussion of IRAs, Roth IRAs, defined contribution plans such as 401(k)s. Qualification of retirement plans as tax-favored under the Internal Revenue Code. Discussion of retirement plans available to small business. In-depth discussion of nonprofit organizations, charities, qualifying for tax-exempt status, private foundations, unrelated business income, and tax compliance for exempt entities. Note: This course is not currently offered.

MTAX 6487 - Retirement Plans

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Discussion of qualified retirement plans including defined contribution and defined benefit plans. Also includes discussion of IRA's, Roth IRA's, and other retirement-related, tax favored investments provided for in the Internal Revenue Code.

MTAX 6490 - Mergers, Acquisitions and Consolidations

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk*
Description: In-depth coverage of advanced corporate tax topics such as tax-free corporate reorganizations, taxable stock acquisitions, taxable asset acquisitions, affiliated groups, consolidated returns, and corporate tax shelters.
Pre-requisite(s): (Recommended) MTAX 6460.

MTAX 6495 - Graduate Tax Internship

Credits: (1-3)
Typically Taught: Various
Description: A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses. Credit/No Credit.
Pre-requisite(s): Admission to the MAcc or MTax program; approval by department chair and program director.
Can be repeated once up to three credit hours.

MTAX 6695 - VITA Quality Review Team

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: VITA provides a valuable service to Weber State students and the surrounding community. As part of the quality review team for Weber State's VITA program, you will assist undergraduate students as they prepare individual income tax returns and review these returns to ensure they are complete and

accurate. As a VITA volunteer, you will research clients' issues, resolve questions, and navigate difficult tax scenarios. You will apply what you have learned in the classroom and gain first-hand experience working with actual clients' real tax situations. VITA provides a unique service learning opportunity that will benefit both you and your community.

MTAX 6700 - CPA Examination Review: FAR

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is a directed self-study course designed to help students prepare for the Financial Accounting and Reporting (FAR) section of the CPA examination. This is a review course and assumes that the student has already taken a number of financial accounting courses. A faculty member will monitor the student's progress and a grade will be determined by the student's performance on weekly quizzes and a final examination.
Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MTAX 6750 - Study Abroad

Credits: (3)
Variable Title
Description: This course integrates international travel and site visits with the study of accounting and international business practices. Through readings, assignments, discussions, and visits to important business and cultural sites, the course builds understanding and competence as it relates to the history of accounting, the global accounting profession, and the business and cultural environment in the host countries.
Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MTAX 6801 - Individual Study

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual work, or work in small groups, by arrangement, on special topics, not included in the announced course offerings.
Pre-requisite(s): Approval of the Master of Taxation Program Director and instructor.

MTAX 6802 - Individual Study

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual work, or work in small groups, by arrangement, on special topics, not included in

the announced course offerings.

Pre-requisite(s): Approval of the Master of Taxation Program Director and instructor.

MTAX 6803 - Individual Study

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual work, or work in small groups, by arrangement, on special topics, not included in the announced course offerings.
Pre-requisite(s): Approval of the Master of Taxation Program Director and instructor.

MTAX 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MTHE 3015 - Middle School Algebra from a Teaching Perspective

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students will explore algebraic topics pertinent to teaching middle school algebra standards from Grade 6 to Grade 9.
Pre-requisite(s): MATH 2015.

MTHE 3020 - Methods and Technology for Teaching Advanced Secondary Mathematics

Credits: (3)
Description: Aspects of teaching advanced mathematics in a high school setting, including methods of presentation, exploration, assessment and classroom management. An emphasis is placed on the use of computers, graphing calculators, and other technology.
Pre-requisite(s): MTHE 4000.
Note: This course is offered as needed.

MTHE 3060 - Probability and Statistics from a Teaching Perspective

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students will explore topics in probability and statistics, beginning with concepts in middle and high school standards and extending to the college level. These ideas will be interwoven with strategies for teaching probability and statistics at the appropriate levels.
Pre-requisite(s): MATH 1210 or MATH 2010.

MTHE 3070 - Middle School Geometry from a Teaching Perspective

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Basic Geometry with an emphasis on the topics and methods pertinent to prospective elementary school teachers.
Pre-requisite(s): MATH 2020.

MTHE 3080 - Number Theory for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Survey of elementary number theory concepts with applications to topics of interest plus teaching suggestions.
Pre-requisite(s): MATH 2015.

MTHE 3115 - Algebra from a Secondary Teaching Perspective

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students will explore topics in algebra, beginning with concepts in middle and high school standards and extending to college level algebra. These ideas will be interwoven with strategies for teaching algebraic ideas at the middle and high school level.
Pre-requisite(s): MATH 1210.

MTHE 3117 - Geometry from a Secondary Teaching Perspective

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students will explore topics in Euclidean geometry, beginning with concepts in secondary geometry standards and extending beyond these topics. These ideas will be interwoven with strategies for teaching geometry at the secondary level.
Pre-requisite(s): MATH 3110.

MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Basic topics in secondary mathematics are taught to prospective teachers using a variety of methods of presentation and up-to-date technology, including the use of graphing calculators and computers.
Pre-requisite(s): MTHE 3015, MTHE 3060, MTHE 3070, MTHE 3080, MTHE 3115, MTHE 3117.

MTHE 4010 - Capstone Mathematics for High School Teachers II

Credits: (3)
Description: Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from geometry.
Pre-requisite(s): MTHE 3115.
Note: This course is offered as needed.

MTHE 4040 - Mathematical Problem Solving for Grade K-8 Teachers

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Mathematical problem solving, discussion of process, writing solutions, and writing extensions.
Pre-requisite/Co-requisite: MATH 2015.

MTHE 4100 - Intuitive Calculus for Elementary Teachers

Credits: (3)
Description: An active, hands-on, discovery approach to understanding the three main components of calculus (limits, integration, differentiation), and how they relate to the improved teaching of elementary school mathematics. This course is no longer offered.
Pre-requisite(s): MATH 2010 and MATH 2020.

MTHE 4700 - Senior Project in Elementary Mathematics Teaching

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Projects in preparing, teaching and revising sequential mathematics lessons for elementary students.
Pre-requisite(s): MATH 2010 and MATH 2020.

MTHE 5010G - Methods and Technology for Teaching Secondary Mathematics

Credits: (3)
Description: Topics in secondary mathematics are taught to in-service teachers using a variety of methods and technology to make them better prepared for teaching secondary mathematics. Expository presentations about a current mathematics education research area are expected.
Note: This course is offered as needed.

MTHE 5210G - Calculus with Analytic Geometry

Credits: (4)
Description: Analytic geometry, differentiation, integration, and applications.
Pre-requisite(s): MATH 1050 and MATH 1060 or MATH 1080 or placement test.
Note: This course is offered as needed.

MTHE 5220G - Calculus with Analytic Geometry

Credits: (4)
Description: Transcendental functions, techniques of integration, conic sections, polar coordinates, infinite series, introduction to partial derivatives.
Pre-requisite(s): MTHE 5210G.
Note: This course is offered as needed.

MTHE 5230G - Mathematics Computer Laboratory

Credits: (1)
Description: Computer solution of mathematics problems.
Pre-requisite(s): Approval of instructor.
Suggested Requisite(s): May be taken concurrently with any lower division mathematics course.

MTHE 5310G - Multivariable and Vector Calculus

Credits: (4)
Description: Vectors, vector valued functions, motion in space, multivariable functions, partial derivatives, multiple integrals, integration in vector fields.
Pre-requisite(s): MTHE 5220G.
Note: This course is offered as needed.

MTHE 5350G - Linear Algebra and Differential Equations

Credits: (4)
Description: Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.
Pre-requisite(s): MTHE 5220G.
Note: This course is offered as needed.

MTHE 5920 - Workshop

Credits: (1-6)
Description: This course provides professional development workshops for inservice K-12 teachers around the teaching and learning of mathematics. This is a flexible credit hour course ranging from 1-6 credit hours. May be repeated up to 24 credit hours.

MTHE 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)
Variable Title
Description: This course provides professional development workshops for inservice K-12 teachers around the teaching and learning of mathematics. This is a flexible credit hour course ranging from 1-6 credit hours.

May be repeated up to 24 credit hours.
Note: This course is offered as needed.

MTHE 6120 - Euclidean and Non-Euclidean Geometry

Credits: (3)
Description: Axiomatic development of geometry; Euclidean and non-Euclidean.
Pre-requisite(s): MTHE 5220G.
Note: This course is offered as needed.

MTHE 6160 - Number Theory

Credits: (3)
Description: An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.
Pre-requisite(s): MTHE 5210G.
Note: This course is offered as needed.

MTHE 6350 - Linear Algebra

Credits: (3)
Description: Theory and applications of linear algebra including abstract vector spaces and canonical forms of matrices.
Pre-requisite(s): MTHE 5350G.
Note: This course is offered as needed.

MTHE 6410 - Probability and Statistics

Credits: (3)
Description: The mathematical content of probability and statistics at the undergraduate post calculus level. An understanding of the application of probability and statistics is also stressed.
Co-Requisite(s): MTHE 5310G or prerequisite of MTHE 5220G and consent of instructor.
Note: This course is offered as needed.

MTHE 6420 - Probability and Statistics

Credits: (3)
Description: The mathematical content of probability and statistics at the undergraduate post calculus level. An understanding of the application of probability and statistics is also stressed.
Pre-requisite(s): MTHE 6410.
Note: This course is offered as needed.

MTHE 6550 - Introduction to Mathematical Modeling

Credits: (3)
Description: Formulation, solution and interpretation of mathematical models for problems occurring in

areas of physical, biological and social science.
Note: This course is offered as needed.

MTHE 6610 - Graph Theory

Credits: (3)
Description: Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.
Note: This course is offered as needed.

MTHE 6620 - Enumeration

Credits: (3)
Description: Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.
Note: This course is offered as needed.

MTHE 6630 - Boundary Value Problems

Credits: (3)
Description: Series solutions, Fourier series, separation of variables, orthogonal functions.
Note: This course is offered as needed.

MTHE 6640 - Differential Equations II

Credits: (3)
Description: Matrix approach to linear systems, nonlinear systems, Laplace transforms.
Note: This course is offered as needed.

MTHE 6650 - Complex Variables

Credits: (3)
Description: Analysis and applications of a function of a single complex variable. Analytic function theory, path integration, Taylor and Laurent series and elementary conformal mapping are studied.
Pre-requisite(s): MTHE 5310G and MTHE 5350G.
Note: This course is offered as needed.

MTHE 6660 - Modern Algebra I

Credits: (3)
Description: Logic, sets, and the study of algebraic systems including groups, rings, and fields.
Pre-requisite(s): MTHE 5350G.
Note: This course is offered as needed.

MTHE 6670 - Modern Algebra II

Credits: (3)
Description: Continuation of MATH 4110: advanced topics from groups, rings, and fields including the Sylow theorems and Galois theory.
Pre-requisite(s): MTHE 6660.
Note: This course is offered as needed.

MTHE 6680 - Introductory Real Analysis

Credits: (3)
Description: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MTHE 5310G and MTHE 5350G
Note: This course is offered as needed.

MTHE 6690 - Introductory Real Analysis

Credits: (3)
Description: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MTHE 6680
Note: This course is offered as needed.

MTHE 6700 - Topology

Credits: (3)
Description: Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.
Pre-requisite(s): MTHE 5310G and MTHE 5350G.
Note: This course is offered as needed.

MTHE 6710 - Numerical Analysis

Credits: (3)
Description: Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MTHE 5350G and CS 1410 or other approved programming language
Note: This course is offered as needed.

MTHE 6720 - Numerical Analysis

Credits: (3)
Description: Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.

Note: This course is offered as needed.

MTHE 6730 - Partial Differential Equations

Credits: (3)
Description: First order equations, characteristics and classifications, Green's identities, models, transforms.
Pre-requisite(s): MTHE 6630.
Note: This course is offered as needed.

MTHE 6740 - Mathematics for Teaching - Numbers and Operations

Credits: (3)
Description: Provides teachers a deeper understanding of our number system and relate its structure to computation, arithmetic, algebra and problem solving. Course topics will include number, number sense, computation, and estimation and instructional strategies to facilitate the instruction of this content for elementary teachers.
Pre-requisite(s): A Bachelor's degree and at least one year of experience teaching elementary or junior high school mathematics.
Note: This course is offered as needed.

MTHE 6750 - Mathematics for Teaching - Rational Numbers and Proportional Reasoning

Credits: (3)
Description: Provides practicing teachers a deeper understanding of rational numbers, operations with rational numbers, and proportionality, and instructional strategies to facilitate the instruction of this content for elementary students.
Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.
Note: This course is offered as needed.

MTHE 6760 - Mathematics for Teaching - Algebraic Reasoning

Credits: (3)
Description: Provides practicing teachers a deeper understanding of algebraic expressions, equations, functions, real numbers, and instructional strategies to facilitate the instruction of this content for elementary students.
Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.
Note: This course is offered as needed.

MTHE 6770 - Mathematics for Teaching - Geometry and Measurement

Credits: (3)
Description: Provides practicing teachers a deeper understanding of the geometry and measurement

content that exists in the state core and instructional strategies to facilitate the instruction of this content.

Pre-requisite(s): A Bachelor's Degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

MTHE 6780 - Mathematics for Teaching - Problem Solving and Data Analysis

Credits: (3)
Description: This course will develop a firm problem-solving foundation. Using skills and strategies applied in mathematical contexts practicing teachers will learn to think, work with others, present solutions, and facilitate problem solving instruction in the classroom. This course will also provide practicing teachers a deeper understanding of probability and statistics content in the state core and instructional strategies to facilitate the instruction of this content.

Pre-requisite(s): A Bachelor's degree and at least one year of teaching experience in an elementary or junior high school.

Note: This course is offered as needed.

MUSC MUSC 1025 CA - History of Country Music

Credits: (3)
Typically Taught Summer Semester: *N/A*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course is a survey of Country Music styles from ca. 1920 to the present. We also discuss related styles such as Hillbilly, Rock, jazz, folk, Bluegrass and popular song, reaching back into the nineteenth century. We will not only study the changing history of country music (which requires discussion of non-country music as well), but also the cultural forces that gave rise to those changes. Because of this historical perspective, our approach will be largely chronological, with an eye toward how various styles influenced one another.

MUSC 1006 - Concert Attendance I

Credits: (0)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: To be a successful musician, it is essential to develop excellent listening skills. Professional musicians are familiar with a wide variety of genres and styles. This course provides music students with opportunities to become familiar with the diversity of music that exists in our world. With this in mind, music majors and minors are expected to attend concerts and recitals on a regular basis. During the first two years of study, concert attendance is required and tracked by the department office staff. Students must concurrently enroll in applied music lessons. Credit/No Credit grading.

May be repeated once.

MUSC 1010 CA - Introduction to Music

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: An introduction to music, its elements, language, and historical development. The course focuses on European and American music with components of jazz, world, and popular genres. Concert attendance outside of regularly scheduled class time is required. Not available to music majors.

MUSC 1015 - Movie Music

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music is the heart and soul of film! Film scores can animate, enhance, enliven, magnify, and transcend movies. Movie music is a young genre compared to its predecessors like opera, ballet, and theatre music. Film music is less than 100 years old. In spite of its short history, movie music continues to have a global impact.
In this course, students will develop a greater appreciation and enjoyment of movies by understanding the artistical merit and compositional skill associated with movie music. Students will engage in the study of the aesthetic and technical practices of movie music and the enriching and expressive power music brings to film.

MUSC 1020 - What Makes Us Human?: Creativity and the Humanities

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide a broad Introduction to the Arts and Humanities as seen through the lenses of Plato's "Big Three": The Good, The True and The Beautiful. The perspective of the Good will be taken to look at the Arts and Humanities in society (their Role), that of the True to explore their scientific side (their Nature), and that of the Beautiful to investigate our interior, personal experience (their Meaning).

MUSC 1025 CA - History of Country Music

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $6.00
Course Fee Purpose: Course fees are used to support the technological infrastructure to support audio and visual presentations.
Description: This course is a survey of Country Music styles from ca. 1920 to the present. We also discuss related styles such as Hillbilly, Rock, jazz, folk, Bluegrass and popular song, reaching back into the nineteenth century. We will not only study the changing history of country music (which requires discussion of non-country music as well), but also the cultural forces that gave rise to those changes.

Because of this historical perspective, our approach will be largely chronological, with an eye toward how various styles influenced one another.

MUSC 1030 CA - Introduction to Jazz

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A survey of jazz in America, including blues, ragtime, traditional jazz, swing, bebop, cool, and fusion. Concert attendance outside of regularly scheduled class time is required.

MUSC 1033 CA - Introduction to American Music

Credits: (3)
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Survey of music in America, including classical, jazz, rock, folk, and ethnic, within the context of American history.

MUSC 1035 CA - History of Rock and Roll

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: This course is a survey of Rock Music styles from ca. 1950 to the present. We also discuss pre- and proto- rock styles such as Jazz, Blues, and popular song, reaching back into the late nineteenth century. In the course we will not only study the changing history of rock music (which requires discussion of non-rock music as well), but also the cultural forces that gave rise to those changes. Because of this historical perspective, our approach will be largely chronological, with an eye toward how various styles influenced one another.

MUSC 1040 CA - Music of World Cultures

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: An introduction to the music of cultures around the world, including India, Middle East, China, Japan, Indonesia, Sub-Saharan Africa, Europe, Latin America, Caribbean, Native American music,

and Ethnic North America. The course discusses the influence of music on, and its relationship to, the various cultures and populations.

MUSC 1043 HU - Music, the Arts & Civilizations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is a chronological introduction to mostly western music that also explores its relationship to the other arts.

MUSC 1063 CA - Music in Religion

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: An introduction to music in world religions such as Judaism, Christianity, Islam, Hinduism, Sikhism, and Buddhism.

MUSC 1100 - Fundamentals of Music

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $21.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Basic melody, harmony, rhythm, notation, ear training, and sight-singing skills.

MUSC 1110 - Music Theory I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Elementary harmony, primary and secondary triads with inversions, non-harmonic tones, and modulation.
Pre-requisite(s): Students with an AP Music Theory score of 5 are exempt from MUSC 1110 and may enroll in MUSC 1120. AP scores are only recognized for one year after taking the exam.
Co-Requisite(s): Must be taken concurrently with MUSC 1130.
Note: Music Majors and Minors only.

MUSC 1120 - Music Theory II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $4.00

Course Fee Purpose: This fee will be used to support instructional technology.

Description: Continuing study of elementary harmony, primary and secondary triads with inversions, non-harmonic tones, and modulation.

Pre-requisite(s): Completion of both MUSC 1110 and MUSC 1130 with a grade of C or better. Students with an AP Music Theory score of 5 may enroll directly in MUSC 1120.

Co-Requisite(s): Must be taken concurrently with MUSC 1140.

Note: Music Majors and Minors only.

MUSC 1130 - Sight-Singing & Aural Skills I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Development of aural skills needed to function as a musician and teacher. Emphasis on progressively advancing aural perception.
Pre-requisite(s): Complete Theory Placement exam with a score of 70% or higher or MUSC 1100 with a grade of "C" or higher. A student scoring a 3 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills without taking the placement exam. A student scoring a 4 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills II (MUSC 1140) without taking the placement exam. A student scoring a 5 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills III (MUSC 2130). The student, however, must enroll in these courses within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.
Co-Requisite(s): Must be taken concurrently with MUSC 1110.
Note: Music Majors and Minors only.

MUSC 1140 - Sight-Singing & Aural Skills II

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Development of aural skills needed to function as a musician and teacher. Emphasis on progressively advancing aural perception. Continuation of MUSC 1130.
Pre-requisite(s): MUSC 1130 and MUSC 1110. A student scoring a 4 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills II (MUSC 1140) without taking the placement exam. A student scoring a 5 on the AP Music Theory Exam may enroll in Sight-Singing and Aural Skills III (MUSC 2130). The student, however, must enroll in these courses within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.
Co-Requisite(s): Must be taken concurrently with MUSC 1120.
Note: Music Majors and Minors only.

MUSC 1143 - Music Theory and Piano for Musical Theatre

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: Development of aural, piano and sight-singing skills as they pertain to the Musical Theatre performer and practitioner. Emphasis on harmony, melody, rhythm, notation and applicable keyboard skills.

MUSC 1150 - Class Piano I

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Beginning piano instruction with emphasis on reading, technical facility and sound musicianship.
Pre-requisite(s): Complete Theory Placement exam with a score of 70% or higher or MUSC 1100 with a grade of "C" or higher. A student scoring a 4 or 5 on the AP Music Theory Exam may enroll in MUSC 1150 (Class Piano I) without taking the placement exam. The student, however, must enroll in this course within a year of completing the AP Music Theory Exam. After one year, the student will be required to take the Music Theory Placement Exam and their former AP score is no longer recognized.
Pre-requisite/Co-requisite: MUSC 1110.
Note: Music Majors and Minors only

MUSC 1160 - Class Piano II

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of MUSC 1150 with emphasis on further development of music reading, technical facility, and expanded concepts of musicianship in the students' piano skills.
Pre-requisite(s): MUSC 1150
Pre-requisite/Co-requisite: MUSC 1120
Note: Music Majors and Minors only

MUSC 1321 - Basic Piano for Adults

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Beginning instruction in keyboard for non-music majors and minors. Students must have access to a piano for practice.

MUSC 1500 - Beginning & Intermediate Classical Guitar

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Beginner and intermediate class instruction in classical guitar, including technique, repertoire, and history of the instrument.
May be repeated up to 10 times for credit.

MUSC 1501 - Modern Guitar Styles

Credits: (1)
Description: This entry-level course offers instruction in pick-style guitar. Styles covered include folk, rock, jazz, and popular. Special emphasis on note reading and basic musicianship.

MUSC 1502 - Violin Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1503 - Viola Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1504 - Cello Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the

instructor and the performing student. This class is no longer being offered.

May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1505 - String Bass Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1506 - Guitar Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Since then, Masterclasses have been held by professionals ranging from experienced instructors to legendary performers, for aspiring musicians all over the world. In a masterclass, individuals perform for the class and are offered instruction by the teaching artist. This allows the entire class to learn from the interaction between the instructor and the performing student. This class is no longer being offered.

May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1507 - Harp Master Class

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Masterclasses have been a staple learning methodology since 1869. Their invention is attributed to the virtuosic Hungarian pianist, Franz Liszt (1811-1886). Critical listening skills will be developed throughout the course.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 1721 - Live Sound in the 21st Century

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $29.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio / performance space maintenance.
Description: Focusing on advances in live sound technologies students will learn to assemble and optimize modern sound systems using DANTE and AVB network protocols and digital consoles. Best practices and common system setup will also be covered.
Pre-requisite(s): Acceptance in the Sound Production/Recording program, MUSC 1720.

MUSC 1722 - History of Recording

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Multimedia based course examining the complete history of recorded sound. Covering everything from Edison's cylinder to the advent of the MP3 and modern digital recording. Focusing on the inventors and milestones of the last 150 years.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 1723 - Field Recording/Sound for Picture

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $27.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.
Description: This course will combine the art of capturing live sound in the field, Foley, and ADR in a post-production workflow combining dialog and music to video.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 1724 - Studio Construction

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $27.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.
Description: During construction of the recording spaces students will observe and understand the recording studio construction process. This experience may be repeated until studio completion. Credit/No Credit grading.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.
May be taken 3 times up to 3 credits.

MUSC 1725 - Alternative Digital Audio Workstations

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $54.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab maintenance.
Description: An introduction to non-Pro Tools recording and music production applications. Covering setup, optimization, and basic operation. This may include but is not limited to Reason, Ableton LIVE, Digital Performer, Logic, and Garageband.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 1726 - Creative Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Course Fee: $27.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab maintenance.
Description: A live performance / recording project ensemble. Turntables, folk instruments, world instruments, electronic musicians, rock / pop musicians etc. Audition not required.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.
May be taken 3 times up to 3 credits.

MUSC 1730 - Keyboard Ensemble

Credits: (1)
Description: Training in piano ensemble situations to develop fluency in reading. Keyboard majors and minors only. Fulfills the major ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1740 - Weber State Concert Choir

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Fulfills the major ensemble requirement for music majors and minors. No audition required.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1741 - Chamber Choir

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A highly select group of approximately 24 singers performing the entire range of small choir literature. Fulfills the chamber ensemble requirement for music majors. By audition only.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1743 - Vocal Chamber Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Training in small vocal groups such as trios, quartets, and sextets. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1744 - Musical Theatre

Credits: (1-2)
Description: Rehearsal and performance of musical theatre productions. By audition only.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1745 - Weber State Community Choir

Credits: (1)
Description: Membership by audition or consent of instructor. Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.
Note: Note: This course is not currently active. It is typically taught in the evenings when offered.

MUSC 1750 - Symphonic Band

Credits: (1-2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Emphasis is on the study and preparation of modern symphonic band literature. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 14 credit hours.

MUSC 1751 - Wind Ensemble

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Emphasis is on study and performance of literature for selected wind and percussion ensembles of varying size. Participants may be required to participate in symphonic band. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1752 - Marching Band

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: By audition and/or consent of the director to students on flags, rifles, and band instruments. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1753 - Jazz Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1754 - Percussion Ensemble

Credits: (1)
Typically Taught Spring Semester: *Full Sem*

Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1755 - Instrumental Chamber Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Training in instrumental chamber ensembles such as trios, quartets, quintets, and sextets. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1756 - Pep Band

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Plays at athletic functions using contemporary jazz, rock, and popular music. By audition. Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1760 - Weber State Symphony Orchestra

Credits: (1-2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Full symphony orchestra instrumentation. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 14 credit hours.

MUSC 1761 - Chamber Orchestra

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1762 - Theatre Orchestra

Credits: (1-2)
Description: Membership by audition or consent of instructor. Instrumentation determined by the music production being presented. Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1763 - Guitar Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MUSC 1820 - The Art and Science of Recording I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $31.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.
Description: Utilizing the "flipped classroom" model, students will learn the fundamentals and best practices of capturing live audio in a multimedia-rich environment that is self- paced. In the classroom, students will receive face-to face instruction from experienced producers, engineers, and visionaries delivering real world experience and valuable career guidance.
Pre-requisite(s): Acceptance in the Sound Production/Recording program. MUSC 2820 / MUSC 4820, MUSC 2823 / MUSC 4823, MUSC 1720.

MUSC 1821 - The Art and Science of Recording II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $31.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.
Description: Utilizing the "flipped classroom" model, students will learn the fundamentals and best practices of capturing live audio in a multimedia-rich environment that is self- paced. In the classroom, students will receive face-to face instruction from experienced producers, engineers, and visionaries delivering real world experience and valuable career guidance.
Pre-requisite(s): 80% or better completion of MUSC 1820 - The Art and Science of Recording I. Acceptance in the Sound Production/Recording program.

MUSC 1901 - Music: The Successful Musician

Credits: (1)
Typically Taught Fall Semester: *Full Sem*

Course Fee: $2.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: The purpose of this course is to help students survive and thrive as music majors/minors by exploring success strategies applicable to all college students alongside those addressing the specific needs of music students.
Note: Music Majors and Minors only

MUSC 1911 - Introduction to Music Technology

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Introduction to uses of technology in music teaching and performance, including use of music composition and multimedia software.
Note: Music Majors and Minors only

MUSC 2006 - Concert Attendance II

Credits: (0)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: To be a successful musician, it is essential to develop excellent listening skills. Professional musicians are familiar with a wide variety of genres and styles. This course provides music students with opportunities to become familiar with the diversity of music that exists in our world. With this in mind, music majors and minors are expected to attend concerts and recitals on a regular basis. During the first two years of study, concert attendance is required and tracked by the department office staff. Students must concurrently enroll in applied music lessons. Credit/No Credit grading.
May be repeated once.

MUSC 2110 - Music Theory III

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of Theory II. Includes altered, borrowed, and other unique chord sonorities; advanced modulation; 20th century compositional techniques; analysis; and projects that will explore application of theoretical concepts.
Pre-requisite(s): MUSC 1120 and MUSC 1140 or equivalents. A student scoring a 5 on the AP Music Theory Exam may enroll in Music Theory III for up to one year after completing the AP Music Theory Exam. After one year, their former AP score is no longer recognized.
Co-Requisite(s): Must be taken concurrently with MUSC 2130.
Note: Music Majors and Minors only.

MUSC 2120 - Music Theory IV

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of Theory III. Includes altered, borrowed, and other unique chord sonorities; advanced modulation; 20th century compositional techniques; analysis; and projects that will explore application of theoretical concepts. Prerequisite: MUSC 2110. Must be taken concurrently with MUSC 2140. Music Majors and Minors only.
Pre-requisite(s): MUSC 2110 with a grade of "C" or better.
Co-Requisite(s): Must be taken concurrently with MUSC 2140.
Note: Music Majors and Minors only.

MUSC 2130 - Sight Singing & Aural Skills III

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of Sight-Singing & Aural Skills II. Development of more advanced listening skills and of ability to recognize and correct performance errors.
Pre-requisite(s): MUSC 1120 and MUSC 1140. A student scoring a 5 on the AP Music Theory Exam may enroll in MUSC 2130 (Sight -singing & Aural Skills III) for up to one year after completing the AP Music Theory Exam. After one year, their former AP score is no longer recognized.
Co-Requisite(s): Must be taken concurrently with MUSC 2110.
Note: Music Majors and Minors only.

MUSC 2140 - Sight Singing & Aural Skills IV

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of Sight Singing & Aural Skills III. Development of more advanced listening skills and of ability to recognize and correct performance errors.
Pre-requisite(s): MUSC 2110 and MUSC 2130 or equivalents.
Co-Requisite(s): Must be taken concurrently with MUSC 2120.
Note: Music Majors and Minors only

MUSC 2150 - Class Piano III

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: This fee will be used to support instructional technology.

Description: Continuation of MUSC 1160 with emphasis on advanced reading, further development of music reading, technical facility, and expanded concepts of musicianship in the students' piano skills.
Pre-requisite(s): MUSC 1160 or placement by audition.
Pre-requisite/Co-requisite: MUSC 2110.
Note: Music Majors and Minors only.

MUSC 2160 - Functional Piano Skills for Piano Majors/Minors

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of MUSC 1160 with emphasis on advanced reading, further development of technical facility and expanded concepts of musicianship.
Pre-requisite(s): MUSC 1160 or placement by audition, and MUSC 1120 and MUSC 1140.
Note: Music Majors and Minors only.

MUSC 2202 - Survey of Music History & Literature I

Credits: (2)
Description: A survey of the development of the historical and stylistic periods of European art music from ca 400-1750. Required for Music History credit for all Music Minors.
Pre-requisite(s): MUSC 1110 and MUSC 1130. Open to all university students who have completed MUSC 1010. Does not fulfill Creative Arts or Humanities credit.
Note: Music Majors and Minors only.

MUSC 2212 - Survey of Music History & Literature II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the development of the historical and stylistic periods of European art music from ca 1750-20th century. Required for Music History credit for all Music Minors.
Pre-requisite(s): MUSC 1110 and MUSC 1130. Open to all university students who have completed MUSC 1010. Does not fulfill Creative Arts or Humanities credit.
Note: Music Majors and Minors only.

MUSC 2321 - The Principles of Collaborative Piano I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: To learn the art of accompaniment, to become knowledgeable about repertoire and style, and to improve sight reading.
Pre-requisite(s): Music Major (Piano Performance or Pedagogy emphasis) - successful completion of MUSC 2160 (Functional Piano Skills). Music Major (all other emphases) - successful completion of MUSC

2150 (Group Piano III)
Note: Music Majors and Minors only.

MUSC 2331 - The Principles of Collaborative Piano II

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: To learn the art of accompaniment, to become knowledgeable about repertoire and style, and to improve sight reading.
Pre-requisite(s): Piano majors only.
Note: Music Majors and Minors only.

MUSC 2401 - Musical Improvisation

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Students will be presented with basic improvisation concepts in the course, including improvising rhythmically, diatonically, over functional harmony, using extra-musical inspiration, and creating free and collaborative improvisations. Through demonstration and practice, students will learn how all of these methods in totality or combination can work to create successful improvisations. Students will be judged based on their ability to demonstrate mastery over a particular concept through their own performance. Possible assignments include in-class performances and a final concert featuring student improvisations.
Pre-requisite(s): MUSC 1120.

MUSC 2540 - Instrumental Techniques for Choral Majors

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A course for Music Education majors with a Choral emphasis that encompasses a practical and analytical approach to the understanding of basic playing and teaching techniques of the band and orchestral instruments.
Note: Music Majors and Minors only.

MUSC 2610 - Applied Keyboard: Piano

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private

instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2611 - Applied Keyboard: Organ

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 2673 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $890.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be taken for credit up to three times in any area of specialization.

MUSC 2681 - Private Instruction

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $445.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Completion of two semesters of MUSC 1681 or MUSC 1682 with a grade of "C" or better.
May be repeated 4 times with a maximum of 4 credit hours.

MUSC 2682 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*

Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.

Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Completion of two semesters of MUSC 1681 or MUSC 1682 with a grade of "C" or better. May be repeated 4 times with a maximum of 8 credit hours.

MUSC 2820 - Pro Tools 101

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $79.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab maintenance.

Description: This course covers basic Pro Tools principles. It provides everything you need to complete a Pro Tools project from initial set up to final mix-down. The course focuses on Pro Tools software and covers a multitude of new functions and feature enhancements. Whether your project involves recording live instruments, MIDI sequencing of software synthesizers, or audio editing or region looping, this course will give you the basic skills to succeed.

MUSC 2821 - Percussion Methods

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $17.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.

Description: A practical and analytical approach to teaching and playing percussion instruments, including selection of appropriate repertoire and minor repair.
Note: Music Majors and Minors only

MUSC 2822 - Percussion Methods II

Credits: (1)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.

Description: A continuation of MUSC 2821.

Pre-requisite(s): MUSC 2821.
Note: Music Majors and Minors only

MUSC 2823 - Pro Tools 110

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Course Fee: $79.00

Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.

Description: This course provides a more detailed look at the Pro Tools system above and beyond the knowledge you gained in the Pro Tools 101 course. It covers all the key concepts and skills needed to operate a Pro Tools system at the User level. The course along with Pro Tools 101: An Introduction to Pro Tools, provides the foundation to Pro Tools Certification and for the later 200-series of courses on Pro Tools music and post-production.

Pre-requisite(s): MUSC 2820/MUSC 4820.

MUSC 2841 - Brass Methods

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $16.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: A practical and analytical approach to teaching and playing brass instruments, including selection of appropriate repertoire and minor repair.
Note: Music Majors and Minors only.

MUSC 2842 - Brass Methods II

Credits: (1)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: A continuation of MUSC 2841.
Pre-requisite(s): MUSC 2841.
Note: Music Majors and Minors only.

MUSC 2851 - Woodwind Methods

Credits: (2)
Typically Taught Fall Semester: *Full Sem odd years*
Course Fee: $17.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: A practical and analytical approach to teaching and playing woodwind instruments, including selection of appropriate repertoire and minor repair.
Note: Music Majors and Minors only.

MUSC 2852 - Woodwind Methods II

Credits: (1)
Typically Taught Spring Semester: *Full Sem even years*

Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.

Description: A continuation of MUSC 2851.

Pre-requisite(s): MUSC 2851

Note: Music Majors and Minors only.

MUSC 2871 - String Methods

Credits: (2)
Typically Taught Fall Semester: *Full Sem odd years*
Course Fee: $17.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: A practical and analytical approach to teaching and playing string instruments, including selection of appropriate repertoire and minor repair.

Note: Music Majors and Minors only.

MUSC 2881 - Vocal Workshop

Credits: (2)
Course Fee: $2.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Development of the singing voice with special attention to freedom of tones, purity of vowels, interpretation, diction, and flexibility.

Note: Music Majors and Minors only.

MUSC 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all students in the music area who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated to a maximum of 6 credits.

Note: Music Majors and Minors only.

MUSC 2910 - Opera Production

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: By audition only. Preparation of operatic scenes and music. Music and staging rehearsal venue for the preparation of fully staged opera productions.

May be repeated up to 10 times.

MUSC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Music Majors and Minors only.

MUSC 3102 - Counterpoint

Credits: (2)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Eighteenth century polyphonic techniques including the five contrapuntal species, formal processes, analysis, and compositional application of concepts studied.
Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalents.
Note: Music Majors and Minors only.

MUSC 3112 - Orchestration

Credits: (2)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $20.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: An exploration of principles of arranging music for instrumental sections and instrumental combinations.
Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalents.
Note: Music Majors and Minors only.

MUSC 3122 - Choral Arranging

Credits: (2)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee: $20.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: An exploration of principles of arranging music for various voice groups.
Pre-requisite(s): MUSC 2120 and MUSC 2140 or equivalent.
Note: Music Majors and Minors only.

MUSC 3202 - Winds/Percussion Literature

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: A study of a cross-section of music leading to knowledge of styles, composers, and performance practice related to the student's instrument and family of instruments.

MUSC 3205 - Music History I: Music before 1800

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A survey of the developments in European art music, ca. 400-1800. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.
Pre-requisite(s): MUSC 1120 and MUSC 1140.

MUSC 3206 - Music History II: Music after 1800

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A survey of the developments in European art music, ca. 1800 to the present. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.
Pre-requisite(s): MUSC 3205.

MUSC 3207 - Music History III: Music of the 20th century to the present

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: Standard DPA Technology fee.
Description: A survey of the developments in European art music from ca.1890 to the present. The course emphasizes stylistic and critical analysis of representative compositions within historical and cultural contexts.
Pre-requisite(s): MUSC 3206.

MUSC 3208 - World Music

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: An in-depth exploration of selected music outside the European/ American art and popular traditions. Attention will be given to musical elements and systems, as well as to the participation of music within culture and society.
Note: Course restricted to Music majors/minors only.

MUSC 3302 - Keyboard Literature I

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.

Description: This course is designed to acquaint pianists with the principal keyboard composers of the Baroque and Classical periods. Piano majors and minors only.

MUSC 3312 - Keyboard Literature II

Credits: (2)

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3611 - Applied Keyboard: Organ

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3620 - Applied Voice

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3630 - Applied Woodwinds: Flute

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3631 - Applied Woodwinds: Oboe

Credits: (1)
Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3632 - Applied Woodwinds: Clarinet

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3633 - Applied Woodwinds: Saxophone

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3634 - Applied Woodwinds: Bassoon

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3640 - Applied Brass: Trumpet

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors

to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3641 - Applied Brass: French Horn

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3642 - Applied Brass: Trombone

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3643 - Applied Brass: Euphonium/Tuba

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3650 - Applied Strings: Violin

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3651 - Applied Strings: Viola

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3652 - Applied Strings: Violoncello

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3653 - Applied Strings: String Bass

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3654 - Applied Strings: Guitar

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3655 - Applied Strings: Harp

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3660 - Applied Percussion

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 3673 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $890.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be taken for credit up to three times in any area of specialization.

MUSC 3681 - Private Instruction

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $445.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Completion of two semesters of MUSC 2681 or MUSC 2682 with a grade of "C" or better.

May be repeated 4 times with a maximum of 4 credit hours.

MUSC 3682 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Completion of two semesters of MUSC 2681 or MUSC 2682 with a grade of "C" or better. May be repeated 4 times with a maximum of 8 credit hours.

MUSC 3701 - Music Entrepreneurship and You

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will provide an introduction and overview of topics relevant to creating and managing a career as a professional musician in the 21st Century. Specific topics covered include marketing, networking, finances, and other topics as they relate to music and musicians.

MUSC 3730 - Keyboard Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Training in piano ensemble situations to develop fluency in reading. Keyboard majors and minors only. Fulfills the major ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.
Note: Music Majors and Minors only.

MUSC 3740 - Weber State Concert Choir

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Fulfills the major ensemble requirement for music majors and minors. No audition required.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3741 - Chamber Choir

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A highly select group of approximately 24 singers performing the entire range of small choir literature. Fulfills the chamber ensemble requirement for music majors. By audition only.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3743 - Vocal Chamber Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Training in small vocal groups such as trios, quartets, and sextets. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3744 - Musical Theatre

Credits: (1-2)
Description: Rehearsal and performance of musical theatre productions. By audition only.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3745 - Weber State Community Choir

Credits: (1)
Description: Membership by audition or consent of instructor. Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.
Note: Note: This course is not currently active. It is only available in the evenings when offered.

MUSC 3750 - Symphonic Band

Credits: (1-2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Emphasis is on the study and preparation of modern symphonic band literature. Fulfills the major ensemble requirement for music majors and minors.
May be repeated up to 7 times.

MUSC 3751 - Wind Ensemble

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Emphasis is on study and performance of literature for selected wind and percussion ensembles of varying size. Participants may be required to participate in symphonic band. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: By audition and/or consent of the director to students on flags, rifles, and band instruments. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3753 - Jazz Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated up to 10 times.

MUSC 3754 - Percussion Ensemble

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3755 - Instrumental Chamber Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Training in instrumental chamber ensembles such as trios, quartets, quintets, and sextets.
Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3756 - Pep Band

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Plays at athletic functions using contemporary jazz, rock, and popular music. By audition.
Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3760 - Weber State Symphony Orchestra

Credits: (1-2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Full symphony orchestra instrumentation.
Fulfills the major ensemble requirement for music majors and minors.
May be repeated up to 7 times.

MUSC 3761 - Chamber Orchestra

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Membership by audition or consent of instructor. Fulfills the chamber ensemble requirement for music majors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3762 - Theatre Orchestra

Credits: (1-2)
Description: Membership by audition or consent of instructor. Instrumentation determined by the music production being presented. Does not fulfill any ensemble requirement for music majors or minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3763 - Guitar Ensemble

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Membership by audition or consent of instructor. Fulfills the major ensemble requirement for music majors and minors.
May be repeated 7 times with a maximum of 8 credit hours.

MUSC 3801 - Jazz Improvisation I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Beginning study of jazz improvisation. Topics covered include basic jazz harmony, chord/scale relationships, and basic jazz repertoire.

MUSC 3802 - Jazz Improvisation II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Continuing study of jazz improvisation. Topics covering include common jazz patterns, complex harmony and harmonic resolution, transcription, and analysis.

MUSC 3803 - Jazz and Commercial Arranging

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Introduction to arranging jazz and commercial music. Topics include elements of arranging, instrumental considerations, voicing techniques, and compositional techniques.
Pre-requisite(s): Completion of MUSC 1110 - Music Theory I with a grade of "C" or better.

MUSC 3804 - Jazz Pedagogy

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Description: This class will prepare students for teaching jazz to students in secondary education. Topics include specific instrumental considerations, improvisation, and jazz ensemble rehearsal technique.

MUSC 3805 - Jazz Keyboard Skills

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Basic jazz keyboard and jazz theory. Topics include beginning to intermediate jazz harmony, tertiary and quartal voicings, harmonic substitutions and reharmonization, and well as jazz piano performance practice.
Pre-requisite(s): Completion of MUSC 1160 - Class Piano II with a grade of "C" or better.

MUSC 3806 - Jazz History

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In depth study of the history of jazz for music majors. Students will learn about important individuals, historical events, and stylistic trends that have shaped jazz from its inception to the modern day and relate those topics to their instrument of study.

MUSC 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MUSC 3822 - Instrumental Conducting I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Basic conducting technique and advanced techniques for conducting instrumental ensembles.
Pre-requisite(s): MUSC 1120/MUSC 1140.
Note: Music Majors and Minors only.

MUSC 3823 - Instrumental Conducting I-II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Basic conducting technique and advanced techniques for conducting instrumental ensembles.

Pre-requisite(s): MUSC 1120 and MUSC 1140.
Note: Music Majors and Minors only.

MUSC 3824 - Music for Elementary Teachers

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $23.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Methods and materials for teaching elementary school music (grades K-6) including skill development on selected elementary classroom instruments.

MUSC 3840 - Advanced Concepts in Music Theory

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Building on topics covered in Music Theory IV, this course will explore advanced harmonic and theoretical concepts of music of the 19th and 20th centuries, as well describe analytical techniques for music composed during this time period.
Pre-requisite(s): MUSC 2120 and MUSC 2140.
Note: Music Majors and Minors only.

MUSC 3842 - Producing the School Musical

Credits: (2)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A detailed study of musical theatre and the practical application of skills, techniques, and materials necessary for production in secondary schools.
Note: Music Majors and Minors only.

MUSC 3851 - Stringed Instrument Pedagogy I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: An in-depth study of pedagogical methods employed in teaching the four orchestral stringed instruments to beginning and intermediate level students.
May be repeated up to 9 credit hours.
Note: Music Majors and Minors only.

MUSC 3852 - Stringed Instrument Pedagogy II

Credits: (2)
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continued in-depth study of pedagogical methods employed in teaching the four orchestral stringed instruments with a focus on upper intermediate and advanced level students.
Pre-requisite(s): MUSC 3851.
Note: Music Majors and Minors only.

MUSC 3872 - Choral Conducting I

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Basic conducting technique and advanced techniques for techniques for conducting choral ensembles.
Pre-requisite(s): MUSC 1120 and MUSC 1140.
Note: Music Majors and Minors only.

MUSC 3882 - Choral Conducting II

Credits: (2)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Basic conducting technique and advanced techniques for techniques for conducting choral ensembles.
Pre-requisite(s): MUSC 1120 and MUSC 1140.
Note: Music Majors and Minors only.

MUSC 3924 - Music Teaching and Learning in the Elementary School

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course.
Description: As an introduction to the role of music in the lives of children, this course provides opportunities for music majors to develop their rapport with elementary students. The course will include selecting literature and designing effective instructional strategies aligned with the Utah K-6 music core curriculum as well as the national music standards. Students will be introduced to different philosophical and pedagogical approaches as well as develop and implement age-appropriate assessment strategies. Students will develop their understanding of music's role in an interdisciplinary curriculum. A field experience with elementary-age students is required.
Pre-requisite(s): Completion of MUSC 2150 - Class Piano III with a grade of "C" or passing the piano

proficiency exam.
Note: Music Majors and Minors only.

MUSC 3991 - Junior Recital

Credits: (0)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Applied instruction in preparation for and public performance of a 30 minute recital.
Pre-requisite(s): Approval of instructor.
Note: Music Majors and Minors only.

MUSC 4302 - Keyboard Pedagogy I

Credits: (2)
Typically Taught Fall Semester: *Full Sem odd years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Comprehensive study of keyboard pedagogy. Piano Majors and Minors only.

MUSC 4312 - Keyboard Pedagogy II

Credits: (2)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Continuation of MUSC 4302. Comprehensive study of keyboard pedagogy. Piano Majors and Minors only.

MUSC 4322 - Keyboard Pedagogy III

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Continuation of MUSC 4312.
Pre-requisite(s): MUSC 4312.

MUSC 4332 - Keyboard Pedagogy IV

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Continuation of MUSC 4322.
Pre-requisite(s): MUSC 4322.

MUSC 4402 - Vocal Pedagogy I

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $4.00

Course Fee Purpose: This fee will be used to support instructional technology.

Description: Comprehensive study of the principles, rules and procedures pertaining to the development, exercise, and practice of the art of singing and the science of teaching singing.

Pre-requisite(s): Two semesters of piano required.

Note: Music Majors and Minors only.

MUSC 4412 - Vocal Pedagogy II

Credits: (2)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Comprehensive study of the principles, rules and procedures pertaining to the development, exercise, and practice of the art of singing and the science of teaching singing.
Note: Music Majors and Minors only.

MUSC 4610 - Applied Keyboard: Piano

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music Majors or Minors with a Keyboard Emphasis only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4611 - Applied Keyboard: Organ

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4620 - Applied Voice

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors

to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4630 - Applied Woodwinds: Flute

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4631 - Applied Woodwinds: Oboe

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4632 - Applied Woodwinds: Clarinet

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4633 - Applied Woodwinds: Saxophone

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4634 - Applied Woodwinds: Bassoon

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4640 - Applied Brass: Trumpet

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4641 - Applied Brass: French Horn

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4642 - Applied Brass: Trombone

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4643 - Applied Brass: Euphonium/Tuba

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.

Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4650 - Applied Strings: Violin

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4651 - Applied Strings: Viola

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4652 - Applied Strings: Violoncello

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4653 - Applied Strings: String Bass

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4654 - Applied Strings: Guitar

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: Standard DPA Technology fee.
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4655 - Applied Strings: Harp

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4660 - Applied Percussion

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be repeated 3 times with a maximum of 4 credit hours.

MUSC 4673 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $890.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Music majors and minors only. For vocal or instrumental students. Two hours of instruction/week. Minimum of 18 hours/week practice required. One-half hour special assignment. By consent of instructor only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
May be taken for credit up to three times in any area of specialization.

MUSC 4681 - Private Instruction

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $445.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Completion of two semesters of MUSC 3681 or MUSC 3682 with a grade of "C" or better. May be repeated 4 times with a maximum of 4 credit hours.

MUSC 4682 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Completion of two semesters of MUSC 3681 or MUSC 3682 with a grade of "C" or better. May be repeated 4 times with a maximum of 8 credit hours.

MUSC 4701 - Grant Writing & Non-Profits

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students will become familiar with the process of grant research, writing, and compliance. Theory will be applied into practice as students identify real-world organizations in need of funding, locate potential funding sources (including government, corporate, and foundation grants), write grant proposals, and submit those proposals to the funding organization.
Pre-requisite(s): Completion of MUSC 3701 with a grade of "C" or better.

MUSC 4771 - Stringed Instrument Literature I

Credits: (2)
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: A study of music for technical development, plus solo, and chamber music literature of the stringed instruments of the orchestra. This class will focus on music for beginning and intermediate students.
Note: Music Majors and Minors only.

MUSC 4772 - Stringed Instrument Literature II

Credits: (2)
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Advanced study of music for technical development, plus solo, and chamber music literature of the stringed instruments of the orchestra. This class will focus on music for upper intermediate and advanced students.
Pre-requisite(s): MUSC 4771.

MUSC 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

MUSC 4820 - Pro Tools 101

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: This course covers basic Pro Tools principles. It provides everything you need to complete a Pro Tools project from initial set up to final mix-down. The course focuses on Pro Tools software and covers a multitude of new functions and feature enhancements. Whether your project involves recording live instruments, MIDI sequencing of software synthesizers, or audio editing or region looping, this course will give you the basic skills to succeed.
May be taken twice for 4 credits.

MUSC 4822 - Secondary Music Methods

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase and maintenance of musical instruments used in the course. The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Provides music teachers with an introduction into methods of instruction, organization and presentation of appropriate content and musical literature in secondary school music classes
Pre-requisite(s): Completion of MUSC 3924 and MUSC 2150 with a grade of "C" or better.
Note: Music Majors and Minors only.

MUSC 4823 - Pro Tools 110

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $79.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands on activities and lab / studio maintenance.
Description: This course provides a more detailed look at the Pro Tools system above and beyond the knowledge you gained in the Pro Tools 101 course. It covers all the key concepts and skills needed to operate a Pro Tools system at the User level. The course along with Pro Tools 101: An Introduction to Pro Tools, provides the foundation to Pro Tools Certification and for the later 200-series of courses on Pro Tools music and post-production.
Pre-requisite(s): MUSC 4820.
May be taken twice for 4 credits.

MUSC 4830 - Directed Readings

Credits: (1-3)
Description: To be arranged.
May be taken for a maximum of 7 hours of credit.
Note: Music Majors and Minors only

MUSC 4842 - High School Music Methods

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: This fee will be used to support instructional technology.
Description: Methods of instruction, organization and presentation of appropriate content and musical literature in high school music classes. Emphasis is placed on the administration of the school music program.
Pre-requisite(s): Piano proficiency and MUSC 4822.
Note: Music Majors and Minors only

MUSC 4860 INT - Internship in Music

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Practical synthesis and application of knowledge and skills gained in pedagogy and methods courses. Students plan and implement lessons, document progress, and evaluate their teaching assignments in group or private settings.
May be repeated for a maximum of 12 credits.
Note: Music Majors and Minors only.

MUSC 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A continuation of MUSC 2890. Open to all students.

May be repeated to a maximum of 6 credits.

Note: Music Majors and Minors only.

MUSC 4900 - Senior Project--BA in Music

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will serve as a capstone project for the BA in Music. It will be taken during a student's final semester, and shall demonstrate the student's ability to synthesize the various components of her musical education. In conjunction with the general syllabus (attached), this individualized course will be governed by a contract (also attached). Depending upon the student's chosen track within the BA, examples of projects might include a major composition, a research paper, an analysis paper, a lecture-recital, etc.
Pre-requisite(s): Instructor approval.

MUSC 4910 - Opera Production

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Preparation of operatic scenes and music. Music and staging rehearsal venue for the preparation of fully staged opera productions. By audition only.

May be repeated up to 10 times for credit hours.

MUSC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: *Full Sem*
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Music Majors and Minors only.

MUSC 4991 - Senior Recital

Credits: (0)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Private instruction in preparation for and public performance of a one hour recital.

Note: Music Majors and Minors only.

MUSC 4992 - Senior Project

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Music education majors have the option of completing a senior project in lieu of the senior recital and should register for MUSC 4992 during the semester in which they plan to complete the project. Requires submission of a project proposal and approval by a faculty committee.
Pre-requisite(s): MUSC 4830.
Note: Music Majors and Minors only.

MUSC 4995 INT - Capstone Project

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: The fee for this course is used to support classroom technology and the purchase of a software site license.
Description: Under instructor guidance and mentorship, the student will submit a Capstone proposal based on the culmination of coursework and garnered experience. This may include, but is not limited to, producing and/or engineering a multitrack recording session with live musicians, creating the soundtrack for a video, or a scholarly presentation based on any relevant topic from the sound and recording BOK. Capstone completion required for minor.
Pre-requisite(s): Acceptance in the Sound Production/Recording program.

MUSC 6681 - Private Instruction

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.
Pre-requisite(s): Bachelor's degree in Music.
May be repeated 4 times with a maximum of 4 credit hours.

MUSC 6682 - Private Instruction

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual private instruction for music majors and minors only. Students are responsible for contacting individual instructors to schedule lessons. See the Music website for a list of private instructors.

Pre-requisite(s): Bachelor's Degree in Music.

May be repeated 4 times with a maximum of 8 credit hours.

NAVS 1010 - Introduction to Naval Science

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: A general introduction to the USN and USMC that emphasizes organizational structure, warfare components and assigned roles/missions of USN/USMC; covers all aspects of Naval Service from its relative position within DoD to the specific warfare communities/career paths; and includes basic elements of leadership and USN and USMC Core Values. The course will provide students with initial exposure to many elements of Naval culture and provides conceptual framework/working vocabulary for student to use on summer cruise.
Note: Cohort Code.

NAVS 1020 - Seapower and Maritime Affairs

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The NROTC Seapower and Maritime Affairs course is intended to be a study of the U.S. Navy and the influence of sea power upon history that incorporates both a historical and political perspective to explore the major events, attitudes, personalities, and circumstances that have imbued the U.S. Navy with its proud history and rich tradition. This course necessarily deals with issues of national imperative in peacetime as well as in war; varying maritime philosophies that were interpreted into Naval strategies and doctrines; and budgetary concerns which shaped force realities and the pursuit of American diplomatic objectives. It concludes with a discussion of the Navy's strategic and structural changes at the end of the Cold War and its new focus, mission, and strategy in the post September 11, 2001 world.
Note: Cohort Code.

NAVS 2000 - Leadership and Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The course introduces the student to many of the fundamental concepts of leading Sailors and Marines, which will be further expanded during the continuum of leadership development throughout the NROTC program. It introduces those elements of leadership vital to the effectiveness of Navy/Marine Corps officers by reviewing the theories and parameters of leadership and management within and outside of the Naval Service while additionally addressing values development, interpersonal skills, management skills, and application theory. Practical applications are explored through the use of experiential exercises, readings, case studies, and laboratory discussions.
Note: Cohort Code.

NAVS 2020 - Naval Ship Systems II: Naval Engineering

Credits: (3)
Typically Taught Spring Semester: *Full Sem*

Description: Students learn detailed ship design, hydrodynamic forces, stability, propulsion, electrical theory and distribution, hydraulic theory and ship control, and damage control. The course includes basic concepts of theory/design of steam, gas turbine, diesel, and nuclear propulsion. Case studies on leadership/ethical issues in the engineering arena are also covered.
Note: Cohort Code.

NAVS 2110 - Evolution of Warfare

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to provide a very basic understanding of the art of warfare and its evolving nature from the beginning of recorded history to the present day. The intent is to define war, introduce the student to the concepts of conducting war, and show how technology and the human element of conflict have combined to evolve the way war is conducted from ancient times to now.
Note: Cohort Code.

NAVS 3010 - Navigation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In-depth study of the theory, principles, procedures, and application of plotting, piloting, and electronic navigation, as well as an introduction to maneuvering boards. Students learn piloting techniques, the use of charts, the use of visual and electronic aids, and the theory of operation of both magnetic and gyrocompasses. Students develop practical skills in plotting and electronic navigation. Other topics include tides, currents, effects of wind/weather, voyage planning, and an application and introduction to the international/inland rules of navigation. The course is supplemented with a review/analysis of case studies involving moral/ethical/leadership issues pertaining to the concepts listed above.
Note: Cohort Code.

NAVS 3020 - Naval Operations and Navigation II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A continued study of relative motion, formation tactics, and ship employment. Introductions to Naval operations and operations analysis, ship behavior and characteristics in maneuvering, applied aspects of ship handling, afloat communications, Naval command and control, Naval warfare areas, and joint warfare are also included. The course is supplemented with a review/analysis of case studies involving moral/ethical/leadership issues pertaining to the concepts listed above.
Note: Cohort Code.

NAVS 3110 - Fundamentals of Maneuver Warfare

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Description: This course prepares future military officers and other leaders for service by studying modern tactical principles, current military developments, and other aspects of warfare and their interactions with and influences on maneuver warfare doctrine. There is a specific focus on the United States Marine Corps as the premier maneuver warfighting organization. Study also includes historical influences on tactical, operational, and strategic levels of maneuver warfare practices in the current and future operating environments. The course will also examine amphibious operations.
Note: Cohort Code.

NAVS 3210 - Marine Corps Bulldog Preparation

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Course prepares Marine Option Midshipmen (MO), Marine Enlisted Commissioning Program (MECEP) candidates, Platoon Leader's Class (PLC), and Officer Candidate Class (OCC) students to attend Marine Corps Officer Candidate School. The course exposes candidates to the theory and principles of military tactics, Marine Corps leadership and decision making, and the vigorous physical fitness requirements necessary to successfully complete Marine Corps Officer Candidate School. NOTE: This is an extremely strenuous physical fitness course, including an extensive outdoor component, which requires students to achieve superior levels of fitness at a military mandated standard.
Pre-requisite/Co-requisite: NROTC Student or be able to pass the Marine Corps Physical Fitness Test, possess satisfactory athletics physical, and possess evidence of health and accident insurance.
Note: Cohort Code.

NAVS 4000 - Naval Ship Systems I: Weapons

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course outlines the theory and employment of weapons systems. Students explore the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance, and explosives. Fire control systems and major weapons types are discussed, including capabilities and limitations. The physical aspects of radar and underwater sound are described. Facets of command, control, communications, computers, and intelligence are explored as a means of weapons system integration. The tactical and strategic significance of command and control warfare and information warfare is discussed. This course is supplemented with review/ analysis of case studies involving the moral and ethical responsibilities of leaders in the employment of weapons.
Note: Cohort Code.

NAVS 4020 - Leadership and Ethics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The course completes the final preparations of ensigns and second Lieutenants for service in the Navy and Marine Corps. The course integrates an intellectual exploration of Western moral traditions and ethical philosophy with a variety of topics, such as military leadership, core values, and

professional ethics; the UCMJ and Navy regulations; and discussions relating to the roles of enlisted members, junior and senior officers, command relationships, and the conduct of warfare. The course provides midshipmen with a foundation of moral traditions, combined with a discussion of actual current and historical events in the United States Navy and Marine Corps, to prepare them for the role and responsibilities of leadership in the Naval Service of the 21st century.
Note: Cohort Code.

NET 1030 - Foundations of Computing

Credits: (4)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course follows the core body of knowledge specified by the ACM which provides students with a broad overview of topics they might encounter within the major areas of computing. The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, web design and development, programming, database, software engineering, networking, and more. Cross-listed with CS 1030 and WEB 1030.

NET 1300 - Networks and Emerging Technologies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce the fundamentals of voice and data networking technologies. The course includes topics such as history of telecommunications, history of data networking, study of industry, transport media, common networking protocols, and emerging technologies.

NET 1400 - Introduction to Cyber Defense and Ethics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course will introduce the terminology, concepts, and defense techniques related to cyber defense. An overview of careers and professional organizations related to cybersecurity is also included. The ethics of working with information and cyber tools will be discussed.

NET 2010 - Business English Applications

Credits: (3)
Typically Taught Fall Semester: *Full Sem Online*
Description: Includes Business English essentials: grammar, punctuation, and proofreading. Keyboarding

40 wpm recommended.
Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501.

NET 2200 - Cybersecurity and System Fundamentals

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students enrolling in this course will be exposed to current computer hardware and software technologies including computer processors, memory, storage, motherboards, graphical processing units, and other related hardware. Current operating systems will be installed, configured, and optimized following industry best practice. Cybersecurity topics such as password policies, patch management, and system hardening will be emphasized throughout the course.

NET 2210 - Linux Systems Administration

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course gives students a solid foundation in the fundamentals of the Linux operating system. Students gain system-level experience through problem-solving exercises at the command line and in the graphical user interface (GUI). By the end of the course, students will have learned the major, essential, command-line commands necessary to be accomplished users of Linux.
Pre-requisite(s): NET 2200.

NET 2300 - Introduction to Networking and Cybersecurity

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides students with an introduction to the principles of computer networking and cybersecurity. Covered concepts include network topologies and design, network models, networking protocols, cybersecurity concepts, physical media, network addressing, equipment, basic cryptography, LAN management, network operations, troubleshooting, network attacks, and defense strategies.
Pre-requisite(s): CS 1030 or NET 2200.
Pre-requisite/Co-requisite: NET 2200.

NET 2310 - Network Server Administration

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students will learn how to install, configure, manage, and troubleshoot hardware and applications in a Server environment in different cloud ecosystems. With a specific focus on Server fundamentals, this course will teach students how to install servers, configure active directories, create and manage users, install server roles and features, perform diagnostics, and troubleshoot malfunctioning servers.
Pre-requisite(s): NET 2300 or CS 2705.

NET 2415 - Routing and Switching

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is designed to provide a practical understanding of the configuration, securing, and administration of routing and switching devices. Practical labs using Cisco equipment will be used to introduce, reinforce, and evaluate networking and security concepts. A detailed look into IP addressing, networking protocols, and security best practices is included.
Pre-requisite(s): NET 2300 or CS 2705.

NET 2435 - Cisco Advanced LAN and WAN Switching and Routing Theory and Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is the second in a two-course series designed to prepare students to pass the examinations for Cisco Certified Network Associate (CCNA). This course covers advanced router configurations, LAN switching theory and VLANs, advanced LAN and LAN switched design, Novell IPX, WAN theory design and technology, PPP, frame relay, ISDN, network troubleshooting, national SCANs skills, and threaded case studies.
Pre-requisite(s): NET 2415.

NET 2500 - Practical Cybersecurity Infrastructure

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students enrolled in this course will be exposed to hands-on application of concepts and topics in the computer networking and cybersecurity fields. Topics covered in this course include exposure to current physical desktop and server hardware, configuration of networking devices such as

switches, routers, access points, firewalls, copper and/or fiber optic cable installation, and applying theory and concepts from prior courses in a hands-on environment.
Pre-requisite(s): NET 2210 and NET 2310 and NET 2415.

NET 2510 - Cyberethics

Credits: (1)
Typically Taught Fall Semester: *1st Blk, 1st Blk - Online*
Typically Taught Spring Semester: *1st Blk, 1st Blk - Online*
Description: Explores how the structural, competitive, economic, environmental, and ethical forces affect the continuing transformation of the networking industry both domestically and internationally.
Pre-requisite(s): CS 1030.

NET 3210 - Cloud Architecture and Security

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Cover the costs of equipment maintenance and replacement of hardware, academy memberships, software licensing, consumable materials and supplies, and cloud fees.
Description: This course covers designing and securing complex environments in the cloud. A particular focus will be on LAMP stack development and support of business processes. Lab work in cloud environments will be used to learn and reinforce key concepts.
Pre-requisite(s): NET 2210 and NET 2310.

NET 3300 - Advanced LAN Security Management

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides an in-depth look into the field of network security. Specific topics to be examined include networking protocols and threats, authentication models, cryptography, layer 2 security, application security, social engineering, access control lists, firewalls, risk management, and OS hardening.
Pre-requisite(s): NET 2300 or CS 2705.

NET 3415 - Cisco CCNPB-Advanced Router Configuration

Credits: (3)
Description: Building Scalable Cisco Networks (BSCN). Addresses tasks network managers and administrators need to perform when managing access and controlling overhead traffic in growing routed networks once basic connectivity has been established. Discusses router capabilities used to control traffic over LANs and WANs, as well as connecting corporate networks to an Internet Service

Provider (ISP).

Pre-requisite(s): NET 2435 or CCNA Certification or CS 3705.

Note: This course is not currently offered.

NET 3425 - Cisco CCNP-Building Cisco Switched Networks

Credits: (3)

Description: Building Cisco Multilayer Switched Networks (BCMSN). Teaches network administrators how to build campus networks using multilayer switching technologies over high speed Ethernet. Teaches how routing and switching concepts and implementations technologies work together.

Pre-requisite(s): NET 2435 or CCNA Certification.

Note: This course is not currently offered.

NET 3435 - Cisco CCNP--Remote Access Networks

Credits: (3)

Description: Teaches how to build a remote access network to interconnect central sites to branch offices and home office/telecommuters. Further teaches students how to control access to the central site as well as maximizes bandwidth utilization over remote links.

Pre-requisite(s): NET 2435 or CCNA Certification.

Note: This course is not currently offered.

NET 3445 - Cisco CCNP--Internetwork Troubleshooting

Credits: (3)

Description: Hands-on lab exercises. Covers developments in Cisco IOS and Catalyst software. Teaches how to baseline and troubleshoot an environment using Cisco routers and switches for multiprotocol client hosts and servers connected with: Ethernet, Fast Ethernet, and Token Ring LANS; and Serial, Frame Relay and ISDN BRI WANs.

Pre-requisite(s): NET 2435 or CCNA Certification.

Note: This course is not currently offered.

NET 3550 - Supervising Information Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Application of supervisory functions in network management and multimedia settings including planning, structure, design, implementation, evaluation, problem-solving, and human resources.
Pre-requisite(s): NET 2300 or WEB 2300 or CS 2705.

NET 3600 - Principles of Business/Marketing Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching.
Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

NET 3610 - Methods of Teaching Marketing Education Subjects

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Analysis and research into methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading.
Pre-requisite(s):   WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

NET 3710 - Switching and Transmission Network Systems Management

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course covers management of switching and transport systems and their technologies from industry carrier systems to private business networks. Hands-on labs working with TDM lines and trunks, transport, IP routing, and SIP. Applications will be run on live LAN/WAN networks. Also, the course includes discussion of new technologies.
Pre-requisite(s): NET 2300 or CS 2705.

NET 3715 - Transmission Network Applications

Credits: (2)
Typically Taught Fall Semester: *Fall [Full Sem]*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Hands-on labs working with TDM lines and trunks, transport, IP routing, and SIP. Applications will be run on live LAN/WAN networks. Also, the course includes discussion of new technologies.
Pre-requisite(s): NET 2300.
Co-Requisite(s): NET 3710.

NET 3720 - Wireless Networking and Security

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: A study of wireless networks and wireless security. Topics include: WLAN standards, RF technologies, WLAN network security, WLAN troubleshooting, wireless administration, and wireless equipment configuration.
Pre-requisite(s): NET 2415.

NET 3730 - Survey of Information Security Policies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Explores how the structural, competitive, economic, environmental, and ethical forces affect the continuing transformation of the networking industry both domestically and internationally. Discussion of the impact of contemporary issues on the provider and the consumer of telecommunication services including the legal and ethical requirements and ramifications of electronic privacy are included.
Pre-requisite(s): NET 3300.

NET 4700 - Data and Voice Network Design

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: As a capstone course, students will design data and voice networks using industry metrics and rationale. Architecture, technologies, and standards associated with the design and management of modern data and voice networks will be covered.
Pre-requisite(s): NET 3710 and NET 3720.

NET 4740 - Security Vulnerabilities and Intrusion Mitigation

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and

supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A treatment of security issues related to computers and computer networking. This course is designed for advanced users, system administrators and network administrators. The course covers TCP/IP security issues, security policies, packet filtering, Internet firewall architecture and theory, detecting and monitoring unauthorized activity, password authentication, intrusion detection and prevention and other security issues involving Linux, UNIX and Microsoft Windows operating systems. A team project is included.

Pre-requisite(s): NET 3300, PS 3250, and CS 3705.

NET 4760 INT - Cybersecurity and Network Management Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Must be completed senior year in an information technology environment with company placement and outcomes approved by the department.
Pre-requisite/Co-requisite: NET 4700.

NET 4790 INT - Cybersecurity and Network Management Senior Project

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Capstone course applying the principles learned in the Cybersecurity and Network Management program to complete a student-designed project.
Pre-requisite/Co-requisite: NET 4700.

NET 4850 - Faculty Directed Research

Credits: (1-4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to permit Network Management Technology majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Network Management Technology. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET

4800, NET 4850 and NET 4890 may be taken to satisfy missing credits or to achieve full time academic status.
Pre-requisite(s): NET 2300.

NET 4890 - Cooperative Work Experience

Credits: (1-4)
Description:

The purpose of this course is to permit Network Management Technology majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET 4800, NET 4850 , and NET 4890 may be taken to satisfy missing credits or to achieve full time academic status
Pre-requisite(s): NET 2300.

NET 4990 - Senior Project

Credits: (3)
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Research, analysis, presentation, and discussion of topics relative to graduating majors and minors.
Pre-requisite(s): WEB 2860 or equivalent.
Note: This course is offered as needed.

NET 6600 - Principles of Business/Marketing Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This graduate-level course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching. NET 6600 may be substituted for NET 3600 in the undergraduate Business Education Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.
Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503 and a bachelor's degree.

NET 6610 - Methods of Teaching Business Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This graduate-level course includes an evaluation and application of the methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading. The students will write a unit-long Learning Activity Package (LAP) and will demonstrate teaching in a business/marketing course. NET 6610 may be substituted for NET 3610 in the undergraduate Business Education Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.
Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503; and a bachelor's degree.

NEUR 2950 - Introduction to Neuroscience

Credits: (3)
Course Fee: $15.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of neuroscience principles and techniques.
Description: Introduction to the interdisciplinary field of neuroscience, which examines the function and dysfunction of the human and animal nervous system. The course spans the major areas of neuroscience including cellular/molecular factors, neuron physiology, brain structure and function, and medical/clinical applications. The topics addressed are critical to multiple fields of study (e.g. health sciences, psychology, and zoology) and provides the skills necessary for students to succeed in upper-division courses related to the brain and behavior.
Pre-requisite(s): PSY 2710 or CHEM 1010 or CHEM 1110 or CHEM 1130 or ZOOL 2420 or ZOOL 1020 or ZOOL 1370.

NEUR 3750 - Cognitive and Behavioral Neuroscience

Credits: (3)
Description: This course challenges students to apply knowledge of nervous system structure and function to higher order cognitive functions and motor abilities including attention, memory, emotions, language and symbolic functions, reasoning, decision making, problem solving, voluntary movement, and consciousness.
Pre-requisite(s): NEUR 2950 or NEUR 2050 or PSY 2710 or instructor approval.

NEUR 3850 - Clinical Neuroscience

Credits: (3)
Description: This is an advanced undergraduate course primarily for Neuroscience minors, but open to all

students. Students will apply a knowledge of neuroanatomy, neurophysiology, cognition, and behavior to discuss and solve in-depth clinical case studies in the classroom setting. The course will consist of instructor-led and student-led activities to explore a range of nervous system disorders.
Pre-requisite(s): NEUR 2950 or NEUR 2050 or consent of instructor.

NEUR 3950 - Cellular and Molecular Neuroscience

Credits: (3)
Description: Students will explore the cellular and molecular basis for nerve cell function.
Pre-requisite(s): NEUR 2950.

NEUR 3998 - EEG in Epilepsy

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester, probably at the University of Utah, will be required and there is a required research paper.

NEUR 3999 - EEG in Ped Patients & Neonates

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester, probably at the University of Utah, will be required and there is a required research paper.

NEUR 4444 - Human Neuroanatomy

Credits: (3)
Description: An advanced course in human neuroanatomy. Students will learn the major structures of the human brain and spinal cord as well as the pathways that connect them.
Pre-requisite(s): NEUR 2950.

NEUR 4800 - Projects and Research

Credits: (1-3)
Description: Supervised participation in projects and/or primary research with a faculty mentor in various areas of neuroscience. Limited to advanced students upon consent of neuroscience faculty mentor and the Neuroscience Program director. A paper written in APA style and an oral report are required at the end of the semester.
Pre-requisite(s): NEUR 2950 or NEUR 2050 (Introduction to Neuroscience), PSY 3600 (Statistics) or

equivalent, and faculty mentor permission.

Students may enroll in this course twice for a maximum of 6 credit hours.

NEUR 4810 - Experimental Course

Credits: (1-6)
Experimental
Typically Taught Spring Semester: *Full Sem odd years*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

NEUR 4830 - Directed Readings

Credits: (1-3)
Description: Independent readings or secondary research on advanced neuroscience special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.
Pre-requisite(s): NEUR 2950 or NEUR 2050 (Introduction to Neuroscience), PSY 3600 (Statistics) or equivalent, and faculty mentor permission.

Students may enroll in this course twice for a maximum of 6 credit hours.

NEUR 4900 - Topics in Neuroscience

Credits: (1-3)
Variable Title
Description: This course offers an in-depth exploration of selected topics and issues in the discipline. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the Neuroscience Program Director.
Pre-requisite(s): NEUR 2950 or NEUR 2050 or consent of instructor.

The course may be taken up to three times for a maximum of six credit hours.

Note: This course is taught as needed.

NEUR 4949 - The Neuroscience of Sex, Romance, and Gender

Credits: (3)
Description: This course will examine three human imperatives (sex, romance, and gender) from a neuroscience perspective. The neuroscience basis for each of these aspects of human behavior will be examined through directed readings and in-class discussions.
Pre-requisite(s): PSY 1010

NRSG 2100 - Pharmacology for Nurses I

Credits: (1.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*

Description: This course incorporates basic pharmacological and nonpharmacological interventions used by the nurse to promote health across the lifespan. Course content includes principles of safe medication administration and pharmacotherapeutics with a focus on prototype medications. This course provides a foundation of pharmacology knowledge for the nurse.

Pre-requisite(s): Admission to the Nursing Program.

Co-Requisite(s): NRSG 2200 and NRSG 2251.

NRSG 2200 - Nursing Foundations

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students are socialized into the profession of nursing, taught scope of practice, rules and ethics. Building nursing care on a health/wellness continuum is introduced. Students begin the nursing process through assessment of health and wellness in individuals, families and populations throughout the lifespan, and in diverse cultures and environments. 3 lecture hours per week.

Pre-requisite(s): Admission to the Nursing Program.

Co-Requisite(s): NRSG 2100.

NRSG 2251 INT/CEL - Foundations of Nursing Lab and Clinical

Credits: (4.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $320.00
Course Fee Purpose: Course fees are used for expenses connected with a course that goes beyond the standard expectation of university support. These funds are used for expendable items, non-expendable items, technology, and lab support.
Description: This course will include a combination of lab, simulation, and clinical experiences. Students will focus on identifying and implementing foundational nursing skills. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings.

Pre-requisite(s): Admission into the nursing program.

Co-Requisite(s): NRSG 2200 and NRSG 2100.

NRSG 2283 - Directed Readings and Projects

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*

Pre-requisite(s): Instructor approval.

(Maximum of 3 semester hours per year).

NRSG 2300 - Patient-Centered Nursing Care I

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Focused theory with emphasis on nursing care across the lifespan for patients experiencing changes in health status. Focus will be on identifying chronic diseases and developing a nursing strategy to promote wellness and quality of life for the patient. Clinical will focus on application of theory related to nursing care of patients in multiple environments and across the life-span. 3 lecture hours per week.
Pre-requisite(s): NRSG 2100, NRSG 2200.

NRSG 2351 INT/CEL - Patient-Centered Nursing Care Experience I

Credits: (4.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $320.00
Course Fee Purpose: Course fees are used for expenses connected with a course that go beyond the standard expectation of university support. These funds are used for expendable items, non-expendable items, and lab support.
Description: This course will include a combination of clinical, simulation, and laboratory experiences. Students will build on previous skills and knowledge and focus on demonstrating and examining safe and efficient patient care. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings.
Pre-requisite(s): Admission to Nursing Program; NRSG 2100, NRSG 2200, and NRSG 2251.
Co-Requisite(s): NRSG 2300 and NRSG 2700.

NRSG 2500 - Patient-Centered Nursing Care II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Focused theory with emphasis on nursing care across the lifespan for patients experiencing changes in health care status. Focus will be on caring for patients in the acute care setting with a goal of restoring optimal health and wellness.

NRSG 2551 INT/CEL - Patient-Centered Nursing Care Experience II

Credits: (4.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $350.00
Course Fee Purpose: Course fees are used for expenses connected with a course that go beyond the normal expectation of university support. These funds are used for expendable items, non-expendable items, and lab support.
Description: This course will include a combination of clinical, simulation, and laboratory experiences. Students will build on previous skills and knowledge and focus on developing and critiquing safe and efficient patient care. Students will have the opportunity to practice in a controlled environment, where they will pass off required skills and simulate clinical experiences. Students will also apply learned skills in clinical facilities. In order to pass the course, students must pass all three components of the course (lab, clinical, and simulation). This course focuses on application of concepts related to nursing care of patients in multiple environments and across the lifespan in various settings.

NRSG 2700 - Pharmacology for Nurses II

Credits: (1.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course builds on basic pharmacological principles from NRSG 2100 to promote health across the lifespan with an emphasis on patient safety. Prototype drugs are used to explore a variety of pharmacologic and therapeutic medication classes to promote patient health and well-being.
Pre-requisite(s): NRSG 2100, NRSG 2200, and NRSG 2251.
Co-Requisite(s): NRSG 2300 and NRSG 2351.

NRSG 3100 - Pharmacology for Nurses III

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores advanced pharmacological treatments used by the nurse to promote health across the lifespan. Course content has emphasis on the administration of intravenous medication in the provision of acute medical care.
Co-Requisite(s): NRSG 2500, NRSG 2551.

NRSG 3200 - Complex Patient Centered Nursing Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Theory focuses on nursing care of patients with complex changes in health status requiring extensive multifaceted resources.
Three hours of lecture per week.

Pre-requisite(s): NRSG 2500 and NRSG 3100.

Co-Requisite(s): NRSG 3300 and NRSG 3350.

NRSG 3300 - Entry Into Nursing Professional Practice

Credits: (3.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Entry into Nursing Professional Practice focuses on synthesis of nursing knowledge, skills, and attitudes necessary for transition to professional nursing practice. Students use advanced testing strategies and comprehensive content review to prepare for successfully completing the NCLEX-RN® licensing examination. In addition, a cumulative pharmacology review will be included in the course.
Pre-requisite(s): NRSG 2500 and NRSG 3100.
Co-Requisite(s): NRSG 3200 and NRSG 3350.

NRSG 3350 INT/CEL - Entry Into Nursing Professional Practice Capstone

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Clinical preceptorship focuses on synthesis of nursing knowledge, skills, and conduct necessary for entrance into registered nursing practice.
9 clinical hours per week.
Pre-requisite(s): NRSG 2500 and NRSG 3100.
Co-Requisite(s): NRSG 3200 and NRSG 3300.

NRSG 3400 - Mental Health: The Complex Role

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: Advanced theories and concepts of nursing practice are explored across the lifespan for those experiencing alterations in mental health.

NRSG 3440 - Coping in Your Profession

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The healthcare profession can be a highly rewarding career, but it can also be riddled with stress. This course will explore contributing factors that may cause stress among healthcare professionals. Burnout can be a direct result of stress in the workplace. The student will examine the causes of burnout, and more importantly, explore tools to prevent and treat burnout.

NRSG 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

NRSG 4000 - Culture and Health Care

Credits: (2)
Description: This course is an exploration of culture, health care issues and experiences at the local, regional, national, or international levels. The learner will study and compare the health care of a selected country/community from the cultural, political and educational perspective.
Credit hours (2), 2 lecture hours per week.
Pre-requisite(s): Admission to Weber State University; recommended for nursing students, Licensed Nurses, and other healthcare providers.
May be repeated up to 99 times.

NRSG 4001 - Clinical Experience Related to Culture and Health Care of Nurses

Credits: (1-3)
Description: This course is a Study Abroad Experience for Health Care Workers to explore the relationship between culture, health care and nursing issues at local, regional, national, and/or international levels. Information gained during NRSG 4000 will assist the student to put into practice the concepts learned. Credit hours (1-3). Lab hours depend on the country visited.
Pre-requisite/Co-requisite: Co-requisite or prerequisite: NRSG 4000 related to area being visited.
May be repeated up to 99 times.

NRSG 4010 - Interdisciplinary Health Care Teams

Credits: (3)
Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.
Cross-listed with DENT 4010 & HTHS 4010.
May be repeated once up to 6 credit hours.

NRSG 4022 - Nursing Care of the Trauma Patient

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will cover the systematic and standardized approach for assessing and managing patients who have sustained traumatic injuries. Students will be able to identify assessment findings that may vary in special populations such as pediatrics, geriatric, bariatrics and pregnancy. Students will

be able to identify roles and responsibilities of each member of the trauma team and coordinate care to improve the patients' outcomes.

This course will collaborate with other disciplines such as PARA 2020 to exchange case studies, allowing nursing and students from other disciplines the opportunity to share how they would approach and provide for the traumatically injured client. The exchange between these two classes will give students from both disciplines insights into the challenges, strengths, and limitations of their counterparts.

NRSG 4045 - ELNEC: End-of-Life Nursing Education Consortium

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed from the nationally recognized guidelines of the End-of-Life Nursing Education Consortium (ELNEC) project. These guidelines are revised regularly to reflect current advances in the field. The purpose of the ELNEC project is to support the knowledge and skills of nurses in providing palliative care to patients who are experiencing serious illness or end of life. ELNEC content focuses on nursing care at the end of life; pain management; symptom management; ethical/legal issues; cultural considerations in end-of-life care; communication; loss, grief, bereavement; and preparation for and care at time of death.
Pre-requisite(s): Admission to a nursing program or current registered nurse.

NRSG 4050 - Nursing Assessment Across the Life Span

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides the theory requisite for the systematic examination and analysis of subjective and objective health assessment data obtained during the health assessment process. The health status of a client will be determined through the process of differential analysis of both the anecdotal evidence provided by the client and empirical evidence gathered during the physical examination. With this evidence, students will learn to apply the scientific process of formulating and testing hypothetical diagnoses. The overall purpose will be focused upon developing strategies and skills to assess the health care needs of people across the life span. Students are challenged to identify normal assessment findings and critically analyze variations from normal.

NRSG 4060 - Oncology Nursing

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course provides learning opportunities for nurses who work in various areas of health care with minimal opportunities to care for patients with cancer. The learning activities are based on

current evidence, clinical experts, and patient values-evidenced-based practice. Throughout the course, an emphasis is placed on the collaborative interprofessional team tasked with managing the care of the patients regarding cancer diagnosis, cancer treatments, unintentional consequences stemming from treatment, and emotional aspects involved in caring for patients with cancer.

NRSG 4070 - Disaster Nursing

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Terrorism, war and natural disasters present new challenges to nurses and requires they be trained to care for resultant victims. Learning emphasizes crisis management, specific patient/health issues and unique nursing interventions. (Hybrid)

NRSG 4080 - Adult Critical Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Advanced theories and concepts of nursing practice are explored in relation to adults experiencing life threatening alterations in health. (Hybrid)

NRSG 4090 - Nursing: High Risk OB/Pediatric Patient

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: At risk pediatric and obstetric populations require multiple interventions from knowledgeable caregivers. In this course, students will learn theory and concepts associated with caring for these high-risk populations. By the end of this course students will have an increased understanding of nursing care and application of evidence-based care for improved outcomes. (Hybrid).

NRSG 4100 - Care Coordination and Interdisciplinary Collaboration for Safe Patient Outcomes

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4100 is designed to assist students in learning theory and concepts related to nursing care of patients with chronic conditions, including illness implications and education for patients and families. Topics will include areas such as genetic conditions, caregiver stress and grieving, as well as advocacy for vulnerable populations. The course will incorporate application of advanced skills and knowledge to address coordination of complex care issues and healthcare resources inherent in caring for patients and families experiencing chronic conditions.

NRSG 4200 SUS - Scholarship for Evidence-Based Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4200 focuses on a basic understanding of how multiple sources of evidence are developed and integrated into an evidence-based nursing environment. These sources include the formal research process, quality improvement data, clinical judgment, inter-professional perspectives, and patient preference. This course will include the application of advanced knowledge and skills required for translating reliable evidence into evidence-based practice and clinical judgments. The course will also support the establishment of a research-base for the student's personal nursing practice, as well as influence the continual improvement of healthcare quality and safety.

NRSG 4300 - Healthcare Policy and Decision Making

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4300 will explore healthcare policies, including financial and regulatory policies, which directly and indirectly influence nursing practice. These policies shape responses to organizational, local, national, and global issues of equity, access, affordability, and social justice. Students will apply advanced skills and knowledge to identify, analyze and problem-solve variables affecting nursing decisions and healthcare policy encountered in nursing practice. Topics will be presented that provide an overview of legal and ethical principles and theories, emphasizing the role of ethics and healthcare policy in nursing.

NRSG 4400 SUS/CEL - Population Health in Nursing

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4400 explores nursing in diverse populations in a local and global contest emphasizing disease prevention, health promotion and cultural competency for the improvement of health status throughout the lifespan. Focus will include disparities in health and health care services, and the impact of behavior and lifestyle choices. Course projects will incorporate application of advanced skills and knowledge related to health needs and health promotion at the individual and community level. Students will examine frameworks of community and public health, assess and analyze prevalent population-based health issues, and explore population-based interventions.

NRSG 4450 - Providing Identity-Affirming Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*

Description: This course explores how aspects of identity such as age, disability status, spiritual orientation, race/ethnicity, sexual orientation, gender identity and expression, culture, and ancestry shape how we interact with one another, and provide care. An understanding of terminology, history, cultural contexts, and social justice surrounding identity and intersectionality will prepare health and helping professionals as they emerge into an increasingly diverse society.

NRSG 4500 - Nursing Management and Leadership

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4500 is designed to facilitate student learning and application of advanced skills and knowledge related to nursing leadership and nursing management. In accordance with this, students will explore and examine personal and professional characteristics of nurse leaders and nurse managers which will prepare them to lead through evidence-based principles. Students will also gain experience in communication and collaboration with community partners and interdisciplinary teams, which will prepare them to assist in the advancement of the profession of nursing through empowerment, change, and anticipation of nursing's future.

NRSG 4600 - Communication, Collaboration, and Information Management in Healthcare

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Nursing 4600 will incorporate application of advanced skills and knowledge related to information management, patient care technology, and effective interpersonal communication modalities. These skills are critical in preparing nurses to deliver quality patient care in a variety of healthcare settings. Students will examine information management tools used to monitor: outcomes of care processes, patient care technologies essential to ensuring high quality, safe patient care, and communication and collaboration skills necessary to providing optimal patient-centered care.

NRSG 4700 - Forensic Nursing

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores nursing in the field of forensics in both criminal and civil contexts. The different roles and responsibilities of forensic nurses will be explored and best-practices for evidence collection and preservation will be reviewed. Holistic care of victims and families will be emphasized. Students will review victimology, evaluate prevalent population-based health issues, and explore forensic nursing interventions.

NRSG 4830 - Directed Theoretical Readings

Credits: (1-3)

Description: Involves a contract with faculty to include reading and writing of materials relevant to baccalaureate level nursing. Subject emphasis arranged with faculty.

May be repeated once up to 6 credit hours.

NRSG 4840 - Nursing Honors Project Development & Implementation

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Completion of this course is required for students enrolled in the Annie Taylor Dee School of Nursing Honors Program and working toward earning Departmental Honors in Nursing. Enrollment in this course requires program approval. This course facilitates nursing honors students in the development, implementation, evaluation, and presentation of their capstone honors project.

NRSG 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

May be repeated 5 times up to 6 credit hours.

NRSG 6010 - Fundamentals of Occupational Health Nursing

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to Occupational Health Nursing. NRSG 6010 describes the fundamentals of the profession and duties of nurses working in Occupational Health. The course explores environmental, sociopolitical and legal factors influencing Occupational Health. NRSG 6010 provides a foundation for NRSG 6020 and prepares learners for taking the ABOHN Occupational Health Certification Exam.

NRSG 6020 - Occupational Health Nursing Role Development

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to Occupational Health Nursing and builds upon NRSG 6010. NRSG 6020 the role and competencies of an Occupational Health Nurse (OHN) and prepares learners to take the ABOHN Occupational Health Certification Exam.
Pre-requisite(s): Undetermined at this time. This will be a 15-credit certificate program of which this

course is one of the five requisite courses. It will be done as a partnership (WSU 6 credits) with the University of Utah (9 credits).

NRSG 6110 - Translating Research and Evidence into Practice

Credits: (3)
Typically Taught Summer Semester: *2nd Blk Online*
Description: This course has been designed to expand on students' education and background regarding establishing an individual evidence-based practice to lead change at the organizational level. Students will critically appraise, compare, and evaluate published quantitative and qualitative research reports to develop, implement, and maintain an evidence-based innovation and/or practice within the professional settings of the nurse administrator and nurse educator.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.
May be repeated up to three times.

NRSG 6120 - Research and Statistics

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online (MSN), Full Sem Online (DNP)*
Typically Taught Fall Semester: *Full Sem Online (DNP)*
Typically Taught Spring Semester: *Full Sem Online (DNP)*
Description: This course focuses on the development of the knowledge and skill required to evaluate numerical data in support of an evidence-based environment for nursing administration and nursing education. Skills related to utilization of parametric and non-parametric methods of statistical analysis of quantitative data will be emphasized.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN or DNP program to register for this class.

NRSG 6130 - Theoretical Foundations of Nursing Practice

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course introduces the student to processes associated with the development and application of both nursing and non-nursing theory. These processes include the varied yet interdependent activities of theory analysis, description, critical reflection, and utilization of theory. In addition, the student will explore the utilization of both nursing and non-nursing theory in his or her practice of nursing.
Pre-requisite(s): The student must be officially accepted into the MSN program to register for this class.

NRSG 6140 SUS/CEL - Collaborative Approaches in Population Health

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, Online*
Description: This course examines the principles of ecological, global, and social determinants of health to

design, deliver, and evaluate culturally relevant clinical prevention and health promotion interventions and strategies for individuals, families, communities, and aggregate populations. Ethical approaches to equitable, efficient, effective, and sustainable population-based health policies are also examined.

NRSG 6141 - Advanced Nursing Theory

Credits: (3)
Description: This course is intended to introduce the student to the multiple patterns of knowing within nursing and the processes associated with the development of nursing knowledge and theory. These processes include the varied yet interdependent activities of critical reflection, validation, confirmation, and utilization of nursing knowledge. In addition, the student will explore the utilization of nursing theory and knowledge to his or her own experiences and everyday nursing practice.
Co-Requisite(s): NRSG 6110 and NRSG 6180.

NRSG 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator

Credits: (3)
Typically Taught Spring Semester: *1st Blk, Online*
Description: This course prepares the graduate with advanced knowledge and skills in the three areas of pathophysiology, pharmacology, and health assessment. Students will build upon previous knowledge in these three areas by participating in case-based learning and integrating advanced principles with educational practices.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6160 - Evidence-Based Practice

Credits: (3)
Description: This course provides students the knowledge and skill required to develop and implement evidence-based processes within the professional settings of the nurse administrator and the nurse educator.
Pre-requisite(s): NRSG 6110, NRSG 6141, NRSG 6180.
Co-Requisite(s): NRSG 6120.

NRSG 6170 - Teaching Strategies

Credits: (3)
Typically Taught Fall Semester: *2nd Blk-Online*
Description: This course prepares the student to apply teaching and learning theories within both the traditional and non-traditional classroom setting and clinical practice settings. Teaching strategies designed to support student learning across varied settings and modalities will be emphasized.
Pre-requisite(s): The student must be officially accepted into the MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6180 - Improving Patient Care and Nursing Practice through Information Systems

Credits: (2)
Typically Taught Fall Semester: *1st Blk Online*
Description: This course provides students the knowledge and skill required to effectively apply the principles of information technology within the healthcare setting. Course content includes the utilization of information technology to analyze healthcare data for the improvement of nursing decision-making and to support quality in nursing administration and nursing education settings.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6190 - Professional Foundations for Graduate Nursing Students

Credits: (1)
Typically Taught Summer Semester: *1st Blk Online (MSN)*
Typically Taught Fall Semester: *1st Blk Online (DNP)*
Description: This foundational course provides incoming graduate students with nursing communication proficiencies required for course work and scholarly projects. In this course, students will develop the knowledge and skills required for graduate scholarly projects, scientific community dissemination, and professional workplace collaboration.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN or DNP program to register for this class.

NRSG 6205 - Transitions to Advanced Practice

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to present a foundation for understanding nursing theory and the relationship of theory and research to evidence based practice and conceptual models of advanced practice nursing.
Pre-requisite(s): Admission to an MSN Family Nurse Practitioner Program.

NRSG 6210 - Advanced Pathophysiology I

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is the first foundational pathophysiology course for nurse practitioners (NP's). Students are taught pathophysiology associated with disease and non-disease processes such as pain. Alterations in physiology result in clinical problems and diseases managed by NP's. Cell dysfunction or deregulation manifests as systemic symptoms and associated disease. Content includes etiology, modifiable risk factors, exposures, physiological mutations, and specific/nonspecific mechanisms to optimize cell-tissue-organ-system function. Students identify, analyze, and evaluate evidence related to disease pathology of specified body systems across the lifespan for future patient management.

NRSG 6211 - Advanced Pathophysiology II

Credits: (2)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This is the second foundational pathophysiology course for nurse practitioners (NPs). Students are taught pathophysiology associated with disease and non-disease processes as applied to nurse practitioner-patient care. Alterations in physiology result in clinical problems and diseases managed by nurse practitioners. Cell dysfunction or deregulation manifests as systemic symptoms and associated disease. Content includes etiology, modifiable risk factors, exposures, physiological mutations, and specific/nonspecific mechanisms to optimize cell-tissue-organ-system function. Students identify, analyze,
and evaluate evidence related to disease pathology of specified body systems across the lifespan for future patient management.

NRSG 6212 - Advanced Psychopathophysiology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to prepare Psychiatric-Mental Health Nurse Practitioners for advanced practice by providing a solid foundation in the biological underpinnings of psychiatric disorders. Students will develop the skills necessary to critically analyze and apply this knowledge in their clinical roles as advanced practice nurses in the field of psychiatric-mental health. This course delves into the advanced study of psychopathophysiology, focusing on the complex interplay between biological, psychological, and social factors that contribute to mental health disorders. Students will explore the latest research and evidence related to the etiology, pathophysiology, and clinical manifestations of psychiatric disorders. The course integrates advanced concepts in neurobiology, genetics, and psychopharmacology to provide a comprehensive understanding of the physiological basis of mental health conditions. Emphasis is placed on critical thinking, diagnostic reasoning, and the application of advanced concepts in psychiatric nursing practice.

NRSG 6215 - Advanced Pharmacology I

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This foundational core course overviews pharmacokinetics and pharmacodynamics for nurse practitioners and provides the foundation for safe efficacious patient-centered medication management in a clinical setting. Course content includes information on pharmacology principles, terminology, drugs that affect the autonomic nervous system (ANS), special populations, clinical guidelines, and evidenced-based pharmaceutical interventions for infectious disease, endocrine function, and pain or comfort. Ethical and legal parameters for prescriptive practice are reviewed related to specific medication choice, dosing, drug interactions and side effects, and patient monitoring, education, and evaluation for effectiveness across the lifespan. Advanced Pharmacology I adheres to accreditation criteria for graduate nursing prescriptive principles and nurse practitioner practice.

NRSG 6216 - Advanced Pharmacology II

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This foundational core course is a continuation of NRSG 6215 - Advanced Pharmacology I. It continues to overview efficacious patient-centered medication management in a clinical setting. Course content includes information on evidenced-based pharmaceutical interventions for central nervous system pathology, mental and behavioral disorders, cardiovascular and renal system disease, gastrointestinal illness, and respiratory, ENT, dermatology, and immunity syndromes. Prescriptive practice principles medication choice, dosing, drug interactions and side effects, and patient monitoring, education, and evaluation for effectiveness across the lifespan are considered and analyzed. Advanced Pharmacology II adheres to accreditation criteria for graduate nursing prescriptive principles and nurse practitioner practice.

NRSG 6217 - Advanced Psychopharmacology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: This graduate-level course in Advanced Psychopharmacology for Psychiatric Mental Health Nurse Practitioners (PMHNPs) is designed to provide an in-depth exploration of the principles, theories, and practical applications of psychopharmacology in the context of psychiatric nursing practice. Building upon foundational knowledge acquired in basic psychopharmacology courses, this advanced course will empower students with the expertise needed to critically analyze, prescribe, and manage psychotropic medications for diverse populations across the lifespan.

NRSG 6220 - Advanced Health Assessment/Diagnostic Reasoning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $395.00
Course Fee Purpose: Course fees are used for the purchase of assessment kits, ophthalmoscopes, otoscopes, tuning forks, reflex hammers, task trainers, lab supplies, teaching technology, maintenance and supplies of nurse practitioner exam rooms, and standardized patients.
Description: This course allows students to transition into the role of the nurse practitioner through practice of clinically relevant activities such as a comprehensive holistic health history, use of motivational interviewing, a systematic physical assessment, and critical reasoning to determine appropriate differential diagnoses. Classroom student learning activities, nursing practice lab, and select standardized patient encounters are used to present and practice physical assessment and diagnostic reasoning for nurse practitioner (NP) patient-centered care. Students focus weekly on a body system and incorporate assessment and diagnostic reasoning skills for patients across the lifespan. NP students use a systematic critical thinking approach to diagnostic reasoning and assessment competency.

NRSG 6221 - Diagnostic Reasoning

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $395.00

Course Fee Purpose: Course fees are used for the purchase of assessment kits, ophthalmoscopes, otoscopes, tuning forks, reflex hammers, task trainers, lab supplies, teaching technology, and maintenance and supplies of nurse practitioner exam rooms.

Description: This lab course for nurse practitioner students teaches the advanced practice nurse to utilize principles of diagnostic reasoning to assess and manage patients with acute and chronic health conditions across the lifespan commonly seen in primary care settings.

NRSG 6222 - Mental Health Assessment, Diagnostic Reasoning& Treatment I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed for Psychiatric Mental Health Nurse Practitioner students seeking a comprehensive understanding of the foundational concepts and skills involved in mental health assessment, diagnostic reasoning, and treatment planning. Emphasizing evidence-based practice and a holistic approach, students will delve into the theoretical frameworks, assessment tools, and therapeutic interventions essential for providing high-quality mental health care. The course integrates didactic instruction, case studies, and practical application exercises to develop the critical thinking and clinical reasoning skills necessary for advanced psychiatric nursing practice. This course serves as a foundational building block for subsequent courses in the psychiatric mental health nurse practitioner program, providing students with the knowledge and skills needed to excel in advanced psychiatric nursing practice.

NRSG 6223 - Mental Health Assessment, Diagnostic Reasoning& Treatment II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This advanced graduate-level course is designed for Psychiatric Mental Health Nurse Practitioner students to deepen their understanding and proficiency in mental health assessment, diagnostic reasoning, and treatment planning. Building upon the foundational knowledge gained in the NRSG 6222 Mental Health Assessment, Diagnostic Reasoning & Treatment I course, this second installment focuses on refining clinical skills, evidence-based practice, and critical thinking in the context of psychiatric nursing. Emphasis is placed on comprehensive mental health assessment, differential diagnosis, and the development of advanced treatment plans for individuals across the lifespan.

NRSG 6225 - FNP Clinical Skills

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $395.00
Course Fee Purpose: Course fees are used for the purchase of task trainers, lab supplies, teaching technology, maintenance and supplies of nurse practitioner exam rooms, casting equipment, toenail removal kits, joint injections, ultrasound machine, suturing kits, dermatology biopsy kits and supplies, corneal abrasion kits, and cow eyeballs.
Description: This clinical skill course provides opportunities for the nurse practitioner (NP) students to

learn and practice a variety of essential clinical care skills. Students attend clinical skill lab weekly for instruction from interprofessional peers and nurse practitioner faculty. NP students acquire clinical skill performance, gather diagnostic and objective data for conditions requiring procedures, management strategies, patient education, and ICD-10 & CPT billing and coding instruction for common clinical issues.

NRSG 6230 - FNP Patient Care Lab

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $395.00
Course Fee Purpose: Course fees are used for the purchase of task trainers, lab supplies, teaching technology, and maintenance and supplies of nurse practitioner exam rooms.
Description: This laboratory skill course provides opportunities for the nurse practitioner (NP) students to learn and practice a variety of essential ambulatory care skills for patients across the lifespan. There is a focus on women's health and pediatric health care conditions. Students attend skill lab weekly for instruction from interprofessional peers and nurse practitioner faculty. NP students acquire knowledge of skill performance, diagnostic and objective information for conditions requiring procedures, management strategies, patient education, and ICD-10 & CPT billing and coding instruction for common health care issues.

NRSG 6235 - FNP Patient Care I

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The course is designed to provide advanced theoretical knowledge and emphasis on adult healthcare for the nurse practitioner student. The course prepares students to manage prevalent healthcare concerns encountered across the lifespan of male and female adults. Nurse practitioner students include significant others, family, and available community resources for patient health promotion and illness management, assessment, diagnosis, intervention, healthcare plans, follow-up, and evaluation of adults in a variety of settings.

NRSG 6240 - FNP Patient Care II: Adult

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The course provides advanced theoretical knowledge and emphasizes nurse practitioner primary care of older adults. Students learn the management of common older adult healthcare problems in the community and a variety of healthcare settings. The course focuses on the various health issues for older adults, including health promotion, functional ability, chronic disease management, polypharmacy, palliative intervention, and end-of-life care.

NRSG 6241 - Advanced Practice Primary Care Clinical II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: This is the clinical companion course to MSN 6240 Advanced Practice Nursing: Older Adult Health. This clinical course is designed for the nurse practitioner student to deliver high quality healthcare with a focus on adults or older adults. The course prepares students to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course requires students to diagnose and determine best practice to treat illness and prevent disease as a primary care FNP provider.
Co-Requisite(s): NRSG 6240 - FNP Patient Care II: Adult.

NRSG 6245 - FNP Patient Care III

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The course is designed to provide advanced theoretical knowledge and emphasis on pediatric (newborn to adolescent) healthcare for the nurse practitioner student. The course prepares students to manage prevalent healthcare concerns encountered across the pediatric lifespan. Nurse practitioner students include significant others, family, and available community resources for patient health promotion and illness management, assessment, diagnosis, intervention, healthcare plans, follow-up, and evaluation of adults in a variety of settings.

NRSG 6250 - FNP Patient Care IV

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The course is designed to provide advanced theoretical knowledge and emphasis on unique health care needs of women. The course prepares students to manage prevalent health care concerns of women, including; maturation, sexuality, family planning, contraception, perinatal care (preconception through pregnancy), and menopause. Concepts will focus on strategies for health promotion and disease prevention through the lifespan of a woman, as well as management of selected issues related to fertility, pregnancy, and aging.

NRSG 6251 - Advanced Practice Primary Care Clinical IV

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: This is the clinical companion course to MSNP 6250 Advanced Practice Nursing: Women's Health. This clinical course is designed for the nurse practitioner student to deliver high quality healthcare with a focus on women's health. The course prepares students to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course requires students to diagnose and determine best practice to treat illness and prevent disease as a primary care FNP provider.
Co-Requisite(s): NRSG 6250 - FNP Patient Care IV.

NRSG 6255 - Leadership and Accountability in Advanced Nursing

Credits: (2)
Typically Taught Summer Semester: *1st Blk Online*
Description: The purpose of this course is to provide graduate nursing students with an overview of personal, organizational and systems leadership. At the conclusion of this course, students will be able to apply leadership skills and ethical decision making as it relates to healthcare policy, legal regulation, quality improvement and patient safety.
Pre-requisite(s): Must be officially accepted into the MSN program to register for this class.

NRSG 6256 - Transition to Advanced Practice II

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to complement NRSG 6260 Advanced Practice Nursing Clinical Practicum in preparing the family practice nursing student for the certification examination and the advanced practice role. The course allow students to investigate a variety of topics that impact advanced practice nursing, issues for special populations, leadership competencies, impact of policies on healthcare, and principles of independent or NP managed practices.
Pre-requisite(s): NRSG 6205 - Transitions to Advanced Practice.
Co-Requisite(s): NRSG 6260 - Nurse Practitioner Immersion.

NRSG 6260 - Nurse Practitioner Immersion

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: This is the final clinical course of the FNP Program. This course is designed for the nurse practitioner student to evaluate individual and system effectiveness in delivery of quality healthcare to patients across the lifespan. The course evaluates the student's ability to apply acquired skills, magnify diagnostic reasoning through psychomotor, affective and cognitive domains. This course also evaluates the student's ability to diagnose and determine best practice to treat illness and prevent disease.
Pre-requisite(s): NRSG 6241, NRSG 6251.

NRSG 6270 - Mental Health for Primary Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: Family nurse practitioners (FNPs) identify physiological and mental health concerns to promote optimal health. Evidenced-based mental/behavioral health assessment, diagnosis, and interventions across the lifespan ensure intuitive and analytical clinical diagnostic reasoning for intentional healthcare recommendations. Advanced practice concepts, theories, current research, mental/behavioral healthcare diagnosis principles, and pharmacotherapeutic decision-making for FNPs are explored in this course.

NRSG 6271 - Psychotherapeutic Modalities

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This graduate-level course is designed to equip Psychiatric Mental Health Nurse Practitioners (PMHNPs) with a comprehensive understanding of psychotherapeutic modalities and their application in mental health care. Through a combination of theoretical foundations, evidence-based practices, and practical skills development, students will gain the knowledge and competence necessary to provide effective psychotherapeutic interventions in their role as advanced practice psychiatric nurses.

NRSG 6272 - Substance Abuse& Addiction Disorder Therapy& Management

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: This graduate-level course is designed to provide Psychiatric Mental Health Nurse Practitioners (PMHNPs) with advanced knowledge and skills in the assessment, diagnosis, and evidence-based treatment of substance abuse and addiction disorders. The course will explore the complex interplay of biological, psychological, and social factors contributing to addiction and will emphasize a holistic and patient-centered approach to therapy and management. Through a combination of theoretical discussions, case studies, and practical applications, students will gain the competencies needed to address the unique challenges posed by substance abuse within the context of psychiatric mental health care.

NRSG 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery

Credits: (3)
Typically Taught Fall Semester: *2nd Blk- Online*
Description: This course focuses upon the nurse administrator's responsibility to develop and maintain a culture of safety, reduce and prevent harm to patients, and reduce institutional risk and liability issues through the utilization of healthcare outcomes measurement and application of sound principles and practices associated with quality improvement.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6324 - Financial Issues in Nursing Administration

Credits: (2)
Typically Taught Fall Semester: *2nd Blk Online*
Description: This course provides a conceptual foundation for the nurse administrator's accountability to provide fiscal resource planning, forecasting and resource allocation, strategic planning that addresses future trends, oversight of all nursing related operating aspects, and the achievement of the financial goals of the healthcare organization.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6340 - Compliance with Legal and Regulatory Systems in Patient Care Delivery

Credits: (3)
Description: This course focuses upon the nurse administrator's responsibility to develop and maintain a healthcare environment that fulfills the compliance standards and criteria established by both state and national legal and regulatory systems.
Pre-requisite(s): NRSG 6110, NRSG 6120, NRSG 6141, NRSG 6160, NRSG 6180,
Co-Requisite(s): NRSG 6324, NRSG 6360.

NRSG 6360 - Scope and Practice of Nursing Administration

Credits: (2)
Typically Taught Spring Semester: *2nd Blk Online*
Description: This course addresses the nurse administrator's responsibility for the overall management of patient care delivery services and the representation of nursing services at the highest level of the organization across a wide variety of settings.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN Program to register for this course.

NRSG 6380 - Retaining and Developing a Competent Workforce in Nursing

Credits: (2)
Typically Taught Spring Semester: *1st Blk Online*
Description: This course addresses the overall operational management and administration functions related to staffing, staff development, and managerial issues including coaching, discipline and employee support. Processes related to labor relations within healthcare is addressed.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6400 INT - Nurse Leadership & Management Residency

Credits: (2)
Typically Taught Spring Semester: *Full Sem-Online*
Description: This practicum is designed to prepare the student for a career in nursing administration and leadership. During the MSN Leadership& Management Residency, students will participate in focused participative learning activities with advanced prepared nurse leaders at the executive, director, or manager level. The student, faculty, and assigned nurse administrator residency preceptor will collaboratively design the residency experience.
Pre-requisite(s): The student must be officially accepted into the MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6500 - Theoretical Foundations in Nursing Education

Credits: (3)
Description: This course focuses upon the knowledge and skills required to utilize established teaching and learning theories developed to enhance the nursing educational process. The practical utility of these teaching and learning theories in diverse nursing education learning environments will be

emphasized.

Pre-requisite(s): NRSG 6110, NRSG 6141, NRSG 6180.

NRSG 6520 - Curriculum Development for Nursing Educators

Credits: (3)
Typically Taught Fall Semester: *1st Blk Online*
Description: This course focuses on the concepts and organizing frameworks for curriculum design, course development and desired outcomes, standards of nursing education and practice, continuing education, and health care educational programs. Issues related to program accreditation and related social and legal issues will be examined.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6540 - Measurement of Competence and Outcomes in Nursing Education

Credits: (3)
Typically Taught Fall Semester: *2nd Blk Online*
Description: This course focuses upon established theories of measurement and evaluation coupled with strategies for implementing evaluation of student learning, program outcomes, and faculty performance targets. Accurate interpretation of evaluation data to support an evidence-based response to student and program evaluation results will be emphasized.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6560 - Socialization in the Role of Nursing Educator

Credits: (2)
Typically Taught Spring Semester: *2nd Blk Online*
Description: This course prepares the student to function proficiently in the nurse educator role within a variety of learning environments and social settings. The development of professional and personal adaptive strategies will be emphasized.
Pre-requisite(s): Must be officially accepted into Weber State University's MSN program to register for this course.

NRSG 6580 - Clinical Nursing Instruction in Higher Education and Community Settings

Credits: (3)
Description: This course prepares the student to apply teaching and learning theories within the practice laboratory and clinical settings. The clinical application component of this course will provide the student the opportunity to participate, with supervision, in a practice laboratory and/or clinical instruction environment.
Pre-requisite(s): NRSG 6110, NRSG 6120, NRSG 6141, NRSG 6160, NRSG 6180, NRSG 6520, NRSG 6540, NRSG 6560.
Co-Requisite(s): NRSG 6600, NRSG 6700.

NRSG 6600 - Nursing Instruction in Higher Education and Community Settings

Credits: (3)
Description: This course prepares the student to apply teaching and learning theories within both the traditional and non-traditional classroom setting. Teaching strategies designed to support student learning across varied settings and modalities will be emphasized.
Pre-requisite(s): NRSG 6110, NRSG 6120, NRSG 6141, NRSG 6160, NRSG 6180, NRSG 6500, NRSG 6520, NRSG 6540, NRSG 6560.
Co-Requisite(s): NRSG 6580, NRSG 6700.

NRSG 6700 INT - Nurse Educator Residency

Credits: (2)
Typically Taught Spring Semester: *Full Sem - Online*
Description: This practicum is designed to prepare the student for a career in nursing education and leadership. During the MSN Educator Residency, students will participate in focused participative learning activities with advanced prepared nurse educators at an academic and/or healthcare service educational setting. The student, faculty, and assigned nurse educator residency preceptor will collaboratively design the residency experience.
Pre-requisite(s): The student must be officially accepted into the MSN or Post-Master of Science in Nursing Certificate program to register for this course.

NRSG 6710 - Advanced Health Assessment for the Nurse Educator

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course lays the groundwork for students to perform comprehensive and holistic health histories, review of systems, and physical examinations for patients. The overall purpose will be focused upon developing strategies and skills to assess the health care needs of people across the life span. Students are challenged to identify normal assessment findings and critically analyze variations from normal and apply that knowledge for health education.
Pre-requisite(s): The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for NRSG 6710.

NRSG 6720 - Advanced Pharmacology for the Nurse Educator

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course overviews pharmacokinetics and pharmacodynamics for optimum individual client management. Advanced practice nursing students are prepared to safely monitor medication regimens for patients across the lifespan based on clinically relevant ethical and legal parameters and consideration of evidenced based practice guidelines and protocols for effective pharmacology management and education.

Pre-requisite(s): The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for NRSG 6720.

NRSG 6730 - Advanced Pathophysiology for the Nurse Educator

Credits: (2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course is a core graduate level course. This course is designed to teach the master level nursing student frequently seen alterations in physiology. The course will focus on modifiable risk factors, exposures, physiological mutations, and presenting signs and symptoms. Students will utilize evidence-based practice and research to identify, analyze and evaluate disease pathology across the lifespan.
Pre-requisite/Co-requisite: The student must be officially accepted into the MSN program and have completed the first semester of study prior to registering for MSN 6730.

NRSG 6801 - Integrating Scholarship into Practice

Credits: (2)
Typically Taught Fall Semester: *Full Sem-Online*
Description: The NRSG 6801 course is designed as a foundational course to prepare graduates to be information literate and to practice from an evidence-based approach in their direct and indirect advanced nursing roles. In addition, students will begin the compilation of a scholarly paper through the identification of a problem in practice that reflects a framework, interprofessional collaboration, research, and current standards of practice.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course and complete and pass NRSG 6110 and NRSG 6120.

NRSG 6802 - Integrating Scholarship into Practice

Credits: (2)
Typically Taught Spring Semester: *Full Sem-Online*
Description: The NRSG 6802 course is designed for graduates to prepare and present a scholarly project through identification of a problem in practice and that reflects a framework, interprofessional collaboration, research, and current standards of practice.
Pre-requisite(s): The student must be officially accepted into Weber State University's MSN program to register for this course and complete NRSG 6110 and pass NRSG 6801.

NRSG 6850 - MSN Project Development and Implementation Extension Course

Credits: (1)
Description: For students who have completed all course requirements for MSN, but have not completed the MSN project requirement. Students must register for a minimum of 1 credit of NRSG 6850 to remain enrolled in the MSN program.
Pre-requisite(s): Faculty approval.
May be repeated two (2) times with a maximum of 2 credit hours.

NRSG 6860 INT - Independent Study Graduate Programs

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: Students must have prior approval of the independent study option from the Program Director or Department Chair. This is an independent study course designed for graduate students to apply specific knowledge and skills related to high-impact educational experiences (HIEE) under the supervision of a faculty member. HIEE includes experiences for graduate students and may include leadership and or community immersion experiences such as graduate project extensions, DNP practicum hours, study abroad, or similar activities. For practicum and study abroad, this course offers 60-180 HIEE hours with one credit= of 60 clock hours.
May be repeated for a maximum of nine credit hours.

NRSG 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

NRSG 7002 - Transition to Practice

Credits: (1)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: The course provides students with a foundation for understanding the process and phases of transition to the role of the FNP, the requirements for credentialing as a Family Nurse Practitioner (FNP), participation in professional organizations, and regulatory compliance. An understanding of issues related to health policy, healthcare delivery, access and quality of care, ethical and legal role expansion implications, negotiating contracts, billing and reimbursement, and general leadership competencies are presented.

NRSG 7003 - Telehealth for Advanced Practice Nurses

Credits: (0.5)
Typically Taught Fall Semester: *1st Block Online*
Description: Telehealth for Advanced Practice Nurses explores the ongoing development of telehealth technology since the COVID-19 pandemic and the need to provide video and/or telephone visits with patients. In light of sweeping policy changes, it is essential that nurse practitioners are cognizant of this powerful tool to promote continuity of care and offer convenient, routine care across a broad range of patient scenarios.

NRSG 7004 - Complementary Medicine & Alternative Therapy for Advanced Practice Nursing

Credits: (1)
Typically Taught Spring Semester: *Full Sem - Online*
Description: Complementary Medicine and Alternative Therapies for Advanced Nursing Practice explores analysis and appropriateness of practices related to alternative medicine, which are frequently requested by consumers seeking health care from nurse practitioners. Clients in distress, pain, or diagnosed with illnesses may be seeking new and novel approaches for the alleviation of symptoms. Based on strong patient relationships, nurse practitioners are in an ideal position to reduce harm from and maximize the benefits of complementary medicine and alternative therapies. This course focuses on a holistic and patient-centered approach to health care and treatment based on the whole person.

NRSG 7010 - Scholarly and Ethical Foundations for Advanced Practice Nursing

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course examines the scientific, philosophical, and ethical underpinnings of advanced nursing practice, including the relationships among theory, research, and practice. Students critically appraise types of evidence in nursing and/or other healthcare disciplines to begin the initial literature review for the DNP Project.
Pre-requisite(s): Student must be accepted to the DNP program.

NRSG 7020 - Biostatistics/Epidemiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the basic tools needed for the collection, analysis, and interpretation of research, in particular findings and recommendations for individuals and population health and health policy. Epidemiological principles, models, and approaches/strategies related to health and illness in at-risk populations are examined. General principle of research design and hypothesis testing are reviewed and research and non-research studies examined for human health and disease treatment.
Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7030 - Information Technology to Support Evidence-Based Practice

Credits: (2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course examines principles of nursing informatics and how they are integrated in health care systems. Advanced informatics skills of database design, knowledge management, clinical decision support, and project management to guide the DNP student in recommending, evaluating, and implementing patient care technologies. This course offers 15 course practicum hours 1:4 credit to clock hours. (0.25 credit = 15 clock hours).
Pre-requisite(s): Student must be admitted to the Post Master's DNP or BSN to DNP-FNP program.

NRSG 7040 - Systems Approach and QI

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the DNP student critically appraising the evidence of quality improvement (QI) measures, strategies, and outcomes in health care systems. The DNP student designs and evaluates care delivery approaches within the current organizational, political, cultural, and economic context to ensure accountability for quality of health care and patient safety in diverse organizations.
Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7050 - Advanced Population Health

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This course synthesizes concepts related to clinical prevention and at-risk populations. Using epidemiological and informatics principles, the DNP student assesses select population needs, with consideration of psychosocial, cultural, and ecological factors and their impact on health disparities across healthcare systems. Students evaluate care delivery models for population health services addressing health promotion/disease prevention that are responsive to diverse cultural needs. Upon completion of this course, the student completes 30 DNP practice hours.
Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7060 - DNP Organizational Leadership

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines theories and strategies to enhance the DNP student's leadership skills. Students are prepared to effectively lead change, facilitate interdisciplinary collaboration, and transform practice to impact the quality of health care and outcomes within complex healthcare systems.
Pre-requisite(s): Student must be admitted to the Post Master's DNP or BSN to DNP-FNP program.

NRSG 7070 - Healthcare Policy & Professionalism

Credits: (2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: In this course, learners will incorporate principles of professionalism to engage with decision-makers in respectful and meaningful ways. Learners will then examine the policy-making process to identify opportunities that advanced practice nurses can employ to influence the development of strong healthcare policies. Finally, students will use their knowledge to analyze healthcare policies and identify strategies that could be used to advocate for individuals and the profession of nursing to ensure healthcare systems that are safe, equitable, and ethical. Upon completion of this course, the student

achieves course practicum hours.

Pre-requisite(s): Student must be admitted to the DNP program.

NRSG 7801 - DNP Project I

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment to improve healthcare outcomes. This course is the first of three courses (NRSG 7801 to NRSG 7803) and reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7801 focuses on project planning with the proposal presentation and IRB approval. The combined practicum hours within the project courses total 270-project practicum hours.

NRSG 7802 - DNP Project II

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment to improve healthcare outcomes. This course is the second of three courses (NRSG 7801 to NRSG 7803) and reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7802 focuses on project implementation and evaluation. The combined practicum hours within the project courses total 270-project practicum hours.

NRSG 7803 - DNP Project III

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment to improve healthcare outcomes. This course is the third of three courses (NRSG 7801 to NRSG 7803) and reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7803 focuses on project completion and dissemination with the final poster presentation.

NRSG 7804 - DNP Project IV

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment aimed toward improving healthcare outcomes. This course is the fourth of six courses (NRSG 7801 to NRSG 7806) and reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7804 focuses on the implementation of the project. This course may contain 30 to 120 DNP practicum hours

NRSG 7805 - DNP Project V

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment aimed toward improving healthcare outcomes. This course is the fifth of five courses (NRSG 7801 to NRSG 7805) and reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7805 focuses on project results, discussion, conclusions, recommendations, project evaluation, and dissemination. Project practicum hours follow a 1:4 credit-to-clock hours ratio, which is variable per project course, at 0.5-1 credit-to-clock hours. For example, a 1 credit hour project course offers 0.5 credit-to-clock hours (1:4) for 30 practicum hours. A 2-credit hour project course offers 1 credit-to-clock hour (1:4) for 60 practicum hours. The combined practicum hours within the project courses total 240-project practicum hours.
Pre-requisite(s): NRSG 7801 and NRSG 7802 and NRSG 7803 and NRSG 7804.

NRSG 7806 - DNP Project VI

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: The DNP project courses produce a tangible and deliverable academic product created from a practice immersion experience, which is reviewed and evaluated by an academic committee. The final product shows evidence of the student's competence in critical thinking by translating evidence into practice and evaluating the evidence in the practice environment aimed toward improving healthcare outcomes. This course is an extension course for those students who do not complete their projects or who do not complete their required DNP Practicum hours in the allotted program of study. This course reflects a synthesis of the student's growth in knowledge and expertise throughout the program. NRSG 7806 focuses on project completion and practicum hours completion. Project practicum hours follow a 1:4 credit-to-clock hours ratio, which is variable per project course, at 0.5-1 credit-to-clock hours. For example, a 1 credit hour project course offers 0.5 credit-to-clock hours (1:4) for 30 practicum hours. A 2-credit hour project course offers 1 credit-to-clock hour (1:4) for 60 practicum hours. The combined practicum hours within the project courses total 240-project practicum hours.

Pre-requisite(s): NRSG 7801 and NRSG 7802 and NRSG 7803 and NRSG 7804 and NRSG 7805 must be completed with a B- or higher and requires program director approval.

NRSG 7900 INT - DNP Practicum

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This practicum is for DNP nursing students to build on concepts and skills derived from DNP courses and focuses on developing advanced skills in integration and synthesis of practice and knowledge.
Pre-requisite(s): Students must be admitted to the DNP program.
May be repeated up for a maximum of 8 credit hours.

NRSG 7902 - FNP Clinical I

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare the nurse practitioner student to deliver high quality primary care to patients of all ages, under the direction of a clinical preceptor. Students will enter the clinical setting and apply evidence-based practice and clinical reasoning principles to both diagnosing and treatment of patients across the lifespan. This course will also improve the student's ability to collect patient histories, perform physical examination, order and analyze diagnostic tests, determine differential diagnoses, plan intervention, prescribe medication, and document patient encounters. Emphasis is place on the student leaning to apply health promotion principals in order to prevent disease and mange individualized patient healthcare outcomes.

NRSG 7903 - FNP Clinical II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare the nurse practitioner student to deliver high-quality primary care to patients of all ages, under the direction of a clinical preceptor. Students will enter the clinical setting and apply evidence-based practice and clinical reasoning principles to both diagnosing and treatment of patients across the lifespan. This course will also improve the student's ability to collect patient histories, perform physical examinations, order and analyze diagnostic tests, determine differential diagnoses, plan intervention, prescribe medication, and document patient encounters. Emphasis is placed on the student learning to apply health promotion principles in order to prevent disease and manage individualized patient healthcare outcomes.

NRSG 7904 INT - FNP Clinical Immersion

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare the nurse practitioner student to deliver high-quality primary care to patients of all ages, under the direction of a clinical preceptor. Students will enter the clinical setting and apply evidence-based practice and clinical reasoning principles to both diagnosing and treatment of patients across the lifespan. This course will also improve the student's ability to collect patient histories, perform physical examinations, order and analyze diagnostic tests, determine differential diagnoses, plan intervention, prescribe medication, and document patient encounters. Emphasis is placed on the student learning to apply health promotion principles in order to prevent disease and manage individualized patient healthcare outcomes.

NRSG 7905 - FNP Clinical IV

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare the nurse practitioner student to deliver high-quality primary care to patients of all ages, under the direction of a clinical preceptor. Students will enter the clinical setting and apply evidence-based practice and clinical reasoning principles to both diagnose and treatment of patients across the lifespan. This course will also improve the student's ability to collect patient histories, perform physical examinations, order and analyze diagnostic tests, determine differential diagnoses, plan intervention, prescribe medication, and document patient encounters. Emphasis is placed on the student learning to apply health promotion principles in order to prevent disease and manage individualized patient healthcare outcomes.

NRSG 7912 - PMHNP Clinical I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This is the first of four clinical courses for Psychiatric Mental Health Nurse Practitioners (PMHNP) students to deliver high-quality healthcare to patients of all ages with a focus on psychiatric and mental healthcare. Students apply evidence-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of psychiatric and mental health conditions. Students practice history taking, perform assessments, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles for prevention and manage individualized healthcare outcomes through psychomotor, affective, and cognitive domains.

NRSG 7913 - PMHNP Clinical II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This is the second of four clinical courses for Psychiatric Mental Health Nurse Practitioners (PMHNP) students to deliver high-quality healthcare to patients of all ages with a focus on psychiatric and mental healthcare. Students apply evidence-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of psychiatric and mental health

conditions. Students practice history taking, perform assessments, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles for prevention and manage individualized healthcare outcomes through psychomotor, affective, and cognitive domains.

NRSG 7914 - PMHNP Clinical III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This is the third of four clinical courses for Psychiatric Mental Health Nurse Practitioners (PMHNP) students to deliver high-quality healthcare to patients of all ages with a focus on psychiatric and mental healthcare. Students apply evidence-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of psychiatric and mental health conditions. Students practice history taking, perform assessments, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles for prevention and manage individualized healthcare outcomes through psychomotor, affective, and cognitive domains.

NRSG 7915 - PMHNP Clinical IV

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This is the final course of four clinical courses for Psychiatric Mental Health Nurse Practitioners (PMHNP) students to deliver high-quality healthcare to patients of all ages with a focus on psychiatric and mental healthcare. Students apply evidence-based practice clinical reasoning principles for assessment, diagnosis, and treatment interventions for a variety of psychiatric and mental health conditions. Students practice history taking, perform assessments, order and analyze diagnostic tests, determine differential diagnoses, plan interventions, and prescribe medications. Students apply health promotion principles for prevention and manage individualized healthcare outcomes through psychomotor, affective, and cognitive domains.

NUCM 4103 - Radiopharmaceuticals and Dosages

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Radiopharmacology, characterization of radiopharmaceuticals used in performing examinations and calculation of dosages.

NUCM 4203 - Scanning and Imaging Procedures I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Organ concentration, excretion and absorption, measurements and imaging.

NUCM 4213 - Scanning and Imaging Procedures II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Organ concentration, excretion and absorption, measurements and imaging.

NUCM 4223 - Nuclear Cardiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Pathology, indications for examination and procedures in nuclear cardiology.

NUCM 4303 - Radionuclide Physics & Instrumentation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Production and properties of radionuclides, decay schemes, radiation measurements and special characteristics of radiopharmaceuticals.

NUCM 4333 SI - Quality Assurance

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Nuclear Medicine departmental policies and procedures.

NUCM 4861 INT - Clinical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4862 INT - Clinical Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4863 INT - Clinical Education

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: A minimum of 24 hours per week in an active Nuclear Medicine department.

NUCM 4912 - Comprehensive Review

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: Review of learned material.

NUCM 4991 - Seminar

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: New technology, procedures and equipment.

NUTR 1020 LS SUS - Science and Application of Human Nutrition

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk Hybrid, Online*
Course Fee: $15.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the health assessment and body composition measurements in the Nutrition Biochemistry lab.
Description: Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions.
Note: *This course is taught Web enhanced.*

NUTR 1120 - Nutrition for the Athlete

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the purchase of expendable food and food service items and acquisition and replacement of nonexpendable kitchen items.
Description: The course will address nutrition, eating behavior, and lifestyle issues of the athlete in the typical collegiate athletic environment. Topics in nutrition for the performance athlete, meal planning for the collegiate athlete, menu evaluation, personal diet analysis, and common fad diets aimed at the performance athlete are included.

NUTR 1240 SUS - Nutrition and Sustainable Cooking

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the purchase of expendable food and food service items and acquisition and replacement of nonexpendable kitchen items.

Description: Sustainable ways to acquire, prepare and consume food to support a healthier individual, population, and environment are explored. Food science principles will be emphasized in the laboratory experience.

NUTR 2020 - Nutrition in the Life Cycle

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course examines the nutritional needs of humans along with food and nutrition education and programs through the life cycle stages from pre-conception through older adulthood. Students assess normal nutrition and various conditions and interventions across the lifespan through applied case studies.
Pre-requisite(s): NUTR 1020.

NUTR 2220 - Human Lactation & Infant Nutrition

Credits: (2)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online, 1st Blk Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online, 1st Blk Online*
Description: The course focuses on human lactation, maternal health and nutrition during lactation, and infant nutrition and health assessment. Historical and current issues, case studies, and counseling techniques will be discussed in context of family, community, and cultural norms.
Pre-requisite(s): NUTR 1020.

NUTR 2320 - Food Values, Diet Design and Health

Credits: (3)
Typically Taught Summer Semester: *1st Blk or 2nd Blk Online*
Typically Taught Fall Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*
Typically Taught Spring Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the use of the InBody 770 scanner to determine basal metabolic rate.
Description: The relationships between dietary components and the development of chronic diseases provides the foundation for designing diets that support life-long "good health". Topics in nutrigenomics, food allergy and food technology are introduced.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

This course is taught Web enhanced.

NUTR 2420 - Childhood and Adolescent Nutrition

Credits: (2)
Typically Taught Summer Semester: *1st Blk or 2nd Blk Online*
Typically Taught Fall Semester: *1st Blk, 2nd Blk Hybrid, or Online*
Typically Taught Spring Semester: *1st Blk, 2nd Blk Hybrid, or Online*
Description: The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

NUTR 3020 - Sports Nutrition

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Hybrid, Online*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Hybrid, Online*
Description: The nutritional support necessary to achieve optimum athletic performance will be discussed in the context of diet and metabolism. In addition, the use of ergogenic aids will be addressed with reference to athletic performance.
Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

May be repeated up to two times.

NUTR 3040 - Nutrition Assessment

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $30.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the purchase of consumable lab reagent items and acquisition and replacement of non-consumable Nutrition Biochemistry laboratory equipment.
Description: This course covers foundational assessment methods used to determine population and individual nutritional status. Students will learn the scientific foundation on nutrition assessment and how to apply this knowledge in medical, community and research settings.
Pre-requisite(s): NUTR 1020 and NUTR 2320.

NUTR 3070 - Advanced Food Science

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Course Fee: $45.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the purchase of expendable food and food service items and acquisition and replacement of nonexpendable kitchen items.

Description: The advanced study of the physical, biological, and chemical make-up of food. Effects of food preparation, storage and processing on nutrient content, taste and shelf-life.

Pre-requisite(s): (CHEM 1110 or CHEM 1210) and NUTR 1020.

NUTR 3220 - Foundations in Diet Therapy

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online, 2nd Blk Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: The nutrition care process, practice and methods of nutrition support are studied for the management of nutritionally-related medical conditions by body system in which diet is crucial for control of the disease or condition.

Pre-requisite(s): (NUTR 1020 or HLTH 1020) and NUTR 2320.

Suggested Requisite(s): ZOOL 2420 or HTHS 1110/HTHS 1111 are recommended.

NUTR 3320 - Health and Nutrition in the Older Adult

Credits: (3)
Typically Taught Summer Semester: *2nd Blk or 2nd Blk Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental, and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are explored in the context of promoting healthy aging.

Pre-requisite(s): NUTR 1020 or HLTH 1020.

NUTR 3420 - Multicultural Health & Nutrition

Credits: (3)
Typically Taught Summer Semester: *3rd Blk or 2nd Blk Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the purchase of

expendable food and food service items and acquisition and replacement of nonexpendable kitchen items.

Description: The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding or world food problems as they pertain to the health will also be discussed.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

This course is taught Web enhanced.

NUTR 4320 - Current Issues in Nutrition

Credits: (2)
Typically Taught Fall Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*
Typically Taught Spring Semester: *Full Sem, Online, 1st Blk, 2nd Blk Hybrid, or Online*
Description: Technology-aided literature review of the nutritional and medical sciences provides the information for presentation to peers in both written and oral forms.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320 or consent of instructor.

NUTR 4420 - Nutrition and Fitness

Credits: (3)
Typically Taught Fall Semester: *1st Blk or 2nd Blk Hybrid*
Typically Taught Spring Semester: *1st Blk or 2nd Blk Online*
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers the use of various body composition analyses as well as the acquisition, replacement, and maintenance of such equipment.
Description: Principles of sports nutrition and fitness are applied to achieve a healthy body weight. Consideration of exercise and dietary practices along with fitness evaluation, dietary analysis and body composition testing are utilized to create a plan to improve physiological health.

Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320.

This course is taught Web enhanced.

NUTR 4440 - Advanced Human Nutrition

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: The advanced study of human nutrition with focus on the metabolism of vitamins, minerals, and energy-producing nutrients. The structure, properties, and functions of the nutrients and their regulatory roles in metabolism, body composition and weight, fluid balance, health, and disease states are covered with clinical examples and across the lifespan.

Pre-requisite(s): NUTR 1020 and NUTR 2320.

Co-Requisite(s): CHEM 3070.

NUTR 4520 CRE - Directed Undergraduate Nutrition Research

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide undergraduate students an opportunity to engage in research processes and participate in ongoing nutrition research projects.
Pre-requisite(s): NUTR 4320 or NUTR 1020 or HLTH 1020 and Permission of Instructor.
May be repeated 3 times up to 6 credit hours.

NUTR 4830 CRE - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*
Typically Taught Fall Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*
Typically Taught Spring Semester: *Full Sem Online, 1st Blk Online or 2nd Blk Online*
Description: Independent and directed readings or secondary research on advanced special topics under the direction of a faculty mentor.
Pre-requisite(s): NUTR 2320 and consent of faculty supervisor prior to registration.
May be repeated for up to 3 credit hours.

NUTR 4860 INT - Field Experience

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Work experience, which applies prior academic learning in a supervised setting.
Pre-requisite(s): NUTR 1240 and consent of faculty supervisor prior to registration.
May be repeated up to 2 credit hours.

NUTR 4990 - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem Online*
Description: This is a capstone course for Nutrition seniors only. The experiences in the Nutrition major will be summarized and students will be prepared for graduate study or future employment.
Pre-requisite(s): NUTR 3420.

NUTR 6320 - Current Issues in Nutrition

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Technology-aided literature review of the nutritional and medical sciences provides the information for presentation to peers in both written and oral forms.
Pre-requisite(s): NUTR 1020 or HLTH 1020 and NUTR 2320 or consent of instructor.

NUTR 6420 - Nutrition and Fitness

Credits: (3)
Typically Taught Fall Semester: *1st Blk or 2nd Blk Hybrid*
Typically Taught Spring Semester: *1st Blk or 2nd Blk Online*
Description: Principles of sports nutrition and fitness are applied to achieve a healthy body weight. Consideration of exercise and dietary practices along with fitness evaluation, dietary analysis and body composition testing are utilized to create a plan to improve physiological health.
Pre-requisite(s): Consent of instructor.
This course is taught Web enhanced.

NUTR 6520 - Directed Graduate Nutrition Research

Credits: (1-4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will provide graduate students an opportunity to engage in research processes and participate in ongoing nutrition research projects.
Pre-requisite(s): NUTR 4320 or NUTR 1020 or HLTH 1020 and Permission of Instructor. Graduate students taking this class as 6520 must have completed a statistical methods course.
May be repeated 3 times up to 4 credit hours.

OCRE 2000 - Risk, Resilience and Rock Climbing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing shoes, harnesses, helmets, climbing rope, and climbing holds.
Description: This course will explore the intersections of rock climbing, interpersonal and intrapersonal growth, and women and gender studies. We will ignite conversations about safety, trust, risk taking, transcending fear, resiliency, and healthy community building. These conversations will be embodied through practical kinesthetic climbing skills. We will also look at power and privilege in the climbing world and ways in which we can expand the field to be more inclusive, intersectional, and accessible to people from a variety of backgrounds. We will look at climbers who are changing the field, as well as engage media that tackle these and further topics.

OCRE 2050 - Recreation, Parks, and Wellness

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Content, nature, extent and significance of recreation and leisure; their role in our lives,

relevant service delivery agencies/organizations/businesses, leadership functions and styles, and an introduction to team-building/adventure programming activities.

OCRE 2300 - Wilderness Medicine

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Course Fee: $290.00
Course Fee Purpose: Syllabus Statement in Regard to Course Fees
Course Fee: This course has a fee attached. Course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements and best practices. The course fees in this course will be used to support nationally recognized certification for students in both wilderness first responder (WFR) and cardiopulmonary resuscitation (CPR). Each student is individually tested and assessed for proficiency to earn the wilderness first responder certification. All students are tested as part of this course. The typical fee range for WFR courses is between $700 and $800. Courses are typically 8-10 days in duration, and fees often do not include lodging or meals.
Description: This course provides training and certification in wilderness medical care with a focus on emergency response in remote settings in the backcountry. The course is designed for professionals who intend to work in a position of leadership in an outdoor setting, or for individuals who want a high level of wilderness medical training for extended personal backcountry trips or expeditions. Participants will learn systems for patient assessment, extended care (including CPR), and rescue/evacuation in remote settings. Emphasis will be placed on the acquisition and application of knowledge and skills necessary for responsible practice in the field of outdoor recreation. Upon successful completion of the course (including a written and practical exam), students will have the opportunity to earn an internationally recognized professional certification such as Wilderness First Responder (WFR) or Outdoor Emergency Care (OEC).

OCRE 2500 - Introduction to Outdoor Pursuits

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $225.00
Course Fee Purpose: Course Fee: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements and best practices.
Description: Introduction to Outdoor Pursuits is focused on engaging and introducing students to discover, explore, and practice a variety of outdoor adventure and recreation activities. This includes, but is not limited to, group development, outdoor living, backpacking, flat- and whitewater paddling, mountain biking, rock climbing, caving, and winter-based pursuits. Emphasis is placed on activity-specific technical skill development, equipment management, risk management, environmental ethics, and basic instructional and facilitation strategies. Field Sessions are required.

OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits

Credits: (4)
Typically Taught Summer Semester: *2nd Blk*
Course Fee: $225.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include food, safety equipment, first aid supplies, and other incidentals, and licensing fees.
Description: This course introduces students to many of the skills needed to be a safe and effective outdoor leader. The course is intended for individuals wishing to pursue employment as outdoor leaders in various outdoor adventure activities. Topics will include trip preparation, planning, logistics, planning for and managing risks in outdoor pursuits, group dynamics, leadership styles, emergency response, and environmental considerations. The majority of class time will be spent in the field as part of a multi-day expedition.
Pre-requisite(s): OCRE 2500.
Suggested Requisite(s): OCRE 2300, GEOG 1002.

OCRE 2610 - Introduction to Outdoor Living Skills I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: The course fees in this course will be used to support learning experiences in the field, including a multi-day/night backcountry trip. Associated course fees will provide for equipment, travel and permits/entrance fees.
Description: This course will provide students with an overview of backcountry skills. Students will learn about backcountry travel and camping skills, equipment use, and hazard identification. One lecture and 3 hour field trip are required each week.

OCRE 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

OCRE 2860 - Outdoor Leadership Practicum

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of *Outdoor Leadership Practicum* is to provide students with the opportunity to apply the requisite knowledge and skills to organize and lead outdoor activities. Under the supervision of

OCRE faculty, students will gain experience designing and leading outdoor activities in a volunteer or work setting for a minimum of 40 supervised hours. Emphasis will be placed on client/participant assessment, curriculum design and delivery, safety, and environmental impact. Approval for practicum experiences is coordinated and assigned by OCRE faculty.

Pre-requisite/Co-requisite: OCRE 2300, 2500, 4 credits of REC courses or permission of the instructor. This course may be repeated for up to 4 credit hours.

OCRE 2890 INT - Cooperative Work Experience

Credits: (1-9)
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Open to all students in Recreation who meet the minimum Cooperative Work Experience requirements of the department.
May be repeated 8 times up to 9 credit hours.

OCRE 3100 - Recreation Leadership and Group Facilitation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: The course fees in this course will be used to purchase resources and materials to support the facilitation of group development activities on an individual and small-group level.
Description: Customer/client-based leisure services, role delineation, settings, theories of leadership and group dynamics. Skills: apply various experiential techniques for different populations that recreational professionals may encounter.

OCRE 3230 - Wilderness Nutrition & Backcountry Cooking

Credits: (4)
Typically Taught Spring Semester: *1st Blk*
Course Fee: $141.00
Course Fee Purpose: The course fees in this course will be used to purchase resources and materials to support lab equipment and field experiences
Description: For outdoor professionals and those who spend extensive time in the outdoors, wilderness nutrition and backcountry cooking are critical components to providing safe, healthy, and enjoyable outdoor recreation experiences. Concepts of nutritional balance, energy needs, menu planning, and cooking are explored and applied within the context of a backcountry setting. Multiple field experiences are required.
Pre-requisite(s): HLTH 1030 or NUTR 1020.

OCRE 3300 - Inclusive and Adaptive Recreation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students will explore and apply concepts of leisure and recreation experiences and the

related social impacts across a wide variety of populations including: ethnicity, race, ability, gender, age, religion and nationality.

OCRE 3320 - Adventure Programming

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In this course, students will gain a theoretical and applied understanding of adventure programming within the field of Community and Outdoor Recreation. Students will have the opportunity to explore program planning and preparation, and activity implementation through individual and collaborative learning experiences. Upon completion of this course, students will have a Program Plan that reflects the theoretical and logistical elements that comprise programs in Community and Outdoor Recreation. This course also requires an adventure program implementation field experience.
Pre-requisite/Co-requisite: OCRE 3100 (formerly REC 3810).

OCRE 3400 - Outdoor Equipment Production and Retailing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Students will learn about key outdoor gear manufacturers, materials used in equipment, and practices retail operation use in the sales of outdoor apparel and equipment. Students will apply course information to analyze, critique, and create an outdoor gear concept. In class exercises, site visits, field trips, and assignments will challenge students to engage in critical thinking and complex quantitative and communication skills.
Pre-requisite(s): OCRE 2500 or permission from the instructor.

OCRE 3450 - Adventure Travel and Sustainable Tourism

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: Course Fee: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements and best practices.
Description: This course will provide an overview of history, development, organization, impacts and trends within adventure travel and tourism industries. Students will learn about development and evolution of adventure travel and sustainable tourism; socio-cultural, economic, and environmental dimensions within adventure travel and sustainable tourism; positive and negative impacts of tourism; and principles and practices conducive to sustainable tourism. Students will gain experience in critically analyzing and evaluating adventure travel and sustainable tourism industries.

OCRE 3500 - Community Recreation and Park Planning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*

Description: This course will focus on principles and methods of recreation and park design and planning. The student should expect to learn how to: assess community recreation facilities, parks, open spaces, recreation trends, industry standards, create planning goals and objectives, and make planning recommendations. Classification of recreation areas according to primary function, location and clientele will also be explored.
Pre-requisite(s): OCRE 3320.

OCRE 3520 - Risk Management and Legal Issues in Recreation Services

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: The course fees in this course will be used to purchase access to resources that will support learning outcomes, specifically actual legal cases to be reviewed and analyzed.
Description: Risk Management and Legal Issues is focused on the examination of general legal concepts, federal and state legislation, and legal liabilities as these relate to and impact programming with the fields of community and outdoor recreation. Emphasis is placed on the process of identifying and managing potential risks in recreation, education, developmental, and social service settings, as well as organizational structures. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education.
Pre-requisite/Co-requisite: OCRE 3320.

OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides an examination of administration and management skills tied to outdoor recreation agencies/businesses/organizations. Emphasis will be placed on site visits, services delivery, environmental impacts, legal issues, human resources and administration and management skills. Outdoor activities (backpacking/hiking/camping/ropes course leadership, and use of technology in leisure research and programming) will be explored in the context of program management and administration. Field trips are required.
Pre-requisite/Co-requisite: OCRE 3320.

OCRE 3700 - Recreation and Sports Facilities and Events Management

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: The course fees in this course will be used for two primary purposes. The first is for entrance fees during site visits to local recreation and sport facilities. The second is to purchase access to resources that will support learning outcomes, specifically published articles related to facility design and operations, which will be reviewed and analyzed.
Description: Studies the principles, guidelines, and fundamental practices involved in indoor and outdoor facilities planning, construction, use and management, as well as publicity and management of events

for recreation and sports. Integrates tenets of the law and risk management as they relate to recreational and athletic facilities and events.
Pre-requisite(s): ESS 2200 or OCRE 2050.

OCRE 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

OCRE 3900 - Commercial Outdoor Recreation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will cover outdoor and adventure recreation business development. Particular emphasis will be on analyzing the types of commercial and private recreation enterprises, trends and directions, regulations, financial requirements and procedures for planning and organizing commercial recreation services.
Pre-requisite(s): OCRE 3320.

OCRE 4000 - Recreation Programming for Youth Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will review and apply theories of youth development to recreation-based settings. Topics addressed include: youth development theories, political, social, and cultural issues relevant to youth development, types of youth serving organizations, youth professional roles and responsibilities; quality youth programming, logic modeling, program evaluation, and theory-driven program design.
Pre-requisite(s): OCRE 3100 or permission from the instructor.

OCRE 4020 - Nature Interpretation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: The course fees in this course will be used to support authentic learning experiences in the field, including an overnight trip. Associated course fees will provide for equipment, travel and permits/entrance fees.
Description: Nature Interpretation is focused on providing the student with an in-depth investigation of the fundamental principles and concepts of nature interpretation. This includes, but is not limited to historical development of the field, principles of exhibit design, interpretative program designs and techniques, common field techniques, and current trends used by outdoor leaders. In addition, an overview of employment opportunities in the field will be explored. This course emphasizes

experimental learning theories and their application to natural history interpretation and environmental education program design. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education and learning (per the work of John Dewey).
Pre-requisite(s): OCRE 2050 and OCRE 3100 (formerly 3810).

OCRE 4205 - Research and Program Evaluation in Parks& Recreation Services

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to give students basic knowledge in research and evaluation within the contexts of park, recreation and tourism studies. Specific focus is placed on integrating basic research, program evaluation, and statistical analysis in an applied manner within the field. Topics include program interventions, program evaluations, and survey research. In this course-based research experience (CRE) students will be mentored by their instructor to individually or as part of a group develop and carry out a research project as a major part of class (Office of Undergraduate Research, 2023).
Pre-requisite(s): OCRE 3320.

OCRE 4300 - Trends and Ethical Issues in Recreation Services

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Current Trends and Ethical Issues in Recreation examines major ethical theories and their relation to the development of personal and professional ethics in practitioners working in the field of community and outdoor recreation. The differences between ethics and morality will be analyzed, and selected codes of ethics will be presented for review and discussion. The application of ethical decision making and problem solving in recreation settings will be explored.
Pre-requisite(s): OCRE 3600.

OCRE 4500 - Grant and Proposal Writing for Recreation Professionals

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Grant and Proposal Writing for Recreation Professionals is focused on providing the student with an in-depth investigation of grant writing and management. The course will provide students with an opportunity for primary and authentic experience in researching and writing grants. Students will explore the process of identifying prospective funders, developing relationships with funders, comprehending the basics of writing grants, submitting proposals, working in collaborative partnerships, and preparing for follow up and evaluation. Students will apply course learning to write and prepare actual grant proposals. The course content is interdisciplinary in nature, and is grounded in the tenets of experiential education and learning.
Pre-requisite(s): OCRE 2050 or permission from the instructor.

OCRE 4550 - Outdoor Education Philosophies & Principles

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $52.00
Course Fee Purpose: The course fees in this course will be used to support field experiences in the field. Associated course fees will provide for equipment, travel and permits/entrance fees.
Description: Provides basic concepts of outdoor education, and direct, firsthand experience with learning resources beyond the classroom.
Pre-requisite(s): OCRE 2500.

OCRE 4800 - Individual Projects

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive study of a significant problem in the field of recreation. Hours to be arranged. For seniors only.
May be repeated 2 times up to 3 credit hours.

OCRE 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Spring Semester: *Full Sem, 1st Block, 2nd Block*
Description: A continuation of OCRE 2890.
May be repeated 5 times up to 6 credit hours.

OCRE 4930 - Outdoor Education Workshop

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: The course fees in this course will be used to cover equipment rental to support activities taking place in field-based settings. Associated course fees will cover the use of 3-4 different types of outdoor equipment used for 3-4 different day trips.
Description: A broad inter-disciplinary approach to the methodology of outdoor education teaching techniques; experiential learning-course taught almost totally outdoors.

OCRE 6930 - Outdoor Education Workshop

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: The course fees in this course will be used to cover equipment rental to support activities taking place in field-based settings. Associated course fees will cover the use of 3-4 different types of outdoor equipment used for 3-4 different day trips.

Description: A broad interdisciplinary approach to the methodology of outdoor education teaching techniques; experiential learning-course taught almost totally outdoors.

OEHS 3520 - Introduction to Occupational Safety and Health

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introductory course in to the field of Occupational Safety and Health (OSH).The course reviews the antecedents of modern industrial safety going back to ancient origins, the industrial revolution to the current day. The course includes a series of important topics in injury prevention including prevention of fires, falls, accidents, chemical injuries and other workplace problems. The goal is to teach broad principles and to enable students to recognize when they and others may be in danger regardless of their industry or profession.

OEHS 3530 - Workplace Hazard Recognition

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The course will provide an overview of general hazards common to most workplaces with focus on manual material handling, slips trips and falls, machine guarding and other exposures. Exposures common to most industries will be covered. Generally accepted mitigation methodologies will be reviewed both from a regulatory and best practice standpoint. The students will be able to recognize inadequately mitigated hazards In their workplaces.

OEHS 3540 - Ergonomics and Human Factors

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will acquaint students with the basic concepts of work design and human capabilities as developed over the last century. Material handling exposures will be reviewed in depth. Industries with special challenges, such as healthcare, will be discussed. Students will gain an understanding of the concepts of basic risk factors such as force, posture and repetition. Students will learn to use peer reviewed exposure assessment tools in a variety of settings and case studies. The frequency, costs and challenges in mitigation and treatment will be reviewed.

OEHS 3550 - Workplace Health Exposures

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Occupational Health starts by requiring an understanding of the types of chemical, physical, and biological stressors that may be encountered in the work environment. With this knowledge, professionals can anticipate and recognize these potential health hazards. Recognition relies on applying a variety of related concepts including chemical/physical properties; quantities used; exposure potential; routes of entry; and toxicology. Once potential health hazards are identified, knowledge is needed in the types of tools available to evaluate actual worker exposure. Then, how to use the

technical resources available to assess relative risk of exposures. There are various sampling instruments and sampling strategies to obtain information on the potential exposure. Following the characterization of exposure, the use of existing standards and best practices allow for risk assessment and prioritization.   The final part of the challenge is understanding the various types of controls available to reduce the exposure of workers to significant hazards and thus reduce the risk of injury and disease: administrative programs, engineering fixes, and personal protective equipment are all tools. Therefore, the systematic and programmed-based process of anticipation, recognition, evaluation, and control of workplace health hazards are the basis for this course.

Pre-requisite(s): OEHS 3520.

OEHS 3560 - Managing Occupational Safety & Health Programs

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will review the development and management of workplace safety and health programs. Existing regulatory requirements and national consensus standards such as the ANSI Z-10 will be covered. Effective program elements and performance metrics will be reviewed. Special attention will be given to the prevention of fatalities and serious injuries in the workplace.

OEHS 3570 - Risk Assessment and Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This semester course will review the fundamentals of risk, risk assessment and risk management. This will include the history of risk concepts, assessment approaches and risk management tools. Case studies will include examples of catastrophic failures in risk assessment and management where human safety is concerned. Risk management tools will be reviewed and students will gain practice by applying assessment and management tools to real world industrial settings. Changing societal attitudes and expectations of risk will also be reviewed.

OEHS 3580 - Occupational and Environmental Health and Safety Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This internship course provides students with practical experience in occupational environmental health and safety settings. Students will apply theoretical knowledge gained in the classroom to real-world workplace environments. The internship experience will encompass various aspects of safety and health, including hazard identification, risk assessment, safety program development, and regulatory compliance. Through hands-on experiences, students will develop skills in workplace inspections, incident investigations, and communication with stakeholders.

Pre-requisite(s): OEHS 3520, OEHS 3530, OEHS 3550, Approval from internship coordinator.

OEHS 6370 - Occupational Epidemiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Investigates concepts, methods, and practice of occupational epidemiology. Prepares students to design, execute, and evaluate occupational epidemiological research as well as evaluate and interpret published occupational safety and health epidemiological literature. Will cover various study designs, biases, confounders, and causation to address the prevention of workplace injuries and illnesses.
Suggested Requisite(s): College Algebra.

OEHS 6703 - Clinical and Behavioral Aspects of Occupational Injuries and Disease (OID)

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is a didactic course to teach common diseases encountered in occupational medicine (as well as general medical practice). The course includes a significant amount of instructional time on musculoskeletal disorders and respiratory conditions. Evidence-based treatment regimens for common conditions will be discussed.

OEHS 6750 - Fundamentals of Industrial Hygiene

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The course will provide an introduction to technical information as well as discussion and insight into the roles, responsibilities, and requirements for practicing occupational health and safety professionals. The course focuses on the principles of anticipation, recognition, evaluation, and control of hazards in occupational environments.
Suggested Requisite(s): College Algebra, College Chemistry, Biology.

OEHS 6752 - Introduction to Industrial and Environmental Toxicology and Physiology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The course is intended to provide public health and safety professionals a basic understanding of toxicological principles and information about the toxicity of a variety of chemicals likely to be encountered in the workplace and/or the environment.
Pre-requisite(s): OEHS 6750.

OEHS 6760 - Management and Administration of Occupational Environmental and Safety Programs

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is structured to enable students to develop the management capabilities needed to design, implement, and evaluate Occupational and Environmental Health and Safety and other Public Health programs. The course is designed to enable participants to develop the management knowledge

and skills needed to design, implement, and evaluate occupational and environmental health and safety (OEHS) as well as public health (PH), Aerospace Medicine (AsM) and other health or safety programs. Instruction also includes discussion of pertinent management theories and application of theories in designing, implementing, and evaluating health and safety programs. The program emphasizes the unique management capabilities that those responsible for OEHS, PH, AsM and other health and safety programs must possess.

PAR 1000 INT - Emergency Medical Technician

Credits: (4)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course teaches the student to recognize and instruct the response to emergency calls to provide efficient and immediate care to the critically ill and injured, and deliver transport needs for the patient to the appropriate medical facility. The student will be able to determine the nature and extent of illness or injury and establish priority for required emergency care. Theory will include the emergency medical care to the adult, infant and child, medical, and trauma patients. This course meets all of the requirements of the National EMS Education Standards. Successful evaluation of professionalism, interpersonal relationships, skills, and knowledge must be completed for recommendation of certification. (Must be taken with PAR 1001.)
May be repeated up to 99 times.

PAR 1001 - Emergency Medical Technician Lab

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem, 2nd Blk*
Description: At the completion of this course the student will be able to demonstrate competency managing emergencies, utilizing all Basic Support equipment and skills in accordance with all behavioral objectives in the current National EMS Education Standards. In addition to the lab, this course requires that the student have patient interactions in a clinical setting. Based on assessment finding, renders emergency medical care to the adult, infant and child, medical, and trauma patients. Successful evaluation of professionalism, interpersonal relationships, skills, and knowledge must be completed for recommendation of certification. (Must be taken with PAR 1000).

PAR 1005 INT - EMT-Basic Field Experience - I

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Minimum of 120 hours of supervised EMT-Basic patient care experience provided through assigned day shifts on the ambulance and/or pre-hospital setting. A preceptor evaluates basic life support knowledge, skills and affective abilities.
Pre-requisite(s): PAR 1000/PAR 1001 and HTHS 1101, HTHS 1110/HTHS 1111 and 70% minimum on EMT-B assessment exam. Department permission required.

PAR 1006 INT - EMT-Basic Field Experience - II

Credits: (3)
Description: Minimum of 120 additional hours of continued supervised EMT-Basic patient care experience provided through assigned shifts on the ambulance and/or pre-hospital setting. A preceptor evaluates basic life support knowledge, skills and affective abilities.
Pre-requisite(s): PAR 1005, ENGL 1010, and MATH 0990 or MATH 1010.
Note: This course is not currently being offered.

PAR 1010 - Emergency Medical Technician - Intermediate Introduction

Credits: (2)
Description: Introduction of Intermediate EMT concepts of basic and advanced life support utilizing cognitive knowledge objects using the State Department of Health and current National Standard EMT-I Curriculum. Application of pre-hospital care will be demonstrated through written assignments and exams. Course may be challenged for credit. Course is required, or equivalent work experience, before admission into the paramedic program.
Pre-requisite(s): Must have Basic EMT certification.
May be repeated up to 99 times.
Note: PAR 1010 combined with PAR 1011 will provide a certificate of 60 hours of continuing medical education hours toward recertification requirements for the Utah State Department of Health. This course is not currently being offered.

PAR 1011 - Emergency Medical Technician - Intermediate Introduction Lab

Credits: (2)
Description: This course requires clinical hours with an emergency facility and ambulance as scheduled. Application of basic EMT skills involving pre-hospital care with staged and real emergencies and demonstration of psychomotor skills through laboratory, ambulance riding time, and clinical assignments. Clinical activities are adapted to previous documented work experiences. This course may be challenged for credit. This course is required, or equivalent work experience, before admission into the paramedic program.
Pre-requisite(s): Must have Basic EMT certification.
Note: PAR 1010 combined with PAR 1011 will provide a certificate of 60 hours of continuing medical education hours toward recertification requirements for the Utah State Department of Health. This course is not currently being offered.

PAR 1020 - Emergency Medical Technician - Intermediate

Credits: (2)
Description: Curriculum includes but is not limited to the US Department of Transportation National Standard Curriculum for the EMT-Intermediate. This course consists of the cognitive knowledge and theory components of the USDOT Curriculum and builds upon the EMT Basic knowledge. State certification eligibility of EMT Intermediate upon successful completion of both PAR 1020 and PAR 1021. Students will demonstrate mastery of cognitive knowledge skills through written assignments and

examinations. Course format consists of didactic lecture. Paramedic Program application, faculty review, and committee selection are required to be admitted to this course.

Pre-requisite(s): PAR 1011 or equivalent.

May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 1021 - Emergency Medical Technician - Intermediate Lab

Credits: (2)

Description: Curriculum includes but is not limited to the U.S. Department of Transportation National Standard Curriculum for the EMT-Intermediate. Builds upon the EMT Basic psychomotor skills. State certification eligibility of EMT I upon successful completion of both PAR 1020 and PAR 1021. This course consists of clinical instruction and supervised field experiences in an advanced life support rescue unit which functions under a medical command authority. Students will demonstrate their mastery of the educational psychomotor skills through practical exams and staged and real emergencies. Must have department approval by application process involving an admissions committee final selection.

Pre-requisite(s): PAR 1020 or equivalent.

Note: This course is not currently being offered.

PAR 1030 - Pediatric Advanced Life Support (PALS)

Credits: (1)

Description: Subject and case based approach to American Heart Association protocols and skills required for successful resuscitation of child and infant. The cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock, or cardiopulmonary arrest.

Pre-requisite(s): Basic Life Support course completion card.

May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 1031 - Advanced Cardiac Life Support (ACLS)

Credits: (1)

Description: Subject and case based approach to American Heart Association protocols and skills required for successful resuscitation of the adult. This course is designed to help all participants succeed in acquiring the cognitive knowledge psychomotor skills needed by medical professionals in adult resuscitation attempts.

May be repeated up to 99 times.

Note: This course is not currently being offered.

PAR 2000 - Introduction to Paramedic Practice

Credits: (4)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Introduces the paramedic student to basic pathophysiology, pharmacology, research

methods, airway management, plus patient interaction and assessment skills. Includes professional and wellness considerations for the individual practitioner and patient. Basic knowledge of medical incident command, rescue awareness, hazardous materials incidents, and crime scene awareness is included. Meets all national EMS Education Standards. Prospective students must be EMT certified, accomplish Dumke College of Health Professions advising, complete the department application process, and then be accepted to the program prior to registration.

PAR 2020 - Traumatic Emergencies

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Prepares the student to recognize, assess and provide paramedic interventions related to bodily traumatic injuries. Current PHTLS/BTLS/ABLS principles are utilized.
Pre-requisite(s): PAR 2000 and PAR 3010.

PAR 2030 - Special Populations in Paramedic Practice

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Prepares the student to recognize, assess and provide paramedic interventions related to the special challenges posed by neonate, pediatric, obstetric, geriatrics, and psychiatric patients. Acute interventions for the chronically ill and home care patient are discussed. Current AHA, PEPP, and national EMS Education Standards are utilized.
Pre-requisite(s): PAR 2000 and PAR 3010.

PAR 2040 - Paramedic Skills and Simulation Lab

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $500.00
Course Fee Purpose: PAR 2040 requires a skill lab fee of $500 per student. This fee covers skill lab expenses not included within the standard tuition rates. These expenses include both disposable and non-disposable items that will be required for the successful completion of your psychomotor portfolio. Additionally, due to our accreditation body's student to instructor ratio requirements, experienced state certified EMS instructors will be utilized to assist your professors with skill lab rotations. These required fees will also supplement the compensation for these instructors as needed.
Description: Skills application using the theory of paramedic practice. This course will complete the National Registry Paramedic Psychomotor Competency Portfolio. Students must pass all skills before advancing into clinical and field internship rotations.
Pre-requisite(s): PAR 2000.
($225 lab fee)

PAR 2100 - Capstone Course in Paramedic Practice

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Pathophysiology and advanced concepts applied to recognition of Advanced Life Support patient problems and treatment modalities. Student research and presentation projects are designed to meet professional goals and experiences. All paramedic terminal competencies will be re-verified prior to a recommendation to certify. Student must pass the physician oral examination to be recommended for certification testing.
Pre-requisite(s): PAR 2000, PAR 3010, PAR 2020, PAR 2030, PAR 2040.

PAR 2110 INT - Paramedic Clinical Experience

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $38.00
Course Fee Purpose: PAR 2110 requires an additional student fee of $40 per student. This fee covers the costs of clinical scheduling software not included within the standard tuition rates. The hospital systems at which each student will perform clinical rotations, mandates that the scheduling be managed through this software. The specific software and its use is dictated by the hospital systems and is not optional.
Description: Clinical rotations in various medical settings provide the student with the opportunity to perform skills and apply knowledge of paramedic practice. Includes, but is not limited to, areas in the operating room, emergency department, labor/delivery, psychiatric, pediatric, burn and cardiac cath units.
Pre-requisite(s): PAR 2000, PAR 3010, PAR 2020, PAR 2030, PAR 2040.

PAR 2120 INT - Paramedic Field Internship

Credits: (9)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: Rotations with various paramedic Fire/EMS agencies providing rescue vehicle response to advance the skills and performance of paramedic practice. Successful evaluation of professionalism, interpersonal relationships and problem solving under stress, must be completed for recommendation to test for certification/licensure. Student will nominally complete 480 hours of ride time and successfully complete 50 ALS Team Leads.
Pre-requisite(s): PAR 2000, PAR 2020, PAR 2030, PAR 2040, PAR 2110, PAR 3010.

PAR 3010 - Cardiac and Medical Emergencies

Credits: (6)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *2nd Blk*
Description: Integrates assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment and/or disposition plan for a patient with a cardiac or medical complaint. This course prepares the paramedic student to recognize, assess, develop and implement paramedic interventions related to cardiac and other medical emergencies. Topical areas include the cardiac, circulatory, digestive, endocrine, HEENT, hematologic, respiratory, and urinary systems. Concepts of infectious diseases, toxicology, anaphylaxis, environmental exposure, and shock will also be presented. Current AHA Guidelines and the 2010 National EMS Standards will be fully utilized.
Pre-requisite(s): PAR 2000.
May be repeated once for credit.

PAR 3110 - Critical Care Transport Course

Credits: (6)
Typically Taught Summer Semester: *1st Blk*
Description: This course will prepare experienced paramedics and registered nurses to become part of a highly functioning critical care transport team, often transporting high risk patients. Topics covered include; 1) History and role of critical care transport; 2) General principles of critical care transport, 3) Patient care principles 4) Trauma emergencies; 5) Medical emergencies; 6) Environmental emergencies 7) Special populations, and 8) Medical, legal and patient care issues in critical care transport. While the course is primarily oriented to ground transportation, the content presented will allow a student take the National Flight Nurse/Paramedic exam.
Pre-requisite(s): Paramedic or registered nurse (2-3 years experience nominal) or department approval.
May be repeated up to two times.

PAR 3120 - Tactical Emergency Medicine

Credits: (3)
Description: This rigorous course provides the principles of tactical medicine. Topics include instruction in the tenets of tactical emergency medicine, particularly in providing acute care in tactical combat situations and the medical operations support of tactical teams. This course is designed to provide the EMS provider with a variety of skills necessary to support a tactical law enforcement team.
Pre-requisite(s): EMT-Basic certification.
May be repeated up to two times.
Note: This course is not currently being offered.

PAR 3130 - Mobile Integrated Healthcare

Credits: (2)
Typically Taught Spring Semester: *1st Blk, Online*
Description: Mobile Integrated Healthcare (MIH) is the provision of healthcare using patient-centered, mobile resources in the out-of-hospital environment. This course is intended to provide the Emergency Healthcare Services student the tools needed to perform an organizational readiness assessment leading to the development of a community MIH program. The history of MIH, potential stakeholders, types of MIH programs along with data collection, QA/QI, and reimbursement will be explored. As the

course capstone, each student will submit a MIH implementation plan that could be utilized in their current EMS response area. (This course does not have a clinical component nor leads to any potential state licensure.)
Pre-requisite(s): Allied Health or Nursing background suggested or departmental approval.

PAR 4110 - Emergency Medical Services Management Topics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The principles of management and process that contribute to the effectiveness of day-to-day operations within an EMS organization. Topics include human resource management, communications systems, deployment strategies, and risk management. Additional topics include an emphasis on demand analysis, staffing, medical direction, reimbursement, capital investment, and cost control.
May be repeated up to two times.

PAR 4120 - Emergency Medical Service Teaching Topics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Using the USDOT/NHTSA National Guidelines for Educating EMS Instructors, this course will prepare emergency medical service instructors for classroom and skill lab teaching. Topics discussed include; 1) instructor roles and responsibilities; 2) the student; 3) foundations of education; 4) delivering the message; 5) evaluation and 6) course administration. Students will demonstrate EMS teaching in both a class room and skill lab environment.
Pre-requisite(s): EMT-Basic certification.
May be repeated up to two times.

PAR 4130 - Capstone Seminar in Emergency Medicine Research

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course is designed to offer students the basic principles and methods of empirical inquiry in emergency healthcare. The course will provide an understanding of emergency medicine research through serious exploration of its language, ethics, and methods. The course examines the processes of quantitative, qualitative, and mixed methods approaches to experimental and observed analysis. Students will develop the skills to begin to critically review literature relevant to emergency medicine research and determine why evidence-based practices are important for the development and progression of the emergency healthcare discipline.
Pre-requisite(s): Must be enrolled in Bachelor of Science in Emergency Healthcare Services or by departmental approval.

PAR 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to

experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

May be repeated six times for a maximum of six credit hours.

Note: This course is not currently being offered.

PDD 1010 - Introduction to Engineering & Technical Design (Solidworks)

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: An introductory course to explore engineering and technical design solutions using critical thinking in Science, Technology, Engineering and Mathematics (STEM). Learning modules include; The Engineering Design Process & Professions, Sketching & Documentation, Design Measuring, Introduction to CAD & Geometric Constraints, Design Visualization, Orthographic Projection & Multi-View Drawings, Fasteners, Assembly Drawings, Dimensioning, Tolerancing, Final Team Design Projects, and Final Review & Assessment.
Pre-requisite(s): MATH 1010 or placement.

PDD 1020 - Introduction to 2D CAD Software

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory course to explore engineering and technical design solutions using critical thinking in Science, Technology, Engineering and Mathematics. Topics include Engineering Design Processes & Professions, Sketching and Documentation, Design Measuring, Introduction to 2 D CAD Software, Design Visualization, Orthographic Projection and Multi-View Drawings, Fasteners, Assembly Drawings, Dimensioning, and Tolerancing.

PDD 1030 - Introduction to Product Design and Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Fees for this course are designed to cover equipment maintenance and replacement, computer usage, software, consumable materials and supplies, and instructional resources.
Description: This is an introductory course for students interested in majoring in Product Design and Development. Students will be exposed to Product Design and Development through several laboratory experiences that introduce them to concepts needed for future classes. Students will gain a clear understanding of degree requirements and possible career paths.
Pre-requisite(s): PDD 1010.

PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: The use of CAD to create industrial level production working drawings. Includes the latest ASME Y14.5 standards for Geometric Dimensioning & Tolerancing. Topics of discussion will include: dimensions, fits, tolerances, surface finishes, symbols for welding, piping, machined elements/processes and sheet metal flat patterns.
Pre-requisite(s): PDD 1010.

PDD 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hrs.

PDD 2460 - Product Design Fundamentals Using 3D CAD

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Product Design is the creative process of applying scientific and mathematical principles, experience, and judgment to the development of the solution of a technical product or system to meet a specific need. Turning ideas into design will incorporate problem identification, market research and brainstorming possible solutions, develop detailed part and assembly drawings, implementation, and evaluation. Sketching, gears/cams/shafts, advanced GD&T, tolerance build-up, tolerances for assemblies, introduction to rapid prototyping, and CNC design for manufacturing concepts will be presented. Advanced 3-D modeling software applications will include: library of parts, assembly constraints, motion constraints, drive constraints, and adaptive design. Three lectures per week. Three lectures per week.
Pre-requisite(s): PDD 1160.

PDD 2650 - Product Design & Development

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Uses CAD to lay out advanced production drawings and design. Uses the Machinery's Handbook, ANSI standards, geometric dimensioning and tolerances and manufacturer's reference materials. Supports the design and drafting required for senior project.
Pre-requisite(s): PDD 1030 and PDD 2460.

PDD 2830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Directed readings in Design Engineering Technology including product design and development and architectural areas. Must have department approval.
Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 2890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all advanced students in Design Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Spring Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

PDD 3100 - Tool Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Tool design principals used for work piece control in manufacturing and production. Topics include responsibilities of a tool designer, the design process, economics of design, tooling materials, and tool drawings and specifications. Other topics will include jigs, fixtures, gages, dies and tooling required by specialized manufacturing processes.
Pre-requisite(s): PHYS 2010, MFET 1210, PDD 2460, and MATH 1080 (or MATH 1050 and MATH 1060).

PDD 3210 - Machines and Mechanisms

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: Uses 3D parametric design software to produce design solutions for open-ended design

projects, focusing on the relationship between "make" and "buy" parts. Gives students the opportunity to become familiar with engineering functions and manufacturing processes as related to mechanical design. Introduces the iterative process required to optimize design solutions. Studies elements inherent to the design of components fabricated from traditional engineering materials using practical manufacturing methods. Examines the characteristics of mechanical components and the integration of said components to specific machine designs. Uses select information from manufacturer's data for components integral to the comprehensive design of complete machines. Covers concepts such as position, velocity, and acceleration. Also covers mechanism design including weldments, prime movers, gear pumps, belt and chain drives, hydraulic motors, bearing applications, braking systems, tanks, and sheet metal layout. Supports the design requirements for senior projects.
Pre-requisite(s): MFET 1210, MFET 2150, and PDD 2460.

PDD 3300 - Applied Kinematic Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Graphical representation of the motion of bodies without reference to the forces that cause the motion. Devices will be modeled and the limits of movement of components defined so that overall machine design can be animated and analyzed.
Pre-requisite(s): MFET 2300 or MFET 2310 and MFET 2320.

PDD 3400 - Rendering Basics (Photoshop/3ds Max)

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course introduces students to the basic tools and concepts used in Adobe Photoshop and 3ds Max. Photoshop instruction includes using layers, image editing using selection tools, filtering, and touching up a 3D render. 3ds Max instruction includes importing models, adding materials, lighting a scene, and creating a basic animation.

PDD 3460 - Parametric Design Graphics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support.
Description: An advanced design graphics course using state-of-the-art parametric modeling software. Topics include: parametric modeling fundamentals, constructive solid geometry concepts, model history, parent/child relationships, parametric constraints & relations, datum features, symmetrical features, 3D construction tools, advanced modeling tools, and assembly modeling.
Pre-requisite(s): PDD 1010.

PDD 3470 - Introduction to CATIA V5

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $35.00

Course Fee Purpose: Software licensing, lab computers and support

Description: Use of parametric 3D modeling software to prepare engineering documentation and model analysis for the automotive and aerospace manufacturing industries. Students will complete a series of laboratory assignments and term projects in an open lab environment.

Pre-requisite(s): PDD 1010, PDD 1160, and PDD 2460 or MFET 2870 or instructor's approval.

PDD 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

PDD 4200 - Advanced Mechanical Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00

Course Fee Purpose: Course Fees:
Fees for this course are designed to cover equipment maintenance and replacement, computer usage, software, consumable materials and supplies, and instructional resources.

Description: Uses 3D CAD (3-dimensional computer-aided design) software to create production designs and drawings for heavy industrial applications. Uses the American Institute of Steel Construction (AISC) Manual and the Structural Aluminum Design Handbook in conjunction with metal supplier's product engineering data to design and analyze mechanical systems using traditional and Finite Element Analysis (FEA) Methods in quantifying component mechanics of material integrity. Preparation of fabrication drawings for said systems will also be covered in the course.

Pre-requisite(s): MFET 2320.

PDD 4400 - Animation Basics (3ds Max)

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is a continuation of DET 3400. An in-depth look into 3ds Max focusing more on photorealism and animation. Students will learn how to take models created in other programs learned throughout the DET program into 3ds Max and bring them to life. Video editing is covered to allow students to create professional animations and videos.

Pre-requisite(s): PDD 3400.

PDD 4470 - Advanced CATIA V5

Credits: (3)
Typically Taught Spring Semester: *Full Sem*

Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: An advanced 3D CAD course featuring 3-D parametric modeling using commercially available software. Studies in parametric design and design intent, applying surfaces, rendering, and creating animated presentations for the automotive and aerospace industries.
Pre-requisite(s): PDD 3470.

PDD 4500 - Hydraulic and Pneumatic Applications

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: Software licensing, lab computers and support
Description: Examines the components of hydraulic and pneumatic systems, including a detailed study of each type of system and the integration of all components required for machine design. The symbols used to document hydraulic and pneumatic systems and the selection of components from vendor catalogs will be included in the detailing of complete machines.
Pre-requisite(s): PDD 3210.

PDD 4600 - Senior Project I (Design)

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A Capstone project spanning two consecutive semesters. This semester concentrates on documenting the design solution. The project includes application of skills, knowledge, techniques and concepts to design and manufacture or construct a project. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation. Prerequisite: Senior Project Application form, senior standing, approval of the department, and Associates Degree in DET or equivalent. (A student must apply for senior project one semester before the start of the senior project.)
Co-Requisite(s): MFET 4610. Cross-listed with MFET 4610L.

PDD 4610 - Senior Project II (Build)

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A Capstone project spanning two consecutive semesters. This semester concentrates on manufacturing or building the design solution. The project includes application of skills, knowledge, techniques and concepts to design and manufacture or construct a project. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.
Pre-requisite(s): PDD 4600. Cross-listed with: MFET 4620L.

PDD 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed readings in Product Design and Development. Must have department approval.
Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 4890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all advanced students in Product Design and Development. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Can be taken for 1-3 credit hours twice for a maximum of 6 credits.

PDD 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

PE 1010 - Aerobics, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heavy bags, exercise balls, mats, fitness bands, flooring, HR monitors, steps, toning bars, weight plates, bars, foam rollers, and other Aerobics equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1011 - Aerobics, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Course Fee: $5.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heavy bags, exercise balls, mats, fitness bands, flooring, HR monitors, steps, toning bars, weight plates, bars, foam rollers, and other Aerobics equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.

Description: A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1012 - Aerobics, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heavy bags, exercise balls, mats, fitness bands, flooring, HR monitors, steps, toning bars, weight plates, bars, foam rollers, and other Aerobics equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.

Description: A physical activity course that engages students in aerobic exercises to improve cardiovascular and respiratory functioning.

PE 1035 - Zumba, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing toning sticks, chain tassels, Zumba belts, wipe away sleeves/sweatbands, and other Zumba equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.

Description: A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1036 - Zumba, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing toning sticks, chain tassels, Zumba belts, wipe away sleeves/sweatbands, and other Zumba equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1037 - Zumba, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing toning sticks, chain tassels, Zumba belts, wipe away sleeves/sweatbands, and other Zumba equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that introduces students to Zumba; an activity that fuses cardiovascular fitness, upbeat world rhythms, and easy-to-follow choreography for a total-body workout.

PE 1040 - Walking for Fitness, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing yoga bands for stretching, foam rollers, compasses, wrist weights, ankle weights, HR monitors, and other Walking equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that engages students in walking to improve physical fitness.

PE 1041 - Walking for Fitness, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing yoga bands for stretching, foam rollers, compasses, wrist weights, ankle weights, HR monitors, and other Walking equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that engages students in walking to improve physical fitness.

PE 1042 - Walking for Fitness, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing yoga bands for stretching, foam rollers, compasses, wrist weights, ankle weights, HR monitors, and other Walking equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources.
Description: A physical activity course that engages students in walking to improve physical fitness.

PE 1043 - Jogging, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heart rate monitors, heart rate straps, exercise balls, foam rollers, jump ropes, box jumps, and other jogging equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students in jogging to improve physical fitness and

health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1044 - Jogging, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heart rate monitors, heart rate straps, exercise balls, foam rollers, jump ropes, box jumps, and other jogging equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students in jogging to improve physical fitness and health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1045 - Jogging, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing heart rate monitors, heart rate straps, exercise balls, foam rollers, jump ropes, box jumps, and other jogging equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students in jogging to improve physical fitness and health. Topics in the biomechanics of running efficiently and safely, heart rate, energy expenditure, body composition, and diet may be taught.

PE 1055 - Pilates

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements.

Examples of course fee expenditures for this specific course include replacing Pilates machine, table, chair, rings, exercise balls, mats, bolsters, and other Pilates equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that introduces students to Pilates training; a mind-body exercise program designed to tone the body, stabilize the core, improve balance, and increase flexibility.

PE 1057 - Hatha Yoga, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing yoga blocks, mat straps, bolsters, bricks, belts, grip towels, yoga blankets, eye pillows, ropes, swings, meditation equipment, mat cleaning materials, and other Hatha Yoga equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A beginner physical activity course that allows students to learn and experience the physical benefits and body awareness associated with practicing yoga.

PE 1058 - Hatha Yoga, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing yoga blocks, mat straps, bolsters, bricks, belts, grip towels, yoga blankets, eye pillows, ropes, swings, meditation equipment, mat cleaning materials, and other Hatha Yoga equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and experience the physical benefits and body awareness associated with practicing yoga. This Level II course allows students to build on skills developed in Level I.

PE 1068 - Kettlebell Conditioning

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the

students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. A large portion of the fees will also go towards driving range balls as well as course fee costs.
Description: An intermediate level physical activity course that allows students to learn and develop the skills needed to play golf.

PE 1132 - Golf, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk*
Typically Taught Fall Semester: *3rd Blk*
Course Fee: $100.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing golf balls (regular, wiffle,

foam), clubs, mats, tees, training aides, gps trackers, swing trainers, impact bags, and other Golf equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources. A large portion of the fees will also go towards driving range balls as well as course fee costs.

Description: An advanced level physical activity course that allows students to learn and develop the skills needed to play golf.

PE 1135 - Archery, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing bows, arrows, sights, bands, targets, stabilizers, target faces, blunts, arrowheads, and other archery equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1136 - Archery, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing bows, arrows, sights, bands, targets, stabilizers, target faces, blunts, arrowheads, and other archery equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1137 - Archery, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing bows, arrows, sights,

bands, targets, stabilizers, target faces, blunts, arrowheads, and other archery equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources

Description: A physical activity course that allows students to learn and develop the skills needed to practice archery.

PE 1140 - Marksmanship

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A physical activity course that allows students to learn and develop the skills needed to practice shooting and other skills related to marksmanship.

PE 1145 - Bowling, Level I

Credits: (1)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $75.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing lane rentals, balls, gloves, and other Bowling equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1146 - Bowling, Level II

Credits: (1)
Typically Taught Summer Semester: *3rd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing lane rentals, balls, gloves, and other Bowling equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1147 - Bowling, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $60.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing lane rentals, balls, gloves, and other Bowling equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice bowling.

PE 1150 - Billiards, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing cue sticks, balls, table rentals, chalk, training aides, and other Billiards equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that allows students to learn and develop the skills needed to practice billiards.

PE 1151 - Billiards, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00

Description: A physical activity course that introduces students to the outdoor activity of sailboating. The fundamental skills of sailboating will be addressed for both beginning and recreational sailors.

PE 1557 - Bicycling, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1558 - Bicycling, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1559 - Bicycling, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy bicycling.

PE 1575 - Rodeo I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A physical activity course that engages students to learn how to participate in rodeo events. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in rodeo.
May be repeated 2 times up to 3 credit hours.

PE 1670 - Ice Skating, Level I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing ice skate rentals, admittance into the ice sheet, and other Ice Skating equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that introduces students to ice skating. The fundamental skills of ice skating will be addressed for both beginning and recreational skaters.

PE 1710 - Country Swing Dance Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance

props, music, and other Country Square Dance equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources

Description: A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing.

May be repeated 12 times with a maximum of 12 credit hours.

PE 1711 - Country Swing Dance Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance props, music, and other Country Square Dance equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing.

May be repeated 12 times with a maximum of 12 credit hours.

PE 1712 - Country Swing Dance Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance props, music, and other Country Square Dance equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students to learn how to dance in the form of Country swing. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Country Swing Dancing.

May be repeated 12 times with a maximum of 12 credit hours.

PE 1765 - Hip Hop for Fitness Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance props, music, and other Hip-hop equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Hip-Hop.
May be repeated 12 times with a maximum of 12 credit hours.

PE 1766 - Hip Hop for Fitness Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance props, music, and other Hip-hop equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high level of fitness through participation in Hip-Hop.
May be repeated 12 times for a maximum of 12 credit hours.

PE 1767 - Hip Hop for Fitness Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $5.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing stereo equipment, dance props, music, and other Hip-hop equipment/training aides, and technology based teaching and learning aides, including but not limited to apps and other digitally based resources
Description: A physical activity course that engages students to learn how to dance in the form of Hip-Hop. Students will learn various skills, history and culture, and styles, as well as how to maintain a high

level of fitness through participation in Hip-Hop.

May be repeated 12 times for a maximum of 12 credit hours.

PEP 1079 - Weightlifting, Level III

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A vigorous physical conditioning course intended to assist students in skill development specific to Olympic weightlifting. The clean-and-jerk, and snatch, lifts will be emphasized exclusively.
Pre-requisite(s): PE 1080, or instructor approval.

PEP 2000 - Foundations of Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, purchasing your PEP Polo for wear in school visits and practicums, and other equipment used in Physical Education and in this course.
Description: Examination of history, philosophy, career opportunities, issues, and trends in physical education. Emphasis on professional preparation requirements and competencies.

PEP 2100 - Introduction to Coaching Sport

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Examines various coaching philosophies and styles along with the duties and responsibilities of the coach, with an emphasis on leadership skills, organizational and administrative duties, the legal responsibilities that affects sport and the evaluation of the athletic program.

PEP 2480 - Fitness for Life Concepts

Credits: (1)
Description: Prescribe individualized programs for weight control, cardiovascular endurance, strength and flexibility.
Note: This course is not currently offered.

PEP 2500 - Sport Pedagogy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.
Description: This course is designed to provide information on skill development, practice and game planning, season schedules, creating drills and practice sessions, motivating players and coaching tips.

PEP 2600 - Growth and Motor Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Description of the structural and functional principles of human growth and development. Introduction of motor learning principles with emphasis on their application to pedagogy.
Pre-requisite(s): PEP 2000 or concurrent enrollment in PEP 2000.

PEP 2700 SS - Sociohistorical Aspects of Sport

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Online*
Typically Taught Spring Semester: *Online*
Description: This course examines the sociological and historical aspects of sport in American society with the purpose of gaining an understanding of how race, class, gender, ethnicity, politics, and religion can bind Americans in a community of shared values and aspirations. Students will explore the unifying power of sport, as well as how sport serves to reproduce many inequalities present in the larger society. Gaining an understanding of how these issues, and others, interplay with sport is critical for those aspiring to become successful sport coaches, as well as for those who simply wish to gain an understanding of the complex relationship between sport and society (e.g., parents, fans, and sport participants).

PEP 2800 - Individual Projects

Credits: (1-4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive study of a significant problem in the field of physical education. Hours to be arranged.
May be repeated 3 times up to 4 credit hours.

PEP 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

PEP 3100 - Principles of Motor Learning and Motor Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to introduce and explore motor learning and motor development principles. Particular focus will be on how the application of motor learning and motor development impact the physical education and coaching learning environments.
Pre-requisite(s): PEP 2000.
Co-Requisite(s): PEP 3520.

PEP 3240 - Skill Development and Methods of Field Sports

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of field sports (e.g., flag football, soccer, and softball).
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3242 - Skill Development and Methods of Court Sports

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of court sports (e.g., basketball and volleyball).
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3260 - Methods of Teaching Lifelong Activities

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Designed to give students a broad variety of noncompetitive/nonconventional activities and sports that are beneficial as lifetime sports.
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3262 - Methods of Teaching Individual Sports

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of individual sports (e.g., golf, swimming, and track and field).
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3264 - Skill Development and Methods of Teaching Racket Sports

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of this course is to provide prospective physical education teachers experiences that will lead to skill acquisition, the ability to analyze, diagnose and correct errors in skill performance, the development of skills, drills, and game progressions, and the pedagogical skills needed to teach a variety of racket sports (e.g., badminton, raquetball, and tennis/pickleball).
Pre-requisite/Co-requisite: PEP 2000.

PEP 3270 - Methods of Teaching Aerobic Conditioning

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Examine, evaluate and practice aerobic conditioning theories and current practices for the purpose of preparing entry level professionals to select, incorporate, and facilitate appropriate aerobic activities, as well as, design and evaluate the effectiveness of aerobic conditioning programs.
Two lecture/labs per week.
Pre-requisite(s): PEP 2000, PEP 2600 or concurrent enrollment in PEP 2000 or PEP 2600 .
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3280 - Methods of Teaching Strength and Conditioning

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include laboratory equipment costs and maintenance, as well as the provision of test preparation materials for the CSCS exam.
Description: Examine, evaluate and practice strength and conditioning theories and current practices for the purpose of preparing entry level professionals to select, incorporate, and facilitate appropriate conditioning activities, as well as, design and evaluate the effectiveness of strength and conditioning programs.
Two lecture/labs per week.
Pre-requisite(s): PE 1080.

PEP 3290 - Methods of Teaching Fitness for Life

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to introduce the fundamental principles of cardiovascular fitness, flexibility, and strength development, as well as to assist each individual to design and implement their own personal fitness program based on individual needs, assessments, and personal preferences. Students will explore resources for and methods of teaching the principles of fitness in the secondary school setting. This is a required course for the physical education major and the physical education/coaching minor.
Pre-requisite/Co-requisite: Prerequisite or concurrent enrollment in PEP 2000.

PEP 3310 - Techniques for Teaching Aquatics

Credits: (2)
Description: Practice of swimming and related aquatic skills, teaching techniques for all levels of swimming, and the acquisition of materials to use for teaching swimming. Course leads to American Red Cross certification as a Water Safety Instructor.
Pre-requisite(s): Skills screening will be required.
Note: This course is not currently offered.

PEP 3320 - Techniques for Teaching Lifeguarding

Credits: (2)
Description: Professional techniques and methods in teaching water safety, educational programs, lifeguard training and reviews, and lifeguard progressions are taught. This course leads to Red Cross certification as a lifeguard instructor.
Note: This course is taught as needed.

PEP 3400 - Sport Psychology for Coaches

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course involves understanding the study and analysis of human behavior patterns as they relate to sport performance. Students (coaches) are provided with necessary information regarding mental processes, and applicable uses for this information. Recommended Prerequisite: PSY 1010.

PEP 3520 - Curriculum and Assessment

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the

students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.

Description: Course emphasis is on developing curriculum necessary to meet the needs of diverse learners. Emphasis is also on development of assessment strategies that correctly match objectives and instruction. The students are given a basic understanding of the statistical use of data for grade determination. Students will have hands on experience in designing and implementing various assessments and grading methods relating to physical education objectives. Students will also be provided the opportunity to learn how to design and implement lessons using up-to-date forms of technology that are currently being used in public schools.

Pre-requisite(s): PEP 2000.
Co-Requisite(s): PEP 3100.

PEP 3520L - Curriculum and Assessment Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will avail students a practicum opportunity to apply in an area K-12 school the theory learned and the curriculum prepared in the Curriculum and Assessment PEP 3520 course. Students will develop lessons and assessments to determine students learning and implement them in a teaching experience in the school setting.
Co-Requisite(s): PEP 3520.

PEP 3600 - Measurement and Statistics in Exercise Science

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.
Pre-requisite(s): Meet WSU Quantitative Literacy requirement and complete WEB 1700.

PEP 3610 - Assessment/Technology in Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to help students develop assessment strategies that correctly match objectives and instruction. The students are given a basic understanding of the statistical use of data for grade determination. Students will have hands on experience in designing and implementing various assessment (affective, cognitive, and psychomotor) and grading methods relating to physical education objectives. Students will also be provided the opportunity to learn how to design and implement lessons

using up-to-date forms of technology that are currently being used in public schools.

Pre-requisite(s): A minimum of 3 Skill Development and Methods of Teaching Courses.

PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $7.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.
Description: The course is designed to provide students with instructional methods, activities and skills for teaching Physical Education K-6 and Health Education. The course will include a 15-hour hands-on-practicum teaching experience in an area public school. The content of this course will be presented through various instructional strategies and teaching models.
Pre-requisite/Co-requisite: EDUC 3100.

PEP 3630 - Methods of Teaching Elementary School Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.
Description: Provides prospective elementary physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for elementary school-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be explored.
Pre-requisite(s): PEP 2000 or PEP 3100 and PEP 3520.

PEP 3660 - Adapted Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment

replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.

Description: The purpose of this course is to introduce and explore various congenital and acquired disabilities as well as gain an understanding of the legal mandates for individuals with disabilities and their educational rights. Particular emphasis and focus of this course will be on the application of various teaching methodologies to ensure inclusion for all in the physical education learning environment. In addition to meeting in the classroom, students will be required to participate in practicums both in the local school systems and at Weber State University.

Pre-requisite(s): PEP 2000, PEP 3100, and PEP 3520.

PEP 4700 - Methods of Teaching Junior High School Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.

Description: Provides prospective Junior High School physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for Junior High School-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be explored.

Pre-requisite(s): PEP 2000 and PEP 3100 and PEP 3520.

PEP 4710 - Methods of Teaching High School Physical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include replacing basketballs, scarves, hula hoops, coloring/art equipment, balloons, ribbon wands, app based software to aid teaching, and other equipment used in Physical Education and in this course.

Description: Provides prospective high school physical education teachers with the knowledge, skills, and experience necessary to delivering quality physical education lessons for high school-aged students. Principles, concepts, strategies, classroom management, skill development, and assessment will be

explored.

Pre-requisite(s): PEP 2000 and PEP 3100 and PEP 3520.

PEP 4800 - Individual Projects

Credits: (1-4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive study of a significant problem in the field of physical education. Hours to be arranged. For seniors only.
May be repeated 3 times up to 4 credit hours.

PEP 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individualized readings and investigation of professional literature and its application to current and future specialized topics supervised by a faculty member. Extensive reading and formal writing required. Hours to be arranged. For seniors only.
May be repeated 2 times up to 3 credit hours.

PEP 4860C INT - Field Experience Coaching

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Work experience which applies prior academic learning in a supervised setting.
Pre-requisite/Co-requisite: PEP 2100 and PEP 2500.

PEP 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

PEP 4990 INT - Field Experience/Senior Seminar

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to provide students with the opportunity to gain practical experiences in the field of physical education by teaching a class or classes in local public school grades 6-12. The course is also designed for students to meet and discuss a variety of issues relevant to preparing students to be physical educators.

Pre-requisite(s): PEP 3520 and PEP 3100 and a minimum of 3 methods courses (12 credits). Choice of Methods Courses: PEP 3280, PEP 3290, PEP 3630, PEP 3660, PEP 4700, PEP 4710.

PEP 6010 - Leadership in Physical Education

Credits: (3)
Description: Designed to provide graduate students with an understanding of both theoretical and practical aspects of leadership in their respective fields of study. The ultimate goal of the course is to encourage daily application of leadership concepts in the personal and professional lives of the students.
Note: This course is taught as needed.

PEP 6100 - Current Trends in Health and Physical Education

Credits: (3)
Description: A study of health and physical education perspectives with an emphasis on the changes, trends, and future prospects that will affect the profession and the needs of those they serve.
Note: This course is taught as needed.

PEP 6370 - Exercise Management for Special Populations

Credits: (2)
Description: Exercise management for populations with special conditions. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.
Pre-requisite(s): ESS 2300 and ESS 3510.
Note: This course is taught as needed.

PEP 6420 - Curriculum in Physical Education

Credits: (3)
Description: Designed to provide an understanding of the role and importance of physical education in today's society, steps involved in curriculum planning, trends and issues in curriculum and to orient the student to various ideas in curriculum design.
Note: This course is taught as needed.

PEP 6520 - Improving Physical Education

Credits: (3)
Description: Designed for elementary classroom teachers to provide an opportunity for the teacher to further develop teaching skills, personal performance skills, knowledge and competencies. A major goal of this course will be to help the classroom teacher gain additional confidence in teaching physical education activities.
Note: This course is taught as needed.

PEP 6830 - Motor Learning

Credits: (3)

Description: An in-depth study of the psychomotor domain of development. Special emphasis is given to skilled performance, learning theory, motor abilities, individual differences, developmental considerations, instructional and training procedures. Secondary school and athletic populations are considered regarding these topics.

Note: This course is taught as needed.

PHIL 1000 HU/EDI - Introduction to Philosophy

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: An introduction to the methods and problems of philosophy, with special emphasis on topics pertaining to the nature of reality, the theory of knowledge, and value theory.

PHIL 1120 HU - Contemporary Moral Problems

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: An introduction to ethical theories and their application to contemporary moral issues, such as human cloning, abortion, and physician-assisted suicide.

PHIL 1250 HU - Critical Thinking

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to informal logic, focusing on issues of logical form, standards of good and bad reasoning, and argumentative writing.

PHIL 2200 - Deductive Logic

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to the concepts and methods of modern symbolic logic. Emphasis is placed on problems of translating English expressions into logical symbols, on the development of skills in using the formal proof procedures of sentential and predicate logic, and development of the predicate calculus.

PHIL 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and number of credits authorized will appear on the student's transcript.

May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

PHIL 3010 - History of Philosophy: Classical & Medieval

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: A survey of the major philosophers and issues from the Presocratics to the beginning of the early modern period, covering such major figures as Plato, Aristotle, Plotinus, Augustine, and Aquinas.

PHIL 3020 - History of Philosophy: Modern

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A topical survey of the major philosophers and issues from the seventeenth century to the beginning of the nineteenth century (Descartes to Kant).

PHIL 3150 - Existentialism

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An examination of central themes in Existentialism, including anxiety, dread, freedom, awareness of death, and the consciousness and meaning of existence. These themes will be traced through the writings of such writers as Kierkegaard, Nietzsche, Heidegger, Camus, Sartre, and Simone de Beauvior.

PHIL 3200 - Philosophy of Democracy

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: An examination of the ideals of and justifications for democratic institutions.

PHIL 3250 - Philosophy of Law

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An examination of central topics in the philosophy of law, including the relationship between law and morality, the justification of punishment, and legal reasoning.

PHIL 3350 - Medical Ethics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A survey of fundamental moral issues arising from the practice of medicine and from advances in medical science.

PHIL 3500 - Philosophy of Western Religion

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A survey of topics in the philosophy of religion, especially as they pertain to Judaism, Christianity, and Islam.

PHIL 3550 - Philosophy of Eastern Religion

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An examination of classic philosophical issues in Eastern religious thought, with a special emphasis on Hinduism, Buddhism, Taoism, and Confucianism.

PHIL 3650 - Aesthetics

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: An examination of philosophical issues concerning the nature and importance of aesthetic experience and appreciation in the arts and the environment, including questions about the definition of art, artistic representation and expression, and aesthetic value.

PHIL 3700 - Environmental Philosophy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to central issues in the field of environmental philosophy. The course may cover such topics as conceptions of nature; moral frameworks for addressing environmental problems, including theories of social justice; values in nature, both moral and aesthetic; and applied ethical issues, such as the ethics of climate change and animal rights/welfare.

PHIL 3800 - Philosophy of Race, Gender, and Justice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A study of theories of racial and gender justice and injustice in relation to current issues, such as affirmative action, policing, reparations, Indigenous land rights, access to reproductive and transgender healthcare, and gendered disparities in paid and unpaid work.

PHIL 4400 - Great Issues in Philosophy

Credits: (3)
Description: A selected study of one of the traditional questions of philosophy, such as the nature of knowledge and truth, the mind/body problem, free will/determinism, and the nature of moral/aesthetic value.
May be repeated once up to six credits covering a different topic.
Note: This course is offered as needed.

PHIL 4450 - Great Thinkers of Philosophy

Credits: (3)

Description: Selected study of the major works of a single central figure in philosophy. Philosophers whose works may be taught include, but are not limited to: Plato, Aristotle, Augustine, Aquinas, Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, Kant, Nietzsche, Mill, and Wittgenstein.
May be repeated once up to six credits covering a different philosopher.
Note: This course is offered as needed.

PHIL 4510 - Metaphysics

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A study of enduring topics concerning the nature of reality, such as the mind/body problem, free will/determinism, the problem of universals, and the existence of God. Historical and contemporary philosophers are discussed.

PHIL 4520 - Epistemology

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: A study of enduring topics in the theory of knowledge, such as the nature of justification; the relationship between knowledge, justification, and belief; the nature of truth; and sources of knowledge. Historical and contemporary philosophers are discussed.

PHIL 4530 - Philosophy of Mind

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A study of enduring topics in the philosophy of mind, such as the nature of mind; the mind-body problem; consciousness; the individuation of mental content; artificial intelligence. Historical and contemporary philosophers are discussed.

PHIL 4540 - Philosophy of Language

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A survey of central topics in the philosophy of language, including semantic content, speech acts, and the connection between meaning and truth. Historical and contemporary philosophers are discussed.

PHIL 4600 - Ethical Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: An in-depth study of western ethical theories, including utilitarianism, Kantian ethics, virtue ethics, and social contract theory.

PHIL 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

PHIL 4830 - Directed Readings

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individually designed tutorial for philosophy minors and majors, intended to satisfy program requirements not available through scheduled class offerings.
May be repeated 8 times for a maximum of 9 credits.

PHIL 4900 - Senior Capstone Seminar

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive review of the various areas of philosophy and an in-depth study of a single philosopher with the goal of producing a substantial thesis paper.

PHIL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and number of credits authorized will appear on the student's transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

PHYS 1010 PS - Elementary Physics

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $10.00
Course Fee Purpose: Consumables and maintenance of equipment used for teaching demonstrations
Description: A brief survey of physics at the introductory level. Topics covered include laws of motion, gravity, energy, light, heat, sound, electricity, magnetism, atomic and nuclear physics, radioactivity, and relativity.
Three hours of lecture per week.

PHYS 1040 PS - Elementary Astronomy

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $10.00
Course Fee Purpose: Consumables and maintenance of equipment used for teaching demonstrations
Description: A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang.
Three hours of lecture per week.
Cross-listed with ASTR 1040.

PHYS 1300 - Scientific Data Processing and Visualization

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Description: An introduction to computer programming and computational techniques used across a broad spectrum of scientific applications. These include parsing complex data, plotting and visualization methods, interpolation techniques, basic statistics, and curve fitting.
Pre-requisite(s): MATH 1040 or MATH 1050 or MATH 1080 or permission of the instructor (grade of C or better).

PHYS 1360 PS - Principles of Physical Science

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.
Two hours of lecture and one 3-hour lab per week.
Recommended for Elementary Education majors.

PHYS 2010 PS - College Physics I

Credits: (5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: First semester of a two-semester sequence in general physics, primarily for students in pre-medicine, pre-dentistry, technology and other disciplines requiring physics without calculus. This semester covers topics in mechanics, including kinematics, Newton's laws, and the conservation laws of energy, linear momentum, and angular momentum. Also covered are topics in gravity, fluid mechanics, waves, and thermodynamics.
Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2019).
Pre-requisite(s): MATH 1060 OR MATH 1080 OR MATH 1210.
Co-Requisite(s): PHYS 2019.

PHYS 2015 - College Physics I Lab

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Enrollment limited to transfer students.
One 3-hour lab per week.
Co-Requisite(s): PHYS 2010.
Enrollment limited to transfer students.

PHYS 2019 - College Physics I Lab

Credits: (0)
Course Fee: $25.00
Course Fee Purpose: Laboratory consumables, maintenance of laboratory equipment, hourly employee lab assistance
Description: 3-hour lab to be taken concurrently with PHYS 2010.
Co-Requisite(s): PHYS 2010.

PHYS 2020 - College Physics II

Credits: (5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Second semester of a two-semester sequence in general physics. This semester covers topics in electricity and magnetism, electromagnetic waves, light and optics, relativity, atomic, and nuclear physics.
Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2029).
Pre-requisite(s): PHYS 2010.
Co-Requisite(s): PHYS 2029.

PHYS 2025 - College Physics II Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Enrollment limited to transfer students.
One 3-hour lab per week.
Co-Requisite(s): PHYS 2020.
Enrollment limited to transfer students.

PHYS 2029 - College Physics II Lab

Credits: (0)
Course Fee: $25.00
Course Fee Purpose: Laboratory consumables, maintenance of laboratory equipment, hourly employee lab assistance

Description: 3-hour lab to be taken concurrently with PHYS 2020.
Co-Requisite(s): PHYS 2020.

PHYS 2040 PS - Principles of Observational Astronomy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. *Cross-listed with ASTR 2040.*
Pre-requisite(s): MATH 1060 (minimum grade of C).

PHYS 2090 PS SUS - Energy and the Environment

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This interdisciplinary course explores how energy moves through our modern technological society. We will study the many forms of energy, traditional, and emerging sources of energy, and how energy use affects our environment. Much of the course will focus on identifying energy-related problems and their potential solutions.

PHYS 2210 PS - Physics for Scientists and Engineers I

Credits: (5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: First semester of a two-semester sequence in calculus-based physics, primarily for students in science, math, computer science, and pre engineering. This semester covers topics in mechanics, including kinematics, Newton's laws, and the conservation laws of energy, linear momentum, and angular momentum. Also covered are topics in gravity, fluid mechanics, waves, and thermodynamics. Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2219).
Co-Requisite(s): MATH 1210 and PHYS 2219.

PHYS 2215 - Physics for Scientists and Engineers I Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Enrollment limited to transfer students.
One 3-hour lab per week.
Co-Requisite(s): PHYS 2210.
Enrollment limited to transfer students.

PHYS 2219 - Physics for Scientists and Engineers I Lab

Credits: (0)
Course Fee: $25.00

Course Fee Purpose: Laboratory consumables, maintenance of laboratory equipment, hourly employee lab assistance

Description: 3-hour lab to be taken concurrently with PHYS 2210.

Co-Requisite(s): PHYS 2210.

PHYS 2220 - Physics for Scientists and Engineers II

Credits: (5)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Second semester of a two semester sequence in calculus-based physics. This semester covers topics in electricity and magnetism, electromagnetic waves, light and optics, relativity, and quantum, atomic, and nuclear physics.

Class meets five hours per week in lecture/discussion format. One 3-hour lab per week (PHYS 2229).

Pre-requisite(s): PHYS 2210.

Co-Requisite(s): MATH 1220.

PHYS 2225 - Physics for Scientists and Engineers II Lab

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Enrollment limited to transfer students.

One 3-hour lab per week.

Co-Requisite(s): PHYS 2220.

Enrollment limited to transfer students.

PHYS 2229 - Physics for Scientists and Engineers II Lab

Credits: (0)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Laboratory consumables, maintenance of laboratory equipment, hourly employee lab assistance
Description: One 3-hour lab per week.

Co-Requisite(s): PHYS 2220.

PHYS 2300 - Scientific Computing for Physical Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to computer programming and fundamental numerical algorithms as used for problem solving and visualization in the natural sciences. Applications may include nonlinear dynamics, chaos, many-particle systems, and Monte Carlo techniques.

Pre-requisite(s): PHYS 2210, MATH 1210, and either MATH 1200 or CS 1030 or permission of the instructor.

PHYS 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.
Class will meet once per week and will be taught in a lecture/demonstration format.
Cross-listed with BTNY, CHEM, GEO, and PHYS.

PHYS 2710 - Introductory Modern Physics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Relativity, quantum effects, the hydrogen atom, many-electron atoms, molecular and solid-state bonding, quantum effect devices, nuclear structure, nuclear reactions and devices, elementary particles.
Pre-requisite(s): PHYS 2220, MATH 1200 (may be taken concurrently), and MATH 1220.

PHYS 2800 - Introductory Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with ASTR 2800.
May be repeated up to 10 times.

PHYS 2820 - Elements of Research in the Sciences

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.
Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).
Cross-listed with CHEM 2820 and GEO 2820.

PHYS 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.

Cross-listed with ASTR 2830.
May be repeated up to 10 times.

PHYS 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in the Physics Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

PHYS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

PHYS 3160 - Stellar and Planetary Astrophysics

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Selected topics in astrophysics, with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.
Pre-requisite(s): PHYS 2220.
Cross-listed with ASTR 3160.

PHYS 3170 - Galaxies and Cosmology

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.
Pre-requisite(s): PHYS 2220.
Cross-listed with ASTR 3170.

PHYS 3180 - Thermal Physics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to thermodynamics and statistical mechanics. Topics include heat and work; ideal gases; equipartition of energy; entropy; the Boltzmann, Fermi-Dirac, and Bose-Einstein distributions; applications to heat engines, refrigeration, chemical equilibrium, phase transitions,

blackbody radiation, and properties of solids.
Pre-requisite(s): PHYS 2220, MATH 1200 and MATH 1220.

PHYS 3190 - Applied Optics

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: Geometrical and physical optics, lasers, lenses, optical instruments, interference, thin films, interferometry, holography, diffraction, gratings, crystal diffraction, polarization.
Two lectures and one 3-hour lab a week.
Pre-requisite(s): PHYS 2220 and MATH 1220.

PHYS 3310 - Scientific Computing for Physical Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An exploration of computer programming and fundamental numerical algorithms as used for problem solving and visualization in the natural sciences. Applications may include nonlinear dynamics, chaos, many-particle systems, and Monte Carlo techniques.
Pre-requisite(s): PHYS 2210 and PHYS 1300 or permission of instructor.

PHYS 3320 - Advanced Computational Physics

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: This course extends the computational skills developed in PHYS 3310 to address a wider range of problems in modern physics. Students will explore the limits of computational methods and develop techniques suited to high-performance computing. Applications may be chosen from nonlinear dynamics, astrophysics, condensed matter physics, and quantum mechanics.
Pre-requisite(s): PHYS 2220 and PHYS 3310.

PHYS 3410 - Electronics for Scientists

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory course in electronics for students in physics and other sciences. The course includes D.C. and a.c. circuit analysis using complex impedances and covers basic principles of semiconductor operation, transistors, analog and digital integrated circuits, analog-to-digital conversion techniques used in computer interfacing, and noise.
Three lectures and one 3-hour lab a week.
Pre-requisite(s): PHYS 2220.

PHYS 3420 - Data Analysis, Statistics, and Instrumentation

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Intermediate-level course in computer interfacing (data acquisition and analysis) for students

in physics and all other sciences. Topics may include: data acquisition with industry-standard software packages, computerized test and measurement, analog-to-digital and digital-to-analog conversion, data acquisition electronics, electronic sensors (thermal sensors, light sensors, etc.), least squares curve fitting, fast Fourier transforms (FFT), Nyquist's theorem, noisy and weak signals.
Two lectures and one 3-hour lab a week.
Pre-requisite(s): PHYS 2020 or PHYS 2220 and PHYS 1300.

PHYS 3500 - Analytical Mechanics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Particle motion, oscillating systems; planetary motion, stability of orbits; collisions; Euler's equations, gyroscopic motion; Lagrange's equations, Hamilton's equations, theory of vibrations.
Pre-requisite(s): PHYS 2220, MATH 1200 and MATH 2280.

PHYS 3510 - Electromagnetic Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Vector analysis; electrostatics; calculating electric potentials; solving Laplace's equation; multipole expansions; electrostatic fields in matter; magnetostatics; charges in motion; electrodynamics; Faraday's law; Maxwell's equations.
Pre-requisite(s): PHYS 2220, MATH 1200, MATH 2210 and MATH 2280.

PHYS 3540 - Mechanical and Electromagnetic Waves

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Periodic motions, free and forced vibrations; resonance; normal modes; dispersion; boundary conditions; electromagnetic waves and light; the Fresnel equations; electromagnetic radiation from accelerating charges.
Pre-requisite(s): PHYS 3500, PHYS 3510.

PHYS 3570 - Foundations of Science Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

PHYS 3710 - Nuclear and Particle Physics

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Nuclear structure and nuclear reactions including radioactive decay, fission, and fusion, with

selected applications. The standard model of elementary particles and interactions. Collider experiments and their interpretation in terms of Feynman diagrams. Topics of current research at the high-energy frontier.

Pre-requisite(s): PHYS 2710.

PHYS 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

PHYS 4200 - The Physics of Materials

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An introduction to the modern theory of condensed matter. Emphasis is placed on the structural, electrical, and thermal properties of solids, with particular attention to materials of current research interest.

Pre-requisite(s): CHEM 1210 and either PHYS 2710 or CHEM 3410.

PHYS 4400 - Advanced Physics Laboratory

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Advanced experiments in mechanics, electromagnetism, modern physics, and nuclear physics. This course also covers general laboratory practice, data analysis, and error propagation. Four hours of lab per week.

Four hours of lab per week.

Pre-requisite(s): PHYS 1300, PHYS 2220; either PHYS 3190 or PHYS 3410.

PHYS 4410 - Materials Characterization Laboratory

Credits: (2)
Typically Taught Fall Semester: *Full Sem even years*
Description: A series of experiments for advanced students employing modern methods of measurement of properties of materials. The course will teach microscopic and spectroscopic techniques and general laboratory practice, data analysis, and error propagation.

Four hours of lab per week.

Pre-requisite(s): PHYS 1300, PHYS 2220 and PHYS 3410.

PHYS 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Acquaintance and practice with various teaching and assessment methods. Development of

science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
Pre-requisite(s): Admission to the Teacher Education Program.

PHYS 4610 - Quantum Mechanics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Wave-particle duality, Schrodinger equation, wave function, quantization rules, one-dimensional motion, one-electron atoms, spin and orbital angular momentum.
Pre-requisite(s): MATH 2270 and PHYS 2710.
Pre-requisite/Co-requisite: PHYS 3500.

PHYS 4620 - Advanced Quantum Mechanics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Approximation methods and other selected topics in pure and applied quantum mechanics.
Pre-requisite(s): PHYS 4610.

PHYS 4800 - Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Open to qualified students for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with ASTR 4800.
May be repeated up to 10 times.

PHYS 4830 - Readings in Physics/Astronomy

Credits: (1-3)
Description: Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis. Time and credit to be arranged.
Pre-requisite(s): Consent of instructor.
Cross-listed with ASTR 4830.
May be repeated up to 10 times.

PHYS 4890 INT - Cooperative Work Experience

Credits: (1-6)
Description: A continuation of PHYS 2890. Open to all students.
May be repeated for credit up to three times.

PHYS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

PHYS 4970 - Senior Thesis

Credits: (2)
Description: An individual research program pursued under faculty supervision. It is expected that one or more semesters of research (PHYS 4800) will precede registration for this course. Course evaluation will include an oral and a written report.
Pre-requisite(s): senior class standing and consent of departmental committee.

PHYS 4990 - Seminar in Physics

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Weekly presentations by students, faculty, and visitors on topics in physics and astronomy. Each student taking this course for credit will make a presentation on a topic agreed upon with a faculty mentor and the seminar instructor.
Pre-requisite(s): previous upper division physics course.
May be taken twice for credit.

PHYS 5030G - Physics for Teachers

Credits: (2-3)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
May be repeated once up to 6 credit hours.

POLS 1010 SS/EDI - Politics, Power, and the State

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to the study of political science. It presents an overview of the discipline, including the basic theories, concepts, approaches, and enduring questions of political science. The course introduces students to the primary subfields of political science, American, Comparative, International Relations, Political Theory, Public Administration and Public Law. The focus is on the substance of politics, power, and the state. This includes the roles played by states, mass publics, organizations, institutions, and individuals and the output of their interactions on public policy and

international relations, providing students with a foundation of knowledge and the analytical skills necessary to understand modern politics in a global and historical context.

POLS 1100 AI - American National Government

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: A study of American constitutional democracy at the national level, including political institutions, interests, ideals, and the processes through which policies are formulated and implemented.

POLS 1520 SS - Leadership and Political Life

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The purpose of the Leadership and Political Life class is to introduce students to the theory and practice of leadership in the public realm, which is applicable to the private sector.

POLS 2100 SS SUS GLB - International Politics, Organizations, and Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will allow students to explore the foundations and forces that shape international politics and society. It examines the concept of power and sovereignty within the system including discussions of conflict, war, and terrorism. Global economics will be examined, including economic interdependence, globalization, trade, and development. International institutions will be examined including the United Nations to understand the role of international organization, international law, and the concepts of sustainable development.

POLS 2200 SS GLB - Global Governments, Politics, and Societies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory survey, comparing and contrasting political ideas, institutions and processes in the political systems of the world to gain a deeper knowledge of, and a broader perspective on, political phenomena.

POLS 2300 SS - Introduction to Political Theory

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An examination of the arguments behind and the implications of the dominant theories of politics. Theories that are studied include liberalism, conservatism, socialism, and republicanism, among others. In studying these theories, the works of such theorists as Plato, Aristotle, Locke, Rousseau, Marx, and Mill will be examined.

POLS 2400 SS - Introduction to Law and Courts

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introductory survey of law and courts emphasizing the structure of courts, different forms of law, and the various actors involved in legal conflicts.

POLS 2500 SS/EDI/GLB - Human Rights in the World

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Human rights (HR) are a powerful idea in the modern world, but also the focus of controversy. This course will provide students with a broad foundation in human rights including the ability to analyze HR in domestic and int'l law, examine prevention and prosecution techniques, and debate current issues at home and abroad. Emphasis will be placed on women and gender studies (including LGBT issues), vulnerable populations such as refugees, and atrocity crimes.

POLS 2700 - Introduction to Public Administration

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: To understand the role of public administration in the United States, this course examines the administrators who manage and implement policy, the tools they use, and the environments in which they work. We will cover the economic, political, and social dynamics within public administration as well as management challenges related to human resources, finance, program development, evaluation, and strategic planning. Introduction to public administration would not be complete without discussions about the values and ethics unique to the public sector. We will be using textbooks, other assigned readings, case studies, simulations of ethical quandaries, and whenever possible hands-on learning experiences. The first half of the course will include historical milestones in the history of the administrative state, the logic of public service and the constitutional context of executive power, and management challenges for the public sector in the 21st century. The second half of the course will focus on the policy cycle, program implementation and evaluation, budgeting, leadership and ethics, and the future of public administration.

POLS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

POLS 2930 - Peacebuilding in Rwanda

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: In this course, students will travel to Rwanda (Africa) to participate in a Peacebuilding Institute (PBI) with Weber State University and Never Again Rwanda. Weber State students and Rwandan University students will work together for an unforgettable academic experience. Through readings, site visits, lectures from specialists, and group discussions, students will explore themes of genocide, human rights, transitional justice, and good governance. In addition they will develop skills in cross-cultural dialogue exchange.

POLS 3070 - Moot Court

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Students in teams of two prepare appellate arguments based on a hypothetical case with Constitutional Law issues that are argued before the Supreme Court of the United States. Students develop legal arguments and briefs for both the petitioner and the respondent for two issues based on a closed set of approximately twenty real Supreme Court cases. Students are required to make use of existing Supreme Curt precedents in addition to arguing the facts in the hypothetical case. Students develop, prepare, and practice their arguments with one another in class and compete against other teams in the Western Regional Moot Court competition held in November in California. Counselors are judged by a panel typically made up of law school professors, attorneys, and graduate and law school students.
Suggested Requisite(s): Recommend prior constitutional law and legal studies coursework, but not required.

POLS 3140 GLB - Foreign Policy of the United States

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An analysis of the making of American foreign policy with reference to the role and influences of beliefs, interests, public opinion, media and especially the institutional struggle between President & Congress. The challenges facing contemporary U.S. foreign policy will also be examined.

POLS 3150 GLB - Model United Nations

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Model United Nations (Model UN) is designed to familiarize students with the most pressing global challenges facing the world. The course is an educational simulation that replicates the workings of the United Nations. Model UN provides a high-impact practice platform for students to engage in diplomacy, research, public speaking, critical thinking, and technical writing. The class fosters a deeper understanding of international relations, global issues, and the political perspectives of different nationalities on contemporary world issues. Selected students may attend the Model United Nations Far

West conference and other events. The course may be repeated once for a maximum of 6 credits total. May be repeated once for 6 credit hours.

POLS 3151 GLB - Model United Nations Team

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares students on the Model UN team for the upcoming Fall/Spring conference.
Pre-requisite(s): POLS 3150 with a minimum grade of B. Permission of the instructor.
May be repeated up to 12 credit hours.

POLS 3200 GLB - Middle East and North Africa

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the political dynamics of selected states and societies in the Middle East and North Africa (MENA). Issues to be covered: the impact of early Middle Eastern/North African history upon today's politics; class structures in the MENA countries and their impact on politics; the rise of Arab nationalism; Zionism; the politics of oil; the status of women; the political impact of economic restructuring; Islamic movements; state-building; and political liberalization and democratization in the Middle East and North Africa.

POLS 3210 GLB - Politics in the European Union

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines the origins and development of the European community/EU and its institutions, theories of integration, and challenges in the creation of a supranational authority. It also compares the impact of EU policies on domestic politics in the individual European states with emphasis on relevant issues of the day, such as EU enlargement, immigration, and the political economy.

POLS 3290 GLB - Democratization and Political Transitions

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A survey of the democratic transitions literature with focus on political transitions in comparative perspective. This course will compare a variety of different kinds of political transitions in different regions of the world, including cases in which countries have transitioned back to authoritarianism.

POLS 3320 - American Political Thought: The Founding

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course looks at the political theory of the American founding from the Declaration of

Independence to the drafting and ratification of the U.S. Constitution.
Taken 1 time for a max of 3 credits.

POLS 3330 - American Political Thought: Contemporary

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An examination of late 20th and early 21st century American Political Thought. In this course we will examine a variety of political theories put forth by American thinkers, including social welfare liberalism, libertarianism, civic republicanism, ritical race theory, and others.

POLS 3340 - Environmental Political Theory

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: This is an upper division course in political theory, with the specific focus being environmental political theory. The course examines a range of theoretical perspectives on a range of issues including how we conceptualize humans, nature, and politics.

POLS 3400 - LGBTQ Politics

Credits: (3)
Description: Social movements employ a variety of methods to achieve the protection of their members' rights and interests. This course focuses on these issues through the study of gender and sexual minorities in the United States from the mid-Twentieth Century to the present. It examines the strategies, both formal and informal, adopted to achieve social change.
Note: This course is taught during odd years.

POLS 3600 - Political Parties

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A study of the organization and function of the American political parties, political organizations that play a role alongside political parties in the American political system, such as interest groups, and a comparative study of political parties in other countries.

POLS 3610 - Campaigns and Elections

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: A study of the electoral process in the United States with an examination of national institutional elections, state and local elections, as well as election rules. Also a study of campaigning techniques in elections at all levels.

POLS 3620 - Political Behavior

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: This course is designed to introduce students to the nature of mass political behavior and its role in the political process. Further, it examines the interaction between and among diverse social groups, the media, and policy makers. The course will also emphasize the political psychology of public opinion formation and political decision of those outside the mainstream political institutions.

POLS 3640 - Media and Politics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: In terms of influencing American politics, media perform three functions: supplying information about issues and candidates; setting the agenda for public debate; conveying messages between elected officials and the public. In this course we will focus on the effect media has on political discourse in the United States.

POLS 3700 - Bureaucratic Politics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Presents basic theories, concepts, and analysis of current practices and problems in governmental administration.

POLS 3750 - Urban Government and Politics

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A study of local government organization and policy problems, with an emphasis on problems of the metropolitan areas.

POLS 3760 - State Government and Politics

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An examination of governmental organization, operation, policy making, and electoral politics of state governments and the dynamics of relationships with other levels of government.

POLS 3780 - Lobbying: Theory and Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course looks at both the theory and practice of lobbying, primarily at the state and local governmental levels; and it examines the business of lobbying, how the profession of lobbying has developed, what lobbyists do, the ethical constraints of lobbying, and from where the right to petition the government is derived.

POLS 3990 - Political Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the scope and methods of political science. This course focuses on the formulation of hypotheses, the collection of data, appropriate study design, and study analysis through statistical testing and interpretation.
Pre-requisite(s): POLS 1010.

POLS 4020 - Constitutional Law: Powers

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to many of the doctrines of American Constitutional Law around the structure of the U.S. Constitution, governmental powers, and federalism. Topics include constitutional theory; congressional, executive, and judicial power; and the relationship between federal and state governments.

POLS 4030 - Constitutional Law: Rights

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to many of the doctrines of American Constitutional Law. Topics include the study of various fundamental rights including free speech, religious freedom, equal protection, and privacy rights.

POLS 4050 - Institutional Presidency

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: We will examine the American Presidency from four perspectives this semester. First, the course considers the creation of the presidency and "the executive power" in the Constitution. Second, it surveys the institutional development of the presidency and executive branch from the late 1700s through the present. Third, it examines different theories on the politics and effectiveness of presidential leadership. Finally, it asks whom the president represents and, having considered the institutional development of the presidency, whether the president needs more tools to fulfill expectations placed upon him or her.
Pre-requisite(s): POLS 1100.

POLS 4060 - Law and Society

Credits: (3)
Description: This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession.
Note: Course not currently being offered.

POLS 4100 - Free Speech

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course explores the historical meaning of free speech in the United States, the modern development of free speech principles in constitutional law, and the application of those principles to modern controversies.

POLS 4160 - Topics in Global Politics

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: The study of selected contemporary problem areas in world politics to assess their impact within the international arena.
May be repeated for a maximum of 6 hours toward the hours required for Political Science majors and only 3 hours will be counted toward the political science minor requirement.

POLS 4170 GLB - Gender, Power, and Global Politics

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course is a comprehensive introduction to the gendered nature of global politics and how power and gender influences the world around us. During the semester, we will examine what cultural, structural, and political factors shape gendered access to power worldwide. We will discuss why women have succeeded in obtaining sustainable political power in some countries and not others. We will determine what factors influence why women and transgendered individuals are excluded from political processes and not represented proportionately in political, influential, or leadership positions. At the conclusion of this course, students will be familiar with multiple approaches to understand how gender matters in many facets of world politics and how gender can intersect with other social identities such as race, ethnicity, class, and sexual orientation.

POLS 4180 GLB - International Law and Organization

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: In-depth exploration of international society through the basis principles of international law and the organizations that comprise our world. Emphasis is given to international criminal law, international humanitarian law, human rights law and the prominence of the United Nations.

POLS 4190 GLB - Theories of International Politics

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: An analysis of traditional and contemporary theories offered to explain politics in the international arena.

POLS 4200 GLB - Dictatorships

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Political science has long had a bias towards democracies. Authoritarian governments, however, are far more common both over history and today. This course will thus expand the coverage of governmental types and instruct students in the varieties of authoritarian governments and their methods of governance.

POLS 4210 GLB - Violence and Contestation

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course examines theories and case studies on the processes shaping collective challenges to authority in different countries around the world. Topics include causes and mechanics of mobilization, the contexts in which protest movements emerge, repression and violence, strategies, and determinants of political outcomes.

POLS 4360 - Classical Political Thought

Credits: (3)
Description: An examination of ideas of God, human nature, society, the state, the problem of evil, etc., from Ancient Greece to the middle ages.
Note: This course is not currently offered.

POLS 4380 - Modern Political Thought

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: A survey of political theory from the 17th century to the present, with a focus on theoretical formulations and critiques of democratic government and the political subject.

POLS 4600 - American Congress

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A study of the United States Congress and its members. This course examines the legislative decision making process as well as an emphasis on the history of the institution.

POLS 4620 - The U.S. Supreme Court

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: A study of the U.S. Supreme Court as a legal and political institution. This course examines the historical development of the Supreme Court, its relationship to other institutions, and judicial decision-making.

POLS 4640 - American Presidency

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: A study of the United States presidency and the people who have held the office. This course examines individual presidential character and personality as well as providing a survey of the history of the institution.

POLS 4750 - Public Policy Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: A study of the American policy process, with an emphasis on the dynamics involved in the creation, adoption and implementation of selected domestic policies.

POLS 4760 - Rwanda: Genocide and Aftermath

Credits: (3)
Typically Taught Summer Semester: *Online*
Description: This course will examine the 1994 Rwandan genocide and its aftermath. The class will discuss the historical legacy of colonialism and the impact that post-colonial policies had in pre-genocide Rwanda. Next, the events surrounding the genocide within Rwanda will be discussed in addition to its immediate impact on the surrounding Great Lakes countries of Africa. Finally, the legacy of the Rwandan genocide will be examined, especially in regards to politics and international law. Specific issues to be addressed include the complex relationship between political and legislated memories, ethnic identities before and after the genocide, the creation and implementation of transitional justice measures including the national courts, gacaca courts, and the International Criminal Tribunal for Rwanda.

POLS 4770 GLB - Genocide, War, and Human Rights

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines the complexity of genocide studies, within the framework of war and human rights abuses, including an examination of genocide theories, definitions and debates. Within this context, both internationally recognized genocides will be examined (Germany, Rwanda, former Yugoslavia) and those which are more contested such as indigenous and political based massacres. The course will also examine Crimes Against Humanity, War Crimes and how societies recover from these types of crimes. The course will take an interdisciplinary approach; with an emphasis on law and politics.

POLS 4800 - Individual Projects and Research

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Pre-requisite(s): Department approval required.

A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4830 - Directed Readings

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Pre-requisite(s): Department approval required.

A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4860 INT - Internships

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Pre-requisite(s): Department approval required.

A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4861 INT - International Internships

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Internships located outside of the United States. Department approval required.

A maximum of 6 hours may be counted toward the major or 3 hours toward the minor.

POLS 4865 INT - Utah State Legislature Internship

Credits: (1-6)
Typically Taught Spring Semester: *Full Sem - Online*
Description: Utah State Legislature Internship. Professor approval required.

May be repeated up to 5 times and up to 6 credit hours.

POLS 4870 INT - Internship in Perspective

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to put the internship experience in broader context. Students will read books and articles on current issues and then focus on the way that government and non-governmental institutions combine to make policy. In this students will take their political science knowledge and apply it to practical politics.
Co-Requisite(s): POLS 4860.

POLS 4880 INT - Internship Research

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to complement the student intern's experience while in the placement. This course is designed to give the student a chance to do a research project based on his or her experience in the internship. The research evolves out of assignments given at the internship.
Pre-requisite(s): POLS 4860.

POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

POLS 4940 - Topics in American Politics & Thought

Credits: (3)
Variable Title
Description: The study of selected contemporary problem areas in American politics and thought to assess the impact and implication within the U.S. domestic arena. This course may count once to satisfy a subfield requirement at the discretion of the department chair.
This course may be repeated once up to 6 credit hours (in different topics).
Note: Course not currently being offered.

POLS 4990 - Senior Seminar/Senior Thesis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: A seminar in the field of political science. Students will be required to produce a major paper out of this seminar. Required for Political Science majors.
Pre-requisite(s): POLS 1010. Department approval required.
Note: Note: Political Science BS students must take POLS 3990 before POLS 4990.

PS 1143 - Principles of Selling and Persuasion

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: A retail, wholesale, and direct selling and persuasion course. Emphasis upon mastering and applying the fundamentals of selling and persuasion. Preparation for and execution of sales demonstrations required.

PS 1303 - Sales Channels

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Examination of the distribution process of goods and services, the interrelationships of customer demands, production, pricing, promotion, and the movement of goods from producer to consumer.

PS 1401 - Introduction to Sales and Service Technology

Credits: (1)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: This course is designed to help those new PS majors or those exploring the PS major field learn more about the career/ employment options available. This course is also designed to review the various academic emphases, major requirements, and decision making process.

PS 1403 - Introduction to Customer Care

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of the basic techniques for providing quality service to clients.

PS 1503 - Introduction to Fashion Merchandising

Credits: (3)
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: A study of the Fashion Merchandising industry, including careers in design, manufacturing, wholesaling, promotion, and retailing, including well-known designers, manufacturers, promotion media and apparel and accessory retail institutions.

PS 1890 INT - Work Experience

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to all first year declared majors in Professional Sales. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by department.
May be repeated a maximum of 3 times or until a maximum of 6 credit hours is reached.

PS 2182 - Credit and Collection Methods

Credits: (2)
Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*
Description: The study of specific credit and collection methods for retail, wholesale, and service industries; including cost of retail credit, credit investigation, methods of collecting bad accounts, securing new business through credit applications, and credit control.

PS 2383 - Retail Merchandising and Buying Methods

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: The study of the retail buyer's duties, different buying organizations, and techniques, procedures of purchasing merchandise for resale and retail merchandising strategies.

PS 2443 - Advertising Methods

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: A study of advertising methods as they relate to local retail, wholesale, and service industries, including newspaper, magazine, radio, TV, mail, outdoor and special promotion events.

PS 2603 - Advanced Selling Techniques

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Study of advanced techniques including, opening, investigating, demonstrating capability and obtaining commitment of the consultative and strategic seller.

PS 2703 - Internet Sales and Service

Credits: (3)
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: The study of Internet sales, service and technology. Understanding the process of establishing an online business, setting up online shopping capabilities and database integration. Online customer service and retention, buyer behavior and current Internet sales issues are presented.

PS 2890 INT - Work Experience II

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Open to second year declared majors in Professional Sales. A continuation of PS 1890. May be repeated a maximum of 3 times or until a maximum of 6 credit hours is reached.

PS 2903 - Professional Selling Methodologies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The study of selling and customer service techniques as they apply to virtual, inside and field sales.

PS 2991 - Sales/Service Technology Seminar

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Directed studies, group discussions, and analysis of selected topics pertinent to sales and service technology. Also designed to prepare sales and service majors for the job market and career opportunities.
May be repeated until a maximum of 3 credit hours is reached.

PS 3001 - Sales Career Strategies

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The study of developing a sales career including finding sales opportunities and how to market yourself into landing those opportunities.

PS 3003 - Sales Development

Credits: (3)
Typically Taught Summer Semester: *Full Sem- Online*
Typically Taught Fall Semester: *Full Sem- Online*
Typically Taught Spring Semester: *Full Sem- Online*
Description: This course teaches and develops the knowledge and skills needed to excel in the early-stage sales process used by sales and business development representatives (SDRs/BDRs). The course will take a deep dive into prospecting through initial qualification, technology-based prospecting for lead generation, client pre-call research, and other critical sales and business development skills used in the early stages of the sale.
Pre-requisite(s): PS 1143.

PS 3103 - Sales Personalities and Profiles

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Discovering and understanding your own personality style and how to adapt to your client for selling success is the focus of this course. We will utilize the Everything DISC Sales assessment to distinguish the 4 behavior styles and the Strengths Finder assessment to utilize our talents throughout

the selling process.

Pre-requisite(s): PS 1143.

PS 3203 - Customer Service Techniques

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: A study of customer service techniques required in order to sell and service products, systems, or services needed by industrial manufacturing, processing, mining, construction firms, or other related technical areas.

PS 3250 - Business Communication

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Application of oral and written communication, including diversity and international aspects of communication.

Pre-requisite(s): ENGL 2010.

PS 3303 - Technology in Sales

Credits: (3)
Typically Taught Summer Semester: *Full Sem online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course will teach professional sales people to use sales technologies to (1) attract new clientele (2) strengthen customer relationships (3) expand existing accounts and (4) establish a position as an authority in the field.

Pre-requisite(s): PS 1143.

PS 3363 - Contract and Sales Negotiation Techniques

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Principles, techniques and analysis of strategies involved in contract and sales negotiations. Development of integrated strategies through group and individual interaction.

Pre-requisite(s): PS 1143.

PS 3403 - Pharmaceutical and Medical Device Sales

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A study of the opportunities that exist in the medical field as it pertains to selling. The course

examines the integral relationship that pharmaceutical and medical device representatives have within the medical community.

Pre-requisite(s): PS 1143 and PS 2603.

PS 3503 - Sales Planning and Forecasting

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: A study of sales planning and forecasting. Special emphasis will be given to goal setting, prioritizing, sales forecasting and establishing and managing a sales territory. The student will also learn techniques for individual goal setting and time management.

PS 3563 - Principles of Sales Supervision

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Practical application of first-line supervisory skills including choosing, organizing, training, and evaluating entry-level employees; making supervisory decisions; and solving first-line supervisory problems. Understanding the basic responsibilities of a supervisor in production organizations and service organizations.

PS 3702 - Developing Team Leadership Skills

Credits: (2)
Typically Taught Summer Semester: *Full Sem; Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A skills based course designed to develop the interpersonal and leadership skills necessary to work effectively in teams and guide teams through the group stages of development. This course will be facilitated in such a way the participants will learn how to diagnose team developmental level and develop a high performing team by applying the principles of situational leadership and the DISC personality profiles system.

Pre-requisite(s): PS 3563.

PS 3703 - Professional Sales Simulations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Application of advanced persuasion skills to use in professionally organized competitions. This course will use simulations and role-playing to develop persuasive techniques and theoretical applications.

Pre-requisite(s): PS 1143.
May be repeated three times for a maximum of six credit hours.

PS 3803 - Sales Proposals

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: A study of selling techniques required in order to sell products, systems, or services needed by industrial manufacturing, processing, mining, construction firms, or other related technical areas.
Pre-requisite(s): PS 3563.

PS 3903 - Sales Presentation Strategies and Techniques

Credits: (3)
Typically Taught Summer Semester: *Full Sem; 1st Blk Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Principles and practices for the five major categories of professional sales consultants.
Pre-requisite(s): PS 1143 and PS 3803.

PS 4203 - Ethical Sales and Service

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Principles, techniques and analysis of ethics in the sales and service professions. Utilizes group interaction, individualized hands-on experiences and a field based experience.
Pre-requisite(s): PS 3563.

PS 4610 INT - Senior Project I

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A capstone project for students in their final year of the professional sales degree. Provides hands-on experiences in the areas of sales and service including sales, customer service techniques, presentation strategies, and team leadership development. This course focuses on working with sales and service problems in a departmentally approved work environment.
Co-Requisite(s): PS 4620.
Pre-requisite/Co-requisite: PS 3103, PS 3363, PS 3903.

PS 4620 INT - Senior Project II

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A continuation of PS 4610.

Co-Requisite(s): PS 4610.

Pre-requisite/Co-requisite: PS 3103, PS 3363, PS 3903.

PS 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings supervised by a faculty member.
Pre-requisite(s): Approval of instructor.
May be repeated twice for a maximum of 3 credit hours.

PS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: *Full Sem*
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

PS 4993 - Sales Career Seminar

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem; Full Sem Online*
Typically Taught Spring Semester: *Full Sem; Full Sem Online*
Description: Research and discussion of sales and service related problems. Also designed to prepare sales and service majors for the job market and career opportunities.

PSY 1010 SS - Introductory Psychology

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Full Sem Online*
Course Fee: $3.00
Course Fee Purpose: Maintenance and oversight of the Introductory Psychology Research Participation pool
Description: This Psychological Science general education course gives students a broad and general understanding of the science of psychology. Topics will include biological, cognitive, developmental, personality, social, and mental and physical health.

PSY 1540 - Designing Your Life

Credits: (3)
Typically Taught Spring Semester: *Full Sem*

Description: This course examines theories of and research on young adulthood to understand the issues faced by college students who are transitioning to adulthood.

PSY 2000 SS/EDI - The Psychology of Human Relationships

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This Psychological Science general education course presents a systematic review of the research on interpersonal relationships, including the study of multiple factors that contribute to relationship development and functioning and the diverse socio-cultural contexts in which relationships occur.

PSY 2010 - Science and Profession of Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course helps students better understand psychology as a science. The course covers a range of topics, including research, statistics, ethics, career options, graduate school options and preparation, critical to all fields of psychology and provides the skills necessary for students to succeed in upper-division courses and career preparation. This course is designed for students who are interested in or beginning to pursue psychology as an academic major or minor.
Pre-requisite(s): PSY 1010.

PSY 2020 - Mental Health Awareness

Credits: (3)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: This course teaches students how to recognize when someone is in crisis, how to listen to a peer in distress, and how to refer them to appropriate services. Students will gain a basic understanding of common types of disorders and distress seen on campus (e.g., depression, anxiety). Students will also gain an understanding of adaptive coping skills and how to implement them in their own lives.

PSY 2040 - Child, Family, and Adult Advocacy

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will explore behavioral health related advocacy work for those who are interested to be trained to become Behavioral Health Technicians. The class will be utilizing simulation activities such as role-playing and scenario-based video vignettes. Areas of training include professional/ethical standards of advocacy, parental rights, family rights, and integration of community resources in integrated behavioral healthcare model.
Pre-requisite(s): PSY 1010.

PSY 2250 - Learning and Memory

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course involves a survey and analysis of the basic processes involved in acquisition, retention, and expression of new behaviors and alterations of existing behaviors in animals and humans. The course will examine the central theoretical concepts and issues in the fields of learning and memory.
Pre-requisite(s): PSY 1010.

PSY 2370 - Psychology of Women and Gender

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides a survey of the scientific study of the psychology of gender focusing on philosophical, theoretical, and applied issues.
Pre-requisite(s): PSY 1010.

PSY 2400 - Positive Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course presents a survey of the scientific study of how and why people flourish, achieve lasting happiness, and are able to live "The Good Life." The course includes classic and contemporary psychological theory and psychological research dedicated to understanding how people achieve optimal functioning.
Pre-requisite(s): PSY 1010.

PSY 2710 - Biopsychology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $05.00
Course Fee Purpose: The $ 5.00-course fee for this course is used to pay for physiological recording supplies (e.g., adhesive disks and electrodes) and biological lab materials (e.g., sheep brains) used in the lab portion of this course.
Description: This course provides an introduction to the scientific understanding of the biological basis of human and animal behavior and cognition. Topics include neurological development, communication, and anatomy.

PSY 2800 INT CRE - Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course requires supervised participation in faculty research projects in various areas of psychology. Written report required at end of semester; oral report assigned at discretion of faculty supervisor.
Pre-requisite(s): PSY 1010 and permission of the instructor.
May be repeated 4 times for a maximum of 4 credit hours.

PSY 2830 CRE - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course requires independent readings or secondary research on advanced special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.
Pre-requisite(s): PSY 1010 and faculty mentor permission.
May be repeated 4 times for a maximum of 4 credit hours.

PSY 2860 - Practicum

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This lower-division practicum course that involves placement of students in state and community agencies for the purpose of providing supervised practice in application of psychological skills and knowledge.
Pre-requisite(s): PSY 1010
May be repeated for a maximum of 6 credit hours.

PSY 2890 INT - Cooperative Work Experience

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides academic credit for on-the-job learning experience. Learning experiences will be specified in a learning contract. Grade and amount of credit will be determined by the department. Limited to two credit hours per semester and four credit hours counted toward the psychology major and minor from the following courses: PYS 2890, PSY 4890, PSY 4860 and PSY 4390. Federal regulations restrict all Cooperative Work Experience to no more than six semester hours. Must be employed in a position that uses psychological training. By prior permission of instructor only.
Pre-requisite(s): PSY 1010.
May be repeated 4 times for a maximum of 4 credit hours.

PSY 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): PSY 1010.
May be repeated for a total maximum of 6 credit hours.

PSY 3000 - Child Psychology

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course presents an introduction to the psychology of children. Topics covered included the areas of prenatal, motor, emotional, cognitive, language, self, and moral development, as well as the development of peer and family relations.
Pre-requisite(s): PSY 1010.

PSY 3010 - Psychopathology

Credits: (3)
Typically Taught Summer Semester: *1st Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an overview of clinical psychopathology including its etiology, symptoms and treatment of psychological disorders.
Pre-requisite(s): PSY 1010.

PSY 3020 - Child and Adolescent Psychopathology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an overview of the etiology, diagnosis, developmental course, treatment, and prevention of disorders first evident in childhood and adolescence.
Pre-requisite(s): PSY 1010.

PSY 3030 - Health Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course examines how psychological states (e.g. anxiety, stress) influence physical health, and how physical states (e.g. illness, pain) and the environment influence psychological health. Topics will include stress, coping, adherence to treatment, pain, chronic disease, psychoneuroimmunology and health behavior change. The course will emphasize the biopsychosocial model in understanding health

and disease.

Pre-requisite(s): PSY 1010.

PSY 3100 - Psychology of Diversity

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines the psychological issues associated with human diversity including culture, disabling conditions, gender, class, ethnicity, and others. It addresses the psychological principles underlying these issues and offers effective ways of dealing with these issues.
Pre-requisite(s): PSY 1010.

PSY 3140 - Adolescent Psychology

Credits: (3)
Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course addresses the principles and theories of biological, cognitive and social transitions, and the development of autonomy, identity, morality, sexuality, psychopathology, and peer, romantic, and family relationships in adolescence.
Pre-requisite(s): PSY 1010.

PSY 3200 - Psychology of Sport, Injury & Rehabilitation

Credits: (3)
Description: This course provides a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered include: emotion, motivation, mental skills training and use, psychological antecedents of injury, psychology of injury and rehabilitation, career transition and termination, disabilities, rehabilitation/exercise adherence, eating disorders, alcohol and drug/substance abuse, gender and cultural diversity, and research methods related to psychology of sport, injury and rehabilitation.
Pre-requisite(s): PSY 1010 or HLTH 1110.
Cross-listed with RHS 3200.
Note: Course not currently being offered.

PSY 3240 - The Psychology of Drug Use and Abuse

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This course addresses the biopsychology factors influencing the use and abuse of drugs and the behavioral and social consequences of such use and abuse.
Pre-requisite(s): PSY 1010.
Note: This course is offered on the SLCC Miller campus

PSY 3255 - Conditioning, Learning, & Behavior Modification

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines the historical and current central theoretical concepts and issues in the fields of conditioning and learning and uses the principles of applied behavioral analysis and modification to teach their application.
Pre-requisite(s): PSY 1010.

PSY 3270 - Motivation and Emotion

Credits: (3)
Typically Taught Fall Semester: *Full Sem-SLCC Miller Campus*
Description: This course focuses on theories, methodologies, and practical applications of motivation and emotion.
Pre-requisite(s): PSY 1010.

PSY 3430 - Theories of Personality

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides an introduction to the study and science of personality - consistencies in people's thoughts, feelings, and behavior over time and across situations. Topics will include assessment; development; biological and contextual influences on personality; emotion and motivation; the self; personality and culture; psychological adjustment; and clinical disorders of personality. The course will focus on current empirical research and modern theories of personality.
Pre-requisite(s): PSY 1010.

PSY 3450 - Psychology of Language

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: This course will provide a comprehensive overview of psycholinguistics. It will focus on the cognitive and social aspects of language production and comprehension in both spoken and written language.
Pre-requisite(s): PSY 1010 or ENGL 3010.

PSY 3460 - Social Psychology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides an exploration of social psychological theory and research. Social psychology is the study of how individuals think, feel, and behave in everyday social situations. Specifically, the course will cover topics such as self-knowledge, perceptions, cognitions, attitudes,

conformity, attraction, aggression, prejudice, and stereotyping.
Pre-requisite(s): PSY 1010.

PSY 3500 - Cognition

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course teaches the principles of cognition and thinking including attention, memory, concept learning, decision making, and problem solving.
Pre-requisite(s): PSY 1010.

PSY 3550 - Psychology of Consciousness

Credits: (3)
Description: This course examines the study of the nature, origins, evolution, and functions of brain, mind and consciousness as these pertain to sensation, perception, learning, memory, cognition, motivation, emotion, behavior, and social relationships from a contemporary neuro-cognitive science perspective.
Pre-requisite(s): Introductory Psychology (PSY 1010), Biopsychology (PSY 2710) and instructor consent required; recommend some background in Introductory Philosophy, Perception, and/or Cognition.
Note: Course not currently being offered.

PSY 3560 - Group Dynamics and Counseling

Credits: (3)
Description: This course covers the principles of effective small group behavior. Awareness of group forces and pressures and development of insights into personal relationships in groups. Theoretical and experiential approaches to Group Counseling.
Pre-requisite(s): PSY 1010.
Note: Course not currently being offered.

PSY 3600 - Statistics in Psychology

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course covers essential statistical concepts and statistical analytic procedures required to conduct psychological research in particular and research in the behavioral sciences generally.
Pre-requisite(s): MATH 1010 or QL with passing grade of C or better.

PSY 3605 - Psychology Statistics Lab

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Course Fee: $5.00

Course Fee Purpose: Maintenance of two Psychological Science computer labs (LH 302 & LH 304)

Description: This course covers the application of statistical, database, and graphical software for psychological research analysis and presentation.

Pre-requisite/Co-requisite: Pre-requisite or co-requisite: PSY 3600 or equivalent.

PSY 3610 CRE - Research Methods in Psychology

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Research software and research participation tracking
Description: This course covers the scientific methods of behavioral research. Emphasis upon design, conducting, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature.
Pre-requisite(s): PSY 1010 and PSY 3600 or equivalent with prior approval from the Department Chair.
Pre-requisite/Co-requisite: PSY 3605 or equivalent with prior approval from the Department Chair.

PSY 3615 - Psychological Statistics and Methods I

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Research software and research participation tracking
Description: This course will focus on the scientific methods of behavioral and psychological research. Specific emphasis will be placed upon research design, study preparation, data collection, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature.
Pre-requisite(s): MATH 1010 or QL and PSY 1010.

PSY 3616 - Psychological Statistics and Methods II

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $5.00
Course Fee Purpose: Research software and research participation tracking
Description: This course will focus on the scientific methods of behavioral and psychological research. Specific emphasis will be placed upon research design, study preparation, data collection, and analysis of experiments on human and animal behavior as well as proposal writing and critiques of experimental literature. The course will cover experimental and quasi-experimental approaches and the statistical tools associated with these approaches (e.g., ANOVAs).
Pre-requisite(s): MATH 1010 or equivalent, PSY 1010 and PSY 3615.

PSY 3730 - Perception

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: This course presents an overview of perceptual processes. The course will aim to provide a reasonably deep introduction to several of the key topics and research approaches in the field (e.g., the visual system, auditory systems, speech perception, touch perception).
Pre-requisite(s): PSY 1010 Or NEUR 2950.

PSY 3740 - Neuropsychopharmacology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an in depth analysis of drugs on behavior. Topics include how drugs affect the brain, and consequently behavior, the underlying brain and environmental factors thought to be responsible for drug addiction, tolerance, and sensitivity, pharmacological treatment of major psychological disorders, the classification of common psychoactive drugs, and mechanisms of action of commonly abused drugs.
Pre-requisite(s): NEUR 2950 or PSY 2710 or instructor approval.

PSY 3850 - Forensic Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides a survey course examining the application of fundamental issues in psychology to the criminal justice system.
Pre-requisite(s): PSY 1010.

PSY 4000 - Advanced General

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course introduces students to the field of educational psychology by exploring the individual and environmental factors that contribute to effective learning. Students will apply educational psychology principles to an in-class teaching demonstration. They will also utilize this knowledge by providing feedback to their peers during their teaching demonstrations. This course also provides an opportunity for students to review what they have learned in their undergraduate coursework, reflect upon this knowledge, and apply what they have learned to their personal life, future career, and academic experience. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): PSY 1010.

PSY 4050 - Evolutionary Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: This capstone course examines origins and evolutionary development of early hominid and contemporary human behavior, e.g., competition and cooperation, mating, reproductive and care-giving strategies, and kinship behaviors. Includes ethological, sociobiological, and social psychological perspectives.

Pre-requisite(s): 24 credit hours of psychology courses and instructor approval and PSY 1010.

PSY 4090 - History and Systems of Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course covers the early philosophical origins and contributions to psychology; critical contrasts of systems and schools on major issues. 24 credit hours of psychology courses and instructor approval.

Pre-requisite(s): PSY 1010.

PSY 4100 - Psychology in the Media

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course will highlight how psychological concepts, principles, and theories are depicted in the popular media (e.g., film, documentary). Students will watch psychologically relevant media, read classic and contemporary research connected to the concepts depicted in the media, and synthesize what they have learned from these sources in oral and written formats. Students will understand how the discipline of psychology provides a framework for understanding the world as depicted in media. 24 credits of Psychology coursework and instructor approval required.

Pre-requisite(s): 24 credits of Psychology coursework and instructor approval.

PSY 4140 - Theories of Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This capstone course examines current research and theoretical models that focus on human development. Students will read various theories of development to explore 1) the main issues of developmental psychology that theories address, 2) the mechanisms of development, 3) applications, 4) strengths and weaknesses, and 5) contemporary research to highlight how the theory is alive today. Finally, students will synthesize their learning in oral and written formats to address the question, "What is my theory of development?". Students will understand how developmental theory provides a "big picture" framework for understanding the significance of research findings in developmental psychology.

Pre-requisite(s): 24 credits of Psychology coursework and instructor approval.

PSY 4200 - Environmental Psychology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Environmental psychology examines the interactions between the physical environment and psychological processes. Environmental psychology covers the breadth of psychology, including human development, biopsychology, cognition, health and wellbeing, and social/cultural psychology. This course will cover major areas of intersectionality among environmental science, sustainability, and psychology.
Pre-requisite(s): 24 credit hours of psychology courses including PSY 3616 or PSY 3610 and PSY 1010.

PSY 4310 - Introduction to Counseling Theories

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This capstone course provides an introduction to the major theories of counseling and therapy plus an introduction to the research findings associated with effectiveness of therapy and principles of behavioral change. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): (Required) PSY 1010 and PSY 3010.

PSY 4340 - Skills and Techniques of Counseling

Credits: (3)
Description: This course provides skills and techniques for counselors, ministers, social workers, and other professionals who serve a helping function.
Three hours of lecture and two hours of lab/week.
Pre-requisite(s): (Recommended) PSY 4310 or equivalent and permission of the instructor.
Note: Course not currently being offered.

PSY 4390 CEL - Capstone Practicum

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: In this course, students are placed in state or community agencies for the purpose of providing supervised experiences in applying psychological skills and knowledge. The capstone practicum additionally provides students with an extensive reading list to review with the instructor to better apply their skills and knowledge and understand their experiences on site. 24 credit hours of psychology courses and instructor approval.
Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent) and other specific courses at the discretion of the supervising instructor. Also, permission of the instructor is required.

PSY 4510 - Industrial and Organizational Behavior

Credits: (3)
Description: This course covers the psychological aspects of the work setting including selection, training,

motivation, attitudes, and the effects of the organization.

Pre-requisite(s): (Recommended) PSY 1010.

Note: Course not currently being offered.

PSY 4575 - Psychology of Criminal Behavior

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a comprehensive scientific account of the biological, psychological, and social factors underlying criminal behavior.
Pre-requisite(s): PSY 3850.

PSY 4760 - Tests and Measurements

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides a survey of methods, techniques, and instruments for measuring individual differences in behavior, a critical analysis of representative tests, values and limitations of test, methods of test selection, lab experience with tests. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): PSY 1010, PSY 3600 and PSY 3010.

PSY 4800 INT CRE - Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course entails supervised participation in projects and/or primary research with a faculty mentor in various areas of psychology. Limited to advanced students upon consent of psychology mentor and department chair. A paper written in APA style and an oral report are required at the end of the semester.
Pre-requisite(s): PSY 1010, PSY 3600 (Statistics), and PSY 3610 (Research Methods) or equivalent, and faculty mentor permission.
May be repeated 3 times for a maximum of 6 credit hours.

PSY 4805 - Capstone Projects and Research

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course involves supervised participation in projects and/or primary research with a faculty supervisor in various areas of psychology. Limited to advanced students upon consent of psychology supervisor and department chair. A paper written APA style and an oral report are required at the end of the semester. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): PSY 3610 or PSY 3616 or equivalent, and permission of a faculty supervisor and the chair.

PSY 4830 INT CRE - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course requires independent readings or secondary research on advanced special topics under the direction of a faculty mentor. For each hour of credit in a readings project the student is required to read an appropriate number of primary research journal articles and book chapters. A paper written in APA style and oral report are required at the end of the term.
Pre-requisite(s): PSY 1010, PSY 3600 (Statistics), PSY 3610 (Research Methods) or equivalent, and faculty mentor permission.
Suggested Requisite(s): PSY 3610 may be taken concurrently with PSY 4830.
May be repeated 3 times for a maximum of 6 credit hours.

PSY 4835 - Capstone Directed Readings

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course involves independent readings or secondary research on advanced special topics under the direction of a faculty supervisor. Limited to advanced students upon consent of psychology supervisor and department chair. A paper written in APA style and an oral report are required at the end of the semester. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent) and permission of a faculty supervisor and the chair.

PSY 4860 CEL - Practicum

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This upper-division practicum course involves placement of students in state and community agencies for the purpose of providing supervised practice in application of psychological skills and knowledge.
Pre-requisite(s): 18 credit hours of psychology courses, one of which must be PSY 1010. Other courses will be at the discretion of the supervising instructor. Also, permission of the instructor is required.
May be repeated one time for a maximum of six credit hours.

PSY 4890 INT - Cooperative Work Experience

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This upper-division course provides academic credit for on-the-job learning experience.

Learning experiences will be specified in a learning contract. Grade and amount of credit will be determined by the department. Limited to two credit hours per semester and four credit hours counted toward the psychology major and minor from the following courses: PSY 2890, PSY 4890, PSY 4860 and PSY 4390. Federal regulations restrict all Cooperative Work Experience to no more than six semester hours. Must be employed in a position that uses psychological training. By prior permission of instructor only.

Pre-requisite(s): PSY 1010.
May be repeated 4 times for a maximum of 4 credit hours.

PSY 4900 - Selected Topics in Psychology

Credits: (2-3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an in-depth exploration of selected topics and issues in the discipline, designed as an upper division course.
Pre-requisite(s): PSY 1010.
May be repeated 3 times for a maximum of 9 credit hours.

PSY 4905 - Capstone Selected Topics in Psychology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an in-depth exploration of selected topics and issues in the discipline, which fulfills the goals of a capstone class in the discipline. Students will be expected to read, analyze, and integrate research in a seminar style setting.
Pre-requisite(s): PSY 3610 or PSY 3616 (or equivalent), 24 credit hours of psychology courses, and instructor approval.

PSY 4910 - Senior Thesis

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A research project to be written by a senior student under the supervision of a faculty member. Successful completion of the research project will fulfill the capstone requirement of the major (as an alternative to PSY 4000 or PSY 4090) and the senior project requirement for honors. The student must apply for acceptance into the course (applications available from the chair), and the research proposal and the final project must be approved by a faculty committee. It is expected that the course will be taken once for the writing and defense of a proposal and repeated for the writing and defense of the final project. 24 credit hours of psychology courses and instructor approval required.
May be repeated once for a maximum of 6 credit hours.

PSY 4920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

PSY 4950 - Capstone Experience: Promoting Psychological Literacy

Credits: (1)
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Course Fee: $32.50
Course Fee Purpose: The $ 32.50-course fee for this course is used to pay for the ETS® Major Field Test. The department pays $795.00 per year to be able to compare the department data on this exam with national data. This comparative metric provides the department with a benchmark standard to assess our performance.
Description: This course is requires graduating seniors to reflect on and integrate the knowledge and skills acquired during their training in psychology. 24 credit hours of psychology courses and instructor approval required.
Pre-requisite(s): PSY 1010.

PSY 4990 - Seminar

Credits: (1)
Variable Title
Description: Readings and active discussions of selected psychological topics.
Repeatable for up to a total of 2 hours.
Note: Course is not currently offered.

PTGS 1010 - First Semester Portuguese

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

PTGS 1020 - Second Semester Portuguese

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (N=Novice) Continuation of PTGS 1010. Basic language skills including listening, speaking, reading, writing and culture.

PTGS 2010 - Third Semester Portuguese

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of PTGS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

PTGS 2020 HU - Fourth Semester Portuguese

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of PTGS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

PTGS 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of PTGS 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

PTGS 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

PTGS 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as

description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with department for course availability.

PTGS 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better.

PTGS 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better.

PTGS 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): PTGS 2020 or AP exam with a score of 4 or better.

PTGS 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

PTGS 3175 - Business Language II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

PTGS 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

PTGS 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

PTGS 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

PTGS 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

PTGS 3540 - Latin American Environment and Cultures

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts and civilization. May be repeated for other non-English-speaking cultures.

PTGS 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

PTGS 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

PTGS 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

PTGS 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place.
May be repeated under different titles.

PTGS 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

PTGS 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

PTGS 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

PTGS 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.
Note: Check with department for course availability.

PTGS 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

PTGS 3715 - Business Language II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

PTGS 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

PTGS 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

PTGS 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

PTGS 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

PTGS 4740 - Translation II

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: PTGS 3740 is strongly advised, but not required.

PTGS 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.
Note: Check with Department for course availability.

PTGS 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

PUBH 2050 - Case Management in Behavioral Health

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem-Online*
Description: This course is an introduction to behavioral health case management and clinical documentation. The role and function of case management in human services will be explored. Students will learn the skills and methods necessary for successful case management for behavioral health clients. Case management through the lens of integrated delivery and whole health service care coordination will be presented. Clinical documentation skills related to case management will be developed, demonstrated, and exercised.

PUBH 3150 - Introduction to Public Health

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: An overview of public and community health including history, management, prevention and epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.

PUBH 3200 - Epidemiology and Biostatistics

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The goals and objectives of epidemiology, its policy and procedure, and its foundation and support in health care information are the focus of this course. Investigation of an epidemic, measures of mortality, incidence and prevalence, measures of risk, biological variability, probability, screening, sampling, statistical significance, correlation, multiple regression, retrospective and prospective studies, and survival analysis are discussed. Advanced techniques for the statistical analysis of institutional case-mix and quality improvement data are presented.
Pre-requisite(s): Must meet WSU Quantitative Literacy requirement.

PUBH 3210 - Advanced Epidemiology & Population Health

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an advanced, in-depth, exploration of epidemiology, public health, and global population health. The history, philosophy, core values, concepts, and functions of public health will be discussed at the local, national, and international levels. The concepts and methods needed to track and analyze disease trends will be applied. Students will be able to identify and describe upstream determinants of health including the socioeconomic, behavioral, biological, environmental, and other factors that affect human health and contribute to health disparities. At the conclusion of the course, students will be able to identify public health issues, design a basic intervention, and formulate appropriate internal and external public health communications.
Pre-requisite(s): PUBH 3200 - Epidemiology and Biostatistics.

PUBH 3500 - Biomedical Research Support

Credits: (2)
Typically Taught Fall Semester: *Online*
Description: Design concepts and information systems used in biomedical research and investigation by drug companies, genetic engineering firms, academic institutions, and individual researchers and the support of same by health information professionals are discussed. The major national research policy-making bodies (NIH, NCHS, CDC) and their research protocols are reviewed. The student also learns what techniques and resources facilitate biomedical literature searches and how to assist a researcher in the pursuit of published information. An overview of the development, structure, and management of a health care institutional medical library is presented.

PUBH 4500 - Grant Writing

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course is an introduction to the art of grant writing. The general elements of a grant will be outlined and explored. Students will learn about what makes a grant proposal successful. Grant writing and evaluation skills will be developed, demonstrated, and exercised.

PUBH 4700 - Public Health Capstone

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Public Health Capstone will provide students in the Public Health program a comprehensive review culminating in an applied project. Public Health concepts including epidemiology, population health, finance, behavior change, communications and marketing among others will be brought together demonstrating their application in real world public health situations. A final project will be used to demonstrate the students understanding of general public health concepts and their applications.

QS 2900 - Topics in Queer Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Varied topics as described in the semester schedule. Topics will be drawn from issues related to queer studies.
Pre-requisite(s): WGS 1500.
May be repeated 3 times up to 9 credits with different course content.

QS 3050 - Queer Theories

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an introduction to the study of queer theories. Students will study historical accounts of queer activism and literature, exploring cultural norms and power structures that contribute to the marginalization of those who identify as part of the queer community.
Pre-requisite(s): WGS 1500.

QS 3100 - LGBTQ America Since 1945

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course explores American LGBTQ experience since 1945. Topics include the history of state abuses as well as how LGBTQ people mobilized to overcome such abuses and win recognition, to some degree, of their right to equal treatment and citizenship.

QS 4150 - Research Methods in Queer Studies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to introduce students to a variety of approaches to research in queer studies. Students will consider some of the assumptions, which underlie research methodologies that

may limit our knowledge about research subjects and affect individuals as researchers.
Pre-requisite(s): QS 3050.

QS 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual readings in the general area of queer studies. Specific topic selected in consultation with instructor; amount of material to be read determined at discretion of instructor, based on level of topic and degree of difficulty of reading and consistent with any existing university and departmental guidelines.
Pre-requisite(s): WGS 1500 and QS 3050 with a grade of 'C' or higher.
May be repeated up to 6 credit hours.

QS 4860 - Internship in Queer Studies

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This internship course is a chance for you to consolidate and enrich your undergraduate learning while building the transition to life beyond college. Queer Studies students learn to think critically and act strategically on issues of gender and sexuality, particularly relating to issues of social justice.
Pre-requisite(s): QS 3050.

QS 4900 - Topics in Queer Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Varied topics as described in the semester schedule. Topics will be drawn from issues related to queer studies.
Pre-requisite(s): WGS 1500 and QS 3050 with a grade of 'C' or higher.
This course may be taken 2 times for up to 6 credits with different course content.

QS 4949 - The Neuroscience of Sex, Romance, and Sexual Orientation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course will examine three human imperatives (sex, romance, and sexual orientation) from a neuroscience perspective. The neuroscience basis for each of these aspects of human behavior will be examined through directed readings and in-class discussions.
Pre-requisite(s): PSY 1010.

QUAN 2400 - Business Calculus

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: Quantitative Methods Lab is available in Wattis Business Building, Room WB 202. The course fee for this course is used to fund a Quantitative Methods Lab in Room WB202, which provides tutoring and computer equipment.
Description: Emphasis on applications of calculus to problems in business. Topics include functions, limits, differentiation, and integration. Applications include profit maximization, cost functions, demand analysis, and output maximization with budget constraints and resource allocation.
Pre-requisite(s): Earn a "C" or better in MATH 1050, 1080, or 1210 or earn a "C" or better in any math course for which either MATH 1050 or MATH 1080 or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 on Math ACT or; score of 65 or higher on ALEKS.

QUAN 2600 SUS - Business Statistics I

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: Quantitative Methods Lab is available in Wattis Business Building, Room WB 202. The course fee for this course is used to fund a Quantitative Methods Lab in Room WB202, which provides tutoring and computer equipment.
Description: Introduction to concepts and applications of statistics in business and economics. Topics include summary statistics, probability distributions of random variables, sampling, and estimation. Class will include use of computers.
Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080 or MATH 1210 or earn a "C" or better in any math course for which either MATH 1050 or MATH 1080 or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

QUAN 3610 - Business Statistics II

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $13.00
Course Fee Purpose: Quantitative Methods Lab is available in Wattis Business Building, Room WB 202. The course fee for this course is used to fund a Quantitative Methods Lab in Room WB202, which provides tutoring and computer equipment.

Description: Continuation of QUAN 2600. Topics include test of hypotheses, correlation, time series, and multiple regression analysis with specific application to problems in business and economics. Computers will be used extensively in regression analysis.

Pre-requisite(s): QUAN 2600.

RADT 1012 - Cardiographic Technician

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will cover the procedural activities necessary for practical ECG. Students will learn basic heart anatomy, the fundamentals of performing an ECG, stress testing, and ambulatory monitoring. They will also review ECG morphology and appropriate measurements. They will also learn to identify changes in heart rhythm resulting from pharmacological medications. At the conclusion of this course, students will have completed appropriate didactic learning necessary for CCI credentialing as a Certified Cardiac Technician (CCT).

RADT 1013 - Rhythm Analysis

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: All courses will be taught in a hybrid format heavily focused on face-to-face and hands on learning with some online learning components. This course will cover the procedural activities necessary for Telemetry. Students will learn the fundamentals of Telemetry and identify normal and pathological rhythms demonstrated with telemetry analysis. They will also review EKG morphology and appropriate measurements. At the conclusion of this course, students will have completed appropriate didactic learning necessary for CCI credentialing as a Certified Rhythm Analysis Technician (CRAT).

RADT 1014 - Basic Cardiac Imaging

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will cover (1) cardiac and vascular anatomy (2) radiological examinations (3) common pathologies. Course Objectives. By the completion of the semester, each student will demonstrate the ability to discuss and demonstrate application of the following skills and abilities:

Identify anatomy of the heart and large vessels within various radiologic sciences modalities.

Describe common radiologic sciences examinations in radiography, sonography, computed tomography, magnetic resonance imaging, and nuclear medicine.

Identify and describe common cardiac pathologies including: contusion, cardiomyopathy, infarction, dysplasia, tumors, and aneurysm.

RADT 1021 - Limited Clinical Simulation

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Limited clinical simulation for the limited radiographer to gain skills in radiographic imaging processes.
Co-Requisite(s): RADT 1023, RADT 1024, RADT 1025.

RADT 1022 - Introduction to Radiologic Technology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Program orientation, elementary radiation protection and basic darkroom procedures.

RADT 1023 - Limited Radiographic Anatomy & Positioning

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Limited Radiographic Anatomy and Positioning will cover procedures in the limited scope of radiographic examinations, as well as the basics of human anatomy associated with those exams.
Co-Requisite(s): RADT 1024, RADT 1025, and RADT 1021

RADT 1024 - Limited Principles of Radiographic Exposure

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Limited Principles of Radiographic Exposure will cover all radiation safety, exposure factors, and image production concepts.
Co-Requisite(s): RADT 1023, RADT 1025, and RADT 1021

RADT 1025 - Limited Patient Care and Assessment

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: To provide patient care skills that will sustain students in a medical clinic as a limited radiographer.
Co-Requisite(s): RADT 1023, RADT 1024, and RADT 1021

RADT 1303 - Principles of Radiographic Exposure I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Theory of x-ray production; image production and radiographic equipment.

RADT 1502 - Radiographic Anatomy and Positioning I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Terminology, pathology and radiographic positioning.

RADT 1512 - Radiographic Anatomy and Positioning II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $18.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1502.
Pre-requisite(s): RADT 1502.

RADT 1522 - Radiographic Anatomy and Positioning III

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1512.

RADT 1532 - Radiographic Anatomy and Positioning IV

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $18.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1522.
Pre-requisite(s): RADT 1522.

RADT 1542 - Radiographic Anatomy and Positioning V

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $18.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1532 .

RADT 1601 - Clinical Simulation I

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Patient positioning, darkroom experience and review of radiographic quality.

RADT 1621 - Clinical Simulation II

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1601.
Pre-requisite(s): RADT 1601.

RADT 1641 - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1621.

RADT 1661 - Clinical Simulation IV

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Continuation of RADT 1641.

RADT 1681 - Clinical Simulation V

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

RADT 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

RADT 2042 - Community-Based Patient Care I

Credits: (1-2)
Typically Taught Fall Semester: *Full Sem*
Description: Patient case studies and critical care situations.
May be repeated once for credit.

RADT 2043 - Specialty Based Patient Care

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Patient care and management in radiology.

RADT 2272 - Basic Sectional Anatomy

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: The anatomical appearance of each organ system and common pathology on sectional medical images.

RADT 2403 - Principles of Radiographic Exposure II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Radiographic imaging, instrumentation, image production and factors affecting radiologic quality.

RADT 2803 - Independent Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individualized projects.
May be repeated 3 times for credit.

RADT 2821 - Directed Readings & Research I

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2822 - Directed Readings & Research II

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2823 - Directed Readings & Research III

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2824 - Directed Readings & Research IV

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2825 - Directed Readings & Research V

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Selecting readings and/or a research project on medical imaging procedures, new technology, patient satisfaction, patient safety, and professional behavior.

RADT 2861 INT - Clinical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Experience gained in a health care facility.
Pre-requisite(s): Acceptance into the program.

RADT 2862 INT - Clinical Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Continuation of RADT 2861.

RADT 2863 INT - Clinical Education

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Continuation of RADT 2862.

RADT 2864 INT - Clinical Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Continuation of RADT 2863.

RADT 2865 INT - Clinical Education

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Continuation of RADT 2864.

RADT 2866 INT - Final Competency Evaluation

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Demonstration of competency performing the procedures required by the certification agency.

RADT 2913 - Comprehensive Review

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Review of didactic and clinical applications.

RADT 2921 - Workshop, Conferences and Telecourses

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
May be repeated twice for a maximum of 3 credit hours.

RADT 2942 - Transition to Clinical Practice

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Assistance with career planning and an introduction to specialized imaging procedures and new and future imaging procedures.

RADT 3003 - Psycho-Social Medicine

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Designed to prepare students to better understand their patient and the patient's family through comparison of diverse populations based on their value systems, cultural and ethnic influences, communication styles, socio-economic influences, health risks and life stages. Study of factors that influence the interrelationships with patients and professional peers. Understanding multicultural diversity assists the student in providing better patient care.

RADT 3043 - Medical Ethics and Law

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Medical ethics and law and case studies in medical imaging and radiation therapy.

RADT 3123 - Sectional Anatomy

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Anatomical study of the body in the sagittal, transverse and coronal imaging planes.

RADT 3143 - Imaging Pathophysiology I

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Description: Imaging adaptations and alterations in anatomy and physiology with variation outside of the normal range (Unit 1).

RADT 3144 - Imaging Pathophysiology II

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Imaging adaptations and alterations in anatomy and physiology with variation outside of the normal range (Unit 2).
Pre-requisite(s): RADT 3143 - Imaging Pathophysiology I.

RADT 3243 - Community-Based Patient Care II

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced level patient care, assessment, and management in the community-based environment.

RADT 3253 - Specialty-Based Patient Care II

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $12.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Advanced level patient care, assessment, and management in the specialty-based environment.

RADT 3263 - Diagnostic Services Pharmacology

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Concepts of pharmacology including modes of action, uses, modes of excretion effects, side effects and patient care required for specific pharmacologic agents.

RADT 3403 - Radiobiology & Health Physics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Effects of ionizing radiation on the human body, patient and personnel protection, exposure monitoring health physics and oncology.

RADT 3423 - Federal Regulations

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Regulations governing health care, equipment and application of ionizing radiation.

RADT 3443 - Quality Assurance in Radiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $18.00
Course Fee Purpose: Lab supplies: Lab Equipment/Software upgrade and Maintenance
Description: Development of a quality assurance program and manual to meet accreditation requirements.

RADT 3463 - Computerized Imaging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Digital radiography, image acquisition, image processing and digital image management.

RADT 3563 - Managing Clinical Information

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Digital and volumetric imaging, emerging technologies, secure computerized management practice, and patient privacy regulations.

RADT 3863 INT - Clinical Internship

Credits: (2-6)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Experience in a radiology specialty area. Consent of instructor is required. May be repeated twice for credit.

RADT 4203 - Patient Education in Radiology

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Skills necessary to assess, plan and evaluate a variety of educational programs specific to radiology patients.

RADT 4213 - Supervision and Staff Development

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Federal regulations, developing department protocol, designing departments personnel supervision and quality of care assessment.

RADT 4223 - Promotional Strategies

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Assessment of needs, development and implementation of promotional strategies for Radiology Departments.

RADT 4233 - Fiscal Analysis in Radiology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Justification, acquisition and leasing of imaging equipment and accessories, staffing formulas and review of maintenance contracts.

RADT 4243 - Quality Management in Radiology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Concepts and principles of quality management, collection and analysis of data.

RADT 4253 - Risk Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Study of management of risk associated with the delivery of health care in clinical and non-clinical settings.

RADT 4303 - Cardiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Detailed study of the heart: anatomy, physiology, pathophysiology, pharmacology, EKGs and imaging modalities.

RADT 4313 - Visceral, Pelvic and Extremity Angiography

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Anatomy, pathology, protocols and interventional procedures of abdominal viscera, extremities and pelvis.

RADT 4333 - Head and Neck Angiography

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Anatomy, pathology, protocols and interventional procedures of the aortic arch, brachiocephalic, thyroid and other facial and neck arteries.

RADT 4343 - Thoracic and Venous Procedures

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Anatomy, pathology, protocols and interventional procedures of the venous and cardiac systems.

RADT 4403 - Imaging Pathology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Radiographic presentation of pathological conditions, abnormalities and anomalies.

RADT 4413 - Forensic Radiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a comprehensive study of medical imaging's role in forensic medicine. Forensic Radiology is used to determine identity of remains, evaluate injury or cause of death and assist in the detection of abuse. Junior or Senior standing required.

RADT 4433 - PACS Administration

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Digital imaging and communication standards, PACS administration, image quality, and emerging technology standards.

RADT 4443 - Imaging Informatics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Analyzing system needed, project management, quality improvement, bioinformatics, clinical informatics, and medical informatics.

RADT 4453 - Advanced Imaging: 3D Visualization and 3D Printing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course will be composed of three credit hours of lecture content and includes one additional session of lab participation. Students will learn the advanced operation and manipulation of software to reconstruct two-dimensional (2D) radiology images into three-dimensional (3D) images. The lecture portion of the course will instruct the students on the different 3D rendering techniques and segmentation processes involved with creating digital and printed images. The lab portion of the course will provide the students an opportunity to compile acquired slices from different imaging modalities (MRI, CT, PET, etc.) using advanced 3D rendering and segmentation techniques to create a 3D digital image from their home.

RADT 4543 - Bone Densitometry

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This course comprehensively covers the methods of bone density measurement (bone densitometry, DEXA), the pathogenesis of osteoporosis, quality management issues, therapies for osteoporosis and a review of additional analysis methods.

RADT 4553 - Breast Anatomy, Physiology and Pathology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Normal breast anatomy and physiology compared to pathological conditions.

RADT 4563 - Mammographic Positioning/Imaging Techniques

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Routine positions, risk versus benefit; tissue variations, specialized procedures and imaging modalities.

RADT 4572 - Advanced Breast Imaging

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will highlight advanced breast imaging and correlate findings between modalities; discuss associated patient education and medicolegal considerations; and highlight best practice in relation to pathology and patient history.

RADT 4573 - The Female Patient and Medical Imaging

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course will familiarize the student to disease processes specific to the female patient and the imaging methods that may be used in diagnosis and treatment. The clinical pathways that are commonly used, involving all radiologic imaging modalities, will be explored. Students who enroll in this course must be certified by the American Registry of Radiologic Technologists.

RADT 4583 - Mammographic Equipment and Quality Assurance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Equipment operation, technical factors and quality assurance procedures in mammography.

RADT 4601 - MRI Entry Level-Patient Care and Safety

Credits: (2)
Typically Taught Fall Semester: *1st Blk*
Description: This course is designed for non-RT MRI applicants choosing the Primary Pathway. The course will focus on helping non-RT and non-healthcare applicants understand the following areas: MRI safety, sectional anatomy, patient care, and venipuncture.
Pre-requisite(s): Acceptance into the MRI Program.

RADT 4603 - Magnetic Resonance Imaging Physics, Instrumentation & Safety

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Physical principles and theories of magnetic resonance, instrumentation, safety, imaging sequences and methods in normal and abnormal tissue, and computer parameters of magnetic resonance.

RADT 4610 - Clinical Simulation I

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical Simulation in the Radiology and Computer Labs.

RADT 4611 - Clinical Simulation II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical Simulation in the Radiology and Computer Labs.

RADT 4612 - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical Simulation in the Radiology and Computer Labs.

RADT 4613 - Computed Tomography of the Torso and Limbs

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Sectional anatomy, pathology and imaging protocols of the abdominal viscera, pelvis, thorax and extremities.
Pre-requisite(s): Same as is previously noted for this course

RADT 4623 - Advanced MRI Procedures

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Evaluation of organ function and diagnosis of disease process using advanced MRI procedures with emphasis on spectroscopy and functional MR.

RADT 4630 - MRI Simulation 1

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: MRI course using simulation software to practice MRI protocols and scanning as if the student was in the clinical setting.
Pre-requisite(s): Acceptance into the MRI program.

RADT 4631 - MRI Simulation 2

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: MRI course using simulation software to practice MRI protocols and scanning as if the student was in the clinical setting.
Pre-requisite(s): Acceptance into the MRI prgram.

RADT 4632 - MRI Simulation 3

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: MRI course using simulation software to practice MRI protocols and scanning as if the student was in the clinical setting.

RADT 4633 - Magnetic Resonance Imaging of the Central Nervous System

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Sectional anatomy, pathology and imaging protocol of the head, spine and central nervous system.

RADT 4643 - Magnetic Resonance of the Torso and Limbs

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Sectional anatomy, pathology and imaging protocols of the abdominal viscera, pelvis, thorax and extremities.

RADT 4653 - Computed Tomography of the Central Nervous System

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Sectional anatomy, pathology and imaging protocols of the head, spine and central nervous system.

RADT 4663 - Computed Tomography Physics, Instrumentation & Safety

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Interactions of electromagnetic waves, instrumentation, imaging sequences, computer

parameters, and safety of computerized tomography imaging.

Pre-requisite(s): Same as already listed

Co-Requisite(s): Same as already listed

RADT 4803 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Research projects developed for district, state, regional or national presentation.

May be repeated for a maximum of 3 credit hours.

RADT 4833 - Directed Readings and Research

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Synthesis and analysis of journal articles resulting in a research paper for the purpose of publication.

RADT 4850 - Study Abroad

Credits: (1-6)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

May be repeated 5 times with a maximum of 6 credit hours.

RADT 4861 - Clinical Internship

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Experience in a radiology specialty area. Consent of instructor is needed.

RADT 4862 - Clinical Internship

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Experience in a radiology specialty area. Consent of instructor is needed.

RADT 4863 INT - Clinical Internship

Credits: (2-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Experience in a radiology specialty area. Consent of instructor is needed.
May be repeated twice for credit.

RADT 4911 - Comprehensive Review/CT

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Preparation for advanced certification examination.

RADT 4912 - Comprehensive Review/MRI

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Preparation for advanced certification examination.

RADT 4913 - Comprehensive Review/CIT

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: Preparation for advanced certification examination.

RADT 4914 - Comprehensive Review/M

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Description: Preparation for advanced certification examination.

RADT 4915 - Comprehensive Review/QM

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Preparation for advanced certification examination.

RADT 4922 - Workshop, Conferences and Telecourses

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

RADT 4933 - Research Methods

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Apply research strategies in health care and clinical practice, obtain certificate for human subject research, formulate a research proposal, and complete an institutional review board application.

RADT 4942 - Transition to Specialty Practice

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Review of the program educational requirements. Professional responsibilities and requirements as the student transitions into the healthcare marketplace.
May be repeated twice for a maximum of four credit hours.

RADT 4943 - Baccalaureate Thesis

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Research in health professions utilizing the scientific inquiry method.

RADT 4945 - Fundamentals in MRI Certification

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Description: Review of the MRI program educational requirements in prepartion for the national certification exam.
Pre-requisite(s): RADT 4603, RADT 4623, RADT 4633, RADT 4643.

RADT 4992 - Seminar

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: New developments and procedures in imaging and therapy and preparing for the future.
May be repeated for a maximum of 2 credit hours.

RADT 5864G - Clinical Preceptorship

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Continuation of RADT 6863 .

RADT 5867G - Competency Assessment/Residency

Credits: (3)
Description: Assessment of competency knowledge and skills in the clinical setting.
Note: This course is offered as needed.

RATH 4330 - Radiation Therapy Physics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An overview of the profession of radiation therapy. Radiation therapy physics, dosimetry, isodose distribution for isotopes and electrically-produced beams. Mechanics of Linear accelerators and Cobalt.

RATH 4342 - Introduction to Treatment Planning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Basic quantities and concepts in radiotherapeutic dosimetry. Current aspects of the anatomical and physical consideration involved in planning and delivery of the therapy prescription.

RATH 4410 - Radiation Oncology I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4412 - Radiation Oncology II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4414 - Radiation Oncology III

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Pathology of cancer; combined therapy and surgery; chemotherapy and radiation therapy; clinical application of treatment techniques; and case studies.

RATH 4444 - Advanced Treatment Planning/Brachytherapy

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Prescription interpretation, nuclide implants, brachytherapy and treatment techniques involving hyperthermia. Beam modification devices and theory of beam placement will be discussed.

RATH 4446 - Quality Assurance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Establishment of a quality assurance program for linear accelerators, simulators and therapeutic isotopes.

RATH 4448 - New Technology in Radiation Therapy

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Exploration of the emerging technology and new equipment used in radiation therapy.
Pre-requisite(s): Graduate of an approved Radiography Program or equivalent.

RATH 4861 INT - Clinical Education I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4862 INT - Clinical Education II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4863 INT - Clinical Education III

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Clinical education designed to facilitate transference of didactic instruction to practical clinical practice.

RATH 4913 - Comprehensive Review

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: Review of all didactic and clinical courses and competencies. Guest lecturer and multiple mock registry examinations will be presented.

REC 1241 - Mountain Biking, Level I

Credits: (1)
Typically Taught Summer Semester: *1st Blk; 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $81.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the

students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include mountain bikes parts and maintenance, transportation, first aid supplies, and permit fees.

Description: This physical activity course introduces students to mountain biking and trail riding. This course is designed for beginner riders. No prior experience is required or expected. (Riders with more experience should consider REC 1242.) Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair. May be repeated twice and up to 3 credits.

REC 1242 - Mountain Biking, Level II

Credits: (1)
Typically Taught Summer Semester: *1st Blk; 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $81.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include mountain bikes parts and maintenance, transportation, first aid supplies, and permit fees.

Description: This physical activity course introduces students to mountain biking and trail riding. Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair.
May be repeated twice and up to 3 credits.

REC 1243 - Mountain Biking, Level III

Credits: (1)
Typically Taught Summer Semester: *1st Blk; 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $81.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include mountain bikes parts and maintenance, transportation, first aid supplies, and permit fees.

Description: This physical activity course introduces students to mountain biking and trail riding. Students will explore and apply topics to enable safe, independent bike travel over a variety of terrain and surfaces. Course content will focus on trail awareness and selection, choosing appropriate equipment, and basic bike maintenance and repair.
May be repeated twice and up to 3 credits.

REC 1304 - Backcountry Touring, Level I

Credits: (1)
Typically Taught Spring Semester: *1st Blk*
Course Fee: $70.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid supplies, spare batteries, and ski wax.
Description: This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.
May be repeated three times for a maximum of three credit hours.

REC 1305 - Backcountry Touring, Level II

Credits: (1)
Typically Taught Spring Semester: *1st Blk*
Course Fee: $70.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid supplies, spare batteries, and ski wax.
Description: This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.
May be repeated three times for a maximum of three credit hours.

REC 1306 - Backcountry Touring, Level III

Credits: (1)
Typically Taught Spring Semester: *1st Blk*
Course Fee: $76.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid

supplies, camping equipment, and mountaineering equipment.

Description: This physical activity course introduces students to skiing and/or snowboarding safely in the backcountry, outside of resort boundaries where avalanche control and ski patrol are not present. The course covers basic avalanche hazard recognition, evaluation, and mitigation, single-burial avalanche companion rescue, uphill snow travel, and downhill skiing and/or snowboarding techniques for variable snow conditions and hazards.

May be repeated three times for a maximum of three credit hours.

REC 1307 - Avalanche Level I

Credits: (1)
Typically Taught Spring Semester: *1st Blk*
Course Fee: $100.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid supplies, spare batteries, and ski wax.
Description: This course is intended for individuals wishing to pursue travel in avalanche terrain, whether backcountry skiing and snowboarding, snowshoeing, or mountaineering. Different sections of this course may be appropriate for various modes of travel, for example, skiing and snowboarding vs. snowshoeing. Instruction will take place predominantly at local backcountry mountainous areas through practical skills sessions. The course also includes relevant lecture, discussion, group decision making, and travel plan exercises. Emphasis will be placed on development of skills and knowledge to select appropriate terrain to avoid avalanches.

REC 1308 - Avalanche Rescue

Credits: (1)
Typically Taught Spring Semester: *1st Block*
Course Fee: $64.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid supplies, spare batteries, and ski wax.
Description: This course is intended for individuals wishing to learn rescue skills in avalanche terrain, whether backcountry skiing and snowboarding, snowshoeing, or mountaineering.
Suggested Requisite(s): REC 1307.

REC 1309 - Avalanche Level 2

Credits: (1)
Typically Taught Spring Semester: *1st Block*

Course Fee: $100.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as avalanche beacons, avalanche probes, collapsible shovels, avalanche airbags, ski helmets, first aid supplies, spare batteries, and ski wax.

Description: This course is intended for individuals wishing to expand their understanding of avalanche problem types and group risk management systems for travel in avalanche terrain, whether backcountry skiing and snowboarding, snowshoeing, or mountaineering.

Suggested Requisite(s): REC 1307 and REC 1308.

REC 1310 - Whitewater Paddling, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $168.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as rafts, paddles/oars, PFDs, helmets, camping equipment, and first aid supplies as well as permit fees, camping fees, and supplemental course assistance to meet state law for supervision on the water.

Description: This physical activity course introduces students to the basic skills required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills taught include boat maneuvering, reading rapids, and basic rescue skills.

May be repeated twice and up to 3 credits.

REC 1311 - Whitewater Paddling, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $168.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as rafts, paddles/oars, PFDs, helmets, camping equipment, and first aid supplies as well as permit fees, camping fees, and supplemental course assistance to meet state law for supervision on the water.

Description: This physical activity course introduces students to the basic skills required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills

taught include boat maneuvering, reading rapids, and basic rescue skills.
May be repeated twice and up to 3 credits.

REC 1312 - Whitewater Paddling, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $170.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include equipment such as rafts, paddles/oars, PFDs, helmets, camping equipment, and first aid supplies as well as permit fees, camping fees, and supplemental course assistance to meet state law for supervision on the water.
Description: This physical activity course introduces students to the basic skills required for whitewater paddling in a number of potential watercraft such as rafts, kayaks, paddleboards, and canoes. Skills taught include boat maneuvering, reading rapids, and basic rescue skills.
May be repeated twice and up to 3 credits.

REC 1313 - Swiftwater Rescue

Credits: (1)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $100.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include river craft, paddles, PFDs, helmets, wet suits, and other paddling equipment, and first aid supplies.
Description: This course combines classroom and on-river instruction in avoidance and rapid resolution of accidents and injuries in swiftly moving whitewater. The course emphasizes skill demonstration and practice on or near the river and in-water. The course teaches effective rope based and/or rescue PFD based techniques that minimize rescuer risk in these complex systems. The course also includes relevant lecture, discussion, and group management exercises.

REC 1316 - Stand-Up Paddleboard

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Course Fee: $141.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific

regulatory requirements. Examples of course fee expenditures for this course include equipment such as paddleboards, paddles, PFDs, and first aid supplies as well as supplemental course assistance to meet state law for supervision on the water.

Description: This physical activity course is intended to introduce students to the fundamental skills and knowledge necessary to enjoy Stand Up Paddleboarding (SUP). The course will cover: 1) technical knowledge (i.e., history, terminology, equipment, regulations, safety); 2) technical skills (i.e., carrying, launching, landing, balance, stances, strokes, maneuvers, equipment maintenance); and) 3 rescue/safety (i.e. self-rescues).

REC 1350 - Scuba Diving, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*
Course Fee: $55.00
Course Fee Purpose: This course has a fee attached. The course fee covers facilities and instruction from the scuba provider.
Description: A beginner level physical activity course that allows students to learn and develop the skills and knowledge needed to safely engage in the underwater activity of scuba diving.
Note: This course is offered through Continuing Education only.

REC 1351 - Scuba Diving, Level II

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $55.00
Course Fee Purpose: This course has a fee attached. The course fees covers facilities and instruction from the scuba provider.
Description: A physical activity that engages students in the underwater activity of scuba diving. This Level II course allows students to build on skills developed in Level I.
Pre-requisite(s): REC 1350.

REC 1404 - Mountaineering, Level I

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Course Fee: $100.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing hardware, harnesses, helmets, crampons, ice axes, avalanche beacons, avalanche probes, collapsible shovels, tents, sleeping bags, packs, and first aid supplies.
Description: This physical activity course introduces students to the basic skills required for

mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.
May be repeated twice and up to 3 credits.

REC 1405 - Mountaineering, Level II

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Course Fee: $100.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing hardware, harnesses, helmets, crampons, ice axes, avalanche beacons, avalanche probes, collapsible shovels, tents, sleeping bags, packs, and first aid supplies.
Description: This physical activity course introduces students to the basic skills required for mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.
May be repeated twice and up to 3 credits.

REC 1406 - Mountaineering, Level III

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk, 2nd Blk*
Course Fee: $105.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing hardware, harnesses, helmets, crampons, ice axes, avalanche beacons, avalanche probes, collapsible shovels, tents, sleeping bags, packs, and first aid supplies.
Description: This physical activity course introduces students to the basic skills required for mountaineering, including snow climbing and descending, ice climbing, ice axe use, basic avalanche hazard identification, and technical rope systems in these environments. Course offering dependent on weather and snow pack expectations and conditions.
May be repeated twice and up to 3 credits.

REC 1505 - Kayaking, Level I

Credits: (1)
Typically Taught Spring Semester: *2nd Blk*

Description: A physical activity course that introduces students to the outdoor activity of kayaking. The fundamental skills of kayaking will be addressed for both beginning and recreational paddlers.

REC 1510 - Fishing, Level I

Credits: (1)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include first aid supplies, repair/maintenance items, permits, fishing rods/reels, leader/tippet, and flies.
Description: A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1511 - Fishing, Level II

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include first aid supplies, repair/maintenance items, permits, fishing rods/reels, leader/tippet, and flies.
Description: A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1512 - Fishing, Level III

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Description: A physical activity course that allows students to learn and develop the skills needed to practice fishing.

REC 1520 - Hiking, Level I

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1521 - Hiking, Level II

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1522 - Hiking, Level III

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Description: A physical activity course that allows students to learn and develop the skills needed to safely enjoy hiking through the use of trail resources, environmental conscientiousness, planning, and conduct.

REC 1527 - Rock Climbing, Level I

Credits: (1)
Typically Taught Summer Semester: *Full Sem, 1st Blk*
Typically Taught Fall Semester: *Full Sem, 1st Blk*
Typically Taught Spring Semester: *Full Sem, 2nd Blk*
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing shoes, harnesses, helmets, climbing rope, and climbing holds.
Description: A beginner level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1528 - Rock Climbing, Level II

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *2nd Blk*
Course Fee: $55.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing shoes, harnesses, helmets, ropes, and climbing hardware.
Description: An intermediate level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1529 - Rock Climbing, Level III

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Course Fee: $55.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing shoes, harnesses, helmets, ropes, and climbing hardware.
Description: An advanced level physical activity course that allows students to learn and develop the skills and knowledge needed to safely enjoy rock climbing.

REC 1530 - Rock Climbing for Instructors, Level I

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Course Fee: $162.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include rock climbing equipment and AMGA licensing fees.
Description: This course is intended for individuals pursuing work as climbing instructors or guides and covers the curriculum of the American Mountain Guides Association (AMGA) Single Pitch Instructor Course. Instruction will take place predominantly at local outdoor climbing areas through practical skills sessions. The course also includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for rock climbing instructors.

REC 1531 - Rock Climbing for Instructors, Level II

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Course Fee: $162.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include rock climbing equipment and AMGA licensing fees.
Description: This course is intended for individuals pursuing work as climbing instructors or guides and covers the curriculum of the American Mountain Guides Association (AMGA) Single Pitch Instructor Course. Instruction will take place predominantly at local outdoor climbing areas through practical skills sessions. The course also includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for rock climbing instructors.

REC 1535 - Leave No Trace Trainer

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include camping equipment, transportation, first aid supplies, and camping/permit fees.
Description: The Leave No Trace (LNT) Trainer course is designed to train current and future outdoor recreation leaders on the principles of Leave No Trace. Participants will gain an in-depth understanding of the seven LNT principles and how to provide LNT awareness workshops in a variety of settings including camps, schools, parks, and backcountry areas. Students who successfully complete this course will be recognized as Leave No Trace Trainers by the Leave No Trace Center for Outdoor Ethics.

REC 1610 - Skiing, Level I

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy skiing and advance through specified skill levels.(CR/NC).

REC 1611 - Skiing, Level II

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy skiing and advance through specified skill levels. (CR/NC).

REC 1612 - Skiing, Level III

Credits: (1)
Typically Taught Fall Semester: *3rd Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy skiing and advance through specified skill levels. (CR/NC).

REC 1620 - Snowboarding, Level I

Credits: (1)
Typically Taught Fall Semester: *4th Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1621 - Snowboarding, Level II

Credits: (1)
Typically Taught Fall Semester: *5th Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1622 - Snowboarding, Level III

Credits: (1)
Typically Taught Fall Semester: *6th Blk*
Course Fee: $180.00
Course Fee Purpose: All skiers/snowboarders are assessed a lab fee of $180 which covers instruction and lift tickets from Powder Mountain.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy snowboarding and advance through specified skill levels. (CR/NC).

REC 1630 - Cross-Country Skiing, Level I

Credits: (1)
Typically Taught Fall Semester: *7th Blk*
Course Fee: $120.00
Course Fee Purpose: This course has a fee attached. The course fee covers facilities and instruction through Ogden Nordic.
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1631 - Cross-Country Skiing, Level II

Credits: (1)
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1632 - Cross-Country Skiing, Level III

Credits: (1)
Description: A physical activity course that allows students to learn and develop the skills and technique needed to safely enjoy cross-country skiing. (CR/NC).

REC 1640 - Skiing for Instructors

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as skiing instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for skiing instructors through practical demonstrations and exercise on the snow.

REC 1641 - Skiing for Instructors II

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as skiing instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for skiing instructors through practical demonstrations and exercise on the snow.

REC 1642 - Skiing for Instructions III

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as skiing instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for skiing instructors through practical demonstrations and exercise on the snow.

REC 1650 - Snowboarding for Instructors, Level I

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

REC 1651 - Snowboarding for Instructors, Level II

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and

teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

REC 1652 - Snowboarding for Instructors, Level III

Credits: (1)
Typically Taught Fall Semester: *2nd Blk*
Description: This course is intended for individuals pursuing work as snowboarding instructors. Instruction will take place at Powder Mountain ski resort. The course includes relevant lecture, discussion, and teaching exercises. Emphasis will be placed on development of skills and knowledge base for snowboarding instructors through practical demonstrations and exercise on the snow.

REST 1540 - Survey of Respiratory Therapy

Credits: (1)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This course is designed to introduce allied health and other students to the profession of respiratory therapy. It includes field trips, group discussions, lecture/demonstrations and limited lab activities. Open to all students.

REST 1560 - Multi-Skilled Health Care Worker

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course prepares students from different health care disciplines to understand the hospital environment, patient needs, and perform basic skills of patient care. Topics include the patient's right to privacy, confidentiality, ethical, legal, and cultural issues, documentation, team building, age related concerns, medical terminology, and death and dying. Patient skills include vital signs, oxygen administration, specimen collection, personal care and cleanliness, environmental cleanliness, nutrition and diet, elimination, positioning and ambulating, patient safety and comfort, and OSHA guidelines for healthcare worker safety.

REST 2140 - Introduction to Basic Therapeutic Modalities Lab

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Sterile gloves, cannula, O2 masks, non-rebreathers, Venturi masks, 11mm/22mm adapters, sylastic connectors, ABG syringes, mannequins, incentive spirometers, O2 analyzers, saturation monitors, wrighte's respirometers, artificial arms [arterial puncture], postural drainage
Description: Introductory Laboratory course emphasizing basic patient interaction and assessment skills. Includes infection control, the administration of medical gases, humidity and aerosol, pharmacologic

agents, hyperinflation therapy, airway clearance techniques and methods of care, and artificial ventilation.

REST 2160 - Equipment Management Lab

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $200.00
Course Fee Purpose: Mechanical ventilators [Drager, Avelo, Puritan-Bennett, Siemons] CPAP equip., hospital gurneys, oxygen quick connects, laryngoscopes, adult ET tubes, bronchoscopy equip,
Description: Laboratory course emphasizing patient assessment skills relating to ventilation techniques and equipment. Includes equipment used by the respiratory care practitioner in initiating, troubleshooting, monitoring, and weaning from mechanical ventilation.

REST 2210 - Elementary Cardiopulmonary Anatomy and Physiology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Cardiopulmonary anatomy and physiology specifically for the entry-level respiratory care practitioner. Includes physics of respiration, oxygen and carbon dioxide transport, and control of ventilation.

REST 2230 - Cardiopulmonary Pathophysiology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A synopsis of medical and surgical cardiopulmonary disorders for the entry-level practitioner. Etiology, symptomatology, pathology, diagnosis, treatment, and prognosis of these disorders are presented.

REST 2250 - Basic Patient Assessment

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A basic orientation to patient assessment techniques used to obtain a patient medical history and physical examination. Discussion of pulmonary disease integrates assessment information with laboratory and radiographic data.

REST 2270 - Application of Cardiopulmonary Diagnostics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to theory and clinical application of basic cardiopulmonary diagnostic studies, including simple spirometry, arterial and mixed venous blood gases, and electrocardiograms. Course

emphasizes critical thinking skills in the application of diagnostic findings and utilizes case studies, class discussions, and extensive study guides.

Pre-requisite(s): Program acceptance required.

REST 2300 - Basic Modalities in Respiratory Care I

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 1st Blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk*
Description: Theory and clinical application of basic therapies. Course includes indications, complications, hazards, equipment needed, side effects, and assessment for medical gases, humidity, aerosols, airway clearance, hyperinflation therapy, and pharmacologic agents. Course emphasizes patient assessment and critical thinking skills.

Co-Requisite(s): Concurrent enrollment in REST 2140.

REST 2310 - Basic Modalities in Respiratory Care II

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 2nd Blk*
Typically Taught Spring Semester: *Full Sem, 2nd Blk*
Description: Theory and clinical applications of airway management and artificial ventilation, including IPPB and introduction to modes of mechanical ventilation. Also includes the theory of invasive and non-invasive monitoring technology, and equipment decontamination.

REST 2320 - Essentials of Mechanical Ventilation

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Course provides a basic understanding of essentials for mechanical ventilation. Includes determining the need for ventilatory support, the associated physiology and how ventilatory support is initiated, maintained, monitored, and discontinued.

Pre-requisite(s): Program acceptance required.

REST 2330 - Entry Level Respiratory Therapy Review

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: Course is a comprehensive review intended to prepare the student for the entry-level certification/licensure examination. The material covered is based on the examination matrix provided by the National Board for Respiratory Care (N.B.R.C.).

REST 2500 - Survey of Polysomnography

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Description: Introduction to polysomnography as a profession. Course includes an overview of the polysomnogram, sleep disorders as they affect the general population, typical employment in the field,

and employment opportunities. Also includes an introduction to the professional organization of sleep and requirements to become a registered polysomnographic technologist (R.PSG.T). Students taking REST 3500 are required to write a 6-10 page paper outlining the assessment of sleep disorders or neurodiagnostics. Students taking REST 2500 cannot take REST 3500 for credit.

Pre-requisite(s): Medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2501 - Anatomy and Physiology of Sleep

Credits: (3)
Description: Introduction to the anatomy and physiology of the neurologic, cardiac, and respiratory systems during sleep. Basic anatomy and physiology of wake-sleep cycles are studied, with emphasis on changes that occur during varying stages of sleep and during common sleep disorders. Introduction to the EEG, EOG, EKG, EMG, and other polysomnography data recorders. Students taking REST 3501 are required to write a 6-10 page paper outlining physiologic components affecting quality of sleep. Students taking REST 2501 cannot take REST 3501 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2502 - Introduction to Sleep Disorders

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Description: Course provides an overview of the history of sleep medicine, normal sleep physiology, effects of the sleep-wake stage, sleep disorders and abnormal sleep physiology, and an introduction to polysomnography (including patient interaction, sensor and lead placements, and instrumentation). Course also introduces the fundamentals of therapeutic interventions utilized to treat sleep disorders. Students taking REST 3502 are required to r a 6-10 page paper outlining the implications for assisted ventilation to sleep disorders. Students taking REST 2502 cannot take REST 3502 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 2503 - Instrumentation and Computers in Polysomnography

Credits: (2)
Description: Course provides study of equipment, instrumentation, and recording devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient-generated), computer basics, and monitoring devices. Students taking REST 3503 are required to write a 6-10 page paper outlining specific instrumentation in polysomnography assessing sleep disorders. Students taking REST 2503 cannot take REST 3503 for credit.

Pre-requisite(s): REST 2500/REST 3500 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

REST 2505 - Therapeutics of Managing Sleep Apnea

Credits: (2)
Description: Course provides current therapies and interventions for treatment of sleep apneas. Interventions include positive airway pressure therapy (nocturnal CPAP and bi-level CPAP), surgery, and dental devices. Patient compliance and outcomes of these treatments are included. Students taking REST 3505 are required to write a 6-10 page paper outlining strategies managing sleep apnea. Students taking REST 2505 cannot take REST 3505 for credit.
Pre-requisite(s): REST 2501/REST 3501 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.

REST 2520 - Principles of Pharmacology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to pharmacology, including general principles, autonomic and central nervous system agents, and cardiovascular agents. Also includes drugs used in managing renal, GI tract, endocrine, and infectious or neoplastic diseases and disorders.

REST 2700 INT - Clinical Applications

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical rotations in various medical settings performing skills learned and practiced in REST 2140. Recommending and modifying basic therapies will be emphasized utilizing patient assessment skills and review of patient medical history.
Suggested Requisite(s): Concurrent enrollment in REST 2140.

REST 2710 INT - Specialty Clinical Experiences

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical rotations in various medical settings providing the opportunity to observe and participate in various specialty areas within the profession, including PFTs, cardiac testing, EKGs, ABGs, and longterm artificial airway care.
Suggested Requisite(s): Concurrent enrollment in REST 2160.

REST 2720 INT - Clinical Applications

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical rotations in various medical settings performing skills learned and practiced in REST 2140. Initiating, monitoring, and weaning from mechanical ventilation will be emphasized utilizing patient assessment skills. Case studies will be used to practice critical thinking skills in the management

of ICU patients.

Suggested Requisite(s): Concurrent enrollment in REST 2160.

REST 2800 - Independent Projects

Credits: (1-3)
Description: Projects must meet departmental and professional goals and standards and must have instructor approval prior to beginning project; enrollment by permission only.
May be repeated twice for a maximum of 3 credit hours.

REST 2830 - Directed Readings

Credits: (1-2)
Typically Taught Spring Semester: *Full Sem*
Description: Readings must meet departmental and professional goals and standards and must have instructor approval prior to beginning; enrollment by permission only.
May be repeated twice for a maximum of 3 credit hours.

REST 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult semester schedule for the current offering under this number. The specific title and credit authorized will appear on student transcript.
May be repeated for a total maximum of 6 credit hours.

REST 3210 - Advanced Cardiopulmonary Anatomy and Physiology

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Cardiopulmonary anatomy and physiology specifically for the therapist-level practitioner. Includes advanced anatomical considerations for the cardiac, pulmonary and renal systems in neonates and adults. Includes developing abstracts from evidence-based research.
Pre-requisite(s): Enrollment in baccalaureate respiratory therapy program, CRT credential, or equivalent.

REST 3220 - Advanced Cardiopulmonary Pathophysiology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Pathology and prognosis of coronary artery disease, interpreting 12-lead ECG's, fungal lung diseases, bronchogenic carcinomas, ARDS, chest injuries, shock in relation to the care of the trauma patient, and differentiation of intracellular and extracellular fluid compartments with renal pathology are presented. Includes developing abstracts from evidence-based research.
Pre-requisite(s): Enrollment in baccalaureate respiratory therapy program, CRT credential, or equivalent.

REST 3230 - Advanced Cardiopulmonary Technology

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced diagnostic procedures and interpretive skills in cardiopulmonary function, lung dynamics, specialty gases, blood gas analysis, and metabolic assessment.

REST 3260 - Neonatal/Pediatric Respiratory Care

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $137.18
Course Fee Purpose: Neonatal sx equip., neonatal ventilators, infant ET tubes, holders, isolettes, headwalls, O2 blenders, infant Miller/MacIntosh blades, intubation mannequin.
Description: Pediatric and neonatal respiratory care with emphasis on intensive care activities, therapeutic procedures, life support modalities and fetal, neonatal, pediatric pathophysiology.
Pre-requisite(s): Enrollment in baccalaureate respiratory care program, CRT credential, or equivalent.

REST 3270 - Adult Critical Care

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $137.18
Course Fee Purpose: Adult monitoring systems, chest tube evacuation, bronchoscope & light source , bariatric streatcher, laryngoscopes and endotracheal tubes
Description: Advanced adult respiratory intensive care, including hemodynamic monitoring, ventilation/perfusion monitoring, pulmonary assessment and airway management.

REST 3280 - Patient Care Continuum/ Quality Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Theory and principles of pulmonary and spinal cord rehabilitation, polysomnography, discharge planning, patient education, quality management, home and self care, legal, ethical, and moral considerations of chronic and extended care.

REST 3500 - Survey of Polysomnography

Credits: (1)
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Introduction to polysomnography as a profession. Course includes an overview of the polysomnogram, sleep disorders as they affect the general population, typical employment in the field,

and employment opportunities. Also includes an introduction to the professional organization of sleep and requirements to become a registered polysomnographic technologist (R.PSG.T). Students taking REST 3500 are required to write a 6-10 page paper outlining the assessment of sleep disorders or neurodiagnostics. Students taking REST 2500 cannot take REST 3500 for credit.

Pre-requisite(s): Medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3501 - Anatomy and Physiology of Sleep

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Description: Introduction to the anatomy and physiology of the neurologic, cardiac, and respiratory systems during sleep. Basic anatomy and physiology of wake-sleep cycles are studied, with emphasis on changes that occur during varying stages of sleep and during common sleep disorders. Introduction to the EEG, EOG, EKG, EMG, and other polysomnography data recorders. Students taking REST 3501 are required to write a 6-10 page paper outlining physiologic components affecting quality of sleep. Students taking REST 2501 cannot take REST 3501 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3502 - Introduction to Sleep Disorders

Credits: (2)
Description: Course provides an overview of the history of sleep medicine, normal sleep physiology, effects of the sleep-wake stage, sleep disorders and abnormal sleep physiology, and an introduction to polysomnography (including patient interaction, sensor and lead placements, and instrumentation). Course also introduces the fundamentals of therapeutic interventions utilized to treat sleep disorders. Students taking REST 3502 are required to r a 6-10 page paper outlining the implications for assisted ventilation to sleep disorders. Students taking REST 2505 cannot take REST 3502 for credit.

Pre-requisite(s): medical terminology, anatomy, and physiology or completion of respiratory therapy program or C.R.T., R.R.T., or R.N. credential.

REST 3503 - Instrumentation and Computers in Polysomnography

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Course provides study of equipment, instrumentation, and recording devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient-generated), computer basics, and monitoring devices. Students taking 3503 are required to write a 6-10 page paper outlining specific instrumentation in polysomnography assessing sleep disorders. Students taking REST 2503 cannot take REST 3503 for credit.

Pre-requisite(s): REST 2500/REST 3500 and REST 2502/REST 3502 or medical terminology, human anatomy

and human physiology.
May be repeated twice with a maximum of 6 credit hours.

REST 3504 - Laboratory Practice of Instrumentation in Polysomnography

Credits: (1)
Description: Course provides practice and application of operating principles of equipment, instrumentation, and recording devices utilized in polysomnography. Includes EEG waves, signal pathway and derivation of waves, impedance, sensitivity, time constants, amplifiers, filters, calibration, electrodes, artifacts (both equipment and patient generated), computer basics, and monitoring devices.
Pre-requisite(s): REST 3502/REST 2502 or medical terminology, human anatomy and human physiology
Co-Requisite(s): Concurrent enrollment with REST 3503.

REST 3505 - Therapeutics of Managing Sleep Apnea

Credits: (2)
Description: Course provides current therapies and interventions for treatment of sleep apneas. Interventions include positive airway pressure therapy (nocturnal CPAP and bi-level CPAP), surgery, and dental devices. Patient compliance and outcomes of these treatments are included. Students taking REST 3505 are required to write a 6-10 page paper outlining strategies managing sleep apnea. Students taking REST 2505 cannot take REST 3505 for credit.
Pre-requisite(s): REST 2501/REST 3501 and REST 2502/REST 3502 or medical terminology, human anatomy and human physiology.
May be repeated once for a maximum of 4 credit hours.

REST 3506 - Advanced Technical Procedures

Credits: (3)
Description: Course provides detailed description and discussion of specific diagnostic procedures in PSG, including multiple sleep latency tests, maintenance of wakefulness test, REM behavior disorder studies, MMPI, movement disorders, TCM, nocturnal seizure disorders, esophageal balloon procedures, and others.
Pre-requisite(s): REST 3502 and REST 3503.
May be repeated once for a maximum of 6 credit hours.

REST 3507 - Event Recognition and Polysomnography Scoring

Credits: (3)
Description: Course provides advanced study of sleep stages and recognition of EEG characteristics of each stage. Multi-channel recording of breathing events, leg movements, ocular movements, cardiac and oxygenation monitoring, parasomnias, and interictal and ictal epileptic events are also presented. Course will include review and scoring of 12-hour polysomnography records to determine the overall sleep score.
Pre-requisite(s): REST 3501 and REST 3502.

REST 3508 - Sleep Center Management

Credits: (1)
Description: Course is designed to prepare students for sleep center management in hospitals and independent facilities. Course includes sleep laboratory requirements for accreditation, personnel requirements and training, PSG study documentation, technician manuals, quality assurance, policies and procedures, and lab protocols. REST 3500 or credentialed as C.R.T., R.R.T., or R.N.

REST 3509 - Cases in Sleep Medicine

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Description: Course will include physician presentations or case studies of patients with a variety of sleep disorders. Case-based learning is applied in the context of patient presentation and initial interview and diagnostic findings, determination of appropriate sleep medicine studies, interpretation of patient findings, recommendation for patient therapy, and follow-up of patient compliance and outcome(s) of therapeutic intervention.
Pre-requisite(s): REST 3502 and REST 3505.
May be repeated once for a maximum of 4 credit hours.

REST 3510 - Clinical Practice I in Polysomnography

Credits: (2)
Description: Introduction to the sleep laboratory and the set-up, monitoring, and therapeutic interventions associated with polysomnography. Students will be oriented to patient interviewing and selection, OSHA standards, sleep laboratory standards, and confidentiality. Competency is demonstrated in patient set-up, producing a reliable PSG, recognizing artifact, and basic therapeutic interventions for common sleep disorders.
Pre-requisite(s): REST 3502.
Co-Requisite(s): Concurrent enrollment in REST 3503 and REST 3504.
May be repeated twice for credit.

REST 3511 - Clinical Practice II in Polysomnography

Credits: (2)
Description: Case-based clinical applications course. Course requires competency in complete patient management (patient referral and interview, physician consult, patient study[ies], therapeutic intervention and follow-up of patient compliance). Students will develop the patient history and physical, perform the study, score the patient record, interpret the report, apply therapy, and follow-up patient compliance.
Pre-requisite(s): REST 3502 and REST 3510.
Co-Requisite(s): Concurrent enrollment in REST 3505.
May be repeated once for a maximum of 4 credit hours.

REST 3512 - Clinical Practice III in Polysomnography

Credits: (4)
Description: Clinical applications course providing experience in performing advanced technical procedures, including multiple sleep latency tests, maintenance of wakefulness tests, REM behavior disorders studies, MMPI, movement disorders, TCM, nocturnal seizure disorders, esophageal balloon procedures, and others.
Pre-requisite(s): REST 3502, REST 3510, and REST 3511.
Co-Requisite(s): Concurrent enrollment in REST 3506.
May be repeated once for a maximum of 8 credit hours.

REST 3760 INT - Clinical Applications of Neonatal/Pediatric Respiratory Care

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: The clinical application of pediatric and neonatal assessments as they relate to selection and use of respiratory care procedures and equipment specific for this patient population.

REST 3770 INT - Clinical Applications of Adult Critical Care

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: Adult respiratory care in the intensive care setting [shock-trauma, thoracic, burn ICUs] with emphasis on hemodynamic monitoring, ventilation/perfusion monitoring, pulmonary assessment and airway management.
Co-Requisite(s): To be taken concurrently with REST 3270.

REST 3780 INT - Clinical Applications

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Clinical experiences related to REST 3280: rehabilitation, extended care, home care agencies, polysomnography, patient assessment and planning for discharge, and quality management.
Co-Requisite(s): To be taken concurrently with REST 3280.

REST 3800 - Respiratory Care Certifications

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Best practice for advanced resuscitation skills for neonates, children, and adults are demonstrated and effective team-based care for health professionals presented. Advanced life-support skills are presented and practiced prior to entry into the workforce.

REST 3900 - Clinical Simulation Seminar

Credits: (1)
Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Problem-based clinical concepts course: comprehensive program review including written and clinical simulation examinations.
Pre-requisite(s): Enrollment in baccalaureate respiratory therapy program; CRT credential, or equivalent.

REST 4600 - Patient Education and Disease Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Quality of care issues arise in a variety of management roles throughout the spectrum of care. Practitioners are increasingly serving as supervisors, managers, and clinical preceptors in their roles involving case management, disease navigation, and home management in chronic respiratory patients. This course focuses on improving communication and coordination of care to educate patients and reduce readmissions, understand reimbursement systems, and quality outcomes for patients in our care.
Pre-requisite(s): AAS in Respiratory Therapy

REST 4610 - Advanced Patient Assessment

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The advanced patient assessment project is designed to be a physician intensive, interactive experience that emphasizes an understanding of diagnostic processes involved in assessing, evaluating, and treating patients with cardiopulmonary diseases. Enrollment by permission only.

REST 4620 - Health Promotion

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The health promotion project addresses the growing role of the Respiratory Care Practitioner (RCP) in patient education, public education, and health promotion in general. Enrollment by permission only.

REST 4630 - Continuous Quality Improvement

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The continuous quality improvement project enhances an understanding of how to construct and conduct a quality improvement (quality assurance) project in the workplace. Enrollment by permission only.

REST 4800 - Independent Projects

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Student designed, instructor approved projects which will further develop cognitive or psychomotor skills for the baccalaureate level respiratory care practitioner. Projects must meet departmental and professional goals and standards and must have instructor approval prior to beginning project. Enrollment by permission only.
May be repeated for a maximum of 6 credit hours.

REST 4830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: Student designed, instructor approved readings which will further develop professional knowledge or understanding for the baccalaureate level respiratory care practitioner. Readings must meet departmental and professional goals and standards and must have instructor approval prior to b beginning. Enrollment by permission only.
May be repeated twice with a maximum of 3 credit hours.

REST 4850 - Study Abroad

Credits: (1-6)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.
May be repeated 5 times with a maximum of 6 credit hours.

REST 4990 - Senior Seminar

Credits: (2)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Moderated discussion and/or laboratory experiences relating to current events in healthcare, legislative, credentialing, and licensing issues as well as emergent technologies and advanced educational opportunities in the field.

RGAF 6000 - Introduction to Regulatory Affairs

Credits: (3)
Typically Taught Fall Semester: *1st Block Online*
Description: This course is designed to present an introduction to the regulations, documents and processes necessary for FDA approval of new medical products. The course covers an overview of critical

scientific, technical, engineering design, manufacturing, and operational drivers for national and global regulatory compliance. This course also discusses the historical context in which the FDA evolved, its structure and relationship with other US regulatory agencies. The course will provide an overview of market clearance pathways for various medical products and devices that ensure the development and delivery of safe and effective healthcare products to consumers.

RGAF 6100 - Biostatistics Applied to Research

Credits: (3)
Typically Taught Fall Semester: *2nd Block Online*
Description: Advanced biostatistics as applied to research. The concepts of populations, samples, distributions, variables, hypothesis formulation and testing, t-test, ANVOA, and chi-square are presented through the lens of translational research. The course includes a detailed exploration of the application and interpretation of data from clinical trials and medical studies. The written and oral communication of study results is also covered.

RGAF 6200 - Regulatory Drugs & Biologics

Credits: (2)
Typically Taught Spring Semester: *1st Block Online*
Description: This course focuses on the development and evaluation of regulatory practices related to drugs and biologics. This course provides an overview of laws and regulations governing development, manufacturing and distribution of drugs and biologic and how they relate to the regulatory affairs strategy. Approaches for integrating regulatory and business needs are reviewed. The role of post-marketing efforts in shaping regulatory strategy are evaluated.
Pre-requisite(s): RGAF 6000.

RGAF 6230 - Regulatory Devices and Diagnostics

Credits: (2)
Typically Taught Spring Semester: *1st Block Online*
Description: An in-depth exploration of the origins and application of regulations relevant to medical devices and diagnostics. Medical device and diagnostic product development is covered through an organizational strategy and regulatory compliance lens. The course analyzes the design and application of clinical trial data related to the medical device and diagnostic regulatory process. Post-marketing strategy and device labeling are also covered.
Pre-requisite(s): RGAF 6000.

RGAF 6250 - Regulatory Clinical Evidence

Credits: (2)
Typically Taught Spring Semester: *2nd Block Online*
Description: The evaluation and assessment of regulatory strategies that include protocol development, study design, post-marketing surveillance, evaluation and, assessment of regulatory submissions. Utilizing clinical trial design, participants will evaluate and assess strategies for achieving regulatory goals. Students are introduced to requirements of planning and conducting clinical trials. Clinical trial

terminology and design are discussed including planning and carrying out a study.
Pre-requisite(s): RGAF 6000

RGAF 6300 - Compliance in Regulatory Affairs

Credits: (3)
Typically Taught Spring Semester: *Full Sem - Online*
Description: This course focuses on regulatory affairs compliance strategies and guidelines. Topics included are regulatory compliance, risk management, bioethics, quality assurance, and required reporting. Students will identify and assess regulatory requirements, policies and guidelines associated with good practice (GXP) regulatory compliance issues. Students are required to critically analyze regulatory compliance issues and develop implementation strategies for ensuring regulatory affairs compliance in medical product manufacturing, development, and marketing. Students will need to demonstrate effective written communication skills required to develop regulatory communications using root cause analysis and corrective and preventive actions (CAPAs).
Pre-requisite(s): RGAF 6000.

RGAF 6500 - Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Description: The internship course will focus on research and application of regulatory issues in the organizational agency of their choice. Application of knowledge and skills of regulatory science through participation in a part or full time internship with a biomedical related industry or agency. Internship competencies will be determined by the student and preceptor based on organization focus and student need. The internship is arranged by the student, faculty, and participating institution by mutual consent.
Pre-requisite(s): RGAF 6000.

RHS 1300 - First Aid: Responding to Emergencies

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *1st Blk*
Typically Taught Spring Semester: *1st Blk*
Course Fee: $35.00
Course Fee Purpose: Alcohol prep pads, gloves, disposable masks, CPR manikins, AED trainers.
Description: Trains the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Heart Association Basic Life Support (BLS) and Heartsaver First Aid OR American Red Cross certification in Adult, Infant and Child CPR with AED and First Aid: Responding to Emergencies.
Cross-listed with HLTH 1300.

RHS 1550 - Introduction to Rehabilitation Sciences

Credits: (2)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This course is designed to introduce students to health care professions that the majority of athletic therapy majors pursue. These health care professions include: athletic training (AT), physical therapy (PT), occupational therapy (OT), physician assistant (PA), and medicine (MD or DO). Through lectures, assignments, and guest speaker presentations, students will be introduced to a variety of health care professions, learn about the application process for various graduate programs, use resources to prepare their graduate program applications, and develop/revise their degree plans for their Bachelor's degree and graduate program prerequisites.

RHS 2175 - Introduction to Sports Medicine

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Presents the duties, functions, and collaboration of sports medicine professionals in the care and supervision of athletes. The course will focus on the prevention, diagnosis, and treatment of common musculoskeletal injuries/illnesses, strength and conditioning of athletes, environmental factors and guidelines, and management and administration of the sports medicine team.

RHS 2300 - Emergency Response

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $64.00
Course Fee Purpose: Alcohol prep pads, gloves, disposable masks, CPR manikins, AED trainers, nasal/oral airways, oxygen tanks and regulators.
Description: Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer.
Cross-listed with HLTH 2300.

RHS 2431 - Taping, Wrapping, Bracing, Padding, and Splinting

Credits: (1)
Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*
Description: This course is designed to give a basic understanding of athletic training taping, wrapping, bracing, padding, and splinting techniques. Students will apply a variety of techniques to support all areas of the body.

RHS 2890 - Introduction to Cooperative Work Experience

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for shadowing experience of a health care professional. The

purpose of this course is to introduce students to the health care industry early in their major by shadowing a health care professional for a minimum of 60 hours within a given semester. Once accepted to the Rehabilitation Sciences (BS) program, students will take the expanded version of this course (RHS 4890), which requires students to complete a full internship instead of a shadowing experience.

Students have the option to request RHS 2890 to be waived as a required course for the Rehabilitation Sciences (BS) program. Students must submit a waiver form to the program director, which verifies that they have previously completed at least 60 hours of shadowing experience with a health care professional. Experiential credit is not an option for this course.

RHS 3080 - Evidence Based Practice for Rehabilitation Sciences

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 2nd Blk, 1st Blk*
Typically Taught Spring Semester: *Full Sem*
Description: This course explores the concepts necessary to ensure future allied health professionals are well prepared to utilize an evidence-based practice approach to treatment. Students will gain familiarity with the major elements of evidenced-based practice, such as developing a clinically-relevant research question, research design, evaluation, statistical analysis, presentation of data, and ethical considerations. This course also provides an overview of descriptive and inferential statistics. Students should have a basic understanding of conducting library and Internet information searches prior to taking this course.
Pre-requisite(s): MATH 1010 or higher; or Math ACT score of 23 or higher.

RHS 3200 - Psychology of Sport, Injury & Rehabilitation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to provide a basic understanding of the psychology of sport, injury, and rehabilitation. Topics covered include: emotion, motivation, psychosocial skills training and application, psychological antecedents of injury, psychology of injury and rehabilitation including individual response and effect on self-identity and physical function, and outcomes topics related to rehabilitation and exercise adherence, eating disorders, alcohol and drug/substance abuse, cultural competence, and research methods within the area of sport, injury, and rehabilitation psychology.

RHS 3300 - Evaluation and Care of Musculoskeletal Injuries: Lower Extremities

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk Online*
Typically Taught Spring Semester: *1st Blk Online*
Course Fee: $15.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific

regulatory requirements. Examples of course fee expenditures for this specific course include tools/instruments such as tape measures, goniometers, pinwheels, reflex hammers, 2-point discriminators, and anatomical models.

Description: Content of this course addresses evaluation techniques and care for musculoskeletal injuries to the trunk and lower extremities. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

Pre-requisite(s): ZOOL 2320 or HTHS 1110.

RHS 3301 - Evaluation and Care of Musculoskeletal Injuries: Upper Extremities

Credits: (3)
Typically Taught Summer Semester: *2nd Blk Online*
Typically Taught Fall Semester: *2nd Blk Online*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include tools/instruments such as goniometers, pinwheels, reflex hammers, 2-point discriminators, bubble inclinometers, penlights, and anatomical models.

Description: Content of this course addresses evaluation techniques and care for musculoskeletal injuries to the head, face and upper extremities. The student must integrate knowledge of anatomical structures, physiology principles and evaluative techniques to provide a basis for critical decision-making in an injury management environment.

Pre-requisite(s): ZOOL 2320 or HTHS 1110.

RHS 3505 - Standardized Patient Training

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this course is to provide experiential learning for WSU health professions students by training them to act as standardized patients for simulated exam experiences in different health professions courses. Students will learn to respond to health professions students with consistent, reliable, professional responses to a variety of simulated scenarios. In this course, students will be introduced to orthopedic evaluation and assessment, the role of a patient, basic acting skills, training on how to portray patients, case simulations, and instructions on how to provide constructive feedback to health professions students.

RHS 3600 - Ergonomics for Health and Safety

Credits: (2)
Description: Examines and analyzes the effects of the workplace on employees and adaptations of the work environment to suit the individual. The focus is on the interaction of work and people, i.e.,

physiological and environmental stresses with the primary intent to establish ways to reduce injuries, accidents, and fatigue and to improve human performance at work.

Pre-requisite(s): ESS 3500 or consent of instructor.

Note: This course is not currently offered.

RHS 4150 - Therapeutic Modalities for Rehabilitation Sciences majors

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: Modality equipment such as massage lotion, Ethyl Chloride spray, ice bags, paraffin wax beads, compression stockinets, electrical stimulation electrodes, biofeedback electrodes, lonto-patch system, ultrasound gel pads, ultrasound gel, treatment towels.
Description: Specifically designed for the pre-professional student, the course will introduce the student to contemporary usage and basic foundation of therapeutic modalities. Through lecture, discussion, and laboratory experience, the scientific basis of musculoskeletal rehabilitation involving therapeutic modalities will be examined. Emphasis will be placed on fundamental concepts of tissue healing and pain control techniques, as well as an introduction to cryo/thermotherapy, massage, traction, ultrasound and electrical stimulation.
Pre-requisite(s): RHS 3300, RHS 3301.
Note: Must be admitted to the Rehabilitation Sciences (formerly Athletic Therapy) program in order to register for this course.

RHS 4250 - Rehabilitation for Rehabilitation Sciences majors

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $45.00
Course Fee Purpose: Goniometers, inclinometers, hand sanitizer, Theratubing, Theraband, pool chemicals.
Description: This course provides an overview of therapeutic exercise as it relates to the rehabilitation process of musculoskeletal injuries for Rehabilitation Sciences majors. This course provides instruction and hands-on techniques in basic therapeutic rehabilitation techniques.
Pre-requisite(s): RHS 3300, RHS 3301, ESS 3450.
Note: Must be admitted to the Rehabilitation Sciences (formerly Athletic Therapy) program in order to register for this course.

RHS 4650 - Management for Rehabilitation Sciences Majors

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online, 1st Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides an overview of the necessary policies, procedures, maintenance, and daily operation of healthcare facilities. Applies principles of facility design and planning, information

management, legal and ethical considerations in healthcare, and professional development as it relates to future healthcare professionals.

RHS 4800 CRE - Individual Projects

Credits: (1-4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A comprehensive study or project in the field of Athletic Training. Hours to be arranged for seniors only.
May be repeated 3 times up to 16 credit hours.

RHS 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title will appear on student's transcript along with the authorized credit.
May be repeated for a total maximum of 6 credit hours.

RHS 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience.
May be repeated 5 times and up to 6 credit hours.
Note: Must be admitted to the Rehabilitation Sciences program to register for this course.

RHS 4999 - Special Topics in Rehabilitation Sciences

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, 2nd Blk Online, 1st Blk, 1st Blk Online*
Typically Taught Fall Semester: *2nd Blk, 2nd Blk Online, 1st Blk, 1st Blk Online*
Typically Taught Spring Semester: *2nd Blk, 2nd Blk Online, 1st Blk, 1st Blk Online*
Description: This course will focus on introducing students to special topics which may include but are not limited to: women's health, instrument assisted soft tissue mobilization, or sacroiliac joint conditions.

SAFE 3610 - Occupational Safety Regulatory and Legal Compliance

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an in-depth exploration of occupational safety regulations and legal requirements. Students will gain a comprehensive understanding of the regulatory framework governing workplace safety, compliance strategies, and the legal implications of non-compliance. The course will cover key legislation, standards, and enforcement agencies, equipping students with the knowledge to

ensure workplace safety and navigate legal challenges.
Pre-requisite(s): OEHS 3520.

SAFE 3620 - Occupational Safety Incident Investigation and Analysis

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course focuses on the systematic process of investigating occupational incidents to identify root causes and contributing factors. Through a combination of theoretical principles and practical applications, students will develop the skills necessary to conduct thorough incident investigations, analyze findings, and propose effective corrective actions. The course also covers reporting requirements, communication strategies, and the integration of incident investigation into an overall safety management system.
Pre-requisite(s): OEHS 3520.
Pre-requisite/Co-requisite: SAFE 3610.

SAFE 3630 - Environmental Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Review of regulatory requirements for practicing Occupational Safety and Health Professionals: Covers various environmental laws and acts including: the Clean Water Act, the Safe Drinking Water Act, and the Clean Air Act. Reviews the Toxic Substances Control Act, the Resource Conservation and Recovery Act, the Superfund law, DOT regulations, and OSHA regulations.

SAFE 3640 - Construction Safety

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Construction workers sustain frequent injuries/deaths at their workplace for multiple reasons. These circumstances occur due to intrinsic and extrinsic causes. While their overall health, diseases, and fatigue level can be considered intrinsic factors, task/s at hand, hazards at the workplace, and lack of/improper use of personal protective equipment (PPE) can be considered extrinsic factors. These injuries/deaths affect the worker and their families, while the employer gets affected due to poor productivity and increased costs, such as medical compensation and hiring replacement workers. Preventing these injuries/deaths is mandatory, starting with recognizing and evaluating the risk factors while making society aware. Therefore, this course is focused on identifying, evaluating, and managing the risk factors related to construction safety.
Pre-requisite/Co-requisite: OEHS 3520.

SAFE 3650 - Fire Safety and Emergency Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Description: This course provides students with the essential knowledge and skills to effectively manage fire safety and emergencies in various settings. Students will explore fire prevention, detection, and suppression techniques, as well as emergency response planning and management. The course integrates theoretical concepts with practical applications, equipping students to assess, plan, and implement strategies to mitigate the impact of fires and emergencies on individuals and property.
Pre-requisite(s): OEHS 3520.

SAFE 3660 - Hazardous Materials Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides a comprehensive understanding of the principles and practices involved in the management of hazardous materials. Students will explore the identification, handling, storage, transportation, and disposal of hazardous materials, with an emphasis on regulatory compliance, risk assessment, and emergency response planning. Through theoretical instruction, case studies, and practical exercises, students will develop the knowledge and skills necessary for effective hazardous materials management in various industries.
Pre-requisite(s): OEHS 3520 and SAFE 3610.

SBS 1050 - Introduction to Social & Behavioral Sciences Bridge

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Description: This is a course designed for high school students and entering freshman students interested in people, politics, society and the environment. It covers an introduction to the disciplines, methods, and programs in social and behavioral sciences and methods, strategies and resources to be successful in college. The course combines traditional lectures and seminars with on- and off-campus activities designed to see the influence of social and behavioral scienes in the real world.

SBS 1100 - Introduction to Social & Behavioral Sciences

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to the disciplines, methods, and programs in social and behavioral sciences. The course also reviews college success resources available to students. The course serves as a starting point for students interested in people, politics, society and the environment but do not know what major they should pursue.
Suggested Requisite(s): FYE 1105 and/or UNIV 2900 recommended as corequisite.

SBS 1550 HU/EDI - Introduction to World Religions

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Introduction to religious studies with a focus on religious literacy; methodologies and theories of religion; and the histories, philosophies, beliefs and practices, and internal diversity of major

world religions including Judaism, Christianity, Islam, Hinduism, Buddhism, and Indigenous traditions. The course also explores the intersections between religion and politics, magic, gender and sexuality, and art.

SBS 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

SBS 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

SBS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

SBS 2950 - SBS Capstone: A Current Events View

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This discussion-based seminar practices applying the concepts, methods and disciplines of the social and behavioral sciences. Students perform evidence-based analysis of current events under the direction of guest lecturers. Students also assist with planning the activities for an upcoming SBS Bridge course. The course also serves as a capstone and assessment experience for 2-year SBS program.
Pre-requisite(s): SBS 1050 or SBS 1100.

SCM 2400 - Fundamentals of Project Management

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Provides practical knowledge and skills for managing a project from inception to completion to meet time, cost, and performance objectives. Prepares students from all backgrounds to successfully perform the role of a project manager in any profit or non-profit context, including business, government, engineering, healthcare, arts, humanities, or education. Topics include management of

project teams, stakeholders, communications, schedule, cost, scope, performance and risk for achieving project success.

SCM 2890 - Cooperative Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established by the SCM program. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

SCM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

SCM 3050 - Operations and Supply Chain Management

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Supply chain management is the value creation engine of every organization. The focus of this course is to acquaint students with the core elements of supply chain management: 1) customer value, 2) collaborative value creation, and 3) systems thinking. The course introduces and defines the three primary functions that compose supply chain activities- 1) purchasing, 2) operations, and 3) logistics-and shows how they need to work together to create the high-quality, low-cost, and innovative products and services that customers expect to find in today's marketplace. Important analytical tools are introduced.
Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080 or MATH 1210; or earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite; or score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Spreadsheet software enables business people to model and analyze quantitative problems in a wide variety of business contexts. This course covers spreadsheet modeling in terms of optimization models for deciding the best set of decisions to meet constraints and performance objectives; simulation models for considering uncertainty in business operations and decisions; and other decision

models and tools. Through conceptual and applied topics, this course will enhance one's problems solving and modeling capabilities as well as Excel spreadsheet skills.

Pre-requisite(s): MIS 2010, QUAN 2600.

SCM 3600 - Logistics & Transportation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course incorporates readings, site visits, and case analysis to convey state-of-the-art and emerging business logistics practices. The focus of this course is on forecasting, inventory management, transportation, distribution and warehousing, with an introduction to contemporary issues in logistics such HADR and sustainability. Development of leading-edge strategies, which promote a firm's ability to differentiate itself in terms of its supply chain performance is emphasized.
Pre-requisite(s): BSAD 2899; SCM 3050.
Pre-requisite/Co-requisite: SCM 3500.

SCM 3700 - Purchasing & Strategic Sourcing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides students an introduction to the supply management discipline, focusing on the development of category management skills and the purchasing process. Companies have always sourced a large percent of their COGS--up to 50-80%. However, today's emphasis on core competencies and increased use of outsourcing makes sourcing even more strategic. Sourcing managers are responsible for managing supplier capacity and capabilities. The course emphasizes costing and relationship management tools. This course builds the foundation for students to pass the Certified Profession in Supply Management (CPSM) exam.
Pre-requisite(s): SCM 3050.

SCM 4100 - Quality Management and Process Improvement

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduces principles and practices for achieving quality, customer satisfaction, and performance excellence. Emphasis on process improvement, problem-solving, variation and statistical thinking, customer and supplier relationships, service quality, employee involvement, project management, and quality management frameworks. Presents tools and methods for analyzing and improving business processes, including Six Sigma, lean, and theory of constraints. This course builds the foundation for students to pass the ASQ Certified Quality Process Analyst exam.
Pre-requisite(s): BSAD 2899; SCM 3050; or Instructor Permission.
Pre-requisite/Co-requisite: QUAN 3610.

SCM 4400 - Global Supply Chain Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Globalization has changed the rules of competition. Globalization also raises complex and controversial issues such as job displacement and worker exploitation. Winning companies now use worldwide resources to meet the needs of global consumers. This course introduces and is built around a scanning model. Students are expected to actively scan, using emerging information to identify inflection points and determine their strategic and tactical implication. From this analysis, strategic objectives are renewed to guide the design of a global supply chain. Effective communication and teamwork are emphasized via the in class activities and projects.
Pre-requisite(s): BSAD 2899 and SCM 3050.

SCM 4500 - Supply Chain Relational Skills

Credits: (3)
Description: This course focuses on developing the relational and communication skills necessary for success as a supply chain professional. Key elements of the course include perspectives on supply chain strategic relationships, managing communication and conflict, building trust and collaboration with work groups and teams, managing change processes, and ethical negotiation, all with emphasis on supply chain contexts. Students build critical skills for developing strategic relationships and effectively communicating information and decisions. The course equips students with practical skills in critical thinking, perspective taking, change management, negotiation, and written and oral communication
Pre-requisite(s): SCM 3050 and SCM 3700.

SCM 4550 - Strategic Supply Chain Management

Credits: (3)
Description: Supply chain management (SCM) is integrative in nature, requiring a systems approach to the design and management of supply chain processes across functions and organizational boundaries. This capstone SCM course provides a summative learning experience in which students integrate and apply their knowledge and skills in simulations, real-world cases, and large-scale data sets. The course emphasizes the conceptual and analytical skills needed to plan, source, make and deliver distinctive customer value in collaboration with supply chain partners. The course also covers current events and emerging topics in today's supply chains.
Pre-requisite(s): SCM 3600 and SCM 3700.
Pre-requisite/Co-requisite: SCM 4100.

SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed around the case analysis methodology and has the explicit goal of preparing student teams for participation in specific competitive supply chain case competitions (both regionally and nationally). Preparation time will be extensive and students must possess an advanced level of SCM mastery prior to enrollment in this class. Class meetings will be scheduled with the students throughout the semester for presentation and preparation. Please see the instructor for information on

enrollment eligibility. Credit/no credit grading.
Pre-requisite(s): SCM 3050, instructor approval.

SCM 4800 - Independent Research

Credits: (1-3)
Description: Independent undergraduate research under the direction of a faculty member.
Pre-requisite(s): Advanced Standing; Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

SCM 4805 - Directed Study

Credits: (1-3)
Description: Independent readings and learning activities on advanced special topics under the direction of a faculty mentor.
Pre-requisite(s): Advanced Standing; Instructor Approval.

SCM 4840 - Operations & Supply Chain Industry Projects

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Early in their careers, many choose to work for a management consulting company or get involved in rotations within a company. These jobs and programs expose the worker to a wide variety of job types and functions and prepare the worker for whatever opportunities the future may bring. In this course, students are exposed to operations and supply chain management consulting projects typical of what they could expect in a full-time consulting position or in a company's early-career leadership rotation program.
Pre-requisite(s): SCM 3500.
Co-Requisite(s): SCM 3600 and SCM 3700.
May be repeated up to two times for a total of 6 hours of credit.

SCM 4850 - Supply Chain Management Study Abroad

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed for students who wish to explore supply chain management theory and practice in countries other than the U.S. Students will study global supply chain management as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
Can be repeated once up to 6 credits.

SCM 4860 INT - Supply Chain Management Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through operations management and logistics courses.

Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

SCM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

SE 6010 - Foundation of Systems Engineering

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: The Foundations of Systems Engineering course is an introductory overview of the systems engineering perspective and is presented to set the conceptual and practical framework of the entire systems engineering graduate program. The course covers the foundational components of systems engineering, from the concept development stage through the process steps of engineering development. Several issues related to post-development, disposal, and special topics areas are also presented.

SE 6020 - Engineering Project and Program Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: The Engineering Project and Program Management course provides participants the opportunity to gain skills and experience applying the framework, processes, and knowledge areas of the P*roject Management Body of Knowledge (PMBOK)* as defined by the Project Management Institute (PMI). Students apply methods and tools through in-class lab work, deliverables, and portfolio generation.
Pre-requisite(s): SE 6130 and SE 6380.

SE 6120 - System Design and Operational Analysis

Credits: (3)
Typically Taught Summer Semester: *Full Sem-Online*
Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: This course targets systems engineering professionals. It will prepare you to take the International Requirements Engineering Board's certification exam, to elicit and analyze requirements, document and validate requirements, create UML and SysML use cases, manage requirements, and demonstrate systems requirements for a development project.
Suggested Requisite(s): Calculus and Basic Statistics.

SE 6130 - Overview of Systems Engineering Processes

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: An overview of system life-cycle design processes and the associated analysis techniques. Approaches to system reliability, maintainability and failure analysis are also explored.
Pre-requisite(s): SE 6010 and SE 6370.

SE 6140 - Design for Operational Feasibility

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: This course will introduce the application of engineering and management efforts to maximize the likelihood that the resulting system design will be operationally feasible and perform as intended in an effective and efficient manner. The objective of the course is to study the characteristics that are known to have a significant impact on the success of a system and the customer's need. Topics include Design for reliability, maintainability, human factors, logistics, producibility, and affordability.
Pre-requisite(s): SE 6130 and SE 6380.

SE 6150 - Research Methods and Experimentation

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: The course introduces the participant to research methods and experimentation, including surveys, case studies, stratification, comparative experiments, regression, and design of experiments. The course emphasizes practical decision-making processes, both intuitive and logical; qualitative and

quantitative. A review of practical descriptive, comparative, and relational statistics is leveraged to explore and apply advanced methods.

SE 6260 - Reliability Engineering and Risk Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: An introduction to reliability engineering and risk analysis, including its role in Systems Engineering. Approaches to risk identification, quantification, and reduction will be discussed. Tools, techniques, and methodologies for use in system design, reliability engineering, and project management are emphasized.
Pre-requisite(s): MATH 1040 or MFET 2410 or MATH 3410; and MATH 1210.

SE 6320 - Simulation Modeling and Engineering Optimization: Methods/Applications

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: This course will introduce methods of optimization, simulation, and analysis for a variety of complex systems -including linear optimization,non-linear optimization,and data modeling. It will also introduce business analytics, the types of business analytics and their uses and advantages. Students will apply business analytics and modeling techniques to improve design for feasibility concepts of a complex system. Software used will include SQL, Visual Basic, Excel, and similar languages.
Pre-requisite(s): SE 6140.

SE 6350 - Organizational Systems

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: Organizational Systems provides engineers with organizational-level skills to recognize, develop, analyze, improve, and sustain organizational subsystems. The course blends the most useful mental models from organizational theory and design, industrial psychology, and organizational behavior. Participants complete multiple applied deliverables to connect theory and application. Open systems thinking, structural design, internal design elements, and managing dynamic processes frame the content.

SE 6360 - System Logistics: Ensuring a System of Systems Approach

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *2nd Block Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: System of systems is a collection of task-oriented or dedicated systems that pool their resources and capabilities together to create a new, more complex system which offers more functionality and performance than simply the sum of the constituent systems. This course will introduce the subsequent sustaining maintenance & support of the system throughout its entire life cycle, including end of life/disposal. It will also include different DoD tailorable concepts to effectively manage and field product. Topics include: Reliability Growth, Initial Contractor Support (ICS), and Performance-Based Logistics (PBL)Sytems of Systems (SoS) or Federation of Systems (FoS).
Suggested Requisite(s): Calculus and Basic Statistics.

SE 6370 - Requirement Engineering

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: This course targets systems engineering professional. It will prepare you to take the International Requirements Engineering Board's certification exam, to elicit and analyze requirements, document and validate requirements, create UML and SysML use cases, manage requirements, and demonstrate systems requirements for a development project.

SE 6380 - Model Based Systems Engineering (MBSE) and SysML

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $130.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: Introduction to formal system architecture methods using the Systems Modeling Language (SysML) and Model-Based Systems Engineering (MBSE) with detailed case studies. Students will apply the methodology to build architecture models, analyze internal and external interactions, and plan appropriate approaches for implementation. Topics include digital engineering, iterative MBSE techniques, model structure interactions and behaviors based on requirements and constraints, and creating key diagrams (such as use-case, sequence, and activity)
Pre-requisite(s): SE 6010 and SE 6370.

SE 6390 - Model Based Systems Engineering (MBSE) II

Credits: (3)
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $130.00
Course Fee Purpose: Per class registration, allocated partially to computer lab refurbishment, lab aids and software licenses.
Description: Students will apply advanced enterprise and system modeling techniques, using state-of-the-art modeling tools, methodologies, architecture frameworks, and languages as well as performing model-based reviews and audits, in the context of enterprises and systems from both supplier and acquirer perspectives.
Pre-requisite(s): SE 6380 or equivalent.

SE 6500 - Systems Engineering Project Overview

Credits: (1)
Typically Taught Fall Semester: *Full Sem-Online*
Description: This course will provide the foundation for the senior systems engineering project course. This course will include the project plan (mission, vision, values, strategy, and goals) and charter for the selected complex system
Pre-requisite(s): SE 6010 and SE 6020 and SE 6130 and SE 6140 and SE 6370.

SE 6510 - Design Project

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $25.00
Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: MSSE Students are required to complete a system engineering design project that demonstrates proficiency in research, design, analysis, implementation, testing and documentation. The project is an in-depth study selected by the student or course instructor to showcase the student's skills and knowledge.
Pre-requisite(s): SE 6500.

SE 6520 - System Design and Operational Analysis

Credits: (3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Course Fee: $25.00

Course Fee Purpose: Course fees for this course are designed to cover computer labs, paper usage, software, equipment maintenance and replacement, supplies and instructional resources.
Description: This course targets systems engineering professionals. It will prepare you to take the International Requirements Engineering Board's certification exam, to elicit and analyze requirements, document and validate requirements, create UML and SysML use cases, manage requirements, and demonstrate systems requirements for a development project.
Suggested Requisite(s): Calculus and Basic Statistics.

SE 6900 - Special Topics

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Systems Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic.
Pre-requisite(s): Permission from the department.
May be repeated 10 times and up to 12 credit hours.

SE 6910 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem - Online*
Typically Taught Fall Semester: *Full Sem - Online*
Typically Taught Spring Semester: *Full Sem - Online*
Description: Students taking this course will receive credit for approved, mentored studies in the Master of Science in Systems Engineering (MSSE). A maximum of three credits may be counted toward graduation.
Pre-requisite(s): Permission from the department.

SOC 1010 SS/EDI - Introduction to Sociology

Credits: (3)
Typically Taught Summer Semester: *1st Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: An introduction to the study of Sociology through the concepts and principles used to understand and evaluate society. It focuses on all aspects of society: culture; social interaction; institutions; group processes; deviance and social control; stratification, diversity, and inequality based on race, ethnicity, class, gender, etc.; and social stability and change.

SOC 1020 SS/EDI - Contemporary Social Issues

Credits: (3)
Typically Taught Summer Semester: *2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: A study of major social problems in contemporary society, including issues of age, gender, family, race, ethnicity, wealth and poverty, politics, education, public safety, health care, substance abuse, and environment. Special emphasis is given to these issues and their consequences for today's global and diverse society.

SOC 2370 - Gender and Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course examines gender as an organizing principle of social life and the ways in which gender influences individuals' identities, behaviors, and life experiences. Students will study gender within a variety of contexts, such as the workplace, family, politics, athletics, education, health, media, and religion. Attention will also be given to sociological theories of gender, gender socialization, and the intersection of gender, race, class, and sexuality.

SOC 2400 SS/EDI - Introduction to Ethnic Studies

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem - Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course is an introduction to the study of race and ethnicity, especially through the experiences of ethnic minority groups in the United States. We will explore the main perspectives, theories, findings, and other features, focusing especially on how social systems define and shape racial understandings and outcomes as well as continuing efforts to dismantle racial oppression.

SOC 2600 - Families in Society

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: The course analyzes family arrangements and structures, changes in such arrangements over time, and contemporary issues facing families. Emphasis is placed on variations in family experiences with regard to race, gender, social class, and sexual orientation. Students examine the relationship between families and other social institutions such as politics, religion, and the economy.

SOC 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

SOC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SOC 3000 - Self and Society

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: Sociological Social Psychology is the study of individual, group, and social behavior through analysis of the relationship between individuals and social institutions. Individuals actively create social structure while they are simultaneously shaped by it. Students will analyze how social interaction, processes, roles, and statuses are created and maintained by individuals. Students will also analyze how these same processes, roles, and statuses shape their individual behavior. Social Psychological theories and methodologies are also addressed.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3010 - Social Inequality

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: The study of social stratification and inequality in the United States and globally. The course focuses on economic class and status groups, such as gender, race and ethnicity, age, sexuality, and physical ability.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3250 - Deviance and Social Control

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Introduces the student to the various sociological concepts of deviance and social control. Deviance and social control are examined in their positive and negative forms. The benefits and contributions as well as the consequences and disruptions of these forms are considered in the context of the formal and informal socialization processes and the internalization of social norms.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3270 - Criminology

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: Study of the nature, extent, causes, and treatment of crime.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3300 SUS - Environment and Society

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: An in-depth study of societal-environmental interactions including population, technology and organization impacts of human societies on the physical environment, and environmental impacts on human behavior and social organization.

SOC 3400 - Social Change

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: The factors which change society and how society changes, emphasizing technological innovations and its implications, social movements, and the role of individuals.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3410 - Sociology of Religion

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Examination of religion and religious activities globally from the theoretical perspectives of Sociology.

SOC 3420 - Sociology of Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: Analysis of the structure and function of education as a central social institution in contemporary society.

SOC 3430 - Medicine and Healthcare in Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: Utilizes the Sociological perspective to explore the Institution of Medicine and the Medical Healthcare Delivery System; its function as a social institution and its capability, accessibility, and the related issues of providing Healthcare. The various organizational system structures, and their economic and political dimensions are also examined. Further emphasis is placed on the various professional roles, supporting roles, and patient behaviors. Additional focus is placed upon selected international comparisons, as well as medical research, ethical considerations, and international health issues.

SOC 3500 - Sociological Theories

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An overview of classical and contemporary sociological theories. Includes the the classical theory "canon" (Marx, Weber, and Durkheim) which forms the groundwork for sociological thinking and sociology as a discipline. Contemporary theories include the macro theories of structural functionalism and conflict theory and the micro level, interactional theories of everyday life. Course also

introduces theorizing on gender and race-ethnicity as well as ideas from the postmodern and globalization theorists.

Pre-requisite(s): SOC 1010 for majors/minor or SOC 1020 for minors only.

SOC 3600 - Social Statistics

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Introduction to descriptive and inferential statistical analysis techniques and the presentation of results.
Pre-requisite(s): MATH 1010 or equivalent.

SOC 3660 - Sociological Research

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Examines the scientific foundations of Sociology and methods of Sociological Research.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 3840 - Cities and Urban Life

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: In-depth analysis of the urbanization, modernization, and development of the system of cities. The relationship between cities and culture, mental illness, and social problems are examined.

SOC 3850 - Race & Ethnicity

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Examines the social construction of race and ethnicity and the conditions of racial and ethnic groups in the United States and globally, based on statistical and ethnographic data. Includes a survey of theories of the origins, causes, and dynamics of ethnic and race relations.

SOC 4050 - Sociology of Work and Organizations

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem, Full Sem-ONL*
Typically Taught Spring Semester: *Full Sem. Full Sem-ONL*
Description: Work and organizations are two prominent features in modern societies. Our occupations in the organizations are our social identities for most of the individuals. Success or failure at work in the organizations reflects individual performance, but also influenced by coworkers, social interaction, set of skills, values, and bureaucratic structures of organizations. Many aspects of working life in organizations

are also shaped by the structure of a society, such as age composition, racial, ethnic, gender and class division; and the distribution of power and authority in organizations. Technology and even social networking impact how work is done and how to and who get a job. This course will make these connections between micro and macro factors of work and organizations.
Pre-requisite(s): SOC 1010.

SOC 4220 - Life in a Consumer Society

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Description: Examination of consumption, consumerism, and the increasing commercialization of contemporary life. Students study the history of consumerism and advertising; explore how consumer culture influences their own consumption choices; and analyze the relationship between consumerism and social inequality.

SOC 4270 - Law and Society

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Description: A study of the interchange between law and society, where society creates the law, yet law regulates society.
Pre-requisite(s): SOC 1010 or SOC 1020.

SOC 4300 - Qualitative Methods

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course provides students with a practical introduction to qualitative research methods, focusing on ethnography, interviewing, and content analysis. Framing qualitative research in the context of contemporary theory and ethical concerns, it provides hands-on exposure to qualitative research's unique logic, design, practice, analysis, and writing in a variety of research and applied contexts.
Pre-requisite(s): Junior or Senior standing.

SOC 4410 SUS - Sociology of Globalization

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: Study of economic, political, and cultural globalization in the late 20th and early 21st century. The course examines the history, theories and critiques of globalization, the key actors in global political-economy, the institutions and events that shape global processes, and globalization's impact on local economies, politics, culture, and the natural environment.

SOC 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

SOC 4830 INT - Readings and/or Projects

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Individual readings and/or projects for sociology majors or minors. (Maximum of 5 hours applied toward graduation, 3 of which can be applied toward the sociology major or minor.)
Pre-requisite(s): SOC 1010, senior standing, permission of instructor, approval of program coordinator.
May be repeated 4 times up to 5 credit hours.

SOC 4890 INT - Internship

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Qualified juniors and seniors may apply for internships among federal, state and private agencies. Internships are anticipated to provide the student with both practical and research experiences. A student may complete up to 9 hours, but not more than 6 hours in any one type of internship. A maximum of 3 hours may be applied towards the sociological major or sociological minor.
Pre-requisite(s): SOC 1010, junior or senior status, approval of program coordinator.
May be repeated 8 times up to 9 credit hours.

SOC 4900 CRE - Senior Capstone Course

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A course designed to organize all of the knowledge that the student has gleaned from his/her major into an integrated whole. This course will help the student make relevant the knowledge that he/she has learned. This will be accomplished by having the student write a senior thesis as well as attend lectures.
Pre-requisite(s): SOC 1010, SOC 3600, SOC 3660, senior standing.

SOC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

SOC 4930 INT - Community Engaged Capstone

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A course designed to organize all of the knowledge that the student has gleaned from his/her major into an integrated whole. This course will help the student make relevant the knowledge that he/she has learned. This will be accomplished by having the student prepare a project based on a previously completed internship as well as attend lectures. Prerequisite: SOC 1010, SOC 3600, SOC 3660, 3 credit hours minimum of SOC 4890, senior standing.

SOC 4990 - Seminar in Sociology

Credits: (3)
Variable Title
Typically Taught Spring Semester: *Full Sem*
Description: An advanced course allowing in-depth study of selected topics in Sociology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student transcript.
Pre-requisite(s): SOC 1010 or consent of instructor.
May be repeated 3 times up to 9 credit hours.
Note: (Formerly Contemporary Issues.)

SPAN 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.
Suggested Requisite(s): May be repeated for credit under different titles.
Course not currently being offered.

SPAN 1010 - First Semester Spanish

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

SPAN 1020 - Second Semester Spanish

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of SPAN 1010. Basic language skills including listening, speaking, reading, writing and culture.

SPAN 1700 - Conversational Skills

Credits: (1-3)
Course Fee: $8.00
Course Fee Purpose: Course fees for World Languages & Cultures courses are designed to cover the costs of classroom equipment maintenance and replacement such as desktops, projectors, projector screens, and software, including the tutoring suite (EH 244) and the language lab (EH 408); consumable materials and supplies; and support for student tutors, and online instructional resources.
Description: Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

SPAN 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.
May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

SPAN 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

SPAN 2010 - Third Semester Spanish

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of FL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

SPAN 2020 HU - Fourth Semester Spanish

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of SPAN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

SPAN 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of FL 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

SPAN 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

SPAN 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.
May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

SPAN 2851 HU - Study Abroad

Credits: (3)

Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply. Note: Check with Department for course availability.

SPAN 2852 - Study Abroad

Credits: (1-3)

Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply. Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

SPAN 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

SPAN 2960 - Introduction to World Languages and Cultures

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Required of all majors during their first year. This course provides guidance to help the student successfully navigate their academic career in WSU Department of World Languages & Cultures and its programs. It provides an overview of what it is like to study a second language, as well as an overview of the U.S. language industry and language careers. The course is also designed to help students develop a clearer focus on their educational and occupational goals, as well as creating a sense of belonging in our department, college, and community.
Co-Requisite(s): SPAN 3060.

SPAN 3000 - Proficiency Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those

who have acquired proficiency through residence in the target language community are not eligible to take this class.

SPAN 3060 - Grammar & Composition

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

SPAN 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): SPAN 2020 or AP exam with a score of 3 or better

SPAN 3160 - Introduction to Literature

Credits: (3)
Typically Taught Summer Semester: *1st Block*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Pre-requisite(s): SPAN 3060 Grammar and Composition

Note: Check with department for course availability.

SPAN 3220 - Phonetics and Phonology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

SPAN 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in SPAN 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

SPAN 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

SPAN 3360 - Advanced Grammar

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.

SPAN 3540 - Latin American Environment and Cultures

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: In order to provide an interdisciplinary introduction to Latin America, this course presents the region's history, its peoples, their culture and their political and natural environments. Other content to be discussed includes issues of migration, US Latinos and the region's relationship with the US.

SPAN 3550 GLB - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

SPAN 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

SPAN 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

SPAN 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

SPAN 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

SPAN 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with FL 3160. May be repeated under different titles.

SPAN 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

SPAN 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.

SPAN 3650 - Literature Periods

Credits: (3)
Variable Title

Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with SPAN 3160.

SPAN 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

Suggested Requisite(s): May be taken concurrently with SPAN 3160.

Note: Check with Department for course availability.

SPAN 3680 - Literature: Film

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

SPAN 3690 - Special Topics in Literature

Credits: (1-3)
Variable Title
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

Suggested Requisite(s): May be taken concurrently with SPAN 3160.

Note: Check with Department for course availability.

SPAN 3710 - Business Language I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

SPAN 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

SPAN 3720 CEL - Language for Specific Purposes I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

SPAN 3730 CEL - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

SPAN 3740 - Translation I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

SPAN 3750 - Healthcare Interpreting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: Introduction to techniques and skills needed for bilingual interpretation in the

healthcare professional setting. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethics, standards of practice, and terminology for healthcare interpreters are explored.

SPAN 3760 - Special Topics in Translation

Credits: (3)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation and Translation Studies.

SPAN 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

SPAN 4190 - Foreign Language Journal

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

SPAN 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.

SPAN 4630 - Survey of Literature II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.

SPAN 4690 - Special Topics in Literature

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High. Prerequisite: SPAN 3160 May be repeated up to 10 times under different titles.

SPAN 4740 - Translation II

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

SPAN 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.
Note: Check with Department for course availability.

SPAN 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

SPAN 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

SPAN 4960 - Senior Project

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

SPAN 6740 - Advanced Principles of Translation Theory and Practice

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course studies the theoretical foundations and practices of translation over the past twenty centuries. The course examines the major ideas that have informed the practice of translation, as well as the notions of originality, authorship, and linguistic and cultural boundaries.

SPAN 6750 - Advanced Healthcare Interpreting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course provides an advanced focus on the techniques and skills needed for bilingual interpretation in the healthcare professional setting, including specialized medical interpreting sub-fields and their respective terminologies. The course studies the code of ethics and the standards of practice, as well as an overview and history of the interpreting industry and work of interpreters, certification, and the variety of consumers and modalities with which interpreters work.

SPAN 6760 - Advanced Topics in Translation

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This is a graduate specialized course that offers advanced studies in selected topics, current developments or recent trends in the fields of Translation and Translation Studies.

SPAN 6920 - Advanced Translation Workshop

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an advanced focus on the practice and evaluation of translation. Students will get hands-on experience with translation strategies and techniques, different text types, diverse genres and topics, and post-editing procedures. Students will complete interlingual translation exercises workshopped in small groups and will develop quality control competencies through peer reviews.

SW 1010 SS CEL - Introduction to Generalist Social Work

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*
Typically Taught Spring Semester: *Full Sem, 1st Blk, Online*
Description: A generalist introduction to the relationships between social systems (individuals, groups, and communities) and the social welfare networks which impact them, including the role of the social work profession. Open to all Weber State University students.

SW 2100 SS - Human Behavior and the Social Environment I

Credits: (3)
Typically Taught Summer Semester: *1st Blk Online*
Typically Taught Fall Semester: *Full Sem, 2nd Blk, Online*
Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*
Description: This is the first course in the Human Behavior and the Social Environment sequence. It identifies the relationships between human developmental stages (from conception to death) and the problems associated with environmental interactions. Systems and theory are examined in the biological, psychological, and sociological arenas.
Pre-requisite(s): (It is recommended for Social Work Majors that SW 1010 be taken before or concurrently with SW 2100. It is also suggested that ZOOL 1020 be taken before or concurrently with SW 2100.)

SW 2200 SS/EDI - Issues in Diversity

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A study of diversity among individuals, groups, communities, and of issues social workers will need to understand when interfacing with diverse populations.

SW 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

SW 3000 - Death and Dying

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An in-depth study of death, death-related issues and social institutions and practices dealing with death in American society, with special emphasis on the social processes surrounding death and constructive responses to death and dying.
Cross-listed with GERT 3000.

SW 3100 - Human Behavior and the Social Environment II

Credits: (2)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This second course in the Human Behavior and the Social Environment sequence is designed to present basic principles and fundamental concepts necessary for acquiring and organizing knowledge for practice with individuals, families, groups, organizations, and communities and on the interaction among these systems. Alternative paradigms on human behavior and the social environment are also explored.
Pre-requisite(s): SW 1010, SW 2100 and formal admittance to the Social Work Program.

SW 3120 - Aging: Adaptation and Behavior

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes.
Cross-listed with GERT 3120.

SW 3200 - Child and Family Welfare

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A historical and contemporary examination of child and family welfare issues, and social work intervention strategies.
Pre-requisite(s): SW 1010.

SW 3320 - Ethnicity and Older Women in the American Society

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: The importance of special populations (ethnic, racial and women) as they relate to the aging process.
Cross-listed with GERT 3320.

SW 3500 - Social Welfare & Gerontological Policy Development and Service

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The history, mission, philosophy and human service aspects used in the development of social work/gerontology as a profession will be covered. Examples of social, public and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobby, funding and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of

processes and policy will be covered.

Pre-requisite(s): SW 1010 or GERT 1010. (SW/GERT 3500 must be completed before entering Field Practice.)

SW 3600 - Social Statistics

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, 1st Blk, Online*
Typically Taught Spring Semester: *Full Sem, 2nd Blk, Online*
Description: Introduction to analysis and presentation of data.
Pre-requisite(s): Meet WSU Quantitative Literacy requirement.
Cross-listed with GERT 3600.

SW 3700 - Social Work Research

Credits: (3)
Typically Taught Fall Semester: *Full Sem, 2nd blk*
Typically Taught Spring Semester: *Full Sem, 1st Blk*
Description: Social work research and its relationship to social work theory and practice. The class will include content on qualitative, quantitative and single system research methodologies; analysis of data, including statistical procedures; systematic evaluation of practice; analysis and evaluation of theoretical bases, research questions, methodologies, statistical procedures, and conclusions of research reports; and relevant technological advances. The course will also identify how the research curriculum contributes to the student's use of scientific knowledge for practice.
Pre-requisite(s): SW 1010. (Must be completed before entering SW 4861.) Recommended prerequisite: completion of social statistics class.

SW 3800 - Writing in Social Work

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to help students develop and sharpen professional writing skills and become more effective in various forms of written communication in social work and the broader social welfare delivery system. The course will offer an in-depth overview of APA writing style guidelines and apply these, as appropriate, in the preparation of written documents common in professional practice in social and behavioral sciences.
Pre-requisite(s): University Composition (ENGL 2010 or equivalent).
Suggested Requisite(s): (It is recommended that this course be taken concurrently with SW 3700 and/or SW 4860.)

SW 3900 - Social Work Methods, Values, and Ethics

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An ecological system and generalist approach to social work practice methods. Content is

germane to various systems and subsystems typically implicated in problems encountered by social workers. A study of values and ethics will assist the social worker to understand the proprieties of professional practice.

Pre-requisite(s): SW 1010, SW 2100, SW 2200 and formal admittance to the social work program. (May be taken prior to or concurrently with SW 3910.)

SW 3910 - Social Work Practice I

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An intensive knowledge-based generalist course concentrating on micro social work intervention skills combining lecture and hands-on experiences.
Pre-requisite(s): Formal admittance to the social work program.
Suggested Requisite(s): (May be taken prior to or concurrently with SW 3900.)

SW 3920 - Social Work Practice II

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A generalist course directed at understanding and demonstrating the principles, concepts and techniques of planned change in mezzo settings including families and small groups.
Pre-requisite(s): SW 3910.
Co-Requisite(s): SW 3930 and SW 4860.

SW 3930 - Social Work Practice III

Credits: (3)
Typically Taught Summer Semester: *2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A generalist course designed to illustrate the principles, concepts and techniques of planned change in macro settings including institutions, organizations, and communities.
Co-Requisite(s): Must be taken concurrently with SW 3920 and SW 4860.

SW 4140 - Perspectives on Drug Use and Substance Abuse

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course examines drug use and substance abuse across the lifespan and addresses issues such as prevention, treatment, and public policy as they affect and relate to individuals, groups, families, organizations, and communities. Course material draws on current research, theory, and practice experience.

SW 4150 - DSM-5

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This elective course is designed to familiarize the student with the Diagnostic Statistical Manual of Mental Disorders (DSM-5 classification). The DSM-5 provides the practitioner with a systematic diagnostic tool for practice and research.

SW 4220 - Societal Responses to Aging

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will presented.
Cross-listed with GERT 4220.

SW 4240 - Introduction to TeleMental-Health

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course explores technology-based mental health, substance abuse treatment, and social service delivery. The course addresses the topic broadly, covering topics such as online tools and technologies, professional ethics, legal considerations, diversity and access, quality assurance, etc. The purpose is to introduce students to the current status and future outlook of web-based mental health and social service delivery.

SW 4250 - Medical Social Work

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This elective course explores the process and dynamics of the provision of social work services within the medical service delivery system.

SW 4265 - Crisis Intervention and Trauma

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to prepare students to develop assessment, diagnostic, and evidenced-based interventions to assist those in critical need during and after a crisis or trauma. A crisis is defined as an event that exceeds and overwhelms an individual's coping skills to the point where equilibrium is disrupted. Successful completion of this course qualifies for the Crisis Worker Certificate through the state of Utah.
Pre-requisite(s): Junior or senior status and at least one of the following: CHF 1500, GERT 1010, HLTH 1030, NRSG 2200, PSY 1010, SOC 1010, SW 1010; OR instructor permission.

SW 4500 - Interventions for Populations at Risk

Credits: (3)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: A course designed to study populations at risk with an emphasis on women and people of color. Interventions to alleviate conditions of human suffering are stressed.
Pre-requisite(s): SW 3910, SW 4860.

SW 4600 - Social Work in Special Settings

Credits: (2-4)
Variable Title
Description: This elective course is designed to accommodate special topic areas in Social Work practice. May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

SW 4650 - Retirement: Adjustment/Planning

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will presented.
Cross-listed with GERT 4650.

SW 4800 - Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This elective course allows for supervised projects and primary research in various areas of social work. Limited to senior students.
Pre-requisite(s): Consent of department chair.
May be repeated up to 2 times for a maximum of 3 credits.
Note: Check with department for course availability.

SW 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

SW 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This elective course is an individual readings for seniors who are majoring in social work. Permission must be obtained from the instructor. Students are required to complete a minimum of 1000 pages of selected readings per class hour requested for credit.
Pre-requisite(s): Consent of department chair.
May be repeated up to 2 times for a maximum of 3 credits.
Note: Check with department for course availability.

SW 4850 - Social Work Study Abroad

Credits: (1-4)
Description: The purpose of this course is to provide opportunities for undergraduate students in social work to experience study abroad or study away programs that are designed to explore issues relevant to undergraduate-level social work theory and practice with individuals, families, groups, communities, and organizations.
Pre-requisite(s): SW 1010 or instructor approval.

SW 4860 INT - Social Service Field Experience I

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This field practice course requires a minimum of 200 hours of supervised field service in an approved social service agency. The emphasis is to include micro, mezzo, and macro practice opportunities.
Pre-requisite(s): SW 2200, SW 3100, SW 3200, SW 3500, SW 3900 and SW 3910. Formal admittance to Field Experience required.
Suggested Requisite(s): (Must be taken concurrently with SW 3920 and SW 3930.)

SW 4861 INT - Social Service Field Experience II

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This field practice course requires a minimum of 200 hours of supervised field service in an approved social service agency. The emphasis is to include micro, mezzo, and macro practice opportunities.
Pre-requisite(s): SW 3700, SW 4860, SW/GERT 3600 (or equivalent).
Co-Requisite(s): (To be taken concurrently with SW 4990).

SW 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed. Please check with the department for availability.

SW 4990 - Social Work Senior Seminar

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course requires preparation and discussion of social work concepts and topics, and information and techniques in obtaining a job and selecting a graduate school.
Pre-requisite(s): SW 4860. (Must be taken concurrently with SW 4861.)

SW 5010 - Professional Development: Human Development in the Social Environment

Credits: (3)
Description: This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. The course explores human development in the context of the broader social environment. It identifies the relationship between human developmental stages (from conception to death) and the problems associated with environmental interactions. Systems and theory are examined in the biological, psychological, sociological, and spiritual arenas. *Credit/No credit.*

Note: This course is offered as needed. Please check with the department for availability.

SW 5020 - Professional Development: Social Welfare Policy

Credits: (3)
Typically Taught Spring Semester: *1st Blk*
Description: This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. The history, mission, philosophy and human service aspects used in the development of social welfare policy will be covered. Examples of social, public, and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobbying, funding, and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of processes and policy will be covered. *Credit/No credit*.

SW 5030 - Professional Development: Social Work Ethics and Practice Methods

Credits: (3)
Typically Taught Spring Semester: *2nd Blk*
Description: This professional development course is designed for non-social work majors who have or wish to have experience in the delivery of social services. Using an ecological and generalist approach to social work practice at the individual, family, group, organization, and community levels, this course

provides training in a planned client change process and considers social work roles at various levels. A significant focus of this course is the study of the application of key values and ethical principles, as defined by the National Association of Social Workers (NASW), to professional practice and the resolution of ethical dilemmas. The course also includes content on the evaluation of practice and programs. *Credit/No credit.*

THEA 1013 CA - Introduction to Theatre

Credits: (3)
Typically Taught Summer Semester: *Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An introduction to live theatre and drama and the creative heritage of theatre. Students will develop critical awareness of dramatic theory and performance practice through reading and evaluating historical and contemporary drama, and through applied creative activities. Students are expected to attend theatre performances outside of regularly scheduled class time. Note: Theatre majors are required to enroll in the face-to-face class, not the online section.

THEA 1023 CA - Introduction to Film

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Examination and analysis of film and film techniques. Students will develop critical awareness of film as an artistic, social, and cultural phenomenon. Students may be required to attend film screenings outside of the regularly scheduled class time.
Note: A lab fee is required for this class.

THEA 1030 - Voice and Movement for the Actor

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Natural resources of the human voice and body are studied as artistic resources for the performing artist. The course is designed to examine both the process and products of vocal and physical dynamics. The goal of this course is to integrate vocal and physical skills into the working process of the actor.
Pre-requisite(s): THEA 1033. (Theatre majors only).

THEA 1033 CA - Introduction to Acting

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: This is an introductory class where students learn basic acting skills through class participation in improvisation, monologue work, and scene study. Students learn a basic understanding of theories and methodologies. Skills demonstrated in areas of body movement, diction, observation, imagination and "action". (For non-theatre majors).
Note: Note: Theatre majors are strongly encouraged to enroll in the "majors only section" offered spring semester and concurrently enroll in THEA 1713.

THEA 1043 CA - Introduction to American Musical Theatre

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An introduction to American Musical Theatre, its history and creative elements. Students will develop critical awareness of the differences between traditional and musical theatre by becoming actively involved in reading, observing, and analyzing musical theatre.
Note: Note: Musical Theatre majors are strongly encouraged to enroll in this class fall semester.

THEA 1051 - Freshman (New Student) Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An introduction to the Theatre Arts Area devoted to the needs of incoming majors, including: faculty and staff introductions and theatrical personnel responsibilities, audition notices and practices, production and Practicum assignments, and opportunities available within the facility. Includes detailed academic advice for majors and minors, and practical methods of library research for theatre topics at WSU.

THEA 1053 - Introduction to Technical Production

Credits: (3)
Description: An introduction to the production components of live theatre in which students will develop an awareness of technical aspects including scenery, lighting, costume, properties and sound. Students

are expected to attend theatre performances outside of regularly scheduled class time. This course is recommended for non-theatre majors and minors.

THEA 1063 - Theatre Foundations

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An introduction to live theatre and drama and the creative heritage of theatre. Students will develop critical awareness of dramatic theory and performance practice through reading and evaluating historical and contemporary drama, and through applied creative activities. This course serves as an introduction to the Theatre area of the Department of Performing Arts, the requirements, and the curriculum. Students are expected to attend theatre performances outside of regularly scheduled class time.

THEA 1075 - Class Voice for Musical Theatre

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: This course will serve as a preparation for private vocal instruction, departmental production auditions, and the application audition in the musical theatre program. While all theatre majors are welcome to take the course, it's geared specifically for incoming freshman musical theatre applicants. The instruction will cover basic singing technique and an introduction to acting a musical theatre song.
Pre-requisite(s): Must be a theatre major or minor.
May be repeated once up to 2 credit hours.

THEA 1143 - Musical Theatre Musicianship I

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: This course is an introduction to musicianship for Musical Theatre artists. It focuses directly on the skills necessary for success in live musical theatre, namely, note and rhythm recognition, keyboard skills, chords, and basic theory.
Pre-requisite(s): THEA 1063.

THEA 1220 - Acting I

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: Required for Theatre Performance and Teaching Majors. Non-majors should enroll in THEA CA 1033. Students in this course will demonstrate a knowledge of and an ability to integrate

fundamental acting principles and analysis skills into performance. Students will develop professional work habits of dependability, promptness, cooperation, a sense of ensemble, and the ability to make independent choices.

Pre-requisite(s): THEA 1030, THEA 1063.

THEA 1223 - Stage Makeup

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $16.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology. The course fee associated with this class pays for demonstration supplies and some of the material needed for makeup applications.
Description: A practical investigation of stage makeup techniques and skills of design and application. Note: A lab fee is required for this class.

THEA 1513 - Stagecraft

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $36.00
Description: Introduction to stage scenery: lecture/demonstration of basic materials, shop and stage equipment, construction principles, and elementary technical drawing and design procedures.

THEA 1713 - Script Analysis

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An introductory course focusing on plot, character, language, and thematic analysis of varied historical and modern performance texts in the context of contemporary staging practice. This course teaches play analysis from a practical perspective. For students who intend to perform, direct, and design within the collaborative production process.
Pre-requisite(s): THEA 1063

THEA 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

THEA 2022 - Costume Fundamentals

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $36.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology. The course fee associated with this course pays for the basic sewing materials needed, such as muslin, thread, scissors, fabric dye, millinery supplies, pattern making supplies, and weaving supplies.
Description: Introduction to stage costume: with lectures, demonstrations and projects to introduce the basic materials, fabrics, costume construction methods, costume history, and design principles and procedures for theatrical costumes. A lab fee is required for this class for costume studio materials.

THEA 2032 - Lighting Fundamentals

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $21.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the lighting lab including replacing gels, gobos, software updates for the lighting consoles, bulbs, and lighting instruments.
Description: This introductory course gives students a foundation in lighting design for the stage. Students will develop an ability to "see" light in new ways, both natural and artificial, and the role light plays in storytelling and on the overall composition of the visual world of the performing arts. Students will also learn technical aspects of lighting equipment, control systems, and computer drafting.

THEA 2033 - Acting II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: For the intermediate and advanced student actor, this course places primary emphasis on the development of characterization techniques through participation in physical and vocal exercises. Focus will be on a variety of stylistic scene work including Greek Theatre and Shakespeare.
Pre-requisite(s): THEA 1030, THEA 1220, and by audition.

THEA 2203 - Costume Technology

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $36.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology. The course fee associated with this course pays for the basic sewing materials needed, such as muslin, thread, scissors, fabric dye, millinery supplies and pattern making supplies.
Description: A practical exploration of the research and construction techniques used to create

contemporary and historic costumes for the stage. A lab fee is required for this class for costume studio materials.

Suggested Requisite(s): THEA 2022.

Note: Typically Taught Spring of even years.

THEA 2330 - Dramaturgy and Criticism

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: This course will be a practical study of the role and duties of a dramaturg in a production as well as a critic reviewing a finished work. Work will include all facets of dramaturgy: historical research, script analysis, audience outreach, and lobby displays. A completed Dramaturgy workbook for a proposed play or practical work on a department play will be the final assignment.
This course may be repeated once up to 6 credit hours.

THEA 2403 - Stage Management

Credits: (3)
Typically Taught Fall Semester: *Full Sem Odd Years*
Course Fee: $6.00
Course Fee Purpose: The course fee for this class will be used to pay for the IAVM Crowd Manager Training Course for each student. This training is part of an update in the curriculum of the class and is used to help train students who will be managing crowds during their time working on shows at Weber State and in their future carriers. It is also required for some of their responsibilities relating to course assignments.
Description: A practical study of stage management techniques necessary for efficient theatre production. A conceptual overview of the rehearsal and performance process will be stressed, including an overview of management techniques as applied to the performing arts in general. Front of house management and company management will be studied.

THEA 2443 - Acting for Musical Theatre

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A practical study of acting methods unique to the discipline of musical theatre. Emphasis will be placed on the interpretation of modern musical theatre, literature through imagery, action, characterization, and analysis of the score and libretto.
Pre-requisite(s): THEA 2033 and admittance to the Musical Theatre program.

THEA 2515 - Rendering and Modeling

Credits: (3)
Typically Taught Spring Semester: *Even Years Full Sem*
Description: An introduction to the tools and techniques used in drawing, rendering and modeling for theatrical designers, covering both traditional and modern techniques for scenic, costume and light renderings.

THEA 2580 - Creative Computing for Theatre Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: The class provides an introduction to several important computer programs used in the performing arts industry. Skills learned are applicable across various design, technical, and educational fields, and each student develops their own individual capstone project tailored to their specific learning goals. Programs learned may include the following: Vectorworks, Lightwright, Qlab, Isadora, and Adobe Suite.

THEA 2581 - Adobe Suite for Theatre Design

Credits: (3)
Typically Taught Spring Semester: *Even Years Full Sem*
Description: In this class students learn Photoshop, Illustrator and InDesign for theatre-relevant applications like creating paper props, editing photos for promotional materials, creating custom fabric patterns, producing photo-realistic rendering of sets and costumes, creating social media posts, portfolios, programs, and other applications.

THEA 2713 INT - Teaching Theatre in the Secondary School

Credits: (3)
Typically Taught Fall Semester: *Full Sem even years*
Description: Application of pedagogy to teaching theatre arts in secondary schools. Requires field experiences supervised by Theatre Arts Faculty.

THEA 2821 HU - Period Styles in Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey of the history of Western Art, including architecture, clothing, music, art, and decorative arts for the theatre.

THEA 2851 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an

experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2852 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2853 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2854 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2855 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2856 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2857 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2858 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy,

Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2859 - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a design, technical, or management production position relating to: Stage Management, Lighting Design, Costume Design, Scenic Design, Props Design, Sound Design, Dramaturgy, Technical Direction, Choreography, House Management.
May be repeated up to 3 times for credit.

THEA 2920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

THEA 3033 - Advanced Acting

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Introduces students to the techniques required to perform in various styles encountered in contemporary theatre, from Greek tragedy to the most modern forms. Includes two arranged studio hours per week.
Pre-requisite(s): THEA 2033, and by audition.

THEA 3070 - Voice and Movement for the Actor II

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An intermediate continuation of intensive voice and movement training for the actor, strong focus in movement and voice for extension of range and availability and for character development. Intermediate development and conditioning of the actor's voice and body with emphasis on dialect work and stylized movement.

Pre-requisite(s): THEA 1030.

This course may be repeated once up to 6 credit hours.

THEA 3100 - Projection Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Description: This course is a practical application of the tools and processes essential to creating projection designs for theatre, dance, and live events. This course also examines the history of projection design in theatre performance leading up to current practices. Students will learn script analysis and storytelling as well as the tools and technology used in the industry today. Programs learned include QLab, Isadora, and Lightform.
Note: Typically Taught Spring of odd years.

THEA 3103 INT - Directing I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: This course explores the process of directing plays for the stage. Studio exercises and discussions develop skills in key areas: interpretation of form and artistic intent; perception and sensibility in rehearsal, effective communication with actors, and balancing the interplay between action and text.
Pre-requisite(s): THEA 1063, THEA 1713, and THEA 1033 or THEA 1220.
Suggested Requisite(s): At least one Theatre Design Course is recommended prior to taking this course.

THEA 3116 - Auditioning

Credits: (2)
Variable Title
Typically Taught Fall Semester: *Full Sem*
Description: Allows for the advanced study of a changing series of pertinent theatre topics. All Special Studies in Theatre courses are half-semester.
The maximum time a student can repeat this class for credit is four times.

THEA 3143 - Musical Theatre Musicianship II

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This course builds on the skills learned in THEA 1143 - Musical Theatre Musicianship I and further teaches sight-singing, music notation, chord structure, music terminology/vocabulary, and performance skills.
Pre-requisite(s): THEA 1143.

THEA 3203 - Costume Technology II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: The course fee associated with this course pays for the basic sewing materials needed, such as muslin, thread, scissors, fabric dye, millinery supplies, pattern-making supplies, and weaving supplies.
Description: An advanced exploration of the research and construction techniques used to create contemporary and historic costumes for the stage.
Pre-requisite(s): THEA 2203 and THEA 2022.

THEA 3212 - Scenic Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $36.00
Course Fee Purpose: The course fee associated with this course pays for the basic scenic materials needed, such as foam core, bristol board, balsa, paint, and other supplies associated with theatrical model making.
Description: Scenic Design will provide a practical exploration of the methods and materials of scenic design for the theatre. The course includes instruction in script analysis for design, visual research, conceptual sketching, rendering, and modeling of scenic concepts for a variety of production types and styles.
Note: Class meets the 2nd block of spring semester every even-numbered year.

THEA 3222 - Lighting Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*
Course Fee: $21.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the lighting lab including replacing gels, gobos, software updates for the lighting consoles, bulbs, and lighting instruments.
Description: This course will be an advanced exploration of lighting design for theater. This course is a practical exploration of the equipment, materials, and design processes of stage lighting and stage lighting design.
Pre-requisite(s): THEA 2032.
May be repeated twice with a maximum of 6 credit hours.

THEA 3232 - Scenic Art and Painting

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $36.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab

and associated technology.

Description: An introduction to the role of the scenic artist in the theatrical process, as well as applied training in basic scene painting/scenic artist techniques for theatre. Texture, faux finishes, and detailing lessons are applied in a variety of scenic projects including wallpaper, bricks, rocks, wood grain and molding, marble, and foliage, culminating in a final project designed to showcase your mastery of painting techniques and the compilation of a basic portfolio of scenic artistry.

Note: Typically Taught Spring of even years.

THEA 3233 - Prop Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A studio course in the process and techniques of prop making techniques. Tools, materials, building, and painting techniques will be demonstrated by the instructor and explored and executed by the student. This course not only places emphasis on artist ability but time management, critical thinking, and problem solving as well.
Pre-requisite(s): THEA 1513.

THEA 3243 - Costume History

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A study of fashion from ancient Egypt to the 20th century in relation to stage applications and contemporary fashion. Students will gain a basic understanding of major periods in Western clothing history as well as the interrelationship of clothing and culture and a working ability to research clothing of any culture or era.

THEA 3253 - Wig Design & Construction

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: The course fee associated with this course pays for the basic sewing materials needed, such as thread, scissors, dye, tape, pattern-making supplies, wig kits, wig fronts, and weaving supplies.
Description: An exploration of the research and construction techniques used to create wigs for the stage.
Pre-requisite(s): THEA 1223.

THEA 3303 - History and Literature of Theatre I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00

Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.

Description: Examines the history of theatre and performance globally, from the beginning of recorded time through the English Restoration. The class encompasses important dramatic texts, theoretical lenses, as well as the history and historiography of Theatre. Students are expected to conduct individual historical research.

THEA 3313 - History and Literature of Theatre II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Examines the history of theatre and performance globally, from the 1700s through Modernism. The class encompasses important dramatic texts, theoretical lenses, as well as the history and historiography of Theatre. Students are expected to conduct individual historical research.

THEA 3323 - History and Literature of Contemporary Theatre

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A survey of theatre history and literature that will study theatre from the 20th century and into the present time. Specific attention will be given to the plays and producing organizations of minorities and other underrepresented groups.

THEA 3340 - Theatre Management

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: An overview of theatre management techniques that includes all the operating functions such as marketing, promotion, fundraising, accounting and personnel management. A functional business plan for a Theatre is the culminating experience of this course.

THEA 3343 - History & Literature of Musical Theatre

Credits: (3)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.

Description: A study of musical theatre from the origins of Opera through contemporary musical theatre. Cultural connections are emphasized through examination of book, score and performance.

Pre-requisite(s): admittance to the Musical Theatre program.

THEA 3350 - Marketing and Communication for the Arts

Credits: (3)
Typically Taught Fall Semester: *Full Sem odd years*
Description: This class explores the dynamics of marketing and communication across dance, music, and theatre. The emphasis is on practical application of course content to enhance students' future roles in a variety of arts related careers.

THEA 3440 - Dance for Musical Theatre

Credits: (1)
Typically Taught Spring Semester: *Full Sem even years*
Course Fee: $2.00
Course Fee Purpose: This fee is to support instructional technology in the classroom.
Description: Dance skills and techniques taken from the repertoire of modern musical theatre. Special emphasis on characterization and style as demonstrated by the works of the leading choreographers of this genre.
May be repeated four times for a maximum of two credit hours, but use toward Major/Minor must be approved by program advisor.

THEA 3443 - Scene Study for Musical Theatre

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Advanced study of acting methods unique to the discipline of musical theatre. Emphasis will be placed on the interrelationship of characters through the use of duets, group scenes, and production numbers.
Pre-requisite(s): THEA 2443 and Admittance to the Musical Theatre program.
May be repeated two times for credit.

THEA 3500 - Sound Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Description: This class is an introduction to the art and craft of sound design for live theatre productions. This course covers script analysis and creative storytelling through sound, as well as the technical skills and application of the tools needed to effectively execute the design. Programs learned

include Qlab and Vectorworks.

Note: Typically Taught Spring of even years.

THEA 3505 - Playwriting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: This course will be a practical study of dramatic structure and the process of playwriting. Key components like theatricality, action, premise, and dialogue will be studied through application. Major projects will focus on the composition of ten minute plays. This class is writing intensive.

THEA 3525 - ArtsBridge

Credits: (1-6)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a comprehensive, needs-based, integrated arts project with community organizations or area schools. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.
Pre-requisite(s): Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.
Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

THEA 3651 - Musical Theatre Repertoire

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced study of standard musical theatre repertoire, audition techniques and the business of musical theatre.
Pre-requisite(s): THEA 2443.
May be repeated for a total of four semester hours.

THEA 3810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: Consult the semester class schedule for the current offering under this number. The specific

title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

THEA 3991 - Junior Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A colloquium that draws theatre students from various interests together in a mutual exploration of theatre research, production, and planning for employment opportunities and graduate study.
Pre-requisite(s): Theatre major - junior standing.

THEA 4002C - Special Studies in Theatre: Stage Combat

Credits: (2)
Description: Physical training in the art and craft of stage combat. Emphasis is on safe application of technique to choreograph stage fights. All Special Studies in Theatre courses are half-semester.
May be repeated up to two times.

THEA 4002D - Special Studies in Theatre: Auditioning

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $4.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A practical exploration of professional audition techniques including cold reading, prepared monologues, improvisation and portfolio preparation.
Pre-requisite(s): THEA 1033 or THEA 1220.
Repeatable two times for credit.
Note: Typically Taught Spring of Odd Years.

THEA 4002H - Special Studies in Theatre: Contemporary Topics

Credits: (2)
Description: A diversified exploration of pertinent theatre topics. May be repeated for upper division credit. All Special Studies in Theatre courses are half-semester.
May be repeated up to two times.

THEA 4103 INT - Directing II

Credits: (3)
Typically Taught Spring Semester: *Full Sem odd years*

Course Fee: $6.00

Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.

Description: Advanced theory and application of directing approaches.

Pre-requisite(s): THEA 3103, and by audition.

Note: Offered spring semester every odd-numbered year.

THEA 4120 - Collaboration in the Theatre

Credits: (3)

Description: This class will help theatre students improve collaborative skills specific to production teams in the process of theatrical creation. Students will work in model production teams and explore different modes of communication and collaboration.

Pre-requisite(s): THEA 3103 INT - Directing I or THEA 4203 - Costume Design or THEA 3212 - Scenic Design or THEA 3222 - Lighting Design or THEA 3500 - Sound Design and instructor approval.

THEA 4143 - Directing and Choreographing for Musical Theatre

Credits: (3)

Typically Taught Spring Semester: *Full Sem even years*

Course Fee: $6.00

Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.

Description: Theory and practical application of directing and choreographing approaches as they pertain to Musical Theatre.

Pre-requisite(s): THEA 3103.

Note: Offered spring semester every even-numbered year.

THEA 4203 - Costume Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: $6.00

Course Fee Purpose: The course fee associated with this class pays for the maintenance of technology and materials.

Description: A practical application of the techniques of visual communication used to analyze characters, research, and create costume renderings for dramatic scripts.

Suggested Requisite(s): THEA 2022 and THEA 3243.

Note: Offered spring semester every even-numbered year.

THEA 4220 - Design Seminar

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: $6.00

Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab

and associated technology.

Description: A flexible emphasis course devoted to the design processes of theatrical production; a forum through which advanced design students may further their interests and abilities in the design process and/ or portfolio development and presentation that will change in focus from student to student. THEA 4220 Design Seminar may be used as a capstone design project with faculty approval.

Pre-requisite(s): at least one Theatre Area design course - THEA 3212 or THEA 3222 or THEA 4203, and permission of the instructor.

Note: This class provides an opportunity for in-depth theatrical design work. Since there is only one formal design class in each of the design areas (costume, lighting, and scenery) students can continue their studies in Design Seminar. The course number stays the same from semester to semester but the content; the design projects changes each time. The maximum time a student can repeat this class for credit is eight times.

THEA 4230 - Performance Seminar

Credits: (1-3)
Typically Taught Fall Semester: *2nd Blk*
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for maintenance of the department lab and associated technology.
Description: A flexible emphasis course devoted to the acting and directing process of live theatrical production, a forum through which advanced performance students may further their interests and abilities in the acting/directing process that will change in focus from student to student. THEA 4230 Performance Seminar may be used as a capstone project with faculty approval.
Pre-requisite(s): THEA 1033, THEA 2033, THEA 3103 and permission of the instructor.
May be repeated twice with a maximum of 6 credit hours.

THEA 4250 - Music Direction Seminar

Credits: (1-3)
Typically Taught Spring Semester: *Full Sem*
Description: A flexible emphasis course devoted to the music direction process of live musical theatre, a forum through which advanced Music Direction students may further their interests and abilities in a variety of topics that will change in focus from semester to semester and student to student. Possible topics may include pit conducting, music rehearsal strategies, and digital technology.

THEA 4270 - Dramatic Theory and Analysis

Credits: (3)
Description: A study of dramatic theory from early Greek thinkers through contemporary theorists. The class will be based on reading primary and secondary texts and will class time will be spent on projects, activities, discussion, and lecture. Additional research assignments are required.

THEA 4603 - Creative Drama

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: The course fee associated with this class pays for the maintenance of technology and materials.
Description: Theories and practices incorporating the techniques of creative drama into the elementary school curriculum. Especially recommended to students of elementary education, recreation, and social services.

THEA 4651 - Individual Training in Stage Voice

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $445.00
Course Fee Purpose: The fee for these courses is used to compensate the instructor for teaching this class and overhead assessed by the university.
Description: Twelve individual lessons on vocal technique for the actor. A list of approved voice instructors is maintained in the department office. Students are responsible for contacting individual instructors to schedule lessons.
May be repeated up to nine times.
Note: The Musical Theatre students are required to complete Individual Training in Stage Voice a minimum of six times to complete their degree however it is not uncommon for students to take private voice lessons each semester they are enrolled. The maximum time a student can repeat this class for credit is eight times.

THEA 4652 - Individual Training in Music Direction

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $445.00
Course Fee Purpose: Private Instruction for the music and theater programs.
Description: Twelve individual lessons on Music Direction for Musical Theatre. A list of approved instructors is maintained in the department office. Students are responsible for contacting individual instructors to schedule lessons.
Note: The Musical Theatre: Music Direction Track students are required to complete Individual Training in Music Direction a minimum of seven times to complete their degree; however, it is not uncommon for students to take private lessons each semester they are enrolled. The maximum number of times a student can repeat this class for credit is eight times.

THEA 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and

humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

THEA 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Advanced level, independent study under the direction of faculty member.
Pre-requisite(s): Permission of supervising instructor required for credit.
May be repeated 8 times with a maximum of 9 credit hours.

THEA 4851 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions. To become a well-rounded theatre student, students are required to participate in the production of the departmental plays as often as their schedule allows. Since there are so many different learning opportunities in the theatre it is though Practicum that they are each exposed to the whole production process. There are 2 different Practicum course numbers, one for performance and the other for the design, technical, and management aspects of theatre. The course numbers stay the same from semester to semester but the content; the plays produced changes each time. Minimally students are required to enroll in a Practicum course 3 times to graduate, however since students are expected to be involved in the production of each play (2 per semester) then they should be completing 4 Practicums each academic year.
The maximum time a student can repeat this or any combination of THEA 4851 and THEA 4861 for credit is sixteen times.

THEA 4852 INT - Design/Tech Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 9 times and receive up to 10 credits.

THEA 4853 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,

acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4854 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,
acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4855 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,
acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4856 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,
acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4857 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,
acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4858 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work,
acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4859 INT - Design/Tech/Management Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Hands-on learning through involvement backstage on running crews, through studio work, acting in, or involvement in "front of house" operations for Weber State Theatre productions.
May be repeated 12 times and receive up to 12 credits.

THEA 4860 - Advanced Playwriting

Credits: (3)
Description: This course will be an advanced study of dramatic structure and the process of playwriting, focusing on writing full length plays. Extensive writing is required.
Pre-requisite(s): THEA 3505 and instructor approval.
May be repeated up to two times for a maximum of six credit hours.

THEA 4861 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Practical applied performance work to be registered for by students who are 1) cast in, 2) have a significant assistant directing responsibility, or 3) are the production director for a WSU production. To become a well-rounded theatre student, students are required to participate in the production of the departmental plays as often as their schedule allows. Since there are so many different learning opportunities in the theatre it is though Practicum that they are each exposed to the whole production process. There are 2 different Practicum course numbers, one for performance and the other for the design, technical, and management aspects of theatre. The course numbers stay the same from semester to semester but the content; the plays produced changes each time. Minimally students are required to enroll in a Practicum course 3 times to graduate, however since students are expected to be involved in the production of each play (2 per semester) then they should be completing 4 Practicums each academic year.
Pre-requisite(s): Audition and permission of the instructor/director.
The maximum time a student can repeat this or any combination of THEA 4851 and THEA 4861 for credit is sixteen times.

THEA 4862 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition

and permission of the instructor/director.
May be repeated up to 12 times for a maximum of 12 credit hours.

THEA 4862 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production.
Pre-requisite(s): Prerequisite: Audition and permission of the instructor/director. The maximum time a student can repeat this or any combination of practicum for credit is twelve times.
May be repeated up to 12 times with a maximum of 12 credit hours.

THEA 4863 INT - Performance Practicum

Credits: (1)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.
The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4864 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director. The maximum time a student can repeat this or any combination of practicum for credit is twelve times.
The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4865 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated.

Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4866 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4867 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4868 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4869 INT - Performance Practicum

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Provides supervised experience in theatre production and performance. May be repeated. Practicum is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory. The student will develop skills and abilities for the theatre through supervised experience in a performance of an acting role in a production. Prerequisite: Audition and permission of the instructor/director.

The maximum time a student can repeat this or any combination of practicum for credit is twelve times.

THEA 4890 INT - Cooperative Work Experience or Internship

Credits: (1-3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Actual participation with outside performing arts organizations in the day-to-day activity of a performing arts organization will introduce the student to the professional application of classroom skill and knowledge. Students will arrange their own opportunities by interview or audition. A journal of their experience and a letter from a supervisor are required for credit. Possibilities include but are not limited to: Repertory Dance Theatre, Ballet West or Utah Symphony (management or tech only), Utah Shakespeare Festival, Salt Lake Acting Company, and Pioneer Theatre Company.
Pre-requisite(s): Permission of supervising instructor required for credit.

May be repeated twice with a maximum of 3 credit hours.

THEA 4900 INT - Senior Project

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The Senior Project is an opportunity for graduating students to generate and realize a project in an area of primary interest. Typically, the project will reflect the student's emphasis in theatre arts (e.g., Acting, Directing, Design, etc.) and will demonstrate a culmination of previous study and may be a collaborative project.
Pre-requisite(s): Faculty approval of the proposal and a faculty advisor and the student must have completed a minimum of 90 credit hours.

THEA 4920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit autorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

THEA 4950 INT - Theatre Festival Participation

Credits: (1)
Description: Attend the Kennedy Center/American College Theatre Festival Region VIII annual meeting or other national theatre conference. Students will have the opportunity to attend theatre performances brought to the festival from throughout the region, display designs, audition, act in new 10-minute

plays, and participate in workshops. Students may be responsible for their own registration fees and transportation, lodging and meals.

Pre-requisite(s): Audition and Permission of Instructor.

Note: May be repeated up to 4 times for credit.

UNIV 1106 GLB - American College Experience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: To aid in the integration of international students into Weber State campus life, and to foster a better understanding of the relationships between campus and community; comparing the experience with home country and institution. The class combines courses and programs designed to help students transition well to the rigorous academic environment of U.S. higher education.

UNIV 1107 - Design Your Weber

Credits: (2)
Description: In the course, you explore interests within and beyond selecting a major; consider radically different academic pathways at Weber; prototype and test areas of curiosity; identify fears that hold students back from maximizing your Weber experience; reframe the role of failure at college; ac vely explore and try out the resources and supports available to students at Weber State.

UNIV 1110 SS, CEL - FYS: Introduction to Social Issues in Higher Education

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The goal of the course is for first-time students in the Wildcat Scholars program to understand and embrace what it means to be a college student who is cultivating a future. Students will be exposed to and apply ways of thinking, acting, and interacting that social science and educational research has shown to promote success in college and in life. The course requires traditional academic activities coupled with other activities, such as tutoring, designed to help students adopt the beliefs, attitudes, skills, and knowledge necessary to be a person who is cultivating a future through college.

Pre-requisite(s): Acceptance into the Wildcat Scholars program.

UNIV 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

UNIV 3301 - Results Based Leadership for Social Change

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In this class, we will explore the changes individuals and nonprofits can make to increase our impact in the world. We call this approach *Results Based Leadership.* Results Based Leadership is a theoretical framework focused on achieving measurable results. It includes understanding the current shortcomings of change efforts in our communities, building the technical skills to understand and display data in a way the motivates change, achieving mastery in facilitation to generate consensus and align collective action, and become an "adaptive" thinker to address complex and "wicked" problems in the world.

UNIV 4242 - Conspiracy Theories

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Why do people believe conspiracy theories? What are their origins? How can we avoid succumbing to conspiracy theories?

UNIV 4920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

WEB 1010 - Exploring Web and User Experience

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Capabilities and limitations of multimedia technology, evaluation of multimedia products, and creation of a multimedia portfolio.

WEB 1030 - Foundations of Computing

Credits: (4)
Typically Taught Summer Semester: *Full Sem, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course follows the core body of knowledge specified by the ACM which provides students with a broad overview of topics they might encounter within the major areas of computing. The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, web design and development, programming, database, software engineering, networking, and more. Cross-listed with CS 1030 and NET 1030.

WEB 1040 - Speedbuilding Keyboarding

Credits: (1)
Description: Intensive computerized approach for improving speed and accuracy. Keyboarding 25 wpm

recommended. The grade for this course is credit/no credit.

Note: This course is not currently offered.

WEB 1400 - Web Design and Usability

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Understand the technicalities of the World Wide Web and the Internet. Plan, design, and implement a successful web site using current web technologies. Topics covered include audience analysis, information architecture, wireframing, prototyping, responsive design, usability and accessibility, testing, and analytics.

WEB 1430 - Client Side Programming

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This class introduces the JavaScript language, with a focus on advanced language features and client-side web programming. Topics covered include basic syntax, object-oriented programming, higher-order functions, the DOM, and AJAX. The class will also introduce jQuery.
Pre-requisite(s): (WEB 1400 or CS 1030) and CS 1400.

WEB 1501 - Document Creation Competency Exam

Credits: (.5)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The computer competency exam for this course is a hands-on examination verifying a student's skills at document creation. Practice materials are available on the web for studying the competencies covered on the test. The one-hour exam must be completed during the semester registered. Two repeats of the exam may be taken during the semester with an additional fee charged.

The grade for the course is credit/no credit.
Note: Call (801-626-7384) or email CIL@weber.edu for more information.

WEB 1502 - Content, Internet Identity, and Device Management Competency Exam

Credits: (.5)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The computer competency exam for this course is a hands-on examination verifying a student's skills in content, internet identity, and device management. Practice materials are available on the web for studying the competencies covered on the test. The one-hour exam must be completed during the semester registered. Two repeats of the exam may be taken during the semester with an additional fee charged. The grade for this course is credit/no credit.
Note: Call (801-626-7384) or email CIL@weber.edu for more information.

WEB 1503 - Data Manipulation, Visualization, and Presentation Competency Exam

Credits: (.5)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The computer competency exam for this course is a hands-on examination verifying a student's skills at data manipulation, visualization, and presentation. WEB 1700 - Introduction to Computer Applications

Credits: (3)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students will use current software to produce correctly formatted research papers with an accepted academic reference format, to produce effective employment documents such as a resume and a cover letter, and to use multiple collaboration mediums to effectively share, communicate, and collaborate with their peers. Students will use current software/technology to manage content on local devices and in the cloud, to manage their web identity and presence according to e-safety, security, and privacy best practices and standards, and to manipulate multiple computing platforms to troubleshoot problems. Students will protect local devices from security threats including viruses, malware, and adware using current best practices and technologies. Students will also manipulate and analyze data using various software applications and basic programming, organize data using graphical methods such as charts and infographics, and create an effective, well-designed presentation. Keyboarding 25 wpm recommended.

WEB 1701 - Document Creation

Credits: (1)
Typically Taught Summer Semester: *1st Blk, Online*
Typically Taught Fall Semester: *1st Blk, Online*
Typically Taught Spring Semester: *1st Blk, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students will use current software to produce correctly formatted research papers with an accepted academic reference format such as MLA or APA. Students will use current software/technology to produce effective employment documents such as a resume and a cover letter. Students will also be able to use multiple collaboration mediums to effectively share, communicate, and collaborate with their peers. Keyboarding 25 wpm recommended.

WEB 1702 - Content, Internet Identity, and Device Management

Credits: (1)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students will use current software/technology to manage content on local devices and in the cloud. Students will manage their web identity and presence according to e-safety, security, and privacy best practices and standards. Students will manipulate multiple computing platforms and troubleshoot problems when they arise. Students will protect local devices from security threats including viruses, malware, and adware using current best practices and technologies. Keyboarding 25 wpm recommended.

WEB 1703 - Data Manipulation, Visualization, and Presentation

Credits: (1)
Typically Taught Summer Semester: *Full Sem, Online*
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students will manipulate and analyze data using various software applications and basic programming. Students will organize data using various graphical methods such as charts and infographics to appropriately convey information. Students will create an effective, well-designed presentation using current technologies. Keyboarding 25 wpm recommended.

WEB 2080 - Database Applications

Credits: (1)
Typically Taught Fall Semester: *Full Sem Online*
Description: Use of database software to design and create a database, including objects such as tables, queries, reports, and forms. Use of advanced management features such as macros, switchboards, referential integrity, and compound criteria.
Pre-requisite(s): WEB 1700 or WEB 1702/WEB 1502.

WEB 2200 - Image Editing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to an image creation and editing program such as Adobe Photoshop. Students learn the basics of the program (workspace, selections, and layers). The steps in editing images are completed (cropping, color and tonal adjustments, retouch, noise reduction, sharpening, and exporting). Students also work creatively with layer styles, filters, layer masks, blend modes, and paint brushes. Several of the assignments will involve editing images and creating composites for the web (i.e. hero image, web banner ad, Facebook cover).

WEB 2210 - Computer Illustrations

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this course you will learn the fundamentals of a vector drawing program such as Adobe

Illustrator. Students become skilled using the Pen Tool and other drawing tools to create vector illustrations. Various techniques are learned for applying color, attributes, styles, and effects to illustrations. Students also create, edit, and format type to add to their illustrations. Projects will focus on web illustrations for banners, landing pages, user interface elements, social media, infographics, and other web content.

WEB 2220 - Digital Publishing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Use of professional page design and layout software such as Adobe InDesign to design, create, and edit a variety of publications for print and web. Students create publications for print such as a marketing card and business flyer/brochure, as well as interactive online web documents that contain audio, video, slideshows, and HTML content.
Pre-requisite(s): WEB 1400 and WEB 2200 or permission of instructor.

WEB 2300 - Video Editing

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Using video editing software such as Adobe Premiere, students will combine many separate video recordings to create short digital movies. The following steps of the video production process will be completed: creating storyboards; shooting the video and recording the audio; capturing resources to the computer; importing resources into a video project; adding titles, graphics, transitions, and effects; and exporting the video to formats for the computer, television, DVDs, and the Web.

WEB 2350 - Client Side Web Development

Credits: (4)
Typically Taught Summer Semester: *2nd Blk Online*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, and Javascript with an introduction to JQuery and JQuery Mobile. Cross-listed with CS 2350.
Pre-requisite(s): CS 1400 and WEB 1400.

WEB 2410 - Web Animation I

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course introduces various web technologies that aid the creation of web animations for distribution on many platforms. Students discuss technical issues affecting animation such as speed and compression. Students will explore several current tools to create animations for the web.

WEB 2500 - User Experience Design

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this course students will be introduced to the four-step user experience design process which includes user research, design, testing, and implementation. The following topics will be covered: history of user experience, user behavior, cognitive processing, personas, web analytics, content strategy, information architecture, writing for the web, user-centered design, usability testing, and accessibility. Using current technologies and tools, students will create a basic web or mobile application.
Pre-requisite(s): WEB 1400 or CS 2350.

WEB 2620 - Advanced CSS

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: A deep knowledge of CSS properties and specifications is essential in client-side web development and design. This course will expand student's knowledge of CSS by covering the following CSS properties: media queries, animation & transitions, transforms, grid layouts, flexbox, web fonts, shapes, variables, exclusions, and regions. Browser support, preprocessors, frameworks, and minification will also be discussed. Using these advanced CSS techniques student will design and implement a consistent user experience and the page layout of a web application.
Pre-requisite(s): WEB 1400 or CS 2350.

WEB 2700 - Web Accessibility 1

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: In this course students will be introduced to the disability rights, legislation that governs the rules for accessibility in the United States, and WCAG 2.1 standards. The following topics will be covered: history of disability rights, key leaders in the disability rights movement, groups advocating for disability rights, legislation that governs the rules around accessibility, WCAG 2.1 standards. Using current accommodation software, students will test websites for accessibility and make recommendations to change the code to meet WCAG 2.1 guidelines.
Pre-requisite(s): WEB 2620.

WEB 2800 - Independent Projects and Research

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $7.50
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Independent project, student assistant, or research on an individual basis. Prerequisite: Permission of instructor.
May be taken twice up to 6 credit hours.

WEB 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

WEB 2860 - Work Study

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students can earn variable credit (depending on the number of hours performed) by working in the web and user experience career field or by serving as a teaching assistant for a WEB/UX faculty member. Either way, the student will fulfill objectives that have been pre-approved by a business/organization supervisor or faculty advisor. This lower division elective is primarily intended for WEB/UX majors currently working in entry-level (client side) positions within the career field. Junior and Senior level students, performing more complex server-side web development, should consider taking the Upper Division WEB 4860 course as an alternative.

Pre-requisite(s): Permission of instructor and WEB/UX program coordinator.

May be repeated up to four times with a maximum of four credit hours.

WEB 2890 - Client-Side Portfolio

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this project-based course students will design a web portfolio that features the work they have completed during the Web and User Experience AAS degree. Students will also create several portfolio pieces related to client-side web development.
Pre-requisite(s): WEB 2620.

WEB 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is not currently offered.

WEB 3000 - Advanced Word Processing

Credits: (1)
Typically Taught Spring Semester: *Full Sem Online*
Description: Use of word processing software including sorts, tables, columns, reports, merges, graphics, and macros.
Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501.

WEB 3070 - Advanced Spreadsheet Applications

Credits: (1)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: Use of spreadsheet software including macros, sorts, advanced formulas, graphs, and creative presentations.
Pre-requisite(s): WEB 1700 or WEB 1703/WEB 1503.

WEB 3090 - Digital Presentations

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Course Fee: $15.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Use of electronic slide presentation software to create slides consisting of short paragraphs, bulleted lists, graphic images, movie clips, audio clips, data charts, diagrams, and imported data from other software. Emphasis will also be placed on professional quality presentation design and animation of slide elements.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

WEB 3110 - Training the Trainer

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Real-world strategies and techniques to provide better employee training, including development of materials and methods to enhance the learning process.

Pre-requisite(s): ENGL 2010 and WEB 1700 or WEB 1701, WEB 1702, and WEB 1703, or WEB 1501, WEB 1502, and WEB 1503.

WEB 3130 - Web Accessibility 2

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: In this course, students will learn to work with disabled users as co-participants in the design and development process. Using a website they built in a prior course, they will run testing with disabled users and adapt the site to meet the needs of users. These sites will go beyond basic WCAG 2.1 compliance, as they will be built with active participation from the disabled community.

Pre-requisite(s): WEB 2700.

WEB 3200 - Dynamic Languages for Web Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: General-purpose dynamic languages like Python and Ruby have become increasingly popular and well suited for the creation of full stack web applications. This course will introduce students to the syntax and programmatic idioms of both Ruby and Python. The following topics will be covered in both

languages: complex data types, loops, conditionals, command line applications, and the object-oriented programming paradigm. The commonly used web frameworks of each language will be explored and used to create and deploy a full stack web application to a cloud provider.

Pre-requisite(s): CS 1400 and WEB 3350.

Pre-requisite/Co-requisite: WEB 2890.

WEB 3300 - Motion Graphics

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this course you will use Adobe After Effects to create motion graphics and visual effects for film and video. You will learn how to create sophisticated motion graphics using animated text and objects, compositing videos and images, and adding visual effects to video. You will learn how to set keyframes on a timeline and work with transform properties, motion paths, rotoscoping masks and effects, developing a solid foundation in this increasingly popular and versatile software.
Pre-requisite(s): WEB 2200 and WEB 2300 or approval of instructor.

WEB 3350 - Client Side Frameworks

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course covers client-side JavaScript Frameworks and building Single Page Applications (SPA). It starts with a review of the JavaScript programming language (with emphasis on the Document Object Model (DOM) and covers various debugging techniques using the browser developer tools. An overview of Asynchronous JavaScript (AJAX) is introduced before diving deeper into a popular client-side JavaScript frameworks - like Angular, React or VueJS. Regardless of the primary framework chosen, we will explore and compare the other frameworks as time permits.
Pre-requisite(s): WEB 1430 or CS 2350.

WEB 3400 - LAMP Stack Web Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and

supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course explores the Linux-Apache-MySQL-PHP, or LAMP Web development framework to build applications that solve common business problems. The course begins with an exploration of the LAMP architecture, then covers fundamentals of the PHP programming language before introducing a PHP framework like Laravel. Additional coverage focuses on database concepts and how to interact with a MySQL database.

Pre-requisite(s): WEB 3200 or NET 2210.

WEB 3410 - Web Animation II

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students will explore native web technologies that are useful for animation including JavaScript, SVG, the HTML canvas element and CSS. Using these native web technologies, students will design and produce advanced multimedia projects applicable for business and industry. These projects will be produced by combining web animation, graphics, video, and text into interactive web and mobile multimedia presentations.
Pre-requisite(s): WEB 2410.

WEB 3430 - Full Stack JavaScript Development

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Modern web development increasingly involves using end-to-end JavaScript-based technologies such as MongoDB, Express.js, Angular, React, Vue.js, Node.js, etc. This course introduces development techniques that capitalize on the strengths of every layer in this JavaScript-based full-stack.
Pre-requisite(s): WEB 3350.

WEB 3500 - User Interface Prototyping & Design

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students will learn the elements of user interface design as it applies to front-end web and mobile app development. Students will identify best practices in user interface design. Using those best practices they will rapidly prototype an effective user interface.

Pre-requisite(s): WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission from instructor.

WEB 3530 - Information Architecture

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this course students will learn the fundamentals of information architecture. They will learn how to create a functional site structure, navigation, taxonomy, metadata, and content strategies for websites. Students will conduct user research to gather the appropriate requirements through competitive analysis, site and content analysis, accessibility analysis, and user testing methods.
Pre-requisite(s): WEB 2500.

WEB 3600 - User Research Methods

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Description: In this course students will learn the fundamentals of user research. Students will learn the appropriate methods of user research to understand user behaviors, needs, experience, and motivations. Students will conduct qualitative and quantitative research that they will analyze for user insights. Statistical analysis will be applied to quantitative findings to support data-driven decisions. Students will create a research presentation that outlines their key findings, including their big wins and pain points with solutions for designing a better experience for users.
Pre-requisite(s): WEB 2500.

WEB 3620 - Server-Side Web Architecture

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Description: An introduction to server-side Web development using the most current Web server technologies. General Web development principles such as usability, reliability, maintainability and scalability will be applied to current Web development environments such as PHP, Python, Ruby and Java. Students will gain real-world experience in creating Websites for multiple Web platforms. Cross listed with CS 3620.
Pre-requisite(s): WEB 2350 and CS 2550.

WEB 3650 - Human-Computer Interaction

Credits: (4)
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Description: This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices. Cross-listed with CS 3650.
Pre-requisite(s): CS 2420 and CS 2450, or WEB 3500.

WEB 3700 - Web Development with .NET

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Microsoft's ASP.NET Core is a cross-platform, high-performance web framework for building full stack web applications. This course will introduce students to the syntax and programmatic idioms of ASP.NET/C#. The following topics will be covered: REST, Razor, Model Binding and Validation, Entity Framework and the MVC design pattern. Client-side development libraries will also be discussed and integrated, so that student can build and deploy a full stack application.
Pre-requisite(s): WEB 3200.

WEB 4350 - Web Development Capstone

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Senior level group project capstone course covering full stack client/server web development. The project will be implemented using an advanced web framework (such as Laravel, NPM, Django, Ruby on Rails, or others). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing
Pre-requisite(s): (CS 3260, WEB 3400, and WEB 3430) or (WEB 3130, WEB 3500, and WEB 3600)

WEB 4800 - Independent Research

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and

supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Directed research and study on an individual basis.

Pre-requisite(s): Permission of instructor.

May be repeated up to 6 credit hours.

WEB 4860 INT - Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $10.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students work in the web and user experience field. The student fulfills objectives that have been approved by a business/organization supervisor and a faculty advisor. Must have Senior standing or approval of instructor.
Pre-requisite(s): Permission of instructor.

WEB 4890 - Server-Side Portfolio

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this project-based course students will revise and update the web portfolio that was created in the WEB 2890 course. They will add to the portfolio work that they have completed during the Web and User Experience BS degree. Students will also create several portfolio pieces related to server-side web development.
Pre-requisite(s): WEB 3500 and WEB 3620/CS 3620.

WEB 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is not currently offered.

WGS 1500 SS/EDI - Introduction to Women, Gender, and Queer Studies

Credits: (3)
Typically Taught Summer Semester: *Full Sem, 1st Block, 2nd Block*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the discipline of Women Gender and Queer studies using multicultural sources based on current feminist and queer scholarship. In this course, we will examine the diversity experiences of women and LGBTQ people, perspectives, critiques, and theories across the categories of race, ethnicity, class, and gender.

WGS 2000 - Risk, Resilience and Rock Climbing

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this course include climbing shoes, harnesses, helmets, climbing rope, and climbing holds.
Description: This course will explore the intersections of rock climbing, interpersonal and intrapersonal growth, and women and gender studies. We will ignite conversations about safety, trust, risk taking, transcending fear, resiliency, and healthy community building. These conversations will be embodied through practical kinesthetic climbing skills. We will also look at power and privilege in the climbing world and ways in which we can expand the field to be more inclusive, intersectional, and accessible to people from a variety of backgrounds. We will look at climbers who are changing the field, as well as engage media that tackle these and further topics.

WGS 2500 SS/EDI/GLB - Human Rights in the World

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Human rights (HR) are a powerful idea in the modern world, but also the focus of controversy. This course will provide students with a broad foundation in human rights including the ability to analyze HR in domestic and int'l law, examine prevention and prosecution techniques, and debate current issues at home and abroad. Emphasis will be placed on women and gender studies (including LGBT issues), vulnerable populations such as refugees, and atrocity crimes.

WGS 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

WGS 2900 - Topics in Women's Studies

Credits: (1-3)
Variable Title
Description: Varied topics as described in the semester schedule. Topics will be drawn from issues related to women's studies.
May be repeated 3 times up to 9 credits with different course content.

WGS 3050 - Introduction to Feminist Theories 1700 -- Present

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: An introduction to the study of feminist theories from the 18th Century to the present. Students will study historical accounts of feminism by looking at primary sources written by influential feminists, as well as theoretical treaties on different kinds of feminism, from liberal feminism, to radical feminism, socialist feminism, black feminism, multicultural or global feminism, and so on.
The class will be taught using collaborative learning and will rely on class discussion and interaction, rather than traditional lecture format.

WGS 3090 - Gender and Communication

Credits: (3)
Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.
Pre-requisite(s): Junior or Senior standing required or instructor permission.
Cross listed with COMM 3090.

WGS 4050 - Research Methodologies

Credits: (2)
Description: Designed to introduce students to a variety of approaches to research in women's studies. Students will consider some of the assumptions which underlie research methodologies which may limit our knowledge about women as research subjects and as researchers themselves.
Pre-requisite(s): WGS 3050 (or equivalent coursework) or permission of instructor.
Note: Course not currently being offered.

WGS 4060 - Research Project

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed research project including literature survey and completion of study in area of student's choosing, guided by faculty mentor(s) from Women's Studies program (and, where appropriate, student's major department.)
Pre-requisite(s): WGS 4050 (or equivalent coursework) and permission of instructor.

WGS 4150 - Research Methodologies

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Designed to introduce students to a variety of approaches to research in women and gender studies. Students will consider some of the assumptions which underlie research methodologies which may limit our knowledge about women as research subjects and as researchers themselves.
Pre-requisite(s): WGS 3050 (or equivalent coursework) or permission of instructor.

WGS 4170 - Gender, Power, and Global Politics

Credits: (3)
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Description: This course is a comprehensive introduction to the gendered nature of global politics and how power and gender influence the world around us. During the semester, we will examine what cultural, structural, and political factors shape gendered access to power worldwide. We will discuss why women have succeeded in obtaining sustainable political power in some countries and not others. We will determine what factors influence why women and transgendered individuals are excluded from political processes and not represented proportionately in political, influential, or leadership positions. At the conclusion of this course, students will be familiar with multiple approaches to understanding how gender matters in many facets of world politics and how gender can intersect with other social identities such as race, ethnicity, class, and sexual orientation.

WGS 4250 INT - Community-Based Research/Internship

Credits: (3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: The purpose of this research/internship is to provide students with community experiences related to issues of women and gender. Students in this practicum will apply knowledge skills learned throughout their course of study in either the Women and Gender Studies minor or BIS. For this research/internship students will be required to check in with their course faculty supervisor weekly during the semester.
Pre-requisite(s): WGS 4150.

WGS 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current oferring under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

WGS 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual readings in the general area of women's studies. Specific topic selected in consultation with instructor; amount of material to be read determined at discretion of instructor, based on level of topic and degree of difficulty of reading and consistent with any existing university and departmental guidelines.
Pre-requisite(s): WGS 1500 (or equivalent coursework) and permission of instructor.
May be repeated 5 times up to 6 credit hours.

WGS 4860 - Internship in Women's Studies

Credits: (1-2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Opportunity for service learning with campus/community organizations involved with women's issues, applying principles learned in women's studies coursework to bring about beneficial social change.
Pre-requisite(s): completion of WGS 4050 (or equivalent coursework) and permission of the instructor.
This course may be repeated once up to two credits toward the minor.
Note: When taken to fulfill a program requirement, students must register for 2 credit hours.

WGS 4900 - Topics in Women's Studies

Credits: (1-3)
Variable Title
Description: Varied topics as described in the semester schedule. Topics will be drawn from issues related to women's studies.
This course may be taken 3 times up to 9 credits with different course content.

WGS 4990 - Senior Seminar

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Description: Capstone course including discussion and synthesis of major issues in women's studies. Students will discuss specific projects (completed or in progress) related to their career goals; these projects may have an academic or service orientation.
Pre-requisite(s): completion of the women's studies core (or equivalent) courses and permission of the instructor.

WLC 2410 GLB - Introduction to Localization

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: Introduction to the field of localization. Includes the globalization of digital applications such as software, websites, videos, and video games. Addresses how to overcome both technical and cultural issues in localization and internationalization.

WLC 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.
May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

WLC 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit.
May be repeated for a total maximum of 6 credit hours.

WLC 2851 - HU Study Abroad

Credits: (3)
Description: Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

WLC 2960 - Introduction to World Languages and Cultures

Credits: (1)
Typically Taught Summer Semester: *1st Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Required of all majors during their first year.This course provides guidance to help the student successfully navigate their academic career in WSU Department of World Languages & Cultures and its programs. It provides an overview of what it is like to study a second language, as well as an overview of the U.S. language industry and language careers. The course is also designed to help students develop a clearer focus on their educational and occupational goals, as well as creating a sense of belonging in our department, college, and community.
Co-Requisite(s): SPAN 3060.

WLC 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation. Note: Check with Department for course availability.

WLC 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

WLC 3420 GLB - Introduction to Translation

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: Introduction to the theory and practice of translation, with emphasis on the techniques and skills needed to translate commercial texts. Students will learn the concepts and conceptual framework for the analysis and understanding of translation as a process and a product.
Pre-requisite(s): Intermediate Low proficiency in a second language (2020 or the equivalent).

WLC 3430 - Translation Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This course introduces students to the theory and practical use of translation technologies important to management, engineering and linguistic roles in translation and localization, with a primary focus on tools for linguistic roles including translation and editing.

WLC 3540 - Latin American Environment and Cultures

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: In order to provide an interdisciplinary introduction to Latin America, this course presents the region's history, its peoples, their culture and their political and natural environments. Other content to be discussed includes issues of migration, US Latinos and the region's relationship with the US.

WLC 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

WLC 3580 - Global Cinema

Credits: (3)
Typically Taught Summer Semester: *1st Block, 1st Block Online, 2nd Block, 2nd Block Online*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*
Course Fee: $8.00
Course Fee Purpose: Course fees in FL courses are designed to cover the costs of classroom equipment maintenance and replacement including desktops, projectors and projector screens, etc. and Translation and Localization software, including audiovisual translation; consumable materials and supplies; and support for student tutors, and online instructional resources.
Description: A survey of global cinema movements and film aesthetics. Analysis of films within the context of a variety of cultures and diverse cinematic traditions of the word.

WLC 3690 - Special Topics in Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

WLC 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

WLC 3760 - Special Topics in Translation

Credits: (3)
Variable Tilte
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation Studies and Localization.

WLC 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

WLC 4400 - Methods for Teaching Languages

Credits: (5)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (AL=Advanced Low) Practical Methods, techniques and strategies for teaching foreign languages. This course will also review second language acquisition research, various assessment techniques, the ACTFL Proficiency Guidelines and the National Standards for Foreign Language Learning. Emphasis is on planning, teaching and assessment. Offered spring semester only.

WLC 4500 - Methods for Teaching Languages

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. WLC 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

WLC 4801 - A&H Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

WLC 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

WLC 4860 INT - Foreign Language Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) An opportunity for students to receive academic credit for faculty-approved, on-the job learning experiences that involve foreign languages and/or cultures. Credit/No Credit grading only.
Pre-requisite(s): Instructor Approval.
May be repeated up to 6 credits.

WLC 4990 - Senior Assessment

Credits: (.5)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Required of all majors during their senior year. Students will assemble a portfolio with a representation of their work in the foreign language. Speaking skills will also be evaluated. Must be completed before graduation clearance.

WLC 6430 - Advanced Translation Technology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: This is an advanced-level course that examines the theory and practical use of translation technologies important to management, engineering, and linguistic roles in translation and localization, with a primary focus on tools for linguistic roles including translation and editing.

WLC 6500 - Methods for Teaching Languages

Credits: (4)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*
Description: This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. WLC 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

WLC 6860 - Advanced World Language Internship

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is an opportunity for students to receive academic credit for faculty-approved, on-the-job learning experiences in the field of translation, localization, and/or interpreting. The internship position must be in a language service company, or the position must be a translator, localizer, interpreter, or linguist position in a non-language service organization.

WSU 1450 CA/HU - Perspectives in Creative Arts and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1460 SS/CA - Perspectives in Social Science and Creative Arts

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1470 PS/CA - Perspectives in Physical Sciences and Creative Arts

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1480 CA/LS - Perspectives in Creative Arts and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1560 SS/HU - Perspectives in Social Science and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1570 PS/HU - Perspectives in Physical Sciences and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1580 HU/LS - Perspectives in Humanities and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1670 SS/PS - Perspectives in Social Science and Physical Science

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1680 SS/LS - Perspectives in Social Science and Life Science

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 1780 PS/LS - Perspectives in Physical Sciences and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2120 EN/AI - Perspectives in Composition and American Institutions

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2130 EN/QL - Perspectives in Composition and Quantitative Literacy

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2140 EN/CA - Perspectives in Composition and Creative Arts

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2150 EN/HU - Perspectives in Composition and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2160 EN/SS - Perspectives in Composition and Social Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2170 EN/PS - Perspectives in Composition and Physical Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2180 EN/LS - Perspectives in Composition and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2230 AI/QL - Perspectives in American Institutions and Quantitative Literacy

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2240 AI/CA - Perspectives in American Institutions and Creative Arts

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2250 AI/HU - Perspectives in American Institutions and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2260 AI/SS - Perspectives in American Institutions and Social Science

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2270 AI/PS - Perspectives in American Institutions and Physical Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2280 AI/LS - Perspectives in American Institutions and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2340 QL/CA - Perspectives in Quantitative Literacy and Creative Arts

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2350 QL/HU - Perspectives in Quantitative Literacy and Humanities

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2360 QL/LS - Perspectives in Quantitative Literacy and Life Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2370 QL/PS - Perspectives in Quantitative Literacy and Physical Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2380 QL/SS - Perspectives in Quantitative Literacy and Social Science

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

WSU 2420 PS/SS - Perspectives in Social Science and Physical Sciences

Credits: (3-5)
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ZOOL 1010 LS - Animal Biology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: A non-major's introduction to cell biology, genetics, evolution, ecology, and animal diversity with emphasis on diversity of animal architecture and life strategies in relation to the diverse environments of Earth. The overriding theme is the process of evolution, its basis, and its implications for all animals, including humans.
Three lecture/discussion hours a week.

ZOOL 1020 LS - Human Biology

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: Survey course for non-science majors. Course content includes basic structure and function of the human body, homeostasis, heredity, human evolution, and ecology. Implications for personal health, bioethical and environmental issues and the impact of each of these on society will be examined. Three lecture/discussion hours a week.

ZOOL 1030 LS - The Nature of Sex

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: This course will present an overview of sexual reproduction in animals, including humans. It provides evolutionary, ecological, and behavioral perspectives on sex. Topics cover the value of sex for generating variation among individuals, breeding patterns in nonsocial and social species, mating systems such as monogamy and polygamy, and reproductive behavior. The relevance of this material to human reproduction is addressed.

ZOOL 1280 - Life in Medicine

Credits: (1)
Description: This one credit course for premedical students is designed to provide insight into many of the aspects associated with a career in medicine. The objectives of this course include 1.) provision of basic information regarding admission to medical training programs; 2.) exposure to some of the basic tenants necessary for professional success; 3.) investigation of some of the benefits and detriments

associated with this challenging career; and 4.) establishing a forum through which students can question and self-assess the feasibility and desire to pursue a medical career. Presentations, group discussions and introspective analysis of selected topics will be led by a local physicians of various specialties to accomplish these goals.

May be repeated once.

ZOOL 1370 LS - Principles of Life Science

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A survey course recommended for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized.

Two lecture hours and one 3-hour lab a week.

Cross-listed with BTNY 1370 and MICR 1370.

ZOOL 1610 LS - Principles of Zoology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: A science major's introduction to the study of cell biology, genetics, inheritance, evolution, and ecology. The nature and practice of science is also emphasized and basic skills in data collection, analysis, and presentation are introduced. Three hours of lecture and two hours of lab per week. The year-long major's introductory sequence is completed with ZOOL 2220.
Pre-requisite/Co-requisite: CHEM 1200 or CHEM 1210.

ZOOL 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ZOOL 1990 - Zoology Orientation

Credits: (1)
Description: This seminar consists of faculty, staff, and professional presentations which will inform students of potential research opportunities in the department and career possibilities in the discipline. One hour a week.
Suggested Requisite(s): This course should be taken concurrently with ZOOL 1610 or ZOOL 2220.
Note: This course is offered as needed.

ZOOL 2220 - Diversity of Animals

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $20.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: A major's introduction to the diversity and evolution of vertebrate and invertebrate animals. Three hours of lecture and two hours of lab a week. Completes the year-long major's introductory sequence after ZOOL 1610.
Pre-requisite(s): ZOOL 1610 or permission of instructor.
Pre-requisite/Co-requisite: Completion of or co-registering for CHEM 1210 or equivalent is required.

ZOOL 2320 - Human Anatomy

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Systematic study of the organs of the human body with cadaver-based laboratory. ZOOL 1020 or HTHS 1101 strongly recommended prior to enrollment. First semester students are discouraged from registering.
Three hours of lecture and one 2-hour lab per week.

ZOOL 2420 LS - Human Physiology

Credits: (4)
Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Human physiology pertains to the study of the physical, biochemical and mechanical functions of the various human organs and the relationships between these organ systems. Its knowledge is essential in understanding diseases and the development of modern medical therapies. This class is critically important to undergraduate students aspiring to enter professional field in health-science such as medicine, dentistry, nursing, pharmacy, physical and occupational therapies, education, and research. Three hours of lecture and two hours of lab per week.

ZOOL 2800 - History of Life Sciences

Credits: (3)
Description: Examination of the ways in which interaction among personalities, instrumentation, and ideas shape the development of biology - past, present, and future.
Three lecture hours a week.
Note: This course is offered as needed.

ZOOL 2900 - Topics in Zoology

Credits: (1-4)
Variable Title
Description: Variable topics related to zoology as announced in the class schedule; may include medical entomology, biostatistics, primatology, etc., and may be taught with a laboratory section.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
May be repeated 3 times with a maximum of 4 credit hours.
Note: This course is offered as needed.

ZOOL 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult class schedule for offerings under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Determined by department.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ZOOL 3099 - Teaching the Human Anatomy Laboratory

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: The purpose of this course is to introduce students to human dissection and the teaching of human cadaver anatomy. In so doing, we will (1) provide a uniform laboratory experience for Zoology 2100 (Human Anatomy), (2) teach the students what and how to teach the human anatomy laboratories, (3) provide the students with the opportunity to teach their peers thus providing experience at public speaking, and, (4) reinforce the knowledge base of the students (the power of knowing something by teaching something).
Pre-requisite(s): Successful completion of ZOOL 2320 with a grade of B+ or higher; completion of interview process, and instructor approval.

ZOOL 3100 - Advanced Human Anatomy

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: The purpose of this course is to further expose and train students in human cadaver dissection and the teaching of human cadaver anatomy. In so doing, we will (1) provide a uniform laboratory experience for Zoology 2100 (Human Anatomy), (2) teach these advanced students what and how to mentor their junior colleagues in teaching the human anatomy laboratories, (3) provide these

advanced students with the opportunity to teach both the 2100 students and other student instructors, thus further improving their public speaking, (4) place these advanced students in a more senior leadership position among their lab instructor peers, and (5) further reinforce the knowledge base of the students (the power of knowing something by teaching something).

Due to the complex and pedagogical nature, this course can be taken up to 4 times. Each semester, the focus of the lecture portion of this course will vary from: histological anatomy, developmental anatomy, evolution and pathological/clinically-relevant anatomy. In addition, the prosection assignments each repeated semester will increase in complexity, difficulty and leadership demand. The student instructor experience is maximized by their ability to repeat this unique course by allowing them to capitalize on and improve their past efforts in both the teaching environment and prosection assignment.

Pre-requisite(s): Successful completion of ZOOL 2320 with a grade of B+ or higher, successful completion of ZOOL 3099, completion of interview process, and instructor approval.

May be repeated up to four times with a maximum of 12 credit hours.

ZOOL 3200 - Cell Biology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Cells form the basis of all life on Earth and an understanding of cells is essential for examining the features of all living things, including evolutionary adaptations. This course explores the fundamentals of cellular structure and function, including bioenergetics, protein function, membrane properties, cell transport, and cell signaling. Research techniques are emphasized throughout. Applications of cell biology, such as stem cell biology, tissue organization and cancer are explored. Three hours of lecture and three hours of lab per week.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and either the CHEM 1110 and CHEM 1120 series or the CHEM 1210 and CHEM 1220 series, or approval of instructor.

ZOOL 3300 - Genetics

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Genetics is the foundation for all of biology, from anatomy, physiology, and cell biology, to ecology, behavior and evolution. This course is a comprehensive exploration of genetics, from molecular genetics to organismal genetics to population genetics. Specific topics include DNA and chromosome structure, regulation of gene expression, mutation, Mendelian genetics, and population genetics. The focus is on applications and current research, including biotechnology, forensics, medicine, genetic counseling, wildlife management, and evolution. Three hours of lecture and three hours of lab per

week.

Pre-requisite(s): ZOOL 1610 and MATH 1050 (or equivalent), or approval of instructor.

ZOOL 3340 - Information Resources in the Life Sciences

Credits: (2)

Description: A practical introduction to the literature and information resources of the life sciences. Students will expand their research skills and be able to develop effective research strategies to find and synthesize information available in academic libraries.

Two lecture hours a week.

Pre-requisite(s): ENGL 2010.

Cross listed in Botany, Library Sciences and Microbiology.

Note: This course is offered as needed.

ZOOL 3450 - Ecology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement; motor pool
Description: Study of how environmental factors, both nonliving and living, affect the distribution and abundance of organisms at the individual, population, community, and ecosystem levels.

Three hours of lecture and three hours of lab (or field trip) a week.

Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

Note: Writing intensive course.

ZOOL 3470 - Zoogeography

Credits: (3)
Typically Taught Spring Semester: *Full Sem, alternating years*
Description: Study of factors determining the distributions of animals with emphases on ecological and evolutionary processes occurring across landscapes and around the globe. Three hours of lecture per week.

Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 3500 - Conservation Biology

Credits: (3)
Typically Taught Fall Semester: *Full Sem, alternating years*
Description: The study of how biological principles and concepts are used in conservation. Major emphasis on the preservation and management of biodiversity. Connections between biological and societal issues are explored. Three hours of lecture per week.

Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 3570 - Foundations of Science Education

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.
Cross-listed with BTNY, CHEM, GEO, MICR, & PHYS 3570.

ZOOL 3600 - Comparative Physiology

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: A comparative and evolutionary approach to the study of how animals function in a variety of environments from cellular to whole-body level. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 3720 - Evolution

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem, Full Sem Online*
Typically Taught Spring Semester: *Full Sem, Full Sem Online*
Description: The patterns and processes involved in changes in natural populations. How organisms evolve at the genetic, organismal, and population levels. Topics include adaptation, taxonomy, sex, speciation & species, coevolution, and extinction. Three lecture hours a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 3730 - Population Biology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Population biology is an interdisciplinary field combining the areas of ecology, genetics, and evolution. Topics include population growth and regulation, interspecific interactions, population genetics, quantitative genetics, phenotypic plasticity, and evolution of life histories. Emphasis is on current research applications in wildlife management including the structure and dynamics of wildlife populations, competition, predation, and dispersal. Three lecture hours a week.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, and ZOOL 3300, or approval of instructor.
Note: This course is not currently offered.

ZOOL 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific

title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ZOOL 3820 - Biology of Cancer

Credits: (3)
Description: This upper-level elective course is designed to investigate the biological foundations and ramifications of cancer by exploring the molecular mechanisms underlying the development and progression of this disease. Outside reading material will be used to provide a platform for discussion of common misconceptions and attitudes regarding cancer, with the goal of conveying a broad understanding of the disease from molecular, clinical, historical and personal perspectives. Three lecture hours a week.
Pre-requisite(s): ZOOL 1610 or approval of instructor.

ZOOL 3930 - Toxicology

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Introduction to the principles of toxicology and discussion of the literature on biological effects of environmental toxicants at the individual, population, and community levels. Three lecture hours a week (3 credits).
Pre-requisite(s): ZOOL 1610 and ZOOL 2220 or instructor approval

ZOOL 4050 - Comparative Vertebrate Anatomy

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Course Fee: $50.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: In-depth, comparative study of vertebrate functional anatomy. Students learn to dissect and understand the anatomical and evolutionary relationships between fishes, amphibians, reptiles, birds, and mammals. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4100 - Vertebrate Embryology

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Description: A study of the principles and processes of embryological development in animals, emphasizing mechanisms of development, evolution, and pathology. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
Suggested Requisite(s): A prior anatomy class is strongly recommended.

ZOOL 4120 - Histology

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Description: Microscopic study of the structure and function of vertebrate tissues and organs, with an emphasis on human organ systems. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, either ZOOL 2320 or ZOOL 4050, or approval of instructor.

ZOOL 4210 - Advanced Human Physiology

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Course Fee: $30.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: A study of vertebrate physiological processes with human emphasis, focusing on cardiovascular, digestive, and neuromuscular systems.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, and ZOOL 2420, or approval of instructor; a minimum of one year of (preferably Organic) Chemistry.

ZOOL 4220 - Endocrinology

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Course Fee: $30.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: The comparative study of the function of the cells, tissues, glands, and organs that secrete hormones and how these hormones affect the physiology of organisms, from invertebrates to vertebrates.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, and either ZOOL 2420 or ZOOL 3600, or approval of instructor.

ZOOL 4250 - Radiation Biology

Credits: (4)
Description: The study of harmful effects of radiation and practical applications of radioactive tracer techniques to biological problems.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, and beginning courses in chemistry and physics, or approval of instructor.
Note: This course is not currently offered.

ZOOL 4300 - Research Applications in Genetics

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $40.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement

Description: The techniques of genetics are essential to all areas of biological research, from human biology and medicine, to ecology, population structure and diversification. This course examines the applications of genetics to a variety of topics, including medicine, forensics, wildlife management and ecology. Laboratory exercises provide hands-on experience with generating, analyzing and interpreting genetic data.

Three lecture/lab hours and one 3-hour lab per week.

Pre-requisite(s): ZOOL 1610, ZOOL 2220, and ZOOL 3300, or permission of instructor.

ZOOL 4350 - Animal Behavior

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement; motor pool
Description: All animals are motivated to acquire food, avoid predators and parasites, find and secure mates, select habitat, communicate with other animals, and move through their environment. This course is centered on the concepts that underlie such behaviors in nature, with a strong emphasis on both the ecological context and the evolutionary history that has produced them. The primary focus of the lab is on the development and completion of an original, semester-long research project. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4470 - Wildlife Ecology and Management

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Description: Principles of wildlife ecology and the techniques of wildlife population analysis and manipulation.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, and ZOOL 3450, or approval of instructor.
Writing intensive course.

ZOOL 4480 - Freshwater Ecology

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Course Fee: $50.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Study of the physical, chemical, and biological interactions of freshwater ecosystems with emphasis on streams. Field trips required. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
Writing intensive course.

ZOOL 4490 - Marine Ecology

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Description: This course will examine the physical, chemical, and biological interactions within and among marine ecosystems. Topics covered will include: physical and biological oceanography, ecological processes driving the distribution and abundance of marine organisms, and exploration of major marine communities. Emphasis will be placed on reading primary scientific literature and discussion of human impacts such as pollution, overfishing, and climate change on all aspects of marine ecosystems. This course is a mixed lecture-lab design with six hours of lecture/lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220 or approval of instructor. ZOOL 3450 recommended.

ZOOL 4500 - Parasitology

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Motor pool
Description: Survey of representative external and internal parasites of humans, domestic animals, and wildlife. Emphasis is on their ecology and epidemiology.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
Note: This course is not currently offered.

ZOOL 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
Pre-requisite(s): Admission to the Teacher Education Program.
Cross-listed with BTNY, CHEM, GEO, MICR, & PHYS 4570.

ZOOL 4600 - Protozoology

Credits: (4)
Description: Structure, function and evolutionary relationships of unicellular organisms.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
Note: This course is not currently offered.

ZOOL 4640 - Entomology

Credits: (4)
Typically Taught Summer Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement; motor pool
Description: Insects are the dominant animal group in terrestrial ecosystems and account for over half of

all described species of organisms. This course provides an overview of insect anatomy, physiology, ecology and evolution. It also emphasizes the taxonomy of insects at the order and family levels and examines their role in natural systems, as well as their harmful and beneficial effects on agriculture and human health. The field-oriented lab focuses on the collection and curation of local insect specimens. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4650 - Ichthyology

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Course Fee: $50.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement
Description: Classification, ecology and biology of fishes and emphasis on local freshwater forms. Field trips required.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4660 - Herpetology

Credits: (4)
Typically Taught Fall Semester: *Full Sem, alternating years*
Description: Structure, function and evolutionary relationships of amphibians and reptiles.
Three lecture hours and one 3-hour lab a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4670 - Ornithology

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Description: The biology of birds including form, function, behavior and ecology. Lab emphasizes identification of Utah species.
Three lecture hours and one 3-hour lab or a field trip each week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4680 - Mammalogy

Credits: (4)
Typically Taught Spring Semester: *Full Sem, alternating years*
Description: An overview of mammalian anatomy, behavior, conservation, ecology, evolution, physiology, and taxonomy. Three hours of lecture and three hours of lab per week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.

ZOOL 4700 - Topics in Zoology

Credits: (1-4)
Variable Title

Description: New and experimental courses, taught infrequently; may be taught with a laboratory section. Check current semester schedule. Specific title and credit hours will appear on the student transcript.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
May be repeated up to 12 credit hours for university credit.
Note: Check with Department for course availability.

ZOOL 4800 - Research in Zoology

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual research in zoology guided by faculty member. Specific requirements determined in consultation with faculty member.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, and approval of instructor.
May be repeated up to 8 credit hours for university credit.

ZOOL 4820 - Human Physiology Laboratory Teaching Assistant

Credits: (1)
Typically Taught Summer Semester: *1st Blk, 2nd Blk*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Students selected to be Laboratory Teaching Assistants (Lab TA) will help in the Human Physiology laboratories. Under the teacher's supervision, they (two teaching assistants per class) will address classes of up to 30 students. They will help set up the instruments, present background information, run the experiments and assess the student's learning by giving and grading short quizzes.
Pre-requisite(s): Students will need to have taken the Human Physiology class (ZOOL 2420) and laboratory, and obtained a minimum of a B+ in the class. Students will need to apply for one of the positions. Approval to be a Laboratory Teaching Assistant will be at the teacher's discretion.
May be repeated twice for a maximum of two credit hours.

ZOOL 4830 - Readings in Zoology

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Directed individual readings in the general area of zoology. Specific topic selected in consultation with faculty member.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, and approval of instructor.
May be repeated up to 8 credit hours for university credit.

ZOOL 4850 - Projects in Zoology

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*
Description: Directed individual projects in zoology guided by faculty member. Specific requirements determined in consultation with faculty member.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, and approval of instructor.

ZOOL 4890 INT - Cooperative Work Experience

Credits: (1-4)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Provides academic credit for on-the-job experience, guided by specific written contract designed by student, employer, and Zoology Department Chair. Credit hours determined by the department.
Pre-requisite(s): ZOOL 1610, ZOOL 2220, two upper-division Zoology courses, and instructor approval.
May be repeated up to 12 credit hours for university credit.

ZOOL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult class schedule for offerings under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): vary and are determined by instructor.
May be repeated for a total maximum of 6 credit hours.
Note: This course is not currently offered.

ZOOL 4950 - Field Zoology

Credits: (1-3)
Course Fee: $30.00
Course Fee Purpose: Consumable lab supplies; lab equipment maintenance and replacement; motor pool
Description: Study conducted on an extended, supervised field trip.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
May be repeated for a maximum of 3 credit hours.
Note: Check with Department for course availability.

ZOOL 4970 - Thesis

Credits: (2)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An extended, individual research project planned and completed under faculty supervision. Normally, two semesters of research (ZOOL 4800) will precede registration for this course. Culmination is an oral and written report of results obtained, with the final draft of the latter being due two weeks prior to the beginning of final exam week. Instructor approval required.

ZOOL 4980 - Research Design

Credits: (2)
Description: A basic course in the design and analysis of scientific experiments.
Two lecture hours a week.
Pre-requisite(s): minimum of two upper division Zoology courses.
Note: This course is not currently offered.

ZOOL 4990 - Seminar

Credits: (1)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: Presentations and discussion concerning a specific topic in Zoology. One semester required. May be repeated to fulfill one additional credit of Zoology elective hours if taken beyond the one credit hour required for the major.
One hour a week.
Pre-requisite(s): ZOOL 1610 and ZOOL 2220, or approval of instructor.
May be repeated up to 3 credit hours for university credit.

ZOOL 5030G - Zoology for Teachers

Credits: (1-4)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another Zoology course and develop a contract detailing additional work required for graduating credit. Contract must be approved by instructor, Department Chair, and Director of the Master of Education Program.
Course may be repeated 3 times up to 4 credits.
Note: This course is not currently offered.
